## Sutton Commissioners View Hudspeth Hospital

The Commissioners' Court of Sutton County met in its regular monthly session at 9:00 A.M. Monday, June 14, 1982. Main items of discussion included an appearance by Game Warden Rodney Knight, requesting that Sutton County issue unlimited doe tags to landowners for the upcoming hunting season, due to the proliferation of deer in the County. Knight was supported in his request by Albert Ward, who was present at the meeting and gave his reasons for agreeing with Mr. Knight. Ms. Anne de Berry also made an appearance requesting, in essence, that the Commissioners consider the possibility of town meetings being held in the evening on issues shown to be of concern to the majority of the citizens of Sutton County. The Commissioners indicated their willingness to conduct such meetings if public interest in specific items or issues demonstrated that a reasonable number of citizens would attend such meetings, and if such meetings, were unable to attend the regularly scheduled morning meetings of the Commissioners' Court.

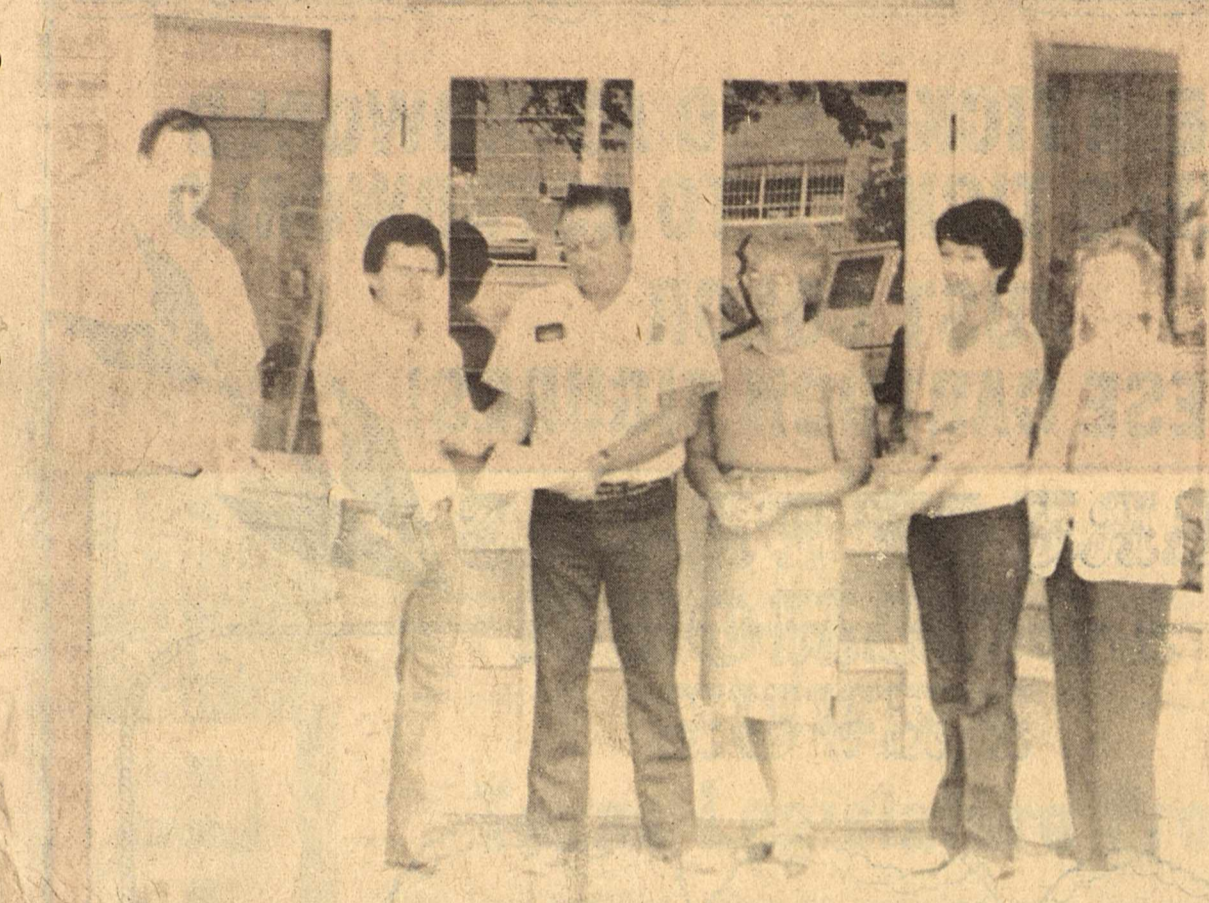

One of the main issues of Monday's meeting involved the Hudspeth Hospital situation. The Hospital Board, governing body of the hospital, had requested that the County contribute \$25,000.00 per month to the hospital due to the fact that the hospital has found itself financially troubled. Subsequent to such request, the Commissioners had authorized employment of specialized legal counsel to ascertain whether the County could legally

contribute to the hospital, as the County is in no way tied to the support, maintenance and governing policies of the hospital. At Monday's meeting, the Commissioners received legal briefs stating specifically that such contributions would be illegal according to the State laws, and outside the realm of the Commissioners' Court to determine, as the County owns no part of the hospital and has no voice in its control and maintenance.

The Commissioners expressed great concern over the hospital situation, and emphasized their willingness to do anything they could legally do in determining the future of such hospital; however, they were bound in this particular instance by the fact that the only specific request made by the hospital to the County was illegal. No member of the Hospital Board was present at Monday's meeting to suggest alternative possibilities, although the Board president was notified of the legal opinion and the meeting. The Commissioners did, however, indicate their willingness and desire to meet with the Hospital Board in a joint town meeting to seek solutions. The Commissioners lack the authority to call such a meeting, as they have no legal authority with regard to the hospital. Such hospital is independently controlled and under no County jurisdiction. The Commissioners did state that if the Hospital Board, as the governing body of the institution, requested such meeting, they would be eager to comply and would offer the District

Courtroom as a meeting place. In other business, the Commissioners received a preliminary budget workup from the Tax Appraisal District and from the County Auditor. They rejected a request from El Paso Natural Gas Company for a blanket pipeline easement along County roads and right-of-way, such easement having been proposed for a 25-year period by El Paso. The Commissioners also authorized that the map of the cemetery, last updated in 1972 by Joe Lane and the late E.B. Keng, be brought up to date as to ownership of cemetery plots and as to curbing needing to be accomplished. Such lack of an updated map had just been brought to the attention of the Commissioners' Court.

The Commissioners' Court scheduled a special meeting for Monday, June 28, 1982, at 9:00 A.M., in the Courthouse. Such meeting is being held to consider bids on some park improvements, 1982-83 budget discussions, expenditures of revenue sharing monies, the appointment of a Committee to coordinate a veterans' memorial for those who fought in the Korean and Vietnam conflicts, the position of County Attorney, and the purchase of a new ambulance. The Commissioners request that all interested citizens be present or make their wishes known to the County Auditor, County Judge, or any of the Commissioners. The Commissioners desire public input on any and all problems affecting Sutton County, and appreciate such input and interest.

## Polocek Honored By Chamber

Mr. Virgil Polocek has been selected for the June Citizen of the Month.

Mr. Polocek has been a member of the Sonora Sutton County Park Board, Little League, and involved in 4-H activities and the "Shine Sonora" project.

Mr. Polocek is presently a member of the Lions Club, the Methodist

Church Board, Bronco Boosters, Band Booster, as well as the Mason and Eastern Star Order.

