## Authorization Made In City's Bond Issue

City of Sonora Aldermen met in a special called meeting June 23 at the city hall to consider the legal aspects and authorization of an ordinance pertaining to the issuance of \$365,000 in utility system revenue bonds.

Meeting with the commission was Mr. Carter Johnson, a representative of Rauscher Pierce Security Corporation of San Antonio.

Bonds were voted on by city residents in an election held August 16, 1975 and will be used for

construction improvements and extensions to the city's waterworks system and extensions to the city's sanitary sewer system.

\$280,000 will be used for waterworks improvements and the remaining \$85,000 will go to the sewer system improvements.

Agreement has been made with the United States Department of Agriculture, Farmers Home Administration, for them to purchase said bonds at the rate of five percent per

annum. Sonora's First National Bank will hold all securities until such time as monies in escrow are used.

Also meeting with the council in the called meeting were Kenneth S. Gunter, Linda Little and Everett Ogburn, representing Television Enterprises, Inc. Aldermen granted the franchise to the television cable company to build, construct, operate and maintain a cable television system in the city.

Attending the meeting were Mayor Norman Rouselot, City Manager Bob Nevill, City Secretary, Pat Robbins; and Aldermen James D. Trainer, Hershel Davenport, and Lemuel Lopez.

### Bob Krueger's Weekly Report

The national news media have given a great deal of attention in recent weeks to charges of scandal and corruption in Washington, and Congress itself has this week devoted considerable time, both public and private, to discussing various charges and how to deal with the problems that they expose. The first need is to define and separate the public and private aspects; the second is to identify what can be done in Washington and what can be done by the voters.

For a political figure to place someone on the payroll for any reason other than to carry out public work is a misuse of public funds and public trust. Hiring a person as a favor to someone, or because he or she is a friend or a relative of an important constituent, or for any purpose other than to carry out governmental duties should not be tolerated. For a Congressman to place someone on the payroll to serve as his mistress makes larger headlines than other kinds of payroll padding, but both actions are inexcusable.

Washington, and the Capitol itself, are such large and busy places that it is usually impossible for one Congressman to know the purposes for which the members of another Congressman's staff are hired, and to what duties they are assigned. Each Congressional office has its own style of operation and its own set of duties, and no one Member is likely to suggest to another how his operation should be run any more than one businessman would tell another how to choose his employees. With regard to the hiring and firing of staff members, there is,

### THE DEVIL'S RIVER PHILOSOPHER SEZ.....

### Congress and Congressmen

### Need To Be Revised

**Editor's note: The Devil's River Philosopher on his bitterweed ranch on the Dry Devil's River tackles a problem this week he can't seem to handle.**

Dear Editor:  
 People have been asking, What's gone wrong with Congress? All those scandals and that sort of stuff, why it's gotten so that if you open your newspaper and don't find a new one splashed over the front page you're disappointed.  
 I've been thinking about this. Now it's possible that some Congressmen need revising, but above that I've figured is the need to revise Congress itself. It's too shielded from the people.  
 Look at it this way. Say you have a farm anywhere from 500 to 2000 miles away and you send some hands, ordinary people like the rest of us, up there to work it for you, never get up there to check on it yourself, and depend on reports the hands send back on how well the farm is doing. You reckon it'd be a very good investment? Reckon before long it wouldn't get

therefore, understandably little scrutiny of one Member by another Member.  
 At the same time, the national media have now gone beyond the question of misuse of public funds into concern for the private lives of public officials. This is understandable, for when a person enters public office he may expect his private life to become increasingly public. Further, since we generally judge public officials by their full character rather than simply their public actions, we may legitimately expect to know something about their private behavior. Nonetheless, there is danger in an excessive and potentially debilitating curiosity about the private lives of public figures. Few figures are perfect, and if public attention falls disproportionately upon the imperfections of people in public life, good but imperfect men may choose not to enter public service, and to leave it only to hypocrites. To some it seems permissible to ignore the admonition "let him who is without sin cast the first stone" when the figure is in public life.  
 This week the Democratic Caucus considered reform legislation intended to prevent certain kinds of misuse of public trust. Some of us who voted in support of this legislation, as I did, will hope that it may assist in achieving higher standards of responsibility and accountability. In a future column I will describe some of this legislation. Yet, whatever legislation is passed, the best defense that the public has with regard to its elected officials is the combination of responsible public accountability and personal integrity in its elected officials. The term "integrity" comes from the Latin "integritas," meaning completeness and wholeness. And the whole character of an elected official is the best hope that the public has, in the long run, of being well represented. While the public cannot expect perfection, it can expect integrity. Its best hope for that integrity is to find good individuals to seek public office, because no legislation can guarantee integrity and morality. It can at best only make immorality more difficult.

