Fireworks Of Presidential Campaign Close As Election Day Nears

The fireworks of the presidential campaign are in full swing. The differing approach to the issues of the day are gradually sharpening, and the American people, as it turns out, will have quite a number of choices to make between the two major party nominees, not to mention third party candidate, Mr. George Wallace.

people at this time, remains to be seen. Many fear that acceleration of a trend toward income redistribution will have a slowing effect on the very economic growth of the nation, which is counted on to generate the taxes to support the greater government participation in the economic and social development of the nation.

In the picture stands the hard-hitting, third party candidate, Mr. George Wallace. Mr. Wallace is a symbol of conservative protest, and many of those feeling deep dissatisfaction with the course of events in racial matters, law enforcement and states' rights may consider that their opinions will have impact only if they cast their vote for him.

For an election year that was supposed to offer no excitement and no choices, this one has held many surprises. The voters of the United States have not yet made up their minds. As experience has proven many times in the past, they probably will not do so until they actually enter the polling booths and mark their ballots on Election Day, November 5, 1968.

THE DEVIL'S RIVER PHILOSOPHER SEZ... Need Grows For One Spot In World Used As International Trouble Area

Editor's note: The Dry Devil's Philosopher on his bitterweed ranch on Dry Devil's apparently has a lot of problems on his mind, his letter this week indicates.

There are too many things to think about in this world and it's getting worse all the time. For example, I woke up this morning and the first thing I read in today's newspaper was a headline: Trouble Breaks Out In Panama.

Now up to then I hadn't given a moment's notice to Panama, outside of knowing there's a canal down there, being occupied with the Presidential election, state and local elections, the Supreme Court, Vietnam. Paris peace talks, the Israel Jordan problem for October, Czechoslovakia, Biafra, the astronauts, law and order, a weak battery and winter coming on, high hospital costs in case I get sick, football, in-laws, etc., although these aren't necessarily listed in the order of importance. There are some global problems that can't hold a candle to some in-laws.

The point is, with all the domestic and national problems a man has to deal with, it's unfair to load him down with constantly changing international problems. I call on the world once more to establish an International Trouble Spot. Just pick out one place, stock

Friendship is one of our greatest possessions. Let us lose friends without realizing it because we take them for granted. It would be well for all of us to put this assessment of friendship in a place of honor in our homes and in our hearts.

Letter TO THE Editor

(Editor's note: The following is a letter from Rep. Rex Braun, member of the House of Representatives from Harris County, stating why he is against the adoption of Amendment Six.)

Texas must be alerted to Amendment Six on the general ballot. This is one of the most outrageous tax-subsidy schemes ever attempted to be foisted off on an unsuspecting public. If approved by the voters it would authorize the Legislature to enact a law exempting industrial pollution-control equipment from all ad valorem property taxes imposed by the State, counties, cities, school districts, junior college districts and all other political subdivisions.

Of course this tax-loss would then have to be made up by the homeowners. In Michigan the tax loss for air pollution control equipment has been 134 million dollars. The best estimate of the tax burden that the homeowners of Texas would have to make up, if all of our air and water pollution control equipment is exempted from all property taxes, is in the neighborhood of 150 million per year, and it could skyrocket to a figure well above that amount.

Since I represent the most heavily polluted area in the State I would pay any price and support any proposal which offers a reasonable promise of reducing air and water pollution. But all experience in the few other states which have adopted this method proves beyond all doubt that the tax subsidy approach does not contribute one iota to any reduction in either air or water pollution.

I have voluminous correspondence with public health officials in other states, and each one tells me that the key to reducing pollution is strict enforcement of existing Federal and state anti-pollution laws and the enactment of tougher laws where needed. Subsidizing polluters to do what the law already requires them to do is a permissive approach which has not worked where tried and which must be rejected by the Texas voters.

Amendment Six is a pig-in-a-poke proposition. The enabling legislation has not yet been passed; in fact, it hasn't even been seen. We don't know what kind of a tax-subsidy bill the industrial polluters will force through the next Legislature if Amendment Six is approved, and we don't know exactly how much of their tax tab we will have to make up out of our own pockets.

Join the tax rebellion. Vote against Amendment Six. Sincerely, Rep. Rex Braun, Harris Co.

