

Candidates 'Open Up' in Final Week

Governor's Race Interest Gains As Deadline Near

By Associated Press.
The battle for the Texas gubernatorial nomination was being waged on widely-separated fronts Saturday as the candidates drove down the stretch in search of their share of the estimated 1,000,000 votes that will be cast next Saturday.
Three of the aspirants—carried their ballot-designing phrases into East Texas where Karl Crowley, Tom Hunter and Ernest Thompson renewed pledges to deal with the corporations and monopolies to the best interests of the citizenship and to see that any waste of public funds is stopped.
William McCraw swung thru Texas and W. Lee O'Daniel, the Ft. Worth flour man, left the Rio Grande valley for South Texas.
O'Daniel, about whom most of the talk has concentrated the past few days, continued his blast at "professional politicians" and his declaration he was favorable to labor.
Thompson, speaking at Lufkin last night, said he would leave mud-throwing and wisecracking to the other fellow and that he wanted support on the merits of his program for economic development of the state and correction of asserted evils in government administration.
Hunter at Beaumont lashed at McCraw and Thompson, charging they had doubled their departmental expenses as attorney general and railroad commissioner, respectively, during the past two years, and attacked O'Daniel for not having paid his poll tax.
Crowley, also speaking at Lufkin, ridiculed the candidacies of three other aspirants, terming McCraw and Thompson "the political stooges of the great corporations" and declaring O'Daniel was an Ohio Yankee who drifted down to Texas, became a radio announcer and finally ran for governor "because he could not get a job."

She's Lindsome

Elinore Hoagland, secretary of Edward Lund, engineer on the Howard Hughes flight, admitted she and Lund "had dinner together several times a week," but was unwilling to confirm reports of their engagement. She was anxious for him to return, she said, because it's lonesome at the office of the airplane brokerage company, where Lund is general manager, at New York's Floyd Bennett Field.

Reporter-Telegram Election Party to Be Given Saturday

Increasing interest is being shown daily in the election party that will be held by The Reporter-Telegram next Saturday night. Results will probably be announced over a loud speaker system as rapidly as they come in and will be posted on a large board in front of the office.
The party will officially open at 8 o'clock, at which time the first on county voting will be available. Each hour afterward, a count on county voting will be given. Reports on state races will be available each half-hour beginning at 8:30. Returns on all district and state races will be coming in intermittently until 1:30 a. m. Sunday morning and will be posted as fast as they arrive.
Because the office telephones will be "tied up" most of the time Saturday night on long distance calls, residents are requested not to call asking for information. The entire half block west of the newspaper office will be roped off and reserved for persons desiring to see the returns as they are posted.

Another Million Allotted for Dam

WASHINGTON, July 16 (AP).—Public Works Administrator Harold Ickes announced today allocation of \$1,250,000 to the bureau of reclamation for widening the base of Marshall Ford dam on the Colorado river. Under allocation, the dam construction will be simplified.

LEAVE FOR NEW MEXICO.
J. C. Hudman and family are leaving today for a 10-day trip to Albuquerque and other New Mexico points.

TO SEMINOLE.
C. A. McClintic and H. L. McClintic made a trip to Seminole Friday.

Will Probe Misuse of Relief Cash

Senator's Race in Kentucky Object of Committee Action

WASHINGTON, July 16, (AP).—The senate campaign expenditures committee uned took today to determine the truth of charges that public funds were being misused in the heated Kentucky primary contest between Senate Majority Leader Alben W. Barkley and Governor A. B. "Happy" Chandler.
Chairman Sheppard (D-Tex.), asserting the committee would make a thorough investigation, said the inquiry would be completed before the democratic primary Aug. 6 and would cover "the entire situation there."

Sheppard's statement was accepted generally as meaning the committee would include in its investigation the handling of relief funds, disregarding the earlier inquiry by the Works Progress Administration. After the WPA inquiry, Administrator Harry Hopkins said only two minor instances of improper political activity by WPA employees were disclosed.

The senate committee was considering today an investigator for the inquiry. Sheppard said "the best man possible" would be selected and given authority to question any officials, subpoena witnesses and conduct hearings.

The committee decided on the Kentucky investigation yesterday on its own initiative. At the same time it voted to inquire into charges of an undisclosed nature regarding the Pennsylvania senatorial campaign.

It disclosed, too, that an investigation already was underway in Tennessee, but committee members would not discuss what prompted it.

Senator Berry (D-Tenn.) is opposed to renomination by a field that includes Tom Stewart, Winchester; J. Ridley Mitchell, Cookeville; John R. Neal, Knoxville; and Edward W. Carmack, Murfreesboro.

Japanese Financial Situation Becomes Acute, Officials Say

TOKYO, July 16 (AP).—A resolution urging the Japanese government to use gold and specie reserves to purchase raw materials was adopted today by the central price policy commission.

Foreign observers called the resolution probably the most ominous sign of financial distress since the China conflict started a year ago.

If the government commandeers its specie reserve it is expected the money will be largely used to import cotton.

Taxable Properties in State Increase

AUSTIN, July 16 (AP).—A preliminary estimate of state taxable values for the coming year show an increase of \$67,253,330 over the current year, Comptroller Sheppard reported today.

LEAVE TODAY.
Mr. and Mrs. Oliver Haag are leaving today for a two-weeks' vacation trip. They will go first to Lubbock where they will join her twin sister, Mrs. L. S. Everett and husband, and the two couples will go to an unannounced destination.

Owned an Empire—

Former Utilities Chief Succumbs

Hizzoner Congratulates Tired, Happy Airmen

Unshaven, weary, but still able to muster smiles, Howard Hughes and the four men who accompanied him on his record-breaking round-the-world flight are pictured above receiving the congratulations of Mayor F. H. LaGuardia of New York City, who was on hand to greet the plane when it landed at Floyd Bennett field. Pictured, left to right, are: Edward Lund, flight engineer; Lieut. Hiram (Tommy) Thurlow, co-pilot; Harry P. Connor, navigator; LaGuardia, and Edward Richard Stoddard, radio engineer.

Missionary Will Talk Tonight at Christian Church

The missionary program in helping build the new China, Christian service during war time in China, and the reaction of the Chinese to the missionary message will be discussed by Dr. O. J. Goulter in a sermon at the First Christian church this evening at 8 o'clock.

