TX 79101 School voura som lew president

By Griffin B. Cole DRN Editor

By acclamation Gary Hardgrave was named the new president of the school board during a meeting May 8. Hardgrave, who was just re-elected to the board, replaced Jim Garrett.

In other moves on the school board, Donald Patton was named the president pro tempore and Michael Smith was named board secretary. Both moves were made by acclamation.

In the first moments as president, Hardgrave faced a group of parents and high school seniors who were concerned about the annual senior trip.

School superintendent Charles Russell had denied the seniors request to go to Six Flags Over Texas in Arlington for their senior trip. During the meeting Russell said his main reasons for denying the trip were due to the distance that would be travelled and the possibility of bus drivers being tired.

School policy calls for the senior trip to be made within a 24hour period.

Carl Weaver, who acted as spokesperson for the parents at the meeting, said he would prefer for the students to be at Six Flags rather than the original idea of San Antonio which had been approved by Russell.

Weaver said he would rather have the students under a more controlled setting which he felt Six Flags would give compared to San Antonio.

It was learned by the board that the policy for the senior trip is not as clear and concise as they would want. Discussion among the board members concerned the current policy and safety factors.

A motion was made by Garrett which called for allowing the trip this year then to re-work the policy for future trips.

Prior to a vote being taken, Russell said, "I'm against the trip, but if you (the board) say they can go, fine."

Russell gave approval to the trip when the vote was tied after a compromise that the seniors leave Arlington by 8 p.m. and it is made sure there are enough drivers and sponsors along on the trip.

EMOTIONAL TIME - These young ladies let their feelings flow during the High School sports banquet Monday night. It was an emotional banquet for many as Jerry Hopkins retired after 29 years as a coach and another graduating class gets ready to move on.

High school honors athletes

By Griffin B. Cole **DRN Editor**

Sonora High School athletes and coaches were honored during an emotional banquet held Monday night in the high school foyer. Emotions poured out during a pair of slide presentations and when awards were handed out to athletes and coaches.

While the athletes were given their due recognition, the top showcases of the evening were a slide presentation about the 1989-90 sports seasons and the life of coach Jerry Hopkins.

Hopkins retired after coaching for a term which spanned 29 years and included 200 victories.

In addition to the slide presentation Hopkins was given a replica of a plaque which will be mounted at Bronco Stadium which gives an overview of each of his seasons at Sonora.

Named as the top all-round athletes at Sonora High School were Sammy Santana and Christie Adkins.

Each of the athletes also

received top honors for other sports, Santana in football and Adkins in girls basketball.

Named as the outstanding boys basketball player was Luis Lira who led the Broncos in scoring and rebounding.

The top tennis award went to Matt Hodges for showing outstanding dedication and perserverance.

Jason Donaldson captured the top golf award after finishing sixth out of 85 golfers in the regional competition.

Rachael Pool was named as the outstanding girls track participant. Pool set a new school record in the 200-meter dash at 26.2 this

Sonora Sensation set to go

Goat cookoff also on Saturday

Bull riding action comes to Sonora as the 10th anniversary tour for Bad Company Rodeo Productions hits town Saturday with the Sonora Sensation. Some 40 bullriders will be competing for a pot which includes \$1,000 added money.

The Sonora Sensation will also include a W.P.R.A. Open Approved Barrel Race, calf roping, steer roping and the annual Chamber of Commerce Hoot 'N Holler Goat Cook-off.

The Sonora Sensation is sponsored by the Sutton County Days Association.

The Bad Company bull riding is scheduled to begin at 8 p.m. In addition to some of the best bullriders from the area, Mick Johnson, the Austrialian Champion will be competing.

Not only will some of the best bullriders be present but some of the best bulls will be at the Sensation. Taking Care of Business, a candidate for Bull of the Year, tops the list. Bad to the Bone, Louie Louie and Wild Thing will join in.

On the wrong track

Sometimes it is difficult to judge just which story will get the most reaction from the public. From last week's Devil's River News I thought it would be either the election article or even perhaps the editorial response.

