THE CAMPAIGN for the U.S. Senate seat in Texas has taken an unusual twist, due to the focus by the candidates on the so-called "homosexual rights bill."

Lloyd Doggett, the liberal Democrat from Austin, supports federal legislation to ban discrimination against homosexuals in hiring and firing. Phil Gramm, the former conservative Democrat, now a Republican, opposes it.

Gramm argues that those with an unaccepted lifestyle should not be granted "special status" in the job market. Doggett says that Gramm has misinterpreted the proposed legislation, and says that homosexuals need protection.

The interpretation question came up last month, when Gramm charged that the bill would require "reverse discrimination," or "hiring quotas" for homosexuals.

Doggett argues that the legislation would not provide for a quota system, but even if it were not interpreted that way, it definitely gives homosexuals the right to go to court if they think they were not hired because of their sexual preference.

The effect of this point could be to make employers reluctant to turn down avowed homosexual job applicants for fear of being dragged into court and facing costly litigation. In this manner, the bill embraced by Doggett would give homosexuals an advantage in the job market over those who pursue what society considers "normal sexual interests."

Doggett further argues that sexual preference should not be a consideration when hiring.

We feel sure that most parents would not want avowed homosexuals teaching their children. This is one vital area of the job market—and it's ironic that the Texas State Teacher's Assn. was one of Doggett's more staunch supporters in the primary. Society has, for the most part, protected young, impressionable children from exposure to certain lifestyles.

Opponents of the "gay rights" bill also question whether the public interest would be served by forcing an employer, as a requirement for doing business, to indirectly finance a lifestyle that he finds morally offensive.

Doggett has gained national attention for the Senate race in Texas by embracing the homosexual rights group. In fact, it made national news that the proceeds of an all-male strip show, which featured a "Mr. Gay Apollo" at a homosexual bar in San Antonio were donated to Doggett last spring, during his primary campaign against Kent Hance.

Doggett later returned the money, but only after Gramm brought the event to the public's attention. Doggett's financial report notes another donation, from the Human Rights Fund of Washington, a known gay-lesbian group.

"We're not an ignored faction any longer," was the boast of a gay-lesbian leader from Texas, which aired on a national newscast this week, referring to the backing of gay rights by Doggett.

It's going to be interesting to see how this issue affects the outcome of the Doggett-Gramm race in November.

Back during the Democratic primary and runoff, we thought the public had been made fully aware of the fact that Doggett was the epitome of the liberal candidate, and that voters had a clear choice between his candidacy and the more conservative Hance. Even at that, they went with Doggett.

We would think that Phil Gramm speaks for the majority of mainstream Texas voters with his

Ponies Fall, 14-0; Visit Nazareth Fri.

The running of Pat Johnson and Bryan Payne proved to be more than the Bovina Mustangs could cope with in their season opener here last Friday, as the Cowboys scored a 14-0 win.

The visitors took advantage of a fumble recovery to take the early lead. Happy recovered a Mustang bobble at the Bovina 18-yard line in the opening quarter. Two plays later, Johnson ran 18 yards for the score. A running try for points failed, and the Cowboys had a 6-0 lead.

Later in the quarter, Payne ran four yards to cap a drive, and Clinton Clark passed to Johnson

for two points and a 14-0 score. That turned out to be all of the scoring for the game.

The Mustangs were able to amass only 62 net yards rushing and 53 passing. Doug Johnson had 29 yards on 11 tries, and Johnny Villarreal 28 yards on five plays.

Johnson led Happy with 161 yards. He was a workhorse, carrying the ball 26 times.

This Friday, the team travels to Nazareth, to play the strong class A Swifts, 41-8 winners over Lubbock Christian High School in their opener. Nazareth is one of the favorites in District 2-A

(North). They are in the same district with Farwell, Happy, Lazbuddie, Kress and Vega.

1st Freeze Contest Is Announced

The 19th annual First Freeze Contest, sponsored by the Bovina Blade, is now underway.

Those wishing to enter the competition can write the forecast of the first killing freeze on a postcard and mail it or bring it to the Blade office on Third Street. Do not forget to write the date on which you enter, the time and your guess of the date of the freeze.

If more than one person predicts the same date, the entry received first will be declared the winner.

Contestants are cautioned not to confuse the first frost with the killing freeze.

Deadline for entering the contest is Monday, October 15, at 5 p.m.

The person coming closest to the guess to the exact freeze date will earn \$5 cash prize, along with the title, "Champion First Freeze Predictor of Bovina, 1984."

