## HUNDREDS FORCED TO FLEE HOMES AS RIVERS OVERFLOW

Anxiety for Safety Of Many Others Increases

## LEVEES CRUMBLE

Snowstorms Bring Added Grief To Middle West

By Associated Press  
Rain swollen streams forced hundreds from their lowland homes today throughout the middle west. Anxiety for the safety of thousands of others was heightened by forecasts of additional rains in Ohio, Indiana, Missouri, Illinois and Arkansas.

In other sections snow storms and sub-zero weather brought suffering. Two died in North Dakota. Levees crumble anew before the pressure of flooded streams, routing families and inundating farms. Thousands of men were sent to the Ohio and Mississippi valleys to fight the floods.

Water spilled over scores of highways in half a dozen states, virtually isolating some communities. Nine levee breaks were reported along the St. Francis in Missouri. Three engineers narrowly escaped drowning in the breaks as water poured over farmland.

## TWO NEW SUSPECTS ARE QUESTIONED IN MATTSON CASE

One is Reported To Resemble The Kidnap

TACOMA, Wash., Jan. 20 (P)—A man who talked wildly about wealthy families and a prisoner involuntarily growing a beard Tuesday claimed the attention of police seeking the kidnap-slayer of Charles Mattson. Federal agents reportedly formed a flying squad to check score of tips.

In Portland, Oregon, Detective Captain J. J. Keegan, announced the detention of George Wilson, 38, and said he resembled perfectly the description of the man who seized Charles for \$28,000 ransom the night of December 27.

Keegan said the man raved against families of wealth and specifically that of Dr. W. W. Mattson, father of Charles.

Bellingham authorities continued to hold Leigh Haskell Fowler, 36, convicted robber, despite the fact, Sheriff W. T. Farmer announced Monday he would be taken soon to the state prison.

An authoritative source indicated Fowler was being forced to grow whiskers, apparently in preparation for a visit from Virginia Chatfield, one of the children who witnessed the abduction.

Miss Chatfield saw Fowler's picture several days ago and said it did not appear to be a likeness of the be-whiskered man who seized Charles. However, federal agents have continued to question the prisoner, who was convicted of robbing a mill at Bellingham.

Captain Keegan said the Portland police would dig deeper into Wilson's affairs.

"This man certainly resembled the published description of the kidnap-slayer," he said. "He sounds like a nut, but then a nut did that Mattson job. We will know better about him, of course, when the Mattson children see his picture."

## Should New King Wear a Beard?

If George VI of England follows the "serious suggestion" of older court officials and grows a beard, future history students may have difficulty in telling apart the Georges V and VI, from their pictures. The striking resemblance between father and son, noted with pleasure in England, is easily seen from the above photographs. The eyes of the two are almost identical, as are noses and foreheads, the general shape of the heads, and the way the hair is worn.

## ACHIEVEMENTS OF MIDLAND COUNTY PUBLIC HEALTH BOARD REVIEWED BY CHAIRMAN AT THE ANNUAL MEETING

EDITOR'S NOTE: The following article was written by Mrs. Harvey Sloan, chairman of the Midland County Health Board, and is presented for its news value.

BY MRS. W. H. SLOAN  
Last year Midland County Public Health Board celebrated its fifth year of community service and we wonder what thrills those board members will have who prepare the 25th annual report what great improvements in social welfare and community health will have been accomplished. But in 1937 we do have a Silver Jubilee Year, the 25th anniversary of the National Organization for Public Health Nursing. The first records we have of a nurse doing community or public health nursing in the United States is when Lillian Wald and Miss Brewster went to East Side New York City 43 years ago, and in 1885 drew up some general nursing principles with which to guide themselves. But even 25 years ago there was no national, uniform standards for public health nursing, so on June 7, 1912, less than 200 nurses doing public health nursing or settlement work as it was often called, met in Chicago and organized the National Organization for Public Health Nursing. Today there are over 20,000 trained public health nurses in the United States alone, and over 8,000 nurse members of the National Organization for Public Health Nursing. What has the N. O. P. H. N. contributed to public health nursing and nursing and the community health of our nation? 1. It has defined the minimum qualifications for public health nursing which have been accepted by the United States Public Health Service, the Children's Bureau, State and City departments of Health. 2. Outlined the functions of public health nursing. 3. Defined educational preparations necessary for public health nurses, interpreted to the public. 4. Co-operated with all national organizations in community health problems. 5. Published a manual on public health nursing. 6. Made statistical studies of public health nursing problems for numerous, different cities and states. 8. Helped to obtain employment for several hundred nurses annually. 9. Extended advisory service into schools and industries of the present administration with advice and surveys in the field of social welfare and health problems, helping it to form policies and put them into execution. There are other fields of public health nursing clamoring for advice and assistance and each new membership, help to help make this possible. The National Jubilee Committee to sponsor the campaign for new members and special financial gifts has just been announced, headed by Mr. Henry Bruere, President of the Bowers Savings Bank of New York City, with Newton D. Baker, Dr. Robert Millikan, Wm. Allen White, Dr. Thomas Parran, Jr., Mrs. R. S. Sell Colgate, some of the outstanding 25 committee members. The ultimate goal is 2500 new members, 25 new agency members, new members and gifts to total \$75,000.00. As these plans for this national Jubilee go forward this year let us not forget to have a part in them. Public health nursing without the guiding, encouraging hand of the National Organization for Public Health Nursing would be like a flock without a shepherd.

## GERMAN-ITALIAN PACT FOR FIGHT ON REDS DROPPED

British Attitude Toward Hitler Stiffened

## EUROPEAN CRISIS

England Decides To Leave Future Up To Germany

By Associated Press  
Great Britain stiffened toward Germany today and Italy abandoned its pact with Germany, Britain and France to fight communism.

Foreign Secretary Eden's British house of commons speech was interpreted as refusing the responsibility for the fascist-communist showdown, putting Europe's future up to Germany.

Italy decided that Spanish tension, France's insistence on retaining their Russian alliance and British reluctance had killed any idea of an accord.

In Madrid, insurgent bombs killed 20 persons.

Eden Tuesday warned European nations that Great Britain would oppose any foreign attempt to dominate Spain, as would 24,000,000 Spaniards.

Eden forecast that 1937 would be a critical year for world peace but added it would also be a year of international opportunities. Danger that the Spanish civil war would spread, he said was diminished but has not been eliminated.

## DR. JESS FLAUT, EX-MIDLAND MAN, VICTIM OF DEATH

Succumbs Tuesday To Pneumonia In Galveston

Dr. Jess Flaut, 54, of Galveston, formerly of Midland, died of pneumonia at a Galveston hospital Tuesday at 4 p. m. It was learned here by relatives. He was associated with the hospital's surgical staff.

His mother, Mrs. W. C. Cochran; sister, Mrs. E. E. Estes; brother, J. O. Cochran, and nephews, Ainslie and Walter Estes, were at his bedside, having gone there upon receipt of news of his severe illness.

Another sister, Mrs. Robert Dickey of Phoenix, Ariz., survives. In his immediate family, he is survived by his wife and two children.

Dr. Flaut, who was reared in Midland, left here in 1912, studying medicine in the State University medical school at Galveston. He spent his internship there, was an officer in the naval medical corps and saw active service during the world war, and then returned to Galveston where he has since been connected with a leading hospital.

Funeral services will be held at Galveston Thursday afternoon, relatives here were advised.

Dr. Flaut was a member of the Galveston Medical Association and the Texas Medical Association.

# Roosevelt Dedicates Self Anew to Removal of "Cancers of Injustice" That Cause Want In Land of Plenty

—And Will, to the Best of My Ability, Preserve, Protect, Defend the Constitution of the U. S.!

