

MAN'S BEST FRIEND?

This man's best friend made his preference clear that he would rather take a nap in the shade of the tree than romp

and play as his master desired. Zane Dunnam, 5, did his best to encourage Dusty to a bout of morning exercise...to no avail. Zane is the son of Mr. and Mrs. Dennis Dunnam.

The Streaker Streaks Again

If you happen to be traveling on the highway between Sonora and Junction and spot a white pickup... don't look. It could be the Streaker...

Local sheriff's department officials are patrolling the area in hopes of catching a glimpse of the elusive strip artist who has been performing for a number of female drivers. The suspect is not considered dangerous as he's made no attempts at stopping traffic, although he may be considered a driving hazard to those unaccustomed to seeing a nude man walking the highways.

According to reports he sorts out the boys from the girls, making a couple of passes around the female-driven vehicles, travels up the highway, disrobes, and gives the viewers a quick glance at his physique.

The latest report on the modern-day Adonis came Monday ten miles out of Sonora city limits. As of yet none of the viewers have remembered to look for a license plate number on the white pickup reported to have been driven by the Streaker. The only description sheriff's officials have is that he is a white male and is short in stature.

Three Day Show Begins For Junior Rodeo Fans

Cowboys and cowgirls from several surrounding cities as well as Sonora, began gathering today for three days of Junior Rodeo activities at the local rodeo arena.

The annual Sutton County Junior Rodeo is being sponsored by the Sonora Park Association and will hold nightly performances at 8 p.m., Thursday, Friday and

Saturday. Approved by the American Junior Rodeo Association, youngsters will be competing for buckles to be given to the best all round girl and boy contestant of this year's show.

Terry Walls is producer of livestock to be used in the show. Dub Wallace, Zane Powers and Bud Smith will serve as judges. Serving as rodeo chairman will be Mr. Louis Powers, who is also vice president of the Park Association.

The show will exhibit youngsters 9-19 in the events of barrel racing, pole bending,

break-away roping, steer riding, bull riding, and tie down and ribbon roping. Two new events have been added to this year's show...bareback riding and bull-dogging.

L. P. Bloodworth will be announcer for the three day event. Tickets for performances will be on sale at the gate.

August Piper, Jr. Killed Monday In Oilfield Accident

Mr. August Piper, Jr. of Rocksprings was pronounced dead at the scene by Dr. Charles F. Browne Monday at 12:35 p.m. Piper was killed instantly when he was hit by a high pressure hose on an oilwell drilling site located off the Juno Road in the Southwest portion of Sutton County.

He was an employee of Tom Brown Drilling Company and was working on Rig 12 at the time of the accident.

Mr. Piper was born in San Angelo September 15, 1975 and was a veteran of the Korean war, serving with the U.S. Army. He had lived in the Rocksprings area for a number of years.

Funeral services will be held Thursday at 10 a.m., in the Nelson Funeral Home chapel in Rocksprings. Interment will be in Fairmont Cemetery in San Angelo.

Mr. Piper is survived by his wife, his mother, one daughter, two sons, and a number of brothers and sisters.

Sutton County sheriff's department investigated the accident.

Boy's Ranch Rodeo Set For Saturday

The 14th Annual All Boy Rodeo at West Texas Boys Ranch will be held in the West Texas Boys Ranch arena, Saturday, July 12 at 7 p.m., according to Buck Owens of Barnhart, rodeo chairman.

Featured attraction at this year's rodeo will be the San Angelo Saddle Club in a polo exhibition.

There is no admission charge to the rodeo. Barbecue will be served for \$2.00 per plate, serving 5:30 p.m. until 7:00 p.m.

Boys Ranchers will be competing for All Around Cowboy trophy buckle and ribbons for events such as calf riding, steer riding, goat sacking, goat tying, and other events, Owens said.

Judging will be by Benny Friend and Bill Shaw of San Angelo with stock to be furnished by West Texas Boys Ranch.

The rodeo was started in 1961 as an All Boy event for the boys at the Ranch to compete and has since become a traditional July favorite with the public.

Churches Set Joint Services

The congregations of St. John's Episcopal Church, The First United Methodist Church and the Church of the Good Shepherd, Presbyterian, will be holding joint cooperative summer services during the next six weeks.

St. John's Episcopal will be the host church July 13 and 20. The First Methodist Church will host the services on August 3 and 17, and the Church of the Good Shepherd will host July 27 and August 10.

The Rev. Ray Nations, the Rev. Paul Terry and Mr. Jim Miles extend invitations for all to attend any or all of these services. Mr. Miles, interim pastor of the Presbyterian Church, will be the guest speaker at the service of morning prayer to be held in the St. John's Church July 13. Other pulpit exchanges will be announced as they occur.

Little League All-Stars Named

Fourteen members of the Sonora Little League have been named to the All Star team. Two alternates have also been announced to fill in should an accident or illness occur during all star practice and play.

Named to the team from the Cardinals are Tommy Burch, Allen Stewart, David Creek

and Rex Surber. Robert Noriega and Martin Herrera of the Astros and Perry Don Draper and Johnny Doan of the Rangers are also members of the team.

