## Light Rains Fall Thursday Night Bringing First Moisture Of Year

The first 1962 moisture of any consequence fell Thursday night and early Friday morning in the Sonora area. Rainfall measured close to one inch in eastern Sutton County, but only about .3 inch fell from Sonora westward.

The lighter moisture will be of temporary benefit to young weeds, but a ground soaker is badly needed to start major plant growth. The last significant rain fell in October, 1961.

Rainfall reports gathered by E. B. Keng, SCS technician, are

as follows: Harold Friess .50; Alfred Schwiening .70 to 1.00; J. A. Cauthorn .70; Paul Turney ranch .60; Fred Earwood .70; Sam Allison .50 to .75; Edgar Glascock .30; Sonora .30; W. L. Davis .30; Dan Cauthorn .60; Wheat ranch .60; O. L. Richardson .60; John Cauthorn .60.

Fourteen gauges in the Lowrey Draw watershed measured from .25 to .36. The automatic gauges recorded the rain as falling between 10 P.M. Thursday night and 2 A.M. Friday morning.

### AN EDITORIAL-

## Good Public Schools - Texas Heritage

The need for the public school never changes, but times and conditions may change or require to be changed methods and practices of public education. This is inherent with anything that grows, for growth is the result of change.

Our Texas public schools were created 108 years ago. In 1854 the first law was passed establishing the public school.

It is a healthy thing in our democratic way of life to have intelligent understanding of the important functions of our basic institutions. This is especially true of the schools. The initiative and resourcefulness and the wisdom and leadership that our schools are inculcating in the youth of today are the answer

to the problems of citizenship in the years ahead.

Yes, "bring me men to match my mountains." That is the need of our times and must come from the public schools—schools that are strong in virtues required for building strong men and women.

We can be assured of this and do our part in understanding and helping the public schools to fulfill their great obligation to our times by being a participant in the annual Public Schools Week, March 5 through March 9, 1962. Schools will hold open house; accept their hospitality, and you will enjoy the experience of going back to school—if but for a day.

This junior grass judging team placed first in judging competition at the San Antonio Livestock Show and Rodeo. Holding their award plaque are, left to right, Jerry Shurley, Jr., first high individual; Ray Glascock, second high individual; Libb Mills Wallace, fourth high individual, and Robert Brown, sixth high individual. The quartet are studying and practicing now for their next contest at San Angelo March 10.

# Heart Fund Tops Record With Over \$1,100 Donated

## City Election Slated April 3

Only three candidates had filed for election to the board of trustees of the Sonora Independent School District as of Tuesday. Incumbents Gene Shurley, Alice S. Jones and Armer F. Earwood, whose terms expire this year, had filed earlier in the office of Superintendent Rex W. Lowe for places on the ballot.

Deadline for filing is Wednesday, March 7, or 30 days prior to the election which has been called for Saturday, April 7.

Members of the board whose terms do not expire this year are Harold Friess, R. S. Teaff, L. P. Bloodworth, Jr. and Bill Morris.

Sutton County's Heart Fund drive hit an all-time high of \$1,160 Wednesday with more contributions being received daily. Drive leaders term it an unqualified success what with the workers' march on Sunday and the auction on Radio Station KCKG of donated merchandise from businessmen and individuals.

Lea Allison, drive chairman, and co-chairman Billy Bryan Savell headed the Heart Sunday drive assisted by Mrs. Marie K. Ellis and Mrs. Minnie Gonzales. Making the house-to-house canvass were Yvonne Young, Kay Campbell, Kay Ellis, and Mmes. George Barrow, Muriel Hamilton, Herbert Fields, Alvis Johnson, J. Wray Campbell, Alvie Brewer, Louie Trainer, John Sellman, Birl Davis, Cashes W. Taylor, Ernest McClelland and A. W. Awalt.

Also Fidencia Galindo, Maria

Mancias and Mmes. Billy Gonzales, Claudio Flores, Raul Favela, C. M. Martinez, Salvador Noriega, Santos Hernandez, Torivio Chavez, Pedro Virgen, Pat Brown, Juan Bautista, Robert Duran and Alfredo Sanchez.