Taking for the second time the most solemn oath that an American citizen may take, Franklin Delano Roosevelt starts his second term as president. In the artist's visualization of the scene at the east front of the Capitol in Washington, Chief Justice Hughes, left, administers the oath, while President Roosevelt swears on a Bible held by Court Clerk Charles Elmore Cropley. A vast throng filling the Capitol plaza breathlessly watches the solemn ceremony.

## CONSTITUTION IS LAUDED BY CHIEF EXECUTIVE TODAY

Power Sufficient To Solve Problems As in 1787

## PROGRESS SEEN

Attitude of Nation Is Praised By President

WASHINGTON, Jan. 20 (P)— President Roosevelt dedicated himself anew at the start of his second administration today to removal of "cancers of injustice" that cause want in the midst of plenty.

The chief executive pictured the uncounted poor families living "under the pall of disaster," adding, "we are determined to erect an old foundation more enduring as a structure for the use of future generations."

He said that this year marked the end of the hundred and fiftieth anniversary of the constitution, the forefathers finding it a way out of the chaos of war and a creation of government with "powers sufficient then and now to solve problems beyond individual or local solution."

The president said there had been a change in the "moral climate" of America, during which "we set our feet upon the road of enduring progress."

Before the inauguration Roosevelt drove through the rain to pray at St. John's Episcopal Church.

Vice-President Garner took what he told friends would be his last oath of office shortly before the president was sworn in.

A vast throng of 250,000 watched the parade and ceremony that installed the president in office for four more years despite bitter weather. Crowds jostled through hotel lobbies, crowded the bars and gathered at scores of dinners and receptions.

At noon, escorted by his cabinet, the president took his place on the inaugural stand in front of the capitol, Senator Robinson of Arkansas, the Democratic leader, administered the oath of office to Vice-President Garner. Then Chief Justice Hughes administered the oath to the president. The inaugural address followed, and then he returned to the White House to review the inaugural parade at the court of honor in front of the executive mansion.

## 111 SCOUTERS OF COUNCIL ATTEND BIG SPRING SHOW

Sweetwater Winner Of Attendance Award

One hundred and eleven Scouters from six districts, comprised of 15 West Texas counties, were in attendance at the annual banquet of the Scouters of the Buffalo Trail Council, Boy Scouts of America, at the Settles Hotel in Big Spring Tuesday evening, a delightful banquet menu and an interesting and entertaining program marking the staging of the annual affair.

The principal address of the evening, an informal talk of inspirational quality, was delivered by Ollie B. Webb, of New Orleans, assistant to the president of the Texas and Pacific Railway. In his address, which was interspersed with a bit of humor, Mr. Webb congratulated the Scouters of the Council on their fine work and urged them on to greater things in behalf of the boyhood of this vast section. District President Chas. E. Paxton of Sweetwater served as master of ceremonies.

For his noble and untiring efforts in Boy Scout work during the past several years, Lon Geer of Sweetwater was presented with the Silver Badge award, the presentation being made by B. Regan of Big Spring.

The special attendance award, a bronze Boy Scout statuette, was won by the Sweetwater district, with a total attendance of 29 Scouters. The total number in attendance and the number of miles traveled figured in the selection of the attendance winner. Twenty-eight Scouters were in attendance from the Midland district. Attendance by districts was as follows: Pecos, 13; Midland, 28; Big Spring, 35; Colorado, 4; Snyder, 3; Sweetwater, 29.

First prize in the troop exhibits was awarded to Troop 60 of Grand See (Scouters) Page 3

## STRIKE EFFECTS SPREAD; 2 MORE PLANTS CLOSED

16,000 Workers In New Walkout On Front Today

DETROIT, Jan. 20 (P)—Paralyzing effects of the widespread automotive strike spread today, closing the Buick plant at Flint, employing 15,000 workers, and the Fisher Body plant at Baltimore, employing 12,000.

The total General Motors employees now idle is over 150,000.

Officers of the corporation and union headed for Washington where conciliation efforts are being concentrated.

## Dickenson Delivers Stock to Hearst Co.

E. B. Dickenson delivered yesterday a total of 130 young bulls, sold to the Hearst company for their California ranch and their Brownfield branch will get 100 head, the other 30 going for service in a choice herd of cows on the California place. Dickenson said he was well pleased with prices received. The bulls were all yearlings, raised at his ranch eighteen miles northeast of Midland.

## PATIENTS IMPROVING

Mrs. W. S. Elkin, who underwent a major operation a few days ago, is improving satisfactorily. Mrs. Dick Graves, injured in an automobile wreck a few days ago, is also making satisfactory progress.

## PROSPECTS FOR NEW DELAWARE POOL BRIGHTEN AS MASON WELL HEADS OIL

Loving County Discovery Scheduled to Be Shot With Nitroglycerin Today

By FRANK GARDNER  
Prospects for a new Delaware pool in west central Loving county brightened considerably today when it was reported that the Mason Production Company No. 2 Mrs. Minnie Kyle had made an oil head estimated at 50 barrels. The well will be given a nitroglycerin shot today.

The performance of the Adams & Bradley No. 1 Edwards has resulted in a drilling campaign in the north extension to the Leck pool in extreme northwest Winkler county proven last year by the Fields, Cherry and Finley No. 1 Lum Daugherty discovery. The Adams & Bradley well was completed today for initial natural production of 735 barrels flowing through casing with around 4,000,000 feet of gas. It topped the pay at 2,956 and logged steady increases down to the total depth. Unlike the discovery, which it offsets diagonally to the southwest, the No. 1 Edwards was showing no water with the oil. It is located 330 feet from the north and east lines of block C-23, public school land.

The prospective pool opener is located 2,310 feet from the north and east lines of section 20, block 35, township 1, T. & P. survey. It is nearly 20 miles northwest of the Wheat pool at Mentone, hitherto the only field in West Texas with Delaware production.

Drilling Campaign

## RECORD CROWD AT CC BANQUET HERE IS ANTICIPATED

Estimate 250 Will Attend Affair Tuesday

A record breaking attendance at the annual Chamber of Commerce banquet to be staged in the Crystal ballroom of Hotel Scharbauer next Tuesday night was forecast today by W. M. Simpson, chairman of the ticket sales committee for the annual event, after checking sales of the tickets to date. While some of the committees appointed by Mr. Simpson to canvass certain districts of the city had not reported today, it is estimated that a crowd of between 250 and 300 persons will be present to hear Col. Ernest O. Thompson, chairman of the State Railroad Commission, make the principal address of the evening. Indications are that the largest number of men ever to attend a banquet here will be present.

Harvey Sloan, director of the chamber of Commerce, at present holds the record for the largest number of tickets sold by an individual, Mr. Sloan having disposed of 52 tickets by yesterday noon.

The largest single sale to date was to Humble Oil and Refining Co., which organization purchased fourteen of the tickets.

Sales committees appointed by Mr. Simpson and the areas they are to work are as follows: Harvey Sloan, hotel lobbies; Allen Watts, W. T. Doherty and W. A. Yeager, Petroleum Building; R. C. Conkling, Thomas Building; J. Howard Hodge and Claude Crane, Wall Street; and Clint Lackey, Main Street.

Reservations may be made and tickets secured by contacting Mr. Simpson, any member of the sales committee, or by calling at the chamber of commerce office in Hotel Scharbauer.

A spider, native to Australia and measuring only one-fourth of an inch, is said to be the smallest of this insect-like class.

## BEHIND THE SCENES IN WASHINGTON

By RODNEY DUCHESNE  
Reporter-Telegram Washington Correspondent

WASHINGTON, Jan. 20. — A Negro messenger recently was observed staggering across Pennsylvania Avenue toward the White House, heavily laden with a pile of bound, typewritten pages about two feet high.

