

Stage Set for Midland-Wink Battle

Sad Singer

Sad-eyed blues singer Ruth Etting, above, has taken a room next to her husband, Meryl Alderman, in the Hollywood hospital where he was taken after being shot by Miss Etting's former husband, Martin Snyder. While the movie mogul hoped for Alderman's recovery, Snyder insisted the shooting was an accident, but Miss Etting said Snyder fired in a jealous rage.

Two New Producers Are Completed in The Bennett Pool

By FRANK GARDNER. Brace of new producers was given the Bennett pool of southeastern Yoakum today, with the smaller, Cascade Petroleum Company No. 1-A Bennett, providing a short north-west extension of the pool. It flowed at the rate of 1,048 barrels per day, based upon the last half of a 12-hour gauge, following treatment with a total of 9,000 gallons of acid at 5,270 feet. Honolulu and Cascade No. 4-678 Bennett rated a potential of 1,699 barrels, with gas-oil ratio of 728-1, after treatments totalling 6,500 gallons, bottomed at 5,295 feet. Pay was topped at 5,070. Shell No. 1 J. M. Buys, test seeking mile and a quarter southeast extension of the Bennett pool, is drilling below 3,252 feet in anhydrite and gyp. Yates sand, if topped, had not yet been announced. The well ran 32 feet high to the discovery well of the pool on anhydrite, topped at 2,380. Honolulu No. 1 R. M. Kendrick, extender of the Denver pool is Yoakum a mile eastward, shut off water by plugging back to 5,155 1/2 feet from 5,169 and is now shut in. Two more 500-barrel storage tanks are being erected. On last gauge, made before natural flow was killed, the well tanked 588 barrels of oil in 24 hours. In the Denver pool, Denver No. 15 Whittenburg is flowing an estimated 10 barrels of fluid per hour, cut 15 per cent with basic sediment and acid water, following 1-500-gallon acid treatment at 5,067. Tubing packer is set at 4,833. Don Danvers et al No. 3 Shell-Lynn is drilling at 2,115 feet in sand and red beds. Shell No. 7 Lowe is drilling at 3,129 feet in anhydrite. Harper Well Gauged. L. H. Wentz, Oil Division No. 8 Paul Moss, in the Harper pool of Ector, flowed 137 barrels of oil through 2-inch tubing on 24-hour gauge, with gas-oil ratio of 640-1. See (Oil News) Page 6

Business Sessions of Convention Started

70 Delegates At Initial Meetings

Mayors, CC Officials Of West Texas and N. M. Gather Here

Delegates to the Southwestern Conference of Mayors and Chamber of Commerce Representatives got down to serious business this afternoon after a morning of "getting acquainted." The first session was held this morning at 10 o'clock, with 61 delegates in attendance. Others reporting since that time had swelled the total to 70 and others were expected to arrive this afternoon. Many of the delegates arrived last night, with others coming in early this morning. Cities and towns from all over West Texas and Southern New Mexico had representatives present at the morning session. The morning session was opened by Bill Collins manager of the Midland chamber of commerce, and after a short, humorous talk he turned the meeting over to Mayor M. A. Harlan of El Paso, president of the conference. Mayor Harlan expressed gratitude for the welcome given representatives here and paid tribute to Midland and its citizen population. He then introduced Mayor M. C. Ulmer, of Midland, who gave the formal welcome to the visitors. Mayor Ulmer paid tribute to the organization, expressed regret at not being able to attend previous meetings, and announced that the city was "open" to the visitors. He assured the members that any and all requests would be granted if it were in the power of Midland civic officials to do so. In introducing all members present, Mayor Harlan paid tribute to Clarence Scharbauer, of Midland, as one of West Texas' most outstanding citizens and as a man who had done as much as was possible for one man to do in the development of the country. At noon, a banquet was held in the Crystal ballroom of the Hotel Scharbauer, with Mayor Harlan again presiding. Invocation was pronounced by Representative Nominating Jas. H. Goodman. Immediately after the lunch, members present who were not at the morning session were introduced by H. L. Birney of El Paso was called upon for the principal address. At one o'clock, city engineers from all visiting towns were taken out to view the Midland paving project now in force. The first business session was called for 1:30. At 3:30 this afternoon, delegates will be guests at a barbecue dinner to be held at Cloverdale Park. Tickets have been reserved for all delegates to the Midland-Wink football game tonight, and a dance will be held immediately after the game. The final business session will be held at 9:30 in the morning. Delegates reporting during the morning follow: M. A. Harlan, El Paso, Mayor; Wm. Montgomery, El Paso, City; Gwendolyn Ollinger, El Paso, Cortez Hotel; M. C. Ulmer, Midland, Mayor; Bert Haisig, Midland, Geologist; Bill Collins, Midland, C. of C.; Bill Collins, El Paso, City Hall; L. B. Starns, Alpine, Mayor; G. R. Daniels, El Paso, Auditor; C. C. Crutchfield, Austin, Field Consultant; M. L. Henley, Hot Springs, N. M., Sec. of C. of C.; Paul M. Walter, Las Cruces, N. M., Sec. of C. of C.; Marion Flynn, Midland, Pres. C. of C.; W. E. Stockwell, El Paso, City Plant Engineer; Dan White, El Paso, James Goodman, Midland, 85th Dist. Rep.; Dr. J. B. Thomas, Midland; L. P. Bloodworth, El Paso, C. of C.; J. C. Warren, El Paso, Police Dept.; C. J. Burke, El Paso, Police Dept.; E. R. Bowman, El Paso, Recreational Director; Jess J. See (Convention) Page 8

Sidelights on the Conference

J. C. O'Leary, Secretary, Deming, N. M. Chamber of Commerce.

What a joy to be back in Midland after an absence of ten years, and to be greeted once again by that genial host Clarence Scharbauer. What a revelation is the growth and improvement in that period. As a member of the Deming delegation in April 1928 the writer was a member of the Broadway of America motorcade to Memphis, Tenn. One of the night stops was made at Midland for the formal opening of the Scharbauer hotel, which has since expanded to include almost the entire block on Loraine street.

In that same motorcade was H. L. Birney of El Paso, who is one of the principal speakers on the Friday afternoon program of the Conference of Southwestern Mayors and Chamber of Commerce representatives. He has been the torch bearer for good roads through the southwest for the last twenty years.

The skyline of Midland has gained lots of altitude since we were here last. Walking through the business section late Thursday night, after our arrival, we stood in awe and wonderment before the Petroleum building and the new home of the First National Bank. We tried to envision what Midland may resemble ten years hence.

It is certainly interesting to be back in a city where they can still smoke Perfecto Garcia 3 for 50 cent cigars. As we bought our morning paper today at the Scharbauer hotel the girl at the counter was wrapping up three boxes of these cigars for a customer. This fact alone reflected for our satisfaction some of the prosperity of this community, center of a great oil producing section of the southwest. Odors and burning gas, lighting up the entire country, brought this fact of a great development visibly to mind as we sped through the night to Midland over the Broadway of America.

Once we felt the strong handshake of Clarence Scharbauer and our eyes beheld the beaming countenance of Bill Collins, secretary of the Midland chamber of commerce, we were at home. The people here should know how popular Mr. Collins is in other member cities of the Conference. Midland could have no better evangel.

One aching void of the Conference was created by the absence of the dean of southwestern chamber of commerce secretaries, Willard E. Holt of Lordsburg. He is fighting off a threatened attack of pneumonia in the hospital at Lordsburg, N. M. He was described at the meeting of the Broadway of America in Midland in 1928 as "the friend of mankind and comforter of the great" which fits him perfectly.

Bill Collins accounted for the generous attendance of members from New Mexico by holding up a copy of the El Paso Times bearing a streamer headline revealing that 60 New Mexico residents had been indicted by the federal grand jury at Albuquerque for conspiracy to defraud the U. S. government through violation of WPA administration laws.

We had lunch Tuesday at Deming with U. S. Judge Colin Neblett, who was returning from the Black Range mountains of New Mexico between Siltco City and Hot Springs where he had shot a large bear, a veteran of that region who has preyed on cattle there for years. The judge brought down some bigger game when he returned home to his office at Albuquerque. Mr. Collins recommended a new See (Sidelights) Page 8

Farmer-Laborites Targets of 'Red' Charges

Photographs purporting to show that the Minnesota Farmer-Labor party and its leader, Gov. Elmer Benson, are influenced by Communists in the hands of the Dies committee investigating un-American activities. Among the exhibits in the picture, left above, which shows Governor Benson riding in a New York parade last August with a member of the Young Communist League near the door of his car. This picture was given the Dies committee in Washington by Steve Gandler, St. Paul consulting engineer, shown top right as he charged Communist's activity direct the Farmer-Labor party. Similar testimony was given by Albert Kitzcock, lower right, of Minneapolis, who said he once belonged to the Communist party.

Former Midland Man Held After Kermit Shooting

KERMIT, Oct. 21. (Special). — Ferrell J. Stewart, operator of a sandwich shop here, and formerly of Midland, was placed in jail here and charged with murder late Thursday afternoon as the result of the death of Clarence W. Austin, 22, of bullet wounds.

Austin died in a local hospital about five minutes after the shooting occurred in the Kermit garage, where he was employed. According to officers, Austin was shot four times with a .38 caliber pistol.

Stewart was reported to have driven back to his sandwich shop following the shooting and was arrested a few minutes later by deputy sheriff Buck Lunceford. He was reported to have given "family trouble" as the reason for the shooting when questioned by Lunceford.

Stewart made a lengthy statement to District Attorney Wm. Kerr this morning but it has not been made public.

The shooting is being investigated by Kerr and highway patrolman Captain E. M. Wells. Bond had not been set for Stewart at noon today.

Recalls Opening of Hotel Scharbauer in '28

John C. O'Leary, secretary manager of the Deming, N. M. chamber of commerce here today for the Southwestern Conference of Mayors and Chamber of Commerce Representatives, recalled his visit to Midland in April, 1928, with the Broadway of America motorcade. It was the first night the Hotel Scharbauer was occupied, after its construction.

Conference Called The "Brain Child" Of Mayor Harlan

The Southwestern Conference of Mayors and Chamber of Commerce Representatives might well be called the "brain child" of Mayor M. A. Harlan of El Paso. It was through efforts by Mayor Harlan that the organization was perfected last April and he was unanimously elected first president of the organization.

Such an organization was urged by the founder a long time before it was ever perfected. Sole idea of it was to weld cities and towns of southern New Mexico and West Texas into a unit that would be beneficial to all. Mayor Harlan had long been cognizant of the "cut throat" attitude of the smaller towns towards each other and the organization was the Mayor's idea of a way to stop that attitude of the cities.

The organization was perfected in a meeting at El Paso on April 4 and one quarterly meeting has been held since that time, previous to the one here. It was held in Hot Springs, N. M.

Efforts of the association officers are directed at the many problems facing industrialization of the southwest. Tourist travel, freight rates and many other problems are being given constant study by officers and efforts being made to gain additional benefits for this area.

At the initial meeting, only 35 persons were pledged to membership. Since that time, approximately 75 more members have been signed. Fees in the organization are rated on the per capita population of each city and in most of the towns chamber of commerce and city officials split the fees.

Revision of Freight Rates in West Texas Is Declared Needed

ABILENE, Oct. 21. (AP).—The West Texas Chamber of Commerce traffic committee, meeting in Abilene Thursday, praised a strong recommendation to the organization that it champion a legislative mandamus to the Interstate Commerce Commission to relieve discriminatory freight rate middle in West Texas. The committee's action is considered equivalent to the big regional chamber's policy even before the board of directors has passed on it. That step will be taken at an early meeting of the board.

The committee urged that the West Texas Chamber of Commerce "champion an amendment to the Interstate Commerce Act, which amendment will definitely instruct the Interstate Commerce Commission to revise the intra territorial freight rate structure."

It further favored that the amendment instruct that freight rates of various territories be brought "closer together in both level and scheme, said level not to exceed a maximum of five per cent as between any of the regions of the country, and to revise and blend the inter-territorial rates with intra-territorial structures."

Policeman Arrested For Theft of Papers

NEW YORK, Oct. 21. (AP). — Arrest of Police Lieutenant Cuthbert Behan on charges of grand larceny and destroying or defacing public records in connection with the theft of arrest records from the Brooklyn police station was announced today by Police Commissioner Lewis Valentine.