The Indians, who won the first half of little league play, dominated the all star line-up, adding six players to the team. They are Ronald Berkley, Todd Mayfield, Lee Burch, Joe David Favila, John Blankenship and Scott Savell.

Johnny Samuels and Randy Mounce were named alternates.

This team of stars will travel to Ozona Monday, July 14, where they will pit their skills against the Ozona All-Stars.

Local teams played their last game Tuesday night with the Indians against the Astros and the Cardinals against the Rangers. Scores of the games were not available at news time.

Claude Prater Dies July 4 In Local Hospital

Funeral services were held Sunday in the First Baptist Church for Mr. Claude H. Prater, 70. Burial was in Bethel Cemetery in Mason County.

Mr. Prater died July 4 in Hudspeth Hospital. He was born May 5, 1905 in Mason County and moved to Sonora when he was 18. He married Azalee Ivy August 15, 1926 and was engaged in the ranching business until he retired.

Survivors include his wife; three sons, Duane Prater and Claude Lee Prater, both of Comanche, and Bobby Prater of Kileen; one sister, Mrs. Charlotte Jackson of San Antonio; 12 grandchildren and 12 great-grandchildren.

Pallbearers were Jack Baker, Billie Galbreath, W. L. Whitehead, Melvin Hearn, Jack Harrell of Eldorado and Jim Holly of Eldorado.

Prohibitive Parking Ordinance Passed Monday By City Council

An ordinance was passed prohibiting the parking along Crockett Street (Hwy. 290) from Martin Street to West 1st Street, when members of the City Council met Monday in regular session. This ordinance was proposed in a request from the State Highway Department in preparation of enlarging this portion of Crockett Street through town into a four lane street. Along with the signed copy of the ordinance the council sent a letter asking the State Highway Department to reconsider the city's request for traffic lights to be placed at the intersections of Crockett and Main Street and 277 South.

Also present at the meeting was Mr. Carter Johnson of Rauscher Pierce of Security Corporation, who appeared before the council to give

recommendations on the \$365,000 proposed water and sewer revenue bond election. The council approved the date of July 28 for a called meeting to pass the election ordinance. Also approved was the legal notice to be published August 7 and August 16 was set for the election.

In other business Aldermen

received city sales and use tax summary for the month of May and reported \$11,526.83 in payment to the city. A request was also approved to replace the roof on the city hall building at a cost of approximately \$700.

Phil Bryant of San Angelo presented the council with preliminary plans for Ross and

Meadowcreek subdivisions. All plans presented were approved. (See related story)

The city secretary was authorized to publish legal notice of the city budget hearing set for August 4.

Also appearing before the council were Joe D. Ross, J. T. Simpler, L. P. Bloodworth and City Police Chief, Bill Webster.

Plans Underway For Housing Developments

Plans are in the making for a housing development in east Sonora, that when eventually completed, will have a total of 56 homes. The development, named Meadowcreek, is owned by H&P Livestock Company with D&M Company of Del Rio, developers.

First stages of the proposed housing development will consist of seven homes located on Hudspeth Street, from Old Highway 27 extending to the new clinic tract of land. Second stage will begin with 28 construction sites located directly behind these, surrounded by a circle drive road. The third and final stage of the project will be the remainder of the property.

The proposed Meadowcreek Addition's restrictions state that no lot may be used except for residential purposes and

these residences shall not be less than 1,200 square feet of living space and must be constructed of at least 75 percent rock or brick.

All proposals are subject to approvals of preliminary plans. Philip Bryant of San Angelo is the landscape architect and land planner for the development.

Joe David Ross also has property he intends to develop for housing and commercial use. The property is located adjacent to IH 10 and the Airport Road. Three commercial lots will be developed facing the IH 10 access road. The eleven-lot housing area will be located behind the commercial property. Access will be gained by the air port road. These tracts of land will be as large as 140 frontage by 410 feet deep. Smaller tracts will also be available.

Local Girls Place In District Show

The District 4-H Horse Show was held Saturday in San Angelo and two contestants from Sutton County placed in the events.

Jamie Condra placed first in Class 6 with her registered gelding younger than five years. Tonia Lynn Mittel placed seventh in Class 1 for registered mares five years or older.

130 contestants from 20 counties participated Saturday and will be on hand again this week to complete the performance classes of western horsemanship, western pleasure, reining, pole-bending and barrel racing. When these contests are complete, 20 riders will be named to represent the district at the State 4-H Horse Show to be held in Fort Worth July 23-26.

Intratex Gas Company will have a new home with the completion of this new building under construction in East Sonora. The 2100 square foot building will provide offices, shop and warehouse for gas company personnel. Intratex has been in Sonora for three years and presently maintains an

office in downtown Sonora. A subsidiary of Houston Intratex Gas, it is the operational department of Oasis and Intratex Gas. Mr. Clois Rogers is district superintendent of the firm. Completion of the building is planned for late August.

THE DEVIL'S RIVER PHILOSOPHER SEZ.....

He Figures Out A Way To End Unemployment With One Item Missing

Editor's note: The Devil's River Philosopher on his bitterweed ranch on the Dry Devil's River struggles with an idea this week, you might say. Dear editor:

As Calvin Coolidge used to say, the cure for unemployment is more jobs, but of course the rub is, how can you create more jobs?