Wrong again. To my shock it was the article on Eric Espinosa heading to state

to run in the 300-meter hurdles. I was stopped by several people questioning my track knowledge. Sadly, I must admit they were right. As just about any person would know the event run prior to the 300-meter hurdles was not the 300-yard hurdle but the 330-yard hurdles.

Oops.

That naturally brought into question my comment about, "no matter which way you look at it, Eric Espinosa broke Bruce Kerbow's record."

The comment was not appreciated by more than one person. On Thursday a person walked into the office and said that I had done a grave injustice to Bruce and even insulted him.

I wasn't sure where the insult came in because I only recalled writing that Bruce was an outstanding hurdle at Sonora High School. Of course, that wasn't the part they were talking about.

The person was talking about

the "no matter which way you look at it" comment. I in no way meant to insult Bruce with that comment. All I meant was that in either yards or meters Eric ran the faster time since yards is shorter than meters.

Of course, if this were a court session, I would just have that sentence stricken from the record. Since it can't be stricken from the record let it suffice that I agree with the person that came in that you can't compare the times of Bruce and Eric because it is like comparing apples and oranges.

By the way, the only comment from Bruce on the whole thing was, "I never ran the 300-yard hurdles."

I appreciated the fact he didn't add "you moron" to the end of the sentence.

Another person called telling me that with 19 percent turnout for the election, that 81 percent did not turn out, not the 71 percent I wrote. I claim that I was being an optimist.

There shouldn't be any complaints about lack of things to do. This weekend is the Sonora Sensation, graduation is coming up and plenty of activities will be taking place soon concerning the centennial.

Where were all the parents, grandparents, aunts, uncles, and just friends of the kids in the choir and band during their concert?? How sad to see the lack of enthusiasm from our community. These kids work hard and are proud of their accomplishments. They've earned the right to expect your attendance there.

We all want our children involved and to participate in school activities, why can't we even show up to show them our pride in them--

Can't figure this out?-

Clara James

Dear Editor,

On Tuesday night (May 8) I went to the High School band concert. Gosh, what a good band we have! I was so proud my son was part of such a good program with a fine band director, Bryant Harris. I want you to know Mr. Harris, although we don't say it or even show it often enough, we think you've done a terrific job and I really do appreciate how you care for our kids. You mean alot to us and we really think we're lucky to have you. Thank you.

Then on Thursday (May 10) nite I went to the High School Choir concert. Now there's another very talented group of kids! Although I don't have any children in the choir, there's one member that I consider my own. He's always talking about Mr. Z this or that. I could tell that Mr. Zimmerman was very well like by his choir. I know all the hard work it takes from both members & directors. Mr. Zimmerman-you've done an excellent job and you, too, are appreciated. Thank you for caring for our kids.

Only one thing would have made these concerts even better. That is to have seen more parents out in the audience. This was your kids' night to Shine! I'm sorry you weren't there to see it--Janice Black

Dear Editor,

I wonder if those who see social injustice and racism at every turn aren't, in fact, exposing their own ignorance and prejudiced beliefs. We all know that people who go to great lengths to secure their property are the ones who will steal you blind.' Could it possibly be that Mrs. Barrera is actually expressing the racism present in her own character and belief system?

Mr. Cole,

I could write a book on this subject, but I'll try to keep it as short as possible. I'm sorry if you and your staff took my wife's letter so personally, it

was not meant that way. In her letter she states "the trend continues in the Devil's River News." She was stating a fact. The majority of us Hispanics in Sonora have felt for a long time that we get 2nd class coverage in our local newspaper. All you have to do is ask around or go through the back issues. While nobody else has confronted you with it---it is something we have always lived with.

One quick example, Mr. Cole, would be the insert in this weeks paper "A Centennial. Salute to Sonora and Sutton 1890-1990." County Apparently Hispanics have played no role what-so-ever in Sonora's past 100 years because I cannot find any mention of them in any of the 48 pages.

