

## IH 10 County, City Route Hearing Date Set, March 8

Sonorans will have an opportunity to get a good look at the proposed route through their town of Interstate Highway 10 and express satisfaction or disapproval at a public hearing March 8, 1:30 p.m., in the Courthouse court room.

This hearing will be similar to the June 8 hearing concerning the route from the Crockett County line to 6 1/2 miles west of Sonora.

The March hearing, however, will deal with the route location from

5.1 miles west of Sonora to the Kimble County line and the schematic layout of the proposed development from 5.1 miles west of Sonora to 4.1 miles east of Sonora. Joe Lane, highway engineer, says that the proposed route will generally parallel US 290 from the Fort McKavett turn off to the Kimble County line.

Lane says that the portion of road in the western part of Sutton County will be under construction this summer.

In addition to the five new families that the Highway department has located in Sonora in connection with Interstate 10, Lane says the department hopes to bring in more qualified personnel for the job.

Nine miles of Interstate 10 is under construction now in Kimble County.

Preliminary sketches showing the proposed location of the Highway through Sonora are on file at the resident engineer's office here.

## Sonoran's Sister, Mrs. R. E. Polk, Dies

Mrs. R. E. Polk, sister of Mrs. Ernest Conn, died Friday, Feb. 18 in Anna Lee Rest Home in Mason where she had been a patient for three weeks. She was 68 years old.

Funeral services were held Saturday in Mason Funeral Home with burial in Gooch Cemetery.

Born Sept. 8, 1897 in Llano County, Mrs. Polk came to Mason County as a young girl with her parents, the late Mr. and Mrs. J. D. Wilson. In 1941 she was married to Mr. Polk, a Mason merchant. He died August 28, 1960. She was a Baptist.

In addition to her sister, Mrs. Conn, survivors include two brothers, Walter Wilson of Stafford and Raymond Wilson of Sheffield.

## Heart Sunday To Mark Week-Long Heart Drive

The fight against heart and blood vessel disease, number one killer of our time, will be carried to Sutton County homes Sunday, February 27, and throughout the following week.

Mrs. Lea Roy Aldwell, local heart fund treasurer, pointed out that the volunteers calling at homes not only will receive Heart Fund gifts, but will also distribute heart-saving information. Residents will receive an illustrated pamphlet which sets forth safeguards that may reduce the risk of heart attack. When doorbells are unanswered,

## Stockpens Officers, Directors Elected

Officers and directors of the Sonora Stockpens were elected at the stockholders' annual meeting February 15.

Officers include Edwin Sawyer, president; R. A. Halbert, vice-president; and J. W. Elliott, secretary-treasurer.

Directors are Lea Allison, Vestel Askew, Stanton Bundy, W. R. Cusenbary, Dan Cauthorn, Fred T. Earwood, Halbert, Bryan Hunt, C. T. Jones, Ralph Mayer, W. L. Miers, Stanley Mayfield, Sawyer, Bill Savell, Sears Sentell, Bill Tittle, J. M. VanderStucken, and Elliott.

## Former Rector Here Dies in Alamo City

The Rev. John Winslow, former rector of St. John's Episcopal Church, died Wednesday, February 16, in San Antonio. Funeral services were held Saturday in the Cathedral House, Episcopal Diocese Center in San Antonio, with Bishop Earl Dicus officiating.

The Rev. Mr. Winslow came to Sonora in 1951 from Trinity Church in Van Buren, Arkansas. In June, 1954 he accepted a call to All Saints Episcopal Church in San Benito.

## Dr. Browne Named Crusade Chairman

Dr. Charles F. Browne was elected Cancer Crusade chairman by members of the Cancer Society board of directors January 20.

Browne, Mrs. Alvis Johnson, and Mrs. Myrtle Sellman are expected to attend a district Crusade briefing session in Abilene Saturday, February 26.

Dr. Robert Walker, D. D. S. and oral surgeon, will speak at the meeting designed especially for unit Crusade chairmen.

the volunteers will leave envelopes which residents can use to mail their gifts.

Mrs. Aldwell said that the Heart Fund dollars collected, which augment memorial gifts, are used to fight a vast complex of diseases—heart attack, stroke, high blood pressure, hardening of the arteries, rheumatic fever, inborn heart defects, and many others.

Lea Allison is chairman of the local Heart Fund unit, and Bill Savell is vice-chairman.

Other 4-H'ers with lambs in the sale were Scott Jacoby, Roger Langford, Mark Jacoby, Jerry Shurley Jr., Alan Harris, Tryon Fields, Joe David Nance, Mitch Trainer, Cleveland Nance, Bill Thompson, Randal Boatright, Tony Renfro, Lee Bloodworth, Gene Thompson, and Janice Sue Nance.

Pete Thompson and Mr. and Mrs. D. C. Langford attended the sale with the exhibitors.

## Snow Folds Sonora In White Tuesday

Sonorans observed George Washington's birthday Tuesday amidst torrents of snow and freezing temperatures. For the most part, they stayed indoors, as the schools and many business were closed, both in behalf of the founding father's birthday and the dangerous hazards that blew in with the snow. Sonora schools remained closed Wednesday.

