## Lone Airman Completes Atlantic Hop

### FLIES IN DEFIANCE OF COMMERCE DEPT.

From California to Ireland

DUBLIN, July 18 (AP).—Douglas P. Corrigan, American flier who made a non-stop flight from California to New York, dropped unheralded from the skies today at Baldonnel, Ireland, in his antiquated single-motored plane, a ship of the vintage of Charles Lindbergh's "Spirit of St. Louis."

Corrigan consumed 28 hours, 13 minutes on the flight. He left Floyd Bennett field Sunday at 4:17 a. m. and landed at Baldonnel at 8:30 a. m. Nothing had been heard from him since his take-off.

With no radio and the barest navigation instruments, Corrigan wired himself in the cabin of the plane. It boasted less power than Lindbergh had on his plane.

Most airmen had not conceded the daring airman one chance in a hundred of making the crossing in his dilapidated craft. They were astounded when it was announced he had landed.

Corrigan arrived in New York a week ago, practically unknown. Howard Hughes' round-world flight overshadowed his preparations for the European flight.

The department of commerce last year rejected his application for the flight and was frankly flabbergasted today when it was announced he had completed it. Regulations provide for a fine or revocation of licenses for such unprecedented flights.

Corrigan's sole comment upon landing was "By the way, where am I?"

In announcing their opposition to such a change, the peace groups said in a statement to the press: "The object of Congress in passing the neutrality law was to protect the people against such executive policies as committed this country to entrance into the World War. It is an embodiment in law of the constitutional right of Congress to determine issues of peace or war for the country."

The statement was issued jointly by the National Council for Prevention of War, the Women's International League for Peace and Freedom, World Peaceways, the Fellowship of Reconciliation and the Keep America Out of War Congress.

It said the organization intended to take the issue into every congressional election and make a counter-effort to pass the war referendum amendment. This amendment requiring an affirmative vote of the people before this country could enter any war outside the Western Hemisphere, was defeated in the House last session.

The present neutrality law bans arms shipment to both sides in any foreign conflict recognized by the President as a state of war. The President also may require that any purchases in this country by a belligerent be on a cash-and-carry basis.

Pittman took the view in a recent interview that the past year had demonstrated a necessity for wider latitude for the administration in its economic and commercial dealings with Japan and China.

### New Wage Scale For Workers of The South Fixed

WASHINGTON, July 18, (AP).—WPA officials said today a new, higher wage scale for southern workers would be fixed, as before, according to the 1930 population of the principal city in each county.

Professional and technical workers in Texas and eight other affected states will receive \$79 a month if they live in a county containing a city of more than 100,000. Skilled workers will get \$72 per month and pay for intermediate workers will be \$57, ranging down to \$48, \$44, \$33, respectively, for counties whose principal city is less than 5,000 population.

### Japanese Continue Strong Offensive Against Chinese

SHANGHAI, July 18 (AP).—Japanese naval fliers today carried out what a Japanese naval communiqué described as the "most daring attack in the history of military aviation."

During a large-scale attack on the big Chinese airbase at Nanchang, a squadron of Japanese bombers landed at the airport despite rifle and machine gun fire and with torches set fire to several planes, seized two machine gun magazines and chased fleeing Chinese off the field. They returned unscathed.

SHANGHAI, July 18, (AP).—Japanese reported today their army and navy, paced by warplanes, were continuing a "crushing offensive" designed to carry the rising sun banner into Kankow and Nanchang.

They said five "armed" launches had forced an entry into Lake Poyang, the 1,637 square-mile body of water which leads to Nanchang.

The main battle sector was along the Yangtze river between Kiukiang, 135 miles downstream from Hankow, 100 miles north of Nanchang, and Hukow, 15 miles further down the river.

It is here, where Lake Poyang waters enter the Yangtze, that the Japanese are striving to send forces west against Kiukiang for the river drive on China's provisional capital and south against Nanchang to wipe out a main Chinese air base and to drive overland to the Canton-Hankow railway.

Chinese reports asserted the invaders suffered 10,000 casualties in battles in the last two weeks below Kiukiang. Several boatloads of bodies they said, were seen proceeding down the river.

They said the Japanese were paying a staggering price in material as well as men in their efforts to blast Chinese defenses out of their path.

The defenders, a Chinese spokesman said, were "holding firm."

### New King of Globe-Girdlers

This bearded and dog-tired young man—lifting his hat to acknowledge the cheers of a welcoming crowd of 25,000 New Yorkers—is assured a lasting place in aviation's hall of fame. At 31, Howard Hughes has climaxed a busy career by cutting the round-the-world flight record in half, and is very much the man of the hour.

### Perryman 1 Doak Shut Down For Orders With 400 Feet of Water

By FRANK GARDNER  
J. T. Perryman, Jr. No. 1 C. H. Doak, wildcat in northeastern Gaines, this morning was shut down for orders at 5,128 feet in lime, with 400 feet of sulphur water in the hole. The test likely will be abandoned. It had encountered an increase in water to three ballers hourly from 5,120-28. Hole had been making two ballers an hour from 5,060-97.

Riddle & Warr No. 1 J. B. Brown, eight miles west by northwest of the Perryman well, cored from 5,359-77, obtaining full recovery of lime showing a little gas and slight oil staining from 5,366-77. Core from 5,377-89, also fully returned, was 30 per cent anhydrite and showed nothing. The test was coring ahead this morning.

Rotary is being rigged up on Osage Drilling Company No. 3 E. Miller, new central Gaines test two and a half miles northwest of Osage's recent four-mile northwest extension to the Seminole pool. Location is staked 1,980 feet from the north and east lines of section 281, block G, W. T. R. R. survey, on farmout from Sun Oil Company. Street Discovery Gauged.

W. H. "Bill" Street, of Midland, No. 1 W. T. Shearer, new Pecos discovery three-quarters of a mile northeast of the Masterson pool and out off from the main body of the pool by a dry hole, flowed 136.03 barrels of oil through 34/64-inch choke on 2-inch tubing on 24-hour potential test. Production was natural and came from lime pay between 1,400 and 1,432, total depth. Gas-oil ratio is estimated at 400-1.

In the Pecos Valley pool of Pecos, Arnold No. 3-B Scharif & Blackmore flowed 526.30 barrels on 24-hour natural test, with gas-oil ratio of 600-1. It topped sand pay at 1,806 and is bottomed at 1,850.

Nitro shot of 210 quarts was run from 5,265 to 5,300, top of plug, in Magnolia No. 1-A J. H. McKee, northern Pecos deep test, with 50 feet of gravel placed on top of shot as tamp. Operators are uncertain as to whether shot went off and are now cleaning out lamp. It was reported that gas had kicked sand pump up the hole indicating that the shot had probably exploded.

SEVENTHOCKLEY  
Skelly No. 1 W. L. Ellwood estate, in southeast Hockley, is drilling with standard tools at 4,330 feet in lime. Seven-inch pipe is at 4,290.

Gulf No. 2 Mallett, four miles northeast of the Slaughter pool in southwest Hockley, topped anhydrite at 2,135, according to driller, and is drilling ahead at 2,430 in anhydrite and shale. It is said to be running normal.

S. W. Richardson No. 2 Slaughter, over a half-mile east of the northernmost producer in the pool, is drilling below 3,590 feet in anhydrite.