### AN OPEN LETTER TO THE CITIZENS OF SONORA, TEXAS REGARDING A PLAN FOR IMPROVED CABLE TELEVISION SERVICE BY TELEVISION ENTERPRISES, INC.

Television Enterprises, Inc. has reached an agreement to purchase the assets of Divide Cable, a subsidiary of Communications Properties, Inc., serving the city of Sonora, Texas. Following the grant of an FCC approved franchise to our company, we propose to embark on the two year plan for major renovation of facilities as outlined below:

- First Year (July, 1976-July, 1977):
1. Engineer, license, and install new microwave facilities from the San Angelo area to enable us to import three Dallas TV channels (WFAA-ABC, KFJZ-Independent, and KERA-Educational)
  2. Engineer, license, and install microwave facilities to relay from the Christoval area much stronger signals from the two San Angelo stations (KCTV-CBS, KACB-NBC)
- This will result in a very strong signal package, producing complete three network service plus the unduplicated programming of full-time independent and educational stations. The quality of these signals will equal that now available to San Angelo cable TV subscribers.
- Second Year (July, 1977-July, 1978):
1. Complete electronic testing of all cable, line splitters, and subscriber taps to determine their salvagability. These items are already twelve channel capacity, but are of unknown condition at this time. Components not meeting a high level of specification will be replaced.
  2. Replace replacement of all electronic devices such as amplifiers to improve stability of the system and expand channel capacity from five to twelve channels.
  3. If the results of an intended survey show that at least 20 percent of the subscribers in Sonora would subscribe to an optional Pay-TV channel known as Home Box Office (a subsidiary of Time-Life, Inc.), we will add additional microwave equipment and local hardware to make this service available at a proposed cost per month of \$8.00 in addition to the basic service rate.

It is possible, even probable, that this schedule may be accelerated somewhat, but federal licensing and equipment delivery problems make exact predictions inadvisable. We do feel, however, that the date spans referred to above are "worst case" and can be hastened.

Kenneth S. Gunter of Television Enterprises, Inc., and our local manager, Everett Ogburn, promise to keep your municipal government fully informed about our activities in Sonora. We are confident that while you have not yet had direct experience with our company, you will come to trust us to bring a high quality and professionalism to Sonora cable television service; your confidence and public support of our efforts is vital to us.

### A Bishop Looks at Life

By Everett H. Jones, Retired Bishop Of the Episcopal Church "A VACANCY IN THEIR LIVES"

Recently I was reminded of a statement made almost fifty years ago by that shrewd observer of American life, the late Walter Lippmann. He wrote: "Among those who no longer believe in the religion of their fathers, some are proudly defiant and many are indifferent. But there are also a few, perhaps an increasing number, who feel that there is a vacancy in their lives."

These words seem to me a penetrating diagnosis of where we are as we come to our 200th birthday. They could have been written yesterday.

Our problem is that there is a "vacancy" in our lives. There is a gap, a missing element, a lack of wholeness. We have been eager to develop our national and personal life physically (in terms of medicine, health care and economic welfare.) We have been eager to develop ourselves intellectually (in terms of education, science and technology.) But we have almost totally neglected the third side of the triangle, i.e. our moral and spiritual responsibility under God.

The evidence is all around us. We would like to think of our trusted representatives in Government as men of honor and decency--and we find in them deep moral flaws. We think that our giant corporations are controlled by men with standards--and we find these men violate the law in seeking influence at home and greater sales abroad. We have long taken pride in the carefully-chosen men in training at West Point--and now we find among them an unprecedented cheating scandal.

