PRICE TEN CENTS

ONE OF SONORA'S SENIOR CITIZENS, Mrs. Robert Rees, 97, eagerly awaits the first day of city mail delivery. To her and many other older persons, mail delivery will be a welcome addition to city progress.

## City-Wide Mail Delivery Scheduled For Saturday

The local post office department will begin city-wide mail delivery Saturday morning, and in all probability postal employees will be

### Mr. Clayson White Services Held

Mr. Clayson White, 46, died in Hudspeth Memorial Hospital at 3 p.m. March 22, 1969, following a long illness. He was born here May 8, 1922, and had lived in Sutton County, most of his life.

Services were held at St. John's Episcopal Church March 25, with the Rev. Norman Griffith officiating. Burial was in Sonora Cemetery with Ratliff-Kerbow Funeral Home in charge of the arrangements.

Survivors include four brothers, his twin, Clayton White of Christoval, Dr. Troy White of Athens, Lt. Col. Lee W. White of Austin, and Bob White of Garden Grover, California; a sister, Sandra White of Orangedale, California; also five nieces, four nephews, and his aunts, Mrs. J. C. Stephens, and Mrs. R. V. Cook.

Serving as pallbearers were Tommy Thorp, James D. Trainer, Melvin Shroyer, George Wallace, Gene Shurley, Gene Wallace, and Jesse G. Barton.

faceted with a number of problems in the early days of delivery, but postmaster James D. Trainer believes that most of the difficulties can be overcome in short order.

One problem is the proper installation of mail receptacles, that is, whether the receptacle is to be mounted on the house or curbside. This depends on the type of delivery a particular area is to receive, and can be determined by reading the notice sent out by the department to all postal patrons.

Trainer said houses should have numbers displayed except for those places where curbside delivery is to be made, then the numbers should be placed on the mail receptacle.

Most places have had a number assigned, and persons who are not sure of their house number can check with the local postal workers who will help ascertain the correct number. Although it is not the responsibility of the post office department to do so, Trainer has worked with a number of persons and has made suggestions as to the suitable house number for a particular place.

Another problem facing merchants and local businesses is the accurate addressing of city mail. Most merchants have been asking

their customers for address changes when charge purchases were made in order to speed delivery of mail.

Mail delivery will be made once daily, with delivery to begin about 10 a.m. or possibly earlier, in the downtown area. Horace Hill, who has worked in the local post office for the past nine years, will assume the delivery duties. As of Tuesday, the carrier vehicle had not yet arrived, but one is expected soon.

Trainer said about 200 persons had indicated they are ready for mail delivery, and it is expected that more persons will gradually change over to carrier delivery

service during the next few months. He added that the gradual switch would probably be best for postal employees and patrons alike for a smoother transition from post office boxes to carrier service.

### Sonoran's Father Buren A. Whitten Last Rites Held

Buren A. Whitten, father of two Sonorans, of Eldorado died in Hudspeth Memorial Hospital March 19, 1969, at 1:30 p.m. after a long illness.

Mr. Whitten was born December 24, 1899 in Stevens County. He was married to Zeela Mercer in 1935 in Eldorado. He was a Baptist.

Survivors include his wife; five daughters, Mrs. Eloise Wright of Fort Worth, Mrs. Betty Brussard of San Antonio, Mrs. Herman Davis of Big Lake, Miss Lisa Whitten of Eldorado, and Mrs. Jonnie Morman; three sons, B. A. Whitten Jr. of Dallas, William W. Whitten, currently in the U. S. Navy, and John Thomas Whitten; a sister, Mrs. Mattie Royster of Eldorado; two brothers, Lewis Whitten and C. M. Whitten both of Eldorado; 10 grandchildren and a great-grandchild.

Services were held March 21, in the First Baptist Church of Eldorado, with burial in the Eldorado Cemetery directed by Ratliff-Kerbow Funeral Home.

MAIL RECEPTACLES have different meanings for different people as demonstrated here by Dennis Brown, son of Mr. and Mrs. Buddy Brown, who thinks his neighbor's mail box makes a fine horse for a young cowboy.

