SONORA BRONCO TRACK TEAM placed second overall in the Eldorado track meet last Saturday. Warm, windy weather prevailed for the meet. Steve Street placed first in the 100-yard dash; Bruce Kerbow, first in both hurdles and second in the broad jump; Wesley Richardson, first in 220-yard dash followed by Steve in second; Dennis Nance, second in pole vault, and the 880 and 440-yard relay

teams, first. The mile relay team also came in first due to a fantastic effort on the part of anchor man, Bruce Kerbow. The boys will be competing in the San Angelo Relays this Friday. The girls' track team competed in Eldorado last Friday with Margaret Black placing fifth in the high jump; Carmen San Miguel, fifth in the 880-yard dash and Dolly Leyva, sixth in the 440-yard dash.

Dr. W. R. Johnson Starts Practice Here

The number of professional men increased here as Dr. William R. ("Dub") Johnson arrived this week to engage in the practice of general medicine. He plans to open his office Friday in a building owned by Jack Raye. The building is located on Crockett Avenue, adjacent to Foxworth-Galbraith Lumber Company.

Dr. Johnson is a 1941 graduate of Sonora High School, and completed pre-med work at the University of Texas at Austin. He is a 1951 graduate of Baylor School of Medicine in Houston. He served his internship at Seattle Marine Hospital, Seattle, Washington, where he lived for five years.

He engaged in general practice and was resident physician at Long Beach Veterans Hospital, specializing in psychiatry and neurology for three years. He was the director of psychiatry at the Santa Barbara Hospital and was assistant professor at the University of California at Burbank, California for four years.

Dr. Johnson is a son of Mr. and Mrs. Alvis Johnson, pioneer ranch people of Sutton County. His brother, Dr. Alvis Johnson, Jr., lives in Dallas. He and his family are Methodists. His wife and three of their daughters remained in Santa Barbara to complete this term of the school year. Two older daughters, Cecelia and Cindy, are presently living at Fort Collins, Colorado, where Cindy is a student at the university. Cecelia was a January graduate of the University of Washington. The younger girls are 16, 15 and 12.

In welcoming Dr. Johnson to Sonora, Dr. Charles F. Browne said "... coverage in the emer-

gency room at the hospital should be much more adequate for members of this community. I am very pleased to have another doctor in our community,

and although we will not be directly associated with each other, we do plan to work closely in order to better serve the community as a whole".

Sonora Ministerial Alliance Providing Opportunity For Good Friday Services

The Sonora Ministerial Alliance plans to hold a community Good Friday service at noon March 31, in St. John's Episcopal Church. The service will last about thirty minutes and there will be appropriate prayers and short meditations by each of the ministers here on the seven last words of Jesus the Christ.

It is intended that this Good Friday service will continue to be an annual affair in the same sense as the community Thanksgiving service.

The Ministerial Alliance urges all of the people to take this short time out to consider the events which took place on a hill outside Jerusalem, but which changed the course of human history from that time to this, said the Rev. Ray Nations, rector of St. John's.

Some of the churches plan to hold their own Good Friday

observances, but this will be an opportunity for the people of Sonora to gather together as a community to commemorate the events of Good Friday, added the Rev. Mr. Nations. He also reminds everyone that they are welcome to attend the services.

Absentee Balloting Closes Monday

Only a few days remain for persons to vote absentee before the April 1 local elections. Balloting in the city election is being conducted at the City Secretary's office, and those voting in the school trustee election may vote absentee at the County Clerk's office. Monday, March 27, is the last day a qualified, registered voter may vote absentee.

Time Closing For Car Owners Without '72 Plates

With a little less than ten days to go, Sutton County motor vehicle owners are rapidly running out of time to purchase 1972 license plates.

Since the official deadline for registration falls on Saturday this year, Friday, March 31, looms as the final day for securing plates in time to avoid possible penalty and fine. The courthouse closes here Saturdays.

In the meantime the office of Sheriff Herman E. Moore is open daily 8 a. m. to 5 p. m. and vehicle owners are able to purchase tags Monday through Friday.