### Link Area Well

Humble No. 2 Abilene State Bank, in the Denver-Wasson link area of Yoakum-a-Gines, flowed 938 barrels, with gas-oil ratio of 567-1, on 24-hour proration gauge, bottomed at 5,015 feet. It had been acidized with 4,000 gallons.

Northwest of the Bennett pool, Ralph H. Gill No. 1 Gulf-Dixon this morning was drilled at 4,956 feet in solid lime topped at 4,750. When depth of 5,000 has been reached, operators will cement string of 7-inch casing on bottom and rig up standard tools.

Magnolia No. 2 Bennett, a pool well on the southeast edge of present limits, rated daily potential of 1,850 barrels, bottomed at 5,251 feet. It had been both shot and acidized.

Gulf No. 2 Lucy K. Moore, west of the Denver pool in Yoakum, is drilling below 4,760 feet in lime.

Phillips Drilling Company had built derrick and is moving in rotary for its No. 1 O'Brien, south of Plains in central Yoakum. Location is 1,980 feet from the north, 660 from the east line of section 442, block D, J. H. Gibson survey.

Skelly No. 1 Kendrick, on the east side of the Denver pool, flowed 49 barrels naturally in 17 hours through 2-inch tubing set at 5,007, two feet off bottom. Gas was estimated at 2,000,000 cubic feet daily. The well then was killed and tubing pulled, later to be reset with packer at 4,842. Hole has now been treated with 1,500 gallons, and unloading is underway.

SEVENTHOCKLEY  
Skelly No. 1 W. L. Ellwood estate, in southeast Hockley, is drilling with standard tools at 4,330 feet in lime. Seven-inch pipe is at 4,290.

Gulf No. 2 Mallett, four miles northeast of the Slaughter pool in southwest Hockley, topped anhydrite at 2,135, according to driller, and is drilling ahead at 2,430 in anhydrite and shale. It is said to be running normal.

S. W. Richardson No. 2 Slaughter, over a half-mile east of the northernmost producer in the pool, is drilling below 3,590 feet in anhydrite.

### 'Wackiest' Campaign Nears End

#### Gubernatorial Foes Making Last Stand In State This Week

By WILLIAM T. RIVES  
Associated Press Staff Writer.  
Intrigued by the wackiest campaign of a decade, more than a million Texans figuratively dangled their votes Sunday before a dozen frazzled gubernatorial candidates rounding the turn toward next Saturday's election.

Medicine show tactics injected by W. Lee O'Daniel, "the biscuit man," as his opponents unlovingly refer to him, transformed the race from a run-of-the-mill affair to an omelette of personalities, mountain music, doggerel rhymes, and the usual issues.

Crowds poured out to hear fervent pleas and hillbilly tunes, amid cries of "Yankee carpet beggar!" "professional politicians," and "let's have some music, boys."

The circus campaign seemed likely to draw a record number to the polls, and the dog-tired aspirants headed for the populous areas and the big cities to make the final appeals.

O'Daniel, the flour merchant whom most political observers place in the run-off election next month, outlined a strenuous platform tour and a two-a-day radio speech schedule.

Featured by a home-coming rally Thursday night at Fort Worth, O'Daniel will troop through Weatherford, Mineral Wells, Breckenridge, Albany and Stamford Monday; Haskell, Seymour, Olney, Graham and Jacksboro Tuesday; Dallas (broadcast), Terrell and McKinney Wednesday; and Mineola, Gilmer and Kilgore Friday.

Tom Hunter will visit Houston Monday (radio); Waco Tuesday; Tyler Wednesday; Wichita Falls Thursday, and Dallas Friday (radio).

Ernest Thompson, who has insisted his campaign remained aloof from personalities and the side-show fringe, opens at Austin Monday and closes at Greenville Friday night. Between these engagements will be speeches at La Grange, Hallettsville, Columbus and Houston Tuesday; Dallas Wednesday; Kilgore, Henderson, Overton and Tyler Thursday.

William McCraw, chief balter of O'Daniel and the hill-billy boys, plans his biggest party at Dallas, his home town, Friday, election eve. He begins the week at Beaumont and Port Arthur Monday; then swings to Galveston Tuesday; Pittsburg, Linden, Atlanta, Naples and New Boston Wednesday; Houston Thursday, and Dallas Friday.

Karl Crowley stops at Houston Monday; San Antonio Tuesday, Fort Worth Wednesday, Dallas Thursday, and El Paso (tentatively) Friday.

P. D. Renfro, Beaumont mayor, has an address schedule at Galveston Monday.

### Relative of Midland Couple Dies Sunday

Word was received by Mr. and Mrs. Felix Stonehocker of the death of her brother-in-law, Aubrey Marshall, at Terrell about 9:15 o'clock Sunday night. He had been ill of heart trouble for about two years. Immediate survivors are his widow and two small sons.

Relatives here had not been informed of funeral arrangements this morning.

### On His Way to Admit a Murder

Securely shackled to Sheriff William Wall, John Paul Bathelt, Jr., 31, New York sportsman and gambler, arrives at the courthouse in Northampton, Mass., to plead guilty of murder in the second degree in the cement coffin slaying of Charles Morris, a race track bookmaker. Bathelt, carefully dressed for his court appearance as shown in the picture, was sentenced to life imprisonment.

### Explosion Tank Hits In Center of Crowd, Two Men Are Killed

WELLSVILLE, N. Y., July 18 (AP).—Emergency calls on oil fire fighting equipment were broadcast early today in western New York and Pennsylvania after a new explosion of a naphtha storage tank at the \$15,000,000 Sinclair Oil company refinery here.

Three are known dead and 75 injured in fire and explosions last night when an exploding oil tank leaped 200 feet across the Genesee River and fell into a crowd of spectators watching the fire in the \$1,000,000 Sinclair Oil Company plant here.

It was not known whether other spectators might not have been buried under the huge missile.

As firemen from scores of cities battled desperately against the roaring flames within the plant, workmen began cutting apart the tank in an effort to discover if there were other victims.

Witnesses said the tank looked like a mammoth ball of fire as it arched over the narrow river and plunged into the ground.

Robert Powers, 35, was apparently killed by a piece of the flying, flaming metal.

Jean McCormick, 42, died of burns as the seething mass roared like a meteor to earth.

They were part of a group of at least 100 persons watching the blaze, in which 12 oil and naphtha tanks exploded, 12 steel-and-cork "filling towers" were destroyed and a dewatering plant destroyed.

Thousands of yards of sandbag and dirt dikes were hastily thrown up in a wide circle around the blazing area, in an effort to halt the flow of burning oil.

### Sheriff Candidate In Howard County Explosion Victim

BIG SPRING, July 18 (Special).—Floyd (Pepper) Martin, 36, employee of the Cosden refinery, a candidate for sheriff of Howard county, died in a local hospital last night after suffering injuries in an explosion of gasoline at the refinery late yesterday afternoon.

Martin had just gone on duty at 5 o'clock when he threw a light switch at the plant, and a short circuit evidently caused an explosion of gas and gasoline. He was rushed to a hospital where he lingered until 11 o'clock when death came.

Martin was widely known over West Texas as a sportsman, having played on and managed several Big Spring baseball and basketball teams.

He is survived by his widow and three small children. Funeral arrangements had not been announced this morning.

### Midland Attorney To Proration Meet

James H. Goodman is in Austin today representing a number of the West Texas independent oil operators before the Texas Railroad Commission at the State-wide proration hearing. He, with other representatives of oil men of this section will try to hold the ground they gained under the last statewide hearing when the Saturday shutdown under removed without cutting the West Texas allowable to marginal as was being demanded by East Texas, and, at the same time maintaining the present price of crude oil.