The KCKG auction was conducted Saturday and raised in excess of \$500.00 through the auction and through a system of record dedications for each cash donation. Twenty-three items donated by businessmen and individuals were sold to the highest bidder. Bob Hemphill, announcer, conducted the broadcast drive, devoting his day off without pay.

Drive leaders said Wednesday, "Our many thanks to the citizens of Sutton County for their generous response to the request for contributions. These funds will be used to finance the battle against heart and circulatory diseases."

## March 7 Deadline To File For School Board

A city election has been called for Tuesday, April 3, to name a mayor and two commissioners. Present Mayor A. E. Prugel and Commissioners Fred T. Earwood and W. B. McMillan have filed for re-election.

Candidates for office may file their names and sign loyalty oaths at City Hall or at Prugel's office. Filing deadline is Saturday, March 3.

Edwin Sawyer was appointed election judge and Hillman B. Brown and Mrs. George Wynn, clerks.

Absentee voting will begin March 14 and continue through March 30.

The petit jurors had an easy time this term not having to try a case and only having to answer the roll call four times.  
The first phonograph made was on exhibition in Sonora this week.

Fred Berger returned from his months pleasure visit to San Antonio Monday. Fred says he had a glorious time but could not stay away from the Sonora country.

John Bryden manager for Geo. Allison's ranch, was in Sonora this week. John don't often leave the ranch but when he does he has a good time.

John Allison is contemplating buying a good dog.

Saturday, September 28, 1895  
A dance will be given in the school house at Eldorado, Schleicher County, on Friday October 4th, to which all are invited especially the ladies. A number of young people from Sonora intend attending as it is only 22 miles and the moon will make things as bright as day.

The Baptist meeting has been a success from start to finish. There are already fourteen candidates for baptism. The baptizing will take place Sunday at 5 o'clock p.m. at the Alexander

tank in West Sonora.  
F. M. Wyatt bought the lumber for his new two story hotel in Kerrville last week. The building will be built on the corner opposite the Devil's River News office. Although the plans are not yet prepared we can state that the building will be large, substantial and well built and will improve the appearance of Sonora.

T. D. Newell says he will be ready to have the fire protection water works tested in ten days. Send for the hose.

Saturday, October 5, 1895  
J. F. Hamlin, of Santa Anna, organizing deputy for the Woodmen of the World, on Monday night last instituted at this place the Devil's River Camp of that order, which the following is the official roster: Consul Commandeur, J. O. Rountree; Advertiser Lieutenant, W. R. Rudicil; Banker, R. C. Dawson; Clerk, J. M. Bell; Physician, H. G. Colson; Escort, E. R. Silliman; Watchman, S. H. Stokes; Sentry, Geo. H. McDonald; Board of Managers: L. N. Halbert, S. H. Stokes, Wm. Schupbach.

Saturday, October 12, 1895  
The dance given at Eldorado on Friday night of last week was a grand success. The attendance was large and enthusiastic and was most enjoyable time was had by all. The supper was very fine

and doubly appreciated as the dance did not break until near daylight.

Jose Gonzales was in Sonora Thursday with his shearing crew. Jose has sheared this season 41,000 sheep and has 7,000 more to shear before the season closes.

Four wagon loads of lumber for the Wyatt hotel came in from Kerrville this week. This is about the first shipment of lumber to arrive in Sonora from Kerrville. It is said it will be followed, however, by many others.

Mr. and Mrs. Frank P. Bond, Mr. and Mrs. J. M. Vander Stucken and Mr. and Mrs. Joe B. Ross attended the wedding in Junction Saturday night of Mrs. VanderStucken's nephew Rob Roy Spiller, to Miss Barbara Cunningham. Dr. Joe David Ross was a member of the wedding party.

**Thank you, Texas Newspapers!**

**For 20 years, Texas newspapers have been giving the government free space in which to advertise U. S. Savings Bonds.**

You've seen the ads: *you save more than money with U. S. Savings Bonds.* Those ads have sold an impressive number of bonds in Texas, bonds that have helped, and are helping, your government defend freedom at a precarious moment in history, when freedom is in desperate need of defending.

