Screwworm Battle Raging Statewide

A "red alert" is being sounded throughout the state as screwworms continue to assault livestock and other animals.

"Sutton County is experiencing a screwworm explosion as new cases are being recorded daily, and as many more probably not reported," warns County Agricultural Agent D. C. Langford with the Texas Agricultural Extension Service. He reminds producers that it's vital that all animals be inspected closely and regularly so that infestations can be pinpointed and treated with sterile flies.

Langford emphasized that he feels the screwworm situation in this county is as serious as it was before the program for control began.

Weather conditions were favorable for heavy screwworm buildups last winter in northern Mexico as well as in parts of the Southwest, explains the agent. Some infestations were also spread by transporting infested livestock last fall, and the insect pest spent the mild winter in new quarters. This spring overall conditions were "ripe" for a massive screwworm invasion.

Cases in this county confirmed as of June 6 include—Robert Pfluger, W. W. Renfro, O. L. Richardson, Philip Jacoby, W. H. Kames, Bill Morris, Hillery Phillips Jr., G. W. Stewart, Albert Ward, Henry Wyatt, R. A. Halbert, R. L. Hardgrave and L. R. Valliant ranches.

TWENTY MISS WOOL CONTESTANTS arrived in San Angelo early this week to prepare for a week of excitement before the new Miss Wool of America is chosen Friday night. Some of those persons busy with plans for the pageant include John Tedford, who is directing the music for the production, and he is shown here with producer Tom Hughes and Joyce Sharpe, fashion

commentator. Advance sale of tickets is being conducted at the main office of Holiday Inn in San Angelo, and tickets will be available at the door Friday night, Tedford said. The river parade is scheduled Thursday night (tonight). Tedford has been busy auditioning the chorus, and he is in San Angelo now finalizing work on the production.

Mat Adams To Operate Ambulance Temporarily

In the Monday meeting of the commissioners court, it was decided to employ Mat Adams for a period of one month to operate the ambulance the county recently bought from Darcy Carroll.

The ambulance which the county purchased recently at a cost of \$400, will be operated on an emergency basis until a more permanent arrangement

can be made, commissioners agreed.

The county commission meets July 10, and Adams one month employment may be extended or terminated, the court decided. Persons wishing the use of the ambulance are advised to call Adams home telephone number, 387-2462.

BITTERWEED PROBLEM

A group of Sutton County ranch people met with the court to protest washing of vehicles in the vicinity of ranches on ranch roads, and creating spread of bitterweed seed. The commission is requesting all operators of trucks and other equipment moving from one location to another within the county, to discontinue washing of the equipment on all county roads.

In other county business an agreement to cross county roads with equipment was entered into with Phillips Petroleum Company, whose representative, Tom Robinson, met with the court.

CEMETERY WATERING

It was brought to the court's attention that a number of persons are watering at the cemetery and leaving water turned on all night. Persons who wish to water plots at the cemetery should see that it is turned off before leaving the

cemetery in order to prevent waste, the court reminds local people.

All commissioners were present for the meeting and they included Estes Adams, Preston Love, R. L. Hardgrave and Collier Shurley along with County Judge Web Elliott, County Clerk Erma L. Turner and County road superintendent, E. L. Harrell.

Also meeting with the county commission were Mayor Norman Rousselot and city manager Alex Binford who were invited by the court to help discuss the ambulance situation.

City Commission O.K.'s First Reading Gas Rate Increase

The city commission in a special called meeting Friday afternoon approved the first reading of Lone Star Gas Company's request for a rate increase. Before the final passage of the gas rate increase, a total of three readings of the ordinance will be necessary.

The 3.9 increase requested by Lone Star will effect each consumer's bill approximately 28¢, according to a company spokesman.

Three Local Youths To Salvation Army Camp

Three local boys have been chosen by the Sonora Salvation Army Service Unit Committee for a free one week vacation beginning today at the Salvation Army's 370-acre Camp Hoblitzelle near Dallas, and return June 25.

"Our boys will be among 900 others sponsored by Salvation Army Service Units all over Texas who will attend the camp over a four week period this summer," Ray Gamett, the committee's camp chairman said. They will go to camp by Continental Bus with all expenses paid.

Boys attending are Robert Mounce, Sammy Sanchez and Phillip DeHoyos.

At Camp Hoblitzelle the boys will live in redwood and brick cabins and will receive well-balanced meals in the camp's dining room. All organized activities are supervised by coaches and counselors and include boating, fishing, archery, horseback riding, swimming, crafts, movies, sports—everything it takes to keep a boy busy for a whole week.

The building of Camp Hoblitzelle was financed by donations from more than 100 Texans. Included in the facilities are a 30-acre lake for boating and fishing, recreation hall, large swimming pool, a western fort, animals and playing fields for a number of outdoor sports.

This is the first time that anyone from here has had the opportunity to attend the Salvation Army camp, Gamett said.

Homemaking Coed Course Approved At Local School

For the first time in the history of the school, a coed course in Home and Family Living will be offered on the high school level next year. The new homemaking course will be taught by Mrs. A. E. Prugel. The course will cover mainly finance, management and other problems related to family living. The course, recommended by Mrs. Prugel, was approved by board members Monday in their regular meeting.

A number of issues were brought to the board's attention, with all members being present for the meeting.

John Tedford will head the speech and drama department, replacing James Buchanan, who resigned earlier to accept a similar position in the Midland schools.

Approval was given for the purchase of new and additional equipment needed at the schools. Oliver Wuest, shop teacher, requested new equipment for shop use, and the board approved the plan with the tools to be purchased over a four to five-year span.

Approval was given for participation in the National School Lunch Program.

Bids on the bus that the school had offered for sale were received from two firms with the high bid of \$279 from Wichita Falls Baptist Church accepted.