The contest is conducted by the Bovina Blade because of the widespread interest among residents of the area in the first freeze. The interest is prompted by the effect of the freeze on the overall agricultural situation in the Bovina community.

Crop Outlook Is Rosy In The Area

Several hundred area farmers will be firing up their combines in a week or ten days and pulling into their corn fields. All indications are that it will be a much better corn year this year, compared to last.

Thomas Rhodes was credited with having the first load of corn delivered to Sherley Grain Company. This was corn damaged by the hail several months ago and the yield was not what is expected for the later corn.

Claude Nowell, manager of Agri-Sprayers, said they had sprayed for spider mites earlier, but it had been about a month since they did any spraying and the corn was looking very good and was mostly free of insects.

Some of the farmers who have begun cutting are Thomas Rhodes,

Greg Bell, and Tom Ware. These men farm west of town and received hail damage earlier in the year.

The good rains plus hot weather is making for one of the best corn crops Bovina farmers have had. If all continues as good as it has been, farmers say they "can't miss" this year.

The area's cotton crop also continues to make progress. The cotton has been given a big boost by the extra hot weather of this week.

After failing to hit the 100-degree mark all summer long, the mercury finally climbed to one hundred degrees in the local area on Sunday and Monday afternoons, September 9 and 10. It was predicted to be in that neighborhood again for Tuesday.

COOLING OFF.... Josh, Amber and Jeremiah Willard enjoy an ice cream break as the temperature climbed to 100 degrees on Monday of this week. They are the children of Dennis and Tammy Willard.

Blood Drive Is Friday

The ladies of the United Methodist Church are sponsoring a blood drive on Friday, September 14 from 1-5 p.m. at the Bank Community Room.

Blood drives are extremely important to area hospitals since overall donations are considerably low, yet the demands for this priceless human medicine increases daily.

The Coffee Memorial Blood Center in Amarillo has asked to conduct a special blood drive for our community on September 14.

Trade Days Auction Set

"Hey, we're gonna have an auction on Saturday at 2 p.m. during Trade Days weekend," says Keith Knight, secretary and treasurer. This will be an opportunity for you to get some real bargains for little money.

Two other items on the agenda for the Trade Days weekend are the Turtle Races and a Bully

Bonanza.

Start looking now for your turtles and keep them until the day of the races.

Another item is a Bully Bonanza. This is only in the thinking process but could make an interesting event with lots of money to win. If you want to know more about the Bully Bonanza, ask Keith.

FIRST PLACE WINNER.... Ronnie Cary was the winner of the first week's Bovina Businesses' Football contest, and received a \$10 check from his dad, Kenneth Cary, who is manager of Bovina Pump Company. Cary's winning score was 16. The Bovina Pump Company is one of twenty businesses sponsoring the football page.

Cary Winner, Grid Opener

Ronnie Cary was the winner of the first week of the Bovina Businesses' Football Contest, correctly picking 16 of the 20 contest games. Cary was the only contestant to score a 16 in the opening week, and nailed down the \$10.00 cash prize for first place.

Second and third place went to a wife and husband who are regular entrants in the contest. Patsy Sherrill claimed second place, and Jay Sherrill took third. Both correctly picked 15 games, and likewise were the only contestants to have scores of 15 for the week.

Patsy claimed the second place spot on the basis of her Dallas-New York Giants' tie-breaker score. She picked Dallas to win, 28-17, missing the score by 22 points. Jay had picked the Cowboys to win, 27-21, missing the actual score by 27 points.

One of the contest games, the L.S.U.-Florida game, ended in a tie, and this game was counted wrong on all of the entry blanks. This meant that a score of 19 was as good as could have been achieved for the week.

Besides the tie game, Cary missed the Muleshoe-Portales game among the high school lineup, picking the Mules; missed Notre Dame-Purdue, going with Notre Dame, and picked the Houston Oilers to defeat the Indianapolis Colts.

Patsy Sherrill missed Muleshoe-Portales, Notre Dame-Purdue, Alabama-Boston College and

Houston-Colts, in addition to the tie game.

Jay Sherrill missed River Road-Friona, Notre Dame-Purdue, Alabama-Boston College and Houston-Colts, plus the tie game.

Six contestants correctly picked 14 games, missing by just one game having a chance at the weekly prize money. They were Howard Card, Rhonda Keyes, Brad Lance, Mike London, Leon Schilling and Nicky Villarreal.