The snow began falling Monday evening and by Tuesday morning, Sonorans found the surrounding hills blanketed in lovely white snow. The snow continued to fall through Tuesday evening.

The heaviest snowfall since January 1, 1947 when temperatures dropped to 8 below, according to J. E. Eldridge, local weather reporter, brought with it some well known perils to the people of this area. Increased were the dangers of traffic accidents, fires, and most of all, the loss of newly shorn goats and newborn lambs.

James Hough, deputy sheriff, reported that Tuesday evening 13 trucks were stalled on the hill 30 miles south of Sonora, and US 277 had to be closed due to the prevailing driving conditions.

Although no definite reports concerning livestock loss have been

obtained, it is likely that many ranchers will lose some stock as a result of the cold temperatures.

From the Soil Conservation District office, E. B. Keng, reported that 6 to 8 inches of snow fell in this area and maybe up to 10 inches in places. He estimated that this amount of snow would be the equivalent of .8 to 1 inch of rain.

## Broncs End Season With 17-10 Record

Big Lake's Reagan County Owls were able to hold on to an early lead to overcome Sonora in the battle between the west zone and east zone champs of District 8-A Friday in Ozona.

Big Lake took charge from the start and was never behind after building up a 12-2 lead in the first quarter. The quarter ended with the score 18 to 6.

Sonora, however, came back in the second quarter of the championship game to pull within seven points at the half-time intermission.

The lack of free throws and rebounding told the tale for the Broncos, who were handed their first loss in seven games. The loss before the winning streak was also credited to Big Lake during the Ozona Tournament.

The final two quarters of the game were played more or less as a stand off with Big Lake dropping in one more point than Sonora.

The Sonora scoring was led by Laney Cook and Mike Wuest with

16 and 13 points respectively. But perhaps Eddie Howell did as much for the Broncos in scoring a mere 11 points. Rounding out the scoring for Sonora was Noe Chavez with 7 and Grady Roe with a free throw.

Big Lake's Bum McReavy dropped in 21 points to take the high scoring honors for the championship game.

Score By Quarters:	1	2	3	4	Total
Sonora	6	16	14	12	48
Big Lake	18	11	14	13	56

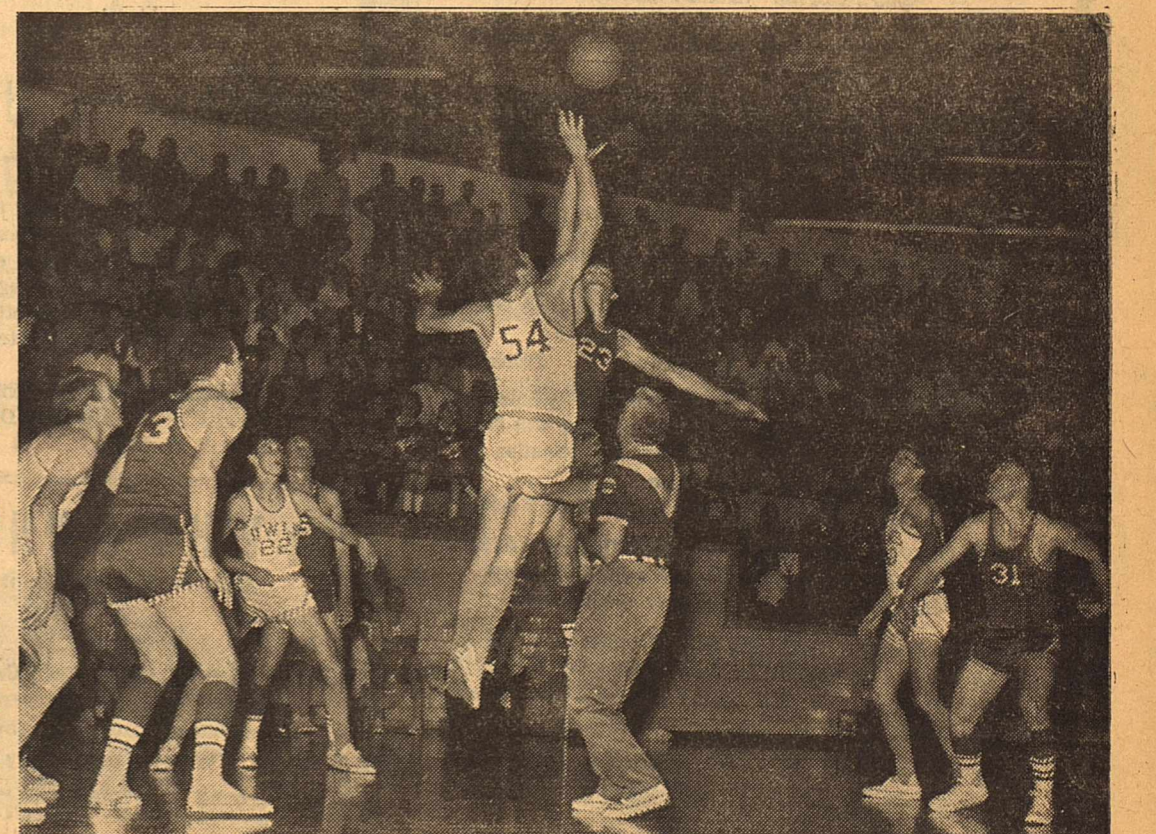

This loss brought the Bronco season record to 17 wins against 10 losses with Sonora racking up 1,687 points while their opponents had only 1,351. The Broncos also added three pieces of hardware to the trophy cases of Sonora High School. They won the San Angelo BCD Christmas Holiday's Basketball Tournament, took Consolation honors at the Big Lake Tournament, and grabbed the third place title at the Ozona Tournament. All in all this was a good basketball season for Sonora High School.