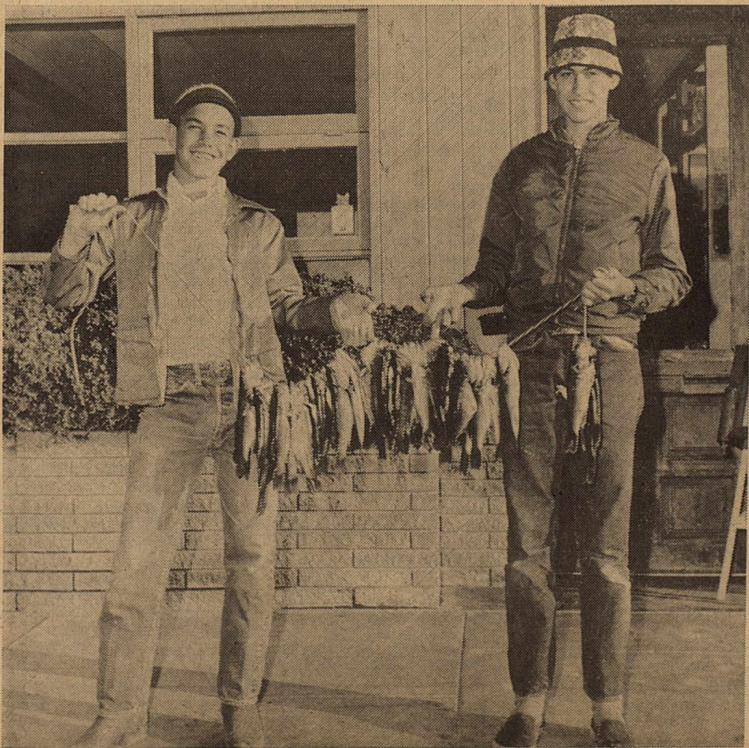

### Monte Dillard Signs With Rams

Monte Dillard, son of Mr. and Mrs. W. B. Dillard, has signed a pre-enrollment application with Angelo State College, according to head coach Grant Teaff.

Dillard, a four-year letterman for the Broncos as lineman, played on both State championship teams. He has been an all-district selection twice and was selected to the All-West Texas team this past season. He is active in student affairs, and is a member of the National Honor Society, and Student Council president.

Teaff said, "we are pleased that Monte has decided to become a Ram, and we are looking forward to working with him in the future."

THEY WERE BITING SUNDAY at the Lea Allison stock tank, and Jimmy Cade, Roger Langford and Charlie Draper (not shown) pulled

led in these 30 trout weighing from a pound to 1 1/2 pounds. Evidently the windy weather didn't stop the fish from biting.

## Absentee Balloting Closes April 1

Absentee balloting in the School Board election scheduled for April 5, got underway last week with

32 persons having voted absentee as of Tuesday.

Sonorans voters are reminded that the election falls on the Easter weekend. Due to the holidays, a number of residents will be out of town for the Saturday election and will need to turn out for absentee balloting.

Absentee voting in the school election is currently underway at

County Clerk Erma Lee Turner's office in the courthouse. Early voting will close at 5 p.m. April 1. Candidates for the school board

are incumbents R. S. (Bob) Teaff and George Wallace. Challengers are Mrs. George (Mary) Brockman and Sears Sentell.

### Sheep Field Day Set At Station April 3

The Texas A&M University Research Station will hold its annual sheep field day Thursday, April 3.

The meet begins at 9:30 a.m. at the experiment station, with coffee and inspection of the Ram Test rams and station facilities. A barbeque lunch will be served at noon by Sutton County 4-H Club, "Dutch Treat."

Dr. Leo B. Merrill, in charge of the station, will give the welcome address at 1 p.m. Jimmy Powell, president of the American Wool Growers Association,

and M. M. Kothman, formerly nutritional research worker at the station, will speak at the meeting.

Ram test results and animal science research at the Station, will be discussed by Jim Menzies, research associate.

### Sears Sentell Files For Spot On School Board

In support of his candidacy as a challenger for the place on the School Board in the coming election, April 5, Sears Sentell, ranchman, submits the following statement:

The most important thing that we as citizens, voters and parents can give our young people is an education. Not just twelve years of school, but as nearly as possible, a balanced education that will allow our children the chance to go on and acquire higher education, or go out in life with a chance to make a career for themselves.

Having attended public schools in Snyder, Brownwood, Denton, and Gainesville, as well as in Florida, Alabama, Massachusetts, Kansas, and graduating in Washington D. C., and then graduating from Texas A & M, I know that no one person can possibly have answers to all the problems we have. But I also know that we have some inherent advantages as well as problems.

Therefore I feel that my background will help me to take advantage of our strong points and try to overcome our weaknesses.

I feel that our goal should be, "To offer the best education possible to all our children, and hope to attain this for the majority."

For those and many other reasons I ask for your vote on April 5 for the School Board.

### Jim Fish Elected To Hold Office Hanszen College

James Fish, son of Mr. and Mrs. Frank D. Fish, Jr., has been elected Treasurer of Hanszen College at Rice University for the 1969-70 academic year.

At Rice, the colleges are living units modeled after the traditional British residential colleges and the college systems of certain Eastern schools in the United States.

Colleges are smaller than the average dormitory, and each one is governed by elected student officers. Each college has its own dining area and holds various social, cultural, intellectual and athletic events during the year.

### Sonora's Weather

Compiled by Pat Brown

	Rain	Hi	Lo
Wednesday, Mar. 19	.00	87	38
Thursday, Mar. 20	.00	85	47
Friday, Mar. 21	.00	70	42

Sunday, Mar. 23	.74	73	45
Monday, Mar. 24	.00	75	46
Tuesday, Mar. 25	.00	60	32
Rainfall for the month, 1.31;			
Rain for the year, 2.96.			