Another 13 contestants picked 13 games, and 25 more had scores of 12. Scores of all the top contestants can be found elsewhere in this issue.

Contestants are vying for the grand prize of \$100, which will be awarded at the conclusion of the contest run, in addition to the \$22.50 in weekly prizes.

Bring your entry blank by the Blade office by 5 p.m. on Friday, or mail it to the Blade, Drawer B, postmarked by Friday afternoon. The contest scoreboard is posted in the hall at the Blade building.

Representative Sets Visit

State Comptroller Bob Bullock has announced that Lloyd Allred from his Lubbock field office will be at the Parmer County Courthouse on Wednesday, September 19 from 2-3:30 p.m.

A toll-free number (1-800-252-5555) is also available to Texas taxpayers.

WHO'S OPEN... Quarterback Blake Scaff (17) looks for an open receiver against Happy. Big Kelly McDonald, 210-pound tackle for Happy, is being blocked by Bovina tackle Toby Dutton (64). The Cowboys prevailed, 14-0. (Glasscock Photo)

Consistently higher yields
In four years of side-by-side field tests comparing PAY-OFF with other pyrethroids, cotton treated with PAY-OFF consistently yielded more per acre than cotton treated with other pyrethroids. Yield increases ranged from 2% to 5% more per acre, as based on tests conducted during 1980, 1981, 1982, and 1983 in fields located throughout the Cotton Belt.

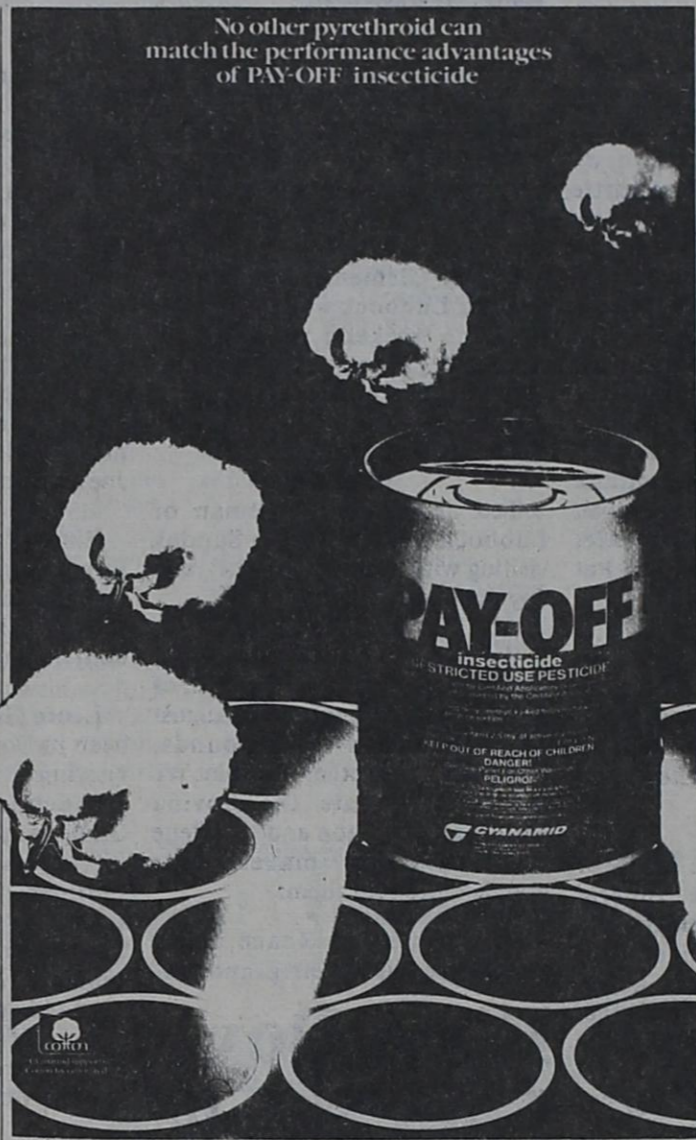

Effective at high temperatures

High temperatures can reduce the effectiveness of pyrethroids, an important consideration in cotton-producing areas where long, hot summer days are the rule rather than the exception. In general, the higher the temperature, the more active ingredients are required to worm control. This makes PAY-OFF the pyrethroid of choice for cotton. Laboratory testing shows PAY-OFF retains insecticidal activity at high temperatures far better than other pyrethroids. The net benefit, when temperatures are high, PAY-OFF will continue to control worms.