"GAME OF YEAR" TO START TONIGHT AT 8

The stage was set today for the outstanding football game of the year in West Texas—the battle tonight between the Midland Bulldogs and the Wink Wildcats on Lackey Field at 8 o'clock. All reserved tickets to the game have been sold out since early yesterday morning, only 300 seats remaining for the customers who will appear at the game tonight.

Hitler Government Raises Stop Sign Against Hungary

BERLIN, Oct. 21. (AP).—The Hitler government raised the stop sign against Hungary Thursday in a friendly but unmistakable objection to any hasty partition of what is left of the republic of Czechoslovakia.

Hungary, remnant of the pre-war Austro-Hungarian empire, is anxious to obtain some sizeable portions of Slovakia in the wake of Germany's acquisition of Sudentenland. Poland, created out of western Russia by post-war treaty, is reported to want a division of another portion of Czechoslovakia—Ruthenia—among herself, Rumania and Hungary.

To all the rumors of imminent trades which would remake the map of eastern Europe, Germany has replied unofficially that the remaining minorities questions will be reached in good time. Moreover, informed nazis have indicated that when that time comes, the decision will rest with Germany and Italy, and will be guided strictly by a determination of predominant nationalities.

While reports of border troubles issued from Hungarian-Slovakian as well as from Sudenten-Bohemian borders, the Czechoslovak government took action which was regarded as an added index of a turn toward their political right. In Prague the police outlawed the communist party and suspended its newspapers in Bohemia, Moravia and Silesia.

Prague also rounded up an unestimated number of Jews in an effort to meet the vexing refugee problem. Former residents of the Sudentenland by the thousands, fleeing sectors into which the German military marched after the "peace of Munich," have streamed into Bohemia.

Though the Czech general staff and DNE, the official German news agency, said a half dozen persons had been killed in disorders on the Sudenten-Bohemian border, the German administration in the newly-acquired areas prepared to take control from the hands of the military and give it to the civil authorities.

The warning to Hungary was contained in the foreign office mouthpiece, Deutsche Diplomatische Politische Korrespondenz.

Eastland Files Bankruptcy Suit

ABILENE, Oct. 21. (AP).—The city of Eastland, through its attorney, Frank Sparks, Thursday, filed with Ida M. James, United States deputy court clerk here, a petition of municipal bankruptcy proceeding under section 81 of chapter 9 of the bankruptcy act.

The petition set forth that the city of Eastland "is unable to meet its debts as they mature and desires to effect a plan for the composition of its debts."

Financial statement of the city as given in the petition shows that in 1937 the total assessed valuation was \$1,746,894, the tax rate \$2.50 per \$100, total taxes assessed \$43,671.35, and total collections \$33,334.40.

Total indebtedness outstanding was listed at \$1,034,700, with maturity dates of bonds and warrants ranging from 1932 to 1965. The gross deficit in the interest and sinking fund account as of Sept. 30, 1938, was \$555,628.55.

Sweeping Arrests Follow W. P. A. Investigation in New Mexico

ALBUQUERQUE, N. M. Oct. 21. (AP). — A federal grand jury Thursday returned indictments against 62 persons for conspiracy to violate the federal WPA laws in New Mexico, among them Assistant United States District Attorney Stanley W. P. Miller and scores of men and women of high political places in state and federal government. Eleven other indictments, other than conspiracy, were returned for political-discrimination against WPA labor, diversion of WPA funds and services and illegal political activities.

Judge Orders Arrest. Federal Judge Colin Neblett, United States marshal, ordered the 73 defendants and bring them to court Tuesday morning to make bond. The 23 grand jurors, who have

labored since Sept. 7 on the state WPA investigation, were ordered in recess pending call of the court. In one of the most sensational and sweeping court actions ever to take place in New Mexico's 25 years of statehood, the grand jury found true bills against men and women long associated with governmental matters. Among them were Miller, who is son-in-law of U. S. Senator Dennis Chavez; Mrs. Anita Tafoya, the senator's sister; his cousin, Salomon Chavez; his nephew, Salomon Tafoya; Mrs. J. A. Werner, wife of the Albuquerque postmaster; Mariano Werner, the postmaster's brother; former state WPA Administrator Fred G. Healy; Fred Sganzihi, head of the state drivers' license bureau; Joe Martinez, secretary to

the Department of Internal Revenue, and scores of WPA administrative employees. The 62 conspiracy indictments carry a maximum penalty of two years imprisonment and \$10,000 fine. Among defendants charged with violations of the WPA code citing diversion of property and services to personal use, and political discrimination was Bernardo Cruz, Mora county Democratic Chairman. Others indicted on felony counts of conspiracy included Police Chief Wooten of Las Vegas, former State Police Captain Roy Vermillion, and Chief Wooten's brother, Steve.

The non-conspiracy indictments carry a maximum penalty of one year imprisonment and \$2,000 fine. Miller, departing on a party with wife and friends, said he would have

something to say tomorrow. Senator Chavez received reporters with a smile, saying: "No comment whatsoever." The matter is pending before the court. Under our system of jurisprudence, all persons charged with offenses against the state or government are presumed to be innocent until proven otherwise. It is a pending case which the court will attend to." The grand jury, standing quietly before Judge Neblett, declared in making its final report that "we do not say all investigations have been concluded," and recommend that federal agencies take up where the jury left off.

"The selfish aims and ambitions of individuals entrusted with the administration of the WPA amazed your grand jury," the foreman, A. R. Combs of Carlsbad said. "It is

arent that too many persons seeking personal and political gains have violated legal and moral codes." "Failed To Keep Respect." The jurors declared that without questioning the aims of the WPA program, it was clear "that many of those in positions of honor and trust have failed in creating and maintaining respect for themselves and the government which they are under oath to represent."

The statewide WPA investigation was launched without warning Sept. 7, when United States District Judge Colin Neblett instructed the grand jury to consider charges against "certain persons," which he said were contained in affidavits presented to the court. He told the jury the affidavits charged WPA payrolls had been

pped and that workers assigned to WPA projects had been transferred to private employment or to work on political campaigns without being dropped from the government payroll. "It is common rumor," Judge Neblett declared at that time, "that grafting has been going on for some time, but so far as I know, there has been no investigation whatever."

During its investigation, the jury heard testimony from more than 50 witnesses including Governor Clyde Tingley, and former state WPA Administrator Fred Healy. Prior to the investigation, numerous charges of "political influence" among WPA workers had been voiced by both Democratic and Republican leaders, particularly during last fall's heated political campaign preceding a special state election on constitutional amendments.

Congratulations To:

Mr. and Mrs. C. E. Bishop, parents of twin boys born Thursday night in a Midland hospital. The last fall's heated political campaign preceding a special state election on constitutional amendments. The boys, who are identical twins, weighed 5 1/4 and 5 1/2 pounds respectively.

EDITORIALLY SPEAKING

Greetings, Visitors! Midland Feels Self Conscious and in the Limelight

Midland has reason to feel proud today, as hundreds of civic leaders of the southwest have gathered for a quarterly convention and football fans from all parts of the state have assembled to witness the class B classic of the year.

While the little city feels under the spotlight, with so many visitors here to share in the Midland hospitality, everyone should feel at home and know that the guests are welcome.

Civic leaders here, without doubt, will derive timely suggestions from the mayors and chamber of commerce representatives attending the convention. It is our hope that some inspiration might be taken back from those who look the little city of Midland over.

Likewise, sport fans are being given a treat through opportunity to observe the fast Wink football team in action. Midland Bulldogs are out to win, if possible, but if they lose the local fans are still behind the home team, with hats off and long applause for the visitors.

Welcome, folks!

Wings at Home and Abroad

At home:

The Sperry Gyroscope Company announces a new automatic direction finder that, once tuned to a transmitting station, points continuously and automatically to that station so that a pilot need only glance at the needle to orient himself on the map.

United Air Lines and the Western Electric Company demonstrate an absolute altimeter. This gives a pilot a continuous picture of the height of the ground beneath his wings by means of an ultra-high frequency radio, which records the height in feet on a dial.

The Civil Aeronautics Authority in Washington sets out to determine the necessity and convenience of 19 proposed extensions of air mail service, which would extend existing air mail lines of 32,000 miles by some 9000 additional miles to include service in numberless small towns.

Abroad:

In Spain 10,000 people have been killed and 15,000 injured in air raids this year, it is estimated by military experts.

At Bias Bay, in China, bombers and fighting planes of the Japanese army join in a military operation in which 1000 Chinese are killed or wounded as 30,000 Japanese soldiers are landed in a new drive.

SO THEY SAY

INCREASING ENROLLMENTS

(El Paso Times.)

University and colleges scarcely can add facilities fast enough and of sufficient size to take care of their increasing student bodies. This is the thought that comes to mind with the announcement that University of Texas enrollment now is almost 10,000, hundreds above last year.

More young people than ever before are now taking advantage of opportunity to obtain higher education. The better their preparation the better they will fare in the world, they are convinced. And the opinion is soundly based.

By the way, we are fed up with the joke about "graduating from school into the WPA." It is wrong and unfair to find young people the wrong notion that it is hopeless for them to try to find jobs.

The more resourceful and aggressive of every school's graduates will be in the job within a few months after commencement day. There will even be a few who, unable to find employment, will make jobs of their own and do well with them.

London hears Chamberlain is to be made a Knight of the Garter. Which prompts the observation that recent international affairs look like wardrobe week. Chamberlain gave Hitler the Czech's shirt and won garter's for himself.

Mr. Farley has praised Governor Lehman for "getting New York state out of the red." Unkind people now want to know from Mr. Farley: who got New York state into the red?

BABSON'S AUTHENTIC STATEMENT

By ROGER W. BABSON

Copyright—1938—Publishers Financial Bureau

BABSON PARK, Mass., Oct. 21.—Babson is the key man of Europe. The future of the Old World now hangs around him. He can plunge civilization into chaos or push it on to the East too far and too fast; or he can produce a new era of prosperity if he directs his amazing abilities toward rebuilding Germany economically. My guess is that he MAY turn his magical energies along economic lines and inaugurate world prosperity.

THE SCARE FACTS BUSINESS.

This is the most impressive thought that I brought away with me from the Continent of Europe. At the time I was there—just at the peak of the war scare crisis—no one would talk business. In fact, going from Brussels, Belgium, to Lille, France, we passed soldiers every few miles aiming loaded machine guns at our train. Boxes of T. N. T. were strapped upon the sides of every bridge. A wire led from these boxes to an officer in the bushes. In his left hand he held a telephone awaiting orders to blow up the bridge by pressing a switch he held in his right hand.

