BOY'S BODY FOUND - Suspect Arrested

ALL RANSOM MONEY PAID FOR RELEASE IS RECOVERED TODAY

MIAMI, Fla., June 9 (AP).—The body of kidnaped James Bailey Cash, Jr., was found early today a mile from his Princeton home. Federal bureau of investigation agents said they recovered the \$10,000 ransom yesterday that was paid for the boy's release, and that a suspect was arrested a week ago.

The prisoner, Franklin Pierce McCall, 21, truck driver, a minister's son, was a former tenant of the Cash apartment house. Director Edgar Hoover announced McCall had confessed writing three ransom notes and collecting the ransom money.

Sheriff D. C. Coleman said McCall, without showing emotion, led officers to a dense thicket where the body was found three minutes after midnight. McCall called Cash's attention to the third ransom note.

Because of the condition of the body, a physician said determining the cause of death was impossible. The father decided not to view the body when told of the condition.

The ransom, which the boy's father, James Bailey Cash Sr., paid May 31, was recovered at dawn yesterday in a corner of an orchard owned by Charles Chambers of Princeton.

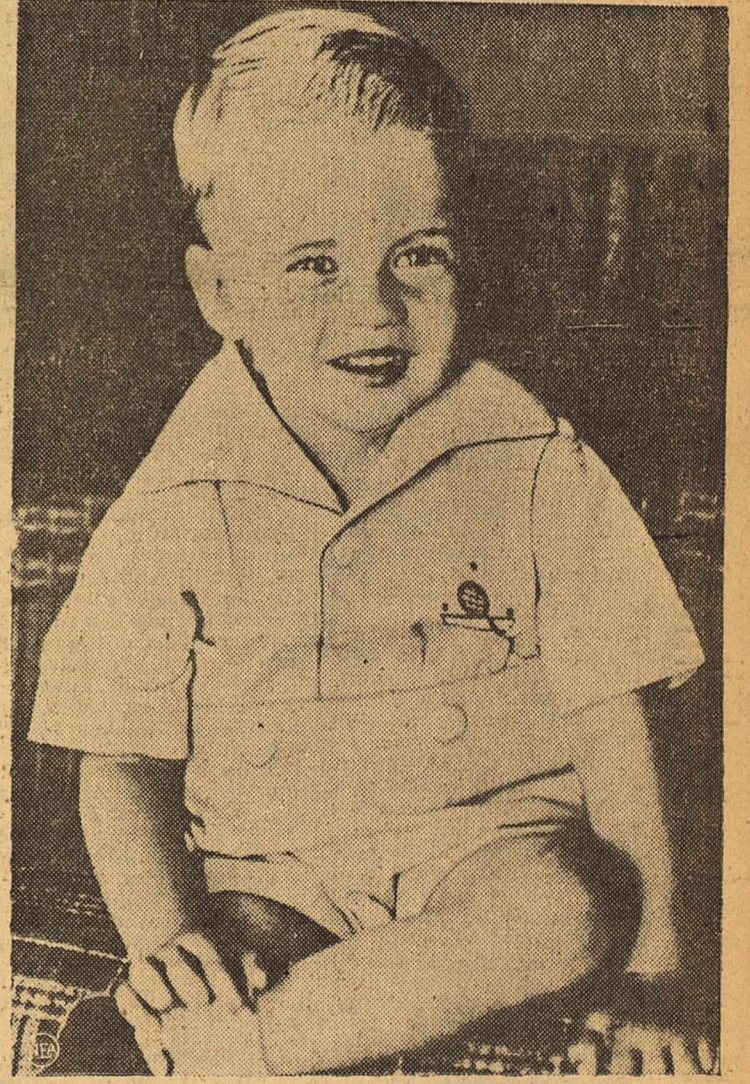

The shoebox in which Cash had dropped the money in a road for the kidnapers also was recovered. It had been torn to pieces and hidden beneath a stone in a clump of palmettos.

Hoover said McCall was graduated from high school at Jasper, Fla., in 1934 and came to Princeton soon afterwards to live with his parents. He has been employed as a truck driver by produce farmers.

The FBI chief's statement did not contain any details of how the crime was committed. It indicated the investigation still was not completed, and Hoover declined to amplify it.

The Cash boy, five and a half years old, was stolen from his bed the night of May 28, the abductor entering the back door of the frame, two-story apartment building after slitting a screen in the upper panel.

Mrs. Cash had just put her son to sleep in a one-piece suit of white rose-striped pajamas after reading the funny papers to him, and had gone to help her husband close his grocery store, in the front of the building. She fixed the time at

between 9:35 and 10:15 o'clock. When she discovered her only child was gone and a search had been started, a note was discovered pinned to the door at the nearby home of Wilson P. Cash, one of the father's three brothers.

It directed him to the shack of John Manuel, negro, where a second note was found saying the boy had been kidnaped and demanding \$10,000 ransom in unmarked bills of small denomination.

The kidnaper had sought to have Manuel deliver the note to Cash for \$5 but the negro, fearful of a caller at such a late hour, fled out the back door, so the abductor slipped the note under his front door.

It threatened death to little "Skeegie," as the boy was nick-named, if authorities were notified.

Japanese Continue Air Raids on Canton

CANTON, June 9 (AP).—Japanese airplanes dropped explosives in the vicinity of Canton today for the thirteenth consecutive day. More than 8,000 had been killed since May 28.

Two Landings At Airport Today

Two landings were reported at the airport in a checkup early this afternoon. A C-33, transport, under Pilot Sallor arrived from Tucson and departed for Duncan Field at San Antonio.

COTTON GOES UP

NEW ORLEANS, June 9 (AP).—Cotton advanced slightly more than one dollar a bale today on active trade and commission buying and covering by shorts against scarcity contracts.

Britain to Act Against Ship Losses

Insurgent Raids Increase Total Of British Dead

LONDON, June 9 (AP).—Alarmed Britain, spurred by bombings in Spanish waters, today sought action against repeated insurgent Spanish air attacks in her shipping.

Bombing of the French freighter Brisbane at Denia, in which two Britons were killed, and an attack which disabled the British vessel Isadora heightened British concern over her mounting casualties.

A dispatch from Madrid reported the bombing of a third merchant ship in which 12 were killed.

LONDON, June 9 (AP).—Great Britain last night considered putting squarely before Premier Mussolini the matter of repeated Spanish insurgent attacks on British shipping.

Foreign Minister Viscount Halifax broke short a holiday to resume charge of the foreign office as public indignation mounted higher with each new bombardment of an English boat in Spain.

An insurgent seaplane shelled and machine-gunned the small British-owned Port of Gandia in Spanish government territory today, sinking a British dredger and destroying other property with 30 bombs.

Three British ships were damaged yesterday. In a fortnight of such insurgent attacks—by what many persons here believe are Italian or German manned warplanes—12 foreign ships have been sunk or damaged.

British protests to insurgent Generalissimo Francisco Franco were followed by more raids on British craft quartered in Spanish government ports.

Some British newspapers concluded that Italian and German fleets in Spain were ignoring Franco's orders in continuing to single out ships flying the Union Jack for attacks.

It was learned that Great Britain is likely to take the problem up with Mussolini in Rome—there were even unofficial reports that she already had done so.

The Italian premier presumably would be asked to use his influence to have the insurgents halt the raids and remind them simultaneously of the possibility of detrimental effect of the attacks on Italo-British relations.

All in all, the British position was considered embarrassing, especially since an Italo-British friendly agreement was signed less than two months ago, on April 16.

Connie Calls This Portrait O. K.

According to Connie Bennett the above F. Tino Costa portrait of the film star and her son, Peter, offers a more faithful reproduction of herself than the Willy Pogany painting which she has refused to pay for on the grounds that it is ill-proportioned. But Art Collector Earl Stendahl, asked to compare the two in Pogany's suit to force the actress to pay him \$3500, says that the Tino Costa work could not be insured for as much as the other.

Crane-Cowden Producing Lease Is Sold for \$255,000 in Cash

By FRANK GARDNER. Sale by Bert Fields, Dallas operator, of his Anna Gibbs lease in the Crane-Cowden field of southeastern Crane for cash consideration of \$255,000 was reported today. Gilcrease Oil Company of San Antonio is the purchaser.

The Gibbs lease, of 276 acres, has 17 producing wells, with a total daily potential production of 12,745 barrels and total daily allowable of 654 barrels at the present proration figure. The majority of the wells are pumpjacks, producing from approximately 2,000 feet, with initials averaging 750 barrels daily.