My wife was not accusing anyone of racism, she was just putting into print the general feeling of us Hispanics in this town. We certainly are not racists, nor do we promote racism---we wish to do away with it. One of our late Presidents, I believe it was, when accused of being a hell raiser replied; "No I'm not, I just tell them the truth and they think it's hell."

So you see, writing that letter was my wife's sure-fire way of getting her nephew on page one.

I'm looking forward to getting to know you Mr. Cole, I think we can become friends, you seem to have some of what it takes, which is more than I can say for your neighbor up the

> Gracias, Ernest C. Barrera

P. S. Heck, I almost forgot, you forgot to mention in your editorial that you did not start gathering material for Eric Espinosa's article until after my wife took you her letter on Thursday!

Editors note: The Devil's River News was in no way connected to any copy included in the "A Centennial Salute to Sonora and Sutton County 1890-1990". That was an independent project done by the Covered Wagon Dinner Theater people.

The end is near

A time of fear is upon us. The final ten years of centuries passed have always been marked with predictions of the world's end, the coming of the anti-Christ and other catastrophic events. If such prophesies were true, mankind would have been annihilated a thousand times over. Now, the end of a milleni steadly approaches with every passing

Most of us remain complacent to zealot's pleas, "repent for the end is coming." Even if it was, there is little we could do to change things without making the remaining time considerably worse with mass hysteria.

However, pretend you knew the world would quietly and peacefully end in three years. There is absolutely nothing anyone could do to save our planet. In three years, everything as you know it could simply cease to exist.

How would you spend the time? Which of your priorities would first be altered? How would your attitude toward living be changed? What would happen to your desire for material things? Would you be more inclined to stop responding to daily challenges, or savor the time remaining?

In this scenario, most people experience a profound change in their attitude toward others. Friends, family & other people suddenly become more important, they feel a greater sense of kinship with those close-by. Material wealth looses significance in their lives. They experience their environment more intensely.

These things should be no surprise, but by the use of your imagination in this elementary fashion, you can avail yourself of the latent surprises within. You will discover you, the "planet earth person," long buried by the superficial 'extra baggage' acquired through negative habits and ignorance.

By no means, is this a condemnation of money, wealth, or other materialism. As a matter of fact, I'm not here to 'put-down' any vice or virtue. Any of these could be used for the betterment of society and individual lives, when their usage is mastered.

It is our excessive natures, our lack of direction and loosing sight of the goals we do have that lands us in trouble. Only when we familiarize ourselves with who we truly are, only when we establish a set of priorities consistant with out talents and abilities, and when we commit to get more living out of life; will we master materialism, vice and

Normally, we get in touch with ourselves when time is of the essence. We can do drugs all our lives or pursue and store-up wealth, then watch our entire perspective change when time runs out. Only then do we realize what is important.

Happy new millenium!

Senior mother chosen at Center

A Mother's Day program was held at the Sutton County Senior Center on Friday, May 11. The 1989 Senior Mother of the Year, Nancy Taylor, drew the name of this year's recipient, Mrs. Wilma Patrick. The drawing followed a short program of poetry read by center director, Carole Thorp.

Wilma must have felt like "Queen for a Day". She received a sash naming her Mother of the Year, a corsage from Jane's floral, two fish dinners from Country Fried Chicken n' Fish, a \$25 gift certificate from Food Center, and a lifetime pass to the Caverns of Sonora. Wilma will ride in a place of honor on the senior center's float during Sutton County Days.

Biology class studies hill

The biology classes of Sonora High School are involved in an environmental study of the hill located behind the high school. The hill is an outdooor lab as it provides an excellent example of a biosphere where numerous physical and biostic factors interact within it.

Examples of interactions found on the hill include physical factors such as water and wind erosion; physical and biostic factors, the carbon-oxygen cycle can be found, along with many food chains and food webs.

The classes are also able to study a pair of biomes which are areas of the biosphere that can be identified by dominant plant and animal species. The two biomes and freshwater.

Ecosystems are easily studied on the hill. An ecosystem is a unit of the biosphere in which living and non-living things interact and as the biosphere materials are recycled.

