Though Dean of Columnists— McIntyre Died a 'Small Town' Man

By GEORGE ROSS.
NEW YORK, Feb. 17.—New York has lost the dean of its day-by-day historians in the death of that eloquent boulevardier from the Ohio River town of Gallipolis—O. O. McIntyre.

Those of us who prowled the Big Town in search of metropolitan copy saw little of O. O. McIntyre in recent years. He was a recluse and invalid and he clung closely to his luxurious apartment. But his true nature from the restaurants, the night clubs, the theatres and the other vortices of the Manhattan whirlwind made him despondent. And so he was wont to climb into his automobile every day as dusk fell and ruminate about the town on wheels, observing scenes and people in all corners of the city, for his daily essay.

He wrote about New York as his millions of faithful readers wanted him to write about it. He gave them a colored cross-section of the most exciting city in the world. And though his critics may have carped about his "over-glamorization of Manhattan, his pieces ever were teeming with incident, personal and public, with gossip, news and reminiscence and information.

Though the suspicion might have run that he made columnar capital of his small town origin, those who knew him intimately say he was always sincere in his devotion to the folks of Gallipolis or any other "hometown" or "pocket size." His friends recall that he rarely skipped through a conversation without a nostalgic reference to his birthplace.

O. O. MCINTYRE.

New York to Non-New Yorker.

OUTSIDE of the metropolis, McIntyre was synonymous with New York, and in his personalization of its masses of stone and steel lay one of the secrets of his success. Then, too, he had the flair of evaluating the city in terms of Gallipolis, and every other small town. And his day by day readers could feel that with McIntyre, they were strolling down Broadway, seeing celebrities flash by, or were eating at restaurants with the great or near great, or were eyewitnesses to the breathless incidents that weave the tapestry of a day in the greatest city in the world.

For this magic touch, one could forgive McIntyre's taste in his 60 multi-colored dressing gowns, his 30 pairs of day pajamas, his 92 different perfumes and his flights of fancy.

Sometimes his column was a casual recital of a casual diary and McIntyre would wonder to his syndicate editors why anyone cared to read him. His own boss, Charles B. Driscoll, said once that McIntyre never was convinced that he was a great man. And added: "He never believed he could write, and he never could see why other people read his stuff."

But it was one of his most disarming traits—a complete unawareness of his own eminence in the world of journalism. Or if he knew

it—and presumably he must have—he managed to exclude it from any effect on his life.

Friend.

MCINTYRE retained to the end—despite a decade of metropolitan newspapering—the unusual shyness that still marked him when he came to New York from Ohio. They like to recall how he used to shrink from meeting new people and literally forced himself to converse with new acquaintances, although all his instincts told him that such shyness was contrary to what he represented. It was an obsession he never could overcome.

A friend of his who is standing nearby as I write this, looks up from the announcement of O. O. McIntyre's death and says:

"I know now why O. O. was so kind to me when I first started to work in Manhattan. He knew how it felt to come to New York cold. And he knew the loneliness that can break a small town boy around here."

Record Westex Oiler North Of Andrews Completed In Yoakum

BY FRANK GARDNER.

Largest West Texas oil well north of Andrews county has been completed by Texas Pacific Coal & Oil Company in the Bennett pool of southeastern Yoakum. It is the No. 4 Ruth E. Bennett, which flowed 540 barrels of oil the second six hours of a 12-hour gauge to attain hypothetical 24-hour rating of 2-156 barrels. The well made 859 barrels the first six hours. Gas at the end of the test was gauged at 1-250,000 cubic feet daily.

No. 4 Bennett, located 1,320 feet from the north, 440 feet from the west line of section 678, block D, J. H. Gibson survey, was shot with 720 quarts of 5,080 to 5,275, the total depth. It flowed 178.75 barrels the first hour after shot. The well off-sets to the north T. P. No. 3 Bennett, former record holder of the area, which had daily potential of 1,744 barrels.

T. P. has staked location for two more wells in the Bennett pool. Its No. 7 Bennett is 440 feet from the north and east lines of section 696, block D, and is a short south outcrop to the west line of production. The No. 6 Bennett, staked 440 feet from the north, 1,320 from the west line of section 678, is an east offset to the No. 2 producer.

Honolulu Oil Corp. Ltd. has also staked another Bennett location, its No. 4-677, 440 feet from the south and east lines of section 677. It off-sets the new T. P. No. 7 location to the north.

In the pool, Mid-Continent No. 1 Bennett is running steel line measurement at 5,240 and will be shot tomorrow. It was drilled in with rotary, circulating oil. The company's No. 3 Bennett is drilling anhydrite at 3,634 feet.

Richardson Slaughter Extension.

tanks. It was allowed to flow into pits for an hour previous while cleaning itself. Operators report 7 feet of cavings still on bottom and are now cleaning out, with flow going into pits. The well is conservatively estimated good for 800 barrels a day, if tubed. Location is in the southwest corner of labour 59, league 39, Maverick county school land. It is bottomed at 5,994 feet, in lime, and was shot with 380 quarts of nitro.

Gulf No. 1 Mallett, two-mile southwest outcrop to the Slaughter pool, is drilling at 4,606 in lime, while the company's No. 1 Gordon, a mile southeast of production, had reached 4,421 in lime.

It is rumored that a major company has staked location for a test in extreme southeastern Cochran, practically on the Yoakum county line. Location will be in section 7, block G, public school land, it is Southeast Gaines.

Delaware Lime Topped.

Delaware black lime was topped at 4,220 and the sand at 4,263 by C. R. "Smilo" Mallison and Sid W. Richardson. No. 1 H. L. Brown-Stein, Reeves test seven miles northwest of the town of Pecos. It is now drilling in sand at 4,267, with no shows logged.

Jack C. Hill and Barnett Petroleum No. 1 Ely, west of Toyah in Reeves, had drilled to 3,992 feet in Delaware sand, with no shows encountered. It topped black lime at 3,814 and sand at 3,877.

Humble No. 1 Lewis & Wardlaw, deep test in western Tom Green, is drilling in black shale at 6,034 feet. In northern Pecos, Magnolia No. 1-A McKee is reported to have landed 7-inch pipe at 5,330 feet and is nipping up preparatory to drilling ahead with standard tools.

Plymouth, Carter and Conoco No. 1 H. Giescke, southeast Gaines test, is drilling at 5,748 feet in chert and See (Oil News) Page 4

Sex-Slayer Of Child is Executed

Soldiers Seize Man From Officers and Slay Him Today

TIA JUANA, Mexico, Feb. 17 (AP).—A detachment of soldiers were reported today to have marched upon the Tia Juana jail, seized a former comrade, Castillo Morales, accused sex slayer of Olga Comancho, eight, carried him to a cemetery and executed him.

The announcement of Morales' death carried the traditional Mexican explanation that he had been "shot while attempting to escape."

A mob composed of Mexican citizens marched upon the jail three days ago in a vain attempt to take the prisoner from officers. The mob dispersed only after soldiers had fired into it, wounding four persons.

The girl was waylaid on the way home from a meat market. She was attacked, beaten and her throat slashed. The body was found in a garage near the army barracks. A soldier was arrested after the package of meat the girl was carrying home was found in the barracks. Police said the soldier confessed the crime.

McClintic Named Head of Housing Committee Here

Appointment of C. A. McClintic as Midland chairman of a better housing committee was announced today by Stewart McDonald, federal housing administrator, in a telegram to the local real-estate and real-estate dealer. McClintic wired his acceptance to the administrator.

"Passage of the new national housing act opens the way for a real residential construction program which should carry with it a genuine business revival," said Mr. McDonald. "The president asks that we again request your participation in the committee of which John P. Butler is chairman, and with other organizations seeking to promote more residences for Midland's growing population."

McClintic said today he would be glad to cooperate in every way possible with the chamber of commerce in the formation of a better housing committee, which John P. Butler is chairman, and with other organizations seeking to promote more residences for Midland's growing population.

Crop Control Bill Gets Signature of President Finally

WASHINGTON, Feb. 17 (AP).—President Roosevelt signed the farm surplus control bill Wednesday. In a formal statement issued at the time of signing, Mr. Roosevelt declared the measure represented the "winning of one more battle for an underlying farm policy that will endure."

The President said the act, which he described as "historic," would be put into operation as quickly as possible and "in the meantime I ask that all those who are doing or will do spring planting govern their operations in the light of this new law."