He is currently employed as District conservationist with the Soil Conservation Service. He is married to Jacqueline Polocek, a teacher in the Sonora Public School System, and has two kids, Cathy and Mike. He has lived in Sonora seven years. The Chamber of Commerce selects

the Citizen of the Month on the basis of his or her services and contributions to the community.

Along with having the "Citizen of the Month" award, the Chamber of Commerce also selects the "Citizen of the Year" award. Mr. Polocek was the first recipient of this award in 1978 when it began.

## Sonora High School Scholarships

Scholarship awards were announced by Sonora High School.

The awards were as follows: NATIONAL HONOR SOCIETY SCHOLARSHIP: The Sonora High School Chapter of the National Honor Society honors one of its members each year with a scholarship. This year that honor, and the \$250 scholarship, goes to NANETTE SANCHEZ.

H.E.C.E. SCHOLARSHIP: The Home Economics Co-operative Education Department of Sonora High School earned enough to award two scholarships to deserving members of the club. This year, receiving scholarships of \$500 each are NERREIDA PEREZ and TONYA RIDGEWAY.

D.E.C.A. SCHOLARSHIP: Thanks

to the support and generosity of local businessmen for the Distributive Education program funds have been provided the club this year to award two scholarships of \$500 each to deserving club members. They are COBY MOENNING, who plans to attend ASU, and MARLA VAN HOOZER, who will go to the Conlee School of Beauty in Kerrville.

KAPPA GAMMA CHAPTER (E.S.A.) SCHOLARSHIP: The Kappa Gamma Chapter of E.S.A. has been chosen as one of its many service projects this year to give a \$500 scholarship to a deserving senior to be used at the school of his choice. This year's recipient will use it at Texas Tech. He is EFRAIN TORRES.

CINDY FAVILA MEMORIAL SCHOLARSHIP: For the second

time, the Los Amigos Club presents the Cindy Favila Memorial Scholarship: For the second time, the Los Amigos Club presents the Cindy Favila Memorial Scholarship to a deserving Mexican-American graduate. The second winner of this scholarship for \$1,000 is NEREIDA PEREZ.

DAVID P. LAW SCHOLARSHIP: In honor of their late grandson, Mr. and Mrs. Jack Neal annually awards the David P. Law Memorial Scholarship to a deserving senior. This year's recipient of the \$1,000 award is JOHN BLAKENSHIP, who plans to attend Cisco Junior College.

LULAC SCHOLARSHIP: The Sonora Chapter of the League of United Latin American Citizens awards a \$300 scholarship to the highest-ranking Latin American senior, who this year is NANETTE SANCHEZ.

## Swim Lessons Set In Sonora

Melissa Teaff, Red Cross Water Safety Director has announced the schedule for swim lessons this summer.

Advanced Lifesaving will be June 21-June 26. This will be more stream lined than the usual two weeks. To be eligible for this course you must be 15 years of age or older and a strong swimmer. Lessons will be held at the public pool from 8:30 a.m.-11:30 a.m. on the above dates.

This year as Mrs. Teaff, has received her instructor trainer certificate the W.S.I. course will be offered. To be eligible for the Water Safety Instructor Course, you must have a current Advanced Lifesaving Certificate, 15 years or older, and a real interest in helping others learn to swim. W.S.I. will be held June 28-July 9 at the public pool during the hours of 8:30-11:30.

The Learn to Swim Program for youngsters will be July 12-July 16 at the Public pool. You must be 5 years of age to receive these classes, there will be a pool charge of \$2.50. These lessons are free. The pool charge goes to the pool manager.

If you have any questions or if you are interested in the Advanced Lifesaving or W.S.I. you need to call me, as I need order books and materials. Please call at 387-2773.

There will be further notices about the time and date to register the youngsters for the Learn to Swim Program.

## First National Bank Pays Dividend

At a regular meeting the Directors of the First National Bank voted to pay a semi-annual dividend of \$7.50 per share, payable after July 1st, 1982 to stockholders of record as of June 10, 1982.

Total dividend declares was \$75,525.

## Family Living Has Clinic

An Immunization Clinic, sponsored by the Sutton County Family Living, Committee and the Texas Department of Health will be: Tuesday, June 22, 1:30 - 4:30 PM, Senior Citizens Center (106 Wilson).

This clinic is free and available to all Sutton County residents through collage age. If you or your child needs to have immunization records updated, plan to attend.

## Rick Powers Wins 4-H Scholarship

Rick Powers, son of Mr. and Mrs. Mickey Powers, was selected as a not only an application form but an oral interview. The interview and award presentation was conducted in conjunction with State 4-H Roundup on June 8, 1982.

Preston Faris, Sutton County Extension Agent stated, "We are very proud of Rick and his achievements and privileged to have a young man of this quality to represent Sutton Co. 4-H in receiving such an honor."

Rick plans to attend Texas A&M University this fall majoring in a field to prepare him for a degree in veterinarian medicine.

4-H LEADER AWARD-- 4-H Roundup at Texas Distinguished 4-H adult. A&M University. Mrs. Trevlin Luttrell (at left) is state were honored during greeted by Dr. Daniel C.

Pfannstiel, (center) director of the Texas Agricultural Extension Service, and Jim Morris of Austin, trustee of

the Texas 4-H Foundation. Recognition went to two leaders of each of the state's 14 Extension districts.

## Larry Lee Finklea Graduates At TCU

Larry Lee Finklea of Sonora was among recent graduates of Texas Christian University's Ranch Management Program. Into nine months of intensive study they crammed six hours per day of academic study plus 10,000 miles of touring to visit ranches, meat packing plants, feedyards, research and experimental stations, stock brokers, stockyards and other ranching-related industries

throughout Texas, Oklahoma and Kansas. Mr. Finklea's address is P.O. Box 1104 in Sonora. The 1982 graduates include 20 from Texas, three from New Mexico, two each from Arkansas, California and Kansas, one from Idaho, one from Ohio and one each from Venezuela and West Germany. The TCU program is unique in that it offers the student a chance to concentrate totally on ranch management for nine months without the distraction of

other classes. Directed since 1961 by John L. Merrill, the TCU Ranch Management Program has graduated 62 ranchers in its 26 years. No more than 35 students are accepted each year, and Merrill says a successful applicant must have enough previous farming or ranching experience to be dedicated to the profession aware of its problems and able to relate the information presented to everyday situations.

## Food Stamp Program Changes Schedule

"Our old way of computing food stamp benefits didn't work well for households with fluctuating income or unpredictable changes in circumstances," said Jarratt. "Another problem was some households simply did not report changes. These households continued to receive

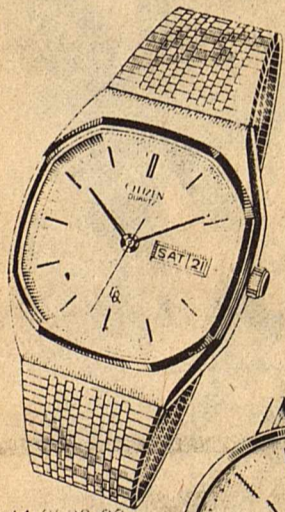

food stamps until the food stamp office learned of the changes or until their certification periods expired. The state then had to recover any food stamp losses." States must have the system in operation by Oct. 1, 1983. However, states that wish to use the new system before that time,

may do so after the interim rule has been published. Comments on this rule will be accepted until Sept. 22 and will be considered in developing final rules. Comments will be accepted by Christopher Martin, acting deputy administrator for family nutrition programs, Food and Nutrition Service, USDA, Alexandria, Va., 22302.

