Bangs Dragons Fall To Broncos Friday 52-0

The Sonora Broncos showed 9-A is really like as they plastered the Dragons 52-0 in the second district contest for both teams. The Broncos defeated Menard, and Bangs lost a close one to Robert Lee in their first

The Sonora team scored three times in the first quarter. The first six pointer came when quarterback Eddie Sutton ran the ball over and Mike Taylor kicked the PAT. Sammy Perez

The first quarter scoring was ended when Sutton bombed a 60 yard pass to Taylor. The try for the two point conversion failed when the Broncos fumbled.

The second period was a repeat of the first as the Big Reds scored twice. James Noel ran for considerable yardage setting up the touchdown which he him self chalked up a play later. Again the PAT failed. Halfback Scott Jacoby showed his ability as he ran 19 yards for the TD but again the PAT was unsuc-

Only one score was put across drive as he scampered 40 yards for the TD and Sutton's pass to Taylor assured the conversion. The fourth quarter action was spearheaded by "B" teamers who made the trip with the regular varsity members. seeded 2700 acres of rangeland. He built over 21,700 feet of new cross fences, and installed 20,000 feet of new pipelines to improve water distribution.

In addition, Aldwell has carried out such range management practices as proper range use and deferred grazing. He has recently started an intensive grazing system on a trial basis, in which all livestock are concentrated in a few pastures for periods of less than 30 days, then moved to other pastures. This system provides maximum rest for vegetation, and is expected to result in rapid range improvement. Such a system has recently been installed on a number of pastures at the Experiment

Aldwell has been a participant in the Great Plains Conservation Program, with his four year contract expiring this with the Sutton County Agricultural Conservation Program.

My competitors would take my business away from me, if they could; this keeps me alert to hold what I have. If I had no competi tors, I would be lazy, incompetent, inattentive; I need the discipline they enforce upon me. I salute my competitors; they have been good to me. God bless them all!"

BONDUEL, WISC., TIMES: "Considering that George Washington started the U.S. government with nine executive agencies, employing a total of 1,000 federal workers, this gives you some idea of the developments since that time. The federal government today is a patchwork of nearly 2,000 agencies, each sub-divided into bureaus, sections, divisions and committees.... There must be some method of simplifying the existing government. We are smothering ourselves in useless paper work; most of it winds up in warehouses in dust-laden

WASHINGTONVILLE, N.Y., ORANGE COUNTY POST: "Facts have it that accidents on the highways, deaths in Vietnam, fall far short of leading the league. The greatest single cause of death in the 17 through 25 age group is dope. We have the finest crop of youth in history. Some may disagree but look at the records. LURAY, VA., PAGE NEWS AND COURRIER: "It may be some small comfort to our readers to realize that the high cost of living was not invented in the 20th century. In 1776, the wife of President John Adams wrote a letter in which she compalined about the price of corn. . \$24 per bushel; meat, average of \$2 per pound; potatoes \$10 a bushel; and sugar, tea, and coffee at about \$4 a pound. Now do you feel any better?"

MOUNTAINTOP, PA., EAGLE: "During the past year or so, citizens groups, such as taxpayers, etc., have sprung to life in every nook and cranny of the area. As hard as they try, sometimes they are not taken seriously by political bodies because of the feeling that such groups are only 'gripe' groups. And as they try to mix politics and economics it is as if they were caught up in a whipsaw. If only the public would support such organizations, politicians would soon be forced to take a new interest in the consequences of their acts and proposals. We think politics and practical economics would follow almost automatically.

GREENFIELD, IND., REPORTER: "The story should be funny, but many representatives in Washington don't think it is. Last year farm subsidy cost the American taxapyer over \$3.5 billion. But although there were six million farms in 1940, there are only three million today, many of them having gone broke. Although an estimated 20 million people have migrated from the farm to the cities, there are still 14 million poor people in rural areas. And although thousands of farmers today barely make ends meet, one farm operations in Texas was paid \$942,000 last year for not raising cotton. We agree with the American Farm Bureau that a way out of the farm subsidy morass must be found."

QUAKERTOWN, PA., FREE PRESS: "America's balance sheet is good. Whatever our problems, this is still the best place in the world in which to live. We don't build barriers and fences to keep people from leaving the United States. Instead, millions of people from less fortunate countries are clamoring to get in. THE DEVIL'S RIVER PHILOSOPHER SEZ....

He Takes Both Sides On A New Law **Making Parents Liable For Kids' Deeds**

Editor's note: The Devil's River Philosopher on his bitterweed ranch on Dry Devil's River reflects on a proposed new law, more or less. Dear editar:

I remember reading it in a newspaper, I forget which newspaper and which town it was, but some city government, tired of willful mischief and serious destruction by kids and students, if there's any difference, has passed an ordinance making parents responsible for their children's actions, even to the point of fining them and sending them to jail.

'Maybe this will put a stop to it," officials said, tired of the whole matter.

