Cattle Conference To Be Held In San Angelo

What type of calf will feeders and order buyers pay top dollar for? A team of feeders, buyers, bankers and educators will take up the foregoing question and others during the West Texas Cattle Conference, January 7 at the Producers Livestock Auction in San Angelo.

Speakers will restrict the morning session, beginning at 10 a.m., to two subjects: current conditions in the cattle industry in addition to an outlook of that industry, and attitudes of bankers toward cattle feeding in particular and the cattle business in general.

Speakers will be Dr. O. D. Butler, head of the Animal Science Department at Texas A&M University, and Vice President Tommy Stuart of First National Bank of Fort Worth.

Afternoon speakers will be Fort McKavett rancher Jack Grafa, Veribest cattle feeder and rancher Gene Newman, rancher and feeder John Cargile of San Angelo, and livestock specialist Dr. Randal Grooms of the Texas Agricultural Extension Service.

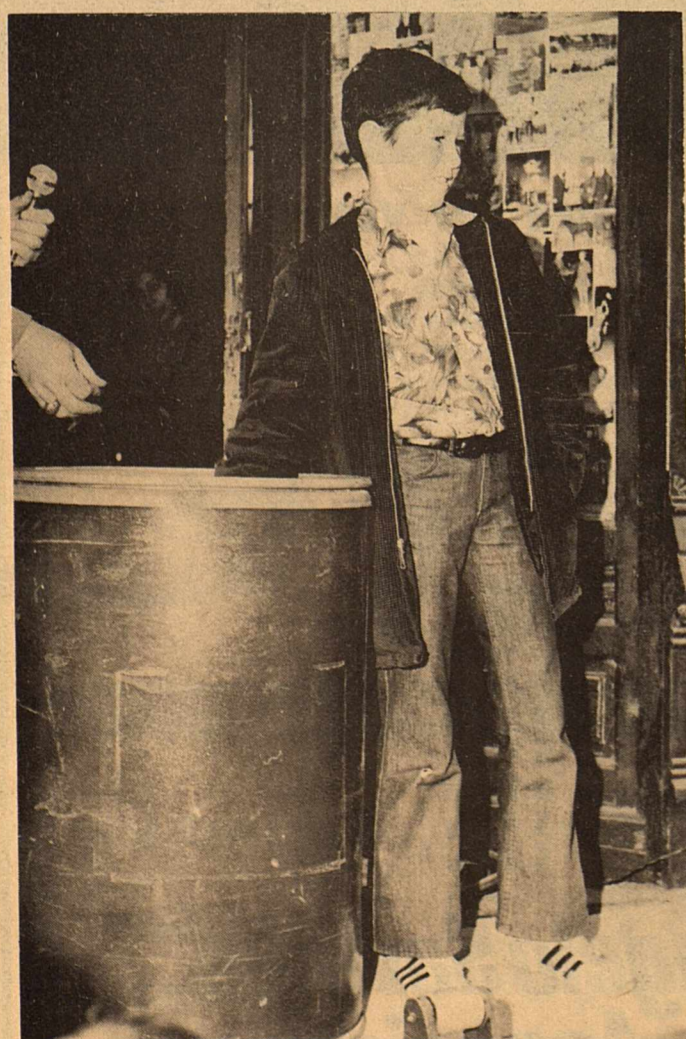

Registration begins at 9:30 a.m., at Producers Livestock Auction, where a \$3.50 fee includes the noon meal of barbecued beef. Sponsors are the Producers Livestock Auction and the Livestock Subcommittee of Tom Green County Agricultural Extension Program.

Ice Storm Blacks Out Sonora's Power Supply

Sonorans awakened Christmas morning to an almost white Christmas...not snow but ice and more ice. Tree limbs dotted yards and houses by late Thursday afternoon, breaking under the weight of the heavy freeze, doing little damage to property but causing immeasurable damage to electrical lines in the area.

Christmas dinners were slightly interrupted when the first of three days of power failure began at approximately 9:30 a.m. The heavily iced lines began breaking, causing small fires and discontinuing service to most residents and businesses.

Employees of the City of Sonora and West Texas Utilities began their repairs Christmas morning and worked through until Friday when most of the damage was corrected. Crews of workmen from San Angelo were brought in to help with the repairs as well as individuals from other electrical firms in Sonora.

Most homes in Sonora who depend on electrical heating were caused some discomfort during the three-day seige along with patients at the Nursing Home. The hospital, who has an auxiliary unit, suffered little ill effect. Some

business places remained closed Thursday due to lack of electrical power.

