Powers to compete in National Finals

Houston Powers, son of Mr. and Mrs. Jimmy Powers will be competing in the National High School Finals Rodeo in Rapid City, North Dakota July 24th through the 29th. Houston qualified for the State Finals during the Regional Finals held at Fort Stockton May 12th and 13th in Steer Wrestling and Calf Roping. The State Finals were held June 18th, through the 24th, at Sequin, Texas where Houston qualified for the National Finals in Steer Wrestling.

Although Houston comes from a background of Pro Rodeo Participants, a great part of credit goes to the Sonora Athletic Program for his physical conditioning and his determination to win. Houston has signed a letter of intent to attend Southwestern State Junior College in Uvalde after receiving numerous offers from other colleges. Southwestern State Junior College is the National Intercollegiate Champions of the United States in the National Intercollegiate Rodeo Association (NIRA).

Emergency Response System provides senior citizen lifeline

Through a combination of modern medicine and electronic technology has come the answer for many elderly persons struggling to maintain their independence. The Emergency Response System now being instituted in Sutton County will assist many of those persons to remain independent by providing peace of mind in emergency situations. A cordless transmitter worn on the wrist or around the neck will transmit an alarm at the Sheriff's office in case of emergency. The center will be manned 24 hours a day by dispatchers who will immediately try to reach the individual by telephone to see what help is needed. If no answer is received from the person in distress, a "responder" will be sent to the home. A responder is a person that the individual selects in advance -- a friend, relative, neighbor or anyone else chosen to be called in the event of an emergency.

The responders, who are backed up by emergency medical technicians, police, and firefighters, then signal the Sheriff's office to determine if additional help is needed upon arrival at the home. According to program coordinator Marlene Evans, the equipment for the Emergency Response System is now on order, and the telephone lines, so necessary for the system, are being installed. A tentative date for the implementation of the program in Sutton County has been set for August 24. A candidate for the program would fall into three categories, medically vulnerable, socially isolated, and physically handicapped. The Devil's River News will continue to bring information on this vital service to our readers, and will be continually updating the public on the system as it is installed.

Jim Stephen to participate in Festival

For over 200 years the Flintlock gun was the standard weapon in every country. The need to protect one's home and procure food for the family was a way of life for the early settler. As the westward movement of the early 1800's began the need for skilled workmen to build and repair weapons was evident. The craftsmen followed the settlers to provide services needed to improve life. The Texas Folklife Festival recreates the history of Texas through its people. Jim Stephen, a local minister and pastor of the First Baptist Church of Sonora is involved in the festival as a muzzle loading gunsmith. He will have a display of muzzleloading rifles and the equipment to build them. The team consists of the Jim Stephen family, Judge H.E. Resley of Fort Stockton, Texas, who at 87 is one of the oldest and "The Best" barrel makers in Texas, and the U.S., and George Grubb Jr. of Fort Davis. This group will demonstrate the procedure of building to recreate a weapon of the same type and built the same way that they were 200 years ago. They also demonstrate the carving and engraving of these weapons. Much interest in Black powder shooting has occurred since the early 60's and the Civil War Centennial to the extent that Muzzleloading is one of the fastest growing sports in the Country. Jim builds the guns from "scratch", not using kits. Barrels are made by barrel makers who specialize in that work and the blank piece of wood is cut, carved, scraped, and sanded to shape. The individual parts are fashioned and fitted then finished, the end product taking between one and two hundred hours. Of course, Jim cannot build a rifle during the festival but he has several in different stages of completion to show and demonstrate the way it was done. The Stephen's are a part of the nearly 6000 people who represent 30 different ethnic groups who shape Texas' past and present and share their history and heritage with some 100,000 visitors. Folklife Festival attractions include music, dancing, games, crafts, demonstrations, hand-on activities and an international menu of authentic ethnic cuisine. Through the Festival's many demonstrations of pioneer crafts and skills, visitors can see what was all in a day's work for early settlers as they see and participate

in pioneer "chores" such as shingle splitting, chair caning and soap making. Ten Festival stages continuously showcase the talents of more than 100 performing groups and entertainers. At the Texas Folklife Festival the list of things to do, see, hear, taste, and touch is virtually limitless! For more information or to obtain tickets, contact The Travelers III, 403 Hwy 277 N in Sonora or call 387-2586.

Courses approved for continuing education

Due to an interest expressed by many Sonora residents, Sonora Independent School District Assistant Superintendent Mario Sotelo has been in contact with Texas Tech University to provide continuing education courses for residents of our community. Ed CI 5318 - Introduction to Small Computers in Education and Ed SE 5192 - Advanced Educational Workshop in Secondary Education are the two courses approved by Texas Tech for instruction in the fall. Details concerning tuition, time, and meeting places will be forthcoming from the school administration office. The facilities of Sonora ISD will be used in offering these courses to the public, and the school administration office will keep us up to date on all details.

Hollingsworth named Perry's manager

Rayburn Hollingsworth, an east Texas native has been appointed manager of the Perry's Department Store here in Sonora. His appointment follows the resignation of Wally Padgett from that position. Ray, as he prefers to be called, moved his wife Vivian and three children Jasen, Rebecca, and Misty Ray from Frankston where he has been employed by Perry's for the last eight months. Prior to employment by Perry's,

SISD Board prepares for implementation of HB 72

BY BECKY COLLINS

The board of trustees of the Sonora Independent School District convened in regular session July 10 at 7 p.m. at attend to a number of items on the agenda. Following the call to order by board president Johnny Fields and an invocation by superintendent James Bible, the board approved minutes of meetings held during the month of June. Accounts payable in the amount of \$122,550.45 were approved for payment by the board. A financial update of the current assets of the district was made by the district's business manager, Warren McCarson. McCarson reviewed with the board the approximate amount of budget expenditures and revenues for the remaining portion of the 1984 fiscal year. He had prepared a statement of these figures for the board and each member was presented with a copy. Superintendent Bible presented a report on the summer maintenance program now underway in the district's facilities. Several projects have been undertaken by the district in order to update and maintain the facilities. CVAE instructor Reggie Williams reported to the board that the house his classes had undertaken as a project last year was nearing completion. The three bedroom home with a carport and storage shed was built for an approximate cost of \$25,258 to the district. Biology teacher Don Sessom and family will reside in the home once it has reached completion. Williams commented that there will be some changes in the construction program for the coming school year. He noted that some of the jobs which had delayed completion by the students would probably be sub-contracted on this year's project. He also noted that construction of the project would be started earlier this year to enable the students to see the completed product of their efforts. District Maintenance Supervisor Max Hardegree reported to the board on his "battle" with the weeds that had taken over much of the turf of the football and practice fields. His department has been using various methods of weed control to contend with the weeds, and are seeing some improvement in the situation. Assistant superintendent Mario Sotelo reported to the board that he had received no reply to the letter that he sent to Apple Inc. concerning the price jump of computer equipment that the board had agreed to purchase. The board reviewed the letter and expect a