The speaker will also show motion pictures depicting rural life in China and the missionary program and some war pictures.

For fifteen years a missionary of the United Christian Missionary society of the Christian church in China, Dr. Goulter is described by Rev. J. E. Pickering, pastor of the First Christian church here, as "a most influential missionary and a power in the religious life of China." The visiting speaker has also done famine relief work and has administered a rural extension project for the Chinese government. He will return with his family to China in September to work in the devastated area from which the Japanese army has just driven the Chinese government and its defenders.

He has been attending the youth's conference at Big Spring. The public is cordially invited to attend Dr. Goulter's sermon and pictures this evening.

TO BROWNFIELD.
B. L. Crites, linotype operator at the Reporter-Telegram, will leave Tuesday for Brownfield, where he will spend a few days.

Osage Moving In Derrick For Central Gaines Wildcat In 281

By FRANK GARDNER.
Derrick material was being moved yesterday for a new wildcat in central Gaines county, Osage Drilling Company No. 1 B. E. Miller. Location was staked 1,980 feet from the north and east lines of section 281, block G, W. T. R. R. survey. Contract depth of the test is 5,300 feet. It is on acreage farmed out by Sun Oil Company originally to Charles Everest, of Lubbock, who turned the tract to Osage in return for small cash consideration and small override. No. 1 Miller is two and a half miles northwest of J. L. Frick and Osage No. 1 Atlantic-T. S. Riley, producer which recently extended the Seminole pool four miles northwest.

Failure loomed for J. T. Perryman, Jr. No. 1 C. H. Doak, northeastern Gaines wildcat west of Cedar Lake, as it showed two ballers of water hourly, probably sulphur water, in drilling to depth of 5,097 feet in lime, where a fishing job for lost tools is now underway. When total depth was 4,994, the well had replaced rotary with cable tools after cementing 7-inch pipe at 4,707. Following drilling of plug it was tested, and hole had since been making about a baller of water hourly, but it was thought probable that this was rotary, drilling fluid which had entered formation and was slowly coming back in the hole. However, a noticeable increase in water was found at 5,060, and hole was making a full two ballers hourly when depth of 5,097 had been reached. Scouts reported that the water would tarnish a silver coin.

Riddle & Warr No. 1 J. B. Brown, northeastern Gaines' other active wildcat, is drilling below 5,275 feet in anhydrite and lime. Core from 5,261-73 was anhydrite, lime and streaks of shale, with no saturation or porosity evident. No. 1 Brown is eight miles west and two miles north of the Perryman test, Gill Tops Solid Lime.

Solid lime was topped at 4,750 feet, datum of minus 1,128, by Ralph H. Gill No. 1 Gulf-S. J. Dixon, southeastern Yoakum wildcat two and a half miles northwest of the Bennett pool. On the marker, it is running 30 feet lower than the Honolulu-Cascade No. 1 Bennett, discovery well in the pool, which topped solid lime at 4,858. Datum of minus 1,098, and 73 feet lower than T. P. No. 1 Bennett, west side well, which topped it at 4,618, datum of minus 1,055. Re-check on top of Yates in the Gill well, originally picked at 3,260 or 3,270, showed it to have come in at 3,330, better information on the section having been afforded by the lower, more reliable lime markers. No. 1 Gulf-Dixon is 2,200 feet from the north, 440 from the east line of section 661, block D, J. H. Gibson survey.

In the pool, Honolulu No. 6-677

Sam Insull Is A Victim of Heart Attack

Properties Owned By Him Totaled 4 Billion in 1929

PARIS, July 16, (AP).—Samuel Insull, 78, fallen \$4,000,000,000 ruler of Midwest Utilities empire, died suddenly early this afternoon. Officials said he collapsed from a heart attack in a subway train. Insull was taken by subway employees to the nearby Paul-Marmottan emergency hospital in the Ettoile district.

Mrs. Insull, in a state of collapse when she reached the hospital, said that when she left their hotel apartment at noon the aging mate told her he was going to write a few letters and then go to lunch. "I had told him never to take a subway because it was bad for his heart," she said weeping.

First reports when the former financier's body was brought to the hospital said he had been killed in the street by a hit-and-run driver.

Police however, said a heart ailment from which he had suffered for several years had proved fatal.

After collapsing when she saw the body, Mrs. Insull received restoratives and then at once sent a cable to her son, Samuel, Jr., in Geneva, Ill., notifying him of his father's death.

Insull only last Monday reached Paris which four years ago was the first stop on his dramatic cross-Europe flight to evade embezzlement charges growing out of collapse of his utilities empire in 1932.

This time he was on a pleasure trip to visit Mrs. Insull.

The eyes of the world were focused on Samuel Insull when his vast utilities empire—once valued at \$4,000,000,000—collapsed in 1932. Removed from control of his extensive properties in June of that

Succumbs

Samuel Insull

year, he retreated to Europe as the government and the state of Illinois examined his complicated affairs.

He was charged with using the mails to defraud and violation of the bankruptcy act. While steps to return him were in progress, the power baron fled to Italy—thence to Greece and Turkey—but eventually was seized and brought back to the United States.

With 16 associates, he went to trial in the federal court in Chicago on the mail fraud charge. After a lengthy hearing, fraught with details of Insull's frantic battle to keep his companies in operation, they were acquitted on Nov. 24, 1934.

Insull subsequently was freed in the bankruptcy case, too. Later the state tried Insull and his brother, Martin, on embezzlement charges. Again, they were freed by a jury.

Through all the litigation, Insull maintained he had acted only in the interests of his companies.

Patrols Tighten Grip on Haifa as Strife Continues

JERUSALEM, July 16 (AP).—Military patrols tightened their watchful grip on the excited Haifa area today as the aftermath of a battle in which American-Jewish home-steaders defended their village of Ainhashophet.

In American frontier fashion, villagers beat off an attack lasting one hour. A bomb spread terror to an area where three Arabs were wounded in an explosion.

TO MISSISSIPPI

Rev. W. J. Coleman will leave today for Biloxi, Miss., where he will do some fishing. He will join Mrs. Coleman and their children and the family will go on to Pensacola, Fla. They will return by way of Georgia, Tennessee, North Carolina and Alabama and plan to reach Midland about the middle of August.