Single formulation for water or ULV oil application

With PAY-OFF there's no need to bother with multiple formulations. It's been specifically formulated for use in water or ULV applications, in one-offered container of any size. Applied either way, PAY-OFF lasts longer than other pyrethroids. And with PAY-OFF there's no limit to the number of applications you may make in a single season.

moths may lay from 1,000 to 3,000 eggs, most during a period of from one to two weeks. The eggs are minute and are placed singly, usually on the tender terminals in the upper third of the cotton plant. Newly hatched larvae are usually level on the tender leafy portions of the plant. After feeding for a few days these young larvae molt to a second instar, which prefers to feed on squares and bolls. As the weather continues to develop, the larvae continue to develop, they feed on squares and bolls further down the stalk.

Maesie Flynn enjoyed having her brother-in-law, W.W. Cummings of Yucaipa, California, visiting in her home last week. Maesie said he was her sister Martha's husband. Martha passed away in May of this year. Cummings also visited with his other sister-in-law, Grace Parr of Friona.

Butch McCain of Oklahoma City was in Bovina recently visiting his parents, Leslie and Rose. Rose said they had such a good visit and enjoyed eating out. On Friday night, Butch and his dad attended the football game. Butch arrived in Bovina on Wednesday and left Saturday afternoon.

Earlier in the month of September, Rose and Les were at a family gathering to celebrate her mother's and brother's birthdays, Cora Sanders of Pettit and Ray Sanders of Abernathy. The get together was held at the home of Sharon and Joe Toney. Sharon is Mrs. Sanders' granddaughter.

such officers, employees, and agents are already authorized by the Constitution.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment authorizing the legislature to provide for payment of assistance to the surviving dependent parents, brothers, and sisters of certain public servants killed while on duty."

PROPOSITION NO. 4 ON THE BALLOT

Senate Joint Resolution 20 proposes a constitutional amendment which abolishes the office of county treasurer in Bexar and Collin counties if a majority of the voters in each of those counties vote in favor of abolishing the office of county treasurer in a local election to be held on the issue. All the powers, duties, and functions of the office of county treasurer in each of those counties would be transferred to the county clerk.

The proposed constitutional amendment will appear on the ballot as follows: "The constitutional amendment to abolish the office of county treasurer in Bexar and Collin counties."

PROPOSITION NO. 5 ON THE BALLOT

Senate Joint Resolution 22 proposes a constitutional amendment which provides a new method of filling a vacancy in the office of Lieutenant Governor. The amendment requires the President pro tempore of the Senate to call together the committee of the whole Senate within 30 days after a vacancy occurs in the office of Lieutenant Governor. The committee would be required to elect one of its members to perform the duties of the Lieutenant Governor until the next general election. This individual would continue his duties as Senator at the same time that he performs the Lieutenant Governor's duties. If the Senator who is elected ceases to be a Senator before the next general election, another Senator must be elected according to the above procedure to perform the Lieutenant Governor's duties. The President pro tempore would be required to perform the Lieutenant Governor's duties pending the election of one of its members by the committee of the whole Senate.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment authorizing the state senate to fill a vacancy in the office of lieutenant governor."

PROPOSITION NO. 6 ON THE BALLOT

House Joint Resolution 73 proposes a constitutional amendment that permits the use of public funds and credit for payment of premiums on non-assessable life, health, or accident insurance policies and annuity contracts issued by a mutual insurance company authorized to do business in this state. The constitutional prohibition against a grant of public money to an individual, association, or corporation or against becoming a stockholder in a corporation, association, or company has limited life and health group policies of political subdivisions to non-mutual insurance companies. The amendment would permit mutual insurance companies to bid for those policies.

The proposed constitutional amendment will appear on the ballot as follows: The constitutional amendment to permit use of public funds and credit for payment of premiums on certain insurance contracts of mutual insurance companies authorized to do business in Texas."

PROPOSITION NO. 7 ON THE BALLOT

House Joint Resolution 4 proposes a constitutional amendment to change the membership of the State Commission on Judicial Conduct to include one Judge of a Municipal Court and one Judge of a County Court at Law, who shall be selected at large and appointed by the Supreme Court with the advice and consent of the Senate.

