By John T. King

"History repeats itself", reflected Mrs. L. E. Dudley, of Abilene, at the Historical Survey Committee meeting here Tuesday. But the main speaker at the meeting wasn't talking business.

Several heavy sample metal markers had been brought to the regional meeting to demonstrate how other communities were marking historical places. And though sturdily built when installed in concrete, the signs leaned precariously against the speaker's table. And just as they had at the previous meeting, the signs toppled with a clatter in the middle of Mrs. Dudley's speech.

And because some Ozonans are a little offended that their voter registration system is being checked by the FBI, a lady at the historical meeting reflected that the men there on voter business might have something to do with the Tuesday-night break-in at the bank.

Sunday was a busy day at the Caverns of Sonora as a 13-man movie crew from Larry Buchanan Productions of Dallas moved in to spend the day making shots for an hour science fiction television production to be shown in June.

John Agar is the star of the production to be called "Zontar." Other scenes will be made in the Big Bend country and in Dallas.

James Morris, caverns manager, said that the Sonora Caverns were picked over three or four other caverns.

## No Objections Voiced On New Highway Route

A packed courtroom of about 130 people attended the Tuesday hearing on the proposed route of Interstate Highway 10 around Sonora. No complaints were registered against the route that will pass through the golf course and airport as it skirts the town to the south of the highway department on US 277, north of the city electrical plant and to the immediate south of the cemetery.

Interchanges will be located at the caverns road, near the Sonora Veterinary Clinic, at the intersection of the new highway with US 277 to San Angelo, and at the Fort McKavett road. Cemetery Road will be a misnomer as the highway will cut off the road from its destination. The new route will be out Poplar Street, then turn left to the cemetery north of the present Pete Thompson home. This frontage road will parallel the new highway west and enable through traffic to emerge on the San Angelo Highway.

AWARDS WERE PRESENTED to local Cub Scouts at the Blue and Gold Banquet March 3. Cubs pictured are, left to right, (front row, kneeling) Dwayne Rogers, Randy Hill, Bill Finklea, Johnny Humphreys, Gene Dunn, Larry Finklea, Mark Parker, Leonard Rogers, Michael Hicks, Mike Stewart, and Roy Adkins, and (second row) David Wallace, Jerry Johns, Bruce Kerbow,

Terry Matthis, Dennis Nance, Doyle Crawford, Dan Richardson, Derrel Boatright, Kevin Halbert, Teddy Coker, Mark Milligan, Marvin Shurley, Jack Martin Sykes, and Randy Wuest. Standing in the back row are Jim Elliott, Den Chief, and Mrs. Lawrence Finklea, Mrs. Vernon Humphreys, and Mrs. Bill Stewart, Den Mothers.

## 'Progress Is People,' Shepperd Tells CofC at Banquet Tuesday

"Progress is people, and Chambers of Commerce are run by and for people," John Ben Shepperd of Odessa told members of the Sonora Chamber of Commerce and guests at the Chamber banquet Tuesday night at the 4-H Center. The former Texas Secretary of State emphasized the importance of a Chamber's building among the residents a strong climate of faith in the community.

Stressing the value of a progressive attitude, he said, "No one

wants to move to or live in an ostrich city." He pointed out the worth of "good West Texas hospitality" in attracting new industry and tourism.

Answering the question, "How's business in West Texas?" Shepperd said that in the 132 counties of West Texas personal income totals \$7 billion, more than Louisiana, Kansas, Oklahoma, Colorado, or Oregon.

Another highlight of the program was a review by Bob Johnson, chamber manager, of past accomplishments of the Sonora Chamber and challenges for the future. Among future problems facing the group he discussed needs for community improvement and beautification, housing needs, industrial development, and tourist attraction.

Some 150 persons attended the meeting including guests from San Angelo, Eldorado, and other area towns. Among out-of-town guests were Senator Dorsey Hardeman,

## Commissioners OK Land Option Mon.

City commissioners agreed on a land-purchase option at their meeting Monday morning in City Hall.

The option would give the city the opportunity to buy 43 acres of land north of Sonora if the area should be needed to relocate the golf course and airport. The land is owned by G. H. Davis.

Possibility of the necessity to relocate the two city-owned facilities has arisen with proposals locating the new Interstate Highway 10 through the city property.