### Cloudy Weather Brings Moisture

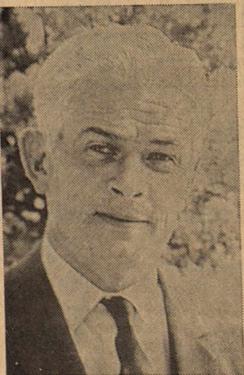

A spring thunderstorm moved through the Sonora area late Saturday night, accompanied by a badly needed rain shower.

Moisture varied from .60 to 1.20, but most ranchmen reported about an inch. The storm was torrential in nature, but the dry soil soaked most of the moisture up before runoff could occur.

Cold, cloudy weather and late frost has slowed vegetation growth this spring. With the inch of moisture and a few warm days rapid growth of weeds and grass can be expected.

### Hector Noriega Leaves For Army

Hector Noriega, a graduate of Sonora High School, son of Mr. and Mrs. Santana Noriega, leaves for induction into the armed forces April 3. He reports to San Antonio, and from there will be assigned for basic training.

DR. JOSEPH D. QUILLIAN JR., Dean of Perkins School of Theology at Southern Methodist University, will conduct the special Holy week services planned at First United Methodist Church, March 30-April 1.

### Mrs. V. Griffin, 57 Dies After Illness In Local Hospital

Mrs. Vernor (Imogene) Griffin, 57, died in Hudspeth Memorial Hospital March 19, 1969, after a long illness.

Mrs. Griffin was born October 28, 1911, in San Saba County, and had lived here for the past thirty years. She and her husband were married October 17, 1931, in Goldthwaite. She was a member of the Baptist Church.

Survivors include her husband; a son, Wilbur Griffin; her father, W. P. Ledbetter of Goldthwaite; seven sisters, Mrs. Oleta Vahrenkamp, Mrs. Flora Check, and Mrs. Morene Davidson all of Kilean, Mrs. Mearle Medford, and Miss Bura Ledbetter of Goldthwaite, Mrs. Zelma Dutton and Mrs. Alma Head, both of Eden; and a brother, Noel Ledbetter of Goldthwaite.

Services were held at the First Baptist Church, March 21, 1969, at 10 a.m., with the Rev. Clifton Hancock, officiating.

Pallbearers were C. W. West, C. W. Taylor, Ervin Willman, Melvin Hearn, Jim H. Richardson, and Lester Archer.

Ratliff-Kerbow Funeral Home was in charge of the arrangements and burial was in Sonora Cemetery.

### P-TA TO MEET APRIL 22

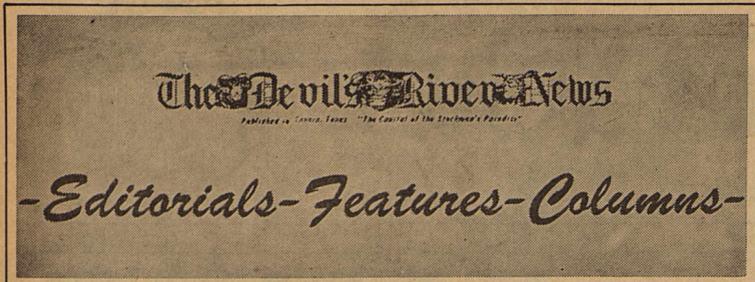

The regularly scheduled meeting for P-TA has been postponed until April 22, due to the Easter holidays, according to Mrs. W. J. Thompson.

### Historical Group Plans Meeting

The Sutton County Historical Society will meet at the Miers Home Museum, Sunday, March 30, at 4 p.m. Normally the group meets the first Sunday in the month, but Mrs. Ben Cusenbary said the date has been changed this month to avoid meeting on Easter Sunday.

Mrs. Cusenbary added that fencing of the site has been completed and one room has been completed also.

Plans for re-decorating an additional room, contracts for window bars, and discussion of general problems in connection with opening of the museum are topics to be discussed at the meeting.

## GRASSROOTS OPINION

**FARIBAULT, MINN., NEWS:** "Shoplifting isn't a 'game' or anything very funny. It's a crime and—a very serious crime. When a shoplifter steals for 'kicks' he risks a criminal record that may haunt him throughout life. It may bar him from a good job. It may be the start of a life of crime. It may bar his entry into a business or profession. He may find the door closed to a position of trust in city, state or federal government. His stupid act will bring shame to his parents, to his brothers and sisters and also to his friends. Stealing is foolish business. Its costs are high in shattered reputations and loss of personal happiness and respect."

**NORWALK, CONN., Hour:** "The automobile, while the family's great advantage in a fast moving world, still is a powerful instrument of death and destruction, statistics tell us. Consideration for the other driver can be a help."

**SELMA, ALA., Times Journal:** "If a nice mess of weeds shows up as the piece de resistance on your dinner table in the not too distant future, blame scientists at the University of California. They are looking into possibilities of expanding our food supply by making hitherto despised garden weeds as nourishing as present food plants, such as spinach."