reply from Apple to be forthcoming. Carl Teaff, Kenneth Cayce and Dr. Johnny Fields were chosen to comprise a building committee for the construction of the new high school. The three member committee is authorized to make very minor changes in construction of the facility. The board also reviewed the timetable for budget hearings and workshops in preparation for the implementation of House Bill 72 relating to education reform. On July 25, the board will attend a workshop in San Angelo from which they hope to gain further insight into the implementation of the new bill. The budget meetings will begin July 30 with another meeting August 7, and a meeting with oil company representatives August 9. The group hopes to adopt the budget for the next fiscal year at the August 14 regular meeting. The job description for an assistant mechanic for the district was approved with the stipulation that the applicant know how to fill out the maintenance forms for the equipment. Teaff and Cayce were selected to represent the SISD at the TASB convention in September. Lolabeth Jones, director of food services for the district, appeared before the board to request a five cent increase in the price of school lunches. In order to provide a better balanced and more tasteful menu, she maintained that she needed more operating money. The board denied the request for an increase in the meal price, noting that the increase would not amount to much. The board agreed to provide an additional \$15,000 in the budget for the cafeteria. Bids for conversion of the elementary auditorium into a gymnasium were opened by the board. Two bids were presented to the board, one for \$28,035.95 from Concho Construction Co., and also a bid from Arturo Sanchez Welding and Construction for \$26,750. The board approved the bid from Sanchez welding which, besides being the lowest bid, promised the most prompt completion date of the job. Sanchez promised a 14 day completion date, making the conversion complete August 13 with school set to begin August 20. Three bids were opened by the board for the re-wiring of the district's apartments on Castle Hill Road. Westbrook Electric of San Angelo submitted a bid for \$7,400, C and S Electric of Sonora for \$8,934.75, and Ken's Electric of Sonora for \$3,872.46. Ken's Electric was awarded the job by the board as he had the lowest bid.

Jim Stephen practices gunsmith craft

Gramm sets press conference

U.S. Rep. Phil Gramm, candidate for the U.S. Senate, will attend a press conference for Sutton County media at 8:30 a.m. Tuesday, July 31 at Joe Berger Field in Sonora to discuss his candidacy for the U.S. Senate. Gramm is best known for co-authoring the Reagan economic recovery program, and for resigning from Congress and winning re-election as a Republican after Tip O'Neill stripped him of his Budget Committee seat in reprisal for his successful efforts to control spending. The congressman, who won the Republican nomination with an extraordinary 73 percent of the vote against three opponents who spent a total of \$4 million, said Texans deserve an issue-oriented campaign in the general election race for the U.S. Senate this year. "The people of Texas face a clear choice between two dedicated advocates of distinctly different philosophies of government," Gramm said. "I have spent six years in Congress working for a balanced budget, lower taxes, greater economic opportunity for the working people of this country and a strong defense. My

opponent has consistently demanded higher taxes, more spending and less defense." Where Congressman Gramm introduced a balanced budget amendment to the Constitution on his first day in Congress--Jan. 3, 1979--Lloyd Doggett voted against the resolution adopted by the Texas Legislature which urged approval of the balanced budget amendment. Doggett also has opposed the balanced budget amendment in his primary and runoff campaigns. A survey conducted on May 8-9 by noted Texas pollster Lance Tarrance showed Gramm with an 11-point lead over Doggett. Congressman Gramm's stop here is part of a 75-city swing "aimed at continuing to build on our grassroots base of support for the November general election."

Book Review:

And Ladies of the Club; by Helen Hooven Santmyer 50 years in the writing, "And Ladies of the Club," is about a smallish Ohio community from the end

of the Civil War through the Great Depression. The title phrase refers to the Wynesboro Women's Club, founded in 1868 as a literary and intellectual association. The Club Members and their families are the main characters of the novel. Santmyer's saga is steeped not just in political change; religious and social mores of the period are covered. The personal joys, scandals, and sorrows are intertwined as well. This novel has an old fashioned dignity and seriousness. Recommended reading, this novel's author is now 80 plus at the time of publishing.

Circle Bar introduces Chef Ken

by Becky Collins

Ever since Tom Mitchell opened the doors of the Circle Bar Truck Corral on August 1, 1977, the business has always remained in the spotlight. As the only independently owned truck stop of its size, it stands out above the rest.

Whether the Circle Bar brand be at the Indy 500 or on the mud flaps of thousands of eighteen-wheelers, the Circle Bar had become synonymous with excellent service, fine food and friendliness all along Interstate 10.

Mr. Mitchell's truck stop is back in the news as they add the culinary talents of Chef Ken to the staff.

Chef Ken came to the Circle Bar from the Austin Club located in downtown Austin.

In an interview with the Devil's River News, Ken traced the path he had taken to become a bona fide chef.

"My career began in a college cafeteria which served only conventions. Sometimes we served 2500 meals a day," he commented.

After completing a season of employment in the cafeteria, Ken went back to school to earn his degree in Geology. During the ensuing school year he once again found employment in a restaurant. "They had just opened up and imported a true chef from Chicago, he was a fine man." "I worked there for two years, and enjoyed every minute."

Upon completion of his studies, Ken moved to Texas. "I always wanted to live in Texas. Even though I'm an East Coast boy, I've always been a Texan at heart," he commented.

Like a true immigrant, Ken found himself in the Lone Star State, armed with a Geology degree and the desire to make something of himself.

He worked as an apprentice chef with the Texas Chefs Associations training program. Ken notes that most of the training he received was "hands on".

Taxes draw interest in State Treasury

State Comptroller Bob Bullock announced Tuesday that taxes paid anywhere in Texas today will be drawing interest in the State Treasury tomorrow with a new rapid deposit system for state funds.

Under the program, a cooperative effort between Bullock and State Treasurer Ann Richards, motor vehicle receipts from the state's largest counties and other tax receipts collected at each of the Comptroller's 60 offices across the state, will be picked up daily by commercial courier and delivered to the Treasury the following day.

"It took about three and a half days for the mail to deliver this money to Austin," Bullock said. "After expenses for the couriers, we'll be earning almost a half million dollars in added interest under this new system."

"We are extremely pleased Mr. Bullock has begun his own rapid deposit program," Richards said.

The Treasury has brought the Texas Depart-

ment of Highways and Public Transportation into a rapid deposit system and is negotiating with other agencies to start similar programs.

"This is just a continuation of the overall goal of the Treasury to get the state's money to the bank faster so it will earn that much more interest," Treasurer Richards said.

Folk art lessons set

The Uvalde Arts Council has scheduled a series of folk art lessons for July 16-18 and July 23-25 at Art a la Carte, North Getty St. Theme of the lessons will be "Christmas in July." Teacher will be Donna Phipps of Uvalde.

