THE NEWSPAPER THAT WORKS FOR A BIGGER, BETTER BOVINA

WEDNESDAY, JANUARY 27, 1965

BOVINA, TEXAS

VOL. IX, NO. 30

WHITTLIN'

BY DOLPH MOTEN

"I was born poor . . . and had a relapse," was one of the many punch lines used by Rev. Leon Hill during his football banquet speech here Friday night.

In spite of his occasional, but weak, knocks at the nation's government, Hill is one of the best in his line of work -- that of an after-dinner speaker.

It would have been impossible to get someone who heard him Friday night to admit that he wasn't as good as the best. Some members of the audience feared they would be sore the following day from "laughing so much."

Auto license plates for '65, which go on sale Monday, have three letters preceding the numbers instead of the usual two.

Hugh Moseley, county tax assessor-collector, says the reason for this is that the state was running out of variations of numbers due to the great increase in the number of cars in Texas each year.

We don't understand all about it, but Moseley says that the three letters, plus the numbers, will offer greater combinations and will be enough to take care of the state's autos for the next 10 years.

There are approximately 6,000,000 cars in the state now and an additional 250,000 are being added each year, if we understood the county tax man correctly.

Anyway, that's the reason Texas license plates will have three letters for '65 and forthcoming years.

All these modernistic changes are enough to worry a fellow to pieces!

Spectators at tomorrow (Thursday) night's benefit basketball game between the Lions and the Jaycees may be sorely disappointed if they expect to see terrific displays of basketball talent.

We've reached that conclusion after watching partial squads of both teams work out. The game may be close, and exciting from that standpoint, but outstanding basketball play will be rare, unless we're mistaken.

Players who will be in the game have lost the razor sharpness of youth and their overall basketball coordination just isn't what it once was, in most cases.

And that's not mentioning the lack of oxygen which is available in Willford Gym. We've heard some of the practicing players make a couple or three laps up and down the floor and then complain about how hard it was to get air inside the gym.

Maybe school officials should look into this lack! While spectators at Thursday night's contest shouldn't expect great cage play, they will have the opportunity to see some former Bovina Mustang stars in action, even if they are past their prime. Perhaps there will be fleeting seconds of brilliance displayed which will bring back fond memories of great teams gone by.

And anyway, the only admission charge is a donation to the March of Dimes, certainly a worthwhile project; so there's really nothing lost if the game turns out to be not so hot . . . as it probably will.

The officiating will, however, be top-notch, Bruce Rhodes and Gene Douglas, who have been doing outstanding jobs of calling grade school and junior high games, will be at the whistles. The tilt will be played according to the book and no more rough stuff will be tolerated than in a regular basketball game. That, we think, should make it more interesting to the game. That, we think, should make it more interesting to the average onlooker.

Moisture in these parts this winter has been almost as

FOOTBALL BANQUET -- Coach Roy Stone is shown presenting captains of the 1964 Bovina Mustang football team with letter jackets at the football banquet Friday night. Captains are,

left to right, David Anderson, Roman Ramirez and Gene Pruitt. Jerry Rogers, president of the Quarterback Club is at left.

LETTER JACKETS AWARDED --

175 Hear Rev. Hill At Football Banquet

"Keep your faith in (1) rules of the game (2) America and (3) God," Rev. Leon Hill of Amarillo told his listeners at Bovina Mustang football banquet Friday night.

Rev. Hill was guest speaker at the banquet which honored the 1964 district champions Mustang. The event, sponsored by the Quarterback Club, was in school cafeteria.

"Some 98 per cent of the people fall in life because they're not willing to pay the price to win," Rev. Hill pointed out to his well-entertained audience.

A crowd of 175 was present, including members of the

GUEST SPEAKER -- Rev. Leon Hill of Amarillo was guest speaker at the Bovina Mustang Football banquet Friday night.

\$50 Damage In Car Wreck Here Tuesday

A fender-bender type car accident on an ice-slick street resulted in \$50 damage early Tuesday morning.

Cars driven by Billy J. Charles and Milt Fitts collided at intersection of Main and Second Streets, according to a report from City Marshall Bill Denney.

Charles was starting a U-turn at the intersection when the right front bumper of his car, a '63 Chevrolet, struck the left front fender and bumper of Fitts' car, a '64 Oldsmobile. Fitts was stopped on Second Street preparing to enter Main.

Damages to Fitts' car were estimated at \$50 by Denney. There was no damage to Charles' car.

squad and their dates. Letter jackets were awarded to team members as they were introduced by Coach Roy Stone. Bill Shamblin, who served as master of ceremonies and

introduced Rev. Hill, pointed out to seniors on the squad, "You still have the biggest game of all left to play -- the game of life -- and you need to play it the same way you've played

football -- clean and hard." A skit, titled "The Newlyweds," was presented by Betty Hawkins and Rose McCain. Invocation was given by Rev.

(Continued on page 2)

LIONS VS. JAYCEES --

MOD Benefit Tilt Thursday

Basketball, March of Dimes benefit style, will be unveiled in Willford Gym tomorrow (Thursday) night.

The game pits Bovina Lions cage team against Bovina Jaycees. It starts at 8 p.m.

Admission charge will be a donation to the March of Dimes. The game will be played straight -- according to the rules of basketball and there will be a minimum of horse-play, announce officials of the two civic organizations.

"The only reason for playing the game is to raise some money for the March of Dimes and to have some fun," points out Bob Fillpot, president of the junior chamber of commerce.

Probable starters for the Lions will be Gary Cox, Erith Hawkins, Darrell Read, Don Caldwell and Jack Patterson or Bobby Calaway.

Possible starters for the Jay-

cees will be Don Owens, Billy Whitecotton, Larry Webb, Bob Holcomb and Wyndol Davies.

Bedford Caldwell is manager of the Lions' team, Don Bandy is in charge of the Jaycees. Officials will be Bruce Rhodes and Gene Douglas, who have officiated at junior high and B team games here this season. They've donated their time for the game since this will be a benefit game.

"We think we'll have a pretty good game and want to encourage as many people to come out as will, Patterson, who is county chairman of the MOD drive, says.

Sonny Spurlin is Bovina community chairman.

In Hospital

Mr. and Mrs. Don Sides left Saturday for Houston. Sides was scheduled to enter St. Luke's Hospital Monday. He will be there for observation and it is not known how long he would be hospitalized.

Baptists Name Director

Jack Boggs of Portales has been named as music and educational director of First Baptist Church of Bovina.

Boggs will serve in this capacity on a full-time basis. Boggs is currently serving at the First Baptist Church in Portales. Prior to going to Portales, he was with the First Baptist Church in Panhandle.

Boggs is married and has two small daughters. He and his family will move to Bovina and he will begin his duties here February 8.

HUMORIST, PHILOSOPHER --

Select Chamber Banquet Speaker

Tom Lavin of Atlanta, in East Texas, will be speaker for fifth annual banquet of Bovina Chamber of Commerce and Agriculture.

Announcement of the speaker was made this week by Jack McCracken, manager - secretary of the chamber.

This year's event, which will follow four highly successful banquets here, is scheduled for Thursday, March 18. It will be in school cafeteria.

Lavin is executive secretary of Natural Foods Associates, Inc., a non-profit educational organization. He travels some 100,000 miles yearly to speaking engagements. This will,

however, be the first time for him to speak in this area, McCracken says.

This year's chamber speaker presents a 45-minute program, titled "Laughing All The Way." Lavin calls himself a humorist, philosopher, musician and toastmaster.

Tickets to the banquet will go on sale within the next two weeks, McCracken says.

A crowd of approximately 300 is expected.

At a directors' meeting Thursday, the chamber approved the speaker for this year's banquet. Directors also

Good chance for more moisture this week. ---Willie

TEC Office Operating In Bovina

Texas Employment Commission is operating an office in Bovina on a twice a week basis. The service began Thursday of last week and continued through Monday of this week -- those are the two days when the office is manned here.

In charge of the Bovina office is Joe Bradley, manager of the TEC office in Hereford.

Bradley says there has been some response to the opening of the office in Bovina. "We've had a few employers seeking help and several applicants have been in looking for work," Bradley says.

The office is open from 10 a. m. until 3 p. m. each Monday and Thursday. It is located in the chamber of commerce office in the Bovina Blade building on Main Street.

The office was opened here primarily to assist farmers in getting labor following the ending of the bracero program, December 31. The TEC aids non-farm employers and workers, too, however.

Bradley points out that it is necessary for individual farmers to inform the TEC of their labor needs.

"The cooperation of both farmers and workers with us will be required for the best service to be offered," Bradley explains.

There is no charge for the services of the Texas Employment Commission.

Grand Jury Schedules Session

Parmer County grand jury convenes Friday at 9:30 at the courthouse in Farwell.

Serving on the jury for this term are Fred M. Burch, Jim E. Ware, Harold Carpenter, O. J. Beene, Charles Russell, T. L. Gleason, Jack Patterson,

(Continued on page 2)

SAND BLOWS--

High Winds Blast Area

Plains weather struck here in various forms during the past few days.

High winds started Thursday of last week and continued through Saturday night. They took a brief rest Sunday, but came back Monday stronger than ever as if to climax the windy spell.

The winds carried huge amounts of dust, especially Friday and Monday.

A trace of moisture fell early Monday morning---just enough to halt most farming operations. The wind quickly dried out the benefit the moisture brought with it.

Light snow, only a trace, fell Monday night and mild icy conditions prevailed on city streets Tuesday morning.

The area has, up to now, escaped the grips of a blizzard which can be expected during January and February.

The sandstorms were considered by weather observers to be slightly unusual for this time of the year. They were more of the type to be expected during March and April.

Other than the inconvenience and extra housecleaning caused by the dirt-blowing winds of the past few days, no wind damages

were reported here other than that of the canopy at Dairy Freeze being blown down. (See picture.)

Chances for more moisture by this weekend are considered good by W.E. Williams, Bovina's unofficial weatherman.

