SEVENTY-SECOND YEAR

The Devil's River News-Sonora, Texas, Thursday, July 19, 1962

FORTY-FOURTH WEEK

Dr. and Mrs. J. F. Howell, Jr. and sons John Franklin III and Clemmons Alfred have been vacationing here with his parents, Dr. and Mrs. J. F. Howell, for the past two weeks. Dr. Howell, Jr. has recently completed a four-year period of internship and residency in Henry Ford Hospital, Detroit, Michigan, where he specialized in ophthalmology under Dr. Jack S. Guyton, nationally and internationally known eye surgeon.

For the next two years he and his family will be living in San Antonio where he is to be a staff physician with the Air Force at Lackland Hospital and will hold the rank of Captain.

During his three weeks of indoctrination at Gunter Air Force Base in Montgomery, Alabama, Mrs. Howell and sons will be guests in the home of her parents, Mr. and Mrs. H. W. Smith of Big Spring.

After returning to Texas, the Howell family will be at home at 138 Postwood Drive, San Antonio.

Colts Win 4-2 Over Big Lake

The Sonora Colts gave Big Lake a rough time Sunday afternoon in a nine-inning game at Allison Field. Gene West was on the mound for the Colts and allowed only two hits in the full nine innings. Catching for the Colts was Johnny Glasscock. Buddy Brown was at first, Chapo Samaniego at second, Marciano Hernandez, Jr. at short stop, Roy Glasscock at third and Nelson Guajardo, Manuel Mata and Juan Robledo in the outfield.

Scoring runs were made by Roy Glasscock who was brought in on singles by Buddy Brown in the third and fourth innings. Also scoring were Buddy Brown and Johnny Glasscock on a double by Marciano Hernandez in the fourth.

On the mound for Big Lake was Donald Roberts who gave up nine hits.

Top hitter in the game was Brown with three hits for five at bats. Other hits were by Johnny Glasscock, Marciano Hernandez, Gene West, Chapo Samaniego, Juan Robledo and Manuel Mata who had one each.

The Colts will play the San Angelo Angels in San Angelo Sunday afternoon, July 22, and have scheduled a return engagement with the Angels for 2:30 Sunday afternoon, July 29, at Allison Park.

Fall LVN Class Applications Due By August 14

"One day of service as a nurse is worth a hundred of running a typewriter."

The Archbishop of Canterbury once made this observation about a group that is gaining in prestige and in demand faster than any other in this country.

And one phase of nursing—vocational nursing—will be available to qualified applicants between ages 18 and 35 with high school education at the Lillian M. Hudspeth Memorial Hospital, in classes beginning September 1.

No costs are involved except a nominal amount for textbooks and uniforms, and for meals and lodging in the nurses home, if needed.

Albert M. Everett, administrator, says all applications for the September class must be in the hospital business office by August 15.

Everett says licensed vocational nurses are needed right now in summer camps, in the airlines and steamship lines, nursing homes, school infirmaries, doctors' offices, U. S. Public Health Service and in some industrial dispensaries. Also, private duty nurses with this type training are constantly in demand.

Group Recommends Revision Of Old Report Card Forms

At nine a.m., July 16 a report card study group met in the library of Central Elementary Schools to revise report cards, used in grades one through seven in Sonora Public Schools.

Based on results of the questionnaire used by school administrators in a meeting of the PTA last March, the group came up with a number of changes for report cards. Recommendations will be presented at the next school board meeting for action. If approved, new cards will be used in the coming school year.

Major recommended changes were for A, B, C's with use of pluses and minuses and a simplification of citizenship marks.

Members of the study group were Gene Shurley, Mmes. Vernon Cook, Harold Scherz, Hillman Brown, A. E. Lowe, Charles F. Browne, George Brockman, Jerry Shurley, James N. Stewart, Herbert Fields, Audrey Bridges, and Bill McGilvray, with Central Elementary principal Ralph Finklea representing school administration.

Downtown Lot, Memorial Plot Get Face-Lifting

Organization of the Sonora Garden Club has already given a shot in the arm to a clean-up campaign begun urged by the club and by the Chamber of Commerce.

Wednesday morning, July 18, work began on cleaning up and clearing off the lot adjacent to the new postoffice building and the War Memorial plot on Highway 290. Personnel from the City Street Department have cleared away grass and rubble on the Main Street lot, trimmed trees and generally laid the groundwork for planting and beautification of the lot.

The State Highway Department also had a crew working on the triangular plot which contains the memorial to Sutton County men who gave their lives in World Wars I and II.

Mrs. Charles F. Browne, Garden Club president, expressed appreciation to the City and the Highway Department for their

Jim Brown, 77, Longtime Resident, Buried Saturday

Funeral services for Jim Brown, Sr., 77, were held Saturday afternoon, July 14, at St. Ann's Catholic Church. Brown, a longtime Sonora resident, died at Hudspeth Memorial Hospital Thursday, July 12, after a long illness.

He was born February 20, 1885 in Uvalde and had made his home in Sonora for 64 years. He was a former butcher.

Survivors include three sons, Louis Brown, Happy Brown and Pat Brown, all of Sonora; two daughters, Mrs. Clara Alderott of San Jose, California, and Mrs. Lena Castillo of Fort Worth, and a number of grandchildren.

Burial was in Sonora Cemetery with arrangements by Ratliff-Kerbow Funeral Home.

co-operation and said she hoped that this action would be a stimulus to individuals and other organizations to carry on a program of civic beautification.

Mexican National Apprehended In Area-Wide Search

A Mexican National was apprehended by an intent citizen-law enforcement searching party Wednesday evening, July 18 on the George Montgomery Ranch in southern Crockett County. He was found about 400 yards from where a stolen horse was tied with a stolen 308 Winchester rifle and 22 caliber pistol also on the scene.

Billy Bryan Savell, Sonora ranchman, tipped off Texas Ranger L. H. Purvis, about four o'clock Wednesday afternoon that the Mexican National had cut a fence and was riding through on horseback on the Savell ranch.

Calls were put through to all sheriff's departments in Sutton, Crockett, Edwards and Val Verde Counties and to all border patrol units in the area. Also, many interested ranchers were utilized in the search that lasted about four hours.

U. S. Immigration Service had two airplanes flying overhead, as the searchers converged in on the hunted man, found lying under a tree near a tank.