Among the projects to be completed are an Advent reindeer, a Santa Claus, and two painted angels with copper punch design. For more information on the folk art lesson, contact the Uvalde Arts Council, P.O. Box 1451, Uvalde, 78801, or call 1-278-4082.

learning by trial and error, and by watching and borrowing techniques from the Master Chefs he worked with.

Employment in the kitchen of restaurants was always available to Ken, and as he found his work challenging and enjoyable, he decided to stick with it. Ken has a very special goal in life - to become a Master Chef.

He serves a mixed cuisine including French, Italian, Cajun, and American food. Ken says his favorite meal to make for a customer is Chateaubriand, a large tenderloin basted with brandy and a combination of two vegetables.

He stated that his biggest thrill is watching people eat and enjoy his cooking and then having them come back and bring someone they really like. "I like making people happy," he added.

Not only does Ken excel in preparation of entrees, but also his pastries and other desserts are par excellence. "Baking is a science, Ken noted, "exact measurements and temperatures of ingredients is a must to obtain maximum results."

And maximum results are the payoff when you spend the time in the kitchen that Ken does.

The Circle Bar is proud to introduce Ken to West Texas and vice-versa. Restaurant Manager Joe Blanck

would like to invite everyone out to meet Chef Ken and try out the new dinner menu.

Inside this edition of the Devil's River News is a copy of the new menu, with all entrees described for your convenience.

Angora buck sale today

The annual Sonora Experiment Station Angora goat field day and performance tested buck sale will be July 18 at experiment station south of Sonora.

Some 380 goats have been on test and as many as 90 head of the top performing goats could be eligible for sale. The animals to be eligible will be based on an index utilizing the production records for a number of important traits.

The current series of Angora goat tests was initiated in 1980. The general purpose was to promote improvement of Angora goats by providing technical data information on growth and fleece qualities. Producers should be able to use the data to improve their own goat herds.

Schedule for the field day will be as follows:
Note: Prior to the noon barbecue, goats will be available for inspection and performance test records will be on hand.

11:30-12:30 - Barbecue lunch catered by Edwards County 4-H.

12:30-1:30 - Program
Master of Ceremonies - Carl Menzies, Texas Agricultural Experiment Station, San Angelo.

Welcome and Introductions - Dr. C.A. (Butch) Taylor.

IPAA told industry standards not needed

The Independent Petroleum Association of America recently told the Occupational Safety and Health Administration that its proposed drilling and servicing industry safety standards are unnecessary, too costly and may hurt exploration and production. IPAA said existing state and industry standards are superior and more flexible than the national rules and that OSHA's estimate of compliance costs, \$24 million, is too low.

State Comptroller Bob Bullock's office has just released a report on how "Energy Prices Help Fuel the Texas Economy." Bullock says the Texas petroleum business is a \$37 billion dollar enterprise employing more than 400,000 people.

Last year, the rig count averaged 794 rigs. The average well was 4,740 feet deep and was drilled at an average cost of \$356,000 per well. In 1983, oil and gas companies spent an estimated \$8.5 billion drilling for energy resources.

The petroleum industry paid \$1.2 billion in severance taxes, 14 percent of Texas' total tax receipts.

The Permian Basin rig count for this week is 332. Last week 335 and one year ago 229.

Presentations of awards provided by Rocksprings Wool and Mohair Council of America.
Discussion of test procedures and results - Ron Lewis.
Observations on South African goat industry and research activities in that country - Maurice Shelton.
1:30-4 - Sale of performance tested goats.

In 1948, RCA Victor introduced the 45 rpm record, giving it the code name of "Madame X."

Uncertainty

by Rev. Rick Runge Church of the Good Shepherd Presbyterian

REV. RICK RUNGE

We like to know what type of work we are expected to perform. We also like to plan our time to fit into our schedules so that we will feel that our time and efforts are also giving us personal benefits as well.

Yet in the area of religion, there is much that we have to take on faith. Faith with a strong belief in an unseen, yet living God. Faith that binds us to each other as we praise Our Lord and Saviour Jesus Christ. Faith that when we need Him He is there to hear and guide us.

If we really try to explain in our "faith" then we seem to meet with an unexplainable situation. How do you explain a God that hears but is not there to touch? The immediate answer of Faith is good to a point, but words fail us if our faith is weak.

Yet it is Jesus Christ who not only promises His own Love and presence with us everyday, but Salvation for that time we most dread as dying to this world and living in Eternity with Him.

The uncertainty of such belief is what many times leads us to push the thoughts and fears of it from our minds and lives. We do not know what Eternity is like, and can only speculate on what it contains for us.

We trust more in the worldly items because they are visible and are part of our everyday existence. The car

not only runs when we put the key into the ignition, but we can touch it, feel it and experience the force of motion as we ride in it. Yet when it does not work, then we feel frustration, and sometimes utter hopelessness.

Like the car our faith also needs the same experience. The key is Jesus Christ. The Gospels tell us much about Him, and His Apostles tell us more. We need to put our lives into that key with a solid trust in Christ so that the spark, that ignites the gasoline in the engine of the car will also ignite the faith in our lives, to feel the inner Spirit of Christ within our own daily lives.

We do not need to be uncertain about the Living Lord, as we not only have His promises in scripture, but His call to each one of us, "You believe in God, he says. Believe also in me." "I and the Father are One."

So the next time we get into the situation of uncertainty, turn to Jesus Christ in the Scriptures, and then accept what He says to us in fact and in word. The uncertainty, then disappears as our faith comes further to our own understanding, and the knowledge of also knowing Jesus Christ better as well.

"Do not be faithless but believe." This is His advice and watchword.

Proud Parents' Column

Lee and Darlette Bloodworth are proud to announce the birth of their son, born June 26, 1984, at 12:40 p.m. in the Spohn Hospital of Corpus Christi.

Thomas Ramsey Bloodworth weighed 8 pounds 9 ounces and measured 21 inches long. He is the grandson

of Mr. and Mrs. Melvin Ramsey of Carrizo Springs, Mr. and Mrs. L.P. Bloodworth of Sonora, and Mrs. Marilyn R. Bloodworth of Ruidoso, New Mexico.

Thomas is the great-grandson of Mr. and Mrs. L.L. Graham of Cotulla, and Mrs. Ida Bloodworth of Sonora.

Fashion Show slated

Four champions from Sutton County will model apparel they have created in the annual District Fashion Show here. The show will be held at 10:30 a.m. Thursday, July 26 at Sonora Junior High School.

Members will be competing for honors and the right to represent their district in state competition. These entrants have already won in county competition and will be judged on their sewing and construction skills, as well as overall appearance.

Each contestant will compete in four categories: daytime tailored, daytime non-tailored, active sportswear, or evening and specialty wear. Special awards will be presented to the senior exhibiting the best cotton garment or ensemble and the one modeling the best wool or mohair outfit.

Senior, beginners and intermediate contestants will be judged in separate groups and compete for awards in their own skill classification. Only the senior winners advance to the state contest.

