FORTY-FIFTH WEEK

Miss Mary John Espy

Mary John Espy Sonora's Duchess To Court Of Miss Mohair August 2

Miss Mary John Espy, daughter of Mrs. Howard D. Espy and the late Mr. Espy, has been selected to represent Sonora as Duchess to the court of Miss Nancy Friend of Ozona, Miss Mohair Elect, at coronation ceremonies to be held in Fredericksburg, Thursday, August 2. The coronation is a part of the annual convention of the Texas Angora Goat Breeders Association.

Mary John will be a senior at

Sonora High School this fall. She is a member of the National Honor Society, has been All-School Favorite and Class Favorite. She has been secretary of the Student Council for two years and a member of the National Thespian Society. She has also been named a Queen of the Sonora Junior Rodeo.

Her escort for the coronation will be Frank Childress of Ozona.

Del Rio Boy Best Cowboy In 3rd Annual Junior Rodeo

Jerry Shurley, Jr. Attending Junction Youth Range Camp

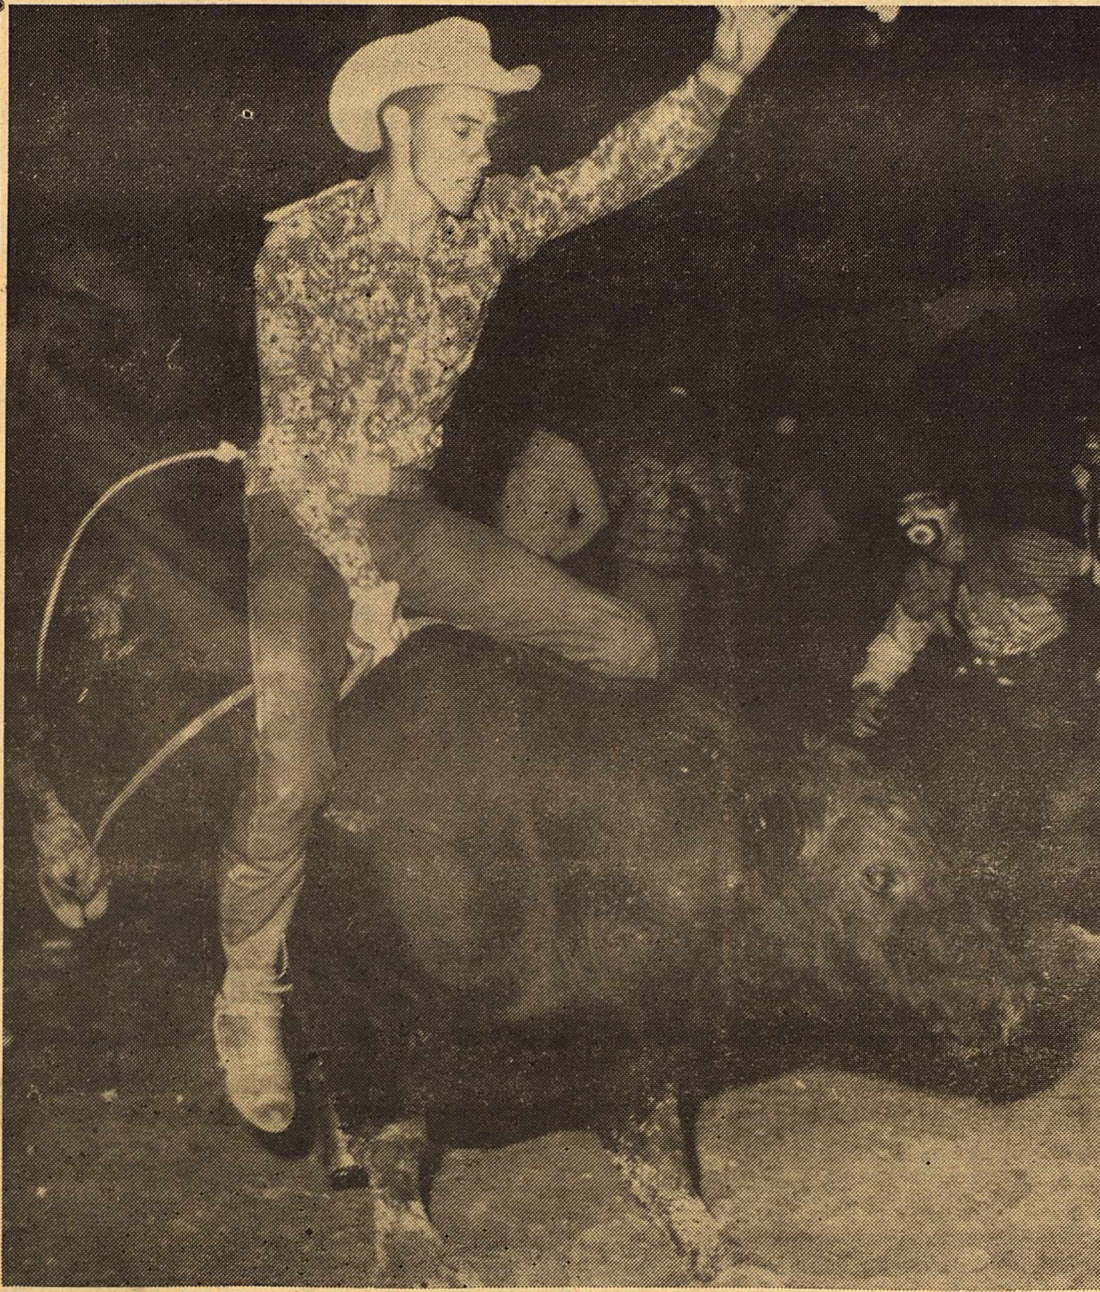

Jerry N. Shurley, Jr., son of Mr. and Mrs. Jerry N. Shurley, will be among the outstanding 4-H and FFA boys attending the eighth annual Youth Range Camp at the A. & M. College of Texas Adjunct at Junction July 29 through August 4.

Jerry, a member of the Sutton County 4-H Club, was selected to attend on the basis of his participation in range and plant judging contests. His scholarship to the camp is sponsored by the Edwards Plateau Soil Conservation District.

The program includes plant identification, ecology, ranch economics and management, grazing systems, reseeding, noxious plant control, ranch and range planning, and the relationship of wildlife and range management. Field trips to two Kimble County ranches and the Ranch Experiment Station here will be made for first hand study of each of the above classroom topics.

Recreation will include swimming, softball, volleyball, movies and a tour of the Caverns of Sonora.

Jan McClelland is visiting in San Antonio with her grandparents, Mr. and Mrs. M. A. Straughan. She was accompanied by her cousin, Charity Arms of Big Lake.

Zane Powers gets a handful of rope, a handful of sky and streaks out for a crowd-thrilling bull ride. Rodeo clowns (right background) move in to play their part in last week's Sonora Junior Rodeo.

Benton Wardlaw, 19-year-old boy from Del Rio, won the all around best cowboy award of \$250 bond, presented by the Sonora Park and Horse Show Association at the Third Annual Sutton County Junior Rodeo concluded Saturday, July 21.

The following winners received sterling silver belt buckles for best averages in the entire show of two performances for each class.

