Teams Take First In District Meet

## Champion Tracksters Advance To Regional

BY BILL HARLE  
Sonora closed out its District 9-A tenure Friday on a winning note by finishing first place in the district track meet held in Eldorado. This was the second consecutive year for the crown to be won by the Broncos. Next year the Broncos will be in AA competition. Sonora was led to the cham-

ampionship by several outstanding performers. Ladd Turner had been improving steadily for the past several weeks and set a new record Friday, with a heave of 51'5 1/2". This broke Bill Green's record of 50'8 3/4". Ladd has several throws of over 52'6" in practice and should be unleashing a really good throw within the next couple of weeks.

John Brown ran his best race of the year in the 880 yard dash and won driving in a photo finish in 2:05.1. John should do very well at regional and could go to state.

Randy Hill ran his best race of the year also in the 330 yard intermediate hurdles and won going away in a good time of 40.2.

David Wallace won the pole vault and Dennis Nance finished second; both of them clearing 12' after rather shaky starts. Both should be about ready to go for new heights soon.

One of the meets' competitors, Bruce Kerbow, the defending State Champ in the 120 high hurdles and the 330 intermediate hurdles, finished third in both events and failed to qualify for the regional meet. Bruce has placed in the state meet since his freshman year when he placed second in the 330's, but had the same time as the winner. His sophomore

year he won and came back last year as a junior to win both the hurdles events in 14.5 for the 120's and a national ranking time of 38.4 for the 330's. He had been recovering from a knee injury he received in football. His doctor told him that he didn't really think he could run this year, but Bruce proved he could and has made a remarkable recovery and stands as a prime example of everything champions are made of. A true champion can be handed an impossible situation and somehow, come out on top of his problem. Bruce has shown great character in rebuilding and he will go on to be a very good man because he has those qualifications only a few can possess, those of a champion.

## Nesting Habits Of Area Turkey Under Study

Texas Parks and Wildlife Biologists and technicians are currently involved in a telemetry study of wild turkey in Sutton County. The study, aimed at gaining more information concerning migrations and nesting habits of wild turkey, will give some insight as to what is currently happening to the turkey population in some areas of the county.

Adult and juvenile hens have been trapped at various locations in the county. These birds are equipped with radio transmitters which allow management personnel to keep daily records of the bird's movements. In this way turkey banded and transmitted on the winter roost can be located on the nesting site and the results of that hatch can be observed.

To further aid with identification of these birds, leg bands and wing flashers have been attached. These wing flashers consist of a sturdy material in the form of strip, one of which is attached to each wing. Vis-

### GRASSROOTS OPINION

**BELVIEW, MINN., INDEPENDENT:** "We... read a suggestion that many problems could be solved if everyone got equal pay. The idealist who proposed such a thing is oblivious to the fact that all willing workers do not produce... we refer to the old cliché that some are willing to do it and the others are willing to let them. At any rate the small town businessman could not operate on an equal pay basis. The extra unpaid hours he puts in would have to be ruled out for to be equal in pay we must also be equal in hours worked. And if those unpaid hours were not worked... well, the small town business could not produce enough to support itself."

**MOVILLE, IOWA, RECORD:** "All you hear these days is impeachment and speculation as to when the President is going to resign or be forced to resign if certain... (politicians) have their way. It looks to us like the time and tongue-wag-

ging going into Watergate could be used to promote more essential matters that need pertinent attention. Between the rumors and tall tales being told by both sides... you don't know who to believe these days!"

**BLOOMER, WISC., ADVANCE:** "The business manager of a large factory collected 25 cents from each of the 2,000 employees to purchase a gift for the big boss who was getting married. With this \$500 he purchased 2,000 packages of Raleigh cigarettes--removed the coupons and traded them for a silver serving set for the boss. Then he gave every employee a package of Raleigh cigarettes for the two bits donated, thus no one was out a red cent. When the big boss learned of this satisfactory deal, he wanted to compliment the business manager but was told he was on a fishing trip... trying out the fishing gear he had received for the trading stamps he got when he purchased the cigarettes."