NEW MAIL BOX -- Erected this week in front of Bovina Post Office was this mail box which is to be used for mailing first class mail on weekends and holidays. Postmaster Gene Ezell announces, Mail deposited in the box during those times will be dispatched earlier than it would if mailed inside the post office. The box may be used, however, at all times, the postmaster explains.

FFA JUDGING TEAM -- This freshman judging team of Bovina FFA placed second in Swisher Co. Stock Show Livestock Judging Contest last week at Tulia. Team members, left to right, are Mike Grissom, Bill Caldwell and Galen Hromas. Lynn Murphy was alternate. Grissom was eighth high individual in the contest and Hromas was third high individual in swine judging. John Paul Jones, chapter advisor, is coach of the team. Though Bovina's team was composed of freshmen, the contest was open to all FFA judging teams.

Letter To The Editor

Roswell, N.M.,
Jan. 20, 1965

Dolph Moten, Editor
Bovina Blade
Bovina, Texas

Dear Dolph,
I am renewing my subscrip-
tion to the Blade for another
year. After letting it run out

and being without the Blade for
a few weeks, I realized just how
much I missed it and the news
about all the good people living
there. It would seem that Bo-
vina is still progressing in
every way -- something that not
every city can brag about.
My family and I enjoy living
here in Roswell, and we think
we are in a fine school system.
We hope that we will be able
to remain here for a long time,
but Bovina will ever be in our
thoughts and memories.

Sincerely,
Mary Peckinpugh

Minor Accident Here Saturday

No injuries and \$60 damages
resulted Saturday in a two-car
collision at the intersection of
Main and Third. The accident
occurred about 3 p. m.

Involved in the mishap was a
1957 El Rancho Ford driven by
Windsor W. Laceywell of Bo-
vina and a 1964 Chevrolet pick-
up driven by T. C. Wiseman,
also of Bovina. Laceywell was
attempting to go West on Main
as Wiseman was going north on
Third.

Damages to the Ford were
\$15 and damages to the
Chevrolet were \$45.

Reflections From The Blade

Six Years Ago
January 28, 1959

James Lawlis was named outstanding Mustang football player
for the past year and Lynn Isham was named outstanding sports-
man. The awards were given by the Lions Club and plaques will
be presented to the school bearing the boys names.
The Bovina Baptist Church has voted to begin work on a new
auditorium and classrooms at the church. The church is now
accepting bids on the proposed addition.

Warren Morton, superintendent of schools, reported over 400
students have been signed in annual school census. He expects
another hundred to push the total over the 500 mark for the first
time.

Six candidates have been petitioned for city commissioner.
They include Herman Estes, Elton Venable, Harry J. Charles,
Warren Embree, A. E. Crump and J. D. Stevens.

Three new teachers began their duties at the Bovina school
at mid-term. They are Mrs. Dorothy Morton, homemaking
teacher, Norris Samuelson, music and band, and James Mc-
Leroy, commerial teacher.

Three Years Ago
January 24, 1962

Mrs. Myrna Hammonds and Mrs. Doris Carter, Bovina
teachers, were recently initiated into Delta Kappa Gamma,
honor sorority.

The Bovina Mustangs made it three straight in district play
by defeating Happy, 49-45, Friday night.

Plans are continuing for widening highways through Bovina
and adding curb and gutters. The work should be completed by
April 15 if there are no delays.

Miss Paula Howard has been selected a candidate for Area
First Vice-President for the F.H.A.

Lynn Isham was high bidder for a familiar landmark in
Bovina. Isham's bid was high for the state-owned land at the
corner of Third Street and Highway 86. The land has housed
the highway barn for many years.

"Religions of the World" was the topic for the program for
the Bovina Woman's Study Club when they met in the home of
Mrs. A. E. Wilkerson.

NEWSLETTER From U. S. Senator RALPH W. YARBOROUGH

Dear Fellow Texan:

The new education bill of which I am a co-sponsor and which
we introduced in the Senate this week would be of direct and
immediate benefit to 16 per cent of the school children of Texas.

It would make available to Texas elementary and secondary
schools in low income school districts a total of \$74 Million
dollars. The amount is based on Census figures showing
386,399 Texas children aged 5 to 17 in families of less than
\$2,000 a year total income.

The bill, on which I will help conduct hearings as a member
of the Senate Education Subcommittee, is aimed at breaking the
cycle of poverty and ignorance that hangs on for generations
in low income areas. It is in these areas that school drop-outs
are most frequent, and unemployment is worst.

Our bill, the Elementary and Secondary Education Act of
1965, would apportion Federal funds to states for distribution
to areas of low income, in an effort to raise national education
levels by starting in the most troubled areas. It is an effort
to help the less fortunate children achieve a more equal op-
portunity for an education.

The bill aims to aid pre-school age children attain a language
proficiency so that when they reach school age, they will
be able to keep up with other children in language understanding.

In other provisions of the bill, Texas would be entitled to
\$5,099,000 for establishing supplementary education centers,
for the joint use of schools unable to provide laboratories,
auditoriums, special courses in art, sciences, languages, help
for the gifted children or the handicapped.

Another \$5,373,000 would be available to put more books
in school libraries in Texas; both school textbooks and supple-
mental books, so that every school and every school child will
have adequate books for school use.

It would be a mistake, however, to try to measure the benefit
of this bold new education program only in dollars and cents.
It is instead an educational program to aim at improving the
lives of this and future generations of American citizens.

This is an effort to match our actions to the age-old Ameri-
can dream of full educational opportunity for all, an effort
steeped in the spirit of democracy, that established public
school systems in the first place.

I have cited the Texas figures only as an example. It is not
merely a Texas program, but a national necessity for an era
of exploding populations, high unemployment, technical and
scientific progress, and international unrest.

There are many other important aspects of the bill which
will affect the lives of student and parent, including the proposal
for regional research centers to improve the quality of teaching.

As the bill progresses in the Senate, we will discuss all these
features in more detail to explain how our own state and others
are affected. Meanwhile, your support is needed to help make
this a magnificent and historical adventure in learning.

In an editorial on the railroad
"featherbedding" problem, the
Kansas City (Mo.) Star says:
". . . the public has been
paying for wages that created no
goods or services but added only
to the expense of travel and
shipping costs. Unnecessary
jobs add to the price of a train
ticket or to the cost of anything
that is shipped by rail. Such a
load of costs has damaged the
railroads at the very time they
have struggled to survive
against bus, truck, air and barge

competition." The paper also
stresses the fact that the pres-
idential commission which re-
ported on the issue "recom-
mended measures to soften the
blow. Jobs would be eliminated
gradually and men would re-
ceive 60 per cent of prior pay
for up to three years."

Man: "How did you come to
fall in the lake, little boy?"
Boy: "I didn't come to fall
in the lake. I came to fish."

ASTRODOME

Whittlin'--

(Continued from page 1)

scarce as hen's teeth. The light
shower Monday morning perked
up the hopes of the optimistic
but it didn't take but about 30
minutes of good, serious Plains
winds to wipe out all traces of
the shower. The wind blew away
the clouds that brought the
rains, too.

This community needs a bet-
ter record kept of weather here,
such as temperature highs and
lows, wind speed and rainfall.
We don't know how to go about

getting this done, but it should
be.

We're fascinated by the
Astrodome which has been con-
structed in Houston and will be
ready for use come April and
baseball season.

Though some of these facts
and figures have been mentioned
here before, here's some poop
about the facility:

Baseball games in the Astro-
dome will open a new era in
sports and entertainment history
in a stadium which guaran-
tees weather control, cleanli-
ness and comfort for events

Football Banquet--

(Continued from page 1)

Ralph Aday, pastor of First
Baptist Church of Bovina.

Shamblin congratulated the
coaches and team members on
their successful season.

Coach Stone also introduced
special guests.

The menu, which featured
chicken fried steak, was pre-
pared by the cafeteria staff.
Seniors receiving letters
were David Anderson, Gary
Beauchamp, Jerry Cooper,
Gene Pruitt, Jimmy Redden, and
Al Shamblin.

Juniors who lettered were
Richard Carson, Donnie McKin-
ney, Billy Marshall, Roman Ra-
mirez, Jerry Roach, Scotty
Rundell and Radford Venable.
Sophomore lettermen were
Eddi Corn, Lane Gober, Randy
Jones, Alfred Stanberry, Dean
Stanberry and Kregg Wilson.
Freshmen lettermen were
Alan Carson, Rex Cumpston,
Larry Dendy, Carl Harris,
Galen Hromas, Daryl Kirk-
patrick and Lynn Murphy.
Managers jackets went to
James Denney and Donnie Dyer.

"I spend hours trying to look
beautiful and all you want to
do is sit in the dark!"

**STRENGTH
FOR THESE
DAYS**
from
The Bible

A gentle tongue is a tree of
life. (Prov. 15:4).

By directing our utterances
to those things that are con-
structive we avoid acts of dis-
courtesy, reprimand and re-
proval. And, best of all, we will
not be tempted to repeat words
that are best forgotten; we
will not take part in gossip or
talebearing.

—(James 5:15).

We can use our faith to help
others in sickness, as well as
ourselves. Our prayers can be
like lights in the darkness be-
cause our affirmations of God-
life can bring His healing
presence to the side of the one
in need of Him.

The young mother examined
the complicated toy doubtfully
and turning to the salesman
said: "It seems to me this is
rather complicated for a young
child."

"Madam," the clerk said,
"this is an educational toy de-
signed to adjust a child to life
in the world of today. Any way
he puts it together, it's wrong."

Canning Tips

When removing jars from
boiling water, use a jar lifter
made for the purpose or a
pair of kitchen tongs.

Use one teaspoon of salt to
each quart of vegetables and
one tablespoon of vinegar to
each quart of beets.

which never have been able to
promise these luxuries.