Ozona ranchman Johnny Hunicutt spotted him first, and Sutton County Deputy Lewis Rutherford and T. C. McCutchen of the Immigration Service made the arrest. Edwards County Sheriff Tom Henderson has the accused man in custody in Rocksprings, charged with fence cutting and horse stealing.

The Sutton County Junior Rodeo will get underway at four o'clock this afternoon (Thursday) with a parade through the downtown district. This year's

Bronco Boosters Slate Bake Sale Saturday P.M.

The Bronco Booster Club will hold a cake sale in the old post-office building downtown Saturday afternoon, July 21, according to Calvin Howell, first vice-president of the club. The sale will begin at one o'clock Saturday afternoon and will be conducted by the Club's "auxiliary" composed of club officers and members in comic routines.

Proceeds of the sale will be applied toward the purchase of a movie camera to be presented to the school for use by coaches and the athletic department generally. Purchase of the camera is the Booster Club's project for this year.

All members are urged to bring their baked goods, cakes, pies, cookies and any other items, to the old postoffice building by one o'clock Saturday and the public is invited to buy.

Harold Saunders, Jr. of Kerrville visited here Wednesday with his mother, Mrs. H. C. Saunders.

The horse and guns had been reported stolen last Sunday from the Jackson Ranch in Edwards County.

Texas Ranger L. H. Purvis says that all law enforcement agencies and ranchmen cooperated to the fullest extent in apprehending the suspect.

rodeo, the third annual, will have the opening performance at eight o'clock tonight.

As of noon Wednesday approximately 150 contestants had entered for a total of over 400 entries in the various contest comprising the event which is American Junior Rodeo Association approved. Young cowboys and cowgirls from Oklahoma, New Mexico and all over West Texas will be present and will include Oklahoma's Mullins, leading cowboy of this season, and AJRA president Skipper Driver of Big Spring.

The Junior Rodeo is growing in size and stature each year. Some 31 boys are entered in the senior calf tie-down roping and 19 in the junior division, to make this the largest number of entries in this event for the season. Some 12 boys have entered the steer riding event as compared to four entries last year.

Jim Bob Altizer and Bud Smith of Del Rio will be judges, Lee Patrick is timer and Ray Hutto of Del Rio flagger. Bookkeepers will be Mrs. Louis Powers, Mrs. Bud Smith of Del Rio and Mrs. Ora Riggs of Sander-son.

Events scheduled include barrel racing, pole bending, steer riding, bull riding, tie-down calf roping, roping and senior bull dogging. Trophies will be awarded in each event.

Western dances are slated Friday and Saturday nights at the 4-H Center following the rodeo performances. Adolph Hofner will play for the Friday night dance and Johnny Dutton's Western String Billies Saturday night.

Persons holding box seats are entitled to use them during the rodeo but will be required to furnish their own chairs.

\$225 Ready For Winner At Saturday Bonus Drawing

John Ward Wins Angus Trophy At San Angelo Sale

John A. Ward, Jr. of Sonora won the Reserve Champion Angus Heifer trophy presented by the Texas Angus Association at the San Angelo Hereford-Angus Stocker Feeder Calf Sale Monday, July 16.

Ward's ten head of Angus heifers, averaging 424, went at \$26.60 cwt.

Sam Allison of Sonora placed third in the show with 40 Angus steers averaging 567 pounds, go-

Some Sonora shopper will win \$225 in cash if he or she is present at Saturday's Sonora Bonus Dollar Drawing set for three o'clock Saturday afternoon, July 21, in front of the Chamber of Commerce office on Main Street.

This will be the fourth in the current series of cash drawings being sponsored by Sonora merchants under the auspices of the Retail Sales Committee of the Sonora Chamber of Commerce.

Only the first drawing has had a winner, Mrs. Charles F. Browne, who was present to claim the \$100.00 in cash.

Only one ticket is drawn each time and the person whose name appears on the ticket must be present to win.

Attend 4-H Camp In New Mexico

Ray Glasscock, Jerry Shurley, Jr., Robert Brown and D. C. Langford attended the District 6 4-H Leadership Camp at Scott Able 4-H Camp near Cloudercroft, New Mexico July 10 through 18.

4-H members received training in leadership, citizenship, record keeping, safety, first aid, wildlife conservation and recreation while attending the camp.

Ray Glasscock represented the Sutton County 4-H Club on the

District Council which plans all District 4-H activities for the year.

Jerry Shurley, Jr. served on the night program committee which was responsible for planning a 4-H party for each night at camp.

4-H members enjoyed rifle shooting, hiking up mountains, horseshoe pitching, baseball, volleyball, leathercrafts and square dancing for recreation.

Campers also enjoyed about one inch of rain each day, along with cool temperatures that required at least two blankets for comfortable sleeping at night.

Tigers Are Little League Champs All-Star Game Slated Tonight

Evans Foodway Tigers won first place in Sonora local Little League. Other teams competing were J & S Motors Giants, Sonora TV Cubs, First National Bank Yankees.

Friday, July 13, the Little League had their annual party following the final season game. A swimming party and hotdog-chili supper was enjoyed at the pool by about 128 boys. Bob McMinn donated the pool for this end-of-season celebration.

"The League had a good year," according to Director Oliver Wuest. "Everyone worked together to make it one of the best seasons we've had. The players, managers and all of us thank the patrons, the local businessmen who sponsored teams, and Hillman Brown for the benefit movie, which netted \$77.26 to the League treasury."

Sonora All-Stars meet the Ozona All-Stars at 8 p.m., Thursday, July 19 on Ozona ground. Winner of this area play-off will then meet the San Angelo area winner.

The following Sonora All-Star team is announced:

Antonio Martinez, Richard Cox, Billy Wayne Smith, Mitch Trainor, and Mike Holley from the J & S Motors Giants; Dennis Schmidt, Nick Esquivel, Nino Perez, Robert Ramos, John Sanchez, and Bill Green from the Foodway Tigers; J. V. Cook and Alex Castro from Sonora TV Cubs; and Erasmo Lumberras, a First National Bank.

All-Star Managers are Dale Ingram and Vernon Cook.