There will be dances each night with The Round-

ers playing July 2nd and 4th and George Chambers and The Country Gentlemen playing July 3rd.

The rodeo will be produced by Terry Walls, Stephenville, and sponsored by the Edwards County Fair Association.

## Texas Legislature Productive

The Texas Legislature deserves great credit for prompt action addressing major issues in a highly productive special session.

Within five days, lawmakers completed the emergency assignments for which I called them into session May 24.

The way finally has been cleared for relieving Texas property owners of a potential billion dollar tax liability. Voters will have an opportunity November 2 to adopt a constitutional amendment submitted to them by an overwhelming vote of the Legislature to abolish the 10 cent state ad valorem levy.

At the same time, \$451.4

million was appropriated for construction at the 17 state universities outside. The University of Texas and Texas A&M University systems. Revenues from the state property tax went to the 17 schools for their building programs until three years ago when the Legislature sought to repeal it. Some of the schools filed suit challenging constitutionality of the legislative act. The suit is pending.

Future building needs of these institutions will be considered in the regular session of the Legislature which convenes in just seven months. I am confident that a fair and equitable system will be developed for distributing available resources among these schools, some of which have been penalized by an outdated formula which fails to take into account recent enrollment growth.

In addition to providing for tax relief, the Legislature has appropriated more than \$50 million to ease overcrowding in out state corrections system and insure that our prisons remain open, meeting the strict criteria set down by federal court mandates while accommodating an unforeseen increase in the number of inmates.

Bulk of the prison preparation will go to accelerate building projects

existing way and adapt existing buildings for inmate housing. Funds for there were provided to hire an additional 657 guards and staff members in the prisons, to employ more parole commissioners and parole officers, and for the Texas Adult Probation commission to increase intensive supervision and to operate an additional residential treatment center.

Overall problems of our Criminal Justice System will be studied in depth by a committee which I am naming. Recommendations of this committee to the Legislature next January will assure long term solutions to the challenges faced by the Department of Corrections and the Criminal Justice System.

Corrections and the Criminal Justice System will be studied in depth by a

Overall problems of our Criminal Justice System will be studied in depth by a committee which I am naming. Recommendations of this committee to the Legislature next January will assure long term solutions to the challenges faced by the Department of Corrections and the Criminal Justice System.

The special session also approved these constitutional amendment proposals for submission to the voters in November:

-An exemption of farm and ranch tools and implements from property taxes.

-An increase in the maximum allowable interest rate on previously authorized state general obligation water and student loan bonds from six to 12 percent to make them marketable.

Legislators also corrected ambiguities and technical deficiencies in another proposed constitutional amendment to increase the ceiling on welfare payments to dependent children and those who care for them, from the current \$80 million a year to one percent of the total state budget.

I am proud of the work of the special session and of the speed with which it was accomplished.

As we have seen, there were those who resisted the session's being called and questioned whether its modest costs was worthwhile. These critics will have a difficult time supporting their position that a billion dollars in tax relief, major aid to our universities and prisons and the other matters given prompt attention during the last full week of May, 1982, were not suitable and justified subjects for a special session.

## Texas Senior Games At UT June 25, 25

There won't be any rocking chair races at the first Texas Senior Games to be held on the campus of The University of Texas at Arlington June 24-25, but there will be older Texans from all over the state to demonstrate that the spirit of competition never grows old.

Mrs. William P. Clements, Jr., will be on hand to kickoff the first statewide recreational competition ever held exclusively for any resident 50 years of age or older.

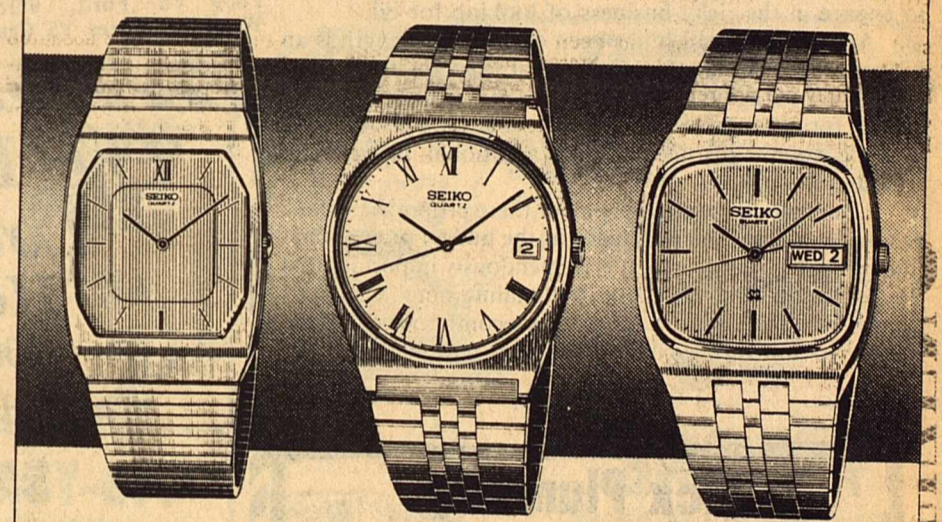

A broad range of events are scheduled which include track and field events, bridge, dominoes, golf, tennis, swimming, horseshoes, dancing, and much more.

Registration information may be obtained from: Hal Geldon, Texas Senior Games, Box 5431, Richardson, Texas 75080, (214) 231-6889.

Deadline for preregistration is midnight June 18. Late registration will be available, however, the entry fee will be \$5 per event in addition to any applicable facility fee and must occur by 6:00 p.m. the night before the event.

Sponsor for the games is the Texas Senior Games for Fun and Fitness in cooperation with the Texas Department on Aging, Governor's Commission on Physical Fitness, Texas Recreation and Park Society, Texas Amateur Athletic Federation, Dallas Morning News, Texas Area Agencies on Aging, National Retired Teachers Association, and American Association of Retired Persons.

## For Father's Day - Seiko Quartz. All elegance, and all the Seiko you need.

Seiko Quartz technology has mastered accuracy and a good deal more. So your Seiko can be a simple, elegant instrument of precision or a multi-function miracle of design. For the consummate bracelet watch, consider the spare, clean lines of our Ultra-Thin in gold-tone. Some of the more informative Seiko models, like these shown, offer date or bilingual English-Spanish day/date settings, and five year battery life. In gold-tone with white dial or gold-tone overall, all speak of the high art of Seiko Quartz.

# CAPITOL UPDATE

*John Tower*  
**U.S. SENATOR FOR TEXAS**  
 142 RUSSELL OFFICE BUILDING  
 WASHINGTON, D.C. 20510

When the Middle Eastern oil producing nations embargoed shipments to the United States in 1973, Americans suddenly realized the extent to which we had become dependent upon foreign suppliers for this vital resource. Everyone agreed we had to seek-sufficiency again, and the only way to achieve that goal was to increase domestic production. The energy industry had done a remarkable job responding to the challenge, despite continuing impediment imposed by the federal government in the form of natural gas regulation and the so-called windfall profits tax on oil. Now, however, many have been lulled into complacency by our temporary glut of oil supplies. As Congress looks for ways to raise revenues to reduce the federal deficit, proposals have been advanced which would subject the industry to additional taxes, handicapping an industry just now getting on its feet.

Certainly, I am concerned with the projected deficits and support efforts to reach a reasonable budget compromise which would include new revenue sources. However, I find it patently unfair that the energy industry should once again be singled out to supply a major portion of any tax increases.