Some discussion was held in regards to renovating and

remodeling plans for the high school auditorium, with superintendent Ken McAllister recommending ceiling repair, middle and outside aisles.

A rental fee for use of school owned band instruments was agreed upon.

In other business bills payable were approved by the board of education with the gymnasium and elementary school bond payments approved.

Cullen Luttrell Award Nominee

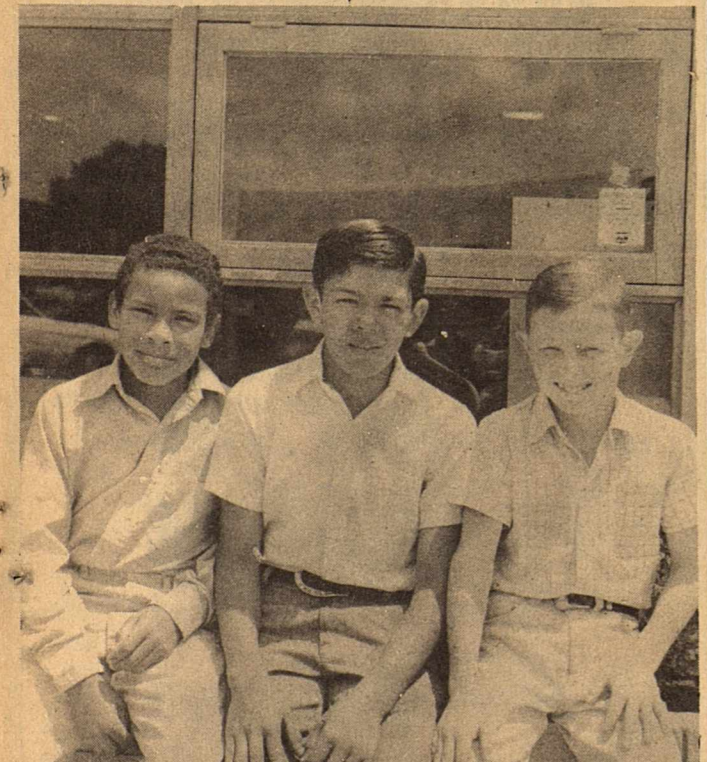

Highway maintenance foreman Cullen Luttrell of the Texas Highway Department was one of twenty-five foremen named to be eligible for the annual "Lady Bird Johnson Highway Maintenance Award".

This year's award will be given to the top two individuals chosen on the basis of their dedication and success in making their district highways attractive and pleasing show-cases to Texas' many visitors. The prizes will be \$1,000 for first place, and \$500 for second place.

Five men will be chosen from this group of 25, and then the two winners picked from the five by a specially selected committee chosen by Mrs. Johnson.

A 43-DAY PEOPLE TO PEOPLE visit in England, France, Belgium, Austria, Switzerland, Germany, East and West Berlin, Denmark, the Netherlands and Russia was in store for these young people as they left San Angelo Monday for the first lap of the journey. Shown here are Susan Stewart, Cynthia Whitworth of Doole, David Wallace, Janet Pope, Billie Ann Stewart, Bill Finklea and Sarah Allison. The six Sutton County young people are students or recent graduates of Sonora High School, with the exception of Sarah, who is presently a student in Judson School in Scottsdale, Arizona.

PHILIP DeHOYOS, Sammy Sanchez and Robert Mounce are leaving Sunday for a free one week vacation to the Salvation Army's 370-acre Camp Hoblitzelle near Dallas. Ray Gamett, the committee's camp chairman, said these boys are among 900 others sponsored by Salvation Army Service Units all over Texas who will attend the camp over a four week period.

REMEMBER THAT FATHER'S DAY IS SUNDAY —and Janice Nance, like most youngsters will agree that dads are pretty handy to have around, especially when the car breaks down. Her father, Cleveland, tries to get it in running order again for her. Remember to tell dad that you appreciate him and the many things he does for you this Sunday—his day!

CALENDAR OF FACT AND OPINION

The National Association of Manufacturers notes that Congress is again being asked to pass legislation to increase the minimum wage for all covered workers, except farmers, to \$2 per hour, effective July 1. The minimum for farm workers would be raised to \$1.70. Another bill would increase the general minimum wage to \$2.25 per hour, with the same rate for farmers. In the latter bill virtually all exemptions for overtime would be eliminated. Adoption of such legislation would increase farm costs, push up the whole wage-price structure, increase unemployment, particularly of the least skilled, and reduce our competitive position in world trade.

Vacation time is drawing near, and for many persons that means long, high-speed trips in the family car. The Portland, Oregon, Traffic Safety Commission urges all drivers to have their car safety checked now for summer driving. Make sure the brakes, tires and lights are in safe condition.

The JCPL/NJPL News, a utility company publication, states that there is under way an experimental project in garbage disposal and conversion using radiation. The process, according to one source, consists of shredding garbage, molding it, impregnating it with polymers and then irradiating it to neutralize undesirable matter. The finished product then can be molded under pressure to form such items as ashtrays, wallboard and flooring materials. The thought has its intriguing side. Imagine suddenly finding a tomato plant growing out of your ashtray, a grapefruit tree out of your newly paneled wall or a lemon tree sprouting up through the living room carpet.

The Observer of Newberry, South Carolina, quoted the National Wildlife Federation Conservation News as saying: "Although your next camping trip might be without any mosquitoes, if two researchers from India are right, it will also be

without friends! Two biology researchers from Bombay have reported that garlic (that's right folks—garlic!) may provide a deadly diet for mosquitoes, houseflies, and certain other major insect pests while posing none of the hazards of DDT. The researchers reported that, particularly considering its nontoxic nature, 'garlic oil could be used as a pesticide.' So the next time you get out in those woods, just rub a little garlic all over and relax pest-free. Another good point: if you don't have a lot of wilderness around you, you soon will have!"