When you buy these bonds you serve well the cause of liberty. You enable your country to build up her own defenses without doing damage to her economy. You insure the future for this and succeeding generations.

The space occupied by the ads that sold those bonds was *donated* to your government - and that means to *you* - by the newspapers of Texas.

We thought you'd like to know.

**"The public-spirited newspapers of Texas have made an important contribution to the well-being of this country,"**  
says Ed Gossett, Co-Chairman of the Texas State Savings Bond Committee.

**"We are happy to salute the generous newspapers of this State. They have done their part, and more, in giving the public an understanding of the importance of Savings Bonds - to individual buyers, and to the cause of freedom. And they have certainly made this Committee's job easier."**

**TIPS for OUTDOORSMEN**  
By Vern Sanford

A silver spoon glittered in the water some 50 feet out from the T-head of a pier . . . and about two feet below the surface. Due to the height of the pier and clearness of the Gulf water, the spoon could easily be seen.  
Suddenly a slender silvery torpedo bolted up from the depths. Wham! It hit the spoon solid and headed out to sea peeling off line from the spin-cast reel.  
Holding the rod was a little lady from Oklahoma. You could tell at a glance that she was an angler, although it was her first taste of salt water fishing. She kept just the right tension on the drag and held the rod high enough to let the tip do the fighting.  
The fish—a Spanish mackerel of about three pounds—was a real fighter. But she had him hooked solid.  
That fish was "meat in the pot" . . . until she worked him up close to the pier. Without a long-handled gaff, or a net, to reach the fish, the little lady was forced to try to lift the fish out of the water and on top of the pier.  
You know what happened. Yep—the fish made one final lunge and circled a pier piling. Sharp barnacles cut the monofilament line like a knife.  
Pier Fishing Is An Art  
Anyone can catch small fish from a pier. But when it comes to landing the large ones, there is an art and technique involved. For pier fishing a long rod has a decided advantage over a short one. You can use the long rod to work the fish away from the pilings.  
Furthermore, a long rod with a springy tip will cushion better against any sudden runs. It

will also tire the fish quicker than a short, stout rod.  
Pier fishing also calls for longer than usual leaders. With a long six or eight foot plastic-coated wire leader there is less chance of the line itself being chafed on the barnacle encrusted pilings.  
One thing for sure—there's no reason whatsoever for "horsing" a fish from a pier.  
He still has plenty of fight left when you get him to the point of landing and chances are, enough strength to power under the pier and around the piling. So, in pier fishing, play the fish down while he's still well away. Then work him in when he starts showing his back or "bellies up."  
It can be catastrophic to hook the big fish and then discover no gaff or landing net on the pier. But if the fish is thoroughly whipped, you might—just might—get him in without a net.

**Tips To Remember**  
Here's one way to do it. First, lean as far over the rail as possible. Second, point the rod tip straight down at the fish. Next, reel him up as far as possible. Then try to swing him onto the deck.  
Usually this procedure will work—with five or six pound fish.  
Best method, however, is to slowly walk the length of the pier and lead the fish back into shallow water where you can get down on the beach. If you're night fishing, this is a bit difficult too.  
Anyone who fishes from a pier often, really should have a long-handled gaff or net. Better yet—a drop-net.  
A drop-net with a three-foot diameter hoop and deep bag will suffice for just about anything except a tarpon. Attach a stout bridle to the hoop and tie the bridle to a sufficient length of rope.  
When the fish is whipped down drop the net overboard. Let it sink below the depth of the fish. Work the fish in slowly . . . right over the net. Then haul the net in fast.  
It's an easy operation that one man can perform. With a gaff hook it usually takes two people.

Why Not Display Your Business in

# THE SHOW WINDOW

Of Your Town . . .

For a small investment you can be represented in your community newspaper every week, and the readers will have an opportunity to view your wares 52 times a year. As a result, complimentary remarks will be made of your business . . . and the same goodwill that is created for your business will be created for your town. Goodwill is an intangible asset, yet no business is operated successfully without it.

## Buying Advertising is An Investment . . . Not An Express

When you build an addition to your building it's listed among your assets. When you add new lines of merchandise to the stock in your store it's listed as additional assets.

