### FDR Hints Special Session

#### Crop Legislation Should Be Passed Soon, Declares

GRAND FORKS, N. D. Oct. 4. (AP)—In an address strongly hinting at a special session of congress, President Roosevelt asserted today that surplus crop control legislation ought to be passed at the earliest possible moment.

Mentioning the supreme court for the first time on his western trip, he disagreed with its majority ruling invalidating the AAA farm production control.

He said he felt certain congress will heed the wish of most farmers in enacting control legislation. He said because the legislation was not passed last session it is too late for it to "have any bearing on winter wheat which is now in the ground."

### Famous Editor, Ed. Howe, Dies In Kansas Home

ATCHISON, Kas., Oct. 4. (AP)—Edgar W. (Ed) Howe, 84, noted author, editor and philosopher, died in his sleep Sunday at 2:30 a. m. (CST) at his home here. Death was due to gradual paralysis and infirmities of age.

He suffered a slight stroke of paralysis last July 17 and since had been under a physician's care.

Prior to his illness he virtually had completed work on his book, "Final Conclusions," concerning which he said in June, 1935: "Give me two more years and I am going to write the greatest book in the world."

Known as the "sage of Potato Hill"—Potato Hill being his name for his home—Howe was noted for his philosophical writings. His pithy, pungent paragraphs were widely quoted.

Howe's death followed closely that of his former wife, Mrs. Clara L. Howe, 90, whose funeral was at Falls City, Neb., Sunday. Mrs. Howe died last Wednesday at Westport, Conn. The couple were divorced more than 35 years ago.

Referring to the divorce in his book, "Plain People," Howe said: "The world has decided a gentleman may not tell his side of a controversy with a lady, and as my former wife was just that, I shall observe the conventions. Perhaps I will be excused from saying our friends generally agree that our divorce was a success if such a thing is possible. There were no scandalous or separation resulted in no disturbance in the life of either party, except to improve it."

Howe's two sons were here en route to their mother's funeral. They are Eugene A. Howe, Amarillo, Texas editor, and James P. Howe of Walnut Creek, Calif. A daughter, Mrs. Mateo Howe Farnham of New York, was unable to be here because of illness.

### 2 Convicts Are Slain By Guards

#### Two Others Shot as Group Attempts to Escape Sunday

HUNTSVILLE, Oct. 4. (AP)—Two convicts were killed and two were wounded when 27 of the most vicious criminals in the vast Texas penitentiary system attempted Sunday to escape the Eastham Prison Farm.

A guard atop the inmates' quarters picked off three of them as the group dashed from the building and another guard slipped around the building and felled another.

The others rushed back into the structure and guards quelled them quickly.

The dead:

Austin Avers, who was serving a sentence for participating in the famous death house escape in 1934 of the late Raymond Hamilton, Joe Palmer and others.

Roy Thornton, husband of the late Bonnie Parker, notorious for her forays with Clyde Barrow, long the southwest's most hunted killer.

Wounded were:

Forrest Gibson, one-eyed slayer serving a 60-year term for killing a prison guard in a break from the retrieve prison farm last June. He was expected to die.

Clyde Thompson, young "thrill killer" from Eastland county, sentenced for slaying two brothers "just to see them kick." Thompson also killed another convict at the retrieve farm.

The 27 prisoners, segregated because they are considered incorrigible and the most dangerous of Texas 5,000-odd convicts, fashioned a "home-made" key in some manner and slipped out of their quarters in the south wing of the prisons, 40 miles from here.

### From Dust Bowl Desert to Bumper Crop

Barren of all vegetation, its fences buried in dust, this farm of A. C. Witt, near Stratford, Tex., was typical of the desolate dust bowl areas in 1936. Six crop failures in succession had rewarded the owner's labors, leaving him arid, sand-swept acres like these.

The same farm, the same field, the same house, just a year later, are shown in this picture. Farmer Witt terraced his land to conserve moisture and stop soil-blowing. His work produced this field of unbelievably verdant grain sorghum—and this fall he can plant wheat.

### Motion By Levitt Is Received

#### Decision Expected To Be Announced Early Next Week

WASHINGTON, Oct. 4. (AP)—The supreme court deferred action today on a motion by Albert Levitt designed to compel Justice Hugo Black to show cause why he should be permitted to sit on the tribunal.

Whether the court will grant or deny the motion probably will be announced next Monday. The court could take action at any time.

Levitt arose and said he had submitted the motion seeking permission to file a petition challenging the Black appointment. "You may submit the papers," Chief Justice Hughes said.