Roosevelt Speaks Of McAdoo Ability In Los Angeles Talk

LOS ANGELES, July 16 (AP).—President Roosevelt told a cheering crowd in the Los Angeles central station today he hoped Senator McAdoo would be re-elected. The president's special train arrived from El Portal at 9 o'clock this morning.

The president said last March there was a question about McAdoo seeking a new term. "I wrote him I hoped very definitely he would run for the senate and by that I meant I hoped he got elected, too," the president said.

Two Lose Lives in Head-on Collision

AUSTIN, July 16 (AP).—A negro man and woman were killed and six persons injured, one seriously, in an automobile crash four miles south of here on the Bastrop highway today. Highway patrolmen reported an automobile driven by Roosevelt Benford, negro, Westlake, and one by V. L. Hullum, Goose Creek, crashed head-on.

Building Permits Soar as Many Homes Like These Pictured Continue to be Built Here

Midland building permits continued to be issued at a steady pace during the past week, a total of \$11,565 worth being recorded by City Building Inspector Frank Prothro. Added to last week's total, it shows for the month \$21,390 worth have been issued. For the year, a total of \$683,047 has been recorded.

Most of the permits issued during the past week were for small residences, although one permit, issued to W. L. Douthit, called for construction of a \$4,865 residence. At least a dozen residences are now under construction, and several others are to be started within the next few weeks.

Contractors are rushing work on

several buildings in the city with the expectation of starting others. A considerable increase in building permits is expected to develop in a couple of months, although the hot weather let down in construction here has been negligible.

Work on the new eight-story office building is being pushed and two floors of the building have already been laid. Plans of officials call for one floor a week to be completed, and they are reported to be a few days ahead of schedule now.

The paving program recently inaugurated by the city is being carried on rapidly and is to be expanded just as soon as petitions being circulated on several streets recommending paving are turned in.

In a move that will preclude the possibility of a low water supply this summer, a new 300,000 gallon tower has been completed by the city and customers are now using water from it. With the other tower, capable of holding 100,000 gallons, officials are capably prepared to handle any emergency that might arise. In connection with the building of the new tower, officials pointed out that Midland residents are using approximately 1,500,000 gallons of water a day during the summer months. Lack of regular rainfall has increased the amount used this summer, but there is no possibility of a water shortage.

While building permits continue

to climb, without a summer slump in Midland's era of steady, substantial growth and construction, new homes are being completed regularly, the new owners moving in and making room for additional citizens. Despite the hundreds of new homes, desirable apartments and houses still are scarce, and only a few are available each week.

The Reporter-Telegram's cameraman this week selected a variety of newly completed homes, showing different styles of architecture, materials and construction. In the top row, left to right, are: (1) the new brick home of Mr. and Mrs. John Dublin at the corner of West Missouri and South F streets; (2) the white brick home of Mr. and Mrs.

A. W. Wyatt, just occupied, in Elmwood addition; (3) the brick home of Mrs. Vogel, on West Texas avenue, occupied last week; (4) the two-story home of Mr. and Mrs. Hal Peck, on West Missouri, recently occupied. On the bottom, at right, is the new apartment house of Mrs. W. C. Cochran, one of the most modern in this section of the state.

Mrs. Cochran's home comprises the entire lower floor, two luxurious apartments, being located on the second floor. To the left is shown her apartment house built about ten years ago and to the right is the Rountree boarding house.

Mexico to Decide On Oil Payments

MEXICO CITY, July 16 (AP).—The Mexican government is expected to name within a week or so the amount it will pay 17 American and British oil companies for properties expropriated March 19 by the government.

President Roosevelt said at a press conference a government-directed inventory would be completed by then and a proposal for indemnity on a ten-year basis would follow. It was believed the government's appraisal would fall far short of the companies' \$400,000,000 estimate of the holdings.

BEHIND THE SCENES IN WASHINGTON

WASHINGTON, July 16. — It's a long way off, but you can chalk it up as a strong probability that the Republican party will insist on holding its 1940 national convention after the Democrats have had theirs.

Heretofore the G. O. P. has met, nominated candidates and framed its platform first. Now some party leaders are suggesting an announcement early in 1940 that Republicans will begin their convention two weeks after the Democrats, regardless of when the latter meet.

Chief danger in that would be that the Democrats might push their date back to late summer or early fall, leaving the opposition party little time to build up its presidential candidate before election.

The proposal is based largely on a supposition of many Republican strategists that President Roosevelt will be nominated for a third term, that in any event he will control the Democratic convention, and that a substantial group of anti-New Deal Democrats will bolt.

The Republicans want to be in position to welcome such bolting Democrats with open arms, bands playing and banners flying. Already there is much discreet talk about Senator Burton K. Wheeler of Montana as a possible Republican vice presidential candidate—or even as a long shot possibility to head the ticket.

SEC has a new and unique rule under which it permits itself to disqualify accountants, auditors, engineers and other agents from practicing before it or working on securities registration statements.

The idea is chiefly to hold big Wall Street accounting firms responsible for accuracy and truthfulness in such statements and the effect would be to give a public black eye to offenders. The rule was adopted only after some debate in executive session. An anecdote clinched it.

"This has never been done before," objected on cautious commissioner.

"Once there was a little girl drawing a picture," replied another commissioner. "They asked what she was doing and she said she was drawing a picture of God."

"But nobody knows what God looks like," she was told.

"Well, they will when I'm through," the little girl retorted. "That ended the argument."

ROOSEVELT REPUBLICAN.

Politics was mixed into appointments in the five-man Civil Aero-

nautics Authority—along with Roosevelt's persistent desire to recruit able big business men as New Deal administrators. Chairman Edward J. Noble is a millionaire Republican and was named as one of the two Republican members. But he has been an admirer and supporter of Roosevelt for eight years.

A farmboy in upstate New York, Noble went to New York City, got into the advertising business and put millions of ads in subways. He thought of making candy with holes in it and at 56 is chairman of the Life Savers Corporation as well as an officer of banks and other corporations. At the height of the 1928-29 boom he sold out the candy corporation to a big drug combine; after the boom he bought it back at about half the price he had received. He became a private aviation enthusiast, has his own plane and an airport at his Thousand Islands estate. Recently he put most of his fortune into an educational fund for boys and decided to devote himself to public service.

