## Broncos Prepare For Owls Following Loss To Ozona

By Bob Granger

Led by the slashing runs of Gary Warren and a consistent ground and punting game, the Ozona Lions edged by the scrappy Broncos 11-7 to take another giant step toward the District 7-AA Championship. It was the second close win in two weeks for the Lions as they edged the Reagan County Owls 14-8 last week.

The key difference in the contest was the Ozona punting game that kept the Broncos in the hole throughout the game. On the nine possessions that the Broncos had the ball, they started five times inside their own 15 yard line. The only time the Broncos had good field position, they moved in for a score.

Ozona tipped their hand early as they started from their own eight yard line and ran 12 plays before having to punt to Sonora from the 50 yard line. On the punt, the ball rolled dead on the Sonora five yard line. The Broncos were able to move out of their own 17 before they

punted to their own 45. From this point the Lions ground out a time consuming 13 play drive that was climaxed by a three yard run by Warren. The try for point after was not good and Ozona led 6-0 with 6:40 left in the first half.

With one minute and ten seconds left in the first half, Gene Castro of Ozona fell on a Sonora 36 yard line. With five seconds left in the half, John Galvan booted a 23 yard field goal to send the teams to the dressing room with the Lions on top 9-0.

After Ozona was unable to move the ball on their first possession of the second half, the fighting Broncos started a nine play drive from the Ozona 48 yard line to score. Key plays in the drive were two passes by QB John Elliott to Craig Parker, one for ten yards and one for 27 yards. Elliott climaxed the drive with a one yard effort to put the Broncos on the scoreboard with 6 minutes left in the third quarter. John David Cook added the PAT to

narrow the score to 9-7.

Late in the third quarter, Ozona trapped John Elliott in his own end zone for a safety to give Ozona a 11-7 lead and a grueling 11-7 victory.

Ozona made two more serious scoring threats to the Bronco ten and 25 yard lines but were stopped.

Late in the game, the Broncos drove to the Lion's 30 yard line but with the smell of victory, Ozona's defense stopped the Broncos short.

This week the Broncos will travel to Big Lake to battle the Reagan County Owls and try to spoil their hopes of a shot at the District Championship. The Owls have already lost one district game and another loss would certainly make it rough on the Owls.

## Nine Screwworm Cases Reported During Week

Screwworms are continuing to threaten livestock across the county as nine new cases were reported during the past week. The Vestel Askew ranch was the hardest hit with three cases reported. Other ranches reporting one case each were Lea Roy Aldwell, Jimmy Powell, Steen Ranch, R. A. Halbert, Wesley Sawyer and Robert Zapata.

Five of the reported cases were in the navels of calves, one is a cow following calving, one a wound following a surgical operation, one in the eye of a cow, and the other in the head of a sheep.

"The continued threat of increased cases indicates the need for ranchers to continue to check all livestock regularly with special emphasis on newborn calves," stated County Agent Clint Langford.

Langford added that ranchers should postpone all surgical operations until after frost.

## J.V. Takes Third Victory

By Bob Granger

The Sonora JV rolled to their third victory of the season Thursday night in Bronco stadium as they racked the Reagan County JV to the tune of 16-8. It was the first home appearance for the Sonora JV. Most of their games are out of town this year.

Again, Sonora's outstanding defense paved the way as they held the Owls completely in check throughout the contest as the offense chipped away and the JV carved out a hard earned victory.

After a scoreless first quarter, the Broncos recovered a fumbled punt on the Owl 40 yard line and rolled into the end zone in nine plays capped by a three yard blast by Manuel Lopez with 2:47

## Sawyer Retires As Board Director

Mr. Edwin Sawyer retired from the Edwards Plateau Soil and Water Conservation District Board of Directors and was presented 2 plaques for 29 years of service. The Edwards Plateau District was organized in 1946 and he was a charter member of the board.

While serving as a district director Sawyer has assisted in the planning and development of the watershed projects on Lowery and Dry Devil's River Draws which presently provide 13 flood control dams for the protection of the City of Sonora. He helped the district initiate the Great Plains Conservation program and the State Brush Control program, and has attended numerous meetings in the state concerning legislation that involved the ranchers in this area.