During the remaining portion of the school year biology students will be working on the hill to identfy different ecosystems. They will also be finishing the year with a unit on ecology which will include a field trip to the Sonora wastewater treatment plant.

The trip will give students the chance to see first-hand what the water looks like coming in from the city and what it looks like when it has been cleaned.

The first period class is cleaning trash from an old abiotic container on the hill.

The second period class is prepairing a trail through the nature part of the biosphere. The class is looking to identify the different plants and set a cactus display.

The third period class is studying the effects of water runoff on soil erosion and where the top soil is the richest and more vegetation is located.

The fourth period class is looking into the environment of some insects. The class is identifying the particular insects that helpful to man such as scorpions and snakes.

The fifth period class has been counting withe number of populations that may come into interaction with each other on the

WHAT: Tennis Lessons - Each student will be given instruction in the fundamentals of tennis. Correct technique will be stressed and the classes will be kept small in order to have a lot of individual attention. Private lessons are available upon request. There will be two sessions. The first session will be for beginners and advanced beginners, and will be conducted by Carol Sessom, Sonora High School tennis coach. The second session will be for intermediate and advanced players and will be conducted by Coach Tracy Tatum, a former state champion, a past instructor at John Newcombs Tennis Camp, and presently the head tennis coach at McCamey High School.

Session 1: May 28-June 1 Beginners - Advanced Beginners Session 2: June 4-June 8

ICA holds meeting May 7

The Independent Cattlemen's Association held its regular monthly business meeting and Dutch-treat dinner on Monday, May 7 at the Sutton County Steakhouse.

In attendance were Larry Finklea, chairman; Johnston Holekamp, Mr. and Mrs. Ben Epps and Ruth Espy.

Among the topics discussed were the OBRA (Omnibus Budget Reconciliation Act) which is a method congress has implemented to raise revenues without raising taxes. The May ICA Newsletter carries a well written article by Larry Windham titled "IRS Jeopardizes Family Business

The next monthly business meeting will be held on June 4 with Teresa Anthony, representative of MSD Agvet, Division of Merck & Co., Inc., giving a presentation.

All members are urged to attend and bring their friends and families interested in ranching.

MSD Agvet is sponsoring the program and the dinner.

Third grade tours library

The Sutton County Library was busy last week. The third grade classes and their teachers toured the Library.

They learned about fiction and non-fiction books, how to use the card catalog and where to find the books on the shelf.

A filmstrip was also shown to them about the "Who-Whats". A space creature wanting to know what shoefly (shoo fly) was, and he found the answer at the library.

The tour was concluded with a pamphlet to take back to class to learn more about the library.

Midyear crop and livestock reports

Beginning June 1, representatives from the Texas Agricultural Statistics Service will begin contacting farmers and ranchers across the state to help set the 1990 planted acreage estimates and midyear livestock inventories.

State Statistician Dennis Findley emphasized that information from these surveys will help producers adjust their production and marketing plans for 1990. "Good marketing requires good information and advanced planning. Information from these surveys will provide Texas producers with solid facts and figures they can use when making their marketing plans.

"There are many uncertainties facing agriculture," Findley added, "and accurate, reliable figures will give producers a chance to make sound production and marketing decisions during the coming year."

Results of the confidential interviews, conducted by telephone or in person by field enumerators, will be published later this summer. The 1990 planted acreage report will be released June 28 and the U.S. cattle inventory will be released by July 27.

To reduce survey costs, Findley is urging farmers and ranchers to return the mailed questionnaires as soon as possible. Individual reports will be combined with other reports to state estimates.

"Remember, these are sample surveys, so if you are contacted it is important to provide the requested information, since your one report represents similar operations of the same size and type. Our estimates can be no better than the numbers producers provide," Findley added.

School board gets new president

By Griffin B. Cole **DRN Editor**

By acclamation Gary Hardgrave was named the new president of the school board during a meeting May 8. Hardgrave, who was just re-elected to the board, replaced Jim Garrett.