## Funeral Rites Held for Mrs. Nancy Davis, Member of Pioneer Ranching Family

Funeral services were held Sunday, March 6, at 2 p.m. at St. John's Episcopal Church for Mrs. Nancy B. Davis, member of a pioneer ranching family. The Rev. Rollin Polk, rector, and the Rev. Lea Roy Aldwell officiated.

Mrs. Davis died at her home Friday after a long illness.

The daughter of Mr. and Mrs. O. T. Word, she was born August 20, 1885, in Breckenridge.

The Word family, together with George Allison, moved here in 1887. At that time the town of Sonora had not been established, and the Words settled on what is now the Gene Shurley Ranch near the town of Wentworth, then located on the present site of the Edgar Shurley Ranch. In those days the family hauled its groceries from San Angelo in wagons.

Miss Word married John William Wilson on Dec. 20, 1903. In their early married life they worked on the ranch for the late Ira W. Word. Six years later the couple bought ranch land west of the Shurley Ranch. Mrs. Wilson later bought the Holcomb, Bryson, Liano, and Stuart ranches, which are now operated by her son, Duke Wilson.

She married Charles G. Davis in 1942.

Active in the community, Mrs. Davis helped organize the Sonora Women's Club and served as its president in 1927. She took an active part in the community library.

She was the oldest communicant of St. John's Episcopal Church. Survivors include her husband; one daughter, Mrs. Joe L. Sandlin of Blackwell; two sons, Ira Duke Wilson of Sonora and William B. Wilson of Iraan; six grandchildren,

## Charges Filed In Connection with January Burglaries

Burglary charges in connection with January break-ins at the Rock Inn and National Building Centers have been filed against Alfred Neill of Big Lake, according to Herman Moore, sheriff. Neill, who has made a statement concerning both burglaries, was arrested on burglary charges in Odessa. Moore said he had had a warrant out for Neill's arrest after the Sonora stolen goods had been pawned in San Angelo. Neill will be bound over for action by the grand jury which will meet this month.

## Ozona, Eldorado Favored At Relays Here Saturday

The 12th annual Sonora Relays will get underway here Saturday afternoon at 1 p.m. with area teams trying for the overall trophy.

The favorites will be Ozona and Eldorado with Sonora pushing hard for third. Ozona won its own track meet last week with the Eagle team coming in second.

All field events will begin at 1 p.m. with the finals immediately after the preliminaries. The running events begin at 1:45 and the finals in the running events will start at 7 p.m.

A tentative schedule for the running of the finals is as follows: 440-yard relay, 7 p.m.; 880-yard run, 7:10 p.m.; 120-yard high hurdles, 7:30 p.m.; 100-yard dash, 7:45 p.m.;

880-yard relay, 7:55 p.m.; 440-yard dash, 8:05 p.m.; 180-yard low hurdles, 8:20 p.m.; 220-yard dash, 8:35 p.m.; mile run, 8:45 p.m.; mile relay, 8:55 p.m.; presentation of team awards, 9:10 p.m.

In this 12-year-old meet Sonora has four records standing. The oldest among these was set in 1955 by Joe Renfro in the 120-yard high hurdles, his time being 14.8 seconds. Sonora's mile relay team composed of Jim Brown, Primo Gonzales, Danny Rutherford, and Buck Bloodworth ran a 3:33.1 mile to set the record for that event in 1963. Last year Sonora's do-everything track man, Bill Elliott, broke his own record in the broad jump with a leap of 22 feet 4½ inches and set a new high jump record of 6 feet 4½ inches.

Other current records in the meet are as follows: 44-yard relay—Griffin, Turner, Meador, Childress of Eldorado, 44.8 in 1964; 880-yard run—Clary of McCamey, 2:00.2 in 1963; 100-yard dash—Green of Richland Springs and Holmes of Big Lake, 9.8 in 1957 and 1962; 440-yard dash—Runge of Eldorado 51.6 in 1961; 880-yard relay—Cox, Childress, Ramos, Walters of Ozona, 1.34 in 1965; 180-yard low hurdles—Peck of Crane, 19.8 in 1962; 220-yard dash—Green of Richland Springs, 21.7 in 1957; mile run—Reiser of Eldorado, 4:42.3 in 1960.

Also in the field events: shot put—Pagan of Ozona, 52 feet 7¼ inches in 1965; discus—Hall of Eden, 158 feet 7 inches in 1962; and pole vault—Penny of Crane, 12 feet 6 inches in 1964.

