

It is not he that searches for Rivalro that finds it. — Rivalro.

THE FORECAST
West Texas: Fair tonight, Friday; colder in east, north tonight.

VOLUME X (P) MEANS ASSOCIATED PRESS

Inch Rain Recorded In City Limits

Ranges Benefited By Precipitation Wednesday Night

Beneficial rains varying from one third to slightly more than one inch fell in Midland and over this area last night. The official rain gauge at the Southern Ice and Utilities company here reported one inch of precipitation. At the airport the official gauge was 3/4 of an inch.

According to an Associated Press dispatch, showers fell generally over all of North and West Texas.

Reports made today indicated rain fell over most of the country, with the heaviest precipitation being recorded in the northeast part of the country. The southeast part reported an estimated one-half inch.

Rainfall in the city did not last more than an hour but amounted to a virtual downpour at times. Streets were almost filled before the rain had stopped falling.

Ranges, although not greatly in need of rain, were benefited by the precipitation. Late feed also was helped by the fall. The rain was not heavy enough generally to materially damage cotton, now being picked. However, picking will be delayed a day or two over most of the county.

AMARILLO, Nov. 3 (AP).—Light to moderate heavy rainfall covered a large area of the Panhandle Wednesday night, with prospects good for continued precipitation.

Almost a quarter of an inch had fallen in Amarillo by midnight, and similar moisture was reported here west to Black, Hereford and Texico. Rains of a quarter inch fell from Amarillo to Hedley, and showers fell from there to Childress. The moisture extended north to Tascosa.

Strike at Tobacco Plant Is Settled

MIDDLETOWN, N. O., Nov. 3 (AP).—Under protection of troops ordered here by CIO-baiting Governor Darrby, the P. Lorillard company plant resumed operations today.

Arriving troops found tobacco workers of the local which struck on October 3 had agreed to end the dispute and return to their jobs.

Wemple Addresses Masons at McCamey

Fred Wemple of Midland was the principal speaker at a McCamey Masonic lodge gathering Wednesday evening, the occasion being the official visit of District Deputy Grand Master Roy McKee to the lodge. More than 100 attended, degree work, a banquet and talks by visitors being on the program. Beside Wemple and McKee, Midland was represented by Percy J. Mims, H. P. Newton and Judge J. H. Knowles.

Oil Man's Condition Reported as Unchanged

Condition of W. H. (Bill) Street, Midland independent oil operator, was reported as unchanged today. He was brought to a Midland hospital Tuesday night, suffering from a pneumonia attack. He was taken ill at Fort Stockton, having been there since last Friday, bringing in a well in Pecos county.

Abilene Men Returning From Guadalupe Trip

Max Bentley, Abilene newspaperman and radio man, and D. A. Bannender, manager of the West Texas chamber of commerce, stopped here briefly this morning, en route home from a trip to the Guadalupe mountains and McKittrick Canyon.

New Effort Started For Texas Cotton Lab

WASHINGTON, Nov. 3 (AP).—James T. Jardine, director of research for the department of agriculture, took under consideration Wednesday a new request that a cotton research laboratory be located in Texas.

Representatives Luther Johnson (D-Tex) and Rayburn (D-Tex) renewed arguments in behalf of the state at a conference with Jardine.

Officials indicated a site for the laboratory along with three others authorized by congress would be selected within a month.

Johnson said he and Rayburn told Jardine Texas was a logical location for cotton research because of the state's large production and varied weather and soil conditions.

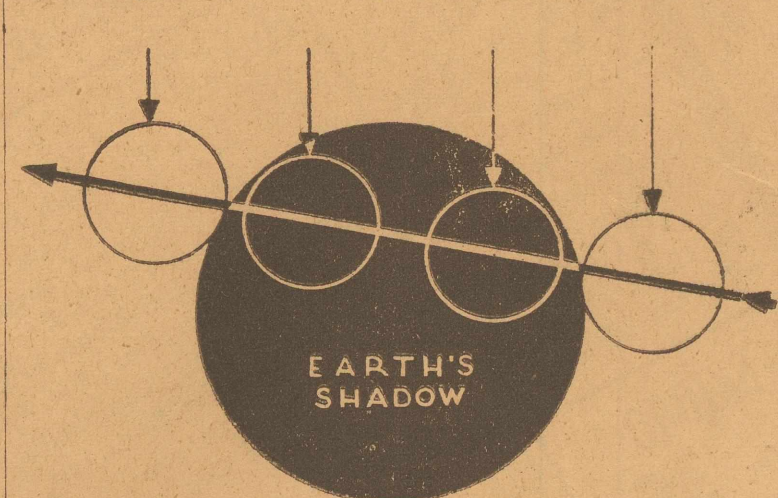

Marriage Ties Up Phones

BARINGHIP WEST, Australia (U.P.).—This town is large enough to have a telephone system but not large enough to have two operators. The service therefore was suspended temporarily when the operator went away to get married.

Apple Slogan Revised

PARADISE, Cal. (U.P.).—This city center of a great apple industry, and named after a locality where a single apple changed the whole destiny of humanity, has adopted a slogan: "An apple a day makes Paradise pay."

Plotting Moon's Eclipse Nov. 7

Mother Earth, whose swains and sweethearts cherish the light of the moon as an accompaniment to sighs and simpers, will cast her shadow over the moon in the late afternoon hours of Nov. 7. The eclipse, effected by the earth's coming between the sun and the moon, will begin at 5:45 p. m. central standard time. The diagram above shows the time of the moon's entrance and departure from the shadow of the earth. Beginning of the eclipse will be partly visible at Washington and its final stage will be visible throughout North America, except the extreme western and northwestern parts.

Larger Red Cross Membership Said Needed in Texas

"A larger Red Cross membership more in proportion to the population of Texas is necessary for expansion of services within the state this coming year," R. C. Conkling, roll call chairman of the Midland county chapter, said today. He pointed out that Red Cross membership in Texas now represents 2.9 percent of the population while nationally the enrollment has risen to 4.38 per cent.

R. C. Conkling expressed confidence that an increase of more than 50,000 members will result when the 239 Texas chapters offer residents in every community an opportunity to join the Red Cross this coming roll call, from Armistice Day to Thanksgiving. Last year, 172,067 Texans answered the roll call of their local chapters, an increase of 36,000 over the preceding year.

Local chapters are dependent upon their membership enrolled for funds to carry on disaster relief and other Red Cross safety, health, educational and welfare services in their respective communities," Conkling said. "The greater portion of membership funds are retained by the chapter for use locally in its community and only fifty cents, not fifty per cent of each membership is paid to the National Organization for administration of Red Cross work throughout the nation.

"This national allotment also reverts back to Red Cross work in individual communities," Conkling explained. "In the last three and one-half years to date, for example, the National Organization made \$233,775 available to supplement the \$172,146 raised within Texas for emergency relief and rehabilitation of Texas families stricken by disasters occurring in this state.

"During the first nine months of this year the Red Cross assisted 3,029 Texas families, which included more than 13,000 persons, who suffered losses following six tornadoes and three floods. The \$65,125 contributed by Texans was supplemented by \$56,017 from National Organization funds to provide the necessary medical care, food, clothing, shelter, replacement of household goods, livestock, implement and other equipment to enable the stricken families to again establish themselves on a normal living basis.

"Equal assistance made possible by divisions of membership funds is forthcoming to local chapters in all other Red Cross services. The National Organization provides experts to extend first aid and life saving programs; trained personnel to administer welfare among U. S. Army and Navy service men, veterans and their families; and service directors to assist chapters in developing needed Red Cross services within their territories.

"It is this national aspect of the Red Cross that makes it possible to render immediate and effective aid to communities stricken by major disaster, such as the recent New England hurricane and the Ohio and Mississippi river flood of last year.

"Texans have demonstrated their willingness to assume responsibility through the Red Cross whenever disasters have reached proportions of a major calamity," Conkling said. "Assistance given after the San Saba river and its tributaries inundated bordering counties last July was a case in point. Opportunity will be given more Texans than ever before to actively share in this work throughout the coming year during this approaching roll call."

Woman Killed as Heavy Rain Falls Near Lubbock

LUBBOCK, Nov. 3 (AP).—An automobile accident in a drizzling rain last night five miles south of Lubbock cost the life of Mrs. R. T. Watkins, 24, of Mineral Wells.

R. T. Watkins, her husband and a shovel operator on a dam project at Mineral Wells, and Mr. and Mrs. Sibby Watkins of Pettit, near here, suffered minor injuries. They were en route to Lubbock to see Kirby (Sallor) Watkins, Post wrestler, and brother of the man, in a wrestling match. Their car crashed into the rear of another machine.

Czech Land Handed Over To Hungary

Most of Territory Demanded Given by Arbitration Board

By Associated Press.
German and Italian foreign ministers have announced that Germany and Italy is ready to guarantee Czechoslovakia's new frontiers, an authoritative source disclosed today.

Meanwhile Yugoslavia and Rumania feared they were next in line for Hungarian demands.

VIENNA, Germany, Nov. 3 (AP).—German and Italian mediators remapped the World War-created boundaries of Czechoslovakia Wednesday, awarding Hungary the major portion of land and population it claimed from the shrinking republic.

Official figures were lacking, but it was estimated Hungary gained 4,875 square miles with 860,000 inhabitants. Czechoslovakia already has lost Sudetenland to Adolf Hitler and the Teschen region to Poland.

In negotiations before Rome and Berlin were called in to mediate, Czechoslovakia had agreed to cede 3,800 square miles without arbitration but the rest of Hungary's original demands—estimated as high as 8,000 square miles—were put up to the totalitarian powers for final decision.

Land Left to Czechs.
Foreign Ministers Count Galeazzo Ciano of Italy and Joachim von Ribbentrop of Germany in a short meeting Wednesday gave Hungary a wide strip of the territory it demanded, including Uzhorod, capital of autonomous Ruthenia, and the only railway connecting Ruthenia with Slovakia.

In the disputed region only Bratislava, on the Danube near the junction of Czechoslovakia, Hungary and Germany, was left to the central Praha government, along with the city of Nitra in southwestern Slovakia.

Both Czechoslovakia and Hungary agreed to accept the award as final and to start fulfilling it at once.

Occupation of the territory is to be started Nov. 4 and completed Nov. 10. A Hungarian-Czechoslovak committee was provided to work out the stages of occupation.

Persons in Territory.
Czechoslovakia agreed to leave the lost territory in orderly condition and to give the Hungarian minority in Bratislava the same rights as other minorities.