After setting up machinery for supervising and regulating all phases of civil aviation, Noble is more than likely to be promoted to another big New Deal job.

POLITICAL BACKFIRE. Roosevelt's appeal to Kentucky voters for Senator Alben Barkley on the ground that he would be more valuable to the senate than Gov. "Happy" Chandler because of his long senatorial service may boom.

Most of the Democrats whom the President wants to purge from Congress are old-timers who have acquired committee chairmanships and much influence and prestige through seniority.

Canada's Birth Rate Shows Steady Decline

OTTAWA, Ont. (U.P.). — A steady decline in the Canadian birth rate has been noted since the World War and the figures recently released for 1936, the last year in which 12 months' statistics are available reveal a lower rate than ever before.

The birth rate in 1921, exclusive of the Yukon district, and the Northwest Territories, was 29.4 for each 1,000 of population. In 1936 the rate had decreased to 20 for each 1,000 of population and information from the statistics available for 1937 indicate an even lower rate for last year. The figures, which covered the first nine months of the year, showed a percentage of 10 for each 1,000 of population.

The New Budget Estimates Are Out

First Stars as Seen at Night

Flashing a couple of smiles that would brighten any movie sequence, Norma Shearer and Tyrone Power swing along the flower-lined walk leading to the Cathay Circle theater in Hollywood to attend the premiere of their new picture "Marie Antoinette." Miss Shearer, who will play Scarlet O'Hara in the movie version of "Gone With the Wind," and Power are the stars of the new film. A crowd of 25,000 watched movie bigwigs parade to the premiere.

American Recovery Calculated by Babson To Head off World Depression; Prosperity For World Best Weapon Against Nazism

By ROGER W. BABSON
(Copyright, 1938, Publishers Financial Bureau.)
ST. LOUIS, Mo., July 16.—It seems strange to be writing out here on European conditions, but I am moved to do so by the peculiar attitude of my friends in the central west. There are facts about the foreign situation which must be recognized. We are now buying abroad only half the goods we were last year. In turn, foreign buying of our goods has dipped 20 per cent under the highs of six months ago. This means that the recession, at first confined to the United States, has been spreading over the world.
The "turn" for the better in American business, however, has now come. With the United States such a powerful factor in world business, this means that there is a good chance of preventing another depression from sweeping the entire globe. A period of bad business in Europe at this time might easily touch off a new world war. Belgium is already recovering after her spectacular slump of last summer; but France, the Netherlands, England, and Italy are suffering from dull business. Czechoslovakia and Poland are feeling the European recession, while the break in commodity prices has been raising havoc with the more primitive countries. Austria First Step.
Germany, however, is apparently holding her own. Austria, since her

mechanizing industry, and modernizing agriculture.
Rome-Berlin to Split.

Sometime during the course of this German march toward the Black Sea a new alignment of the powers will take place. Italy and Germany are not natural allies. They have always been on the opposite side of the fence in the long list of European wars. The present "Rome-Berlin axis" is unnatural. Frightened by Germany's growing power, Italy will, in the end, really herself with England and France. But Germany has a great genius for organization and efficiency. With control over the Danube, over the Hungarian plains, and over central European sources of raw materials, she may be a match for any combination of Old World powers that can be arrayed against her.

To stay on top, England will have to pull out of the bag all the tricks she has learned through centuries of diplomatic trading. One reef on which this new German drive may be wrecked is internal strife in the fatherland. All sections of Germany are not militaristic. The big state of Prussia is the one that loves the saber-rattling. The question is: Will the other parts of Germany continue to goose-step for the Prussians? Internal trouble, however, could bring on a terrible war. In a desperate effort to hold all factions together, the Nazis might provoke a world war rather than be kicked out of Berlin.

What We Can Do.
Such an outlook for Europe is not pleasing to us, hating as we do both war and tyranny. As a people, the best contribution we can make to the anti-Nazi movement is to promote the prosperity of England and France. Along this line, the New Deal's trade treaties have done more for world peace than any other major policy of the last twenty years. Secretary Hull's agreements have not only helped business abroad, but they have also boosted our own activity. In 1937, exports to countries

The Associated Press finds news value in an item printed in the Dallas News "50 Years ago" column, where the sheriff of Hill county had offered for delivery to him in any jail of an unnamed white man for murder. The fugitive was described as "spare made", rather dark complexion, 5 feet 8 1/2 inches tall "small face and snarl roof" and "usually wore his pants in his boots."
The (P) story was to the effect that sartorially, Texans have advanced mightily in a half century. But the (P) must not have looked around over enough country. At Midland for instance, if such a reward were to be posted today, where he-men have not undergone so much change, it wouldn't be safe for Hillary Bedford, Frank Boyd, Dick Midkiff, Teague Hutchinson, or Arthur Judkins.
Speaking of the Dallas News, that good columnist "State Press" picked up our recent comment about the horse and buggy parades of the old days, when the horses tip-toed to the band music and noise of fire-crackers, and Clarence Scharbauer's buggy horse shied at Clarence's tall white collar and red tie, said State Press:
There were better parades in the horse and buggy days. More variety,

more to talk about, longer time in passing a given point. Automobile processions are monotonous. All the vehicles look alike and some of them emit carbon monoxide gas before the speaking starts. It was always possible for a young horse unused to parades to run away and create excitement. The nervous equine might take flight at flying crepe paper or a sudden outbreak from the accompanying band, or even at somebody's tall starched collar and tie like those favored by Clarence Scharbauer. The speeches in the grove after the procession were good in those days. They had to do with the American flag, the American eagle, the bravery of the old settlers, the right of local self-government, and the sacredness of the Declaration of Independence and the Constitution of the United States. Now the oratory concerns itself with promises for the future rather than the glories of the past. Everybody wants to be promised something and the orator in search of an office cannot afford to neglect promises of rewards to those whose suffrage he solicits.
New England Something -or- other. There was an old man from Nantucket
Who kept all his cash in a bucket
But his young daughter Nan
Ran away with a man
And as for the bucket, Nan tuck et.
But he followed them both to Paw-tucket
This man who kept cash in a bucket.
He told the young man,
He was welcome to Nan,
But as for the bucket, Paw tuck et.