Champions of the Little League Season are the Evans Foodway Tigers with a season record of 17 wins and one loss. Left to right, back row, are Manager Dale Ingram, All-Star center fielder and second baseman Bill Green, All-Star second baseman and outfielder Dennis Schmidt, All-Star pitcher, first and third baseman Nicky Esquivel, All-Star catcher Manuel Sanchez, rightfielder Barry Black, All-Star first baseman and pitcher Nino Perez, and Coach Nick Esquivel. Front row reserve fielder Jack Bricker, second and third baseman Papo Sanchez, reserve catcher Richard Bernal, left fielder Sonny Favila, All-Star short stop Bobby Ramos, reserve fielder Glen Bricker, reserve pitcher Carlos Avila and center and right fielder Sandy Ingram. Not present when this picture was taken were Dwayne Davis, Richard Bermea, Lynn Joy, Stevie Boldt, Ronnie Baltazar, Eddie Gonzales, Tom Green and Carlos Samaniego.

anguished, and sometimes out-
raged, cry, "The church ought
to keep its nose out of politics
and social issues and stick to
preaching the Bible!" Perhaps
you heard that same sentiment
expressed in the punch line of an
old joke which says, "Preacher,
you've quit preaching and gone
to meddling." In either case it's
a symptom of a disease which is
very prevalent these days, and
one name for this malady is
Pigeon-Hole Complex.

It is characterized by a piece-
work view of life, with this little
pigeon-hole for work-life, that
little pigeon-hole for recreation-
life, and another pigeon-hole for
religious life. Depending upon the
seriousness of the case, the vic-
tim may have more pigeon-holes;
one for politics, one for card
games, one for in-laws, one for
labor, and one for management.

Generally, the disease is also
characterized by strong parti-
tions between the pigeon-holes
so that the contents of one can-
not get in and confuse or con-
taminate the contents of another.
What about the prognosis of this
disease? Well, the Christian
says it's fatal, but not everyone
agrees. The Christian affirms
that Jesus is lord of all our life,
every area of it. Attempts to
pigeon-hole our faith so that it
doesn't affect the other areas of
our life are at least hypocritical

CAR CARE FACTS

TAKING YOUR CAR ON
VACATION? THE BEST PLACE
TO START THE TRIP IS AT
YOUR AUTO MECHANIC'S
SERVICE AND MAINTEN-
ANCE SHOP. PLAN IN ADVANCE
TO GIVE YOUR profes-
SIONAL MECHANIC ENOUGH
TIME TO PUT YOUR FAMILY
CAR IN TIP-TOP SHAPE
BEFORE YOU TAKE OFF
AND THUS ASSURE SAFE
CAREFREE DRIVING AND
YOUR FULL SHARE OF
PLEASURE.

IT DOESN'T TAKE LONG FOR AN
EXPERIENCED MECHANIC TO FIND
AND REPAIR POTENTIAL TROUBLE
MAKERS UNDER THE HOOD, AND
HE'LL MAKE SURE YOUR TIRES,
STEERING, BRAKES, IGNITION, COOLING
SYSTEM, AND ALL SAFETY DEVICES
ARE WORKING PROPERLY. A FEW
HOURS OF PROFESSIONAL INSPEC-
TION AND SERVICING OF YOUR CAR
BEFORE YOU GO MAY SAVE YOU
MANY HOURS OR EVEN DAYS OF
DELAY AND FRUSTRATION EN ROUTE.

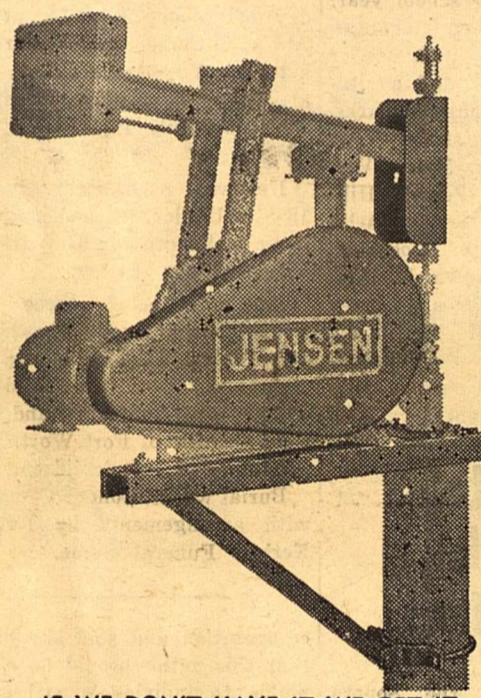

TOP MECHANICS IN ALL PARTS OF THE
COUNTRY HAVE "MEDICINE CHESTS" FULL
OF QUALITY AUTO REPAIR AND MAINTENANCE
CHEMICALS, SUCH AS THE PERMATEX LINE,
TO CURE YOUR CAR'S ILLS. AND JUST AS
IMPORTANT, THEY KNOW EXACTLY HOW TO
USE THESE SPECIALIZED PRODUCTS TO
KEEP YOUR CAR RUNNING BETTER,
LONGER.

and at worst ungodly. What
Christ is not lord of is unfor-
given. This disease also obscures
for its victim the meaning of
worship and usually makes of it
only a weekly "nod to God" or
worse, just a set of spiritual
calisthenics we perform one hour
a week.

It must be pointed out that the
church should be the place where
the Bible is preached, but any-
one who thinks that sticking to
the Bible is going to make such

areas as politics and social is-
sues "off limits" simply doesn't
know what kind of real dynamite
there is in that book. The
Word of God is addressed to the
whole man, wherever he is. Jesus
didn't just preach in the synag-
ogues; He went into the market
places of men's lives and into the
tax offices and the farms and the
fishing boats, too. Do you know
anyone with this fatal disease?
We have a physician, in fact, the
Great Physician.

HIGH LIGHTS AND SIDELIGHTS FROM THE STATE CAPITOL

By Vern Sanford
Texas Press Association

U. S. Supreme Court's decision that federal courts have power to review acts of state legislatures in reapportioning representation was met with an uproar from many states.

"Reapportionment" is the business of redistricting a state to determine the number of legislators according to an area's population. National and state constitutions both provide for re-examination of representation in legislative assemblies every 10 years.

An area frequently gains or loses representatives to the state house. This happened in Texas recently, when a 1961 redistricting act by the legislature took effect.

Working under a constitutional amendment adopted in 1936, limiting cities to one representative for every 700,000 inhabitants, Texas' representative districts got a pretty thorough going over.