Girls Pole Bending (12 years and under): 1. Jackie Bob Riggs, Sanderson, 40.4; 2. Anna Allen, Rule, Texas, 41.5; 3. Marsha Nunley, Rocksprings, 43.8; 4. Diltz Bland, Ozona, 44.2.

Girls Barrel Racing (12 years and under): 1. Cathy Bruton, San Angelo, 40; 2. Terry Hinant, Alice, 42.2; 3. Becky Bland, Ozona, 43.

Girls Pole Bending (13-15): 1. Jill Graves, Ozona, 39.1; 2. Teresa Sellers, Crane, 39.3; 3. and 4. (tie) Sharon Westfall, Pecos, Joan Fisher, Utopia, 39.8.

Girls Pole Bending (16-19): 1. Pauletta Allen, Rule, 36.8; 2. Pam Perner, Ozona, 39.9; 3. Pam Perner, Ozona, 42.7.

Girls Barrel Racing (13-15): 1. Allison Espy, Sonora, 41.4; 2. Dena Durbin, Kerrville, 42; 3. Teresa Sellers, 43.1.

Girls Barrel Racing (16-19): 1. Pam Perner, 37.9; 2. Jan Glasscock, San Angelo, 39.8; 3. Pauletta Allen, 40.2.

Boys Pole Bending (12 and under): 1. Joe Norris Cooper, Midland, 39.3; 2. John Bland, Ozona, 42.7; 3. Larry Dunbar, Rocksprings, 43.

Boys Barrel Racing (12 and under): 1. Billy Don Grimes, San Saba, 39.5; 2. Gene Edwards, San Antonio, 41.5; 3. Tom Davidson, Ozona, 41.6.

Boys Steer Riding (12 and under): 1. Lee Bloodworth, Sonora; 2. Ed Lee Renfro, Sonora; 3. Gene Edwards; 4. John Bland.

Boys Bull Riding: 1. Rex Bland; 2. Tony Clark, Eldorado; 3. Carey Pitts, Ozona.

Tie Down Calf Roping (13-15 years): 1. Hanley Driver, Big Spring, 40.6; 2. Bobby Hungate, Waco, 40.9; 3. Jack David Wardlaw, Sonora, 47.3.

Boys Ribbon Roping (13-15): 1. Tony Verden, Ballinger, 33.4; 2. Neal Kerr, Del Rio, 41; 3. Jack David Wardlaw, 47.3.

Boys Bull Riding (16-19): 1. Butch Overturne Odessa; 2. Lee Stanbull, Eunice, 3. Keith Street, Hamilton.

Senior Bull Dogging (16-19): 1. Jimmy Poteet, Hugo, Oklahoma, 16.9; 2. Benton Wardlaw, Del Rio, 18.5; 3. Zane Powers, Sonora, 21.1; 4. Skipper Driver, Big Spring, 34.8.

Calf Roping (16-19): 1. Benton Wardlaw, 34.2; 2. Joe Hall, Eunice, New Mexico, 34.3; 3. Bill Davis, Sterling City, 36.5.

Ribbon Roping (16-19): 1. Skipper Driver, 32.9; 2. Joe Hall, 36.4; 3. Richard Mullins, Caddo, Oklahoma, 36.7; and 4. Jan Yates 38.1.

Mrs. Adkins Hits Jackpot By Winning 225 Bonus Dollars

One way to win a Bonus Dollar Drawing in Sonora is to line the streets on both sides with prospective winners on a hot Saturday afternoon, then have 2,710 entries in the running, yourself. At least that's the way it paid off for Mrs. Frank Adkins, who won \$225 at the downtown drawing on Saturday, July 21 at 3 p.m.

This was the second Bonus Dollar winner in this the fourth drawing sponsored by Sonora businessmen and the retail sales committee of the Sonora Chamber of Commerce. Mrs. Charles F. Browne won \$100 at the initial drawing.

Participating merchants will observe Dollar Day specials this weekend beginning Thursday, July 26. The next Dollar Day Drawing is to be held downtown at 3 p.m., August 4 for \$50.00.

ATTEND SPEECH CLINIC AT BAYLOR UNIVERSITY

Dick McMillan, son of Mr. and Mrs. W. B. McMillan, and Carla Whitworth, daughter of Mr. and Mrs. Leroy Whitworth, were among those attending the special Speech Institute held in Waco this summer by the Department of Speech and Radio of Baylor University.

Both students were enrolled for courses in debate, which they plan to participate in this year. Carla will be a sophomore at Sonora High School and Dick will be a junior.

In extemporaneous speaking competition, Dick won third place for boys.

Mrs. Ida Crumley, Former Resident, Buried Sunday

Funeral services for Mrs. Ida Crumley, 72, former Sonora resident, were held at the First Baptist Church here Sunday afternoon, July 22, with the Rev. Bob Brackney, pastor, officiating. Mrs. Crumley died Friday, July 20, in El Paso where she had made her home for the past three months.

She was born in Travis County April 16, 1890 and had lived in Sonora for 12 years prior to moving to El Paso.

Survivors include her husband, Elmer; one son, Connie Crumley, of El Paso; and two brothers, Roy Collier and Marvin Collier, both of Austin.

Pallbearers were Roy Cooper, Bill Smith, George E. (Bud) Smith, A. W. Awalt and Alton B. Hightower.

Interment was in Sonora Cemetery under direction of Ratliff-Kerbow Funeral Home.

Mission Sterile Fly Plant Releases First Flies, Prepares To Hit Capacity

The first box of sterile screw-worm flies from the new production plant in Mission came off the assembly line Wednesday, July 11, and were released over Southern Texas by the following Friday.

Dr. G. D. Stallworth, supervising veterinarian for the Texas Animal Health Commission called the event a great day in the short history of the Southwest Screwworm Eradication Program and described it as second in importance only to the day when the last box of flies is released to complete the eradication program.

Sexual sterility of screwworm flies is accomplished by subjecting pupae to radiation from cobalt-60, which emits gamma rays. Pupae are then packaged in cartons, held until they emerge as flies, and then dropped by airplane. About three to five percent of the total fly production

is not sterilized and provides brood stock for continued production. The fly colony was established on Sunday, June 17, the day after formal dedication of the plant. All operations of the plant are timed to coincide with the normal life cycle of the screwworm.

The plant will produce from 50 to 75 million sterile flies per week, the volume needed for eradication of this costly livestock

Vacation Bible School To Close 11:00 A. M. Friday With Program

Closing exercises for the Community Vacation Bible School being held this week will take place at the First Methodist Church at eleven o'clock Friday morning, July 27. Certificates will be awarded to all students who have been in regular attendance.

The Vacation Bible School is held each year by the First Methodist Church, St. John's Episcopal Church and the Church

of the Good Shepherd, Presbyterian.

Mrs. A. E. Lowe is superintendent of this year's Bible School which has had as its theme, "Our Bible". Mrs. Jack Kerbow is assistant superintendent.

Mrs. J. L. Steed has been in charge of the Kindergarten Department. Her assistant are Mrs. Tommy Smith, Mrs. Lin Hicks, Mrs. Albert C. Ward and Miss

Tom Elaine Espy.