CARDINALS TO MEET BOOSTERS IN DOUBLEHEADER HERE TODAY

NELSON FLINGS 8-HIT GAME TO TRIUMPH, 9-5

The high-flying Midland Cardinals, now resting in second place in the league standings, return home today for the first two of six games that will be played here during the next four days.

The Hobbs Boosters, a club that has served as a stepping stone for the Cardinals most of the year, will furnish the opposition this afternoon. The first game will get underway at 2:30. The Cardinals and Boosters meet again Monday, Tuesday and Wednesday the Wink puddlers will be here. A double header will be played Tuesday and Wednesday and the Cardinals will leave home until July 27. The Cardinals made it two in a row over the Lubbock Hubbers last night when Frank Nelson hurled a 5-victory. His cause was aided by 2 Midland hits, chief of which was home run with the bases full made by Morris in the third inning.

and Garbe made consecutive bobs. The win left Midland a game and a half out of first place.

The box score:

Midland	AB	R	H	PO	A	E
Barnhill, 2	6	0	0	1	2	0
Garbe, m	6	1	0	2	0	1
Battle, ss	5	2	2	1	2	0
Suytar, 1	4	1	1	7	0	1
Balling, c	3	3	1	12	0	0
Morris, lf	5	1	1	2	0	0
Guinn, 3	4	1	3	0	1	0
Geary, r	4	0	1	2	0	0
Nelson, p	4	0	2	0	1	0

The Cardinals made it two in a row over the Lubbock Hubbers last night when Frank Nelson hurled a 5-victory. His cause was aided by 2 Midland hits, chief of which was home run with the bases full made by Morris in the third inning.

Score by innings: 024 000 030-5

Summary: Doubles—Balling, Guinn, Morris, Miller, Hillin, Home runs—Morris, Hillin. Runs batted in—Guinn, Nelson, Morris 4. Beers 2, Hillin 4. Double play—Taylor to Mosel. Sacrifice hits—Beers. Stolen bases—Garbe, Battle. Left on base—Midland 11, Lubbock 5. Struck out—Nelson 11, Terry 7.

Walks—Nelson 5, Terry 5. Hit by pitcher—Suytar by Terry. Umpires—Capps and Andrews. Time: 2:10.

Nine-Club Industrial League Disbanded; Two Six-Club Leagues Start Play Monday

Taking cognizance of appeals of three other clubs to be admitted into the Industrial League, officials have adopted plans whereby two softball leagues—of six clubs each—will start play Monday and wind up the season on August 19.

To be known as the Industrial and Petroleum Leagues, the winners of each will meet in a post-season series to decide the city champion. There is a possibility that the top two clubs of each league will get into the play-off, but officials have not yet agreed upon this phase.

The three new clubs that will be active in play for the remainder of the year are the Atlantic Pipe Line, the Baptist Church and the Sinclair company. Officials made an effort to divide the strength of each league whereby one would not overshadow the other by having stronger clubs.

Four games will be played each Monday, Wednesday and Friday. During the first week—starting Monday—the Industrial League

Hops Continent—And Is Going Back

Douglas Corrigan is a brave fellow where his life is concerned but cautious about his reputation. He flew this 8-year-old monoplane 2700 miles non-stop from Long Beach, Calif., to New York, but said he would fly back again before bragging or endorsing any products.

He gets back to Long Beach.

ALL-STARS LOSE TO McCAMEY CLUB IN 10-INNING FIGHT

The Midland All-Star softball team managed to hold its own for nine innings with the strong Conoco club of McCamey Friday night but the visitors pushed across two runs in the first half of the extra frame and the best home club could do was get one thereby ending up on the short end of a 7-6 count.

The locals went into the ninth with a one-run lead but O'Neal misjudged Pitcher Shelton's long fly and it went for four bases and tied the score. Again in the tenth O'Neal was the goat, misjudging Catcher Alford's fly ball and letting it go for four bases and tally two men. The All-Stars got one of them back in the last of the tenth when Hart walked. Linn came through with his fourth hit of the night and Roberts got a long fly to the outfield that let Hart come home. Linn got to third after the catch but died there when Pierce and Straughan couldn't get the ball out of the infield.

Score by innings: 020 000 010 2-7

Summary: Two-base hits, Shelton, Alford, Linn, Roberts, Rehders. Three-base hits, Linn, B. Hill, Home runs, Alford, F. Hill, Shelton, Linn, Struck out, Shelton 4, Straughan 6. Base on balls, Shelton 6, Straughan 5. Runs batted in, Linn 4, Roberts, Rehders, Alford 2, F. Hill 2, Shelton 2, Earned runs, Midland 4, McCamey 2. Umpires, Scroggins, Ellis and Spoy.

games will all be at night, the Petroleum League games in the afternoon. The north and south side diamonds will be utilized for afternoon games, all night games will be played on the south side diamond. The first night games are to start at 7:30 each day, thereby avoiding playing until late hours.

Firemen Checkmated By Tiny Fish in Hose

FLINT, Mich. (U.P.)—Fireman Wilfred LaRocque refused to rescue Wilfred Joly from his porch roof here until he promised to buy cigars for all the crew on duty at the firehouse.

Joly, who put up a screen on his bedroom window and nailed himself out on the roof, paid off when LaRocque, called to the rescue by neighbors, carried him down the ladder, to a local cigar store.

Furniture Stable, Local Buyer Finds

National business conditions look much improved over last spring, in the opinion of S. M. Vaughan, manager of Barrow Furniture Co., on his return from the Chicago markets. Furniture dealers from all parts of the country expressed optimism over the upturn of business. Industrial centers seemed to feel an improvement in labor situations, agricultural areas were said to have good average crops and all signs pointed to a gradual betterment.

The furniture business itself seemed well stabilized, Mr. Vaughan said, with base prices steady, styles on a stable basis and some indications that prices might get higher. Heads of factories expressed such an opinion and were not anxious to make sales for deliveries later than September 1 on present quotations.

"We bought about twice the amount we expected to," Mr. Vaughan said, adding that most buyers did the same when they found that there was no likelihood of dropping prices.

"Although styles are stabilized, the Swedish Modern influence was strong and we bought a number of pieces to display here," he said. Swedish Modern is an American modernization of Swedish styles, made along simple lines, with light effects in woods.