#### 'I HATE IT'

There are many men in this country who are very capable writers and who make lots of money writing stories. Yet, writing is very hard work for them and they actually have to drive themselves to their typewriters.

Other men are highly successful salesmen. "You must like to sell," someone once said to a friend of mine. He made a wry face and answered: "I hate it!"

Then he confessed that sometimes he would walk around the block a half dozen times before getting up enough courage to go in and face a prospective buyer.

A young woman who plays the piano beautifully and with much pleasure confessed that, when she was a young girl, she hated the sight of a piano but her parents forced her to practice.

What do all of these things prove? Simply this: Even the experts in any line can't escape work that is always hard, and sometimes actually distasteful.

It is just one more proof of the familiar saying that you can't get anything worth while without working for it.

It is a good thing to remember when you begin to feel sorry for yourself because you have work to do. The men who get the breaks usually earn them.

A man may work for twenty years and then suddenly become famous in twenty minutes. In twenty minutes he gets the breaks, but behind him are twenty years of work and preparation.

O. Henry wrote for years without being able to sell a single story. At the time it probably seemed to him that he was doing work without being paid for it.

Gradually he became a master craftsman. Then he began to get the breaks. He collected pay for his years of toil at a rate as high as a dollar a word.

"Our plant is busy now," reported a sales manager whose firm was working day and night, "because even when times were hardest, we kept pounding away. We sowed the seeds of good will. Now, we are harvesting the rewards of our faith and work."

Getting the breaks is seldom a matter of blind luck. Behind the breaks which lead to success are usually years of endless toil, study, courage and faith.

## J. A. Ready To Consign Cities to Soil Bank

Editor's note: The Devil's River Philosopher on his bitterweed ranch on Devil's River is worrying about the cities, his letter this week indicates.

Dear editor:  
I knew a lot of cities were in bad shape financially, still I didn't know it had come to this.

Yet according to an article I read in a newspaper last night which a March wind left spread out against my front door earlier in the day and I pulled off since I was going through anyway, a city of 16,000 in Ohio is so broke and so run-down that a leading resident of the place said: "A lot of people think we'd be better off if we plowed the whole town under and started from scratch."

You mean to say they've come around to what I've been arguing, that we've got an over-production, a surplus, of cities? And that the only thing to do is to put some of them in the soil bank, or city bank if you want to urbanize the wording? Just take them out of use like a worn-out farm?

If you recall, big city papers and magazines are always arguing the small, marginal farmer ought to be allowed to face economic reality and go under, rather than be supported by Federal aid. Are they now going to argue the same thing about marginal cities? I'm not talking about metropolitan cities. The bigger the city, the shorter it is of money.

I know there are a lot of ranchers trying to make it on patched-up machinery and inadequate financing, but how many cities you reckon are in the same shape? Name some

that aren't.  
I tell you, when I read about this city and that big city trying to make ends meet, patching streets when they ought to be repaved entirely, needing more policemen and not having the money to hire them, crowding too many kids into school rooms, trying to pacify under-paid teachers, wondering what to do about slums, running low on drinking water, going broke with their transit systems, scrounging for more hospital rooms and nurses, floating one bond issue on top of another, etc., I tell you, when I read about that, I begin to take a more favorable attitude toward this bitterweed ranch.

Never has the country been more prosperous or the cities more busted. I will give some more thought to this just as soon as I figure out what to do about Viet Nam.

Yours faithfully,  
J. A.

**March 9, 1966**  
Fishing stories were flying thick and fast just before the cold snap Wednesday. Bob Vicars probably catches the most appetizing fish but Bob and Phoebe Kelley and R. A. McCoullough come by their hardest and lose them easiest. Their trip rang up three unexpected dips into the lake and tangling their string of fish in the outboard motor. Always excuses!

**Credit Is The Hinge On Which The American Economy Swings**

Like a pendulum it swings from one extreme to the other.

A good credit department is a basic part of the products offered for sale.

Credit makes it convenient for people to buy merchandise they need when they do not have ready cash available.

Credit makes it possible for them to buy better merchandise than they might buy if forced to pay cash.

Credit is no longer a service used by only those who do not have cash. It is a proven fact that, as a person's income goes up, so do his credit purchases.

Recognizing this fact, it is more important than ever that wise merchants check regularly the credit record of those who apply for credit.

Your credit bureau is able and anxious to give you this service that will help you increase your sales profitably.

Credit is only a means toward an end.