Freezing rain that began falling early Christmas morning fell intermittently during the day and the ice began thawing Thursday around noon.

The fire department was summoned on a number of occasions when falling wires caused small fires. Little damage was reported.

Television cable service was

interrupted early Christmas morning due to heavy ice. Channels from San Angelo and Abilene were reinstated to most areas by late Thursday but both stations coming through the microwave lines from San Antonio was discontinued for several days due to downed lines in the Rocksprings area. An auxiliary unit was brought from Lubbock Monday to provide temporary service until damage can be repaired.

City manager Bob Nevill said thus far the storm has cost the city in the vicinity of \$7,600 in repairs, materials and labor and that the long term effects would probably be worse as

City manager Bob Nevill said thus far the storm has cost the city in the vicinity of \$7,600 in repairs, materials and labor and that the long term effects would probably be worse as

Woolgrowers File Suit Against U.S. Government

The Texas Sheep and Goat Raisers' Association will file a "friend of the court" brief in support of the State of Wyoming's and the Wyoming Wool Growers' suit against the Federal Government, according to Armer Earwood, president of the Statewide sheep and goat organization.

Earwood explained that the suit would force the Department of Interior to conduct an effective predator control program in areas where domestic livestock are being killed by predators. In recent years the Department of Interior has not been doing this. Because of pressures from environmental groups, the Department has decreased the control program in Texas to a point where there are areas which have so many predators that sheep and goats cannot be raised.

The TS&GRA brief must include information to substantiate losses due to predators. In order to obtain this information, the association is asking producers to file a notarized statement setting forth the following information for the years 1970 through 1974 inclusive: 1. inventory of sheep and goats for each year. 2. number of sheep lost to predators. 3. number of lambs lost to predators. 4. number of goats lost to predators.

"We especially encourage producers who have had to get out of the sheep and/or goat business because of losses to predators to send in this information," stated Earwood. "In the event there are any questions, get in touch with our office in San Angelo. When the affidavits are completed, mail them to TS&GRA, Box 1486, San Angelo, Texas 76901. All completed statements will be forwarded to our attorney in Washington, D. C."

"Producers everywhere have been asking what they can do to help. This is one way they can help...in fact, the success or failure of the suit could well hinge on the availability of good information proving we do have problems with predators," concluded Earwood.

Former Sonoran Dies In N.M.

Mr. Lee R. Morris, 83, former Sutton County rancher, died November 28 in Ft. Sumner, New Mexico, where he had been a resident since 1958.

Mr. Morris is survived by his wife, Ethel; three sons, Leon Morris and Myron Morris of Ft. Sumner and Lynn Morris of San Antonio; and twelve grandchildren.

Sonoran's Son Graduates From Air Force School

Airman John R. Talty, son of Mrs. Dora Talty of 608 Crockett Street, has graduated at Sheppard AFB, from the U. S. Air Force aircraft mechanic course conducted by the Air Training Command. He learned to maintain and service multi-engine jet aircraft, and is being assigned to Reese AFB for duty with a unit of ATC.

Hospital Board Members Awarded For Services

Two plaques commemorating continuous dedication were presented when the local hospital held their annual Christmas party at the 4-H Center on December 19. In addition to the many hospital employees attending were board members and their wives, the Rev. and Mrs. Lea Roy Aldwell, Mr. and Mrs. Armer Earwood, Mr. and Mrs. Edwin Sawyer, Mr. and Mrs. Herbert Fields, Dr. and Mrs. Charles Browne and Doyle Morgan.

Hospital administrator Gene Martin made the presentation of a plaque to Dr. Charles F. Browne in behalf of the Board of Trustees. Dr. Browne was commemorated for his continuous service to the hospital since its opening in 1950. Dr. Browne, who has given 24 years of service to the hospital alone, has for the past four years dedicated his services to the nursing home. Martin stated that the nursing home services performed by Dr. Browne, including all the involved paperwork, are donated by him free of charge.

While making the presentation Martin credited Dr. Browne also with being instrumental in establishing adequate X-ray equipment in Sonora. When the doctor first set up his practice in Sonora in 1946, there was only one X-ray machine in town and that was located in a local dentist office.

Since his association with the hospital, Dr. Browne has been responsible for adding 1,348 Sonorans to the population and hit an all time record in

some costs are not yet realized. He added that wires have been weakened from the strain and more repairs are evident.