The 31-member senate body was not greatly affected by the reapportionment, however, since the law states that the senate "shall never be increased and no single county shall be entitled to more than one senator."

What the U. S. Supreme Court would hold about such a condition, in view of a congressional provision for two U. S. senators from each state regardless of population, won't be known unless the question is put to its nine justices.

There is some reason to believe, however, that the higher court would look with disfavor on this State's constitutional provision limiting House representation to one member for every 100,000 inhabitants after a

county attains a population of more than 700,000.

In the event citizens dissatisfied with the situation in Texas ever go to court for a reshuffling, they'll be armed with the information that 11 urban counties have a little more than half of Texas' 9,579,677 inhabitants and more than a third of the 150 members of the House of Representatives.

HOPE FOR TRAPPED FISH
An "escape route" for thousands of fish which risk death daily in a shallow pool off Padre Island is planned by the State Game and Fish Commission, which estimates that tons of game fish have died in a nine-mile hole north of Port Mansfield over the last 10 years.

Howard Lee, the commission's director of field operations, said red fish and trout swim into the shallow pool in the course of their north-to-south migration, "and don't recognize the fact that there's only one way out."

As the temperature increases in late spring and summer, the water level drops. Fish then are caught in a dry water pool created by drifting sands and are trapped there until death releases them as food for birds and other scavengers in the area.

Dredging of a six-foot deep, 50-foot wide channel running 4,000 feet through Laguna Madre into the Intracoastal Canal is expected to put a stop to the waste of fish and make them available for "harvest"—a Game and Fish Commission euphemism for fishing.

Up to now, fishermen have been unable to get to them in the pool trap without trudging through long distances of mud and sand.

T.E.C. TEAMS TO AID SMALL TOWNS—Two teams which form the working force of the Texas Employment Commission's newly-organized Expansion Employment Service for Small Communities recently moved into Brady where they'll survey job seekers and job opportunities for the next six weeks.

Service was set up with funds from the Federal Bureau of Employment Security to assist communities like Brady which have "substantial and persistent unemployment problems," yet are too far from one of the Employment Commission's 91 local offices to get help from a regular staff.

According to Ted Clifford of the commission, the teams will go into economically-distressed areas to try to determine what has caused a long-time employment slump, offer remedies and either find job opportunities elsewhere or assist local civic groups in launching industry recruitment programs.

Limestone and Falls County officials already have asked for the teams' service. Clifford reported that some 25 to 30 counties now are in the "substantial and persistent unemployment" category.

PRE-FAB corrugated steel culvert fallout shelter for three persons can be bought for about \$150, plus delivery and installation. The shelter, which would cut to 1/500th the amount of outside fallout radiation exposure of its occupants, is included in the "Family Shelter Designs" booklet now at state and local civil defense offices for public distribution. It is available without charge.

Congratulations To These New Parents

Mr. and Mrs. J. W. Elliott announce the birth of a 7 pound 12 ounce baby daughter, Emily Kathryn, July 8 at Shannon Hospital in San Angelo.

Little Miss Emily Kathryn is the granddaughter of A. C. Elliott of Sonora. Her maternal grandmother is Mrs. Emma Matthews and maternal great-grandmother is Mrs. Drew Peters, both of Livingston. Paternal grandmother is Mrs. Monnie Elliott of Sonora.

The Elliotts have one other child, John Webster, age, 4.

Notice

Mrs. Virgie Behrens, formerly of Sonora, is critically ill in San Angelo at her home, 21 West 31st Street.

Mrs. Behrens was on the staff of the Lillian M. Hudspeth Memorial Hospital from its opening in 1952 until last year, when her illness began.

She is allowed visitors and is at home at the above address.

MRS. STITES ENTERTAINS PASTIME CLUB THURSDAY

The Pastime 42 Club met at the home of Mrs. C. E. Stites Thursday evening, July 12.

Guests were Meses. Karen Peterson, Lucille Hutcherson, Arthur Simmons, Maysie Brown. Members present were Meses. O. G. Babcock, Jim Cauthorn, R. B. Kelley, Robert Rees, T. W. Sandherr, Rose Thorp, and Laura Trainer.

Attractive refreshments were served.

Among those attending the Miss Wool of Texas Pageant in San Angelo Monday evening were Mr. and Mrs. C. T. Jones, Mr. and Mrs. Bryan Hunt, Mrs. Bill Fields and Francine, Mrs. Pat Cooper and Betty Jack, Mr. and Mrs. Duke Wilson, Miss Nancy Bess Wilson, Alice Claire Jones, Cissy Young and Yvonne Young.

Art Club Votes To Sponsor Hobby Show

The Sonora Art Club met at the Art Room the evening of July 16, with Mrs. John A. Martin, Jr., president, presiding.

The treasurer, Mrs. James Mroris, reported that as of July 1 the bank balance was \$89.41. She reported the installation of an air conditioner in the Art Room since the last meeting.

The club voted to sponsor a Hobby Show, open to all interested participants.

Mrs. Maysie Brown and Mrs. R. B. Kelley were hostesses and served cookies and lemonade to Art Club guests.

Coffee Break

By Lindy Groda

Automation is on the tongue of everyone these days. "Am I to be replaced by a push button or will I, perhaps, be kept to push the button?" Homemakers do not have this problem, for pushing the buttons or sewing them on is still the "most rewarding" and time-consuming position in the world.

It is comforting to know that could man's brain be duplicated in a thinking machine it would take more than a city block to house it.

It has been said that all work is creative if done by a thinking mind. And this is true, in the sense we have come to accept "creative thinking," that is, to rearrange what has already been created. Einstein will not be forgotten, but his mass and velocity formula sounds like it was borrowed from the ancient Greeks, who had the thought but not the exact proportions. Exactness in thinking is important, for there is no beauty like the well-ordered precise human brain that gobbles up the past, observes the now, and surveys the future... and sticks to the point. The point is, it would be terrifying if all math, writing, painting, science, philosophy, religion, history were reduced to automatic machine art.

Well, from the sublime back to the oven and the high chair. To cool the oven quickly, put a large roaster full of cold water in and close the door.

Soap and scrub the baby's high chair in the shower. Rinse and wipe dry. A light coat of wax keeps either wood or chrome from absorbing food and makes for easy cleaning. A new father suggests leaving the baby in the chair for a dual cleaning under the shower. And it's still a good arrangement that fathers aren't mothers.