Black, whose appointment aroused controversy over whether he had been or was connected with the Ku Klux Klan, entered the room with other members just after noon. He did not take the oath, having been sworn in privately shortly after senate confirmation.

Levitt is challenging Black's eligibility to hold the post as he was a member of the senate when increased wages and pensions were voted for supreme court members.

Ralph Shuffler, at Odessa, waxes more fluent from week to week in his voluble attacks on the growth of our city. He aches because Editor Huntsucker of Goldsmith horned in on my and Ralph's family row. But I'm glad to see Huntsucker joining in. Ralph is getting too tough for me to handle. My old dictionary, which was in the deal when Editor Watson sold the Midland Reporter in 1924, just doesn't have all the words Ralph is using on me.

Our paper got a little tight at the last minute Saturday night and we had to leave out several stories. No doubt someone will not think well of us on this account, but we would have lost a lot of sleep before we got it turned into a ten page paper, starting that late. Anyway, it was better to have something to leave out than not have enough news and ads to fill up.

The AP story this morning about the Cats beating Little Rock Sunday didn't even mention the fact that Cotter Hiett et al were there.

The papers say President Roosevelt's next fireside chat will be Tuesday night. Personally, I want to hold that gas bill down to a dollar and a quarter as long as possible, so I may not fire up for it.

Col. Ed Howe, the Sage of Potato Hill, founder of the Atehison, Kas., Globe and one of the foremost journalists of all time, is dead. The father of Gene Howe, publisher of the Amarillo News and Globe, the noted philosopher was known throughout the United States for his homespun philosophy. He will be missed from the world of journalism.

The attempted prison break at Eastham Farm, in which guards slew two convicts, wounded one or two and had the rest of them glad to be back in their cells, was the kind of prison break we like to read about. Desperate prisoners get too much liberality. To my notion, a convict as desperate as Clyde Thompson of Eastland, who never turned a hair when being sentenced for his thrill slaying, should be in solitary confinement at Huntsville and not on a prison farm where

Behind the Scenes in Washington

WASHINGTON, Oct. 2. — The Republican National Committee is certain to call a national convention of the party for 1938.

G. O. P. leaders and workers throughout the country are insistent. They want "action." Only a few of the older hands, it appears, are worrying as to what the convention will be like and what will come out of it.

The party will have to agree on a statement of party principles and look over its presidential possibilities for 1940. The possibilities

range between that of a glorious rejuvenation and that of a head-ache before, during and after.

Two or three months ago, Herbert Hoover's private battle for this national convention appeared to have been squelched by ex-Gov. Alfred M. Landon's coldness toward the project.

But Hoover's influence with the national committee remains strong. The Roosevelt court plan was beaten down, the Black-Klan incident has popped up and party workers are raring to go—even though they're not sure where Ex-Governor Landon will now accede to the convention proposal.

POTENTIAL presidential candidates and others who don't think it would be an especially good idea are worrying lest Mr. Hoover leap back into party control. Word passed around by certain friends of the ex-President that he wouldn't accept a nomination in 1940 somehow has failed to receive widespread acceptance.

The anticipated convention's declaration of "fundamental Republican principles" was causing some worry when the party's national executive committee met here to pass the job of calling the big meeting along to the full committee. The G. O. P. is still the outstanding haven for reactionaries and conservatives, but it has a large and increasingly vocal number of important men who insist the party must be liberalized.

Fundamental issues cover relief, farm legislation, labor, the Constitution and some others. The idea now is to have a few outstanding Republicans—who would include Hoover, Landon, Frank Lowden, Senator Vandenberg of Michigan and Senate Minority Leader Charles McNary of Oregon—sit down as a planning committee to exchange sentiment and work out a rough draft of policy. Their real function would be to steer the convention and keep it from chaos.

All concerned are anxious that the convention not be a cut-and-dried affair, but seem equally anxious that it should run smoothly. Mr. Hoover wants a "positive program," but is said not to insist that the program be too specific—because 1940 is so far away.

Vandenberg in 1940? RECENT Republican conferences have produced as much informal nomination talk as you might expect. Vandenberg is by all odds the outstanding man in such discussions. There's some sentiment for Bridges of New Hampshire. Most Republicans who don't know young Lodge ask about him, although expressing the opinion that he will still be too young for a presidential nomination in 1940. Westerners look to McNary for leadership. Hoover has strength in the national committee machinery which is reflected to some degree among the rank and file.

John D. M. Hamilton appears to have solidified his position and influence as national chairman. This fact was partly indicated by resignation of once powerful National Committeeman Charles D. Hilles of New York for the party for many years, had found his old power steadily dwindling. He hadn't been raising much money for the party treasury lately and other Republican leaders felt he could if he tried. There was some pointed criticism and Hilles quit.