Hungary pledged that minorities in the ceded territory would be protected and promised to aid adjustment of communications between Ruthenia and Slovakia, which lost their only mutual railway.

National Debt at New Record High

WASHINGTON, Nov. 3 (AP).—The treasury department disclosed today the federal debt had risen to a new record of \$38,462,377,297, the monthly jump being the result of borrowing for social security funds.

Newspaper Executive Plunges to His Death

NEW YORK, Nov. 3 (AP).—Victor Watson, 58, for many years an editor and executive of the Hearst newspaper enterprises, plunged to his death today from the eleventh floor of a hotel.

A note found in the room said: "God forgive me for everything."

Houston Man, Wife Are Discovered Dead

HOUSTON, Nov. 3 (AP).—Andrea Estrada, 64, and his wife, 44, were found shot to death in their home here today. The coroner officially said it was murder and suicide.

Building Permits In State Show Gain

AUSTIN.—Building permits issued in Texas during September were slightly below August but sharply above September last year, according to the bureau of business research of the University of Texas.

Reports to the bureau from 38 representative Texas cities showed total value of permits was \$6,145,000 during September, 2.7 per cent below the preceding month but 41 per cent above the like month last year. The aggregate value of the permits for these cities during the third quarter were \$18,214,275, an increase of 40.2 per cent over the corresponding period last year.

Gossip Covers 28 Years

SOUTHGATE, Ky. (U.P.).—Two brothers who had not seen each other for 28 years were reunited at the home of their mother here. The brothers, Arthur and Charles Frey, met by prearrangement and recounted their experiences before their mother, Mrs. Victoria Frey.

Cyclists Pay in France

PARIS, (U.P.).—France has 8,000,000 cyclists and they pay \$2,000 to the state as a tax on their machines.

Bones Discovered---

Kidnap Victim Remains Sought

The Atmosphere Is Chilly

Songstress Ruth Etting, left, and Mrs. Alma Alderman, right, who is suing Miss Etting for \$150,000 charging alienation of her former husband's affections, are at great pains in this picture to avoid each other's eyes. They are shown with attorneys as Miss Etting refuted her former statement that she is married to Myrl Alderman. Alderman is recovering from a bullet wound inflicted by Martin (Moe) Snyder, former husband of Miss Etting. Mrs. Alderman now seeks a court order compelling Alderman to tell of his relations with Miss Etting which she described as "platonic." At the time of the shooting, she said they married last July.

Final Tribute to Mrs. Willingham Paid by Hundreds

Hundreds of friends paid final tribute Wednesday afternoon to Mrs. O. A. Willingham, whose death from heart failure occurred Monday as she was recovering from an attack of pneumonia. The funeral service was held at 4 o'clock at the First Baptist church, the Rev. H. D. Bice, pastor, officiating. Interment followed at Fairview cemetery. The large attendance and voluminous floral offerings depicted the high esteem in which Mrs. Willingham, a resident here for forty years, stood.

Born as Emma Dawson November 6, 1878, she attended Baylor college at Belton, moving to Midland in 1898. She was married the following year to the late Oscar A. Willingham, early rancher of this section, and had been a citizen of Midland until her death. She had been a member of the First Baptist church since a short time after she came here and was a member of the Eastern Star lodge. For several years she had operated a dress making establishment.

Survivors include a daughter, Mrs. David M. Ellis of Midland; two sons, Claude of Monahans and Harvey of Olney, Ill.; a sister, Mrs. J. V. Stokes Sr. of Midland, and a brother, John Dawson of Mathis, and two grandchildren.

Pall bearers at the funeral service were T. A. Fannin, E. W. Cowden, J. R. Beane, T. O. Midkiff, C. Francis, P. J. Middleton, E. H. Barron and Percy J. Mims. A special choir, directed by W. W. Lackey and composed of members of various church choirs here, sang hymns at the funeral service.

Besides the three children, Mrs. Stokes and their families, relatives attending the funeral included Mr. and Mrs. Joe Willingham and daughter, Alma, of Corona, N. M.; Mr. and Mrs. Edwin Willingham of Corona, Mr. and Mrs. Fred Ellis of El Paso. Out of town friends here were Bob Wihent, Mr. and Mrs. Lewis Cook, Dave Jones, Bob and George Sachel, Mr. and Mrs. Stanfield, R. B. Embrey, Mr. and Mrs. Bob Wheeling, all of Monahans; Mr. and Mrs. J. T. Healy of El Paso.

Prisoners Pray to Stay Electrocutation of Inmate

PITTSBURGH, Nov. 3 (AP).—Prisoners in Allegheny county's jail knelt in prayer last night in an unusual demonstration seeking to save the life of William McKinley Blackwell, a fellow inmate scheduled to walk the last mile to the electric chair next Sunday night.

And 468 of them signed a petition to Governor George H. Earle pleading for a commutation of sentence for the man convicted of the murder of Richard D. Parker, a rival for the affections of his common law wife.

Warden John McNeil said the prayer and petition were a demonstration of faith in a fellow prisoner he never had seen in his 40 years at the jail. He joined in signing the petition.

Carved Chain Has 44 Links.
ELVRIA, O. (U.P.).—O. H. Dirlam has finished a wooden chain of 44 links, all identical and carved by hand from the same piece of wood. He said he took the wood from an old piano and that it took him two years to make the chain.

CONDITION ABOUT SAME.
Condition of W. H. Street, Midland oil man who is in a Midland hospital with pneumonia, was reported today to be about the same.

Senate Candidates Warned Against Excessive Expenses

By Associated Press.
The senate campaign expenditures committee warned senatorial candidates in New Jersey today any excessive political expenses might lead to a contest over seating the winner.

The statement was made after receiving charges Hudson county and Jersey City employes had been assessed \$1,000,000 for the democratic campaign.

Meanwhile, more than 200 republican congressional candidates declared they would seek a congressional investigation of politics in New Jersey.

Missing Heir to 2 Fortunes Found

RICHMOND, Va. Nov. 3 (AP).—Sidney E. Martin, Jr., "missing" 20-year-old heir to two Philadelphia fortunes, was located here today. The youth whose disappearance September 15 caused a widespread search, was found to be employed under his own name as an electrical appliance salesman.

Texas Fugitive Held In Jail at Alamogordo

ALAMOGORDO, N. M., Nov. 3 (AP).—Floyd Snyder, 61-year-old lumber camp worker, was arrested by state police as a fugitive from justice in Texas.

Police said he acknowledged escaping from the Huntsville prison in 1935 while serving a life term for slaying his wife in Houston, Tex., in 1930.

He was held in custody here waiting arrival of Texas officers to return him to Huntsville.

Heavier Weights for Hogs Seen as Feed Plentiful

WASHINGTON, Nov. 3 (AP).—Next year's bacon may have a little more fat between the lean streaks and hams may weigh more than average.

This was the news supplied consumers in an agriculture department forecast on 1939 livestock production.

Because of bumper supplies of feed crops, farmers are expected to market their hogs at heavier weights. Little change in meat prices was forecast, however.

Three Ships Land At Sloan Field

Three planes made landings at Sloan Field, a checkup early this afternoon showed. An SLP, flown by Pilot Slag, came from Hensley Field, Dallas, and departed for El Paso; a BC-1, under Pilot Young, came from El Paso and went on to Hensley Field; and Pilot Bupp in a transport, came from Barksdale Field, La., and departed for San Diego.

Witnesses Hard to Find for Hearings, Dies Declares Today

WASHINGTON, Nov. 3 (AP).—Chairman Dies told newsmen today the house committee investigating un-American activities had encountered "considerable trouble" in securing witnesses since President Roosevelt rebuked the board.

He said many witnesses he wants to testify hold government jobs and they are afraid of losing them if they tell of the un-American activities they have seen.

Dies said that after Armistice Day, he expects to conduct hearings in several cities, including Dallas. He said that while in Texas he would inquire into communist activity of negroes and fascism and communism "as it comes from Mexico."

Vote of Faith Is Given Chamberlain

LONDON, Nov. 3 (AP).—Prime Minister Neville Chamberlain won an overwhelming victory last night in the house of commons which approved by 345 votes to 138 his decision to bring the April 16 Anglo-Italian friendship pact into operation.

Before the vote Chamberlain declared the Spanish war was "no longer a menace to the peace of Europe," and urged parliamentary approval of immediate effectiveness of his accord with Premier Mussolini.

Sharp opposition developed in the house of commons, however. Anthony Eden accused Italy of lacking good faith. Arthur Greenwood, laborite, declared the price of the Anglo-Italian agreement signed the day before last Easter, "is going to be paid by the people of Spain."

Similarly employers, have argued that the act weights the scales in favor of labor and against employers. The American Federation of Little Business, in a statement issued today, urged amendment of the act "to put an end to the board's power to act as prosecutor, judge and jury, to permit employers as well as employes to invoke its aid, and to extend and develop greater reliance upon the processes of mediation."

Court House Shown On Bus Time-Table

Midland county's court house is pictured prominently on the cover of the November-December Greyhound bus tables, Carl Covington, agent for the company here, revealed today. The 24-page booklet, giving complete transcontinental and local time tables, pictures Midland's court house on one cover and a pueblo scene in New Mexico on the other. Covington recently sent the head offices a group of local pictures.

AAA Meeting at Big Spring Upholds Parity

BIG SPRING, Nov. 3 (AP).—The AAA ended its series of educational meetings in Texas with a defense of its program here Wednesday.

The twelfth meeting called to explain the 1939 program was attended by farmers from 25 West Texas counties. Walter Randolph, assistant regional AAA administrator, said the domestic allotment plan was unsound and maintained the AAA already was providing a parity price on domestically-consumed cotton.

Patient Doing Well After Operation

Mrs. Clifford Leddy is reported doing well today after an operation undergone this week in a Midland hospital.

Mrs. C. H. Payne was admitted to the hospital today for medical attention. Others who have been admitted for medical attention are Buddy Donnelly and Arthur Montgomery.

Carroll Hill was discharged from the hospital today improved after a short illness.

Australia's Gold Output Up

CANBERRA, (U.P.).—Australia produced more gold last year than in any year since 1917, according to official figures issued here.

The production was valued at \$47,947,440, nearly \$7,500,000 more than the 1936 yield.

3 Suspects Are Grilled By Officers

FBI Head Seeks to Connect Trio Up With Levine Death

NEW YORK, Nov. 3 (AP).—Police were digging in the cement basement of Ukrainian Hall today seeking buried bones of possible victims of a "kidnap syndicate" federal agents had accused of slaying one man and collecting ransom for the release of at least two others.