Use of WPA Funds in Politics Is Rapped

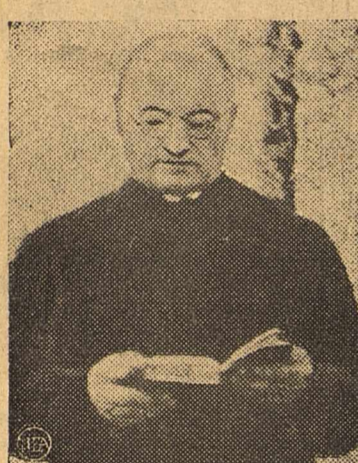

WASHINGTON, June 9 (AP).—Ten senators sponsoring a resolution for an investigation of any use of WPA funds for political purposes succeeded Wednesday in a parliamentary maneuver intended to hasten action on it and confidently predicted its eventual approval.

At the request of Senator Tydings (D-Md.), the resolution was taken from the Senate appropriations committee and referred to the audit committee, of which he is a member.

Tydings and nine others introduced the resolution, under which a three-member Senate committee would be set up to hear any allegations that work relief had been administered as to "intimidate, coerce or influence" WPA workers.

The resolution would provide \$10,000 for the investigation.

Slaying Victim

Shot and killed as he grappled with two assailants in his Centralia, Mo., rectory was Father Charles Einseig, above, 65-year-old Catholic priest. The clergyman was confronted by the attackers upon his return from an evening automobile ride. The thugs escaped.

Presbyterian Bible School Has Average Attendance of 40

With an average attendance of approximately 40 children, the Presbyterian Bible school is now being conducted at the First Presbyterian church.

Miss Lillian Richter, from the Assembly Training school at Richmond, a. s. in general charge of the school which has a teaching staff of 12.

The work of the school is divided among four departments, beginners, primary, junior, and intermediate and each department is carrying out its individual projects. For example, the primary boys and girls are making gifts to be sent to the orphans at the church home at Hasca.

A special invitation is given children who are not in any Sunday school to attend the Presbyterian school, which will continue through next week. Sessions are from 8:45 to 10:45 o'clock on Monday, Tuesday, Wednesday, Thursday, and Friday mornings.

Representative of Wood Visits Here

D. L. Swift of Nacogdoches county was a visitor in Midland today, campaigning in the interest of John Wood, present member of the state highway commission, who is a candidate for the railroad commission.

Swift stated that for 13 years Wood was in the mercantile business, and that he had known him all his life, living as his neighbor for many years, and that he knew Wood was qualified for the position he seeks.

Wood was appointed to the highway commission five years ago and that he is the senior member of

that board. In the past three years, he and his associates have spent in Midland county for highways the sum of \$121,363.27. He has often been declared the outstanding commissioner of all time.

The railroad commission, like the highway commission, is composed of three members whose cooperation is essential to its proper functioning. Wood has worked and remained on friendly terms with his colleagues as a highway commissioner without surrendering his convictions or making his judgment more than echoes. He will be able to do the same when elected railroad commissioner, Swift declared.

Wage-Hour Act Balked By Solons

Southern Senators Hold Out Firmly Against Measure

WASHINGTON, June 9 (AP).—A group of southern senators served an ultimatum to wage-hour conferees today they would not accept such legislation without pay differentials.

Seventeen senators decided to fight a compromise approved by the joint house-senate committee yesterday. It would provide a minimum pay scale of 40 cents an hour for interstate industry in seven years except where it would cause unemployment.

WASHINGTON, June 9 (AP).—An irreconcilable Southern faction held out firmly last night against a wage-hour compromise otherwise generally approved, and kept uncertain the congress adjournment date.

Whether the Southerners would be content to vote against the new proposal or would convert their opposition into a senate filibuster, which might prolong the session, was the question.

The wage-hour program was formally approved by 12 of the 14 members appointed in the house and senate to draft a compromise. It was proposed by one of the three Southern members of the conference committee, Rep. Ramspeck (D-Ga.), and contained enough concessions to the South to attract the support of another, Senator Pepper (D-Fla.).

But the remaining Southerner, Senator Ellender (D-La.), was quick and emphatic in announcing his opposition. Ellender is regarded as the spokesman for a like-minded Southern group.

In the conference committee, however, Ellender was joined only by Representative Hartley (R-N.J.) in voting against the compromise. Because the program provides for advisory boards, Hartley said:

"The blue eagle of NRA flies again."

Ellender opposed the proposed bill because it provides that seven years hence a statutory minimum wage of 40 cents shall be applied to all interstate industries, except those in which such a wage would lead to unemployment. Special boards appointed for each industry would investigate to determine whether workers would, in fact, be displaced.

Otherwise, the scheme called for a rigid and unchangeable rate of 25 cents the first year and 30 cents the second. During the succeeding five years the industrial boards, under an administrator in the labor department, would fix the wage to be paid by each industry at some point from 30 to 40 cents. The administrator would be instructed to advance the scale to 40 cents as rapidly as possible.

As a concession to the South, the bill would provide that during these five years, the boards and the administrator would take into consideration local living costs, prevailing rates of pay and other factors. Eleven years after passage, however, only an absolute showing that unemployment would result could excuse an industry from paying 40 cents.

After approving this formula, the conferees decided upon maximum hours dropping from 44 in the first year to 40 in the third. Employers would be required to pay time and a half for overtime.

Removal of Surplus Tomato Crop Starts

WASHINGTON, June 9 (AP).—The federal surplus commodities corporation said today it had authorized representatives in Jacksonville, Texas, to inaugurate a surplus tomato removal program in that area.

It said details would be announced today in the FSCC office in Jacksonville.

The purpose of the action was to remove price depressing surpluses on the Texas market. Surplus tomatoes will be distributed to needy families through state relief agencies.

TOLEDO BANS BINGO

TOLEDO (AP).—Bingo games here have been banned by police, backed by City Manager John N. Eddy. Eddy said that the way to clear out "chiseling gamblers" is to get them before they get a start.

"If the order interferes with church or fraternal parties, it's just too bad," he said.

HAS APPENDECTOMY

John Larsh, son of Mr. and Mrs. N. B. Larsh, underwent an appendectomy at a Midland hospital this morning. He was reported doing well this afternoon.

Stock Procured for Big Spring Rodeo

BIG SPRING, June 9. — Arrangements have been completed for 135 head of wild broncs, Brahma steers and calves to be used in the six shows of the fifth annual Big Spring Cowboy Reunion and Rodeo here July 2-3-4.

Red Lyons, Byers, will furnish 20 outlaws from his herd of broncs and 20 Brahma steers for riding and another 20 rangy steers for bull-dogging. Vance Davis, Garden City, will furnish 35 head of Brahma calves from his Glascock county herd for belling and will buy another 40 head at Cotulla for calf roping.

Directors of the rapidly growing Big Spring show boosted prize award again this week, running the total cash awards to \$1,900 for the three days. In addition, there will be other special awards valued at \$500. The rodeo association is to pay all state award taxes.

Pleased with response of West Texans in making last year a record one for attendance, the directors have reduced the admission price from 50 to 40 cents.

Extensive repairs, changes and improvements are now underway on the association's \$15,000 plant in the eastern edge of Big Spring. The improvement in the grounds is to be matched by further speeding of the program, said by many West Texas cowmen to be the fastest that they had ever seen last year.

Chamber of commerce and civic bodies here are cooperating in the planning of the biggest parade on record for Big Spring before the opening performance on the afternoon of July 2.

El Paso Good Will Group Entertained At Banquet Here

A group of 35 business men of El Paso was entertained at a banquet held last night in the Hotel Scharbatt, approximately 75 Midland men attending.

The affair was described by the visitors as being the most satisfactory of any in their four-day trip through the trade territory of the border town.

Marion Flynt, president of the chamber of commerce, presided at the banquet, and Mayor M. C. Ulmer delivered the welcoming address to the delegation. L. P. Bloodworth, assistant manager of the El Paso chamber of commerce, was in charge of the meeting following Ulmer's address.

All members of the group were introduced by Herman Liebreich, manager of the Southwestern Portland Cement company of El Paso. Following the introductions, George Wells, of the Zork Hardware company, entertained the crowd with two songs.

Allen Bruce, manager of the Pacific Mutual Life Insurance company, delivered the principal address of the evening and several other members of the visiting group delivered short talks.

E. R. Tanner spoke on the freight rate situation in this area and assured local residents El Paso was fighting for Midland as well as themselves in seeking lower rates.

Dan White discussed plans to make El Paso the winter site of 'big time' polo games and urged Midland horse raisers to join that city in putting over the project.

County Judge Joe McGill and District Attorney Roy Jackson made short talks, and Joe Evans, veteran West Texas rancher, familiarly known as the "Will Rogers of Texas" (TRIPPERS) Page Four

Asks Billion, Half On Patent Theft

TRENTON, N. J., June 9. — A suit to recover \$1,500,000,000 damages for the alleged theft of the secret formula for Ethyl gasoline from its inventor and original owners was filed here Wednesday.