"While the new act makes many important changes in the existing plan for the benefit of agriculture," he said, "it is to be noted that, with one exception—the provision for 'parity' payments—the improved plan for agricultural adjustment does not entail any greater annual cost than the sum authorized under the present one, which is known as the Soil Conservation and Domestic Allotment Act."

"Parity payments would increase the present authorized cost, and in order to make such payments it would be necessary to provide additional revenue needed to finance them."

The legislation, which was three months in the making, establishes a system under which the secretary of agriculture, in cooperation with farmers, may prescribe limitation upon the quantity of wheat, corn, cotton, tobacco and rice that may be marketed free of penalty when price-depressing surpluses accumulate.

It retains the present soil conservation program under which farmers are paid cash benefits for diverting land from soil-depleting crops and for observing soil-building practices. The program authorizes appropriation of \$500,000,000 annually for such payments.

Goodwill Flight Crosses Panama

MIAMI, Feb. 17 (AP).—Six United States army bombers on a non-stop goodwill flight from Miami to Peru crossed the Panama Canal Zone this morning.

Boy Rescues Girl in California Flood

Amidst high wind and high water, chivalry was much in evidence as rains, blizzards and gales ravaged California. The picture above, taken in one of the main streets of Watsonville, shows a gallant assisting a young damsel from her stalled car into his rescue boat. The Pajaro river had flooded the town after a bordering levee broke. Three weeks of rain put most of the streams in the state, well over floor stage. Thousands of acres of fertile valley land were under water and property damage was enormous.

Relief Bill Passed By House, Sent to Senate for Debate

WASHINGTON, Feb. 17 (AP).—The house approved and sent to the senate last night a \$25,000,000 emergency relief appropriation for the next four months.

Approval of the allocation came only six days after President Roosevelt said it was needed to meet increased unemployment growing out of the business recession.

The house easily defeated an attempt by Representative Voorhis (D-Cal.) to increase the appropriation to \$400,000,000 and a proposal by Representative Dies (D-Tex.) that any of the money allocated to construction be transferred to the public works administration. Dies' amendment was sponsored by the American Federation of Labor.

The house declined to earmark the fund. It accepted, however, an amendment by Representative Lanham (D-Tex.) to deny any portion of it to aliens who have not signified an intention to become citizens or who legally can not become citizens.

Representative Bacon (R-NY) tried unsuccessfully to write into the bill a stipulation that none of the money could be used for political purposes.

The house also defeated attempts by Representative Wood (D-Mo) to forbid use of the money for construction of buildings costing more than \$25,000 and by Representative Beiter (D-NY) to prohibit purchase of heavy construction equipment.

Five Trainmen Are Killed in 2 Wrecks In Arkansas. N. M.

TRINIDAD, Colo., Feb. 17 (AP).—Four trainmen were killed and seven other persons, including five passengers, were injured when a Colorado and Southern freight train and a passenger train collided near Folsom, New Mexico, about midnight.

The dead, all from Trinidad, are: Guis Diemer, passenger engineer; R. E. Selders, passenger fireman; C. E. Hampton, freight engineer; C. H. Cook, freight brakeman. Officials are investigating the cause of the wreck.

TRAINMEN KILLED IN ARKANSAS.

ROE, Ark., Feb. 17 (AP).—The Cotton Belt "Lone Star," northbound passenger, ripped into the rear of a freight train here today, killing Trainman L. O. Parker, Pine Bluff, and injuring two other trainmen.

The freight was pulling on to a siding at the time of the accident.

Low Fire Record Discount Continued

Midland's good fire record credit of ten per cent on the city's key rate was renewed by the state fire insurance commission today, an Associated Press dispatch from Austin advised. The credit is based on the ratio of fire losses to the amount of premiums paid, affecting city property only.

Men Past 40 Urged to Watch for Early Symptoms of the Degenerative Diseases

More than 65 men heard Dr. Fred Hudson of Stamford, counselor for second district of the state medical association in session here, address the Rotary club on the subject, "The Man Past 40." Dr. Hudson traced the development of medical science from the days of the witch doctor up to the present, when the medical man now has a vast array of instruments, remedies and procedure.

Diseases are fast being conquered, he pointed out, with the present day use of knowledge of serums, preventive medicines, sanitation, isolation, vaccination and cures. Epidemics have been reduced and the medical man is largely responsible for the development of mankind, he said.

He discussed the strides made in curing tuberculosis but said Texas still is behind in that it does not provide for taking care of advanced cases, but merely the incipient cases. He praised the work done in education and early treatment to reduce the spread of tuberculosis, however.

Dr. Hudson discussed the present day campaign to reduce the disease of syphilis, declaring that ten per cent of the people are affected by it. Through education and early treatment it can be cured, he declared.

Leading up to the specific subject, Dr. Hudson said men are neglecting, largely on account of his failure to detect symptoms of maladies which come with advancing years. He pointed out that men of 50 have just reached the age when they should enjoy the fruits of their labors, when they should be enjoying their families and friends and should be rendering service to their country. He said the trouble is that when many men reach that age they are halted by degenerative diseases, robbing them of the privileges of ripened years.

Heart disease, kidney troubles, hardening of the arteries and diabetes are common ailments attacking men of that age, he said. None of them descend suddenly without warning, but creep up on the victim gradually. Known symptoms accompany such diseases.

He exhorted men to have regular physical examinations, as a doctor can readily detect such symptoms and can offer measures to prevent development of the diseases. Timely consultation of the family doctor will

lengthen the life and usefulness of any man, he declared.

Other doctors who attended the Rotary luncheon were Drs. Woodward of Sherman, Passmore of San Antonio and Smith of Austin, who are lecturing in the two days of refresher courses for physicians of the district; Drs. L. W. Leggett, Jno. B. Thomas and W. G. Whitehouse of Midland. Other visitors included M. F. King of Stanton, B. H. Spaw, Leonard Proctor, Fincher Withers and W. W. Lackey of Midland; Tom Speed of San Angelo, Hamlin of St. Louis; Rotarians J. W. Bateman of Abilene, Walker Priddy of Tyler and Floyd Boles of Littlefield.

Fred Gordon Middleton, high school student and son of the Rotary club president, gave two vocal solo numbers, with Frank Nixon, high school youth, playing the piano accompaniment. Mrs. De Lo Douglas, high school music instructor, also attended.

The Rotary club voted to sponsor, if agreeable to the Boy Scout organization, a recreational program for boys other than scouts, to be under immediate direction of Harold Kendrick, with equipment to be installed in the scout building at the old north ward school.

Fincher Withers, head of the 1938 baseball club here, announced his plans, saying that last year's "black eye" would be overcome through support of a club this season. He said he had again contacted the St. Louis Cardinals to furnish players for the class D team, that the city had agreed to light the municipal park for night baseball and that a good season was expected.

He said he was not asking for a cash bonus but asked that 2,500 tickets be purchased in advance for the opening day, the tickets to be good for any of the first three home games. He pointed out the heavy expense to be incurred during the season and called on the public to support the opening games, believing that subsequent games would be well attended as result.

Withers gave three principal advantages of baseball to the town, the publicity, the recreational advantage and the friendly rivalry between neighboring towns. The new manager has had five championship clubs out of eight he has coached. Last year he successfully guided the Hobbs club through the season after the first management had "folded up."

Presbyterians See Travel Movies

Despite disagreeable weather, 65 persons were present for the Sunday school party held at the Presbyterian church Wednesday evening.

Mrs. C. O. Fredregill was in charge of games.

A moving picture, "Wheels Across Africa," was shown, displaying natural scenery and animals on a trek of thousands of miles across the Dark Continent.

IN SEMINOLE.

Judge Chas. L. Klapproth is in Seminole today on exchange of benches with Judge Read of Lamesa.

Reserve Officers Meet in Odessa

Reserve officers of Midland and Odessa met together in the La Fonda club last night in the scheduled bi-monthly meeting. Two Midland officers, Col. John Perkins and W. T. Schneider, attended the meeting, Perkins serving as master of ceremonies.

After a dinner, an informal business session was held before adjournment. Dr. James McKissick, Jr., Odessa, is president of the organization.

The next meeting will be held in Midland, March 2.

HERE FROM LOVINGTON.

Mr. and Mrs. Dick Lee are here today from Lovington, transacting business and visiting relatives.