The Primary Department is under supervision of Mrs. Raymond Morgan assisted by Mrs. Jimmy Hugh Harris, Mrs. Mack Holley, Mrs. G. A. Farr and Miss Diana Black.

Junior Department work has been under direction of Mrs. Doyle Morgan assisted by Mrs. Herbert Fields, Doyle Morgan and Mrs. James Wilson.

Devotional services have been

conducted by the Rev. Doyle W. Morton, pastor of the First Methodist Church; the Rev. Alanson Brown, rector of St. John's Episcopal Church; and Mr. John S. Otey, student supply, Church of the Good Shepherd, Presbyterian U.S.

Mrs. James Wilson is organist and song leaders have been Betty Jack Cooper and Cissy Young.

Mrs. George D. Wallace and

Telstar Model To Be At 1962 State Fair

A full size model of the Telstar satellite which was launched into
orbit early in July will be a feature of the new Telephone Exhibit
at the 1962 State Fair of Texas, Oct. 6-21, in Dallas. The Telstar,
shown here undergoing tests, is 34 inches in diameter and has 72
flat faces or facets. The Telephone Exhibit, to be completely re-
designed for the 1962 Fair, will occupy a prime exhibit area in the
World Exhibits Building.

**Suntan Benefits
Not Worth It?**

It will arouse the wrath of sun
worshippers, but this must be
said: The healthful effects of a
suntan aren't worth the time and
trouble it takes to get one. After
all, a sunburn—like any other
burn—is a manifestation of a
skin injury.

True, a sensible bask in the
sun makes a fine mental pick-
me-up, and there is no denying
the supple appeal of a tawny
lifeguard. But to overdo it can
lead to trouble. In fact it can
kill you. More than one person
has succumbed to prolonged and
unaccustomed exposure to the
sun.

Even at best, overexposure can
mean two or three miserable
days when a mere shirt or blouse
is torture, and a friendly pat on
the back can end in murder.

The medical term for sunburn
is "erythema solaris". It's the
ultra-violet light in sun rays
which does the damage. And
since clouds don't remove all
ultra-violet rays, it is possible to
get burned even on overcast days
in mid-summer.

Some people are physically un-
able to tan. Known medically as
"heliophobes", they could spend
the entire summer on Padre Is-
land, and all they'd get would be
blisters on their blisters. The
reason: Their skins lack the pig-
ment necessary to produce the
tan tint. They never had a tan
and they never will, so they ought
never attempt one. Each expo-
sure will only mean a new burn.

Assuming you are the type
who can tan—a "heliophilac",
that is—the well-known rule
about doing it by progressively
longer exposure times is valid
and should be followed.

Sunshine is a source of vitamin
D, as most people know. What is
apparently misunderstood is that
ordinarily healthy people can get
all the D vitamin they need
through routine activities such as
hanging out the family wash,
mowing the lawn, or walking to
the store. For persons suffering
from pellagra, lung tuberculosis,
high blood pressure, or hyperthy-
roidism sunlight may be definite-
ly harmful.

In case you have wondered
about the source of freckles,
here's the answer: The color of
everyone's skin is determined by
the amount of pigment in skin
cells. Dark-complexioned people
have considerable, blondes very

**You Will Need
A 1962 License
Through August**

It's the time when fisher-
men and hunters will need to pur-
chase their new 1962 licenses.
August is the last month in
which the 1962 licenses can be
used. Many people still haven't
used up their vacation time, but
probably expect to do so before
September 1. When they finally
take off on this long anticipated
period of rest and relaxation,
much of their time will be spent
attempting to fill their ice chests
with fish. J. B. Phillips, law en-
forcement coordinator for the
Game and Fish Commission, re-
minds these people that even
though the 1962 license will be
good just through August, they
will have to have one.

Last month, 211 fishermen fail-
ed to buy the proper license and
were arrested by game wardens.
"Don't be one of those who will
be apprehended by our officers
in July or August," advises Phil-
lips. "If you plan to fish during
these two months, get that li-
cense now while you are thinking
about it. The reason why most
fishermen fail to have a license
is simply because they wait until

the last minute, and then forget
it or decide to take a chance."
In June, a total 289 persons
were charged with violating the
game and fish laws of this state.
Of these, 68 cases were dismiss-
ed, 3 persons had their fines sus-
pended and one was found not
guilty. Fines and court costs
amounted to \$5,987.27.

Mr. and Mrs. Mike Moore had
the following weekend guests:
Mr. and Mrs. J. N. Gray of Lov-
ington, New Mexico; Mr. and
Mrs. Frank L. Moore and Mich-
ael of Houston; and Mr. and Mrs.
Bob Smith of Local Hills, New
Mexico.

**Fisher Writes On
Medicare Defeat,
Temper Flareups**

By Congressman O. C. Fisher
TEMPERS BOILED OVER in
Washington last week, featuring
outbursts from both President
Kennedy and Secretary of Agri-
culture Freeman.

Casting himself in the role of
a purger, Kennedy said he was
going after the scalps of 21 Sen-
ate Democrats and 31 Senate Re-
publicans who voted to defeat
his socialized medicine bill. Ten
of the Democrats are chairmen
of Senate committees.

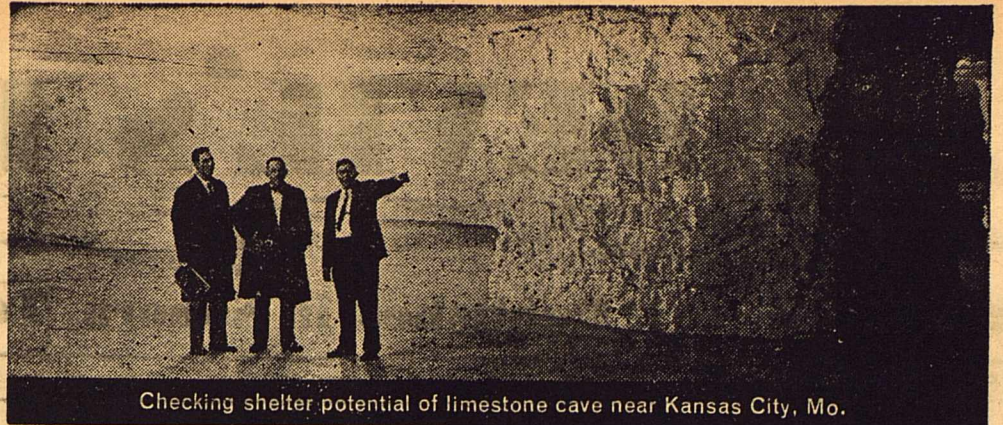

On the same day that the Pres-
ident drew a bead on the re-
calcitrant Senators Orville Free-
man let go a very intemperate
attack upon all who voted against
the recent farm bill. Opposition,
he said, constituted "the biggest
piece of nonsense and contradic-
tion that the mind of man ever
conjured up."

Oldtime observers up here, who
have seen them come and go, at-
tribute this display of sour
grapes to immaturity in the
game and to the Washington heat
which has been unusually severe
the past week or two. Others
think the President's broadside
was caused by advice from some
eager beavers on the White
House staff who have been mop-
ing around for months trying to
find an issue which can be used
against conservatives in the
coming elections.