Believed to be the largest damages ever asked, the complaint names as defendants the Standard Oil Company of New Jersey, Socony Vacuum Oil Co., Inc.; General Motors Corporation; Ethyl Gasoline Corporation, and E. I. Dupont de Nemours.

The suit was brought by the Howard-Vaughan Co., Inc. of Niagara Falls, N. Y., whose president, Francis A. Howard, claims to have invented the tetraethyl process used in making Ethyl gasoline.

Highway Building Measure Is Signed

WASHINGTON, June 9 (AP).—President Roosevelt today signed a bill authorizing a \$357,400,000 appropriation for federal highway building aid during the next two years.

All in Readiness For Rotary Picnic

With "Prof" Robert Jackson of Denton slated as chief speaker for the evening, plans are in readiness for the annual ladies' night picnic of the Rotary club which will be held at Cloverdale Friday evening at 7:30 o'clock.

Midland and Odessa Rotary club members will attend the affair and their wives will be honored guests. All Rotarians are invited to be present with their guests, sponsors said today.

The weekly luncheon of the Midland club was omitted today because of the projected affair tomorrow night.

ATTENDS SCHOOL

Rev. J. E. Pickering of the First Christian church is attending the school for ministers now entering a five-weeks session at TCU, Fort Worth. He will return tonight for the week-end, and will continue to make the trip back each week-end in order to fill his pulpit on Sundays.

Behind the Scenes in Washington

Editor's Note: The opinions expressed in this article are those of Mr. Dutcher, NEA-Reporter-Telegram Washington correspondent, and are not to be construed as expressing the editorial policy of The Reporter-Telegram.

WASHINGTON, June 9. — Germany, while planning what to do about Czechoslovakia and other European problems, also is compelled to give a little attention to the Securities Exchange Commission.

The SEC is waiting for an anticipated new offer of German bonds as payment of interest on German securities held in this country. The Nazi government won't allow German debtors to pay money on these bonds; it takes the money itself and then feeds out still more paper to the bondholders which it promises will mature years hence.

SEC officials have decided American investors are entitled to fullest possible knowledge of the financial condition of the Reich before they decide whether to accept such bonds as interest payment. In the registration statement which accompanies any future issue of the sort it will demand a full statement of the so-called German "secret debt", the full national debt as it exists following the gobbling of Austria and other details Germany previously has been unwilling to give.

SEC GETTING MORE HARDBOILED. THE present offer of "conversion" bonds expires July 1. It was an issue of \$69,000,000 of 3 per cent bonds maturing in 1946, to apply as interest due on about 120 German security issues. The German government's registration statement showed more than 14 billion reichsmarks of national debt. SEC asked how about at least five billion more of obligations known to have existed in 1935. German agents replied in effect that those were "obligations, not debt." SEC in March, 1937, decided to let the statement ride, feeling that the bonds were all investors were likely to get, in any event.

Now, perhaps because of a feeling that Hitler deserves no special favors, SEC is more hardboiled. It refused to let the old statement stand for May and June and will demand an entirely different one for any future German issues.

Senator Hayden of Arizona: "The senator from Montana said that a very able man was originally appointed in his own state." Senator Wheeler of Montana: "I did not say he was an able man. I said he was appointed at my suggestion."

THE HIGH COST OF LIVING. IT costs more to live in Washington than in any other American city, according to government surveys. A study covering 59 cities, selected with geographical evenness, showed that it cost \$1414.54 to support a four-person manual worker's family at a maintenance level in 1935. The lowest-city was Mobile, Ala., where the figure was found to be \$1013.98. Anyone planning to move to a big city may be interested in figures from some of them: San Francisco \$1389.87, New York \$1375.13, Chicago \$1356.11, Boston \$1352.77, Cleveland \$1349.33, St. Louis \$1339.55, Detroit \$1317.53, Los Angeles \$1308.11.

ANIMAL HUSBANDRY. President Roosevelt has solemnly promised newspaper photographers that he will give them lessons in natural history the next time he is at his Hyde Park estate. The occasion was when, as an effort was made to pose some of the livestock at Arthurdale, W. Va., with the President, one of the photographers kept shouting to "push that bull over this way." The animal happened to be a cow.

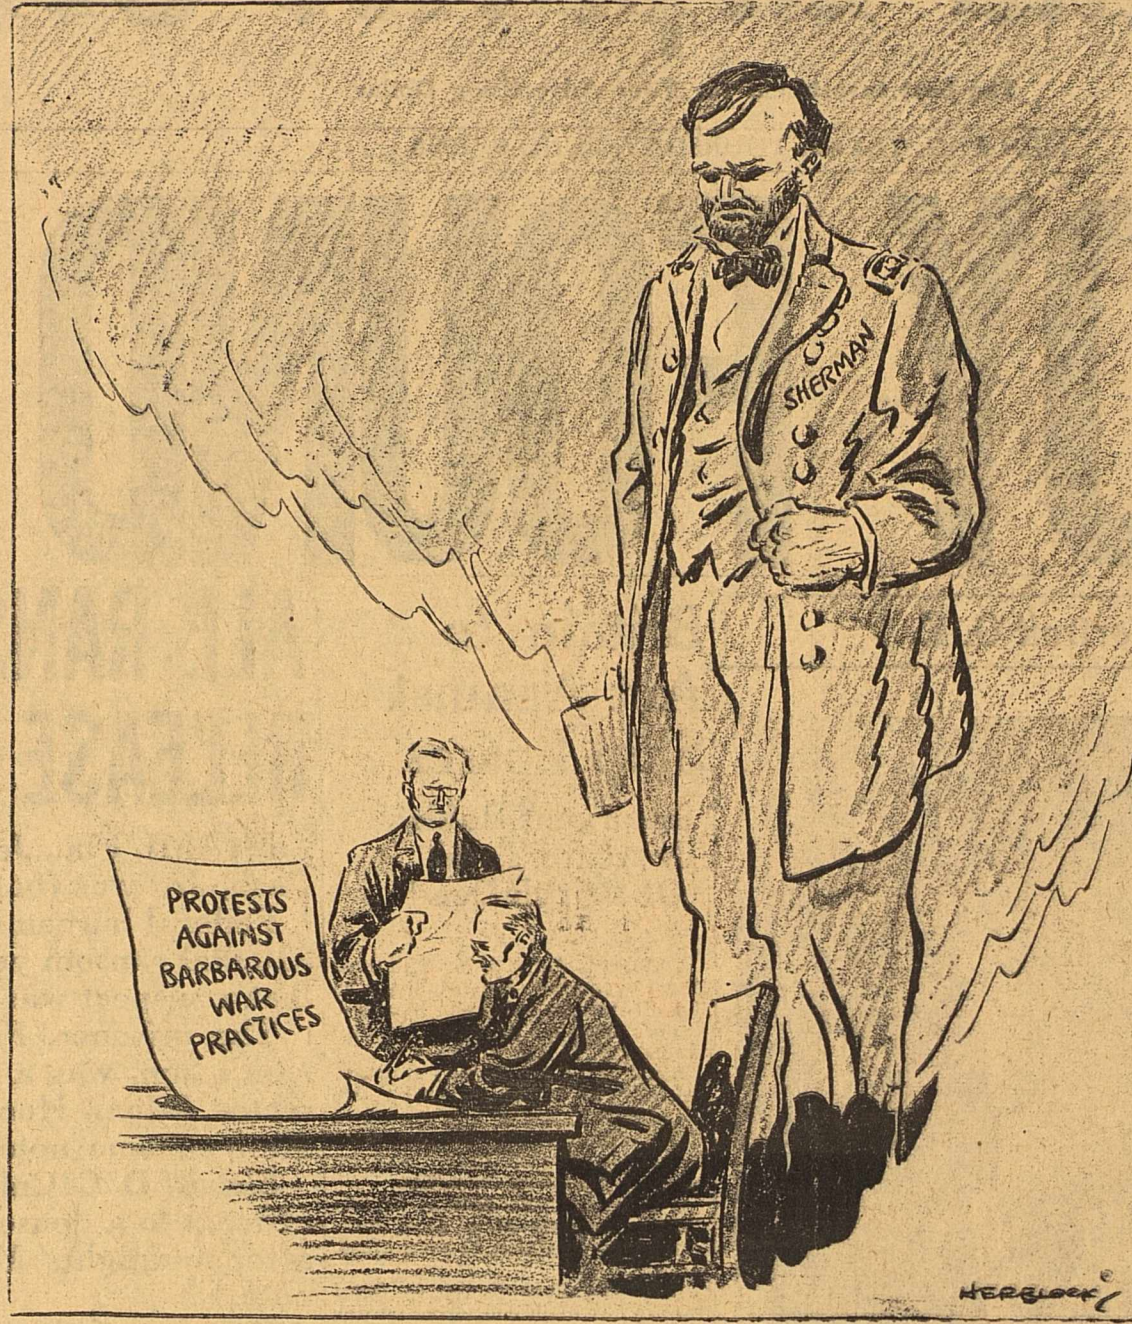

A CHAMPION FOR BLACK. Local prestige of Justice Hugo Black, recently attacked in a magazine article as judicially competent, has been boosted considerably by Dr. Walton Hale Hamilton's recent analysis of Black's opinions and dissenting opinions, appearing in the New Republic magazine. Unlike most foes and partisans of Black, Hamilton read all the opinions.