Sheep And Wool Clinic Set Mar. 30 At 4-H Center

The Sonora Wool and Mohair Company will sponsor a Sheep and Wool Clinic in cooperation with the Texas A&M University Extension Service and Experiment Station at the 4-H Center, Thursday, March 30. The program will feature the latest information available on the economic value of livestock and wildlife enterprises in the Edwards Plateau, the production of sheep, the control of predatory animals, and the marketing of wool and mohair.

Of special interest to area wool growers will be a report by Dr. James Bassett, associate professor of Animal Science at Texas A&M University on "The Results of Removing Bellies From Wool Fleeces in Wool Preparation at Sonora". Other speakers on the program will include Robert Kensing, Extension Economist-Management; James A. Gray, Extension Sheep and Goat specialist; Jack Groff, Extension Sheep and Goat specialist, and Bill Sims, Executive Secre-

tary of The Sheep and Goat Raisers Association; Fred Campbell, manager of the Sonora Wool and Mohair Company; Dr. Carl Menzies, Director of Research at the San Angelo Research and Extension Center; Dr. Charles W. Livingston, associate professor, Sheep and Goat Diseases, San Angelo Research and Extension Center, and Dr. Maurice Shelton, professor of Sheep and Goat Genetics at the San Angelo Research and Extension Center. Armer Earwood, president of the Sonora Wool and Mohair Company, will serve as master of ceremonies for the program which will start at 10:30 a. m. and be concluded promptly at 3 p. m.

Directors of the Sonora Wool and Mohair Company will host the group to a smoked lamb and barbecue lunch at the 4-H Center. All sheep and goat producers and other interested persons are urged to attend the meeting said County Agricultural Agent, D. C. Langford.

Spring Clean-Up Time To Begin First Week April

The first week in April has been designated 'Spring Clean-Up' time. Persons having tree limbs and other debris not normally picked up by the city truck, may call the city manager's office and leave their name.

Although the city has previously designated each Friday as the day workers will pick up the larger items, the spring clean-up will be conducted this year as usual.

Former Resident Dies In Florida

Mr. W. K. Regeon, 43, a former resident, was found dead at his home in Ruskin, Florida, March 18, 1972. Death was due to an apparent heart attack.

Funeral services were held in Ruskin, Monday with burial in a Ruskin Cemetery.

Survivors include his wife; his brother, Royce of Archbold, Ohio, and several nieces and nephews.

Dr. L. B. Merrill Invited To Speak At Kansas Meet

Dr. Leo B. Merrill of the Texas A&M Agricultural Experiment Station was in Salina, Kansas, last week as one of the speakers invited to talk at Kansas ranchmen.

The Kansas Livestock Association and the Soil Conservation Service were in charge of the meeting. A special invitation was extended to Dr. Merrill to attend the meeting and talk on deferred grazing. The program was being conducted in an effort to interest Kansas ranchmen in rotation grazing and speakers were invited from throughout United States to present their experiences with the practices of rotation grazing.

An airplane was sent by the group to take Dr. Merrill to Salina, and he returned here Saturday.

City Building Code Regulations Told

The City of Sonora has in effect electrical, plumbing and building codes, all of which were adopted as ordinances several years ago by the city commission. These ordinances were adopted solely for the protection of the property owners and citizens of Sonora. City manager Alex Binford said a genuine effort will be made to enforce these ordinances and the cooperation of the public is requested.

The basic requirements as set forth in these codes follows: ELECTRICAL CODE:

1. A permit must be secured from the City Secretary prior to addition of or alteration of existing wiring within or on any building or structure located within the city limits. This also applies to customers receiving electrical service from the city who live outside the city limits.

2. In order to secure a permit an electrician must be bonded and licensed by the city. A property owner may secure a permit to do electrical work in his place of residence without being licensed by the city.

3. All electrical work is subject to inspection by the electrical inspector and must comply with local and national electrical codes.

