Rural Operator Service To Be Discontinued May 1 County-Wide Meeting Set For Tuesday

The General Telephone Company of the Southwest has announced tentative plans to discontinue rural operator service and remove all local operators on or about May 1. This move is being made possible by the conversion of some rural lines to a dial system, and by the construction of trunk lines from Sonora west on highway 290 to the Crockett County line and from Sonora east down the Texas-New Mexico Pipeline right of way to the Camp Allison area. No

provision has been made for the continuation of rural service to any ranch other than those which have built private lines to Sonora or to trucklines according to the telephone company specifications. A county-wide meeting of all rural and city residents has been called for 7 P.M. Tuesday, March 28 at the 4H Club Center to try to work out a plan with the General Telephone Company to bring service to more rural citizens and better service to city subscribers.

Trainer To Spain As Construction Superintendent

Mr. and Mrs. John A. Trainer, formerly of La Porte, are expected to arrive in Cartagena, Spain March 22. Trainer will be employed as superintendent of Foster Wheeler Corporation of New York City in the construction of a large Cal-Tex refinery to be erected near Cartagena. The Trainers plan to make their home in Spain until December 1962. Trainer is the son of Mrs. Rena Trainer of Sonora.

Sonora, Ozona Tie For Honors One Record Falls At Relays

One record fell in Saturday's Sonora Relays, with Sonora and Ozona sharing championship honors.

In the 440-yard dash, Jim Runge of Eldorado set a new mark of 51.6 to better the record of 51.7 set by Preston Love of Sonora in 1956.

Complete results follow:
Shot Put: 1. Mike Jurecek, Eldorado; 2. A. C. Lex, Boerne; 3. Edwin Hall, Eden; 4. David Archer, Sonora; 5. Carl Montgomery, Ozona; 6. Tommy Franklin, Big Lake Distance 48' 7 3/4".
Pole Vault: 1. Roger Poe, Bandera; 2. Rusty Jones and Jackie Jones, Junction (tie); 4. Ray Doyal, Rochelle; 5. Walter Causey, Bandera, and Vernon Lewis, Junction (tie). Height: 12' 2".
High Jump: 1. Dave Wilson, Mertzon, and Joe Scott, Iraan (tie); 3. Philip Carnes, Ozona, and Jack Asbill, Sterling City (tie); 5. Roger Poe, Bandera, Arthur Bermea, Sonora and Richard Wahl, Boerne (tie). Height: 5' 10".

Sharing championship honors at the Relays were this Sonora team and the team from Ozona. The championship trophy went to Ozona and the second place trophy will be re-engraved as a first-place award for host Sonora. Photo by John David Fields.

License Plate Sales Picking Up But Still Lots To Go

Only slightly more than one-half of the passenger cars in Sutton County had been registered at the Tax Assessor-Collector's office as of Wednesday. Mrs. Zilpha Wheelis, chief office deputy, reported only 640 of an estimated 1,000 passenger cars in the county had been registered as of that date.

Other registrations include 179 farm trucks, 196 commercial trucks, 16 truck tractors and 65 trailers.

Friday, March 31 is the deadline for registering vehicles and attaching the new 1961 license plates. Vehicle owners are reminded that they must present their certificates of title and 1960 license receipts when registering.

School PTA at the school's auditorium at 7:30 Saturday night, March 25. Adult and student talent will comprise the show and anyone interested in taking part is requested to contact school principal Frank Rhoads.

Tickets are on sale at 50 cents for adults and 25 cents for students. Everyone is invited to attend and tickets may be bought from PTA members. Funds will be used for school improvements.

Next-To-Last Flood Control Dam Accepted Last Week

Site 1, Dry Devil's River, on the R. D. Johnson ranch some six miles southwest of Eldorado was completed last week and accepted by Sutton County. Only Site 3 on the Ben Mittel ranch is under construction, and this site will be completed within the next two weeks.

Site 1 controls drainage from

some 21 square miles lying west and south of Eldorado. The structure will impound 5,000 acre feet of floodwater, plus sediment pool storage.

Seeding operations are nearing completion on the four structures which do not have rock blankets. Some 45 tons of prairie hay was required to mulch the

seeded areas.