The proposed cut would have resulted in a loss of \$67,000, per day, or \$2,000,000 per month to operators in West Texas. The Texas University and A. & M. College would have lost \$75,000 in the month of July, Goodman declared.

### T. E. Neelys Are Honored by Group

Mr. and Mrs. T. E. Neely, who are leaving soon to make their home at Colorado, were honored at a watermelon feast at Cloverdale Friday night.

The ice melons were served to the honorees, Misses and Messrs. J. A. McClure, J. C. Hudman, W. E. J. R. Norris, L. F. Joplin, S. T. Cole, Anderson, W. N. Cole, Ellis Conner, Roy Stockard, Houston Sikes, H. S. Collins, Dr. and Mrs. L. W. Leggett, and several children.

Mr. and Mrs. Neely were presented with a pair of Postoria candelabra as a farewell gift from the group.

### RETURNS HOME

Sherm Elworthy, golf pro at the Country Club, made a weekend visit to San Antonio.

### TO CALIFORNIA

Mrs. J. M. King and her daughter, Mrs. John Collins of Fort Stockton, and the latter's son and daughter are on a vacation trip to California.

### GIRL TO JULIANS

Mr. and Mrs. Togo Julian are the parents of a daughter, born in a Midland hospital Saturday.

### PARENTS OF SON

Mr. and Mrs. Claud Whitaker are the parents of a son, the baby being born Saturday in a Midland hospital.

### TWINS TO SHELL EMPLOYE

Mr. and Mrs. J. L. Bruns are the parents of twin boys born Friday in an El Paso hospital. One of the babies weighed seven pounds and the other a little more than seven pounds. Mr. Bruns is mechanical engineer for the Shell corporation here.

### MAJOR HERE OVERNIGHT

Major Chas. A. Pursley left this morning for Amarillo, flying an O-43. He arrived at Sloan Field Sunday afternoon. At 1:15 o'clock this afternoon Preston Jerber departed for Lubbock. He was flying a Stinson.

### IN MEETING

Rev. W. C. Hinds of the Methodist church opened a meeting at Andrews Sunday night. He will preach there for probably ten days or two weeks, assisting the Methodist pastor, Rev. G. H. Bryant.

### HAS APPEL DECTOMY

James Phillips underwent an appendectomy Saturday in a Midland hospital.

### GOES TO NEW YORK

Mrs. W. B. Worden left Saturday for New York and Connecticut where she will spend the next three or four months. She will visit her aunt while away.

## BEHIND THE SCENES IN WASHINGTON

WASHINGTON—President Roosevelt's attempt to encompass defeat of certain senators and election of others in the 1938 Democratic primaries is only a curtain-raiser. It will be followed by two exciting turbulent political years as F. D. R. plunges ahead with his crusade to liberalize the Democratic party and to control its 1940 nominations.

This will be true regardless of the degree of failure or success of 1938 purge efforts, say Roosevelt intimates. The President left on his western trip happier than ever. He feels he has created a situation where political realignment is inevitable and that it's more fun fighting down a straight-line track than playing the part of a shifty politician.

Presidential strategy after November will be worked out as time goes on. The strong New Dealish flavor of recent presidential appointments, plus slaps at Senators Byrd and Glass of Virginia, Tidings of Maryland, and McCarran of Nevada through removal of friends from federal office or appointment of political enemies in the senators' home states, may presage one phase of attack. If so, there will be battles royal over various senatorial confirmations.

Throughout the tenure of the next Congress there will be no question of Roosevelt's hope of driving his program's opponents from office. In the center of the fighting will be those Democratic senatorial opponents up for renomination and election in 1940, including Burke of Nebraska, Byrd of Virginia, Gerry of Rhode Island, Holt of West Virginia, King of Utah, Wash of Massachusetts, and Wheeler of Montana.

### WILLIAMS' BOSSES LIKED HIS SPEECH

Neither Roosevelt nor Administrator Harry Hopkins has uttered the slightest reproach to WPA Deputy Administrator Aubrey Williams since he publicly told WPA workers to "Keep your friends in power."

Both liked the speech, even though the Senate campaign investigating committee censured Williams. Hopkins privately says he will refuse to be muzzled during the campaign months, regardless of the committee.

### WHY STEEL CUT PRICES

Various reasons behind the cut in steel prices and virtual elimination of the basing point system by U. S. Steel Corporation have been revealed, but not all. A direct threat by Assistant Attorney General Thurman Arnold of criminal prosecution under anti-trust laws is supposed to have been one factor. Anyway, it was an open secret that the Justice Department was planning such proceedings.

But the final push was given at a secret meeting of the American Iron and Steel Institute on Wednesday, June 22. President Eugene Grace of Bethlehem Steel arose, said something had to be done and declared Bethlehem was going to cut prices on its own. With that information, U. S. Steel executives worked feverishly and brought out a new price schedule on June 24, effective the 25th. Whether its price cuts were bigger than anything Grace contemplated isn't known, but ending the basing point system was a direct blow to U. S. Steel's competitors. The feud between "Big Steel" and "Little Steel" is bitterer than ever and the whole industry is still trying to figure out where it stands.