"Stopping on the freeway is one of the most dangerous things the average motorist can do," warns the Portland, Oregon, Traffic Safety Commission. "Don't take chances with a nearly empty gas tank or badly worn tires—a chance that might leave you stalled like a 'sitting duck' on a high speed highway."

According to the Field Enterprises Educational Corporation, "The most important job in the world is nurturing the young. Feeding the baby, teaching the baby, providing for the baby's physical and mental development is the most important job in the world. Washing the clothes and cooking the meals may be very important to the family's well-being at the moment, but reading to a child is so important to his mental development that this activity must not be neglected in favor of the less pressing family duties. If the ironing can wait until nap-time, mother should let it. . . His physical growth depends upon what nutritionally sound food she feeds him. His mental growth depends upon what stimulation she provides for him while he is still a youngster. . . Having a baby is the easiest part. Developing the baby into the adult human being his heredity gave him the potential of becoming—that is the hard part, the essential part, the most important job in the world."

DATES AND EVENTS FROM YESTERYEARS

JUNE 14, 1962
The first half of Little League ended Thursday night with the Tigers leading the League with a record of eight wins and only one loss.
Robert Brown was exhibitor of the Junior Grand Champion Bag of Wool at the 25th annual wool and mohair show. Chris Berger showed the junior Grand Champion single wool fleece.
Miss Betsy Ross, who will be married to Lt. James A. Buita June 30, was honored with a bridge luncheon in the home of Mrs. C.M. Epps Monday. Co-hostesses with Mrs. Epps were Mrs. W.R. Cusenberry and Mrs. W. H. Dameron.
Mrs. L.P. Bloodworth and Bert have been visiting in Ruidoso, New Mexico with her parents, Mr. and Mrs. Bert Rice.
Mr. and Mrs. Raymond Cooper and children and Mrs. Ray Baker of San Angelo were Sunday guests of Mr. and Mrs. Alfred Cooper.

JUNE 13, 1952
Mr. and Mrs. Dennis Fisher attended the open house Sunday in Junction honoring Fisher's parents, Mr. and Mrs. Burl Fisher, who observed their Golden Wedding Anniversary.
From Son-of-a-gun: It makes you kind of sad to wander around the old Elementary School and think about days gone by that will never be seen again. We took a stroll through the building the other evening. On the wall in one room is a picture of Woodrow Wilson, with the date 1916. In the basement is an early-model Victor phonograph, the kind that had a detachable speaker and was wound by hand. On several desks and table are carved a variety of initials and designs. You could almost see a small boy in knee pants and stockings hidden behind his geography and working slyly to leave his imprint on civilization. We hope the old school always stays there. We've gotten to where we listen for the bell on Halloween, and we feel it's as much a part of Sonora as the trees and hills.
Mr. and Mrs. Sam Adams have returned from a weeks vacation in Austin.
Mr. and Mrs. Sam Logan have as their guest, Miss Florence Schanz of Vinton, La.

JUNE 12, 1942
The people of Sonora and Sutton County set aside one day each year on which to get together, have a big time and to solve the financial end of many civic and charitable projects. The Lions Livestock Auction will be held in the afternoon. In response to a request from the Lions Club the merchants of Sonora will close their businesses Wednesday, turning out to support the sale morally and financially.
Mrs. Rita Ross is spending the summer in New York.
Mrs. J.S. Glasscock and Miss Louise Briscoe were in Marfa over the weekend. They were the guests of W.A. Glasscock.

The Devil's River Philosopher Sez. . . . Kids Don't Realize The Value Of All Those Many Television Commercials

Editor's note: The Dry Devil's Philosopher on his bitterweed ranch on Dry Devil's River has some advice for children this week, more or less.
Dear editor:
If a man hasn't got something to protest about these days he's so far out of style he's probably still carrying a pocket watch, wearing high-top shoes and carrying cold patches to fix flats with, so it was only natural that an 11-year-old girl should show up before a Senate committee in Washington protesting Saturday morning commercials on kids' T.V. shows.
According to her, the commercials are so bad, or so good, however you want to put it, that kids immediately rush out and demand that their parents buy the stuff, and parents, naturally not wanting to lose the everlasting love and affection of their children, comply.
Then when the kids, after a few years of eating all that cereal and having attained the

Snips, Quips & Lifts

by LOTTIE LEE BAKER
—Someone very aptly described life today as a jigsaw puzzle with a peace missing.
—A swelled head may make you halo too tight.
—All some people want for their birthday is not to be reminded of it.
—Willingness without action reminds us of clouds without rain—lots of potential, but no results.
—What you don't know may not hurt you, but it amuses others.
—One of the drawbacks to giving money as a gift is that you have difficulty charging it.
—The best time to relax is when you don't have the time.
—Teenager: "My mother does bird imitations."
Friend: "Name one".
Teenager: "She watches me like a hawk."
—We're slow to admit that we're no longer young. (The pride of our ego still glows.) And yet, as of late, we've been feeling our coos much more than we're feeling our oars.
—A blunder at the right moment is better than cleverness at the wrong time.
—They've fixed it taxwise—it pays to keep married or get married.
—Lots of people work themselves into a lather over a bit of soft soap.
—When your actions speak for themselves, it's best not to interrupt.
—It's no use going on a diet if you have to starve to death to live longer.
A LIFT FOR THE WEEK
The actions of men are the best interpretation of their thoughts.