Hamilton, a Yale professor of law since 1928, is nationally known in the academic field and highly esteemed in Washington. He has been a professor of economics and of political science, a member of the National Industrial Recovery Board which replaced General Johnson, American delegate to the International Labor Office and director of the Social Security Board's bureau of research and statistics. Hundreds of his former pupils in law and economics are known as "Hamiltonians."

LEGAL NOTICE: Notice is hereby given that on March 31, 1938, J. A. Phillips Company for valuable consideration, did bargain, sell and assign to Horton & Bixler, Midland, Texas, all of its physical equipment, including desks, typewriters, adding machines, and filing cabinets, located and being in the Thomas Building at Midland, Midland County, Texas, together with all accounts receivable as of the above date. J. A. Phillips Company will no longer maintain an office in Midland, and all accounts payable to them have been assigned to the said Horton & Bixler.

J. A. PHILLIPS COMPANY By Ted Ferguson. May 19-26-June 2-9.

'I Told Them All About That in Three Words'

The Jown Quack. covers murmured, "Adam." EXPLANATION. A guest at a hotel was complaining to the proprietor: "Your lunch today was terrible. I nearly lost my appetite." "So? What was the matter?" "Well, I found a hair in the ice cream, a hair in the honey, and a hair in the applesauce." "You did? M'm, that's funny. I can understand how the hair got in the ice cream. It came from shaving the ice. And the hair in the honey probably came from the comb. But what gets me is the hair in the applesauce. I bought the apples myself and they were Baldwins."

CONNOISSEUR. "Can you tell if the defendant was expensively garbed?" "Deed she was, suh. Ah knows expensive garbage when I sees it."

HASTY CONCLUSIONS. A lady having guests to dinner told her maid to make mushroom sauce. On opening the can of mushrooms, the maid noticed a disquieting color. "Well," said the lady, "put a little on some toast and give it to the dog; if he eats it, probably it's all right." The maid did so, and reported that the dog had lapped it up and begged for more. She was instructed to serve the sauce.

All went well until the guests were having coffee, when the maid came with a white face and whispered to her mistress: "Oh, ma'am, the dog has just died." There was only one thing to do. The lady explained to her guests, called the nearest doctor to come with his stomach pump, and eight steak and mushroom dinners were removed.

Then the mistress went to the kitchen and said: "Mary, where is the dog?" "Oh, ma'am," said Mary, still white, "he is under the porch, just where he was put by the man whose car hit him."

RETALIATION. "So you and those neighbors are not on speaking terms any longer?" "No; all diplomatic relations have been suspended." "How did that come about?" "He sent me a box of axle grease and told me to use some of it on my lawnmower when I started in at 6 in the morning."

Then I sent it back to him and told him to use some of it on his daughter's voice when she sings at 11 o'clock at night."

FIG LEAVES. Oliver was careless about his personal effects. When his mother saw clothing scattered about on the chair and floor, she inquired: "Who didn't hang up his clothes when he went to bed?"

A muffled voice from under the

arts degree; and that institution in 1929 conferred an honorary master of music degree upon him. Studying for six years in Milan, Mr. Baromeo was under contract for three years at La Scala opera house there; his first audition was under Arturo Toscanini. He was a member of the Chicago Opera Company for six years before joining the Metropolitan three years ago. He will sing in Strauss's opera "Elektra" next December. Mr. Baromeo has appeared as soloist with leading symphony orchestras, in oratorio, and in major music festivals of the United States. His concert tours have brought him to Texas several times, and he has sung in all principal Texas cities. He is under contract to Columbia Concert Service. Mr. Baromeo will come to Austin with his wife and son the later part of August. He was born in Georgia and served with the American Expeditionary Forces in France during the World War.

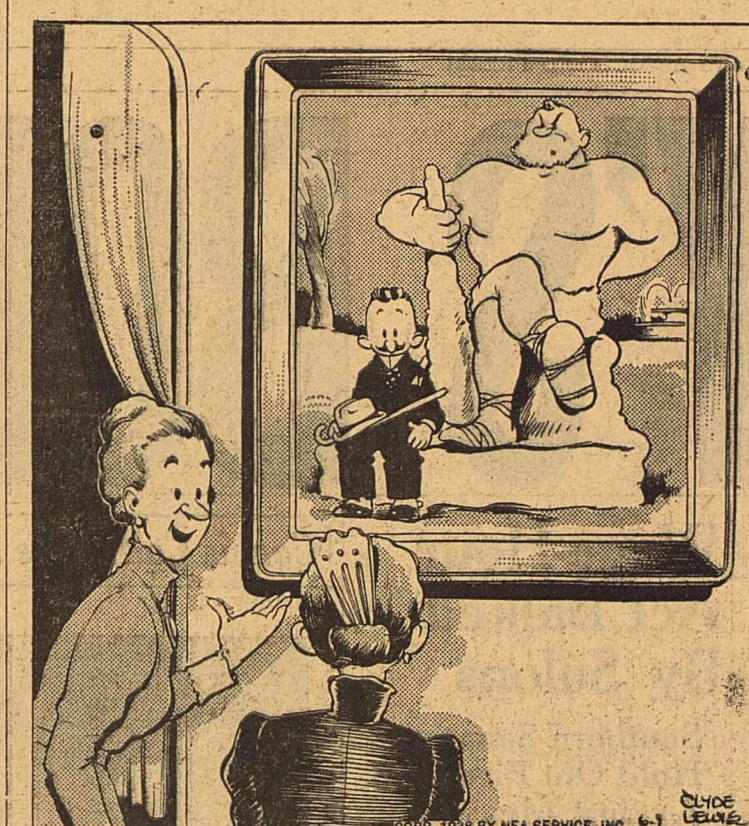

Toll Set on Tooth Ills. ST. LOUIS, U.P. — An annual toll of 40,000 deaths in America is traceable to dental neglect, according to Dr. Lon W. Morrey, director of the American Dental association's educational service.

Approximately 2000 carloads of potatoes are used in the United States daily.

Mrs. Ernest Neill Honors Bride-Elect With Gift Party

Complimenting Miss Marcella Strawn whose marriage to Elton Hinz will take place Sunday, Mrs. Ernest Neill was hostess to a shower party at the home of her father, H. B. Dunagan, 210 S. Pecos, Wednesday afternoon.

Pink roses in white vases were employed in the party rooms and introduced the color scheme chosen by the hostess.

Games pertaining to the bride were played.

Following the motif used at the announcement party, Miss Strawn was presented with a big filled with gifts from the top of which a cat's head peeped out in dramatization of "letting the cat out of the bag."

At the tea hour, the refreshment table was centered with a miniature bridal party on a mirror reflector. Plate favors were few figures of a bride and groom.

The invitation list included: The honoree, Misses Neva Rae Drake, Jane Doran, Dorothy Hines, Doris Tidwell, Kathryn Beauchamp, Dap-

Jelly-Making Is Demonstrated at Valley View Club

To make a successful jelly, you must have the correct proportions of acid, pectin, and sugar. It was brought out in the demonstration given by Miss Mary Jo Weigers, county home demonstration agent, to the Valley View home demonstration club at Mrs. Marion Holder's Tuesday.

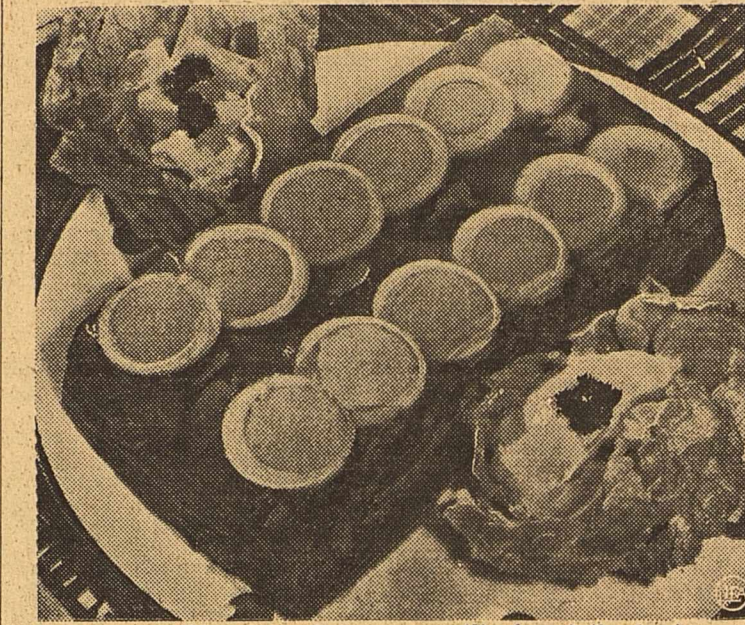

In order to be sure of having the correct amount of pectin, a test using alcohol and fruit juice was made after the juice had been extracted from the fruit.