I have thought this over and I don't know whether this law ought to become widespread

Sure, when a kid throws a rock through a hundred-dollar plate glass window or sets fire to a library it looks like his parents must have slipped up, and they probably feel that way too, but there's another side to it, to be thought about before you send the parents to jail. Some good people might wind up behind bars.

What I mean is, occasionally some kids who turn out the best come from what is considered some of the worst families. and some who turn out the worst come from what is considered some of the best families. Kids don't always follow a formula. Now if a neighbor's kid pulls

A Bishop Looks at Life THE ART OF

KINDNESS

By Everett H. Jones Retired Bishop of the EPISCOPAL CHURCH

We often dismiss kindness as one of life's lesser necessities, good when possible but not of primary concern. There is some evidence today that kindness is considered a form of weakness.

One way to correct our own thinking is to ask this question: What do you remember about a friend when you hear of his death? The chances are you will recall some generous, thoughtful word or deed associaated with that person. This is what the poet Wordsworth meant when he spoke of "those simple acts of kindness and of love that are the best part of a good man's life.

Most of us are not against kindness; it just isn't one of our priorities. It is crowded out by our busy-ness and our self-centeredness. We have too much to do to say the kind word to a servant, a neighbor, a clerk in the store, or the employee in the next office.

We need to remember that kindness is an art. It is a daily challenge to our awareness and our imagination. It requires a high degree of judgment and maturity.

What is kindness between a husband and wife? It is the unceasing effort to sense the other's needs and to know how best to meet those needs.

What is kindness between parents and children? It is recognition of a child's potential, and the wise use of both firmness and gentleness to bring that potential to fruition.

What is kindness between employer and employee? It is the cultivation of a team spirit in which the contribution of every team member is recognized and acknowledged.

What is kindness between those divided by differences of economic status, religion, or ethnic background? It is rerembering that these differences are superficial and unimportant, and that we are fellow-members of one human family, needing to live and work together and to understand one

up all the flowers around your house and smears paint on your new car, a law punishing the parents seems like a splendid idea, but if it's your kids this requires more level-

On the other hand, if the parents are going to be punished for their children's misdeeds, what's to keep somebody from bringing out a law to punish grandparents for producing children whose children break the law? Or great-grandparents? Or great-great-grand-To hold down on the prison

On still another hand, it does

look like some parents are not doing all they could, to be generous about it, to train their kids to live in an organized society

Probably before this new law becomes universally enacted it ought to be turned over to a Congressional committee for further study. This will delay the matter for years.

Mason has been waiting all year for this game to avenge a 3-0 defeat last year. This should be one of the climaxes to the football season and the eyes of Texas" will be upon this game. It's advisable to go to the game early in order to find a parking space for both your car and you.

Tickets are on sale in Mr. Pollard's office until Friday noon. Buying them early might save you a long wait!

Spirit is high and a feeling of anticipation hovers over the halls as the game approaches. Many a class has been interrupted all week long as thoughts and conversations turn to the game and speculations are made as to the outcome.

These speculations are not on who'll win-we all know the answer to that-but rather how much we'll beat 'em! According to those who really know football (or think they do, the students and the players) the game will again be a close, low-scoring game and anyone with heart trouble had better not come because many a heart will skip several beats as the game progresses to the end. Kickoff time is 7:30 p.m. the beginning of the end for the Punchers!

Class meetings were held last week to nominate a most hand - faithful-a talent show which some and beautiful from each ain't as easy as you might beclass. However, the losers were to throw a party for the winners. Can you imagine what cookies made by Scott Shurley or punch mixed by Tony Renfro would taste like? Maybe the girls lost after all!

WHICH IS MORE IMPORTANT, THE MAN OR THE PARTY LABEL?

Lloyd Bentsen tells you to vote Democratic.

Yet, he does not tell you why.

He has been challenged to debate the issues with George Bush. And he refuses. He talks long and loud about what he is against, but never about what he is for.

George Bush on the other hand is a can-do candidate. He has introduced and supported important new rural area economic improvement bills. He has fought against gun control legislation. He has supported welfare reform bills designed to get able people off welfare and back to work. He is against a guaranteed annual income. He is for more participation by the private sector and against increased government spending.

George Bush's congressional record is a brilliant one. He is extremely popular with his constituents because he has shown them what he can do. George Bush is a now candidate, looking to the future. Compare this to the candidate of the tired old Democratic machine. George Bush can do more. For Texas. For the nation.

GEORGE BUSH. HE CAN DO MORE.

Let's Re-Elect O. C. FISHER TO CONGRESS

Members of the Amistad Dam Committee of the Chamber of Commerce have rapped the opponent of U.S. Rep. O.C. FISHER, who they say is claiming that Fisher did not author the dam legislation.

In response to many calls, H. M. Pettit, chairman of the committee, said he was making the record clear that it was FISHER who placed before the U.S. House of Representatives House Bill 88, authorizing construction of

Amistad was originally known as Diablo Dam because of the proximity of the Devil's River, but the name was then changed to Amistad Dam to signify the friendship of Mexico and the U.S.