When you invest in advertising it certainly creates additional goodwill and certainly you can list goodwill among your greatest assets.

## Devil's River Philosopher Says Trouble With Conquering Space Is It Won't Stay Conquered

Editor's Note: The Devil's River Philosopher on his bitter-weed ranch on Devil's River is off in space this week, his letter indicates.

Dear editor:  
The trouble with conquering space is that I'm not sure it's going to stay conquered. Like nearly everybody else, I arranged my work so I could watch Col. Glenn take off in that rocket, and I was pulling hard for him although I'll concede Col. Glenn was the one taking all the risks. Naturally, anybody who stops to think is amazed at what we've done and is proud of the achievement and it gives the Russians something to think about, namely, that this country can do about anything it sets out to do, once it puts its mind to it, and that if you can set an orbiting capsule down in the ocean with a man in it, you can set one down in Moscow with a bomb in it.

And there's more to come, as one of the scientists responsible for the success of the flight said a few years from now the type of rocket ship used to put Col. Glenn into orbit will look about like a modern airplane looks compared with Wright Brothers' plane.

But here's the thing: people are always talking about conquering space, and I'm all for it, but conquering space may turn out to be about like conquering this bitterweed ranch. You can do it for a while, but if you don't keep conquering, it'll close in on you, and sometimes it'll beat you even when you're trying. I can't imagine a worse job than trying to conquer space when it extends outward forever in any direction you look; end-

lessly, beyond the fringes of the imagination. If I ever heard of permanent employment, that's it. As I see it, there are two main things wrong with space; there's too much of it, and there's nothing out there to breathe.

For example, I'm all for going to the moon. That is, I'm all for somebody else going, but I think man ought to prepare himself for the possibility that going may be sort of like a trip to the Sahara Desert. The main thing about it is having gone and come back, and if anybody brings up the idea of a second trip, you may want to change the subject. I don't know why man thinks he can make a go of living on the moon, taking his oxygen with him and manufacturing a new supply after he get there, when he hasn't made too good a showing on earth, where the air is free.

Actually, thought conquering space has its interesting points and I'm as eager as you to see what those scientists do next. The fact you can't actually conquer it is no drawback, at least this has never stood in the way of ranching.

Yours faithfully,  
J. A.

## Wedding Plans Revealed

The Rev. and Mrs. J. E. Winslow of Albuquerque, New Mexico have announced the engagement and approaching marriage of their daughter, Priscilla Ann, to Ernest Wilson Tremayne of El Paso, son of Mr. and Mrs. Ernest Tremayne of Dahlgren, Illinois.

The wedding is planned for April 7 in McKee Chapel of St. Clement's Episcopal Church with

the Rev. Mr. Winslow officiating. The bride-elect is a graduate of Sonora High School and Texas Western College in El Paso where she was a member of Zeta Tau Alpha social sorority and business manager of the campus newspaper. She is presently employed by the El Paso Public School system.

The prospective bridegroom received his Bachelor of Science degree from Morningside College in Sioux City, Iowa, and was a member of Sigma Nu fraternity. He also holds the Bachelor of Divinity degree from Garrett Seminary at Northwestern University in Evanston, Illinois. He is now executive director of Goodwill Industries in El Paso.

Mrs. Wallace Wartenbach, Mrs. Alvie Brewer and Mrs. Joe Hull attended the style show at the Ozona Country Club Saturday afternoon.

## Sonora "Little Miss Wool" To Be Named; Applications Must Be In By March 6

A "Little Miss Wool" to represent Sonora in the forthcoming Miss Wool of America Pageant will be selected from five and six year old entries Tuesday, March 13.

Mothers who would like to enter their eligible daughters in the contest may contact Mrs. Norman W. Rousselot or H. V. (Buzzie) Stokes for applications. Deadline for entering the contest is Tuesday, March 6.

Sonora's Little Miss Wool will be presented, along with other princesses from the West Texas area, at the April 7 pageant in

San Angelo. The little children will also possibly appear in one fashion showing, modeling woolen garments for their age group.

Selection of the Sonora princess will be made by a committee of out-of-town judges at a presentation before the Sonora Lions Club at their Tuesday, March 13, meeting at the fellowship hall of the First Methodist Church.