The stadium financed by Har-
ris County, is leased to the
Houston Sports Association
owners of the Houston Astros
Baseball Club, for 40 years at
an annual lease fee of \$750,000.
HSA already has sub-leased the
stadium for Houston Oilers
American League football
games, Univ. of Houston Cougar
football games, the Houston
Oilers American League foot-
ball games, Univ. of Houston
Cougar football games, the
Houston Livestock Show and
Rodeo and Dr. Billy Graham's
religious revival. Many other
events, such as circuses, con-
ventions, boxing matches, bas-
ketball games and trade shows
are sure to follow.

There are 41,000 cushioned,
upholstered (seat and back)
theater type seats, and 4,000
pavilion seats that have
cushioned upholstered seats and
wooden backs.

Seating capacities are 45,-
000 for baseball, 52,000 for
football, 60,000 for conventions
and a maximum of 66,000 for
boxing or like event.

The stadium itself covers
9 1/2 acres of land, and the
entire complex covers 260
acres. Outside diameter of the
structure is 710 feet with the
playing surface 25 feet below
street level, affording minimum

vertical travel by fans. The
dome top is 185 to 208 feet
above the field. There is seat-
ing on six levels, with all seats
facing the center of the playing
area for baseball and football
with the radius point of all rows
20 feet behind second base on the
baseball diamond. This means
the seats in center field are
just as close to the center of
action as some of the best seats
behind home plate.

The air-conditioning system,
costing \$4.5 millions, will move
6,600 tons of air. Smoke and hot
air will be drawn out through the
top of the un retractable roof.

The fabulous stadium will
have a \$2 million scoreboard
which will be an attraction in it-
self, and there will be five
dining areas in addition to con-
cession stands.

There is paved parking for
30,000 cars, and eight traffic
arteries to afford easy access
with virtually no traffic conges-
tion.

Historical Committee Named For County

A Farmer County Historical Survey Committee has been appointed by Loyde A. Brewer, county judge.

Officers of the committee are John Armstrong, Farwell, chairman; Ray Landrum, Friona, vice chairman; and Mrs. Robert E. Wilson, Bovina, secretary.

Other committee members include Mr. and Mrs. Joe Jesko, Rt. 1, Friona; Mrs. Ray Landrum, Friona; Mr. and Mrs. Ralph Wilson, Rt. 2, Friona; Robert E. Wilson, Bovina; Mr. and Mrs. Harold Carpenter, Oklahoma Lane; and Mr. and Mrs. W. D. Hardage, Farwell.

Appointed to serve in advisory capacities by the county judge were Mr. and Mrs. C. W. Dixon, Friona; Mrs. Malinda Schlenker, Rt. 2, Friona; Mr. and Mrs. Frank A. Spring, Friona; H. Y. Overstreet, Farwell; and Mrs. Mabel Reynolds, Farwell.

The county's budget for '65 has an appropriation of \$500 for use of the committee, the judge announces.

At a recent meeting of the committee in Bovina, Chairman Armstrong appointed a Civil War Graves Location committee composed of Carpenter, Landrum and Wilson. Mrs. Reynolds will head on committee on historical buildings and sites. She will name those to assist here.

Next meeting of the committee is scheduled for Saturday, January 30. Site of the meeting will be named by Armstrong.

Morris Takes Soils Course

Delbert Morris of Western Ammonia in Bovina recently received certificates of award for successful completion of a soils course, "Sub-soil Chemistry and Clay Mineralogy", co-sponsored by Texas Tech and Western Ammonia Corporation.

The 12-week soils course is jointly approved and recognized by Texas Tech Extension Division as equivalent to three semester hours in College Agronomy.

Instruction for the course was provided by Dr. B.L. Allen, Associate Professor of Soils at Texas Tech; Dr. A.W. Young of Texas Tech and Dr. William Bennett, Agronomist for Western Ammonia Corporation.

Intermediates Have Social At Church

The Young Intermediates of First Baptist Church had a social hour Sunday following the worship service.

The group played paper sack games and Teresa Page was named Miss Paper Bag Face. Named as runner-up was Kathy Estes.

Tuna sandwiches, cookies and cokes were served the group in paper sacks.

Hosting the social were Mr. and Mrs. J.D. Kirkpatrick, Mr. and Mrs. Ed Dendy and Mr. and Mrs. Leslie McCain.

Young people present were Larry Dendy, Ronnie Dyer, Rodney Murphy, Judy Dendy, Teresa Page, Carol Jamerson, Carol Kirkpatrick, Elaine Minyen, Kathy Estes, Kay Stone, Diane Stowers, Martha Adams and Pam Webb.

Hugh Rogers Celebrates Birthday

Several friends gathered at the Chester Rogers home Saturday afternoon to help their son, Hugh, celebrate his eleventh birthday.

Attending were Tommy Bonds, James Ritchie, Dale Johnson, Tamara Rogers and the honoree.

Committees Appointed

Two committees were appointed at the Jan. 16 dinner meeting of the recently appointed Historical Survey Committee, held in Bovina. Appointed to the Civil War Graves Location committee, by chairman John Armstrong were Harold Carpenter, Oklahoma Lane, Ray Landrum, Friona and Bob Wilson, Bovina. Mrs. Mabel Reynolds Farwell will head the committee on historical building and sites. She will pick her corps of assistants.

A meeting of the survey committee is planned for Jan. 30 with chairman Armstrong to pick the place of the meeting.

All members of the survey committee, with the exception of Mr. and Mrs. Ralph Wilson, Friona (who were out of town), Mr. and Mrs. Frank Spring, Friona, Mr. and Mrs. Frank Hastings, Bovina and H. Y. Overstreet of Farwell were in attendance. Special guests were Commissioner and Mrs. Tom Lewellen, Black, Mr. and Mrs. Bill Ellis, Friona and Mrs. Orr, mother of Mrs. John Aldridge.

BEE GEE

"GAS FOR HEAT! BE SURE TO CHOOSE IT - TAKE THIS TIP FROM THOSE WHO USE IT"

School Lunch Menus

Monday, February 1 Spanish rice, green beans, apple sauce, cornbread and butter, 1/2 pint milk, lemon pie.

Tuesday, February 2 Turkey and noodles, English peas, beets, hot rolls and butter, 1/2 pint milk, peanut butter cookies.

Wednesday, February 3 Roast beef, creamed potatoes, brown gravy, slice bread and butter, 1/2 pint milk, fruit salad (with oranges).

Thursday, February 4 Tamales, red beans, lettuce and tomatoes, cornbread and butter, 1/2 pint milk, apple pie.

Friday, February 5 Fish with tartar sauce, au gratin potatoes, cabbage and green pepper salad with Poppy seed dressing, hot rolls and butter, 1/2 pint milk, ice cream cup.

Of Interest To THE WOMEN

Plan Shower Feb. 4 For Elaine Fuller

Miss Elaine Fuller, bride-elect of Danny Mac Glasscock, will be honored with a pre-nuptial shower Wednesday, February 3.

The come-and-go affair will be held in the home of Mrs. J.P. Macon and calling hours will be between 3 and 5 p.m.

Hosting the courtesy will be Mrs. Harold Hawkins, Mrs. Charles Hawkins, Mrs. Roy Hawkins, Mrs. Harry J. Charles, Mrs. Macon, Mrs. E.L. Cochran, Mrs. Wallace Rogers, Mrs. Chester Rogers, Mrs. Norvell Strawn, Mrs. Ovid Lawlis, Mrs. Paul Jones, Mrs. Jack Clayton, Mrs. Henry Minter, Mrs. Charlie Owen, and Mrs. A.V. Campbell.

All friends of the couple are extended an invitation to attend by the hostesses.

DORRIS MARIE DONALDSON

Dorris Marie Donaldson To Wed Robert D. White

Mr. and Mrs. Sterling Donaldson announce the engagement and approaching marriage of their daughter, Dorris Marie, to Robert D. White, son of Mrs. Luella White of Farwell. Vows will be read on February 14 at 3 p. m. in the Oklahoma Lane Baptist Church. All friends of the couple are invited to attend the ceremony.

Party Fetes Heidi Corn On Birthday

Heidi Corn, daughter of Mr. and Mrs. Charles Corn, celebrated her ninth birthday Friday afternoon with a party at her home.

The group of girls played games such as musical chairs, blind-man's bluff and carrying an egg on a spoon.

The birthday cake was white with yellow roses and yellow candles. It was served the guests with cokes.

Helping Heidi celebrate were Rhonda Rhodes, Evans Johnston, Cathy Crump, Christie Trimble, Cindy Read, Nancy Hutto and Darla Hawkins.

Shower Fetes Jeanne Ivy

Miss Jeanne Ivy was honored with a pre-nuptial shower Thursday afternoon in the home of Mrs. Harold Hawkins.

Miss Ivy and Mrs. W. F. Bartley of Muleshoe, mother of the groom, were presented with corsages of kitchen gadgets.

The serving table was covered with a white lace cloth centered with an arrangement of pink roses in a milk glass bowl, extending circularly from the centerpiece were pint satin runners ending in a bow at the edge of the cloth. On either side were milk glass candle holders entwined with pink roses and holding pink tapers. Crystal and silver appointments were used.

Orange cake, coffee, punch, nuts and mints were served the guests by Mrs. Jim Russell and Mrs. Charles Vickers, Mrs. A. L. Nuttall presided at the guest book.

Hosting the come-and-go courtesy were Mrs. Hawkins, Mrs. Russell, Mrs. Nuttall, Mrs. Don Murphy, Mrs. Vickers, Mrs. W. H. Rogers and Miss Elaine Fuller.

Guests calling during the afternoon were Mrs. Ralph Aday, Mrs. Homer Kelley, Miss Beverly Bartley, Mrs. Barbara Hall, Mrs. Henry Ivy, Mrs. Leland Ivy, Mrs. H. D. Bradshaw, Mrs. Linda Elliott, Mrs. Tom Ware, Mrs. E. L. Cochran, Mrs. Dub Bartley, Mrs. A. L. Glasscock, Mrs. Ovid Lawlis, Mrs. Charles Hawkins, Mrs. Roy Hawkins, Mrs. Reagan Looney, Mrs. Dickie Clayton, Mrs. Jim Ware, Mrs. T. C. Wiseman, Mrs. Jack Morris, Miss Judy Strawn and Mrs. Bobby Englant.