Carcass Show Set Monday

The annual 4-H Livestock Show and Sale will get underway Monday when the lamb carcass show is held at the 4-H Center.

The show is the 28th of such shows held by the local club and proceeds of the sale go to support various 4-H activities.

Judges for the lamb carcass classes will be James Gray of San Angelo, Dr. Frank Orts of College Station and Dr. George Ahlschwede of San Angelo.

James McLaughlin Named Fireman Of The Year

James McLaughlin was named fireman of the year when members of the Sonora Volunteer Fire Department and their families met at the firehall December 21 to hold their annual Christmas party. The fireman of the year award is given each year to the fireman who attends the most fires and fire drills during the year.

McLaughlin was recently named assistant fire chief.

Elmo Johnson Dies In Local Hospital

Funeral services for Elmo Johnson were held December 26 at First Baptist Church. The Rev. Clifton Hancock was in charge of the services and burial was in Sonora Cemetery.

Mr. Johnson died in Hudspeth Hospital December 24 after a short illness. He was born in Fannin County April 4, 1889 and was married to Ada Morris in 1916. She died in 1945.

He is survived by one daughter, Mrs. E. G. Ashley of San Antonio, five grandchildren and eleven great-grandchildren.

Pallbearers were C. W. Taylor, Charles Washburn, Stanley Mayfield, R. A. McCulloch, L. P. Bloodworth and Vestel Askew.

ACS Committeemen Elected To Serve

Herbert Fields was reelected to a three year term of office when the recent ASC County committee elections were held. W. B. McMillan and W. L. Whitehead were elected as first and second alternates. Other members of the committee are Gene Wallace and Edwin Sawyer.

SS Representative Sets January Visit

Harold Tabor, social security representative for the San Angelo Social Security Office has scheduled his January visit to Sonora. He will be at the county courthouse on Thursday, January 23 from 9 to 11 a.m. Anyone who wants to file a claim for benefits, get information, or transact other business with the Social Security Administration, may contact him at this time.

Otto Turman, local trapper, bagged this large coyote on the W. L. Miers Ranch. Turman, along with his brother, Monroe Turman, has trapped six other of these predators. The Turman brothers have also been responsible for three wildcats, two caught on the Lawrence Finklea ranch and one on the Mayfield ranch.

Funeral Services Held Dec. 23 For Edna Malstrom

Mrs. Edna Malstrom died in a Kimble County Hospital in Junction December 21 following a long illness. She was buried in Sonora Cemetery December 23 following funeral services held in First Methodist Church. The Rev. Clifton Hancock officiated.

She was born February 22, 1902 in Sutton County to pioneer parents, Mr. and Mrs. D. Q. Adams and was a member of the First Methodist Church and the Eastern Star.

Surviving are her sisters, Mrs. Willie Andrews, Mrs. Blanche Crawford of Kerrville, Miss Viola Adams, Mrs. Pete Burgstaller of San Antonio, Mrs. Virginia Elbel of New Braunfels, Mrs. Nell Reeves of Lake Spence, Arkansas, Mrs. Betty Russell of San Angelo and Mrs. Mary Summers of Redondo Beach California; one brother, Gene Adams of San Angelo; one step-daughter, Mrs. Beverly Britton of Fort Worth; two step-sons, Karl Malstrom of Bloomington and

W. L. (Bud) Malstrom of Arriba, Colorado; twelve grandchildren, one great-grandchild, and a number of nieces and nephews.

She was married to Leslie Malstrom in San Angelo April 19, 1951. He preceded her in death.

Pallbearers were Fred Adkins, Ted Joy, Harry Templeton, Lester Shroyer, Jimmy Burns of Roosevelt and Curt Schwiening.