Winner of the contest will be required to be in San Angelo for costume fittings and rehearsals two days prior to the April 7 pageant.

## Mrs. Ward To Head Woman's Club During 1962-63

Mrs. Albert C. Ward was elected president of the Sonora Woman's Club for the 1962-63 club year at the organization's February 15 meeting at the club building. Mrs. Ward will succeed Mrs. Harold Scherz after her installation at the May meeting.

Other officers named to serve with Mrs. Ward are Mrs. Armer F. Earwood, vice-president; Mrs. Leo B. Merrill, treasurer; Mrs. Robert Pfluger, recording secretary; Mrs. Bill Morriss, corresponding secretary; Mr. George D. Wallace, parliamentarian, and Mrs. Tommy Smith, auditor.

E. S. Mayer of San Angelo showed a film on a world tour made two years ago. Guests present included Mrs. Mayer, Mr. and Mrs. Phil Hirsh of Houston and Mrs. Belle Steen.

Hostesses for the social hour were Mrs. C. M. Epps, Mrs. J. F. Howell and Mrs. L. E. Johnson, Jr.

Mrs. Harold Scherz announced this week that the club had netted about \$220 from its February 20 food sale. She expressed the organization's appreciation to all the townspeople and merchants who made purchases and to the committee in charge and to those who contributed or helped with the sale. She reported that all proceeds will be used in operation of the library and that the funds raised will enable the club to expand some of the library services.

## YOUR MINISTER SAYS

By Rev. Alanson Brown, rector St. John's Episcopal Church

I have pet peeve. That is to refer to the various Christian denominations as different "faiths". It is true that some are not trinitarian and orthodox but those that are have in common the same Faith, that is the Christian Faith. There are two major Faiths in the United States—Jewish and Christian. There are others but these are the

major ones. There are many versions of the Christian Faith but they share the same origin—that is Jesus the Christ.

I have had well-meaning fellow Christians of other denominations say to me, "Now, what do you believe in the Episcopal Church?" What they are really asking, I think, is how and why are you different from my denomination? This is a legitimate question, but the other is not. All orthodox, trinitarian Christians share the same basic faith in Jesus as the Christ and Saviour. The basis of our differences is in many cases more sociological than theological.

Today in many ways these differences are seeming less and less important. What we have in common is seeming more and more important because what a man believes is once again becoming a crucial issue. We are not just a bunch of friendly people wandering along the same happy path. What we believe and stand for is a matter of current life or current death. Let us therefore be aware of our Faith as Christians and know what it is.

WHAT IS YOUR FAITH????

## MRS. POTTER ENTERTAINS AT BRIDGE MONDAY NIGHT

**I Give You Texas**

By Boyce House  
How does one go about producing a best seller?  
Luck, pure luck.  
At least, that was my experience.

In the Spring of 1943, I was in Austin as a newspaperman covering the session of the legislature. The lawmakers recessed for the weekend so I thought it would be pleasant to visit San Antonio and bask in the romantic atmosphere of sunshine and palm trees.

But when the bus arrived in San Antonio, rain was pouring down. "When does the next bus leave for Austin?" I asked and the ticket agent replied, "It'll be two hours." Wondering what I could do during that interval, I thought of Joe Naylor, the book publisher. I had heard him speak at a State Historical Association meeting in Austin but had never met him. If you are a writer (I had at that time written one book and it was out-of-print), it comes in handy to know a publisher.

So I phoned. Naylor was in and invited me to come by. I had nothing in mind—just wanted to get acquainted but when I was about to leave the office after a pleasant visit, I thought of a manuscript of mine.

Now this manuscript had really gone the rounds. Ten big Eastern publishing houses had rejected it. The manuscript was so soiled from so much handling that I had re-typed it. Finally, a publisher accepted it and then changed his mind. I had about given up, deciding that the manuscript was jinxed.

But when I described the contents, Naylor said, "Send it on; I'll be glad to look at it." When I returned to my home in Fort Worth, I mailed it. After several months, he wrote a letter saying, in substance, "I am inclined to publish your book."

So we met for luncheon and a conference in the St. Anthony coffee shop.