Registration of contestants will begin at 9:30 a.m.

Seminar planned at Sutton Co. National

A community seminar on DECISIONS IN A WORLD OF INVESTMENTS AND TAXES will be held Monday, July 23 at 10 a.m. in the Community Room of the Sutton County National Bank. This seminar will be conducted by Jerry Kleffner, Account Executive and Financial Planner with Rauscher Pierce Refsnes, Inc.

Ms. Kleffner is a Representative with the National Association of Securities Dealers and a Licensed Life Agent. She is a member of the International Association of Financial Planners, Women in Business and Suburban Business and professional Women's Club. She also serves on the Palmer Drug Abuse Board of Directors.

A graduate of Trinity University, she received her Masters Degree from Our Lady of the Lake University, and Ph.D. from the University of Texas at Austin. She has conducted numerous classes and seminars on Personal Financial Planning, Money Management and Investment, and Investing for Tax Management.

The public is cordially invited to attend her upcoming seminar here in Sonora July 23.

Seminar set in Uvalde

The Texas Sheep and Goat Raisers' Association will have a seminar on Wool and Mohair Preparation beginning at 7:00 p.m. Thursday, July 19, at the Uvalde Civic Center. The seminar will continue until noon on July 20 when the 69th Annual Texas Sheep and Goat Raisers' Convention will get under way.

All phases of wool and mohair preparation will be covered by a group of speakers representing every area of the industry. Panels of producers will present their unique ideas on preparation and shearing of both wool and mohair. These producers are some of the most knowledgeable and progressive ranchers in Texas.

All interested producers are invited and encouraged to attend. A registration fee of \$5.00 is being charged, and pre-registration is not required. The seminar is being put on by the Wool and Mohair Marketing and Promotion Committee of the Texas Sheep and Goat Raisers' Association. For more information producers can contact the TS&GRA office (915) 655-7388, or John Davis (512) 683-4246, or Glen Fisher (915) 387-2543.

According to James Wittenburg, TS&GRA president, "Many of our members have been requesting a seminar like this, and I think this is one of the best programs we have ever planned. All of these speakers are top-notch. I encourage you to attend."

Assistance needed

The Chamber of Commerce is seeking assistance from all Sonora citizens for a clean-up in July 28. All participants will be guests of local merchants for a watermelon feast on the court house lawn that evening. Also, a free bumper sticker will be given to each helper and prizes will be awarded in several categories.

If you can help please call Mrs. Edith James at the Chamber office. Many local companies have volunteered trucks and men for the clean-up. We need many more "hands" to pick-up trash...also more pick-up and trailers will be needed.

If you have an area to be cleaned you may call for assistance on July 28th. This is our opportunity to show that Sonora does care enough to spruce-up for Sutton County Dave and our visitors.

Jackrabbit Classic set

The 1st Annual Odessa Jackrabbit Classic will be held July 27-29, 1984. The tournament will be a state-wide open-classification slow-pitch tourney for men. It will take place at the new outdoor complex at the University of Texas at the Permian Basin. The sixty team, double-elimination tourney should draw some of the best teams in the state.

Early registration fee of \$90 is due by July 11, 1984. Fees after that date are \$100 and the final deadline for entering is July 25, 1984.

First place team will win a Texas size, six foot team trophy plus team travel money of \$700 and individual awards; second place will receive a team trophy individual trophies and

travel money of \$500; third place will also receive a team trophy, individual trophies and travel money of \$300.

Mark your calendars now for the 1st Annual Odessa Jackrabbit Classic State-wide Tournament. Plan on bringing your family for the weekend. There is a playground for children immediately adjacent to the complex. For further information please contact Eunice Ramsey, Odessa Convention & Visitors Bureau, 915-332-8189. Registration fee, team information and roster may be sent to the Odessa Convention & Visitors Bureau, P.O. Box 3626, Odessa, Tx 79760.

Further information on hotels, restaurants and other activities will be sent on receiving your entry.

Overpayments may be preventable

Social Security believes it can prevent as much as \$325 million in overpayments this year by contracting people in high risk groups and asking them if there has been any change in their plans concerning work. There are about 2.3 million people in the affected groups. The groups include:

- People whose benefits are not being withheld but whose past earnings were higher than the 1984 annual exempt amount.
- People who are having part of their benefits withheld and whose 1984 estimate is lower than reported earnings for 1983.
- People who have part of their benefits withheld and whose 1984 estimate is equal to or higher than 1983 earnings.
- People who plan to start getting retirement checks in 1984.
- People who get benefits as a mother or father who can be reasonably expected to work.
- Mothers, fathers, and children whose benefits end in 1984.

People in these groups will get a letter asking if their earnings estimate or retirement plans have changed.

People who think they will earn more than they expected will have their benefits adjusted so they will not be overpaid.

It is very important for people who expect to earn more than the annual exempt amount to notify Social Security of their expected earnings. This way, benefits can be stopped while they are working and overpayments prevented. Sometimes, overp

ments are not found until after a person has stopped working, and it becomes difficult for them to repay the incorrectly paid benefits.

In 1984, the annual exempt amounts are \$5,160 for people under 65 all of 1984 and \$6,960 for people 65 through 69. There is no earnings limitation for people 70 or older for all of 1984.

It is simple to make a report. All a person has to do is call any Social Security office. Or, if they prefer, they can write. The important thing is that they make a prompt report as soon as they become aware of any changes in their plans.

People who get a letter this summer can make their report by completing a simple form enclosed with the letter. If there has been a change in their plans or earnings estimate, it is best if they make their report as soon as possible.

Anyone who has a question about earnings can contact the San Angelo Social Security Office located at 2214 Sherwood Way. The telephone number is 949-4608. A free leaflet, "How Work Affects Your Social Security Checks", is also available.

The teddy bear was named for Theodore Roosevelt.

Hearing dates announced

A schedule of four hearings on a proposed mandatory brucellosis calfhood vaccination regulation on change of ownership for the Class C Area of Texas was announced today by Dr. John W. Holcombe, executive director, Texas Animal Health Commission. The schedule is:

July 31 at 1:30 in Tyler, Ramada Inn, 5701 South Broadway; Aug. 1 at 1:30 p.m. in Bryan, Brazos Center, 3232 Briarcrest, Room 102;

Aug. 2 at 1:30 p.m. in Wharton Junior College, 911 Boling Highway;

Aug. 3 at 1:30 p.m. in Alice, Alice National Bank, 601 East Main.

Commissioners of the Texas Animal Health Commission are asking livestock producer and industry comment on this proposed regulation:

"All female cattle which are born after Oct. 1, 1984 and are four months of age or older, shall have been officially vaccinated, S branded or spayed prior to change of ownership. Heifers may be assigned to a livestock market for official vaccination, S branding or spaying on arrival at no expense to the State of Texas.