The amendment also provides additional grounds for removal from office of judges or justices of Texas courts, and provides additional disciplinary actions that could be taken in lieu of removal or censure. The amendment would extend the Commission's disciplinary authority to masters, magistrates, and retired or former judges who hear cases by designation. The amendment creates a tribunal to review recommendations of the State Commission on Judicial Conduct for removal or retirement of a judge or justice. The review tribunal would be composed of seven (7) Justices or Judges of the Courts of Appeals selected by lot by the Chief Justice of the Supreme Court. The amendment also provides for appeal of the review tribunal's decision to the Supreme Court of Texas and grants an accused judge the right to discovery of evidence.

The proposition will appear on the ballot as follows: The constitutional amendment relating to the membership of the State Commission on Judicial Conduct and the authority and procedure to discipline active judges, certain retired and former judges, and certain masters and magistrates of the courts."

PROPOSITION NO. 8 ON THE BALLOT

House Joint Resolution 22 proposes a constitutional amendment which increases the per diem of members of the Legislature. The amount of per diem allowed during a calendar year would be equal to the maximum amount set in federal income tax statutes as of January 1 of that same year as a deduction for ordinary and necessary business expenses incurred by a state legislator. Current per diem is \$30; the maximum deduction is now \$75.

The proposed constitutional amendment will appear on the ballot as follows: "The constitutional amendment to provide a per diem for members of the legislature equal to the maximum daily amount allowed by federal law as a deduction for ordinary and necessary business expenses incurred by a state legislator."

PUBLIC NOTICE

BRIEF EXPLANATORY STATEMENTS OF PROPOSED CONSTITUTIONAL AMENDMENTS GENERAL ELECTION NOVEMBER 6, 1984

PROPOSITION NO. 1 ON THE BALLOT

House Joint Resolution 29 proposes a constitutional amendment that provides to state-chartered banks the same rights and privileges that are or may be granted to national banks of the United States domiciled in this state. For example, if national banks become authorized to maintain branch offices, this amendment would extend the same privilege to state banks.

The proposed constitutional amendment will appear on the ballot as follows: "The constitutional amendment to provide state banks the same rights and privileges as national banks."

PROPOSITION NO. 2 ON THE BALLOT

House Joint Resolution 19 proposes a constitutional amendment that restructures the Permanent University Fund to provide: (1) for the expansion of the institutions eligible to participate in the bonding capacity of the fund to include the components of The University of Texas and Texas A&M University systems that have been added to those two systems of higher education since the Permanent University Fund was last restructured by constitutional amendment; (2) for the expansion of the purposes for which bond proceeds can be expended from new construction to include major repair and rehabilitation projects and the acquisition of major capital equipment (e.g., computers and laboratory equipment) and library books and materials; (3) for an increase in the bonding capacity from 20% (2/3 for The University of Texas System and 1/3 for the Texas A&M University System) to 30% (20% for The University of Texas System and 10% for Texas A&M University System) of the value of the assets (exclusive of real estate) in the Permanent University Fund in order to provide sufficient bond proceeds to care for the addition of 10 new institutions to those authorized to participate in the Permanent University Fund bonding program and to care for the expanded purposes for which the bond proceeds can be spent; and (4) for the dedication of the dividends, interest, and other income from the Permanent University Fund remaining after payment of principal and interest due on bonds and notes issued, to the provision of support and maintenance (over and above normal legislative appropriations) for Texas A&M University in Brazos County, Prairie View A&M University, and The University of Texas at Austin.

House Joint Resolution 19 also annually appropriates \$100 million in each fiscal year, beginning September 1, 1985 (from the first money coming into the state treasury that is not otherwise appropriated by the constitution) for the use of those

education which are not included in The University of Texas or Texas A&M University Systems and, therefore, not eligible to participate in the Permanent University Fund bonding program. The amount of this appropriation could be adjusted every five years by a 2/3 vote of the Legislature, but could not be adjusted in such a way as to affect outstanding bonding indebtedness. Each institution of higher education that is eligible to participate (i.e., those institutions of higher education outside The University of Texas and Texas A&M University Systems) would be authorized to expend directly its share (such share to be determined pursuant to an equitable formula) of the \$100 million appropriation for the purposes of acquiring land, constructing and equipping buildings or other permanent improvements, major repair and rehabilitation of other permanent buildings or improvements, and acquisition of major capital equipment (e.g., computers and laboratory equipment) and library books and materials. Additionally, each institution would be authorized to issue bonds backed by a pledge of up to 50% of its share of the \$100 million annual appropriation for the purpose of land acquisition, new construction, and major repair and rehabilitation projects.