In any event, it is admitted
even by most Administration
partisans that proponents of the
Senate move were more interest-
ed in an issue than they were in
passing a bill.

The Senate effort was defeat-
ed by a vote of 52 to 48. It is
believed that if acted upon in
the House defeat would have
come by a much heavier majority.
That is understandable because
House members, being elected
every two years, are closer to the
people and usually more respon-
sive to public opinion.

THE MEDICARE PLAN is
bad for many reasons. It was
conceived, born, and nurtured in
the marsh lands of politics, and
actually has little to do with
solving medical and hospital
needs for needy elderly people.
It is frankly admitted by some
partisans to be an opening wedge
designed to eventually get the
British type socialized medicine
adopted in this country. Although
increasing taxes by \$2 billion per
year initially, the proposal would

Checking shelter potential of limestone cave near Kansas City, Mo.

SHELTER PROGRESS RAPID

The national civil defense program of sur-
veying fallout shelters for up to 60 million
Americans is ahead of schedule, and should be
completed before the end of 1962, according to
officials of the Defense Department's Office of
Civil Defense.

By October 1 OCD expects to have in the
hands of local civil defense authorities com-
plete information on the number and location
of shelter spaces available in each community.
From information obtained by the Federally-
financed National Shelter Survey, local civil
defense officials will know also how many per-
sons in each community could be sheltered,
how many could not be sheltered under present
conditions, what additional space could be
modified into shelter areas, how much it would

cost, and similar data. Local architects and
engineers surveyed shelter areas under con-
tract to the Army Corps of Engineers or the
Navy Bureau of Yards and Docks.

Under present plans, civil defense authorities
receiving this information would then be re-
sponsible for marking shelter areas with a
nationally-standardized sign. They would stock
shelter areas with specially-prepared 14-day
supplies of food, water, sanitation and medical
items, and fallout detection instruments—all
provided by OCD.

The shelter survey, marking, and stocking
program, announced last August and put in
operation Dec. 1, 1961, is the first part of a
broader plan to provide fallout shelters for vir-
tually all Americans over the next five years.

**Would you invest
63¢ a day
to help keep
America free?**

Sixty-three cents a day can easily be frittered away.
Or it can buy a U.S. Savings Bond every month.

There's a big difference.
You have little or nothing to show for the
pennies you fritter away. But money spent on
Savings Bonds stays "alive," ready for use when-
ever you want it.

Furthermore, the money you spend on Savings
Bonds comes back to you—with an extra dollar
for every three, at maturity.

That's why the headline above reads "invest,"
not "pay."

And buying Savings Bonds is more than just a
money-making investment. It's an investment in
America, in your children, in yourself. For
America must be strong to be free, and Savings
Bonds help to keep it that way.

So Savings Bonds work for you and for your
country, too! What sounder invest-
ment could there be?

It's easy to buy bonds on the in-
stallation plan. Just ask your em-
ployer to set aside a regular amount
from your paycheck; you'll hardly
miss 63¢ a day. Or you can buy
Savings Bonds at any bank. Why
not act today?

This man says he'll
bury us economically.
By keeping financially
strong as individuals
and as a nation, we con-
tinue to demonstrate
that the free way is the
best way.

**Keep freedom in your future with
U.S. SAVINGS BONDS**

MRS. BERGER ENTERTAINS AT BRIDGE MONDAY NIGHT

Mrs. Joe Berger was hostess to two tables of bridge at her home Monday evening. Mrs. Collier Shurley held high score and Mrs. J. A. Letsinger won consolation. The traveling prize went to Mrs. R. B. Kelley and Mrs. J. P. Smith won at bingo. Others attending included Mrs. James Morris, Francis Gibson, Belle Steen and George A. Wynn. Blackbottom pie and coffee were served those present.

Hospital Notes

Patients receiving treatment at Hudspeh Memorial Hospital during the period from Wednesday, July 18, through Tuesday, July 24:

- Manuela San Miguel, Roosevelt
- Maxine Kalb, Eldorado
- Pauline Friess
- Tate Jarvis, Junction
- Gloria Hernandez
- Juanita McCoy
- John Bunnell
- George Williams
- John August
- S. M. Loeffler
- Herbert Graff, Eldorado
- Lee Nixon, Eldorado
- Peggy Sessom, Eldorado
- J. Wray Campbell
- Johnny Franks
- Aubrey Chadwick
- W. A. Carroll
- Preston Love
- Don Baron, San Angelo
- L. W. Elliott
- Claud Flores
- Tom Henderson, Eldorado
- Augusta Garza, San Angelo
- Irene Glasscock

Patients dismissed during the same period.

- Manuela San Miguel, Roosevelt
- Maxine Kalb, Eldorado
- Pauline Friess
- Tate Jarvis, Junction
- Gloria Hernandez
- George Williams
- John Bunnell
- Juanita McCoy
- S. M. Loeffler
- Herbert Graff, Eldorado
- Lee Nixon, Eldorado
- Peggy Sessom, Eldorado
- J. Wray Campbell
- Preston Love
- Don Baron, San Angelo

Weekend guests of Mr. and Mrs. Lee Fawcett and Randee were Jo Nell Epperson and Sherry Eustace of Rocksprings.

Mrs. Bill Fields and Francine had as their guest during the rodeo Gretchen Whitworth of Rocksprings.

Mr. and Mrs. W. F. Berger, Chris and Larry have returned from a vacation trip to New Mexico and Colorado.

Rebel, pet fawn at Camp Heart O The Hills near Hunt, gets his bottle of milk from campers. Left to right are camper Terry Trainer, daughter of Mr. and Mrs. Louie Trainer of Sonora; counselor Sarah Lu Hardy of Dr. and Mrs. W. T. Hardy of Sonora, and camper Lenore Miller of Ozona.

Fall LVN Class Applications Due By August 14

"One day of service as a nurse is worth a hundred of running a typewriter."

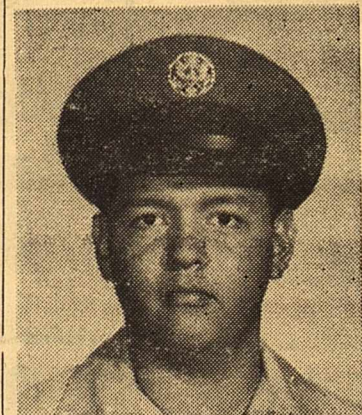

The Archbishop of Canterbury once made this observation about a group that is gaining in prestige and in demand faster than any other in this country.

And one phase of nursing—vocational nursing—will be available to qualified applicants between ages 18 and 35 with high school education at the Lillian M. Hudspeh Memorial Hospital, in classes beginning September 1.

No costs are involved except a nominal amount for textbooks and uniforms, and for meals and lodging in the nurses home, if needed.

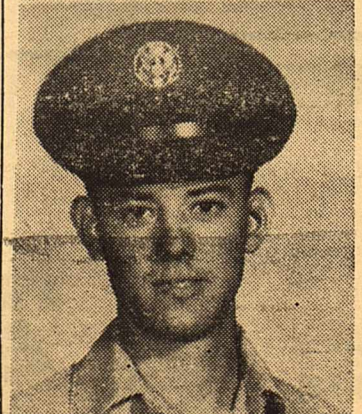

Local Airmen Reassigned To Amarillo Base

Airman Basic David Brown and Airman Basic Jesus Esquivel, Jr. have been reassigned to the United States Air Force at Amarillo Air Force Base, Texas.