Bones unearthed during the night, the first evidence of the search, were believed to be those of Arthur Fried, who was kidnaped last December and held for \$200,000 ransom.

Dwight Brantley, New York federal bureau of investigation head, said today the FBI was investigating a possible link between the unsolved kidnap-slaying of Peter Levine and newly-captured members of the alleged "kidnap-syndicate" who are accused of three kidnappings, two robberies and a murder.

NEW YORK, Nov. 3 (AP).—A small bone buried under a cement floor patch and machine guns were found by police last night in the furnace room of the Ukrainian club where G-men said a kidnap-killer gave crudely cremated a victim's body.

A machine gun, blood stains and cement floor patches were discovered by police in the furnace room of the Lower East Side Ukrainian club where G-men reported a kidnap-killer gave disposed of a victim's body by cremation.

An emergency squad armed with sledges, chisels and crow bars planned to dig into the floor in efforts to find charred remnants of the body of Arthur Fried, 32, a White Plains, N. Y., business man, who disappeared last Dec. 4.

The discovery of the gun hidden in old clothing and also of a secret passage leading from the furnace room came after federal agents turned over to the state three men in custody here. The other alleged kidnap-killer named by J. Edgar Hoover, the FBI chief, is in Sing Sing prison for parole violation.

The decision to dig into the floor was prompted by a city chemist's report that the patching was done after Fried's abduction for a demanded ransom of \$200,000.

Demand Alteration 1-Sided Labor Act

WASHINGTON, Nov. 3 (AP).—Demands for alteration of the Wagner labor act to make its operation less "one-sided" were renewed last night despite the National Labor Relations Board's flat opposition to change.

Headed by Chairman J. Warren Madden, the board visited President Roosevelt to discuss the question. Madden said he and his colleagues told the chief executive "we don't think the act needs amendment."

Later President William Green of the American Federation of Labor said: "Because of mal-administration by the National Labor Relations Board we think it imperative that the act be amended."

The federation supports the principles behind the act but federation leaders contend the labor board, which administers the act, has tended to favor the CIO.

Similarly employers, have argued that the act weights the scales in favor of labor and against employers. The American Federation of Little Business, in a statement issued today, urged amendment of the act "to put an end to the board's power to act as prosecutor, judge and jury, to permit employers as well as employes to invoke its aid, and to extend and develop greater reliance upon the processes of mediation."

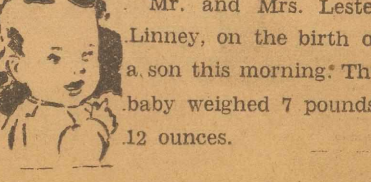

AAA Meeting at Big Spring Upholds Parity

BIG SPRING, Nov. 3 (AP).—The AAA ended its series of educational meetings in Texas with a defense of its program here Wednesday.

The twelfth meeting called to explain the 1939 program was attended by farmers from 25 West Texas counties. Walter Randolph, assistant regional AAA administrator, said the domestic allotment plan was unsound and maintained the AAA already was providing a parity price on domestically-consumed cotton.

Congratulations To:

Mr. and Mrs. Lester Linney, on the birth of a son this morning. The baby weighed 7 pounds, 12 ounces.

Miss Ford, Prentice Brown Are Married at Big Spring

Announcement is made here of the wedding of Prentice Brown and Miss Alline Ford, both of Midland, the ceremony being solemnized at the First Presbyterian church at Big Spring, Wednesday afternoon at 3 o'clock, with Rev. D. F. McConnell officiating at the single ring service.

The couple was attended by Alden Donnelly of Midland as best man and Mrs. Donnelly as matron of honor.

Mrs. Brown wore a black suit trimmed with caracul and a white satin blouse.

Mrs. Donnelly wore a black velvet suit with white blouse.

Guests present for the wedding included the bride's parents, Mr. and Mrs. Ford of Post, and near relatives.

Mrs. Brown attended Hardin-Simons university at Abilene and Texas Tech at Lubbock. She has lived in Midland the past four years.

Mr. Brown is Texas division manager of the Honolulu Oil Corporation and a graduate of the Colorado School of Mines at Golden, Colorado. In 1927 he opened the Texas office of the Honolulu Corporation here and has lived in Midland since that time.

The couple left immediately after the ceremony by plane for an extended honeymoon trip. They will be at home at 1010 W. Louisiana after December 1.

Biographical Sketch of Bach Features Program

Alberta Smith presided in the absence of the president, Margaret Mims, who is ill, and Lewis Wingo, secretary, read the minutes at the meeting of the Robyn club at the Watson studio, 210 W. Ohio, Wednesday afternoon.

Dorothy Rose Otho and Doris Ray

Odd Fellow-Rebekah Ritual Features Wedding Service

In a candle-light ceremony marked by the ritualistic emblems of Odd Fellows and Rebekahs, Miss Mortes Carden, daughter of Mr. and Mrs. M. F. Carden of Midland, and Leonard H. Miller were married at the First Presbyterian church, Tuesday evening at 8 o'clock. Rev. W. J. Coleman, Presbyterian pastor, read the single ring service.

Vows were exchanged before an altar attractively banked with pink and white chrysanthemums and gladiolas, with tall white tapers burning in candelabra at either side.

Mrs. W. J. Coleman presented a program of organ music preceding the ceremony. For the processional she played the "Bridal Chorus" from Lohengrin, during the ceremony, "I Love You Truly," and for the recessional, Mendelssohn's "Wedding March."

The wedding party entered under an archway of crossed swords held by D. C. Lykins and Tommy Thompson.

The bride entered with her sister, Miss Dezzie Carden, Noble Grand of the Midland Rebekah chapter. Her attendants were Miss Letha Hall, Past Noble Grand, Mrs. Lily Koon, Warden, Mrs. Betty Hib, Conductor, Mrs. J. A. Mead, Angel, and Mrs. Annie Belle Carden, Chaplain, who carried the ring.

Best man was Slim Fuller and groomsmen were Charlie Hall and J. W. Pace.

Ushers were Mrs. Roxane Fuller, Mrs. Leota Johnson, and Mrs. Ludie Lykins, all dressed according to their cantons.

The bride was gowned in white satin, made with a fitted bodice with Elizabethan collar, and with a train. Her hair was caught with real orange blossoms and she carried a bouquet of pink rosebuds and baby's breath.

Her attendants wore white satin robes and carried pink gladiolas.

A number of friends and relatives of the couple were present for the wedding.

Immediately after the ceremony,

Some silk stockings contain 50 miles of silk.

Government in North America Is Studied by Club

North America, under the subtitle of "Government," was studied by the Modern Study club in its meeting for which Mrs. S. S. Stinson was hostess, at her home, 1608 Holloway, Wednesday afternoon.

Preceding the program for which Mrs. J. W. Skinner was leader, a business session was held with Mrs. F. C. Cummings presiding.

Pledge services were held for two new members, Mrs. M. A. Park and Mrs. C. K. LaGue.

Opening the afternoon's study, Mrs. J. M. Haygood presented a travelogue on "Our Nation's Capitol," illustrating her talk with a map and pictures. Mrs. Jas. H. Chapple, recently returned from a visit to Washington, aided in the discussion, giving a personal touch to the description of the capital.

Mrs. L. W. Leggett discussed

"Know Your Taxes" and Mrs. Chap- ple spoke on "Know Your Constitution."

Mrs. J. W. Skinner read a paper prepared by Colonel John Perkins on "Our National Defense."

Closing the program was a round- table discussion of "National Parks and Historical Shrines," with Mrs. F. R. Schenck as one of the chief speakers. She displayed a map of

points of interest.

Mrs. J. J. Kelly was a guest.

Members present were: Mmes. R. C. Crabb, Chapple, Cummings, Hay- good, J. M. Hills, Leggett, H. E. Mc- Rae, J. H. Rhoden, A. H. Riley, Schenck, Tom Sealy, Skinner, Stin- son, LaGue, Fred Turner.

The leopard frog is the species used chiefly for dissection in uni- versities, colleges and high schools.

Don't Be Fooled About Constipation!

Many people, when constipation hits them, just reach for the medicine shelf, dose up with a physic, and try to forget it—till the trouble comes back. And come back it usually does—more and more often—till you get at its cause.

If you eat what most people do—just bread, meat, potatoes—chances are just this fact causes your trouble: lack of "bulk." And "bulk" doesn't mean a lot of food. It's a kind of food that isn't consumed in the body, but leaves a soft "bulky" mass in the intes- tines and aids elimination.

If that's the reason for your trouble, what you need is a good dish of crunchy Kellogg's All- Bran for breakfast. It contains the "bulk" you need plus Nature's great intestinal tonic, vitamin B.

Eat it every day, drink plenty of water, and join the "regulars." Made by Kellogg in Battle Creek.

