Jerry Hamilton Covering Sports Events For DRN

Among the many new faces n Sonora is 24-year-old Jerry Hamilton, who for the love of sports, appeared at the Devil's River News Office, requesting space in the newspaper for a column of sports writing.

Hamilton, who comes from Mineral Wells, played college golf for two years, is past president of the Mineral Wells Recreation Association, served as sports editor of the Mineral Wells newspaper for two years, and was a radio announcer for Mineral Wells High School Athletics. He participated in five high school sports while attending school.

He also attended Weatherford College and North Texas State University. He and his twin brother and two friends, also from Mineral Wells, are in Sonora to seek employment. They are residing at the Hunt Apartments.

Last week he turned in his first series of stories recounting activities of various basketball teams of Sonora Schools. This week more stories appear as well as his column entitled 'Bronco Tracking."

2000000 **Sheep And Lambs** On Feed Down 48% From 1974

The number of sheep and lambs on feed in Texas as of January 1, 1975, was down 48 percent from the same date one year ago, according to Agriculture Commissioner John C. White.

The decrease was indicative of a national decrease of 22 percent, with only California, among the top seven producing states, showing an increase over last year's figures.

Texas, the nation's second leading producer of sheep and ambs, registered a drop of 186,000 animals from January 1, 1974. After having a record 390,000 animals on feed last year, the 1975 count was only 204,000.

"The same problems that are confronting other livestock producers are hitting the sheep and lamb industry," White said. "High grain and marketing costs are making it unprofitable to finish animals

on grain." Sheep and lambs on feed re animals being finished for slaughter market on grain, ther concentrates or succulent pastures and are expected to produce a carcass to grade good or better.

Store License Requirement Abolished

Comptroller Bob Bullock reminded Texas business operators recently that the state store license requirement has been abolished.

Bullock said his office has been besieged with calls and letters this month by businesses which were unaware that the license requirement was repealed as of Dec. 31,

"Obviously, the past administration didn't get the message out," Bullock said. "I consider it good news that we've been able to do away with the store license."

The license, which started at \$5 for a single store, was a minor revenue source. Its repeal by phases was ordered by the legislature in 1971. Bullock said that some

240,000 stores in Texas had previously been covered by the license act. He said his office is returning license money still

being sent in by businesses unaware of the repeal. "It's gratifying to see busi-

nesses voluntarily trying to do right and pay their taxes, but in this case we are saying 'thanks, but no thanks', Bullock said.

The great majority of people are more skeptical of the veracity and dependability of politicians, than ever before in recent years, but continue to support completely the U.S. system of representative government. In other words, the political system itself is good-the people running it have not always been. The Nixon pardon drew a lot of displeasure because most people felt it came too soon and before all the facts were out. Most people did not have any wish to hound former President Nixon into an early grave or put him behind bars. At the same time, they were concerned with the fairness of the trial and imprisonment of other Watergate figures. The same question of fairness came up in regard to the question of granting amnesty to those who dodged the draft or fled the country to avoid service in the Vietnamese war. Forgiveness is fine. But just the same, many feel that those who refused to serve should not be allowed to get off virtually scot

An understanding of economics remains a problem. For instance, it was reported time and again that people considered steep interest rates part of inflation and the high cost of living, "...rather than a means of fighting it." High interest rates are part of inflation; but, at the same time, as Chairman Arthur Burns of the Federal Reserve Board pointed out at the Economic Summit meetings, boosting the money far. He knows the man who's right isn't always popular."

Many people feel that the need to hustle to make a living may be a good thing for a lot of Americans. And some of the younger generation say this of their own group who have never known the hard times of depression. Others see a tendency for families to draw together more in the face of economic restrictions. Well, this may not be a bad thing. In the years ahead, the U.S. will have to compete with some mighty hard working and dedicated people, particularly those of the Soviet Union and China, who are out to chaltary leadership of America.

There is good evidence that when the going gets rough there will be, as in the past, the will to produce and go ahead that has always managed to pull Uncle Sam's chestnuts out of the fire. There are, apparently, a lot of people still around willing to put their back into the job of making

News Letter

By Bob Krueger

Over the last weekend I had the opportunity to study at firsthand the space program and was astonished and proud once more at the amazing achievement of American technology in sending man to the moon. This extraordinary achievement required strong executive leadership, a firm national commitment, and the cooperative efforts of American business and labor.

The undertaking took less than ten years, and achieved what few of us at the start thought possible.

I believe that it is now time for America to launch a similar effort to provide for the energy we will need to allow us to continue to improve our standard of living and to maintain our position of world leadership. I will be writing more about how your government is working to assist in meeting our future energy needs, as I have been appointed to those committees in the Congress most concerned with America's energy requirements. At this time, I would make only these few observations.

1. America today consumes 21/2 times the energy it did in 1950. 2. Our energy consumption has been increasing much faster than either our population or our discovery of additional reserves. 3. Whereas we spent \$3 billion on foreign oil in 1970, we spent \$24 billion on foreign oil in 1974. 4. It takes several years from planning to completion to provide for 'new additional sources of energy. That means that in the next few years, we are likely to run short in energy supplies.

