Preparations Underway For Fling Ding Set Saturday

The annual Fling Ding will once again be getting underway Saturday night from 8:00-12:00.

Some one thousand couples are expected to enjoy the invitation only dance.

Music will be provided by the Ted Weems Orchestra. Rinky-tink piano player Olive Hays and bass player Miles McMillan, both of San Angelo, will perform in the bar.

The decorations will be provided by Maxine Browne, who has been in charge of the decorations for over 20 years. The theme of this year's dance will be a salute to birds, bees,

and butterflies.

The Fling Ding has been described as "uniquely Sonora, Texas entertainment," and is held each year in the Sonora Wool and Mohair Company. Dancing is provided in the 28,000-square-foot woolhouse, and a ramp connects the 3,000 square-foot bar in an adjoining building.

The staff at the woolhouse has to move the entire inventory into a back warehouse before the Fling Ding and put up ramps between the buildings.

"It takes us about a day and a half to move the things. Saturday

morning we are all busy putting up the ramps, and runways and burlap to keep the wind down from the woolhouse to the mohair building. We have to clear out the offices for the coat room. We also helped build the new bandstand this year," said Jim Cusenbary.

The present membership of the Fling Ding Club is limited to 135. The club was organized in the late 1930's with a membership of nine. The Fling Ding Club disbanded during World War II and was re-instituted in 1954 with 54 members.

Local Law Officers Capture Man Wanted For Murder

Two persons wanted for murder in Los Angeles, California were captured by local law enforcement officers Tuesday, January 26.

Joseph Wong, 17, and a 14-year old girl were captured at the Western Union office after having wired for money.

"Wong is supposed to be a martial

arts expert and we were warned that he was considered dangerous," said Police Chief Brent Gesch.

Reports from California said that the two had killed the girl's uncle. Wong strangled the man while the girl held a pillow over his face. The pair also robbed the man, tied him up, put him in a plastic bag and hung

him in a closet.

"Wong called his mother to wire him some money. She called the sheriff's department in Los Angeles and they called us," Gesch added.

Assisting in the capture were Gesch, police officer Bill Ware, deputies Tommy Earp and Ladd Turner and DPS officer Jim Walker.

Sutton Co. Days Association Formed

The Sonora Jaycees have reorganized and an organizational meeting of the Sutton County Days Association was held Wednesday, January 27, at the Commercial Restaurant. The Sutton County Days Association will sponsor the Bar-B-Q Burnin', Hootin' Hollerin' Goat Cook-off and All-American Washer Pitch on Saturday, May 1, 1982, at the Sonora-Sutton County Park, with

a dance following the barbeque. Of course, one of the community events sponsored by the newly organized association will be Sutton County Days scheduled for August 20 and 21, 1982, as well as involvement in many other community-related events.

Membership is open to individuals or couples, and anyone interested in

becoming involved for February 24 at 7:00 p.m. at the Commercial Restaurant.

If you have any further questions in regard to the Sutton County Days Association, you may call any of the following elected officers: Herb Jones, president; Tommy Shook, vice-president; Rita Hale, secretary; Tom Clifton, treasurer; or Mary Lou Garrett, public relations officer.

Conviscated Plane Auctioned Thursday

A plane conviscated during a 1980 drug raid brought \$10,500 during an

auction at the Sonora Airport Thursday. About 52 persons attended the

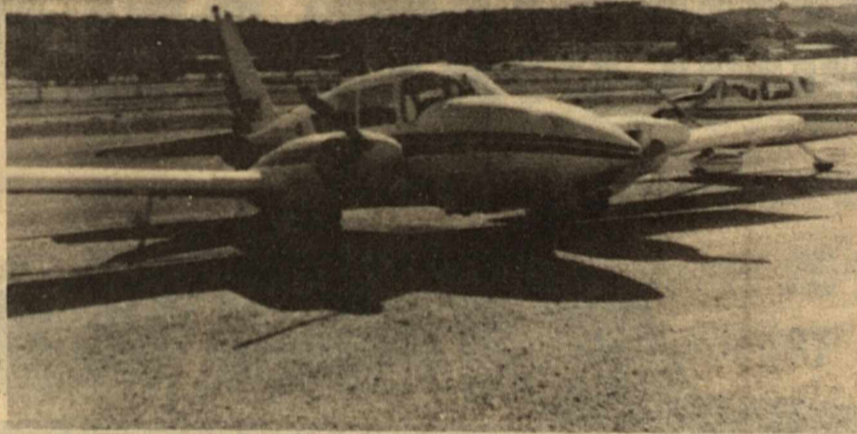

auction.

The plane, a 1966 model PA 23-250, was bought by Ed Brumlow, a Mason oilman.

The plane was brought in May 3, 1980 with four bullet holes in it when it was rescued after a pilot attempted to take off from an airstrip near Sonora. Over 1,000 lbs. of marijuana were found in the plane.

"The plane has at least \$8,000 to \$10,000 worth of avionics in it," said Ernie Budde, airport manager. "The bidding started at \$500 and it wasn't ten minutes and it was up to \$10,000."

"Mr. Brumlow could have the plane airborne in roughly 30 days, I would think," said Budde. Proceeds from the auction will be applied to court costs.

Plane Conviscated In 1980 Drug Raid

Bill Lamb Files For Justice Of Peace

William H. (Bill) Lamb III has announced his candidacy for Sutton

Bill Lamb

County Justice of the Peace.

Bill is 37 years old. He is presently employed as the Animal Control Officer for the City of Sonora.

He was born and raised in Chesapeake, Va. and attended Great Bridge High School in Chesapeake. He also received an associate in Applied Science degree in Police Science from Tidewater Community College.

Lamb has previously been employed as a special police officer, private

investigator, reserve duty constable, and corrections officer.

Lamb is widowed and has one son, William Byron, who is a first grade student in Sonora Elementary School.

He served in the U.S. Air Force and received the outstanding unity and presidential unit citations.

Bill attends the First Baptist Church and is a member of the Sonora Volunteer Fire Department and Sonora Golf Club.

Guilty Pleas Entered In 112th Judicial Court

According to District Attorney Bill Mason, during the week of January 25, there were several pleas of guilty entered in the 112th Judicial District Court in Sutton County:

a) Michael Hawby pled guilty to voluntary manslaughter and received twenty years in the State Penitentiary at Huntsville. He was charged with a second degree

felony and received the maximum allowed under the state's Penal Code. Since the offense was committed with a gun, he will have to serve at least fifteen years before he will even be considered for parole.

b) Rocky Wayne Calhoun, 18, received fifteen years in the state penitentiary for robbery of the Back Door Lounge in Sonora on

December 23, 1981. This was also second degree felony, the penalty for which is twenty years in the state penitentiary. It is understood that Calhoun can be considered for parole after he serves one-third of the sentence.

c) Isabel Calhoun received five years

probation for a theft over two hundred dollars committed at the Back Door Lounge on the 23rd day of December, 1981. It is understood that she presently is being held in custody in Abilene, awaiting robbery.

d) Bobby Vargas pled guilty to possession of marijuana and received eight years probation. Bob-

by had no previous record. The offense occurred on or about the 11th day of May, 1981 when a search warrant was executed on the residence of Felipe Vargas resulting in the confiscation of over four pounds of marijuana, numerous marijuana plants, and various narcotic contraband.

e) Charlie Preston pled guilty to theft

over \$200 in connection with removal of diesel fuel from Dono Oil Co. He received six years probation.

Mason said that there are other cases in investigation and when they are finished, they will be presented to the Grand Jury.

Sonora Schools Present and Future Needs

The following information is taken from the summaries of the facility needs study and recommendations proposed by the architectural firm of S.H.W.C., Inc.

The firm, employed last fall by the district, presented its final report to the school board two weeks ago.

The solutions presented in this report address themselves to providing adequate facilities for the Sonora Independent School District now and well into the 1990's. A brief of the solutions is as follows. Other information or complete copies of these study are available at the School Administration Bldg.