Given the tremendous burden already shouldered by the industry as a result of the windfall profits tax, any further tax inequity would serve to inhibit domestic energy investment. In fact, I am concerned that ill-conceived tax measures could negate some of the advances we have made in our quest for energy independence.

The Finance Committee Subcommittee on Energy and Agricultural Taxation held hearings last week on several energy tax options. The one which are most distressing to me are across-the-board energy taxes, either in the form of an ad valorem tax on all fuels or a tax on fuels based on the amount of energy the fuel provides.

These taxes would be especially burdensome because they would have their greatest impact on space heating and cooling costs. These expenses are necessities and would hit hardest low-income groups already struggling to pay heating and cooling costs.

Another proposal would impose an excise tax on oil. However, the existing \$6.50 per barrel windfall profits tax actually is nothing more than an excise tax. To raise this tax level with another excise tax would be a severe blow to the industry.

Additionally, some have suggested denying intangible drilling costs and percentage depletion allowance deductions in calculating the corporate minimum tax. This tax is intended to apply to corporations which pay no taxes at all under regular corporate income tax calculations. However, all producers do pay the windfall profits tax. Further, these tax allowances were enacted because Congress realized that it needed to provide some incentive to encourage investors to engage in the risky business of looking for oil.

Another idea which has been discussed at length is an oil import fee. While this proposal at least has the advantage of encouraging domestic production rather than importing foreign supplies, it has potential adverse effects from possible supply disruptions and additional inflationary pressures.

Congress will be studying all of these proposals, as well as others that may be introduced as the budget process continues. During this debate, it is tremendously important that we remember the necessity for maintaining a healthy domestic energy industry, and not succumb to the temptation to enact ill-conceived taxes for short-term budget relief.

## Clements Tackles Crowded Prison Controversy

Saying "It's time to turn our full attention to seeking long term solutions to the problems of the prison system," Gov. Bill Clements announced that the parties of the litigation involving overcrowding of the state's prison.

"I am extremely pleased that we have finally been able to get all of the parties to the negotiating table," Clements said. "It is my hope that we will be able to conclude the lawsuit without need for further appeals to the federal courts."

Clements said participants in the settlement

talks are expected to include Brad Reynolds, head of the U.S. Justice Department of Corrections; attorneys for inmate plaintiffs; the State Attorney General's Office; representatives of the Houston Fulbright and Jaworski law firm which is assisting the Attorney General's Office; the Governor's general counsel and Vincent Nathan, special master supervising court-ordered prison reforms, who will be asked formally to call the meeting.

The Governor said Reynolds told him that plans to

form a blue ribbon task force to assess prison needs and recommend solutions to the 1983 Legislature impressed him as a good faith indication of the state's determination to address problems of the overcrowded Department of Corrections. Gov. Clements noted that he already has in operation two special study groups on overcrowding.

Gov. Clements has taken the lead in submitting legislation which addresses the problems of overcrowding. In May, a special session of the Texas Legislature approved over \$50 million in

funds to speed completion of new facilities to house a steadily-growing number of inmates. In 1981 Gov. Clements submitted emergency legislation providing \$35 million for three new prisons dormitories which are now nearing completion.

"I want to end this litigation as soon as we possibly can and channel the millions of dollars saved in legal expenses into continued improvements in our prison system," the Governor said. "We are going to turn our best efforts in settling it now." Contact: Mary Jane Maddox 512-472-1982.

## Andy Williams To Star At WTRC Crippled Children Project

Energy has been and still is the name of the game in this part of Texas for most of this century. The men and women of the industry are turning their energies toward raising \$750,000 in a unique partnership between the petroleum industry and the West Texas Rehabilitation Center. It is known as the Joint Venture for Crippled Children.

Andy Williams will be the featured entertainer when the West Texas Rehabilitation Center kicks off its Joint Venture for Crippled Children at the Abilene Civic Center on July 9. Past entertainers have included Bob Hope and Glen

Campbell, who have headline the dinner.

Andy Williams is an entertainer for all seasons. His warm personality, his loving care and taste in music and his graceful performing style has gained him the public's adoration in the full spectrum of the entertainment world...from recordings to personal appearances, from television to the concert hall, wherever people congregate to listen and enjoy musical and variety entertainment.

In the recording field, Andy has seventeen gold record albums to his credit.

Among the most successful Andy Williams released on the Columbia label have been: "Moon River" (1962), "Days of Wine and Roses" (1963), "Can't Get Used to Losing You" (1963), "May Each Day" (1963), "Almost There" (1964), "Charade" (1964), "More" (1964), "Dear Heart" (1965), "The Shadow of Your Smile" (1966), "In the Arms of Love" (1966), "Born Free" (1967), "Music to Watch the Girls by" (1967), "Happy Heart" (1969), "Love Story" (1971), and "Love Theme from 'The Godfather'" ("Speak Softly Love") (1972).

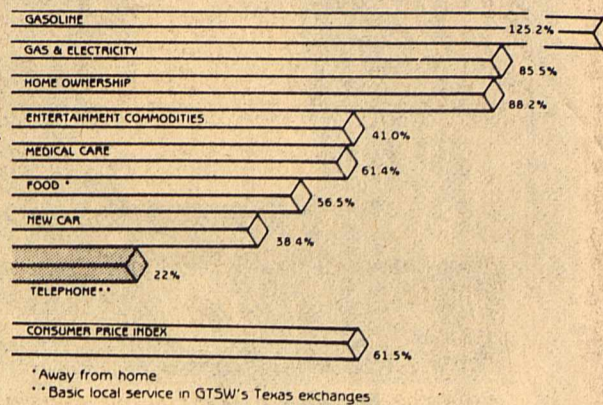

The West Texas Oil &

Gas Exposition will be held at the Abilene Civic Center on July 22-24 with the 4th annual JVCC Oilfield Equipment and Services Sale to be held at 1 p.m., Wednesday, December 1. There will be exhibits at the oil show featuring the unusual and specialized equipment and services of the oil and gas industry.

## YOUR TELEPHONE SERVICE - A REAL BARGAIN

All things considered, talking is a real bargain. The chart below shows how your telephone costs compare against other goods and services you use daily.

(Figures based on data gathered from U.S. Bureau of Labor Statistics from October 1976 to October 1981.)

\* Away from home  
 \*\* Basic local service in GTSW's Texas exchanges

Frequently, the convenience of the telephone is taken for granted.

For instance, a few things you use your phone for:

1. Shop ahead, save gas
2. Make appointments (doctor, sales calls, lawyer, preacher)
3. Emergencies (police, fire, ambulance)
4. Talking with loved ones in other towns
5. Conducting business via long distance, save on travel cost
6. Calling scout troop, civic club, little league team, etc
7. Visit with a friend across town

Talk is cheap and also a real bargain. For a true picture, divide your basic local service rate by the days in the month. For just pennies a day, excluding long distance and special services, you have your town at your fingertips.

### General Telephone GTE

"YOUR TELEPHONE SERVICE - A REAL BARGAIN"

# Western Art Show Slated In Stamford

A Collector's Preview featuring the works of thirty six of the top western artists in the nation is set for June 29 on the eve of the 52nd annual Texas Cowboy Reunion in Stamford.