Except in the case of fire or natural disaster and in other extraordinary cases, verified by a two-thirds vote of each house of the legislature, all institutions of higher education would be precluded from receiving appropriations of general revenue funds for the purposes of land acquisition, new construction, and major repair and rehabilitation projects.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment to create from general revenue a special higher education assistance fund for construction and related activities, to restructure the Permanent University Fund, and to increase the number of institutions eligible to benefit from the Permanent University Fund."

PROPOSITION NO. 3 ON THE BALLOT

House Joint Resolution 65 proposes a constitutional amendment which authorizes the legislature to provide for the payment of assistance to the surviving dependent parents, brothers, and sisters of officers, employees and agents of the state or its political subdivisions, including members of organized volunteer fire departments and members of organized police reserve or auxiliary units authorized to make arrests, who die in the course of performing hazardous official duties. Payments to surviving spouses and dependent children of agencies and institutions of higher

COMBEST COMMENTS

By Larry Combest

WELCOME TO OUR CAMP

In my first column I talked about my trip August a year ago to start my campaign for my party's nomination for Congress. Last week I made the same trip to visit all counties and county seats and to talk to Democrats and Independents in our District.

I want to make certain that all Democrats and Independents throughout the 19th District know they are welcome in our camp. They are not only welcome, we openly solicit their support now, and their advice and counsel after we get to Washington.

I hope all conservative Democrats will always remember the rousing cheer that went up from the Democratic delegates in San Francisco when Jesse Jackson said that they must rid the party

of the "boll weevils," or conservative Southern Democrats. The sentiments of the Democratic delegates were made very clear by that cheer, and by the fact that Mr. Mondale did not take issue with what the Rev. Jackson said.

Indeed, Mr. Mondale evidently agreed whole heartedly with Jesse Jackson, because he turned to a liberal from the Northeast as his running mate.

It is plain that the only thing the liberal leadership of the Democratic Party wants from conservative Democrats is their money anytime they can get it, and their votes in November. After that they are expected to go back to work, pay their new taxes, and keep quiet.

In short, there is no place now in the liberal Democratic leader-

ship for a conservative and should one get elected to represent his district he can expect to go sit quietly in the corner or suffer the outrages of Tip O'Neill and his fellows. He must "go along to get along" with his party's liberal national leadership or he, and his district along with him, will be punished.

This is why I ask for, and value so highly, the support of all conservative Democrats and Independents in our District: So that we may have a Representative who can stay in touch with the people of West Texas and, at the same time, in tune with his party's leadership; a Representative in Washington who can vote with us 100 percent of the time; a Congressman who owes nothing to Tip O'Neill and everything to the people of West Texas.

I welcome all conservative Democrats and Independents to my campaign. My door will always be open to you.

Larry Combest is a fourth generation West Texan. He worked as a farmer, teacher, for the A.S.C.S. and for Senator John Tower for seven years. He is a candidate for U.S. House of Representatives 19th District.

Meeting To Explore New Tax Law

State Comptroller Bob Bullock said today Parmer County residents with questions about changes in state tax laws can get answers during a special seminar to be held from 10 a.m.-12 noon on September 20, at the County Court Room in Farwell.

"The state sales tax rate is going up and a number of new items and services will be taxable for the first time beginning October 2," Bullock said. "We are holding seminars across Texas so that these changes won't come as a surprise to anybody."

Comptroller representatives will explain the changes and answer questions during the seminar. The meeting is open to the public.

Parmer County residents who cannot attend the seminar should contact the Comptroller's Field Service Office in Lubbock at 806-795-0691 or call the Comptroller's toll-free tax hotline at 1-800-252-5555 for answers to their tax questions.

However, the picture of the overall Texas voter appears to be changing. Many voters have the attitude "We want the government dole, and if we have to take all that other trash that the liberals embrace, then so be it."

We wonder if they will say that once again in November.

School Corner

By BOB OWEN

The school year is off to a good start, in spite of all the changes made necessary by the special session this summer. We ask for your support as we attempt to work through these changes. We hope to finally come up with a plan that will be in the best interest of the students of the district.

Change is never easy for we humans, but it is a necessary ingredient to improvement. Just because we have done a particular thing for twenty years does not mean it is best. We must deal with change as it comes and make every attempt to incorporate it into our overall plan.

The mission of a public school is to serve the students. All other things must be secondary. We have to work together, as a community, to accomplish our goal. If education is just for school, then we probably will not succeed in our mission. Homes must accept their role in the educational process.

Let us strive together to provide the very best education for the young people who attend school in the Bovina Independent schools. It will take a combined effort to accomplish the mission which has been established.