SOLUTION A

GRADES RECOMMENDATIONS
9-12 Use present High School facility. Add: library, science lab, High School administration offices and additional parking as land is available.
7-8 Use present facility, move 6th grade out of building.

5-6 Use Elementary building. Remove Kindergarten portables. Convert Elementary auditorium to indoor play area.

K-4 New facility for 650 (basic facilities for 800). Misc. Phase out remainder of portable buildings. Needed improvements to be accomplished in phases using local maintenance funds. Use stone building (resent Middle School) for special programs at High School.

Solution A provides for the construction of a new Elementary School for Grades K-4, to be constructed on a new site to be selected by the school district. The new school will include 8 classrooms per grade and will be sized so that additions can be made to the school without expanding its dining and library facilities.

The fifth and sixth grades will occupy the present Elementary School building. The auditorium at that school will be converted into an indoor play area for

those grades.

The Junior High School will be converted from Grades 6-8 to Grades 7 and 8, with no additions needed at the campus.

The High School will remain in the present facilities with additions being made to provide for an additional science laboratory, library, and administration area.

No major work will be required at the stone building and that facility will be used to accommodate some special programs as needed at the High School.

It is apparent that if Solution A is adopted, the school should set as a high priority item the acquisition of land adjacent to the present campus to provide for off-street parking.

SUMMARY

Solution A has many advantages. The growth potential of this solution is almost unlimited. The High School will be able to accommodate any enrollment

projections for the foreseeable future by utilizing the stone building. Phase I of the solution is a first step in the decentralization of the Sonora ISD facilities. It begins the relocation of students away from the central campus and allows for the possibility, at some future date, of the central campus being a secondary campus only.

This decentralization will go far to remove any of the problems now found at the central campus. The removal of approximately 635 students will relieve the crowded playground situation at the elementary level. The present cafeteria and kitchen facilities so badly in need of expansion, will again be serving a student population that will allow it's present size to adequately

Continued Page 10

Library Forms Puppet Group

The Sutton County Library is forming a Puppet Group for school age children in this area. The first meeting of the group will be Saturday the 6th of Feb. from 10:30 until 12:00 at the Library.

The group will meet several times a month and will be involved with several

different types of puppets. They will make and create their own puppets and produce their own shows.

Sandra Cooper, the organizer of the group hopes to generate interest now and then expand the program in the summer when the children will have more free time.

The Library hopes to see

a growing interest in this activity with children as well as adults. If you would like to join the group or volunteer to help, remember, Sat. the 6th of Feb. at 10:30.

Also needed for this project are: scraps of material, paper, string, yarn, etc. to make the puppets.

General Telephone In Need Of Additional Revenues

General Telephone President E.L. (Buddy) Langley has announced the company needs \$110 million in additional revenues which is an approximate 24 percent increase in intrastate revenues. A critical need for increased revenues required to meet customer pressure for a better quality of service as well as new services were cited by Langley as the primary reasons for the request filed today (Jan. 29, 1982) with the Public Utility Commission of Texas in Austin.

"To continue our service improvement and expansion programs, we must have new revenues to have earnings adequate to obtain investors on reasonable terms," Langley said.

The company president explained rates being charged customers today are based on the company's average intrastate investment of \$1,031 per customer line in service at Sept. 30, 1980.

"When you take all the new equipment and facilities added statewide between Sept. 30, 1980 and 1981, the average cost for each new customer line added to the network is about \$2,497," Langley said. "The difference between this figure and the \$1,031 on which we are charging rates, multiplied by over 51,000 customer lines added in Texas during the same period, results in a \$75 million investment on which we are not earning the return allowed in our last rate case."

Langley emphasized the high quality of service expected by customers, plus the new services available through new technology, require earnings sufficient to attract capital on favor-

able terms. Last year the company's bond rating with Standard & Poor's Corp., was reduced from A to A- with a warning it will be downgraded further unless the company can bring its earnings up to the acceptable margin. A lower bond rating means higher interest rates up to the acceptable margin. A lower bond rating means higher interest rates on the money GTSW borrows which means higher rates for customers since money from bondholders now provides half the company's capital dollars used for improving service.

Richard D. Funk, vice president-revenue requirements for the company, said the company's recommendations on how to recover the needed revenues reflect a step toward a whole new way of doing business mutually beneficial to customers and the company. Funk explained how the company determines what rates it will seek for particular services in the rate request, taking into consideration the evolving competitive environment.

"First, the company determines the level of expense and investment required to meet the customer needs and then determines the level of revenue needed to meet these needs," Funk stated. "We then know how many new dollars are required; in this case, a total of \$110 million. We then examine services, other than local basic service, to determine if the rates being charged for these are enough to cover the actual costs of providing the services. If not, we propose new rates for these particular services."

Funk continued, "Once we have determined these rates, we can then determine how much revenue they will generate. This revenue is subtracted from the total requirement. The remaining revenue deficiency must be obtained through higher local basic service rates."

Funk said the company has determined several areas from which the new revenues should be obtained.

The company proposes to receive \$30 million from increased intrastate long-distance revenues. Other new revenues would include approximately \$18 million from terminal equipment such as telephones and business systems, \$5 million from miscellaneous services, and \$43 million from local basic service rates.

"In regard to the needed long-distance revenues, our return on intrastate long-distance investment is below that received by Southwestern Bell," Funk said.

"We are seeking the same return that is being received by Bell on the intrastate long-distance investment, which may require increases in long-distance rates in Texas."

"General Telephone and other independent telephone companies are partners in providing long-distance service and should receive the same return on investment as received by Bell."

"In addition, there are other services which customers now mistakenly perceive as being 'free,'" Funk said. "Each service has a cost, and if not recovered by a direct charge, it is recovered from all ratepayers through higher local basic service

rates—even if the customer does not use the service."

Funk explained the company has proposed charging for several of these services to keep local basic service rates low so that customers using the services pay for them.

"In order to keep the local basic rates as low as possible and provide a more convenient repair service, we are offering customers the opportunity to participate in the maintenance of their service by taking their phone to a designated location in their area for repair, thus saving the expense of our sending a repairperson to the customer's premise."

Of course, for customers who prefer a premise visit, we will respond for a fee," he said.

"Again, to keep basic rates as low as possible and place the cost on the cost causers, we are proposing a directory assistance charge. Each customer would receive three free calls a month to take care of new numbers. There would be a charge for each call to directory assistance after the three-call allowance."

"In order to identify for the customer what is presently included in the local rates we have separated the Extended Area Service access charge. Costs for EAS, or perceived toll-free calls, between two or more exchanges are currently paid by all Texas customers in their local basic exchange rate. The charge for EAS would apply in addition to local exchange access rates in only exchanges having Extended Area Service."

"We have proposed a charge to recognize the value of being served by

modern electronic equipment. This would apply only to customers with electronic switching and would recognize enhanced services, speed and accuracy of the newer, more sophisticated equipment. For example, if you have two cities with similar calling scopes, but one has a new electronic switching center while the other has non-electronic switching, customers with the newer equipment would pay more for the advantages of the electronic equipment."

Also involved are two Federal Communications Commission mandates for all telephone companies as deregulation of the industry continues. They are \$6.4 million for the second-year change of a four-year phase in of station connections expensing to be effective in October 1982, and \$7.7 million from changes in depreciation rates to be effective April 1, 1982.

"We are attempting to structure revenues so the costs of providing services are borne by the customer groups from the services, and the recognize the value of other services in an effort to keep local basic service rates for all customers as low as possible," Funk said.

Langley closed by stating, "The company's urgent need for increased revenues is brought about by:

Need for increased revenues required to meet customer pressure for a better quality of service and to attract capital necessary to meet those customer needs on favorable terms, continued strong growth in many of the Texas service areas, a rapidly changing regulatory environment, the introduction of competition requiring restructuring of our prices in order to be competitive, the introduction of new technology requiring replacement of equipment much more rapidly than at any time in history.