PLUMBING CODE: 1. A permit must be secured from the plumbing inspector or his designated representative (City Secretary) before doing any plumbing, including water, sewer or gas, within the city limits. This also applies to customers of the city's water and sewerage systems living outside

Sonoran's Father Dies After Illness

Mr. Henry S. Kelley, father of Mrs. Sears Sentell, died March 10, 1972, in Shannon Hospital in San Angelo. A resident of Snyder, he was born April 18, 1899.

Services were held March 12 in Snyder and burial was in Hillside Memorial Cemetery. Other survivors include his wife of Snyder, and one granddaughter, Miss Kelley Sue Sentell.

LIONS WERE WELL PLEASED with the annual broom sale held here last Tuesday. Lion Jimmy Hugh Harris reported that nearly \$2300 in sales were reported as Lions worked tirelessly to close

out one of the biggest sales ever held here. Last years total receipts amounted to \$1,720 a banner year, until this years outstanding sales record was set by the Lions.

SPRING COMES AGAIN

Now the fairest season of them all, Spring, is taking its place in the turn of the seasons. This year it arrived officially March 20 at precisely 7:22 a. m., EST.

As the sun moves further into the northern latitudes, it will bring with its warmth the flights of migratory birds, the greenness of new grass and the sound of new life quickening all around us. The sweetness of early flowers will be with us again. The freshness of the earth and warming air will be a reminder that with a little luck, a reasonable amount of goodwill toward his fellows and a lot of hard work, man should be able to preserve this beautiful planet on which he lives.

From the earliest scratchings in which his thoughts were set

down on stone or clay, man has expressed his feelings of encouragement and faith in a new beginning that is associated with the coming of Spring.

In this year of 1972, we, as a people, need much faith, and we need confidence in our own ability to bring the light of new reason and persuasion to bear on old problems as we seek to end a war, to talk with our enemies, to guide our nation through the search for greater individual security and opportunity while preserving the freedom without which life is not worth living.

As the gentle warmth of the first spring day and the dappled shade of new leaves move across the land, the freshness of the season will bring a new enthusiasm for the unfolding life that lies before us.

The Devil's River Philosopher Sez.....

It Looks Like Ben Franklin Didn't Know What He Was Talking About

Editor's note: The Devil's River Philosopher on his bitter-weet ranch on Dry Devil's River gets off into a deep subject this week and you can decide whether he makes it to shore.

Dear Editor:
I've always contended that economists, like weather forecasters, are much better at telling you what happened yesterday than what's going to happen tomorrow, but now I'm beginning to doubt even that.

Or me and Benjamin Franklin are too far behind our times. For example, I read in a newspaper last night which a March wind had blown against my front screen door and I pulled off because the fly season hasn't started yet anyway, that economists reported that the American public has demonstrated a grave

lack of confidence in the economy by saving more money in 1971 than it has in any year in the last 25.

That's right. Economists, I understand, figure the more money a person saves the less confidence he has in continued prosperity. The more he saves, the less he spends, and the less he spends, the fewer the goods bought, resulting in a slow-down in the economy.

Last year, the economists said, Americans saved 8.2 percent of their money, the worst, that is to say the highest, rate in 25 years. Any time they save more than 6 percent the economy's in danger, according to the experts' theory.

As I understand this, when Benjamin Franklin said a penny saved is a penny earned, what he was actually saying is that a penny saved is an attack on prosperity. When he said "neither a borrower nor a lender be", he was undermining the national economy.

Ole Ben may have been ahead of his time in discovering electricity but he was way off the beam when it comes to a balanced budget. How could he have missed discovering that a budget, although 30 billion dollars in the red, is balanced if all the money you planned on coming in had come in?

Come on, Ben, everybody knows a penny saved is a monkey wrench thrown. Yours faithfully, J. A.

A Bishop Looks At Life

A WEEK TO REMEMBER

By Everett H. Jones
Retired Bishop of the EPISCOPAL CHURCH

In the excitement of the recent visit to China President Nixon exulted that it was "A week which has changed the world."

Only time will determine to what extent this evaluation is true.