24 Persons Hurt, Many Seriously

MERTZON, Feb. 17 (AP).—Twenty-four persons were injured, nine requiring hospital treatment, when a tornado swept the business sections and part of the residential area of this Irion county town at 3:25 o'clock this morning.

Six buildings on the north side of Main street were demolished when the twister swept in from the southwest. The Mertzon Wool-Mohair company's warehouse was destroyed and several houses in the south part of town were wrecked.

The new courthouse withstood the blow without suffering damage. Debris blocked the highway to West Texas as oil fields.

Power and communications lines were impaired in all directions. The nightwatchman made his way to Tankersley to summon aid from San Angelo.

Among the injured were Mr. and Mrs. Sweet Davis, James Childress, Jewell Duncan.

Damage was estimated at \$50,000. Mrs. Davis, 36, was in a critical condition in a San Angelo hospital. At least 15 persons were cut and bruised when the twister, followed

by a downpour of rain, demolished five buildings and damaged a dozen others.

Scores of volunteer rescue workers joined state and county officials in checking through the debris at daylight, but they found no additional victims.

Many of the slightly injured received first aid treatment here. Others injured included a Mrs. Martinez and her two children, whose names were not learned, and Mrs. Dave Duncan, Jim Long, whose home was about a mile from Mertzon.

Major W. M. Carter of the Salvation Army said 50 persons were in need of clothing. They lived in houses in the Mexican section which suffered great damage. He set up relief headquarters in a downtown building.

The postoffice building, a substantial structure, was moved several inches from its foundation and cracked from top to bottom. The roof of the depot was riddled as if by shellfire.

Witnesses said the approach of the storm was heralded by a sound not unlike that of many exploding firecrackers.

Wright Declared Insane at Time He Slew Wife, Friend

LOS ANGELES, Feb. 17 (AP).—A jury yesterday found that Earl Wright was insane when he shot and killed his wife and his friend last Nov. 9.

The jury was the same that found Wright guilty of two counts of manslaughter last week, after deliberating only three hours. It took the jury nearly three days to reach the present verdict of his plea of innocent by reason of insanity.

The former airport president killed Mrs. Wright and John Kimmel when, he said, he saw them in an abnormal embrace on a piano bench in the living room of the Wright home.

His defense was that he became temporarily unconscious at the sight and that he did not remember getting his gun and shooting. As a result of his conviction, the second trial, dramatically short by comparison with the first, was necessary.

Judge Ingall W. Bull said, after the jury announced its verdict, that Wright would become "a ward of the court."

Under routine legal procedure, Wright's case will be referred to a psychopathic court for a hearing. If, at that hearing, it is determined that he is sane, he will be given his freedom.

When Wright heard the verdict he collapsed and had to be cartied from the courtroom.

His defense was that he became temporarily unconscious at the sight and that he did not remember getting his gun and shooting. As a result of his conviction, the second trial, dramatically short by comparison with the first, was necessary.

The Town Quack

dumber about detecting the presence of a wolf in card player's clothing.

Imagine what a ruckus would be started in Texas if the schools and colleges should take up the subject of teaching bridge playing. The war we had on legalized horse racing would appear like an ant fight compared to what would come up on the bridge issue.

I heard yesterday that some ranchman had reported that mesquites are putting on buds, also that a large rattlesnake had been killed. Either of those signs, in ordinary years, would indicate that spring had come. But I can't find a ranchman who has seen mesquite bushes putting out or who has seen a rattlesnake. And I can't feel like winter is over early in February. You know our last cold weather was somewhere around ten days ago.

I got this in the mail from our friend and contributor Hired-Tired-Fired, and it just about expresses the recent uncertainty of the weather:

We are reminded of some childish chatter by the discussion of the ground hog's ability to foretell weather. We are told that his name is sometimes given as "Woodchuck." The question is how much wood would a woodchuck chuck if a woodchuck would chuck wood?

And, of course, the answer is he would chuck much wood as a woodchuck would if a woodchuck would chuck wood.
—Hired T. Fired.

Scabies Infection Not Found in County

Inspection of 43 herds and a total of 11,479 sheep and cattle was completed in the Midland district during the month of January without any trace of scabies infection being discovered, it was reported by the Livestock Sanitary Commission today.

The work was conducted under the supervision of Sam Preston, supervisor, and work in Midland county was done by Preston and one man hired by the county.

The commission will continue the work in this district in an effort to protect the livestock from imported infection, and affording the necessary scabies certificates demanded by other states on livestock moving from Texas.

THE STATE OF TEXAS
County of Midland

TO The unknown owner or owners of lot 9, block 10, High School Addition to the town of Midland, Texas, and all other proper persons, including all record lien holders, owning or claiming, or both, any interest in the land or lots hereinafter described, same being delinquent for taxes to the State of Texas and County of Midland, Texas, said property lying and being situated in the County of Midland and State of Texas, to-wit: All of Lot No. 9, Block No. 10, High School Addition to the Town of Midland, and more fully described in Plaintiff's Petition on file in this office.

AND YOU ARE HEREBY COMMANDED to be and appear before the Honorable 70th Judicial District Court of Midland County, Texas, at the next regular term thereof, to be held at the Courthouse of said County, in the city of Midland, Texas, on the 3rd Monday in February A. D. 1938, the same being the 21st day of February A. D. 1938, to plead and answer plaintiff's petition, together with pleas of intervention and claims of impleaded parties defendant, if any, filed in said Court in a certain suit No. 3048, in which said suit the State of Texas, is Plaintiff, and The Unknown owner or owners of Lot 9, Block 10, High School Addition to the Town of Midland, Midland County, Texas, the City of Midland, the County of Midland, Texas, the Midland Independent School District of Midland, Texas, and T. E. Logan, Trustee, are Defendants. Each party to such suit shall take notice of and plead and answer to all claims and pleadings now on file or hereafter to be filed in said cause by all other parties therein, and all other proper persons, including all record lien holders owning or claiming, or both, any interest in the hereinbefore described property, then and there to show cause why judgment should not be rendered against you, and said land and lots sold under foreclosure of lien to satisfy the following taxes being delinquent, to-wit: The State of Texas and the County of Midland, Texas, aggregating Twenty Seven and 13/100 Dollars, together with all interest, penalties and costs allowed by law.

Given under my hand and seal of said Court and issued, at office in Midland, Texas, in the County of Midland, this 2nd day of February A. D. 1938.

NETTIE C. ROMER,
(SEAL) Clerk, District Court,
Midland County, Texas,
Feb. 3-10-17.

is a virtual certainty that he could not go through the year here without lights.

That seems to be the opinion of every one questioned. And results in the league last year would seem to indicate proof of the statement. Midland and Odessa, despite having the best two clubs in the league, were forced to fold up but the four towns that invested in lights managed to last it through the year.

Before going further, a compliment might be paid Withers for taking another long step in the right direction—he has secured a group of local men to serve as an advisory board during the season. The board is to be composed of three men, Dr. J. B. Thomas, Cotter Hiett and J. P. Butler, all reputable business men. Their opinions will be asked and given considerable thought by Withers during the season. He is not necessarily forced to abide by their opinions but it will be seldom that he will go against their ideas, realizing as he does that they will probably be expressing public sentiment.

For instance: If someone makes the claim that Withers is thinking only of himself and not the public, the books and actions of Withers will be open for inspection by the advisory board. The astuteness of the move should be well realized by the end of the year.

Contracts continue to come in. Right now no less than a score of players are signed up and more contracts are due to arrive. Only 15 men may be carried after the first ten days of the season but Withers is not going to be able to tell just what 15 men will make up the roster until he gets to look at a lot of boys. He has virtually the same club under contract as finished up the season with Hobbs last year; but when it is remembered that the Hobbs club finished in the cellar it can be seen that considerable strength will be needed. That was one of the main reasons for the tie-up with Saint Louis. If Withers sees early in the season that he does not have what it takes to be at or near the top, he can get far quicker results by notifying the major league club that he could be starting out to look for players himself.

Here's one that almost flooded Withers:

A couple of days ago he received the signed contract of a player who said he might be a little late reporting because of a government job he has. A look at the dateline

on the letter showed it was written in Leavenworth, Kansas. Putting Leavenworth and government usually spells only one word, and that is what Withers thought. But further down in the letter the boy made it plain his job with the government was not making little rocks out of big ones.