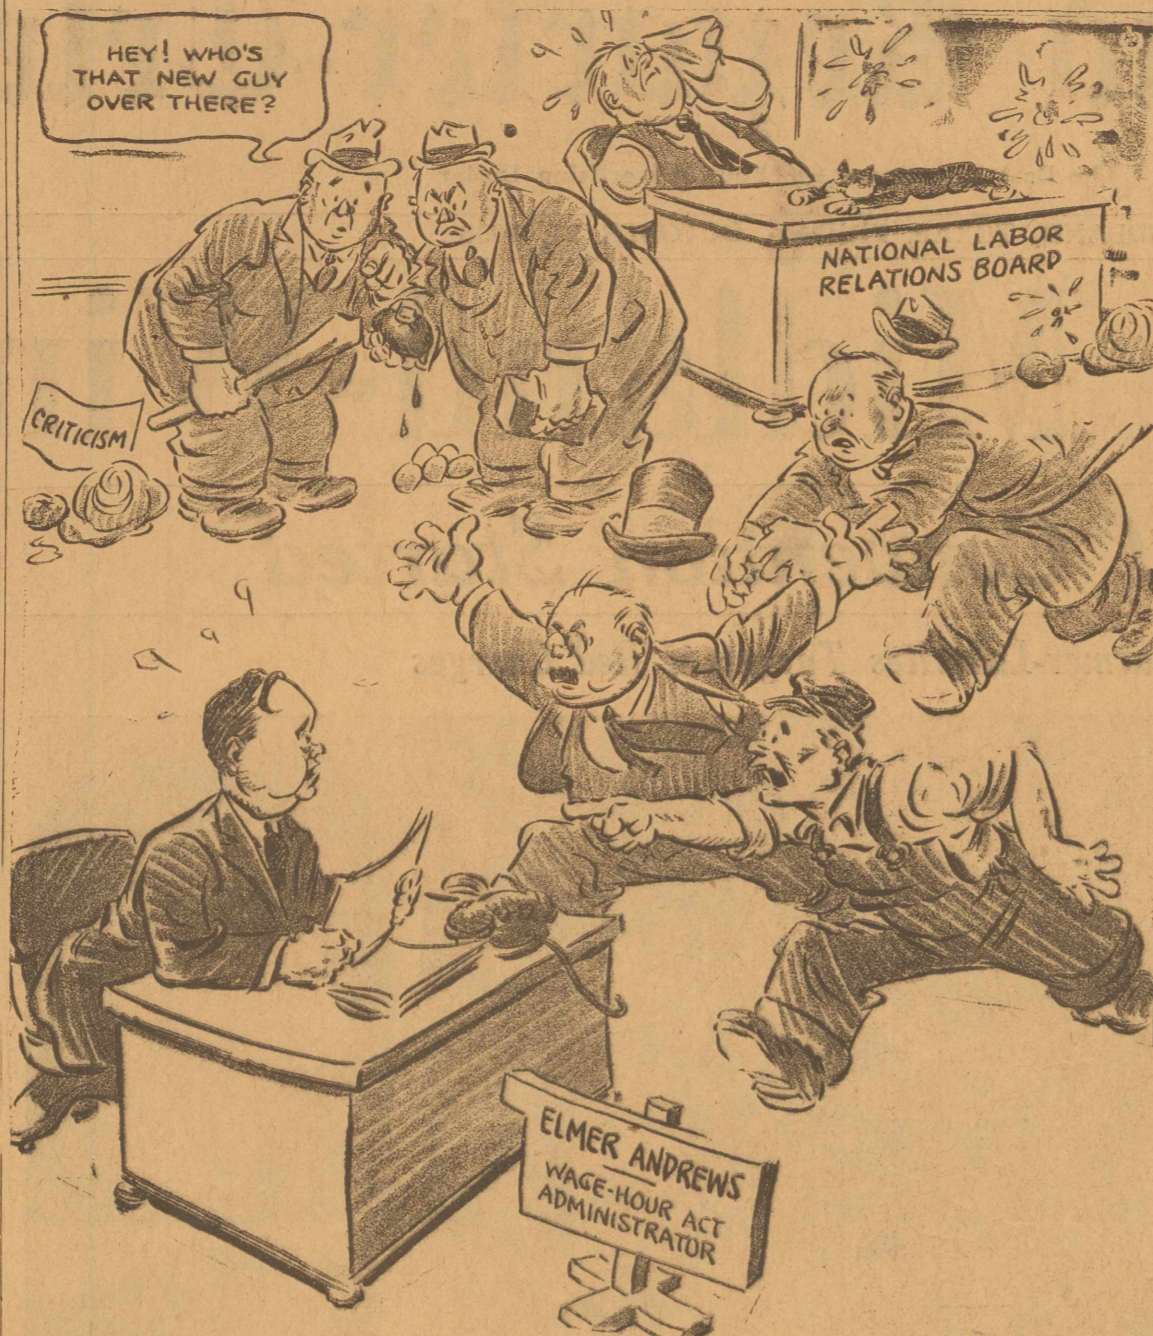

Business on the Continent was at a standstill. But, just as in America and England, trade and industrial activity have come back with a bang since the Munich Conference. Belgium is the most prosperous country in Europe right now. Although technically "neutral," I

FRANCE IS SLIPPING BADLY.

I felt a marked change as I went into France. The French are courteous, cultivated, and splendid hosts; but they seem to have lost their courage. With Fascist Italy and Germany at their borders and with a large Communist Party within their very midst, they are thoroughly frightened. This was very apparent as I walked the streets and visited the shops. When one studies the vital statistics of France and sees how the birth rate is declining, her future does not look bright.

When I was in France the soldiers were all at the frontiers. Only older men were seen on the streets. The women were busy painting the glass of their windows blue and doing other things to prepare against air-raids. Incidentally, never realized before what the English and French suffered from airplane bombs 20 years ago. Moreover, they believe that if war were to occur now the destruction would be fifty to one hundred times as great.

The N. L. R. B. May Get a Little Breathing Spell Now

Again, I say to my United States and Canadian readers:—"Get down on your knees and thank God you live in America. Yes, and thank Him by being just and generous to others."

TRUTH ABOUT GERMANY.

Here are some facts which I gathered about Germany:—

- 1. Ninety-nine per cent of the population are behind Hitler politically. They fear to vote otherwise.
2. Thirty per cent of the population are with him in their hearts. This group is made up chiefly of youths and others under 30 years of age.
3. Among the 70 per cent not with him in their hearts are many business men, war veterans, Jews, and their friends.
4. There is no dolo system in Germany and no apparent unemployment.
5. The food is coarse, with very little butter and eggs. Everyone complains about the bread. Potatoes and sausages are plentiful.
6. Prices in the stores are reasonable—perhaps cheaper than anywhere in Europe. The materials and quality are poor, however.
7. Synthetic products of all kinds are being used so as to make Germany self-sufficient.

Yet, I believe that Germany is not so badly off economically as we are led to believe. Hitler has taught his people to invest in armaments what they heretofore wasted on harmful foods, silly styles, and expensive recreations. America, England, and France are recklessly spending money on both armaments and relief, without curtailing on waste. Germany could show us how to balance our budget and still be healthy and happy. It is true that Germany has temporarily abolished freedom; but much that we call freedom is mere license to waste money and undermine character and health. Germany's goal is "babies, health, sports, and armaments."

WHAT OF THE FUTURE?

Everyone, both here and abroad, feels that the crisis is now over. I have consistently predicted that no nation could risk a war this year. However, I may yet be mistaken. According to the Peace Pact, it will be at least November 25 before we are out of the woods. Czech negotiations with Poland and Hungary are still going on. There is many a slip 'twixt the cup and the lip. Furthermore, there is a growing feeling on the part of certain groups in England and France that Chamberlain's peace policy must be opposed.

Then, too, everyone wonders what rabbit Hitler will next "pull from his hat." He must do something dramatic every year to retain his power. I will make a guess as to what his next move may be.

Hitler MAY now direct his daring energy and hypnotic powers to reviving foreign trade, developing industry, and restoring Germany's former financial position. He has carried out his previous policies step by step according to a prearranged schedule—in a most unbelievable manner. If he were to tackle a restoration of German industry and trade with the same indomitable spirit, the results throughout the world would be tremendous.

CONCLUSION.

Business on this side of the Atlantic over the next few years will be better regardless of Hitler and Europe. Furthermore, if I am right on Hitler's long-term policy, the world may now be at the beginning of a new boom era. Real prosperity in America may at last be at hand!

THE CAPITOL JIGSAW

By HOWARD C. MARSHALL, Associated Press Writer

AUSTIN, Oct. 21. (AP).—A fact many Texans may not know is that they own a railroad. It is the Texas State railroad, terminal of which are Rusk and Palestine. About 32 miles long, it has been under lease to the Southern Pacific railway since 1921. In 1931 it was valued by the interstate commerce commission at \$750,000.

Southern Pacific officials say the railroad has lost money consistently since they took over its operation, but, nevertheless, regular service is maintained, comprising a freight train each way daily. In addition, the Southern Pacific occasionally routes a train from the St. Louis and Southwestern over the Rusk-Palestine line.

Recently the writer asked attaches of the Railroad Commission for data on the railway and this brief "history" was compiled.

Construction of the Texas State railroad was begun in 1894 by the State Prison system as a plant facility for the penitentiary at North Rusk. It was intended to serve an iron furnace and other industries.

By 1896, 4.73 miles had been completed, extending to the penitentiary lands lying toward Palestine. By 1906, 10.2 miles had been constructed to Maydelle, and by 1909 the entire road, 32.7 miles long, had been finished.

The railroad was built by convict labor, and figuring the labor at 50 cents per day per convict, the cost of the first 10.2 miles was \$43,431. The cost of the remaining 22.5 miles was stated by a legislative investigating committee of 1913 to have been \$330,333.

Operation of regular freight and passenger service was authorized by the legislature early in 1907, the same act also authorizing for division superintendence and expenses below that ran on a mileage basis, estimated to be about 80 per cent of the operating expense from Galatin to Palestine; and that the net railway operating income should be divided equally between the lessee and lessor. It was contemplated that the crew of the Galatin-Rusk section of the T. & N. O., 3.29 miles, should handle the service.

The lease was renewed for a 20-year term, beginning Jan. 1, 1929, by act of the legislature, and again was approved by the T. C. C. and the Texas Railroad Commission. There was provision for use of state labor for a short interval in improving and maintaining the property.

At the time renewal of the lease was under consideration it was

been incurred by the T. & N. O. through operation of the Galatin-Rusk line.

For 20 years Mrs. Agnes Martin has been going to doctors to see what makes her tick.

No painless-cure seeker she's sat many hours in physicians' waiting rooms only to rediscover that she has no ordinary clinical symptoms. A steady ticking sound in her ears—which can be heard easily enough—goes right on.

In the interest of accuracy Mrs. Martin doesn't have a clock in her head but one may hear regular "tick-tock" sounds like those of an alarm clock coming from her ears. The ticking has baffled medical science but after 20 years Mrs. Martin is pretty used to it. Although the malady—which has name—is not shared exclusively by Mrs. Martin, there are extremely few cases of it recorded in this country.

Mrs. Martin goes back to war time to get at the beginning of the "tick-tock" as a physician called for want of a better term. A little girl then, she went swimming one day and came down with the flu. When she recovered she had an "alarm-clock" head.

By this time she doesn't mind the considerable wonder with which everyone regards the clock-like working of her ears. She's taken a lot of kidding too. But that steady ticking hasn't slowed down her natural and pleasing vivacity.

Winter is coming on and Mrs. Martin knows from experience the ticking will speed up.

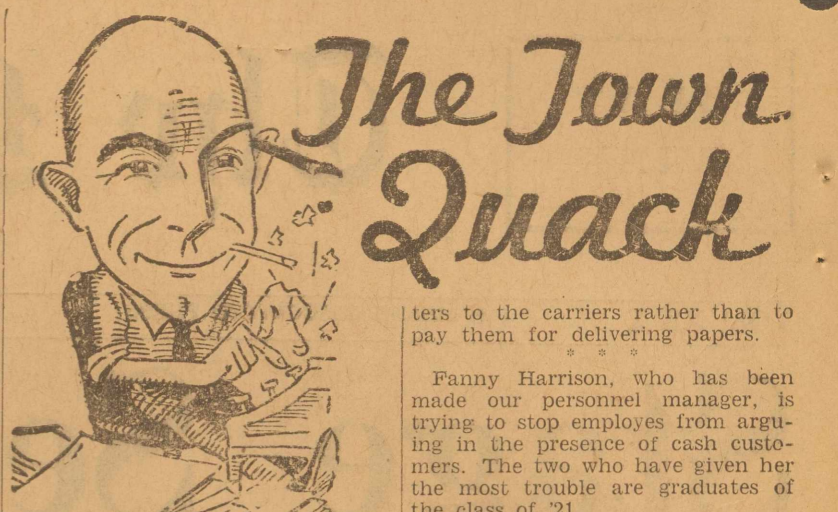

"It always seems to get worse during cold, damp weather," she explains. "I don't know why but it just gets louder and louder the more." She believes those who have likened her condition to an alarm-clock are correct, explaining: "the time it worries me most is early in the morning. If I wake up, I can't go back to sleep."

Electric Cell To Catch Sun's Power Tested

LONDON (UP).—An invention which if practical may revolutionize the electrical, gas and coal industries is being developed by a British company.

Its inventor, a French scientist, declares it will extract electrical power from sunlight and do all the work of a generating station.

It is called the Heli-Electric Generating Cell, and a number of these wired together on the roof of a building and connected

While we await word from Administrator Elmer Andrews as to whether or not we come under terms of the wage-hour bill, we are trying to devise ways to come out on it. We have made everybody on the place a foreman or department head but one, and he's on a 45-hour week now. We may have to pay him for the 45th. The route boys would be affected on the age limit, although we don't see anything oppressive about delivering the routes or selling a few papers on the streets. The best bet we have so far is to start to work on central time and quit on mountain time, without letting the employees see us run the clock back.