If it had been known in time what he was carrying he almost certainly would have been way-laid by 10 cabinet members, a hundred bureau chiefs and commissioners and a small army of other New Deal officials.

For the messenger's load was the report of the president's committee on reorganization of government—consisting of Louis Brownlow, Charles E. Merriam and Luther Gulick. Significance of this doesn't rest in the curious fact that the report wasn't taken in a taxi or a government wagon but in the insistence of those who saw the pile that only a small portion of the committee's actual report has been transmitted to Congress.

Roosevelt gave Congress only 47

pages, which laid down general principles and outlined specifically only those broad, major changes recommended by the committee which require congressional action.

**President Marking Time**  
The actual program for regrouping more than a hundred government agencies, commissions and bureaus—including such big ones as WPA, FWA, Social Security, CCC, and TVA—there is every reason to believe, is locked up in the president's desk for use after Congress gives him power to use it.

An enormous amount of subterranean lobbying, directed at the White House, already has begun. Many officials suspect they know what's in the suppressed bulk of the Brownlow report and are bringing such pressure as they can in cases where they don't like it.

Roosevelt seeks to give the impression that, aside from creation of the Social Welfare and Public Works Departments, the White House secretariat expansion and other phases of his congressional message, the program isn't worked out—implying that nothing else is a final decision.

"You ask me where X bureau is going," he told correspondents, "and I say the Lord only knows—I don't. I shall keep an open mind until after Congress passes this bill. Guesses will be, as usual, 90 per cent wrong."

**Puts Damper on Byrd**  
Neatly and as if without guile, the president, in his special press conference on reorganization, sought to spike the guns of Senator Harry F. Byrd of Virginia, chairman of a Senate committee on reorganization, who, keeps insisting that hundreds of millions of dollars can be saved through pruning and reorganization.

Explaining why no appreciable saving could be made without eli-

## Unemployment Compensation In Texas

What The Employer Pays

Question 19: "As an employer, how much do I pay, and to whom do I pay?"  
Answer: The amount each employer pays to the Unemployment Compensation Fund is determined by his payroll, and on the basis of a fixed tax rate.

In the first report to the Commission, you must determine whether you were an employer during 1935 and 1936. If you were an employer during 1935—that is, during the year you employed eight or more people in 20 or more weeks—then you must report.

You have to pay the tax only on the 1936 payroll. But if you were an employer in 1935 and were not in 1936, then you must report this fact to the Commission, along with an application for the termination of your "employer" classification.

The tax payments will be made direct to the Texas Unemployment Compensation Commission, Austin, on tax return forms supplied by the Commission.

State contributions or taxes will terminate or curtailment of federal functions—by "doing less work," which is not a matter of reorganization—the president suggested that by consolidation of overlapping functions the federal government probably could save proportionately as much as states which had reorganized their government "with great public acclaim."

He mentioned New York, Maine, Virginia, and other states. Then he said that in no case did any state reduce expenses more than 1 1/2 percent through reorganization, or less than 1/2 percent.

Byrd's chief claim as a reorganization expert rests on the fact that as governor, he supervised a consolidation in Virginia which merged 95 departments into 11 departments and two agencies.

Roosevelt didn't say whether Virginia had saved 1 1/2 per cent or 1/2 per cent, but no correspondent was so dull-witted as to miss the point.

**Needs Chance to Think**  
Explaining the need for a half dozen executive assistants in the White House, the president said a huge amount of his time was taken up with conferences with cabinet members and other officials who had no opportunity to communicate back and forth except through personal contact.

"I don't get enough time to think," he complained.  
Pointing to the rare paragraph in the Brownlow report which said the executive assistants should possess "high competence, great physical vigor, and passion for anonymity," the president added: "I want the kind of man who, when you meet him and say 'Good morning!', will reply, 'I don't know.'"

"I have two men in mind for these jobs now. They are John Doe and Richard Roe."

be collected before you pay your Federal tax; and from the assessment made against you by the Federal government, you may deduct the amount you paid as a state tax.

During the first five years of the Act's operation—1936, 1937, 1938, 1939, and 1940—each employer's tax rate is set.

In 1936 it is nine-tenths of one per cent of the "wages payable" by the employer. In 1937 it is one and eight-tenths per cent; in 1938, 1939, and 1940, it is two and seven-tenths per cent of the payroll.

After 1940 the employer's merit system of rating becomes effective. This will be explained later in this series.

**What Constitutes "Wages Payable?"**  
Question 20: "In the preceding article, I noted the use of term 'wages payable' in talking of the amount the employer must pay. Just what does this term mean?"  
Answer: Under the Act, the term "wages" is meant to include all forms of payment for services.

Ordinarily, wages is regarded as meaning cash money paid for services; but the Act includes, in addition to cash payments, the following:

1. All commissions and bonuses.
2. The cash value of all payments made in mediums other than cash—as, for instance, stock or room and board.
3. When a worker customarily receives gifts or gratuities from persons other than his immediate employer, these gifts are considered a part of his wage, and constitute "wages payable" by his employer.

The value of any such gratuities or payments made in mediums other than cash, will be determined by fixed rules of the Commission.

If you have any questions concerning the operation of this law as it affects employers or workers, you can have your questions answered by writing to R. B. Anderson, chairman, Texas Unemployment Compensation Commission, Austin.

# The Town Quack

(Reserves the right to "quack" about everything without taking a stand on anything).

"Whatever you do to others, some day that will be done to you."

Elmer Strawn says he may be a little cautious, but every time he hears a fire alarm he wonders where he left his last cigarette butt.

Which reminds me, I believe that's the first time I ever quoted Elmer in this column.

Where is the most time wasted, when men search for matches or when women powder their noses?

Newspaper work is hard on women. Both our circulation manager and our society editor are on the sick list today.

I've never seen a man reporter who liked to write social items. If I ever do see one, I imagine he won't last long at writing what men ought to be writing about.

However, the way women are taking over the jobs men used to do, there might be a few opening for men on society columns.

A Midland woman said: "House-keeping would be the easiest thing in the world if men and boys would hang their clothes where their clothes belong, scrape their shoes before entering the house and scrub out the bath tub after taking baths."

That wouldn't leave much for the women to do. Just the washing, ironing, house cleaning, dusting, window washing, cooking, dish washing, yard cleaning, shrub watering, chicken feeding, cow milking and a few odd jobs around in the place. After all, woman's place is in the home.

However, after she has done all those jobs, I don't mind seeing her have a little recreation, play a few hands of bridge or knock around town a while every day.

A philosopher said, back in 1891;

## Physician Moves Office to Midland

Dr. Bradford W. Miller, eye, ear, nose and throat specialist is arriving today to be associated with the Midland Clinic-Hospital, which is operated by Dr. Jno. B. Thomas. Dr. Miller has had eleven years experience since graduation. He served internships at the University of Nebraska Hospital and at Tulane, Louisiana and completed a post graduate course in Ophthalmology.

The pedigreed animal is a dappled gray gelding, of exceptional conformation and color, as well as possessing the ribbons in Dallas horse shows. He was purchased from a Dallas physician. Davis for some time has owned a pedigreed five gaited mare, as well as other saddle horses.

A lion won't attack anything that looks formidable and often will desert a lioness in a fight.

New York. For a period he was in government Indian service, as special physician, treating ophthalmological conditions.  
The doctor comes highly recommended. His wife and two children will join him soon.

## Calotabs Help Nature To Throw Off a Cold

Millions have found in Calotabs a most valuable aid in the treatment of colds. They take one or two tablets the first night and repeat the third or fourth night if needed.

