School.

Spring cleaning can often turn up some odd items in old basements, attics and other storage places.

Recently while Oscar Galindo was dusting some of the record books in the County Clerk's office the cover of a book fell off to reveal an old newspaper concealed in the lining of the book.

The newspaper turned out to be a 1905 issue of the New York World.

In their excitement no one noticed what the book was immediate-

When they checked the book it turned out to be the register book from the old Decker Hotel for the years of 1902-1904.

At that time there were some four hotels in Sonora.

Erma Lee Turner, County Clerk, said that some of the dates apparently written by the desk clerk, were written in very fancy script. It could indicate that the desk clerk had a lot of time on his hands.

### Sonora G. I. Forum **Hosts District Meet**

The Sonora chapter of the American G. I. Forum hosted a District XI meeting here Sunday, May 21. State officials and district members were present.

Brownie Trevino of Dallas, state vice chairman, and Ralph Cesarez of San Antonio, state executive secretary, were present for the meeting held at St. Ann's hall.

New district officers elected include Pete Gomez, chairman; Pete of San Angelo, secretary; Pedro Galindo Jr., treasurer; Santiago Tambunga of Ozona, reporter; Samaniego, sergeant-atarms.

### Austin Report

By Hilary Doran, Jr.

As the regular session of the 60th Legislature nears its close, I am pleased to report the following: In the congressional redistricting plan that was passed by both houses this past week, eight out of the nine counties that I represent retain their same Congressman; the one exception being Menard County which was represented by Congressman O. C. Fisher now will be represented by Congressman Omar Burleson.

A bill has been introduced by Representative James Nugent of Kerrville which will allow the congressional districts to remain the same if the National Congress passes a bill that will allow tolerance factors to be left until the 1970 census when we will have to redistrict again.

I would like to comment that I could see we both had some- I believe the Supreme Court is one vote" a little too far and in fact has done the people of to 779, Inc.; 28 to 34, Inc.; Origibrand new field for lawyers and Texas an injustice by causing redistricting to take place again

## High School Students . . . Don't End Your Schooling! You'll Leave a Promising Future Behind

If you end your schooling with a high school diploma, you'll be closing the door on many opportunities which mean bigger paychecks, greater job satisfaction and more security in the future.

1. None of the professions will be open to you because these demand training beyond high school and of course such higher education must be preceded by a completion of high school.

2. On-the-job training for skilled and even semi-skilled work has been sharply reduced in recent years because there are now so many

people who have already been trained, in high school, to do the work.

Consider the job that is luring you away from college. The pay may look good now, but think about your chances for future advancement. And remember, the pay checks you receive during the years you should be in college will never make up for the money you earn later if you go to college. The educated person starts higher up the ladder and with the knowledge that's needed in order to climb faster.

As Benjamin Franklin said," An investment in knowledge always pays the dividends."