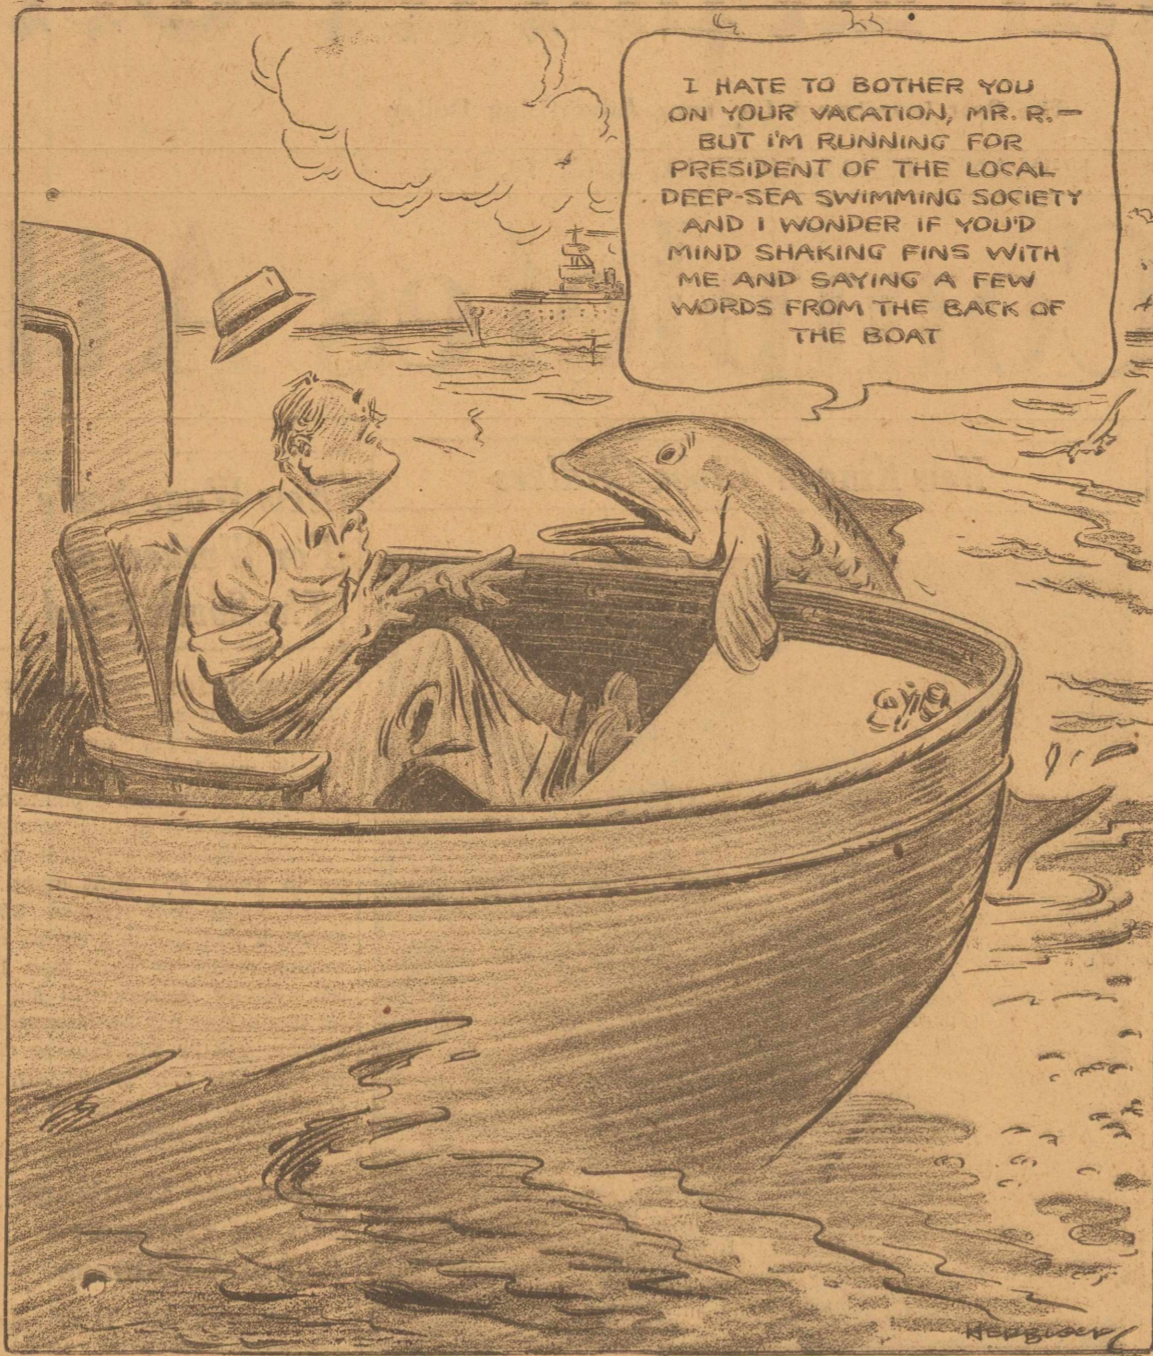

### SPENDING FIGURES

Latest confidential government estimates indicate that gross federal expenditures in the fiscal year 1938-39 will total about \$9,000,000,000. This compares with about \$7,500,000,000 in 1937-38. The net federal contribution to consumer purchasing power (excess of expenditure over tax collections) has risen from 40 millions in February to 170 millions in July. It is believed that this figure will reach 350 millions a month some time next spring, as a result of expected expenditures and lower tax receipts. State and local expenditures are running at about 20 billions a year, three billions more than in 1932.

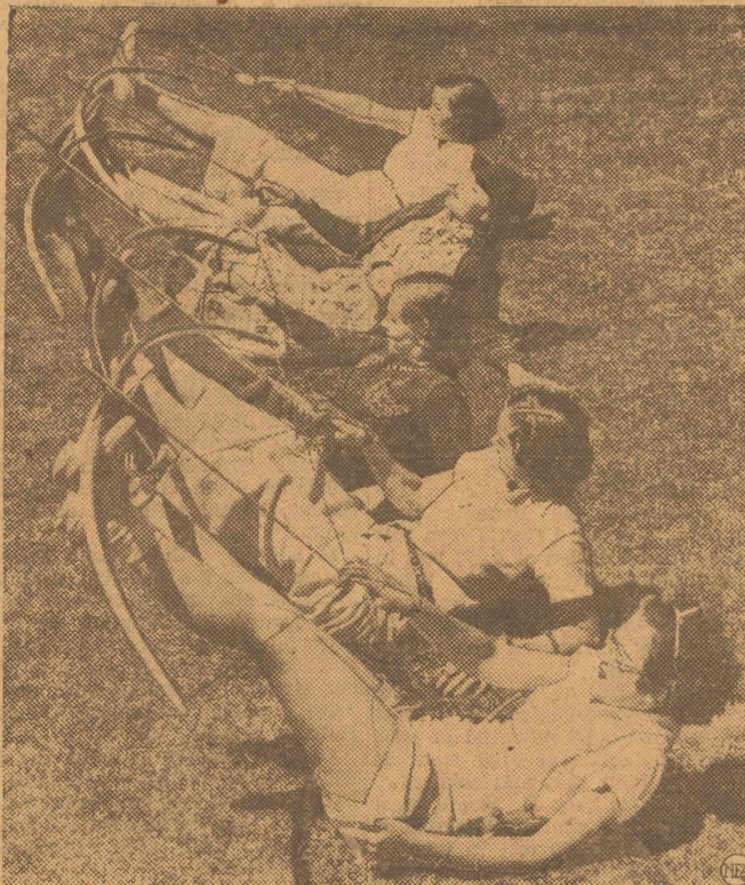

In Istanbul, Turkey, loaves of bread are nailed to the outside windows of bakeries as advertisements. These loaves are sold and fresh ones tacked up every morning.

No matter how expert, no ventriloquist can pitch his voice so well to make his audience believe that the sound comes from their midst.

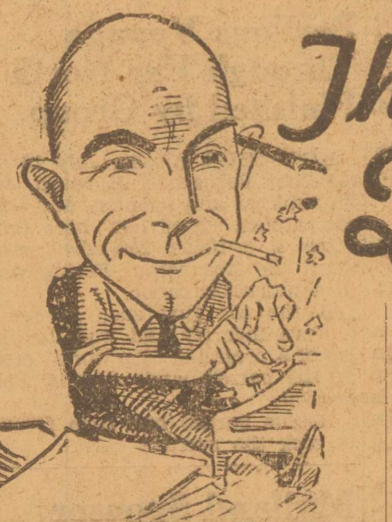

## Presidential Midsummer Night's Dream

## Fair Archers On Sitdown

Beverly Crowell, Sally Lyon, Phyllis Roberts, Virginia Williams, and Leila Hodgson, front to back, perform the difficult seated flight shot in the Western Archers Association tournament on the University of California at Los Angeles archery field.

## The Town Quack

We'll stage a party Saturday night in front of the office, where you can cool off and laugh it off with your friends and opponents. Come over and read the results, but please don't telephone us for the figures.

More about office buildings. Another West Texas city, was to have had an eight story office building. The architect drew the plans, the site was selected and the contract was about to be let. The builders asked the chamber of commerce to secure some tenants, and they could sign up only about ten per cent of the space, many of those occupants to come from other existing offices. The builders decided not to build, which was good judgment. It takes something besides ambition to justify a big office building. Oil companies and operators find it advantageous to live in the same town, where business can be transacted in person on short notice. And oil men are the ones who fill the office

I got an unsigned letter yesterday about "further reference to air-cooling a bank building", but these bankers may decide they have heard enough, so I'm going to refer to only a few excerpts from it. The writer mentioned a time-honored frigidly existing in banks, ice houses and refrigeration plants. He said the chilly atmosphere of a bank prevades the buildings, even into the vaults where the frozen assets, if there are any, are kept in cold storage and seclusion. He told the one about the banker who, in an emergency, gave a pint of his blood for transfusion, with the untoward result that the patient was frozen to death.