### YOUR TONGUE IS YOUR CHARACTER

A shepherd and his son were seated under an oak tree. Three soldiers stopped to look at the oak. These three men of ancient Greece were returning home after their army exercises.

"A fine oak," observed the first. "If I could turn it into charcoal, what a price I could get." "So you would, master Charcoal-burner," said the shepherd.

"If," remarked the second, "I could strip off the bark of this tree, I should have tanbark enough to last a year." "Yes, master Tanner," said the shepherd, "but it would be a pity to spoil the tree."

"What acorns!" cried the third, "if I could feed my pigs with them, what sausages, what hams, I should be able to sell!" "Well, master Butcher," said the shepherd, "next week the acorns will be for sale."

When the three men had gone away, the boy asked: "Father, how did you know these men were a charcoal-burner, a tanner, and a butcher?"

"I know them by their talk," replied the

father. "People talk of the things they take interest in."

"The charcoal-burner speaks of burning wood, the tanner of making leather, and the butcher of his fat pigs."

"So people know us by our speech. Our tongues are our character."

Our speech—the choice of words and the way we speak them—gives others a true and positive insight into our personality and character.

Our speech often marks the dividing line between success and failure for us and thousands of people like us.

Lazy and selfish speech can be fatal in our relations with other people. It accepts no challenge; it has no goal or vision.

On the other hand, vibrant and dynamic phrases—or simple just good speech—usually sparkles with success and reward.

So watch your speech—choose it carefully—and it will pay big dividends.

—The Open Door

## Philosopher, England Have Similar Outlooks

Editor's note: The Devil's River Philosopher on his bitterweed ranch on Dry Devil's River has been trying to philosophize his way out of fixing a fence, his letter this week indicates.

Dear editor:  
I was walking along the fence between me and a neighbor yesterday afternoon hoping maybe a newspaper had blown up against it when I came upon the neighbor himself putting in some new posts. I preferred a newspaper but I went ahead and talked to him, since he saw me before I had a chance to duck out.

"What you doing?" I asked.  
"Fixing this fence."  
"That's a good idea."  
"I know it. Say, isn't it about your turn to do some fixing?"  
"Whatta you mean?"  
"This fence helps you, too, doesn't it?"

"Sure, but are you taking a stand against the British Empire?"  
When I said that he missed a staple and hit his thumb with his hammer and I figured it was no time for a high-level conversation and excused myself and came on back to the house. I learned long ago never to discuss international affairs with a man who has just smashed his thumb.

But what I meant was that in some ways in the conduct of this bitterweed ranch I'm lined up with the British Empire.

For example, take nuclear bombs. Has England spent billions of dollars making them? Of course not. She knows they work, and with her friend the United States originating the things and spending billions to stockpile them, why should she build a fence too? Me and England wasn't born yesterday.

Or take the race to the moon. The United States and Russia both are spending billions of dollars to find out what's up there, but England isn't spending a cent and will find out at about the same time. Look what happened when Russia landed a television camera up there last week. England just tuned in and got the pictures out before Russia did.

I estimate the moon pictures cost Russia around 2 billion dollars, and England maybe \$17.50.

I tell you, the British Empire may be shrinking, but there're still some smart Englishmen around.

Unfortunately though there are still people who can't take an international view of a fence, and I guess I'd better get out tomorrow and help my neighbor, if the weather isn't bad.

Yours faithfully,  
J. A.

### Potato-Frank Casserole, Penny-Wise

For a penny-wise, delicious meal-in-one-dish, you just can't beat a good casserole. Even the casserole made with common, everyday favorites, such as hamburger or frankfurters, can be turned into an attractive, taste-tempting mainstay for the family meal with the addition of a tasty cheese sauce mix.

This savory Potato-Frankfurter Casserole is nutritious, kind to the budget, and just a little bit different. Quick and easy convenience foods, the kind that are found on every well-stocked pantry shelf, make it a real time saver, too.

Accompanied by tasty onion rolls and a mixed green salad, this casserole makes an eminently satisfying luncheon or supper dish.

#### POTATO-FRANKFURTER CASSEROLE

- 2 1/2 cups water
  - 1 1/2 cups milk
  - 3 tablespoons butter
  - 3/4 teaspoon salt
  - 2 envelopes (4 servings each) instant mashed potato granules
  - 1 egg, beaten lightly
  - spoons butter (melt 1 tablespoon for mix)
  - 1 pound frankfurters
  - 1/2 cup catsup
  - 2 tablespoons prepared yellow mustard
  - Paprika
- Combine water, milk, 2 tablespoons butter (melt 1 tablespoon for later), and salt in a saucepan. Heat just to boiling. Add potato granules; whip briskly. Add the beaten egg and envelope of cheese sauce mix. Mix thoroughly. Spoon potatoes into a 1 1/2-quart casserole, leaving space in the center of casserole. Cut each frankfurter into 4 portions; drop them into center of potato ring.