The newspapers may be talking of possible tax cuts and short term moves to stimulate the economy, but the real task for Americans over the years ahead will be to find the means of fueling the economy of this great nation, and of maintaining a strong competitive, innovative economic system. That will require cooperation and ingenuity of all Americans. But I am convinced that if we could put a man on the moon in ten years, we can solve the energy needs of this nation.

THE DEVIL'S RIVER PHILOSOPHER SEZ.....

He Comes Up With A Shrewd Plan To Whip Inflation And Recession

Editor's note: The Devil's River Philosopher on his bitterweed ranch on the Dry Devil's River joins the battle against recession and inflation this week, in his own way.

Dear editor:

Now as I understand it. there's sort of a race on between the Democratic Congress and Republican President Ford to see who can get credit for cutting taxes this year to fight the recession. Mr. Ford wants to give a 16 billion dollar rebate to tax payers and Congress is working on a slightly different figure. Both would come to about a 10 percent refund on your 1974 -

In trying times like this the country needs complete harmony without partisan bickering and I have figured out a plan to achieve it.

You see, as everybody knows not only do we have a recession but we also have Ann Moss inflation. It's a two-pronged problem and we ought to attack it on both prongs.

Therefore I have come up with a solution. Let Mr. Ford give me a 10 percent refund, and to keep peace and quiet in Washington, let Congress give me one too.

I will then take Mr. Ford's refund and fight the recession by spending it as fast as I can. At the same time, I will take Congress' refund and sock it away in the bank to fight Myrtle Mayfield

There's no sense in doing things half-way. What have we gained if we whip inflation and wind up with more inflation, or if we whip inflation and wind up with a depression? As any economist will tell you we've got to spend and save at the same time to do the job and two separate refunds are the

However, there's no use being short-sighted about this. Too long have we depended on Washington to do everything. If two tax refunds from Washington will get the ball rolling in this two pronged pattle, think how still more

There is much talk today about the joys of being uncommited--the freedom, the independence, the opportunity for self-expression, the absence of unbearable responsibility.

I have heard enough of this talk and I wish to raise my voice as a witness for the joys of great commitment. Mrs. Ryan Walker of Big Spring and Mrs. Mary Carter of San Angelo provided wedding music.

The bride's sister, Miss Bonnie Putman, was maid of honor. Bridesmaids were Shari Foster and Sherrie Stephens, both of Lamesa.

Larry Berger was the bridegroom's best man and John Beckham and Steve Foster of Sterling City were groomsmen. Randy Gill, Bob Brockman and Bobby Burnett were ushers.

A reception, following the ceremony, was held in the fellowship hall of the church. Miss Debbie Manson of Midland and Miss Jan Shaddox of Fort Stockton served wedding cake and punch.

The couple will make their home in San Angelo.

Cake 'n Candy Mrs. J. Howard Combination ... a rare coffee hour find

The accolades will continue long after the last crumb has been eaten when you serve this Surprise Toffee Coffee Treasure Cake.

The surprise treasures in this rich, buttery cake are the crunchy toffee candy pockets that form when the cake is baking. Crushed toffee candies and fresh dairy sour cream go together to make this truly a rare find of a cake.

Plan to serve it for all your while everyone's waiting for the turkey to brown. This is also a great make-ahead recipe that freezes well for short notice occasions.

Here's the recipe for this "never fail" cake, developed by the National Confectioners Association

TOFFEE COFFEE TREASURE CAKES

½ cup butter or margarine,

3 11/4 oz. (approximately 3/4

bars, coarsely crushed

1/4 cup butter or margarine,

cup) chocolate toffee candy

¼ cup chopped nuts

softened

2 eggs

melted

- 4 cup sugar
- teaspoon cinnamon cups all-purpose flour
- cup sugar
- 1½ teaspoon baking powder teaspoon soda
- teaspoon salt teaspoon vanilla

cup (8 oz. or ½ pt.) dairy sour cream Generously grease and lightly flour 9 or 10-inch Bundt pan. Com-

bine 1/4 cup sugar with cinnamon; set aside. In large mixer bowl, ing ingredients except nuts, candy cup melted butter or margarine. Blend at low speed until moistened; beat 3 minutes at medium speed, scraping bowl occasionally. Spoon ½ cup of batter into prepared pan. Sprinkle with 2 tablespoons cinnamon-sugar mixture. Spoon remaining batter into pan. Sprinkle with remaining cinnamon-sugar mixture, then with nuts and crushed candy bars. Pour the ¼ cup melted butter over batter. Bake at 325° for 45 to 50 minutes until top springs back when touched lightly in center. Cool upright in pan for 15

sugar. Yield: 10-12 servings. TIPS: For easy candy crushing, freeze candy bars for several hours, then place in paper bag and hit with rolling pin or other

minutes; remove from pan. If desired, sprinkle with powdered

This cake can be baked as directed in a 13 x 9-inch baking pan which has been greased on the bottom only. After spooning second half of batter into pan, spread to edges.