I have given this some thought and I believe what we need is a sensational new invention that'll take the country by storm. We just can't rely on the old ones anymore. I mean, take cars. Sure, making cars provides a lot of jobs but there's a limit to it, as Detroit is beginning to see. Or take clothes. Changing women's styles every year helps employment in the garment industry, just as convincing men that wide-flared trousers are in right now but narrow ones will be back before the wide ones are worn out. Same thing goes for ties. Also, I've always thought that the plumbers let the economy down when they didn't try to persuade homeowners that styles in bathtubs and other bathroom items should change every spring. Bring out a new model tub every year in different colors and hood

design and have people embarrassed to be using last year's model. The piano people made the same mistake. I know people who've had the same piano for 50 years. With violins it's even worse. But even so, all that wouldn't have been enough. What we need to create more jobs is some brand-new invention people simply can't live without, like television. You know, when television first appeared 90 per cent of the people already had all the time-payments they could handle. They were up to their necks and nobody could imagine how they could take on one more major gadget, yet, as everybody knows, 90 per cent of the homes in the country now have television sets, and some have two, especially homes where children are unmanageable and two sets are required if the grown-ups get to watch what they want.

Clearly, the answer to 9 per cent unemployment is some new invention I haven't been able to think up. Oh, I thought of a few, like air-conditioned lawnmowers or TV screens as big as one side of a room so you can see the entire football field instead of the rear end of the quarterback, but those are stop-gap half-measures. Not enough universal appeal. In the mind of some lonely inventor or abstract-minded scientist working late in some laboratory there must be lurking un-born some unheard-of idea which, once sprung on us, none of us can live without, and the production of which will create thousands and thousands of jobs. Don't worry, we'll find the money to buy it with somehow, and full employment will be at hand. Has President Ford thought of offering a big prize for such an idea? The election is only about a year away.

Yours faithfully, J. A.

May Savings Bond Sales Released

May sales of Series E and H United States Savings Bonds amounting to \$2,206 in Sutton County were reported today by County Bond Chairman George H. Neill. Sales for the five-month period totaled \$5,786 for 29% of the 1975 sales goal of \$20,000.

July 15, 1965

Cecil Westerman, local pharmacist, has purchased a pharmacy in San Angelo adjacent to the Clinic Hospital. City commissioners agreed Monday to negotiate with the Texas Highway Department about the proposed route of U.S. 10 through Sonora, emphasizing that the resolution to negotiate made no binding commitment on the City of Sonora.

R. L. (Bob) Miers was honored on his 93rd birthday July 4 by his granddaughter, Mrs. Ralph Mayer.

Rodney Davis, son of Mr. and Mrs. Tom Davis, completed his term of duty with the armed services.

Miss Kelley Sue Sentell was awarded the junior medal for outstanding achievement in the tennis department at Heart O' Hills Camp for junior girls.

July 15, 1955

Oscar Groff, formerly of San Angelo, is Sutton County's new deputy sheriff.

Miss Nancy Bryan Hunt, daughter of Mr. and Mrs. Bryan Hunt, will be crowned Miss Mohair of 1955 in Kerrville. She will be crowned by her escort, George Wright.

Miss Rex Ann Baker, daughter of Mrs. Dorothy Baker, will represent Sonora as duchess at the court of Miss Mohair of 1955. She will be escorted by Turney Friess.

Mrs. E. F. Vander Stucken, assisted by Jan Vander Stucken, Jan Keng, June Rose Lyles, Shannon Ratliff and Dickie Copeland, entertained with dancing on the tennis court at the J. M. Vander Stucken home.

July 20, 1945

In Sonora as a civilian again, is W. C. (Bill) Gilmore, who has completed three years of service with the Navy. Official and final report from

the state headquarters of the War Finance Committee placed Sutton County in eleventh place among Texas counties in over-subscribing their Seventh War Loan quotas. A new 300-horsepower Fairbanks-Morse motor, purchased recently by the city, is being installed this week at the Municipal Light Plant.

Miss Jean Saunders became the bride of Staff Sergeant John L. Bell in the chapel at Goodfellow Field in San Angelo. 63 Years Ago Herbert Fields was one of 12 dealers to enjoy the annual expense paid fishing trip sponsored by the United Salt Corporation. They went to Freeport and Herbert reports a good catch and a wonderful time.

Nath Davis intends leaving in a few days for the Big Bend country to take up some land. The young people of Sonora had a most enjoyable time at the ranch home of Mr. and Mrs. J. A. Ward.

Mr. and Mrs. Ed Mears and Miss Annie Lou Mears of Menard were in Sonora this week enjoying themselves.

FANCY THAT!

ON JULY 3, 1775, GENERAL GEORGE WASHINGTON TOOK COMMAND OF A MIXED MULTITUDE OF PEOPLE AND BEGAN TO SHAPE THEM INTO THE UNITS OF INFANTRY, ARTILLERY AND CAVALRY THAT WOULD BE REQUIRED TO SUPPORT THE DECLARATION OF INDEPENDENCE, SIGNED JUST A YEAR AND A DAY LATER!