Combine catsup and mustard; pour over frankfurters. Brush tops of potatoes with melted butter. Sprinkle with paprika. Bake in 375 F. oven 20 to 30 minutes or until potato tips are lightly browned. Makes six servings.

ONION CRESENT ROLLS  
1 tablespoon instant minced onion  
2 teaspoons water  
2 teaspoons soft butter  
1 package refrigerated crescent dinner rolls

Combine onion and water; let stand a few minutes until onion absorbs water. Add butter. Open tube of rolls as directed on package. Spread onion-butter on triangles of dough before rolling into crescents. Bake in 375 F. oven 10 to 15 minutes. Makes 8 rolls.

## W.T.U. Wins Safety Contest Sixth Time

For the sixth consecutive year the employees of West Texas Utilities Company have won the coveted Bureau of Safety Motor Vehicle Accident Prevention Contest awarded annually to the electric utility company having the lowest accident frequency rate. This is unprecedented, for no other competing company has approached the record of WTU.

In 1965 WTU employees drove 338 motor vehicles a total of 5,377,392 miles for a record of 3.16 chargeable accidents per 1,000,000 miles. This was a substantial reduction from its 1964 rate of 4.63. The average rate for all contestants was 6.63, and estimated rate for all electric utility companies is 10.51.

Lyle A. Westrom, Bureau vice president, said in a letter to R. W. Hardy, WTU president: "We offer our warmest congratulations to you and your employees for this remarkable safety achievement and wish you continued success in the future."

"We have been pleased that your employees were not satisfied with being in first place for so long, but have actually made a sizable reduction in an already excellent driving record."

Roff Hardy expressed his appreciation to Company employees for their safe driving habits and their concern for the public's safety and welfare in the operation of WTU vehicles.

## THE FAMILY LAWYER

Tipped off by a suspicious mailman, postal agents opened a packet which a woman mailed—first class—to her husband.

Sure enough, the packet contained illicit heroin. But when the woman was brought to trial on a narcotics charge, evidence of the find was thrown out of court and she went free.

The court was not being "soft" on narcotics. What troubled the court was the government's violation of the privacy of first class mail. Such an intrusion was held to be an "unreasonable search and seizure"—forbidden by the Fourth Amendment to the Constitution.

This Amendment grew out of colonial bitterness against the infamous "writ of assistance," under which British officials had free rein in searching private homes.

And, almost a century ago, the Supreme Court made it clear that the Amendment protects not only your residence but your first class mail as well. In the Court's words:

"The right of the people to be secure against unreasonable searches and seizures extends to their papers, thus closed against inspection, wherever they may be."

On the other hand, there is no such protection for mail other than first class. Furthermore, in the interest of combating crime, even first class mail may be searched if authorities first obtain a warrant. Then the search would not be "un-

reasonable," because the warrant would be issued only if there was reasonable ground to believe the law had been violated.

Moreover, the government may impose what is called a "mail watch" to help in tracking down wrongdoers. In this procedure, a record is kept of the name and return address of everyone who sends mail to the person under surveillance.

Not long ago the mail watch was challenged in court as at least a partial invasion of the privacy of first class mail. But the court upheld the government, saying:

"It was not prying into their secrets to note what the senders had made public on the face of the letters."

And there, generally speaking, is where the law draws the line today. The government may gather the information you place on the outside of an envelope, but must not peek within. That dab of muckilage on the flap, buttressed by the constitutional commandment, is one of the mightiest barriers on earth.

## University Board Asks Sizeable Appropriation

by—Vern Sanford  
Texas Press Association

AUSTIN—While the Legislature in special session on voter registration grabbed the headlines, far-reaching developments were afoot in the field of higher education last week.

Coordinating Board for Texas Colleges and Universities recommended a whopping increase of nearly \$160,000,000 in appropriations for its state institutions during the coming biennium.

That would bring the total 1967-68 spending level to \$429,100,000 for the tax-supported college-university system, including \$52,800,000 for public junior colleges.

Board also concluded that "primary responsibility" for doctoral degree programs should be restricted to four schools including The University of Texas, Texas A&M University, Texas Technological College and the University of Houston. Doctoral programs at other institutions will be terminated by Sept. 1, 1968.

Exceptions were allowed for North Texas State University and Texas Woman's University, Denton, which will be allowed to continue higher degree programs now under way. Consideration will be given to Arlington State College's offering joint doctoral degrees in the Fort Worth-Dallas area with the two Denton institutions.

Law school training, said the Board, should in the future be limited to the University of Texas, University of Houston and Texas Tech, and existing medical schools should continue under UT jurisdiction.

A preliminary report on the role and scope of junior colleges recommended that these institutions should provide a full two-year college transfer program at the freshman and sophomore level, plus technical, vocational, adult and continuing education programs.

Seven state schools were placed on a priority list to share \$7,097,742 in federal matching funds released through the U. S. Office of Education to be used for undergraduate building projects.

Funds will go to Stephen F. Austin State College, Sam Houston State College, Southwest Texas State College, Texas Technological University, Lamar State College of Technology, Southwestern Assemblies of God College and the University of Houston.