The Texas State Department | arrange interviews and visits, of Public Welfare is offering a new program...Foster Care For Adults. A foster home for adults is a private home which is operated for the purpose of providing suitable care for compensation and profit. A foster home is licensed for three or fewer recipients 65 years of age or older who do not require nursing care, but are in such condition as to require some personal services and supervision to assure their safety, comfort and emotional well-being.

To be eligible for foster care the person must be ambulatory or ambulatory with assistance. The person whose physical or mental condition requires care in an institutional facility is not eligible for this program. The State Department of Public Welfare Office in San Angelo is now interested in contacting persons who might be interested in providing foster care for adults. Anyone interested in providing this service should call 655-9516 or write or come by 318 N. Bell, San Angelo. The San Angelo Office will certify homes in Tom Green, Coke, Sterling, Runnels, Irion, Reagan, Concho, McCulloch, San Saba, Crockett, Schleicher, Sutton and Menard Counties.

All applications will require a study to be made by a department worker of the home and family. Each installation must conform to standards set forth by the department. The worker will be available to assist the prospective provider in interpreting the standards, and in some cases achieving certain standards. All foster homes must be in compliance with Title VI of the Civil Rights Act of 1964, which states that, 'No person in the United States shall, on the grounds of race, color or national origin, be discriminated under any program or activity receiving federal financial assistance."

Once the home is certified, the Department of Public Welfare worker will work with the family in placing eligible elderly persons in the home. The placement procedure requires a careful study of the potential residents needs. Every attempt will be made to match the potential resident with a foster home deemed best able to meet needs. At no time during the placement process is it mandatory that a potential resident accept a specific foster home, or that a foster home accept a resident. The department worker will

Walking can have mental health values, as well as aid physical health, if we learn to enjoy the exercise and the open air. Pleasant physical activity can help relieve emotional tension. Exercise is most likely to be enjoyable when the activity is performed with ease

Like any form of exercise, walking requires a period of gradual conditioning before all-out effort. If you walk very little, start slowly with short hikes and gradually build up the time and distance.

The feet take quite a beating in walking. Be sure that shoes fit properly, are well broken in and have no rough spots inside. Wearing two pair of socks helps. The feet function best when the toes point straight ahead in walking. Walking with toes turned in or out distributes the body's weight unequally on the feet.

The Texas Medical Association cautions the untrained person against an exercise orgy in hiking or any other vigorous physical activity. The enthusiast who tries to do it all at

Earnings are based on daily compounding of accumulated interest to maturity.

Existing Certificates may be renewed or converted at maturity without penalty but regulations require that earnings on amounts withdrawn before maturity be reduced, from date of issue or renewal, to the regular passbook account rate at time of withdrawal; plus forfeiture of a maximum of 90 days' interest at the same passbook rate. This same rule applies to certificates of deposit issued by banks.

Mol-Mix liquid supplements

Quality ingredients add up toa product.

Most of you dairymen know that supplementing your cattles' diet is a mandatory part of any dairy operation. And you probably know that liquid supplementation is the most efficient (and therefore, least expensive) way of doing it. But, what you may not have considered is this: If you're not using a quality product, your efforts may be in vain.

Mol-Mix is made with the finest quality Moi-Mix is made with the finest quality ingredients available, including those which are "performance-oriented" to give you the results you're looking for. Yet these special ingredients, things like phosphoric acid, ammonium polyphosphate, corn distiller's solubles, and condensed fermented corn extractives, are the very ones that many other supplements lack!

You might not realize just what these extra ingredients can do. Drop by your Mol-Mix dealer and let him show you what each adds to the quality of Mol-Mix.

But one thing won't need explaining: the dollar-and-cents advantage of Mol-Mix. Our quality ingredients mean more net profit for you; some dairymen report as much as four and a half dollars return for every dollar invested in Mol-Mix.

Mol-Mix liquid supplements: it all adds up to a lot more quality.

John Elliott is the leading free throw shooter, hitting on 65 percent of his charity shots.

Will Wallace [5'9" Jr.] who was moved up to the varsity recently, has been improving every game. Wallace came into his own a week ago when he scored 11 points against a tough McCamey team. Wallace played only the final half quarter, but hit on 4 of 6 field goals and 3 of 4 free throws. It was just an excellent performance by an up and coming Sonora Bronco. Wallace has hit on 11 of 21 field goals for 52 percent in the

The Sonora JV boys are off and running now after a slow start. The Bronco JV has won 7 of their last 10 games including the championship of the Eldorado tournament. The Broncos are having a fine season and should be a great help to the Sonora varsity next season.

The Sonora Junior Varsity and Varsity teams will open the second half of district play this coming Friday night in Bronco gym. The JV games tip off at 5 p.m., followed by the girl's varsity at 6:30. The boy's varsity game is set to start at 8 p.m. Support the "Big Red" Friday night as they take on a tough Reagan County team.