Credit, handled properly, is an inducement to buy.

Credit, handled properly, by the customer, also opens the door for future purchases and conveniences.

As the consumer, be sure you can meet the qualifications that will enable the merchant to offer you these things

### Enrollment Period For Medicare Open Through March 31

Thousands of people who previously said they did not want the medical benefits under social security, or were undecided, are now electing the coverage that will help pay doctor bills, according to Floyd B. Ellington, social security district manager at San Angelo.

One reason for the change, Ellington stated, is a recent announcement by a number of insurance companies. They have urged all their policy holders over 65 to enroll for Medicare. They have also announced that they will provide a new policy for those over 65, at reduced rates, replacing those now in effect. The new policies will supplement the coverage provided by Medicare.

"Anyone over 65 who has previously said he did not want or was undecided about this coverage has until March 31 to enroll," Ellington has announced. "A simple card form for enrollment is available at the social security office" Ellington said.

These included the electrical, hydraulic, air conditioning, pressurization and ejection seat systems. The jet engine and its related components were also covered.

This course prepared him for an assignment as a "Cougar" plane captain with an aviation squadron flying this type aircraft.

Before entering the Navy in March 1965, Noriega attended Sonora High School.

If the first part of your vehicle identification number is here, you might be a winner.

Here's how it works. Look at the first symbols (the prefix) on your vehicle identification slip. Then look at the symbols listed above. If you find yours on the list, you've taken the first step toward being a winner. Now go see your Buick dealer. He has a list of 72 winners posted in his showroom. If you see your entire vehicle identification number on the poster—the symbols plus the rest of the numbers—\$2332 cash is yours. (If your prefix isn't listed in this ad, don't give up. Your numbers may have been posted during the past few weeks. And every week there are 72 new winners posted on the showroom wall. So watch for next week's list of new symbols in this newspaper.) No slogan to invent, no puzzles to solve. In fact, you don't even have to own a Buick to have a winning number. While you're in the showroom, get a good look at the Buick Special. The \$2332.00\* happens to be its price. \*Manufacturer's suggested retail price for Special V-6, 2-dr. coupe. Price includes Federal Excise Tax and suggested dealer delivery and handling charge.

Contest Rules. Residents of Kansas, Missouri and Nebraska may, if they prefer, send in a postcard to R. L. Polk and Co., P.O. Box 1347, Detroit, Michigan 48231 and receive the weekly list of winning numbers by mail for comparison with their own vehicle identification number. An official entry form will be included. Sweepstakes limited to persons over 21 living in the continental U.S. Not valid in Florida or states where prohibited by law.

# STRONG CHURCHES Make STRONG COMMUNITIES

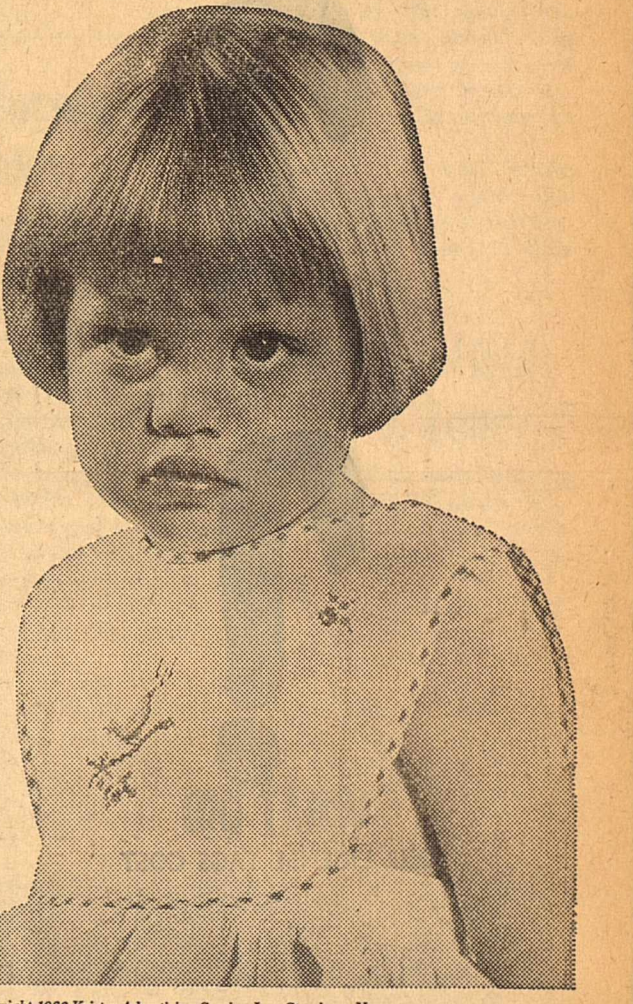

## WHERE DO THE STARS GO, MOMMY?

The big brown eyes are thoughtful, the small face earnest as Mary Anne considers the universe.