Withers has on hand 2500 opening day tickets he hopes to get rid of. He knows that many people cannot be accommodated at the park on one day so the tickets will be good for any one of the first three home games. And one of the three will be on Sunday, so he stands a darn good chance to get out from under the load.

He is going to have to have a lot of cooperation to get rid of that many tickets, but we will go into that later.

Bach Numbers, Study Feature Robyn Club Program

An impromptu program of Bach music, including preludes and minuets, was a feature of the meeting of the Robyn club of the Watson school of music at the studio, 210 W. Ohio, Wednesday afternoon.

The Bach numbers were presented by Marjorie Barron, Eileen Eiland, Elaine Hedrick, Eloise Gabbert, Alberta Smith, and Dorothy Rose Otho

in connection with the biographical study of the composer. In the study the interesting fact was brought out that, though Bach died 250 years ago, his home remains as it was during his lifetime.

Other program numbers included: Piano—"On Roller Skates" (Williams)—Martha Ann Cleveland. Violin—"Robin's Message" (Smith)—Edith Rae Collings. Piano—"Sonatina in F" (Beethoven)—Jean Walsh. Piano—"The Reapers Song" (Schumann)—Ann Ulmer.

Thirty children received gold stars for being promptly present, with Elaine Hedrick and Margaret Mims presiding at the attendance card.

In the absence of the president and secretary, Alberta Smith, vice president, presided and Dorothy Rose Otho was secretary pro tem.

New students present were Doris DeArman who is studying piano-accordion and Jane Smith and Norene Barber who are studying piano.

Birthdays greetings were extended to Virginia Counts.

Visitors were: Patsy Collings, Monty Jo Glass, Frances Hill, and Bill Smith.

The club was dismissed with repetition of the club motto.

Formal Opening of Drug Store Saturday

A. E. Cameron, owner, is announcing the formal opening this Saturday of the Central pharmacy, Midland's newest drug store. Favorite

Mrs. Johnston Reviews Reporter's Book for Club

Mrs. R. Steele Johnston reviewed "I Found No Peace" by Webb Miller, globe-circling reporter, at the meeting of the Modern Study club with Mrs. Hamilton McRae, 406 South L street, Wednesday afternoon.

Roll call was answered with the names of Pulitzer prize winners of recent years.

Program for the afternoon was under the general heading of "Progress of Literature."

Two guests, Mrs. W. Watson La Force and Mrs. W. L. Simmons, were present.

Members attending were: Mmes. F. C. Cummings, J. M. Haygood, Johnston, E. P. Lamar, L. W. Leggett, L. C. Link, F. I. McConell, A. H. Riley, Tom Sealy, J. W. Skinner, S. S. Stinson, Fred Turner, F. R. Schenck, and the hostess.

Cub Scouts Meet at Home of Mrs. Aldrich

Den No. 3, Cub Scouts, met at the home of Mrs. Frank Aldrich, 724 W. Louisiana, Wednesday afternoon with 11 boys present.

Mrs. Aldrich and Mrs. Jas. L. Daugherty were in charge of the meeting which was occupied with Cub activities, climaxing in a weiner roast.

Present were: Den Chief Payton Anderson, Glen Murray, Bobbie Norris, LaGrant Daugherty, Frederick Prickett, Abel Cruger, Stanley Blackman, Ray Roten, Frank Aldrich Jr., Buddie Smith, Marvin Prager.

All Cub Scouts are invited to attend the weekly meeting on Wednesday at 4 o'clock at the home of Mrs. Frank Aldrich.

fountain drinks and cigars will be given away from 2 to 6 p. m. on the opening date. The new establishment is in the Llano hotel building on Wall street in the location formerly occupied by the Llano drug store.

Mrs. Wyche Is Hostess to Party For Sans Souci Club

Complimenting the Sans Souci club, Mrs. Bill Wyche was hostess to an afternoon bridge of three tables at her home, 611 S. Main, Wednesday.

A blue color scheme was introduced in prizes which were wrapped in two shades, light and dark blue, and suggested in the spring tulle with a design of blue butterflies.

Club guests were Mrs. Guy Cowden and Mrs. Clyde Cowden.

Awards in the bridge games went to Mrs. Barney Greathouse for high score among club members, to Mrs. Guy Cowden for high score among guests, and to Mrs. Bert Ross for cut.

A party plate was served at the conclusion of play to guests and the following club members: Mmes. Roy Downey, Greathouse, R. T. Mobley, Payne, Tom Rainbolt, E. D. Richardson, Ross, W. H. Street, W. T. Taylor, Frank Williamson, and the hostess.

Program Announced For PTA Colonial Twilight Silver Tea

Hostesses in colonial costume will lend an air of quaintness in keeping with the theme of the colonial twilight silver tea to be held at the Junior High school Friday evening at 7:30 o'clock.

The following program of music readings and talks will be presented: "Memories of Stephen Foster"—Brass ensemble, High School Band.

Welcome—R. C. Fagg, principal Junior High.

Piano solo—"Kamennoi-ostrow" (Rubenstein) Wallace Wimberly.

Talk—"Three Laws of Teaching" Supt. W. W. Lackey.

Reading—"Second Mince"—Miss Mary Broadus, accompanied by Miss Edna Marie Jones.

Colonial dance—Melba Schlosser.

Reading—"He Knew Lincoln"

"Ritual of Jewels" Is Celebrated by Sorority Chapter

Members of Beta Sigma Phi sorority observed the "Ritual of the Jewels" in a ceremony in the private dining room of Hotel Scharbauer Wednesday evening. Mrs. R. Steele Johnston, honorary director, and Mrs. L. C. Link, educational director, presided at the ritual during which leveled pins were presented to members of the chapter.

The ritual table, laid in white linen, was centered by talisman roses, flanked on either side by six candles in rainbow hues.

A formal dinner followed the ritual ceremony, the table decorations being the same as for the jewel service. Covers were marked by place cards bearing the sorority seal and containing directions for some form of entertainment by each member. These numbers formed the dinner program.

Attending were: Mmes. Foy Proctor, Johnston, Link, Frances Stallworth, Misses Marguerite Bivens, Lucille McMullan, Ruth Pratt, Norene Kirby, Willette Duncan, Madeleine Roberts, Mary V. Miller.

(Johnson)—Delmar Yoakum. Solo—"Gwine to Hebben" (Jackes Wolf)—Chase Murph.

"Gloom Chasers"—Rev. and Mrs. Winston F. Borum.

Quartet—"Kentucky Babe" (Grabel)—Tavern in the Town (College song)—High School quartette.

The public is invited to attend the tea.

G. A.'s Present Valentine Program

In keeping with the Valentine season, the Girls' Auxiliary of the Baptist church presented a program on "Our Hearts in Home Needs" at the weekly meeting in the basement of the church.

Irma Tunnell talked on "Into Our Hearts."

Jean Ann Preskitt discussed "With

Mexican Theme Featured in Party For Slam Club

Slam club held its Wednesday bridge meeting with Mrs. D. W. McCormick hostess at her home at the Atlantic Tank Farm yesterday afternoon.

Mexican tunes were used in the three tables of bridge played and a Mexican plate was served at the tea hour.

Prizes of handmade flowers were awarded to Mrs. Joe Dobson for high score among club members, to Mrs. Ernest Neill for high score among guests, and to Mrs. W. G. Attaway for second high among club members and traveling prize.

Five guests were present, including: Mmes. B. C. Girdley, Nell, W. L. Nicol, D. H. Smith, and the hostess' daughter, Miss McCormick.

Members present were: Mmes. Attaway, O. J. Battell, R. L. Bailey, Dobson, Frank Nichols, R. L. Stewart, and the hostess.

All Our Hearts—Prayer." Doris Blackburn spoke on "Treasures in Our Hearts—A Pioneer."

Following the program, a social hour was held and Janice Pope and Margaret Mims served refreshments.

Alberta Smith was a visitor.

Members present were: Dolores Barron, Doris Blackburn, Jean Ann Preskitt, Irma Tunnell, Dorothy Shelburne, Lena Faye Shelburne, Janice Pope, Patsy Ruth Pope, Margaret Mims, Bernell Howard.

Mrs. E. F. Conner was an adult visitor.

Mrs. Chas. Skinner is director of the group which will meet next Monday with Annie Lee White at 321 E. Kentucky.