Also Miss Lynn Looney, Miss Patsy Lloyd, Mrs. Leslie McCain, Mrs. Lawrence Jamer-

son, Miss Maurine Hammonds, Miss June Webb, Miss Vickie Hawkins, Miss Deborah Hawkins, Miss Patricia Crook, Mrs. Weldon Moody, Mrs. Paul Lloyd, Mrs. Travis Lloyd, Mrs. J. D. Stevens, Mrs. Jim Heard, Mrs. C. W. Crisp, Miss Dorothy Bowman and Miss Linda Estes.

Dodsons Have New Daughter

Mr. and Mrs. Roy Charles Dodson of Clovis became the parents of a daughter Tuesday morning at 6:30 a. m. at Clovis Memorial Hospital.

Name and weight of the new arrival were not available at press time.

Grandparents are Mr. and Mrs. Roy Dodson and Mr. and Mrs. J. T. Hammonds of Bovina.

Reception To Honor Roaches

Mr. and Mrs. James D. (Sonny) Roach will be honored with a silver wedding anniversary reception Saturday, February 6, at their home. Calling hours for the come and go courtesy will be 7:30 to 10:00 p.m.

Hosting the affair will be the couple's children, Judy and Jerry.

All friends and neighbors are extended an invitation to attend.

Clubs To Hear Panel Group

Bovina Woman's Study Club will meet Thursday afternoon at the Club house for a bi-monthly meeting.

Program for the afternoon will be a round-table discussion of "Decisions of Our Supreme Court Concerning Prayer."

Serving as moderator will be Mrs. John Dixon.

Members of the panel will include ministers of Bovina, Don Stone, Rev. Harold Morris, Rev. Ralph Aday, Rev. Archie Cooper and Fr. Claver Giblin, S.A.

Hostesses will be Mrs. A. E. Crump and Mrs. Arlin Hartzog.

Variety Club Meets With Mrs. Watkins

Oklahoma Lane Variety Club met Wednesday afternoon in the home of Mrs. Thad Watkins.

Members had a business meeting and read several "Thank You's" that the club had received. One was from Boys Ranch thanking them for the homemade cookies they had sent during Christmas.

The ladies spent the afternoon embroidering for the hostess and visiting.

Turkey sandwiches, apple pie and hot spiced tea were served to the group.

Present for the meeting were Mrs. Lloyd Battey and Mrs. Sam Sides of Hereford, Mrs. Ed McGuire, Mrs. George Lindop, Mrs. C. C. Christian, Mrs. C. A. Bandy, Mrs. Bill Foster, Mrs. L. M. Grissom, Miss Lola Grissom and the hostess.

Quilters In Bradshaw Home

Quilting Club met recently in the home of Mrs. Bill Bradshaw.

The group spent the day quilting for the hostess. They had a covered dish luncheon at the noon hour.

The group has set their meeting date for the first Thursday of each month. The next meeting will be February 4 in the home of Mrs. J.R. Caldwell.

Present for the all-day meet were Mrs. Mel Gunn, Mrs. J.R. Caldwell, Mrs. J.E. Owens, Mrs. Bob McMeans, Mrs. Reagan Looney, Mrs. Levi Johnson, Mrs. Thomas Rhodes and the hostess.

Gunn Home Scene Of Club Meet

Members of the Widow's Club met Friday at the noon hour in the home of Mrs. Mel Gunn.

The ladies had a covered dish luncheon and homemade ice cream.

During the afternoon they recalled their most comical excuses for the year 1964.

Members present were Mrs. J. Sam Gaines, Mrs. J.H. Steelman, Mrs. Margaret Caldwell, Miss Rita Caldwell, Miss Ellen Remensnyder, Mrs. U. B. Wheeler, Mrs. C. O. Edens, Mrs. Julia Lloyd, Mrs. Troy Armstrong, Mrs. Pearl Hastings and Mrs. Gunn. Guests present were Mrs. Betty Adams of Paris, Texas and Mrs. Waldon, mother of Mrs. Hylton Moore.

BETTY CROCKER --

Sandra Patterson Winner Of Award

SANDRA PATTERSON

Sandra Patterson has been named Bovina High School's Betty Crocker Homemaker of Tomorrow.

She scored highest in a written home-making examination taken by senior girls last month and is now eligible for state and national honors.

The state's highest-ranking girl will receive a \$1,500 scholarship from General Mills, Inc., with the state runner-up to be awarded a \$500 educational grant.

Miss Patterson will be presented a pin from General Mills at the next school assembly. She is the daughter of Mr. and Mrs. Jack Patterson. Her older sister, Cynthia, was recipient of the award in 1961.

4-H Clubs To Meet

Monthly meeting of all Bovina 4-H Clubs will be held Monday at 7 p.m. in the school auditorium.

A film will be shown on citizenship by Mrs. Cricket Taylor, Parmer County home demonstration agent.

Following the film the group will have a sing-song and refreshments.

All members are encouraged to attend.

Vows Read In Virginia

Miss Barbara Stewardson and Allan Wassom exchanged wedding vows on December 19. The double-ring ceremony was read by Rev. W. W. Glass in the home of the bride's parents in Virginia.

The bride is the daughter of Mr. and Mrs. A. E. Stewardson of Valley High Farm, Barbourville, Virginia. The groom is the son of Mrs. Helen Wassom of Bovina.

Attending the bride as matron of honor was Mrs. Joyce Freeland of Manassas, Virginia. Serving as best man was Kenneth Williams of Oxom Hill, Maryland.

Mr. and Mrs. Wassom will make their home in Oxon Hill, Maryland.

Announce Engagement

Mr. and Mrs. J. D. Stevens announce the engagement and approaching marriage of their daughter, Bettie Mae, to Charles Wayne Hartman, son of Mr. and Mrs. S. A. Hartman of Clovis. The couple will exchange vows in the early fall.

WITH DATE NIGHT --

FHA Girls Honor Dads

FHA girls held their annual Daddy Date Nite Thursday at the Homemaking cottage. About 60 attended the affair.

The daddies were treated to a Mexican supper. The food was prepared by the homemaking classes and featured tamale pie, refried beans, combination salad, hot rolls, lemon bisque, coffee and iced tea.

A Mexican theme was carried out in table decorations which were centered with baregrass with gum drops on the end of each stem. Mexican hats were also used in the decorations.

Girls of the senior class were in charge of the program. The invocation was given by Patsy Lloyd. June Gay Douglas gave the welcome and Jack Patterson gave the response. Linda Rejino presented the Mexican Hat Dance for the audience.

Judy Strawn asked some of the Daddies about things they did, their cars, and other questions concerning the time they were teen-agers. The program was closed with a poem, "Tribute to Dads," given by Tonya Ivy.

Girls and their daddies attending were Judy and Cecil Sisk, Beverly and Joe Pinner, Barbara and Roy Allen, Cecilia and Bill Denney, Patricia and French Crook, June Gay and R. L. Douglas, Jr., Carmen and Victor Ward, Carol and J. D. Kirkpatrick, LaNell and Wendol Christian, Gwen and C. C. Christian, Nancy and L. J. Fowler, Connie Vaughn and Alan Staley, Linda and Ben C. Rejino, Sandra and Jack Patterson, Vickie and Richard Vaughn, Judy and Norvell Strawn, Tonya and Tony Ivy, Judy and Ed Dendy, Karen and Tom Beauchamp, Martha and Gene Snodgrass, Margaret Jo and Elton Venable, Teresa and Ira T. Page, Nelda and Sterlyn Donaldson, Sharon and D. W. Pierson, Kathy, Judy and Ronald Mynen, Maurine and O. M. Hammonds.

Other guests were Patsy Lloyd, Lynn Looney and Linda Estes. Also FHA mothers, Mrs. J. D. Kirkpatrick and Mrs. Elton Venable and Mrs. Alan Staley, FHA sponsor.

LEGAL NOTICE
THE STATE OF TEXAS

TO: W. S. Merrill and Mrs. Cleo Merrill, and should either of them be married, then to their unknown husband or wife, and should either be deceased, then to their unknown heirs, assigns or legal representatives, a d to THE CAPITOL FREEHOLD LAND TRUST, which operated under a Declaration of Trust Dated December 23, 1933, recorded in Volume 50, page 151, of the Deed Records of Farmer County, Texas, and to its unknown trustees, successors, assigns or legal representatives, are defendants.

GREETING:
You are hereby commanded to appear by filing a written answer to the Plaintiff's Petition or before 10 o'clock A.M. of the first Monday after the expiration of 42 days from the date of the issuance of this citation, same being Monday the 8th day of March, 1965, at or before 10 o'clock A.M. Before the Honorable District Court of Farmer County, Texas, at the Court House of said County in Farwell, Texas. Said Plaintiff's Petition was filed in said Court on the 19th day of January, A.D. 1965, in this cause, numbered 2543 on the docket of said Court, and styled BOVINA WHEAT GROWERS, Inc. Plaintiff, vs W. S. Merrill et al, defendants, the names of the parties to the cause are as follows: BOVINA WHEAT GROWERS, Inc; is Plaintiff, and W. S. Merrill and Mrs. Cleo Merrill, and should either of them be married, then their unknown husband or wife, and

should either be deceased, then their unknown heirs, assigns or legal representatives, and THE CAPITOL FREEHOLD LAND TRUST, which operated under a Declaration of Trust Dated December 23, 1933, recorded in Volume 50, page 151, of the Deed Records of Farmer County, Texas, and its unknown trustees, successors, assigns or legal representatives, are defendants.