Sometimes our pint-sized inquisitor's questions are devastatingly funny, sometimes deadly serious; but always important. Harry and I may chuckle over them, but we never forget that these queries reflect Mary Anne's increasing awareness of the world about her. We know that our answers and attitudes are an important part of her development.

Another influential portion of Mary Anne's growth, we feel, has been her regular attendance at Church School. There, Mary Anne's experiences with other children have been related to God's plan. The tiny kitchen or play garage in the skilled teacher's capable hands becomes the training ground for Christian behavior.

How glad we are that our church is well equipped to guide our child in her religious growth. Attend your church. Take advantage of the inspiration and knowledge it is eager to share with you and your children.

### Trackmen Take Fifth Spot in Ozona Meet

by Gary McGilvray

The Sonora Broncos finished fifth with a total of 58½ points in the Ozona track meet last Saturday. This was the first track meet of the season for Sonora. Ozona won the meet with a total of 131 points followed by Eldorado, Bandera, Big Lake, Sonora, Junction, Iraan, Sanderson, and Comstock.

The two first place finishes earned by the Sonora squad came in the

100-yard dash with Eddie Howell running the century in 10.2 seconds, and in the 120-yard high hurdles won by Laney Cook in a time of 15.4 seconds.

Ed Lee Renfro finished second to Howell in the hundred, and Mike Wuest finished fourth in the discus throw and sixth in the shot put. Dennis Schmidt took a tie for fourth place in the high jump, while Noe Chavez got a fifth place in the pole vault. Johnny Ramos was sixth in the 880-yard run to round out the Bronco individual scoring.

In the relays Sonora finished second behind Eldorado in the mile, fifth in the 880-yard relay, and was disqualified in the 440-yard relay.

The track meet, being Sonora's first of the season, was not a clear indication of the capabilities of the Broncos and better things are expected from them as the season progresses.

AT HISTORICAL SURVEY MEETING

## Mrs. Dudley Lauds State Marking, Preservation

Mrs. L. E. Dudley of Abilene, a member of the Texas State Historical Survey Committee, speaking before a Regional Meeting of County Historical Survey Committees here Tuesday, said, "Texas has the most active and comprehensive marking and historical preservation program in the United States."

The Region 14 meeting was held March 7 at the Commercial Cafe and was one of 17 being conducted throughout the State this month by the Texas State Historical Survey Committee.

"We feel that 1966 will be the greatest year yet in the vital work of the Recordation, Appreciation, Marking, Preservation, and Surveys (RAMPS) of Texas History," Mrs. Dudley stated.

Commenting on the State and County RAMPS Progress, Mrs. Dudley said that in 1965, 1,297 official Texas historical markers were erected. In 1964, the first year of RAMPS, some 1,123 markers were awarded. This puts the 5 year RAMPS goal of 5,000 markers well ahead of schedule.

Last year statistics show that increased revenue from travelers generated by stops at official Texas Historical Markers; visits to historical museums, sites and parks; and attendance at historical programs resulted in over \$12,777,430 in increased revenue to businesses in the State.

An example of the projects of the committee is to recognize individual accomplishments and contributions to the economy of Texas. The Texas State Historical Survey Committee is cooperating during 1966 with the petroleum industry to commemorate the 100th Anniversary of the Oil Business in Texas. As part of this program, the birthplaces, homes, scenes of accomplishments or graves of "wildcaters", "promoters", and entrepreneurs of the Texas Petroleum Industry will be marked.

Mrs. Dudley went on to say the RAMPS covers many other phases of historical development. Since this program started, the number of historical museums in Texas has increased from 82 to 219. Last year, 15,561,700 persons visited these museums and stayed an average of 2½ hours each.

Mrs. Dudley announced that the State Historical Survey Committee has adopted an aggressive Historical Preservation program as its No. 1 project this year and is urging County Committees to cooperate. "While all the work of the State and County committees is historical preservation, this part of the activities is concerned with the actual job of preserving and restoring the tangible evidence of history", Mrs. Dudley said.