"It Pays To Stay In School"

Take a tip from the experts, "It pays to stay." That full-time job paying \$60 a week probably looks good to you if you are in school and never seem to be able to buy the things your classmates have. But, Finance Facts, a monthly newsletter on consumer behavior published by the National Consumer Finance Association, offers dramatic proof that it pays to stay in school.

At the age of 19, those who have completed elementary school and are working earn about the same as high school graduates because they have the advantage of exper-

ience. But, as the two classifications grow older, the income gap widens. At age 21, four years of high school on the average, will return 16 percent more income, and 33 percent more over a lifetime. A high school education will return about \$341,000 in contrast to an elementary school education which yields \$247,000, over a lifetime.

The average high school graduate reaches an annual income peak of \$8,387 at age 43, as opposed to the elementary school graduate who reaches his peak of \$6,054 at age 44.

Sunday afternoon the men held their annual point system Tournament. John Bell's team won first place, and his team consisted of Buddy Brown, George Barrow, and Lea Allison.

Number two team belonged to Oliver Wueck, and his partners were Jackie Sharp, John McClelland, and Bill Tittle.

The number three spot was tied by the teams of Batts Friend, and

Wilfred Berger. Batt's team consisted of Dub Black, Web Elliott, and Roy Gilmore. Wilfred's team mates were Bud Smith, Cullen Luttrell, and Hillman Brown. All together, thirty-five men took part in the Tournament.

And then there was the team of Pauline Thompson and Marilyn Bloodworth — now that was a 'bravesome, twosome'. I saw some of those shots the men got off on number one tee box — some were pretty wild.

Party Honors Recent Bride

Mrs. Gene Wallace, Mrs. R. W. Wallace, and Mrs. Lin Hicks honored Mrs. R. D. Johnson Jr., with a recipe and "gadget" shower in the Hicks home October 17.

The serving table was centered with a floral arrangement and miscellaneous trinkets.

Guests at the party were Mrs. Johnny Merck, Mrs. Jimmy Powers, Mrs. Buddy Ingham, Mrs. J. F. Howell, Mrs. Jimmy Cahill, Mrs. Glen Richardson, Mrs. Gus Eustace, Miss Kari Eustace, Miss Susan Prugel, Miss Diana Black, and Mrs. R. D. Johnson Sr., of Eldorado.

By the way, I notice on my Green News pad, a notation has been made to the effect that, and I quote, "Old Pro Buster Shroyer was not permitted to enter the tournament unless Arnie Palmer entered to compete with him." Close quotes, and I think I know who the 'news snatcher' is. Just wait 'til I get you home!!

Sonora Broncos have overcome another obstacle on the way to the district 8A title. The Broncos downed highly rated Mason 20-7, in Mason Friday night. The Broncos test hapless Eden in Bronco Stadium beginning at 7:30 tomorrow night.

Our "B" team also defeated Mason 12-6 while the eighth grade lost by a 30-0 margin. The seventh grade eased by their hosts by a 6-0 score. "B" team and junior high teams will be idle in accordance with the carnival. Some of the older "B" members may get the opportunity to play Friday night.

The Halloween carnival will be held tonight with the parade getting underway at 5 p.m. Prizes will be awarded to the funniest, most original, and spookiest in each class. Special prizes will be given to overall winners.

Candidates vying for the honor of reigning over the carnival are Rita Kniffen, senior; Evelyn Lowe, junior; Dottie Hollmig, sophomore, and Loida Urias, freshman. The winner will be announced prior to the parade and immediately after that the newly crowned queen will declare the carnival open.

A talent show will be sponsored by the Speech Club again this year. The performance will be a Negro minstrel. There will be only two showings, the first beginning at 6:30 p.m. This show will include singing, dancing, and a touch of Negro humor. Miss Lois Dolan is the director of this production.

Girl's Athletic Association will sponsor the cake walk. Each member of this organization makes a cake to be given. No wonder you notice so many people getting sick after winning.

Industrial Arts Club annually sponsors the teddy bear throw. The object is to throw a ring over a coke bottle neck. After ringing three in succession you will win a stuffed teddy bear.