A brief statement of the nature of this suit is as follows, to wit: Plaintiff is suing in trespass to try title to recover title to and possession of lots 8, 9 and 10, of Block 33, of the Original Town of Bovina, Farmer County, Texas, and in the alternative pleads and invokes the 19 year statute of limitations as applied to land titles in the State of Texas, and seeks to establish a lost deed from defendant The Capitol Freehold Land Trust to Cash Richards dated about 1940 con-

veying lot 8 above described, as is more fully shown by Plaintiff's Petition on file in this suit.

If this citation is not served within ninety days after the date of its issuance, it shall be returned unserved.

The officer executing this process shall promptly execute the same according to law, and make due return as the law directs.

ISSUED and given under my hand and the Seal of said Court, at Office in Farwell, Texas, this 19th day of January, A.D. 1965,
Dorothy Quickel
Clerk, District Court,
Farmer County, Texas,
Endorsed:

No. 2543, in District Court, BOVINA WHEAT GROWERS, INC. vs W. S. Merrill, et al. CITATION BY PUBLICATION. Issued this 19th day of January, A.D. 1965.
Dorothy Quickel Clerk.

JAY BOOTH INSTRUCTS FIFTH GRADE --

Students Learn Unusual Crafts

By Jeanne Kerby
Students in the fifth grade of Bovina Schools, have been learning some unusual handcrafts in connection with art lessons.

Teaching the crafts is Jay Booth, teacher of a section of the fifth grade.

The crafts include stick craft, rock craft, chenille and plastic craft.

In stick craft, the main items used are sticks, such as are found in ice cream bars. They are glued to form such things as baskets, recipe or note holders and some have made miniature wishing wells.

In the chenille work, the students have combined it with styrofoam to form pin cushions,

Santa Clauses and other small objects. The chenille comes in many colors and resembles velvet cording, although it is a little larger and is more fuzzy. In their work with plastic, the students use a clear liquid polyester. They can combine it with a number of different dyes to obtain the desired colors. It is combined with a catalyst, which causes it to harden, and poured into molds.

Some of the plastics have pictures, coins and stones encased in them. The mold is poured about half full and allowed to set for 30 minutes. The stone, or whatever is desired, is then placed on the plastic and the mold is filled. After it has hardened the ob-

ject is completely sealed.

The molds used for the plastic are in the shape of a map of Texas, arrows and squares. After they are hardened, they may be used in jewelry such as necklaces or bolo ties or as decorative pieces.

Probably the most unusual craft they have learned about is the rock craft. They have polished stones of various sizes and shapes and have made many items from the finished stones.

They have made such things as necklaces, bracelets, key chains, earrings, bolo ties, and cuff links.

They start with the rough stones. Most of these are from Arizona, New Mexico and Montana. They include such stones

as rose quartz, agate and Apache tear. They had some fossil stones with bones clearly visible.

It takes 21 days to complete the polishing of a stone. It is done in an electric polisher, a cylinder shaped container with a compartment on each end. Each compartment will hold six pounds of stone, making it possible to polish 12 pounds of stone during one process.

The stones are first mixed with number 80 carborundum grit abrasive. The polisher is started and the stones and abrasive are rotated continuously for ten days. They are then removed from the polisher, washed and combined with a finer carborundum, and rotated another 5 days. Still a finer grit is mixed with them for another 2 days. This polishes the stones in the same way as nature polishes them, but it is accomplished in days rather than many years.

The final polish and gloss is put on the stones by mixing them with tin oxide and polishing them another two or three days.

The polished stones are now ready to be used in any one of the many items listed earlier. They are glued to a bell cap and then put on chains for bracelets and necklaces or glued to key chains, earrings etc.

The cost for the chain and other parts for a necklace is about 35 cents while a bracelet or the costs about 75 cents. The children bring \$1 each six weeks to cover the necessary expenses.

Not only have the children enjoyed working with the crafts, but they have gained much valuable knowledge in connection with it, Booth points out.

Another interesting thing the students have done is the musical bottles. This has been done in science, in connection with their study of sounds.

They have taken Coke bottles, and by filling them to various degrees, have produced the musical tones of the scale. They are tuned to a small xylophone which can be played with them. They have two complete musical scales and have learned to play "Jingle Bells" and "Row, Row, Row Your Boat."

A close up of some of the finished items and some of the polished stones made by fifth grade students.

J. L. BARNES --

Pioneer Bovina Merchant Dies

Funeral services were Friday at 4 p.m. at First Methodist Church in Memphis for J. Luther Barnes, 83, an oldtime Bovina businessman. Rev. J. B.

Thompson, pastor, officiated. Interment was in Fairview Cemetery.

Survivors include his wife, Claire, one son, J. L., Jr. of Dallas, two daughters; Mrs. James W. Stubbs of San Antonio and Mrs. George W. Matlock of Dallas and seven grandchildren.

Mr. Barnes was one of the earliest settlers of Bovina, moving here in 1902. He was a partner in business with Frank Hastings. They opened a hardware store in Bovina and later branched out to include a grocery store. They opened several stores in other towns, following the original operation in Bovina.

The two men were both 83 years of age when Mr. Barnes passed away. They had been friends since their boyhood days when they were both 16.

Attending the services from Bovina were Hastings and his daughter, Mrs. R. E. Wilson.

When To Start Seeds Indoors

If you have lived in your present location for several years you undoubtedly know the approximate date when the last frost of spring can be expected. This is the date you must know to be able to figure when to start seeds indoors in order to have seedlings just the right size to be transplanted later.

In round figures you can expect seedlings to sprout in about 10 days and that seedlings which have been growing a month indoors will be about the proper size to move outdoors. Naturally there will be many exceptions to these generalities, but the seed packet will tell you about these.

Past State Prexy Speaks To Parmer Teachers

Mrs. Elizabeth Little of Corpus Christi, past state president of Texas State Teacher's Association and delegate to the world teacher's conference in Paris, France last August spoke to members of Parmer County Teacher's Association Monday night when the group met in Farwell for a dinner meeting.

Mrs. Little described the city of Paris and told of historic places visited while she was in the city, as she commented that she felt it important for teachers to see places of historic interest.

She described the seven-day session of the teacher's group, which was represented by 80 countries, many of the delegates from developing countries.

Among items on the agenda at the world meeting were discussions on development of math and science and textbooks used, upgrading of education in general and a major topic "How Can We As Teachers Do A Better Job," says the delegate. She also touched on the problem of the image of the

teaching profession, and the financial picture of the teacher over the world.

"In the United States, we are so much more fortunate than the teacher in any other country," she observed, as she explained that two-thirds of the delegates come from nations that are just dots on the map and weren't even in geography books a few years ago. Many of the other teachers at the conference received their learning in mission schools and when they reached the level taught in the schools, had to go to other countries to complete education.

"Not once were dropouts mentioned from other countries, young people realize they have to have an education to survive, this problem seemed to be unique to the United States," she says.

The Irish teachers complained that they are controlled by unions, one of the biggest burdens they had to bear she said, as they were on strike many months of last year.

She challenged her audience to strive harder and gain status

by improvement, to go beyond the call of duty in the classroom and give "of ourselves in the community."

Mrs. Decima Beene of Friona, county president, conducted the meeting. Rev. W. C. Strickland, pastor of Hamlin Memorial Methodist Church, gave the invocation. School board members and their wives, Mrs. Strickland, Mrs. W. H. Graham of The Tribune and husbands or wives of teachers

were special guests.

Mrs. Margaret Kennedy, Farwell; Jane Malone, Lazbuddie; Gary Cox, Bovina and Joe Bivens of Friona were named to a nominating committee for new county officers.

Mrs. Lenton Pool was in charge of the program. Musical numbers were presented by a boy's quintet and members of the Farwell Future Teachers were featured in a musical skit. Last meeting of the year is set in Lazbuddie March 30.

Gregg Hromas and Brenda Dyer, fifth grade students, are shown by the display case at the grade school where the handcraft is being shown.

WITH NAZARETH WIN--

Fillies Take Inside Track To District

Bovina's Fillies continued their winning streak in district competition at Nazareth last (Tuesday) night. They took the measure of the Nazareth lassies, 55-49.

Judy Strawn was leading scorer with 25 points with Lynn Looney scoring 21 points for the Fillies.

Both teams had perfect 3-0 district records going into the

Tuesday night tilt.

The Mustangs dropped their fourth consecutive district game to the Swifts, 29-59. Scotty Rundell was leading scorer with 12 points.

The win gives the Fillies the inside track to the district championship as the schedule is now half completed and they have defeated each of the teams in the district one time.

Second half of the double round robin district play begins here Friday night with the Bovina teams meeting Happy at Willford Gym. First varsity game gets underway at 6:30.

Tuesday night of next week, the teams play Hart there.

The district schedule is concluded with games here against Nazareth February 9 and at Lazbuddie February 12.

The prayer of faith shall save him that is sick, and the Lord shall raise him up.—(James 5:15).

CANOPY CRASHES -- High winds and blowing dust here Monday not only were irritating to citizens but blew a portion of the canopy at Bovina Dairy Freeze down. There was no damage to the building other than to the canopy.

On The Farm In Parmer County

By JOE VAN ZANDT
County Agent

On Thursday, January 28 starting at 8:30 p. m. in the Alcove Restaurant in Plainview, the West Texas Vegetable Growers Conference will be held.

Weed Control in vegetables will be theme for the meeting that lasts until about 5 p. m. All vegetable growers should attend this meeting as a very informative program is planned.

SUGAR BEET GROWERS

Everyone wanting to grow Sugar Beets in 1965 must complete application forms by January 29. These application forms are available in the ASCS office in Farwell.

IRRIGATION WORKSHOP SCHEDULED

Mark this date on your calendar, Wednesday, February 17, 1:30 p. m. to 4:10 p. m., in Hub Community Center. At this time an irrigation and water conservation workshop will be held.

The program will consist of discussion on pending water legislation, water table decline and results of studies by the High Plains Underground Water District by Tom McFarland.