Airman David Brown

Airman Brown, the son of Mr. and Mrs. Emil H. Brown, has completed his basic military training at the Amarillo base and will receive technical training for base fuel supply specialists. He is a 1962 graduate of Sonora High School.

Airman Jesus Esquivel, Jr.

Airman Esquivel, son of Mr. and Mrs. Jesus L. Esquivel, will receive technical training for aircraft accessory systems specialists. He is also a 1962 Sonora High School graduate.

Both were selected for the advanced courses on the basis of their interests and aptitudes.

The Devil's River News-Sonora, Texas, Thursday, July 26, 1962

THE WOMEN'S PAGE

LOCAL NEWS BRIEFS

Mr. and Mrs. B. H. Cusenbary and their granddaughters, Susan

and Kelley Cusenbary of Honda, have returned home from a trip to the Grand Canyon in Arizona, and through the mountains in Colorado.

Albert M. Everett, administrator, says all applications for the September class must be in the hospital business office by August 15.

Everett says licensed vocational nurses are needed right now in summer camps, in the airlines and steamship lines, nursing homes, school infirmaries, doctors' offices, U. S. Public Health Service and in some industrial dispensaries. Also, private duty nurses with this type training are constantly in demand.

Mr. and Mrs. Cashes W. Taylor have as guests their granddaughters, Nanetta and Resa Regeon of Beaumont.

Weekend guests of Mr. and Mrs. W. B. McMillan and Dick were Bryan Montgomery of Ozona and Tommy Loeffler and Edwin Sharp, both of Mason.

Rodeo guests of Mr. and Mrs. H. V. Stokes included Mrs. Stokes' nephew Robert Floyd and Hal Chase, Jr. of Brady and Frosty Gray of Lampasas.

EMERGENCY SUPPLIES for the 253-person fallout shelter area in the basement of the Merchants Terminal building in Baltimore, Md., are stored as part of a 14-city test of shelter stocking procedures conducted by the Department of Defense with the cooperation of local civil defense agencies. The heavily-built basement is typical of areas in existing buildings across the nation which could make good public fallout shelters when supplied with food and water for each occupant for 14 days along with sanitation, medical and radiation detection kits. Lessons learned in the 14-city test will be applied to the stocking of community fallout shelters for up to 60 million Americans starting later this year. (Department of Defense Photo)

How to stand guard for freedom in 1962

Some men of Concord in old Massachusetts once got themselves called Minute Men because it took them just 60 seconds to come to the defense of freedom, day or night.

In the years since, the Minute Man has become a symbol of our determination to stay strong and to stay free. Other symbols of that determination are Savings Bonds.

When you buy a Bond today you do more than invest money for your own future. You also show your own personal determination to keep America strong and free right now—because the same dollars you save for tomorrow help the government defend freedom today.

That's why buying U.S. Savings Bonds is a way to be a "Minute Man" in 1962. And Bonds work for you and your country around the clock.

Why not join the ranks of America's modern Minute Men? All it takes is \$18.75 and a visit to the Bond window at the bank.

Keep freedom in your future with **U.S. SAVINGS BONDS**

The U.S. Government does not pay for this advertising. The Treasury Department thanks The Advertising Council and this newspaper for their patriotic support.

Coffee Break

By Lindy Groda

Oleg Cassini is the clothes designer for a Mrs. Kennedy who lives a secluded life somewhere along the Potomac. Cassini is putting a touch of ole Mexico in his fall clothes with fringed shawls and high-crowned som-

beros. He has done a simple dress with Mexican-inspired "charro" embroidery around the bodice in a bolero-suggesting line. The fabric is the one nothing else measures up to... Wool. Cassini, one of the designers who has tried to make women look like women again, is making his fall skirts "sitabie" and just a little longer. And that covers Mrs. K's knees.

It's Spoon Lickin' Good!

Small boys may not understand about the laws of sanitation, but they know a good thing when they taste it.

Few things taste better to children than peanut butter and jelly sandwiches. Jam is as good, maybe a trifle better, than jelly with peanut butter. It is also cheaper and more quickly made and easier to spread than jelly. All berries, slipskin grapes, apricots, peaches and plums can be turned into delicious jam. Reliable recipes come with the better known brands of fruit pectins. The cooking is quicker and the yield larger when pectin is used. However, if your plums are tart and you don't want to use pectin, here is a good way to make the jam. Better make several batches if you want the children to leave any for the breakfast toast.

Plum Jam

Use any tart variety of plums

8 cups chopped plums ½ teaspoon salt
6 cups sugar 2 cups water

Wash, drain, pit, chop and measure plums. Add sugar, salt and water. Boil rapidly until mixture thickens. This will be about 9° F. above the boiling point of water in your locality. Pour boiling hot jam into pint or half-pint fruit jars. Put dome lid on jar; screw band tight.

NOTE: Jam may stick and scorch if not stirred constantly while cooking.

Cancer Society Commends Chairmen For Success Of Sutton Crusade

Mrs. Alvis Johnson and Mrs. W. B. McMillan, chairmen of the 1962 Cancer Crusade for Sutton County, have received commendations from the state chairman, Dr. G. V. Brindley, Sr., for the outstanding success of the educational and fund-raising campaign here this year.

Sutton County was one of 46 leading counties in the state which this year adopted an Honor Roll goal for the Crusade here. This goal, \$900.00, has already been exceeded by the volunteer workers and contributors in this county.

Dr. Brindley's letter pointed out that Mrs. Johnson, Mrs. McMillan, and all who helped with the Crusade here furnished inspiration to the entire state Crusade. "The real spearhead of our Crusade," he said, "has been furnished by those counties, like yours, which adopted an 'Honor Roll' goal and have now exceeded this goal."

"Throughout Texas we are in the closing phases of the most successful Crusade we have ever conducted against cancer," Dr. Brindley said. "The gains made this year in reaching people for education and contributions are not limited to any one area of the state and are, in fact, a re-

lection of widespread knowledge and enthusiasm of thousands of volunteers."

Dr. Brindley reported that as a result of the leadership of such outstanding counties, Texas has already made a record contribution to cancer control in 1962. More than \$1,320,000 has already been contributed by Texans for the Society's program of research, education and service.

Miss Sue Greenhill, student at the University of Texas, spent last weekend here visiting with her parents, Mr. and Mrs. Henry Greenhill.

Mrs. R. V. Cook of Cisco is visiting here with her son and family, Mr. and Mrs. V. T. Cook, Laney, J. V., Jess David, and Alice Ruth. She has just returned from a visit in California with her son, Joe D. Cook and family.

Mike St. Clair, son of Dorothy St. Clair, Sonora, and M. C. St. Clair of Junction, has just returned from attending Big State Ball Park at Meridian for three weeks. This is his third season. His batting average is .338.

News Want Ads Bring Results

And if no news is good news, let's have just that, no news at all, along the old worn-out new frontier, called publicity.

Seen-ery at the Junior Rodeo: A young cowgirl with a red Bandana blouse and a belt of the same red bandana cloth, complete with large buckle.