"Females are exempt from these requirements if they are: 1. sold as a pair and still nursing their tested dams; or 2. consigned direct from a farm or ranch to slaughter or a quarantine feedlot."

Counties in the Class C Area which would be affected by this proposal are Anderson, Angelina, Aransas, Atascosa, Austin, Bastrop, Bee, Bexar, Bowie, Brazoria, Brazos, Brooks, Burleson, Caldwell, Calhoun, Cameron, Camp, Cass, Chambers, Cherokee, Collin, Colorado, Dallas, Delta, Denton, DeWitt, Dimmit, Duval, Ellis, Falls, Fannin, Fayette, Fort Bend, Franklin, Freestone, Frio, Galveston, Goliad, Gonzales, Grayson, Gregg, Grimes, Guadalupe, Hardin, Harris, Henderson, Hidalgo, Hill, Hopkins, Houston, Hunt, Jackson, Jasper, Jefferson, Jim Hogg, Jim Wells, Karnes, Kaufman, Kenedy, Kleberg, Lamar,

La Salle, Lavaca, Lee, Leon, Liberty, Limestone, Live Oak, McLennan, McMullen, Madison, Marion, Matagorda, Medina, Milam, Montgomery, Morris, Nacogdoches, Navarro, Newton, Nueches, Orange, Panola, Polk, Rains, Red River, Refugio, Robertson, Rockwall, Rusk, Sabine, San Augustine, San Jacinto, San Patricio, Shelby, Smith, Starr, Titus, Trinity, Tyler, Upshur, Van Zandt, Victoria, Walker, Waller, Washington, Webb, Wharton, Willacy, Wilson, Wood, and Zapata.

"Vaccination is a cornerstone of the Texas brucel-

osis program. Commissioners are seeking comments from producers and all of the livestock industry on a required vaccination regul-

ation for the Class C Area of Texas," Dr. John W. Holcombe, executive director, Texas Animal Health Commission, said.

Contestants may enter through Aug 17

Parents wishing to enter their children in The Little Miss and Little Mr. Sutton County should register their children with Jeanne Jackson at Sutton County National Bank, 387-2593.

Ages for the contest will be 3-5 and contestants must be a resident of Sutton County. A \$2 registration fee will be charged and must be paid upon registration before 3 p.m. Friday, August 17. Entries and registration fees will not be accepted after that date.

Little Miss and Little Mr. Sutton County will be crowned Saturday morning, August 25 at the Sutton County Courthouse in conjunction with the Sutton County Days celebration. Awards will also be presented to first and second place runners-up.

Food availability 1st step in strategy

The first step in planning drought strategy for sheep and goats is determining feed availability, according to George Ahlschwede of San Angelo.

Ahlschwede, sheep and goat specialist with the Texas Agricultural Extension Service, Texas A&M University System, told a group of about 100 producers gathered at the Val Verde County Sheep and Goat Field Day, that available feed could include forage, cottonseed cake, corn, or alfalfa or Sudan hay. He and several other experts were speakers at the field day held at the Martin Wardlaw-White Ranch near here. The event was hosted by the Val Verde County sheep subcommittee and the Martin Wardlaw family.

The next move in planning drought strategy should be to determine feed cost, Ahlschwede said. Feed should be analyzed to determine the cost per pound of protein and the cost per pound of energy, he explained. Ranchers can then determine whether it is cost-effective to give livestock supplemental feed, or whether to sell them, he said.

If the producer decides to supplement forage, rams and billies should be given priority over the rest of the flock, "especially with breeding season coming on," he said.

Stud flocks should be next on the list of priorities, followed by production females and replacement ewe lambs and doe kids, Ahlschwede said.

Producers should then determine feeding needs to determine how much to feed livestock, he said.

"Body weight must be maintained," Ahlschwede said, noting that this should be given top priority. Producers then can turn their attention to feeding livestock for growth, reproductive capacities and the production of fiber or milk, he said.

Livestock requirements may be assessed by visual appraisal of body condition, using body condition as a guide, the specialist said.

Ranchers also have to keep in mind production goals and what they expect from their livestock. Protein, energy and mineral needs must also be kept in mind, Ahlschwede said.

With breeding season near, producers must also think about maintaining their breeding ewes and does. "You have to think about getting her bred," he said.

As part of their drought plan, producers may want to "keep those that get pregnant and get rid of the rest," Ahlschwede said.

Ranchers may also want to keep in mind that the nutritional requirements of a ewe or doe do change prior to, during, and after pregnancy, he said. Protein requirements more than double for a ewe from before breeding to after lambing, and nearly doubles for does, Ahlschwede said.

If, after lambing, a rancher decides on early weaning, ewe condition still must be maintained so that she will breed back sooner, he said. Sprayed and implanted lambs should also be sheared in order to keep them cooler, he said.

Other speakers on the program included Mr. Joe Pena, of Uvalde, District Extension economist; Dr. Richard Trimble, agricultural economist, Texas A&M University, College Station; and Roger Blackmon, Val Verde

Filing deadline set

July 31, 1984, is the date by which employers must report on Form 941 social security and withheld federal taxes due, the Internal Revenue Service says. If the quarterly liability (less any deposit during the quarter) is \$500 or more, the unpaid balance must be deposited.

This deadline does not apply to employers who timely deposit in Federal Reserve or approved commercial banks the full

amount of tax due. They are allowed until August 10 to file Form 941, "Employer's Quarterly Federal Tax Return."

Employers who have not received a Form 941 by mail can order one through the Forms/Tax Information number listed in the telephone book under U.S. Government. IRS publication 15, circular E-Employer's Tax Guide, is also available by telephone.

PUBLIC NOTICE

AT&T Communications has filed with the Public Utility Commission (PUC) of Texas to introduce a new intrastate, optional long distance service to begin August 1, 1984, the same date "Reach Out® America" plan will be available for interstate calls.

A new service designed to give customers the opportunity to reduce the cost of long distance in Texas has been filed with the state PUC by AT&T Communications of the Southwest, Inc.

"Reach Out® Texas" is an optional calling plan which will provide additional discounts on long distance rates for Texas customers who frequently place calls in the evening, weekend, and night time calling periods.

The new "Reach Out® Texas" plan for the first time extends the benefits of competition to many Texas consumers who previously have not had any discounted long distance service available to them.

AT&T Communications customers who choose this new optional service will pay a monthly charge of \$14 which entitles them to one hour of intrastate "Direct Dialed" (1+) calling during the weekend and night rate period.

An additional customer savings for those participating in the plan will be that any Direct Dialed calls placed during the weekend and night rate period that exceeds the one hour period will be charged at an hourly rate of \$12, or \$.20 per minute.

Customers selecting this option also receive an additional 15 percent discount for intrastate Direct Dialed calls during the evening discount rate period for a total savings of approximately 38 percent.

A one-time charge of \$6 is billed when a customer orders the "Reach Out® Texas" plan. The \$6 is collected by AT&T Communications and paid to the local telephone company to establish the service. This charge will be waived during the first 90 days that the offering is available.