But we are about to observe a week which Christians have cherished for twenty centuries as the most meaningful in history. It is rightfully called "Holy Week."

Think of these significant facts:

The writers of the four gospels devote one-third of their record to the events from Palm Sunday thru Easter. (The books written in interpretation of these events would fill a library.)

The record of this week is so complete a picture of Jesus, of his mission and message, that it could be a foundation for the Christian Church even if we did not have the other two-thirds of the gospels.

Reverent students of Holy Week never cease to marvel at the extent to which Jesus, under the most terrifying circumstances lived out the message he had proclaimed; there was no discrepancy between word and deed. He had said, "Greater love hath no man than this, that a man lay down his life for his friends." (St. John 15:13) His followers might have forgotten these words; they could not forget the cross.

Christians in all ages have found a renewal of their faith and strength as they have remembered this week. They have found that living through these events of a distant past has a strange power to illuminate the present. They have rediscovered why Jesus instituted during this week the great feast of remembrance known as the Lord's Supper, the Mass or Holy Communion. They see why the Church has been called "the remembering society."

It is not an exaggeration to say that no period in recorded history has had such life-changing power for so many as has this one solitary week.

Character is never established in a single year.

A. J. Winkler this week bought the Mrs. Erskine place from Milam Schulenberg for \$350.

All the Whitehead family excepting Grandma Whitehead and Will have been down with the measles. Mrs. Lightfoot went down to the ranch last week to assist in nursing the parents.

Judge Trainer's justice's court has for the past two weeks been transferred from North Llano to Sonora. George will be a graduate when he opens court in precinct No. 3.

Mrs. W. H. Cusenbary and daughter Myrtle are visiting at the ranch of D. B. Cusenbary this week.

J. B. Hill, county and district clerk, is making many and substantial improvements to his house in East Sonora. Doll Bass has put a stone foundation under the house and is now building a chimney.

George Kirkland has leased from A. J. Swearingen the lot next to the laundry opposite Mayer Bros & Co., and will erect thereon a building 16x30 feet to be used as a restaurant and ice cream parlor. B. F. Bel-lows has the contract.

Is now the time to buy land?

Acquiring that farm might seem more practical with financing through the Federal Land Bank. Land is easier to pay off when costs are amortized over extra years with a long-term Land Bank Loan. Your total cost of borrowing, too, can be less. Ask us for help: We know land values; we will inspect the property. We will then try to make a loan that meets your exact needs.

approaching marriage of their daughter, Ruth, to Howard Lott, son of Mr. and Mrs. Jimmy Lott.

The bride-elect is employed with Shell Oil Company in Houston and her fiancé is Chief Pharmacist at Southmore Hospital in Pasadena.

The couple plan to marry April 15 in Eldon, Missouri.

LETTER TO THE EDITOR

(Editor's note: we always enjoy hearing from former residents. Hate to tell you, Gomer, you have missed one 'guess who'.) Dear Dee:

We do enjoy reading the 'Devil' so much. We still like to keep up with things down under, just as if we were away on a visit. I hate to read of all the deaths—yet the old must and the young can.

- *Patients released during the same period.

I like to see pictures of the young ones growing up, marrying, having youngsters. Lots of them I saw born here at the Hospital. It seems such short time ago, does it not?

Beryl Dean and I wish to express our deepest gratitude and thankfulness for all the wonderful thoughts, cards and prayers from all our friends from in and around Sonora. It was unbelievable that so many could remember us in our trying times of illness and hospitalization.

We are both back home now and on the road to recovery. It will be a slow go for Beryl. I'm up and doing fine as the heart doctors in Lubbock cured my case, but Beryl had so many things against her it will be slow.

We always enjoyed following the football team, but she hasn't been able to go the past two years; however, my son and I always liked to go.

They asked me at the hospital where we were from—Sonora or Strawn—we had so many cards, letters and phone calls from Sonora. Believe me we sure enjoyed our Sonora visitors.

Thanks again for the nice reading in the 'Devil'. Keep up the good work, and we hope to see you all soon.