Wednesday Club Meets at Home of Mrs. Ulmer

"Are Children Vegetables?" was the challenging subject for program study at the meeting of the Women's Wednesday club with Mrs. M. C. Ulmer, 111 North C street, Wednesday afternoon.

Mrs. H. C. Barnes was program leader, assisted by Mrs. J. M. Caldwell, Mrs. M. R. Hill, and Mrs. W. T. Walsh as panel speakers.

The group voted to cooperate in the all-civic safety luncheon to be given in March for which L. G. Phares, chief of the state highway

patrol, will be asked to be guest speaker.

Decision was also made on the program of study for the coming year.

Present were: Mmes. H. C. Barnes, J. M. Caldwell, Russell C. Conkling, George Glass, Jas. H. Goodman, M. R. Hill, R. L. Miller, Erle Payne, John Perkins, W. E. Ryan, M. C. Ulmer, W. T. Walsh, W. G. Whitehouse.

"WINTER WEIGHT" for the Season

DOUBLING CAPACITY OF COSDEN REFINERY

AT A COST OF \$800,000

To meet the ever-increasing demand for COSDEN HIGHER OCTANE GASOLINE, and to still further protect the uniformity and quality of its products, the Cosden Petroleum Corporation is now building an addition to its refinery at Big Spring, Texas, which will practically double its production output and making other additions and improvements which will involve an expenditure of over \$800,000, according to officials of the company, whose offices are in the Electric Building at Fort Worth, Texas.

The above picture shows the engineer's sketch of the new installation and the picture to the left shows the location of the new unit at the Cosden plant.

This addition includes the installation of a 7,500-barrel Universal Oil Products Dubbs Cracking Unit, of the latest design featuring four U. O. P. Upshot cracking furnaces along with the latest design of reaction chamber and fractionating column. The equipment is designed to operate at a high degree of pressure and temperature as is necessary to secure maximum yield of high quality gasoline from crude.

This installation will increase the output of HIGHER OCTANE GASOLINE by 175,000 gallons per day and will give the refinery sufficient capacity to completely process into gasoline and fuel oil 14,000 barrels of crude per day, and by manufacturing various grades of Diesel and furnace oil will give a flexibility of 17,000 barrels of crude oil per day.

The new unit and the improvements on the old Dubbs unit are expected to be in operation early this year. The installation of the new Dubbs unit culminates a constant and consistent program of improvement and enlargement which has been followed for the past six years at the Cosden Refinery. Not content with the BEST, the Cosden Petroleum Corporation is constantly searching for something BETTER. Only recently the refinery completed the installation of the newest type hot oil charging pumps which are driven

with improved gas engines. This improvement has proven very satisfactory; increasing the capacity of the cracking unit and improving the quality of the product, according to the officials of the company. Another new installation which has proven very satisfactory is the new continuous treating system which has recently been installed. This system is the design of the Refinery Corporation and has proven very satisfactory in preserving the quality of the gasoline treated.

According to the production manager the capacity of the Cosden Refinery is now approximately 17,640,000 gallons per month. With a gasoline output of 9,240,000 gallons, 2,100,000 gallons of furnace oil and 3,300,000 gallons of fuel oil. The Cosden plant regularly employs an average of 250 men and its payrolls have never been less than \$20,000 per month. Its gasoline delivery by truck runs about 2,200,000 gallons per month. It owns 793 tank cars with an average shipment of 1,800 carloads of gas per month, in addition to the truck delivery.

Urge Employers Be Given Right to Use Services of NLRB

WASHINGTON, Feb. 17 (AP).—President Roosevelt today was urged by the business advisory council sub-committee to support council recommendations for giving employers, as well as employees, the right to invoke services of the labor relations board.

Offset Test in Bay Is Scheduled

HOUSTON (AP).—An offset test to the Texas State Land No. 1 well in Galveston bay is planned by the Humble company.

The war department was asked to approve plans for the erection of a derrick and drilling equipment. A 73-foot sand of streaked shale was picked up near the 6,000-foot level of the Frio formation in the test well.

Possibility of the bay region may become a vast oil field loomed with the request of the Humble company for permission to offset the first well.

Ben H. Passmore of San Antonio, and Dr. M. R. Woodward of Sherman.

A crowd of approximately 100 women heard Dr. Passmore give a lecture on obstetrics this morning in the Crystal Ballroom of the Hotel Scharbauer.

The final talks are being given to physicians of Midland and surrounding territory.

A banquet honoring Dr. Passmore and Dr. Woodward was held last night and 25 physicians from neighboring towns joined with the Midland doctors. The guest list was limited to practicing physicians.

Former Soldier Now 85 Years Old

SAN ANGELO (AP).—Pat Conway, one of the few surviving soldiers stationed at old Fort Concho here, recently observed his 85th birthday. Except for deafness he is in good health.

Conway was born in County Clare, Ireland, and came to America in 1874. In 1883 he joined the army and when Fort Concho was abandoned he was the last man to leave. He locked the doors and put the keys in his pocket. Later, upon receiving his honorable discharge from the army at Fort Bliss, he returned to San Angelo and has made his home here since. He is a former Tom Green county jailer and also former custodian of the court house.

Friendswood Field Extended One Mile

FRIENDSWOOD, Tex. (AP).—The Friendswood field has been extended a mile northwest by completion of the Humble Oil No. 1, Pierce well.

An oil sand was found at 6,050 feet, after two previous attempts to complete the well had resulted in gas flows.

Hospital Serves City Well.

PASADENA, Cal. (UP).—Since the Pasadena Emergency hospital was opened here in 1925 a total number of patients, exceeding the population of the city, has been taken care of there. The hospital has received 102,016 accident cases alone.

lime. Hard cherty section has slowed up drilling progress.

Amerada No. 1 Robertson, indicated one-mile east extension of the Seminole pool, in Gaines, is drilling with tools at 5,082 feet, with 1,400 feet of oil in the hole. Crew ran bailer to top of lost tools at 5,065 and recovered all oil. Total depth is 5,112, in lime which showed oil from 5,104 to bottom.

Shell No. 1 Robertson, a mile and a half east of the south end of the Wasson pool, northwest Gaines, is bailing hole at 3,400. Plug has not yet been drilled from 7-inch pipe cemented on bottom at 4,674.

New Garza Wildcat.

Another new wildcat location for Garza county is the Mel L. Richards No. 1 K. Stoker, 330 feet out of the northwest corner of section 33, block 5, G. H. & H. survey, Rig is up.

In Lamb, Wynne No. 1 Neuschwander is drilling by lost drillpipe, bottomed at 5,086 in lime.

Blood-Signed Pledge Binds Club 25 Years

CANTON, O. (UP).—The Metro club, formed 25 years ago by a group of 10 Jewish youths who pledged "in blood" to "stick together forever," now has a membership of 165.

The club, social and civic in nature, had its beginning in the cellar of an East Canton home in 1912.

New World's Largest Coin.

LONDON, (UP).—A new "world's largest coin" is now recognized by numismatists. The coin, a Swedish 8 daler of 1659, has been brought to London to be auctioned. It measures approximately 1 by 2 feet and is of solid copper, bearing the royal mint mark in each corner.

Rose Bowl and Knick-Knacks.

PASADENA, Cal. (UP).—Official statistics from the commissary department of the California-Alabama Rose Bowl game, which was attended by 90,000 persons, show these sales: 75,000 bottle of soda pop, 46,591 hot dogs, 4,000 bags of peanuts, 7,000 bags of popcorn and 4,000 packages of cigarettes.

Refresher Courses To Be Ended Today

A two day series of refresher courses in pediatrics and obstetrics will come to an end today with final addresses being presented by Dr.

MANY NEVER SUSPECT CAUSE OF BACKACHES

This Old Treatment Often Brings Happy Relief

Many sufferers relieve nagging backaches quickly, once they discover that the real cause of their trouble may be tired kidneys.

The kidneys are Nature's chief way of taking the excess acids and waste out of the blood. Most people pass about 3 pints a day or about 3 pounds of waste.

NO STOOPING
with this oil range!

SOME stoves look pretty only
until you begin to use them; not
so, with these smart new Perfection
ranges. They are modern in con-
venience as well as in appearance.
No stooping to this oven. No wait-
ing for these fast, clean, High-Power
burners! Come in and see this neat,
compact range finished in cream-
white porcelain enamel. You'll wonder
how we sell it so reasonably.