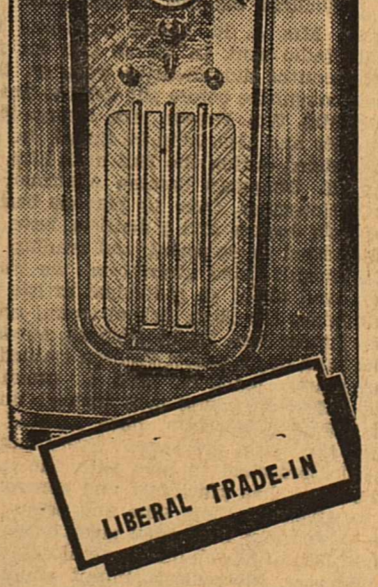

How do Calotabs help Nature throw off a cold? First, Calotabs are one of the most thorough and dependable of all intestinal eliminators, thus cleansing the intestinal tract of the germ-laden mucus and toxins.

Second, Calotabs are diuretic to the kidneys, promoting the elimination of cold poisons from the blood. Thus Calotabs serve the double purpose of a purgative and diuretic, both of which are needed in the treatment of colds.

Calotabs are quite economical, only twenty-five cents for the family package, ten cents for the trial package. (Adv.)

## Mother Better Use New Arguments To Wandering Daughter

By Olive Roberts Barton  
 "Mother why can't I use a little lipstick?"  
 "Because you are too young Betty. It is vulgar for a girl your age to use cosmetics."  
 "Well, what has age to do with it? The girls all use it, and you use it."  
 "I have to, because my lips have no color."  
 "Why, mother, you've got redder lips than I have."  
 "Now don't argue, Betty. I know best."

"My breakfast is cold."  
 "If you would get downstairs on time, it wouldn't be cold. Look at the clock."  
 "I was late getting to bed. After the party we took Babs home and she couldn't get in. We had to drive her out to her aunt's."  
 "I can't help it, Betty. Freda has her work to do."  
 "When you are out late, you get a good breakfast."  
 "Now, that is quite enough. I won't have you talking to me that way. You are only fifteen, and not grown up yet."  
 "Just wait till I am grown up. I'll show this crazy world a few things."

Another day, Betty wanted a sip of cocktail. Her mother was horrified.  
 "It is not good for you. And besides, I never want to hear of you drinking. Or smoking, either. It isn't at all smart for girls to do either. Wait till you're married."

"Goodness, why do girls have to do all the 'smart' things, while married people can get away with anything they want to? When I'm married I have a lot of catching up to do."

**An Old Story**  
 Betty sounds very impudent, judging from the few excerpts lifted from week-to-week conversation, but except for indignant outbursts, now and then she was an average tractable daughter. If her mother had watched the straws, however, she would have learned something of the wind. Betty was naturally perplexed about the privileges accorded to age and to marriage. It seemed that all one needed to justify indulgence of almost any sort was to let a few years slide over your head. And she was carefully saving up. Marriage was the bridge, she decided, that gave you a ticket almost anywhere.

After you are married. After you are married. It is rung into the ears of adolescent girls everywhere. Has this anything to do with the peculiar behavior, we wonder, of so many young matrons who step out so briskly after the ceremony and forget all about team work, or

## Announcements

**THURSDAY**  
 The Lois Class will have the monthly social meeting Thursday afternoon at two thirty o'clock at the home of Mrs. Joe Howze. All members are invited to attend.

The Ace High club will meet at the home of Mrs. S. P. Hazlip 911 West Wall at 2:30 o'clock Thursday afternoon.

The Mesquite troop of the Girl Scouts will meet Thursday afternoon at 3:30 p. m. in the Baptist annex.

**FRIDAY**  
 The Belmont Bible class will meet at the home of Mrs. Paul Smith, 900 West Kentucky.

**SATURDAY**  
 The Children's Story Hour will be held at 10 o'clock in the Junior Library of the county court house.

## Don't Let Your Waistline Tell World Your Age

"Don't look your age," is the theme continued in this, the third of 12 special articles written by Alicia Hart for women who begrudge the toll time takes of beauty.

BY ALICIA HART  
 NEA Service Staff Writer

No matter how smooth your skin or perfect your coiffure, a thick and not-at-all-flexible waistline will shout to the world that you are no longer young. Make a resolution to keep slender and supple around the middle. This isn't as difficult as you probably think.

For instance, if you bend forward keeping knees stiff, and touch the floor with your finger-tips every morning of your life after you are 25, your waistline will be fairly flexible when you are 50.

If you add to this easy routine, a few equally simple, bending backward ones, rest assured that you harness or a load to pull? The ticket to age, the pass to liberty. Mothers had better use another argument.

will have the thick waistline situation well in hand.

**Get Rhythm**  
 When you get out of bed in the morning of your life after you are 25, knees straight, bend forward and touch the floor. Stand erect with arms stretched high above your head and bend backward as far as you can. Let your body sway downward to the left as far as it will go, then to the right. Within a few months, if you repeat day after day, you'll be able to bend almost as far backward as you can bend forward.

Always keep neck and head relaxed. This helps to get rid of back-of-neck stiffness — another symptom of middle age.

Do your limbering exercises slowly, deliberately. The idea of rapid, jerky routines has been discredited. Most figure experts now agree that one should stretch the body upward, forward and back in slow, rhythmic motions, like a sleepy kitten yawning before an open fire.

It is important that you keep your feet, hands and arms from getting stiff and stodgy, too. Open and close your fingers rapidly several times a days and massage them with cream or oil once or twice a week.

## Scouters--

Falls, with Troop 63, of Monahans, and Troop 3, Big Spring winning second and third places respectively.

Council officers elected for the year at a business meeting earlier in the afternoon included: Chas. E. Paxton, Sycamore, president (re-elected); B. Reagan, Big Spring, and H. C. Harrison, Odessa, vice-presidents; and Lon Geer, Sweetwater, treasurer. A member of the Big Spring Scout troop administered the Scout oath to new officers.

The address of welcome was tendered by W. T. Strange, Jr., of Big Spring.

Veteran Scouters of the council were recognized by Scout Commissioner Claude O. Crane of Midland, a brief but inspirational address accompanying the recognition.

A Scout skit, "The Old and the New," was offered by members of Troop 3, Big Spring.

The annual report of the activities of the council during the past year was made by Al J. Stiles, council executive.

Rev. W. F. Borum of Midland led in the singing of Scout songs; a very impressive closing ceremony being presented by Wallace Wimberly and his Scouts of Midland.

The Twenty-two Scouters attending the banquet from Midland were: Mr. and Mrs. John Howe, Mr. and Mrs. Claude Crane, Rev. and Mrs. W. F. Borum, Mr. and Mrs. Luther Tidwell, Mr. and Mrs. Guy Breneman, Mrs. Julia Philson, Clint Lackey, R. C. Conkling, Joe Pierce, W. F. Heil, Rev. Camp, Bill Collins, Robert Howe, Wallace Wimberly, Buster Howard, Robert Payne, and Val Borum.

The entire program for the afternoon an evening was as follows:

It takes 4 1/2 hours to harbor an ostrich egg.

## Hotel Scharbauer Being Insulated

Insulation of the ceiling of Hotel Scharbauer, top floor, was under way today by R. F. Curran, sales manager of Modern Home Insulators, Inc., of Dallas, located here for the past few weeks. The project was one of the largest handled by the company in Midland.

The rock wool insulation, blown into the ceiling or between walls with a specially equipped truck, keeps out dampness and retains the warm heated air inside, also keeping out summer heat and retaining the cooler temperatures. Curran said today that Midland was one of the most active towns or cities in Texas in building of homes, and that owners here demand the best.

## SEEK EX-CONVICT FOR COP'S MURDER

**Body of Policeman Is Found Handcuffed To Mail Box**

MONROE, Mich., Jan. 20 (AP)—Officers today sought Alcide Benoit, ex-convict, for the killing of Richard Hammond, state policeman, whose body was found handcuffed to a mail box five hours after he had arrested Benoit.