In other moves on the school board, Donald Patton was named the president pro tempore and Michael Smith was named board secretary. Both moves were made by acclamation.

In the first moments as president, Hardgrave faced a group of parents and high school seniors who were concerned about the annual senior trip.

School superintendent Charles Russell had denied the seniors request to go to Six Flags Over Texas in Arlington for their senior trip. During the meeting Russell said his main reasons for denying the trip were due to the distance that would be travelled and the possibility of bus drivers being tired.

School policy calls for the senior trip to be made within a 24hour period.

Carl Weaver, who acted as spokesperson for the parents at the meeting, said he would prefer for the students to be at Six Flags rather than the original idea of San Antonio which had been approved by Russell.

Weaver said he would rather have the students under a more controlled setting which he felt Six Flags would give compared to San Antonio.

It was learned by the board that the policy for the senior trip is not as clear and concise as they would want. Discussion among the board members concerned the current policy and safety factors.

A motion was made by Garrett which called for allowing the trip this year then to re-work the policy for future trips.

Prior to a vote being taken, Russell said, "I'm against the trip, but if you (the board) say they can

Russell gave approval to the trip when the vote was tied after a compromise that the seniors leave Arlington by 8 p.m. and it is made sure there are enough drivers and sponsors along on the trip.

EMOTIONAL TIME - These young ladies let their feelings flow during the High School sports banquet Monday night. It was an emotional banquet for many as Jerry Hopkins retired after 29 years as a coach and another graduating class gets ready to move on.

High school honors athletes

By Griffin B. Cole **DRN Editor**

Sonora High School athletes and coaches were honored during an emotional banquet held Monday night in the high school foyer. Emotions poured out during a pair of slide presentations and when awards were handed out to athletes and coaches.

While the athletes were given their due recognition, the top showcases of the evening were a slide presentation about the 1989-90 sports seasons and the life of coach Jerry Hopkins.

Hopkins retired after coaching for a term which spanned 29 years and included 200 victories.

In addition to the slide presentation Hopkins was given a replica of a plaque which will be mounted at Bronco Stadium which gives an overview of each of his seasons at Sonora.

Named as the top all-round athletes at Sonora High School were Sammy Santana and Christie

Each of the athletes also

received top honors for other sports, Santana in football and Adkins in girls basketball.

Named as the outstanding boys basketball player was Luis Lira who led the Broncos in scoring and rebounding.

The top tennis award went to Matt Hodges for showing outstanding dedication and perserverance.

Jason Donaldson captured the top golf award after finishing sixth out of 85 golfers in the regional competition.

Rachael Pool was named as the outstanding girls track participant. Pool set a new school record in the 200-meter dash at 26.2 this

Goat cookoff also on Saturday

Bull riding action comes to Sonora as the 10th anniversary tour for Bad Company Rodeo Productions hits town Saturday with the Sonora Sensation. Some 40 bullriders will be competing for a pot which includes \$1,000 added money.

The Sonora Sensation will also include a W.P.R.A. Open Approved Barrel Race, calf roping, steer roping and the annual Chamber of Commerce Hoot 'N Holler Goat Cook-off.

The Sonora Sensation is sponsored by the Sutton County Days Association.

The Bad Company bull riding is scheduled to begin at 8 p.m. In addition to some of the best bullriders from the area, Mick Johnson, the Austrialian Champion will be competing.

Not only will some of the best bullriders be present but some of the best bulls will be at the Sensation. Taking Care of Business, a candidate for Bull of the Year, tops the list. Bad to the Bone, Louie Louie and Wild Thing will join in.

On the wrong track

Sometimes it is difficult to judge just which story will get the most reaction from the public. From last week's Devil's River News I thought it would be either the election article or even perhaps the editorial response.

Wrong again.

To my shock it was the article on Eric Espinosa heading to state to run in the 300-meter hurdles.

I was stopped by several people questioning my track knowledge. Sadly, I must admit they were right. As just about any person would know the event run prior to the 300-meter hurdles was not the 300-yard hurdle but the 330-yard hurdles.