Other items on the program include discussion on methods, rates and timing of water applications by Dan Huckabee with Soil Conservation Service in Amarillo.

James Murphrey, Extension Farm Management Specialist, will discuss economical management of water for highest net return per acre-inch of water.

There will be time for a question and answer session after each speaker part on the program. We believe this will be a very timely program of concern to everyone. We all need to learn more about making the best possible use of our water, which is the foundation of our economy. So mark this on your calendar for Wednesday afternoon, February 17.

DON'T GUESS - SOIL TEST
Several farmers have been getting soil tests run on soil samples from their fields

lately. A total of 89 soil samples were analyzed for Parmer County farmers between January 4 and January 21. This is good but not good enough.

I really believe every farmer in Parmer County can make more net profit if he will have a soil sample from every field analyzed every two years. Soil testing is essential to increasing net profit just as applying fertilizer and irrigating is.

The longer we fertilize, the less we know about the fertility levels in our soils. I mean here, an economical fertility level.

From looking at the results of these soil test reports, we can see where phosphate residue is building up in some fields. Enough of a residue that they may not need phosphate fertilizer applied for several years.

While on the other hand, tests on some fields show that they have used nearly all of the available phosphorus up.

Therefore, I believe every field in the county needs a soil test every two years. The \$2.00 invested, plus a little time, is mighty small when compared to the cost of the fertilizer you apply and the profit you hope to make from this years crop.

Information sheets and containers for soil samples are available at the County Agents office. We are in the process of setting up some fertilizer result demonstrations aimed at pointing out the value of fertilizing according to a soil test. If you have a good location and would like to have a fertilizer demonstration let me know real soon as we are looking for good demonstration sites. Call or come by the County Agent's office in Farwell.

If you think traffic is heavy today, listen to this: "U.S. Bureau of Public Roads estimates that, by 1975, we will have 111 million licensed drivers (now there are some 85 million); 110 million motor vehicles (some 70 million now) and that they will travel one trillion, 171 million miles a year (now only 700 billion)."

One reason for so many traffic violations may be the fact that the long arm of the law is often short-handed. It pays to look your best before crossing any street.

Eggs offer outstanding nutritional value, and plentiful supplies point to the fact that they are excellent buys. Extension nutritionists and officials of the U. S. Department of Agriculture remind consumers. Buy them in quantity and use them generously in baking, the nutritionists say.

Hinn Soybean Performs Well

The first soybean for the High Plains of Texas has passed the rigorous growing season of 1964 with flying colors. The Hinn soybean, developed by the High Plains Research Foundation at Halfway, was released to farmers from Lubbock to the top of the Panhandle.

The Hinn was developed to give Texas a better soybean as well as another high yielding cash crop, and was released to Texas Certified Seed Growers early in 1964. Over 6,000 bushels were turned over to farmers to get this new soybean into production throughout the irrigated belt of the Plains.

Desirable qualities of the Hinn soybean are; generally a higher yield over other varieties grown in West Texas; good standability, that is, the beans will not fall down or lodge; has a high degree of shatter resistance; fruits high off the ground, about 4 to 6 inches, for better harvesting. All of these qualities of the Hinn make it a soybean much sought after by the area farmers.

The Hinn was developed by Dr. Earl H. Collister, director of the High Plains Research Foundation. Later work was taken up by Barry Love, agronomist for the Foundation. The first selections of the new bean

were made in 1959. The soybean was released to certified seed growers from throughout the West Texas area.

Highest yield reported to the Foundation for the year of 1964 came from Ewald Quebe, a farmer near Lockney, with a field average yield of 45 bushels per acre. Average yields from the total area in which the Hinn was released ranged from 30 to 35 bushels.

Dr. Collister has reported that under optimum conditions at the Foundation, yields were up to 53.4 bushels per acre. Net returns from this yield were \$119.88 per acre.

One new aspect that has been developing from the Hinn soybean is the current study underway by the American Soybean Association to test the Hinn for human consumption. Dr. Collister stated "It's sheer speculation at this time, of course, but if the tests do prove out, it will put the Hinn soybean in a premium category on the world market."

Certified growers who wish to plant the Hinn soybean for 1965 may contact the High Plains Research Foundation, Box 1267, Plainview, Texas. This year's supply of good quality, high germination (89 to 96 per cent) will be allocated on a first-come basis.

Consumers Have Many Choices At Supermarket

Consumers continue to have many food choices at supermarkets, as the horn of plenty continues full to the brim, says Mrs. Gwen Ciyatt, A&M Extension consumer marketing specialist.

The beef counter features a wide variety of cuts, ranging from quality steaks to roasts, if a homemaker's time will permit the cooking of pot roasts, stews and Swiss steaks, there are good values available. Ground beef is another feature with especially good buys in three pound packages.

For persons interested in pork, the smoked items are among the best values. Other good values are loin roasts and chops, Boston butt roasts, roll sausage and some brands of bacon. Economical choices also include hams.

Fryers and large size Grade A eggs continue plentiful at economical price levels. Fryers are featured at many of the markets this week. The price per pound of the whole bird is less than that cut-up or pieces.

Leading choices in the fresh vegetable department are collards, broccoli, cauliflower, carrots, celery, mustard and turnips and greens. Sweet potatoes and green beans are moderately priced in some stores--but individuals need to check these possibilities.

Citrus fruits continue to high-light fruit choices. Good supplies of grapefruit are available at moderate price levels, and the quality is excellent.

CLAUDE PRIMROSE SELL REGISTERED ANGUS BULL
Mr. and Mrs. Claude Primrose, Farwell, recently sold an Aberdeen-Angus bull to E. O. Baker, Muleshoe, Texas.

Tangerines are in larger supply than usual at this time of the year, because movement has been behind that of last year. Temple oranges are now in adequate quantity, but tangelos are winding up their season. Bananas and apples continue to be good choices at fruit counters.

Good Citrus Buys Are Available

This is the season for good citrus buys, says Mrs. Gwen Ciyatt, Extension Service consumer marketing specialist.

Supplies of citrus are larger this season than last. Citrus fruits vary in price now, due primarily to difference in size and variety. Size also relates to the number that can be packed into the shipping carton used for each product. The greater the number of fruit in a carton, the smaller the fruit.

The red varieties of grapefruit are the most popular at present, especially the large size. Navel oranges are quite plentiful this year, and prices are attractive. Navel oranges are identified by the formation at the blossom end of the fruit. They are usually seedless and may be peeled and sectioned easily.

Juice oranges usually have smooth thin skins and may or may not have seeds. Temple oranges look much like large tangerines except that the skin is pebbly and usually darker in color. They are easily peeled and sectioned. The fresh citrus season is all too short, so use it generously while available at reasonable price levels, the specialist suggests.

TIPS FOR HOMEMAKERS
If your pet is sprayed by a skunk, the odor can be removed by bathing pet in tomato juice.

THE HIGH PLAINS FARM AND HOME

Resistant Hybrids Best For Gainers Combatting Head Smut

Grain sorghum producers can best wage an effective war against head smut by growing resistant hybrids.

Among the newest resistant hybrids released by the Texas Agricultural Experiment Station for certified seed production are RS 625, RS 626 and RS 671. These, however, are but a few of the resistant hybrids available to farmers from commercial seed producers, report Wendell Horne, plant pathologist, and Ben Spears, agronomist, both with the Texas Agricultural Extension Service.

Hybrids RS 625 and RS 626 are similar in appearance and performance to RS 608 and RS 610 respectively, except that they are resistant to head smut. Hybrid RS 671, however, matures somewhat later and should be grown only under irrigation. Having a maturity similar to Hybrids 660, it is five to six days earlier than late commercial hybrids.

Reports on the yield, standability, head smut resistance and relative maturity of these and other hybrids in performance tests conducted by the Experiment Station are published each year in late December or early January. Copies of these reports will be available at any county Extension office.

Sorghum grown from clean seed planted on infested soil may be attacked by smut fungus since it is carried in the soil. Planting treated seed eliminates spread of the disease on seed. Therefore, it is the soil-borne spores, which are able to remain viable in the soil for many years, that are responsible for infection.

Planting seed of any hybrid should be treated with a good fungicide to prevent spreading these spores to clean fields. Crop rotation and sanitation

practices have limited value in the soil. The fields having no history of head smut, careful sanitary practices should be employed to avoid introducing the fungus.

Additional information on head smut and resistant hybrids is available at county Extension offices.

Consumers can expect to spend less of their take-home pay for food this year than in 1964 -- approximately 18 per cent as compared with about 18 1/2 per cent last year. Economists expect food expenditures to rise, but not as rapidly as incomes. Food prices may not rise as much in 1965 as they did in 1964 -- in fact, the food price increase is expected to be less than the price increase for the entire Price Index.

Furniture prices are expected to increase as much as 3 to 5 per cent this year over last. Yet, with the current demand for higher quality merchandise, it is quite likely that the higher price tags will be due in part to better quality. A moderate price decrease is likely for household appliances.

Canned bacon, which is sliced, partially fried, and ready for the table after just a few minute's heating, is now being commercially produced by at least three U. S. firms. They are using a vacuum-packed process based on research of the U. S. Department of Agriculture scientists. The new product needs no refrigeration, and it's a tasty convenience food for picnics and vacation cooking.

Plan Closely On Fertilization Needs

Agricultural producers should take a close look at production and management practices as well as the resources available before determining their fertilizer program for the year ahead. C. D. Welch, Extension soil chemist at Texas A&M University, says all can influence the returns from fertilizer use as can soil moisture.

Crop management can also affect potential yields. Late planting or a poor stand resulting from bad seed or the lack of an adequate weed control program can also cut production and reduce the chances for profit from fertilizer usage, says the chemist.

In addition to management practices, available moisture is an important yield affecting factor, says Welch, and should receive careful attention in developing fertilization practices. Where unlimited amounts of water are available for irrigation, moisture can be removed as a limiting factor if good water management practices are followed, Welch says. Under limited moisture, good results are usually obtained from fertilizer use. Adequately fertilized crops can utilize very efficiently limited amounts of

moisture but past experience along with subsoil moisture prospects can aid in determining production goals based on moisture.