"How many copies do you think I should print, if I print it?" he asked.

"A thousand copies are a lot of books but you couldn't very well print any less if you printed it at all" was the anxious author's reply.

He nodded in agreement. But he had not definitely said he was going to publish it. So I did

**HIGH LIGHTS AND SIDELIGHTS FROM THE STATE CAPITOL**

By Vern Sanford  
Texas Press Association  
After the labor unions gave Houstonian Don Yarborough their coveted COPE "Commendation", some section of the Political Association of Spanish-Speaking Organizations started worrying about joining the state body in a PASSO pronouncement for Gov. Price Daniel.

First splinter off the block was Hidalgo County chapter—third largest PASSO unit—which voted 44-16 to make no endorsement in the governor's race.

Yarborough made no comment as he rounded the Gulf Coast area to line up more support.

He's been conspicuously absent from his Austin headquarters, while all other statewide candidates touch base here frequently to contract the almost constant presence of gubernatorial candidate Will Wilson and the incumbent who dwells in the mansion.

Daniel almost had trouble getting his campaign off the ground when a Department of Public Safety plane nipped its wing while lifting the governor off Austin ground for a Houston appearance. The party changed to a private plane, and proceeded to inspect the Carla-damaged San Jacinto Monument with representatives from the State

Board of Control, Building Commission and State Archives. Former Secretary of the Navy John Connally also suffered aerial setbacks in his search for support. Bad weather prevented him from landing for San Marcos and San Antonio speaking engagements. When the clouds cleared he carried his campaign to Laredo.

Sen. Jarrard Secrest, democratic candidate for lieutenant governor, followed Connally into Laredo to speak to PASSO supporters where champion traveler Tom Reavley joined him to get help for his attorney general's race.

Secrest announced the opening of his Austin office this week with a blaring banner on the avenue leading to the Capitol.

Will Wilson started crowding Daniel's position as patron of Texas teachers. Wilson stated that Texans need to take a "long, hard look at the curricula of our schools—and then pay a little more attention to the advice of professional educators instead of well-meaning but ill-informed amateurs." He also suggested higher pay.

Another lieutenant governor contender, Sen. Crawford C. Martin, also started keeping shop in the capital city.

A Friday coffee party served as "house" warming for Waggoner Carr, former Speaker of the House, who's an attorney general hopeful.

Carr's office is just a block, and a half from the Capitol grounds. Les Procter, another at-

torney general candidate, has his headquarters in a long silver trailer, across the street from the Capitol.

**GOP HOPES TO BLANKET STATE**—After State Democratic Executive Committee officials slung verbal arrows at the Republicans for not holding primary elections in every county and precinct, the GOP's embarked on a campaign to finance a primary in every county.

Paul Desrochers at Republican State Headquarters said, "We're working like mad to get a primary in every county." Two obstacles stand in the way: Getting funds in about 235 counties where the party has county chairmen, and getting chairmen for the other 19 counties.

Some Republican candidates have a regional flavor—like the 12 senatorial candidates who hope to represent 67 counties; or the 76 House of Representative hopefuls for 77 counties; and congressional candidates in all but seven districts. Republican party still wants general ballot representation or the winners among its two gubernatorial candidates, two candidates for lieutenant governor, and those seeking posts as congressman-at-large, commissioner of agriculture, general land office and on the railroad commission.

A step toward solicitations was made by GOP state chairman Tad R. Smith who appointed Dudley C. Sharp of Houston, former US Secretary of the Air Force, chairman of the Republican's finance committee.

## Wild Young Should Not Be Confined

A warning against picking up young wildlife has been made by J. B. Phillips, coordinator of law enforcement for the Game and Fish Commission.

This is the time of the year when young of the wild has a tendency at times to stray from the mother, and persons are inclined to want to make pets. This is particularly true of young deer.

Persons who capture and attempt to confine wild animals as pets are subject to arrest for violation. In addition, many of these young animals turn out to be not such good pets, and many times they revert to nature and injure their benefactors.

An additional risk in picking up these youngsters is in the rabies threat, which has been spreading, particularly among

## Record Catches Being Made In Lakes Of Texas

Texas lakes have been producing some lunker bass during the past ten days, according to information received by the Game and Fish Commission.