Oops.

That naturally brought into question my comment about, "no matter which way you look at it, Eric Espinosa broke Bruce Kerbow's record."

The comment was not appreciated by more than one person. On Thursday a person walked into the office and said that I had done a grave injustice to Bruce and even insulted him.

I wasn't sure where the insult came in because I only recalled writing that Bruce was an outstanding hurdle at Sonora High School. Of course, that wasn't the part they were talking about.

The person was talking about

the "no matter which way you look at it" comment. I in no way meant to insult Bruce with that

either yards or meters Eric ran the faster time since yards is shorter than meters. Of course, if this were a court session, I would just have that

comment. All I meant was that in

sentence stricken from the record. Since it can't be stricken from the record let it suffice that I agree with the person that came in that you can't compare the times of Bruce and Eric because it is like comparing apples and oranges.

By the way, the only comment from Bruce on the whole thing was, "I never ran the 300-yard hurdles."

I appreciated the fact he didn't add "you moron" to the end of the sentence.

Another person called telling me that with 19 percent turnout for the election, that 81 percent did not turn out, not the 71 percent I wrote. I claim that I was being an optimist.

There shouldn't be any complaints about lack of things to do. This weekend is the Sonora Sensation, graduation is coming up and plenty of activities will be taking place soon concerning the centennial.

Where were all the parents, grandparents, aunts, uncles, and just friends of the kids in the choir and band during their concert?? How sad to see the lack of enthusiasm from our community. These kids work hard and are proud of their accomplishments. They've earned the right to expect your attendance there.

We all want our children involved and to participate in school activities, why can't we even show up to show them our pride in them--

Can't figure this out?-Clara James

Dear Editor,

On Tuesday night (May 8) I went to the High School band concert. Gosh, what a good band we have! I was so proud my son was part of such a good program with a fine band director, Bryant Harris. I want you to know Mr. Harris, although we don't say it or even show it often enough, we think you've done a terrific job and I really do appreciate how you care for our kids. You mean alot to us and we really think we're lucky to have you. Thank you.

Then on Thursday (May 10) nite I went to the High School Choir concert. Now there's another very talented group of kids! Although I don't have any children in the choir, there's one member that I consider my own. He's always talking about Mr. Z this or that. I could tell that Mr. Zimmerman was very well like by his choir. I know all the hard work it takes from both members & directors. Mr. Zimmerman-you've done an excellent job and you, too, are appreciated. Thank you for caring for our kids.

Only one thing would have made these concerts even better. That is to have seen more parents out in the audience. This was your kids' night to Shine! I'm sorry you weren't there to see it--Janice Black

was not meant that way. In her letter she states "the trend continues in the Devil's River News." She was stating a fact. The majority of us Hispanics in Sonora have felt for a long time that we get 2nd class coverage in our local newspaper. All you have to do is ask around or go through the back issues. While nobody else has confronted you with it---it is something we

have always lived with. One quick example, Mr. Cole, would be the insert in this weeks paper "A Centennial. Salute to Sonora and Sutton 1890-1990." County Apparently Hispanics have played no role what-so-ever in Sonora's past 100 years because I cannot find any mention of them in any of the 48 pages.

My wife was not accusing anyone of racism, she was just putting into print the general feeling of us Hispanics in this town. We certainly are not racists, nor do we promote racism---we wish to do away with it. One of our late Presidents, I believe it was, when accused of being a hell raiser replied; "No I'm not, I just tell them the truth and they think it's hell."

So you see, writing that letter was my wife's sure-fire way of

getting her nephew on page one. I'm looking forward to getting to know you Mr. Cole, I think we can become friends, you seem to have some of what it takes, which is more than I can say for your neighbor up the

P. S. Heck, I almost forgot, you forgot to mention in your editorial that you did not start gathering material for Eric Espinosa's article until after my wife took you her letter on Thursday!