The fourth factor affecting yields is the soil. A reliable soil test will provide information on the level of plant food in the soil and serve as a guide for selecting the most profitable rate and ratio of plant foods needed in the fertilizer. Merely applying fertilizer does not insure an adequate supply of plant food. The composition of the fertilizer does not insure an adequate supply of plant food. The composition of the fertilizer must fit the soil and crop requirements if maximum profits are to be realized, concludes the chemist.

The Texas Cotton Gainers' Association

took several firm stands in regards to the current cotton program and other legislative matters at their annual meeting recently. The Association's board of directors have called upon the secretary of agriculture to rescind his directive to the State ASC committee and county committees to restrict acreage re-appointment to the smaller of 33 acres or 50% of the crop land. The Association further vigorously opposes and objects to the directive of the secretary which would not require a county to release its unused or excess acreage to the state committee in order to preserve county history.

Members of the Association are in favor of retaining the current system of release and reappointment. Other protests were voiced to the secretary's method of issuing regulations without open hearings and consultation with farm representatives.

The Association is in favor of retaining the export subsidy program and extending the current cotton program, with provisions for free marketing and competitive one price cotton to both domestic and foreign mills. The board has called for a continuation of the current program with nothing less than the current 16,000,000 national acreage allotment.

--The use of top quality fence posts consistently give the lowest long-run fencing costs, says W. A. Smith, Extension forestry specialist at Texas A&M University.

Despite a generally unfavorable year for carrying out widespread range improvement practices, Extension Range Specialists G.O. Hoffman and E. J. Ragsdale, report work was done in each of the state's 254 counties. From the standpoint of numbers, demonstrations on brush, weed and poisonous plant control were the most numerous. From the standpoint of acres involved, proper stocking rate demonstrations topped the list. Total programs involved several million acres of rangelands and county agents and program building committees in most of the counties of the state.

Primrose Elected

Jerry Dean Primrose, Farwell, has been elected to membership in the American Angus Association at St. Joseph, Missouri, announces Glen Bratcher, secretary.

This membership was one of 550 issued to breeders of registered Aberdeen-Angus in the United States during the past month.

COTTON PAPER RECOMMENDED FOR GOVERNMENT RECORDS
Representative Silvio Conte, Republican from Massachusetts, has recommended that all permanent government records be printed on 100 percent cotton paper to increase their endurance. He pointed out that a report from the National Bureau of Standards shows continued use of microfilm records

will damage them beyond repair. Representative Conte said "I am interested in seeing that future records be kept on material that will last centuries," and added that, "The alternative to present materials would be 100 percent cotton fiber paper, which endures."

Now here's a suggestion with which even the most voluble and imaginative of political critics will have trouble finding

fault. A lot of people who've been figuring their income tax and filling out other "government forms" could be easily convinced that the Massachusetts Congressman has hit on an idea that would not only solve the problem of permanency in our cotton surplus as well.

FINAL COTTON QUALITY REPORT OUT

The final PCG report on the quality of cotton produced in 1964 on the High Plains was published January 20 and slight quality gains were registered in virtually all categories.

In Grade, the crop was 57.3 percent White as compared to 37.5 percent in 1963 with a corresponding drop in the percentage of Light Spotted and Spotted cotton. Staple average

for the season came out 30.1 thirty-seconds of an inch, three-tenths of a thirty-second over last year's average of 29.8 thirty-seconds. While this may not seem like much of an improvement, it is at least a step in a direction the area badly needs to go in order to broaden the range of markets for which its crop is suitable. Also, there was more cotton grown in the 23 counties with staple length of one inch or more. Only 2.7 percent of last year's crop fell in this category, while in 1964 5.8 percent of total production measured one inch or longer, perhaps indicating that more of our farmers tried producing longer stapled cotton in 1964 through changing varieties or cultural practices. Micronaire average (fine-

ness) for the season just past came to 3.7, with 65.4 percent above the tenderable limit of 3.5. The 1963 crop average was 3.5 with only 46.7 percent above the tenderable limit. There is considerable pressure in some areas to have Micronaire put on the "green-card" with premiums and discounts incorporated into the government loan schedule, in which case this factor would assume even greater importance to area farmers.

Pressley, or fiber strength average of the 1964 crop was up from 78,300 pounds per square inch to 78,000 pounds. Elongation was the only quality measurement in which High Plains cotton showed a decline this season, and that drop was only from 8.14 percent to 8.02 percent. Elongation is the percentage of stretch a given cotton sample will experience before breaking, and this factor is invariably in inverse ratio to fiber strength, or Pressley. It is to be expected, then, that as fiber strength goes up, Elongation will go down, but the improved Pressley can also be expected to at least offset any loss of "spinnability" brought on by lower Elongation.

The PCG quality report is published approximately every two weeks during the High Plains harvest season and is

sent to members of the cotton trade, textile industry and others, providing a current detailed account of the quality and fiber relationship of our cotton.

MILL TOUR
SIGN-UP ADVANCES
Over 20 High Plains residents-- representing farmers, ginners, banks, compresses, news media and chambers of commerce-- have signed up for the PCG tour of textile mills scheduled for February 16, 17 and 18. The group will be treated royally by the American Textile Manufacturer's Institute and textile executives in the Spartanburg, South Carolina district and will get an interesting and valuable insight to the processing of cotton after it leaves the gin.

Travel will be by chartered plane and the cost will be split among those making the trip-- probably in the neighborhood of \$100 to \$150 each, depending on the number of participants. PCG is urging that those who register for the trip now, and there is no penalty in the event circumstances force a change of plans. The plane, a Constellation, will carry up to 70 people, and deadline for reservations has been set for February 1. Departure will be from the Lubbock Airport at 9:00 a.m., February 16 and the return will leave from the Spartanburg Airport at 1:30 p.m., February 18.

PCG mill tours of the past have drawn high praises for being enjoyable as well as educational, and some who took part in the last tour plan to go again this year. Full details on the trip can be gotten and reservations made by contacting anyone at Plains Cotton Growers, 1720 Avenue M, Lubbock. Phone PO 2-0553.

Soil Needs Care For Production

Good soil management practices and well-adapted cropping systems provide the basis for continued prosperity in agriculture.

However, those who depend on the soil for livelihood sometimes become careless with this valuable resource, and this can prove costly, says John Box, associate agronomist for the Texas Agricultural Extension Service.

Crop production directly reflects a soil's physical condition and fertility status. Physical properties can be controlled by good use of residues rotations, cover crops and manures to maintain a deep, mellow soil condition, rather than a soil which is tight and hard to work.

Organic matter plays a prime role in keeping soil in good physical condition, points out the agronomist. It insures a good population of beneficial soil bacteria, aids in water penetration, improves the soil's structure and water storage capacity, and adds nutrients and humus.

Since many Texas soils show deficiencies in nitrogen, phosphorus, potash and lime, fertilization is essential to insure maximum yields and higher production. Box advises a soil test to determine the amount and type of fertilizer needed.

Crop rotations can also aid in improving soil productivity, and high residue crops tend to boost any rotation program.

WONDERFUL WORLD OF FABRICS

Almost every day, so it seems, a new fabric appears on the market which adds to our wide variety of choice in selection. This, however, can add more confusion to the already confused consumer as to fabric selection and care. It is impossible to recognize fabrics these days just by the "feel" of the material, so identification tags is the key to its characteristics and performance. This tag is more important than some think. It tells, in most cases, not only the fibers content of material, but how it should be cared for -- how to laundry,

iron or dry clean, and other information that is pertinent to the user. Many fabrics are moth, mildew, fungus resistant and hypo-allergenic.

No one can possibly remember the instruction given on labels of all the many fabrics and various articles of clothing worn by a family. Some people just send everything to the cleaner. This can add cost to the clothing budget unnecessarily, because home care, according to instruction, can surely save money that could be well used for other important things.

CARD FILE FOR LABELS

A card file box, with divisions for each type of garment can be a real help to the homemaker. This should be kept at the laundry area for easy reference. Divisions may be as follows: coats and jackets, casual dresses, better dresses, slacks and pants and etc. It can help also to write a brief description of the garment and name of owner on each tag-label before filing.

This idea is worth the time it takes to organize a file in both money and satisfaction.

4-H MEMBERS TAKE PRIZES

We are very proud of 4-H members who took prizes at the Hereford Junior Livestock Show recently. Gary Phipps of Friona walked off with the Grand Champion steer. John Hoover, Friona, Teresa Seaton and Dale Clark of Lazbuddie walked off with honors also.

Food 'Specials' Cut Budget, Survey Shows

Families who shop for foods featured at weekend "specials" can cut the costs of their weekly food budgets considerably, according to a recent survey.

Weekly costs of a "market basket" of food usually bought by a family of four averaged \$32.11 over a three-month period, the survey by the U.S. Department of Agriculture showed. Had the same food been purchased during the weekend--selecting advertised specials--the cost in the same store would have been \$2.10 less per week, says Mrs. Gwen Ciyatt, Texas A&M Extension consumer marketing specialist.

The study revealed that meat, including poultry and fish, is the food most frequently on special.

"That's an extra budget help, since meat takes up to one-third of the average family's week's food money," the specialist emphasized.

Chuck Roasts led the list of meats most often put on special, with broilers taking second place, according to the study.

Items from all departments of the market appeared as specials during the study. Many foods were featured and well-balanced menus could be planned from them. This procedure reflects a change from a few years ago, when evaporated milk, canned peaches, sugar, coffee and lard were often the only items used as traffic builders.

Buying the featured food specials can save money on the food bill, the specialist urged buyers to consider and evaluate these factors when considering specials: time, family, satisfaction, quality, storage space, and money.

Many farmers over the irrigated belt of Texas have been watering their crops for years. James Valliant, water engineer for the High Plains Research Foundation, reports there is a large difference in the returns due to the way a farmer irrigates his crops.