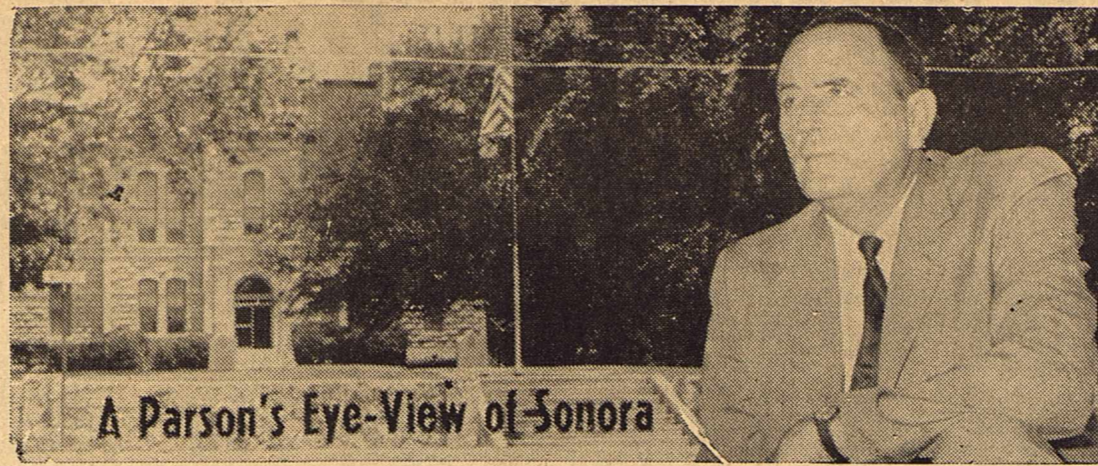

SHS band will sponsor a booth. Prizes are donated by downtown merchants. The generosity of the merchants is amazing!

Freshmen are having a dart throw. Seniors, this is your chance to eliminate a few troublesome freshmen! You can't help it if you are an inaccurate dart thrower can you?

Sophomores are having a white elephant sale. I guess I'd better explain, so all the "smart" freshmen will know that you don't really sell elephants. Freshmen, a white elephant sale is selling of junk that is just sitting around collecting dust (not including younger brothers and sisters.) You might know the "lazy" juniors would choose a booth where they can sell before the carnival and not have to work during it.

Seniors probably have the best job of all—the concession stand. The way everybody in Sonora eats, they ought to have money running out their ears. I wonder if the seniors eat what's left over?!

A Parson's Eye-View of Sonora

BY THE REV. ROSS T. WELCH

Anyone who drove the hundred miles to Mason, give or take a few, and the same miles back last Friday night got his money's worth. It was so exciting that heart patients had to get up and leave.

The first quarter was a defensive battle, played hard by both sides. It passed so quickly, so far as spectators were concerned, that many persons gasped audibly as the signal ending the period sounded. The second period was rather disappointing so far as the Broncos were concerned. Penalties backed them up to their own doorstep and the Puncers punched one across.

Our boys missed a beautiful scoring opportunity when David winged a near-perfect pass to Thurston who was well down in Mason territory and nothing between him and the goal line, but Thurston could not hold the ball.

Someone asked coach what he said to the boys at the half and he answered, "I wish I could remember." There was no doubt in anyone's mind during the second half that there was a new spirit in the Bronco camp. From the kick-off at the half they marched the ball by short gains back across the Puncer goal line.

The gamble for the two points necessary to put them ahead failed. By that time Sonora sympathizers were quite certain that the Broncos were not to be denied. A fumble a few seconds after they kicked off to Mason gave them their big break, a chance to recover the ball—deep in Puncer territory.

It did not take long to score. This time the Broncos gained their two points to make the score 14 to 7. This ended the scoring until near the end of the game when Ed Lee shook off several would-be tacklers and out ran the

Balch. The program includes films on drug and drug addiction with discussions immediately following.

This week's film will be concerned with LSD and marijuana. This program begins at 6 p.m., and lasts for about an hour. Refreshments will be served.

field for another thrilling t.d. I felt right sorry for the Mason fans. They had come to this game with visions of a State championship shining in their eyes and a desire to get even for some previous years when the Class A Broncos had ruined their pre-season record as an AA school. Before the game ended, many of them stumbled out of the stands disappointed and crestfallen.