Lions Elect New International President

DALLAS, TEXAS—Harry J. Aslan of Kingsburg, California, was elected President of the International Association of Lions Clubs at the 58th Annual Convention, June 25-28, 1975, in Dallas, Texas. Lions International is the world's largest service club organization with over 1,100,000 members in 147 nations and geographic areas around the globe.

Aslan, the fifth Californian to become President, operates "Three H Ranches" and an independent fruit packing plant and cold storage facility. A member of the Kingsburg Lions Club since 1949, his record of community service also includes the Kingsburg Community Chest, Sequoia Council of the Boy Scouts of America, the Kingsburg Hospital District and the Reedley College Advisory Committee. He also holds membership in the Kingsburg Chamber of Commerce, the Kingsburg Historical Society, Masonic Lodge, Knights Templar and Shriners organizations.

President Aslan's theme for his year in office, "Lionism Is Opportunity," emphasizes this year's major goal: to broaden the scope of humanitarian service each Lions Club provides for the needy and underprivileged people of the world.

News Letter

By Bob Krueger

One of the most outrageous and annoying encounters that a citizen may have with the federal government comes when an agency bureaucrat who understands nothing of our business expects us to respond on his terms. Last week, a letter to me brought the frustrations of a businessman who had to deal with such a problem.

A San Antonio car dealer had received a questionnaire to which the Federal Trade Commission demanded his response in 45 days or he would face legal action. He was chosen at random to respond to the questionnaire. He had done nothing wrong, but by sheer chance he was selected to spend great time and expense trying to answer impossible questions.

On the fifteen page questionnaire there were 29 questions, two of which I give below:

1. "During calendar year 1974, state the approximate number of the instances and number of motor vehicles offered for sale where, after an opportunity to inspect said vehicle, the customers decided not to purchase said vehicle." Take away the bureaucratic language and it means the dealer was expected to know how many people walked in, looked at cars and decided not to purchase them—clearly an impossible and outrageous request.

2. Another question asks what percentage of customers did not receive satisfactory repair service the first time they brought in their car for repair. If a dealer gives repair service to some 1000 customers a week, this would mean going

through more than 50,000 repair orders for the year to try to ascertain what number of people came back for repairs. Even if this were undertaken, accurate figures would be impossible to attain.

Imagine fifteen pages of such questions and one can readily understand the frustration and annoyance the businessman would feel when he recognized the expense required of him to try to gain the information, and the futility of providing accurate documentation, while the federal government would not reimburse any part of his cost. It is almost as though a few people were chosen by lottery to pay double their income tax one year. They may have done nothing wrong, but a bureaucrat made the request and threatened court action if they did not respond.

This example, from our district, points out to the paramount needs 1. to revise and update our regulatory procedures so that they are sensible, realistic and genuinely protective of our citizens, and 2. to expect that an agency would employ people who have some genuine understanding of the businesses they work with.

I appreciate this businessman's having called this matter to my attention and have written a letter, expecting prompt explanation from the Federal Trade Commission for sending the absurd questionnaire. Perhaps we can still get this questionnaire stopped. Certainly I would appreciate hearing from my constituents who have similar encounters with their government so that I might lend whatever assistance I can.

When fortune knocks, be sure to open the door.

Local Land Owners Being Sought For Family Land Heritage Program

County Judge J. W. Elliott and Texas Historical Commission chairman G. W. Stewart are working with the Texas Department of Agriculture in registering area farmers and ranchers who qualify for honors in the Family Land Heritage Program for 1975.

The program gives recognition to those who have kept land in the family for 100 years or more, maintaining continuous agricultural operations. Agriculture Commissioner John C. White explained.

Last year over 560 families qualified for certificates and inclusion in the Family Land Heritage Registry, which contains brief histories of all the farms and ranches, the names of current owners, and pictures of early settlers.

"The Texas Department of Agriculture has received many requests for the Registry—from universities, historians, and government agencies. It provides an interesting record of agriculture in the early days of Texas, as well as anecdotes about members of the families.

"We also included notations on the 100-year-old structures on the property, no matter what condition. This information can be invaluable to researchers," White stated.

"For this reason, we are trying to register all those who qualify—not only to give these people some recognition, but also to have a permanent record of pioneer agricultural producers in Texas."

Application forms are available from the county judge's office. Once completed, the forms must be certified by the county judge or his designate. They are then mailed to the Texas Department of Agriculture with any pictures of early settlers which can be copied and returned. Deadline is August 15, 1975.

The word filibuster stems from the Dutch word vrijbouter meaning freebooter or pirate.

Reddy's helpful tips for your Room Air-Conditioners

- Set air-conditioner to maintain a slightly higher temperature than you might normally; each degree cooler than 78 uses substantially more energy.
Clean the filter regularly.
Close draperies, blinds and use shades or awnings on all windows exposed to sun.
Use appliances that give off heat (ovens, dishwashers, dryers) during cooler times of the day.
Remember to keep outside doors, windows, and fireplace dampers closed. If you have window units, close the heating vents near the floor, as cool air falls and can escape through vents.

West Texas Utilities Company

Remember Reddy Supplies the energy - but only YOU can use it wisely!