But, whether the expenditure is unnecessary or not, citizens are enjoying the air-cooled interiors of a couple of banks these days, and one of them will extend the conditioned air throughout its eight story office building.

And that reminds me that the weather is starting off a little warm this week, but that is in keeping with what will probably be a hot election week.

## Feminine Fancies

Have a bolero to top your night-gown if you want to exemplify the latest word in nightwear.

But be sure you prepare the bolero for a double life by having it in printed pique to match your printed batiste nightie. Then, when you tire of loiling at home you proceed out and about the town in a white dress plus your gay-flowered night-time bolero.

Who said the moderns are not efficient in planning a wardrobe for utility?

The calendar turns backward with the gradual return of the camisole to milady's wardrobe. Camisoles were always pretty things, fluffy and edged with lace or ribbon—a quite dress-up addition to the feminine costume. So perhaps their return is all to the good.

It is always a moot question with us as to which is better: To buy the kind of dress that is what we need but not what is usually becoming or to buy the kind that is becoming but not what we planned to get. We break down and do the latter. But we still wonder if it's wise?

To refurbish an old suitcase that has to make just one more trip, try applying a coat of liquid shoe polish and letting the bag stand for two or three days until thoroughly dry. You'll be surprised at the difference a little polish will make.

One of the things for which we'll "pay the price" gladly is a white hat. We know perfectly well when we get one that we'll pay out as much in cleaning bills during the summer as the hat cost us and that, inevitably, there'll come a day when we wear it when it looks soiled. But despite all this foreknowledge we melt right down and buy one in the summertime.

Nothing gives such a cool touch to a costume as white hat and white shoes—and both of them require constant effort to keep clean.

However, when we see nice white accessories look on others, we have to have some, trouble or no

buildings, with their own personnel and with those who follow them.

In his race for Governor four years ago 457,821 votes were cast for Tom Hunter—within 2% of his election. An intensive survey of the State indicates that in this race more than a half million votes will be cast for his election. Join these half million citizens with your vote in the interest of a fair, sound, sensible, economical State Government.

## Oh! for a 'Hand-Out' From Carole

Movie press agents don't usually wear orchids, but here's one who's different—none other than Carole Lombard, who thought it would be a good stunt to take over the job of Selznick International publicity director. Selznick officials say she actually did the job for a week, but maybe that's just some of Carole's publicity work. Anyway, it's a good thing there aren't many press agents like her, for it would be difficult indeed to question the motives behind "hand-out" issued by such a personable public relations person.

### trouble to keep.

Wonder why? Meringues are so hard to make properly? Lipstick cannot be guaranteed to stay on for 12 hours at a time? A run-less stocking has never been invented by a bright young mind? Hair-tonics are so messy to apply? Bally-hoo is so often overdone?

Around the coast of Britain there are about 290 life-saving stations and 4000 volunteers and members of life-saving brigades, in addition to the regular lifeboat service.

### Announcements

TUESDAY. Bridgette club will meet with Mrs. R. R. Cowan, 606 S. Colorado, Tuesday afternoon at 2:30 o'clock.

Midland county museum in the court house will be open Tuesday afternoon from 2:30 o'clock until 5 o'clock. The public is invited.

Women's Bible class of the Church of Christ will meet Tuesday afternoon at 3 o'clock at the church.

The number of hours which we sleep is not so important, according to one expert, as seeing that our sleep is untroubled.

Butterflies taste with their legs, which are 1600 times as sensitive as the human tongue.

CLYDE E. THOMAS FOR DISTRICT JUDGE

Well qualified, through a sound education, and a long successful experience in court room practice.

Matured and has that firmness, fairness, and sense of justice that will assure righteous judgments.

Licensed to practice in all the Courts of Texas, in the U. S. Circuit, Court of Appeals of the Fifth Judicial District, and the Supreme Court of the United States, Judge Thomas has for more than twenty years been constantly engaged in court room practice, in mostly civil cases, and his briefs are found in the Courts of Civil Appeals, at El Paso, Eastland, Amarillo, San Antonio, and in the Supreme Court of Texas, and in the Circuit Court of Appeals for the Fifth District.

A long successful court room experience is the best schooling possible for success on the bench.

The office of District Judge is not a position to be given to an untried person, or to appease one's ambition; it is a big job and requires highly skilled, trained, and experienced attorney.

Mr. Norman R. Read spoke over KRLH today at 12:30 for the candidacy of Judge Thomas. Mr. Read is a well known cattle man of West Texas, and has known Mr. Thomas for over thirty years.

Mrs. John F. Friddy of Stanton will speak over KRLH tomorrow at 12:30. Mrs. Friddy is a mother, and a ranchwoman, she and her husband living in Glascock County. The Friddys have lived in the West for many years and she is well known in Midland.

Here's the secret of vitality during the hottest weather

When the heat seems unbearable and pep is all played out—here's a tip. Make a bee-line to the nearest bottle of SOUTHERN SELECT—sit down—and take a pleasant ten minutes to relax over its invigorating coolness. Sip it slowly—enjoy it thoroughly and you'll find your nerves soothed and your early-morning vitality back—to see you through a strenuous day of work or fun. For real enjoyment—you can't beat SOUTHERN SELECT.

## Warming Up in a Cool Manner

Wearing smiles of confidence, three of the east's best hopes in the Women's National Swimming Championships at Santa Barbara, Calif., July 22-24, pause for a few moments while training at the President Pool, Swan Lake, N. Y., before leaving for the coast. From left to right on the diving board are Elizabeth Ryan, defending champion in the 100-meter free style, Lorraine Fischer and Helen Rains.

## Midland Couple Wed in Early Morning Ceremony

Miss Lucille McMullan, daughter of Mr. and Mrs. J. P. H. McMullan, became the bride of Milton David Johnson Jr., son of Mr. and Mrs. M. D. Johnson Sr., in an impressive early morning ceremony at the home of the bride's parents, 700 North Main street, Sunday. Rev. W. J. Coleman, pastor of the First Presbyterian church, officiated at the single ring ceremony.

The living room was decorated with a profusion of roses, zinnias, petunias, and other summer flowers. The improvised altar before which the couple took the nuptial vows was banked with fern and other greenery.

Mrs. C. G. Creech, sister of the bride, presided at the bride's book, in which the guests registered as they arrived.

Preceding the services, Mrs. Creech played "At Dawning," and played as the processional "The Bridal Chorus" from Lohengrin, and as the recessional "Wedding March" from "Mid Summer Night's Dream."

The bride, who was given away by her father, wore a white crepe dress, with a multicolored embroidered belt, with white accessories, and carried a bouquet of tansy, roses and baby's breath. Her traveling dress was of blue crepe trimmed in red and white braid, with which she wore white accessories.

She was attended by her sister, Miss Eddie Janelle McMullan, as maid of honor. The latter wore a suntan chiffon dress, with British tan and white accessories, with a corsage of pom-pom asters.

The groom was attended by C. R. Patterson, of Monahans, Texas, as best man.