The Puncers played a clean hard game and deserve a lot of respect. It does look like Mason could afford a better stadium and the traffic bottle-neck following the game is inexcusable. They must face this problem at every community gathering and it could certainly be remedied without much cost.

Anyway it was a good game and ought to give our varsity the punch and inspiration to go a long way down the glory trail. Of course they have to remember to play a game at a time; they cannot take Eldorado or Junction for granted.

Comparative statistics add up to nothing; Sonora beat Rankin, who beat Big Lake who, in turn, took the Broncos.

The young people who solicited funds for C.R.O.P. Sunday afternoon had set a goal of \$200.00. First check on receipts showed they had come within five dollars of their goal, which assures success. Some hungry people somewhere in the world will be grateful to those who cared enough to share and to the young people who

took their Sunday afternoon to make the need known. The Rev. Stuart Firnhaber directed the campaign in Sonora.

Tom Davis brought one of his favorite dogs to Dr. Joe David Ross Tuesday morning. The dog is fourteen years old and a good hunting dog, but he got into a fight with a 'varmint' Monday and one foot was torn up pretty badly.

Freeman Mears may not make much money serving church dinners to visiting delegations, but he certainly is building a district-wide reputation for preparing good barbecue. It is not uncommon to hear the expression, "This is the best barbeque I have ever tasted."

We visited with former Sonoran Ira Shurley at the District Conference held here Monday.

I regret that I have not had the privilege of visiting on Bill Wade's ranch where he is feeding his flock of wild turkey nor Billie Galbreath's spread when he is feeding his deer. Both sights are very impressive I have been told by those who were eye witnesses.

Hunting conditions should be very near to perfection this hunting season in Sutton County. Jim Menzies even reports wild turkey roosting in his front yard, across the street from City Hall. Too bad he lives next door to the deputy sheriff.

the Booster's Club, announced at a since we have been there so recently. well - attended meeting Monday night. "The game with Eden Friday night will be the last home game until we start the play-offs." When I told some of my brethren at the district conference that I did not even own a hunting rifle, they shook their heads gravely and may be a bit presumptuous, should we play Rankin in the bi-district man stationed at Sonora who doesn't even hunt."

Notice!

Hunting season is just around the corner, and processing the great number of deer brought in by hunters usually strains our capacity to fill orders for custom processing of meats.

We urge you to anticipate your needs and order promptly so that we may complete your processing before hunting season opens.

TIPS FOR OUTDOORSMEN
by Vern Sanford

Countless hours of fishing pleasure are provided a considerable number of people by stock tanks or farm ponds.
Nowadays it is rare to find one of the diminutive man-made ponds that is not stocked with fish of various species.
A pond is not unlike a large impoundment. For the first few years of its existence it provides excellent fishing. Then it starts sliding downward. Fishing goes sour.
A common problem in a small pond is too many fish, rather than too few. Prolific fish reproduce faster than they can be caught. Soon the end result is a stunted population. Then most of the fish caught are small.

When used correctly the chemical removes everything, from sun-perch to catfish and bass. On some larger ponds, a 100 per cent kill may not be realized. But enough fish will be removed so that any young bass, sunfish and catfish put in will survive and grow. Ideally, the pond should be treated about four weeks before it is to be restocked. This is ample time for all the effects of the rotenone to vanish.
Within a year or two, the pond will start producing topflight fishing again, and will continue to do so until it goes sour.
Then it is time to kill the fish and start over again.

Card of Thanks

We wish to express our heartfelt gratitude to the members of the Church of Christ in Sonora and the Cedar Hills Church of Christ for their kindness and help in sitting with Mr. Davis of Eldorado. May the Lord bless each of you according to his will.
Sincerely,
Mrs. E. T. Davis & Family

Some people have the idea that a fish must be a certain size to spawn. This is not true. Age, not size, is the determining factor. It isn't uncommon for even a four-inch bass to spawn if she is old enough.

Aquatic biologists recommend that no fish from a pond should be returned once caught. Yet most people find it difficult to keep everything they catch.