A woman subscriber, who watched a route boy stop and play four quarters of a sand-lot football game while she waited for a paper, suggested that we award athletic let-

ters to the carriers rather than to pay them for delivering papers. Fanny Harrison, who has been made our personnel manager, is trying to stop employees from arguing in the presence of cash customers. The two who have given her the most trouble are graduates of the class of '21.

Claude Duffy says he can't figure a man who will pay \$2,000 for a hunting trip to Canada and then try to get Jack Cusack to bring him two cartons of cigarettes from New Mexico so's to evade the tax. O. B. says to be sure and not mention his name with anything Claude puts out. I wonder if there is any connection.

Addison Wadley and Lloyd Mackey went to the same place, did the same thing and stayed the same length of time. Addison reported the time of his life, whereas Lloyd said he wished he had stayed at home. It's all in the way you look at it, I guess.

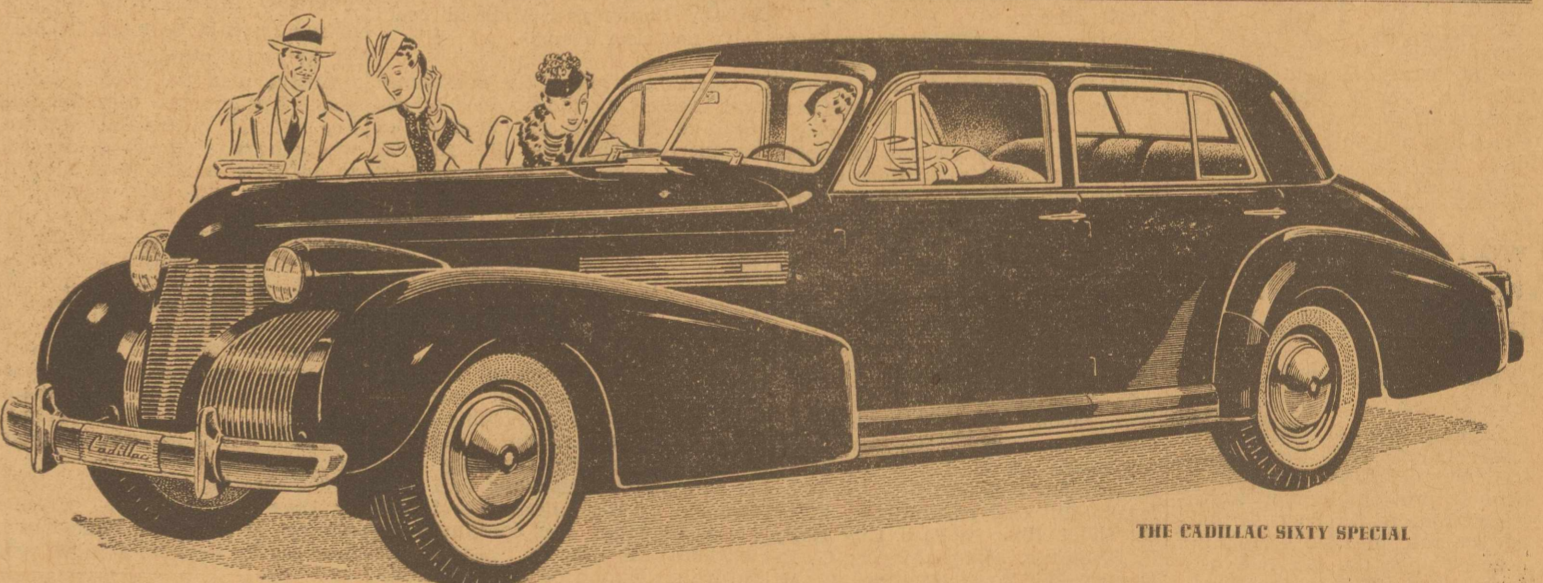

M. W. (White) Whitmore reported that when the norther came up, Tommy Wilson immediately sold a blanket. THE STATE OF TEXAS COUNTY OF MIDLAND NOTICE IS HEREBY GIVEN that the partnership lately subsisting between D. J. Finley and A. W. Cherry of Midland, Midland County, Texas, under the firm name of "FINLEY AND CHERRY" was dissolved by mutual consent on the 11th day of October, 1938; while all the indebtedness incurred by the partnership is recognized by the partners and is to be discharged by the partners, no further indebtedness or obligations are to be incurred for the partnership by either partner though either partner shall be allowed to use the name of the firm in liquidating all debts due to and from the partnership. All demands on said partnership are to be presented to Mrs. Velma Flannery in the office of D. J. Finley in the Petroleum Building, Midland, Texas. A. W. CHERRY DATED: October 12, 1938. Oct. 14-21-28; Nov. 4.

with storage batteries will produce at least 60 amperes an hour even on the dulllest day, it is said. On a sunny day the supply is multiplied by 10.

An official of the National Physical laboratory where the cell has undergone tests said, "It definitely produces electricity." Other scientists are skeptical. Prof. A. M. Low, the well-known physicist, was quoted as saying that while in theory the cell had immense possibilities, in practice, it was not scientifically possible to produce more power than would move the needle of a meter.

Antonin Dvorak's "Humoresque" was written for the piano, but gained little of its present popularity until Fritz Kreisler arranged it for the violin.

Again Cadillac shows the world!

THE CADILLAC SIXTY SPECIAL

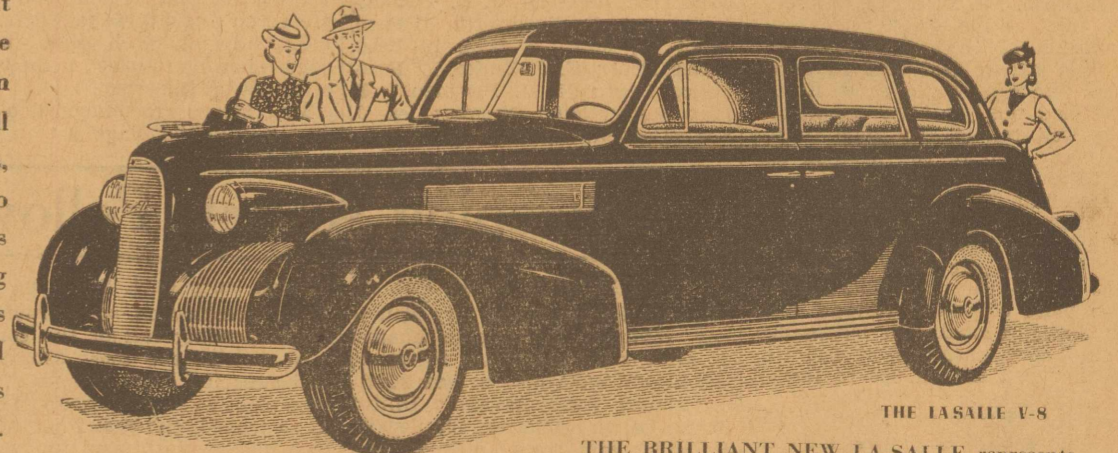

CADILLAC ANNOUNCEMENTS Care invariably the outstanding events of each new automotive year.

But there has never been a time when it was so important to visit our showroom as it is today. The new Cadillacs and LaSalle, now on display, completely sum up all that the world knows of luxurious, personal transportation. They do more. Each presents innovations in every department of motoring which point the way to progress for the entire industry... and each is offered at a price which sets the value standard for its field. We urge you to come in today!

PRODUCTS OF GENERAL MOTORS

THE NEW CADILLAC SIXTY SPECIAL—and its companion car, the new Sixty-One—again have no competitors in their field. Leadership has been maintained by adding to all phases of performance and by a remarkable improvement in appearance and appointments.

There are also two distinguished new Cadillac Fleetwoods, the V-8 and the V-16, which further enhance Cadillac's reputation as leader of the finer field. Motorists who want unlimited luxury, comfort, safety and performance will find these splendid new Cadillacs completely fulfill their desires.

THE LASALLE V-8

THE BRILLIANT NEW LASALLE represents an almost unbelievable advance in roominess, comfort, luxury and safety. And its Cadillac V-8 engine is the smoothest, quietest and finest performing power plant ever offered in a medium-priced car.

# SOCIETY NEWS SECTION

## Shirley Beauchamp Entertains on Fourth Birthday

Shirley Lee Beauchamp entertained on her fourth birthday with a party at the home of her mother, Mrs. Marvin Beauchamp, 904 S. Fort Worth.

Decorations and refreshments were carried out in Halloween colors. Plate favors were horns and other toys.

Games were played by the group and birthday gifts were presented to the hostess.

Guests present were: Inez Beauchamp, Shirley Ann Biggs, Doris Bailey, Billie Sue Bailey, Nan Welch, Billie Anderson, Newel Beauchamp, Ann Beauchamp.

## Here's Quick Relief for RASPY COUGHS

DUE TO COLDS

FIRST—put a small lump of Vicks VapoRub on your tongue and let it melt. The medication bathes the irritated membranes as it trickles down your throat—bringing comforting relief—where you want it—when you want it.

THEN—melt a spoonful of VapoRub in a bowl of boiling water. Breathe in the vapors for a few minutes. As these vapors work their way down through the air-passages, they loosen phlegm and ease the cough.

## Bend the Knee to a Fashion Royal -- "Court Breeches"

Here are Bruyere's "court breeches" under an unusual afternoon dress. In black silk jersey to match the fabric of the frock and bolero, they are finished with red velvet, patters. The slightly flared skirt is entirely quilted as is the bolero jacket. The long bodice which molds waistline and hips is of plain jersey. The black astrakhan toque also is trimmed with red velvet. Notice the tiny astrakhan muff.

## Greasewood Club Name of Newest HD Organization

Mrs. Dick Midkiff was elected president of the Greasewood Home Demonstration club at an organization meeting at the home of Mrs. Warren Skaggs October 19.

Other officers elected were: Mrs. T. O. Midkiff, vice-president, Mrs. Warren Skaggs, secretary-treasurer, Mrs. Tyson Midkiff, reporter, Mrs. Ray Hargis, parliamentary, Mrs. Dick Ehrig and Mrs. Frank Midkiff, council delegates, Mrs. Dwight McDonald, crechard demonstrator, and Mrs. George Baker, bedroom demonstrator.

Miss Mary Jo Weigers, county home demonstration agent, met with the women and explained what home demonstration work is and the relationship of the county home demonstration clubs to that of the state extension work. Miss Weigers also gave a demonstration on the bathroom and bathroom accessories. The women were taught how to make candle wick bath mats and quilted and appliqued bath mats. Decorative finishes for guest towels were also taught.

The club voted to meet only once a month and to have an all day meeting at that time. Those present were Mrs. Paul McDonald, Mrs. D. W. McDonald, Mrs. Dick Midkiff, Mrs. T. O. Midkiff, Mrs. Frank Midkiff, Mrs. Tyson Midkiff, Mrs. J. E. Smith, Mrs. Ray Hargis, Mrs. John Hargis, Mrs. George Baker, Mrs. Warren Skaggs, and Miss Weigers.

## Centennial Club Meets Thursday

Halloween colors of black and gold in appointments, marigolds for party flowers, and a Halloween party plate emphasized the note of

## FLAPPER FANNY

"I don't know whether they're Baldwins or Jonathans or Winesaps, but they're the kind you sell for teachers."

## Needlecraft Club Meets Thursday With Mrs. Graham

Needlecraft club members gathered at the home of Mrs. Reuben Graham, 1804 W. College, Thursday afternoon for their weekly sewing session.

It was the first time Mrs. Graham had entertained the club in her new home and, after the sewing hour, guests were shown over the house.

Following the inspection trip, refreshments were served.

Those present, all club members, were: Mmes. A. W. Wyatt, Geo. Phillips, Robert Cox, Alvin Johnson, M. L. Wyatt, H. G. Bedford, Niles Winter, and the hostess.

The club will meet next Thursday with Mrs. Geo. Phillips, 200 South L street.

