Mohair Council Holds Meet

The strong mohair market is expected to continue into this Fall, growers learned in Fredericksburg, August 19, during the summer directors meeting of the Mohair Council of America. The meeting drew about 100 persons interested in the mohair industry, including producers, warehousemen, buyers, researchers and one mohair producer from Australia who is visiting in Texas to learn about the American mohair business.

Clifton Mackay of Greenvale, Victoria, is on a month's tour of the mohair producing region of Southwest Texas. He commented that Australian mohair growers are vitally interested in Angora goat improvement and he wanted to see for himself what American producers were doing.

Mackay was one of several special guests attending the meeting, chaired by James T. Hunt of Sonora, Council president. Other officers of the organization are Sid Har-

kins, of Sanderson, vice-president, and Bob Childress of Ozona, secretary-treasurer.

In other business, the directors approved the annual audit of the Council and voted to continue the election of directors for 1977 in the same manner as in years past.

The Council, faced with decreasing fund reserves, reported completing its past fiscal year some \$85,000 under its budget.

The next annual meeting will be held in June, 1977 at San Antonio.

Local Rancher In Cowboy Stew Cookoff

"I wouldn't want to lose to a tomato or a turnip", said Jady Webster, a Sonora rancher, as he stirred his entry in the cowboy stew cookoff held Saturday in Pleasanton.

Webster was a member of the Jack Daniels Gang in the cookoff, which is a part of the annual Pleasanton Cowboy Homecoming. Other team members were Isak Gregory of Dallas and Bob Eaton of San Antonio, both attorneys.

"Everybody knows cowboys didn't have turnips, carrots and tomatoes on the range when they made stew", Webster explained. Ingredients for their entry included liver, beef heart, brains, marrow gut, melt, light, a little water and seasoning to suit tastes.

Pints of the stew were auctioned off after the judging and Webster's stew sold for \$310.00. Acting as judge was Roy Head, country and western singing star.

Screwworms Increase

Screwworm cases were reported from all parts of Sutton County during the past two weeks.

Ranchers reporting cases during this time include: Lea Roy Aldwell, Lea Allison, James Hunt, Mrs. J.P. Reich, Jerry Johnson, G.P. Nelson Estate, Bill Stewart, Sonora Experiment Station, V.J. Glasscock, and Wesley E. Sawyer. Cases were reported in sheep, goats, cattle and horses.

This indicates that ranchers need to check all classes of livestock closely for screwworms and that there is an urgent need to postpone all surgical operations such as marking, docking and dehorning until after frost. All open wounds on all animals should be treated with screwworm smear and all fall shorn sheep and goats should be sprayed out of the shearing pens. Ranchers should follow a regular spraying schedule on all classes of livestock to control screwworms and to help control other external parasites such as lice and ticks.

All screwworm cases should be reported promptly so that sterile screwworm flies can be obtained in the shortest possible time to help bring the screwworm outbreak in Sutton County under control.

ENCHANTED ISLAND
It was too good to be true. Suddenly I found I had the opportunity to visit the land of my dreams — a tropical island! It was long ago when my beloved "rolling stone" uncle visited my home, brimming with stories of the fascinating, delightful South Seas. I had been convinced that life in this land would be a forever-happy thing.
And now the magical moment had come. I found that the sky was, indeed, bluer than blue, the flowers brilliant and luxurious, the sea clear and everchanging. Yes, it was all this and more.
But one day as I stood on the shore listening to the roaring rhyme of the waves, I realized that I was no happier than I had been before. I discovered that my problems were within me. How could I have assumed that happiness would be guaranteed on an enchanted island?
These thoughts prompted me to return to my church which I had ignored for many years. Here I found my faith was renewed, and I found self-respect and understanding that came from loving God and doing His will. I sensed anew that no man can expect to experience true happiness without Him. Hurry to your church — there to find the ingredients to make your days and your life glad and secure.