Characteristics of good jelly were given. A good jelly should be light in color, with the characteristic flavor of the fruit. It should be tender, yet should break with a sharp cleavage line. A small amount of jelly should be cooked at a time and cooled rapidly. A plum cake was made using the fruit after the juice had been extracted.

Mrs. J. D. Bartlett conducted the recreation program.

Those present were: Miss Mary Jo Weigers, Mrs. Pres'on Vest, Mrs. Nancy Tidwell, all three visitors, and the following members: Mmes. Bartlett, Lois Lewis, N. P. Blanton, Ben-

For a "Heat Forgetter" Try Jellied Veal Loaf

Here is something to make your appetite forget the heat—a nut jellied veal loaf. It tastes as cool as it looks.

By Mrs. Gaynor Maddox, NEA Service Staff Writer.

When the weather gets too hot for your appetite, serve a "heat-forgetter." Something "different" yet nourishing, food with spirit and novelty.

Pineapple Cabbage Luncheon.

(serves 6 to 8)
One-half young cabbage, 1 green pepper, 1/2 fresh pineapple, 1/2 small white onion, 1/2 head firm lettuce.

Shred the cabbage, the green pepper and the fresh pineapple. Slice the lettuce into thin strips and mince the onion. Mix all together in a large wooden salad bowl and moisten lightly with either sour cream dressing or well-seasoned boiled salad-dressing. It's a wonderful and sustaining "heat-forgetter."

Nut Jellied Veal Loaf.

(serves 4 to 6)
Two cups veal stock, well seasoned, 1 package lemon gelatin, 1 1/2 cups chopped veal, salt to taste, 1 teaspoon vinegar, 2 tablespoons minced parsley, 2 tablespoons minced onion, 1/2 cup chopped Brazil nuts, 2 eggs, whole Brazil nuts.

Add hot stock to gelatin. Stir

until dissolved. Pour 1/3 cup into bottom of loaf pan and chill until set.

Menu.
BREAKFAST: Cherry bowl wheat cakes, honey, coffee, milk.
LUNCHEON: Rice chicken soup, cabbage and pineapple-salad, toasted French rolls, frosted cup cakes, tea, milk.
DINNER: Nut jellied veal loaf, creamed potatoes, spinach, tomato and green pepper salad, lemon meringue pie, coffee, milk.

Add veal, salt, vinegar, parsley, onion and Brazil nuts to remaining bottom of the loaf pan with the sliced, hard-cooked eggs, and a few whole Brazil nuts.

Pour in veal mixture, and chill several hours, until set. Unmold and serve with lettuce, and mayonnaise.

For special occasions, when a larger quantity is needed, a well-seasoned tomato jelly may be poured into the mold after the loaf has set. It should be chilled several hours more.

several new qualities of efficiency—material pre-shrunk, color fast, processed to resist dampness, chintzes with a permanent glaze—all designed to hold shape and to launder satisfactorily.

Add grated cheese and minced onions to creamed eggs. Serve mayonnaise as a sauce on hot vegetables. Sprinkle a bit of nutmeg over sauce used with hot cauliflower.

Added chopped chives or onions, minced sweet pickles and a little finely-chopped pimiento to cottage cheese. Season the combination a bit more with salt and paprika—Chill and serve as is or as a filling.

Try stuffing the cases of hard-cooked eggs with shrimp salad; it's a delicious novelty for your canape tray. You may also serve several on lettuce, topped with salad dressing.

Spread slices of leftover cake with dried fresh cherries mixed with diced pineapple. Let the combination chill for several hours. Then serve it plain—or topped with a few

Two Hostesses Entertain With In-Honor Luncheon

Miss Margaret Miles, who has been honored with a series of parties since the announcement of her engagement and approaching marriage to Johnny Starr of Seagraves, was again complimented on Wednesday with a luncheon for which Miss Evelyn Phillips and Mrs. W. C. Smith of Odessa were hostesses at the home of the former, 200 South L street.

Blue and white delphinium, pink gladioli, yellow and white daisies in pastel-hued bouquets centered four small tables where a three-course luncheon was served.

Guests found their places by means of blue place-cards appropriately decorated with pictures of the oride.

Present were: The honoree, Mmes. Thomas Lee Speed, W. M. Blevins, Louis Thomas, Frank Miller, Hugh West, Ben Black, Donald M. Oliver, All Reese, Hayden Miles, Ellis Cowden, Geo. Phillips, Misses Lily Freeman and Edna Mae Elkin, and the hostesses.

broken nuts.

When buying limes, select fruit which is heavy for its size and really green. These will contain the most juice and have the best flavor.

Watch out for decay at the stem end or any sign of mold or discoloration on the skin which may affect the flavor of the fruit.

To prevent fruits and vegetables canned in glass from losing color, store in a cool dry place away from the light.

Try a bridge table shower for the bride-to-be. It's comparatively inexpensive for the guests, but will provide many useful presents. Here are some gift suggestions: Score cards, pencils and tallies, table covers, ash trays, playing cards, serving equipment for four, cocktail napkins, bridge cloth and napkins.

Wash the baby's shirts carefully. Dip them several times in lukewarm water and mild suds. Rub them gently with the fingers. Rinse them thoroughly in water of the same temperature as that used for washing and lay them flat on a towel to dry. Be careful not to pull the neck out of shape.

Breakfast or luncheon note: Select long, slender rolls, cut them in half and remove part of the centers. Spread the hollowed centers with butter. Break one egg into each half roll, sprinkle it with salt, pepper and celery salt, and add a dot of butter. Bake or broil until a white film forms over the top. Rolls may also be used as cases for creamed or buttered foods.

To keep radishes crisp and appetizing, clean thoroughly, wrap in a damp cloth or cretable bag or store in covered container in the refrigerator. Radishes for garnish should be firm, smooth, uniform in shape and bright red.

To prepare mint for storing in a covered jar, wash it well in boiling water then shake off as much water as possible and spread the mint in a shallow pan. Heat it slowly until it is well dried, then break it up with the fingers and put in in the jar. You'll have mint that may be used for flavoring sauces, meats or salads.

Flavor changes: Add chopped pimientos to cooked peas or green beans. Mix chopped green peppers and onions in egg omelets. Put a few diced sweet pickles in fish loaves.

Keep a bit of starch handy in the refrigerator during the summer to freshen summer clothes when you press them.

Flying Ambulance Ready.
SALEM, Mass. (U.P.)—Equipped with the latest rescue devices, a \$127,000 "flying ambulance" has been assigned to the local Coast Guard station. The biplane has a cruising range of 2,000 miles and a maximum emergency range of 3,000 miles.

Feminine Fancies

Men are more thoughtful hotel guests than women, generally, women hotel housekeepers report.

"Who would have thought it? Are the hotels just more lenient of their guests than the average housewife is? Or are men on their best behavior when staying in hotels?"

Whichever it is, we believe in rendering unto Caesar whatever is his, so—lets off to the men in this respect.

Speaking of hotel housekeeping, the women employed in this profession believe it offers such a field for their sex that they have actually provided university summer courses in the work.

Some women may be equal to the task of seeing that life runs smoothly and efficiently for some thousand or so guests in as many rooms so that the whole establishment is "just one big happy family." Personally we find that seeing to the comfort, cleanliness, and some degree of attractiveness in a small house for very few people, taxes all our strength of mind, will, and serenity.

To the super-woman, we leave the hotel housekeeping. Some things are too big for us and we know our limitations.

"America suffers seriously from too much vagueness" a visual education expert tells us.

And all our lives we had cherished the fond belief that Americans knew definitely what they wanted, and when, and why, and acted with decision to get it!

Our ego is always suffering a fall, worse luck. Wonder when the government will undertake, along with its other problems, that of curing America's "vagueness."

The land especially suffers from very many vague words, the educator mentioned above, says. On that score we heartily agree—whenever we read political speeches.

Mrs. Vicellio Is Hostess to Three Table Bridge Party

Mrs. Chas. T. Vicellio was hostess Wednesday afternoon to a three-table bridge at her home, 608 W. Storey.