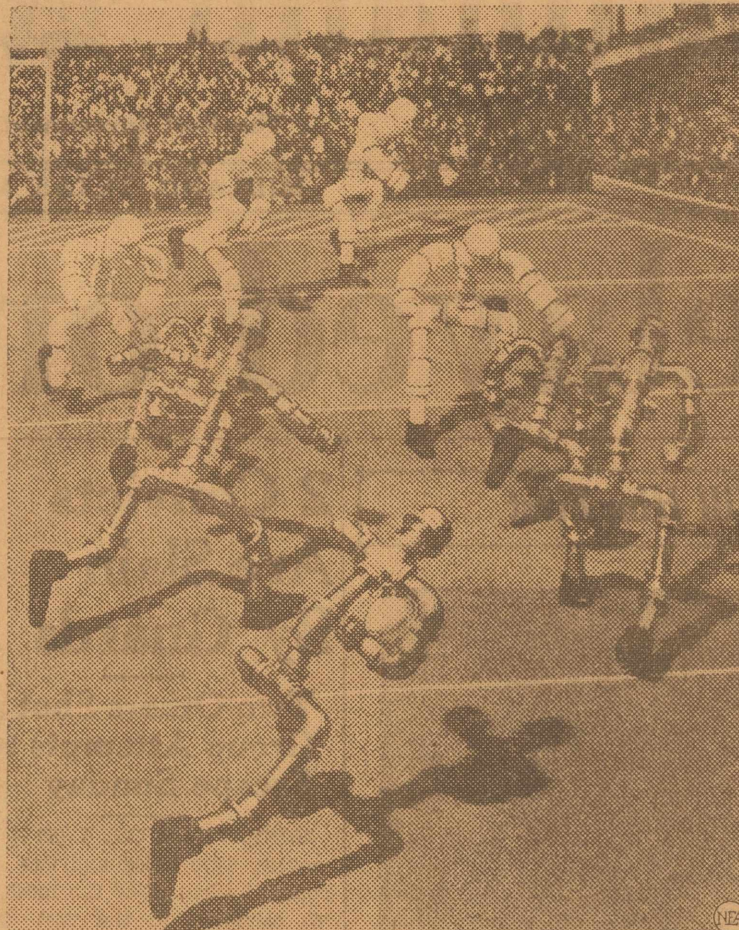

May-December Love Interests Psychologists

LONDON (UP)—British psychologists and others are taking benevolent interest in the many recent cases of elderly clergymen marrying young women.

The latest case was that of the Rev. G. S. Stubbs, vicar of West Chincock, Somerset, 60, who announced his engagement to Miss Betty Fewings, 16, one of his parishioners.

Previously, the Rev. E. Stewart Priston, 55, rector of Barton, near

Hobby Keeps Alive Art of Hand-Chasing

STONINGTON, Conn. (UP)—Driven from profitable work as a craftsman in hand-chasing by machine-driven dies more than 20 years ago, William Rittenhouse still pursues his ancient art as a hobby.

In the old days he embossed cane heads and umbrella handles, embellished lockets, bracelets and watches with elaborate ornamentations, but as a hobbyist, he has gone into the more advanced stages of the art, producing beautiful figures and portraits. Of the former, his studio displays a cavalryman on a rearing steed, a cowboy bucking a bronco, clipper ships, animals, marine objects and heads of animals. The portraits include former Presidents Washington, Lincoln and Hoover, Col. Charles A. Lindbergh, Robert Burns and Richard Wagner.

By days he is gatekeeper at the Atwood Machine Company. On clear days he prefers to walk to the company's plant. When it rains, he accepts rides from his friends. The latter invariably decline to accept pay for the lift. Rittenhouse, of a type who does not leave himself indebted to anyone, sends his motorist-friends pieces of hand-chasing on copper or silver. Many of his pieces take 75 hours of skillful labor to complete.

Midget Bears Of Australia Disappearing

SYDNEY (UP)—The Koala, or "native bear" of Australia, is again in the news.

This little tree-climbing marsupial, about 2 feet in length when full grown, is a great favorite with tourists and each capital city has its "bear farm" where the animals can be preserved and petted by visitors. They are approaching extinction in a wild state.

Noel Burnet, probably the greatest living authority on the Koala, declares that if nothing of a practical nature is done to preserve the tiny animal, it will become extinct in 10 years.

To save the animal from extinction, a Koala Club of Australia was formed recently. Laboratories will be established to conduct scientific research into the feeding and breeding habits of the Koala as well as the diseases to which it is subject. An official of the club said that whereas in 1927 there were millions of Koalas, there were now barely 10,000.

