

# Many Important Features Are Added to the Midland Rodeo to Tie in Interest of Other Localities and Improve Show

Important added features to the Midland Rodeo, September 2-4, were announced late yesterday after a lengthy meeting of the rodeo committee. As a result, spectators will get much more entertainment, citizens of other communities will have more personal interest in the rodeo and winning contestants will have greater remuneration for their efforts.

One notable addition was that of a second street parade, the first to be at one o'clock on Saturday afternoon, opening day, and the other to be at the same hour Monday, Labor Day, which is the closing date of the rodeo. In each procession, there will be horses and riders sufficient to stretch out for a length of two miles, it was expected. Geo. W. Glass, H. G. Bedford and M. F. King will be in charge of the parades.

Regarded as one of the most spectacular events of the rodeo, and staged here for the first time since 1931 when rodeos were held at the old fair grounds, the cowpony relay race has been expanded to the extent that purses and prizes will total \$525 for the three days and teams will be entered from probably a dozen towns. A minimum of ten riders will run each day, it was expected, as several local teams are

being made ready at present for the two and a quarter mile event. Each rider has three horses, making a three-quarter mile heat on each and doing his saddling and unsaddling in front of the grandstand.

In addition to the regular cowgirl sponsors' contest, in which approximately three dozen equestriennes from various towns will compete for six prizes, there will be added a final event for cowgirls in which the six winners, also the four first place winners from the 1935, 1936, 1937 and 1938 shows will compete in a "calf penning" contest, the prize being a \$300 Hobbs two-horse coach trailer with full equipment. This has no effect on

the regular sponsors' contest but is an added final event to be staged at the night show on the closing day, September 4.

The added cowgirl attraction was adopted after the plan had been outlined to the committee by John M. Hendrix, in charge of publicity for the rodeo. The ten eligible contestants will be pitted in a contest to pen a calf rather than to ride their horses around the stakes, thereby doing a "cowgirl" stunt rather than one of strictly riding ability. Full details of the added attraction are being sent to sponsors already entered and to prospective sponsors expected to be enrolled this week.

The cowpony relay race will have as its prizes: Saturday, first prize a \$100 suit of clothes given by Stonestreet and Davis, Fort Worth; second \$50 cash and third \$25 cash. Sunday, first prize a \$100 saddle given by the Sweetwater Cotton Oil Co., second \$50 cash and third \$25 cash. Monday, first a \$100 saddle given by the Dawson Cotton Oil Co., Lamesa, second \$50 cash and third \$25 cash.

Each relay rider may have only five horses, to use three from the five each day. No horse from one team may be used to fill another team, and all horses ever have been used in regular or matched races will be barred. A \$10 entrance fee allows the rider to run all three days. Teams may be entered from Odessa, Big Spring, Pecos, Lamesa, Big Lake, Colorado City, Lovington, Andrews, San Angelo and other towns as well as from several ranches near Midland. The teams from other towns will have the backing of their chambers of commerce, newspapers and citizens and may be made up from the best horses off of several ranches. San Angelo, Pecos, Big Spring and Odessa had signified today their intentions of entering teams, with other making preparations.

Horse show events will occupy the

time of the relay races at each of the three night shows, with W. Chappell Davis arranging for some of the best five-gaited and three-gaited horses in the southwest to be here. Purses will total \$250. An open five-gaited class will be on the program Saturday night, an open three-gaited class Sunday night and a five-gaited stake on Monday night.

Besides the various contest events, prizes will be given to the most typical cowboy and to the most typical "old time" cowboy, or over 55 years of age. Secret judging will be conducted and the winner in each case will be announced on the last day of the show. The most typical cowboy will receive a pair of boots and spurs from the Brown Saddlery Co. of Amarillo and the most typical "old time" cowboy a handsome Stetson hat from Addison Wadley Company, Midland.

The committee announced that general admission for adults will be 75 cents, as in the past, and for children 25 cents. One section of the grandstand will have choice reserved seats at 50 cents each for each of the six shows. A few boxes are yet available, as a row of new ones has been installed this week. Purchase may be made from J. Homer Epley, second floor of the Thomas Building, or telephone No. 110, as long as boxes are unsold.

# European Officials Study Peace Pact

## SIGNIFICANCE OF TREATY PROBED

By Associated Press.

Announcement of the non-aggression pact between Germany and Russia sent European statesmen hurrying to conference rooms today to study its real significance.

In Berlin the press said, "Our troubles are over in the east." Foreign Minister Von Ribbentrop left Salzburg by airplane for Moscow to conclude the agreement.

Unofficial Russian sources said the pact would not exclude negotiations of mutual assistance with Britain and France. French foreign officials announced the Anglo-Franco-Russian military conversations in Moscow would be continued. France, however, stood in state alert with reservists called to the colors. Both the British and French cabinets were to meet this afternoon.

Coast and border troops on leave from Netherlands were called back to their units.

From Rome came word the soviet-nazi pact will contain a provision permitting its denunciation in the event either country commits an act of aggression against a third country.

### Poland Maintains Reserved Attitude Regarding New Pact

WARSAW, Aug. 22. (AP)—Poland, surprised by the Berlin announcement of negotiations for a non-aggression pact with Russia, maintained a reserved attitude today, but it was responsibly stated Germany's latest move "had brought absolutely no change in Polish policy."

Official comment was withheld until details of the pact become available.

Regarding Danzig, however, Polish circles emphasized Poland's present policy has "never involved any question of seeking or expecting" assistance of Russia.