The end is near

A time of fear is upon us. The final ten years of centuries passed have always been marked with predictions of the world's end, the coming of the anti-Christ and other catastrophic events. If such prophesies were true, mankind would have been annihilated a thousand times over. Now, the end of a milleni steadly approaches with every passing

Most of us remain complacent to zealot's pleas, "repent for the end is coming." Even if it was, there is little we could do to change things without making the remaining time considerably worse with mass hysteria.

However, pretend you knew the world would quietly and peacefully end in three years. There is absolutely nothing anyone could do to save our planet. In three years, everything as you know it could simply cease to exist.

How would you spend the time? Which of your priorities would first be altered? How would your attitude toward living be changed? What would happen to your desire for material things? Would you be more inclined to stop responding to daily challenges, or savor the time remaining?

In this scenario, most people experience a profound change in their attitude toward others. Friends, family & other people suddenly become more important, they feel a greater sense of kinship with those close-by. Material wealth looses significance in their lives. They experience their environment more intensely.

These things should be no surprise, but by the use of your imagination in this elementary fashion, you can avail yourself of the latent surprises within. You will discover you, the "planet earth person," long buried by the superficial 'extra baggage' acquired through negative habits and ignorance.

By no means, is this a condemnation of money, wealth, or other materialism. As a matter of fact, I'm not here to 'put-down' any vice or virtue. Any of these could be used for the betterment of society and individual lives, when their usage is mastered.

It is our excessive natures, our lack of direction and loosing sight of the goals we do have that lands us in trouble. Only when we familiarize ourselves with who we truly are, only when we establish a set of priorities consistant with out talents and abilities, and when we commit to get more living out of life; will we master materialism, vice and

Normally, we get in touch with ourselves when time is of the essence. We can do drugs all our lives or pursue and store-up wealth, then watch our entire perspective change when time runs out. Only then do we realize what is important.

Happy new millenium!

Dianah Kay Fischer of Haskell and David Brian Creek of Sonora will exchange wedding vows at the Paint Creek Baptist Church on July 21 in Haskell, Texas.

The bride-elect is the daughter of Mr. and Mrs. Walter E. Fischer of Haskell, Texas. Kay is a 1987 graduate of Paint Creek High School and is a senior at Angelo State University.

The bridegrom is the son of Mr. and Mrs. Luther M. Creek of Sonora. David is a 1981 graduate of Sonora High School and attended Sul Ross State University. He also received a masters degree in business from Angelo State University in 1988.

The couple will make their home in Sonora.

Senior mother chosen at Center

A Mother's Day program was held at the Sutton County Senior Center on Friday, May 11. The 1989 Senior Mother of the Year, Nancy Taylor, drew the name of this year's recipient, Mrs. Wilma Patrick. The drawing followed a short program of poetry read by center director, Carole Thorp.

Wilma must have felt like "Queen for a Day". She received a sash naming her Mother of the Year, a corsage from Jane's floral, two fish dinners from Country Fried Chicken n' Fish, a \$25 gift certificate from Food Center, and a lifetime pass to the Caverns of Sonora. Biology class studies hill

The biology classes of Sonora High School are involved in an environmental study of the hill located behind the high school. The hill is an outdooor lab as it provides an excellent example of a biosphere where numerous physical and biostic factors interact within it.

Examples of interactions found on the hill include physical factors such as water and wind erosion; physical and biostic factors, the carbon-oxygen cycle can be found, along with many food chains and

The classes are also able to study a pair of biomes which are areas of the biosphere that can be identified by dominant plant and animal species. The two biomes studied on the hill are terrestrial and freshwater.

Ecosystems are easily studied on the hill. An ecosystem is a unit of the biosphere in which living and non-living things interact and as the biosphere materials are

During the remaining portion of the school year biology students will be working on the hill to identfy different ecosystems. They will also be finishing the year with a unit on ecology which will include a field trip to the Sonora wastewater treatment plant.

The trip will give students the chance to see first-hand what the water looks like coming in from the city and what it looks like when it has been cleaned.