Sawyer received the Excellence in Grazing Award from the Texas Section Society of Range Management last year. This can only be accomplished through the excellent range management that he is practicing on his ranch. He is actively working with a great plains contract dozing cedar and seeding pits. He is also installing pipelines to improve water distribution and to distribute grazing on his pastures.

Sawyer has served with the local soil and water conservation district board with dedication and a lot of enthusiasm. His position as director will be filled by Mr. Bob Caruthers.

## Board Accepts Bids At Special Meeting

Criteria was also accepted for measuring personnel as required by Health, Education and Welfare.

Also at the meeting, a statement was adopted for Title Nine as follows: "The

Sonora Independent School District does not discriminate on the basis of sex in its educational program or activities, including athletic and extra curricular activities". When asked whether this statement means that hereafter girls will be admitted to the football program if they so desire, Dr. Joe Andrews, school superintendent, replied, "Yes."

Another special meeting of the board will be held today (Thursday) to meet with Jack Albert and see drawings for the all-weather track and for additional tennis courts.

### THE DEVIL'S RIVER PHILOSOPHER SEZ.....

## He Figures Out A Way To Keep New York City From Drowning

Editor's note: The Devil's River Philosopher on his bitterweed ranch on the Dry Devil's River ranges far and wide in his letter this week. Dear editor:

By the time this appears in your paper New York City may have been saved or lost, or possibly neither, the latter being brought about possibly by the environmentalists, who are bound to get an injunction against it. Having heard leading officials say "Washington cannot afford to let New York go down the drain," you know the environmentalists aren't going to sit still and allow the whole city, un-treated, to flow into the Hudson River. It'd take years to get that stream cleared of all the raw editors, publishers, newscasters, financiers and such like. And what the untreated politicians who got the city in its present plight would do to the fish is unthinkable.

But to get serious, I believe a compromise ought to be worked out between Washington and New York. Naturally Washington can't be bailing out every city that gets into trouble -- airlines and railroads maybe and a foreign country here and there, but not every Tom, Dick and Harry of a city that runs out of money -- but New York, being the biggest and all, is a special case.

Therefore Washington ought to make a deal with New York: we'll bail you out this time if you'll bail us out next time. After all, the

Potomac needs protecting just as much as the Hudson.

Changing the subject, I notice that Dr. Kissenger has made part of a deal with Russia. He's gotten Russia to agree to buy some more of our grain, but he hasn't gotten her to agree to sell us some of her oil.

That's the trouble with sending a college professor to horsetrade.

Changing the subject one more time, a flippant neighbor of mine said it looks like President Ford would know better than to run a red light without his seat belt fastened.

Yours faithfully,  
J. A.

## Bob Krueger's Weekly Report

Last weekend I had the opportunity to visit with constituents across the district and talk with them about their concerns. One of the repeated questions that they asked was "What can be done to protect our older citizens in this time of high prices and unemployment?" There are two activities in the District that are addressing these problems particularly well. One is in San Antonio where the Foster Grandparents Program got its start. This program uses federal funds to pay the minimum hourly wage to retired or unemployed older citizens who work with young people who do not have much opportunity for contact with adults. Many children come from families where only one parent lives at home. These children have a particular need for guidance and examples from adults. Through the Foster Grandparents Program they do have that chance. Some Foster Grandparents visit children who are sick in hospitals, others engage in recreational programs with them, still others help them with hobbies or their work at school. In many cases, what they do is less important than the fact that they are doing something together and that the children can assess their own growth by the examples of their elders. The town of Kerrville also has a center for the elderly of which that town is very proud. "Dieter Claim" provides numerous services for the elderly. Dieter Claim is an organization of older citizens who work together to assist one another and to

## Bronco Sideline Shots

Coach Dale Ethridge had his 7th grade Colts in fine tune Thursday afternoon as they swamped the Reagan County 7th grade 34-0. It is amazing the number of points these youngsters have scored in some of their games this year, considering the fact they play six minute quarters. One more victory will wrap up an undefeated season for the young Colts.