A Bishop Looks at Life Tito Has A Birthday

By Everett H. Jones, Retired Bishop of the Episcopal Church

(Bishop Jones is on a tour of Europe and will send messages from various points along his route. This is his last report.) Dubrovnik, Yugoslavia—In a few days (on May 25) Marshal Tito will observe his 80th birthday. In fact, the celebration has been under way for a month. A document expressing affection and loyalty has been circulating in all parts of the country, and wherever it goes there is a community-wide celebration. On the birthday itself there will be a national holiday.

There is no question but that Tito is one of the remarkable world figures to emerge after World War II. He has had the courage to resist the pressures of Moscow and to develop a modified communism along his own lines, a combination of socialism and free enterprise. As a result his country is the most prosperous in Eastern Europe.

But there are some dark spots in the picture as the President surveys the nation on his birthday. Yugoslavia (the name means "South Slavs") is a merger of six national groups, each with a deep sense of identity and independence. The six are Slovenia, Croatia, Bosnia, Montenegro, Macedonia and Serbia. It is less than 50 years since they were united in a single state.

Periodically there are bitter tensions between these national groups. During our stay here three members of the Communist Party from Croatia have been expelled because Tito said their extreme nationalism threatened to create civil war.

There is also a long tradition of religious conflict. About 50 percent of the population are Orthodox, 37 percent Roman Catholic, and 13 percent Moslem. The feeling is especially strong between the Roman Catholics in Croatia and the Orthodox in Serbia.

The situation is further complicated by problems of communication. There are two alphabets: Latin and Cyrillic. There are four different languages as well as many dialects.

There are 20 million people in Yugoslavia but only 1 million, or 5 percent, belong to the Communist Party. The party control is well-established but there are many in the country who are not happy about it (and they are very open in expressing their opinions!) One young Yugoslav said to me, "We don't know what will happen next. The Government is always announcing some new ruling or restriction. It makes us feel we have nothing to look forward to."

There is one important question that must occur to Tito on this birthday because it is on the minds of so many people both inside and outside his nation: "What will happen when he dies—who is strong enough to hold together this explosive mixture?" There is no heir apparent and the future is full of uncertainties.

Just a final word about the picturesque city from which this report is being sent, Dubrovnik. It has been called "The pearl of the Adriatic" and it deserves the title. It is a fascinating blend of old and new. The walled city has just celebrated 1000 years of history. In this area no cars are allowed and it has the feel of a medieval town. (We had tea with friends in a building built in 1490!) Outside, there is a modern community, a busy port, and numerous hotels. To this charming place the tourists will continue to come by thousands until the season ends in November.

Linen Shower Honors Bride-Elect

A luncheon and linen shower honored Miss Shelley Morris, bride-elect of Jim Brooks at the Edwin Sawyer home May 24. Hostesses were Mrs. Sawyer, Miss Jane Sawyer, Mrs. Vestel Askew and Mrs. Rip Ward. Arrangements of spring flowers decorated the bride's table. Twenty-four friends of the bride-elect attended the party.

Coffee Break

By Shirley Hill

According to a recent theory, the campaign to establish the abbreviation of "Ms." as a feminine title in place of the too-revealing "Miss" or "Mrs." is only part of the goal weeding out the alleged sex bias in the language as a whole.

The idea is that the words we use determine or at least reinforce our attitudes and prejudices. Obviously if we can get rid of sexist terms it will go a long way toward ending unfair discrimination against women. My, how times are changing! I can remember when I married some many years ago, one of the most exciting things bride-to-be dreamed of was the title "Mrs." Not so anymore. Some of the more liberated females hesitate to admit they are married or unmarried. According to them it makes no difference.

In taking care of a large percentage of the correspondence here in this office, I usually sign my name Shirley K. Hill. Receive replies to Miss, Mrs., Mr. and more recently to Ms. So maybe the Ms. is catching on. Frankly, I still like to be called Mrs., but I suppose I'm not considered a liberated female. We all realize that any theory, however good it may be, is only as good as the assumptions it is based on. And in this case it may not be very good.

Mr. and Mrs. Jim Garrett have recently returned from Sadona, Arizona, where they attended the wedding of Jim's sister.

After visiting in May with daughters, Mrs. Cashes Taylor and Mrs. Palmer West of Eldorado and their families, Mrs. Elizabeth Goodwin of Hobbs, New Mexico, has returned home. She was accompanied on the trip by her daughters. While in West Texas she also visited with relatives and friends in San Angelo, Christoval, Coleman, Stacey, Brady, Menard and Ozona.

Eddie Alexander, son of Mr. and Mrs. James Alexander, is now home and recuperating from knee surgery in San Antonio last week.

Tim Turner, son of Mrs. Erma Lee Turner, left Tuesday morning for Sacramento, California, where he will spend the summer with his father, Robert Turner.

Green News

There will be a mixed foursome next Sunday, June 18. Please sign up before 12:30. Tee off time will be at 2 p.m.

The golf club now has 152 members. Some of the new members are Carl Teaff, Libb Mills Wallace, Jim Wilson, Corky Schwiening, Ed Lee Renfro, L. H. Purvis, Bill Glasscock, C. L. Hiley, Dick Hamilton, Robert Hard, Jerry Donaldson, John Cotton, Ken Braden and Houston Cullen.

The Ladies West Texas Tournament is being held in Midland this week. Attending from Sonora are Wanda Cahill, Muriel Brown, Bobbie Fawcett, Sammie Espy, Mary Barrow, Jo Neville and Lucille McMullan. Hope these gals bring home a load of trophies.

Dr. R. W. Johnson played the course this week with his son-in-law, Leon Burnett from the University of Wyoming.

Mr. and Mrs. Glen Pierce were out with their daughter and son-in-law, Mr. and Mrs. Ed Lee Renfro.