McGAUGHS MOVE TO IZORA
 Mr. and Mrs. Roy McLaugh and family have moved to Izora where Mr. McLaugh will be involved in private business. He has been pastor of the Sonora Church of Christ the past year. A son, Steven McLaugh, who has been employed by Divide Cable Corporation has moved to Arizona. A daughter, Rhonna, who works at the local nursing home, will remain in Sonora.

Joe R. Andrews, III Completes Degree Work
 Joe R. Andrews, III, has completed work toward his master's degree in Agricultural Finance at Texas A&M University. He begins an internship with the Farm Credit Administration in St. Paul, Minnesota July 21. Andrews is the son of Dr. and Mrs. Joe Andrews.

Mrs. Sipes Hosts Firemen's Wives

Mrs. Mike Sipes was hostess June 24 at the fire hall to members of the Firemen's Auxiliary. Refreshments were served and 42 was played. Mrs. Steve Livesay was named a new member of the auxiliary. Mrs. Bill Gosney was a guest. Winning at 42 were Mrs. James Blackman, high; Mrs. Mollie Hite, 84; and Mrs. Ervin Willman, low. Others attending were Mrs. Mmes. Carl Teaff, Bill Jolly, Gene West, Joe Renfro, Vernon Humphreys, Ronnie Crawford and Sammy Odom.

An Afternoon Patio Refreshment

Undoubtedly, the most popular kind of party for warm weather entertaining is the one served on your patio or in the backyard. For something just a little different have an afternoon patio refreshment and serve a cool delicious tasting minted tea frappe with assorted fresh fruits and an easy to make creamy fruit dip. The minted tea frappe is so tasty and unusual that your guests will be asking for the recipe. Here are the recipes for the Frappe and Dip as developed in the Nestlé Test Kitchens.

Minted Tea Frappe
 2 cups water
 1/4 cup Nectea
 1/4 cup confectioners' sugar
 1/4 cup white creme de menthe
 1/4 cup white creme de cacao

In large bowl, combine water, Nectea, confectioners' sugar, white creme de menthe and white creme de cacao; mix well. Pour into ice cube tray. Freeze until just frozen (about 2 hrs.). Scoop frozen mixture into large bowl or blender container. Beat with electric mixer or blend in blender container at high speed until slushy. Serve immediately. Garnish with mint leaf, if desired. Makes about 4 (5-oz.) servings.

Creamy Fruit Dip
 1 cup sour cream
 1/4 cup Crosse & Blackwell® Red Label Marmalade
 1 tablespoon confectioners' sugar
 1/2 teaspoon brandy extract (optional)

In small bowl, combine sour cream, Crosse & Blackwell® Red Label Marmalade, confectioners' sugar and brandy extract (optional); mix until combined. Chill in refrigerator until ready to serve. Serve with assorted fruits. Makes 1 cup dip.

According to word experts, the only thing exotic about anything exotic is that it's literally, "from a foreign land."

Mrs. Glenn Franklin.....nee Linda Smith
Couple Wed In Home Ceremony

Miss Linda Elaine Smith and Glenn Ray Franklin were united in marriage June 27 at the home of the bride's parents. The Rev. J. C. Hancock, pastor of the First Baptist Church officiated.

White gladiolas and blue daisies were placed on an arch in front of the fireplace where the couple stood to repeat their vows. Miss Katherine Mathews served as flower girl.

The bride, given in marriage by her father, chose a floor length gown of white double knit, accented at the waist by re-embroidered lace. Lace also enhanced the long puff sleeves and extended to the floor in the front panels of the skirt. The bride chose a picture hat of lace with lace trim. A train of tulle extended to the waist. She carried a bouquet of white roses, white daisies and baby's breath.

Mr. and Mrs. Jim Mathews served as the couple's attendants.

Parents of the couple are Mr. and Mrs. James H. Smith of Sonora and Mr. and Mrs. Elmer Franklin of Dexter, New Mexico.

Miss Susan Dunnam provided traditional wedding music at the wedding and the reception that was held in the bride's home immediately following the ceremony.

A tiered wedding cake accented with blue roses was served to guests. In the houseparty were Mrs. J. C. Surber, Mrs. Don Lawson and Miss Cindy Feagin.

After a wedding trip to Ruidoso, the couple are making their home in Sonora where the bridegroom is employed by Dresser Atlas. The bride is an employee of Neville's Department Store.

Mrs. Franklin is a graduate of Permian High School in Odessa and the bridegroom attended Dexter High School and the University of Eastern New Mexico in Roswell.

"GOLD" DEFIES WITH FREQUENT TOUCH; THERE'S NOTHING FOULS THE HAND SO MUCH.

Coffee Break

By Shirley Hill

Mrs. Edna Cunningham had a bad shock when she was hit from behind by an approaching vehicle July 1. Mrs. Cunningham was traveling on a Schleicher County road just north of the Sutton County line when the rear-end bump occurred.

Imagine her surprise when she found the aggressive vehicle was none other than an airplane. Yep! A cropduster was attempting a landing to refuel and the pilot stated he did not see the car until he was too near to change his plans. Neither Mrs. Cunningham nor the pilot were injured, and only minor damage was done to the plane and auto.