Naomi Class Has Business Session Tuesday Evening

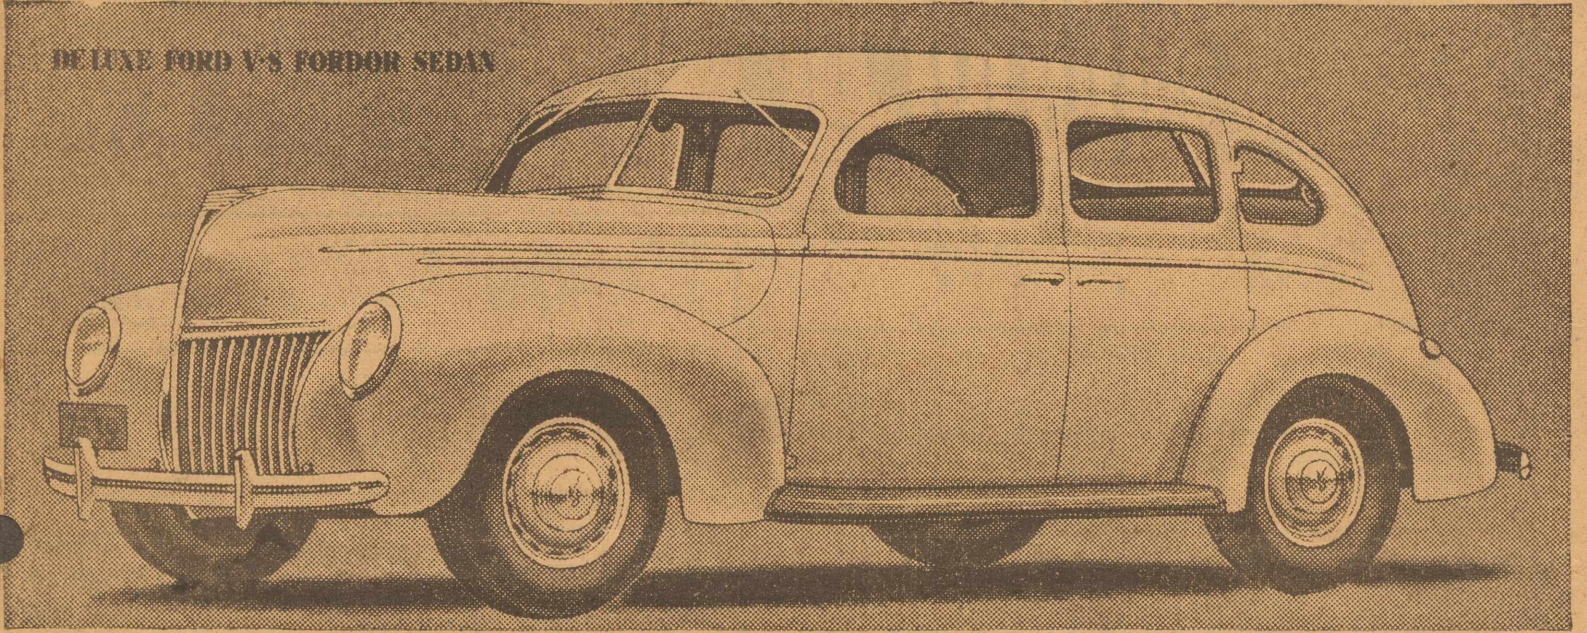

Twelve members of the Naomi class met in the private dining room of Hotel Scharbauer Wednesday evening at 7:30 o'clock for a business meeting and social hour. Mrs. A. E. Horst and Mrs. W. P. Thurmon were hostesses.

Discussion of needy families which the class is aiding this winter was the business of the evening. Medicine is to be provided for one case and milk is being provided for other cases, in addition to other welfare gifts from the class.

Belva Jo, daughter of Mrs. W. P. Knight, presented several piano numbers.

Refreshments were served during the social hour to: Mrs. J. B. Sanders, Misses Ethel Long, Ruth Guy, Eva Batchelder, Mrs. W. P. Knight, Belva Jo Knight, Mmes. L. H. Tiffin, J. Howard Hodge, Tom Nance, M. J. Nolan, R. DeChicchis, and the hostesses.

Some silk stockings contain 50 miles of silk.

Announcing the NEW FORD V-8 CARS for 1939

GREATER VALUE for every motorist has been built into the two new Ford V-8 cars for 1939. They further express the forward-looking policy of the Ford Motor Company—traditional Ford dependability and economy plus progressive engineering.

Each car is distinctive in design, yet each has something of the fine streamlining of the Lincoln-Zephyr—recognized style leader for the industry. Interior appointments are in keeping with outward beauty. Every detail is styled for good taste and good service.

Both are big, roomy cars, equipped with hydraulic brakes and powered with the V-8 engine that gives you so much extra smoothness and efficiency. This year, the quiet performance of

the V-8 engine has been matched by the new quiet built into every part of the car.

The 1939 Fords bring you greater riding ease on every road. New seat construction, flexible transverse springs, and big, hydraulic shock absorbers provide triple-cushioned comfort.

Both 1939 Ford cars are Ford-priced for greater dollar value. Both bring new meaning to the Ford phrase, "The Quality Car in the Low-price Field."

FORD FEATURES FOR 1939

- Advanced Streamlining • Newly Styled Interiors • V-type 8-cylinder Engines*
- Hydraulic Brakes • Scientific Sound-proofing • Triple-cushioned Comfort
- All-steel Bodies • Lower Prices

*60 or 85 hp. in Ford, 85 hp. in De Luxe Ford

EDITORIALLY SPEAKING

Struggle to Save Birds Must Go on, Says Journalist

Skeptical, hardheaded businessmen today are beginning to realize that bird protection pays—not only in terms of education and recreation, but also in the coin of the realm, declares William Vogt in the current Rotarian Magazine. Where hunters once went with guns, tourists now go with cameras and field glasses to sanctuaries where the egret, wood ibis, roseate spoonbill, and other birds are being saved from extinction.

The sanctuary movement, begun in 1900 and taken up in 1902 by the National Association of Audubon Societies, has faced bitter opposition, according to the writer, who is editor of "Bird-Lore." Just as Theodore Roosevelt was condemned for his efforts to reduce the kill of birds, so also have organized conservationists been denounced as persons who would destroy a great industry and throw thousands of men out of work. Wardens of sanctuaries have been attacked, even murdered! Yet bird lovers have persisted in their work, which shows results today.

"But the increase in the number of birds is not the sole result," Vogt points out. "An almost universal charity for wild life is another. Hundreds of thousands of people every winter regularly feed birds. Even hawks and owls, once killed indiscriminately, are now protected in most states both by law and by sentiment."

"This has resulted in a better America," he says. "Songbirds that were formerly killed now rear their families to help man control the insects. In the Theodore Roosevelt Sanctuary it has never been necessary to use an ounce of insecticide."

The struggle is not yet over, he says, for the public must realize that a bird in the bush is worth two in the hand. Destruction of swamps, forests, and prairies still is obliterating habitats without which wild life cannot survive and, hence, cannot help to restore a natural balance favorable to man.

No one need wait to establish a great sanctuary like those in Florida, Louisiana, or other states, Vogt concludes, for "anyone who will use a little ingenuity can create his own sanctuary in suburb, garden, or farm. The same formula may be used that has been so successful in Audubon sanctuaries: protection plus cover plus food plus water equals birds. Its success has been proved, time and again, for the last 38 years."

SO THEY SAY

TEXAS IS IMPROVING ITS COTTON

(Farm and Ranch.)
Texas made a long step in the right direction when, last spring, 22,589 farmers organized one-type cotton improvement communities and planted 623,897 acres to good staple. Adding this acreage to that planted to good staple on many one-variety plantations and individual farms, acreage in better staple in 1938 approximated 1,000,000, according to E. A. Miller, extension agronomist. One-type communities were organized in every one of the twelve extension districts, and as a result, the first report on staple classification for Texas showed only 1 per cent of cotton planted in September 1 to be undesirable on staple. Later reports, of course, will increase this percentage as short staple districts make their reports.

Out of 222 one-type communities in Texas, twenty-nine have requested classification under the Classification Act passed in the spring of 1936. Other communities have organized and have sales days in which competitive bidding for uniform lots is asked. The records thus far show that this better staple is producing as much and more per acre as the mongrel or short staple seed, and that premiums have run from \$4 per bale and up.

With the start made in the production of more desirable staple, plus the increase in yield due to soil conservation measures, Texas will soon get back into the cotton business. Texas and Oklahoma staple, once in demand because of its high quality, dropped to a low demand in recent years, due to deterioration in staple length and spinability. These states can come back. Texas is on the way.

Clifford Andersons Entertain for Their Three Children

A different idea for a Halloween party was carried out by Mr. and Mrs. Clifford Anderson, 907 W. Dakota street, entertaining for their three children, Vernon, Deane, and Peggy.

The young guests gathered at 7 o'clock going directly to the dining table to sign the guest book. The table was spread with a rust brocade cloth, centered by a large bowl of bronze chrysanthemums.

Then the guests went in a group to the garage and tank-house which was decorated with jack-o-lanterns, bundle-feed, "pie melons", and apples hanging.

Fortune telling and games were features of the evening, as was a bonfire. Popcorn and candy were served throughout the evening and punch and sandwiches at the refreshment hour. The punch was served from a "gypsy pot" suspended from an electric lighted fire and was poured with an old-fashioned gourd dipper.

Present were: Freddie Truelove, Anna Lois Campbell, George White, Monte Mayfield, Mildred Brinson, Margaret Morgan, Clinton Morgan, Roxie Ruth Friday, Joyce Rosenbaum, Stella Friday, Peggy Fay Woody, Marjory Merritt, George Woody, Mary Mayfield, Betty Van Dyke, Robert Farborough, Daniel Yarbrough, Dorothy Shelburne, Faye Shelburne, Hazel King, Fay King, Jim Williams, Charles Williams, Raymond Hundle, Dorothy Otho, Lauretta Patton, Ervin Reasor, T. E. Shelburne, Vernon, Deane, and Peggy Anderson, Mr. and Mrs. Sam Taylor and baby, Mr. and Mrs. Archie McDonald and the hosts.

Leap Year boosts expenses. The extra day involves an expenditure of \$200,000 for salaries in the British Royal Air Force alone.

Two Present Papers at Junior Wednesday Club

The travelogue program of the Junior Wednesday club was continued in the meeting of the group with Mrs. Frank Miller, 600 N. Marientfeld, Wednesday afternoon.

Study was in the form of two papers presented by Mrs. Ben Black and Mrs. John M. Speed Jr.

Mrs. Black's paper was on Norway and described the industries, the larger cities, and the sports of the northern country.

Mrs. Speed varied the program by discussing not Sweden, the next-door neighbor of Norway but Alaska, which is even more interesting to the average American as being a part of the United States. In her discussion she followed approximately the same outline as did Mrs. Black, telling of the industries and

MANY NEVER SUSPECT CAUSE OF BACKACHES

This Old Treatment Often Brings Happy Relief
Many sufferers relieve nagging backaches quickly, once they discover that the real cause of their trouble may be tired kidneys. The kidneys are Nature's chief way of taking the excess acids and waste out of the blood. Most people pass about 2 pints a day or about 3 pounds of waste.

Frequent or scanty passages with smarting and burning shows there may be something wrong with your kidneys or bladder.

An excess of acids or poisons in your blood, when due to functional kidney disorders, may be the cause of nagging backache, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness.

Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

The Town Quack

We are seeing some fast high school football in these parts at present, and should have capacity crowds for the remaining games. If Crane decides to come over here for the game, their part of the proceeds probably will run as high as \$1,000.

A few years ago, you could bring any team in this country over here for a game by guaranteeing them \$50.

People are enjoying football now who wanted to pass a law against it a few years ago.

Most any Saturday, you can find the most dignified citizens walking about so hoarse they can hardly make a sound.

Grapevine reports say there is a strong likelihood of a fast college game on the Midland field next fall, at least as important as the one seen at Odessa a couple of weeks ago.