Guerrero Rites Held Dec. 20

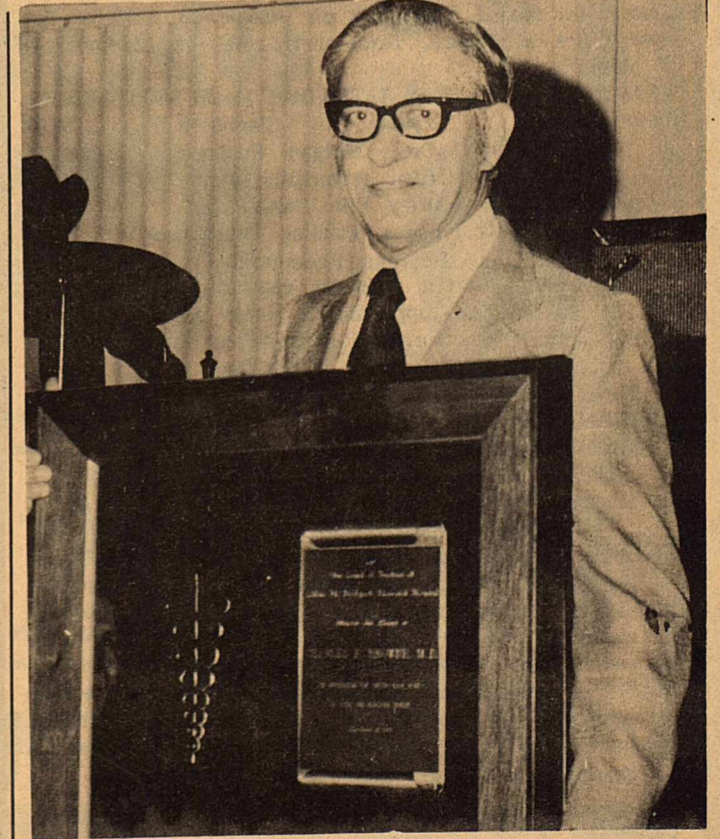

Funeral services were held December 20 in the Primera Baptist Church for Mr. Guadalupe Guerrero, who died December 18 in the Schleicher County Medical Center in Eldorado. He was 70 years of age.

Mr. Guerrero was a carpenter and had lived in this county the past thirty years. He was born December 12, 1904 in Sautillo, Mexico.

Surviving him is a daughter, Lorene Pena of Fort Worth, and one sister, Mrs. Trinidad Ramirez.

The most effective single force in building a good community is a good newspaper.

Calendar of Fact and Opinion

"The current increase in small car use will lead to a greater number of injuries, including fatal and crippling injuries, a University of Michigan research group has warned." notes a publication of the Automobile Club of Oregon. The article continues, "The group based its conclusion on an extensive analysis of crash injury data from national and local crash investigation files. Its analysis showed, it said, that the following rule should be applied to new cars in crashes: "...once involved in an accident, the chance of injury in this car increases at the rate of about 2.5 percent for each decrease of 100 pounds in vehicle weight." The analysis also indicated that smaller cars are involved in single crashes at about the same rate as larger cars...the New York State Department of Motor Vehicles and the Insurance Institute for Highway Safety finds that occupants of compact and smaller size cars are substantially more vulnerable to death and serious injury in crashes than occupants of sedan and larger size cars."

0000

Here are some political theories from a column in The Montana Citizen, a publication of the Montana Chamber of Commerce: "Legislation belongs only in the hands of the mature; second generation rich should seldom be listened to when it comes to matters of economic salvation for the less fortunate; youth should be heard but not considered endowed with ultimate wisdom; that all men are created equal and all women are created equal but feminists are more equal than anybody else; that consumerprotectionists are convinced that every shopper is illiterate as well as ignorant, therefore every product should have extensive labels to be read and all advertising read sways their thinking; and that surely the good Lord must have inspired the nation's founding fathers when they determined that two legislative houses are better than one!"

0000

We want to let the market mechanism provide the climate for efficient resource development. In other words, we want to get the government out of

the pricing business as soon as it is safe for the consumers and the nation. Project Independence requires the operation of the free market."--Mr. Duke R. Ligon, Federal Energy Administration

News Letter

By O. C. Fisher

The second session of the 93rd Congress has adjourned. Its achievements were mixed, chalking up perhaps more pluses than minuses. The year 1974 has been historic in many respects. It marked the first time a President has ever resigned from office. Under the 25th Amendment two Vice Presidents have been installed in one year, neither having been elected to that office.

The installation of Nelson Rockefeller, seen by many on TV, was the first time a Vice President has taken the oath in the Senate Chamber. And it was the first time a Senate floor action has been televised.

On the spending side, the 93rd Congress has kept up the pace, and by the end of this fiscal year will have appropriated an estimated \$14 billion more than has been taken in. That's bad because deficit spending is recognized as inflationary. Both the President and the Congress have vowed to do better next year. Let us hope so, although a super WPA measure, costing \$6 1/2 billion has just been approved by the Congress. It treats the symptoms but not the disease, and the amount is excessive.

If talk would cure inflation, we would have none. Deficit spending, excessive wage levels in some areas, plus high interest rates (a product of inflation) have helped to push prices upward.