**DOVER-FOXCROFT, ME., Observer:** "This week, The University of Chicago released the results of a study of dissidents that have been disrupting normal campus pursuits in nearly every section of the United States. Many people were surprised to learn that the 'average' student protester was not the product of grinding poverty, nor was he a bitter, disillusioned child of social isolation. According to reports of the study, the young people are more often the scions of families

which are economically comfortable and raised their children in a generally permissive environment—even around home, permissiveness, like freedom, does not mean anarchy."

**ROSHOLT, S. D., REVIEW:** "Why pay a college or university president \$25,000 to \$35,000 a year to run an institution of higher learning, if he is going to permit a minority group of students to tell him how his college is going to be run?"

**ST. JOHN, KANS., NEWS:** "It stands to reason that the huge upsurge in numbers of cattle—is probably to be found all over the nation—A massive over-supply could mess up the price, glut the market and be an excuse to the federal government to horn in. And once into the cattle business, Uncle Sam is not likely ever to relinquish his position—and that will be the end of a business which has remained better because it has remained free."

**HOLLIDAYSBURG, PA., Press:** "The poverty pleaders are getting wide coverage from the news media these days, and most of the stuff is badly slanted. We hope readers and viewers are wise enough to discern this."

—Industrial News Review

### from HISTORY'S SCRAPBOOK DATES AND EVENTS FROM YESTERYEARS

**March 24, 1939**  
A trustee election for Sonora School district, has been called for April 1. The terms of R. D. Trainer and John A. Ward expire on that date.

Claude Thomas Driskell won first place for his essay on Wildlife Conservation.

Mr. and Mrs. John Eaton spent the first part of the week in Alpine where Mr. Eaton went on business.

Mrs. Rip Ward entertained the Just Us Club in her home.

catch up on what's going on. We stopped in a filling station in San Antonio to get gas. The attendant laced the nozzle in the tank, turned on the gas and wandered off. We thought we would hear a merry splash of gas on concrete. But nothing happened. The fool thing shut itself off when the tank was full. Noting our disappointment, the man explained that the new nozzle was the latest thing and would shut itself off every time. He must have known what he was talking about, because we stood around there for two hours and it never did fail. (From Son-of-a-Gun Column)

**March 26, 1959**  
Jim Dawson, noted weather expert from San Antonio, will speak at the Sonora Woman's Club at its meeting Thursday, April 2.

Two records fell in Saturday's relays with pre-meet favorite O-zona capturing the championship.

Eldorado's Reasor set a new time of 4:49.9 in the mile run. The old record was set by Chris Hernandez of Sonora in 1956 with a time of 4:53.7.

Mrs. J. W. Neville entertained the Club 13 in her home Thursday afternoon.

INFLATION: For the recent barbeque for the speech meet we needed Spanish kids. Several offered to buy one so we persuaded Dan Cauthorn to bring in several more than his donation. When asked what to charge these individuals Dan said, "The only Spanish goats I ever sold has been at the Lions Auction sales, and they averaged \$35 each, so tell the boys I won't be unreasonable." One of the would-be buyers said the last Spanish kid he bought back in 1931 cost \$1.25—so the argument hasn't been decided.

### "God Is More Than We Ever Realize"

by Everett H. Jones, Retired Bishop of the Episcopal Church

D. S. Cairns, noted theologian of this century, once wrote: "It is quite clear that the whole teaching of Jesus Christ about God implies that God is always nearer, mightier, more loving, and more free to help every one of us than any of us ever realizes."

This is exactly the opposite of our tendency today, which is to limit the role of God in the world up to now I've always managed to find out on my own.

And as for locating fish, maybe in the middle of the Atlantic is all right, but let some high-powered camera send back a message from space that fish are biting in a place I'd figured out for myself and was keeping quiet about and I'd have more company than a new Governor with 1500 jobs to fill.

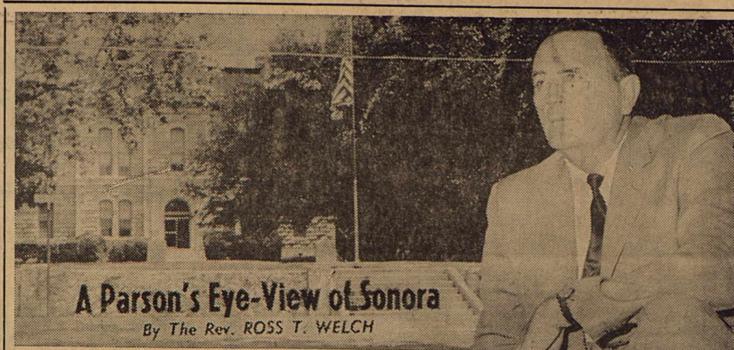

However, I don't suppose there is any way to stop progress, outside of Congress, and I was just wondering, if this camera can tell me how dry my pasture is, why don't the scientists train it on South Vietnam and find out where those Viet Cong are shelling Saigon from?

