I am a self-employed male, age 45, with an annual income of \$50,000. How can I use HR-10 to provide myself with a good income at age 65?

With HR-10, the maximum income allowed for computation is \$100,000 and the lesser of 15% of this or \$7,500; however, you can't exceed your actual income. Many choose to use a smaller percentage. For example, a man, 45, with 3 employees has earned income above \$50,000. His 3 employees earn \$21,600 annually. 7% of \$50,000 is \$3,500 and 7% of \$21,600 is \$1,512... a total of \$5,012 off the top of his income. This is a fair and legal application of HR-10, yet 70% of the total contributions go to him. Money, invested at age 45, in a flexible annuity paying 7% will yield a monthly income at 65 of \$1,175.

The Consumer Alert

by John L. Hill
Attorney General

AUSTIN—Protecting the consumer was a major concern of the attorneys general from more than 40 states and U.S. territories attending the 70th annual meeting of the National Association of Attorneys General recently.

Our office, which hosted the meeting in San Antonio, was an active participant in meetings of the 14 N.A.A.G. committees, where much substantive discussion of consumer-related matters took place, and where resolutions were hammered out which later were adopted by the N.A.A.G. general assembly.

One such measure, proposed by our office's chief of consumer protection, Philip Maxwell, resolved to ask that Congress amend federal bankruptcy laws to close a loophole which in effect permitted violation of state consumer laws by unscrupulous merchants in certain limited instances.

Consumer protection attorneys said that some states have reported cases where corporations that are defendants in deceptive trade practices suits brought by state attorneys general have used federal bankruptcy laws to circumvent justice.

This comes about when the corporation being sued files a petition for bankruptcy. Under current federal law, all state legal actions are then held up until the bankruptcy proceedings are settled. Some corporations allegedly have misused this provision of the law as an obstructionist tactic to evade state legal actions, while continuing to operate

under a special "Chapter 11" bankruptcy provision.

Another resolution passed by N.A.A.G. supports enactment of federal legislation to require that packaged foods and other products be labeled uniformly. We emphasized, however, that states should not be limited in their efforts to see that consumers purchasing such goods get the full weight or measure stated on the package.

We felt that consumers, retailers, intrastate packagers, farmers, and manufacturers all need to be assured that the weights and measures indicated on packaged goods are accurate.

In line with that feeling, we additionally opposed any efforts to prohibit or impede the use of statistically valid methods of determining if there are short weights or measures in lots of packaged goods.

Antitrust efforts to protect the public received the attention of the assembled attorneys general also, in the form of a resolution favoring parens patriae legislation recently passed by both the U.S. House and Senate, and now in the conference committee stage.

Under the bill, state attorneys general could sue antitrust violators on behalf of all of the citizens of the states, and recover treble damages for overcharges resulting from illegal company actions including price-fixing. Funds recovered in such actions would be funneled into a collective damage fund for distribution to individual claimants, with the remainder applied to an appropriate public purpose.

age and production of early harvested crops for the state of Texas and for each county. Farmers who receive questionnaires are urged to complete and return them by mail. All individual reports are confidential and will be used only for state and county totals.

This survey is a cooperative effort of USDA's Statistical Reporting Service and the Texas Department of Agriculture.

Farmers To Receive Questionnaires

In early July, about 24,700 Texas farmers will receive an acreage and production questionnaire from W.H. Walther, Agricultural Statistician for the Texas Crop and Livestock Reporting Service, Austin, Texas.

Information from this survey will be used to determine harvested acre-

THE DEVIL'S RIVER PHILOSOPHER SEZ.....

Clothing Industry Comes Up With Of All Things; Men's Vests

Editor's note: The Devil's River Philosopher on his bitterweed ranch on the Dry Devil's River this week discusses, of all things, men's styles.

Dear Editor:
Some people are saying that the spirit of independence has gone out of America, that the old, original, individual aggressiveness is disappearing, that too many people are waiting around for the government to take care of them, little knowing that the government is having a hard enough time taking of itself.