## Brother, Sister Celebrate Birthdays At Afternoon Party

Patsy and Junior Klatt celebrated their seventh and ninth birthday anniversaries Thursday afternoon with a party at the home of their parents, Mr. and Mrs. Fred Klatt, 504 S. Mineda. Patsy was seven and Junior was nine.

Two birthday cakes, lighted with pink and blue candles, were a special feature of the refreshment hour. Indoor games were played during the afternoon.

Present, besides the honorees, were: Margie Neal Conn, Wanda Jo Hankla, Herman Hankla, Maxine McKinney, Lucille Dixon, Dora Geneeze, Hubert McKinney, Ernest Klatt, Paul Punneal, James Bryan, Barney Hightower, Wayne Bailey, Geo. Grant, Mrs. Jess Rhoden, and the hostess.

## Fall Flowers Employed by Hostess For Thursday Club

Chrysanthemums and zinnias carried out a fall theme in floral arrangements for the afternoon party with which Mrs. O. C. Harper complimented the Thursday club at her home, 1706 W. Missouri, Thursday.

Club guests were Mrs. Alden Donnelly and Mrs. R. C. Tucker. Three tables of bridge were played with Mrs. Harvey Conger winning high score prize and Mrs. Robert Muldrow second high.

Mrs. Conger was also presented with a gift from the club membership as a special feature of the party.

A refreshment course was served after the games.

Club members present were: Mmes. Overton Black, Conger, John Cornwall, R. W. Hamilton, Bert Hemphill, J. W. Jordan, Muldrow, Hugh McClure, R. W. Pattenon, W. A. Yeager, and the hostess.

## Bridge-Luncheon at Odessa Compliment To Bien Amigos Club

Mrs. Joe Pyron was hostess to the Bien Amigos club with a one o'clock luncheon and bridge at her home in Odessa Thursday.

Upon arrival of guests were served a two-course luncheon. Afterward, two tables were appointed for the bridge games in which high score prize went to Mrs. Neilson Young and second high to Mrs. J. M. Haygood.

Present were: Mmes. Joe Ballanfonte, Jas. H. Chapple, C. A. Mix, W. B. Harkrider, Haygood, F. F. Winger, Young, and the hostess.

G. B. Klatt. Mrs. A. E. Dixon assisted Mrs. Klatt in the entertaining.

## FEMININE FANCIES

By KATHLEEN EILAND

Most utilitarian development in costume jewelry is embodied in a new plastic bracelet which carries a hidden compact.

A narrow band of metal on the bracelet slides back and lo! there is a compartment for rouge, another for powder, and a tiny mirror. We can think of nothing neater.

Now a girl can repair her makeup without having to bother with carrying a purse about and propping the mirror against something while she beautifies.

She simply lifts her arm, flicks back the metal band—and there is her dressing box, all ready for use.

Purple continues to be drummed up as one of the high-fashion colors by high-powered advertising copy writers. Somehow we doubt whether it will be very popular with the average woman.

There must be something to the old saying of being "born to the purple." At least, the color has never been becoming enough to the majority of women to rank it with more dependable shades in their color preference.

Purple is lovely—for those to whom it is becoming.

Do you know what a "tenderet" is? We suspected as much.

It's a machine which puts together all kinds of foods in varying combinations, fuses them into one flat slice and sends them out to be fried for sandwiches.

By means of a block of sharp-cutting knives, bits of mushroom are driven into the steak to give it a new flavor; or pork is impregnated with wee portions of sauerkraut; or ham, veal, and cheese combined in one solid portion of sandwich filling.

The machine, so far, is displayed in larger sizes only. But the manufacturer is said to be considering a smaller size for home use. If this becomes available, the housewife's troubles over what to use for sandwich fillings and how to use the odds and ends of food left-over from meals should certainly be minimized.

She need only fuse them together (the odds and ends, we mean) and thus concoct original flavors and creations for new sandwich spreads.

Most everyone who has taken time to think about it has a "dream house" in his mind, no matter how vaguely outlined. It is somehow pleasing to note that President Roosevelt has also had for years his idea of a "dream house".

And now the presidential "dream house" is being built! Good luck to him and may he be happy in it—even though we predict if he lives there long, he'll install the telephone whose absence he has dreamed of as one specially-luring feature of the house.

It isn't every one of us who can build the house of our dreams. But it is some pleasure to dream of it, anyway.

## VISITS HERE.

Mrs. Sidney Dunkin Jr. of Houston is visiting relatives here. She is the former Miss Julia Ann Aycock.

All the writings of Jane Austen were done in the family sitting room, where the piercing shriek of the swinging door would warn her of the family's approach and give her time to hide her manuscripts.

# New CHEVROLET 1939

### On Display Tomorrow

## ALL CHEVROLET PRICES REDUCED

some models as much as \$45

### Here's Big News!

Come in tomorrow. See this marvelous new Chevrolet for 1939. The highest quality motor car ever offered in the entire history of low-cost motoring. With all these sensational new features making it the outstanding car for all-round satisfaction as well as the biggest buy in motordom. SEE IT—DRIVE IT! BUY A CHEVROLET AND BE SATISFIED.

#### PERFECTED VACUUM GEAR-SHIFT

"The Magic Finger That Shifts Gears"

A small lever, or "mechanical finger," located on the steering column, enables you to shift back and forth to all gears, swiftly, silently, safely, effortlessly. Available on all models at slight extra cost.

#### New Aero-Stream Styling

New Bodies by Fisher

Imparting an entirely new appearance of greater length, lowness, luxury.

#### NEW LONGER RIDING-BASE

Greatly increased comfort... born of added inches and added ingenuity in car engineering... giving the ride-results of cars several inches longer in actual dimensions!

#### New "Observation Car" Visibility

Chevrolet's wider windshield and large squared windows give super-around safe visibility all around.

**HOLINESS TABERNACLE** (Pentecostal) Pastor O. W. Roberts 10:00 a. m. Sunday school. 11:00 a. m. Preaching service. 7:45 p. m. Wednesday, Prayer meeting. 7:30 p. m. Evening service.

**GRACE LUTHERAN CHURCH** T. H. Graalmann, Pastor. Services are held every second and fourth Sunday at the Midland Episcopal Church at 2:00 p. m. You are cordially invited.

**ASSEMBLY OF GOD CHURCH** 510 S. Baird M. E. Stubblefield, Pastor. 10:00 a. m. Sunday School. 11:00 a. m. Church service. Sermon by the pastor. 8:15 p. m. Church service. Sermon by the pastor. 8:00 p. m. Tuesday. Young people's meeting. 8:00 p. m. Friday. Prayer meeting.

**NAOMI CLASS** The Naomi (inter-denominational) class for women will meet at 9:45 o'clock in the private dining room of the Hotel Scharbauer. Mrs. J. Howard Hodge is the teacher.

**MEN'S CLASS.** The Men's class meets every Sunday morning at 9:45 o'clock in the Crystal ballroom of the Hotel Scharbauer. It is a non-denominational class and every man who does not attend services elsewhere is cordially invited to attend. The teachers are Marvin Ulmer and Judge Charles L. Klapproth. There is a singing service of fifteen minutes prior to the speaking.

## New Plastic Bracelet

NEW and unusual is this plastic bracelet trimmed with a narrow band of metal which slides back to reveal a tiny mirror and compartments for rouge and powder. The bracelet comes in a variety of shades to harmonize with evening as well as daytime dresses.

## College Registrars To Hold Convention

AUSTIN. — Registrars from approximately seventy colleges and universities in Texas will meet at the University of Texas on October 28 and 29 for the annual convention of the Texas Association of College Registrars. Meeting to discuss mutual problems affecting registrars, to exchange experiences, and to consider ways of improving registration methods in Texas colleges, the two-day session will offer round-table and open forum discussions. A feature of the convention will be a banquet October 28, at which the principal speaker will be Dr. Ruth Allen, associate professor of economics at the university. The traditional humor feature, a session of Add and Drop College, will be conducted by E. J. Howell, registrar at Texas Agricultural and Mechanical College. Dr. E. W. Doty, dean of the College of Fine Arts at the University, is in charge of music for the banquet. The last meeting of the association at the university was ten years ago. Max Fichtenbaum, assistant registrar at that institution, said. Officers of the association are: President, Miss Iris Graham, registrar at Abilene Christian College; vice president, F. J. Agee, registrar, College of Mines and Metallurgy at El Paso; secretary-treasurer, Mr. Fichtenbaum.

## Pivot Club Meets at Home Of Mrs. Prickett

Mrs. Harry Prickett was hostess to the Pivot club with an afternoon of bridge at her home, 511 San Angelo, Thursday afternoon. Clusters of zinnias brightened the playing rooms where two tables were appointed for the games. Refreshments were served at the tea hour. Club members present were: Misses R. P. Coats, F. C. Cummings, Chas. Brown, M. A. Park, Wade Heath, P. R. Schenck, and the hostess.

## Bones Indicate

LINCOLN, Neb. (UP)—A new type ancient Nebraskan characterized by a long, narrow skull has been discovered by Dr. Earl H. Bell, assistant professor of anthropology at the University of Nebraska. The discovery was made during excavations conducted near Ponca, Stanton and O'Neill in northeastern Nebraska. Dr. Bell estimates that the race, believed to be representatives of the Woodland culture, lived in the area perhaps a thousand years ago. New information uncovered by a summer's digging proves definitely, the anthropologist asserted, that Nebraska is the farthest west these ancient people have been found. He believes this culture is related to the Onetoa, which is found from western Wisconsin through northern and central Iowa. "The tribes near Stanton had stone, copper and iron arrow points in addition to copper vessels," Dr. Bell said. "Glass beads and flasks, found in abundance, clearly indicates either direct or

## River Parkway Along 5-State Route Mapped

ST. LOUIS (UP)—Basic plans for a 2,000-mile scenic highway along the west shore of the Mississippi river from Lake Itasca in Minnesota to New Orleans have been announced by the interstate highway planning committee. The committee is composed of 10 members from each of five states—Minnesota, Iowa, Missouri, Arkansas and Louisiana. It is working to make the dream of a river parkway into a four-lane concrete highway which has tentatively been christened the Mississippi River Parkway. To Skirt Bluffs. The plans call for the parkway to be laid out along the river. Although much of the high water line is owned by railroads it will run along this land as much as possible. The highway will follow the edge of the bluffs but wherever the river makes a lengthy bend it will cut across farm lands to reduce the mileage. The route will also be governed by history and bridgeheads, it will connect with every bridge on the river, and will be routed through all national parks, state parks and conservation preserves along the river. Pleasure Route Envisioned. The parkway will be principally for pleasure. With a right-of-way of several hundred feet the road will be landscaped with trees, bushes and flowers native to the river area. Traffic will travel on four lanes of pavement, which will be divided by a narrow strip of parkway to insure rapid and safe movement to both north and south bound traffic. According to the plans the question of elevation will be secondary. The highway will wind up the bluffs and dip into the valleys on the theory that a view of the river is well worth a grade. Steep grades and long mileages along the winding river are expected to discourage use of the super-highway by truck drivers. Transport vehicles will be expected to use the more direct lines available. Indirect contact with white men." Dr. Bell intimated that the Woodland tribes might have been cannibalistic. Bones excavated near Ponca from a large pit house

## Mrs. Payne Hostess To Club Group at Bridge-Luncheon

Mrs. L. L. Payne entertained with a two-course luncheon followed by two tables of bridge at her home, 804 W. Louisiana, Thursday afternoon. Marigolds were party flowers. The guest list included: Misses Roy J. Downey, W. L. Crothers, Harry Dickson, S. M. Erskine, Geo. R. Bennett, M. L. Weatherall, Dallas Dale. Two weeks from the date of Mrs. Payne's party, Mrs. Geo. Bennett will entertain the group with a bridge-luncheon at one o'clock. At that time, a name for the new club will be selected.

## COL. EASTERBROOK HERE.

Only landing reported from Sloan Field this afternoon was that made by Col. A. B. Easterbrook of Washington, D. C. Flying a BC-1, he came from El Paso and was to leave early this afternoon for Duncan Field.

## Scholarships Given Two Univ. Students

AUSTIN. — William E. Barnes of Waelder and Everett Lee Shibley of Fort Worth are joint winners of the 1938-39 Carl Stone Benedict Scholarship, annually awarded to the outstanding male student in the College of Arts and Sciences at the University of Texas. Each will receive \$150.

were split and mutilated, indicating the marrow, which Bell said was a choice Indian delicacy, had been extracted.