This new interscholastic league shake-up has started a lot of comment. Midland was grouped with its present bunch, and a few additions from the south, due to the fact that the total of 500 in high school has not yet been reached. But with that total practically a certainty and this school to be in Class AA as result, it would appear that we would be automatically in the district with Sweetwater, Big Spring, San Angelo, Lamesa and Odessa. But there also seems to be some comment that we might, by application, get into the El Paso district, in which case Odessa probably would do the same.

If we could build up a football team to fit, year in and year out, the eastern district would be more interesting; but, basing the proposition on our present relative strength, we would fare better if Midland and Odessa could stay in the district with El Paso school. Then if Odessa or Midland managed to win the district title, we would have something to shoot at, all in one load, when we hitched the eastern end.

However, if we get in the eastern district, we should apply now, match those five games, one with Whitt, one with Peecos and one with a top El Paso team, and then go into the football business. That's how it's done.

other facts of interest about the northern province.
Miss Lucile Thomas, club president, presided and Mrs. Hugh West read the minutes.
Members attended were: Mrs. Black, Mrs. W. M. Blevins, Miss Helen Fasken, Mmes. Ralph Geisler, Don Oliver, Alfred Reese, Speed, Louis Thomas, Miss Lucile Thomas, Mrs. West and the hostess.

A PARADE OF STARS in Free TALKING PICTURES

A Three Days' Cough Is Your Danger Signal

No matter how many medicines you have tried for your common cough, chest cold, or bronchial irritation, you may get relief now with Creomulsion. Serious trouble may be brewing and you cannot afford to take a chance with any remedy less potent than Creomulsion, which goes right to the seat of the trouble and aids nature to soothe and heal the inflamed mucous membranes and to loosen and expel germ-laden phlegm.

Even if other remedies have failed, don't be discouraged, try Creomulsion. Your druggist is authorized to refund your money if you are not thoroughly satisfied with the benefits obtained. Creomulsion is one word, ask for it plainly, see that the name on the bottle is Creomulsion, and you'll get the genuine product and the relief you want. (Adv.)

Valley View Club Elects Officers For New Year

New officers for the coming year were elected at the meeting of the Valley View home demonstration club at the home of Mrs. J. D. Bartlett Tuesday.

Officers elected were: President, Mrs. G. C. Brunson; vice-president, Mrs. Ora Robertson; secretary and treasurer, Mrs. B. L. Mason; assistant secretary, Mrs. Lois Lewis; council members, Mrs. L. B. Stewart and Mrs. Lois Lewis; program committee, Mrs. Noble Blanton and Mrs. J. D. Bartlett.

Members present worked on a book case the club is building.

Refreshments were served to Mrs. Carpenter and Mrs. Earl Embrey, visitors, and Mmes. G. C. Brunson, B. L. Mason, L. B. Stewart, Noble Blanton, Phelan Porter, Bessie Bizzell, Earl Fain, Marion Holder, Lois Lewis, Miss Ora Robertson, and the hostess, all club members.

Next meeting will be held at the home of Mrs. D. M. Bizzell and will be the achievement day of the club.

Thirty-three states of the Union have state laws prohibiting the picking of wild flowers in any manner injurious or destructive to the plants.

In England, pins are manufactured in hundreds of varieties ranging from 3 1/2 inches long to entomologists' pins so small that 4500 are required to weigh one ounce.

Mrs. Earle Payne Discusses "Indian Arts" Before Club

Mrs. Earle Payne was hostess to the Woman's Wednesday club at her home, 324 South I street, Wednesday afternoon, and also presented the program for the meeting.

Under the subject, "Indian Arts," she discussed the various arts of the Indians including pottery, rugs, blankets, baskets, silver work and bead work. She illustrated her talk with pieces of pottery, rugs, and other objects, and told how the various articles were made, along with the tribes noted for the different handicrafts such as the silver work of the Zunias and Navajos, the basketry of the Apaches and other tribes, and the pottery of the Pueblos.

The business session was devoted mainly to completing details concerning the book review held Tuesday evening. The review was considered successful both from a financial and educational standpoint, club officers reported.

Attending were the following club members: Mmes. Russell C. Conkling, Elliott F. Cowden, Andrew Fasken, George Glass, M. R. Hill, R. L. Miller, John Perkins, W. E. Ryan, M. C. Ulmer, W. T. Walsh, W. G. Whitehouse and the hostess.

If the hydrogen in a single drop of water were made into helium atoms, all at once, it would explode with the force of a two-pound stick of dynamite.

Mrs. Klapproth Reads Play at Club Meeting

Mrs. Chas. L. Klapproth read "The Second Mrs. Tankeray" by Sir Arthur Pinero at the meeting of the Play Readers club with Mrs. Elliott H. Barron, 507 N. Loraine, Wednesday afternoon at 3:30 o'clock.

Following the reading Mrs. Klapproth passed out questions to the group and members took part in a discussion of the drama.

A social hour and the serving of light refreshments closed the meeting.

Present were the following, all members: Mmes. Addiee Abell, E. W. Anguish, Ralph M. Barron, Miss Agatha Bruner, Mmes. W. H. Bryant, De Lo Douglas, W. L. Haseltine, J. Howard Hodge, Jack Hawkins, Klapproth, W. L. Miller, W. T. Schneider, Fred Wilcox, and the hostess.

Home Construction Rises in Southwest

WASHINGTON—The volume of home construction in the southwestern states is rising steadily, accompanied by an increase in savings accounts in thrift and home-financing institutions, B. H. Wooten, president of the Federal Home Loan bank of Little Rock, said here today.

Wooten, who attended the semi-annual meeting of the presidents of the 12 Federal Home Loan banks, added that business conditions in his area reflected a mild improvement, although farm income was disappointing.

The Federal Home Loan bank of Little Rock acts as a credit reservoir for 291 thrift and home-financing institutions in Arkansas, Mississippi, Louisiana, Texas and New Mexico.

"The volume of loans for home financing in the Little Rock district is steady and satisfactory," Wooten said. "Loans for membership of our bank are averaging about \$4,000,000 per month, remembering that their sets are only \$180,000,000, is healthy rate of lending."

"The real estate market is stiffer than in some time. Rentals are up, both as to rate and the percentage of occupancy."

Wooten said advances from Little Rock bank to home-land institutions were steady, and not increasing due to the fact that most of its members were receiving adequate lending funds from investors in their share accounts.

Advances outstanding from Little Rock Federal Home Loan bank to members now total \$467,421.04. During the six years of its existence, the bank has made cumulative loans totaling \$31,0369.46.

Each colony of bees has its particular odor, and any strange is detected at once and driven out. If a hive is divided, a preference develops in the odors of the two colonies and within weeks the time the insects are strangers.

The Theobroma cacao, a small evergreen tree native to tropical America, yields the large nutritious seeds from which chocolate and cocoa are made.

GRADE A RAW MILK SCRUGGS DAIRY PHONE 9000

FEMININE FANCIES By KATHLEEN EILAND

Did you ever think that when your friend sends in a gorgeous cluster of chrysanthemums he is sending you not only food for your soul but for your body? Probably not in such a light until we read a recent Associated Press dispatch in which K. Hirayama, Japanese chrysanthemum society president, gave a recipe for chrysanthemum soup (yes, you saw the word correctly).

The whole story strikes us as too good to overlook so we herewith reprint the soup recipe. Put a pint of milk and a tablespoon of butter in a pan and heat. Add two tablespoons of cornstarch and stir until thick. Add chopped chrysanthemum petals which have been boiled in water for two minutes. Serve hot.

It is very good soup, too--so Mr. Hirayama says.

Now we know why that poet said that if given the choice between buying white hyacinths and a loaf of bread with his last penny, he would choose the hyacinths.

Wise man! He probably knew a recipe for making hyacinth stew after the flowers had lost their fragrance and so chose to have his flowers and eat them, too.

We can never believe again that poets are the unworried, impractical souls they're popularly supposed to be.

Flowers have come into their own

Thanksgiving Theme Marks Bridge for Sans Souci Club

Mrs. H. D. Dickson chose a Thanksgiving motif for the afternoon bridge with which she complimented Sans Souci club at her home, 506 North A street, Wednesday afternoon at 2:30 o'clock.

Marigolds and fern decorated the party rooms. Mrs. R. T. Mobley was awarded prize for high score and Mrs. Roy J. Downey cut prize, while guest prize went to Mrs. S. H. Hudkins.

A salad course was served at the conclusion of play to the guests, Mrs. Finkins and Mrs. L. L. Payne and the following club members: Mmes. Rea Sendorf, J. B. Richards, W. P. Thurmon, Downey, L. A. Tullos, Lester Short, Bert Hoffer, Mobley, Alton Absher, Frank Williamson, and the hostess.

Mrs. Hoffer will entertain the club at its next meeting.

Announcements

FRIDAY.

Stitch and Chatter club will meet with Mrs. L. M. Hedges, 406 E. Tennessee, Friday afternoon at two o'clock.

Belmont Bible class will meet with Mrs. J. H. Trickey, 507 W. La., Friday afternoon at 3:30 o'clock. Mrs. Herbert King, will be co-hostess.

SATURDAY.

City-County Federation will sponsor a benefit bridge at Hotel Scharbauer Saturday afternoon at 2:30 o'clock, proceeds to go to the student loan fund. Tickets, at 50 cents each, may be purchased from members of the committee in charge or at the door. The public is invited.

Story Hour will be held in the children's library at the courthouse Saturday morning at 10 o'clock.

Midland county museum in the courthouse will be open Saturday afternoon from 2:30 until 5 o'clock.

Women of the Presbyterian auxiliary will sponsor a rummage sale in Mexican town Saturday. ADD SOC CAL FRIDAY.

Eva Cowden class of the Baptist church will have a business session and social at the home of Mrs. E. W. Cowden, 111 North F street, Friday evening at 7:30.

Women's Golf Association will hold its regular play Friday morning at 10 o'clock at the Country Club. Luncheon will be served at one o'clock. Reservations should be made through Mrs. D. L. DeHoume or Mrs. Glenn Black, hostesses. Members are invited to come at 9 o'clock for the free group lessons in golf now being given by Sherm Elworthy, club professional.

For wear on frocks and on muffs and in the hair. Now they're equally smart to wear as ear drops.

If you're tired of gold and silver dangles jingling at your ears, try new clusters of violets to match that nestle in your hair. Or you may prefer other flowers--gardenias, roses, forget-me-nots.

For practically, use the delightful artificial blossoms which come in sets, for the ears and the hair. But if you want to be exotic, wear real flowers.

The long evening coats with snug little waists and lavishly flaring skirts and high little collars give the grande dame air to evening clothes about as effectively as anything we've noticed in current styles.