Such people have not been paying attention to men on television lately. They haven't noticed that more and more men are wearing vests.

The clothing industry for one, like buckskin wearers 200 years ago, still believes in and practices the pioneer spirit.

For years the clothing manufacturers thrived on women's willingness to be told what to wear, long skirts this year, short ones next year, although they much preferred to go from short to long because the other way around some women took their scissors and stayed in style. You can shorten a long dress but it's hard to lengthen a short one.

But then women started getting independent and put on pants, leaving the dress manufacturers and their fluctuating dress lengths about in the same shape barbers were when kids stopped getting haircuts.

Did the clothing manufacturers run to Washington for help? No. They took aim at men. First they tried changing the shape of the coat lapels. This worked in some cases but not enough men noticed the change and kept wearing last year's suit. Then they flaired the pants leg, and that helped a lot, making some men with narrow cuffs ashamed to come out in public.

Now the manufacturers have come out with vests. From the President on up to Walter Cronkite, they're wearing them on television, makes no difference what the temperature

is or that nobody has a pocket watch and chain to drape across them.

This will go on I guess, even going so far as getting politicians to step off planes wearing hats, till some small group of radicals start a movement called Men's Liberation.

By the way, although it doesn't seem likely now, for a while I was speculating on how interesting it'd be if the Democrats nominated Jerry Brown and the Republicans, Jerry Ford. Then all of us in this country could cast off our fears over what somebody else might think of us for taking a public stand on politics and defiantly put bumper stickers on our cars: "I'm for Jerry."

Yours faithfully,
J.A.

REDDY'S HELPFUL FREEZER TIPS

LOCK IN FLAVOR: Use moisture and vapor-proof materials especially designed for freezers to wrap your foods. Tightly sealed, these lock in flavor and moisture and prevent "freezer burn" (surface drying) on foods. Don't use wax paper, bread paper or regular cellophane for freezer foods.

LABEL PACKAGES: Date and identify freezer packages so (1) you don't accumulate a lot of mysterious shapes and (2) you'll be able to pick out foods that have been in the freezer longest.

TAKE ADVANTAGE OF SALES: Avoid overstocking with commercially frozen food that's always available; use your freezer as your own bargain counter and store foods you can buy on sale. But do allow space for short-time baked goods, leftovers and special party foods.

Hard work, dedication and long hours are still essential to success in farming or ranching. But they no longer assure it. Today, it takes capital. And good money management with careful attention to cash flow. That's why there are Federal Land Bank loans on so many of America's best-managed farms and ranches. Long-term Land Bank financing is a dependable way to maintain a sound operation.

Parents of the couple are Mr. and Mrs. Lloyd Rucker of Veribest and Mr. and Mrs. Bill W. Taylor of Sonora. Grandparents of the bridegroom are Mr. and Mrs. Cashes W. Taylor, also of Sonora. Serving the bride as matron of honor was Mrs. James Mesteller of San Angelo. Mr. B. H. Sanders, grandfather of the bridegroom, served as best man.

Given in marriage by her father, the bride wore a traditional gown fashioned from poly-satin overlaid with Alencon lace. The gown was designed with the classic A-line and graced with re-embroider-

ed Alencon lace, trimmed in beaded pearls and sheer long sleeves. The full skirt held an attached chapel train.

The matron of honor wore a gown of soft yellow knit with a long-sleeved crocheted jacket trimmed in heavy crocheted lace. She carried a bouquet of white carnations and yellow roses.

Bobby Stinnet of San Angelo provided organ music and Emely Hallmark was soloist. Candlelighters and ushers were Gary Taylor and Richard Farr, both of San Angelo.

A reception, held in the Northex of the church, followed the ceremony. The bride's chosen colors of yellow and white were carried out with arrangements of white mums and yellow roses. Parents of the couple hosted the rehearsal dinner.

Mrs. Golden is a 1973 graduate of San Angelo Central High School and attended Angelo State University. The bridegroom graduated from San Angelo Central High School and attended Los Angeles Valley College, Phoenix College and Eastern New Mexico University. He is currently engaged in the public practice of accounting and taxes.