## Miss Dorothy Connor Becomes Bride of Edwin Ferrell

Announcement is made here of the marriage of Miss Dorothy Connor, daughter of Mr. and Mrs. J. M. Connor of Midland, and Edwin Ferrell which took place in Lubbock, Friday, Oct. 14. The ceremony was read at the Methodist church by a Lubbock Methodist pastor. Mrs. Ferrell is a graduate of Midland high school. During her school years she was a member of the high school band and was active in cooperation and activities for the good of the school, as well as maintaining a good scholastic record. She is now attending Texas Technological college where she is a freshman student. Mr. Ferrell is also known in Midland having formerly lived here. He, too, is a freshman at Texas Tech.

Almost every other home in Great Britain owns a dog. There are approximately 4,000,000 dogs in the country.

**The Life of the Party now Looks it!**

In every 1939 Buick you get the skilled engineering and sturdy quality traditional to Buick—enriched by all the extra value which General Motors science and Buick workmanship can provide.

**WHEN** you've got something mighty good and *know* it, it's not easy to pass it up even for something better! There's a whale of a temptation to play it safe, to coast along a while, when you're riding such a vote of confidence as we've had this year. We had ample evidence from the start that our past season's good Buick was the life of the 1938 party. Right through the darkest months it paced the industry in sales, setting a

### Oil News--

It is bottomed at a plugged back depth of 4,083 feet and was shot with 325 quarts.

Three miles northwest of the pool, Bert Fields, Inc. No. 1 Owenwood was drilling unchanged at 4,472 feet in line. It is now making about one barrel of oil and one-quarter barrel of salt water hourly. Shows were logged at 4,223-25 and 4,457-67.

In the Foster pool of Ector, Arkansas No. 4 Johnson flowed 735.55 barrels of 36.7-gravity oil per day, with gas-oil ratio of 626-1, after shooting pay between 4,106 and 4,217, total depth, with 500 quarts.

Shell No. 5-A Witcher, Foster pool well, flowed 1,287 barrels the first 19 hours of testing following shot with 784 quarts from 3,990 to 4,186, the total depth.

Herbert Oil Company No. 1 Cum-

mins, extending production at the northeast edge of the Goldsmith pool in Ector a half-mile east. Glowed 22 barrels an hour after initial treatment with 1,000 gallons at total depth of 4,183 feet. It is now testing after reacidizing with 4,000 gallons.

Brown line was topped at 3,900 feet, by Wentz No. 1 W. F. Cowden estate, southern Andrews wildcat. It is drilling at 3,963 feet in line. Operators plan to set 7-inch casing at 4,040 or 4,050 and replace rotary with cable tools to drill into the pay section.

Farther northeast, Rogers & Rogers No. 1 University is preparing to swab after plugging back to base of the sand at 4,475. It had flowed three to five barrels of sulphur water hourly through tubing when bottomed at 4,539, total depth.

Wasson West Outpost.

Harry J. Brown No. 1 Wasson, one mile west of production in the Wasson pool of northwestern Gaines

and southeast of wells in the Denver sector of the field, is drilling at 4,470 feet in line and anhydrite.

A Denver well, Conoco No. 1 Sue Stevens, flowed 670 barrels of 34-gravity oil daily on natural production test. Oil tested of gravity between 4,950 and 5,047, the total depth.

Atlantic No. 1 Parker, unsuccessful attempt to extend the Seminole pool in Gaines two and a half miles northwest, has been abandoned at total depth of 5,290 feet in line after swabbing a barrel and a half of sulphur water hourly through tubing.

Texas No. 1-B Mallett, extension try two miles west of the Slougher pool in Hockley, is drilling unchanged below 4,855 feet in line.

Reagan Test in Line.

John Emch No. 1 TXL, Reagan wildcat near the town of Big Lake, topped solid lime at 2,365 feet and is now running 7-inch casing to

2,403, total depth, to shut off upper water.

Depth of 3,000 feet in line had been reached by Helmerich & Payne Inc. and Wright & McMillen No. 1 Dow Pickett, western Pecos wildcat seven miles southwest of Fort Stockton. Farther northwest, Humble No. 1 A. H. Robertson is drilling at 4,030 feet in anhydrite and lime. It is reported to be logging a Delaware section.

## Late News

**NEW YORK, Oct. 21 (AP).—** Gunther Gustav Rummel, confessed German spy, denied under cross examination today he expected to "benefit personally" when he admitted his guilt and testified for the government in the trial of three persons charged with espionage.

He testified Assistant United States Attorney Lester Duniagan advised him to "make a clean breast of everything—that it would be to the best interests of all concerned."

**GROESBECK, Oct. 21 (AP).—** Arthur Huey, center of a legal tangle involving his release from the state penitentiary, was arrested here today by Ranger Kelly Rush.

The order for Huey's arrest was issued by Acting Governor Woodall after two district courts had disagreed over whether Huey should be returned to the penitentiary.

Huey, former Hutchinson county tax collector, had been serving a sentence on charges of embezzlement of county funds, and was released recently on a writ of habeas corpus granted by Judge Fountain Kirby of Groesbeck.

### Typhoon on Japanese Coast Takes Heavy Toll

**TOKYO, Oct. 21 (AP).—**A typhoon roared on sea today, taking at least 226 lives and injuring more than 500. There were 230 reported missing.

telescope of more than 90 inches in diameter. The disc for this mirror has already been cast, but no optical work has been started.

## Bumper Crops Lower Polish Buying Power

**WARSAW (AP).—**The good harvest this year, oddly enough, is the one factor which dims an otherwise pleasing picture of Poland's economic recovery since 1935.

In explaining this unusual situation, it is pointed out that one abundant crop will result in low prices to farmers and, in turn, they will have low purchasing power as far as the cities are concerned.

One of the most serious questions facing the government today is that of lowered agricultural prices. Farming supports about 70 per cent of the population and a decrease in the purchasing power of this number will seriously affect urban buying.

The great economic crisis lasted longer in Poland than in other countries, improvement beginning in Polish agriculture only toward the end of 1935. And for such an agricultural nation the position of agriculture is decisive. Following the improvement, at the beginning of 1936, came the large-scale investment program for Polish industry designed by the present vice premier and finance minister, Eugeniusz Kwiatkowski.

The industrialization of Poland became a slogan. Extension of Polish armaments and concentration of this industry in a "security triangle" in the center of the country contributed considerably to the industrial rise of Poland.

Final recovery from the drastic effects of the long crisis came for Poland with the rise in agricultural prices on the world market, the development of exports of farm products—eggs, meat, butter and bacon—and the French armaments loan of September, 1936.

Current control, in addition, saved the previously dwindling gold reserves of the Bank of Poland.

According to the latest reports the number of unemployed, in Poland has declined more than 60 per cent since 1936 to about 300,000 in a total population of about 34,000,000.

**Investments Rise Sharply.**

In his last speech, Vice Premier Kwiatkowski estimated that production of Polish industry in the first half of 1938 exceeded that of the same period in 1937 by about 8 per cent. Investments in industry for 1938 are 48 per cent ahead of 1937—a record figure.

Now unfortunately the world price for agricultural products has fallen heavily as a result of an unusually bounteous harvest in Poland, Canada, the Argentine, and other wheat and rye exporting countries. The result of the Polish harvest has not been announced, but it is known that it far exceeds the needs of the domestic market and that a heavy over-supply will glut the domestic market.

The price of the chief product of Polish agriculture, rye, has fallen to \$22.60 for 100 kilograms. A year ago this price was about \$42, and even in the worst crisis of 1932 and 1933 it was not recorded below \$25.

State aid for rye products, credits, export bounties and so on may improve the situation. Large purchases for military reserves also should relieve the market. But up to the present prices have not risen.

### HAS MOTHER AS GUEST.

Miss Mary Jo Weigers has as her guest this week, her mother, Mrs. Weigers, of Grapevine, Texas.

## Expect 200 Here For Masonic Meet

As many as two hundred Masons are expected to attend a special service at the Midland lodge Saturday evening, at 7:30 o'clock, when an Ablene degree team confers the "musical master's" degree on a local candidate.

Invitations have been mailed to lodges in ten towns of this territory. Secretary R. V. Hyatt said, and all Masons of Midland, as well as visiting Masons here, are invited. He said about twenty five will come from Ablene.

Light refreshments will be served at the close of the degree work. Hyatt said.

## Bible Appears In New Version

**LONDON (AP).—**Publication of a new translation of the New Testament in the form of a half-crown novel is expected to cause a sensation in religious circles.

Printed in modern type with a two-color dust-jacket and colored binding, the translation has just been placed on sale. The publishers are the United Society for Christian Literature.

But the appearance of the book, unusual though it may be, will not cause half so much controversy as the wording of the translation.

The Rev. R. Mercer Wilson, general secretary of the Religious Tract Society, who is the translator, has made many striking changes in the text, and some of interpretations. To get what he declares to be the true meaning of many passages, he has reverted to early Greek manuscripts and to Tyndale's Bible.

Wilson, who has been working 14 hours a day for a year on his new version, explained some of the changes and brief omissions he has made.

"For instance, the passage in St. Luke XVIII, 'It is easier for a camel to go through a needle's eye than for a rich man to enter into the Kingdom of God,' becomes in our modern version, 'It is easier for a rope to go through the eye of a needle than for a rich man to enter the Kingdom of God.'

"The Aramaic word for 'camel' is the same as for 'rope,' and this translation makes the passage more intelligible without altering the sense."

Wilson also explained by his translation what he considers is meant by the phrase "publicans and sinners."

"The proper translation of the Greek makes it clear that the phrase means tax-collectors and outcasts," he said. "Jews who turned tax-collectors for the Romans were regarded as beyond the pale, and ostracized. Since everyone is a sinner, it is obvious that by 'sinners' is meant outcasts."

## Department Store Sales on Increase

**AUSTIN, —** Sales in dollars of Texas department stores and women's specialty stores during September showed about the usual seasonal increase over August but were moderately below September last year, according to the Bureau of Business Research of the University of Texas.

The percentage decline in dollar volume was about the same as the percentage gain in retail prices of department stores so there was practically no change in physical volume of goods, in comparison with September last year, the Bureau report said.

Reports from 104 Texas establishments indicate an increase of 3.4 per cent in dollar sales over August and a decline of 5.2 per cent from September last year. Aggregate sales during the first nine months were 0.7 per cent below those of the corresponding period last year.

## Enrollment at Mines Reaches New High

**EL PASO —** All enrollment figures at the College of Mines and Metallurgy, here, a branch of the University of Texas, were broken when 962 students registered for the fall semester. Enrollment for the fall semester of 1937 was 817.

Students are enrolled from 49 Texas counties, eighteen states, and one foreign country.

Enrollment by classes is: Freshman, 474; sophomore, 211; junior, 131; senior, 105; post graduates, 12; and unclassified, 29.

## roll up a very impressive score in this one, leaving Stanton in the cellar for the year.

Pecos-Marfa. Without a great deal of trouble, Pecos.

Monahans-Brownfield. The Monahans club seems to have got back in winning stride and this one should not throw them off.

College

Alabama-Sevane. The score was 65-0 in favor of Alabama last year and should be about that this year.

Baylor-Texas Aggies. The Aggies appear to have too much power for Patterson to overcome with his passes.

Cornell-Penn State. Should be easy for Cornell.

Creighton-West Virginia. The nod goes to West Virginia.

Duke-Wake Forest. Who ever heard of Wake Forest? Duke.

Fordham-Oregon. The Fordham ram is just as tough as ever—huff sed.

Georgia Tech-Auburn. A long range guess on Auburn.

Harvard-Dartmouth—A gob of votes for Dartmouth.

Holy Cross-Georgia. The dope to the contrary—Georgia.

Illinois-Northwestern. A tie game sounds about right.

Indiana-Kansas State. Indiana is too tough for the Farmers.

Iowa-Colgate. A guess on Iowa.

Marquette-Texas Christian. The Frog second team will take this one.

Notre Dame-Carnegie Tech. A breather for Notre Dame.

Ohio State-Chicago. Should be easy for Ohio.