Bill Kuykendall, who owns a ranch near the small community of Kyle in Central Texas, has some ponds that offer excellent fishing. Bill keeps close check on his fish population. He even fertilizes the lake bed to grow more food for the fish to eat and he develops aquatic plants to help keep the water pure and clean.

"You've got to manage fish just like you manage cattle or other livestock," says Kuykendall.

A pond is an individual thing. No two are alike. For this reason, it is difficult to speak of them in generalities. Each one must be handled differently.

Some ponds hold up remarkably well for many years. But others seem to start downhill within a few short years after they are built and stocked with fish. One fact stands out—every pond needs to be cleaned out periodically and restocked.

Jimmy Hefner is a former biologist with the old Texas Game and Fish Commission who now is in the business of treating ponds for farmers and ranchers.

According to Hefner, fish should be chemically removed from a pond at least every seven to 10 years. This is the maximum.

Most common chemical used for this eradication is rotenone, which is harmless to both livestock and humans. It eliminates the fish by suffocation.

When a pond is treated with rotenone, it is possible to save some of the fish, to return them later. But mostly it is wise to get a complete new stock of young fish from a hatchery and start all over again.

"Usually I can save the catfish in a pond by immediately getting them to fresh water once they come to the top," Hefner said. "But bass are almost impossible to save—once the rotenone reaches their gills, they're through."

Strategy

It's Tim's move, and he is taking a long time thinking it over. In chess, if you're a good player, you don't play quickly. If you do, your opponent may outwit you.

Military strategy, they say, is based on the rules of chess. So are many of the "higher games" in business and finance. Yet, when it comes to life itself, the rules of chess apply in only a limited way. In life, you can't be totally objective. You can't exist on logic alone.

The Church teaches that though we surely need logic in order to live successfully, we also need compassion, tolerance, love, understanding, and the strength that comes with faith.

Although life is not a game, we must have the help and strength of the Church to discover those rules that will determine our ultimate destiny.

SAMPLE BALLOT

INSTRUCTION NOTE:

Vote for the candidate of your choice in each race by placing an X in the square beside the candidate's name. You may vote a straight ticket (that is, vote for all the candidates of a certain party, and for no other candidates outside that

party's column) by placing an X in the square beside the name of the party of your choice at the head of the party column. (If you use this straight-ticket method of marking, do not mark squares beside the names of individual candidates.)