Valliant's research has proved that time of irrigation on the crops grown in this area is more important than just putting on water. Due to the physiological growth of plants, there are times when the water is more beneficial than at other times. Proper timing of irrigation in balance with the correct fertilizer level appears to be one of the answers to maintaining high yields on less water and with added income.

James states that high yields alone might not make the most money. With his research at the High Plains Research Foundation, James is working toward the most economical return per dollar invested. With this in mind, Valliant's research is geared toward developing the highest practical irrigation efficiency in the production of crops.

Irrigation methods developed by the Foundation are based on the stage of growth of the crop and its water requirement at that stage. This along with the proper fertilizer balance will

give the farmer the highest net return per dollar invested.

In a recent study at the Foundation, Valliant found three irrigations, including preplant, along with the proper fertilizer, gave the highest return in net dollars with grain sorghum. Plots with additional irrigations had higher yields, but lower net returns.

The Foundation's irrigation research program under Valliant has been extended to cover all of the principal crops grown in Texas. With each of the different crops timing of the irrigation water has made the difference of profit or loss.

"If we as farmers wish to maintain our present high standard of agricultural economy we must get the maximum efficiency from our ground water for irrigation," Jim Valliant says. "This would mean to maintain a practical efficient irrigation program which can only be obtained by proper timing of irrigation based on the stage of development of the plant."

Training Meeting On Household Cleaning Agents

County Home Demonstration Club Leaders in Parmer County will receive training on the Selection of Household Cleaning Agents for Household metals and kitchenware, January 27, at the Hub Community Center.

The meeting will start promptly at 2:00 p.m., according to the County Home Demonstration Agent, Cricket B. Taylor, who will give the training.

Each club will send one or two leaders to take the training. These leaders will give the program to their club in February.

Drilling Activity High In 1964

1964 proved to be the most active year for drilling irrigation wells in the High Plains Water District since 1957. An unusually dry year has contributed greatly to the increased activity during the past year. 1,985 new wells were drilled within the district as compared to 2,137 in 1957. The record number of new wells recorded by the district since its existence was in 1955 when 3,998 wells were registered with the district.

During 1964 there were 109 replacement wells drilled, 93 wells were drilled that were dry holes or non-productive for other reasons.

Listed by counties are the 1964 drilling statistics for the High Plains Undergrnd Water District.

What does the future hold? Permits rolling into the county offices during January indicate

We have just listed a fine, Curry County farm with two good 8" wells, two miles of underground tile, better than average improvements, located on the pavement, over 600 acres of farming land; priced realistically to sell at less than \$300 per acre.

See Dean Eldridge OR Moreland Martin, Town & Country Real Estate 762-4501

County	New Permits	New Wells Drilled	Replacement Wells	Dry Holes
Armstrong	18	20	0	0

Changes In Feed Grain Situation Outlined

Feed grain supplies for the present marketing year are down six percent from last year; demand is expected to remain high and prices probably will average a little higher during the 1964-65 marketing year than for the year just passed, says John G. McHaney, Extension economist of Texas A&M University.

Supplies have dropped during three of the last four years and the carryover at the beginning of the 1965-66 marketing year is expected to be around the 58 million ton level. This compares with a carryover of 69 million tons at the start of the present marketing year and the record of 85 million tons in 1961-62. The reduced carry-

over is the result of a 1964 feed grain crop estimated at 10 to 12 million tons below total disappearance.

Feed grain acreage, according to the economist, was down 5 percent from 1963 and 21 percent below the 1959-60 average, the base period for the Feed Grain Program. Fewer acres and lower yields in 1964 accounted for the 12 percent drop in total production.

Livestock feeding rates have been influenced by rising feed costs and declining prices for livestock and livestock products. Domestic use of feed grains is expected to drop slightly during the present marketing year. Exports, on the other hand are expected to equal or perhaps exceed last year's record of 18.7 million tons, says McHaney.

The economist believes prices will continue the general upward movement of the past three years. Prices received by farmers rose slightly in 1963-64 from the year before and were up about 10 percent above the post-war low of 1960-61.

The sorghum grain supply is about 8 percent below that of a year ago resulting from a smaller acreage harvested and lower per acre yields. Domestic use of sorghum grain is ex-

Chemicals And Machines Used To Cut Cotton Costs

The use of chemicals and machines for cutting production costs continued to gain favor with Texas cotton growers in 1964.

In a year-end report, Fred C. Elliott, Extension cotton specialist at Texas A&M, said that despite a drop in the state's harvested acreage of cotton in 1964, more acres were treated with chemicals for weed control and harvest preparation than ever before.

The greatest jump in chemical usage was registered by growers who used pre-emergence and post-emergence chemicals. They used pre-emergence chemicals on 407,084 acres in 1964 compared with 184,265 acres in 1963. The number of acres treated with DSMA (Disodium Methylarsenate) rose from 99,976 to 273,469 acres in 1964 over 1963.

Number of cotton acres on which growers used spot oiling and dalapon for Johnsongrass control remained stable, Elliott said that since cotton acreage was smaller in 1964 the percentage treated was higher than in 1963. Number of farms using defolliants or desiccants in 19-

64 increased by about 4,000. These chemicals, Elliott explained, are used to prepare cotton fields for harvesting operations.

Rotary-hoe equipped tractors continued to be popular as a mechanical means for weed and grass control. More than 51,000 were used in 173 different Texas counties during the past year. Number of spindle-type picking machines increased by about 500 and were used in 86 counties. Some 2,000 more stripper-type harvesters were in use in 1964 than in 1963. They were used in 191 counties compared with 168 counties in 1963.

Elliott's programs in cotton work are conducted as a part of the 7-Step Cotton Program, initiated by the Agricultural Extension Service in 1946. He said the program continues to play an important role in the agricultural economy of Texas and in keeping late information flowing to cotton farmers.

To make toasty baskets for breakfast eggs, first scoop out the centers of unsliced enriched hamburger buns. Brush the insides of the "baskets" with butter or margarine seasoned with herbs, if you like, then toast under broiler or in a hot oven. Fill toast baskets with creamy scrambled eggs. Save the scooped-out crumbs for breading meat or fish, or adding to meat loaves.

Seafood dishes, always delicious, are especially popular during Lent. Here's an idea you'll want to try: Prepare a basic biscuit dough based on 1½ cups sifted enriched flour. Divide the dough in half and roll each half to an 8-inch circle. Place one circle in an ungreased 8-inch pan. Spread with a favorite, simple tuna salad mixture. Place second circle of dough over tuna. Bake 20 to 25 minutes in preheated 450° oven. Cut into wedges and serve with cheese sauce.

pected to show little change for the 1964-65 year but exports are expected to continue near the level of the past two years, says the economist. Thus, he adds, the carryover into 1965-66 could be as much as 10 percent below the carryover of October 1, 1964.

The enrichment of flour and bakery products is an important "plus" in the diets of the members of your family. The B-vitamins thiamine, niacin and riboflavin and the mineral iron are added to flour and bakery products by the millers and bakers at no extra cost to you, making enriched bread and other flour products one of the most economical sources of these important nutrients.

ACCENT ON HEALTH

The winter killer - carbon monoxide - takes its toll of lives about this time each year in Texas.

You, too, may be flirting with carbon monoxide poisoning if you make a habit of any of these practices.

Do you drive around in your auto on cold winter days with all windows and vents tightly closed?

Do you sometimes warm up the car engine in your garage without first opening the garage door?

Do you neglect a checkup of exhaust and manifold on your car unless something starts rattling or falls off?

If your answer to any of these questions is "Yes," you are asking for trouble.

Carbon monoxide is an odorless, colorless, tasteless gas that comes from your auto exhaust. In the open air it usually is dissipated without harm to anyone. But in an enclosed space it can be deadly.

Each winter brings reports of deaths from carbon monoxide poisoning. The gas can seep up through the floor boards from a leaky exhaust. The victim becomes drowsy and then "falls

asleep." It takes only a short time for an engine running in a closed garage to fill the building with deadly gas.

No one knows how many auto accidents are caused by motorists whose reaction time is somewhat slowed by a small seepage of carbon monoxide into a closed auto. If your exhaust and manifold are in good shape and fitted tightly, you are more likely safe. But it's even safer to leave a rear window open a crack.

While the car is moving you probably can escape danger even with a leaky exhaust. The most dangerous time comes sitting in a parked car with the motor running and the windows closed. This is a frequent occurrence in cold weather when the auto heater is turned on. Always open a window when you're parked with the motor running.

Carbon monoxide poisoning is a serious health hazard. Remind yourself and your family to be on the alert against this danger.

(A weekly feature from the Texas State Department of Health, Division of Public Health Education.)

The fangs of the cobra are smaller than those of the rattlesnake but its venom is more toxic.

The big story behind the big new CASE 930 ROW CROP

Head the new Case 930 Row Crop Comfort King down the furrow... rock six big bottoms down deep... pour it on... and man, you know you've got something going for you!

Call it power. Call it lugging ability. Call it guts. Whatever the name, it all begins with a massive 6-cylinder tractor engine. Big bore, long stroke, moderate speed, huge 401 cubic inch displacement. Result: exceptionally high torque. Extra muscle to do bigger jobs faster and more profitably.

The 930 not only peaks higher than competitive tractors but maintains higher torque over a broader range of rpm's. Out in the field, Case high-torque

power means handling bigger implements, bigger hitches. Less time wasted down-shifting.

There's a lot more to the 930 story. Such as Dual-Range 8-speed transmission with 5 job-matched speeds in the heavy tillage range. Rear-mounted, 48-gallon fuel tank. Hydraulic steering. Draftomatic implement control and a whole line-up of wonderful comfort features that make you a more productive man.

You've read the big story behind the big Case 930 Row Crop. Next step? Stop at your Case dealer. Make him prove it! J. I. Case Co., Racine, Wisconsin.