Yours faithfully,  
J. A.

Next week is Holy Week, beginning with Palm Sunday and closing with Easter. The public is invited, where no conflict exists with a religious service in their church, to attend Holy Week Services in the First United Methodist Church, beginning Palm Sunday morning and closing on Thursday morning.

Sonora Methodists are privileged to have the leadership of Dean Joseph Quillian of the Perkins School of Theology at Southern Methodist University. There will be three breakfast meetings, Monday through Wednesday, at 6:30 a.m. and a communion service on Thursday morning at 7.

Evening services, Sunday through Wednesday, will be at 7:30 o'clock. Warren Hemphill will lead the song services and John Tedford will be at the organ.

### Local Ranchmen Attend Sheep Industry Council

Vestel Askew and James Hunt were among those ranchmen from this area who attended the American Sheep Producers Council in Denver, Colorado, last week.

Routine business, including discussion of future promotion and advertising programs for the sheep industry, highlighted the meeting.

"It was a good meeting, and the workshops will be helpful to all of us involved in promotion and working with sheep, lambs and wool during the future," said Gene Whitehead of Menard, president of the TS&GRA, one of the many West Texans attending the session.

are. They are a far cry from the average 'trailer home' that people lived in a few years ago.

When some friends remind you that they have not been mentioned in this column, one cannot be sure if they are boasting or complaining. Mrs. J. D. Cook, secretary to the high school principal, promised if I would substitute one day last week, I could write something very derogatory about her.

On the basis that she could not get anyone else, I agreed to substitute; but now I cannot think of anything mean to say about her. Alas!

Mark and Don Menzies will have a good number of Easter bunnies at their house. Their mother rabbit's last litter had about a dozen babies in it.

So many counties were formed out of what was originally Tom Green County, I had always thought of it as a large county. But it is only slightly larger now than Sutton and not half as large as Val Verde.

If you have watched any of the final games in the National Basketball Championship play-offs and saw U.C.L.A. in action, you had to be impressed with seven-foot-plus Lew Alcindor, who completed his eligibility in college sports, having played in only three losing games since he started in high school.

Yesterday I came upon my first yellow buttercups growing in a vacant lot. Whenever I see the first buttercups in the spring, I remember the winter after I was five. One day as I was recovering from a long and serious illness, my brother, Rex, returned from the canyons and brought to my bedside a handful of yellow buttercups.

They did not last very long nor smell very sweet, but the fragrance of their memory will last a long, long time.

### THE DEVIL'S RIVER PHILOSOPHER SEZ... He Looks With Considerable Concern At New Land-Photographing Camera

Editor's note: The Dry Devil's Philosopher on his bitterweed ranch on Dry Devil's River takes what must be a backward look at a new invention.

I was out here walking over this bitterweed ranch inspecting things and planning my work for the months ahead, well I wasn't actually doing much planning, what I was doing was getting away from the noise of my house, noise like "other homes around here have washing machines, why can't this one?" or "this land is about as good as that across the fence, how come it doesn't make as much?" or "when are you going to fix that loose board in the back steps?" and so on when I stumbled on a newspaper it was especially welcome. Since most problems

can't be solved anyway, a smart man will worry about those furtherest away from home.

According to an article in this paper, the latest thing in space work is a camera that takes four pictures at the same time from a satellite circling the earth, and it's so accurate it can actually detect the condition of the crops, can tell what insects are bothering them, can reveal the moisture content of the soil, can even spot fish in lakes and oceans.

Some people call this progress but I call it scientific snooping. It's bad enough to have to explain the condition of my land right around the house, without having to defend what's over the next rise.

While I guess I should be grateful for the scientist's sending up a 10-million-dollar satellite to tell me whether or not I need a rain, up to now I've always managed to find out on my own.

And as for locating fish, maybe in the middle of the Atlantic is all right, but let some high-powered camera send back a message from space that fish are biting in a place I'd figured out for myself and was keeping quiet about and I'd have more company than a new Governor with 1500 jobs to fill.

However, I don't suppose there is any way to stop progress, outside of Congress, and I was just wondering, if this camera can tell me how dry my pasture is, why don't the scientists train it on South Vietnam and find out where those Viet Cong are shelling Saigon from?

## DRIVERS LICENSE OFFICE WILL BE CLOSED MARCH 28

Mrs. Donald Jones said the drivers license office in the courthouse will be closed March 28, and will re-open Monday, March 31. The patrolman will be in the office Monday, she added.

SCARF FASHION is making packing easier for the traveler, according to Miss Carol Lane, women's travel director for a major oil company. Big, bright, bold colorful scarves can be easily converted from a collar to a blouse. They take up so little room in the suitcase, travel almost wrinkle-free and are practically weight-

less. Miss Lane, a lecturer, writer and traveler, develops travel ideas for women. Her latest is a folder complete with illustrations and instructions for converting a 36" scarf into 11 different costume uses, and may be obtained without charge by writing her at Shell, 1008 West 6th Street, Los Angeles, California 90054.