Indiana, Ohio and Michigan posse combed the wooded areas for the slayer.

## Cold Wave Forecast For Texas Tonight

(By Associated Press)  
 Another cold wave was forecast for Texas tonight and tomorrow by the Dallas weather bureau today.

Near zero temperatures are expected in the Panhandle and East Texas is due to get freezing weather. Livestock warnings have been issued.

## North Ward P. T. A. Holds Its First Meeting of Year

Thirty-nine members were present Tuesday afternoon at the first meeting of the year of the North Ward Parent-Teachers Association.

Mrs. R. W. Hamilton, president, opened the meeting with a short talk, then called upon officers and committees for a report of activities.

Mrs. John P. Butler gave an interesting talk on the influence of motion pictures on child character and Mrs. F. H. Schouten, representing the health board, gave a discussion on suitable clothing for school children.

Mrs. Chas. Vertrees urged all parents to pay poll taxes and to take an interest in the year's election, stressing the importance of women's votes.

A question box has been placed in the meeting room of the group; in it members and teachers will deposit questions that will be discussed at the regular meetings.

Miss Anderson's room was the winner of the attendance prize.

## Alpha Club Meets With Mrs. Crump

The Alpha Club met at the home of Mrs. J. R. Crump Tuesday afternoon at her home at 708 North Main.

Two tables of bridge were played with Mrs. George Bennett winning high prize, Mrs. Tom Parker second high and Mrs. E. H. Powers cut prize.

Refreshments were served to the following members:

Mesdames Jack Brown, W. B. Worden, E. H. Powers, Geo. Bennett, M. B. Arick, Roy Downey, the hostess and one guest, Mrs. Tom Parker.

## Former Midland Girl is Married

Word was received here today of the marriage January 15 of Miss Dorothy Dunagan, former Midland girl, to Jack Rankin of Santa Anna, California, in Los Angeles. They were married at the home of the bride's mother, Mrs. Bob Robertson, in a single ring ceremony, unattended.

Miss Dunagan lived in Midland for several years, having completed high school work here in 1934 and later moving to Los Angeles. The groom is a law student in the University of California, Los Angeles branch.

## Mrs. Hugh Corrigan Hostess Tuesday To The Edelweiss Club

Mrs. Hugh Corrigan was hostess to the Edelweiss Club at her home at 703 No. Marienfeld.

A blue and yellow color scheme was carried out in the decorations and at the party plate.

Mrs. Joe Crump won high prize for members and Mrs. Hall Edwards won second high. For guests, Mrs. I. E. Daniel was high.

Members present were: Mesdames Tom Nance, A. P. Shirey, Hayden Miles, J. E. Martin, Billy Bryant, Mamie Stokes, Hall Edwards, Chapel Davis, Joe Crump, Clyde Cowden, Harvey Sloan, J. M. Speed, John Dublin, and the hostess, Mrs. I. E. Daniel, and the hostess, Mrs. Mesdames I. E. Daniel, Fred Turner and R. B. Cowden.

Paris, France, did not adopt a standard hour until 1816.

The first balloons were filled with common wood smoke.

The mallard is more valuable to the human race than any other duck.

## WHAT YOU SHOULD KNOW ABOUT FACE PIMPLES

These disfiguring little spots often result from a slight, temporary disturbance, or merely from incorrect cleansing, or sometimes they are more persistent due to deeper internal causes.

While properly treating the underlying cause, you can relieve the itchy, burning soreness and help your skin by using an ointment that will keep the medication in contact with the pimply spots. Apply it every night and leave it on all night. It does a world of good.

For more than 40 years people have used Resinol Ointment to fill this need. It soothes the irritation and aids healing. It also treats the oil pores where many surface pimples start. Washing first with Resinol Soap quickens the pleasing results.

Buy a jar of Resinol Ointment and cake of Resinol Soap from any drugstore. For free sample write Resinol, Dept. 10, Baltimore, Md.

# TODAY'S NEWS IN PICTURES

## As Inaugural Parade Moves Toward the White House

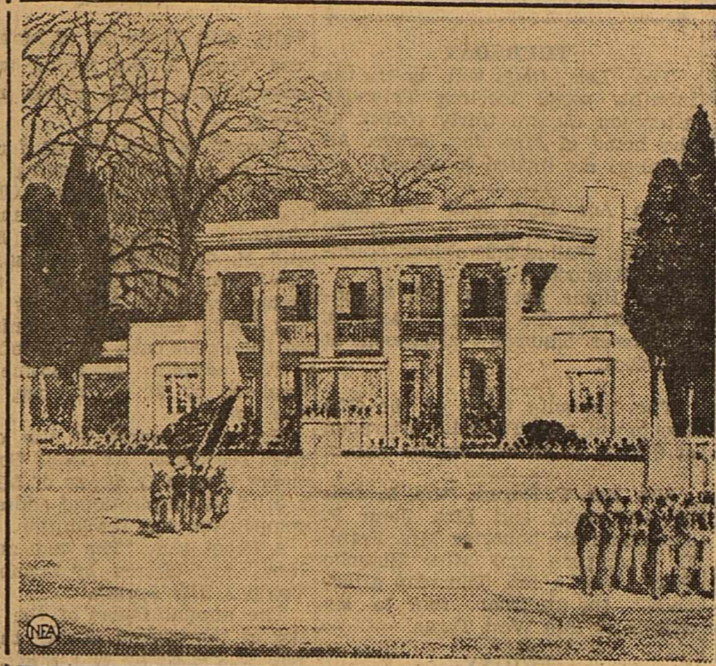

In this airview of "The Triangle" and adjacent downtown Washington, the dotted line indicates the route of the inaugural parade as it nears the White House and reviewing stands. Northwest to right and left of the president. In the foreground are the \$10 grandstand seats, highest priced of the 14,000 being provided here. The ceremonies are financed by the residents of the District of Columbia and visitors, Congress making no appropriation.

## Inaugural Plans Keep Him Busy

The task of arranging the 1937 edition of Washington's biggest show—the inaugural ceremonies and parade for President Roosevelt—is in the hands of Rear Admiral Cary T. Grayson, above. Limited this year to military and naval units, the parade will be simpler than in former years, but equally colorful.

## Rebuild Jackson's Home in Capital

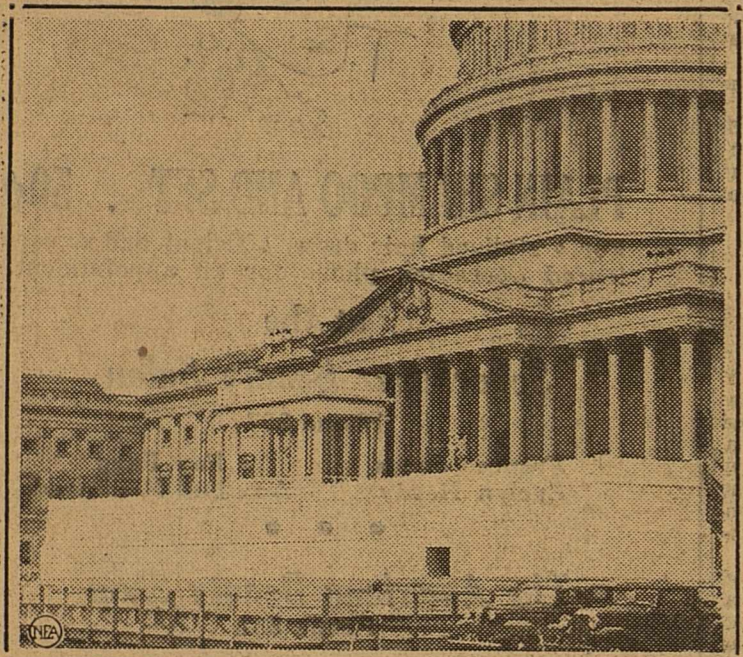

Here is an artist's sketch of "The Hermitage," home of Andrew Jackson, first Democratic president, which is being reproduced in front of the White House to serve as the presidential reviewing stand in the Court of Honor on Inauguration day, Jan. 20. President Roosevelt himself made the suggestion that Jackson's Tennessee homestead be reproduced. Flanking the presidential reviewing stand and on nearby vantage points, grandstands have been erected to seat 23,000 spectators.