Presented by the Stamford Art Foundation as a benefit for the West Texas Rehabilitation Center, the ninth annual Western Art Exhibit and Sale will

feature the multi-media works of the following artists: Wayne Baize, Cliff Barnes, Jodie Boren, Nancy Boren, George Boutwell, Garnett Buster, Bill Chappell, Penni Ann Cross, Tony Eubanks, Terry Gilbreth, Glenna Goodacre, Martin Grelle, Roy Grinnell, Jim Hamilton, Lee Hamilton, Alan Kinney, Ted Long, Clay McGaughey, Grant MacDonald, George B. Marks, Vel Miller, Bob Moline, Gary Myers, Scott Myers, Donald Putman, Betty Sabo, David Sanders, Harold Scott, Bill Shaddix, Robert Summers, Paul Tad-

lock, Ronald Thomason, Juan Dell Wade, Herman Walker, Don Yandell, and H.C. Zachry.

The Collector's Preview is set for 7:00 p.m. with sales to begin at 8:00 p.m. in the John Selmon Memorial Gallery on the Texas Cowboy Reunion grounds. Tickets for the June 29 Collector's Preview Cowboy Reunion grounds. Tickets for the June 29 Collector's Preview are priced at \$30 each and include a reception and chuckwagon dinner. Tickets will be available at the door with those wishing to

attend asked to make reservations by calling 773-3614 in Stamford.

As an additional feature, this year there will also be a special art auction in connection with a special quarter horse auction at 9:00 p.m.

Participating in the special art auction will be Wayne Baize, Terry Gilbreth, H.C. Zachry, Jim Hamilton, and Tom Ryan. Quarter horses from King Ranch, Inc., Bill Reed, J.E. Red Flow, Spencer Baize, W.T. Waggoner Estate, and Wedeking-Stevenson will be sold at the Quarter Horse Auction.

## Mrs. Trevlin Luttrell Honored For 4-H Activities

Three area 4-H leaders were among 29 in Texas honored at the 1982 State 4-H Roundup at Texas A&M University June 9.

Mrs. Trevlin Luttrell of Sonora and Dr. and Mrs. Edward J. Dick of San Antonio were recognized as the top adult volunteer leaders in the Southwest District of the Texas Agricultural Extension Service, Texas A&M University System. The Extension Service is the parent organization of 4-H.

Luttrell, who is an accountant assistant with the Texas Agricultural Experiment Station at Sonora, serves the Sutton County 4-H Club as a leader for clothing and foods and nutrition projects.

During her six years as a 4-H leader, Luttrell has given untrifling of herself to provide a firm foundation for the 4-H program in Sutton County. She has

also assisted with Extension programs in home economics due to the absence of a full-time county agent in that area.

She was responsible for planning and conducting the county 4-H food show this year which had the largest number of entries ever.

The past six years Luttrell has served as a project leader for 103 4-Hers in foods and clothing projects. She has also judged at the district 4-H food show the past three years and has been a member of the 4-H and Youth Committee of the Sutton County Program Building Committee. In addition she has served on the county 4-H awards committee and has chaired county 4-H food shows and fashion revues.

Luttrell also has been involved in the Sutton County 4-H Livestock Show and Horse Show, the Sonora Wool and Mohair Show

and the National 4-H Wool Judging Contest.

She is the incoming chairman of the Sutton County Program Building Committee and Chairs the Family Life Committee. She is also active in the Volunteer Fire Department and Women's Auxiliary.

Luttrell received the county 4-H Alumni Award in 1979.

Edward Dick is a veterinarian, and his wife, Nancy, serves as a receptionist at their place of business. The couple has served as leaders for the Hill Country 4-H Club and its 45 members for the past eight years. Their main areas of leadership have been in beef, sheep and swine projects and methods demonstrations.

Through the efforts of these two leaders, the Hill Country 4-H Club has more than doubled its membership over the past eight

years. They have provided training in various skills and character development and have boosted participation in a host of project areas, including method demonstrations.

Under the Dicks' leadership, 4-H members have captured top state awards in methods demonstrations and have also won awards in record books and the State 4-H Project Show. They have been winners in calf scrambles at the Houston and San Antonio livestock shows and have exhibited prize-winning livestock at these shows. Three members from the club have won Gold Star awards.

The Dicks also have produced a number of outstanding 4-H teen leaders from the Hill Country 4-H Club. Two of these have been selected to key positions with the San Antonio Rabbit Breeders Association.

## Clements Backed By Past Governors

Three former Texas governors--Allan Shivers, Preston Smith and John Connally--are endorsing Gov. Bill Clements' bid for reelection and will attend the Victory '82 dinner for the governor next week in Houston.

The former governors will join President Ronald Reagan and Vice President George Bush at the major fundraising dinner Tuesday evening in the Albert Thomas Convention Center in Houston. The presence of Governors Shivers, Smith and Connally will highlight their endorsements of Gov. Clements.

"Gov. Clements' hard work and the fact that his administration has been one of upmost integrity should alert all Texans that we need Bill Clements for another four years," Gov. Shivers said. "I expect Bill Clements will be recognized as one of the greatest leaders this state has ever had," Shivers noted.

Gov. Connally said, "The vision shown by Bill Clements in his first term is essential for Texas. Because of our current growth patterns long-range planning is absolutely imperative as we move toward the year 2000." He added, "I believe Gov. Clements is the man we must have to lead us in the 1980's."

In his endorsement of Gov. Clements, Gov. Smith said, "He deserves another four years in office to

continue the important programs which he has begun. It matters not whether people have traditionally voted Democratic. We need Clements. I am convinced his second term will show even more progress for our state."

Gov. Clements said, "I am honored to have the endorsements of Governors Shivers, Smith and Connally. We share a bond in our belief in the Texas tradition of independent conservative government. I cannot remember in my lifetime when three former governors have banded together to enthusiastically support a gubernatorial candidate and I'm grateful to them."

The Tuesday night dinner is the primary fundraiser of Gov. Clements' campaign. The dinner is being organized by Walter Mischer, Houston busi-

nessman and longtime leader in Texas political activities. Vice-chairman for the dinner is Robert H. Dedman of Dallas. Contact: Mary Jane Maddox 512-472-1982.

## Big Reward For Oilfield Thieves

An aggressive campaign against oil field thefts in Texas has begun with the installation of a new permanent statewide hotline. The Petroleum Industry Security Council is offering a reward of up to \$5,000 for information leading to the arrest and indictment of persons suspected of stealing crude oil or oil field equipment, or for information leading to the recovery of stolen oil field equipment. The new toll free hotline number is 1-800-654-2677 or 1-800-OIL-COPS.

Chartered as a non-profit corporation in January 1982, PISC was formed by petroleum industry associations in an effort to provide organized support to law enforcement in combating oil field crimes. The hotline is just the first step in a comprehensive program to reduce the oil industry's estimated \$100 million theft losses in Texas. Headed by

Ed Richards, the former Investigator General of the Texas Department of Human Resources and Department of Public Safety officer, PISC plans to develop a uniform marking system for oil field equipment, theft prevention programs for the industry, and a computer backed theft reporting and inquiry system. PISC also plans to place experienced criminal investigators across the state to cooperate with and support law enforcement efforts to reduce the theft problem.

The new hotline will replace the oil field theft hotline operated by North Texas Oil and Gas Association and supported by other petroleum industry associations. The old number, 1-817-723-1114, will cease operation on June 6. Any citizen having information about oil field theft is requested to call the PISC hotline or write: P.O. Box

15392, Austin, Texas 78761. Citizens are not required to reveal their name, just provide the information and they will be assigned a code number for identifica-

tion. Richards says citizens should call 1-800-OIL-COPS and help reduce oil production costs by stopping the oil field thefts

## by Hazel McClelland

The Sonora Sewing Bee met with Mrs. Grace Allen. Cookies, sweet rolls, coffee and orange juice were served. The club all sews on what each member wants to make. They all went to Eldorado for lunch. Those present were Mrs. Joan Cusenbary, Liz Hemphill, Lucille Coleman, Midge Shurley, Bernice Savell, Vicki Shannon, Julie Polard and Peggy Dover.