THE STATE OF TEXAS COUNTY OF MIDLAND You are hereby commanded to give, by posting copies hereof in three public places in Midland County, Texas, one of which shall be at the Courthouse Door of said County, in the City of Midland, Texas, for not less than twenty days before the return day hereof, exclusive of the day of posting, and by making publication hereof for one time not less than twenty days before the return day hereof, exclusive of the day of publication, in a newspaper of general circulation published in Midland County, Texas, and in the City of Midland, the following notice:

Notice is hereby given that B. G. Grafa, the owner of Blocks A, B, and the South one-half of Block C, all in Cowden Addition to the City of Midland, in Midland County, Texas, has filed with the Secretary of the City of Midland a petition asking that an ordinance be passed by the City Council of said city closing and vacating that part of Wattles Street located between and adjacent to said Blocks A and B, and that part of Storey Street located between and adjacent to said Blocks B and C, as the same appear on the plat of said addition, it being contemplated that said property aforesaid will be re-surveyed and developed as Elmwood Extension, an addition to said city, and the City Council has ordered that a hearing on said petition be held on the 25 day of November, 1938, at 4 P. M. in the City Hall of said City, at which time and place all persons interested in the same may appear and contest such petition, should they so desire.

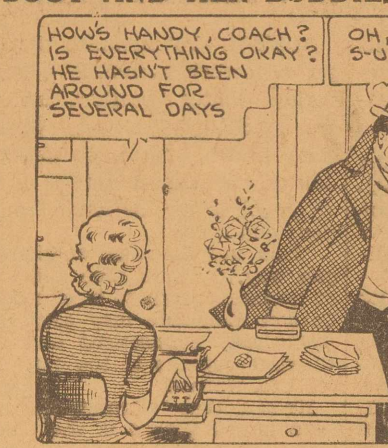

Herein fail not, but have you before said City Council on the 25th day of November, 1938, this writ with your return thereon showing how you have executed the same.

Given under my hand and the seal of said city, this 2nd day of November, 1938.

J. C. Hudman, Secretary of the City of Midland, Texas (SEAL) Issued this 2nd day of November, 1938.

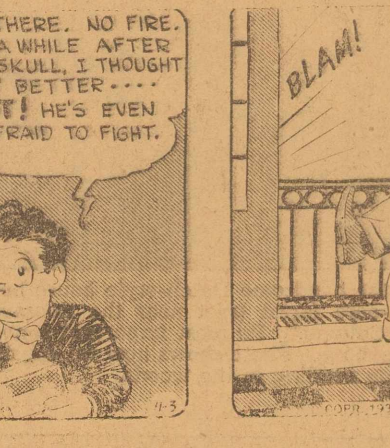

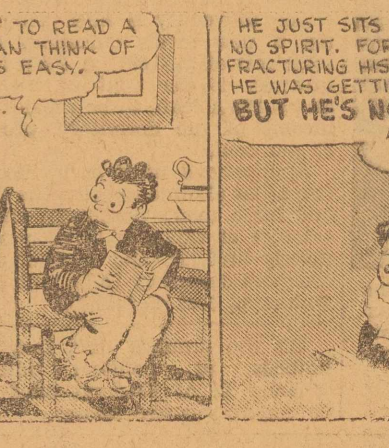

J. C. Hudman, Secretary of the City of Midland, Texas.

THEY MAKE 'EM POSSIBLE!

Yes, sir--the advertisers who use the columns of The Reporter-Telegram day in and day out make the outstanding comics on this page possible. Patronize these advertisers... let them know that you appreciate the features of this newspaper... tell them candidly that you saw such-and-such ads in this newspaper. You have been using The Reporter-Telegram as your buying guide for many years... and the results of their advertising have convinced advertisers that it is the logical medium to use... but just occasionally give your favorite comic strip a boost by telling your favorite advertising merchant that you appreciate the part he plays in making the comics possible.

F. D. R.'s "Dream" Home Becomes Concrete Reality

Conceived by the President himself as his "dream" of a home, the handsome Dutch-style house begins to take concrete form in stone. It is being constructed on a 70-acre forest tract near the Roosevelts' Hyde Park, N. Y., house and will be known as "Dutchess Hill Cottage." Its most important convenience—from the Presidential viewpoint—is that it will lack a telephone. Photo shows how far construction has already progressed on the "dream" home nestling in the woods.

University Tearoom To Be Constructed

AUSTIN—The board of regents of the University of Texas will receive bids November 10 for the construction of a tearoom to be used as a laboratory by students of home economics who are studying institutional management. At present, the tearoom occupies the fourth floor of the home economics building. The new building will be located on the site of the former home of the late Judge D. W. Doom, which is now a part of the enlarged campus of the university. The cost of the new building is estimated at \$20,000 by Robert L. White, supervising architect of the university. Of this amount \$9,000 will be supplied through a Public Works Administration grant and \$11,000 from university funds. The university is now constructing a new men's dormitory at a total cost of \$103,636. A PWA grant provides 45 per cent of the cost and a PWA loan, to be repaid from income of the dormitory, provides 55 per cent. Applications have been filed for two other allotments from the PWA, one for a men's dormitory, the total cost of which is to be approximately \$650,000, and another for a women's dormitory to be built at an estimated cost of \$350,000.

On the grounds that they were hotbeds of political intrigue, Charles II of England once tried to suppress coffee houses.

Monoxide Poisoning Is Warned Against

AUSTIN—To minimize the danger of carbon monoxide poisoning during winter weather, motorists are urged by Dr. Geo. W. Cox, state health officer, to check up now on the exhaust systems of their automobiles for defective connections and leaks. "This unseasonable weather will give way to winter soon and it will be necessary to drive in closed cars. Carbon monoxide may seep inside from leaky connections and overwhelm occupants of the car," Doctor Cox warned. He said that "warming up" a car in a closed garage is the greatest cause of carbon monoxide deaths. Leaks from manifold connections, cracked manifolds, defective mufflers, leaks from loose muffler connections and leaks from hot air heater connections are potential sources for release of carbon monoxide and should be checked, Doctor Cox pointed out.

Particular attention to these items and remember that proper carburetor adjustment causes minimum production of carbon monoxide and that the highest proportion of this gas is produced by an idling motor.

The state health officer said that headaches which occur during long drives may be an indication that carbon monoxide is leaking into the car. Sleepiness, dizziness, fatigue and in extreme cases, paralysis are other symptoms of carbon monoxide leaking into the car. Truck drivers making long drives are particularly vulnerable, he stated.

Doctor Cox described this gas as being colorless, odorless, and tasteless. When in the air it gives no sign of its presence and is taken into the blood instead of oxygen. Suffering or collapse result from lack of oxygen.

Marines Celebrate Birthday on Nov. 15

Pipes and drums were calling men to arms in 1775, and the oppressed colonies were sorely in need of war materials. In the breasts of patriots were smoldering fires which flamed into righteous anger during America's fight for freedom.

Ships and men to man them were also among the crying needs of the time, and soon a fleet of fighting craft was assembled in the Delaware river at Philadelphia. On November 10, the Continental Congress resolved: "That two battalions of Marines be raised," and that date has since been observed as the Marines' birthday.

Bound for their first adventure, about 275 marines sailed aboard this little fleet of eight vessels early the following year for New Providence in the Bahamas. Here a large supply of guns, ammunition and war materials was captured from the British.

Scores of other expeditions have been made by the sea soldiers in subsequent years, so today they truthfully sing in their hymn: "We have fought in every clime and place where we could take a gun." Recruited in a humble waterfront hostelry, called Tum Tavern, these pioneers and other Continental Marines took part in many battles ashore and afloat during the Revolution. They furnish the present-day sea soldiers with their background of traditions, although no permanent Marine Corps was established until 1798.

On November 10 each year, it is the custom of commanding officers of Marine detachments on our battleships and cruisers, ashore in the tropics or in the homeland, to give a brief address to their men, pointing out the illustrious history of their forebears. Their birthday not only serves as a reminder of deeds performed in the past, but also as a renewal of a mariner's pledge of unwavering loyalty to his flag and country.

World-Wide Warrior. (Dedicated to the U. S. Marines who celebrate their 163rd anniversary, November 10.)

He's snappy and happy. Or sometimes is scrappy. While serving on missions afloat or ashore;

A seagoing rover. Who roams the world over. With faith in his country, himself and his Corps.

Success marks his story Of valor and glory. Won in Mexico, France, or the far Philippines;

A land, sea and airman. Or devil-may-care man. Who is proud to be one of the U. S. Marines.

With courage unbounded. He's never confounded. When he fights against odds in some turbulent scene:

The always dependable. Highly commendable. Warrior known as the U. S. Marine. —Loren T. Casey.

THE CAPITOL JIGSAW By HOWARD C. MARSHALL Associated Press Writer

AUSTIN, Nov. 2, (P). — The biggest racket along the Atlantic seaboard is crooked dealing in oil securities, says D. Leon Harp, state securities commissioner.

This statement, Harp said, was made to him recently by Ambrose McCall, assistant attorney general of New York.

Harp had and has a material interest in the situation involving such a racket because of Texas' tremendous oil industry and his responsibility of stopping securities frauds in this state and, insofar as he may by cooperation with officials of other states, frauds beyond Texas' boundaries.

McCall told him also, Harp said, that a very small percentage of the securities mixed in the operations of racketeers originated in Texas. In Harp's opinion, this is due to the state securities law, enacted by the 44th legislature three years ago.

"The racketeers operate in this manner," Harp explained. "Oil royalties are sold in small amounts under false representation of value. The returns are so small the investors can never hope to get back their principal, let alone interest."

"Assistant attorney general McCall said officials agree sales of this type are rackets, pure and simple. They have grown to such an extent they exceed the numbers rackets in the amount of money of which suckers are fleeced and the total in people victimized."

"The federal securities exchange commission registers oil royalty units, or fractional interests in oil properties. Out of the first 500 registered after January 1, of this year, only five were from Texas, McCall informed me."

"In other words, only one per cent of the units registered were based on property in Texas, 99 per cent originating in other states. In all probability, this was due to the fact the Texas securities act requires careful checking of value to protect the investor."

"This was not the situation before the securities act became law. Then most crooked securities dealings in other states were based on properties in Texas, real or alleged."

"Today I do not know of a single big shot oil promoter in Texas. Three or four little fellows are oper-

Wadley's \$6.75

rating and we have eyes on them." Stopping fraudulent securities operations has not hampered legitimate operations, Harp continued, but in fact, the legitimate dealer has been aided.