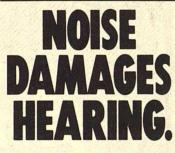

The first period class is cleaning trash from an old abiotic container on the hill.

The second period class is prepairing a trail through the nature part of the biosphere. The class is looking to identify the different plants and set a cactus display.

The third period class is studying the effects of water runoff on soil erosion and where the top soil is the richest and more vegetation is located.

The fourth period class is looking into the environment of some insects. The class is identifying the particular insects that helpful to man such as scorpions and snakes.

The fifth period class has been counting the number of populations that may come into interaction with each other on the

them for the kids," said Chalk. Thus far sales have reached in the neighborhood of \$1,000 said Chalk.

"If they (the community) purchases the certificates they'll get the feel of the centennial celebration," said Chalk. "We need something to rev this town up."

Chalk said she believed part of the reason sales are a little slow now is that people are waiting to purchase them during Sutton County Days.

There is no difference in purchasing the stock certificates now rather than during Sutton County Days, except that a lot of the activities will be past," said

The centennial committee strongly believes the community will back the celebration through the sale of the stock certificates.

Sutton County residents backed the Diamond Jubilee and it is hoped they will back the Centennial Celebration as well.

WHAT: Tennis Lessons - Each student will be given instruction in the fundamentals of tennis. Correct technique will be stressed and the classes will be kept small in order to have a lot of individual attention. Private lessons are available upon request. There will be two sessions. The first session will be for beginners and advanced beginners, and will be conducted by Carol Sessom, Sonora High School tennis coach. The second session will be for intermediate and advanced players and will be conducted by Coach Tracy Tatum, a former state champion, a past instructor at John Newcombs Tennis Camp, and presently the head tennis coach at McCamey High School.

ICA holds meeting May 7

The Independent Cattlemen's Association held its regular monthly business meeting and Dutch-treat dinner on Monday, May 7 at the Sutton County

In attendance were Larry Finklea, chairman; Johnston Holekamp, Mr. and Mrs. Ben Epps and Ruth Espy.

Among the topics discussed were the OBRA (Omnibus Budget Reconciliation Act) which is a method congress has implemented to raise revenues without raising taxes. The May ICA Newsletter carries a well written article by Larry Windham titled "IRS Jeopardizes Family Business Transfers"

The next monthly business meeting will be held on June 4 Teresa Anthony, representative of MSD Agvet, Division of Merck & Co., Inc., giving a presentation.

All members are urged to attend and bring their friends and families interested in ranching.

MSD Agvet is sponsoring the program and the dinner.

Third grade tours library

The Sutton County Library was busy last week. The third grade classes and their teachers toured the Library.

They learned about fiction and non-fiction books, how to use the card catalog and where to find the books on the shelf.

A filmstrip was also shown to them about the "Who-Whats". A space creature wanting to know what shoefly (shoo fly) was, and he found the answer at the library.

The tour was concluded with a pamphlet to take back to class to learn more about the library.

Midyear crop and livestock reports

Beginning June 1, representatives from the Texas Agricultural Statistics Service will begin contacting farmers and ranchers across the state to help set the 1990 planted acreage estimates and midyear livestock inventories.

State Statistician Dennis Findley emphasized that information from these surveys will help producers adjust their production and marketing plans for 1990. "Good marketing requires good information and advanced planning. Information from these surveys will provide Texas producers with solid facts and figures they can use when making their marketing plans.

"There are many uncertainties facing agriculture," Findley added, "and accurate, reliable figures will give producers a chance to make sound production and marketing decisions during the coming year."

Results of the confidential interviews, conducted by telephone or in person by field enumerators, will be published later this summer. The 1990 planted acreage report will be released June 28 and the U.S. cattle inventory will be released by July 27.

To reduce survey costs, Findley is urging farmers and ranchers to return the mailed questionnaires as soon as possible. Individual reports will be combined with other reports to state estimates.

"Remember, these are sample surveys, so if you are contacted it is important to provide the requested information, since your one report represents similar operations of the same size and type. Our estimates can be no better than the numbers producers provide," Findley added.