Gomer and Beryl Dean (Minnick)

P.S. That is a good picture of Hut Moore. You know I have not missed one yet—got to keep up the good record. (Sorry, Gomer, .ed.) I've got Tommy Ray killing goats for me this afternoon. Margaret Shroyer has been here a week, now Florrie Mae has come for a stay.

Coffee Break

by Shirley Hill

This week begins the season of everyone's favorite time of the year—SPRING. A young man's fancy is supposed to turn toward love. I've never heard what a middle-aged woman's fancy is supposed to turn to but I can say this—today it certainly isn't being at a desk in a certain office in town.

I'm not exactly an outside person—I don't even like to turn the water on to water the yard, but Spring does things to people. I even have visions of my grandmother who used to sunbathe in the spring. But this was when people really believed in spring housecleaning.

Do you suppose this is what is commonly known as "Spring Fever"?

The night was dark and calm. All creatures were silent and leaves stood still as a lone man knelt in a garden called Gethsemane and prayed, "Not as I will, but as Thou wilt."

Around Him Jesus' disciples lay sleeping. Soon He knew would come betrayal, public condemnation and derision . . . and the long last march. And yet He prayed, "Thy will be done."

In the shadow of the Cross Jesus demonstrated perfect love and trust for God, His Father. In the hours ahead He would establish His Sonship for the atonement of all mankind.

And so today, in a world that needs this message of hope, let us commemorate that first Good Friday by acknowledging God as our Father, helping our churches to illustrate His way to the hungry, the sick, and the needy.

Accent on Health

Trying to stay young--or at least look that way -- is an obsession in this mod age. But looking young may be even tougher for men and women who smoke.

Facial wrinkles like crow's-feet may be caused more by cigarette smoking than by exposure to sun and wind--according to Dr. H. W. Daniell of Redding, California. In a recent article in the Annals of Internal Medicine, he describes his study of 1104 subjects between the ages of 30 and 70. Each subject was asked to fill out a questionnaire about his or her smoking habits, sun exposure, weight changes and medical history.