Mr. and Mrs. James A. Davis and sons, Clay and Paul, have recently returned to Kiwajalein Atoll in the Marshall Islands after visiting with Mrs. Miers Savell.

Stocks, McClelland Engagement Told

Mr. and Mrs. A. D. Stocks of Winsboro have announced the engagement of their daughter, Darthe Gale, to Bill McClelland, son of Mr. and Mrs. Ernest McClelland.

The couple plan to marry August 19, in the home of the bride's parents in Winsboro. The bride-elect graduated from Winsboro High School and attended Lamar Tech at Beaumont, and is a graduate of Texas Tech University of Lubbock. The prospective bridegroom is a Sonora High School graduate and received a BA degree from North Texas State University in Denton, with a major in Insurance.

He is employed in Denver, Colorado with an insurance company.

MRS. MICHAEL CROUCH

Double Ring Rites Unite Couple May 31

Miss Barbara Ann Granger became the bride of Michael Crouch during a double ring ceremony May 31, in the Cold Springs Baptist Church at Garrison. The Rev. T. D. Lunsford officiated.

Parents of the couple are Mr. and Mrs. Bobby Joe Granger of Garrison, and Mr. and Mrs. Maurice Crouch of Timpson. Mr. and Mrs. Wesley Granger are grandparents of the bride.

Wedding music was presented by Miss Bell Bridges.

Sisters of the bride, Miss Brenda Granger and Miss Bemice Granger, served as maid of honor and bridesmaid, Angie Jackson of Timpson was flower girl and O'Neal Jackson was ring bearer. Candlelighters were Donnie Rambin and Benny Granger.

Melvin Crouch served his

brother as best man and groomsmen was Bobby Wayne Granger, Kenny Olree and Bill Crites, Jr. were ushers.

The bride, given in marriage by her father, chose a gown of white peau de soie and French imported lace, re-embroidered with seed pearls and fashioned with a full skirt and chapel train.

RECEPTION

Following the wedding a reception was held with Becky Hudman presiding at the bride's book.

The bride's grandmother, Mrs. Granger, designed and made the wedding cake. Serving the four-tiered cake were Misses Jean Crites, Karen Olree and Phyllis Pollard.

Serving at the bridegroom's table were Mrs. O'Neal Jackson and Mrs. Wesley Clark, Jr.

Jane Sawyer Plans To Attend National Sorority Convention

Miss Jane Sawyer, president of Kappa Kappa Gamma sorority at Southern Methodist University at Dallas, plans to attend the national convention in Miami, Florida, June 22. Miss Sawyer, daughter of Mr. and Mrs. Edwin Sawyer, has been chosen to give the opening address at the sorority convention.

Miss Sawyer was named to the dean's honor list for the spring semester at SMU.

CARD OF THANKS

To those who were so thoughtful with their cards, letters and flowers during Arvels stay at M. D. Anderson Hospital in Houston, we are grateful. Also special thanks to the Helping Hand Fund for their contributions to our traveling expenses. Arvel is now home and doing nicely. Again, thanks. The Arvel Bolt family. 1p41

Is now the time to buy land?

Acquiring that farm might seem more practical with financing through the Federal Land Bank. Land is easier to pay off when costs are amortized over extra years with a long-term Land Bank Loan. Your total cost of borrowing, too, can be less. Ask us for help: We know land values; we will inspect the property. We will then try to make a loan that meets your exact needs.

HONEYMOON

The wedding bells rang, the bride was radiant, the groom's mother cried, just a little, and the maid of honor caught the bouquet. It was a perfect wedding, and the honeymoon has been ideal.

Tomorrow, this young couple will be going home to begin a new way of life. In it, reality will be combined with romance. There will be the blending of two temperaments under a single roof. There will be all the frustrations of daily living, and the pain as well as the pleasure that comes with just being alive.

How will they adjust? That depends on the basics that were taught to them years ago, in their own homes—and in church.

Sunday Ecclesiastes 6:1-12	Monday Job 14:1-9	Tuesday Psalms 14:1-7	Wednesday Ecclesiastes 7:1-6	Thursday Ecclesiastes 12:8-14	Friday Lamentations 3:1-18	Saturday Romans 1:17-23

BECKY BALLARD of Christoval won the Grand Champion Mare award at the Junior Quarterhorse Show June 7, with Cecilia Ann. Clear weather was on tap for the show and the annual event went off smoothly.

THE JUNIOR QUARTERHORSE SHOW was held here last week with Buck Owens judging. A number of the entries are lined up here for the showmanship judging. The event was held at the Sonora Park Association race track arena with Louis Powers serving as chairman.

Texas Tech Opens Summer School At Junction

Texas Tech University Center at Junction is now accepting pre-registration applications for the second summer semester which begins July 10. Basic freshman and sophomore courses in English, math, history, biology, government, and home economics (family relations) are available for full college credit. These courses offer an excellent opportunity to beginning and lower level students for advancement toward a college degree.

A selection of upper level courses, Education 5310 (General Supervision), Education 5350 (Introduction to Guidance and Personnel Services), and Animal Science 5312, begins June 19. These are three-week courses which may be taken on either a credit or non-credit basis.

Additional three-week courses to be offered beginning July 10 include Art 539 (Materials and Methods in Art), Education 5340 (The Legal Basis of Education), Family Relations 438 (The Exceptional Child), and Range and Wildlife Management 232 and 5319 (Ecology).

Advantages of the Tech Center facilities include low teacher-student ratio, air-conditioned buildings, and a relaxed Hill Country atmosphere.

Information regarding registration and housing may be obtained by contacting the Director of the Texas Tech University Center at Junction, Box 404, Junction, Texas 76849.