Following the ceremony, which was attended by approximately 30 guests, a reception was held in the dining room, which was also decorated with roses and zinnias. The dining table was covered with an Italian lace cloth. The three-tiered white wedding cake bore the figures of a miniature bride and groom standing beneath a lacy confection arch. Fern and rosebuds surrounded the base of the cake stand.

Mr. and Mrs. Johnson are well known in Midland. Mrs. Johnson coming from Rogers, Arkansas, 10 years ago, and Mr. Johnson being born here. Both are graduates of Midland High School, Mrs. Johnson graduating with the class of 1932, and Mr. Johnson of 1931.

During her high school years, Mrs. Johnson was in the choral club and pep squad, being pep leader of the latter organization during the school year of 1931-32. She was elected

by the student body as "Most Representative Girl" in 1931. In the president of the student body, co-school year of 1931-32, she was editor of the school annual "The Catoico," and valedictorian of the senior class. She is now employed by the Continental Oil company here.

Mr. Johnson was a member of the glee club during his high school years, and in 1930-31 was business manager of the "The Catoico." He attended Texas Technological College at Lubbock, Texas, and is now employed by the Gulf Oil Corporation here.

After a brief wedding trip, Mr. and Mrs. Johnson will be at home in Midland.

### Household Hints

#### To Remove Alcohol Stains.

One simple method of removing alcohol stains from furniture is to saturate the discoloration with pure olive oil, rub in a little fine salt very gently, and allow to set over night. In the morning, wipe off with a clean soft cloth and, if necessary, polish with wax or your favorite furniture polish.

#### Substitute for Cream.

In most cases where recipes call for light cream or top milk, undiluted unsweetened evaporated milk may be used successfully.

#### Bleach Solution.

It is said that a solution of vinegar and clorax will remove brown stains from white sinks and drains.

#### Unique Belts.

New imported belts with unusual decorated buckles are exquisitely hand-embroidered in bright colored native designs by Hungarian peasants. Just the accessory to wear with youthful dirtdis and cool pastel or white linens.

## New Lounge-itude, Lassitude

AGAINST a gray stone wall at the entrance to a beautiful summer-winter home in Bermuda, the tuna pink of the sports blouse and the subtle pinks and blues of the printed shorts stand out in dramatic fashion. Notice that the shorts are amply cut and flared to flatter the figure. The headkerchief matches the shorts, and there's a buttoned-down-the-front skirt to match the blouse.

## Breckenridge Girl Honored at Dance At Country Club

Honoring Mary Jo Jones of Breckenridge who has been the houseguest of her aunt and uncle, Mr. and Mrs. L. A. Tullos, a group of her young Midland friends entertained with an informal dance at the Country Club Saturday evening.

Music for dancing was supplied by the club nickelodeon. Chaperones for the evening were Mrs. Tullos, Mrs. W. H. Street, and Mrs. W. M. Ford.

Approximately 80 boys and girls of the high school and younger college crowd were present. The honoree returned to her home Sunday.

## Naomis Meet With Men's Class Sunday

Naomi class members met with the Men's class at the Seabauer Hotel Sunday morning, hearing M. C. Ulmer teach a lesson on "Deborah—Emergency Leadership."

Sam Laughlin led the song service for the combined groups and Judge Charles L. Klapproth dismissed the group with prayer.

About 30 men and women were in attendance.

### For Night Reading.

# CARDS, BOOSTER SPLIT TWO; WIND UP THE SERIES TONIGHT

## RED BIRDS STILL GAME AND A HALF FROM FIRST PLACE

The Midland Cardinals battled for three hours and five minutes with the Hobbs Boosters yesterday afternoon but when it was all over they were exactly where they started, a game and a half behind the league leading Lubbock Hubbers.

The Cardinals took the first game of a doubleheader by a score of 13-3 and lost a thriller when they were nosed out, 1-2, in the abbreviated nightcap.

The Cardinals and Boosters will wind up their series tonight and the home club will meet the fourth place Wink Spudlers here tomorrow in two games. The first game will start tomorrow afternoon at 4 o'clock and the night game at 8:30. Tonight's game starts at 8:30.

The home club capitalized on a half dozen errors by Hobbs and some heavy hitting by Snytar, Beers and Ballinger to capture the first game and give Lefty Parks another win, his second in three days. But they could do very little with Needham in the finale, getting but four hits. Garbe and Morris got all the hits in the last game, two apiece, and it was Morris' homer to lead off the seventh that gave the Cards their lone run.

Meanwhile, Lubbock was splitting a double header with Big Spring to keep pace with the Red Birds.

**First Game.**

The Boosters got off two runs ahead in the second inning after Padgett followed Snytar's single with a home run. One more came in the third on a walk, a hit and an error before the Cards could get started. They managed to get four runs in the last of the third on an error and a homer by Ballinger and were never headed. Two men were on ahead of the right fielder, and he knocked in three more runs in the fourth when he doubled with the bases loaded. Five runs, all unearned, were made by the home club in the fourth. Included was a homer by Morris. Hogan was replaced by Twitchell in the third game to hit for two in the fifth, one in the sixth and one in the seventh.

**Second Game.**

After missing a chance to score in the first inning because of some poor base running, the Boosters got an unearned run in the third frame that was their margin of victory. With one out, Needham singled to right and when Beers let it get

through him raced all the way to third, then came home on a single by Davis.

They repeated in the fourth when Snytar beat out a bunt, stole second and raced home on a long double by Rightfielder Bonk. Meanwhile, Needham was managing to retire all batters but Morris and Garbe. Fortunately for him, he never had to face both in the same inning. Garbe got to him for a single and Battle followed with a walk in the third but Snytar struck out to end the inning. Previously, in the second, Morris had got a double but died there as two men skied out. Garbe got his other single in the sixth but Battle popped out to short and Snytar and Ballinger struck out.

First Game.

**Summary:** Home runs, Morris.

## Good Bullfight Thrilling, But Poor One Is Bad

After a corps of supernumeraries had tired the bull sufficiently, the head matador, at considerable risk, plunges his sword between the animal's shoulder blades. He must be speedy, agile, and accurate. A photographer, whose sense of duty overcame his squeamishness, obtained these excellent photographs.

Hundreds of Americans were attracted across the border to Tijuana, Mexico, by a half dozen bullfights. With characteristic flourish, the matador, making the feat more difficult by kneeling, diverts the bull's mad rush by flirting his cape.

The star takes his bow. Fighters surround the stricken beast as he lays dying from the sword thrust which reached his heart through the shoulder blades. Note the pillows which strew the arena, thrown by enthusiastic spectators.

### By HARRY GRAYSON

A good bullfight, no doubt embodies grace, symmetry, sheer thrill, but a poor one is pretty bad.

I can sympathize with the American tourists who thronged across the border to Tijuana, Lower California, the other afternoon. They learned that the most important qualification required to sit through a bullfight is a stomach even stronger than that of even the most veteran stockyard employe.

I was in a party which took in a bullfight at Tijuana some years back. None of us could see much as look at steak for a month. To most Americans and Englishmen, bullfighting is a cruel sport, although it is said that those who go to a corrida with the deepest prejudice... and catch a good one... come away enthusiastic customers.

It's pageantry, all right. Hav-

ing a better understanding of it, I suppose one might see it as a splendid spectacle in several acts without chorus and show girls and footlights, but it's also butcherery.