The Koala looks like a toy "teddy bear" and is confined to Eastern Australia. It lives in the eucalyptus trees, feeding on the leaves by night and sleeping in a fork of the tree by day. Its bear-like appearance is largely due to the fact that it has no tail.

Ipswich, married Miss Hilda Hall, 17-year-old chorus girl, and the Rev. Herbert T. Green, vicar of Meavy, Devon, 69, married Miss Olive Vanstone, 23.

"It is a normal thing for elderly people to surround themselves with younger companions," one Harley Street psychologist said. "It is due to an instinct to fight the approach of old age. This is particularly strong in clergymen, who may also need a young partner to give practical help in parish work."

"I would venture a bet that most of the clergymen concerned were widowers," another said. "An elderly man needs companionship, and naturally turns to somebody much younger than himself, who can comfort—if you like, nurse—him in his old age. Having lost one wife, there would be a subconscious instinct to take the only possible precaution against being left alone in the world a second time."

Asked why the clergymen chose very young women, rather than women in the forties, both authorities could only suggest that younger women would be more attractive.

Each year more than 20,000 oil wells are drilled. The annual cost of such drilling in the United States alone exceeds \$500,000,000.

## A Book A Day

As a boy, Louis Kornitzer sorted dirty seed pearls brought from the ghettos of Poland to his father's shop. Just a few years later, this lad had learned the wiles of trading in the great gem markets of the world.

Engaged today in diamond trading in London, he is recognized as one of the most prominent jewel dealers of modern times.

So Louis Kornitzer has spent his entire life in the pursuit of beauty and adventure and he appears to have left none of his absorbing story out in his splendid autobiography, "The Pearl Trader" (Sheridan House, \$3.50). Here is a book proving autobiographies of business men need not invariably be dull.

With the "world as his oyster," Kornitzer has sought gems in isolated Broome, Australia; from there to Sulu and Zamboanga; in Hong Kong, the Far East in general, and in many other places. Scores of good stories and anecdotes roll out of these adventures.

"The Pearl Trader," is in fact three books in one. The first details the author's adventures as a pearl and pearl shell buyer in the Far Eastern Islands of Australia. The second treats of the amusing and shrewd intricacies of the pearl and gem markets of the world's greatest cities: Paris, London, New York.

And finally, you read of pearl lore itself, much of it hitherto un-

A QUESTION PEOPLE OFTEN ASK:  
**Is Camel justified in Spending Extra Millions for Costlier Tobaccos?**

THE ANSWER IS THIS  
**CAMELS ARE THE LARGEST-SELLING CIGARETTE IN AMERICA**

**WHY THE NEW National Open Golf Champion, Ralph Guldahl (right), prefers Camels.** In his own words: "Camels are different from other cigarettes. You see, playing against an all-star field, my nerves run the gauntlet. Camels don't jangle my nerves."

**GIRL RODEO CHAMPION.** Rose Davis (left) says: "Camels always appeal to me, but I think that the Camels at mealtimes are the most enjoyable of all. They help keep my digestion working smoothly in spite of the jolting I take from bucking broncos."

**SPEAKING OF DIGESTION and smoking,** Dorothy Malone, food editor (right), says: "Many comments from my women readers show that they find smoking Camels a pleasant way to encourage good digestion. I myself smoke Camels."

**"I'VE BEEN A FIRE FIGHTER** for 11 years," says Frank Gilliar (left). "Smoke? You bet I do. And I'm particular about my brand. It's Camels. There's the cigarette, if you want mildness! They're the last word in flavor."

**"FIND THE RIGHT CIGARETTE** and stick to it, is my motto," says "Duke" Krantz, veteran airplane pilot (right). "I was thoroughly sold on Camels right from the first pack I smoked 15 years ago."

It is homespun fact that nothing man does to tobacco can take the place of what Nature does. Camels are made of finer tobaccos into which Nature put extra goodness.

THERE'S only one way to get the best tobaccos. That's to pay more for them. It has been a well-known fact for years that Camel pays millions more, year in and year out, for finer tobaccos. It's the natural way to put more enjoyment into smoking.

People have confidence in the mildness and goodness of the finer tobaccos in Camels. More and more smokers turn to Camels. They find that Camels are naturally milder and that the full, natural flavor of the costlier tobaccos is brought to perfection in the Camel blend. If you are not smoking Camels, try them now. And see if you, too, don't find that Camels mean unflinching pleasure!

"CAMELS go on my shopping list regularly," says Mrs. Richard Hemingway, New York matron. "I never want to be without Camels. When I feel tired, I smoke a Camel and get the grandest 'lift.'"