CARD OF THANKS

We wish to thank our friends for making "Our Special Day" such a happy one. We appreciated the beautiful flowers, wonderful gifts, lovely cards and long distance telephone calls. A special thanks for those who came to help us celebrate our 50th wedding anniversary. Some of you came a long way.

May God Bless each of you.
Evelyn and Libb Wallace 1c

electric heat pump

- heats
 - cools
 - conserves energy
 - saves money
- The electric heat pump is a remarkable device that uses about one half as much electricity to heat your home as a conventional electric heating system. This means substantial savings on your winter heating bills.
- Operating costs for summer cooling are about the same as conventional central air conditioning systems. During summer a heat pump works like a regular air conditioner. A blower pulls hot air from the house and passes it through a filter to remove dust and dirt. The air then flows across a cooling coil to cool and de-humidify the air. It then moves through ducts to all rooms in your home.
- During winter months this cycle is reversed. For the heating cycle, the heat pump does an unusually efficient job. The only electricity it uses is to run the fan and the compressor. This is why heating costs are dramatically lower. Heat is removed from outdoors and pumped inside to heat the house. This is the feature that surprises most people, until they realize that there is always some heat in winter air.
- Original installation costs for a heat pump are usually slightly more than for separate heating and central air conditioning systems. But depending on your installation, costs may be about the same—or even less than for separate systems.
- A properly engineered heat pump . . . large enough to do the job . . . will mean important savings to you.

Mike Richardson Plans To Enter Medical School

Michael Lewellyn Richardson, son of Mrs. Janita Richardson of Angleton, and O. L. Richardson, Jr., is one of 168 new students who will be entering Baylor College of Medicine's record-size freshman class next month.

In an effort to combat the critical shortage of physicians in Texas, Baylor has doubled the size of its entering class, with assistance from the state legislature. By 1975 Texas residents will comprise 70 per cent of the College's total enrollment.

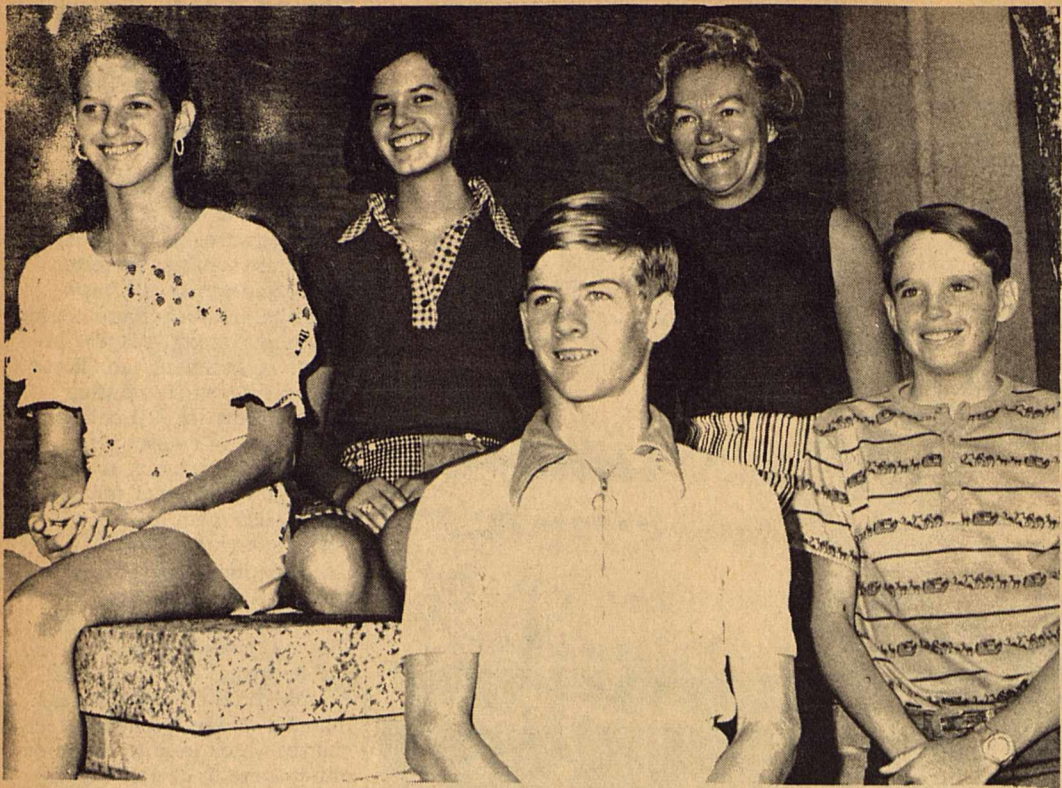

Richardson graduated with distinction from Texas A&M University. Designated a "distinguished military graduate" in AFROTC, Richardson is a commissioned second lieutenant. Richardson will enter Baylor's three-year curriculum program, which lets students complete their medical education a year earlier than the traditional medical program by attending classes year-round. He will begin classes July 5.

He is a grandson of Mr. and Mrs. O. L. Richardson, Sr.