Larger Cities Now
Observe Liquor Law
AUSTIN (AP).—C. A. Paxton, chief
enforcement officer of the state
liquor control board, says Fort Worth
and Dallas definitely are out of the
"sore spot" class as far as the law
is concerned.
"Law observance in the cities,"

Paxton said, "which was notorious-
ly lax some time ago, has improved
to where we no longer consider con-
ditions serious."
Paxton said success of the "sit-
down" campaign was to some ex-
tent responsible for the change and
the board's efforts "most certainly"
would have stalled at the outset but
for cooperation of the regional en-
forcement agencies.
"The able handling of our cases
by the district attorneys' officers,"
he said, "was the most encouraging
aspect of the campaign."

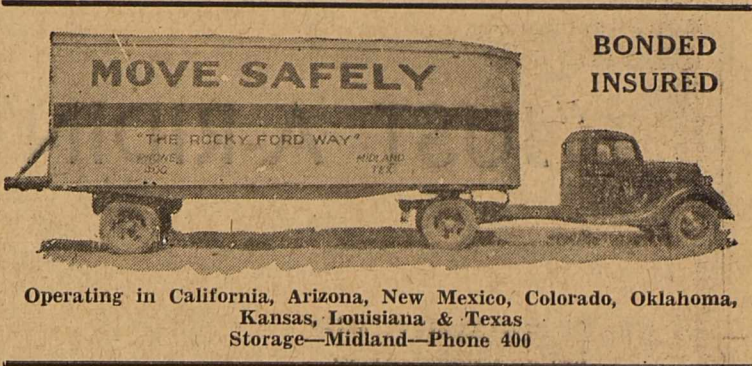

Syrian bakers produce "bubble
bread" in round, flat loaves, which
look like astronomers' photographs
produced by a mysterious leavening
mixed with the dough.

HAW-HAW, LET'S GIVE HIM A REAL HEADACHE

A COUPLE OF CONSPIRATORS WITH DESIGNS ON THE MAJORS' GOAT

"JUST A-RIDIN'"

Oh, for me a horse and saddle
Every day without a change;
With the desert sun a-brazin'
On a hundred miles o' range.

Just a-ridin', just a-ridin',
Desert ripplin' in the sun,
Mountains blue along the skyline,—
I don't envy anyone.

When my feet are in the stirrups
And my horse is on the bust;
When his hoofs are flashin' lightning
From a golden cloud of dust;
And the bawlin' of the cattle
Is a-comin' down the wind,—
Oh, a finer life than ridin',
Would be might hard to find.

Just a-ridin', just a-ridin',
Splittin' long cracks in the air,
Stirrin' up a baby cyclone,
Rootin' up the prickly pear.

—from JUST A-RIDIN'

The Texas cowboy ends every "ridin'" day with a pot of coffee brought to steaming fragrance by the embers of his camp fire. The chances are more than even that, today, he fills his pot with **Admiration**, because this Texas coffee has become the largest selling brand in the state. Such sales can mean only one thing—people LIKE it. And whether you buy it at a commissary or at your corner grocery, **Admiration** is fresh, delivered to the point of sale direct from one of the roasting plants, by fast truck. You, too, should try **Admiration** . . . it's the thing in Texas.

This is one of a series of advertisements finding inspiration in the authentic, original cowboy ballads. Selections are from the John A. Lomax collections.

Today's Answers to CRANIUM CRACKERS

Problem on Page One
The Nelthorpes contended Jane's marriage to Herbert was illegal since there was no proof of Wilson's death, and that she was therefore, guilty of bigamy and entitled to no share of Herbert's estate. However, the court ruled the marriage was legal since Wilson Tremont had been missing over seven years and was legally dead.

Is This the Reason You Are Constipated?

If you're wondering why your bowels don't work right—stop and think about what you eat. Bread, meat, eggs and potatoes. All good nourishing foods—but all concentrated, lacking in "bulk." And you need "bulk"! Some food that forms a soft, spongy mass in the bowels—helps them move.
If it's this lack of "bulk" that's causing your constipation, Kellogg's All-Bran is just what you need. It soaks up water and softens like a sponge. And this soft mass helps your bowels move. In addition, All-Bran gives you Nature's great intestinal tonic, vitamin B. Eat this crisp crunchy cereal every day, drink plenty of water, and enjoy happier days. All-Bran is made by Kellogg in Battle Creek. Sold by every grocer.

Cooking by Calendar Means Fun in This Month of February

By Mrs. Gaynor Maddox, NEA Service Staff Writer.
WHAT'S an almanac to a woman? In February it might be broccoli souffle. Or a Martha Washington chicken pie. Both these recipes are given in the 1938 Woman's Almanac, a small volume packed with femininity. Each month has its hints, and some rather full-sized recipes.

Broccoli Souffle.
(Serves 4)
Three tablespoon butter, 5 tablespoons flour 1 1/2 cup milk, a little salt and pepper to taste, 1 cup shredded cheese, 1 1/2 cups chopped cooked broccoli, 2 eggs.
Melt butter in sauce pan, stir in flour, then slowly add milk. Add cheese next and stir until cheese is melted. Add chopped broccoli and seasoning. Beat egg yolks and add. Cool mixture. Beat egg whites until stiff, then fold into the cooled mixture. Bake in moderate oven (315 degrees F.) for one hour, serving from the baking dish. Better list this for your Lenten recipe collection. Lent begins Wednesday, the second of March this year.

Washington Chicken Pie.
The recipe in Martha Washington's cook book called for a young chicken, boiled and allowed to cool. The bones were removed, a sliced onion, some celery and parsley were put in the broth, all boiled one-half hour, then strained and returned to the chicken. A half pound of fresh mushrooms sauted

in butter was added. Very short pastry was made, rolled thin and fitted into a casserole, the chicken and gravy placed in this, sliced hard cooked eggs on top, and over all was fitted a crust having a vent in it. The edges of the two pastries were crimped together and then the pie was baked until the crust was brown.

This "book of facts, for, by and about women" gives this menu for a February luncheon: "Tomato and celery juice, mushrooms stuffed with crabmeat au gratin, new string beans, creamed celery, rye rolls, Melba toast, raw vegetable salad bowl, hot ginger bread, apple sauce, coffee."

Gambling Czars Are Sentenced to Nine Years in New York

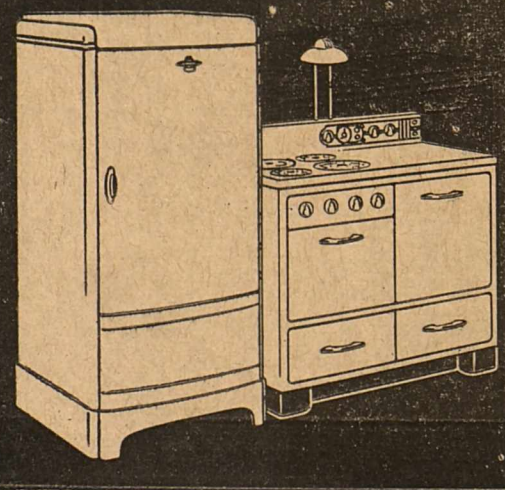

NEW YORK, Feb. 17 (AP).—William Graham and James McKay, wealthy Nevada gambling czars, today were sentenced to nine years in prison for mail fraud and conspiracy in a \$2,500,000 nation-wide "bunco" game. Each was fined \$11,000.

Winter Provides Plenty of Enjoyment for the Quintuplets

This Is Dionne Quintuplet Land in the Frozen North

Here's a true winter wonderland, Dionneville seen from a plane, in the first air-photo to be made of the enlarged grounds and buildings where the quintuplets live their happy lives. The white mantle of snow has covered the ground all winter, giving full opportunity for outdoor sports. Devoted entirely to the quints are the buildings and a five-acre tract lying nearest the camera from the dividing-line created by the main road. Sun and shadows on the dazzling white snow bring out the winter glory of the quints' home and playground.