The hay mulch helps to prevent soil erosion on the sides of the dams, and holds moisture to stimulate the young seedlings. The mulch is "tucked" into the soil to anchor it, and the mulched areas withstood the extremely high winds of the past week very well.

Building On Increase Here

Building and improvement to existing buildings is in another upsurge in Sonora. New homes include those of Mr. and Mrs. Joe Neal Smith and Mrs. Pat Cooper. Mr. and Mrs. Tommy Smith are enlarging their house and Mrs. Harold Garrett is enlarging and adding a beauty shop.

In the downtown area Home Hardware and Furniture has improved their display space by arrangement of counters and removal of partitions, Howell's Home Owned Grocery is taking over the rear portion of the old postoffice building for extension of market and shelving space, Phillip Cooper has moved his barbershop into the McDonald Hotel and Western Drug is undertaking a re-arrangement of storage and prescription space.

Monday night guests of Mrs. R. V. Cook were her brother and sister in law Mr. and Mrs. Robert Turner of Van Horn.

Mr. and Mrs. Lea Allison, Susan and Sarah had as guests last weekend Pascal Allison and Linda Ann White, both students at the University of Texas.

Office Supplies At News Office

Mrs. R. V. Cook and Mrs. Ida Mae Kerbow spent Sunday and Monday in San Angelo where Mrs. Cook visited with her mother, Mrs. J. W. Turner, and Mrs. Kerbow with her brother in law and family, Mr. and Mrs. S. M. Kerbow.

Tickets On Sale For C of C Banquet

Tickets are now on sale for the first annual membership banquet of the Sonora Chamber of Commerce. Plans for the banquet are complete and the principal speaker of the evening will be Louie Throgmorton of Dallas.

Gay Copeland, W. B. McMillan and Stanton Bundy will be in charge of arrangements for the event and food and serving will be under management of Boyd Lovelace, Albert Ward and Herman Smith. Decorations will be under direction of Ralph Finklea, Cleveland Nance, Mrs. Charles F. Browne, Mrs. Bill Whithead and Mrs. Bill Stewart.

The banquet will be held at seven o'clock Friday evening, March 31, at the school cafeteria.

Tickets may be purchased from H. V. Stokes or from any of the Chamber's directors.

Race Track Being Prepared For Annual Spring Race Meet

Preparations for the spring race meet are being made now at the race track of the Sonora Park and Horse Show Association. The paddock is being moved to the north of the grandstand

Paving, Topping, Lighting Being Done By City

The City of Sonora has been making improvements to city streets and lighting. Including in these improvements are curbs, topping of unpaved streets in the city and paving of Mead Street from John I King residence to the Ed Hawkins residence on old U.S. 290.

New street lights are to be installed at L. W. Elliott School, St. John's Episcopal Church and the Ford Allen Addition. Two mercury lights will be added on U.S. 290 near the Longhorn Cafe area and other dark spots will be getting lights soon.

The city water department is readying the new water well for summer water consumption. During the peak months last summer Sonora residents used 37,000,000 gallons of water. The city has one of the cheapest water rates in the state of Texas.

between the grandstand and the first barn. The south concession stand is being moved to the site formerly occupied by the paddock. The Boy Scout concession stand will remain in its usual place.

The track is being repadded and the center portion is being cleaned up and planted.

A new entrance to the park is being planned and it is hoped to have a caution light installed. This will be subject to approval of the state Highway Department.

The Sonora track is the only approved track in Texas for Quarter Horse Futurities and this year's is expected to be the most successful yet. All box seats have been sold and all stalls are reserved. The outlook is for the largest futurity event in the state. Entries have already been received from Colorado, New Mexico, Wyoming, Oklahoma, Arizona, Arkansas, Louisiana and Texas and the purse will be in excess of \$10,000.

Devil's River Philosopher Misses His Newspapers For A Week But Finds Cold Was About The Same

Editor's Note: The Devil's River Philosopher on his bitter-wood ranch on Devil's River discusses confusion this week, without clearing it up.