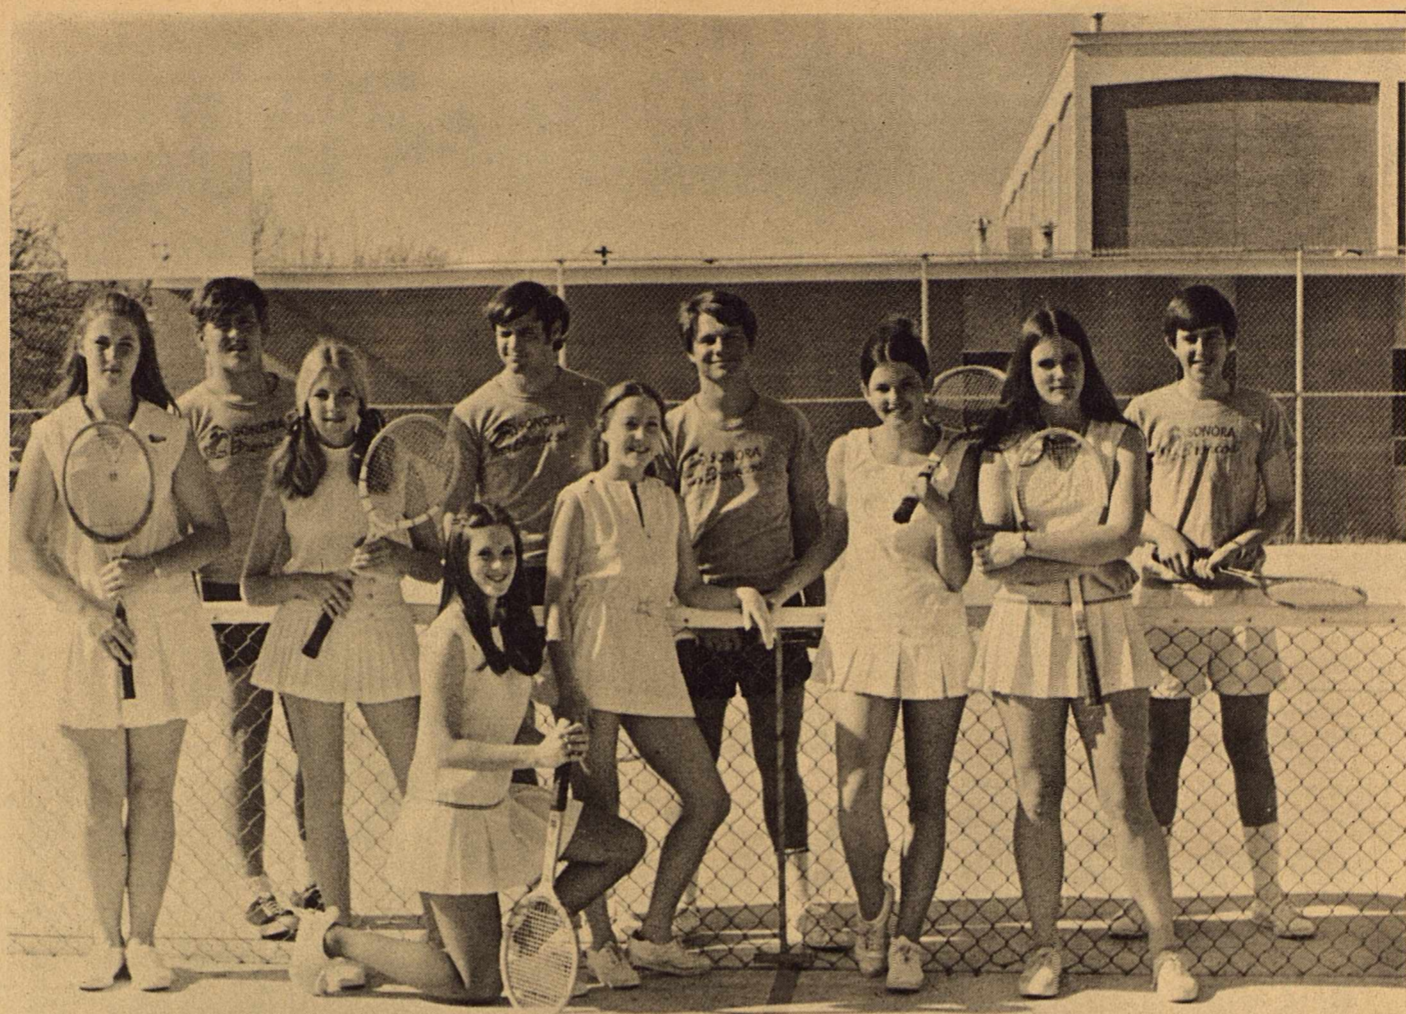

Without seeing the questionnaires, the doctor first assigned each subject a wrinkle score from one to six. Closeup photographs were taken. And three other sets of observers also scored the pictures.

After all correlations were made, prominent wrinkling and heavy smoking were related for

all age groups. Dr. Daniell suggests that smoking may cause wrinkling because nicotine causes the small blood vessels to contract. Over a period of time, he says, this might cause deterioration in skin tissue.

The most striking finding, however, was the correlation between heavy wrinkling and heart disease. Among male smokers over 50, those with the highest wrinkle scores had a past history of heart attacks almost twice as great as those of men with the same smoking habits but less wrinkling. And of the fifteen smoking men who had the highest wrinkle scores, seven developed major cigarette-related illnesses, including lung cancer and heart attacks, during the year after the study was completed. Deep facial wrinkles, says Dr. Daniell, can be significant warning signs.

See your local tuberculosis and respiratory disease association about ways to kick the habit. It's a matter of life and death.

THE HIGH SCHOOL TENNIS TEAM, coached by Ken McAllister, superintendent of schools, competed in Junction recently and won several of the events in the meet. The group will be playing in Iraan Friday. Girls on the team, reading left to right, are

Laura Gibbs, Debra Tittle, Melissa Gibbs, Michelle Rousselot, Cora Pope and Carol McAllister. Boys on the team are Frank Taylor, Tim Cole, Rick Street and Scott Campbell.