**WEST POINT, MISS., TIMES LEADER:** "The foot of necessity can fall heavy on the accelerator of action. Remember how long the Congress debated the Alaskan pipeline proposal? Then came more serious talk of oil shortage... and zip... the pipeline bill sailed through both houses. Still, at best, it will be some three years before needed oil from those Northern Alaskan slopes will be flowing this way."

**STINNETT, TEXAS HERALD:** "What this country needs is the income of '66, the prices of '36, the taxes of '26, and the spirit of '76."

### News Letter

BY O. C. FISHER  
By a margin of 293 to 117 the House last week adopted a strong anti-busing provision to the big school aid bill, that would permit busing only as a last resort and then allow no student to be bused farther than the next closest school to his home.

But this is not new. The House has approved similar amendments any number of times in recent years, to have the Senate water down the anti-busing provisions and make them meaningless. A show-down on Senate busing sentiment took place in December on a vote to prohibit use of gasoline for busing of school children away from their home schools. Pro-busing won by a vote of 39 to 48.

Ultimately the House school aid bill, with anti-busing in it, will clash with a companion Senate bill, without anti-busing and a compromise will have to be worked out. But regardless of any anti-busing compulsion, written in to law, there will still be the courts to deal with. The present court, with 4 Nixon appointees, had shown much more prudence and respect for congressional mandates than did the old Warren Court. So, maybe there's a change in the air.

Federal minimum wages will soon jump from \$1.60 to \$2.30 per hour, under recent enactment, now at the White House. Basically, wage levels are determined by production and by essentiality. An employer cannot afford to hire a given worker unless that employee's work produces a profit for the employer. Thousands of enterprises operate on extremely tight profit margins. If the minimum gets too high they turn to automation, reduce the work force, or go out of business.

Under the new high levels, domestics will be hard hit. So will students, handicapped, elderly, and the unskilled in general.

### Viewpoint

BY C. T. DRISKELL  
An article was called to my attention which expresses some of my opinions with a lucidity utterly beyond my capability. We therefore have a guest writer this week, anonymous (not by my choice) but undeniably articulate. The words are straight from the horse's mouth and his orientation has been positively ascertained.

#### PO' COACH

Being a coach looks to me as if it would be the hardest job associated with a school. Coaches have to work with boys or girls who are underdeveloped physically and who have no knowledge of the sport. They have to give everybody a fair chance, especially in the smaller schools.

Take football for example. There is always someone coming out who has no chance of making the team. Maybe he's skinny and bird-legged and looks as if he'll break with the slightest contact; or maybe fat, lazy, slow as molasses running up a hill, and really doesn't want to work. It's only fair to give him a chance because some aren't as bad as they look. But, it's really not fair in smaller schools because you only have to go out to practice to get a suit. All they do is get in the way and the coach has to find them something to do.

Then there are the parents. There are two main types of parents that are a problem for the coach: the brown-nosers and the back-stabbers. The brown-nosers, usually the fathers, are the ones who are always at practice talking to the coach about their sons and trying to make them look good. They invite them over for steak, promise them free hunting, and then talk some more about their sons. Then if the coach still doesn't play the boy, the father may turn to the second alternative. This is the back-stabbing. The father talks to the hot shots of the school about how bad a job coach is doing. Maybe, if the father is lucky, he'll get another coach next year that may fall for the hunting or steak. This all stems from the fact that little Johnny was not physically right for football.

There are also those who have no knowledge of the sport in which they are engaged. This is also unfair to the other players when the coach has to spend extra time teaching the fundamentals or rules of the game to the few who don't know them.

Coaching is a very difficult job, contrary to what many people think, and takes total dedication. As in every other way of life, you can't win forever. Even the greatest coaches like Vince Lombardi, George Allen and Tom Landry, can't win forever. It seems as though the bad times outweigh the good in a lot of coaches lives and it takes a strong-hearted man to keep going when the going gets rough.

### The Devil's River Philosopher Sez.....

#### Lots Of Loop Holes Found In Study Made Of Children's Television Shows

Editor's note: The Devil's River Philosopher on his bitter-weed ranch on Dry Devil's River discusses television this week, we believe.