Take, for example, the auto workers. In 1954 their average wage level was \$2.20 per hour. Ten years later it was \$3.21. And last year the union got it upped to \$5.46. Now the industry is in a peck of trouble. Car sales are down and some 50,000 workers have been laid off in recent weeks. High cost of automobiles has taken its toll. This example can be multiplied manifold. Good wages are fine, but their effect on jobs must be taken into account. We need a reassessment.

0000

We want to let the market mechanism provide the climate for efficient resource development. In other words, we want to get the government out of

A Bishop Looks at Life

by Everett H. Jones, Retired Bishop of Episcopal Church

OUR DELIVERER

There was a time when men looked to God to deliver them from situations they could not meet by human power alone. Litanies were composed for protection against enemies, both temporal and spiritual, with the refrain, "Good Lord, deliver us." God was recognized not only as Creator and Judge, but also as Deliverer.

We are less likely today to see the hand of God in the strange mixture of events that comprise our daily history. But for those who will pause with a reverent awareness to look back over the past year, it is surprising how many situations call for a prayer of gratitude to God for His deliverance.

There are those cases of illness or accident that have come to us, or to those dear to us, in which the healing power of God has been mightily at work.

There are those wrong moral choices we have made in which we have deserved to be punished, but in which some redemptive power has caused good to come out of evil, blessing out of adversity, forgiveness out of repentance.

There are those mistakes that we almost made when some inner voice of conscience or of divine restraint caused us to stop just in time, and then suddenly to realize what tragedy we might have brought upon ourselves or others.

There are those crises that mark the life of every individual and every family (and every institution and every nation) in which we feel at the time they are happening a sense of defeat and despair. As we look back upon them with a longer and clearer perspective, we often see that a Power greater than ourselves was clearly at work to bring us the strength and wisdom we needed to meet them.

If you will finish the list for yourself, and make it intensely personal, you will find yourself giving thanks to God, our Deliverer.

And now that there are crises just ahead of us, threatening and frightening, from which we can see no escape, what better prayer can we say than that ancient one, "Good Lord, deliver us!"

THE DEVIL'S RIVER PHILOSOPHER SEZ.....

He Gives Unsolicited Advice For People Planning To Buy Gold

Editor's note: The Devil's River Philosopher on his bitter-weed ranch on the Dry Devil's River tackles the gold situation this week, more or less.

Dear editor: The same as you, all Congressmen, Governors, economists, financial experts and everybody else except jewelers and dentists, I don't understand gold. Furthermore, I never expect to.

The part I do understand is that gold, which used to be worth \$35 an ounce, is now worth about \$200 an ounce, or was the other day, which by the pound comes to even more than the price of a new car. Also, I understand that the U. S. government is now allowing Americans to buy the stuff. Gold, that is. Cars they don't seem to be hankering for.

I couldn't understand why people would want to buy gold until I read an article by an expert. He explained it was a hedge against inflation. This cleared it up. I'd thought they were buying it in case they had a lot of teeth needing capping.

But I'll tell you, buying gold as a hedge against inflation strikes me as about as sound as going into the ranching business for the same reason. These buyers of gold may be like the ranchers who were holding their cattle last year expecting the price to soar as soon as price controls were lifted. I have six over-grown Jersey steers out here I'll sell cheap. I would swap them for gold if I had a magnifying glass to see how much I was getting.

Then an altogether different idea hit me. As I understand it, the U. S. government has several billion dollars worth of gold stored at Fort Knox, stacked like cord wood with each stick worth nearly \$200 an ounce or about \$70,000 a stick. But, we paid only \$35 an ounce for it. Any time you can buy something for \$35 an ounce and sell it for \$200, it seems to me you'd be mighty

foolish not to sell and take your profit and I've heard the government was considering the idea until somebody pointed out how much income tax it'd have to pay. That ended it. You're not going to see Washington get caught in a trap like that. Yours faithfully, J. A.

A traditional visit was paid to Sonora distributing candy. Firemen of Sonora's youngsters December 21 when Santa Claus voluntary unit make the visit possible each came to town riding a fire truck and year.

PEANUTRITIOUS PARTY FOODS

It's always fun to give a party for small children — because they're such fun themselves. Just be sure that there's plenty of ice cream and cake and plenty of prizes!

The classic party games are as much fun today as they were years ago... pin-the-tail-on-the-donkey, musical chairs, bean bag races and the peanut hunt still bring joy and happiness to young children. And so do the prizes. Have one for the high scorer and one for the low scorer in every game.