"I believe the dollar value in furniture is better than it has been in my 35 years' experience," the Midland man said.

With him on the trip were A. B. and D. G. Barrow of Abilene and D. D. Douglas of Big Spring.

English walnuts first came to America from Persia, but they came through England, so loyal colonists called them "English walnuts."

Julius Caesar was born in July, and the month was named in his honor.

New Candidate for World Speed Honors

Seeking the speed record on land held by Capt. George Eyston, his countryman, John Cobb, British racing driver, will use the huge, bullet-like car, above, in an attempt to better the existing mark of 312 miles an hour on the Bonneville, Utah, salt flats. Top, above, workmen are shown lowering the streamlined tonneau onto the chassis of the metal monster at Brooklands, Surrey, England, before shipping it to the United States. The car is equipped with two 1250 horsepower engines.

La Darrioux Trouble

Gentlemen! Gentlemen! And in the presence of a beautiful lady! However, Danielle Darrioux (center), new screen personality, deals plenty of trouble to Louis Hayward (left) and Douglas Fairbanks Jr. in Universal's "Rage of Paris" now at the Yucca.

This Little Calf Came to Town

Here is a picture of the 4-H club calf sold last week by Delmar Ray Bizzell, eleven-year-old son of Mr. and Mrs. T. E. Bizzell, to the Wes-Tex Food Market. The meat was sold through the Rhoads store markets during the past week-end. Thirteen months old, the calf, a Roan Durham raised by Bizzell, weighed 1,030 pounds, having been on feed for seven months. He brought fourteen cents per pound, or \$144.20. Shown in the picture with the calf are Delmar Ray Bizzell, T. E. Bizzell, Captain W. E. Wallace and Hiram Harris of the Wes-Tex.

finish will be at the Davis Mountain, "Davis Mountains or bust." The moon is brighter in the first quarter than in the third quarter. Abba-ga-zabba.

There will be no evening service in the absence of the pastor.

Mustang Boys Club Column

The Mustang "Sea Horses" Jimmy Eagen and Robert Filson, have galloped to Sweetwater for the big Gulf A. A. U. swimming and diving meet held there Saturday and Sunday. The boys are in fast company, and are expected to do exceptionally well even to place in their events. Their only regret was that they could not be in Sweetwater Friday to get acquainted with the choice mermaids of this particular part of the U. S. A. However, George O'Brien, the movie western star, was on hand and made a desperate effort to crown the Goddess of West Texas without the help of Robert and Jimmy. The chamber of commerce sponsored the trip for the

CLYDE E. THOMAS
FOR
DISTRICT JUDGE

Well qualified, through a sound education, and a long successful experience in court room practice.
Matured and has that firmness, fairness, and sense of justice that will assure righteous judgments.
Hon. Norman Read of Coahoma, Howard County, will speak for the candidacy of Judge Thomas tomorrow beginning at 12:30 over KRLH. Mr. Read is a well-known gentleman of West Texas; he has known Mr. Thomas for more than thirty years and believes in his honesty, integrity, and ability as a lawyer, and as temperamentally and otherwise qualified for the office of District Judge.

VOTE FOR

W. LEE O'DANIEL
FOR
GOVERNOR OF TEXAS
(This political advertisement paid for by friends of W. Lee O'Daniel)

TO THE VOTERS OF MIDLAND COUNTY:

As the campaign draws to a close I will greatly appreciate it if you will give attention to this, probably my last public expression before the election. If I have not seen and do not get to see you, be assured that it will not have been because I did not want to, nor that I did not diligently try to do so. There are some happy features connected with a political campaign, chief of which is coming in contact with so many people who are so worth knowing, and having the opportunity and privilege of assurance of their kindness of heart. Thus has this time spent with you been a happy occasion, and, in any event, this, my first political campaign, will be a pleasant memory, always to be treasured.

None may gainsay that I have conducted my appeal for your suffrage upon a high and honorable plane. Upon such a scale of measurement I wish to be your County Clerk, and if I am elected, the office will ever be so maintained, and with fairness and justice toward all.

I will profoundly appreciate anything you may do in promoting an interest in my election in next Saturday's primary.

Sincerely,
Crosby (Mrs. J. M.) Flanigan

Comic Langdon
'Back in Money'

Only last March one-time movie funnyman Harry Langdon told the judge that he was flat broke. But times are better now and Harry says he is back in the money again, this time as a writer of comedies. Harry seems a much saddened man in the top picture, taken as he appeared in Los Angeles court to show why he should not be held in contempt for failure to pay \$2900 back alimony at \$25 a week. The lower photo shows the comedian at the height of his popularity several years back.

STORIES
IN STAMPS

Settled by Shipwreck

A TORRENTIAL gale overtook Juan Bermudez on a voyage from Spain to Cuba with a cargo of hogs, early in the 16th century. His ship was wrecked, and he was tossed ashore on one of the 360 small islands of coral formation in the British West Indies which today bear his name.

Still later, in 1593, Henry May, an Englishman, was wrecked near the Bermudas, and in 1609 Sir George Somers was also wrecked there. Somers, with a party of colonists, was headed for Virginia, but after his disaster he turned instead to establish the first settlement in Bermuda. Three years later the islands were granted to an offshoot of the Virginia company of 120 persons, 60 of whom, under Henry More, proceeded to the Bermudas. Tobacco became the first industry.

Today Bermuda, a perennial garden, with its dozen large hotels and famous beaches, is a favorite winter resort for Americans, the main Atlantic naval station of the British navy, and the terminus of the giant Clipper planes. It will soon become first leg on the Clipper route to Europe.

The colony has representative government, Hamilton is the capital. The population is 27,000, of which 11,353 are whites. A view of Grape Bay is shown here on one of the values of the current "new reign" series of colonials.

In 1902, records obtained from sounding-balloons released from the Observatory of Trappes, near Paris, disclosed for the first time the existence of the stratosphere, a region of air several miles above the earth, where temperature ceases to fall with increase of altitude.

Oil News--

CONTINUED FROM PAGE ONE

Bennett topped anhydrite at 2,360 and is drilling ahead below 2,540 in anhydrite and salt.

On re-test this week, Gulf No. 1 J. C. Futch, recent one-mile west extender of the Denver pool in southern Yoakum, flowed 754.22 barrels a day, a good increase over its original rating of 612 barrels. Gas-oil ratio is 1.150-1. The well topped pay at 4,888, is bottomed at 5,160, and has been acidized with 14,000 gallons.