Oklahoma-Nebraska. Oklahoma has their best chance in many years to beat the Cornhuskers.

Pittsburgh-S. M. U. It should be easy for Pitt, but don't be surprised if the Mustangs make it kinda' close.

Purdue-Wisconsin. The Wisconsin boys, but no walkover.

Rice-Texas. The mighty Linn and company finally win one.

## Erin's Envoy

Former secretary of the Irish legation at Washington, Robert Brennan, above, is pictured just after he presented his credentials as Irish minister to the United States to the President.

## CRASHED MOVIES BY WINNING A BEAUTY CONTEST

CRASHED MOVIES BY WINNING A BEAUTY CONTEST.....NOW WORKING IN HER 50th PICTURE SINCE COMING TO HOLLYWOOD...

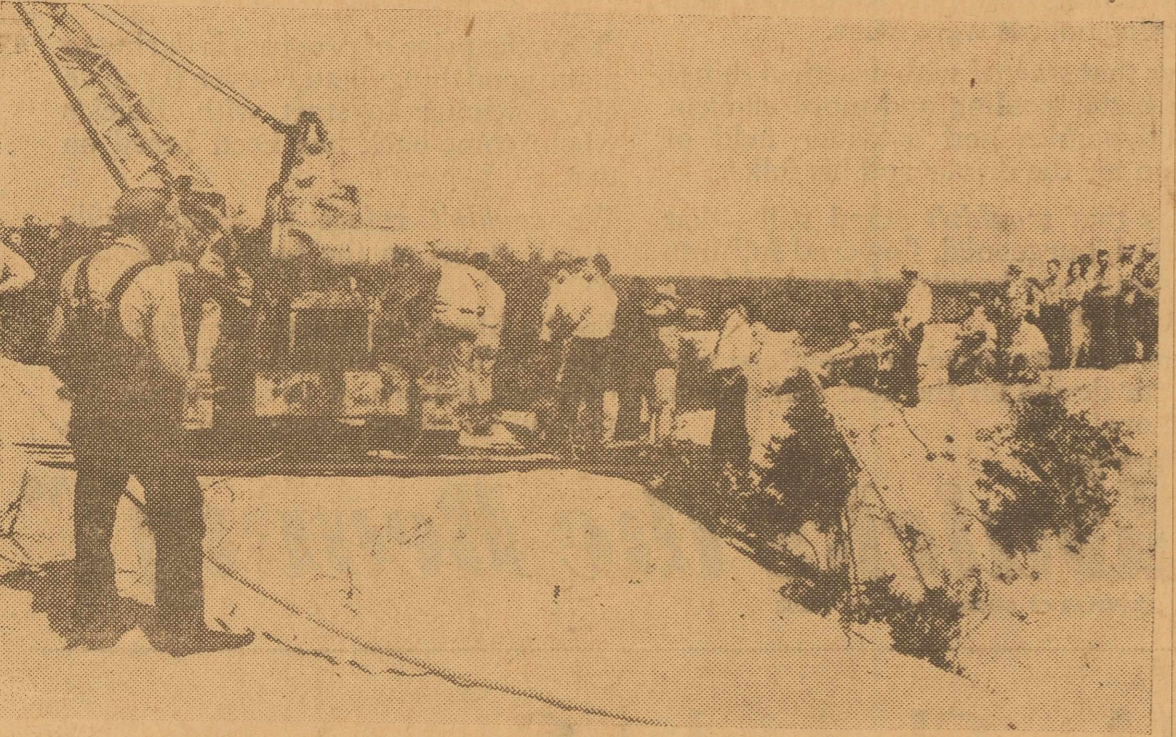

LOVES TO SWIM AND RIDE HORSE-BACK.....IS 5 FEET TALL, WEIGH 115... HAS BLACK HAIR AND EYES.

## Observatory Mirror To Be Purchased Soon

**AUSTIN, —** Information has been received by President J. W. Cahoun at the University of Texas from Dr. Otto Struve that polishing of the 82-inch mirror for the McDonald Observatory of the university has been completed and it "can be safely accepted." Dr. Struve is joint director of the McDonald Observatory, situated on Mount Locke, in the Davis Mountains, and the Yerkes Observatory of the University of Chicago.

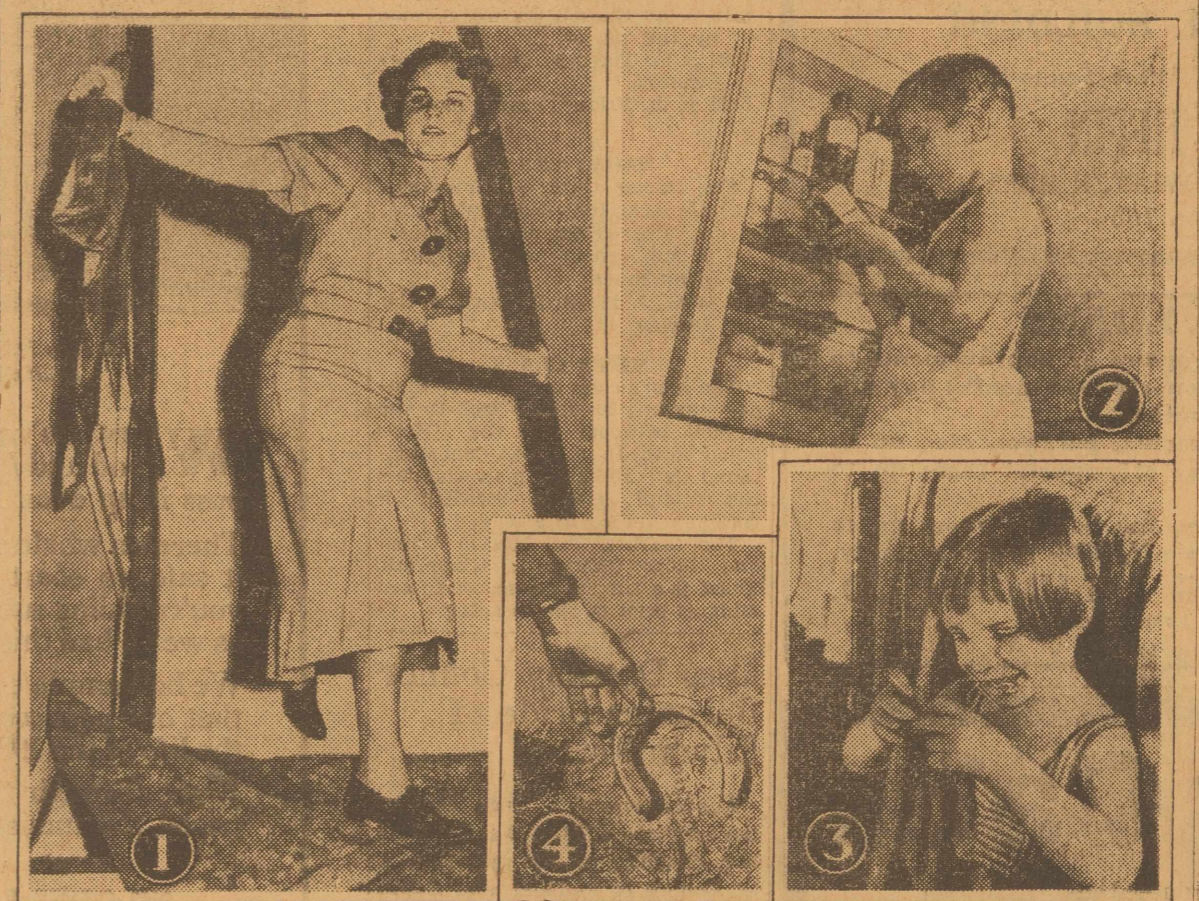

"Tests made on October 15 indicate that the great 82-inch mirror is finished," Dr. Struve wrote university officials. "The surface is a paraboloid of 319.66 inches focal length and the actual figure of the glass does not depart from the mathematical shape by more than about one-millionth of an inch. This is the outcome of exactly four years of grinding work of grinding and polishing on the part of G. R. Lundin, optician for the Warner and Swasey Company of Cleveland, Ohio. During the past four years astronomers of the University of Chicago's Yerkes Observatory have made many accurate tests of the mirror. But only now are they fully satisfied that the new mirror will be as perfect as their investigations

## Drag Texas Dunes for 'Alligator' Man's Victims

The hunt for victims of "bluebeard" Joe Ball goes on as Texas Rangers use highway department equipment as pictured above, to search the sand dunes near Ingleside, Tex. Parts of the bodies of two of the roadside proprietor's victims already have been found in these dunes. Ball killed himself after he was questioned by police concerning disappearance of several women employed over a six-year period. Police were told by a man who said he helped Ball slay one woman, that Ball fed parts of his victims to pet alligators.

## How Safe Are You at Home? Red Cross Warns of Hazards

1. Loose rug at top of stairs is a dangerous hazard.
2. Keep medicine cabinets locked or out of reach of youngsters.
3. Teach children not to put safety pins or other small objects in their mouths.
4. Good luck if you hang it up, but bad luck if you step on the nails in this horseshoe.

**DURING** the month of October, the American Red Cross will carry a safety message into ten million homes and farms throughout the nation, urging a check-up on accident hazards.

Do you know these hazards? How safe are you at home? Do you know that deaths from injuries on the farm are steadily increasing? What are the causes? These are a few of the questions the Home and Farm Accident Prevention Service of the Red Cross will send into homes, on an accident check list to be distributed through Chapters, by millions of school children and members of the Junior Red Cross. And the answers are provided on the check list, too.

National attention was concentrated on the Home and Farm accident problem in 1935-36 by the Red Cross. In that year, 37,000 men, women and children lost their lives in home accidents, which were largely preventable. In 1937, this toll of life was reduced, and only 32,500 lives were sacrificed to carelessness. The spread of knowledge on hazards which were subject to

correction was everywhere credited with this cut in the death toll.

The 1937 deaths from home accidents were divided as follows, according to the National Safety Council: falls, 17,500; burns and explosions, 5,600; poisonings, 1,700; firearms, 800; mechanical suffocation, 1,000; poison gases, 1,100.

The Red Cross appeals to those in the home and on the farm to carefully check hazards which may exist inside and outside their houses, and perhaps save a life or prevent a life-long injury.

STORIES IN STAMPS

How the Slavery Issue Engulfed Buchanan

At 65, James Buchanan brought to the office of President a character, breadth of legal knowledge, experience as congressman, cabinet member, and diplomat which would have made him an excellent chief executive in ordinary times. But those were not ordinary times. For even as Buchanan took his oath of office the crisis of slavery flared across the nation. He was, therefore, called to make immediate decisions of historic and lasting consequence. Unfortunately, Buchanan vacillated. His idea of saving the Union was to prevent northern agitation and to enforce the fugitive slave law. But this proved wholly ineffective. In short time Buchanan found himself involved in serious difficulties, which were climaxed finally in a call of the South Carolina legislature to decide on the question of secession. On this point, Buchanan argued that a state had no legal right to secede, but denied that the federal government had any power forcibly to prevent it. Soon after this the secession movement was in full stride, and gradually Buchanan came under the influence of Black, Stanton, Dix, and other northern leaders. He sought peaceful settlement to his last day in office, March 4, 1861. Thereafter, he continued a staunch Union supporter until his death, June 1, 1868. He is shown here on a stamp of the new U. S. regular series, enlarged. (Copyright, 1938, NEA Service, Inc.)

If The First Date Does Not Succeed, You're Out of Luck for a Second

BY RUTH MILLETT. The first date with a new man is important because if it doesn't go off well—there won't be any more. Every girl develops her own technique for putting herself across—but there are a few rules that any girl could adopt with good results. Each one of these is fool-proof: Let him know you're having a good time. If you've ever heard anything nice about him, manage to bring it into the conversation. Let him know what kind of person you really are—no posing or pretense. Leave other men out of your conversation. Don't "run down" any person he

Don't swear. The safe bet is he won't like it, coming from you—no matter how well-sprinkled his own conversation is. Don't encourage him to tell you his troubles, or talk about an unhappy love affair. Men confide in the girls they label "good eggs." They try to impress the ones they feel romantic toward. If you aren't in the habit of talking. But if he is casting about desperately for something to say, go ahead and talk. He'll think you're a wonder. Stop talking when you start dancing—and don't hum in his ear. Don't assume a bored air in an attempt to impress him with your sophistication. Don't let him pitch woo on the first date. Be friendly in your attitude to one of his friends he happens to introduce to you—but don't start a flirtation with any of them. Unless he is terribly shy let him do a little more than half of the

drinking don't think you have to because he suggests it. You don't. But don't sound like a prig or an angel when you say "No thanks." Being a good sport is more a matter of attitude than behavior. Don't—even if he IS shy—say, "When am I going to see you again?" The Mississippi - Missouri river system has an average flow of 675,000 feet per second. The Geneva convention of the International Red Cross adopted the Red Cross emblem in 1864. Poison sumac can be recognized by its white berries; non-poisonous kinds have red berries.