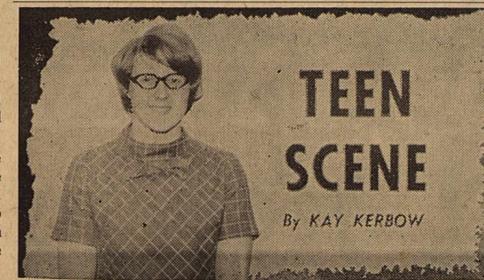

## Card of Thanks

We want to express our appreciation to the many friends who were so thoughtful and who expressed their sympathy to us in numerous ways during the illness and loss of our loved one, B. A. Whitten,  
Jonnie Morman and family 1c29

When using bonded fabric, interface necklines, collars, front edges of blouses, dresses, coats or jackets. Cut the facings from the lining fabrics to eliminate the bulk.

Devil's River News

Spring has finally poked its nose around the corner and presented itself for all to see. Everyone is contacting the centuries old disease of spring fever. Getting up and dragging to school is getting more difficult as each day passes except for the seniors as each day brings graduation nearer.

Hub Hale and George D. Chalk were fishing at the Lake over the weekend also.

Mr. and Mrs. A. W. Awalt and Marion Stokes were in Temple and Killeen this past week. Big A went for a check-up, and Marion visited his daughter and family, Mr. and Mrs. Preston Prater and children in Killeen.

Mmes Frankie Gibson, Eulah Newell, Carrie Simmons, and Belle Steen were sight seeing at the Amistad Lake last week.

Mrs. Kenny Teutsch and son, Zane, of Houston have returned home after visiting her mother, Mrs. Libby Jo Lowe and her sister, Evelyn Jane.

Mr. and Mrs. Curt Schwiening were here over the weekend. They are moving their house to the ranch.

Mr. and Mrs. Ernest McClelland spent Monday in San Angelo visiting Mr. and Mrs. T. C. Nether-ton.

Mrs. Margaret Dungan and Jon Dungan of Odessa spent several days here last week.

Mrs. Buelah Cook and J. V. Cook were in Ft. Stockton, this past weekend, visiting Mrs. Cook's son and J. V.'s father, Vernon, and Mrs. Cook's niece.

DRIVE-INN

### By Monica Davis

Wednesday was Auxiliary luncheon day. The hostesses were Jodie Finklea, Nancy Allison, and Martha Black. They had their party at the Club House—and I do mean party. It was a Mexican Dinner, just out of this world. We all really enjoyed it.

Twenty members were present. A short business meeting was held after dinner; then twelve golfers took to the course. Bingle Bangle Bungle was played: Sammy Espy won with twelve points.

— GN —  
March 20, ten of us went to Eldorado at the invitation of the Eldorado Auxiliary. We had a wonderful luncheon with them, and loads of fun playing on their golf course. The wind was a bit gusty, but it was a real challenge. Those attending were Muriel Brown, Monica Davis, Ann Herrmann, Lucille McMillan, Floy Tate, Martha Black, Sammy Espy, Jo Neville, Peggy Trainer, and Lunetta Morgan.

Door prizes were won by Ann, Martha, Lucille and Muriel. Peggy, Ann, and Sammy were third place winners in their respective flights. We had lots of fun, and hope the Eldorado golfers will join us soon on our Wednesday plays.

— GN —  
Sunday was a busy day at the course. The men had a tournament, and the club house had lots of card players for bridge and spite and malice. Twenty-six men played in the tournament. It was a handicap, point system team play. The team of Whiskey Hill, George Barrow, Buddy Brown, Web Elliott (heah come de judge) and Hillman Brown won first.

Second place winner was the team of Wayne Herrmann, Dub Black, Nolan Johnson, Jimmy Harris, and Jerry Don Balch.

— GN —  
In the card playing group, Reba Gilmore was winner at bridge and Sammy Espy was winner in a hotly contested game of spite and malice.

— GN —  
March 30, we are going to have a District Schoolboy Golf Tournament here. One of the teams will be from Mason and we had some guests from there this weekend. They were Dub Behrens, track coach, Lee Graham, high school principal, Feland Matthews and

## Gleaners Hosted At Johnson Home

Mrs. Nolan Johnson and Mrs. Jim Baldwin hosted the Gleaners Sunday School Class of First Baptist Church March 18, at the Johnson home.

Mrs. Rip Ward gave the devotional and prayer partners were chosen.

Those attending were Mmes. Joe Lane, Lester Byer, J. W. Sutton, David Williams, Larry Hill, Clifton Hancock, Jimmy R. Harris, Bill Johns, Cleveland Nante, Herman Pettiet, Joe Neil Smith, Roger Spencer, and Rip Ward.