The Idle Hour Bridge Club met Tuesday with Mrs. Lena Belle Ross, hostess. Members present were Mrs. Belle Steen, Davie Taylor, Guila Vicars, Robert Halbert, Elizabeth Cusenbary, Ada Wynn, and W.T. Hardy. Mrs. Rena Elliott was an attending guest.

Mrs. Taylor won the high score prize and Mrs. Steen won the second high score. The Bingo prize.

A salad plate was served. Mrs. Juanita Gandar has had surgery in the Community Hospital in San Angelo. Glad you are doing better, Juanita.

Frank and Fred Adkins were business visitors at Amistad Lake Wednesday.

Mr. and Mrs. John McClelland were in San Angelo Thursday for John's doctor appointment. We are glad you are better, John.

Mrs. Dean McLain and daughter Melinda are visiting in Del Rio Wednesday. Dean McLain was in Midland on a business trip.

Steve and Charlotte Clodselter were honored with a shower June 11 at the home of Mr. and Mrs. Bob Teaff. Other hosts and hostesses were Mr. and Mrs. Lawrence Finklea, Mr. and Mrs. Louie Trainer, Mr. and Mrs. George Brockman, Dr. and Mrs. David Owensby, Mr. and Mrs. Tommy Thorp, Mr. and Mrs. Nelson Stubblefield, Mr. and Mrs. L.D. Holmig, Mr. and Mrs. Willie Miers, Mr. and Mrs. Lano Thompson, Mr. and Mrs. Don Grider, Mr. and Mrs. Elton Holt, Mr. and Mrs. Bill Stewart, Mr. and Mrs. Richard Olsen, Mr. and Mrs. Raymond Morgan, Mr. and Mrs. Don Alexander and Mrs. Anna Rose Gillit.

Sandwiches, relish dish, dips, cookies, punch and drinks were served to 100 guests. Mr. and Mrs. Joe Ed Harrell, Lano Thompson, Corky Schweining, Reed Albritton, Bob Teaff, Mrs. Lawrence Finklea and Larry Finklea have returned from a fishing trip on the Devil's River.

Mr. and Mrs. Marion Smith and Lee and Mr. and Mrs. Eschverger and Kevin visited Mrs. Smith's parents, Mr. and Mrs. Louie Trainer, the past weekend for the Jr. Rodeo.

The children of Mr. and Mrs. John Eaton and their spouses recently honored their parents with a family dinner in Salado at "The Stage Coach Inn." The event marked the couple's

golden wedding anniversary.

John D. Eaton and Ruth Lee Hoggett were married on June 5, 1932 in Sutton County at the ranch home of Mrs. Eaton's sister and brother-in-law, Mr. and Mrs. W.L. (Tom) Davis.

The Eatons have two children, Mrs. Gene Groom of Fort Worth and Col. John D. Eaton of Fort Hood. There are five grandchildren.

In Sonora, where Eaton has lived since 1913, he was associated with his father, the late J.D. Eaton in light water and ice making business. After World War II, Mr. Eaton established "Eaton Electric." He retired in 1968.

Mrs. Eaton was employed as an insurance secretary in the Davis Insurance Agency for thirteen years. After working for Web Elliott Agency for three years, she retired in 1972.

For many years, Mr. Eaton was a Scout Master in Sonora, and was presented a twenty year service award by the Boy Scouts of America for service in scouting beginning in 1928.

Mr. Eaton is an active charter member of Sonora Lions Club and a past master of the Masonic Lodge.

Mr. and Mrs. Eaton are members of the Church of Christ where he has served as an elder. They were honored guests at a fellowship dinner Sunday held at the church marking fifty years of marriage.

## Paula Friess And Marche Lane Honored At Tech

More than 2,200 students at Texas Tech University qualified for the dean's honor rolls in the university's six colleges during the 1982 spring semester. Students making the honor roll included the following from Sonora:

Paula A. Friess, 207 Del Rio; and Marche Lane. To qualify for a dean's honor roll, a student must have a grade point average of 3.5 or more a 4.0 scale and must have taken 12 hours or more of classes. Texas Tech has an enroll-

ment of almost 23,000 students in six colleges: Agricultural Sciences, Arts and Sciences, Business Administration, Education, Engineering and Home Economics.

### Jerry Schuder Reassigned

Chief Warrant Officer Jerry W. Schuder, son of Preston and AltaRaie Schuder of Sonora, Texas, has arrived for duty at Fort Stewart, Ga.

Schuder, an evacuation pilot, was previously assigned at Hunter Army Airfield, Ga.

He is a 1967 graduate of San Angelo Central High School, Texas.

### Sheffield Old Timers

The Sheffield Old-Timers union will be held June 18-19. Some of the festivities will include an old fashion get-together dance Friday, the 18th, a parade on Saturday, the 19th, starting at 10:00. A catered lunch of bar-b-q beef and sausage will be served Saturday. Everyone is invited. For further information contact Mrs. Dick Collett. (915) 836-4369.

**Gold - Murphy Engagement Told**

Mr. and Mrs. Ottis Gold of Grand Junction, Colorado, formerly of Sonora would like to announce the engagement of their daughter Janie to Brad Murphy of Beaumont. He is the son of Mr. and Mrs. Johnny Murphy of Refugio, Texas. Janie is a graduate of Sonora High School and has had 2 years of college. Brad

is a graduate of Refugio High School and a graduate of South West Texas State University in San Marcos. He is currently employed in Beaumont. The wedding will take place at "Our Lady of Refuge" Catholic Church Refugio on August 21st at 7:00 p.m. Janie is also the granddaughter of Mrs. Tennie Gold of Sonora.

## Sutton County Men Honored

Two Sutton County men with the State Department of Highways and Public Transportation (DHT) were honored recently with the presentation of Certificates of Service and Lapel Emblems.

Juan A. Castro was presented a 15 year award and Jesus Gutierrez received the 10 year recognition. Both men work in the maintenance section in Sonora for Maintenance Con-

struction Supervisor Louis Olenick.

Juan A. Castro is described as a good worker who started his DHT career in 1967 as a mower operator and has worked up to his present position of Maintenance Technician III and is the main mechanic and welder for the section. Juan has also received a three year safe driving award.

Mrs. Castro (Anna) and

Juan have two sons, John David and Joseph and one daughter, Terri. They are active members of St. Ann's Catholic Church.

The hobby Juan enjoys the most is fishing.

Jesus Gutierrez began his career in 1972 as a general maintenance man and now has the title of Maintenance Technician II. He is a mower operator and truck driver. Jesus has received a six year award

for no lost time injury. Jesus is single and belongs to St. Ann's Catholic Church. He likes to relax while fishing.

Charlene Carr, Administrative Technician III, from San Angelo, made the presentations which were accompanied by letters from District Engineer D. R. Watson, congratulating them on their long service with the Department and with wishes that "their continued service would be pleasant and productive."

## Hospital Costs Lower In Texas

Hospital costs in states with mandatory rate controls continue to be higher than those in unregulated states such as Texas.