LEGISLATURE WARMS UP — Some state lawmakers warmed up

for bigger battles ahead during their February special session, while others said a fond farewell to the state capitol.

Plenty of familiar faces will be found in both houses in the regular session next year, despite effects of legislative redistricting.

Forty-nine incumbent representatives have no opponents in the Democratic primary. Incumbents are running against each other in four House races. There will be new faces in the House, too, for there are no incumbents running in 48 districts.

Fourteen incumbent senators face no Democratic opposition. Five sets of senators are paired off against each other, insuring a total of 19 old-timers in the 31-member body next year.

OIL ALLOWABLE UP AGAIN—Texas oil production for March may be at the highest level since May, 1959, due to an increase in the allowable for the sixth straight month.

Railroad Commission set the figure at 33.2 percent of capacity. Market demand factor was highest granted since the percentage formula was adopted on Jan. 1, 1963.

Production ceiling for next month is 3,100,000 barrels daily. Commission set 32.7 percent as production pattern for February.

TEACHERS SEEK ANOTHER RAISE—Texas State Teachers Association plans to ask the next Legislature to bring the salary of teachers up to the national average.

That would mean a boost of about \$556 to reach the \$6,506 average mark. A \$553 hike last year cost \$101,000,000.

TSTA notes Texas teachers now rank 29th in the nation paywise.

Teachers' legislative goals for 1967 also include five days a year authorized sick leave and retirement system improvements.

DRAFT QUOTA UP—March induction quota of 1,570 is biggest for a single month in Texas since June, 1963, according to Col. Morris S. Schwartz, state selective service director.

February call was 1,372. More than 5,500 young men actually are scheduled to take pre-induction mental and physical exams during next month.

March quota will be filled with single and childless married men 19-25 years old.

## Leaflet Lists Pesticide Safety Tips

Pesticides can be your best weapon against insects in your garden, lawn and home, says County Agricultural Agent D. C. Langford. To help you use pesticides in a safe way, as the springtime battle with the pests looms ahead, the Texas Agricultural Extension Service has just published a new leaflet entitled "U. B. Safe With Pesticides." The new leaflet, L-676, is now available at Langford's office.

"Safety tips" for pesticide users and is not a listing of recommendations of materials that will control specific pests. For recommendations on pest control, other leaflets, such as the Texas "Guide for Controlling Household Insects" and "Chemical Weed Control in Lawns" are available at the county agent's office.

The leaflet has been designed for Texas homemakers, homeowners, and home gardeners. It lists step by step the things that you should remember each time you use pesticides in and around the home. The leaflet is basically in four parts with items to consider before you buy pesticides, when you use them, when you put them away between uses and when you dispose of the unwanted left-overs.

Pesticide applications around the home usually are not very extensive and probably you'll find you only have to spray or dust a few times during any spring or summer month, says Langford. Like many other things, practice makes perfect; but, when long periods of time elapse between pesticide applications, it is a good idea to have some safety reminders posted somewhere near your pesticide storage area, he added. The leaflet folds out so that the center page, if taped on the pesticide storage door, makes a good reminder list that is easily re-read before you rush out to battle the lawn or garden insects.

Leaflet L-676, then, is a listing of Fling Ding visitors of Mrs. Muriel Hamilton were Mr. and Mrs. George Hamilton of Austin and Mr. and Mrs. Jack Williams of Houston.

## Texas Livestock Number and Values Up

Texas farmers and ranchers went counter to those in the nation by increasing their holdings of cattle, hogs, goats, and chickens as compared to a year ago.

Ed Uvacek, Extension livestock marketing specialist at Texas A&M University, said figures released by the Texas Crop and Livestock Reporting Service on February 14 revealed the increases.

Cattle numbers increased by 3 percent during 1965 to 10,546,000 head on January 1, 1966. The nation showed a decrease of 1 percent in cattle numbers, he said. Improved range forage and small grain pastures coupled with a larger calf crop and larger shipments and smaller outshipments account for the increase, Uvacek said. The state's total cattle population is valued at \$1,213 million.

Sheep numbers in Texas increased by 8 percent during the past year; hogs by 7 percent; goats 9 percent; chickens 1 percent and turkeys 66 percent. Nationally, the specialist said the report showed a 4 percent decline for all hogs and pigs on farms; 1 percent fewer lambs and sheep; 1 percent fewer chickens (excluding broilers); a 6 percent decline in number of dairy animals and a 6 percent increase in turkey numbers. These figures, he said, are all based on January 1, 1966 inventories.

Beef cows and heifers two years and older in Texas totaled 5,094,000 head, down 1 percent from a year ago but beef heifers 1-2 years old increased by 5 percent; calves on hand Jan. 1 increased by 9 percent and steers over 1 year old increased by 28 percent.

The 486,000 head of milk cows in Texas on January 1 was 7 percent below the previous year and followed the national trend.

Texas sheep numbers, all sheep and lambs, on January 1 were estimated at 5,154,000 head; goats and kids numbered 4,425,000 head; hogs numbered 752,000 head; farm chickens—excluding broilers—totaled 15,610,000 birds and turkeys 652,000 head.