Dear editor:

Every morning the first thing I want to do is get hold of a newspaper and find out what's going on, who won the cold war the day before, have they solved the farm problem, and things like that.

Well, something happened to my source of supply and I went for a solid week without seeing a paper or listening to a radio or looking at television.

The I got hold of a newspaper and read it thoroughly and I have a confession to make: I can't tell any more about who's winning the cold war now than I could a week ago, and I know from personal experience they haven't solved the farm problem.

It's like accidentally tuning in a television baseball game somewhere along in the middle of play with the audio portion of the set not working. You don't know what the score is, what inning it is, or who's playing.

The Congo seems to have gotten along a whole week without me knowing a thing that was going on over there, and to save my life I can't tell you what the situation is now after I've caught up with the news.

We've shot some more satellites up, they're circling the globe on schedule, but I don't feel any different than I did before they went up and there's still as much undone work on the bitter-wood ranch as there was before. Reading a newspaper is important, but if you're reading it to eliminate your confusion, you're on the

wrong track. I know a man who reads four papers every day and is as confused as I am.

I'm not suggesting I could get along without newspapers, but I have found that newspapers can get along without me, even if they don't know who's winning the cold war either.

For a while, I figured newspapers ought to carry box scores every day on the cold war, but now I know why they don't. Nobody knows what the score is.

Yours faithfully,
J. A.

Mr. and Mrs. George Johnson will leave Thursday for spring baseball camp after a visit here with their parents, Mr. and Mrs. Cecil Westerman and Clif Johnson.

Don't Race Trains To Crossings - If It's A Tie You Lose

Trying to dispute the right of way with trains can get you killed. An appalling number of highway-rail accidents each year are caused by motorists' failure to heed railroad grade crossing warning signs and signals.

The severity of such accidents is so much greater than other types of traffic casualties that the public must be made to realize how fatal it is to try to beat a train to a crossing.

More than 1,200 persons are killed annually in railroad grade

crossing accidents in the U. S. Thousands of persons are injured. Four out of ten of these accidents occur at crossings at which there are gates, lights, bells watchmen or combinations of these methods of protection.

Motorists and pedestrians must join in the nationwide drive to cut down on traffic accidents by carefully observing all traffic signs and signals. These railroad traffic safety hints are offered in an effort to reduce such accidents:

1. Be sure all tracks are clear. Even though a train may have passed, there may be another train coming.
2. If there are no lights or audible signals at the railroad crossing, listen for the train whistle and noise of its approach, looking both ways before beginning to cross.
3. If there are gates, signal bells and warning lights at a crossing, don't start to cross until they stop operating.

TEXAS CONSERVATIVES NEED A VOICE IN THE UNITED STATES SENATE

10 REASONS WHY CONSERVATIVE TEXANS ARE SUPPORTING JOHN TOWER

- He is a young and vigorous vote-getter. (930,000 last November)
- He is a courageous conservative.
- He is a strong advocate of States Rights and local self-government.
- He believes a sound economy can be built only upon free enterprise.
- He is well-versed in government . . . a professor of political science.
- He will fight to retain Texas' vital oil depletion allowance.
- He is a family man and churchman . . . son and grandson of clergymen.
- He is outspoken in his opposition to the galloping liberalism of the New Frontier.
- He believes the farmer suffers from too much governmental control.
- He will be a vote and a voice for Texas in Washington . . . never a "rubber stamp".

A VOTE FOR JOHN TOWER FOR U.S. SENATOR IS A VOTE AGAINST "RUBBER-STAMPING" THE SOCIALISTIC PLATFORM OF THE NEW FRONTIER.