"Cruising speed" usually is interpreted by air lines as meaning speed at 60 per cent of available power. Although many earthquakes shift the earth at the surface, others leave no visible trace of such movements, since they occur far in the earth's interior. In Melbourne, Australia, street cars are equipped with loudspeakers, through which the drivers announce the name of the next stopping place. Whether or not a sandy beach is solid, like that at Daytona Beach, Fla., or soft, like most bathing beaches, depends on the shape of the sand grains.

book to his auditors in his opening remarks. The title is "How To Drink And Be a Gentleman."

Mayor M. A. Harlan of El Paso and Eddie Ward, mayor of Silver City came in by plane yesterday afternoon from El Paso. Mayor Ward made a hurried stop at Silver City Saturday morning to assist in the ceremonies in his town in connection with the opening of the new Murray hotel, a five story building.

Juarez, Mexico, has a delegation of three members at the Conference. They are inviting the members to hold their next quarterly meeting in Chihuahua City. They read a telegram from Governor Telemantes extending a formal invitation to meet there. The Conference was organized in El Paso by Mayor Harlan. The first quarterly meeting was in Hot Springs, the members being the guests of Mayor Leo Smith and the city. The second meeting being here in Midland, Texas, this week, the third gathering will doubtless go to Mexico.

Mayor Escobar of Juarez was prevented from attending the Midland meeting on account of the serious illness of his mother in the state of Sonora.

Mayor M. C. Ulmer delivered a

THE IMMORTAL CHARACTERS OF HISTORY Live again in this triumphant picture Charles Dickens "DAVID COPPERFIELD" Directed by GED CUKOR

most cordial welcoming address to the Conference members at the opening of the session this morning in the Crystal ball room of the Scharbauer hotel. The mayor came to Midland in 1906 seeking a book-keeping job in order to secure sufficient funds for completing his education and securing a degree. Midland offered him so many opportunities that he remained on here.

Midland is a town 54 years old. It derived its name from the fact that it is half way between Fort Worth and El Paso.

The response to Mayor Ulmer's welcome was made by Mayor Smith of Hot Springs, home of the Carrie Tingley hospital for crippled children, the Elephant Butte and Caballo dams. In the next eighteen months hydroelectric power will be developed at Elephant Butte. Bids were opened last week for the generating equipment. It will serve many towns in New Mexico and city of El Paso.

Cattle conditions, price, demand and ranges, are excellent in southern New Mexico. Steers are bringing 7 1/2 to 8 cents a pound and heifers 6 1/2 to 7 cents. Practically all the large growers have contracted for later delivery. Deming is the heart of a great cattle grazing country. The Deming chamber of commerce and the Luna county livestock bureau will send a carload of feeder stock to the show in Los Angeles November 20-25.

Farming has been profitable in the Deming area this year. The county will have a \$200,000 bean and cotton crop alone.

The Callahan Zinc-Lead Company of Wallace, Idaho, has leased the Peru mill at Deming and also its mine at Hanover, N. M. Operations were resumed October 16. In Grant county north of Deming the Nevada Consolidated Copper corporation has reopened its mine at Santa Rita, N. M., and mill at Hurley, N. M. Work was resumed last Sunday. These Chino mines have one of the largest open pit mines the world. The company's \$5,000,000 smelter will be completed

Your Child's Future

The biggest job you have ever had, parents,—that of caring for your children—is safeguarding their health so that their future happiness and success may be assured.

Nothing is more important to them than their eyes. No child is healthy without healthy eyes. No child can achieve success without good vision. There's only one way to tell whether or not your children's vision is normal—have their eyes examined. Do it now before school begins.

Smiles as Mate 'Fights for Life'

While Rudolph Sikora sat pale and unsmiling in the Chicago courtroom where he is on trial for murder, his pretty 22-year-old wife, Margaret, above, smiled and sat at the state attorney's table prepared to testify against her husband. Sikora, described by his wife as a "perfect husband," shot and killed Edward Solomon, who won Mrs. Sikora's love with poetry while Sikora washed dishes and did the housework.

'Model Husband' Ready for Trial

"Model husband" Rudolph Sikora, who prized his wife's love so much he killed the man who won it, is pictured as he sat in a Chicago courtroom listening to the selection of a jury which will decide whether he must die in the electric chair, suffer a lesser penalty, or be freed. Sikora's pretty 22-year-old wife, who loved Edward Solomon, the slain man, will testify against her husband.

at Hurley at the end of this year.

Of interest to tourists and towns on U. S. Highway 90 is the fact that the U. S. Forest Service, Bureau of Public Roads and the N. M. Highway department have allotted \$93,000 for completing the Luna mountain project between Deming and Springerville, Arizona. This is the one spot, which has prevented motorists in numbers from taking this route to and from the Grand Canyon, which attracted 277,000 visitors in cars alone this last season. Deming and Silver City are preparing for a greater tourist trade when the Luna road is standardized and finished.

New Czech Offer To Be Refused by Hungary, Reported

BUDAPEST, Oct. 21 (AP).—Czechoslovakia today submitted a new proposal to Hungary for settlement of the issue over Hungarian minorities in Czechoslovakia. Officials said the offer was considerably better than previous ones but still was inadequate and would be refused.

Charges Communists Incited 1937 Riot

WASHINGTON, Oct. 21 (AP).—Edwin Hughes, police captain at Flint, Mich., told the committee investigating un-American activities today that a man he knows as a communist used a sound truck to incite rioting at Flint's Fisher Body plant in 1937.

Students Give Vent To Enthusiasm as Huge Bonfire Roars

Flames reached the skies Thursday night as a huge pile burned on the high school campus, while 2000 spectators looked on and dreamed of a victory over the highly advertised and championship-rated Wink Wildcats. The high school band and pep squad, after a brisk parade through the downtown streets, pulled up to the bonfire, the pep squad girls running in a circle around the blaze to the lively marches played by the band.

Automobiles circled the entire west side of the school campus, with more than 1,000 men, women and children gathered about the fire.

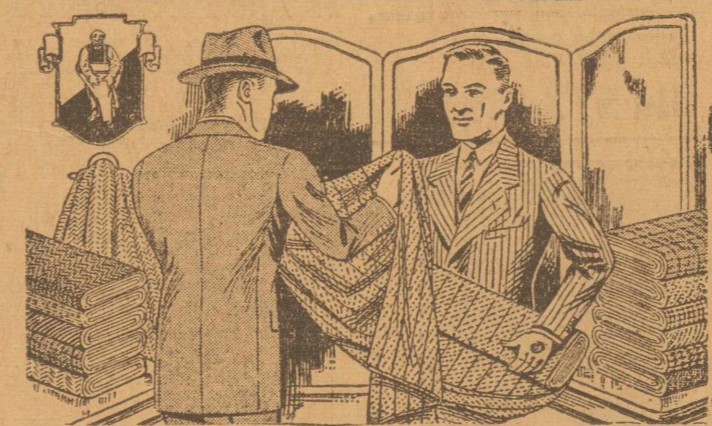

No boasts were made, no slight attack was paid to the heavy task facing the Bulldog squad tonight, but a determined group of students gave vent to pep-up enthusiasm as the bonfire heralded the big game of the year.

The squad, meanwhile, went through usual practice on fine points calculated to find ways through, around and over the Wink defense.

Knights Templar to Meet at Big Spring

District meeting of Knight Templar Masons will be held Monday afternoon and evening at Big Spring, according to members at Midland, with invitation for all from this section to attend.

The Hon. Jewel P. Lightfoot of Fort Worth, grand commander of Knight Templar lodges in Texas, will attend and will address the gathering. Degree work starts at 2 o'clock p. m., with a banquet and program to follow.

To men who are going ahead —

We invite you to meet a man who can do you a good turn — your tailor. Good tailor-made clothes will help you mightily in your climb to better position and better pay.

Ed. V. Price & Co. MAKE THAT KIND OF CLOTHES

THEIR REPRESENTATIVE WILL BE HERE

MONDAY & TUESDAY

October 24-25

Wadley's

He will take your measures and show you the finest array of styles, colors and patterns you ever saw — not little swatches, but in the bolt — you can see how they really look.

You'll keep your chin up in the suit he makes for you. You'll stand out from the crowd.

It will cost no more than ordinary clothes — it will be worth far more to you. ORDER IT NOW.

What your tailor?

Ed. V. Price & Co. ought to be! Come in and see.

Japanese Troops Take Canton as Chinese Flee City

HONGKONG, Oct. 21 (AP).—Japanese troops today entered Canton, south China metropolis. An official source reported that "utter confusion" reigned as invaders pierced the city's first defenses. Government officials fled to Yungyun, 90 miles north.

The American consular authorities at Shanghai advised the Hongkong consulate that a "general exodus" is in progress, indicating that the Chinese have decided not to defend the city.

Actress Meets Death In 16-Floor Plunge At New York Hotel

NEW YORK, Oct. 21 (AP).—Dorothy Hale, motion picture actress, plunged to her death early today from the window of her sixteenth floor room at Hampshire House, exclusive hotel overlooking Central Park. Mrs. Hale, described a few years ago by a Hollywood producer as a "great movie find," was the widow of Gardiner Hale of Chicago, who was killed in 1931 when his automobile plunged over a cliff in California.

Mrs. Hale's body was clad in a black dinner dress. Reports that Mrs. Hale had become engaged to marry Harry Hopkins, WPA administrator, were denied last summer.

Margaret Case, close friend, said Mrs. Hale appeared happy last night. Detective James Leech said the window had a low sill and Mrs. Hale may have fallen while attempting to open it. Leech found an unfinished note addressed to John Yinson, New York attorney, but the contents were not disclosed.

Entries Slow in Church Contest

Only one entry in the "Go to Church" contest has been received by The Reporter-Telegram, although several individuals have advised they are working on their letters to tell why or why not to church.

The contest, for which a local committee has appropriated \$10, ends November 12. A prize of \$5 each will be paid for best letters giving reasons for going or not going to church. Letters should be addressed to Box 4, Reporter-Telegram.

Medical Society In Meeting Here

The six-county Medical Society held its monthly meeting in the private dining room of the Scharbauer hotel here with 15 members in attendance. Program for the evening was arranged by Odessa doctors and Dr. J. H. Barger of Odessa was in charge of the meeting. The society includes physicians in Andrews, Ector, Midland, Martin, Mitchell and Howard counties. Meetings alternate between Midland, Odessa and Big Spring. The next meeting will be held in Big Spring.

WPA Recreational Aid Given Texas

WASHINGTON, Oct. 21 (AP).—Texas congressmen were advised today that President Roosevelt had approved a \$454,366 Works Progress administration project for statewide supervision and coordination of recreational activities.

Prisoners Injured As Boiler Explodes

COLUMBUS, O., Oct. 21 (AP).—A boiler explosion blasted out a part of the east wing of the Muskegon county jail today, injuring eleven prisoners and Jailer W. D. Layfield. Layfield said eight prisoners were unaccounted for and may have escaped. A check of the debris failed to reveal any dead.

Missed Rodeo and Still a Prisoner

DALLAS, Oct. 21 (AP).—Robert Lacey Cash, who walked from Huntsville prison while the rodeo was in progress Sunday, was captured in the woods near Arlington last night. He was convicted of slaying Harry Helfman, Brooklyn business man, in Dallas.

Single Ring Service Unites Couple Here

H. A. Scruggs and Miss Dorothy Nell Davis were married in the church office of the First Christian church Thursday evening at 7:30. Rev. J. E. Pickering, pastor, officiated at the single ring ceremony. The couple was accompanied by a group of friends.