Pettit said he and members of the committee have been receiving calls as to who authored the bill calling for construction of the dam. Noting that the committee served for 17 years until the dam became a reality, Pettit said that committee members feel they should know who was the author of the

"It was FISHER," Pettit said.

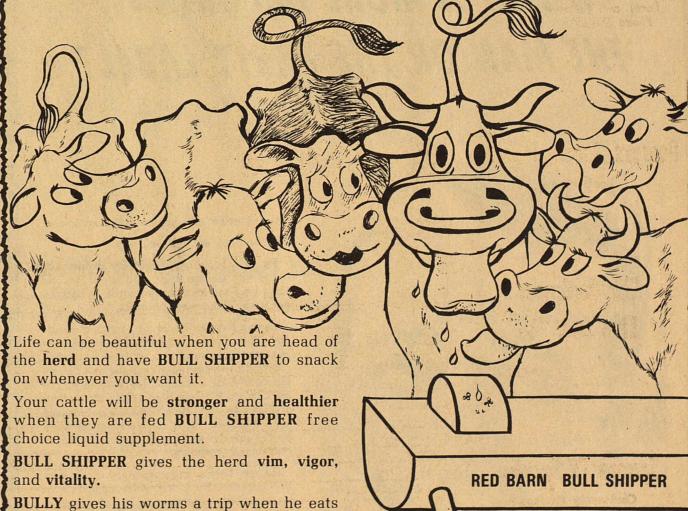

FISHER BEST FOR OUR DISTRICT

O. C. FISHER has represented the 21st Congressional District in Washington. The veteran Congressman seeks re-election this year to his 15th term; voters in the 21-county district would be well advised to return him to Washington.

Experienced in the ways of Washington, REP. FISHER has always kept his door open to his constituents. He has always been ready to go to bat for them in the Capitol over problems large and small, and usually successfully.

Sunday afternoon, you wouldn't believe! At 1 p.m. fortythree people took part in a mixed tournament, and it lasted 'til " dark thirty".

Three teams came in at nine under, so the playoff started. Well, the team of Ann Herrmann, Lea Roy Aldwell, James D. Trainer and Mickey Powers won first place on the hole, but then the team of Wilma Friend, Jimmy Harris, Norm Rousselot and Web Elliott played against the team of Nancy Allison, Chicken Mc-Millan, Clayton Hamilton, Wayne Herrmann and Milton Cavaness. They played four holes, and finally had to call it tied because of darkness, and it was DARK!

Lea Roy Aldwell, Ann Herrmann, James D. Trainer and Mickey Powers were first place winners in Sunday mixed tournament.

Sammie Espy, Monica DuRussel, and Betty Cooper were hostesses for the monthly auxiliary luncheon Wednesday. Nineteen were present and thirteen played golf. Sammy won the prize for the best score of the month, while Jo won the prize for Wednesday play, Recall. We now have thirty-four auxiliary members. Just six more to go to make our forty.

Wanda Cahill, Ernestine Hext, Bobbie Fawcett, Sammie Espy, Marilyn Bloodworth, Lunetta Morgan, Chicken McMillan and Jo Neville played in a San Angelo Partnership Tournament Thursday. Wanda and Ernestine won the honor of Runner-Up in the Championship Flight, with nine under. Eleven under won the tournament. Great going you two!

As you know, there are many sand traps on that golf course. Chicken got up on a tee box—looked at the green ahead and said, "This looks like the Sahara Desert."

—GN—
We have another "future golfer". Anita Balch has a baby sister, Anna Elizabeth, (and a real red head like her Daddy), born October 20.

Pauline Thompson is back home after spending a few days in the Shannon Hospital for a checkup.

CARD OF THANKS

The extreme kindness shown us by our friends and neighbors during our recent sadness helped so much to comfort us. We are especially grateful to Dr. Howell and the nursing staff at Hudspeth Hospital who were so kind and helpful. And to the many friends and neighbors who brought food, sent flowers and cards, may we take this means of saying again—thank you.

Preston Smith believes in working hard. For you. And that's why he's doing such a good job as Governor of Texas.

When Preston Smith entered public service, he didn't **start** by asking Texans to elect him Governor. That would have been foolish, because being Governor carries great responsibilities. And it demands the clear, steady judgement that comes **only** from experience.

Preston Smith had the good common sense to work his way up—gaining

insight into how our state government functions.

He served six years each—as State Representative . . . as State Senator . . . and as Lieutenant Governor. Only **then**, when he felt fully qualified, did he seek

the Office of Governor.

Now, after two years he has expanded the duties of the Governor's Office to better serve all the people of our State.

Yes Preston Smith believes in bard work For 20 years, he's been working.

Yes, Preston Smith believes in hard work. For 20 years, he's been working for Texas—doing a good job. You can help keep him as Governor. Vote. Vote for Preston Smith on Tuesday, Nov. 3.

is doing a good job. Let's keep him working for Texas.