AT&T Communications is proud to offer this optional service for its Texas long distance customers and will in the future continue to introduce cost cutting programs to help Texans reduce their long distance bills.

A complete copy of the "Reach Out® Texas" tariff and rate schedule is on file with the Texas Public Utility Commission at Austin, Texas.

AT&T Communications estimates that the revenue impact of this new service would be significantly less than 2.5 percent of annual gross revenues.

Persons who wish to intervene or otherwise participate in these proceedings should notify the Commission as soon as possible. A request to intervene or participate or for further information should be mailed to the Public Utility Commission of Texas, 7800 Shoal Creek Boulevard, Suite 400N, Austin, Texas 78757. Further information also may be obtained by calling the Public Utility Commission Consumer Affairs Division at (512) 458-0223 or (512) 458-0227, or (512) 458-0221, teletypewriter for the deaf.

*Customer billing for the optional calling plan will be provided for AT&T Communications through billing contracts with the local telephone companies. Therefore, the introduction of these rate plans into a specific area is contingent upon local company billing capabilities. Southwestern Bell Telephone Company has agreed to handle the billing in its service areas effective August 1, 1984.

PUBLIC NOTICE

1983 delinquent school, city and county taxes will be turned over to the delinquent tax attorneys for collection in July.

The names of property owners and the amount of 1983 delinquent taxes will be printed in the paper the last of July or first of August.

Please come by the office at 222 N E Main St., Sonora, Texas, and check if you have any doubt about your taxes being paid.

Don Wootan is chief appraiser, Sutton County Appraisal District contract collector for all taxing units in Sutton County.

Paisano to host 64th session July 23-29

With its "Sunday-go-to-meeting" Clothes showing the effects of the unusually heavy rains in recent weeks. Paisano Baptist Encampment will host the 64th consecutive session of the historic meeting July 23-29, with many of the best loved leaders of past years preaching, singing, and teaching the Bible.

Started in 1916 by cowboy pioneer missionary L.R. Millican and a group of his friends, the camp featured Dr. George W. Truett, pastor of the First Baptist Church of Dallas, until his death in 1944. Nestled on

1000 acres of land, mid-way between Marfa and Alpine, the encampment is over a mile high in altitude. Towering oak trees dot the grounds of the camp that was named for Paisano Peak that is located near-by.

Returning to preach again this year for his ninth time is Dr. James Flammig, now pastor of First Baptist Church, Richmond, Virginia. Alternating services, and joining Flammig will be Dr. Robert Naylor, president emeritus of Southwestern Baptist Theological Seminary, Fort Worth. Naylor is serving his third year as a Paisano preacher, and he and Flammig have become a very popular "team".

Music will be directed by Ed Wittner, a "home-town" boy, who is currently minister of music for

Columbus Avenue Baptist Church, Waco. Wittner grew up in Alpine where his father, the late Rev. R.L. Wittner, served as pastor and later as district missionary for many years. For a while, his parents home was located on the Paisano Encampment grounds.

Joining Wittner will be organist Diane McDaniel, Waco, who has been attending Paisano most of her life. She is the daughter of Paisano president Glen and Mrs. Edwards of Alexandria, La. Pianist will be Dr. Jack Dean, dean emeritus of the Hardin Simmons University music department.

Adult Bible teachers will include Dr. Virtus Gideon in the morning session, and Dr. Alta Ada Williams in the afternoon session. Gideon is a professor of Greek and new testament at Southwestern Baptist Theological Seminary, Fort Worth. Dr. Williams is from Signal Mountain, Tenn., and will use "selected passages from Hebrews" for her lessons.

The very popular children's day camp will be directed for the second year by John LaNoue, consultant, Texas Baptist Men, Dallas. LaNoue will be using material that he is writing for the Southern Baptist Convention Day Camp program for 1985, entitled "American Heritage Series." Helping LaNoue will be four "State R.A. Staffers", college students who are specialists in summer camp work. Several area high school students will be "counselors" for the first-sixth grade students.

The nursery will be directed by Mrs. Barba Clanton of Balmorhea. Children from birth-three years of age are given loving care in the remodeled and expanded nursery building. The nursery is open during the Bible Study and worship service hours each day and night.

Four and five year olds will have Bible study time each morning from 9:30-noon, under the leadership of Mrs. Betty Stephen of Sonora. They will have activities and games that help them grasp Bible truths in a group setting.

Youth Bible teachers will include Eileen Conner, children's worker, Albany; Denise Neal, children's worker, Sonora; Lonnie Jordan, pastor, Sharon, Okla.; James Parrish, pastor, Marfa; Mike Ivey, pastor, Hillside Baptist Church, Alpine; and Monty Inman, pastor, Fort Davis.

Recreational activities will be led by Mrs. Peggy DeSpain, Alpine. A full program of team games is planned with groups from various Churches playing softball, volley ball and tennis.

An "Early Bird Service", Sunday, July 22, at 8 a.m. will be led by Rev. Monty Inman, pastor of First Baptist Church, Fort Davis.

"A cordial welcome is extended to all people to participate in the activities of the week", said Glen Edwards, president. "We look forward to renewing friendships, sharing good times, and visiting in the unique Paisano setting", he continued.

America's first ice cream wholesaler was Jacob Fuschel, a Baltimore milk dealer. He started making ice cream in 1851 to use up surplus cream. The price: 60¢ a quart.

Flowers by Irene will be closed for vacation from July 23 until August 17. Shop will reopen Monday, August 20th. 308 Railroad Street

C.A. Lockett funeral services held

Funeral services were held at 11 a.m. Friday in the First United Methodist Church for Clyde Austin Lockett, 71, of Sonora. The Rev. David Griffin, minister of the Methodist Church, and Rev. Clifton Hancock of San Angelo officiated.

Interment followed in Sonora Cemetery under the direction of Kerbow Funeral Home.

Lockett died at 7 a.m. Wednesday, July 11 in Sonora. He was born August 29, 1913 in Point, Texas to Anne Merle Greer and Clarence Lockett.

August 27, 1933 he was married to Betty Ruth Brotherton. In 1971, Lockett retired from Atlantic Pipeline Co. after 35 years of service. He and his wife, along with their son Larry, own and operate the Chuck Wagon Grocery and Station.

Survivors include his wife; one son, Larry E. of

Sonora; two daughters Ann Feagin and Camille and Billy Green of Sonora; two granddaughters Cynthia Feagin and Angela Green of Sonora; his mother-in-law, Ruby Brotherton of Sonora; and one brother, W.E. "Doc" Lockett of Wilmington, California.

Active pallbearers were Jerry Hopkins, Jim Gulley, Gerald Nicks, Si Loeffler, Ronnie Joe Cox, Jack Johnson, Eddie Smith, and Jeff Doan all of Sonora.