That finding was the result of a recent study by ICF, Inc., a private research and consulting firm. The study, sponsored by the Federation of American Hospitals—the trade association of investor-owned hospitals—shows per capita hospital expenditures in 1980 were \$375 in the regulated states, compared to \$332 in states without mandatory controls. "In

Texas, the 1980 per capita hospital cost was only \$286, more than 16 percent below the national average," stated O. Ray Hurst, CAE, President, Texas Hospital Association.

While the average annual growth rate in per capita expenditures remains slightly higher in unregulated states—13.7 percent versus 13.6 percent in 1980—the difference between the growth rates has declined from 4.3 percentage points in 1978 to .1 of a percentage point in 1980, according to the report. The

study indicates that several rate-setting states (Connecticut, Maryland, Massachusetts, New Jersey and Wisconsin) have consistently shown higher growth in per capita hospital expenditures.

Hurst continued by saying "Although per capita expenditures for hospital care are an important social indicator, the hospital industry most frequently examines the cost per admission. That data also shows that Texas has consistently achieved a level

that is 20-25 percent below the national average with rates of increase closely paralleling the national figures."

THA is the Austin-based trade association for hospitals with over 800 institutional and 4500 personal members.

## School Lunch Program To Be Reviewed

In an effort to ensure that school lunch benefits go only to those legitimately entitled, the U.S. Department of Agriculture is proposing that states verify the information on a sampling of applications for free and reduced price lunches and breakfasts.

The rules, implementing the Omnibus Budget Reconciliation Act of 1981, were issued along with a companion proposal clarifying the specific information parents must provide.

"Congress initiated these changes because verification will greatly im-

prove the integrity of the school feeding programs," said Mary Jarratt, assistant secretary for food and consumer services. "We are very concerned about the

potential abuse in the school lunch program that can be caused when parents underreport their incomes on free and reduced price meal applications. We believe this regulation strikes the balance between the need we have for increased accountability without imposing excessive paper requirements on school officials," she added.

Under the verification proposal, state agencies are required to ensure that for school year 1982-83, a minimum of 3 percent or 3,000, of all applications for free and reduced price lunch, whichever is less, on file in each school food authority are verified. Verification procedures will be at state and local discretion.

"This proposal will provide a way to counter abuses in the current free and reduced-price application system," Jarratt said.

The companion proposal clarifies the information required on the application forms, including the re-

quirement that parents must provide social security numbers for household members that are at least 21 years old.

Previously, applications for free and reduced price meals required only family size and income information. School districts could verify the information only if they could show they had reason to suspect it was false or erroneous.

The Omnibus Budget Reconciliation Act of 1981 requires that applications include the social security number of all adult house-

hold members and requires USDA to set up standards for schools to document the information on the applications.

The proposals, published in two regulations, are scheduled to appear in the May 25 Federal Register. Comments on the revised application procedures rule are due by June 24 for consideration. The comment period for the verification proposal extends through July 26.

Comments will be accepted by Stanley C. Garnett, school programs division, Food and Nutrition Service, USDA, Alexandria, VA 22302.

## ICA Hits

## Wetback Program

Independent Cattlemen's Association President Roy Wheeler today contacted members of the Texas Congressional delegation asking that they not support pending legislation levying stiff fines on employers hiring illegal aliens. The legislation sponsored by Senator Alan Simpson of Wyoming and Rep. Ronald Mazzoli of Kentucky was recently reported out of committee and will soon be considered by Congress.

Wheeler explained the legislation requires an employer establish the citizenship of all his workers, including temporary employees, before hiring. If illegals are hired, the employer could face stiff fines of up to \$2,000.

"Such requirements would be resented by workers, encourage discrimination and lend themselves to fraud," Wheeler insisted. He suggested that a far better process of combating employment problems would be to arrange a federal bracero program, strengthen funding for the border patrol or tighten visa eligibility.

Wheeler concluded that it's difficult to believe that the government is placing immigration liability on employers when they have refused to properly consider a bracero program and hire more people to police Capitol Hill than they hire to police the entire U.S. borders.

## 1982 Spring Mohair Clip Sells At A Rapid Pace

Still the diamond fiber, mohair clip went on sale at warehouse across the state following spring shearing and by early June was mostly sold and on the way to mills. In comparison, wool tonnage movement has been slower, especially for the short wool.

In visiting with Beve DeMotive, buyer for A.C. Wood and Sons, Ltd., and Wm. Bussey Ltd., I learned most of the Texas mohair

has been cleaned out. "There is probably less than one million pounds left in the entire state." With the Texas production around 25 million pounds annually, that means there is only a pocketful left in warehouses.

A mohair sale in Uvalde recently cleared about two thirds of roughly 150,000 pounds offered. Average

and plain adult brought \$2.40, young goat \$2.80 to \$3.70, kid hair \$4.40 to \$5.88. Bids on better adult hair were turned down.

The U.S. produces 60 percent of the world's mohair, and 97 percent of the U.S. clip is produced in Texas. Having grown up on an Angora ranch in the Hill Country, I can say first Edwards Plateau.

Now that summer has arrived, registered Angora buck sales will take place in the Junction and Rocksprings areas. Kimble County Goat Breeders Sale and the Stanley Lackey Dispersal Sale is scheduled for July 24 at the Lackey Ranch, 16 miles west of Junction.

Robert and Jean Ebeling will offer 100 registered

Angora goats in a sale July 19 at Junction Stockyards.

The Second Annual Performance Tesated Angora Sale will be July 8 at the Sonora Experiment Station.

used in the times of Moses. So, I would say the industry has come a long way and now, more than ever, mohair is the diamond fiber.

Mohair was one of the primary textile fibers of early mankind and was

## Supplemental Food Program Strengthened By U.S.D.A.

Final regulations issued May 28, 1982, will strengthen the food delivery system in the Special Supplemental Food Program for Women, Infants and Children (WIC) according to Mary Jarratt, U.S. Department of Agriculture's assistant secretary.

Most people eligible for the program receive monthly vouchers valued at about \$28.00 which they redeem at grocery stores. The vouchers are good for specified foods, such as: milk, cheese, cereal, juice, eggs, and dry beans or peanut butter.

"The regulation is one component of a multi-phase effort by the Food and Nutrition Service to improve WIC food delivery systems. This effort includes comprehensive management initiatives and improved technical assistance to states, such as aid in developing computer systems. By preventing vendor abuse and errors, we can ensure that as many participants as possible receive nutritional assistance," Jarratt said.

Proposed rules were issued on January 23, 1981, for public comment. The final rules were developed by USDA's Food and Nutrition Service after consideration of 159 comment letters and extensive discussions with state, local, and regional offices.

monitoring and training requirements; allowing the states to limit the number of authorized vendors; mandating more detailed vendor agreements; and allowing states to retain up to half of the funds recovered from vendor claims to be used for administrative purposes.

## Wool and Mohair Producers To Receive 42.9% Subsidy

According to Everett Rank, administrator of the U.S. Department of Agriculture's Agricultural Stabilization and Conservation Service, sheep producers in the U.S. will receive about \$41.9 million in federal incentive payments on wool sold in 1981. Mohair producers will receive about \$1.6 million.

The 1981 national average market price for shorn wool was 94.5 cents a grease pound, which was 40.5 cents less than the \$1.35 per pound support price. Dividing the difference by the average market price results in a 1981 payment rate of 42.9 percent. This compares with the 39.6 percent payment rate of 1980. The wool grower will receive 42.9 percent of the price he sold his wool for in 1981.

related market development activities handled by the American Sheep Producers Council.

The support price for wool in 1982 is \$1.37 per grease pound and for mohair \$3.97.