"Many operators in securities had gotten out of the investment business," he said. "Many told me they couldn't compete with the crooks. Now, with the crooks eliminated the legitimate men are resuming."

At a recent meeting of state securities commissioners, Harp said, Texas was highly praised for its work in cleaning out the oil securities swindlers.

The Indiana commissioner, in a talk, said that oil fraud in that state had been reduced 90 per cent since the passage of the Texas securities act.

Currently Harp is receiving complaints from business bureaus over the state that some men not qualified under the law are selling securities. The securities department is investigating.

In addition, Harp is checking up on activities of what he terms "bucket shop swindlers."

"They take a sucker's money but don't place an order for securities as they undertake to do," he said. "Arrests were made the other day in a West Texas city in connection with the taking of \$100,000 and failure to fill orders."

Several changes in the law are needed despite the good it has worked, Harp said. These changes will be recommended to the general session of the legislature. One concerns the classification of securities and would be intended to do away with issuance of securities unfair to the investor.

London's water supply is affected by paved streets; the rain runs away into the sewers instead of

BULLDOGS READY FOR GAME IN KERMIT TOMORROW NIGHT

SECOND TEAM MAY SEE SOME ACTION IN CONFERENCE GO

With a chance of being able to take it fairly easy for the first time in a couple of weeks, the Midland Bulldogs are all ready to invade Kermit tomorrow night for a battle with the high school Yellowjackets of that city.

Physical condition of the Bulldogs as a whole is okay. Jay Francis is having some trouble with his trick knee and may not play all the game, otherwise all members are in good shape.

The first string Bulldogs have earned a rest and will probably get one tomorrow night if they can ring up an early lead. However, that may not be as easy as it seems just from comparing the scores of the two teams to date. The oil field boys boast a fairly stubborn line and a backfield capable of making quite a number of yards through the line and by the airways. In six games played to date, Kermit has made 91 points while giving the other teams only 76.

Only two teams, Fort Stockton and Pecos, have been able to make more than two touchdowns against the Yellowjackets and the Kermit team came out on top in the battle with Fort Stockton.

Chances are, Temple Harris will be working in the Bulldog backfield at the start of the game instead of Dale Truelove. Truelove's play in the Odessa game caused him to be pulled from the field and Harris substituted for him and in practice sessions this week Harris has continued to hold down the first string position.

With Truelove out of the line-up the Bulldog passing offensive will be somewhat weakened but it is certain that he will play at least a part

The PAYOFF

BY JESS RODGERS.

Whether to be a pretty fair sized frog in a little pond or a very little frog in a great big pond is the problem that is facing school officials here regarding whether to get into district 3-AA or 4-AA next year.

To get into district 3-AA would mean that the boys would have very little chance of ever winning a championship. Others sure to be in the district are Lamesa, Big Spring, San Angelo and Sweetwater. Odessa will become a member of that League if Midland decides to call it home.

To go into district 4-AA would mean playing against El Paso, Dowie and Austin (all of El Paso) and probably Odessa. District 4 is, on the average, much weaker than district 3. But there are drawbacks to entering that league.

It is a long way to El Paso. And once every other year Midland would have to make a couple of trips out there to play. It is a well known fact that El Paso games don't draw as many in at the gate as do district 3 schools.

However, and this is worth consideration: Many fans here declare the paid admissions in district 4 over the years would stay pretty close to those of district 3 unless Midland turned out teams that would be battling for the league flag. Nobody loves a loser—and it is proven hundreds of times yearly at the box offices.

Midland high school, in 1931, had a better team than it has this year

of the game. His overhead heaves to Francis and Van Dyke might well be what is needed to win the game.

and played the same schools that schools that would compose district 3 next year. The school did all right in 1931 and undoubtedly made some money, but it was a different story in 1932. The Bulldogs didn't have a good class B team in 1932 and the crowds here and away from home were nothing to write home about. Ask any of the boys who played on the team of '32 and they will tell you officials here had better leave that district alone unless it is absolutely necessary to mix with it. If proof is wanted, they point out: Midland has never defeated, in modern times at least, either Lamesa, Big Spring, Sweetwater or San Angelo.

The Midland club this year would probably have a good chance of repeating Big Spring. But superior weight and manpower of the other schools would make them favorites to defeat the home club.

Not that our opinion matters a lot, but we would rather see Midland enter the El Paso district than the Oil Belt—regardless of money. We stood on the sidelines too many times in 1932 and saw some of the gamest kids that ever played for Midland carried from the field of play because they couldn't match the overpowering weight of the clubs of the Oil Belt. And, after all, it is the kids that should be considered above everything else.

One good thing about getting out of Class-B: The Bulldogs won't be obliged to play Wink next year. The Bulldogs won't be but little hurt by graduation next June and would probably be one of the favorites to win the championship in the El Paso district. Wink loses even less than the Bulldogs and not even a Madame Mystic can foresee how Midland would hang up a victory over the Wildcats.

This is that—For some of you who would like to take a trip over the week-end and see a good football game along with it, the Odessa special train to El Paso will be pulling out about 5 Saturday morning and tickets are almost cheap enough for reporters to buy...Big "Onion Head" Whittaker says he is going to New Mexico next fall and finish up his high school work...By that time he will be old enough to vote and he wants to get into a state where they don't have a poll tax...Daniel...Fannie Harrison, who dropped her title of Circulation Editor for one reading Personnel Manager, has a little 200-pound cousing playing guard on the Baylor Cubs that handed Wafford-Adams company a 12-0 defeat recently...Mistuh Cha'ley Blalock say he done connected up with the Midland Hahdwahe, and come around to see him all you other thugs...We know

How to See Football

The 6-3-2 Defense

By JERRY BRONDFIELD
NEA Service Sports Writer.

The defensive team meets strategy with strategy these days, and the 6-3-2 set-up is one of the flexible formations which coaches find very effective against a club that has a well-balanced offense, combining a running game with a good passing attack.

The six-man line is backed up by the center, the fullback, and a halfback. The backs are stationed wide of the ends about five yards behind the line, with the center a yard or so closer up.

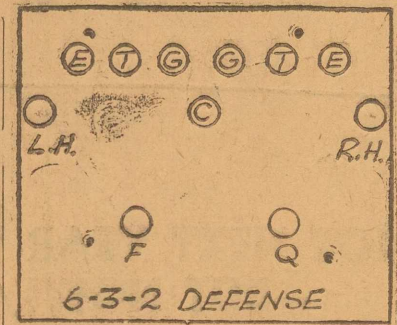

The last line of defense consists of the quarterback and the other half, who are 10 or 12 yards to the rear, and in a straight line back from their tackles.

Although this set-up leaves the defense somewhat vulnerable to a quick kick, it is strong against a short passing game.

The center and first two backs are able to stop anything that breaks through the line and yet remain in a good position to take care of potential pass receivers who come just across scrimmage, or who sit out into the so-called flat territory to the right or left.

The two backs in the rear line can come up fast to guard the middle alley and are in position to stop a receiver who might sneak beyond the center and two defending backs close up.

NEXT: The 7-2-2 defense.

crutches with a badly sprained ankle and is not expected to see any service.

Connie Sparks, sensational sophomore fullback, has a knocked-down shoulder, and will certainly not be at his best, even if he is able to play some against the hurricane.

Logan Ware, who averaged 6.5 yards per try after he went in for Hall against Baylor, will be at the right half post. Ward Wilkinson, who started against Maquette two weeks ago, will be in at fullback.

Red Raiders Seek to Protect Unbeaten Record With Loyola

LUBBOCK, Nov. 3. (Special) — Realizing they have a grand opportunity of being Texas Tech's first immortal grid eleven, the untied and undefeated Red Raiders will seek their seventh consecutive win here Saturday.

Having conquered Montana State, Wyoming, Texas Mines, Oklahoma City, Montana University and Duquesne to gain national recognition, the powerful Raiders will dig their cleats in and go after Loyola of New Orleans this week-end.

In the realm of top aggregations with 174 to their opponents 25-points, the Raiders are one of the nation's thirteen untied and undefeated major football units.

Barring practice accidents this week, Coaches Pete Cawthon and "Dutch" Smith will send a full-strength lineup against Loyola. After suffering injuries, Frank Guzik, senior center; Bill Davis, 225-pound junior tackle, and Dixie White, 186-pound junior guard, are ready for action.

Davis is one of the nation's finest tackles and an All-American prospect. Other smashing Tech linemen are Abe Murphy, 196-pound tackle; Holt Waldrop, 190-pound guard; Prince Scott, 181-pound wing, and Rex Williams, 197-pound center who has played sensationally the last four games.

Behind this big, fast impenetrable line, Coaches Cawthon and Smith will show Loyola one of the most versatile backfields in major football.

Tech's touchdown artists are paced by Elmer Tarbox, right halfback, who crossed into pay dirt for 36-points in six games. Tarbox is a leading All-American nominee. Walter Rankin, big fullback, has five touchdowns for 30-points. The fleet, hip-swiveling Robert Holmes, left halfback, has four touchdowns, for 22-points. This sprinkling of touchdowns throughout Tech's backfield proves it is not a "one-man" team. Gene Barnett, halfback, is rated the equal of Davey O'Brien or Bill Patterson in passing. Cawthon and Smith have nothing but praise for Raymond Flusche, quarterback, who has contributed uncanny generalship in directing the Raiders to six straight triumphs.

Crippled Frogs to Battle Tulsa Club

PORT WORTH, Nov. 3. — Coach Dutch Meyer of Texas Christian has maintained his Horned Frogs undefeated and untied in six starts. His big job right now seems to be to keep them undisturbed about their high-ranking position in the football world.