Uvacek said the Reporting Service placed a total value of \$1,361 million on the January 1 inventories of livestock and poultry in Texas, up 28 percent from a year earlier.

## Senior Citizens Reap Tax Benefits

Congress has provided a number of benefits for taxpayers over 65, according to the IRS.

Internal Revenue officials say that if you are over 65 and sell your house for less than \$20,000, you won't owe any taxes on the gain. And if you sell for more than \$20,000 you can exclude a portion of the gain.

### Valentin Marks 85 Valentine Birthdays

Valentin Favela celebrated his 85th birthday on February 14. He was feted on this occasion by his two daughters, Mrs. Antonio Flores and Mrs. Frank Gallegos, with a dinner in the Flores home. Favela worked for Ben Cusenbary for 10 years and has been an employee of the City of Sonora for the past 19 years.

### Teen Scene

Friday was a very busy day at school. The sophomore class presented their assembly which was a clever imitation of the faculty.

The cast was Linda McBride as Miss Dolan, Maxine Davis as Mrs. Dameron, Debbie Galbreath as Mrs. Wilson, Ruben Brown as Mr. Neal, Lylia Perez as Mrs. Neely, Guy Aske as Coach Hopkins, Royce Mearns as Coach Hays, Kathy Grelle as Mrs. Stanley, Maria Garcia as Mrs. Prugel, Mike Gosney as Mr. Stanley, Mike Richardson as Coach Snodgrass, Mike Redman as Coach Wuest, David Whitworth as Mr. Behrens, J. V. Cook as Mr. Steed, Tom Trainer as Coach Painter, Mike Gilly as Mr. Morgan, and Sandra Crawford carried a sign that announced the faculty meeting. (After the assembly was a pep rally. It was held on the front lawn.)

Coach Painter (the real one) spoke to the students. And the cheerleaders, Linda McCutchen, Susan Allison, Prissy Howell, Nedra Raye, and Maxine Davis, led the yells.

The lunch period at school has been the scene of a few supervised boxing matches lately. Only one injury has been reported. Bert Bloodworth threw his shoulder out of socket. He just swung too hard and missed.

Jackie Cargill went to Kerrville over the weekend.

Mike St. Clair was in Sonora during the weekend. And Carl Eustace was over from Rocksprings.

Several college kids were home. These included Jack David Wardlaw, Jack Hearn, Randeew Fawcett, Carol Hopf, Karen Davis, Kay Campbell, Andy Moore, and Barbara Trees.

Several kids went to the prom in Rocksprings. Among these were Gail Espy, Bill Glasscock, Linda McBride, Mike Gosney, Debra Wardlaw, Louis Wardlaw, and Shelley Morriss.

David Whitworth was bandaged up Friday and it wasn't because of the assembly. The truth is, that he and J. V. Cook were squirreling each other with the water they were using to boil frogs before dissecting them. After the accident, David had to have some medicine and a great big bandage put on his back.

Another group of seniors took their test Saturday among these were Carl Teaff, Joe Moore, Billy Sam Chadwick, Dick Hearn, Bill Glasscock, Eddie Howell, Robert Kelley, Eddie Sawyer, and Kathy Moffitt.

One of the biggest events in the school year is coming up this weekend. Everyone is cooperating with the school in having the speech meet. It will start with a mixer Thursday night. The preliminary one-act play contest will be held Friday night. Saturday will be the day for finals. After a barbecue Saturday night will be the finals in the after-dinner speech contest, following that will be the presentation of the trophies and awards. Then the dance. The whole high school is participating. If not in the events, they will be time keeping, driving for the taxi service, working in the Junior concession stand, housing students, or helping Mrs. Dameron in the ballot room.

Last week's Who's Who was Wade Stokes. This week's Mr. X is a junior boy. He played football on the varsity. He is about medium in height and has dark hair.

THIS LITTLE TRICYCLE RIDER grew up into a medium height, dark haired, young man. He is now a junior boy who played on the varsity ball club last season, he is also this week's Who's Who.

### Mrs. Prugel Gives Art Club Program

Mrs. A. E. Prugel demonstrated balanced menus with an emphasis on color when the Art Club met in the Homemaking cottage Tuesday night for a monthly meeting.

Mrs. Ben Cusenbary, president, presided at the meeting. Mrs. Pearl Welch was elected into the club. The treasurer reported \$94.25 in the club's treasury. Also, it was reported that molds had been purchased for the club.

A nominating committee of Mrs. W. O. Crites, Mrs. Louis Powers, and Mrs. Curt Schwiening was appointed. This committee will present a new slate of officers at the March meeting.