Mrs. Dudley also announced that

to encourage restorations of historic structures that exemplify some phase of the economic, cultural, political or social life of the community, or be related to the lives of historical personages, associated with some high endeavor or identified prominently with important events in history, the State of Texas through its State Historical Survey Committee will give Texas Restoration Awards to those authentic and faithful restorations.

The counties included in Region 14 are: Irion, Tom Green, Concho, Crockett, Schleicher, Menard, Sutton, Kimble, Val Verde, Edwards, Kerr, Real and Bandera. About 45 people from nine of these counties attended the meeting. Among those registering from Sutton County were Mrs. Collier Shurley, Mrs. George Brockman, John Eaton, G. W. Stewart, Mrs. J. T. Sellman, Mrs. Ben Cusenbary, John T. King, Mrs. Stanton Bundy, and Joe B. Ross, county chairman.

### Incumbents Seek Return to Office In City Election

All three city commissioners are seeking re-election to the commission in the election to be held Tuesday, April 5.

The incumbents are A. E. Prugel, currently serving as major, and W. B. McMillan and Fred Earwood.

Each has a record of over four years' service on the municipal governing body. McMillan was appointed Sept. 23, 1959, and has been re-elected for three terms, while Prugel was first elected in 1960 and has served three terms, and Earwood was appointed May 25, 1961, and has been elected for two terms.

### Teachers To Attend TSTA Convention; School Dismisses

While Sonora school teachers are attending the Texas State Teachers Association meeting Friday, March 11, in San Angelo, the day will be a holiday from school for local students.

Most Sonora teachers are scheduled to go to the meeting, which will be the 59th annual convention of the Mid-Texas Education Association.

Speakers slated for the meeting include Judge Harold Kessinger, internationally famous lecturer; Dr. John Furbay, director of cultural and educational programs for Trans-World Airlines; and John Lovelady, director of professional and college relations for TSTA.

"Ladies, please put off your mop-and-broom buying for just a little while," requests Jimmy H. Harris, chairman of the Downtown Lions Club annual broom sale.

Harris says he hopes Sonora women will delay buying new cleaning implements for spring cleaning until Tuesday, March 22, when the Lions will be going door-to-door selling brooms and mops for the benefit of the Lighthouse for the Blind.

### ANNUAL GOLF TOURNEY SCHEDULED APRIL 2 AND 3

April 2 and 3 has been set as the date for the third annual Sonora Invitational Golf Tournament by the Sonora Golf Club.

Woods and balls will be awarded to winners.

Entry fee will be \$12.50, and the first 96 golfers will be accepted. Entries may be mailed to Jimmy Harris at Stockmen's Feed Co.

### Albert Smith ... from Page 1

Smith, who says: "My daddy loves me—I can see it in his eyes. I will be going to school someday, and there will be changes as time goes by. That is why my daddy is interested in little girls like me and you, and little boys, too. That is why he wants to go to Austin and do his best to see that we'll have the best. He wants good teachers—willing, patient and true. He wants them well-paid for the good work that they do."

"He is for a life that is fair and just, and a home for all of us. He will work for every good thing that his counties need, because he will represent all of us. He is a believer in the county running the show, and if the government does it out the county should say where it will go."

"My daddy is a qualified man. He knows the language of the working man—the store keeper, the rancher, the oilfield worker, the real estate broker and the theatre, too. He has owned and worked in all of these and his experience will help him to decide how to vote. These fields can help be his guide, for he can talk on the levels of them all."

"My daddy is getting a little old and he knows the thoughts of the old. Their pensions are too small to have a decent life; therefore, he wants them all raised to buy the good things of life. He is a believer in strong and united America—a free society for every man—free enterprise for us all, and to quit worrying about DeGaulle. We have given away billions, so let's give ourselves a few million to see how it feels, like a bronc kicking up its heels."

"Free from fear and want is every man's goal, so let's work together—it's good for the soul. The good things of life all of us need, but you can't have this by just planting the seed. It takes time, toil and sweat to enjoy this life—and, above all, a good wife. My Mommy is good to Daddy and me. She goes to church where the candlesticks burn and she burns one to shine up on our Christ in our house at night. It looks real nice."

"My daddy believes there is good in every man—he just needs our helping hand. So please vote for my daddy if you can. I know he will make you a good man."