A table centerpiece of gladioli and quaint old-fashioned flowers lent beauty to the entertaining room.

Frosted punch was served during the games and at the refreshment hour a plate featuring ice cream moulded in various flower shapes with individual iced cakes carrying out the color scheme of pink and white was served.

High score went to Mrs. M. A. Park and out to Mrs. Karl Ratliff.

Attending were: Mmes. P. A. Nelson, Ratliff, Tom Switzer, S. P. Hazlip, Chas. Sherwood, C. P. Lan-

Announcements

Friday.
Sitch and Chatter club will meet with Mrs. Jewel Hedges, 205 N. Ft. Worth, Friday afternoon at 2 o'clock.

Tapestry club will meet with Miss Juanita Boyett, 405 E. Illinois Friday afternoon at 2 o'clock.

The district convention of the Christian Endeavor will open its three day meeting here Friday.

Saturday.
Story Hour will be held in the children's library at the courthouse

BACKACHE, LEG PAINS MAY BE DANGER SIGN

Of Tired Kidneys—How To Get Happy Relief

If backache and leg pains are making you miserable, don't just complain and do nothing about them. Nature may be warning you that your kidneys need attention.

The kidneys are Nature's chief way of taking excess acids and poisonous waste out of the blood. Most people pass about 3 pints a day or about 2 pounds of waste.

If the 15 miles of kidney tubes and filters don't work well, poisonous waste matter stays in the blood. These poisons may start nagging backaches, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness.

Don't wait. Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from the blood. Get Doan's Pills.

Household Hints

Simple spreads of white cotton crinkled crepe with narrow chenille bandings and plain monograms in some bright color are cool and fresh looking for summer. Plain muslin in pastel shades with white monograms are nice, if you prefer a predomi-

nance of color.

Among new table gadgets are brown pots holding green imitation cactus, and the gold spines of the cactus turn out to be picks for stabbing olives, baby sausages and similar toothsome bits. Another pick holder is a small vase in which appear three flowers and two leaves, the pick part being at the stem end of each.

If you are making a dress, remember that pleats must be pressed before removing the bastings. As the bastings will mark, it is best to press these parts lightly first, and remove the bastings before a final, thorough pressing.

Fruit and vegetable motifs, fresh-colored and nicely spaced, printed on white linen make a pleasing kitchen ensemble—table cover, kitchen towels and clever little bib apron. It's a nice idea for a bridge prize.

MATERIALS.
Outside of beauty of pattern and color, new slipcover fabrics offer

several new qualities of efficiency—material pre-shrunk, color fast, processed to resist dampness, chintzes with a permanent glaze—all designed to hold shape and to launder satisfactorily.

Add grated cheese and minced onions to creamed eggs. Serve mayonnaise as a sauce on hot vegetables. Sprinkle a bit of nutmeg over sauce used with hot cauliflower.

Added chopped chives or onions, minced sweet pickles and a little finely-chopped pimiento to cottage cheese. Season the combination a bit more with salt and paprika—Chill and serve as is or as a filling.

Try stuffing the cases of hard-cooked eggs with shrimp salad; it's a delicious novelty for your canape tray. You may also serve several on lettuce, topped with salad dressing.

Spread slices of leftover cake with dried fresh cherries mixed with diced pineapple. Let the combination chill for several hours. Then serve it plain—or topped with a few

Midland Girl Is Graduate of Hockaday College

Following her graduation from Hockaday Junior College at Dallas, Miss Jean Bodkins, daughter of Mr. and Mrs. J. D. Bodkins, has returned to her home here for the vacation.

During her two years at Hockaday, Miss Bodkins has been active in social and campus activities of the school. She was president of the kodak club in 1937 and again in 1938 until other activities made it necessary for her to resign the office; a member of the kodak, dramatic and choral clubs; on the freshman hockey and soccer teams of 1937; a member of the staff of a school publication, the Mirror, 1938; vice president of the sophomore house in 1938; president of the Great House council for this year; a member of the student council for 1938; and secretary-treasurer of the sophomore class for the year.

She was one of the duchesses at the A & M Cotton Ball this year and was chairman of the social committee for resident students of the school.

Guests at the refreshment hour were Mrs. J. C. Velvin and Mrs. J. M. Scrogin.

Roswell Visitor Entertained at Tea Wednesday

Mrs. E. M. Whitaker entertained with a tea at her home, 1000 W. Wall, Wednesday afternoon from 4:30 until 5:30 o'clock, for Miss Frances Carper of Roswell, N. M., who is the houseguest of Miss Adale Reiger. Miss Carper was a school mate of Miss Reiger's at TCU.

Roses and garden flowers were used in the party rooms where the guests gathered for the informal tea service.

Invitation were issued to: The honoree, Adale Reiger, Fredda Pae Turner, Barbara Jean Harper, Julian Cowden, Jeanne Davis, Virginia Ford, Edythe Gene Cole, Jessa Lynn Tuttle, Jean Bodkins, Marceline Wyatt, Elizabeth Payne, Louise Elkin, Johnnie Ray Howe, Wanda Walker, Helen Droppelman, Martha Flaherty, Kitty Gene Ellis, Mary Beth Scruggs, Dorothy Lou Speed, Thelma Johnson, Lamoine Lamar, Anna Beth Bedford, Lily Freeman, Mary Jane Harper, Beulah Mae Coleman, Granada Saye, Virginia Ann Hilliard.

Greeley's Registration Found.

WHEN LIFE DEPENDS ON TIRE SAFETY

On May 30, Floyd Roberts shattered all track records for the 500-mile Indianapolis Race, averaging 117.2 miles an hour using Firestone Gum-Dipped Tires.

IT'S ALWAYS Firestone

FOR 19 CONSECUTIVE YEARS THE WINNERS OF THE INDIANAPOLIS 500-MILE RACE HAVE PROTECTED THEIR LIVES WITH FIRESTONE GUM-DIPPED TIRES

THEY said it couldn't be done — that tires could not withstand the torture of the new high speeds. Yet Floyd Roberts set a new record, at this year's Indianapolis Race, averaging 117.2 miles an hour for the 500 miles on Firestone Gum-Dipped Tires.

With the sun-baked brick of the straight-away and the granite-hard surface of the turns pulling and grinding at their tires, 33 daring drivers, every one on Firestone Tires, waged a thrilling battle for gold and glory. Never before have tires been called upon to take such punishment. Never in all the history of the motor car has tire safety been put to such a grueling test. Yet not one tire failed — not one single cord loosened — because Gum-Dipping, that famous Firestone patented process saturates and coats every cotton fiber in every cord in every ply with liquid rubber counteracting the tire-destroying internal friction and heat that ordinarily cause blowouts.

Why risk your life and the lives of others on unsafe tires? Join the Firestone SAVE A LIFE Campaign today by equipping your car with Firestone Triple-Safe Tires — the only tires made that are safety-proved on the speedways for your protection on the highways.

JOIN THE FIRESTONE Save a Life CAMPAIGN TODAY!

Softball Puts End to Fans Hunt for Economical Substitute for Baseball

First of three stories on softball, most popular summer sport.

BY JERRY BRONDFIELD.
NEA Service Sports Writer.

Seven million people will play softball this summer. More than 65,000,000 spectators will stream into parks and onto the sandlots to see the game played.

Those two facts alone are proof enough that softball a sport that has mushroomed into prominence in just the last few years, now is the most popular summer activity to be found in these United States.

From where did it come... and why? There are a lot of states in the Union that would take credit for the birth of the game, but it probably was played first in its original form in Minnesota, about 30 years ago, where it was known as "kitten" ball.

It was a novelty at first. Merely a change from regular baseball. But to sports-minded people in crowded metropolitan areas it was the germ of a great idea.

Baseball always had been the national pastime in America, but all too often in the large industrial cities there was neither the room nor financial backing available to sponsor the game. The advent of softball solved the problem.

USING LESS SPACE MEANT MORE FIELDS.