### Major Dan Eaton In Hawaii

Mrs. John D. Eaton and daughter, Terissa, have gone to Hawaii to meet Major Eaton, who is being sent there from Vietnam for a five day rest and recreation leave.

Major Eaton is the son of Mr. and Mrs. John Eaton.

## Snips, Quips, And Lifts

### By Lottie Lee Baker

—Youth calls for strength. That is why we almost never get to use the telephone.

—The man who just switched to bifocals is never at a loss for conversation.

—Take a chance! Even a turtle gets no where until he sticks his neck out.

—All of us are pretty much alike—just ignorant about different things.

—It takes the average victim of the flu about three weeks to recover after he thinks he's well.

### FORCED HUMOR

Some say to grin and bear it When you send your taxes in. The bear-it may have merit. But darned if I can grin.

—There is nothing like a little soft soap to remove a dirty look. —We have the mechanical vot-

ing machines; now if we only had a mechanical taxpayer.

—By the time you've saved enough to buy a luxury, it has ceased to be one.

—Road maps tell a motorist everything he wants to know except how to fold it up again.

—The big fish always gets away. That's why they are big.

—It's extremely difficult for a person to get his desire and his conscience tuned to the same wave-length.

—As soon as the average person pays one fiddler off, another one begins to tune up.

—The easiest way to get into trouble is to be right at just the wrong time.

—The average person can read the handwriting on the wall. The trouble is that they refuse to believe it.

A LIFT FOR THE WEEK

## Tulips For a King

The lake is green today. Sparkling waves ripple across its surface, borne of the same gentle breeze that ruffles through my tulips. I walk among them, filling my arms with beauty, listening to the murmur of early morning.

Soon I gather up baskets of orange and scarlet, pale pink and lemon yellow and hurry to the church in the valley.

My heart is full. I'd come to this church, some months ago, burdened with sorrow. Here, I found comfort and purpose in the life and teachings of God's Son. Since then, I'd been happier than I ever thought possible.

Now, in the stillness, I whisper a long-ago psalm, "Hosanna to the Son of David!" And I lay blossoms gently among palm branches, as though in His presence.

Attend your church. Find the joy and happiness you've been seeking. Sing hosannas to the living Lord.

## OUTDOORS IN TEXAS

BY VERN SANFORD

Most anglers take along an extra spool of line for emergencies. And it's a great idea.

Usually this spare is unexpectedly needed to replace the line on your favorite reel—or to add more line to the reel spool.

More often than not the need for more line is urgent. Often you run short of line or your supply runs out at a most inopportune time. Sometimes it happens right in the middle of the lake.

Adding line to a spool while afloat is no problem for Gene Adersholt. Gene is an Austin angler who has fished most of his life. He's used to solving his own problems.

Ever try to rewind a spool of line while afloat in your boat? It's not easy even if your buddy is with you to hold the spool. And it's tougher yet if the water is rough. Besides you're wasting a lot of your and your partner's fishing time.

It's a real problem if you're alone, in the middle of the lake. Or at least we thought it was.

But Gene has the answer. It's a neat fast trick—if you know how! And Gene does.

He runs the end of the fresh line through the guide at the

tip of his rod—then on down the rod through guide after guide—and under the bail of his favorite open-faced Mitchell 300 spinning reel. Next he ties this new line to the reel spool—or to the left over line that's still on the spool.

Gene then gives the crank a turn or two to see that the line "spools on" properly—and quick as a flash, he's all set to fill the spool.

Question then is how he's going to single-handedly keep the line tension just right to spool on properly.

Gene does it so easy it's amazing. He simply tosses the new spool of fresh line (now tied to the reel spool) far out over the water. Then he begins to turn the reel crank.

What happens is almost unbelievable at first—that is until you realize what resistance water has.

As Gene turns the reel handle the floating spool of fresh line begins to rotate. Resting flat on top of the water the floating spool spins as the reel handle turns. Resistance of the water is enough to keep the line at just the right tension.

In a jiffy Gene's new line is transferred from the fresh spool to the reel spool, and Gene's back in business again.

He refuels that reel so fast it's hard to realize that the transfer has been accomplished. almost before it started. It does not take Gene three minutes to do the entire job and get back to fishing.

In fact Gene has convinced this angler that his emergency method beats the old two-person, pencil-in-a spool idea all hallow. Try it next time!

### Off-Color Story Of A Wild Turkey

A wild turkey, says Jack Parsons, wildlife supervisor for the Texas Parks and Wildlife Department, is usually cooperative enough to look like a wild turkey. A bird recently trapped with others in West Texas for transport proved an exception to the rule. It was melanistic, or totally black.

It is probable to assume that few hunters have ever seen such a specimen, and it surprised biologists. It was banded and released into the wild again.

Banding eliminates the need for underlining a garment unless the garment fits tightly or is strained in certain areas. Then it is recommended the garment be lined or underlined.

### Hints Given For Sheep Lice Control

Sheep in the Texas Hill Country and Edwards Plateau have had unusually heavy infestations of lice during the winter and early spring, according to Weldon H. Newton, Associate Extension entomologist at Texas A & M University.