"Despite these changes the price of telephone service remains one of the best bargains available. But to keep pace with customer requirements, capital needs, new technology, inflation, competition and growth we must have increased revenues," Langley said.

Karen Brown Receives Degree

Students receiving degrees from Sam Houston State University during the fall semester of 1981 included Elizabeth Karen Brown of 305 E. 2nd Street. Karen was awarded a bachelor of science in Law Enforcement and Political Science.

Sam Houston State, with 10,000 students and 400 faculty members is located at Huntsville, Texas, in a region of lakes, forests, and hills.

Statement Of Intent To Change Rates

General Telephone Company of the Southwest, in accordance with the Rules of the Public Utility Commission of Texas, hereby gives notice of the Company's intent to implement a new schedule of rates in Texas effective March 5, 1982.

The proposed changes in rates will affect all customer classes and are designed to increase the Company's intrastate revenue by 24 percent.

A complete set of revised rate schedules has been filed with the Public Utility Commission at Austin, Texas, and is available for public inspection in each of the Company's Business Offices in the State of Texas. A summary of the Company's rate filing has also been sent to the Mayor's Office of each affected Municipality.

Around Town

by Hazel McClelland

Mrs. Arthur Carroll and Mrs. Wilma Darcey from San Angelo were visiting friends in Sonora Tuesday.

Mrs. Justine Fields was in San Angelo Tuesday visiting.

Mrs. Guila Vicars and Davie Taylor spent several days in Mertzon and San Angelo visiting Guila's sister, Mrs. Margie Hoggett.

Mrs. Lena Belle Ross entertained her Tuesday Bridge Club at her home Jan. 26.

Members present were: Mrs. Elizabeth Cusenbary, Belle Steen, Mrs. R.A. Halbert, Guila Vicars, Davie Taylor, Mrs. George Wynn, Mrs. W.T. Hardy, Mrs. Ruby Damon was a guest.

Mrs. Taylor won high club and Mrs. Steen won Bingo.

Hub Hale is home from the hospital in San Angelo.

Glad you are better, Hub.

Mr. and Mrs. Charles Shannon were in San Angelo this week.

Mr. and Mrs. Edwin Sawyer, Mr. and Mrs. Herbert Fields, and Rev. and Mrs. Lea Roy Aldwell have returned from a 2-week cruise in the Caribbean Islands.

Mrs. Joe Nell Johnson entertained the Wednesday Bridge Club with a luncheon at the Jones House.

Members present were: Mrs. Edwin Sawyer, Mrs. Vestal Askew, Alice Jones and Mrs. James Hunt.

Guests were: Mrs. Muriel Brown, Mrs. Dean McLain, Mrs. W.B. McMillan, Mrs. R.W. Wallace. All the guests and members received a gift.

Mrs. Ruth Shurley has returned from San Antonio where she has been in the hospital. Glad you are fine, Ruth. We missed you.

Visiting Mr. and Mrs. Clyde Hill is her niece and nephew, Mr. and Mrs. Rod Tangeman of Guttenberg, Iowa.

George D. Chalk has returned from San Angelo where he has been in the hospital.

Mr. Thomas Morriss is in San Antonio in the hospital. We are glad you are better, Thomas.

Nann Karnes and Hazel McClelland were visiting in San Angelo Saturday with Tracy Thompson, Hazel's granddaughter.

Mrs. Wanda Miller visited her friends in Sonora Thursday. Wanda was the former Wanda Mackey and lives close to Eastland.

Mr. and Mrs. Jack David Wardlaw, Trey, Mack, and Chase and Mrs. Gwen Wardlaw were in San Angelo Saturday.

Mrs. Bill Savell and Mrs. Lonnie Pollard were in Austin several days this week.

Mrs. Joe Hull, Mrs. Davie Locklin, and Mrs. Pat Tyler were in San Antonio last week attending an Eastern Star meeting.

Mrs. Ruth Martin was honored on her 80th birthday Saturday. Those giving the party were her children, Mr. and Mrs. Chester Green of Lubbock, Mr. and Mrs. Frank E. Leonard, Frankie and Juin of Dallas, her daughter-in-law, Mrs. Jim Martin, Cheryl and Tami, of Hobbs, New Mexico, Mrs. Martin's sister, Mrs. Willard Stewart and her son, Jack, and her brother, Joe B. Ashley from Brownwood.

Mr. and Mrs. W.O. Crites were in San Antonio last week where W.O. had a check-up and got a real good report. Sure glad, W.O.

C of C Needs New Members

by Lillian Galbreath

Throughout the United States, outstanding men in businesses are in Chamber of Commerce because they know the value of the Chamber to the city.

Many people in Sonora have found living easier because the Chamber has dedicated people who spend their money and devote hours of dedicated work every year to stimulate industrial develop-

ment, tourism, and hunting. The Chamber also releases dates of events to Highway Tourist Bureau, times and places of events such as the Experiment Station Ram Sale and Show, Annual Banquet, Annual Hoot and Holler, All American Washer Pitch, 4-H Junior Horse, Wool and Goat Shows, Annual Sutton County Days, Annual Game Dinner

and Junior Rodeo. Civic promotion is encouraged and your chamber needs the support of business and professional people in the community in order to assure future progress. Yes, all business people should belong to the Chamber of Commerce. They have a definite personal interest in helping to provide the financial support, ideas, knowledge and in-

fluence necessary to make their town a better place in which to earn a living. Many businesses and individuals do belong to the Chamber, but not enough. They, as well as other supporters of the Chamber of Commerce, need you as a member. Please say yes when you are asked to join the Chamber of Commerce of Sonora.

Varsity Girls Add One Win, One Loss

by Julie Stewart

As the district season rolls on, so do the Bronco Girls as the JV added a loss, and the Varsity added

a win and a loss. Brady defeated the JV 33-25 while the Varsity took Brady in an

exciting last second play that included a winning

lay-up by Rosa Noriega. The final score was 47-45. Friday night, the Varsity traveled to Comanche, only to come home with a loss.

The score ended 48-58.

Scorers for the JV were Lea Whitehead and Debbie Bible with 9 each, Rebecca Powers with 4, Della Heferan with 2, and Anita Balch with 1.

Senior Rosa Noriega had

an excellent night against Brady by making 31 points while coming out with many steals. Jessica Robledo added more steals and assists and put in 9 points. Lora Lea Kordzek also put in 3 while Sonya Ridgeway

and Casey Crites put in 2 each.

In Comanche, high scorer was Robledo with 30 points. Noriega added 12 and Moray West, Judy Merrill and Kordzek added 2 each.

Bullock Files For Comptroller Re-election

State Comptroller Bob Bullock filed for re-election Tuesday and put in a plug for state tax policies he says make Texas a good place to live and do business.

"Texas has good state government services and

Taxpayer Assistance Available

"People are pleased whenever you can save them time and money. I think that's one reason for the toll-free taxpayer assistance operation is so popular among Texas taxpayers," noted Frank Strickland, Director's Representative from San Angelo, Texas.

Last year over 2 million taxpayers received help from IRS through the Dallas telephone operation. "Taxpayers appreciate the convenience of being able to stay home and get tax help," he added. "They save gasoline; they avoid waiting in line; and they can sit and have a cup of coffee while they do their forms." The telephone tax assistance operation is available Monday through Friday from 8:00 AM-4:30 PM. In San Angelo dial 112-800-492-4830.

The San Angelo office will provide walk-in assistance Monday through Friday from 9:00 AM-4:30 PM. Taxpayer assistance provided includes forms, publications, group self-help assistance in the preparation of some individual tax returns and answers to tax questions.

we aren't taxed to death paying for them," Bullock said.

Bullock said that the Comptroller's office "is the key to that because when we collect the taxes that are already on the books, we don't need new taxes." Bullock said also that he is proud of the accomplishments of his administration of the Comptroller's office since 1975, but that he will not let the agency rest on its laurels.