--SKH--

If you're a great believer in Ann Landers and Dear Abby....beware. After all her advice on how to have the perfect marriage and keep the home fires burning...Ann is divorcing her husband of 36 years. Ms. Landers writes a love-column that is published in more than 700 newspapers across the United States.

--SKH--

It was with deep regret that I wrote the story of John Butterfield's resignation in last week's issue. Seems all our truly dedicated teachers are seeking other professions.

--SKH--

Ladies, Mesdames and Misses! Be sure and take heed to this week's front page story of the Sutton County Streaker. He does his act on the highway between here and Junction and performs for the females of the

species only. If you're traveling in that direction, be sure and get a good description....not of the streaker...his license plate and pickup. It's hard for the local police to get the many facts together since the only thing various descriptions have in common is the fact that the immodest fellow is not very tall.

SMITHS MOVE BACK TO SONORA
 Mr. and Mrs. George E. Smith, who have lived in San Angelo the past four years, have returned to make their home again in Sonora. They will reside at their home on Tayloe Street and Mr. Smith will be employed by Ken Braden Motor Company.

Fat heads, lean brains.

THERE'S MORE TO LIFE THAN A PRETTY BALLOON!

A bouncy red or yellow balloon is the symbol of the world over of good fun and happy feelings. There's rarely a festival, a fiesta, or a fair held anywhere without the familiar balloon vendor strolling through the crowd, selling happiness for a few pennies. Parents buy them for their kids and young men present them with a flourish to their girl friends. Just why a balloon is so much fun isn't clear, but one thing is certain—the pleasure never lasts. The air leaks out, balloons unexpectedly pop, careless fingers send them soaring away forever. But there is a far greater pleasure to be found that will last for an eternity. It is the happy pursuit of a Christian life and you can find out all about it this Sunday — in church.

Swimsuit Cover-Ups Need Basic Care It's the peak of the sunshine season. All spring you shopped long and hard to build a seaside wardrobe you'd be proud to wear, and you succeeded. But now, after only a couple of swimming and sunbathing sessions, your fashionable cotton and terry cloth cover-ups are starting to look dingy. What do you do? It would be silly to throw out your favorite caftans and robes and start shopping all over again... and you don't have to if you know how to care for them. Swimsuit cover-ups, like all other apparel, need basic care to keep them looking bright and beautiful. Salt water and chlorine are two pretty-robe foes. They're absorbed into the cloth from wet bathing suits and can cause colors to fade. To help prevent fading, launder cover-ups often, so salt and chlorine chemicals are washed away before they have a chance to affect colors.

Swimsuit cover-ups, like all other apparel, need basic care to keep them looking bright and beautiful. Salt water and chlorine are two pretty-robe foes. A Bishop Looks at Life

By Everett H. Jones, Retired Bishop of the Episcopal Church They Had One All-Important Insight

(This is the fourth in a series on "Faith of Our Fathers," dealing with religion in America 200 years ago.)

Not long ago the psychiatrist Karl Menninger wrote a book entitled, "Whatever Became of Sin?" He made clear his conviction that we suffer today because we are not aware, as our forefathers were, of the power of evil at work in ourselves and in the world.

This book could not have been written 200 years ago. At that time in America sin was a reality clearly recognized. It was recognized for religious reasons. Men were sinners in constant need of repentance and forgiveness. It was recognized for political reasons. The colonists had experienced both in England and in their life here under King George III the arrogant abuse of power. They would agree with the dictum of Lord Acton, enunciated years later, that all power corrupts, and absolute power corrupts absolutely.

One reason the Episcopal Church made such slow progress in early America was the bitter opposition to the presence of bishops in the colonies. The bishops in England, who often had great temporal power, were held responsible for much of the religious oppression from which the colonists had fled. They wanted no Lords, spiritual or temporal.

We in America in this year 1975 can be especially grateful for the Christian realism of our forefathers. We have seen enough corruption in government in our lifetime to be glad that the early patriots were determined to establish a land governed not by kings but by laws.

The members of the Constitutional Convention were so suspicious of great power in the hands of any individual there was considerable opposition to one chief executive in the nation. It was suggested that a body of three or five persons could check on each other.

The problem was solved by a series of provisions we call "checks and balances." There would be three equally important branches of government: executive, legislative, and judicial. There was a clearly defined "Bill of Rights" for the protection of the individual against the power of government. And there was a carefully worked out procedure for impeachment to deal with those who violated their public trust.

Two statements give a good summary of the all-important religious and political realism that went into the making of America: Said James Madison: "The truth is that all men having power should be distrusted." Said Samuel Adams: "It becomes every well-wisher to his country, while it has any remains of freedom, to keep an eagle eye upon every innovation and stretch of power in those that have the rule over us."

The Liberty Bell And Its Replicas

In 1950, fifty-two full-scale replicas of the original Liberty Bell in Independence Hall, Philadelphia, were built for the Treasury Department and given to each state, the District of Columbia, Hawaii, Alaska and Puerto Rico, where they are displayed in places of honor.