Dear editor:

A committee, so I read in a newspaper last night because everything on television was a re-run, has spent four months studying morning television programs for children under 5 and has come up with some highly critical things to say. In the first place, the committee said, there are too many commercials, 18 an hour, many of them making outlandish claims about how strong you'll get if you eat this or that breakfast food or that candy bar, and that's bad for the child's future.

In the first place, parents who'll let a five year old dictate what cereal to buy or how much candy to eat because he saw it on television probably have no business raising kids, and in the second place kids, if they haven't learned it by 5 will by the time they're 6 that the TV strength-building claims are hoakum. It's only later in life that they forget that attitude and apparently, judging by the grown-up commercials, are taken in by the claim you'll be more popular if you use a different tooth paste. As to the quality of the children's programs themselves, the committee was even further outraged, saying they're terrible, they're phony, they're too loud, too frantic, in fact they are downright awful, despite the fact the kids sit spell-bound before the set for hours.

The committee doesn't understand the human situation. In the first place, a mother of a 4 or 5 year old kid, not to mention two or three more, will tolerate any kind of TV program so long as it keeps the kid out from under foot for a while so she can get some peace of mind. And in the second place, imagine the frustration this nation would be engulfed in if

children grew up accustomed to watching genuinely first-rate programs and then, when they became grown, had nothing to watch but the programs the networks throw at us adults every night. There are times when it's better to leave bad enough alone. Yours faithfully, J. A.

Spring garden flowers decorated party rooms and the dining table at the meeting of the Sonora Woman's Club held April 4 at the clubhouse. Hostesses served a luncheon and the Easter theme was carried out in decorations.

After lunch, members and guests were entertained and enlightened by Mrs. A. E. Prugel and girls from the homemaking class of Sonora High School. Mrs. Prugel showed a film depicting ways in which towns, communities and cities may celebrate the Bicentennial of our country in the year 1976.

The homemaking officers showed slides and told of plans they have for the construction of a pre-school creative playground. The site of which, will be the old park near the Primera Baptist Church. The things most needed will be interested persons, scrap materials of wood, old telephone or light poles, old automobile tires, metal bars, paint, screen wire, rope and willing workers. They hope to make this playground offer to the children, a pleasant, creative and challenging place for play.

# He Is Risen

Clouds . . . and Light . . . and a bold spire! The symbols of man's wondering—his hope—his aspirations.

On a Friday the One they called Christ was dead. The world rolled on . . . nothing seemed changed.

Then it was Sunday: Newness everywhere! He is risen! Men believe . . . gather . . . rejoice . . . promise.

He is Risen! Clouds break. Light shines in darkness. Our faith reaches upward . . . in bold certainty!

### Green News

BY MONICA DU RUSSEL

And the wind, she blew and blew and blew, but the grand ol' game of golf went on and on and on. . . .

-GN-

For instance, our school boy team won the district tournament last week by 12 strokes, and they played in a gale.

John David Cook was medalist and John Webster Elliott was third medalist. Robert Lee came in second, and it looks as if they and DeLeon will probably be the toughest competition when our boys play in the regional tournament at Lake Proctor on the 18th and 19th.

-GN-

Here in Sonora, we had a coaches tournament last Saturday. There were forty-five golfers representing Ozona, Junction, Menard, Wall, Eldorado, Poteet, Angelo State University staff, and officials from San Angelo Official Association along with our Sonora coaches.

Oliver Wuest's team was the winner with seven under par. Oliver was awarded the traveling trophy which will have his name engraved on it and put in the trophy case at school until next year. . . who knows, he may win it again next year. Ken McAllister's team won second place after a play-off. They were six under par. Ken Braden gave two dozen golf balls as prizes, and they were won by members of the winning teams.

-GN-

There were quite a number of out of town visitors playing our course last week. One of the groups was the San Angelo Central High School boys' team. Their coach said they had come down to practice on our beautiful greens before going to a tournament in Odessa.

-GN-

The Brady Bunch had a good time last weekend in their tournament. No winners, but a great time was had by all.