"In a model agency, the job of serving a growing state is never finished," Bullock said. "Every new day brings new opportunities in a state that is on the go like Texas."

Bullock became Comptroller in 1975 after winning

his first statewide race with more than 71 percent of the

vote. He was re-elected in 1978 without opposition.

democratic primary, of course.

Retire rich with a MILLION DOLLARS

... and FREE 5 1/4 % CHECKING!

Become a millionaire
Thanks to new IRA regulations you can put aside up to \$2000. tax deferred dollars into IRA each year for your retirement. A couple, with one spouse working, can set aside up to \$2250. and a working couple can put up to \$4000. annually into IRA.

Retire rich for \$167 a month
Open your IRA account now, put \$167 into it each month and you'll retire rich. (see our Million Dollar Timetable for examples)

Today's tax shelter
Each dollar put into IRA, and the interest it earns through the years, is tax deferred until withdrawn at retirement. You save hundreds of dollars on income taxes each year.

You're eligible
Now almost everyone is eligible for IRA. Recent regulatory changes allow you to open an IRA, even if you are covered by a pension or profit sharing plan where you work.

MILLION DOLLAR TIMETABLE		
Years	Your Investment	Total Retire Rich Funds
1	\$2,000	\$2,258.71
5	\$10,000	\$14,618.30
10	\$20,000	\$41,474.75
20	\$40,000	\$181,461.65
30	\$60,000	\$653,949.81
35	\$70,000	\$1,216,042.15
40	\$80,000	\$2,248,707.02

No minimum balance
5 1/4 % checking
If you have, or open, an IRA account you can also open a checking account that earns you 5 1/4% on your daily balance. You pay only for your personalized checks and you do not have to maintain a minimum balance.

See a SASA specialist for your personalized IRA program

Local Girl Scouts Honored

The seventeenth Annual Meeting of the El Camino Girl Scout Council was held Saturday, January 23, at the Houston Harte University Center on the Angelo State University campus.

Delegates from all parts of the eighteen-county area served by the El Camino Girl Scout Council attended

the meeting to review 1981 council operations and hear projections for the coming year. Elections to fill several positions on the El Camino Board of Directors and on the Nominating Committee were held. Those assuming new duties on the Board of Directors include Second Vice President Louita Wilson of Del Rio, Secretary

Suzann Riley of Eden, and Members-at-Large Nancy LaCrosse of Del Rio, Nancy Johnson of Sonora, Debra De Los Santos of Eagle Pass, Carolyn Moneyhon of Mason, Becky Jones of Eldorado, and Ann Ray of San Angelo. Newly-elected members of the Nominating Committee are Michelle Goodson of Uvalde and San

Angeloans Maryjo Herrington, Kay Holland, and Carolyn Holcomb.

Honors presented at the Annual Meeting included the coveted Thanks Badge, awarded to Brownie Roberts for her outstanding contributions as a Girl Scout volunteer.

A highlight of the awards ceremonies was the presen-

tation of the highest Girl Scouting award, the Girl Scout Gold Award, to five Ozona Senior Girl Scouts, Tammy Adams, Lisa Hertz, Till Kramer, Kimberly Sinclair, and Molly Womack earned the award while participating in Ozona Senior Troop 189. Also honored for their achievements were Gina Black, Karla Junak, Leah Evans,

Tammy Duren, Aimee Middleton, Debby Shannon, and Sherry Ellison, who earned their First Class Awards as members of Sonora Troop 276.

Other awards and recognitions were given for event coordinators, trainers, day camp directors, and a variety of volunteer contribu-

Comptroller Rep Scheduled Feb. 19

State Comptroller Bob Bullock will have a representative from his San Angelo office in Sonora on February 19, 1982 to assist local taxpayers and answer questions about state taxes.

Bullock said Enforcement Officer Dru Beck will meet with local taxpayers in

the County Clerk's Office at the County Courthouse from 1:00 p.m. to 2:00 p.m.

"If Sonora area merchants, or anyone else for that matter, have any questions about state taxes or need help in preparing state tax forms, Ms. Beck will be there to assist

them," Bullock said.

"We're trying to cut the red tape in this office, and we believe these face-to-face sessions with taxpayers help do just that," Bullock added.

The San Angelo office serves San Angelo and surrounding counties.

Halliburton Ladies Hold Monthly Meeting

Halliburton Ladies met January 26, 1982 at the Methodist Church. The purpose of the meeting was to organize and discuss plans for a monthly meeting. Plans were made to meet every second Thursday of each month at 10:00

a.m. at the Methodist Church Fellowship Hall.

There will be a nursery attendant on hand at the church for every meeting. For more information call 387-3603. On the January 26 meeting 22 ladies attended.

BBB To Sponsor Forum On Handling Bad Checks

The San Angelo Better Business Bureau is sponsoring a forum on "How to deal with bad checks," set for Wednesday, February 10, 1982, at 10:00 at the West Texas Utilities Conference Room (106 South Chadbourne).

In an effort to assist BBB members and other area business, a panel will speak about collecting on hot checks and preventative tips on how to avoid getting hot checks. The panel will

consist of Sandy Bernstein-San Angelo credit bureau, Bill Moore-County Attorney, Gordon Rainey-First City National Bank, Gerald Fohn-District Attorney, and Ernest Haynes-Sheriff.

Admission is free to Better Business Bureau members and \$10.00 for non-member firms, but reservations must be called in by Friday, February 5th at 653-2318.

Attention, all chronic-illness and allergic patients: always wear medical identification jewelry to carry a card to prevent being given harmful treatment in case you're unconscious or can't talk.

This advice from Dr. Mary Ann Shirer, health education specialist on the home economics staff of the Texas Agricultural Extension Service, The Texas A&M University System,

Agricultural Producers To Face Penalties If Info Is Not Filed

Agricultural producers and others who handle their own tax and Social Security reports face higher interest rates and penalties for failing to file certain information forms.

Beginning Feb. 1, the Internal Revenue Service will start charging a 20 percent annual interest rate (up from 12 percent) on delinquent tax accounts as

a result of the Economic Recovery Tax Act of 1981. At the same time, the IRS will also pay the same 20 percent interest on overpayments.

"The new, higher rates will apply to the underpayment of individual and corporate estimated taxes and most other tax law provisions imposing interest," points out Dr. Ashley C. Lovell of Stephenville, economist with the Texas Agricultural Extension Service.

Texas A&M University System.

The new interest rate will be determined each Oct. 15 and will go into effect the following Jan. 1. It will be based on 100 percent of the average prime interest rate for the preceding month--September.

means that many taxpayers who previously borrowed from the U.S. Treasury through underpayments or by delinquent taxes will be

reluctant to continue these practices," notes Lovell.

The new tax law also provides for a \$10 penalty per statement for taxpayers who fail to file information returns (Form 1099) with the IRS, adds the economist. The previous penalty was \$1 per statement.

Furthermore, the IRS may dock each taxpayer or income recipient \$5 if he does not use an identifying number (in many cases the

Social Security number) on the various tax forms and returns.

Regarding the Form 1099's, these along with Form 1096 (summary and transmittal form) must be submitted to the IRS by Mar. 1. Information on the Form 1099's should be provided to income recipients by Feb. 1.

Form 1099's are information returns that are used to report total pay-

ments of \$600 or more during the tax year to another person in the course of trade or business. Several variations of Form 1099 relate to payments of interest, rents, royalties, fees, commissions and other compensations for services to persons other than employees.

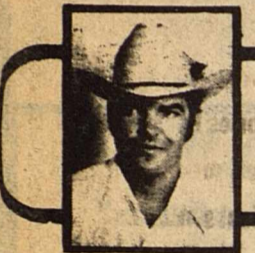

"Many agricultural producers make payments to others in their normal course of business, and

these should be reported of a Form 1099," says Lovell. "An exception is if the recipient of a payment is a corporation."