Beehive or fathead hair styles are out. Norma Potter says the hair styles show foretell wide, soft waves close to the head.

Centerpiece: Fill a pair of white urns with golf balls held together with florists' clay. Stud the whole arrangement with golf tees in various colors.

Some freeways aren't free, some fairways aren't even fair

to middling, some wild-eyed conservative with good taste, some liberals are liberal in restricting the individual. There are many misnomers, and then there are some proper nouns, so named. Sonora—the name—means Peaceful Valley, so they tell us.

Sonora—the town—means cooperation as evidenced by the city street department' prompt clearing away of the Sunken Garden site by the post office. Newly-elected garden club president, Mrs. Charles F. Browne says the interest has already exceeded the principal in this short while. Long may the interest compound and not just semi-annually.

The jet age in some sections rarely sees a real pioneer kind

of cooperation among ranchers and law enforcement. Within four hours after a Sonora rancher saw his fence cut, cooperation had paid off with several counties involved, and a suspected horse-gun thief captured. One might suppose this only happens on a movie screen. Truth is still stranger than fiction and needed more than ever, as one often masquerades for the other.

There's a man over in Sheffield who won't kill a fly. He's afraid it might be one of the expensive sterile ones, so he won't take a chance with the taxpayers' money.

Lost and found in the Devil's desk: one pair of Women's prescription glasses in light brown plastic frames.

There is something new under the sun. A colleague, one Hondo Crouch writing in the Comfort News over in Kendall County, says news is plural. Actually he says, "News are plural. It takes more than one new to make news."

"Mental Health is being used as a wastebasket to dump everything into," says one psychologist. He adds that lack of parental discipline, poor health habits, too much recreation and spending money, too many cars, and sometimes just downright poor eyesight or hearing make discipline problems that are all being dumped into a mental illness category. Life is swift and pressures are great, but good ordinary parental controls teach

youngsters self-control. And that are not news, but it are from a psychologist.

Another doctor in a popular column says half the battle is letting a child really know what he can believe. If he knows this September what his bedtime will be next June, and he knows the penalty for breaking it, 'tis easier for all. This is severe, but it is gratifying that the pendulum is swinging toward good sense.

Forgot to tell you that about the aforementioned Hondo Crouch. It is said that he pays his publisher 50 cents a column to print him. Not just Art for Art's sake, but 50 cents for goodness sake. And the publisher may be underpaid, at that, for the fertile space this Crouch fills so well.

Dr. Salk Coins A Word: Bionauts

"Super stars" of science will make up the research team of the Salk Institute for Biological Studies.

Dr. Jonas Salk, who will direct the Institute at San Diego, Calif., quite often draws analogies between sports and science.

He once said, modestly referring to his historic role in developing the polio vaccine, that "I just happened to be in the right place to catch a long forward pass."

Today he might select another sport and say that the Institute faculty members are the Mickey Mantles of science—they can hit home runs from either side of the plate. Dr. Salk points out that in recruiting his Institute Fellows he searched for and found versatile scientists "who have all been trained in a field other than that in which they are working today."

Varied Abilities

They possess more than one skill or field of knowledge. They are not limited to biology. Some of the 10 Fellows already appointed are equally at home in higher mathematics and physics, or history and literature.

This unique combination of professional skills, versatility, imagination and intellectual curiosity has been described by many as the magic formula needed today to achieve the conquest of disease—from the common cold to cancer. They believe firmly that an assault on disease of the kind and magnitude planned by Dr. Salk and his colleagues could pave the way to revolutionary breakthroughs.

Just as the Mickey Mantles depend on the baseball fans who pay their way through the turnstiles, construction of the Salk Institute will depend on contributions from the general public.

\$15 Million Goal

This summer all across the nation a campaign is in full swing to raise \$15,000,000 to build and equip the Institute. The drive is sponsored by The National Foundation through the March of Dimes. It is a renewal of the partnership between all Americans and Dr. Salk—the man who did so much for them in developing the polio vaccine, and will do so much more as director of the Institute.

As another way of describing the scientists who will work at

Dr. Szilard

Dr. Salk

Dr. Bronowski

the Institute, Dr. Salk has coined the word "bionauts." "If we can speak of astronauts," he asks, "why can't we think of 'bionauts'—scientists who are capable of doing in biology what has now been done in the fields of space and of atomic physics?" He envisages the Salk Institute as a sort of launching pad for the gifted "bionauts" of the scientific world who will comprise his faculty.

The conditions under which the Salk Institute "bionauts" will pursue their studies are probably unique. The physical as well as the intellectual atmosphere of the Institute has been designed so that the individual scientist can concentrate fully on productive work and thought. Laboratory equipment will of course be the most modern. A highly specialized reference library on biology and related fields will be maintained. The whole environment is designed to spur the Institute Fellow toward daring and uninhibited original thinking on how to reach the goal he is seeking—faster.

Pioneering Projects

In most great universities and other research centers scientists are obliged to invest a great deal of their time in teaching and in administrative detail. There will be none of these time-consuming duties for the faculty of the Salk Institute. Its members will spend all of their time on pioneering projects. Moreover, they will have complete freedom to launch whatever projects they elect and may change the direction of their research if they wish.

Experts familiar with the scientific world and its leaders agree that the 10 Fellows se-

lected thus far are entering the stage of their most productive period. Their average age is 49 years but seven of the 10 are even younger.

Dr. Warren Weaver, vice president of the Alfred P. Sloan Foundation and a Salk Institute Nonresident Fellow who is often described as the "elder statesman of American medical research," is 67; but Dr. Melvin Cohn, a famed American biochemist now with the Pasteur Institute of Paris, and a Salk Institute Resident Fellow, is only 38.

A-Bomb Architect

Dr. Leo Szilard, long-time professor of biophysics at the University of Chicago and celebrated worldwide as one of the "architects of the atomic bomb," a Nonresident Fellow, is 63. Dr. Edwin Lennox, an American microbiologist now also on leave at the Pasteur Institute, and a Resident Fellow, is only 41.

Dr. Jacob Bronowski, of London, a Resident Fellow who is well known in the United States for his books and lectures, is 64. His versatility is outstanding—in mathematics, philosophy and history.

Dr. Salk has remarked that the professional and cultural interests of the Fellows happily overlap. At a recent meeting of several of these scientists in New York City, they chatted with vivacity of organizing competing string quartets at the Salk Institute next year, of sailing and swimming in the Pacific, even of shooting a round of golf now and then. These "super stars" of science who may be expected soon to revolutionize biology and thus "help man make the most of his gift of life" are human beings, too.

The Devil's River News-Sonora, Texas, Thursday, July 26, 1962

Devil's River Philosopher Finds Himself At Mid-Summer With Everything Done He'd Planned

Editor's Note: The Devil's River Philosopher on his bitter-weed ranch on Devil's River takes stock of himself at mid-summer, his letter this week reveals. What the inventory amounts to is another matter.

Dear editor:

I walked down to my mail box the other morning mostly out of habit and discovered a neighbor of mine had a flat tire right in front of it and was working furiously to fix it.

"Worst time on earth to have a flat," he said. "Got a thousand things to do today. Here it is the middle of summer and I haven't done a fourth of the things I'd planned."