I Give You Texas

By Boyce House
 This tribute was written by Will Rogers to his sister:
 Today, as I write this, I am not in the Follies, the carefree comedian who jokes about everything. I am out in Oklahoma among my people, my Cherokee people, who don't expect to laugh for everything I say. Back home at the funeral of my sister.
 She and my other sister started in this little western town—Chelsea, Oklahoma—some 35 years ago. They helped build the Methodist Church, the first church there. They have helped every movement that they knew was for the best upbuilding of their community. They have each raised a large family of boys and girls who are today a credit to their community. They have carried on the same as thousands of women have carried on in every small and big town in the world. They don't think they are doing anything out of the ordinary. They want no credit. They do good simply because they don't know any other thing to do.
 Death didn't scare her. It was only an episode in her life. If you live right, death is a joke to you as far as fear is concerned.
 After all, there is nothing in the world like home. You can roam all over the world, but after all, it's what the people at home think of you that really counts. I have just today witnessed a funeral that for real sorrow and affection I don't think will ever be surpassed anywhere. They came in every mode of conveyance, on foot, in buggies, horseback, wagons, cars and trains and there wasn't a soul that came that she hadn't helped or favored at one time or another.
 Some uninformed newspapers printed: "Mrs. C. L. Lane, sister

Vigilance Against Surprise Attack

Hoegh Explains Warning Network

The surprise which an enemy achieved in the Pearl Harbor disaster cannot be repeated today, says Director Leo A. Hoegh of the Office of Civil and Defense Mobilization.

His job includes responsibility for operating the National Warning System (NAWAS), with its coast-to-coast network of 376 warning points.

A comparison of measures in effect Dec. 7, then and now, reveals preparedness progress:

THEN

The air attack warning system guarding Pearl Harbor on Dec. 7, 1941, consisted of five mobile radar sets. Their limit of detection, about 130 miles. Liaison with civil defense—none. Personnel—newly-trained in radar operation. Alert status at moment of attack—in midst of training exercise, officially alerted only to possible sabotage. No air attack alert in effect. Contact with public information media—none. Warning time between moment of attack and first widespread public warning—50 minutes.

NOW

In Dec. 1960, the entire North American continent is guarded by thousands of miles of radar nets and continuous air patrols that extend our detection system around the earth. These detec-

OCDM, Air Force officers at work in NORAD headquarters

tion outposts are linked directly to civil defense warning units which are tied to NAWAS warning points by safe communications. An approaching attack would trigger a nationwide CONELRAD ALERT from North

American Air Defense (NORAD) headquarters, activating the civil defense emergency broadcast system comprising nearly 2,000 radio stations.

Personnel—warning officers with years of experience. Alert

status—24-hour vigilance against air or sea attack. Contact with mass public information media—instantaneous, through radio-TV national networks and press wire systems. Warning time—90 seconds or less to every State.

Shelter Seen Best Defense For Fallout

Nineteen years ago this Dec. 7, the Japanese attack on Pearl Harbor caused all Americans to realize "it can happen here."

Dec. 7 this year will mark the third annual National Civil Defense Day, dedicated to the conviction that vigilance must be maintained night and day because of enemy threats. Against such threats our Nation's vast warning net is designed to be so reliable that the enemy could not achieve a surprise attack, civil defense officials assert.

Most Americans could be saved by taking simple but adequate civil defense measures now.

Director Leo A. Hoegh of the Office of Civil and Defense Mobilization points out that "fallout shelter protection is the best single non-military defense measure for the greatest number of our people."

He has called home fallout shelters "the lowest-cost family insurance obtainable." These cost from \$150 for a "do-it-yourself" basement shelter to \$1,500 for a custom-made shelter fixed up to serve as an extra room.

Key to the effective use of such shelters is the National Warning System geared to alert Americans from 376 warning points linked to the North American Air Defense Command.

Traffic Signs Are Designed As Life Savers

Six life-savers. That's what the nation's traffic signs are.

Traffic signs are designed to protect human life. It is essential motorists know the Signs of Life by sight—and obey them without fail.

Traffic signs represent the expert thinking of traffic engineers and safety officials. They are designed for protection. All motorists should learn these six traffic signs by shape so they can recognize them on sight:

1. Octagon—read with white lettering. Means come to a full stop and make sure the way is clear before proceeding. This is a revision of the older stop sign painted yellow with black lettering, but the meaning remains the same.

2. Triangle—yellow with black lettering reading "Yield Right of Way". Signifies slow down or stop at intersection to give right of way to cross traffic.

3. Rectangle—white with lettering in black or other color. Indicates traffic laws concerning parking restrictions, speed limits and turning and passing regulations, for example.