The 8th Grade Colts have one more chance to gain victory number one this week as they host the Ozona Cubs. The Colts have tied the Cubs on three other occasions this year. Let's hope the Colts can break the tie and win one. The Colts lost to a very strong 8th grade team from Reagan County Thursday afternoon 14-0. After allowing two touchdowns the first half, the Colts came back with a strong defense the second half to shut the powerful Owls down. The Owls are undefeated for the year.

District 7AA has been re-organized for the 1976 Football campaign. Reagan County and McCamey have dropped back to the Class A ranks and Kermit has dropped from AAA to AA. Teams in District 7AA for next year will be Ozona, Crane, Kermit and Sonora. Coach Bundy is working hard to complete a schedule for next year. Other teams other than the three district games, find Ballinger, Coleman, Brady, Mason and Big Lake on the schedule. Alpine is a strong possibility with one more game to be added.

Crane and Ozona took giant steps in their quest of the 7-AA Championship as Crane edged McCamey 28-21 and Ozona slipped by the Broncos 11-7. Crane and Ozona each have 2-0 records with McCamey and Reagan County with 0-1 records. The Broncos are on bottom with a 0-2 record. The district championship could be settled in the final week when Crane and Ozona tangle in Crane.

Congratulations to the Bronco Band on a fine performance Friday night at halftime. The band is working hard and looked much improved over early season performances.

The Broncos suffered a real blow Friday night when their fine running back, David Snodgrass, was injured early in the Ozona contest. David had an outstanding year going. We wish him a speedy recovery and hope the best for David.

## Help Save America's Food

By Jean Thompson

The only food reserve we have is the food producers' incentive to grow it. When that is destroyed, our future food supplies will be destroyed also. Other countries are having to buy food from America. They cannot feed themselves, much less us. Yet, our food supplies are being pawned on bargaining tables around the world. "And, apparently, everybody is now free to bid with them, except you. George Meany, AFL-CIO President, proved that when he dragged food prices into the middle of a shipping dispute. When Secretary of Agriculture Butz admitted to the Senate Agricultural Committee that removal of the freeze had to await a new shipping agreement, it was clear that the diplomats and politicians had taken over our grain trading." ("Farm Journal", Oct., 1975)

It was not a USDA official that lead a delegation to Moscow to discuss a "long-term grain agreement" with Russia. Henry Kissinger sent Undersecretary of State, Charles Robinson, on this mission to use your grain for no telling what diplomatic purposes.

When Labor Union demands drove costs of production so high that most of our products were not competitive in world markets, it was American agriculture that produced enough competitive priced exports to keep our balance of payments up and save the value of our dollar. Now the Unions refuse to load that export until their further demands are met. Where is that going to leave our balance of payments and what will this do to the value of our dollar? Self-seeking unions using political pressures to extract as much as possible for as little work as possible, without regard for the inevitable consequences has already done irreparable damage to our economy. The bankruptcy of New York City should be adequate warning on where our nation is heading on this course--only the American people getting together and demanding responsible political action can alter this course to disaster. Most of us still retain the idea from the past that Labor Unions are for the working people's welfare, but Unions are now big business using the working people's welfare for personal profits. i.e. New Teamsters boss, Frank Fitzsimmons is moving into a \$270,000 home. It isn't apt to affect Mr. Fitzsimmons too deeply if the dollar is devalued again and food prices go into orbit because there is a shortage of food, but the working people will be the ones to suffer.

We have a choice. We can sit here and do nothing, giving our consent for the Union bosses to bankrupt our country and break our food producers so we will have

neither money nor food or we can stand up, get together, and start moving to preserve our way of life. The choice is yours and mine. What are you going to do?

It doesn't take much intelligence to see that each new wage increase demand drives up the costs of everything required to grow food. Every time a political or diplomatic concession is made at the expense of America's independent food producers, the strangulation of our food supplies tightens another knot.