Although a party is more a matter of mood than food, the appropriate foods and the backgrounds for serving them contribute to the gaiety of the occasion. Wise mothers will provide nutritious party foods for their young guests. Peanuts are popular with children of all ages and they are a must for any party menu. Peanuts are one of the most nutritious foods known. Even snack quantities supply large amounts of protein, niacin, riboflavin and other important food elements.

Peanuts are delicious as they are, or when used as a recipe ingredient. Mold your favorite ice cream into a ring and top with chopped peanuts. Nutty Sweet Potato Cake is a luscious combination of ingredients. This basic cake recipe has the additional bonus of shredded raw sweet potatoes, seedless raisins and chopped Planters Cocktail Peanuts. The result is a moist, tender cake with an unusual flavor and texture.

Try this delicious recipe at your next party for the young set... and be sure to have plenty of Planters Cocktail Peanuts on hand for nutritious nibbling.

- NUTTY SWEET POTATO CAKE**
- 2 1/2 cup unsifted flour
 - 4 teaspoons baking powder
 - 1 teaspoon baking soda
 - 3/4 teaspoon salt
 - 1 teaspoon ground cinnamon
 - 1 cup (2 sticks) margarine, softened
 - 1 cup firmly packed light brown sugar
 - 4 egg yolks
 - 2 tablespoons grated lemon peel
 - 3/4 cup water
 - 2 cups loosely packed shredded raw sweet potatoes
 - 1 cup dark seedless raisins
 - 3/2 cup chopped Planters Cocktail Peanuts
 - 4 egg whites, stiffly beaten
 - Confectioners' sugar

Sift together flour, baking powder, baking soda, salt and cinnamon; set aside.

In a large bowl, combine softened margarine, brown sugar and egg yolks. Cream mixture until very light. Mix in lemon peel. Alternately add sifted dry ingredients and water, beginning and ending with dry ingredients. Stir in sweet potatoes, raisins and Planters Cocktail Peanuts then fold in egg whites. Pour batter into greased and floured 10-inch Bundt pan or 9-inch tube pan.

Bake at 350°F. for 1 hour, or until done. Cool in pan about 10 minutes. Remove from pan and cool on wire rack. Sprinkle with confectioners' sugar just before serving. Makes 1 cake.

TIPS FOR OUTDOORSMEN

by Vern Sanford

Throw Rugs For Campers
Most of today's tents have built-in floors, which probably accounts for the increased interest in camping on the part of so many women.

That also means better housekeeping on the part of campers.

One noticeable habit of today's campers is the use of throw rugs inside the tent... as well as a foot-wiping rug outside, in front of the tent entrance.

Floors of canvas are real dirt-catchers and should be swept clean and kept clean at all times. Those throw rugs help a lot, as does a good whiskbroom.

If the tent is erected over a huge plastic tarp, thus providing a double-floor, the life of the tent floor will be lengthened considerably.

Tents Are Touchy

Unless you have spent some time in a tent during a rain-storm you may not know that no matter how well the canvas roof is water-proofed it will

leak wherever you touch it from the inside.

Furthermore it will continue to leak at that same spot until the tent dries out completely. So, let "hands off" be your policy.

Removes Mildew Quickly
Has mildew formed on your tent or boat cover?

This will happen any time canvas stays wet for too long or is stored while damp, or in a damp place.

Remove the mildew as quickly as possible by first drying out the canvas in the sun to kill the organisms; then scrubbing it with a bleach and water; and finally drying it thoroughly before erecting the tent or storing it.

If storing the tent, don't put anything in the pack with it. Use a separate duffel bag exclusively for the tent poles, stakes, rope and other rigging—or strap them to the outside of the tent.

Anything that goes inside the pack with the tent will cause rot if it's wet or even damp.

Health Tips

Backache is such a common ailment among civilized man that there are very few adults who haven't had a touch of it now and then. Some physicians credit soft beds, soft chairs and other comforts of modern civilization with an increase in the number of persons who suffer from low back pain, says the Texas Medical Association.

Once called lumbago, back pain is often caused by poor posture, obesity, ill-fitting or inappropriate shoes, a sedentary life, overly strenuous work, or participating in sports. It may also be due to disease not directly relating to the back or to injury or strain.

Low back pain may occur at any age but it seems to bother middle aged persons most. It occurs in both sexes and in all races, and is more common among people who do work

that requires stooping or lifting. Good posture of the entire body is important in preventing low back pain.