It's too late for spring cleaning and too early for fall, and too hot for either, but if and when here goes. Tri-sodium phosphate added to hot water (about three tablespoons to half a pail) will clean a white painted surface to a new finish. Apply with a large sponge to a small section at a time, rinse and wipe dry with old towels. Rubber gloves must be worn and a sponge mop may be used for the overhead. Care must be taken with eyes and skin.

MRS. BELL HOSTESS TO TUESDAY NIGHT CLUB

Mrs. Jean Bell was hostess in her home on July 17 to the Tuesday Night Club.

Prizes were as follows: Guest high, Mrs. Tom Darrow; Bingo, Mrs. Earl Duncan; Slam, Mrs. Louie Trainer; Member High, Mrs. W. O. Crites; and high table cut, Meses. Ernest McClelland, Earl Duncan and George Wynn. Others present were Meses. Henry Decker, R. G. Nance, Belle Steen, P. J. Taylor and Collier Shurley.

A dessert plate was served.

Try chilling milk and glasses in the freezer before serving time, then pour icy milk in child's presence, so he can see the frosty glasses.

Sonora Scene: "Champ" Betty Jones, last with the least (by her own description) says she finally found out where the fourth green is at the local course. She had never played past the third hole until she was half of the winning twosome in the July 4 tourney.

Travelers, there may be something new to look for along the way in motels besides television in every room and swimming pools. A Chicago motel now has a staff psychiatrist as part of its facilities to relieve the traumas and tensions of the fast-paced world.

Travelers, the wide-open western sky accomplishes the same thing. And every motel out here is equipped with an eyeful of sky. It's part of the facilities, not on the bill.

"What can I do now, Mommy?" is the most oft-repeated question right now from the little ones. "Wish there was something different to do" comes from the teenagers. All this, while the mother is silently wishing there wasn't so much, and so much different at that, to do around the home. It is wrong, mothers, when these questions are heard so often. It is wrong to not give the boys some yard work and the girls some inside duty.

Whew! That was close. Almost said, "The idle mind is the devil's workshop." Can't ever say that again, in view of the nameplate on this newspaper.

On the other hand, our friend John Otey did away with the devil in last week's paper, right on page 5. He said something like you can't have two kingdoms divided up between God and the devil.

Now, to get down to brass pitchforks. The devil once offered the Son of God the whole world. Later Jesus said, "My kingdom is not of this world."

There is an earthly force that says "gimme, gimme." There is a higher force, not material at all, that says "Give." It is not polytheism to acknowledge a head of the spiritual and a head of the earthly. To recognize them both is not to equate them. For the same reason you can't divide the two kingdoms, any more than you can divide angels by sheep and come up with clouds as a quotient.

Yes, John, there is a devil... the same one mentioned on page 3 or so of the Bible. And mortals from Adam to Pilate to now are reacting the same.

Yes, John, there is a devil.

How to help your country today while you're saving for the future

If, like so many other Americans today, you've asked yourself, "How can I help my country?"—here's a suggestion from the U.S. Treasury:

Start buying and holding U.S. Savings Bonds.

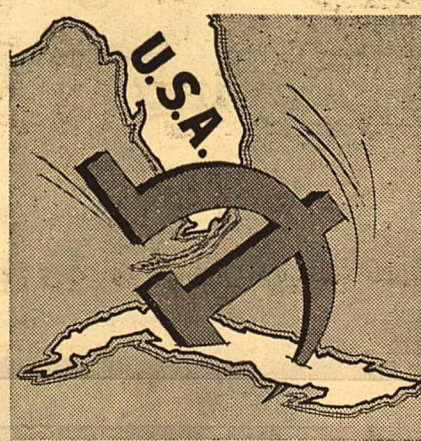

When you do, you open the door to a lot of bright horizons. For one thing, you put your dollars into a pile that the U.S. Government guarantees to grow. Your investment can never shrink.

But your Bond dollars bring you a bigger return than money alone. Uncle Sam uses them to strengthen his stand for freedom—so you'll be able to

enjoy the things you're saving for.

Your new home, for example. Buying Savings Bonds helps make sure you'll be able to own and enjoy it in a free world.

That's why millions of Americans are putting up their dollars for freedom through Savings Bonds today. Why not add your strength?

The Communists have worldwide ambitions. One way we can upset their geography is to help keep our economy strong through U.S. Savings Bonds.

You get more than interest. Savings Bonds pay one return you can measure in dollars and cents, and one you can't.

Buy an EXTRA Bond during the Freedom Bond Drive.

Keep freedom in your future with

U.S. SAVINGS BONDS

The U.S. Government does not pay for this advertising. The Treasury Department thanks The Advertising Council and this newspaper for their patriotic support.

Temperatures Low, But Prices High In Alaska - Keng

Editor's Note: Another letter from E. B. Keng, who with J. M. VanderStucken and Eddie Mears of Menard, is touring Alaska. This one dated Fairbanks July 7.

The Land of the Midnight Sun is indeed just that. It seems uncanny for twilight to come about 10:23 p.m., then on all night. You can read a newspaper all night and the sun is well up again at 7:00 a.m.

They tell us that the reverse is true in the winter, only two to three hours of daylight. The mercury dropped to 70 below last winter. Icy mist reduces visibility to about 100 feet. Local cars are equipped with frost shields to keep a small area frost free. From the front bumper of each car an electrical connection can usually be seen. When the car is parked in the garage in winter days a crankcase heating device is plugged into the electrical system, so the car will start the next morning.

Fairbanks is quite a "melting pot" of civilization. Trappers, mountain climbers, miners and "characters" mingle with tourists. Eskimos are common. Few Alaskans are native born. The motel maid was from North Carolina. Many Texans are here, primarily in construction work. The police woman who gave us a key to the city was from Ontario.

Alaska is a huge state. One native told us, "If you Texans give us any trouble we are going to divide Alaska and make Texas the THIRD largest state!" Alaskans are proud of their country and seem to be happy here.

Alaska is a land of contrasts. We are in sight of snow covered mountains, with glaciers in every canyon, while we ride along in 70 degree weather. No snow can be found on the interior plateau, yet you can dig down about a foot and hit "permafrost", or frozen soil. It is almost as hard as the limestone of the Edwards Plateau!