## Boots And Coots To Entertain At WT Oil And Gas Exposition

Dick Bowen, president of DB Drilling Company, and chairman of the Joint Venture for Crippled Children committee, announced that special guest speakers at the West Texas Oil and Gas Exposition in Abilene will be "Boots" Hanson and "Coots" Matthews, and M.B. "Duke" Rudman. Hanson and Matthews are partners in the famous oil well firefighting and blowout specialist firm of Boots and Coots, Inc., of Houston, Texas, while Rudman is a well known independ-

ent oil and gas producer from Dallas, Texas. The speakers will appear during a JVCC dinner for the public at 7:30 p.m., Thursday, July 22, at the Pavilion of Fairway Oaks Golf and Racquet Club. Tickets for this affair are \$10 each. Reservations can be made by calling the Central Office of the Rehab Center. Boots and Coots and Mr. Rudman are expected to attend the Exposition. Boots and Coots, Inc., was formed in January 1978, bringing together over 46 years of fire fight-

ing and blowout control experience they had learned from Myron Kinley, the pioneer of the oil well fire fighting business, then later while working as lead men for the famous "Red" Adair Company. They personally have capped and controlled more than 900 wells throughout the world during almost three decades. "Boots" and "Coots" and their staff of nine, each a specialist in various parts of the industry and well-versed in battling oil well fires, form a team that has

"total system capability" in performing their dangerous work. Rudman, a Bonham native, began his career with his father in 1931. He became an independent producer by unplugging and bringing in wells on leases already drilled and abandoned by major companies. Last year, he participated in almost 200 wells. Today, his operations range from Florida to Washington state and from the Texas Gulf coast to Canada.

During World War II, Rudman organized a group of acts (including a comedy act of his own) and toured military hospitals. Today, he is a sponsor of the St. Paul Industrial Training School at Malakoff and is a dedicated worker for underprivileged children. For more information about the Joint Venture for Crippled Children events, contact the Central Office of the West Texas Rehabilitation Center, 4601 Hartford, Abilene, Texas 79605 or call 915-692-1633.

## Gas Production Down In February

Railroad Commission Chairman Jim Nugent announced that Texas Oil and Gas wells produced 490,786,592 Mcf of gas in February 1982; down 4.52 percent from field runs a year earlier. Marketed gas production totaled 418,038,756 Mcf and reflected a 4.96 percent decrease from the February 1981 volume. Marketed production is the total gas to transmission lines, car-

bon black and plant fuel and lease use. Gas exported from Texas in February totaled 276,910,150 Mcf. Natural Gas Pipeline Co. of America was the month's largest exporter, moving 75,619,368 Mcf of gas of which 37,144,697 Mcf was Texas-produced gas. Exports of Texas-produced gas in February totaled 196,879,171 Mcf

and reflected a 6.31 percent increase from 233,379 oil and gas wells. Texas gas production in January 1982, Texas wells produced 554,272,205 Mcf of gas. Marketed gas production in January totaled 216,047,170 Mcf

## Highest Collections

State Comptroller Bob Bullock said Monday that state tax collections topped a billion dollars for the month of May, the highest monthly total in Texas history. The \$1,013,475,464 deposited in the State Treasury during the month was nearly \$100 million more than last May's deposit and \$25 million above the previous high deposit of \$988 million that Bullock put in the Treasury in February.

Bert Wallace, director of the Comptroller's Revenue Processing Division, said he has expected tax collections to top the billion dollar mark for several months. Monthly collections during 1982 have been running about 20 percent higher than last year's, Wallace said. The month's total passed \$1 billion with the Comptroller's final May deposit to the Treasury on the 28th, Wallace said.

## Jim Collins Hits Irresponsibility

"Our country needs a balanced budget," challenged Congressman Jim Collins as the House of Representatives debated the 1983 budget. "The deficit spending policies of the past 50 years that have allowed entitlements payments to increase 742 percent since 1967 must be halted if we are to put our nation back on the road to economic recovery."

By 1980, federal spending had skyrocketed to almost \$600 billion. We did not have a single balance budget in the '70's," Collins pointed out. "Our deficit spending has swelled the national debt of over \$1 trillion. The federal government is crowding private business out of the capital markets by borrowing money to cover its \$100 million in interest payments on that huge debt."

Today, Congress made important spending cuts in the federal budget by adopting the Latta substitute budget. "I supported the Latta Substitute because it yielded deficits \$8.2 billion lower than the best alternative. But because we would still be left with an intolerably high \$99 billion deficit next year, I opposed final passage of the budget reduced outlays over the next 3 years by \$298 billion. It reduces the deficit by \$80 billion in FY '83 and \$393 billion between '83 and '85. Overall, the Latta Substitute achieves \$60 billion in budget cuts or 75 percent of the President's FY '83 budget package.

Collins warned his colleagues that the fight for budget control must continue: "Today, over 77 percent of the budget is uncontrollable. In FY '83, \$35.9 billion, or 46.8 percent of total budget outlays, will be allocated to entitlements programs. 35 percent of our FY '83 budget outlays, or \$362 billion, go for income security programs which have grown from 2.7 percent of the gross national product in 1957 to 7.6 percent of GNP in FY '83.

"The President has shown courage in attacking the problems of our economy. In 1970, the federal budget was only \$196 bil-

lion. America today is like a sinking ship in a stormy sea. If you're taking in more water than you're letting out, you're still sinking. We have got to patch up our ship of state by balancing the budget and ending deficit spending once and for all."

ONCE WON'T HURT?

Young people often think of shoplifting as a caper. They may believe that even if they're caught, the store owner won't prosecute—especially for a first offense.

This is definitely no longer true, if it ever was. And as more and more stores tighten their security systems, the chances of getting caught have increased dramatically.

Shoplifting is not just a harmless caper. Shoplifting is a crime! In fact, if the retail price of stolen merchandise exceeds \$100, shoplifting is a felony for which you may be severely fined or even go to jail.

Shoplifting is not just a legal problem for those who get caught. It is also a moral problem. It violates the moral injunction, "Thou shalt not steal."

A helpful booklet called "Danger—Hands Off!" gives information about shoplifting and its consequences and offers advice about how to cope with this problem. For your free copy of this booklet, write to: International LLL, 2185 Hampton Ave., St. Louis, Mo. 63139.

The first electric shavers were ready for sale in 1931.

NO OFFENSE

I do not wish to offend anyone but due to the cold hard facts of finance I'm forced to stop ALL credit. This is not because anyone's credit was not good. It's because I want to and intend to pay all my creditors on or before the 10th of each month as of this statement. For this reason alone, I shall discontinue ALL charge accounts at PERKINS AUTOMOTIVE AS OF June 15, 1982.

DO YOU KNOW?

A recent national public opinion survey reveals that 55 percent of the public erroneously believes that nuclear energy plants expose the population to more radiation than other natural and man-made sources.

In fact, a two-year study by the Electric Power Research Institute shows that radioactive material concentrations from power plants are negligible. Dozens of soil, vegetation and air samples were taken from the areas around four nuclear energy plants.

No evidence of vegetation contamination was observed near any nuclear plants during this study. The small amounts of radioactive materials found in air downwind from the plants did not come from the power plants but from weapons testing fallout. Finally, the amount of radioactive material found in the soil and determined to be from the plants was about 9,000 times lower than limits proposed by the U.S. Environmental Protection Agency.

In sum, concentrations of radioactive materials from nuclear energy plants were entirely insignificant in terms of radiation dose considerations.