I helped him change tires, that is, I told him he was turning his

wrench the wrong way if he expected to get the lugs off, and I waited around and advised him to turn it the other way when he was putting his spare on. Nobody should get so busy he can't help a neighbor out.

At any rate, after he left, I came on back to my house and sat down on the front porch and got to thinking. Here it is indeed the middle of summer and I have done everything I planned to do.

You take my front gate. It's still off its hinges and propped up against the fence like it was last year, but the difference between me and my neighbor is I hadn't planned to do anything about it. I never promised my-

self anything in regard to it. I see no use in coming to the end of the summer with not only a broken gate but a broken promise also. No use straining yourself trying to keep both your fences and your character intact, and if you can't do both, put your character first.

A lot of people over the years have asked me why I don't fix that gate and I'll tell you why. To live satisfactorily in this world, a man has got to learn to put up with imperfections. If you're going to have a compul-

sion to fix everything that's wrong in this world, you'll be swinging a hammer right and left from now on, and the way to avoid this, to steel yourself against the imperfections in the rest of the world, is to get used to ignoring some right in front of you, like a sagging front gate. You need something close at hand to practice on.

In some respects, this may not be considered sound, but it's comfortable.

Yours faithfully,
J. A.

Reddy Ideas

by REDDY KILOWATT

"The kitchen is a country in which there are always discoveries to be made," said a famous French chef. And, bride or matron, you've probably found that out!

Want to dress up that whipped cream pie? Run your potato parer over a chocolate bar (almonds and all) and make fancy chocolate curls over the whipped cream topping.

Freezing? Line casserole dishes first with aluminum foil. Be sure there's enough to fold over the top. Once frozen, the wrapped food can be lifted out of casserole, freeing it for other dishes. Put foil-wrapped food back in casserole for reheating. (Just a nickel a day keeps a freezer-full of food!)

Steaks freeze very well. Freeze roast poultry unstuffed because of the danger of bacteria. Freeze pastries or meat or chicken pies unbaked. Undercook vegetables when adding to steaks and casseroles so when reheated they won't have that warmed-over taste.

To press dark garments, put a black cloth over your ironing board. This prevents dark materials from picking up white lint, saves brushing later.

Just count the ways you use electric service every day. On the job around the clock, around the calendar—can you think of anything else that does so much yet costs so little?

Here's another use for the spray attachment on your vacuum cleaner: use it to apply liquid wax to linoleum or asphalt tile.

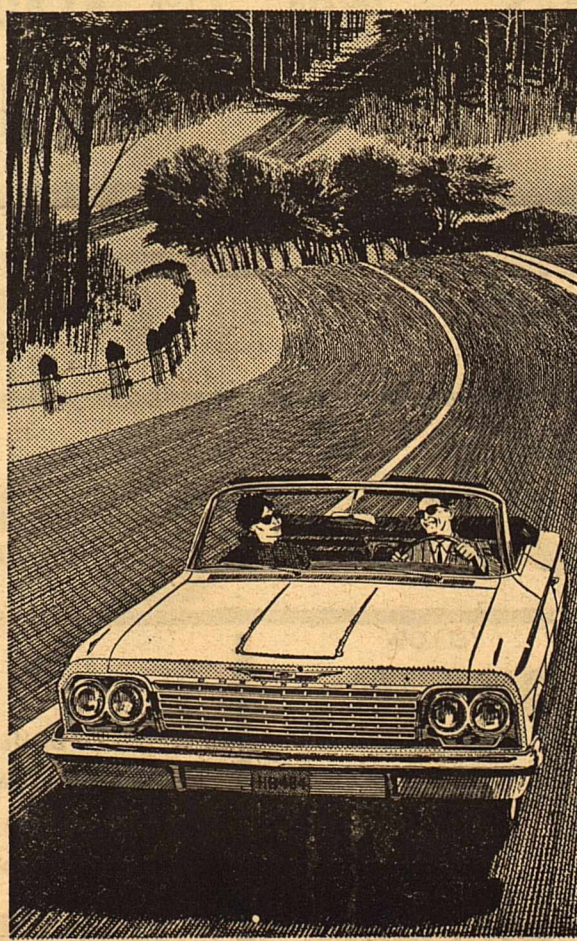

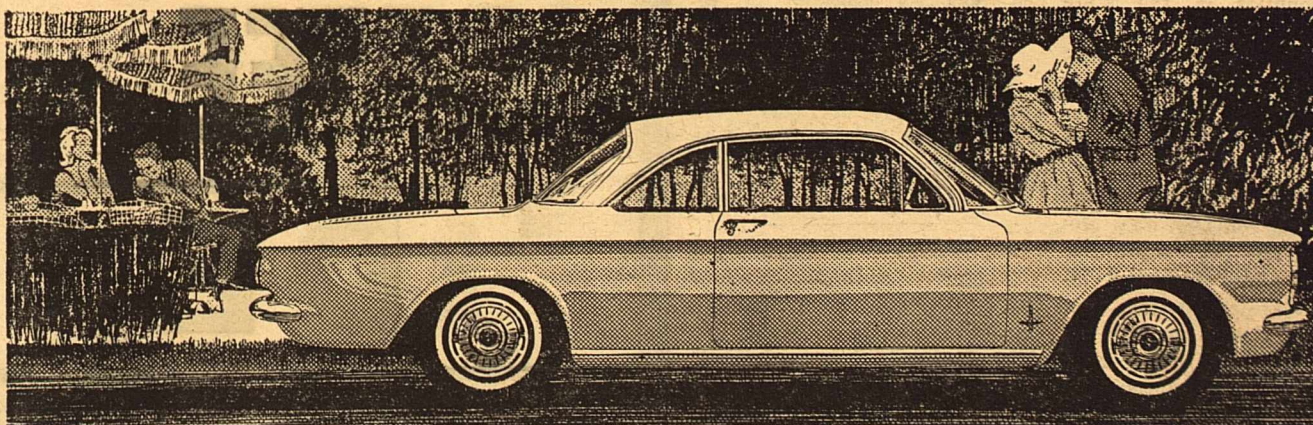

Your sewing machine needle won't stick when sewing plastic materials if you sew a strip of waxed paper into the seam. When finished, tear off paper; seam will be perfect.

Something to think about! It has been estimated that in the course of his lifetime an individual eats 64,000 meals, more or less. And somebody had to plan, buy and cook 'em!