Rung on July 8, 1776, to proclaim American Independence, the original Liberty Bell has seldom since been heard. The last time the Liberty Bell really rang was on Washington's Birthday, 1846. The original crack that had appeared when the Bell was being tolled in mourning for Chief Justice John Marshall in 1835 had been drilled out in 1846 so that the edges would not vibrate against each other. The bell rang clear until almost noon in honor of the Father of His Country, when the crack spread and the ringing changed to a hoarse rumble. That was the last time anyone heard the true voice of the original Liberty Bell.

In subsequent ceremonies through the years, the original Bell has been sounded -- usually only tapped symbolically for fear of damaging the Bell still more. On February 11, 1915, its silence of 69 years was broken to signal the linking of the Atlantic and Pacific coasts by long distance telephone. Three times it rumbled hoarsely over the wire to San Francisco. In the conversation that followed, the Mayor of San Francisco made a

personal plea to the Mayor of Philadelphia to have the Liberty Bell sent to the Panama-Pacific Exposition. There, and on it's journey by rail to and from the Golden Gate, an estimated 17,000,000 Americans turned out to see the Bell.

Again it was struck to welcome the New Year of 1926, the sesquicentennial of American Independence. On that occasion, the wife of Philadelphia's Mayor Kendrick tapped out 1-9-2-6. That event was broadcast by radio to the half of the nation that could be reached by radio at that time. Even the muted voice of Old-Liberty has not been directly sounded since, nor is it likely to be again, although a radio broadcast of a recording on the 1926 ceremony was made to the nation on June 6, 1944, to signal the invasion of the Continent of Europe by American and allied forces in another war for Freedom.

The 52 replicas produced in 1950 were used by the Treasury Department in its 1950 Savings Bonds Independence Drive. They toured nearly 2,000 American cities. To open that drive, then Secretary of the Treasury, John W. Snyder, tapped the original Liberty Bell in Philadelphia near the close of an hour-long nationwide radio show featuring an address by President Truman and celebrities from the entertainment world.

With the 52 duplicated,

millions of Americans can hear approximately the same sound as that produced by Old Liberty when it proclaimed Liberty "throughout all the land and to all the inhabitants thereof." They are exact copies of the original; the crack is indicated in the surface; and the bells ring and are harmonically tuned.

The replicas allow Americans, unable to see the original, to view an exact copy of Old Liberty. Since its return from the Panama-Pacific Exposition in 1915, the original Liberty Bell has not been allowed to leave Philadelphia. Since October 10, 1917, when it was the star attraction in Philadelphia's First Liberty Loan Parade during the First World War, it has not even left its shrine in Independence Hall, because of the danger of further cracking of the precious relic by the jolts and strains of travel, even though it has been protected since its trip to the West Coast by the installation of a six-armed iron spider fastened to the clapper bolt inside its crown with the arms hooked under the lip of the bell to distribute the strain of its 2,080 pounds more evenly.

The 52 replicas of the Old Liberty were donated to the Savings Bonds cause by six leading American companies of the copper industry (bell metal being an alloy of copper). The donors were: Anaconda Copper Mining Co., Kennecott Copper Corp., Phelps-Dodge Corp., American Smelting and Refining Co., American Metal Co. Ltd. and Miami Copper Co.

U.S. Steel Corporation's American Bridge Co. supplied the stays and hardware used in mounting the bells. Forty-nine flat-bed trucks, painted red-white-and-blue, on which the bells toured were supplied as a public service by the Ford Motor Company.

The duplicates were made at the bell foundry of the Sons of Georges Paccard at Ancey-le-Vieux, in the province of Haute-Savoie, near the Swiss border of France, from careful measurements taken by Dr. Arthur L. Bigelow, Professor of Engineering and Bellmaster of Princeton University, and from detailed photographs of the original Bell, its wooden yoke and the wishbone-shaped bronze supports between which it is swung on its exhibit platform in Independence Hall.

Viruses Bring Garden Problems

Many virus diseases occur in the home vegetable garden, and there is little that can be done to control them once they occur.

Although viruses attack many plants, those commonly afflicted include beans, tomatoes, peppers, potatoes, Southern peas, squash, mustard and turnips, points out Clint Langford, county agent with the Texas Agricultural Extension Service. Viruses can be identified by mosaic of the leaves (mottled appearances), ring spots on the foliage and sometimes on the fruit, yellowing of the foliage along with possible bronzing and reddening, and stunting of plants.

Virus diseases in home vegetable gardens are primarily spread by insects, says Langford. Aphids and leafhoppers are mainly responsible. Therefore, insect control is important to the prevention of virus diseases.

Virus diseases can also be spread by contaminated clothing or hands. Tobacco mosaic can be spread to tomatoes by someone who has smoked recently.

Other viruses are spread by contaminated seeds, so the use of certified seed is important. Weeds can also serve as hosts to viruses, so a year-round weed control program is important to reducing virus infestations.

Proper attention to maintenance practices around the home garden, including the control of weeds and insects, will go a long way in reducing virus problems on vegetable crops, contends the county agent.

Police Reports

City of Sonora police officials have issued 14 citations during the week from July 1 through July 7. These included violations for speeding, excessive noise, improper starts and one failure to yield right of way.