Local FHA Group Sets Observance

Local Future Homemakers of America have joined other Future Homemakers all over the nation in observing FHA week which lasts from March 19 through March 25.

Mrs. A. E. Prugel, Home-making teacher, said the girls have made special efforts to show their appreciation to teachers by placing red roses--the organization's flower--on lady teachers' desks. They have also placed homemade cookies in the teachers lounge.

The girls have encouraged good citizenship among students by having a locker inspection. Those which were in need of "housecleaning" received a litterbug notation.

The local chapter's theme for the year has been "Preparedness: The key to opportunity". They have had guest speakers, participated in and led panel discussions on job opportunities, drop-outs and a "think-in" session on what youth really want out of life.

An outcome of the drop-out panel discussion is a tentative project for next year. Members will secure names of Junior High students who have excessive absences. These students will be questioned privately. If money problems are the cause, members will attempt to correct the situation by finding odd jobs for them, or in some cases helping out a few times with small sums.

Officers of the local organization include Lilia Samaniego, president; Irma Velardez, vice president; Ana Garza, secretary; Connie Gutierrez, treasurer; Delia Samaniego, parliamentarian and Sally Gonzales, game chairman. Maura Hernandez was chosen Miss FHA and Junior Dominguez is FHA Beau.

Meetings are every first Tuesday at 7 p. m. in the Homemaking Department at the school. Mrs. Prugel is sponsor of the group.

THE FAMILY LAWYER

Play At Your Own Risk

Eddie and the corner grocer were boon companions. Often when business was slow, the two men would engage in friendly scuffling around the store. One day, the grocer shoved Eddie a little too vigorously. Eddie lost his footing, fell against the counter, and cracked two ribs.

That ended their friendship. In short order, Eddie sued the grocer for damages on grounds of assault and battery. But a court turned him down, saying his claim was barred by the doctrine of "assumption of risk."

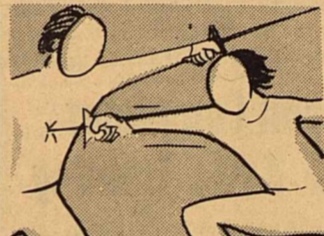

This doctrine has wide application in all kinds of playful and recreational activities.

"One who takes part in a sport," said one court, "accepts the dangers that are obvious and necessary, just as a fencer accepts the risk of a thrust by his antagonist."

Most often, the doctrine has been applied in golf. Thus: A golfer shanked an iron shot, and his ball struck another player standing far to the right. Admittedly, he had not yelled "Fore!" before taking his swing. Nevertheless, he could not fairly have foreseen danger to anyone so far out of range.

Result: a court ruled that the victim should not collect damages. The court said this was the kind of risk he had assumed by going onto a golf course in the first place.

But the doctrine does not apply to risks that are not "natural" to the sport--that are due

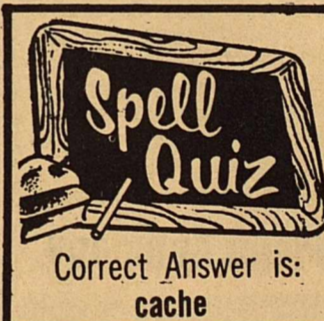

instead of somebody's misconduct.

In another case two fishermen were sitting in a rowboat when one, trying to make a backward cast, hooked his companion in the cheek. Sued later for damages, he sought refuge in the doctrine of assumption of risk.

"Accidents," he said, "will happen." But the court said accidents like this will not happen if fishermen are reasonably careful with their hooks. The victim had not assumed a risk, said the court, that was preventable by plain common sense.

Why does your electric utility trim trees?