## Salaam to Slalom Queen

The north wind doth blow and we shall have snow and winter sports queens. Jane Froman, crowned at festival opening the Lake Placid season, skis through aisle of equipment.

## \$10 Buys This View of Oath Taking

Rapidly nearing completion is this \$30,000 false front for the U. S. Capitol, where President Roosevelt will take the oath of office Jan. 20. Congressmen, members of the U. S. Supreme Court, governors, and diplomats will be seated on this balcony to right and left of the president. In the foreground are the \$10 grandstand seats, highest priced of the 14,000 being provided here. The ceremonies are financed by the residents of the District of Columbia and visitors, Congress making no appropriation.

**THIS CURIOUS WORLD** By William Ferguson

**The MOON** SOMETIMES IS FAR NORTH, AND SOMETIMES FAR SOUTH, IN THE SKY, BECAUSE IT DOES NOT REVOLVE IN THE PLANE OF THE EARTH'S EQUATOR!

**The GNU**, AN ANTELOPE FOUND IN AFRICA, HAS MANY OF THE CHARACTERISTICS OF THE HORSE, AND EVEN GETS UP HEAD FIRST, LIKE A HORSE!

**DANDELIONS** WERE NAMED FOR THE SHAPE OF THEIR LEAVES, WHICH WERE SUPPOSED TO RESEMBLE THE "TEETH OF THE LION" (DENT DE LION)

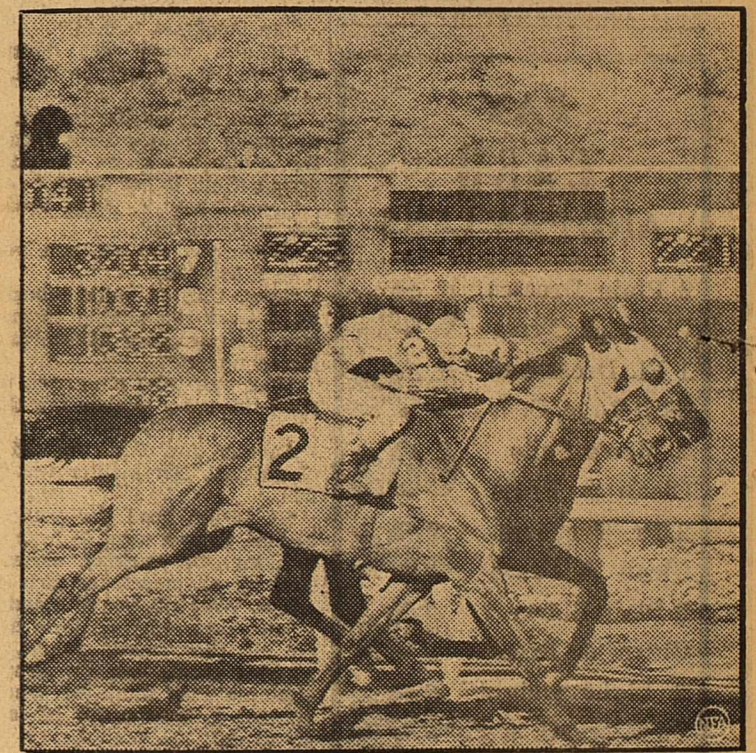

THE moon travels around the earth in a plane that is inclined to the plane of our equator at an angle that varies from 18 to 29 degrees. Therefore, in any month, the moon may be seen at least 18 degrees south of our celestial equator, and, two weeks later, 18 degrees north of the celestial equator.

## THIS CADDY GOES ROUTE

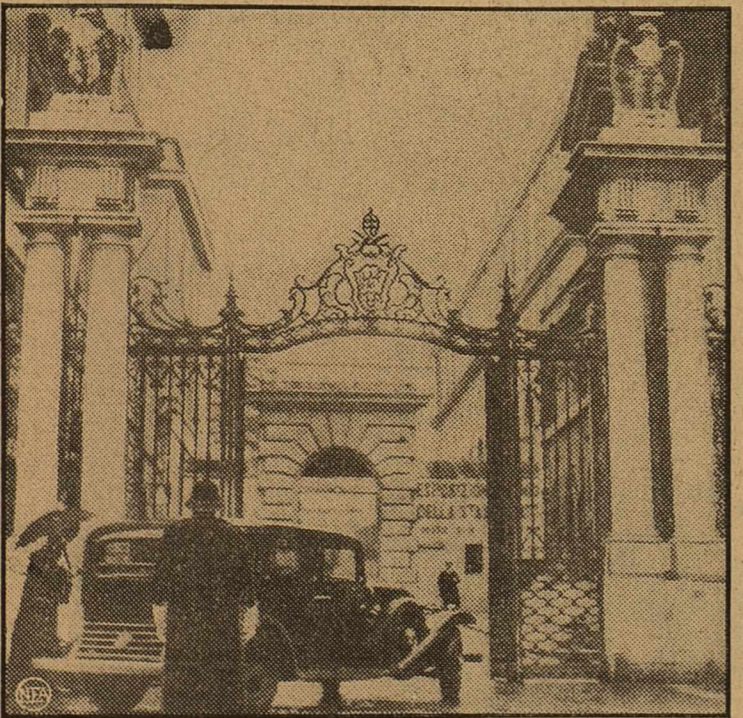

There would be no necessity of limiting the number of golf clubs as long as Man Mountain Dean was available for caddying purposes as the wrestler, was for Johnny Revolta, 1935 P. G. A. champion, in the \$8000 Los Angeles Open.

## \$67.40 FOR A NOSE

The margin of a nose meant the difference between backers of Mr. Ricks winning \$67.40 or losing \$2 in a recent Santa Anita race. Here is the stirring finish of the dash as J. M. Irwin's thoroughbred extended his nostrils and popped home a close winner over Granby's Trade, No. 2, at the California track.

## As Doctor Visited Stricken Pope

With the serious illness of Pope Pius XI a matter of deep concern to Roman Catholics all over the world, his physician, Prof. Aminta Milani, is keeping constant watch over the aged supreme pontiff. Here the car of Prof. Milani is shown entering Vatican City, on one of the doctor's frequent calls.

**GREAT SALT LAKE**, AT ONE TIME, WAS TEN TIMES AS LARGE AS IT IS AT THE PRESENT TIME!

THE AVERAGE MOTOR CAR NOW IN USE IS NEARLY FIVE YEARS OLD.

NEITHER THE DENSITY, NOR THE PRESENCE, OR ABSENCE OF AIR, CAN BE OF ANY INFLUENCE ON THE FACT THAT A ROCKET WILL MOVE.