Huge rivers and many lakes

are common to the landscape. The larger rivers were a major surprise to us. Instead of being deep and very clear they are shallow, wide, meandering and heavily silt-laden. Many channels and islands comprise the half to mile-wide river.

The silt in the rivers comes from the ends of the many glaciers at the headwaters. Most of the deeper soils in interior Alaska were formed by river action. The wide channels finally fill up with glacial silt, the river moves to a new channel, and repeats the process.

Big game abounds in this wild country which knows no fences for thousands of miles. Eddie Mears has just thrown half the rocks in Alaska at a half grown moose, but didn't "bug" him greatly. We expect to see grizzly bear and caribou later today in McKinley National Park. Dall mountain sheep are found in the mountains. Smaller animals include the snowshoe rabbit, small tree squirrels, ground squirrels and a gopher that closely resembles a miniature prairie dog.

Roads in Alaska are NOT GOOD—by Sonora standards. Roads must cross many "muskies" or boys, and road foundations will not stand up. The result is a bumpy, slow road. The posted speed in 50 mph, but 40 is the top safe speed for springs.

All of interior Alaska is called the "bush". It consists of a dense cover of scrub forest. Black spruce, aspen, tamarac and paper birch trees, and many kinds of brushy willows make up the major cover. Spruce trees average 30 to 50 feet in height. Brome grass is common, and the squirrel-tail grass of the Edwards Plateau is found, pretty flowers abound in more open areas.

Prices in Fairbanks are considerably higher than in the Edwards Plateau. Milk, for example, was 50 cents per quart, and watermelons nine cents per pound. Joseph VanderStucken paid \$3.00 for a haircut, \$2.10 for a shave, and \$1.00 for a shine. A small bundle of laundry cost us \$15.80—next time we'll throw the clothes away. Gasoline is 55 to 64 cents per gallon and bread is 54 cents. Production of food in Alaska is very limited and most supplies must come

The Devil's River News-Sonora, Texas, Thursday, July 19, 1962

from the States. Government defense operations are very important to the economy of Alaska. A large SAC base is located near Fairbanks, with many smaller bases nearby. Various Arctic testing laboratories are located here. We have just passed a satellite tracking station on our way to Mt. McKinley.

With the wide open spaces in Alaska radio coverage just doesn't reach. We have been without radio for many miles in Canada and Alaska. Telephone service from the isolated communities is very good. A system of microwave towers across Alaska and Canada enable almost instantaneous connection with the states. The towers form an

important part of our national defense system and are maintained by the armed services.

Contrasts, too, are found in transportation. Only a few years back the primary mode of travel was the dog sled in the interior, and the paddlewheel river boat on the shallow streams. A few winding railroads were built to rich mining areas. Husky dogs are still numerous and are used by miners and trappers north of Fairbanks.

Aeroplanes are the primary source of travel today. Fast passenger lines serve the major cities and small planes are common throughout the country. Planes equipped with pontoons frequently fly over, or can be seen at anchor on any of the

hundreds of lakes. The seaport town of Valdez (1,500 pop.) is surrounded by snow covered mountains rising to 12,000 feet. Huge glaciers are common, some terminating adjacent to the highway. We were told that the ice in one glacier is 4,000 feet deep.

There is truly a great contrast between Alaska and the Edwards Plateau in July.

Best regards to all, E. B. Keng.

Lunas, and Mrs. Bloodworth's parents, Mr. and Mrs. Bert Rice in Ruidoso.

Weekend guests of Mr. and Mrs. Herbert Fields and sons included Mr. and Mrs. Ted Lewis and David and Mr. and Mrs. Bill Lewis and family, all of Ozona; Mr. and Mrs. T. E. Lewis and family of Odessa, Dr. and Mrs. M. A. Lemmons and family of San Angelo and Mrs. Tom Carpenter and children of Midland.

LEAN-TO SHELTER made of lumber would provide low-cost protection against fallout in homes with basements. The shelter, costing less than \$75 on a self-built basis, would provide as much fallout protection as some of the seven other designs included with it in the Defense Department's booklet "Family Shelter Designs." It combines simplicity of construction with easy availability of materials, and could be disassembled easily. Civil defense offices have the free booklet available now to the public.

Devil's River Philosopher Finds Out About Telstar, Can't Figure Out How It'll Bring World Peace

Editor's Note: The Devil's River Philosopher on his bitter-weed ranch on Devil's River has found out about the latest achievement in science, his letter this week reveals.

I was busy sleeping at the time and missed it, but according to a newspaper article I read yesterday afternoon, television shows were transmitted from the United States to Europe and from Europe to the United States last week by bouncing the beams off a new satellite now circling the earth.

This, the report said, has opened up a vast new field, and one expert announced it would mean bringing the world still closer together.

"The more the people of the world can communicate with each other, the more we can understand each other and the nearer we are to permanent peace," he

said. I have been reflecting on this statement and so far have not quite figured out a few things.

For example, I don't know anything about European television, but I've seen quite a bit of American television, and if world understanding is to be achieved by TV, this sure puts a burden on Europe. They must have a different band over there. The brand we've got over here, while apparently entertaining, hasn't been designed to improve world understanding, not to mention attain permanent peace.

On the other hand, if Europe had to look at our TV every night

and we had to look at theirs, and both turn out to be about equal, it might improve world understanding. What we could all come to understand is that the world still has a long way to go yet.

On still another hand, I'm not sure that understanding people is any guarantee for world peace. When I have been the furthestest from peace with some people was when I understood them thoroughly and realized what they were up to. The more I

understand what Mr. Khrushchev has in mind, the less peaceful I feel toward him.

Worldwide, instantaneous television is an achievement, but, while I may be short-sighted, it's hard for me to see much change resulting from bouncing Gun Smoke off a satellite one night and a Khrushchev speech the next. This would be far too much Khrushchev.

Yours faithfully,
J. A.

General Telephone System America's Largest Independent Telephone System

To supply your needs

When construction requiring wire, cable and other materials is under way, when you want a new telephone or an extension, this new equipment should be available without delay.

That is why General Telephone maintains many supply centers such as the one pictured.

In these supply centers experienced people must anticipate months in advance what equipment and materials will be required for both expansion and repairs.