Dr. Richard L. Duble, Texas A&M University Extension Lawngrass Specialist, will be on hand to discuss the establishment, maintenance and problems related to home lawns in the Sonora area.

Firemen's Hall of Fame First In The Nation

The State Firemen's and Fire Marshals' Association of Texas announced recently that they are launching a two million dollar campaign for the purpose of raising money to build an Archives and Hall of Fame in the State of Texas.

The Campaign Chairman is a Veteran Fireman, Chief Blondy Rucker, of Killdean. The State Firemen's and Fire Marshals' Association is celebrating its 100 years of service this year in Texas. In 1896, a beautiful monument was unveiled on the State Capital grounds in Austin, in honor of the Volunteer Firemen who died in the line of duty.

The Board of Directors of the Association, in a recent meeting at College Station, Texas, decided that the time has come to preserve many of the outstanding pieces of equipment and documents. The men of the fire-fighting force of Texas should be honored with a Hall of Fame, plus a living library of the training of firefighters and fire protection.

The site of the Archives is to be determined by the site committee. Contributions are being sought from Business, Industry, Foundations, as well as individuals. There are 16 divisions of the Association in Texas involving more than 800 fire departments. All gifts are

tax deductible. Headquarters of the Association is located at 1212 Guadalupe in Austin. Campaign telephone is (512) 478-3068.

Cull Low-Producing Cows

Detecting and culling low-producing cows is the first step in increasing beef herd productivity. Cows that do not wean a calf every 12 months can no longer be retained due to sentiment—they are too costly, says Dr. John Spitzer, area beef cattle specialist for the Texas Agricultural Extension Service.

"Along with culling low producers, cattlemen should also be aware that summer calves wean at much lighter weights than calves born at other times of the year. This makes a strong case for removing slow breeding cows, even for the cattlemen with an extended calving program," points out Spitzer.

The specialist suggests removing bulls no later than August 20 and having cows palpated for pregnancy 40-60 days after this date. By keeping calving dates on cows, a producer will know if the cow bred back to calve within the 12-month interval. Any cow not meeting this requirement should be culled.

"Return the bulls to the cows by December 1 to get summer and fall calving cows bred for next year. This will end the 1977 calving season the latter part of May and it will not resume until September," notes Spitzer.

A cattleman can move his cow herd into a controlled, spring or fall, calving program by gradually removing the bulls earlier and leaving them out longer. In some situations it may be desirable to calve both spring and fall, but neither calving season should extend for more than 60 days, contends the specialist.

"Pregnancy diagnosis is the key to making this system work," believes Spitzer. "Removing barren and slow breeding cows from the herd will return many times the investment made by increasing the herd's reproductive potential."

FHA Officers Attend Retreat

Officers of Sonora Chapter, Future Homemakers of America, participated in a retreat at the Christoval park, August 18. They planned programs for the year, discussed fund raising projects, and projects to help their community.

They also discussed a workshop on the encounter program to be given by an area officer the latter part

of September. They plan to invite members of Big Lake and Eldorado Chapters to share in this activity.

Those attending were Irma San Miguel, president; Gloria Salazar, Susanna Noriega, Mary Sue Galindo, and Mrs. Celeste Prugel. Other officers are Lisa Gonzales, Linda Castilleja, and Carmen Lira.

Discovered to also be missing from the vehicle was an 8-track tape player and two stereo speakers. Entry was gained to the vehicle through the left vent window. No arrests had been made Tuesday.

On August 21 thieves made off with another CB radio from a pickup belonging to Authur Deering of San Antonio. Deering's vehicle was parked at 1212 Glasscock where he was visiting relatives. He told officers he locked the vehicle at midnight the night before and when he checked on the vehicle at 7:40 a.m., he discovered the theft. Entry was gained by using a small object or tool to force entry to the left vent window. Several latent prints were lifted from the window. No arrests have been made but both thefts are under investigation.

On August 18 two driverless vehicles were in collision at the 300 block of North Oak Street.