No. 1	<input type="checkbox"/> FOR <input type="checkbox"/> AGAINST	The Constitutional Amendment amending Subsection (a) of Section 62, Article XVI of the Constitution of the State of Texas relating to the Employees Retirement Fund and the Employees Retirement System of Texas, revising provisions for investments of moneys and other assets of the Fund, and changing other existing provisions and making other new provisions with respect to the administration of the Employees Retirement System.	No. 7	<input type="checkbox"/> FOR <input type="checkbox"/> AGAINST	The Constitutional Amendment continuously reducing State ad valorem property taxes and abolishing all State ad valorem property taxes after December 31, 1978, except the tax levied by Article VII, Section 17, for certain institutions of higher learning.
No. 2	<input type="checkbox"/> FOR <input type="checkbox"/> AGAINST	The Constitutional Amendment raising the limit on the amount that may be expended in any one year out of state funds for Public Assistance payments only to Seventy-five Million Dollars (\$75,000,000).	No. 8	<input type="checkbox"/> FOR <input type="checkbox"/> AGAINST	The constitutional amendment removing certain provisions relating to purchase of fuel and furnishing the rooms and halls of the Legislature and the requirement that the Governor, the Secretary of State, and the Comptroller must approve certain contracts of purchase.
No. 3	<input type="checkbox"/> FOR <input type="checkbox"/> AGAINST	The constitutional amendment providing for investment of the Permanent University Fund by the Board of Regents of The University of Texas in certain types of securities within the prudent man rule.	No. 9	<input type="checkbox"/> FOR <input type="checkbox"/> AGAINST	The amendment to Section 48a of Article III allowing contributions to be made on the basis of full salary of members of the Teacher Retirement System of Texas.
No. 4	<input type="checkbox"/> FOR <input type="checkbox"/> AGAINST	The amendment of Article III of the Constitution to provide that Dallas County may issue road bonds under Section 52 of Article III upon a vote of a majority of the resident property taxpayers voting thereon who are qualified electors of said county, and to provide that bonds heretofore or hereafter issued under Subsections (a) and (b) of said Section 52 shall not be included in determining the debt limit prescribed in said Section.	No. 10	<input type="checkbox"/> FOR <input type="checkbox"/> AGAINST	The constitutional amendment authorizing the Legislature to provide for the refund of the tax on cigars and tobacco products sold at retail within the corporate limits of Texarkana, Texas, or any incorporated city or town in Texas contiguous to Texarkana.
No. 5	<input type="checkbox"/> FOR <input type="checkbox"/> AGAINST	The constitutional amendment providing the members of the Legislature shall receive as salary an amount not exceeding Eight Thousand, Four Hundred Dollar (\$8,400) per year.	No. 11	<input type="checkbox"/> FOR <input type="checkbox"/> AGAINST	The constitutional amendment authorizing the legislature to provide for consolidating governmental offices and functions and allowing political subdivisions to contract for performance of governmental functions in El Paso and Tarrant counties.
No. 6	<input type="checkbox"/> FOR <input type="checkbox"/> AGAINST	The Constitutional Amendment giving permissive authority to the Texas Legislature to exempt from ad valorem taxation by the State of Texas and its political subdivisions equipment installed on real property to eliminate or abate harmful effect of air emissions and water effluents, provided that the capital investment in such equipment complies with the air and water quality standards established by the State of Texas.	No. 12	<input type="checkbox"/> FOR <input type="checkbox"/> AGAINST	The constitutional amendment to give the Legislature the power to authorize cities and counties to issue revenue bonds for industrial development purposes.
			No. 13	<input type="checkbox"/> FOR <input type="checkbox"/> AGAINST	The constitutional amendment to exempt certain property temporarily stored in a public warehouse from ad valorem taxation.
			No. 14	<input type="checkbox"/> FOR <input type="checkbox"/> AGAINST	The constitutional amendment fixing the time which members of the Legislature shall be ineligible to hold other offices.

Two factors may cause some balloting confusion in the November 5 general election, election officials in Texas forecast this past week.

The two factors are:

1. A new State Law has inserted a new top line on the paper ballots, so that persons desiring to vote a "straight party ticket" may do so by making one mark. This new line is expected to confuse not only the "straight ticket" voters,

but also the "split ticket" voters.

2. "Split ticket" voters are expected to be more numerous than ever before, especially since there is a third party, the American Party, and it has candidates for only President and Vice President and no other offices.

Voters are cautioned to be sure their ballots are properly marked so that their intentions will not be subject to interpretation by election officials.

The "scratch" method of voting, which some people prefer, is still permitted. However, voters using this method are cautioned to be certain to mark through all names in all three party columns for which they do not wish to vote.

EDMUND W. ROBB

Methodist Church Plans Mission November 3-10

The Reverend Edmund W. Robb, Methodist evangelist, will conduct a preaching mission in the First Methodist Church November 3-10.

The Rev. Mr. Robb was appointed an evangelist of The Methodist Church in June 1966. He has organized the Ed Robb Evangelistic Association, with headquarters in Abilene. The non-profit corporation has a 36 member board of directors headed by Methodist lay leader, C. W. Brown of McCarney.

Joining the evangelistic team are Gene Moore, Methodist minister and singer, and his wife, Bobbie, a vocalist and pianist.

Before going into full time evangelism, Mr. Robb was pastor of St. Paul Methodist Church in Midland. During this time he received 830 persons into the membership of the church, making it one of the fastest growing churches in the Northwest Texas Conference.

Since going into full time evangelism, Mr. Robb has preached in five states. The team recently made a trip around the world. He preached in Japan and led crusades throughout Indonesia.

The Ed Robb Evangelistic Association sponsors the "Challenge For Living" broadcast on stations throughout the southwest.

Patti Richardson, and Rick Street Are 1968 4-H Gold Star Award Winners

The annual Sutton County 4H Achievement Program was held at the Sutton County 4H Center, Tuesday, October 29, 1968.