Honorary pallbearers were Bob Snodgrass, Oliver Wuest, Donald Patton, George Johnson, Meredith Joy, Nelson Stubblefield, John Strauch, George Wallace, James Gulley, L.P. Bloodworth, Hall Whitten, Joe Turner, and J.M. "Shorty" Taylor.

The family have requested that all memorials be sent to the American Cancer Society.

Taxing pensions is convenient

Pension income may be either fully or partially taxable, IRS says; and federal income taxes may be withheld from pension payments. Many retirees may find the withholding a convenience that can spare them penalties when they file their federal income tax returns.

Beatrice Arriaga and Hershel Davenport posed for a picture after drawing the name of Daniel Flores as this week's winner in the Magic Money Game now underway at Hershel's Foodway. Bea was last week's winner in the contest in which she won \$100 for having her ticket drawn. Congratulations to Daniel Flores as the lucky winner in this week's drawing.

Bean cookoff is August 18

A first for Eden Festivals will be the bean cook-off planned for Festival 102, August 18.

Clara Marie Turner, chairperson for the cookoff, says that each contestant will be provided two pounds of beans. Cooking will start at 9 a.m. and judging will be at 4 p.m.

Contestants are to provide their own secret ingredients, clever surroundings, and a \$10 entry fee.

Trophies will be awarded to the first-, second- and third-place bean cooks and first- and second-place campsites. Participants also receive entry gifts.

Entrants need to send their name and address and entry fee to Mrs. Turner at Box 595, Eden, TX 76837. An application form will be sent by return mail.

Deadline for applications is August 6 so that the cookoff committee will be able to reserve places for all contestants and provide for gas or electricity, if needed.

HNG stock trading begun

Houston Natural Gas Corporation (HNG) announced recently that it has listed its common shares on the London Stock Exchange and that trading in its stock began in London June 28.

Kenneth L. Lay, HNG Chairman of the Board and Chief Executive Officer said that the London listing is part of a long-range program aimed at improving the Company's exposure to institutional and individual investors in Europe. "It has become increasingly important for large corporations to have access to international financial markets. We believe the listing of HNG on the London Exchange will facilitate this access," Lay said.

The listing is sponsored by Credit Suisse First Boston Limited. Brokers to the listing are Wood, Mackenzie & Co.

Houston Natural Gas, with Fiscal 1983 revenues of \$2.96 billion and net income in excess of \$190 million, is a diversified energy company involved primarily in natural gas transmission and sales and oil and gas exploration and production.

Roulette was invented by the French mathematician and philosopher Blaise Pascal.

Headlines for Homemakers

by Pam Young, Sutton County Extension Agent - Home Economics

It's that time of year once again to update mailing lists. As Extension Agent - Home Economics for Sutton County, I mail out newsletters monthly and bi-monthly. These newsletters contain topics from all areas of home economics including foods and nutrition, clothing, family life, management, housing, and health. These newsletters are free for the asking. "Homemaking Headlines" designed for the younger homemaker is mailed out bi-monthly. "Over Easy" compiled with the older homemaker in mind is sent monthly. If you would like to receive copies of either or both simply circle your choice and fill out the information below, clip and return to my office. Thank you for helping me update my mailing lists. I hope you will enjoy the newsletters.

HOW TO AVOID HOT WEATHER PROBLEMS

If you become overexposed to the sun or overexert during extreme heat and humidity this summer, you may get heat cramps, heat exhaustion, or possibly even the rare but serious heatstroke.

Avoiding these hot-weather complications is more than simply a matter of staying in cool or air-conditioned areas and walking on the shady side of the street - as important as those precautions are. You'll also need to pay attention to medically sound preventive steps.

1. Wear loose-fitting, light colored clothing that reflects the sun's rays and allows for better sweat evaporation, and wear a wide-brimmed hat for added protection.
2. Avoid sudden changes of temperature, such as dashing from an air-conditioned building to a hot sidewalk or car. Before getting into a car that's been parked in the sun, open it up for a few minutes.
3. Stick to cool drinks and food, and salt your food liberally. Salt tablets are seldom necessary if you have a well-balanced diet. If you feel the need for salt tablets, check first with your doctor. (see number 12)
4. Don't overeat. Don't overindulge in alcoholic drinks. Your body system needs extra water in hot weather, whether or not your thirst sensation increases. Drink water often, even when you don't feel the urge.
5. Acclimate yourself by limiting exposure to the sun or strenuous outdoor activities to just 15 minutes in the first hot day, adding 15-30 minutes each day over a week or 10 days.
6. Avoid outdoor activity between 10 am and 2 pm whenever possible.
7. When you exercise in the heat, take a 5-10 minute break every half-hour. Don't exercise just before or after meals.

8. Drink plenty of water or salted lemonade when you're exercising. You may have heard that drinking water when you're hot and active will bring on stomach cramps, but it is not true; you need to keep up your water intake to replace what you're losing in sweat-so drink when you're thirsty.
9. Also take extra precautions when-ever the humidity is high during a heat wave. When the relative humidity gets above 60 percent, the air won't absorb as much sweat as your body needs to get rid of, and by 75 percent relative humidity, it won't absorb any. This, coupled with high temperatures, is particularly dangerous.
10. If the weather is hot and dry, you may not feel sweaty, but in high temperatures you indeed are sweating; the dry air is evaporating the sweat so effectively that you don't get damp skin or soaked clothes. Drink plenty of water; don't be lulled by the false idea that you're not losing any.
11. Take extra care when the official temperature is higher than 85 degrees F. If the official temperature is, say, 95 degrees F., it may be well over 105 degrees F., on a tennis court or in your backyard garden, even in the shade. Official readings are often taken from towers or high buildings.
12. If you are on a low-salt or salt-free diet, or if you have chronic disease-heart disease, hypertension, diabetes, or lung disease, for example - high heat and humidity will put an especially heavy burden on you. CONSULT YOUR DOCTOR BEFORE ENGAGING IN ANY UNUSUAL ACTIVITY OR CHANGING YOUR SALT INTAKE.
13. If you feel the effects of the heat and humidity-unexplained stomach or arm and leg cramps, extreme fatigue, nausea, headache, or dizziness-get medical attention as soon as possible.

Olympic Focus

B.J. Surhoff is among the best amateur baseball players in the country. That's not too surprising, given the athletic prowess of the entire Surhoff family.

Surhoff is a 19-year-old catcher for the University of North Carolina Tar Heels. His father played for the National Basketball Association New York City Knicks. His brother is a pitcher for the Philadelphia Phillies minor league team and his sister attends Iona College on an athletic scholarship for volleyball and softball.

This year Surhoff has a chance at something no other baseball player has ever known - an Olympic medal. Baseball will be an official demonstration sport at the 1984 Summer Olympic Games in Los Angeles and Surhoff is a candidate for the USA team.

Surhoff Knicks. His

Drought continues in our area

Farmers and ranchers in Southwest Texas welcomed the light rain which fell recently, but high winds which whipped through the area sapped up much of the benefits.