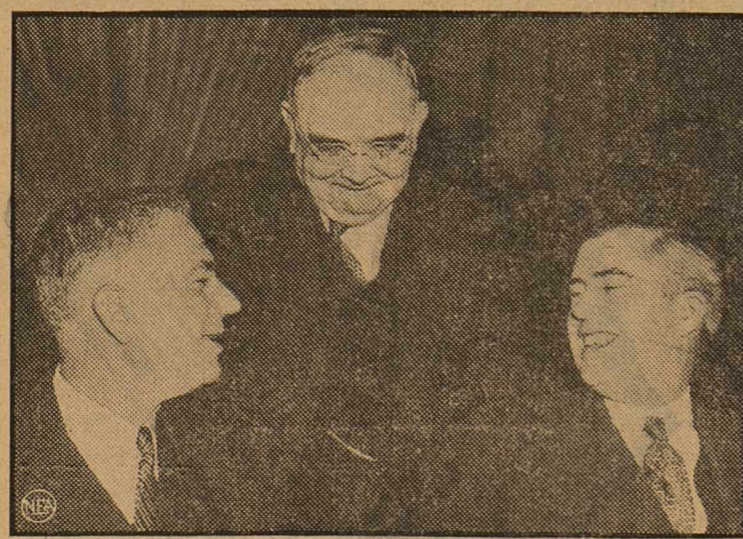

WHEN the great ice age glaciers melted away, they left an enormous body of water over the entire northern area of what now is the state of Utah. This great body of water was named Lake Bonneville, thousands of years after most of it had dried up. Great Salt Lake is the last remnant of it.

## Half Billion in Gold Takes a Trip

Four guards with machine guns were only a part of the stern-faced contingent which guarded half a billion dollars in gold bullion when it was transferred from the Philadelphia mint to the new federal repository at Fort Knox, Ky. The upper picture shows a truck leaving the mint with 78 of the precious gold bars, which weighed nearly a ton and a half. The 78 bars in each truck load were worth a million dollars. The lower photo shows the impregnable granite, steel, and concrete "pillbox" which Uncle Sam has built as a safe-guard in case of war and against theft. From the trucks, the bullion was loaded on four mail cars and it was sent to Fort Knox by the government's own registered mail.

## High Tribute Paid Retiring Tugwell

One of the greatest tributes ever paid a retiring government official was that tendered Rex Tugwell, resigned resettlement administrator, at a farewell dinner in a Washington hotel. Nearly all the higher New Deal leaders were present. Shown here at the affair, left to right, are Tugwell; his successor, W. W. Alexander; and Secretary of Agriculture Henry A. Wallace.

### Popeye Reaches New Triumphs

Popeye the Sailor, "two fisted" hero of cartoon strip and screen, reached an important milestone in his movie career with the production of his first full-color, three-dimensional film, "Popeye the Sailor Meets Sindbad the Sailor," the first two-reel cartoon ever made. The film is booked to appear beginning Sunday on the bill of the Yucca theater. A product of the Max Fleischer Studio, New York, for Paramount, it was filmed in Fleischer's new third-dimension system for animated cartoons. Also on the same program will appear Irene Dunne in "Theodora Goes Wild."

### Achievements--

Continued From Page One  
 finest educational projects we have ever put on and we realize that it would have been impossible without the generosity of Mr. Clarence Scharbauer, owner of K R L H. The fine co-operation of the entire staff of K R L H, particularly Mr. R. B. McAllister, and the constant guiding hand of announcer, Rev. Edw. P. Harrison, O. M. I. who has given freely of his time.

Tuberculosis Committee, Mrs. E. H. Ellison, chairman.  
 One of the important features of this year's tuberculosis work was the sponsoring of the Tuberculin Skin Test in March. It was decided to particularly offer the test to high school students the first time. Five of the local physicians were contacted and our plans for the project discussed with them and approved by them, these doctors offering to give their time at the clinics for a very nominal fee. Approximately 350 letters, explaining the test, urging parents to take their children either to the family physician or to the clinic, were prepared and mailed. Although 123 persons were tested at the clinic, very few were high school students, most of them were children and adults, contacts from families having been exposed to tuberculosis. Our newspaper and

radio carried publicity on the tuberculin skin test and the clinics, urging everyone to go to his physician if financially able or to come to the clinic. The clinics were held five consecutive Saturdays, reading of the tests made the following Mondays. Various board members and members of the Junior Wednesday Club assisted at each clinic. Out of 128 persons tested, 33 positive reactions of these, 15 were X-rayed by the Board and 6 sent to the sanatorium at Carlsbad. Four other persons were sent to the Sanatorium through the Commissioners' Court and the Nursing Service. We do not know how many were sent by the private physicians. One patient, a young man, has been discharged already, an arrested case. We keenly realize the tremendous field for educational work on tuberculosis in our county, and one of our new problems is the re-habilitation of these arrested cases. In 1935, 1,124,363 school children in the United States were tuberculin tested, Michigan state testing 245,706, 19% being positive, Texas testing 24,265, 18% positive. Some states tested only their children who were direct contacts hence their positive rate as high as 51%. Our Burr cottage was used by 2 patients this year before they could be admitted to the Sanatorium and the State Tuberculosis Association asked us to send photographs of the cottage for use in Uvalde county's publicity Xmas Seal campaign our committee carried on the usual publicity and preparation for the Xmas Seal Sale. Posters were put up around town, and an educational film on tuberculin diagnosis shown three times at the Yucca theater by Mr. Hodge and his staff. An electric illuminated Xmas Seal Cross, about 4 1/2 feet long, was built and hung over the courthouse entrance on the Highway; Howe and Allen co-operated and Mr. H. N. Phillips and the Shelton Paint Shop contributed the labor. A dozen publicity seal crosses for motor-cars were bought and distributed by Mrs. Newbie Ellis, board members, highway officers, taxicabs, "M" System and Middleton Tailor Shop cars carrying them.

Four thousands booklets with a cut of the Xmas Seal were printed and distributed through the courtesy of the County Library, Mesdames Chas. Vertrees, John P. Butler, R. S. Dewey, W. N. Cole, R. C. Tucker, Edd Cole, W. L. Cole, Dick Jones.

The Mesquite Patrol of Girl Scouts under Mrs. M. R. Hill and Mrs. A. P. Shirey folded seals and letters and stamped envelopes. The West Texas Gas Company and Addison Wadley distributed publicity folders with their December bills and packages. La Moine Sindorf, Anna Beth Bedford, Velma Johnson, Lucille Guffey, Pady Sue Whitcomb, Vera Stevens, Christine Pate, Dorothy Lou Speed and Freddie Lou Barber gave Seal Sale talks at churches and various clubs. Rev. Edw. P. Harrison making the talk at the St. George's church.

Tuberculosis Secretary, Mrs. Netty Romer.  
 Because of the enormous amount of clerical work she had been doing for the Board, last Spring the Board voted to make Mrs. Romer, T. B. Secretary. During the early months she did all the bookkeeping required in handling returns of the seal sale. Latter typed copies of 34 radio talks for our permanent files, mimeographed forms used in negro health survey, prepared Seal Sale files, addressed 1400 envelopes and numbered the return envelopes, mimeographed 300 letters and helped considerably with the other clerical preparations and is keeping the return records. Mrs. Romer went to the National Tuberculosis convention at New Orleans and gave an interesting, instructive report to the Board.

1400 Seal Sale letters mailed.  
 600 follow-up cards mailed.  
 Total seal sale returns to date \$643.38  
 Total seal sale returns year ago \$527.55

School Committee, Mrs. F. H. Schouten, chairman.  
 Mrs. Wm. Brown was chairman first half of the year, and Mrs. Schouten has carried on since. With the help of the School Superintendent's office they prepared lists of high school children. Mr. Schouten is also chairman of Jr. High School P. T. A. and has given three group talks on health problems and held conferences with the school superintendent and principals. Two volunteer assistants at each city school in the Bangle Seal Sale. While our school quota was not so great this year, because last year we held a theatre party a bangle being assistance fee, this year we feel there was more interest among the students in the Seal Sale. Board members assisted at the posture clinic held in North Ward school by Mrs. Leonard Thomas with the co-operation of the school authorities. Judge Barron and Mrs. Sloan addressed the rural schools at their combined May Day Health program given in the Yucca Theatre and Board members attended the May Day Health programs at various city schools. Sanitation Committee, Mrs. George Farley, chairman.