Agricultural producers also have until Jan. 31 to file Form 943 (Employer's Annual Tax Return for Agricultural Employees). This is required if an employer withholds and pays Social Security taxes or if he withholds income taxes under voluntary withholding agreements on farm labor

wages paid during the tax year. If timely tax deposits were made, an employer has until Feb. 10 to file Form 943.

Lovell suggests that farmers and ranchers consult their tax advisors and review the "Farmer's Tax Guide" and the "1981 Package X" available from the IRS to learn more about recent changes in tax laws and the various tax forms and deadlines for filing.

Jerry Lackey's Country Folk

Having grown up in the country and in a family of musicians to boot, I have always been fond of country

music. As a youth, I went to sleep under Grandma's patchwork quilt in the back

of a pickup to the music of my dad's music at some country dancehall more times than I could count.

Those Saturday nights we were at home, the evening was spent in front of the old battery radio tapping our toes to the Grand Ole Opry or the Louisiana Hayride.

Since my association with

West Texas Rehab Center for five years now and the annual telethon, my love for country music has been renewed. Because of the many stars who come and help us each year, I have got to know them in person as well as their music and appreciate their talents even more.

Rex Allen and Rex Allen Jr. have been friends of our for years, and during the WTRC telethon last month, I was privileged to visit backstage and make some new friends. Gandpa (Marshall) Jones and Merle Travis are home folks clear to the bone. Ray Price has been a favorite for years.

Last week, we braved a smoke-filled dancehall in San Angelo to catch the Ernest Tubb Show. Ernest Tubb lived in San Angelo for years, back in the late 1930's and early 1940's, even wrote a song about the Concho River town called: "Swell San Angelo."

At 68 years of age, Tubb has been a star of the Grand Ole Opry in Nashville for 39 years. As a boy,

I can remember sitting on our front porch at the ranch and hear him on the jukebox from the little Buck-hollow Store across the field on the highway. Remember "I'll Get Along Somehow", and "You Broke A Heart That Was Breaking For You," and "Walking The Floor Over You," and "I Wonder Why You Said 'Goodbye?'"

In recent years we have "Waltzed Across Texas" to Ernest Tubb and the Texas Troubadors. I am amazed at the following this man still has and how devoted to

still has and how devoted he is to his fans. He patiently signs autographs and poses for pictures. Ernest Tubb was born in Crisp, Texas. He spent his early years on the farm and ranch and the memories of his childhood and youth are still treasured deep within his heart. It was while attending the old time dances, so popular in the rural areas, that Ernest first began to entertain the public, singing the old time

songs accompanied by the small string bands that played for these gatherings.

In 1933, while still learning to play his first mail order guitar, Ernest secured a job singing with a small string band at that time appearing over radio station KONO in San Antonio. Before long he had his own program over the station, singing, and playing is own accompaniment on the guitar.

His rise to popularity was rapid. In 1935 he was chosen by Mrs. Jimmy Rodgers, widow of the late famous singing brakeman, as successor to "America's Blue Yodeler."

We start reminiscing about these longtime personal favorites and remember others like the late Hank Williams and Marty Robbins and Hank Thompson. When I worked for the Texas & Southwestern Cattle Raisers Association, we wouldn't think of the annual cowboy dance without Hank Thompson. Of course there was the

late Bob Wills and Tex Ritter and Faron Young and so many others we used to listen to every Saturday night.

Now with the annual Rehab telethon and the love for country music all over West Texa, we are carrying on a tradition. Beside the well-known stars like Grandpa Jones, Ernest

Tubb & Johnny Gimble, the fiddle player, we are introducing some great new talents to the public. One who come to mind is Clyde Creel, a mountain of a man with the most beautiful voice to ever touch ones ear drums. We say: Long live country music and the people who perform it!

San Angelo Stock Show Set March 8

The San Angelo Stock Show and Rodeo will be held March 8-14, 1982. For the last seventeen years the Women's Department has been a part of the San Angelo Stock Show and Rodeo. Even though we started small, our show has expanded as well as our building.

This year we have nine divisions for participants: 1. Clothing 4. Needlework 2. Foods 5. Youth Exhibits 3. Hobbies & Crafts 6. Flower Arrangements 7. Art Exhibition 8. Hand-painted China 9. Ceramics & Plaster 10. Photography

Special Contest
1 Casserole Contest- To be held Wednesday, March 10. 2. Bread Contest- To be held Thursday, March 11. 3. Pie Contest- To be held Friday, March 12. (Only these contests require an entry fee of \$1.00)

There is no entry fee (except Special Contests) and entries are open to men, women, and children.

Deadline for entries is February 12, 1982. For more information, catalog and entry blanks write to San Angelo Stock Show & Rodeo Association, 500 Rio Concho Drive, San Angelo, Texas 76903 or Phone (915) 653-6419.

We would like to extend an invitation to the many

talented people in your area to participate. Hope to see you March 6, with your entries.

NOW earn 5 1/4% ON YOUR Heart O' Texas SAVINGS ASSOCIATION Checking Account

February 25 Set For Pre-Hearing Conference

The Transportation Division of the Railroad Commission has set February 25 as the date for a pre-hearing conference in the application of United Parcel Service for authority to transport packages within the state of Texas. The pre-hearing conference will

be held in the auditorium of the Commission headquarters building here. UPS already holds Interstate Commerce Commission authority to transport packages into and out of Texas.

At the pre-hearing conference, parties may file motions concerning the following:

- any special procedures which may be necessary for the proceeding
- legal issues to be raised
- scheduling issues to include the setting of hearing dates

- any other matters which might simplify the adjudication of the case UPS filed the current application for common carrier authority with the Commission's Transportation Division in August, 1978. Following a jurisdictional hearing in

September of that year, the Commission issued an order in April, 1979, concluding it did not have jurisdiction to hear the application.

The Commission stated its belief that applicable state law and court decisions do not permit com-

mon carriers to operate over irregular routes on irregular schedules as UPS proposes to do.

The Commission's decision was appealed to state District Court. That court ruled the Commission should hear the UPS application.

Appellate decisions by the Court of Civil Appeals and the Texas Supreme Court did not change the district court ruling. The Texas Supreme Court, although stating the Railroad Commission should hear the UPS application, speci-

fically reserved judgement on the question of whether state law permits common carriers to operate over irregular routes on irregular schedules saying, "that question is reserved for future determination when it is presented for our review."

Shoulder Patch System Helps Keep Quality High

A new shoulder patch system now used by the Railroad Commission will help the public make sure they are dealing with qualified, certified operators in the liquefied petroleum gas industry.

The blue and yellow patches are presented to licensed operators in the industry when they complete exams given by the Liquefied Petroleum Gas Division of the Commission. The exams are required by the Commission to ensure that operators have a knowledge of safety procedures

when handling lp-gas. "It is our hope to get the public to go to qualified, licensed operators for their work and to ensure good quality work and safety, which is our primary interest," LPG Division Director Hugh Keepers said.

The patches are worn on the left shoulder. Bars under the patch indicate the specific jobs an individual is certified to perform. Job-related bars are given to those who perform motor fuel carburetion, cylinder

filling, and service and installation. Bars are also given to certified delivery truck drivers and transport drivers.

"As a state agency charged with safeguarding the ultimate consumers of lp-gas, we hope to point out to the public that those

performing work in this industry must first study and take a written exam and that the companies themselves must be licensed by the Railroad Commission regulates the safe handling of liquefied petroleum gas.

RRC Explains Licensing Requirements For Vehicles

Inquiries by Texas automobile dealerships preparing to market propane powered automobiles have prompted the Railroad Commission to explain licensing requirements for the sale and service of the vehicles.

Hugh Keepers, Directors of the Commission's Lique-

fied Petroleum Gas Division, explained the requirements to representatives of the Texas Automobile Dealers Association today.