"I'VE GOT to have a cigarette that's mild," says Uva Kimmey, girl parachute jumper. "So I'm a Camel smoker. I find Camels so mild I can smoke as much as I wish without jangled nerves."

### FORT WORTH GOES ONE UP BY TAKING THIRD GAME OF SERIES SUNDAY, 3-0

By FELIX R. McKNIGHT.  
FOR WORTH, Oct. 4. (AP)—Randy Ed (Bear Tracks) Greer permitted only one Little Rock Traveler to wander past second base in a masterful 3-0 win Sunday that put the Fort Worth Panthers in the Dixie Series lead, two games to one.

Only six Little Rocks hits fell safely and two of those came in the last frame for the only genuine scoring chance the Travelers offered. It was throttled on a fast relay from the outfield that trapped Freddie Taub between third and home.

Peel Hobbles Through.  
Deliberate Kola Sharpe, Little Rock's starting twirler, was nicked in the clutches by a Panther team bent on bring back the Dixie Series

glory that once was a summer formality around this town.

Manager Homer Peel, hobbling around with an injury, figured in two of the Cat's three failures. He reached first safely on Bunny Griffiths' bobble at shortstop to start the second frame and bounded home on Jim McLeod's sharp two-baser into left-center field.

The Cats brought in their second run in the third inning when Hugh Shelley singled, went along another base on McDowell's sacrifice and came across on Stebbins' blazing single into left.

McDowell's single started the sixth inning. Tabor raced in from third base and made a magnificent running catch of Stebbins' attempted bunt but then threw wild over first sacker O'Neill's head and McDowell scampered to third. Peel slashed a one base into left that scored McDowell. Moore followed with another single but Sharpe came out of the hole on Mallon's liner to Graham and McLeod's forceout.

To Pitch Small Today.  
Manager Peel indicated Clyde Small, lefthander, would twirl for Fort Worth tonight while Byron Humphreys, ace Little Rock thrower, will attempt to even the series.

### A Three Days' Cough Is Your Danger Signal

Just a common cough, a chest cold, or a bronchial irritation of today may lead to serious trouble tomorrow. They may be relieved now with Creomulsion, an emulsified Creosote that is pleasant to take. Creomulsion is a medicinal combination designed to aid nature in soothing and healing infected mucous membranes by allaying irritation and inflammation and by aiding in loosening and expelling the germ-laden phlegm. The Medical Profession has for many years recognized the beneficial effect of Beechwood Creosote in the treatment of coughs, chest colds, and bronchial irritations. A special process was worked out by a chemist, for blending Creosote with other ingredients and now in Creomulsion you get a real dose of genuine Beechwood Creosote which is palatable and can even be taken frequently and continuously by both adults and children. Creomulsion is one preparation that goes to the very seat of the trouble to help loosen and expel the germ-laden phlegm. When coughs, chest colds and bronchial troubles—due to common colds—hurry on, get a bottle of Creomulsion from your druggist, use it as directed and if you are not satisfied with the relief obtained, the druggist is authorized to refund every cent of your money. Creomulsion is one word—not two, and it has no hyphen in it. Ask for it plainly, see that the name on the bottle is Creomulsion, and you'll get the genuine product and the relief that you want. (Adv.)

### The Payoff

Mr. Kellam said that the NYA College and Graduate program was almost completely organized for the year. He estimated that about 60 per cent of the secondary schools desiring and eligible to participate in the program had applied and had been approved. He stated that action was being taken upon all applications for participation on the day they are received in the State Office at Austin.

OLYMPIA, Wash. (AP)—Although Grand Coulee dam will be the biggest pile of cement in the world, Washington has only six cement factories within its boundaries. #### 10,000 Texas Boys And Girls Aided By NYA Positions

AUSTIN, Oct. 4.—Because they have been assigned to useful and practical part-time work under the NYA Student Aid program, about 10,000 Texas boys and girls who otherwise would not be able to attend school this year are now registered for classes. C. Kellam, Texas Youth Director, estimated this week. Eighty-four Texas colleges and universities have been approved for participation in the Student Aid program and have been assigned quotas which will provide 4,096 part-time jobs at an average wage of \$15 a month. On October 1, 1,282 Texas secondary schools had been approved and had been assigned quotas providing 4,238 part-time jobs at a maximum wage of \$6 a month. Since, in past years, some schools, particularly junior colleges and high schools, have limited the earnings of students to less than the maximum monthly wage, thereby making more jobs available. Mr. Kellam estimated that a number of students considerably larger than the number of jobs provided had already been given part-time work. The work must be practical and desirable, and is to be performed