Following a wedding trip to Ruidoso, the couple will make their home in Roswell, New Mexico.

Dear Sir:
I hope you accept "letters to the editor" for publication. I would like to thank everyone who had a hand in making the National Wool Judging contest such a success. It was a pleasure to spend a short visit with your fine people.

Thanks to all the Extension people, who spent many hours preparing the contest, the Sonora Wool & Mohair Co. for the facilities and all the time and help. A very special thanks to all who sponsored trophies and awards, the Lions club and Sonora Wool & Mohair Co. for the fine awards luncheon, also to those who prepared and served the meal.

We in Wyoming consider it a great privilege and honor to be able to come to Sonora and be a part of your show and contest.

Again many thanks to all of the sponsors and

persons who assisted in any way. It is very much appreciated by the youth and leaders. Without your fine support such educational events just wouldn't be.

WORLD OF PROMISE

It looks like fun outside. A bright, happy, wonderful day — and a pal to share it with. A world of promise.

As the future unfolds in every life it looks like a world of promise. Whether it lives up to our expectations depends less on what's outside than what's inside. Human character tends to shape the events and experiences of life.

Our tremendous responsibility as parents is to nurture a human soul, foster its spiritual growth, cultivate the crucial development of our child's character.

As a window lets light reach inside, the teaching of moral and religious truth lets faith find its rightful place in each youthful heart. To discover all the Promise in this world the soul must begin by realizing the promises of God.

PESTS FOR PETS?
Because of mounting food shortages, Pet-Food manufacturers are being criticized for using products that are fit for human consumption. Sociologists claim that the industry should make an effort to use substitutes in their output. They suggest that the use of varmints (mice, raccoons, pigeons, etc.) while retaining nutritive values would in effect cause the pest population to diminish. It would be difficult for humans to accept new food fares. Their preferences have been conditioned by centuries of use—but pets could be lured easily to new foods...Accordingly, the new protest-slogan now reads, "PESTS FOR THE PETS". Speaking of slogans, the one word to aptly describe our operation, would be "RELIABLE". You can always rely on BRONCO PHARMACY, 116 N.W. Concho to provide you with the finest Rx Service possible...Family Rx Records retained.

Extension Service Learns Needs of Texas

The newly appointed director of the Texas Agricultural Extension told the more than 1,000 members of the organization's professional staff last week that "the Texas Agricultural Extension Service is great because it has learned to be responsible to the needs of the people of this state. We have a solid base on which to build, and we must build on the legacies left by Dr. John E. Hutchison." (Hutchison retired on Feb. 29 after 18½ years as Extension director.)

The new director also called for the involvement of more adult leaders in the 4-H program which is administered by the Extension Service.

Pfannstiel pledged his support to the goal to make Texas No. 1 in agricultural income in the nation by 1980. "With all the technology and expertise that we have available, we can make this happen."

Treatment Now Available For Canine Snakebite

Warm weather means that snakes become active, and dogs are often the victims of such poisonous snakes as rattlesnakes, copperheads and cottonmouth water moccasins. Now a new antivenin is available to treat snake-bitten dogs, points out Clint Langford, county agent for the Texas Agricultural Extension Service.

The antivenin has been licensed by the U.S. Department of Agriculture and is specifically recommended for treating dogs bitten by rattlesnakes, copperheads and cottonmouth water moccasins. It is identical to that used to treat human snakebite victims and will be marketed by Fort Dodge Laboratories for use by or on order of licensed veterinarians.

Langford suggests that individuals owning working ranch dogs or other pet dogs that run the risk of being bitten by poisonous snakes might want to contact their local veterinarian on prophylactic measure that should be taken following snake bite. For the antivenin to be most effective, it should be used as early as possible following exposure to venom, emphasizes the county agent.

He explains that the new antivenin for dogs is processed from the serum of horses immunized with the venom of several poisonous snakes. The