Keepers says the expects to explain licensing of propane automobiles to other groups as the cars become increasingly available to Texas dealers through ma-

nufacturers. Ford Motor Company has notified dealers in Texas that factory equipped propane powered vehicles will be available to fleet customers during the 1982 model year.

No license is required to sell, service or repair factory equipped lp-gas vehicles. A lp-gas license will be required to sell lp-gas

containers or lp-gas carburetion systems. A license will also be required to install or replace the containers or carburetion systems. The conversion of a vehicle to lp-gas including dual fuel carburetion systems requires a license.

Employees involved in installation or conversion of

lp-gas systems must complete examinations required by the Railroad Commission to show their competence and knowledge of safety factors when dealing with lp-gas.

Safety is the Commission's primary concern when requiring a license to work with lp-gas, Keepers said.

Petroleum Information Reports New Plateaus

The Petroleum Information Corporation of Denver reports that the number of wells drilled, rotary rigs working, well completions, windcats drilled, total footage, and deep wells all reached new plateaus in the year just finished.

The number of wells drilled for oil and gas was up a almost twenty-nine

percent from the 1980 record setting year. 78,884 holes were punched in the ground last year compared to 62,704 in '80 according to Petroleum Information.

Rotary rigs working in 1981 finished at 4,530 versus 3,337 at the end of 1980 reports Hughes Tool Company. More rotary rigs

were added to the national fleet last year than were working in 1971. Completions totaled 39,101 and broke the old 1955 record of 31,567.

Wildcat wells drilled jumped 27 percent to 9,331. This compares to 7,317 the previous year. The wildcat success rate in 1981 was 18.4 percent.

The total footage drilled last year amounted to 364.4 million feet...up 76 million from a year ago.

And, wells drilled below 15,000 feet were just under 1,000 at 988. That was 285 more than 1980.

In the Permian Basin our rig count for last week was 499. One year ago it was 374.

September Production Reported

Railroad Commission Chairman Jim Nugent announced that 68 refineries in Texas processed 125,757,806 barrels of crude oil and hydrocarbon blends during September 1981.

This volume compares with 131,128,495 barrels in the previous September, the Commission's Oil and Gas Division reported in its monthly recapitulation of Texas refinery operations. Inputs of crude oil and blends totaled 137,936,722 barrels in August 1981.

Texas refineries ran 90,238,353 barrels of crude oil in September compared to 106,387,971 barrels in September 1980 and 108,505,825 barrels in August 1981.

Products manufactured September 1981 totaled 125,136,046 barrels, down from 131,429,981 barrels in the same month the previous year, and down from the 139,989,470 barrels in August 1981.

September 1981 manufacture of motor gasoline totaled 53,800,566 barrels, compared to 47,512,045 barrels in the year-earlier month and 58,168,621 barrels in August of 1981.

Texas refineries manufactured 7,172,138 barrels of home heating oil in September 1981--a decrease of 2,059,003 barrels from the year-earlier volume. August 1981 output was 9,571,759 barrels.

CAPITOL UPDATE

John Tower
U.S. SENATOR for TEXAS
 142 RUSSELL OFFICE BUILDING
 WASHINGTON, D.C. 20510

When Ronald Reagan took office a year ago, he promised the American people a "New Federalism," a state-federal partnership which would return to the states the powers and responsibilities that belong to them.

This year, in his State of the Union Address, the President outlined a program which will take us a long distance toward the "New Federalism" goal. Under this plan, the states would take over responsibilities for two major domestic programs, Aid to Families with Dependent Children and Food Stamps. This would allow administration and formulation of the aid programs to be at the local level where they can be more effective and more efficient. In return, the federal government would take on the considerable burden of Medicaid.

Further, more than 40 federal grant programs would be turned back to the state where they could be oriented toward local community needs and their services delivered more efficiently. To finance these programs, federal excise tax revenues would provide a trust fund -- initially to provide money for the entire current cost and then to be phased out at a gradual rate. Thus, we would be allowing the states the means and the time to absorb these new -- or renewed -- responsibilities.

This \$28 billion federalism trust fund, and growing savings from Medicaid federalization from fiscal year 1984 to fiscal year 1987 would provide not only increasing revenue sources to finance new state program responsibilities, but also remove federal funding uncertainty for the rest of the decade. The states would have six years to determine best the mix of program savings and state tax increases before the federalism trust fund begin to phase out in fiscal year 1988.

Over the past two decades, we have overloaded the federal government with management and fiscal responsibilities. This program would restore the balance of state and federal responsibilities. This balance, after all, was the original function of the federal system outlined in our Constitution.

The federalism initiative also would largely abolish the existing, unworkable federal-state grant-in-aid system which tends to transform non-federal units into subordinate middle management extensions of the Washington bureaucracy.

In other ways, the move toward the New Federalism has begun. During the past year, we have cut the growth of new federal regulations nearly in half. We have begun looking at and modifying existing regulations which are counter-productive or cost-inefficient.

Let me emphasize, though, that neither the President nor the Congress wants the federal government to shirk the responsibilities that belong to it.

The President's federalism initiative leaves in federal hands domestic programs including the social insurance system of Social Security retirement, disability and Medicare; transfer aid to the needy elderly; health insurance and medical insurance, and projects of national significance such as Head Start, handicapped education, interstate highways and regulatory protections with interstate impact.

Hand-in hand with the Administration's domestic reforms is a sustained commitment to rebuilding our national defense capability. The significant and determining fact is that the domestic programs which would go back to the states can be handled more effectively at that level. National security can only be provided by the federal government. And that function is the most essential and most basic of federal functions.

We will continue to improve our national defense system to meet our solemn obligations to protect the American people and their vital interests in the world. We will continue to provide the basic "safety net" of domestic aid programs which have come to be a basic part of the American framework. We will continue to regulate those aspects of American commerce that affect the rights, health and safety of our citizens. But we will work to end federal meddling in those areas in which it is neither justified nor effective.

Expanded Parental Role Expected In Shift Of Education Programs

The Reagan administration's "new federalism" proposal to shift control of many social and education programs to the states will mean a more important and expanded role for parents in public education, says a Texas education leader.

Mike Morrow, executive director of the Association of Texas Professional Educators (ATPE), said the role of parents is being expanded to include "more than serving refreshments on teacher work days."

Morrow was the keynote speaker at the Tuesday morning (Feb. 2) session of the Region 6 Conference of the National PTA at the University of Oklahoma's Center for Continuing Education. About 50 leaders from Texas, Oklahoma, Arkansas, Louisiana, Mississippi and Missouri are attending the 4-day conference which ends Wednesday.

"The Reagan administration's intent to decentralize public education through the use of increased state governance and the distribution of funds will enhance the role of parents as more control will rest with decision-making

at the local level," he said.

Morrow, whose association represents nearly 35,000 Texas educators, says the PTA is one of the few organizations which is responsible for educational improvements in public schools. The former San Antonio teacher attributes the association's accomplishments to "open communication" between classroom teachers, administrators and parents.

As examples, he cited better appreciation of concerns of the single parent, more involvement at the local level in supporting classroom teachers, and, in many cases, allowing professional educators more time to teach.

Morrow's leadership development talk touched upon the importance of parents maintaining an optimistic attitude, not looking for trouble and saying what they mean.

He suggested if "you want to be a problem-solver you must be a risk-taker. It's easy to sit in the bleachers and be picky about things but infinitely harder to set goals and stick to them despite words from the prophets of doom."

ATPE, the education association which Morrow represents, differs from other Texas teacher groups in that it has no national affiliation, strongly supports local control for public schools and does not endorse collective bargaining for public school employees.

You would think that federal laws would offer at least as much protection to the honest businessman as they do to the criminal. But, where government is involved, that isn't the case.

It's ironic that much of

the criminal element of this country—forgers, embezzlers, thieves and extortionists—are protected by a statute of limitations. If someone in Texas, for example, commits a robbery and is not caught within five years, that individual is then "home free." He is assured of immunity from prosecution, no matter how strong the case against him.