Mrs. Farley with Mrs. G. D. Taylor, Mr. Andie Norwood and the Nurse made a visit to nine different county dairies, discussing with the dairymen their problems and urging them to maintain a higher standard of cleanliness and sanitation. The board chairman conferred

at length this Fall with a State Sanitary Inspector regarding local problems and it is our sincere desire to improve some of the local existing conditions this new year. This year our City Health Office, Dr. Wm. Ryan, has been making bacteria laboratory tests on all dairy milk and in this way has been able to insist on all the dairymen bringing their milk up to Grade "A". We feel this is a real service and contribute greatly towards a healthier community. Some preliminary work in getting literature and making local contacts has been done towards conducting a restaurant school in 1937.

Negro Health Committee, Mrs. Chas. Brown, chairman.  
 Our negro health work, though not spectacular, is steadily improving our negro community and we are very pleased with the fine spirit of co-operation existing in the "colored flats". Because we had no board director of this work the first six months of the year, the colored committee alone carried on it's Negro Health Week programs in April.

Education: The colored P. T. A. held it's annual health program and the school children gave another health program which was attended by the parents. They also took part in the radio Negro Health program given by Mrs. H. N. Phillips.

Sanitary Survey was made of all families living in the "Flats" in April. Forty-three families aggregate 129 individuals. 21 families do not have water on their premises. 2 unsanitary toilets were being used. 8 families using one of these toilets. 7 families take milk regularly. Electricity is available in some sections.

Clean-up: 15 homes have been rebuilt or re-modelled. 1 new church built and one re-finished. The school grounds were thoroughly cleaned and the P. T. A. planted trees on the grounds. Shrubbery, trees and vegetable gardens have been planted at 9 homes.

In September the State Department loaned Ana Mae Mathias, colored itinerant public health nurse, who spent 3 weeks in our community. However, (believe it or not) it rained practically every day she was here, greatly curtailing her work. Ana Mae gave 9 health talks, 4 to white groups on colored health work, 5 to negro groups, distribut-

### Oil News--

producer, its No. 1-A W. P. Edwards. Location has been staked 330 feet from the south and east lines of the north half of section 6.

Adams & Bradley are moving machine from the No. 1 well over to their No. 5 Edwards, which has been located 990 feet from the north and 330 feet from the west line of the southeast quarter of section 6. The No. 5 Edwards will offset to the east the Sun Oil Company No. 1 Edwards. Although said to be running lower structurally than the two producers in the area, the Sun well, located 1,650 feet from the south and 2,310 feet from the west line of section 6, a half-mile southwest of the Adams & Bradley No. 1 Edwards, showed for production when 700 feet of oil rose with 300 feet of drilling mud on 20-minute drillstem test from 3,100 to 3,175, the total depth. Gas volume tested 350,000 cubic feet. It has cemented 7-inch casing at around 3,100 and is now standing.

**On Potential Test**  
 Potential gauge will be completed

ing appropriate literature.  
 She visited 68 homes in the particular interest of a social hygiene survey, gave 46 school children physical and dental inspections, had 1 cesspool dug and completed, instructed one midwife, altogether contacting approximately 500 persons. Mrs. Sloan, Miss Wilson, and Ana Mae met on a Sunday afternoon at a public meeting of colored persons to reorganize the negro health committee. About 50 persons were there and evinced great interest in the work. The original colored committee had been formed 5 years ago. Malinda Holland was elected chairman, Corine Cobb, vice-chairman, Reba Brunson, secretary, Mary Graham, reporter. A committee headed by Fred Bass and Robt. Phillips was appointed to canvass the colored community to ascertain how many families wanted water, gas and electricity and if they could pay for such. There are 18 families who want utilities and can afford to pay for what they want. The great need in the "colored flats" and still is water. At an executive meeting with Mrs. Brown and Mrs. Sloan tentative by-laws governing the colored committee were drawn up and later passed at a meeting. Mrs. Chas. Brown with committee member visited the color school, hotel, cafe, barber and beauty shops to inspect their sanitary conditions and encourage them to keep their places clean.

This year we plan a larger early tuberculosis diagnosis campaign available to all, hope to conduct a restaurant school and to establish a social hygiene clinic for negroes. These plans can only be accomplished with the continued fine co-operation from civic groups and individuals we have received in the past. The Rotary Club and the Mens' Bible Class have indicated their desire to help with the negro social hygiene clinic. The Lions' Club has continued it's vision work for children, buying 10 pair of glasses this year. The Board greatly appreciated the motion picture machine made available by the Commissioners' Court which contributes so much in the educational work of the nurse. Judge Barron is always eager and willing to advise and help us with all our policies and plans and we are proud of working under his progressive and efficient Commissioners' Court. We want to thank each person and every organization who helped us in our community program this year and may we go forward in 1937 to a healthier and happier county.

today on York & Harper and Sloan & Zook No. 1-B Foster, new mile northeast extension to the Foster pool in Ector county. The well is flowing by heads while cleaning out and this morning had tanked 356 barrels of oil the first 17 hours after the gauge started. It was cleaning out near bottom this morning, with the agitation of the tools probably responsible for the flow. The majority of the wells in the Foster pool are pumps. Location of the No. 1-B Foster is in the southwest corner of section 8, block 42, township 2 south, T. & P. survey. It is bottomed at 4,332, plugged back from 4,348 to shut off a quarter-baller of sulphur water per hour encountered in the last five feet. Nitro shot was with 410 quarts from 4,127 to 4,319.

One of the Cummins-Goldsmith link wells, American Maracaibo No. 1, Scharbauer, averaged from 46 to 48 barrels on hour on four-hour test after shooting. It was closed in at the end of that period because of insufficient storage, but was to start cleaning out this morning. Later, operators will run tubing and acidize. The well, which flowed 30 barrels an hour, natural, was shot with 80 quarts from 4,200 to 4,230, the total depth.

Spiders are not insects. They have no antennae, such as all insects have, and have four pairs of legs to the insect's three.

**NOTICE OF PARTNERSHIP DISSOLUTION**  
 Notice is hereby given that the partnership lately existing between B. R. Greathouse and L. B. Pemberton of Midland County, Texas, under the firm name of Midland Drug Company, was dissolved by mutual consent on the 12th day of January, 1937. B. R. Greathouse will continue to conduct said business under the firm name of Midland Drug Company, and all debts owing to said partnership are to be received by Midland Drug Company. B. R. Greathouse, sole owner, and all indebtedness owing by the said Midland Drug Company, is to be presented to B. R. Greathouse, sole owner of the Midland Drug Company, for payment.

Witness our hands, this 12th day of January, A. D. 1937.

### IS YOUR WIFE A SMARTER STARTER THAN YOU ARE?

You can settle that most fairly on your own home grounds after you both have your chance at these latest simple rules, which automotive authorities approve today:

First be sure the garage doors hold open against any Winter wind! . . . your protection from fumes

Before touching the starter or ignition switch, step on clutch pedal and keep it down

Open hand-throttle about one-third

Now pull choke out full (unless your car has automatic choke)

With ignition switch still off (except startix-type) operate your starter, until your engine has made 2 or 3 revolutions

While starter is turning, switch on the ignition, being ready to release starter so that it has no chance of retarding the engine after explosions begin!

People have asked whether the advice we are printing about correct Winter starting doesn't help all gasolines. Yes, but anything you can do with them doesn't bring them up to Special Winter Blend Conoco Bronze. We are not afraid of that. Continental Oil Company