The idea of the matador... is to let the bull come as close as possible. Each of his flourishes has a name... the mariposa... butterfly... etc., and he is rated and applauded according to the way he executes them.

### WEAK LEGS HIS STRENGTH

Juan Belmonte revolutionized bullfighting... became the Dempsey of the matadors because he had weak legs. He couldn't do much dancing around... was forced to fight close to the full... in the smallest possible space.

Figures might prove that what the crowds want is more dead or

gored bullfighters rather than bulls. Interest tumbled after 1932, when there were only 215 bullfights and only one fatality among bullfighters.

Ten matadors were killed the previous year, and business was fine.

The war gave the Spanish something more serious to think about, and even before it broke out the youngsters were kicking footballs. Mexican kids are throwing baseballs. France has soured on bullfighting, yet the dodge continues to flourish in spots.

There are still 1300 bull rings throughout the world. The leading arena is in Madrid. The biggest in the world is El Toreo in Mexico City, which accommodates 25,000 people. Spain had 929 rings, Mexico has 192, Portugal 64, and France had 55. Peru has 21, Colombia 12, Ecuador nine, Venezuela eight, Panama and Guatemala two each, and Brazil,

Uruguay, Paraguay, Honduras, and Nicaragua, one apiece.

Bulls formerly were bred and trained for fighting in Spain, but with the source of supply shut off they aren't what they used to be. Even in the so-called better arenas, one now is more likely to catch miserable matadors and six or eight lackadaisical bulls.

### BASED ON BULL'S STUPIDITY

Picadors ride scrawny ponies which are now covered with a sort of mattress for protection and blindfolded on one side. Bullfighters, like football coaches, talk bitterly of the rules committee tampering with the game. Picadors are armed with long lances.

Banderilleros carry banderillas, gaily-colored sticks about two feet long with harpoon shaped points. The banderilleros' assignment is to plant the banderillas in the bull's withers. They must hang just so,

or the banderilleros have fallen down on their job.

Then comes the matador to finish a bleeding, weakened, angered, thoroughly distressed bull.

The muleta, or small red cape, is to the matador what her balloon is to Sally Rand.

If the crowd has its doubts about the matador's courage, it lets him know with the Spanish form of bottle throwing... a shower of seat cushions.

It took Sidney Franklin, nee Frumkin, seven years to become a fair matador. Even then he wasn't ranked as one of the great artists. But after the Irish kids in his native Brooklyn, just how could a matador frighten Sidney Frumkin?

But bullfighting remains an off "sport" to most of us, and always shall, if for no other reason than that it is based on the stupidity of the bull, which the matador knows almost invariably will

## The PAYOFF

By JERRY BRONDFIELD  
NEA Service Sports Writer.

NEW YORK.—This is the lull before the storm on the tennis front—during which time J. Donald Budge has nothing of great import to do until he scorches the courts in the Davis Cup challenge round and the national champion-

Doubles, Morris, Hargrove, Bonk. Runs batted in, Morris, Davis, Bonk. Stolen bases, Battle, Snytar. Base on balls, off Soule 1, off Needham 3. Struck out, by Soule 4, by Needham 9. Double plays, Snytar unassisted, Davis to Loken to Hargrove. Umpires, Pettigrew & Rowland. Time, 1:10.

ships at Forest Hills.

And while the stars prepare for the climax of the 1938 season, it becomes increasingly apparent that the United States this year probably will be represented by the youngest squad ever to play for any country in Davis Cup competition.

Now that the choice piece of silverware has returned to these shores after an absence of 10 years, the tennis fathers would like to hold onto it for a while and it is a safe bet to say that seniority privileges will be tossed overboard in preference to actual ability.

In that event you can count on Budge, Frankie Parker, and Bobby Riggs as three of the defenders, with the other two a toss-up.

Riggs is 20, Parker and Budge are 22. Youths of college age playing in the hottest of international net warfare.

Budge, spearhead of the winning attack last year, is a definite fixture on the Davis Cup squad as long as he remains an amateur. Parker acquitted himself nobly in his first year of cup play last season. He probably will gain the num-

## Safe After Perilous Passage Down Colorado River

Their tiny boats hauled up safely at Lee's Ferry, Ariz. (top picture), six adventurer-scientists are pictured above as they concluded a hazardous, 18-day passage down the Colorado from Green River, Utah. Their frail craft, the "Wen," "Botany" and "Mexican Hat," are dwarfed by the towering canyon walls, seen in the background, and by swirling river waters at flood stage. The scientists, who collected rare specimens as well as a set of thrilling adventures, are pictured in lower photo, left to right: W. E. Atkinson, Lois Jotter, W. C. Gibson, Don Harris, Dr. Elzada Glover, and Norman D. Nevills.

ber two singles post again.

### BOBBY RIGGS IS SEEN AS BUDGE'S SUCCESSOR

Riggs was left off the squad last summer, but the remarkable game which gained him number two national ranking behind Budge for 1937 should practically guarantee him a place this trip.

National clay courts singles tiffist for two years in a row, Riggs is being hailed by many experts as the logical successor to Budge, if the Oakland redhead bows to the money urge this fall.

They passed Riggs up a year ago because he was so young.

His selection this trip will mean the dropping of either Wayne Sabin, Gene Mako, or Betsy Grant. An early guess is the first named.

Grant was taken to England in 1937. After losing twice in the interzone final with Germany, the little Athlantan was held out of the challenge round with the British in preference to Parker.

But the consistency of the Giant Killer's game throughout last winter and in current summer tour-

naments indicates that he is in no mood to miff another chance.

### ONE-MAN TEAM DEMANDS MAKO AS DOUBLES PARTNER

Although Mako doesn't rank with Riggs, Parker, or Grant as a singles player, he rates a post in the first doubles combination with Budge because lanky Donald often has hinted he'll play only with his old partner.

The United States Lawn Tennis association isn't in sympathy with Budge's stand. It is said that officials would like to pair J. Donald with someone else, not only as a matter of discipline, but because they think it might be best for America's chances.

The duo holds the All-England and U. S. championships, but they recently lost to Franjo Puncic and Franjo Kukuljevic of Yugoslavia. Some consider the Australians, Jack Bromwich and Adrian Quist, on a par with the American tandem.

Yet there isn't too much to

worry about.

Donald Budge, when the chips are down, has proven himself the greatest one-man Davis Cup team ever assembled. He can carry the burden of defense almost by himself if necessary.

Niagara Falls provides cheaper power for Canada than for the United States.

## Big Game in Texas Being Pushed South

MISSION (AP)—Big game in Texas—bears, deer, antelope and mountain sheep—are being pushed southwestward to the Mexican border country and to far West Texas. Naturalists and students of wildlife says this is being brought about by the westward movement of man who destroys game habitats and hunts when he gets ready whether game is in season.

Javelinas, the fierce wild hog that once shared Texas with the Indians and the buffalo, now are found only in this area, the happy hunting ground for Texans.

Game birds flock to this area, and the near border country, while deer and antelope are more plentiful further west and in the interior.

Rio Grande valley wildlife enthusiasts headed by P. F. Dornay of Mission, R. W. Sutherland of Brownsville, John H. Sharry of Mission, E. H. Downs of San Benito, Harry Rouse of Mercedes, Judge Lamar Gill of Raymondville, Dee Davenport of Mission and R. W. Lindsey of Mission, are determined game shall not have to make its last Texas stand along the Rio Grande.