But there is no statute of limitations for the honest, hard-working small businessman or entrepreneur who unwittingly may violate one of the rules or regulations that spew forth from Washington, D.C. He is liable forever.

Larger Corporations have the resources—legal and accounting divisions, trade associations—to help them stay aware of and comply with all federal regulations.

Major companies find it easier, for example, to cope

with the considerable expense involved in micro-filming records. This way, they can preserve years and years of records just in case they are called to account by a federal agency for an alleged misdeed sometime in the distant past.

I feel that the honest businessman should get at least an even break with the criminals in our society.

That is why I have introduced legislations that would place a five-year statute of limitations on

the enforcement of rules and regulations promulgated by federal agencies.

The bill also limits to five years the time period required for individual record-keeping.

The five-year statute of limitations would not apply in cases of fraud or willful or knowing violation of a rule. Any actions are records relating to dangerous material also are exempted from the five-year rule.

The Bentsen bill is designed to guard against harassment for unwitting

violations far in the past, and to reduce the costs involved in record-keeping.

The measure is by no means intended to weaken the force of effectiveness of necessary federal regulations. But it will protect honest business operators across our land from the lingering fear of prosecution for an alleged violation more than five years in the past.

Steven Chandler Accepted To Funeral Services Institute

Steven Chandler of Sonora has been accepted as a student in the Spring 1982 Class of The Dallas Institute of Funeral Service in Dallas, Texas, institute president Robert P. Kite has announced.

The Dallas Institute, located at 3906 Worth Street, Dallas, offers comprehensive courses in mortuary science and funeral service subjects, including embalming, restorative arts, grief psychology and counseling.

The professional studies have been fully accredited by the American Board of Funeral Service, and the curriculum is designed to prepare the graduate to successfully enter the funeral service profession as a career.

The diploma program runs for 12 months, and classes enroll in September and March, Kite said. For more information, contact Jim Moshinski, 1-214-942-3187.

Princess Catherine Caradja To Speak Tuesday

Princess Catherine Caradja, who lived in Romania during the Hitler domination and that of Joseph Stalin, will speak in the High School Auditorium Tuesday, February 9, at 10:00 a.m. and 1:00 p.m. and at the noon meeting of the Lions Club.

Caradja lives in Kansas City and has been speaking for the past 20 years of freedom and the dangers to it.

Princess Catherine Caradja was born in Romania in January of 1893 to Princess Cantacuzene and Prince Kretulesco. Her father left her in an orphanage in England under a false name at the age of three. She escaped to Romania in 1908 and the courts gave her to her mother's family. She married Prince Caradja in 1914. World War I started and when the half of her country fell to the Germans, she fled to the free side with her two children.

Through bitter years of searching for Princess Catherine, her mother had built a Foundation for orphans. After her death, her

mother took it over. Catherine took over in 1919, built up the Foundation and added a foster home section in twelve villages near her estate.

She worked with the Foundation through the Nazi occupation in 1940 and the bombing of the oil refineries by the Allies. One of the planes crashed in her land nearby and she helped the crew and 100 other surviving flyers in their POW camps in 1943. In 1944 she helped 100 others who fell. She continued to work for them through the Red Invasion in the fall of 1944, and the ensuing Red Government until 1949. The state offices then took over and Catherine lost all she had.

Catherine accepted her daughter's offer to try and get her out after several get her out. After several attempts, she escaped in January of 1952. While in France, she gave over 160 talks about "Life behind the Iron Curtain" and every summer spoke on the BBC network in London. During the winter of 1954-55, she spent in Algiers organizing

child relief for a friend and giving talks in Algeria and Morocco stressing the persecution of all religions in the Captive Nations.

She finally received permission to come to the U.S. in 1955. Since then she has spoken in all of the 50 states and Canada, has seen 90 of the first POW's and about 870 of the other later fallen ones.

She feels that the only real way she can be of service to the Lost Countries is to tell the Free World about the "Worth of Freedom" and by showing the conditions in the Captive Nations and encouraging the still Free World to protect and defend that precious freedom.

The Freedom Award of the Order of Lafayette was awarded to Catherine in 1966, and in 1977 she received the one from the Valley Forge Freedom Foundation.

Strake Hails Variety Of Federal Programs

George Strake, candidate for lieutenant governor, today hailed as a "tremendous challenge" the planned return of a variety of federal programs to the states outlined last night by President Reagan in his State of the Union address.

"Government runs best when it is closest to the people," said the 46-year-old Strake. "I am confident we can handle our affairs better than beaurocrats in Washington. Turning these programs over to the states is an idea long overdue," he continued.

"We don't know yet what the extent of our new fiscal and administration responsibilities will be, but they should not be tough if the legislature and the rest of state government have the leadership ability to

provide the proper fiscal management," Strake said.

"Since state responsibilities will expand in the future as a result of the President's new plan, the 1982 elections will be very important. Voters must make sure they elect strong leaders who can do a good job of looking after these added responsibilities," Strake added.

"The lieutenant governor's office, which I am seeking," he continued, "must play an important role in returning these programs to Texans and seeing that they run efficiently."

The conservative Houstonian is widely credited with saving the state three million dollars, trimming staff, and increasing the efficiency of operations during his three years as secretary of state.

"I am confident I can help manage the state of Texas in the same fashion as lieutenant governor," said Strake.

School Needs... From Page 1

meet the district's needs. Nearly all of the 635 students that will be leaving the central campus are presently eating the dining facility. Completion of Phase I will do much to alleviate the crowded cafeteria problems. Traffic congestion at the central campus will also be greatly reduced, with the initiation of Phase I. Many parents now deliver and pick up children before and after school and this aspect of the traffic will be removed from the campus. High School students will no longer be driving to and from the same campus serving the lower Elementary grades, and Grades K-4 will no longer be located on a secondary campus. As has already been mentioned, the acquisition of additional land for parking should be high priority item, but the initiation of Phase I should greatly reduce traffic problems on the campus.

Old Elem.	K-2	5-6	255	300		\$ 75,000 (Indoor play)
NEW ELEM. SCHOOL			-0-	800	650	\$5,000,000
MISC						
Stone Bldg.	4-5	-	260	260	-0-	-0-
Contingency cost of issuance						125,000
SUBTOTAL:						\$6,000,000
Used by both H.S. and J.H.S.						Estimated Total Cost Solution A \$6,000,000

SOLUTION B RECOMMENDATIONS
GRADES
 9-12 New facility for 500 (basic facilities for 800).
 6-8 Use present High School facilities and stone building.
 5 Use Vocational Building. Remodel to accommodate.
 2-4 Use present Junior High School facilities. Remodel kitchen and classroom area, add 4 classrooms.
 K-1 Use present Elementary Building. Convert auditorium to indoor play area.
 Misc. Phase out remainder of portable buildings.

Solution B provides for construction of a new High School facility for Grades 9-12 for an initial capacity of 500 students, but with library, dining and other central facilities sized for a maximum enrollment of 800.

Grades 6-8 would use the present High School facilities with no additions required, while Grade 5 would use a portion of the existing Vocational Building. The industrial arts shop would be renovated to provide classroom space for fifth grade. The school would become a fifth grade center. One shop facility would still be available in the building for Junior High School use.

Grades 2-4 would use the present Junior High School facility. The snack bar area would be remodeled to provide a full production kitchen, and Grades 2-4 would dine at that facility. The classroom areas would be remodeled somewhat to provide an additional four classrooms to the building.

Kindergarten and first grade would use the present Elementary Building, with the auditorium being converted to an indoor play space.

No major work would be required at the stone building, and that facility could be used to accommodate special programs as needed in the Junior High School.

SUMMARY

Solution B also solves several of the district's problems. The construction of a new High School on a separate site separates High School and Elementary school traffic and it solves the High School parking problem. However, the solution does have some shortcomings at the intermediate grade level. All parent pickup and dropoff traffic will still be congested at the central campus.