Emilie Becomes Web-Footed

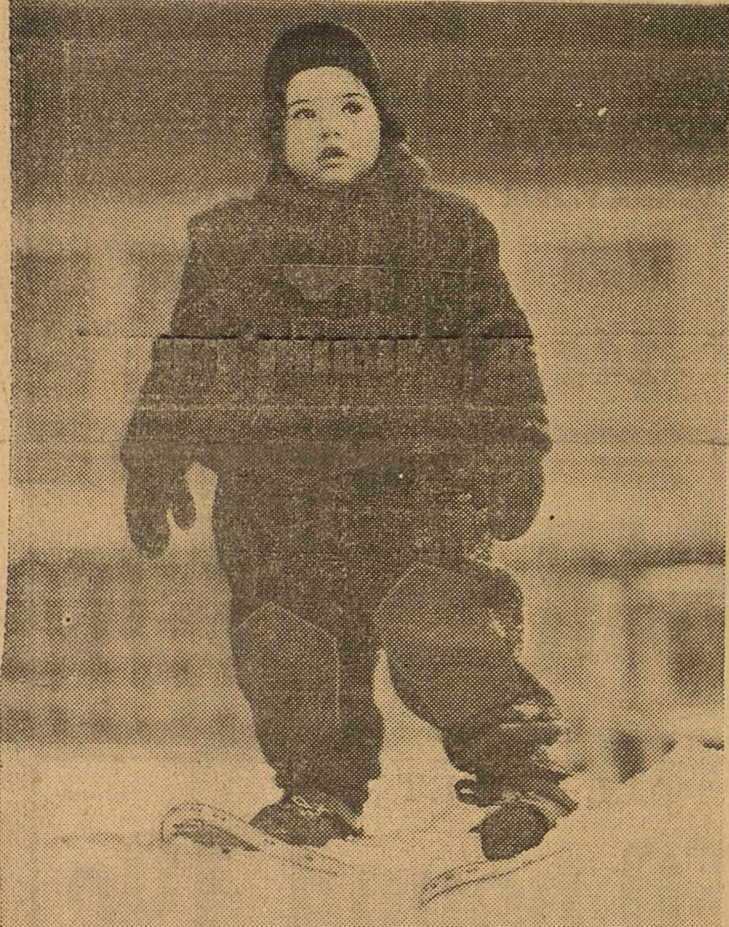

Emilie sets forth on the great adventure, her first meeting with snowshoes. She looks just a little dubious as Nurse Noel attaches the big web to her foot, as though to say, "What a funny kind of thing to walk on!"

All-Set for the Big Adventure

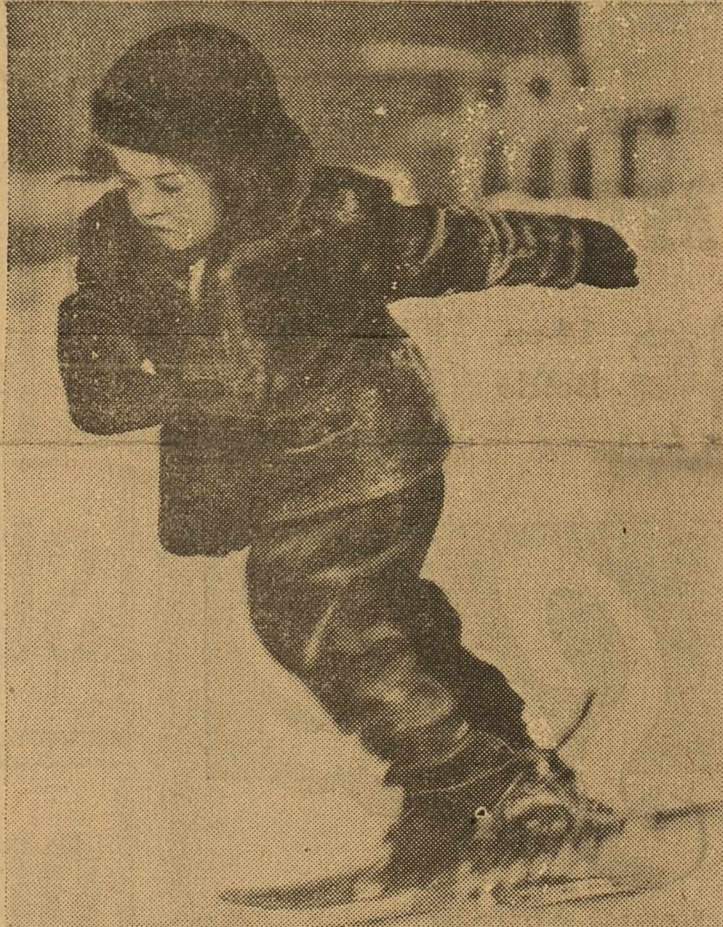

So far, so good! Emilie stands up while Nurse Noel completes the fastening of the snowshoe. "Why, this isn't going to be so bad, after all," Emilie reflects. "I think I can manage these all right." She's rarin' to go any minute now!

Mushing Along Like a Veteran

"Nothing to it!" Emilie seems to say as she strides boldly forth across the deep snow, just like an Indian guide in a northern frontier story. Notice that nonchalant air, the easy swing of her stride, and her pride of accomplishment.

Ooops! Not so Easy, After All!

But "pride goeth before a fall," and now something is all tangled up with those big flat snowshoes! Emilie stumbles, and is just in the midst of taking a header into a snowdrift as the camera clicks. And so winds up another winter adventure!

Five Little Snow-Lassies, Ready for a Frolicsome Ski-Glide

Fur hoods, fur coats, skis and poles, the quintuplets are all ready to push off for a merry time on Dionneville's snow-clad slopes. Marie, left, seems concerned by a loose buckle, while Emilie turns about for a little reassurance from Nurse O'Shaughnessy. Annette, Cecile, and Yvonne, as straight as little soldiers, await the word to go.

Five Little Girls Become Snow Sprites in Wintry Dionneville

Five laughing little snow-maidens these wintry days are the Dionne quintuplets. Fur collars turned up around their necks, woolen helmets tight on their heads, they are ready for frolic every time snow fills the air. That's Emilie, smiling at left, then grave Yvonne, and Marie grinning broadly in the center. Annette is the quizzical one who comes next, and that's Cecile who rolls such a roguish pair of eyes at right.

Truly a Winter Wonderland Is Quintuplets' Snowy Playground

Like snow-children of a Black Forest fairy-tale, the Dionne quintuplets gather beneath the overhanging branch of a great evergreen to try out their new skis. Nurse Noel oversees their first efforts with the strange implements while a bright sun pours down on the crisp snow surface. The building in the background is the staff house where nurses and other Dionneville employees reside.

Manufacturers' Head Began as Office Boy

SELF-MADE Charles R. Hook, 57, Middletown, O., just elected head of the National Association of Manufacturers, began in the steel industry as office boy in 1889, is now president of the American Rolling Mill Co., holder of a dozen directorates.

Ready to Assume Post in State Department

ADOLPH A. BERLE, JR., of New York, one of the original New Deal brain trusters, has been nominated by President Roosevelt to be assistant secretary of state. Berle was city chamberlain of the LaGuardia administration in New York.

Enters Senatorial Campaign in Kansas

CLYDE M. REED, Parsons, Kan., publisher, has formally announced that he will seek the U. S. Senate seat now held by George McGill, Wichita Democrat. Reed is a Republican, recognized rate authority and a former governor of his state.

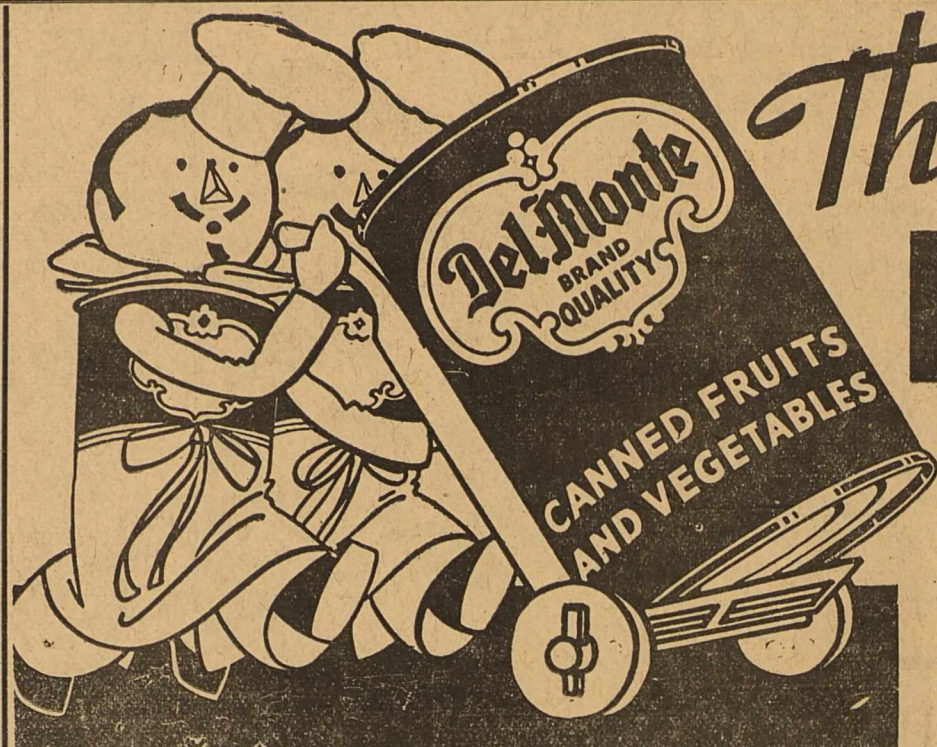

Hollywood Story: No Work—Big Pay

GUSTAV WALLY, continental star, plans to leave America with most of the \$32,500 he was paid in Hollywood. A year ago Wally started at \$500 a week, was raised to \$750 after six months—and he hasn't acted a single lick.