Humble No. 2 Abilene State Bank, in the Denver-Wasson link area, flowed 677 barrels of oil the first 16 hours of potential test, with gas-oil ratio of 900-1. Bottomed at 5,015, it has been acidized with 4,000 gallons.

Stanford No. 2 Slaughter, in the pool of that name in southwest Hockley, drilled to 4,825 feet with rotary and is now installing standard tools. Seven-inch pipe was cemented at 4,750, and plug was drilled with rotary.

Yesterday, Rowan & Nichols No. 1 State, northeastern Lea county, N. M. wildcat northeast of Tatum, was drilling at 4,662 feet in lime and anhydrite. A rumored slight show of oil could not be confirmed.

Southeast of Lovington, Conoco No. 1-K-29 State is drilling at 4,851 feet in lime.

Texas No. 2-D State, a mile west of Vacuum pool production, is drilling below 4,843 feet in hard lime, showing nothing. It will probably define the westward extent of the south portion of the pool.

James Mascho No. 2 Cloyd, Delaware test in southwestern Lea, is drilling below 1,273 feet in salt.

High On Anhydrite.

Texas No. 1-G State, wildcat in eastern Crane is credited with running 86 feet higher than Magnolia No. 1 University, small discovery pumper a mile and a half to the southeast, on anhydrite, topped at 1,127 feet. Elevation is 2,642. Drilling continued below 1,142 in anhydrite.

Magnolia No. 1-15 University, a mile and a quarter southeast of the discovery, had drilled to 2,730 in anhydrite.

Rushton L. Ardrey, trustee (American Liberty Oil Company) No. 1 J. B. Tubb, test over a mile southeast of the Tubb deep Permian area in western Crane, succeeded in killing 10,000,000 cubic feet of gas with which it had blown out at 2,760, but could not restore circulation. Owners are now pumping in cottonseed hulls and aquagel to fill up crevice. The well topped gas at 2,660 and had strong increase from 2,683 to total depth. It had been spraying sulphur water along with gas.

Magnolia No. 1-A J. H. McKee was found to have bridged back too far when shooter ran line to test depth. Top of bridge was at 5,260, and crew is now drilling it out to 5,300, where it was originally intended to have been. Shooting of a section of Simpson sand from 5,271-80, from which the well headed oil last winter, is planned. It topped Simpson, middle Ordovician at 4,775 and Ellenburger, lower Ordovician at 6,102, finding sulphur water in that formation at 6,263-67, total

NLRB Attorney Escorted From Town

Isadore Polier, in rear seat, is shown being escorted from Steubenville, O., in a sheriff's car after 1800 citizens demonstrated against barring of a Weirton Steel Co. attorney from a National Labor Relations Board hearing against the company. Polier, an NLRB attorney, was taken to Pittsburgh, where the 11-month-old hearing was resumed. The demonstrators charged that Polier, son of Rabbi Stephen J. Wise of New York, is a "Communist."

depth. The well is in the Imperial area of northern Pecos.

Four More in Goldsmith.

Four more producers were completed at the week-end in the Goldsmith pool of northwestern Ector. Largest was T. P. No. 24 Scharbauer, with daily potential rating of 1,504 barrels and gas-oil ratio of 95-1. It topped pay at 4,010, reached a total depth of 4,255, and was treated with 3,000 gallons.

Gulf No. 112 Goldsmith flowed at the rate of 1,053.64 barrels a day, with gas-oil ratio of 960-1 after treating with 4,000 gallons in pay horizon between 4,183 and 4,275, total depth. Phillips No. 30 Cowden had potential of 530.32 barrels, with gas-oil ratio of 894-1, following 5,000-gallon treatment at 4,180. Pay was entered at 4,118. Devonian No. 5-F Scharbauer rated potential of 432 barrels, with gas-oil ratio of 8,726-1, bottomed at 4,206 feet. Pay

was stopped at 4,182 was treated with 2,000 gallons.

In Harper pool of Ector, Texas a 2-B Parker gauged flow of 892-23 barrels in 24 hours after shooting with 680 quarts. Gas-oil ratio was 674-1. It found first pay at 4,050 and drilled on to a total depth of 4,225.

Sinclair-Prairie No. 3-A Johnson, test two miles north of Foster pool production in Ector, is drilling at 3,944 feet in anhydrite. A new location for the Foster pool is Conoco No. 3 J. L. Johnson, 330 feet from the south, 2,344 from the east line of section 1, block 43, township 2 south, T. & P. survey.

Sinclair-Prairie No. 2-B Paul Moss, one-half mile southwest of the 17 1/2-barrel discovery pumper of the Moss area two miles south of the Harper pool, is drilling at 2,145 feet in salt and potash. It has attracted much interest since topping anhydrite at 1,390, 108 feet higher than the discovery.

Railroad Commissioner

LAST RACE
TERRELL LED
ENTIRE STATE
TICKET

TERRELL carried 192 counties, polled 556,000 votes.

His Honesty and Ability are Unquestioned

His Record Merits Another Term

C. V. TERRELL'S fourteen-year record on the Railroad Commission includes such unparalleled achievements in government as conservation control of oil, which means adding millions of dollars to the state school funds, making highways safer by eliminating irresponsible truck operators, lowering freight rates and obtaining cheaper gas for the homes and factories of Texas.

WHY?

Why do the supporters of J. M. Speed want him for Sheriff?

Not only because he is a very able gentleman, not because they do not like the personality of the present Sheriff, Mr. Francis---but BECAUSE the supporters of J. M. Speed are made up of business men, farmers, ranchers and working people of Midland County who have families and children and want Midland County cleaned up.

The mothers of Midland County do not want their children rubbing elbows not only with professional gamblers but also with the type of professionals which follow that fraternity.

The husbands of Midland County do not want their wives in the environment of professional gamblers and the type of people who follow them.

The supporters of J. M. Speed do not want the gambling and racketeering profession of Midland County to elect any official to any public office.

WHY do we have the conditions in Midland County that now exist?
WHY is open gambling and all the evils that go with it permitted?
WHY do the supporters of J. M. Speed take time away from businesses and ranches and spend their money to change Sheriffs?