The tiny chewing pests live on skin scales, scurf and other skin and wool products and cause irritation as they feed in the wool. The itching and irritation results in the sheep biting and pulling at the wool and rubbing vigorously against posts, trees and other objects. The fleece becomes ragged and torn and is greatly reduced in value, said Newton.

Badly infested sheep may rub off large patches of wool, and raw sores, vulnerable to infection and other complications, may result.

Biting lice spend their entire life on the sheep, leaving only to

### Robert A. Halbert Sells 100 Females And Two Bulls To Thunder Hill Ranch

R. A. Halbert, charter member of the American Polled Hereford Association's "Hall of Fame," past president of the national association, a man long recognized as a pioneer leader in the Polled Hereford industry and from his herd came the foundation Domestic Mischief-Domestic Woodrow bloodlines—has sold two herd sires and 100 females to Cary Whitehead for his herd at Thunder Hill Ranch, Winona, Mississippi.

Herd bulls involved in the important transaction are the two Domestic Woodrow 121C sons Domestic Woodrow 606 and Domestic Woodrow 506, the former out of a Domestic W14 granddaughter and the latter from a cow by

HHR DM259 123. Ninety cows and 10 heifers are making the move from West Texas to north central Mississippi, among the cows 40 daughters of Domestic Woodrow 121C and 50 by PR Domes Misch 28, a son of Domestic W14. Halbert is keeping the calves weaned from the 90 cows, which are bred back and will be calving again soon.

Total involved was \$115,000—\$37,500 for three-fourths interest in "the 606th" bull (in which Thunder Hill already owned one-fourth interest), \$15,000 for "the 506th" and \$625 each for the females.

According to Halbert, "I'm not as young as I used to be and, although I'm as enthusiastic about Polled Hereford as I've ever been, I do realize that it takes dynamic young men with long-range plans such as Mr. Whitehead to keep our great breed moving to the forefront."

Halbert retains 200 cows, 100 heifer calves and 50 yearling heifers as well as two herd bulls by Domestic Woodrow 121C. On several occasions Halbert has described Domestic Woodrow 121C as the greatest bull he ever produced, yet he recently stated that "the 606th" is a greater bull than his sire. The dam of Domestic Woodrow 606 is Miss DM 16, a full sister to the H Domestic Misch 212 herd bull Halbert is keeping.

### Controlling Lice On Angora Goats

Angora goats in Sutton County have had unusually heavy infestations of lice during the winter and early spring, according to D. C. Langford, county agent. Lice are costly free loaders on Angora goats and mohair raisers should be concerned about controlling lice on their goats. Goats in heavily infested herds are often found in a severely weakened condition. The mohair from heavily infested goats is usually of poor quality and soiled by egg shells, cast skins of lice nymphs and louse excrement. Considerable

amounts of hair are often rubbed off by heavily infested animals. Biting lice sometimes reduce the clip of mohair and kid hair as much as 10 to 25 percent in value.

Lice spend their entire life on the goat, leaving only to transfer to another animal upon contact.

Lice on goats are usually controlled by dipping or spraying the animals with insecticides. Treatment must be thorough to give good control. Best results are obtained from insecticidal treatments within a few days following shearing. Treatments following the shearing will practically eradicate lice from individual herds. New animals that may be brought into the herd should be treated before they are put with treated animals.

Several insecticides are effective against goat lice. Extension Leaflet MP-691, "Texas Guide for Controlling External Parasites of Livestock and Poultry," available at the County Agent's office, lists insecticides for goat lice control and specific recommendations.

### Conservation In A Capsule

by E. B. Keng, SCS Technician

Flowering native shrubs are the first to announce the coming of spring. Algerita is presently in full bloom, along with the pink flowering buckeye and redbuds. Elbow-bush, a white flowering shrub, is also flowering.

Shinoak buds are bursting and the hillside trees will be covered with the seasons new leaves within a week—barring a hard freeze. Liveoak leaves are turning brown and falling. New leaves will quietly push the old leaves off the trees within the next two or three weeks.

The "cagey" mesquite and the pecan trees have yet to show a break in winter dormancy. The mesquite usually does not leaf out until danger of frost is past, but occasionally the new growth does get nipped. Some "old timers" have their calendars marked for an April 14 frost (thunder February 14)—so the mesquite may be waiting on that date also!

The purple martins have moved their families in and are house hunting. Martin boxes should be put up soon if they are to attract a family of martins this spring.

No losses have been reported in goats from saccahuiste, but there is an abundant crop of blooms appearing. Both the blooms and the seed of saccahuiste are poisonous to white skinned animals, causing "swellhead".

All saccahuiste plants do not bloom the same year, but there appears to be a bumper crop this year. Ranchmen should examine their goats now for signs of poisoning. Incidentally, saccahuiste is one of the very, very few poison plants which was abundant in early days.