Gainesville Was Boom Town in 70's And the Population Is Still the Same

GAINESVILLE (AP).—Unlike most boom towns which disintegrate with the passing of the industries which gave them sudden affluence, Gainesville, the mother town of the cattle industry of the early West Texas, today maintains approximately the same population as in its halcyon

days of the 70's. The name of Gainesville's principal business thoroughfare, California street, was adopted after the first small log stores were opened on the town site in 1848, along the route of the California gold trail. But it was not until 1850 that the establishment of the court house gave the town recognition as an up and coming frontier village.

Citizens at the time were divided whether the townsite should be located several miles south of the present city or on the Mary E. Clark tract of 40 acres. The story is told that as the debate waxed warm the bearer of a gallon jug of liquor decided the questing by shouting: "All who want the court house on Miss Mary's land follow me, vote and have a free drink."

The court house was located, but it was not until 1870 that the square was laid out and the straggling village took some semblance of a city. Two years later it was incorporated. W. O. Davis, still an active attorney at 92, having drafted the charter and was a member of the first council.

Just prior to the coming of the railroads Gainesville was the capital of a great portion of West Texas and the then unsettled and unallotted Indian territory, and the financial center of the cattle industry.

The Kansas cattle trail, over which millions of Texas cattle were driven to the northern rail heads, was established shortly before the Civil war, passing just west of Gainesville. Some of the herds went over at the old Rock crossing, the ma-

Contributors' Column

Editor's Note: From time to time The Reporter-Telegram receives from its readers contributions which it would like to print but which do not fall within the scope of its various departments. The "Contributors' Column" has been created to provide a place for such articles. It will appear from time to time as material of interest to readers and suitable for publication may be received by the editorial office. To be considered for the column, contributions should bear the name of the author.

"AS CHIVALRY WAS THE FLOWER OF KNIGHTHOOD, SO SERVICE IS THE FLOWER OF LOVE"

At this time while the world is so full of war with its hates, diseases, human miseries, and deaths we need to think more on the power of love. The kind of love that rights a wrong, fills the heart with hope and song. I have a little leather bound volume called "The Greatest Thing in the World" by Henry Drummond. It is about love, that part of God hidden in us that

yearning to go up the river to cross at Red river station between Neocoma and Ringgold, both non-existent in those days.

Business from the trail, coupled with that of settlers who were coming into the many bends of Red river in Texas and Indian territory, and the cross-timers, made the town and laid the foundation for many of the industries important in its later development.

Two business establishments which endured are the Whaley Mill and Elevator company, the farthest west flour mill, when established in 1858, and the Tyler and Simpson Grocery company, established in 1879, the year the Missouri-Kansas-Texas railroad reached Gainesville.

With the coming of the Katy, Gainesville was strategically located as the gateway between the Indian territory and West Texas Plains country, the two great cattle areas of the era.

Foreseeing the end of the free range, such cattlemen as George Ball, Boog and Will Grant, Jim Beattie, J. M. Lindsay, Bud Bonner, Jules and Jot Gunter, Henry Sanborn and others, bought large tracts which were fenced with newly introduced barbed wire.

In the first years after the coming of the railroad, Gainesville numbered among its score, making their homes in great mansions in the city, and ranging their stock over an immense territory to the north and west.

Among them were the Witherpoon brothers, P. S. and J. G., operating in Hardeman county; the Addison brothers, in the Comanche country; John and Bill Stone in the Chickasaw Nation; John Belcher in Montague county and the Indian territory; W. H. Ritchie in the Chickasaw Nation, and many others.

Much money came from eastern capitalists to invest in the cow business and D. T. Lacy, 91, still active as chairman of the board of the Gainesville National bank, recalls that his first day as a bank clerk in 1880 he handled drafts amounting to \$145,000 given by one cowman for cattle purchased in Indian territory, and learned soon after it was an average day for the institution.

Business flourished, new buildings and new stores supplying the range country came to town to be freighted from 50 to 200 miles by wagon to far-flung headquarters. The Lindsay hotel was the scene of the cattlemen's meetings, and against its east walls in the cool of the evening, millions of dollars worth of cattle and ranch lands changed hands.

As the railroads extended west into Texas and north into Indian territory, new towns sprang up, and Gainesville slowly relinquished its leadership. The Rock Island, building from Topeka to Fort Worth, cut the Kiowa and Comanche reservations from the Gainesville trade

wants to be expressed in serving our fellowman.

Since the world has dragged the word love in the mire until it has lost its meaning for many, we should read again the greatest treatise on love in the world. The 13th chapter of I Corinthians. It will help us to keep true our sense of values.

Electricity is one of God's powers, a gift that man has made very useful but the power of love is God's greatest gift to man. You can't kill life any more than you can kill the sun. Neither can death touch love. There is no death to love. By its power our spirits keep in touch with those who now dwell in the presence of God. We are refreshed by such contacts. We get a new energy to carry on when we are weary with seeming together the frayed edges of respectability.

Love reaches out for a dream and finally fashions out of it the substance of reality.

All the quotations we've ever heard about love fail to show us its power; but we see its mystery working in the lives of all of earth's greatest characters.

By the miracle of love Florence Nightingale left a rich inheritance to all mankind. The world blesses her memory as it also does Jane Addams of Hull House.

A great surgeon has said that he had rather have mothers for patients than any others for their love for their homes and children made a powerful factor for their recovery.

Love melted a heart of stone. Made chords that were broken vibrate once more. Lifted a life from prison and drunkenness and gave to the world a Jerry McCauley who estimates the first missions for the unfortunate of Hell's Kitchen in the slums of New York City.

I get a picture of the Master as He had a comprehensive view of all mankind in their human needs as they live in all their ignorance and ugliness.

From the great Caesar to the most humble fisherman he knew that "six feet of earth make us all of one size." But to his burning and searching eyes every need of every Creature is known. While he understood our physical needs and supplied the loaves and fishes, our spiritual need was seen to be the greatest. He gave us the Sermon on the Mount.

As we go through this life we should acquire the eternal qualities that we may live for us in the New Life—Truth, justice, purity, beauty—they never die. We need all of these for the battle of life. We need to go deeper in loving experience with the Christ of the everyday road before we can go farther with Him.

Then glory shall not scare happiness. Neither happiness envy glory. But all things shall rise and shine in the light of the Father's Countenance.

territory, and at the turn of the century, the town's trade area embraced a 50 mile radius as it does today. Gainesville's population was 12,000 at the peak of the cattle boom, and actual count today reveals the population is within a few hundred of that mark. The territory's diversified farming interests and a dozen oil fields with some 800 producing wells have contributed to the maintenance of the town's boom day population and stable industrial and business development.

Bronchial Coughs

Just A Few Sips and—
Like A Flash—Relief!

Spend a few cents today at any good drugstore for a bottle of triple acting BUCKLEY'S MIXTURE—take a couple of doses and sleep sound all night long—your irritating cough of bronchitis is under control. On little sip and the ordinary cough is on its way—continue for 2 or 3 days and often you'll hear no more from that coughing and sneezing cough that nothing seems to help. Over 2 million bottles sold in cold-wintery Canada.