The government told grain growers to produce as much as possible because our nation was depending on them to feed us and ballast our economy with exports. Just as the grain was beginning to move and prices improved enough for the farmers to break even or make a little profit, the administration freezes exports, leaving the grain growers holding the bag--a big one produced at the government's request!

Two years ago, this kind of political razzle-dazzle threw the cattle industry into financial limbo too. That is what gave birth to the Independent Cattlemen's Association, but this organization is not just for cowmen--It is for every American that wants to continue eating. If our nation's economy and your food is important to you, come join us.

Keep your piano free from dampness, away from steam pipes or stoves, and out of drafts.

## SHE NEEDS HELP

Her brother realizes that. And so do my wife and I . . . most of the time. But sometimes Sunday mornings mean a ride in the country. . . sleeping late. . . receiving guests. Something, every Sunday.

Then one day, watching her trying to read, I realized that filling her mind and heart and soul is a continuous process. It can't be restricted to days of the week. So Sundays in church have become part of our life style. We all are finding new insights, strengthening our faith, discovering ourselves and God.

Our little girl needs help. To this Christian family that's the understatement of the year!

seconds left in the first half. Lopez also added the two point conversion to lead 8-0 at this point.

A short time later, the Broncos forced the Owls into a punt situation from their own 20 yard line and the Owl Punter got a short punt away that hit on the Owl 31 yard line. Cody Savell fielded the punt on the bounce and weaved his way down the northwest sideline of Bronco stadium to score the second Sonora touchdown. Lopez again added the two point conversion to send Sonora ahead 16-0.

The Broncos drove to the Owl 13 yard line late in the first half but were unable to score as the half ended with Sonora ahead 16-0.

After driving to the Owl 14 yard line, the Broncos were assessed two penalties which moved the ball back to the 35 yard line. On an attempted pass play, an Owl defender deflected the ball into a defensive end's hands and he raced 65 yards for an owl TD. The two point conversion was good and the scoring ended with the Sonora JV winning 16-8.

## Farmers And Ranchers To Receive Crop or Livestock Questionnaires

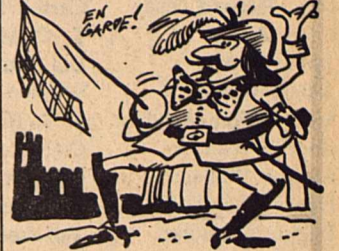

Some 75,000 Texas farmers and ranchers will receive a crop or livestock questionnaire during the period from mid-November to early January.

This roundup survey of crop production and livestock numbers is made annually by the Texas Crop and Livestock Reporting Service. The Texas Department of Agriculture and the Statistical Reporting Service, U. S. Department of Agriculture, work together to provide comprehensive information on Texas agriculture.

Producers from each of the 254 counties in Texas are selected proportional to size of operation. The small producer sampled represents many others of comparable size while the very largest producers will represent only themselves. It is equally important for all farmers and ranchers receiving a questionnaire to complete and return it promptly. The individual report is confidential-available to no other government agency or anyone except the few persons required to process the data. The state and county estimates published are available for everyone at the same time.

County statistics for 1974 and January 1, 1975, are available and can be obtained from the Texas Crop and Livestock Reporting Service, P. O. Box 70, Austin 78767.

## Briscoe Opposes Amendments

The chairman of Citizens to preserve the Texas Constitution says the campaign to defeat constitutional revision in the November 4 election is gaining ground rapidly with the help of Governor Dolph Briscoe.

State Senator Peyton McKnight of Tyler said the Governor's decision to oppose all eight propositions on the ballot "came after his own careful analysis which convinced him the present Constitution is far better than the revised version written by the Legislature."

Citing reports of voter apathy, McKnight called upon Texans to familiarize themselves with the issues and vote next Tuesday.

"I believe that most people who study the proposed new constitution will vote against it," he said. "But if a voter hasn't had time to examine every controversial provision, then I think he or she should play it safe and keep our present Constitution by voting no."

In expressing his opposition to the new charter, Governor Briscoe pointed out that Texas has a low per capita tax burden and is the only industrial state without an income tax. He said that annual sessions of the Legislature, as proposed in Proposition One on the ballot, "would make it more difficult to hold the line on new taxes and would lead us down the road to a state income tax."