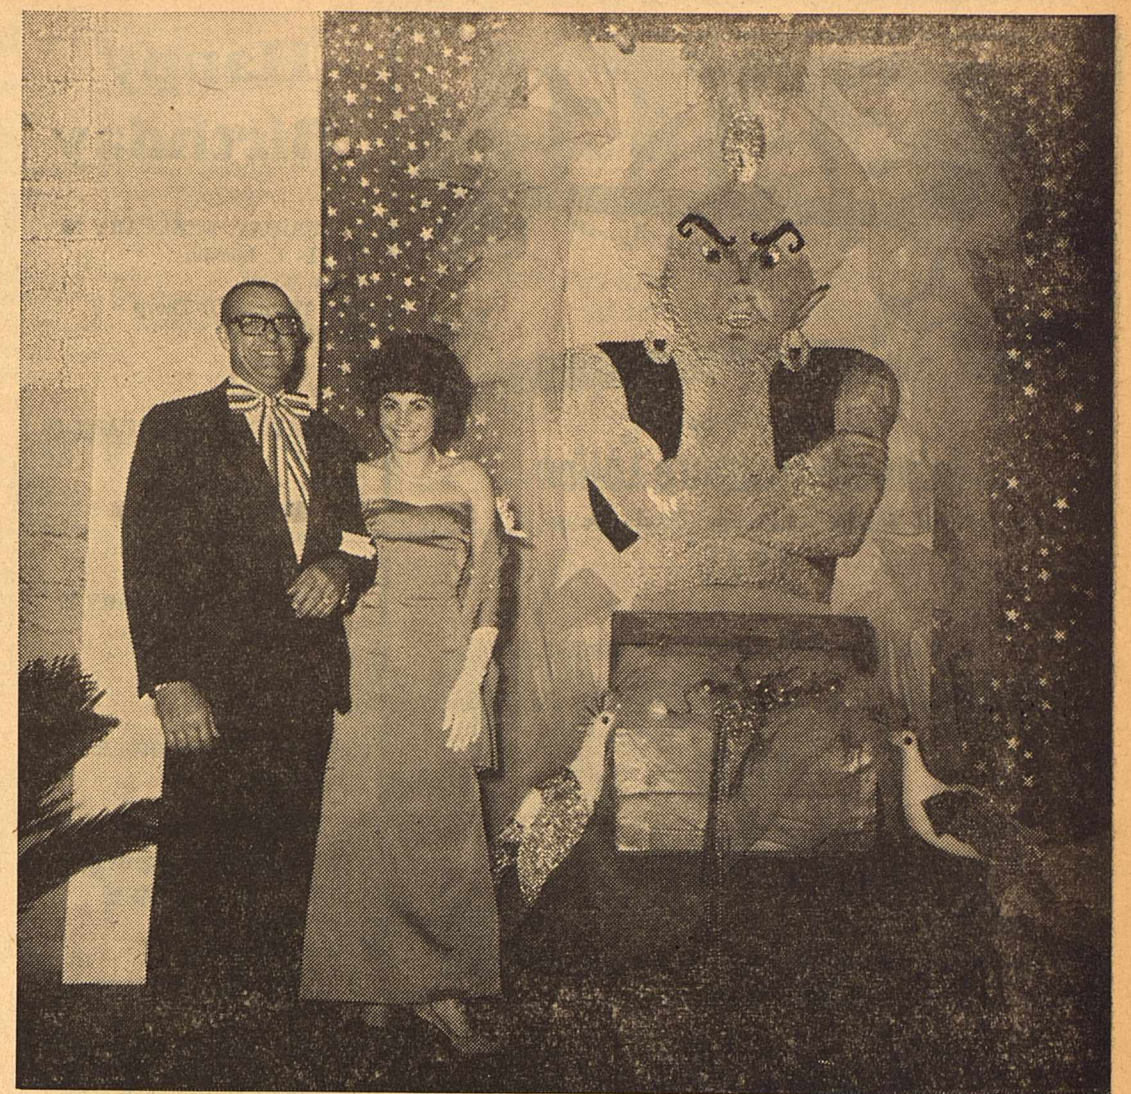

Mrs. Louin Martin and Mrs. Crites were hostesses. They served cake, coffee, and nut cups in the shape of men's colonial hats.

Attending the funeral of Mrs. R. E. Polk in Mason Saturday were Mrs. Monty Yantis of San Angelo and Mrs. Frank Potmesil.

### Dr. Broussard Set To Speak To P-TA

Dr. L. J. Broussard, San Angelo psychologist, will be guest speaker at the Sonora P-TA meeting Tuesday, March 1.

The meeting will get under way at 2:45 p.m. in the school cafeteria. The public is invited.

### Little League Planning Session Set

An organizational meeting and 1966 planning session for the Sonora Little League baseball organization is scheduled for Monday, February 28, 7:30 p.m., in the office of Dr. Charles F. Browne.

All Little League parents and anyone interested in helping in the baseball program are urged to attend.

At least two managers and several umpires are needed for smooth operation of the summer athletic program, explains Dr. Browne.

Anyone who would like to contribute time or financial backing to the Little League, but can not be present at the meeting, may contact Dr. Browne, Jimmy Harris, or Norman Rousselot.

### YOUR MINISTER SAYS

by the Rev. Arno Melz pastor, Hope Lutheran Church For what can be known about God is plain to them, because God has shown it to them. Ever since the creation of the world His invisible nature, namely, His eternal power and deity, has clearly perceived in the things that have been made. So they are without excuse. Claiming to be wise they became fools, Romans 1:19-22 R. S. V.

In this age when our nation is fast becoming a God-less nation, it has been said our state religion is now atheism. Events of the past few years show why this statement was made. The ruling on prayers in public schools came as a shock to most Christians. This was something we thought could not happen in America. Now a new issue of tax exemption for churches is before the Supreme Court. Who knows what will come next?