4. Round—yellow with "X" and "RR" in black lettering. Warns of a highway-railroad crossing 300 to 500 feet ahead.

5. Diamond—yellow with black lettering. Warns of such dangerous or unusual conditions ahead as curves, side roads, intersections, hills, dips, bumps, school zones.

6. Crossbuck—tall white railroad sign with black lettering. Usually placed within 15 feet of a highway-railroad crossing.

Bustin' out at the seams!

The WTU service area is growing fast and the facts prove it. Personal income, retail sales, value added by manufacture, bank deposits, savings, construction and other growth factors all are on the way up.

This company's own record of growth in the past decade is further evidence. Our KWH sales have increased 154 per cent, and our generating capability has increased 212 per cent.

Notice that our capacity to serve has increased even faster than our sales. That is because we are working hard to stay ahead of area growth—to have facilities available to serve more people, businesses and industries as they come.

Such an objective is back of our current multi-million-dollar expansion program. One example of it is the new generating station under construction at Oak Creek Lake. When completed it will provide in the very beginning an additional 75,000 kilowatts to our system.

Such long-range expansion plans and the cost figures are significant for one very simple reason. They stand as living testimony to our faith in the future of this area—as evidence of our belief in GROWTH UNLIMITED.

TSGRA Directors To Meet Saturday

A wool and mohair clinic will highlight the 1961 Spring Quarterly Directors' Meeting of the Texas Sheep and Goat Raisers' Association which will be held in Mineral Wells March 24 and 26. The clinic, conducted by Texas Agricultural Extension Service personnel, will get underway at three o'clock Friday, March 24, at the National Guard Armory. Following the clinic, which will be devoted primarily to wool and mohair preparation for market, parasite disease control, and improvement through selection of sheep and goats, a lamb and goat barbecue will be served at 5:30. Sub-committees of the three major TSGRA committees, Wool and Mohair, General Affairs, and Livestock, will convene Saturday morning at ten o'clock at the Baker Hotel. The recently inaugurated Field Representative Program of the TSGRA, designed to expand the Association's efforts to curb sheep and goat theft, will be presented. Agricultural water, tax, and transportation matters also will be on the agenda for discussion. The general session will convene at 1:30 Saturday afternoon in the Baker, at which time committees will report the results of their meetings and other general busi-

Pfc. G. E. Hill One Of Four "K-9" Trainers

Pfc. George Ed Hill, son of Mr. and Mrs. Wess Hill of Sonora, is one of four army men currently engaged in training sentry dogs at Grand Island Nike site, New York. An article in a Grand Island newspaper recently reported on the training of the dogs and said: "The soldiers picked as trainers undergo a psychological screening before they are accepted as handlers. During the training the instructors must determine if the dog and his handler are suited for one another. "During the handler's tour of duty—or the useful life of the dog—the animal will have no friend but his trainer. His trainer will feed him, bathe him, doctor him for minor ailments, exercise him twice a day and be his companion during his tour of sentry duty every other night." The officer in charge of the instruction says, "each pair is the equivalent of 10 sentries."

Guests of Mrs. Sam Hull are her daughter, Mrs. Clayton Bray of Fort Worth, and Miss Anne Palmer of Comanche.

ness will be discussed. A reception and dance will be provided for the enjoyment of the delegates Friday evening in the Baker. The Saturday noon luncheon will feature an address by Bob Murphey of Nacogdoches, a well-known "backwoods" speaker.

Elliott School Presents Program For High School

Mrs. Margie Evans' fifth grade students from L. W. Elliott School presented the program at high school assembly last week. Theme of the program was "Our American Music" and featured the fifth grade band with Noe Chavez as director.

Also in the program were songs and dances giving a brief history of American music. Maria Garcia and Ernest Barrera danced the minuet, Reymundo Rocha the Negro shuffle, Josefina Torres Spanish dances and Lelia Perez and Abel Fierro rock and roll. Mrs. Dennie L. Hays accompanied dancers and a choral group.

Mr. and Mrs. Jerry Johnson, formerly of Eldorado, have moved into their new home on the Hudspeth ranch.