Leaders in the Texas Wildlife Federation, the group was one of the first to perfect a regional game and fish protective association. Valley sportsmen are rabid game conservationists, regulating their own kill to game crop and zealously guarding against overkilling by outside sports-

men, who hunt and fish here. "It is the only way we can preserve what big game we have left in Texas," said Dornay, "and we want to keep some of it here."

### FIREMEN CHECKMATED BY TINY FISH IN HOSE

LITTLE FALLS, N. Y. (UP).—Firemen fighting a rural blaze near here lost valuable time when the nozzle of a pump bringing water from a nearby stream became plugged with small fish.

Said one fireman: "It's lucky no trout got in the pump, or we might get into trouble with the conservation department."

ROUNTREE'S Privat. Boarding House; meals changed daily; monthly rates; phone reservations for Sunday dinners. 107 S. Pecos, phone 278. (6-14-38)

Blue Geese Seem Lost Far Off Usual Trail

MANCHESTER, N. H. (U.P.)—A flock of blue geese has flown far off the course. Rare on the Atlantic coast, the blue geese have been lingering at the farm of F. A. Lovering.

A New Hampshire Audubon society official identified them as members of the family which usually migrates via the Mississippi valley, Great Lakes and Hudson bay to northern breeding grounds.

### Girl's Ship Models Trace History of Merchantmen

SAN FRANCISCO (U.P.)—Frances Pentony is believed to be one of the few girls of the world whose hobby is model ship designing and building.

She is completing her entire cycle of the world's merchantmen from galleons and caravels of the 15th century to clipper ships, the round boats of the Nile and the flat-bottomed boats of the Amazon. Her design of an Oriental sampan has won her an invitation to exhibit at the Tokyo exposition of 1940.

Domestic animals pay little attention to airplanes flying overhead unless they fly exceptionally low; wild animals, however, may be stampeded by noise and sight of an airplane.

### FOR QUICK SELLING

THOR Electric Washing Machine; excellent condition; does good work; 1/4 h. p. motor. \$6.95

Where 'China's Sorrow' Came to the Aid of China's Armies

How Yellow river floods succeeded in stopping the Japanese drive through China—where defending armies had been portrayed in the picture above. The photo shows how the rampaging river cut through the strategically important Lunghai railroad, halting transportation of troops and supplies at a time when the Japanese were in the midst of a crushing drive southward toward China's provisional capital at Hankow. Japanese soldiers are pictured on the tracks, ruefully viewing the break, which occurred near Kaifeng. Note how the tremendous force of the water has twisted one of the rails completely off the right-of-way and down into the swirling water. Thousands of soldiers and civilians were drowned in the floods.

All Dresses in Stock  
**REDUCED FOR CLEARANCE**

We Turn Our Entire Stock of Attractive Summer Dresses Over to This Event! You'll Find a Lot of Wonderful Values!

These dresses are really phenomenal values! Printed sheers over taffeta slips, washable crepes, in print and solid color--tailored or with fine dress-maker details which are obvious proof that they're worth much more!

Liquor Convictions Increase During June

AUSTIN (AP)—Two hundred and forty-seven liquor law violation convictions were obtained by the enforcement division of the Control Board in May compared with 211 the previous month.

The division also reported 460 complaints filed as against 435, and said fines assessed in the month totalled \$22,467, an increase of more than \$2,500 from the month before.

The largest amount of fines was imposed in the Beaumont district which reported \$3,656 with 30 convictions. The Houston district reported the most convictions—and the Dallas and Longview districts the most complaints, 115 each.

Of 35 jail sentences assessed, 11 and 10, respectively, occurred in the Lubbock and Houston districts.

State inspectors assisted federal agents in filing 60 tax-evasion cases and reported the seizure and destruction of 64 illicit stills. Fifty-six arrests were made and nine automobiles confiscated.

Stills found near Plantersville in Grimes county had been made of arsenic cans and one was camouflaged with yellow paint to blend with its surroundings.

In Rannels county, near Rowena, a moonshiner told inspectors he had been operating 12 years and was found to be using wheat-mash an unusual grain.

With the stills, which had a total cubic capacity of 2,529 gallons, inspectors destroyed 8,670 gallons of mash and 466 gallons of contraband

Houston Post Gives Thompson Praise for Type of Campaign

HOUSTON, July 18—The Houston Post, one of Texas' leading newspapers, Sunday editorially commended Ernest O. Thompson, candidate for governor, for the type of campaign he is conducting.

The editorial pointed out that "Col. Thompson is conducting his campaign for governor with the efficiency and singleness of purpose which has characterized his service on the State Railroad Commission.

"He refuses to be diverted from his objective by the strains of mountain music. He discussed the issues in his opening campaign speech and he is still discussing issues, just a week before the election.

"Last week Clarence R. Miller, Dallas business man, withdrew from the race and urged his supporters to vote for Colonel Thompson. Mr. Miller had attracted a considerable following by advocating a business-like administration of the state's affairs.

"That development increased Colonel Thompson's strength and further entrenched him in his position as a major contender for the nomination.

"Colonel Thompson and those who

Sand Belters Keep Alive Chances of Capturing Pennant

The Midland Sand Belt golf team retained second place in the league standings yesterday by defeating Crane, 28-12, and kept alive a mathematical chance of winning the championship.

Big Spring, the league leader, swamped Stanton, winning by a 32-8 score and now has a 30-point lead over the Midland club. But the season is over for the Howard county team while the Midland team must play off a postponed game with the Odessa team. Chances of Midland making a clean sweep of the matches with Odessa are considered slight as Odessa is now standing third in season's play.

In the individual matches here yesterday, in the first flight Jim Smith shot a 72, low score of the day, to defeat Cauble of Crane and Frank Johnson lost to Wright of Crane. Crane won low ball on the twenty-first hole.

In the second flight, Elton Dozier defeated Schaeffer and Pat Riley defeated Milwee. Midland won low ball.

Third flight matches went to Paul Oles and Don Sivalls of Midland, who triumphed over O'Neal and Hubbard, respectively. Midland won low ball.

Midland also made a clean sweep in the fourth flight when Olney Black defeated Jobe and Sindorf defeated Lewis. Midland won low ball.

are speaking for him are stressing his qualifications for the office. They are saying little about the opposition. It is their contention that Colonel Thompson's experience as a business man, his record as Mayor of Amarillo and as a member and chairman of the Railroad Commission qualify him to serve Texas efficiently as governor.

"His style of campaigning is reassuring and refreshing during a political contest that at times assumes many of the aspects of a three-ring circus with calliopes furnishing the music."

Rooster Loses 2 Mates; Cares for Both Broods

RICHLAND CENTER, Wis. (AP)—Mrs. Victoria Kinyon's guinea rooster knows all the woes of marital life—he's been a widower since.

Last year Mrs. Kinyon's guinea hen hatched 10 chicks. The hen was killed, but the rooster took over her task of raising the brood.

This year Mrs. Kinyon got another mate for her rooster. The hen laid a nest of eggs and began hatching them.

In the midst of her setting, she

took time out to forage for dinner. She was killed when she ran into the path of an automobile.

The rooster again took over duties on the nest.

No Navajo rug is completely finished in detail; these Indians have a superstition that any perfect piece of work probably would be the weaver's last.

Rainwater can be used in storage batteries; it is much the same as artificially distilled water.

Honey ants are served at wedding banquets in Mexico.

Weather Forecast for Theatres . . . Cool and Comfortable!

YUCCA NOW RITZ LAST DAY

That's Paris in her eyes...and feminine magic in her every gesture.