About this time of year we get questions about our tree-trimming operations. People see our crews topping or trimming trees and wonder what this has to do with electric service

- What our men are doing is preventive maintenance. We try to clear out limbs and branches that are likely to be pushed by the wind into electric power lines. We also try to remove diseased or injured limbs that may fall across the lines, shutting off your electric service

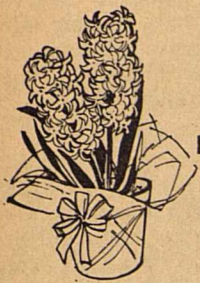

- We know how inconvenient it is to be without electricity. That's why we invest time and money trimming trees: to provide you with dependable electric service.

TRACK TEAMS

The girls track team competed in Eldorado last Friday. Margaret Black placed fifth in

the high jump, Carmen San Miguel, fifth in the 880 yard dash, and Dolly Leyva, sixth in the 440 yard dash.

The track boys went to Eldorado Saturday, placing second in the overall meet. Steve Street placed first in the 100 yard dash; Bruce Kerbow, first in the hurdles and second in the broad jump; Wesley Richardson, first in 220 yard dash followed by Steve in second; Dennis

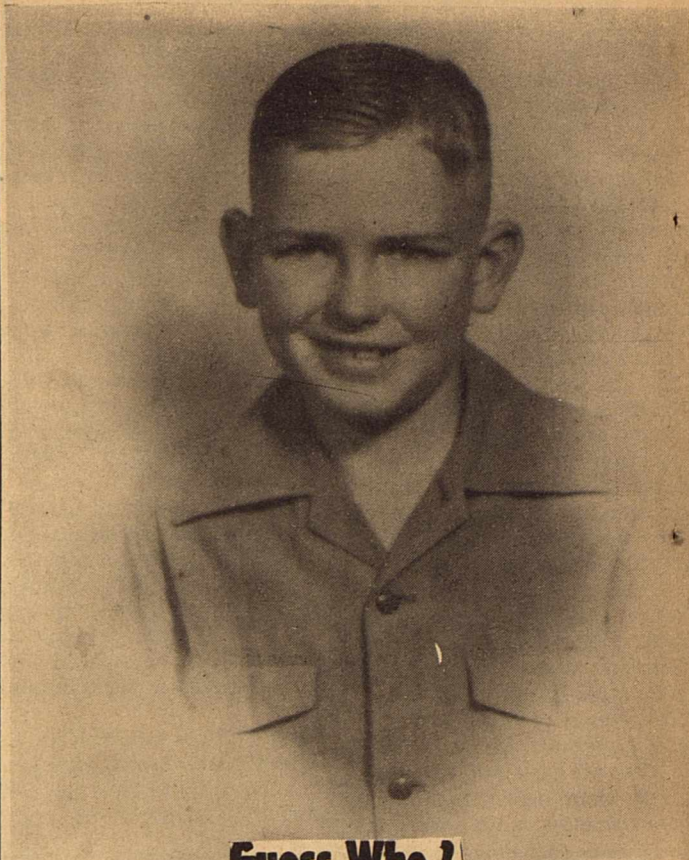

Nance, second in pole vault, and the 880 and 440 yard relay teams first. The mile relay team also came in first due to a fantastic effort on the part of anchor man, Bruce Kerbow.

The boys will be competing in the San Angelo relays this Friday.

—SHS—

BRONCO BAND

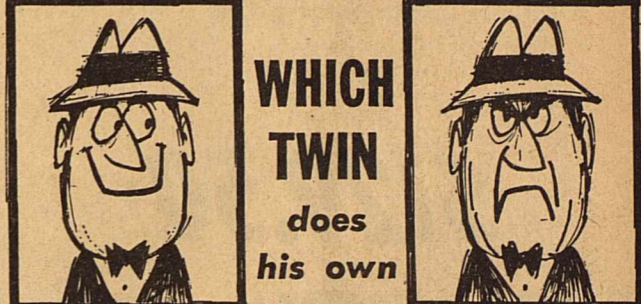

The Bronco Band will give a concert for the student body and faculty in the high school auditorium this Friday morning. The group will be going to Balinger that afternoon for concert and sight reading contests.