The Elementary children will still be faced with a severe shortage of available outdoor play space.

The severe problem now experienced with the dining facility would be alleviated somewhat, although conversion of the present snack bar at the Junior High school to a full service dining facility would be expensive. The entire Elementary school enrollment would be served from these two dining facilities, still causing some concerns regarding future growth expansion capabilities.

These problems, as well as the undesirable nature of a separate fifth grade center in the Vocational Building and the higher initial cost, makes this solution probably less desirable than Solution A. The needs of the High School are met very adequately in Solution B, but the needs of the lower grades are only partially met.

Lloyd Bentsen: Federal Laws Should Offer More Protection For Honest Businessmen

You would think that federal laws would offer at least as much protection to the honest businessman as they do to the criminal. But, where government is involved, that isn't the case. It's ironic that much of the criminal element of this country - forgers, embezzlers, thieves and extortionists - are protected by a statute of limitations. If someone in Texas, for example, commits a robbery and is not caught within five years, that individual is then "home free". He is assured of immunity from prosecution, no matter how strong the case against

him. But there is no statute of limitations for the honest, hard-working small businessman or entrepreneur who unwittingly may violate one of the rules or regulations that spew forth from Washington, D.C. He is liable forever. Larger corporations have the resources - legal and accounting divisions, trade associations - to help them stay aware if and comply with all federal regulations. Major companies find it

easier, for example, to cope with the considerable expense involved in microfilming records. This way, they can preserve years and years of records just in case they are called to account by a federal agency for an alleged misdeed sometime in the distant past. I feel that the honest businessman should get at least an even break with the criminals in our society. That is why I have introduced legislation that would place a five-year

statute of limitations on the enforcement of rules and regulations promulgated by federal agencies. The bill also limits to five years the time period required for individual record-keeping. This five-year statute of limitations would not apply in cases of fraud or willful or knowing violation of a rule. Any actions and records relating to dangerous material also are exempted from the five-year rule.

The Bentsen bill is designed to guard against harassment for unwitting violations far in the past, and to reduce the costs involved in record-keeping. The measure is by no means intended to weaken the force or effectiveness of necessary federal regulations. But it will protect honest business operators across our land from the lingering fear of prosecution for an alleged violation more than five years in the past.

Public Notice

TO: Libble P. Wright, O.E. Oliver, Lottie Oliver, Lula E. Blackman, Hannah, Jennie S. Klee, Orville E. Brown, and Bertha Alice Brown, their unknown heirs, if deceased, their unknown surviving spouses, if any, and the unknown heirs of any deceased spouse, Defendants in the herein styled and numbered cause.

You and each of you are hereby commanded to appear before the District Court of Sutton County, Texas, 112th Judicial District, to be held at the Courthouse of said County in the City of Sonora, Sutton County, Texas, at or before 10:00 A.M. on the date of issuance hereof; that is to say, on or before 10:00 A.M. on Monday, the 15th day of March, 1982, and answer the petition of Norbert D. McIntyre and W. Randall Lundy, Plaintiffs in Cause No. 2693, styled NORBERT D. MCINTYRE and W. RANDELL LUNDY vs. LIBBLE P. WRIGHT, O.E. OLIVER, LOTTIE OLIVER, LULA E. BLACKMAN, HANNA SONNENBERG, JENNIE S. KLEE, ORVILLE E. BROWN and BERTHA ALICE BROWN, their unknown heirs, if deceased, their unknown surviving spouses, if any, and the unknown heirs of any deceased spouse, in which NORBERT D. MCINTYRE et al are Plaintiffs and the parties herein named as Defendants are Defendants, which petition was filed in said Court on the 28th day of January, 1982, and the nature of such suit is as follows:

Plaintiffs seek the appointment of a receiver of the interests owned or claimed by each of the respective Defendants in the oil, gas and minerals in the following tract of land situated in Sutton County, Texas:

Survey 3, A-4, Bk. DC, C. Alexander, Original Grantee, Sutton County, Texas

with authority to execute and deliver oil, gas and mineral leases covering said minerals owned by or claimed by said Defendants upon such terms and conditions as the Court may provide of Article 2320 (b), Tex. Civ. Stat. Ann., as amended.

If this citation is not served within ninety (90) days after date of its issuance, it shall be returned unserved.

WITNESS Mrs. Erma Lee Turner, Clerk of the District Court of Sutton County, Texas.

Given under my hand and seal of said Court at office in the City of Sonora, Sutton County, Texas, this 28th day of January, 1982. 4c16

SECTION 3. Company shall also receive tax adjustments according to Item C. in the Attachment hereto which is incorporated herein.

SECTION 4. The residential and commercial rates set forth above shall be adjusted upward and downward by a Cost of Service Adjustment Factor expressed as an amount per customer for changes in the cost of service over a twelve month period ending December 31, according to Item D. in the attachment hereto which is incorporated herein.

SECTION 5. Rate case expense is not included in the calculation of proposed rates. If the rate case expense is incurred in this current case, it is the intention of Lone Star Gas Company to recover the current and any prior rate case expense through a surcharge designed for a six-month nominal recovery period. The surcharge per Mcf would be calculated by dividing the rate case expense to be recovered by one-half of the adjusted annual sales volume to residential and commercial customers. If there is no current rate case expense, the Company will forego recovery of any unamortized prior rate case expense. When a surcharge is applicable, monthly status reports will be provided to account for the collections.

SECTION 6. In addition to the aforesaid rates, Company shall have the right to collect such reasonable charges as are necessary to conduct its business and to carry out its reasonable rules and regulations in effect, as set forth in Item E, in the Attachment hereto which is incorporated herein.

SECTION 7. The rates set forth in this ordinance may be changed and amended by either the City or Company in the manner provided by law. Service hereunder is subject to the orders of regulatory bodies having jurisdiction and to the Company's Rules and Regulations currently on file in the Company's office.

SECTION 8. It is hereby found and determined that the meeting at which this ordinance was passed was open to the public, as required by Texas law, and that advance public notice of the time, place and purpose of said meeting was given.

PASSED AND APPROVED on this the 19 day of January A.D. 1982.

ATTEST: Becky Covington, Billy Gosney, Mayor City of Sonora, Texas 2c15

A new organization will be formed to perform the civic functions previously handled by the Jaycees. Tom Clifton, Treasurer 3c14

Public Notice

Ordinance No. 214 AN ORDINANCE FIXING AND DETERMINING THE GENERAL SERVICE RATE TO BE CHARGED FOR SALES OF NATURAL GAS TO RESIDENTIAL AND COMMERCIAL CONSUMERS IN THE CITY OF SONORA, SUTTON COUNTY, TEXAS; PROVIDING FOR THE MANNER IN WHICH SUCH RATE MAY BE CHANGED, ADJUSTED, AND AMENDED, PROVIDING FOR SURCHARGE; AND PROVIDING FOR A SCHEDULE OF SERVICE CHARGES. BE IT ORDAINED BY THE CITY COMMISSION OF THE CITY OF SONORA, TEXAS:

SECTION 1. Effective with gas bills rendered on and after thirty (30) days from the final date of passage of this ordinance, the maximum general service rate for sales of natural gas rendered to residential and commercial consumers within the city limits of Sonora, Texas, by Lone Star Gas Company, a division of ENTERGAS CORPORATION, a Texas Corporation, its successors and assigns, is hereby fixed and determined as set forth in Item A, in the Attachment hereto which is incorporated herein.

SECTION 2. The residential and commercial rates set forth above shall be adjusted upward or downward from a base of \$2.4624 per Mcf by a Gas Cost Adjustment Factor expressed as an amount per thousand cubic feet (Mcf) of natural gas for change in the intra-company city gate rate charge as authorized by the Railroad Commission of Texas or other regulatory body having jurisdiction for gas delivered to the Sonora distribution system, according to Item B, in the Attachment hereto which is incorporated herein.