On July 1 officials answered a call reporting a traffic accident at the corner of Tom Green and 4th Street. Vehicles were driven by Mrs. Gretta C. Smith and Barbara G. Crouch. No injuries were reported and damage was minor to both autos.

Several calls were made during the week reporting mischievous vandalism by youngsters. On July 3 a plate glass window at the Big Boy Shamrock Station was reported to have been broken during the nighttime hours. The incident is still under investigation.

On July 5 a car belonging to Hector Perez was reported to have had the tires slashed and damage done to the paint. Three juveniles were apprehended. No charges were filed after the youngsters agreed to pay for damages made to the auto.

Some damage was done to property at the lumber yard storage area on July 6. On July 7 a report was made on youngsters breaking into storage rooms and riffling through mail boxes in the area of Del Rio Street.

MONEY-SAVING IDEAS

TIPS TO HELP YOU CUT COOLING COSTS

Although many people think insulation is necessary only for keeping a house warm in winter, the truth is, it saves homeowners money on the cost of cooling in summer.

Guy O. Mabry, vice president and general manager of Owens-Corning Fiberglas Corporation's Home Building Products Division, points out that by using simple energy conservation techniques, many homeowners can reduce their fuel bills.

during the cooling season by as much or more than they can during the heating season.

One of the most simple and efficient methods of cutting air conditioning costs is to make certain the attic of a home contains a minimum six inches (R-19) of insulation. All that's needed is the insulation, a tape measure, a pair of gloves, a sharp knife and a day's time. When the measurements have been taken, and the required amount of insulation is on hand, it's basically a matter of placing the insulation between the ceiling joists.

"This step alone will save the homeowner surprising amounts of money," says the Owens-Corning expert. "In a northern climate like

New York City, for example, cooling cost savings, based on today's electricity rates, will amount to as much as \$155 a year, while in a southern climate like Phoenix, Arizona these savings can total \$300 annually."

Other tips to help you save on your cooling bills:

- Set your thermostat at the highest comfortable level in summer. The National Bureau of Standards says your cooling fuel consumption drops 3 per cent for each degree you raise the thermostat.

- Change your air conditioner filter at least every two months.

- If you have a central air conditioning unit, keep heat-producing appliances away from the thermostat.

- Plant shade trees on the East, South and West sides of your home to reduce solar heat gain of windows, walls and roof.

- Use appliances late in the evening when power loads are lighter and temperatures are lower.

- Make sure clothes dryers are vented to outdoors to avoid heat build-up.

- Open attic windows to create ventilation; this reduces attic temperature.

- See that caulking around storm windows and doors is intact to prevent cool air loss in those areas.

"When you consider that the cost of electricity in many parts of the country has risen 22 per cent between June, 1973 and last December, and that it will continue to increase dramatically, the case for saving as much as we can becomes very strong," asserts Mabry.

Aging Committee Holds Meeting

A meeting of the Sutton County Committee on Aging was held recently in San Angelo with Mes. Hershel Davenport, J. T. Hill, Bobby Kinard, Frank Gallegos, Earl Duncan, Odene Crawford and the Rev. and Mrs. Paul Terry in attendance.

At this meeting the committee adopted by-laws and

elected Mes. Davenport and Kinard as co-chairmen of the organization.

A number of reports were heard including the discussion of a meals-on-wheels program and the need for volunteers to do minor home repairs for Sutton County senior citizens.

State Horse Show Set For July 23-26

The 1975 State 4-H Horse Show will be held July 23-26 in the Will Rogers Coliseum in Fort Worth, according to a 4-H and youth specialist for the Texas Agricultural Extension Service.

Open invitational competition, including English classes and drill teams, will be held on July 23 and 24, with the regular show competition beginning with showmanship at 5 p.m. July 24. Regular show classes will be held the next two days, with final competition Saturday afternoon and evening.

An awards program will conclude the show. Some 600 4-H and other youth from across Texas are expected to attend.

Out-Of-This-World Beauty

Amparo Munoz
Miss Universe 1974

If the sight of beautiful women from all over the world turns you on, you can soon turn on your TV for a sight to delight your eyes--the 24th annual Miss Universe Beauty Pageant.

Hosted by Bob Barker, with Helen O'Connell as anchorperson, the special telecast will be aired live from El Salvador, San Salvador, on Saturday, July 19th, at 10 p.m. (EDT) over the CBS television network.

With outstanding lovelies from 65 countries to choose from, it will be a tough night for the judges. But, judge they will, and at the stroke of midnight, 21-year-old Amparo Munoz--Spain's Miss Universe 1974--will crown her successor, whose charm and beauty will have earned a \$10,000 cash award plus a \$10,000 personal appearance contract. In addition, the new Miss Universe will receive a variety of prizes including an around-the-world cruise, a new car, and a year's wardrobe.

All of which seems fitting reward for the out-of-this-world beauty of the most beautiful girl in the world.

"It's so horrible, I can't look."

A chain reaction of rear-end collisions on the highway can cause thousands, even millions of dollars of awards for physical damage and personal injuries. The only realistic insurance to cover such catastrophes is an 'excess' or 'umbrella' liability policy. It costs only pennies a day - from Morgan & Hunt Insurance.