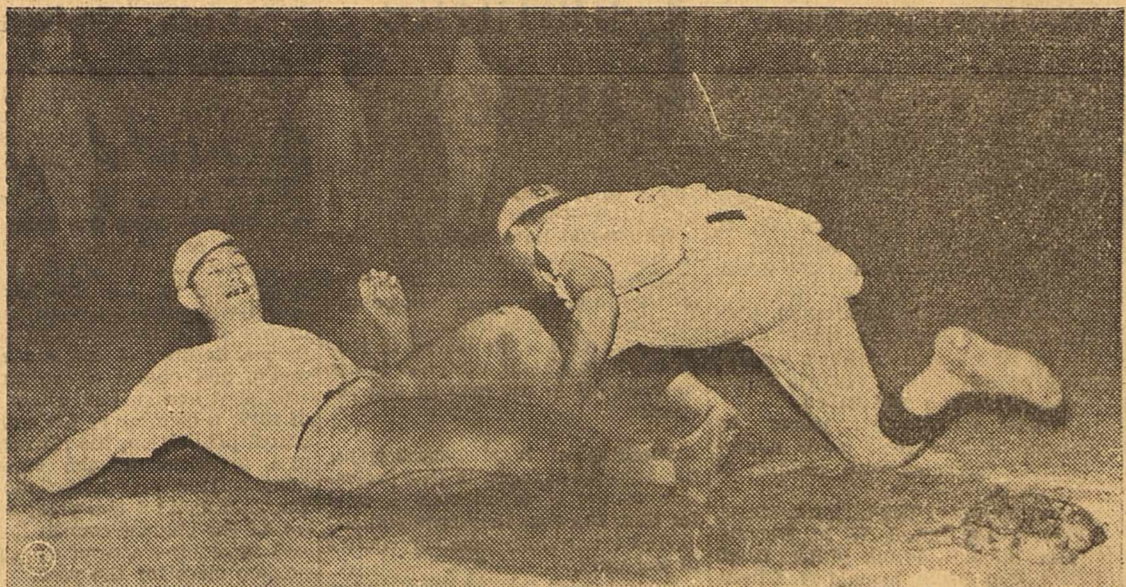

The smaller diamond used in the game meant, of course, that not as much space was required. Where only two baseball diamonds could be laid out in a public park, four softball fields could be arranged.

Where a schoolyard could accommodate only one baseball game, it could handle two softball contests instead.

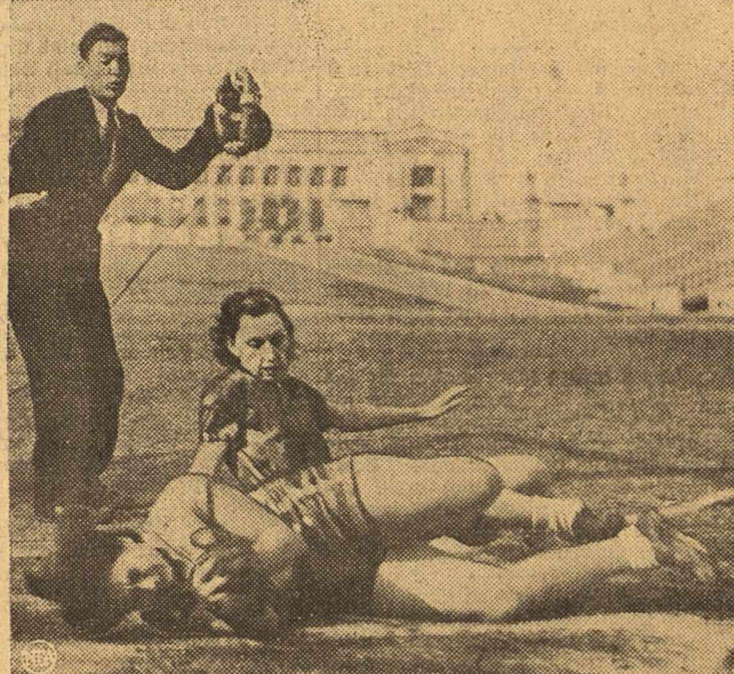

The cost of purchasing gloves a greater number of bats and other equipment was alleviated. The only man to use a glove in softball was the catcher — sometimes the first baseman — and bats and balls are cheaper than those used in baseball.

Nor did it take long to discover the sport contained just as many thrills as baseball, and took just as much skill to play.

What more natural impetus could be given the game it spread swiftly. Today, in many smaller communities where the natives actually had never seen a softball until just a few years ago, teams are being organized enthusiastically. M. J. Pauley, executive secretary of the Amateur Softball Association of America, esti-

Softball is not so soft... the runner hits the dirt.

The girls don't fool... action at the plate.

mates that by 1940 close to 10,000,000 people will be competing.

PLAYING UNDER LIGHTS ADDS COLOR.

THERE appears to be no end to the outlets for the sport. Softball has become the ideal summer competition for playground, church, industrial, and semi-professional competition.

That includes both men and women. Because a certain element of danger has been removed by the substitution of the softball for the hard baseball, girls have stamped into the sport.

Certain health advisers at first predicted the game was still too strenuous for the fair sex, but no lasting evils have been found as yet.

They've injected color into softball by playing the game at night, under brilliant flood-lights on beautifully kept fields. George Sizer, the former big league star who now is the softball imperario of St. Louis, has attracted as many as 17,000 fans to two parks in one night.

Actually, it is a faster game than baseball: The size of the dia-

CARDINALS MAKE IT TWO OUT OF THREE BY SPLIT WITH HUBBERS WEDNESDAY

The Midland Cardinals took sole possession of fourth place in the standings and were only one half game out of second place today as the result of splitting a double header with the Lubbock Hubbers here yesterday.

The Cardinals lost the first game, played yesterday afternoon, by a score of 2-8 but came back last night to win out 2-1 in one of the fastest games played here this year.

Benny Franklin gave the visitors 14 hits to lose the opener while they were limited to four safeties by lanky Cliff Neighbors in the night cap. The Cardinals were able to get only three hits off Blanchard in the

night game but they made them count for enough runs to win.

The lone Hubber run came in the ninth when Watkins connected with a fast one and drove it out of the park. Neighbors struck out 13 of the hard hitting Hubbers while Blanchard, league leading strike out artist, was whiffing 11 of the locals.

The cellar Clovis Pioneers come here tonight for the first of a two game series. The Pioneers, greatly strengthened through the acquisition of new men, have been the "hottest" team in the league for the past two weeks and has rung up two victories over Wink in the past seven games.

Oil News- CONTINUED FROM PAGE ONE

1 Iowa Realty trust, a small producer which was subsequently abandoned.

Magnolia No. 1-A McKee, in northern Pecos, this morning was drilling at 6,171 feet in Eileburger, lower Ordovician, dolomite. Mud has been bailed down to 3,800 feet from top.

In western Crane's Ordovician area, Gulf No. 8 Waddell is coring at 6,007 feet in Simpson, middle Ordovician, which it entered at 5,843.

Gulf No. 4 McKnight showed only water on drillstem-test from 3,450 to 3,650 and is drilling ahead.

North outpost to the Choate & Hogan-University pool in northwest Crockett has been started by R. H. Henderson, of Midland, on the No. 1 Standard Oil Company of Texas-University. Standard tools are being rigged up. The test is 330 feet from the south, 2,342 from the east line of section 18, block 14, University survey.

Forgeron Well Acidized.
Treated yesterday with 1,500 gallons of acid, H. S. Forgeron No. 1 Lockhart & Brown, southern Andrews wildcat, this morning was swabbing 200 feet from bottom, recovering an estimated two barrels of fluid hourly, still cut from 25 to 50 per cent with basic sediment and spent acid. The test, located 660 feet out of the northeast corner of section 20, block A-41, public school land, is bottomed at 4,483 feet in lime. It is five miles west of the southern portion of the Fuhrman pool.

Atlantic No. 1 Texaco-University, southwest Andrews test, is drilling at 4,440 feet in lime, showing nothing. Another drillstem test probably will be made tonight.

Operators of Frank S. Perkins et al No. 1 E. P. Cowden, prospective deep pool opener in southwest Andrews, announced this morning that they will run tubing tomorrow to pump in cement under pressure for squeeze job to shut off water. All perforations in 5-inch casing will be sealed by the cement. Operators believed that water is originating from 7,720-36. Casing had been perforated with 144 gunshots from 7,666 to 7,760. Two permanent Lane-Wells casing plugs, set at 7,723 and

7,714 feet, failed to shut off water, indicating that it by-passing the plugs through channels in cement between casing and walls of the hole and entering through upper perforations. A different perforation program will be used when pipe is re-perforated after cement has been allowed to set for 10 or 12 days.

Water had risen at the rate of three and one-half barrels per hour after casing had been swabbed down 4,500 feet. A considerable amount of sweet gas showed up through the column of fluid, and light green oil was also present on water. The No. 1 Cowden reached a total depth of 8,012 feet, and has casing cemented at 8,004. It is in section 14, block A-55, public school land.

Repollo 197 Hits Water.
One halter of sulphur water hourly was struck from 4,990 to 5,000, the total depth, in Repollo No. 1 State, Lease No. 197, Lea county, N. M. well four miles northwest of the Vacuum pool. Operators are now preparing to plug back to test upper shows which amounted to 20 barrels a day on swab. Location is the southeast corner of section 6-178-34e.