Sit with head, shoulders and trunk erect. When standing, the spine should be straight. Not the military ramrod posture, but straight.

A soft, saggy bed, and low, soft chairs contribute to backache. Chairs, ideally, should be firm, straight and have the contour of a normal back.

A low-heeled shoe is best for standing or walking. High-heeled shoes tend to throw the posture off balance and increase strain on the lower back. Loafers, ballet slippers and sneakers also may lend to backache if worn extensively.

In lifting heavy objects, keep the back straight and lift with knees and thigh muscles, rather than bending over and straining the spine. Like many other ailments, backaches may be aggravated by emotional tension or anxiety.

Treatment of backache varies with the cause. When it's due to strain, usually rest, heat and a pain reliever will help. Massage, used in moderation, may help relieve discomfort. Your doctor also may recommend exercises to strengthen the muscles of the back and improve posture.

The people of the Fiji Islands believe that earthquakes are caused by the twistings and turnings of a serpent god in a mountain.

St. John wasn't his last name—that was French and usually mispronounced. But around Cape Cod, he was known simply as St. John, after his home town in Canada.

His appearance seemed far from saintly. Yet it never seemed awkward calling him that. He loved people. He loved the sea. He loved hard work. Most importantly, he loved his church and God. And his enthusiasm was contagious—somehow you felt better after you'd been with St. John.

It's refreshing and exciting to run into someone who tries hard to put his religion into living and working.

Remember that, Sunday and every day. Then folks might feel that same excitement when they run into you and me. That's something to strive for.

Does the name make a difference?

The Consumer Alert

by John L. Hill
Attorney General

New Year's Day marked the first time in more than 40 years that U. S. citizens will be able to purchase, own, or sell gold in forms other than collector's coins or jewelry.

FRUSTRATED WHEN YOU CONTINUALLY DIAL A TELEPHONE NUMBER AND THE LINE IS CONSTANTLY BUSY? ONE GOOD ANSWER IS TO PUT OFF DIALING AGAIN FOR FIVE OR TEN MINUTES WHILE YOU SAVOR THE FLAVOR OF A RELAXING CUP OF HOT TEA. IT'S A SURE WAY OF AVOIDING A HANG-UP.

gold transactions and ownership on December 31, state and federal agencies charged with consumer protection and securities regulation expect a rash of schemes aimed at defrauding unwary consumers. Our attorney general's consumer protection division and insurance banking, and securities division lawyers are cooperating with the state securities board, the securities and exchange commission, the Department of Justice, the Federal Trade Commission, the U. S. Postal Inspection Service and other agencies to monitor areas of possible consumer fraud in this new field.

But consumers themselves must also be on guard if they are contemplating the purchase of gold or gold-related investments. So keep these tips in mind if you plan to join the Gold Rush of 1975:

Remember that you don't

earn interest on gold or gold-related stocks...you make money by selling at a higher price than you paid. Gold investing is speculating that you will be able to command that higher price. So always consider whether your personal finances and the future needs will allow you to take the risks inherent in such speculation.

Get advice from knowledgeable, trustworthy persons such as your banker, broker, or attorney about any investment in gold.

Find out if the company you are dealing with is registered with the SEC, State Securities Board, or a recognized stock exchange. Try to make any purchases through established local firms.

Be suspicious of any strangers who contact you by mail or telephone with offers to sell you gold or gold-related investments.

Take claims of spectacular profits with a grain of salt.

Be wary of claims for investment opportunities in new, secret, or exotic gold extraction processes.

Get guarantees in writing about the weight of gold in troy ounces and the fineness, or percentage of gold in the bar. It can be very profitable to "short weigh" a purchaser by shaving a gold bar.

Get terms of purchase in writing, including information about when and how the gold will be delivered and stored, what security precautions will be taken to insure your gold isn't shaved or that counterfeit gold is not substituted.

Try to find out the seller's mark-up, or how much it cost him to buy the gold, then compare it to the sale price he's quoting you.

Make sure the gold you buy will be kept in your name wherever it is stored. Get a written receipt showing that the correct amount of gold is being stored in your name in a safe place.

If you plan to keep gold at home (a risky undertaking), consider purchasing a safe or special container to safeguard your investment and increasing your insurance to cover possible losses.

Reselling gold can be a problem for the average consumer. You should find out in advance if you will be able to sell it in the form in which you bought it. If you buy gold cast in certain countries resale can be difficult.