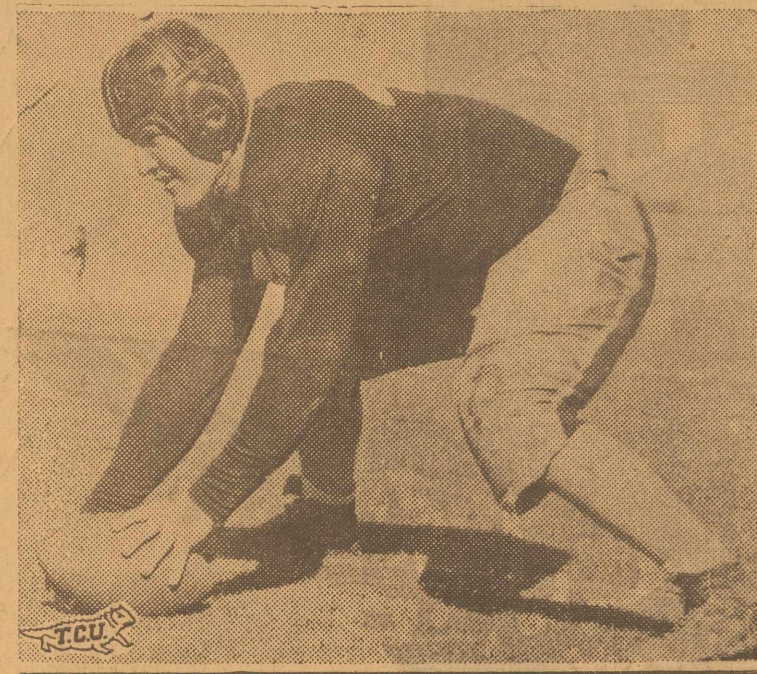

"Don't go up to Tulsa next Saturday with the idea that Vic Hurt's boys will fold up when you show them your clippings!" Coach Meyer warned his players.

They play good football up there. We never did beat them more than one touchdown; sometimes not more than one or two points. They'll be smarting under that Oklahoma defeat and out to get revenge by taking the Frogs. Yes, sir; we're on a spot and had better be careful!"

The Frogs will not be at top form for the Oklahoma invasion. Johnny Hall, power halfback, is on

that D. D. Shiffert and most of the coaching staff had rather see Midland in district 4 next year. And Juarez is not the attraction. It's a bunch of bunting saying "champs"....Popular subscription should be taken up before another year elapses to suit out the Midland band and pep squad....They are overshadowed in appearance every time they appear at a game. And it is certainly not the fault of the kids....

Heads TCU "Granite Wall"

KI ALDRICH—SUB CAPTAIN—CENTER T.C.U.

"The best lineman on the field was Ki Aldrich, T. C. U. center." That has been the verdict of every opponent the Christians have met this season, as well as the theme of almost every sports writer's account of the conflicts. Ki is all over the field, offensively and defensively. He passes the ball and then pulls out to run interference, or to protect the passer, on offense. Defensively, he is the team leader, calling signals and tearing here and there to knock down passes and break up running plays. He has an uncanny ability at diagnosing enemy plays. He'll be all-American in a lot of the final compilations for the 1938 season.

case is Jeffrey Lynn, one of the screen's newest and most handsome leading men, who makes it quite believable that four girls would fall headlong under the spell of his charm. An unusual bit of casting places the three Lane sisters—Priscilla, Rosemary and Lola—in the roles of screen sisters, with Gale Page, a dark-haired beauty recently cometo the screen, making a fourth. Of interest to theatregoers is the casting of John Garfield, the leading young character actor of the Broadway stage in an-

other featured role in "Four Daughters", which marks his screen debut. The story, adapted from the Fannie Hurst original by Julius J. Epstein and Lenore Coffee, works out a logical and deeply moving solution to the problem posed. Under the direction of the brilliant Michael Curtiz, the picture has been hailed by previewers as an outstanding choice for the Academy Award for 1938.

Robbing the nest of a migratory bird is a violation of a federal law.

Baylor Determined To Start Winning At Texas' Expense

WACO, Nov. 3. — Those Baylor Bears, held back twice on successive week-ends will be battling to edge back into the win column Saturday when they invade Austin for their encounter with Texas University Longhorns.

The tilt will be the fourth conference start for both clubs, the steers having dropped their opening games in straight order, while the Bruins have managed to come through with a win and a tie to throw up against the humbling 39 to 7 setback at the hands of TCU last week.

It will be a different Baylor team that takes on Texas this week-end as the Bruins will be out to avenge the 9-6 upset handed them last year when they were riding at the top of conference standings. Only five members of last year's starting lineup are missing from this year's eleven and the holdovers are determined to even the count.

The game will find a back-sliding Baylor eleven up against an up and coming Texas team that gets stronger and stronger as the games roll by. The Steers will get a break in catching the Bruins after two hard tussles with the Aggies and the Frogs and while on their way up, should provide plenty of entertainment for the Bears.

The Bruin's hopes rest on the ability of Bullet Bill Patterson to break through the stout Texas defense. In all the conference games to date, the Hillsboro chunker has been the only offensive threat the Bears have had. Meanwhile the Longhorns were putting up a surprisingly good pass defense game against Rice and SMU.

The importance of an oasis is gauged by the number of its palms, and a sect of human beings at Laghouat Oasis, North Africa, takes the place of bees, carrying pollen to the female plants.

During a three-month period, births in England and Wales showed there were 1045 boys to every 1000 girls.

IT WAS **ALL** THEY HAD!

IT IS **Easier** TO STIR A THIN BATTER ...and

IT IS **Easier** TO READ UNDER A **Better Sight** LAMP

You know how much easier it is to stir a thin batter, and also how tiring it is to work with a heavy batter. You need more strength and you get tired more quickly.

Just as it is easier to mix a thin batter, so it is easier to read under a good light, for both mixing and seeing require your muscular effort.

Better Sight Lamps are designed to make your seeing easier, to give your eyes less work to do, and to save them from unnecessary fatigue. See these modern lamps at local stores which sell Better Sight Lamps. You'll find that they not only give a good light, but add to the attractiveness of your home.

Hear Gail Northe in "Fashion Broadcasts"—KRLH 9 a. m. each Monday, Wednesday & Friday

TEXAS ELECTRIC SERVICE COMPANY
R. L. MILLER, Manager

This table reading lamp is especially designed for children and others who read or study.

REDDY KILOWATT Says—
Check over every room in your home and see if the lighting is sufficient for easy seeing. We'll be glad to lend you a Light Meter to measure the illumination. Just call us.

MIDLAND, TEXAS

92 Per Cent of Midland School Students Pass in Work During First Six Weeks

Distinction lists for the first six weeks, released by the Midland schools, show that 92 per cent of the pupils who received reports for the period passed in their work, and that 530 were placed on the distinction list. The distinction lists are in three groups: Those with a straight A record (summa cum laude et honore); those with a minimum of half A's and half B's, (summa cum laude); and those with better than a B average, but less than half A's (magna cum laude). The first group should correspond to a grade of from 95 to 100; the second group, to a grade of 90 to 95, and the third group, to a grade of 85 or better. Those in the two highest brackets who also have grades of 95 or better in department or behaviors, or placed on the honor roll.

HOW 25 WOMEN LOST UGLY FAT In Special N. Y. Test

Ask Your Doctor If It Isn't Good Way. Read EVERY WORD. NEW YORK, N. Y.—In a test by a prominent N. Y. Physician and nationally known newspaper woman—25 women lost a total of 256 lbs. in 40 days. YOU, too, can follow this SAME, SENSIBLE plan right at home and here it is: First of all get on light on fatty meats and sweets. Eat plentifully of lean meats, fish, fowl, fruits, vegetables, and for proper functioning—take a half teaspoonful of Kruschen salts in hot water every morning. DON'T MISS A MORNING! And this is important! Kruschen is NOT harmful. It is not just one salt as some people ignorantly believe. Rather it's a blend of 6 active mineral salts (formula right on box) which when dissolved in water makes a healthful mineral drink similar to famous European Spa waters where wealthy fat women have gone for years. A jar of Kruschen costs only a few cents and makes 5 gallons of a most highly efficient mineral drink. So fat ladies—get some gumption! MAKE UP YOUR MIND YOU'LL STICK to the above Plan for 28 days—and just see if you don't lose fat and feel healthier and younger. (Note: You can get Kruschen at Falco Drug Store.)

lot had hardly enough clothes on to keep out the bitter wind. After observing this did you do anything to alleviate the suffering so plainly stamped on the little one's face or did you, like so many others, pass it by with a hurried glance you hoped no one would notice? If you had only stopped, taken the youngster into the shop or store and spent a few nickles of your ready cash, you would have known that feeling of wonderful warmth that is caused only by a true Christian act. Do you think this could happen in any church?

I believe a child should be taught the work of a church as he is taught in school, but when he reaches the age that he has to go to church in order to make the right contacts for his own advancement, then I believe the church in the true sense of the word has lost its meaning. The politician goes to church because he has to put up a good front for the people he expects to get votes from. The business man goes because he caters to the sort of people who can afford to trade with him and he is most likely to find them in the church. The average son of toil does not go because he has so little of the better things of life and so little leisure that when he does find time for a little recreation and has a few nickles to spend, he is apt to go a bit too far with it, and put on a real celebration. One that no group of church people would approve of. He does not like to be censured for that sort of thing. Therefore he does not associate with the sort of people who might censure him. He wants his children to be better and will sacrifice to the limit to have them so, but feels that if he sends them to Sunday school he is doing his part towards making them so.

I do not think that one must go to church to be a Christian. That no man can live unto himself alone is true but he is never alone when he carries his God with him in his heart. Preachers are no longer called to preach as they were in the past. No indeed. They study just as hard as any lawyer, engineer, or what have you. Theirs is now a profession just as much so as the lawyer and engineer. Preachers, therefore, are in the same class as any other professional man, but would you go in, pay him a fee, and ask him for advice as to whether or not you were a Christian life? No you wouldn't. Yet that is exactly what happens in most of the churches today. Not in the same manner of course, but it happens nevertheless. How many preachers do you know that would meet with their church without the necessary stipend? Not many, I wager. Where is the church I have heard about where all the members went for the sole purpose of worshiping? Where is the pastor that visited the sick regardless of class or denomination? Where is the church that never brought politics into the pulpit at

WHY I DO NOT GO TO CHURCH My main reason for not going to church is that I do not wish to be a hypocrite and if I went that is what I would surely be. I like to be censured by no one by my God, as I see him, and myself. That there is a God I surely believe but that you must go to church to have him hear your prayer I do not believe. There is an old range song that goes something like this: "While there's many a long horn coaster, I mean just so to speak, who hasn't had advantage of the range on gospel creek. Will get to crop the grasses that in the masters pastures grow and the C. will show up 'neath the devil's checkboard." Did you ever watch some ragged urchin looking wistfully in some window? Perhaps it was cold and the child looked hungry or perhaps the

"Other Side" of Go to Church Issue Argued in Letter Editor's Note: Taking the negative side of going to church, a contributor today cites his reasons. November 12 is the last day in which to enter the contest on "Why I Do Not Go to Church" or "Why I Don't Go to Church," for which prizes of \$5.00 each have been appropriated by a Midland committee. Winners will be announced Sunday, November 13. Send your letter today, on either side of the question, to Box 4, Reporter-Telegram.