Ted Weiner et al No. 1 C. M. Parcel, southeastern Lea wildcat, logged slight showing of gas at 4,125 feet and is drilling ahead at 4,175 in lime. It is in section 5-238-38e.

Walter Reed, famed conqueror of yellow fever in Cuba, received his M. D. at the age of 17.

Screwworm Warning Is Given Stockmen

COLLEGE STATION. — "Prepare for the screwworm in great numbers," R. R. Reppert, entomologist of the Extension Service at Texas A.&M. College, has warned Texas ranchmen.
 The Bureau of Entomology and Plant Quarantine of the U. S. Department of Agriculture has forecast a severe infestation probably worse than that of 1935, in many parts of the Southwest, especially Texas and Arizona.
 The screwworm fly has started earlier than ever before. The infestation in extreme Southwest Texas has been held down by dry weather during the first part of the season, but the weather in other parts of the state has favored the rapid development of the insect.
 The best way to protect livestock from screwworms, Reppert points

out, is to examine animals frequently so that wounds may be treated before they are seriously infested. Many ranchmen report that they have found it advisable to hold wounded or infested animals in small hospital traps, located on a high, open part of the range where flies are less abundant.

Reppert endorses the Bureau's recommendation for killing the maggots. The procedure is to treat the infested wound with 90 per cent commercial benzol. The wound is then plugged with clean cotton saturated with benzol. Reinfestations is prevented by lightly covering the area around the wound with dehydrated pine-tar oil of 1.065 specific gravity.

The advantage of benzol over most patented medicines lies in its low cost and in the fact that it does not cause shock to animal tissue. It does not deteriorate with age but is highly inflammable and will evaporate readily. It is this last property which makes it valuable in screwworm control, for the maggots are killed not by the liquid but by the fumes.
 Reppert also emphasized that the common pine-tar oil will often burn the animal while the dehydrated form will not.

Personals

Mr. and Mrs. Marshall Hinds and son, Billy Don, of Fort Worth arrived in Midland Wednesday for a visit with his parents, Rev. and Mrs. W. C. Hinds.

Mrs. C. W. Garrard and children, Betty and Billie, left Wednesday for their home at Fort Worth, after a visit with her parents, Rev. and Mrs. W. C. Hinds. Another grandchild, William Lawrence Ehrle of Childress, has also been visiting Mr. and Mrs. Hinds.

Mrs. W. O. Wood of Winters is visiting her son, S. D. Wood, and his wife.

Elmo Smith, Glenn Jones, and James Bryan are on a fishing trip

to Blalock Lake today.

Betty and Mary Jo McCarter visited their grandmother, Mrs. W. H. Thomas, in Midland county last week. Muriel Floyd of Big Spring is visiting her this week.

Mrs. Pearl Locklar returned Wednesday night from a trip to Amarillo.

Miss Hannah Bates is a visitor from Odessa today.

C. E. Buchholz returned to his home at Pecos today after a visit with his daughter, Mrs. Addison Wadley. He made a trip to Llano, accompanied by his grandson, Barron Wadley, during his visit here.

Mrs. J. D. Hicks has returned to Dallas after a visit with her parents, Mr. and Mrs. W. G. Shirey. Her sister, Rose Beth Shirey, accompanied her to Dallas and will visit in Mineola also before returning home to Midland.

Miss Mittie Lee Allen arrived in Midland Wednesday night for the summer vacation. Following the close of the school term in El Paso where she has been teaching, she visited in New Mexico and the Pan-

handle before returning here.

Mr. and Mrs. Joe Peercy and two children, Betty Jo and Robert, left today after a visit with her brother, H. A. Sheldon and Mrs. Sheldon. They probably will visit in the Panhandle en route to their home at Chelsea, Okla.

Miss Frances Carper of Roswell, N. M., is the guest of Miss Adale Reiger. They were both students of TCU.

Mr. and Mrs. W. R. Upham and children plan to leave today for Concord, Calif., where they will visit her parents. While away, he will attend the Rotary convention at San Francisco.

Corpus Naval Post Being Considered

WASHINGTON, (AP). — It is not generally known, but the war and navy departments have under consideration a proposal by Rep. Kieberg (D-Tex.) that a military-naval post be established at Corpus Christi.

Data submitted to the departments by Kieberg in support of his proposal will be turned over to a board soon to be appointed in accordance with provisions of the naval expansion act approved May 17 by the President.

The board will make reservations as to "the need" for the purpose of national defense, for the establishment of additional submarine destroyer, mine and naval air bases on the coast of the United States, its territories and possessions." Secretary of War Harry H. Woodring has informed Kieberg that he personally will consider the matter.

The Texan set for six principal reasons why he believed Corpus Christi was an important and strategic site for the proposed military and naval developments. They follow:

(1) Measurements in air line distance would indicate that Nueces Bay, adjacent to Corpus Christi, is nearer to the Pacific coast line at San Diego, Calif., and to the important port of Acapulco on the Pacific coast line of Mexico, than any other body of water, connected with the Gulf of Mexico and the Atlantic ocean within the confines of continental United States.

(2) The port of Brownsville, Texas, is nearer to Acapulco, but is located at a greater distance than Corpus Christi from San Diego.

(3) By reason of its location Corpus Christi occupies a position of strategic importance if it is to be considered as a potential site for (a) Naval seaplane base, (b) as the location for a munitions depot for both land and sea planes, (c) as a refueling base for both land and sea planes.

(4) Sea planes flying to the Pacific, with either San Diego or Los Angeles as their destination, could land in emergency at Carlsbad, N. M., the Elephant Butte reservoir in New Mexico, the Roosevelt dam reservoir in Arizona, and the Salton Sea, Calif., or if their objective might be San Francisco, at the Boulder Canyon lake on the line between Nevada and Arizona.

(5) Corpus Christi is sufficiently removed from the Mexican border to make it a dependable location. It should also be a properly equipped and defended location. (a) Here is located a great and modern chemical plant, convertible in emergency to the objective of manufacturing high explosives. (b) Nearby and served by the port is an area which abounds in natural resources necessary for national defense. (c) The port is

At Pekin Manslaughter Trial

Pictured here are principals in the Pekin, Ill., manslaughter trial of 22-year-old James Crabb, lower right, charged with the fatal shooting of his bride of five weeks, Betty Collison Crabb, upper left. Parents of the slain wife, Mr. and Mrs. Louis Collison of Champaign, are pictured at upper right. Crabb's mother, Mrs. Elizabeth Crabb, and his father, Willis Crabb, Delavan banker, are pictured at lower left. The parents have testified on opposing sides in the trial, in contrast to the recent Donald Carroll case in New York in which the two families united in defense of the accused boy.

FACTS ON VISION CONFLICT.

HUMBOLDT, Cal. (U.P.). — F. A. Davis, of the California highway patrol, whose duties include the examination of eyes of applicants for driving permits, would like to know just what geography has to do with vision. In Northern California he finds that 85 per cent of

the applicants have perfect vision while in Central California only 20 per cent.

The bichir, sole survivor of a fish family that lived millions of years ago, has a series of separate fins, or finlets, along its back, and is clothed in tile-like, enamel plates.

Britain Shapes Work for All

LONDON (U.P.). — A \$5,000,000, 000 five-year plan to abolish unemployment in Great Britain, where there are still 1,500,000 jobless, is being drafted by the British government.

Government experts are now drawing up the full framework of the plan scheduled to go into operation at the beginning of 1939.

The main difficulty has been to co-ordinate plans for the future with the pressing work on rearmament and defense. While for the next two years defense works will have priority, the scheme for finding work for all unemployed will be put into effect simultaneously.

Unskilled labor forms the greater proportion of Britain's jobless. One of the tasks of the experts working out the government plan is to provide means of fitting the unemployed to their part in industry. To provide this training, the government is planning to open schools for workmen in various sections of the country. The cost of the scheme probably will be met partly out of the Unemployment Insurance fund.

Reports by the committee of imperial defense has shown that defense work is being held up in many cases by public work schemes put in hand by local authorities. The government now has decided that all public works for the next five years will be scheduled in order of importance, and the government will decide in what order they will be carried out.

Star Embroiderer

Mischa Auer, the movie comedian, tends to his embroidering between scenes in "The Rage of Paris." His reply to the curious: "Why shouldn't I embroider if I want to?"

Caddies to Study English.

DEL MONTE, Cal. (U.P.). — Caddies on the club of this city are to be taught to out-English the English when it comes to English. A school has been opened where they will be taught to convert such expressions as "Dis ball is yez; dat one ain't" into "I believe sir, this ball is yours, but that one is not."

AIR RESEARCH AUTHORIZED.

CANBERRA, (U.P.). — The Federal government has decided to spend \$1,000,000 on the erection and equipment here of permanent aeronautical engineering and research laboratories.

There are about 30 pet cemeteries in the United States.