Remember...in gold investing, as in any other field, new ways are continually being devised by unscrupulous persons to defraud unwary consumers. The best protection is always to investigate carefully before investing.

If you have a consumer problem involving gold, contact the Attorney General's Consumer Protection or Insurance, Banking, and Securities Divisions or the State Securities Board.

"Follow That Car!"

Suppose a policeman jumps into the back seat of your automobile and shouts: "Follow that car!" Are you obliged to obey? Generally speaking, you are indeed. Under the ancient "hue and cry" doctrines of the common law, an officer may commandeer any vehicle that he needs to catch a fleeing felon.

As Judge Benjamin Cardozo once put it: "The horse has yielded to the motorcar as an instrument of pursuit and flight. Still, as in the days of Edward I, the citizenry may be called upon to enforce justice, not faintly and with lagging steps but honestly and bravely and with whatever implements and facilities are at hand." You may even be obliged to help in making the actual arrest (at least, say some states, if you are an "able-bodied male over 18 years of age"). To refuse, without good reason, could make you guilty of a misdemeanor.

On the other hand, in the event that you do lend a hand, the community owes you certain legal benefits in return.

For example: A man was called upon by the sheriff to help in arresting an armed fugitive. In the ensuing gunplay, he suffered a bullet wound in the shoulder.

He was therefore entitled, a court ruled afterward, to collect workmen's compensation—just like any county employee injured in the line of duty.

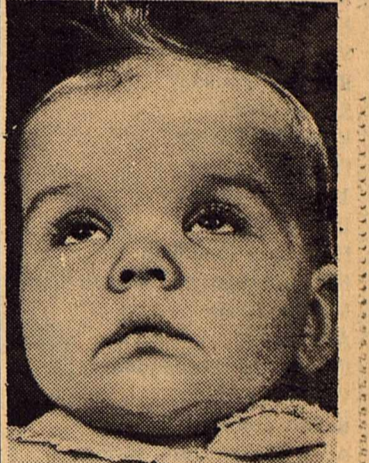

In another case, a clerk in a store helped a policeman make an arrest that turned out to be an error. In short order, the clerk found himself facing a damage suit for "false arrest."

But the court held him not liable. The court said making him pay damages for an innocent mistake, in no way his fault, would be shabby thanks from society to a good citizen.

A public service feature of the American Bar Association and the State Bar of Texas. Written by Will Bernard.

Reddy's helpful tips for your Home Laundry

Wash and dry a full load, but never overload... it is essential for each item to move freely for proper cleaning and drying.

Choose the correct cycle for washing modern materials. Perhaps hot water isn't needed, and only a gentle drying temperature.

Too much detergent can clog machine and drains... always measure, don't guess! Follow the manufacturer's recommendations for your type equipment. Mixing brands of detergents can cause graying of clothes.

Many manufacturers of permanent press garments recommend machine washing and machine drying for best results. Following instructions on the garment tag can help preserve the life of your clothing and give you wrinkle-free clothes without need for ironing. A big savings!

Pick up your FREE copy of "ENERGY CONSERVATION" Booklet from

Home Environment Division of General Motors.

West Texas Utilities Company An Equal Opportunity Employer

Remember, Reddy supplies the energy—but only you can use it wisely!

You really CAN earn MORE DOLLARS On Your Savings

Look how much more a \$10,000 deposit will earn with US than with a commercial BANK.

CHILD'S COOKBOOK

Hundreds of books on natural foods have been written for adults, but what about the child chef? Carole Getzoff didn't forget, and out of her experiences in teaching a class of children how to cook natural foods came the illustrated cookbook that reviewers have recommended with gusto for all ages. It's "The Natural Cook's First Book," and it contains the recipes used in class plus a potful of others. If Mom wants it for

her daughter—or for her own use—she can get it from a bookstore or the publisher, Dodd Mead, 79 Madison Ave., New York, N.Y. 10016 at \$4.50 plus postage.

A New Years resolution to save money? Forget it. There's only one way for me and that's to take \$25 from each paycheck - every week - and salt it away in my savings account. That's my 'untouchables'. With compound interest, it adds to over \$1300 in one year. It's a good feeling, believe me!

TO ENCOURAGE YOUR EFFORT TO SAVE MONEY, THE FIRST NATIONAL BANK NOW PAYS A HIGH 5% INTEREST AND YOUR SAVINGS ARE INSURED TO \$40,000 BY A FEDERAL GOVERNMENT AGENCY.