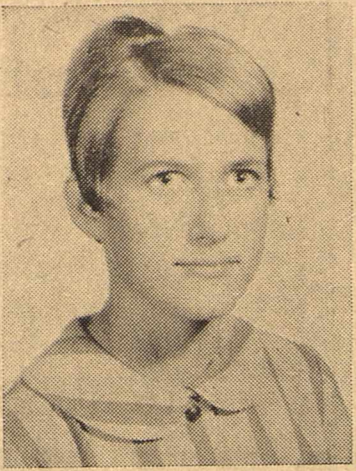

Outstanding 4H members, 4H leaders and friends of 4H were honored during the program.

Patti Richardson, daughter of Mrs. Janita Richardson of Angleton and O. L. Richardson, Jr. of College Station was named the Girls 4H Gold Star Award winner for 1968 in Sutton County. Miss Richardson has been a member of the Sutton County 4H Club for the past six years. She has been a member of three State Champion 4H judging teams and won many honors at major livestock shows judging plants. Miss Richardson has carried on Fat Lamb projects, horse projects and has done an outstanding job on the recreation committee.

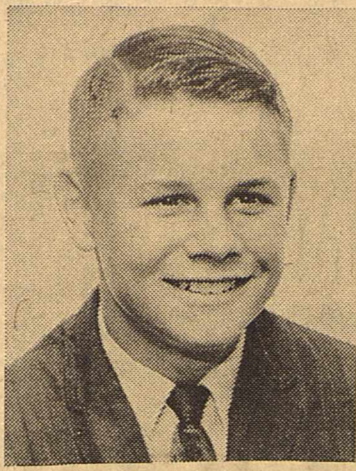

Rick Street, son of Mr. and Mrs. Dick Street of Sonora, received the 4H Gold Star Award for boys. Street has been a member of the Sutton County 4H Club for five years. He has done an outstanding job of judging wool, mohair, plants and range. He has been on three State Champion 4H judging teams and the high Junior and Senior teams at the Sonora Wool and Mohair Show. Street has been the overall high individual judge at the Sonora Wool and Mohair Show and the State Champion 4H Grass Judge in 1968. Street's demonstrations have included sheep, Angora goats and breeding sheep. He has been a junior leader in judging for the past two years.

The Gold Star Awards are presented by the Texas Agricultural Extension Service to the outstanding 4H boy and to the outstanding 4H girl in each county in Texas. This coveted award may be won only one time by a 4H member.

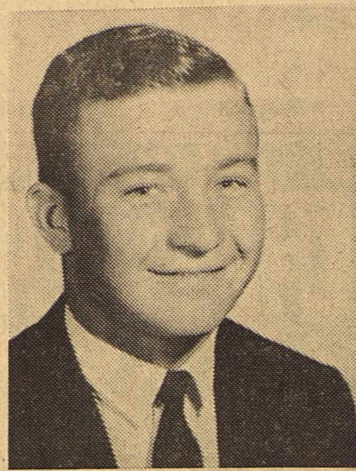

Mark Jacoby, son of Mr. and Mrs. Philip Jacoby, received the J. T. Rutherford Achievement Award presented by former Congressman J. T. Rutherford to the outstanding 4H Club boy in District 6 for 1968. Jacoby has been president of the Sutton County 4H Club for three years, is currently chairman of the District 6 4H Council and is a member of the State 4H Council. He has participated in livestock, grass, range, wool, and mohair judging. He has been on three state champion 4H judging teams, two overall high teams at the Sonora Wool and Mohair Show, was the State Champion grass judge in 1965 and was the high individual in District livestock judging in 1968.

B-Team Over Mason By 12-6 Score

by Rick Hill
The Sonora B team added another win to the season record Thursday, October 24, by turning the tables and branding the Puncheders in a 12-6 victory.

All of the scoring came in the first quarter, with James Noel starting things off as he romped through Mason's defense for a 50 yard touchdown.

This glory was short lived as a Sutton to Taylor aerial racked up another 6.
The Puncheders lone score came late in the first quarter as they pushed over from the one after a long drive. It looked as if they would score again on the final play until a fleet-footed Ricky Street came out of nowhere to stifle their scoring hopes.

The B team plays Junction on the Broncos home field November 14.