In the average American home electricity does in one day what it would take 228 hours to do by hand. Nothing else does so much for so little! And you'll never run out of electricity, because your electric company plans and builds to keep the supply years ahead of the need. Do you wonder why we say electric service is the biggest bargain in your family budget?

ing of the devil in his own publication; however, my motives were not to banish from the American scene that charming figure of popular legend, "Old Scratch." My motives were, and still are, to banish "bogey-man" religion to whatever realms it may deserve.
 Let's take a look at the origins of this fascinating character, the Devil. First of all, he isn't to be found on page "3 or so" of the Bible. The earliest mention, by date of the writing of the book and not by its order in the present canon of scripture, seems to be in Job, where the devil is spoken of as "the Satan" in the Heavenly Council (the definite article is used in the Hebrew text), referring to "the adversary," a sort of public prosecutor. Not until after the Babylonian exile does Hebrew literature reflect the belief, borrowed from their Persian captors, that Satan should be identified as a god of evil. Prior to this a satan was an adversary in the ordinary sense of the word (e.g. II Sam. 19; 22; I Kings 5:4). Satan became the angelic tempter by slow stages, e.g. in I Chron. 21:1 he moves David to the sin of taking a census of the Israelites (and note that Chronicles is a post-exilic book) whereas in II Sam. 24:1 it is the LORD himself who does it! In the intertestament period, between the writings of the Old Testament and the New, a vast body of literature reflects the popular belief of the Jews in angelology and demonology, and Satan, or Beelzebub, was popularly the most powerful.
 And what of the New Testament? We find here, too, that the older concept of a satan as an adversary is also preserved in the Greek word "diabolos", meaning "an adversary, an accuser, a slanderer." In judicial terms, the opposite member to the diabolos was the "parakletos", or "advocate", or "defender". This word, paraklete, is the one we translate "Counselor" in John 15:27. The point of all this is simple. If we want to use verbal pictorial symbols for the very real and present power of evil, then Satan is as good as any, indeed he offers a widely understood symbol. However, to take this symbol literally and use scare tactics is to indulge in a blasphemous "bogey-man" religion. That I cannot tolerate. 'Nuff said. If the shee fits, wear it; if it pinches, holler.

-GREEN NEWS-

By Betty Jones

Just heard a rumor that a golf tournament is slated here August 4. November will be highlighted with a social affair. The Ladies Golf Club plans to roll out the red carpet with such lavishness that it will be an occasion to remember (this is no rumor). If there is to be a tournament August 4, we know it will be a success and something to remember, too.

Gilbert was one of the best golfers a few years back. After watching the skill he displayed in the direction and distance of the ball he hit, we think he is still one of the best. To acquire this skill in golf he played on many courses including some in South America. His comments concerning the local course were received with pride and great expectations for the future of the Sonora Golf Club.

-GN-

A Sunday afternoon twosome Monica and Louis Davis. We asked Monica, "Which green is your favorite?" Answer, "I hate number Eight." "How did you shoot today?" Answer, "Ugh!" Monica commented that she had rather play golf than bridge with Louis. And this is in spite of and not because of Number Eight green.

Sonora Park Association Says Thanks To These Who Helped With Junior Rodeo

The Sonora Park and Horse Show Association has expressed thanks to all who helped with their annual Junior Rodeo last weekend.

Special gratitude is expressed to Park Inn Cafe, Pearl Distributing Company, the First National Bank, Sonora Wool and Mohair Company, Stockmen's Feed Company, Bryan Hunt and Dr. Joe David Ross, all of whom donated trophies.

Also to these firms and individuals who contributed to the general trophy fund: The Holiday Host, Westernman Drug, Western Motel, Hardegree's Live Oak "66" Station, Humble Oil Dealers of Sonora, Sonora Feed and Supply, Twin Oaks Motel, Greenhill's Texaco Station, Nance Gulf Station, Taylor and Moore,

C. T. Jones, Duke Wilson, Caverns of Sonora, S. H. Allison, Barker Package Store, Lea Allison, Moore and Neil, the Dairy Mart, Garrett's Barber Shop, Dr. J. F. Howell, Buster's Package Store, French's Big Tree Restaurant, Frosty Fred's, Chuck Wagon, and Leroy Valliant.

And to these who donated time and service: Jake Merck, Mat Adams, George Borrow, City Personnel, Bob Hemphill, Radio Station KCKG, Jan Keng, F. L. McKinney, Mrs. Marie K. Ellis, Nelson Stubblefield, Ralph Finkles, and many others.

Sonora Firemen At A & M Fire School

Three members of the Sonora Volunteer Fire Department are attending the 33rd annual Texas Firemen's Training School on the campus of Texas A. & M. College.

City Fire Marshal John A. Martin, Jr. is taking a course for fire marshals which includes instruction in such topics as burning characteristics of materials, evaluating performance of construction materials, atomic weapons and fire, human relations for supervision and other subjects related to fire prevention and control.

Fire Chief Lee Patrick is studying fire department officer training and Leon Neely is studying a course in advanced firefighting.

More than 1,700 firemen from all over Texas are attending the special school which will close Friday, July 27.

Office Supplies At News Office

ATTEND TWIRLING SCHOOL

Five twirlers from Sonora High School are attending a twirling school at Sul Ross State College, Alpine, this week. They are Janice Dunn, daughter of Mr. and Mrs. A. C. Dunn; Mickey Hardegree, daughter of Mr. and Mrs. Max G. Hardegree; Jessie Lem and Janet Johnson, daughters of Mr. and Mrs. L. E. Johnson, Jr., and Janie Letsinger, daughter of Mr. and Mrs. J. A. Letsinger.

thm. Comparable to her talent as a pianist. Looks easy when we watch her do either. It isn't.

-GN-

DID YOU KNOW THAT: Some of our better golfers in Sonora watch the pros on TV in order to improve their own games?

When the fairways were graded and cleaned off signs of Indian mounds were found? George Barrow found a nearly perfect arrowhead on one of the fairways.

Number Two green is around the spot where Sonora's first dump-ground was located?

Golf is one of the most popular outdoor sports in the United States, Canada, and Great Britain?

-GN-

Stephen Whitworth, son of Mr. and Mrs. Leroy Whitworth, is another one of our golfers in the younger set who shows promise. It will be interesting to watch the unfolding of some golf pros who had their start on this course.

-GN-

There were 149 registered golfers here Monday, July 16, to Monday, July 23.

Continued From Front Page

pest in the Southwest.

The increased supply of sterile flies from this plant will not only greatly strengthen the eradication effort, but also will provide flies for future tests on establishing and maintaining a barrier zone to be formed by continuously releasing sterile flies along portions of the U. S.-Mexican border.

Temporary facilities at Kerrville will continue to produce about 23 million flies per week as production at the Mission plant is increased, then will be gradually closed and personnel and equipment transferred to Mission.

Production will provide for release of sterile flies in area where overwintering populations must be eliminated, where outlying outbreaks threaten to spill over into an area already free of screwworms, and to maintain the artificial barrier. Flies will not be used in areas where cold weather can be expected to eliminate in a short time any threat to a screwworm-free overwintering area.

Flies are now being released in Texas over a 60,000-square mile area below a line running from Del Rio northeast to Coleman, east to Comanche, and southeast of Port O'Connor, plus 7,000 square miles in southern

LIONS ROAR

The Women's Society of Christian Service of the First Methodist Church provided and served the regular Tuesday luncheon meal at this week's meeting of the Sonora Lions Club.

Lions Secretary-Treasurer A. E. Prugel gave an account of the recent trip to the World's Fair which he and his family made.

Two guests, Bob Painter of Sonora and Dennis Martin of Arlington, were present.

The Devil's River News-Sonora, Texas, Thursday, July 26, 1962

New Mexico.

Fly release will remain flexible because of unpredictable circumstances. For example, the size of the screwworm overwintering area varies with the

severity of the winters. Also,

shipments of infested livestock could also cause premature spring outbreaks in northern portions and require concentrated fly release for quick control.