The cause of this trouble is a few people who do not believe in God, and who are willing to declare their belief publicly and force it on others. This is not something new, people have done this throughout the history of our country. The only difference is that today, we who claim to believe in God often remain quiet, seemingly unconcerned.

The Bible tells us these atheists are without excuse. They know there is a God by the very existence of the world. This is even more evident in this age as men travel into space bringing back pictures and reports. This emphasizes the wonder of the universe God created. Man-made spacecrafts can remain in space for days, but the planets have been in orbit for thousands of years.

There is no excuse for not believing there is a God, the evidence surrounds us. The people who are

too wise to accept this fact are really fools, Paul tells us. But what about the people who know there is a God, but do not confess it publicly, they are foolish also. Don't be a fool, confess your faith in God, study His Word, sing His praise, turn to Him for help. Learn more about God today and share this knowledge with others. Amen!

For the guy who'd rather drive than fly: Chevelle SS 396

Chevelle SS 396 Sport Coupe with Body by Fisher, seat belts front and rear, one of eight features now standard for your added safety.

**POTENT THE CHEVROLET WAY**

This is about a Chevelle—a very special one—with a bulging hood, a black grille and red stripe nylon tires. Start it up and you've tuned in on 396 cubic inches of Turbo-Jet V8.

Get it moving and suddenly you're a driver again. With gears to shift. A clutch to work. Even a set of gauges to read, if specified.

Now take a curve, surrounded by a machine that delights in crooked roads.

This, you see, is an SS 396. A Chevelle, yes. But what a Chevelle.

### Mrs. Rousselot To Head Woman's Club

Mrs. Norman Rousselot was elected president of the Sonora Woman's Club for the 1965-66 club year

at the group's meeting Thursday in the clubhouse.  
Other officers chosen were Mrs. George Barrow, vice-president; Mrs. W. T. Black, recording secretary; Mrs. George Wallace, corresponding secretary; Mrs. George Stewart, treasurer; Mrs. Albert Everett, auditor; and Mrs. Vestel Askew, parliamentarian.

The proposed museum for Sutton County was discussed by Joe Brown Ross for the club. Representing the Sutton County Historical Society, Ross asked the group to consider co-operating in establishing a museum in conjunction with the Woman's Club Library, long a project of the local club. Ross noted that there are many articles in the county that should be preserved, and said that the entire community would have to work together to complete the project.

"Community Welfare—Club Members Are Community Leaders" was the topic of the program, which featured talks by Mrs. Albert Ward, district chairman of the crusade for lights, and Mrs. C. M. Epps, district chairman of religious life. Mrs. Barrow led the opening prayer.

Mrs. Rodney Dowdy was introduced as a new member.

Hostesses for the luncheon were Mrs. J. F. Howell, chairman, and Mmes. Robert Pfluger, John King, Rex Lowe, Harold Schwiening Jr., and Jamie Parker.

Time for a change, if you've been leading a sedentary life, Southwest Texas Heart Association agrees. But take your exercise in gradually increasing doses, working up to the maximum capacity for your age and physical condition. Let your doctor determine what this is for you.

## STRONG CHURCHES Make STRONG COMMUNITIES

### A Great Leader Still Leads

It has been said that a man is tallest when he is on his knees. The familiar picture of George Washington kneeling in prayer at Valley Forge reminds us that the "Father of our Country" was a man who walked close to God and who taught his soldiers to pray.

Washington recognized that human frailty is not a sign of weakness—that it is the first step toward finding the needed strength. To call upon God for the resources we lack is to supply our deepest want.

The example of our first President still points men to God. Just as George Washington found God's strength available, so do men in our time when they call upon Him in faith. Discover Him in your own life. Worship God in your church next Sunday.

#### THE CHURCH FOR ALL ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

## CONSERVATION: THE KEY TO PLENTY

(Editor's note: Following is the essay which won second place in the high school division of the 1966 annual essay contest sponsored by the Edwards Plateau soil conservation district.)

by Gary McGilvray  
For millions of years the earth revolved about its axis and completed its annual journeys around the sun while vegetation flourished and grew and died. Then, after more millions of years, the process of the creation of the world had developed to such an extent that it was possible for animal life to appear and finally the world was made fit for the habitation of man. Its vast stores of coal, iron ore, gold, silver and oil had developed and decaying

vegetation had resulted in rich black fertile soil which was capable of producing the substances necessary to maintain men and animals. Abundant life was possible; there was plenty for everyone.

In recent years, however, we have come to realize that there will not always be plenty for everyone and that what remains of the natural resources prepared for us must be preserved. The only way that these resources can be preserved, and the only way that there will be plenty for everyone is for everyone to practice a type of protection known as conservation.

The earth is our treasure. We now have the ability to persuade

and compel the land to produce its utmost so all can eat. We, however, also are wasteful of the land allowing many human beings to go hungry or even die of malnutrition. Hungry children will never develop into healthy, creative human beings. Starving men create riots and revolutions. The dead do not speak. Therefore, the best and wisest use of the land is essential not only for peace and prosperity, but also for life itself.

We must conserve all those things adapted to the physical well-being and the comfort and the happiness of the people who will live on this earth so that there will be plenty for our future generations.