Largest bass recorded was one weighing 11 pounds 1 ounce, taken by W. T. Cooke of Amarillo, fishing with an artificial worm in Lake Childress, on February 18. The bass was not weighed until several hours after it had been caught, indicating that it was actually a good sized bass. Lake Childress, also known as Baylor Lake, is northwest of Childress, and is a comparatively small lake.

On Lake Granite Shoals, Jackie Hewlett of Austin caught a 9 pound 10 ounce black last Sunday. It was taken on a Pico jig. Other big bass reported during the past week were a 9 pounder, taken by Loren Johnson of Austin, and one caught at Granite Shoals by Eddie Hendricks of Austin, weighing 8 pounds 6 ounces. A number of others were caught in the Highland Lakes area, which averaged out better than 5 pounds each.

Some terrific catches were reported in Lake Falcon, both on blacks and whites. They are be-

skunks. Skunks should be avoided for this, among other reasons, and domestic pets should be kept away from them at all times.

He also advised dog owners to keep them in control, so that babes of the wild will not be destroyed by roving dogs.

## Typhoid Fever Not Health Menace If Once Was

There was a time in Texas when one of the ravaging diseases was typhoid fever. Whole communities were struck and many victims died.

With the advent of chlorination for public water supplies, increased education efforts on the construction of private wells and water supplies plus modern epidemiological techniques, typhoid fever has steadily declined.

However, 1961 saw a slight rise over the previous year according to the weekly Texas Morbidity distributed by the Texas State Department of Health.

The number of typhoid fever cases last year rose eight percent over 1960—from 79 reported cases to 84.

Deaths from typhoid fever run lower than any other disease except typhus and malaria which are no longer public health problems in Texas.

Morbidity figures are not yet complete for 1961, however, there were four deaths during each of the three previous years. (Totals of statistical figures on deaths usually take several months be-

ginning to hit on top water plugs in that area now.

Fishing also has been especially good in East Texas, particularly on crappie and large drum.

cause of the thousands of records that must be scanned before accurate figures may be compiled.)

Typhoid fever is still endemic to some rural areas of the United States, but in Texas cases are usually sporadic, with an occasional small cluster traceable to a single source or carrier.

Transmission can be by direct or indirect contact with a patient or carrier. Ingestion of contaminated food and water can spread the typhoid organism over a wide area. Contamination is often spread from the hand of a carrier or missed case.

The administration of typhoid vaccine to persons subject to unusual exposure through occupation or travel, those living in areas of high endemic incidence, and institutional populations in which maintenance of sanitation is difficult, is generally recommended.

The discovery and supervision of typhoid carriers is still an important part in the control of the disease. Certain occupations are restricted until laboratory tests demonstrate the carrier to be non-infectious.

## now join the world's greatest V-8 collection

405-HP THUNDERBIRD V-8—Thirty years of Ford experience culminate in this startling V-8. Available in every Galaxie, it puts 405 horses under the throttle, a dazzling level of acceleration that cannot be imagined but must be felt. A super-performance option, it comes only with the four-speed gear box. But, unlike some "special" engines that require delicate tuning and modification, it puts out its potential right off the showroom floor. Even more impressive, Ford skill has made it a docile tiger; it idles smoothly, it is durable, its super capacity does not come at the expense of harshness and noise. Among expert drivers, it is praised as a true high-performance V-8 in America... the pace-setter for 9 other V-8's tailored to every driving need.

NEW FAIRLANE CHALLENGER "260" V-8—When the 221-cubic-inch Fairlane V-8 appeared last fall, automotive writers hailed it as a great basic advance, a compact jewel of design. Now, the "260" V-8 proves their prediction. With 164 hp, 19 more than the standard version, Fairlane gains a new brilliance of performance—but it still runs on "regular," still outsaves any standard-size Six. It has the durability of time-tested cast iron, slimmed and lightened by Ford's precision-casting technique. Created by the one maker who has built 30,000,000 V-8's since 1932, it brings the sparkle and smoothness of V-8 power well within the thrifty budget's reach, puts truly sophisticated engineering at the service of truly economical motoring.