It is another way the folks at General Telephone work hard at the job of providing you with the good telephone service you want, when you want it.

Cancer Deaths Can Be Reduced By Early Diagnosis

Ever since the first spark of life appeared on this earth, cancer has been one of the most fearsome, most enigmatic diseases mankind has had to contend with. But we know more about it than is generally realized. We know enough, in fact, that a diagnosis of cancer need not be considered a sentence of death. We know that all types of cancer are different since they affect different tissues of the body. We know cancer has no respect whatever for age, although it does occur more frequently after 40. Conversely, we know it ranks high as a cause of death among children. Cancer is not inherited, although a tendency towards cancer sometimes occurs in families. We know that cancer is not contagious or communicable from one person to another. We know that certain agents or conditions will cause certain types of cancer or are factors in causing cancer. Example, exposure to sunlight over long periods of time (farmers, seamen) is known to cause skin cancer. Certain chemicals such as aniline dyes may cause cancer in experimental animals. An injury or prolonged irrita-

Mrs. James Morris took her son, Jimmy to Camp Capers last week.

tion of the mouth or lip area such as sometimes comes with habitual pipe smoking is also a factor in causing cancer. Prolonged exposure to x-ray or radium may also cause cancer of the skin or other parts of the body.

Perhaps the most important thing we know about cancer is that many cases can be cured by early removal by surgery or by irradiation with cobalt, x-ray, or radium or a combination of these techniques. Rapid strides are now being made in treatment of certain types of cases with chemical compounds.

Since it can be cured, why do more than 10,000 people die in Texas with cancer each year? Because by the time the disease is recognized it is too far advanced for effective treatment. Many of these persons could be saved by early diagnosis and treatment.

If this one cardinal fact could be dimmed into the minds of people until it moved them to have periodic health check-ups, cancer deaths could be greatly reduced.

NOTICE

AN AUCTION
for benefit of creditors of ROAD AND DIRT MACHINERY, TRUCKS, TRAILERS AND MISC. EQUIPMENT on premises at 9500 INTERREGIONAL HIWAY (U. S. 81 North) AUSTIN, TEXAS
Wednesday, July 25, 1962 10:00 A. M.

A WORD TO THE TEXANS WHO ARE WISE. USE YOUR HEAD AS WELL AS YOUR EYES

IT TAKES MORE THAN A ROOFLINE TO MATCH OUR FORD GALAXIE!!

WE FORD DEALERS HAVE A FEELING WE'RE BEING FOLLOWED. THE WAY SOME OF OUR COMPETITORS' CARS ARE STYLED. BUT IT TAKES MORE THAN STYLING TO MATCH GALAXIE'S VALUE! FOR INSTANCE, JUST LOOK AT THE 15 WAYS EVEN THE LOWEST-PRICED FORD GALAXIE SURPASSES THE MOST EXPENSIVE CHEVROLET.

THE CAR IS RIGHT!!! THE PRICE IS RIGHT! AND SO IS THE DEALER
GET THE FACTS AND THE BEST BUYS AT YOUR
TEXAS FORD DEALERS NOW!

- HERE ARE 15 WAYS OUR FORD GALAXIE BEATS CHEVROLET'S IMPALA*
1. **WORLD'S MOST THRILLING V-8 ENGINE**—Choice of 5 Thunderbird V-8's up to 405 horsepower (or the thrifty Mileage Maker Six).
 2. **MORE SOLIDITY**—Almost 100 pounds greater curbweight.
 3. **GREATER SAFETY**—Husky box-section side rails surround and protect passengers—compared to Chevy's open-sided x-type frame.
 4. **MORE ROOM**—3 inches more rear shoulder room and over 2 inches more stretch-out room in the back between seats, for passenger comfort.
 5. **WIDER DOORS**—Up to 5 inches wider front doors for easier entrance and exit.
 6. **EASIER LOADING TRUNK**—6 1/2 inches wider... and trunk light comes at no extra cost.
 7. **30,000-MILE CHASSIS LUBRICATION**—Compared to every 1,000 miles for Chevy—a big saving in time and money.
 8. **6,000-MILE OIL CHANGE**—After first 1,000-mile change—a one-third saving over Chevy!
 9. **SELF-ADJUSTING BRAKES**—Safe, high-pedal stops for the life of the lining! (Chevy specifies brake adjustment every 5,000 miles!)
 10. **WIDER TREAD**—Both front and rear, for a more stable ride!
 11. **BIGGER BRAKES**—Galaxie has 212-sq. in. gross brake lining area—compared to Impala's 199.5.
 12. **GREATER PROTECTION**—Full-depth one-piece bumper—instead of Chevy's three-piece bumper.
 13. **2-YEAR OR 30,000-MILE ENGINE COOLANT-ANTIFREEZE**—Factory-installed in every Galaxie!
 14. **WIDER TRANSMISSION CHOICE**—5 to choose from—including an optional new 4-speed manual transmission!
 15. **YOU SAVE \$104 WITH FORD'S TWICE-A-YEAR MAINTENANCE** in the first 30,000 miles! (According to Official Factory Owners' Manuals which specify service and maintenance periods.)
- ...AND YOU SAVE 155 BIG TEXAS DOLLARS* TO BOOT!
- *Based on comparison of manufacturers' suggested retail prices for a 4-door sedan, equipped with lowest-priced V-8 engine, radio, heater, automatic transmission. F.D.A.F.

GREEN NEWS

By Betty Jones

The Sonora Golf Course does not have air-conditioned fairways; nevertheless, this did not create a slump in the average number of weekly registered players. From Monday, July 9 to Monday, July 16, 220 golfers registered.

-GN-

Frank and Phil Bond are interested visitors and supporters of the local course. Their son, Dr. Frank L. Bond of San Antonio, played golf here when we

had only three greens—how fast our course is growing!

-GN-

With the additional six greens, what a welcome sight the benches near the greens are for some of us. As welcome as the snack and big glass of iced tea while we relax and chat with friends on the spacious porch of our club house. The latter statement is a dream for the future but after all two years ago our local course seemed as far-fetched as a small club house does now. We believe that golf is here to stay. The Club boasts a membership of 193, including the Ladies' Golf Club. The Golf Club was or-

ganized in August 1961 and was chartered shortly thereafter. Free will labor of members in conjunction with enthusiasm, support and pride shown by the community has made the dream of a local course a reality.