BECAUSE

They want a clean administration of that office.

BECAUSE

They want all Chiselers, and racketeering gamblers run out of Midland County.

BECAUSE

They want a clean atmosphere in which to rear their children and for the protection of their wives and families.

J. M. SPEED WILL CLEAN UP MIDLAND COUNTY!
EVERY MOTHER, FATHER, HUSBAND, SON and DAUGHTER should vote for J. M. Speed for Sheriff.

(This advertisement paid for by friends of J. M. Speed)

'Mark of the Beast' Subject at Revival

The subject of the lecture to-night in the large tent two blocks south of the depot is "The Mark of the Beast." Evangelist Lee Carter says that he always expects his largest attendance of the entire series on the night when this subject is discussed. He also says that it is no "catch subject," but that he will prove definitely from the Bible just what the mark of the beast is and also that mysterious number

666 referred to in Revelation 13:18. The program for this week is as follows: "The Mark of the Beast," "God's Last Warning Message," "The Story of a Family That Drowned," "The Unpardonable Sin," "The Seven Seals," "The Seven Last Plagues." All lectures are made interesting by the use of large screen pictures. Alvin Stewart begins the song service at 8:15 and the lecture closes about 9:30. There is no admission charge.

Associated Press Chief Is Visitor

Frank King, southwestern manager of the Associated Press, spent Friday night in Midland and looked over the city Saturday morning. Mr. King late in 1937 was transferred to Dallas from London, having been in charge of the AP bureau there for several years. The southwest, considered the fastest developing territory of the Associated Press, was assigned to him because of his able work in other fields. Before leaving London, he was in general command of the Associated Press coverage of the coronation ceremonies.

Mr. King was impressed by the substantial building program here and expressed confidence in the future of the city. He was en route to El Paso, Mrs. King who was with him, going on to California points. Mr. King will return to Dallas by way of Lubbock, arriving at his office in time to "watch the political situation" for the rest of the week.

Absentee Voting Reaches New High

Absentee voting in Midland county has reached a new high this year, with the number of ballots voted on or sent out totaling 289 Saturday noon. Saturday, 175 had voted in person with 44 of the 114 ballots sent out, returned. Those persons wishing to vote absentees must do so on or before Tuesday, July 19, at midnight. Ballots returning by mail will be accepted as late as Wednesday.

A drama of a showgirl, a Broadway playboy, and a Texas doughboy, working out their destiny in the shadow of world disaster and evolving the strangest love story ever told!

cepted as late as Wednesday. With the voting strength of the county totaling more than 3000, the total absentee voting shows a good per cent, and an increase over last year.

Scouts Prepare to Send 25 Members To Camp Fawcett

Boy Scouts of troop 54 made plans at the meeting Friday night to send 25 scouts to Camp Fawcett, which opens at Barksdale July 26. The troop plans to have three full patrols in camp and will have at least one junior officer as well as three patrol leaders, which will insure each patrol with an experienced camper as the head. This will be the largest group of scouts the troop has ever sent to the council camp. Plans for making camp boxes were discussed and each camper was urged to make his box at once.

The troop played various games until assembly time at 8:30, at which time an amateur moving pictures was shown, giving news of the recent round-up in Big Spring, scouting and hiking of troop members and general scenes.

Plans were made for entry in the boys' miniature golf tournament to be held next Wednesday. The troop held a qualifying tournament last Wednesday and Wayne Lanham, Bob Dozier, Kenneth Williams turned in the four lowest scores. Several visiting scouts were guests at the meeting and were introduced by the scoutmaster they were visiting. Man Rankin introduced Doug-

las Jeffrey, Los Angeles, and Jim Noland of Tulsa. Fred Gordon Middleton introduced Homer and Shirley Medina of troop 54 of Garden City. Marshall Jackson of troop 18 of Texarkana also was a visitor.

Townsendites Qualify As California Party

PASADENA, Calif. (UP)—Followers of the Dr. Francis Townsend old age pension plan have obtained enough signatures to qualify as an official state party at the August primary election in California. They obtained 11,809 signatures in Los Angeles county alone and 23,561 throughout the state.

Bottle Floats 13 Years.

CONNEAUT, O. (UP)—A bottle, containing a note, took 13 years to float from Conneaut, on Lake Erie, to near Sault Sainte Marie, Ont. Mrs. Edward Reed, of Coldwater, Mich., formerly Miss Nellie Sandstrom, of Conneaut, who set the bottle afloat, received a letter from Ed Gartschore saying that he had found it.

Golf Ball Retrievers Held.

PAINSVILLE, O. (UP)—While plunging into the Lost Nation Country club's pond to retrieve lost golf balls so they could sell them for five or 10 cents each, three Cleveland youths were arrested by two special sheriff's deputies. The deputies said that the youths were three of the club's caddies who were on strike.

Sabbath Keeping To Be Discussed By Pastor Today

"Do Christians Keep the Seventh or First Day of the Week?" will be the subject of a special sermon to be preached at 11 o'clock this morning.

HARVEY CHILDRESS
Minister of the Church of Christ.

In line with a discussion of the ages-old question of the first versus the seventh day, Mr. Childress has announced that he will answer the following questions by the Bible: Did God ordain the sabbath at creation? Did men keep the sabbath before Moses' time? Was the sabbath given only to the Jews? Are the ten commandments, as such, still binding on Christians today? Are Christians today obligated to

Bear Deserts Cubs.

ELKLAND, N. Y. (UP)—Her slumber disturbed by curious hikers, a hibernating bear deserted two black cubs in a cave near here as she shambled off to find a more secluded sleeping place. The cubs were taken to a game farm and are being raised on bottles.

Ring Found 17 Years Later.

FINDLAY, O. (UP)—Mrs. Lawrence Schoonover lost a valuable diamond ring in her back yard 17 years ago and rediscovered it about 35 feet from where she first missed it. The ring was in no way damaged.

Rock "Turns Turtle."

WILLOUGHBY, O. (UP)—One of the workers cleaning a ditch in a real estate allotment picked up a large "rock." The "rock" snapped back, very much alive. Fellow workers estimated that the turtle was 50 years old.

According to superstition, a green Christmas tree means a white Easter.

Keep the sabbath by the law of God? If not, who changed the law?