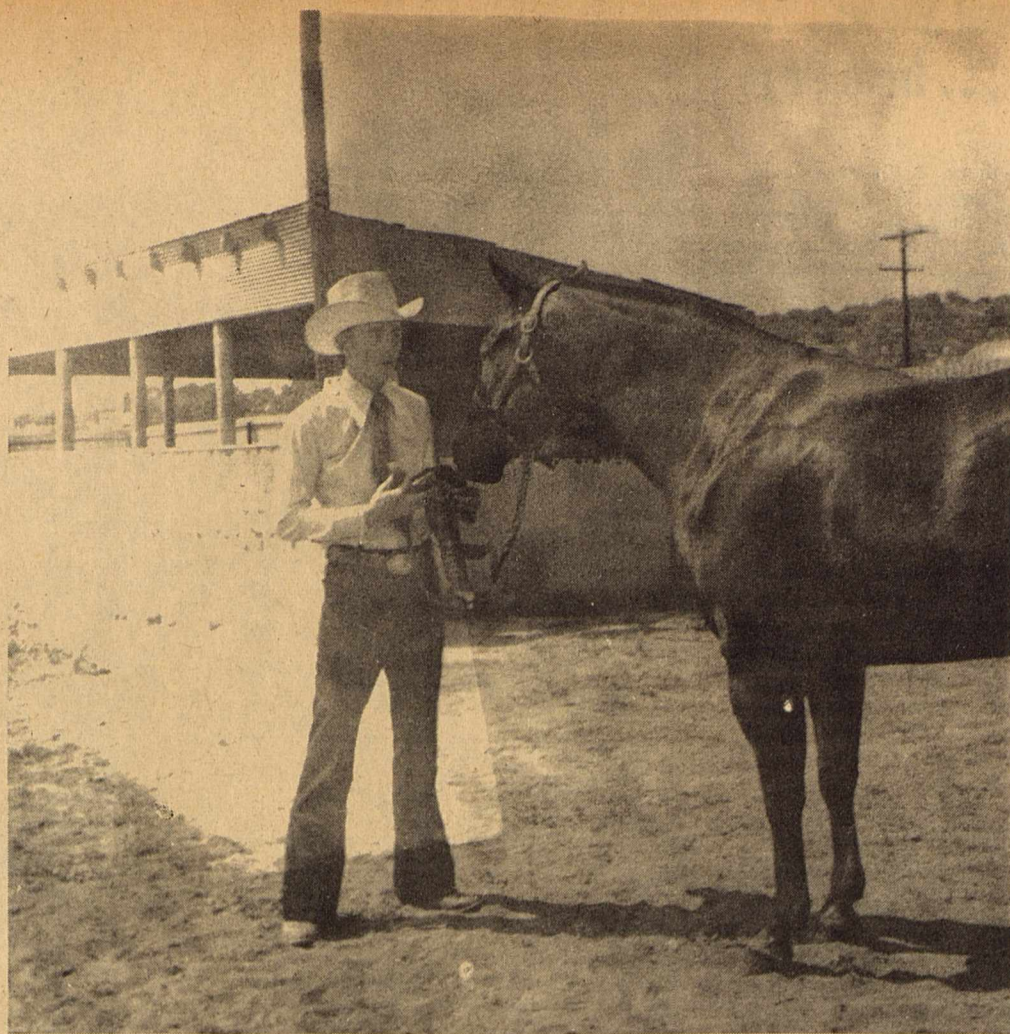

GUESS WHO ?

If you study this picture extra long you should be able to recognize this longtime Sonoran. She no longer 'marcels' her hair, nor does she wear the curl that was the fashion of the day, but her smile is still the same! Last week's 'guess who' was city employee, James McLaughlin.

4-H RANGE AND PASTURE WIZARDS—Sutton County came up with the state's best range and pasture grass identification team during the annual 4-H Roundup June 6-7 at Texas A&M University. In front left to right are Larry Finklea, 4th high individual, son of Mr. and Mrs. Lawrence Finklea; and Will Wallace, son of Mr.

and Mrs. Gene Wallace. From the left in the back row are Sheila Alexander, high point individual and daughter of Mr. and Mrs. James Alexander; Cora Pope, second high point individual, daughter of Mr. and Mrs. Walter L. Pope; and Mrs. Pope, adult leader.

DOUG MAY of FORT STOCKTON won the Reserve Champion Mare award with his mare Miss El Kentuck at the Junior Quarterhorse Show last

week. John Ben Cawley and Cindy Carnes tied for the All Around awards and Pam Powers was named runner-up All Around.

THE RODNEY KNIGHT family received the 1500th telephone in Sonora, Wednesday, June 7, when General Telephone finished the installation. Shown here with Mrs. Knight at the occasion are Doyle Morgan, Devil's River News publisher, Kyle Donaldson, combinationman who made the installation, and Norman Rousselet, mayor.

General Telephone Installs 1500th Local Phone

A milestone in Sonora's growth was reached Wednesday, June 7, when General Telephone installed the 1500th telephone in the home of Mr. and Mrs. Rodney Knight. Kyle Donaldson, combinationman made the installation.

The Knights were presented an engraved letter opener to commemorate the occasion. Present for the presentation were Mayor Norman Rousselet, Devil's River publisher, Doyle Morgan and J. W. Shelley, General Telephone's service manager from San Angelo.

According to Jack Goss, division manager in San Angelo, historical records reveal that Sonora had 1303 telephones in 1960. By 1965 the number had grown to 1452 and seven years later the number has grown to 1500.

The installation of this milestone telephone is another significant step forward in the growth of both Sonora and General Telephone, Goss said.

Fire Department Elects Chief

The Sonora Fire Department met Wednesday, June 7 to accept the resignation of Chief Darcy Camoll and Assistant Chief Hollis Rogers. Carroll has accepted the Fire Marshals job with John Sealy Hospital in Galveston. Rogers is now employed with a firm in Houston.

Assistant Chief E. L. Harrell was elected to the position of Chief. He has been a member of the department for 15 years and assistant for 6 years.

Cullen Luttrell and Lester Byer were elected to the Assistant Chiefs positions. Byer was also elected Captain of the department for life.

IT'S NEVER TOO LATE TO LEARN TO SWIM

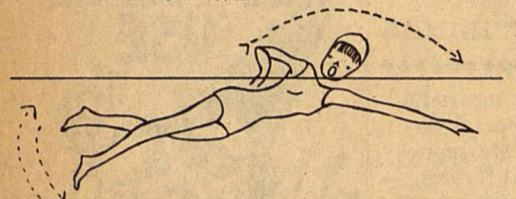

Oddly enough, approximately three fourths of the earth is covered with water, yet the majority of people can't swim or even float. If you are one of that majority, it's time for you to learn.