An example of civic pride was expressed by one of our "littles" citizens. We overheard a small boy say, "Daddy, let's take Grandmother and show her OUR golf course after we show her our Caverns."

-GN-

Had planned to have a very personal news item. It was to read thus: "After 20 and a half games of golf, Sammy finally beat Uncle Bud (Smith.)" He didn't.

-GN-

Son Whitehead of Del Rio was a visitor at the local course Monday. He commented on our well-kept greens and ideal location of the golf course.

-GN-

Have come to the conclusion that, "What did you shoot?" is not the best question to ask golfers. Will either have to find a more stimulating question or learn to interpret the hidden meaning. The meaning of the answer, "About the same" really depends on the inflection of the voice, contour of facial muscles, or the two veins that protrude on the forehead while the interviewed holds a broken golf club or a score card torn to shreds.

-GN-

Missed seeing Clayton Hamilton playing while he was on vacation. He did just happen to have his clubs along and with the humidity in San Antonio and Austin there was the danger of their rusting. The clubs aren't rusty, nor is his golf game.

-GN-

Ora (Mrs. Bobby) Granger and Billie (Mrs. Tommy) Smith played golf at 5:00 a.m. last week. We were not present at that particular time of day. Have always wondered if "Oh! What a Beautiful Morning" is playing in the background at that hour. "Twilight Time" happens to be more to my liking.

-GN-

Drew McMinn, infant son of Mr. and Mrs. Bob McMinn, is already observing golf etiquette. Have heard that he can be in the middle of a lusty cry and will stop immediately he sees Mom or Dad ready to putt.

-GN-

Saw Buddy Brown make a beautiful drive the other day. Love to hear the "pop" of the ball and watch the rhythmic swing of the player when one of these shots gets off.

Lady golfers registered from July 9 to 16: Bobbie Fawcett, Sammie Jackson, Pauline Thompson, Lunetta Morgan, Jane Cavanness, Billie Smith, Jan McClelland, Betty Stewart, Jerry Title, Maxine Haines, Dorothy and Karon Kemble from Eldorado, Joyce Kemper, Wanda Cahill, Clara Lloyd Scherz, Nancy Trainer, Ora Granger and Monica Davis.

-GN-

Have you seen what the Lions Club is contributing to the local course? According to Lions President Jack Kerbow, "The natural scenic beauty adjacent to number nine green is to be equipped with picnic facilities. We hope to have barbecue pits, tables, benches, water and lights on these grounds."

LIONS ROAR

The Sonora Lions Club met at noon Tuesday, July 17 in the Fellowship hall of the First Methodist Church.

The Music Club served the lunch. The program was given by Jessie Lem Johnson, Cleve T. Jones, and Libb Mills Wallace, who gave a history of the club's activities for this year.

The Rev. Bob Brackney, Baptist minister, was a new member attending. Guests were Monroe Wright of Arizona, Vernon Rogers of Eldorado; Steve Preslar, District Judge, McCamey; Ed Sweden of Kilgore; Noah Hollingsworth of New Mexico; P. J. Taylor of Sonora; M. R. Cook of Lubbock; Stuart O'Neill of San Angelo.

President Jack Kerbow presided over the meeting.

LIVESTOCK NEWS

A bright spot in the livestock world was the special stocker-feeder calf sale at Junction Stockyards July 6. Charlie Schwartz, stockyard owner, reported more than 1,400 cattle through the ring at very strong prices.

Light stocker steer calves sold at \$35 to \$38.25 with two 235-pound steers belonging to George Cowden of Mountain Home bringing the top price. Lightweight heifers sold at \$31.50 to \$35; 400-pound stocker steer calves at \$30 to \$35, heifers \$28.50 to \$32.50; 500-pound steer calves, \$25.50 to \$28.00; heifers \$24.00 to \$27.00; steer yearlings \$23.75 to \$26.00 and heifer yearlings \$21.00 to \$23.50.

Representative sales included McMillan Ranch Co. of Sonora, 35 steers, 235 at \$35.00 cwt; H. H. Farmer of Junction 12 steers, 434 pounds, \$30.20; J. S. Wise of Junction, nine steers, 401 pounds, \$32.30; Buddy Shanklin, Rocksprings, 15 steers, 322 pounds, \$33.70; Keese Kothmann of Junction, six steers 220 pounds \$38.10 and 12 heifers, 248 pounds, \$32.70; Ray Holland, Junction, 14 big steers, 658 pounds, \$23.10; and two steers, 915 pounds, \$21.90.

The market was strong and active at Producers Livestock Auction Co.'s first Hereford-Angus stocker feeder calf sale in San Angelo this week. The Monday run totaled 1,973 head for a total of \$231,944, and average of \$117.55.

Quality of the cattle was reported good though lighter weight than in previous years.

John Paul Friess is attending the World's fair at Seattle, Washington. He plans to return to Sonora with Mr. and Mrs. A. E. Prugel and family.

due to weather conditions.

and heavy stockers and feeders.

Lighter calves have been in considerable demand this year, bringing prices some 5 to 8 cents higher than for medium

feeders like the lighter weights this year and say they can finish out a light calf at a better per pound profit.

A way to save that pays you more than interest

U.S. Savings Bonds pay you more than interest because they do more than earn money.

It's a matter of what happens to your Bond dollars. Deposited in the U.S. Treasury, they strengthen our economy at home.

At the same time, they help Uncle Sam take the side of freedom wherever possible in the world. And the opportunities to do so continue to grow.

By standing up for freedom elsewhere in the world, we insure our own personal freedoms. We make it that much surer that we'll be able to enjoy the things we're saving for.

All in all, it makes a pretty substantial return on your savings dollar—one that begins the moment you plunk down \$18.75 for a \$25 U.S. Savings Bond.

Under communism, the party decides what to print. Under freedom, the people decide what to read. One way to keep our press free is to keep financially strong—as individuals and as a nation.

U.S. Savings Bonds pay a unique return. Most Americans agree that the most important part today is not measurable in dollars and cents.

Buy an EXTRA Bond during the Freedom Bond Drive.

Keep freedom in your future with

U.S. SAVINGS BONDS

The U.S. Government does not pay for this advertising. The Treasury Department thanks The Advertising Council and this newspaper for their patriotic support.