Briscoe added: "I do not believe that we should move even a small step in the direction of patterning our

state government after the federal government, where Congress is in session the year round, accomplishes very little, where accomplishments are slow to come by and where spending is completely out of control."

Proposition Two, revising the judiciary article, has drawn fire from many lawyers because it would put both criminal and civil case appeals in the Supreme Court and would give the Legislature broad new authority to change the election process for judges. Presiding Judge John F. Onion, Jr., of the Texas Court of Criminal Appeals says the overall effect of the revision will be to "intensify the traffic jams in our courts, instead of alleviating them."

Other provisions in the new constitution automatically restore voting rights (and the right to hold office) to ex-felons without any administrative or judicial proceeding, abolish the \$80 million annual ceiling on welfare, restore the ad valorem tax for the state building program which the voters recently decided to end, and allow cities and counties to incur greater public debt without voter approval (which McKnight calls "the little New York" provision).

The Texas County Judges and Commissioners Association and numerous other organizations are opposing the new constitution. The Texas Association of School Boards is against the finance article (Proposition Five),

which State Comptroller Bob Bullock describes as "a spook which will haunt us many years." The Texas Association of School Administrators opposed both the finance article and the education article (Proposition Four).

McKnight declared: "The document we will vote on November 4 was written by the Legislature and it increases the Legislature's own power at the expense of the people's presently solid constitutional guarantees. It overturns voter decisions including those in recent years rejecting annual sessions and letting the Legislature set its own pay. It invites costly, lengthy lawsuits in a new overhauled court system to determine what the new laws mean. It changes our basic governmental concept to rule by the Legislature, and can lead only to more government, more spending and higher taxes."

"I don't think the people want to give future Legislatures a blank check, which is what these eight propositions do."

### STUDENTS DECORATE LOCAL RESTAURANT

Noticed the window decorations at the Dairy Queen? All these original Halloween paintings and motifs were designed and made by the second graders of Sonora Elementary, along with Miss Dial's kindergarten class.

Here's where to install grab bars in showers: 56 to 60 inches high or just above the soap dish.

Cindy Favila, Marsha Finklea, Janice Grider and Abby Sanchez, four of the Bronco Cheerleaders, give players a word of encouragement during the Ozona-Sonora game. The Broncos will travel to Big Lake this week to take on the Reagan County Owls in their third district game.

### Cattlemen Elect Leaders

Independent Cattlemen's Association members met October 23 and elected Turney Friess chairman of the local group. Pascal Allison was elected vice-chairman; Philip Jacoby, treasurer; and Ruth Shurley, secretary. Louis Powers, Gene Wallace and Gus Eustace will serve as county directors.

Bill Whitehead, who is a state director, was named chairman of the meat committee. George Wallace will be in charge of ticket

sales and Mrs. Jean Thompson was elected to serve as advertising director.

Plans for a drawing to be held November 18 at the 4-H Center were discussed. One registered Hereford bull will be given away at that time along with four sides of beef and six dressed goats. A progress meeting is scheduled for November 5 at the Powers Livestock Sales Building. The meeting will begin at 7:30 p.m. Anyone interested in the meeting is urged to attend.

### Local Members Attend Forum Celebration

A number of local American G.I. Forum members attended a Founder's Day banquet and dance in San Angelo October 18. The events were held in honor of Dr. Hector P. Garcia of Corpus Christi, who founded the G.I. Forum twenty-seven years ago.

Dr. Garcia, who is a former ambassador to the United Nations, told the estimated 400 persons in attendance, that the Forum is in the process of going into colleges and universities for the purpose of initiating student G. I. Forum chapters.

The Forum founder was presented with a number of awards and honors. Several state dignitaries were on hand for the celebration. Sonorans attending were Mr. and Mrs. Pete Gomez, Mr. and Mrs. Cesario Martinez, Mr. and Mrs. Lupe Chavez, Mr. and Mrs. Willie Ramos and Mr. and Mrs. Santos Hernandez.