We can carry the diagnosis closer home and recognize that lowering sex standards, abuses in the use of alcohol and drugs, the rapid increase in crime--all these are reflections of the vacancy which causes men to lose their sense of life's meaning and direction.

Perhaps you say, "What can I do about it?" One thing each of us can do is to take a long and honest look at ourselves to measure the wholeness of our lives. We can ask, "Is there a moral and spiritual vacancy that leaves me a partial, incomplete, discontented human being?" We can also ask, "What am I doing to create wholeness of life in my children and my grandchildren?"

What an historic turning point our Bicentennial could be if it brought to us as a nation and as individuals a new resolve to fill the vacancy in our lives!

## FOUR FREEDOMS

To print the story of a day or the thoughts of a mind . . . To gather in assembly to express common concerns . . . To talk to the man across the street or the millions across the land . . . To worship God according to the dictates of one's own conscience

The first three have sometimes been marred by abuse. The fourth is nullified by neglect.

Carry that thought with you—especially on Independence Day during the celebration of our nation's Bicentennial. And then, next Sunday, join all the rest of the millions of our people who are making sound and sacred use of their religious freedom.

These four freedoms stand like sentinels of Liberty.

### Comptroller Representative To Answer Tax Questions

Comptroller Bob Bullock announced that a representative from his San Angelo office will be in Sonora, Wednesday, July 7, to answer questions from taxpayers and provide assistance in filing tax returns.

Bullock said that enforcement officer, Eddie Washington, will be at County Courtroom from 8-11 a.m. Call 387-2886 for

more information. "I hope local merchants will take this opportunity to get any questions they have about the sales or franchise tax answered," said Bullock. "A little straight information can save us both headaches."

San Angelo office, headed by Larry Wolter, serves Sutton and surrounding counties.

## When utilities get squeezed too hard the local economy feels the pinch.

Right now, Lone Star, like all Texas gas companies, is caught in a squeeze. The average cost of the gas we buy from over 500 suppliers has skyrocketed. Yet we're meeting some strong resistance to recovering these costs from our customers.

Today, most cost recovery has to come through the gas cost adjustment. But, even with this pass-through, we have been forced to initially absorb 15% of every price rise. This is a serious loss that must eventually be recovered.

So ask yourself: what will happen if Lone Star is unable to recover its costs?

The answer: we won't be able to buy the future supplies of natural gas this area needs. Already Lone Star is unable to add reserves of gas at the same rate it is being used. The thought of running out of reserves is not as far-fetched as you might think.

What will happen if this area runs short of natural gas? First, industry would be affected, since natural gas supplies about 50% of the energy for industry nationally, and even more in this area. With insufficient energy, industry could have to curtail production. Jobs could begin to disappear. Economic growth could slow down, even halt.

What can you do about it? Discuss it with friends, neighbors and business associates. Write to your local officials. Support a fair rate of return for your gas company, to which it is entitled by law.

Think of it as your own problem. Because when you get right down to it, it is.

## Summer Wages Not Taxed

Any student or summer employee who expects to make \$2,350 or less during the year need not pay any federal income tax, says Clint Langford, county agent for the Texas Agricultural Extension Service.

"If a student or a summer employee expects to earn \$2,350 or less and does not want income tax deductions taken out during the year, he can file a W-4E Form with his employer certifying that there is to be no tax deduction during the year," Langford says.

"However, if at any time after this form is filed, an employee earns more than \$2,350, he must file a regular tax withholding form and standard deductions will begin."

An employee who is eligible to file a W-4E Form may prefer to have income tax deductions made during the year and then file for a tax refund after January 1, adds Langford.

An employee who earns more than \$2,350, has earned more than \$750 in unearned income such tips or dividends, or is being claimed as a dependent by his parents must file a standard income tax return, notes the county agent.

## Texas Estimates 42 Persons To Be Killed July 4 Holiday

The director of the Texas Department of Public Safety said today indications are that some 42 persons will be killed in Texas traffic accidents during the Fourth of July weekend, and called upon Texas drivers to "prove our estimate is too high."