A&M, Texas Join To Back Passage Of Amendment 3

The University of Texas and Texas A&M have joined forces—at least until November 5th. Alumni and friends of both schools have formed a committee to get out the vote for Constitutional Amendment 3 on Election Day.

The group is known as the Committee of 300 for Amendment 3 and is composed of volunteers throughout Texas. It is responsible for informing the public about Amendment 3. Co-chairmen of the committee are Jack S. Blanton and Jeff Montgomery. The men are presidents of the University of Texas and Texas A&M Alumni Associations.

Amendment 3 would permit more of the Permanent University Fund to be invested in certain types of securities under the prudent man rule.

Things to remember in smoke:
1. Heat and most toxic fire gases rise. This means you should crouch or crawl to avoid the most dangerous atmosphere.
2. Take short breaths, breathing through your nose. Avoid gulping large lungful of smoke.
3. Cover your face with a cloth (preferably damp) to help filter out smoke.

Card of Thanks
We very much appreciated your many expressions of sympathy and concern in our recent loss. Mr. and Mrs. Bob Snodgrass and family. 1N8

Letter To The Editor
Here is your old hard-headed conservative Democrat again, and I am still a Democrat. But after all the promises we have heard how can anyone believe any one of the candidates? I don't like any of the 'give-aways' and think everyone ought to have to sweat a little for the money that is handed out. I remember how everyone, especially the Republicans, and even myself felt about Roosevelt's PWA. But those on it at least had to lean on the shovel. That was under the Democrats, but at least people could buy their groceries with that dollar a day.
One thing about Mr. Roosevelt—he put out a feed loan or I wouldn't have had a little ranch or lots of other men in Sutton County. It was not a give-away program. You gave them a note every month and got your feed. You paid 6 percent on the loan. A few crooks beat it, some men went broke and couldn't pay, but the program gave lots of people jobs. When the feed loan books closed out some 10 or 15 years later they had made the government some \$8 million dollars. That's my kind of government.
I've been told by some of my good Republican friends Roosevelt started all these bad things. And now under Johnson they say he has done all the bad things. I know him personally. There are some people in Washington who would give \$1 million to get something on him.
I say it is the people, every last one of us, who have caused all the young people not to have to work. Their mothers work. The children of today raise themselves. They want something for nothing. It's like an old friend told me a long time ago. He had helped a

lot of men and had never had to pay off but one note. Up to that time, "and if that man had lived long enough and made it he would have paid every cent he owed me."
Well, that has all changed. He would get beat out of everything today. Men don't go on other people's notes today. A wonderful change. What if our stores were like they used to be? Anyone went in and charged. You could walk in our Sonora Motor Co. and drive out in a Ford and say charge it. How long would Joe Hull stay in business if he did that today?
What I'm trying to say is it is a changing world. The people that are howling the most are the ones making the most money and beating the government out of the most income tax. I say all ought to pay their part to make everyone's tax a little smaller.
We in West Texas are all having it easy. I belly-ache but I don't blame our warehousemen when there's no market for our wool and mohair—like some people. I'm awful dumb, but I know it. I just have to work a little harder. My idea is if the people would be a little more careful about the people they sent to Washington—get rid of 90 percent of the old ones in there—we would be a lot better off.

We have to have a president that has some guts, or backbone. We had one once—Harry S. Truman. He was cussed even more than Johnson. One of our best and most wonderful men said this—we were standing around belly-aching about everything and he said "Stop worrying, we will have a George Washington come along and get us out of this mess."
Well, we sure don't have him this election year. I sure would not vote for a Hitler. I could not vote for a man that got up in politics hanging on the coat tails of a hero. I will just say I'll have to stay a Democrat. I was never given anything, but I don't want anyone to give me anything. I wish they could throw all the "gimme" stuff in the ocean.
But there are smart men in our town and in Washington. I will vote how I please and you vote how you please.
I don't believe anything any candidate has said.

PLACING THE FINISHING TOUCHES on her jack-o-lantern is Holly King, two-year-old daughter of Mr. and Mrs. John T. King. Thursday night Holly will join hundreds of other Sonora goblins in the yearly night of fun-making and masquerading. No Halloween night, of course, would be complete without a visit to the Halloween carnival and a trick-or-treat visit to the homes of the neighborhood.