These sketches by a leading swim pro will be helpful to those who are learning to swim, as well as a refresher to those who already know

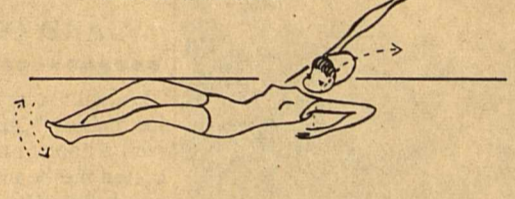

how. The knowledge of swimming most certainly adds enjoyment to those pleasant days at the beach. And don't forget to take along bronztan cream lotion or clear, for four hour sun-protection of all exposed skin. It lasts even after a dip in the water and the shade of your tan will be luscious. If your skin is sun-sensitive, sun-stop is the maxiest protection you can use by.

Oil And Gas Production Sale In County Adds Over Two Million To Economy

Sale of Sutton County oil and gas production accounted for \$2,633,001 of the county's economic output for 1971, according to a study by TexasMid-Continent Oil & Gas Assn.

In producing 261,495 barrels of crude oil and 11 billion cu. ft. of natural gas, the county ranked 148 in Texas. Value of its crude oil was \$920,462; natural gas value was \$1,712,540.

The county is among 190

Texas counties with oil and gas production value topping \$100,000, although 211 counties produce oil and gas.

"Sutton County oil and gas wells made a significant contribution to Texas' share of the nation's energy needs last year, but growing demand is sapping reserves in Texas faster than they can be replaced," Robert A. Buschman, Association president, said. "As fewer new fields are discovered, due to less drilling, the continuing strong economy and tax base of many Texas counties may now depend on updating Texas oil conservation laws to encourage wider use of new recovery technology," he said.

The Association study showed that Sutton County farmers, ranchers, and other royalty owners received \$329,125 as their share of the production.

The county's wells generated \$42,341 in crude oil production taxes for state government and \$128,440 in state taxes on

natural gas. Oil and gas producers spent \$5,535,876 in drilling 58 wells in the county last year, \$771,516 of which was lost in drilling 18 dry holes.

Texas Employment Commission figures showed 64 oil and gas industry employees in the county last year, with an annual payroll of \$541,684.

Civil Service Nursing Assistant Applications Open

The United States Civil Service Commission announced today that it is accepting applications for a limited number of positions as Nursing Assistant, GS-2 and GS-3.

These positions are located in the West Texas area and in Dona Ana and Otero Counties in New Mexico. Salaries start at \$5166 per year for GS-2 positions and \$5828 for GS-3 positions.

Applicants for positions in the Big Spring area may receive early consideration by applying before June 7. Further information and application forms may be obtained at the Federal Job Information Center in the El Paso National Bank Building Arcade, 411 North Stanton Street, in El Paso, or by telephone.

Residents of Texas outside El Paso can call, toll-free, 800-592-7000.

A fisherman who likes to try different water can very easily wind up with a pocketfull of expensive licenses. Those anglers who like to fish the lakes bordering their states really have a problem.

Texas and Louisiana anglers are fortunate. Heads of these two states worked out a reciprocal program for the waters of Toledo Bend, on the Sabine River—the stream that forms the natural boundary between Texas and Louisiana. Each state has agreed to honor the license of the other while fishing on this fabulous reservoir which covers some 200,000 acres when full.

Non-resident fishermen already had a good deal with Texas' universal fishing license costing the same to them as to Texans . . . \$2.15 a year . . . and covering the Gulf as well as all Texas waters (excepting, of course, private ponds). Now, with their Texas license, they can also fish the Louisiana side of Toledo Bend.

Both Texas and Louisiana stocked Toledo Bend Reservoir heavily with largemouth black bass in the very beginning. Louisiana put in 1,800,000 and Texas put in 1,500,000. These, of course, were in addition to the natural spawn from fish native to the river.

In one year those bass grew to two and three pounds each and now they are of jumbo size.

The lake's popularity with anglers still exceeds its facilities. But more

and more accommodations are being provided as fast as possible. There are several good facilities near the dam, reached through Jasper and Burkville on the Texas side.

More and more facilities are being installed as rapidly as possible on the upper end. This area is reached out of St. Augustine. A multi-million dollar causeway has been constructed across the lake here, connecting San Augustine, Texas, with Many, Louisiana.

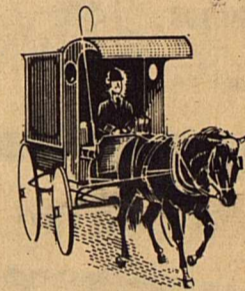

For the bait fisherman, minnow and worm stands are available at both ends of the lake. Early fishing, for the most part, was done from the flat-bottom john boats so prevalent in both east Texas and Louisiana.

However, larger boats now are being towed to the lake every day for some of the best fishing of either state from the Sam Rayburn reservoir.

Every week now the newspapers and the adjacent areas publish many pictures of large fish taken from this fantastic lake. Because of the reciprocal license agreement, Texas fishermen flock to the other side, and in turn Louisiana anglers head this way. (Greener pastures, you know.)

A word of warning, however, don't try to fish the lake without any license. Working the area are very active game wardens from each state. They are friendly but firm.

TIMES HAVE CHANGED

... IN BANKING TOO!

But we still deliver the goods. Many times you're too busy to get to the bank, that's when our bank-by-mail service comes to your aid. In our pre-paid mailers you can deposit or withdraw at your convenience — and it's same day service.