Colonel Wilson E. Speir said his department expects "unusually heavy traffic" throughout the state, especially around recreational areas and where Bicentennial celebrations are scheduled. He said the estimate covers a 78-hour period which starts at 6 p.m. Friday and continues until midnight Monday, July 5.

During a comparable period last year, the department estimated that 54 persons would be killed during the holiday period.

At the conclusion of the July 4 holiday last year, statewide statistics indicated 44 lives lost and rose to 49 with late reports.

In a concerted effort to

keep deaths down, the DPS and local law enforcement agencies will be cooperating in an all-out effort to make the streets and highways as safe as possible. All available DPS troopers will be on duty, Speir indicated, and they will be especially watchful for drinking drivers, speeders and persons driving in a reckless manner.

In addition, the DPS will be working with the news media in a special public education program termed "Operation Motorcide" which focuses public attention on where and why fatal accidents are occurring during the holiday period.

## Police Reports

Jon Sanchez, 5, of Hanford, California, was bitten by a dog at a local service station on June 21 at 2:45 p.m. Upon investigation, police found the animal and told the owners to pen and observe him for two weeks. Dog owners are to be reminded that all pets must be penned or kept indoors.

On June 23 at 9:50 a.m. Manuel Lujan reported the theft of a Citizen's Band radio from his pickup while it was parked at the Hooper Trucking yard. No arrests have been made.

Officers found the back door of the post office unlocked on the night of Saturday, June 26. James Trainer was notified.

Three citations were issued this week, including two speeding tickets and one DWI.

## Girls' All Stars Chosen

The Squaws, sponsored by Ace Transport, finished second in the league and placed five girls on the All Star unit. Members selected were Tracy Day, Choyia Holder, Tracy Brownlee, Sherri Threadgill, and Sandi Wright. Coaches were Kay Holdridge and Susan Mirike.

The third place team sponsored by Bronco Pharmacy and Gosney's selected four girls for the All Star team. Players named were Candy Cauthorn, Shawna Martin, Jodi Lippman, and Dee Bundy. Judy Sheppard and Debbie Kiowski coached the Bronco-Gosney's.

## ARTERY GRAFT WITH VEINS

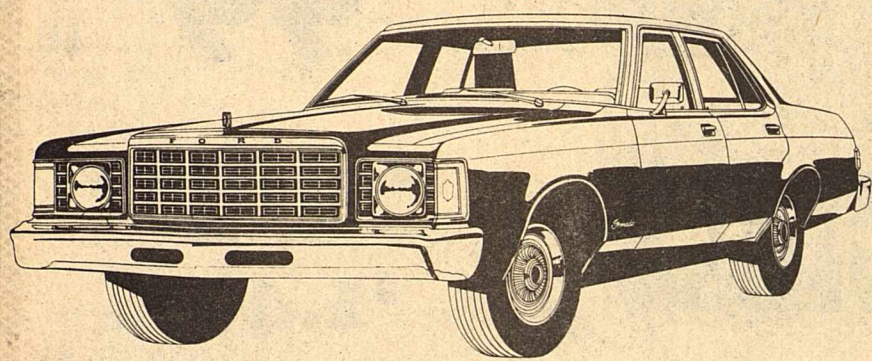

Still puzzling is the fact that VARICOSE VEINS appear more often in women than in men. Experts believe there may be a predisposition to the condition because of heredity.

Temporary relief can be obtained by resting with legs elevated. Elastic stockings help. And medical treatment consists of injections or even surgery (LIGATION) in which the vein is removed and the blood is routed to other veins.

The latter however, is not readily recommended by doctors now, except in severe cases. The reason being that two leg-veins (SAPHENOUS VEINS) are now found to be the best material for arterial grafts and doctors like to keep these veins free—just in case there might be a future need for them.

When you're in need of prompt, dependable medical supply service, visit BRONCO PHARMACY, 116 N.W. Concho, or PHONE: 387-3534. Have a cup of coffee, while you wait.