The region is still lagging in the amount of annual moisture, having received only 30-40 percent of its normal, according to Joe Pena, extension economist-management for the Texas Agricultural Extension Service, headquartered at Uvalde. Watermelon planting in the region is down substantially due to drought and only a limited amount is being harvested in the Pearsall/Cotulla area, Pena said.

"Irrigation wells are showing some weakening with constant use and no recharge to the aquifer," the economist said.

Recent rains have greened up pastures, but farms and ranches continue under severe drought stress, Pena said. Livestock numbers are down and ranchers are feeding heavily, and most dryland crops are being grazed or baled since it does not appear they will make a crop, he added.

The cantaloup harvest has begun, while onions and pickling cucumber harvesting is in full swing, he said. Corn is in the roasting ear stage, grain sorghum continue to bloom, and peanuts are growing satisfactorily, he said. However, cotton remains relatively stunted after the recent record-breaking low temperatures.

PBPA Energy Report

The U.S. Department is predicting that there will not be a price flare up after January first when partial decontrol of gas prices occurs under the Natural Gas Policy Act. D.O.E. reported that wellhead gas prices increased 2.4 percent in 1983, and barring any new legislation, the price will increase only 2.5 percent in 1985.

In a related matter, 218 members of the U.S. House of Representatives signed a letter to the speaker of the House, Tip O'Neill asking him to schedule debate on the natural gas reconrol bill as soon as possible.

The U.S. House and Senate have approved a bill to increase tax revenues by 50 billion dollars. The parts effecting the petroleum industry include continuing

Tom Loeffler reports from Washington

No city exemplifies this nation's heritage and spirit as does Washington, D.C. Its many monuments, museums and buildings are a tribute to our past and to our present. Every American should be able to visit their nation's capital at least once.

Each summer thousands of Texans are fortunate enough to come to Washington. If you are planning such a trip, I urge you to take advantage of several courtesies I am able to extend to make your visit more enjoyable.

Before your trip, I would suggest you read a booklet entitled, "Welcome to Washington." This informative publication offers detailed information on the city's interesting sites along with times and dates that are open. It can be obtained by writing or calling my office in Washington or one of my Texas offices located in Dallas (214-767-0581), Austin (512-482-5933), Houston (713-299-2766) and Lubbock (806-743-7533). My Washington address is Office of Senator John Tower, Washington, D.C. 20510.

Special tours of the State Department, Federal Bureau of Investigation and U.S. Capitol are scheduled through my Washington office. If these special tours are full, excellent public tours are available of the FBI Building and Capitol. However, special arrangements are necessary to visit the Department of State. Most of the city's public museums, monuments and buildings are free and can be visited without advance arrangements.

My office also arranges tours of the White House, but unfortunately they are full through the middle of August. Public tours of the White House are conducted during the morning hours Tuesday through Saturday.

A visit to the Senate and House of Representatives in session is an education in the way our laws are made. The Senate and House, which compose the legislative branch of our government, meet in the Capitol. Passes to visit the Senate and House galleries are available from all Congressional offices. My office is in Room 179 of the Russell Senate Office Building and is open between 8:30 a.m. and 5:30 p.m. Monday through Friday.

Members of the public are allowed to visit both during recess and when Congress is in session. The Senate is scheduled to recess from July 2 through July 20 and from August 13 to September 4.

While planning your trip, you should realize that hotel accommodations are at a premium during the summer months so you are encouraged to make reservations as soon as possible. If you are arriving by plane or train, the city offers excellent public transportation. Taxi cabs are less expensive in Washington than in many large cities.

Besides the many sites in Washington, several

historical landmarks are located a short drive from the city. Among them are Mount Vernon, Monticello, Gettysburg National Military Park, Harper's Ferry, the U.S. Naval Academy and Williamsburg, Va.

I certainly hope you get a chance to visit Washington and experience all it has to offer. The nation's capital will instill within you a deep appreciation of America and its achievements. It is a city that belongs to all Americans.

On average, Americans pay \$1.03 for 1,000 gallons of drinking water.

The American Water Works Association, world's largest organization of water supply professionals, says a healthy family of four only needs to drink about 700 gallons of water a year (two liters a day, which is a little more than two quarts per person). The typical American family, however, uses more than 90,000 gallons a year. Even when the price of drinking water goes up, as it must, it will remain one of the great bargains of history.

The first postage stamps issued in the U.S. were issued in 1847.

The earth's surface holds 324 million cubic miles of water.

"You Can't Take It With You" premieres July 29

"You Can't Take It With You," three-act comedy by George S. Kaufman and Moss Hart, will be presented on the stage of the Grand Opera House for four performances, beginning July 26. This perennial favorite, renewed last season on Broadway, is the final production of the season for the Uvalde Area Community Theatre. Director is Elizabeth McIninch of San Francisco and the cast is composed of local people. Curtain time for the three evening performances, July 26-28, is 8 p.m. and a matinee on Sunday, July 29, begins at 2:30 p.m. Tickets at \$5 each are on sale at the Grand Opera House Box Office, 1-278-4082, or P.O. Box 1451, Uvalde 78801.

Mobile home cooling hints outlined

Having a cooler mobile home is mostly a matter of keeping the sun off of it. Dr. Jane Berry, Texas A&M University Agricultural Extension Service housing specialist, says there are several ways to reduce, shade, or deflect sun rays from a manufactured home.

"Ideally, the home should be positioned so the long sides face north and south," she says. "Then less of the home is exposed to the hot afternoon sun in the west."

Some homes also can be placed so large shade trees block out some sun. Trees or other kinds of overhead protection can cut energy costs by one-half, reports Berry.

If you can't shade the roof of your mobile home, try cooling it with water, suggests the specialist. A simple device made of perforated plastic pipe and a thermostat timer will spray the roof of the mobile home with water when it goes above a set temperature, and then shut off the water when the temperature goes down. These devices can be made by a do-it-yourselfer or purchased through mobile home catalogs, she adds.

To shade the sides of the home, install arbors and trellises for vining plants, Berry says. These plants will be most effective on east-and-west-facing walls where the summer sun is intense.

Keep the sun away from windows, too, advises the specialist. "Awnings are best," she says because they keep the sun from even striking the windows. A less effective option is to use light-colored or reflective drapes, or a reflective film adhered to the glass.

Using electrical appliances sparingly can help mobile homes stay cooler, notes Berry. Electrical appliances and lights add heat to the home, so shut them off when not in use. Save heat-producing activities, like washing clothes or baking, for early morning or late evening, she adds.

Cutting back on air conditioner use will also save cooling costs, Berry says. If security precautions allow it, she suggests turning off the air conditioner and opening windows when going out for several hours. Most mobile homes can be cooled quickly when residents return, she explains.

Substituting fans for air conditioning can also save money. On cool nights, use a large capacity window fan to pull air through the entire mobile home.