### Mrs. A. C. Francis Injured When Car Overturns Monday

Mrs. A. C. Francis, wife of Sheriff A. C. Francis, received a fractured collar bone and painful bruises yesterday when a car she was driving overturned about ten miles south of town.

According to Mr. Francis, a tire on Mrs. Francis' car blew out and she lost control, the car overturning and coming to a stop at the side of the road. She was rushed to a local hospital for treatment.

Her condition today was reported to be improved although she was suffering considerably from bruises and shock.

### Armstrong and Ambers Fight to Be on Air

NEW YORK, Aug. 22 (AP)—Champion Henry Armstrong registered in at 135 pounds and Lou Ambers at 133 1/2 at the official weighing in today for their 15-round lightweight title bout at Yankee stadium tonight.

The fight, starting at eight o'clock CTS, will be broadcast.

### Strike on English Railroads Ordered

LONDON, Aug. 22. (AP)—A strike on England's four main railroads effective Saturday was decided upon today by the executive committee of associated society of locomotive engineers and firemen. The railroad men are seeking salary increases.

### Congratulations to:

Mr. and Mrs. T. A. Stonzaltz on the birth of a daughter in a Midland hospital Monday night. The baby weighed 7 pounds 14 ounces. She has been named Janyce.

### Spilt Milk in New York Farm Strike

Milk farmers in New York and Pennsylvania, striking for higher prices, dumped hundreds of cans of milk on the ground, leaving New York City short 1,000,000 quarts, a quarter of its daily supply. Above, pickets on the job at Buskirk, N. Y.

### Midland Rodeo Boosters Leave Today for 700-Mile Road Trip

PECOS, Aug. 22. (Special)—The Midland Rodeo good-will group reached here shortly before noon today after a half dozen stops during the morning, where all persons awake were informed of the big Midland show that will be held September 2-3-4.

Members of the party noisily made themselves heard in all the towns enroute. Members danced, sang and pulled other stunts that would attract attention of all within hearing distance.

The group was to leave here shortly after noon, winding up in San Angelo this afternoon at six o'clock.

Midland Rodeo Boosters are on the loose and all West Texas should know all about the forthcoming rodeo when members of the Junior Chamber of Commerce sponsored good-will party conclude their two-day advertising trip tomorrow evening, approximately 700 miles to be made and 39 towns to be visited during the excursion.

With sirens screaming and members of the party yelling in typical West Texas fashion, the delegation departed for the west at 7:10 this morning, the party being composed of 32 good-will ambassadors intent on publicizing Midland's celebration as the outstanding rodeo of the Southwest at every opportunity. A patrol car and a Dunagan Sales Co. sound truck accompanied the bus. Members of the party were loaded down with rodeo literature and placards. A large delegation was on hand at Hotel Schaubauer early this morning to see the trippers off,

### Shushan, Two Others Face New Charges

Bribery Complaints Filed Against Demo Leader in Orleans

NEW ORLEANS, Aug. 22. (AP)—Bribery was charged today in state court against Abe Shushan, Robert Newman and Norvin Harris, indicted on charges of a federal grand jury on mail fraud charges.

They were to appear today to answer to contempt of court rule for failure to furnish records in the \$496,000 bond refunding deal of the Orleans levee board.

District Attorney Charles Byrne announced charges would be filed today to supersede contempt proceedings.

Mondays' indictment alleged: The investment firm of Newman, Harris & Co., with the approval of Shushan and assistance of Waguespack, then a member of the board, obtained a contract to refinance \$5,485,000 of levee board bonds for a fee of 25 per cent of the savings. These savings were represented as approximately \$2,000,000 but actually amounted to only \$729,000.

After payment of about \$12,000 to Charles Pitere, now deceased, as a bribe for acting as a spy on competitors, the five men divided \$398,220.01 as follows: Shushan, \$132,740; Newman and Harris, \$99,550 each; Waguespack \$46,450.01 and Miller \$19,931.

Another lesser Long lieutenant was drawn into the federal drive against corruption Monday when State Senator Clarence A. Lorio of Baton Rouge was indicted on a mail fraud charge in another case. Already under state indictment at Baton Rouge, Lorio was accused of using his influence at Louisiana State University to gain approval of electrical contracts on raised bids, splitting half of a profit of \$12,600 obtained through this work.

Annenberg, Aides Charged by Grand Jury in Chicago

CHICAGO, Aug. 22 (AP)—Moe L. Annenberg, millionaire publisher, and six others were charged by a federal grand jury today with conspiracy to defraud the government of \$137,727.36 in taxes, penalties and interest on income of the Consensus Publishing company, racing news service.

The indictments were returned by the same grand jury which August 11 accused Annenberg of failing to pay \$5,648,384 in income tax, interest and penalties.

Dorothy Dublin to Spend Day Out of Her "Iron Lung"

EL PASO, Aug. 22 (AP)—After five weeks in an "iron lung," pretty 19-year-old Dorothy Dublin of Big Spring, Texas, today was to enjoy a thrill.

"I'm going to be taken out of the lung and put on a bed!" she announced excitedly Monday.

Miss Dublin was stricken with infantile paralysis five weeks ago and has been in a respirator since. She was brought to Southwestern General Hospital in a railroad baggage car from her home about two weeks ago.

"She is breathing better every day," said Dr. Frank A. Goodwin, hospital specialist, in smiling confirmation.

"But she can't take off her shoes even if she does get into a bed. She is wearing tennis shoes and they help the braces to keep her young bones straight."

A quick cure seemed in prospect for the girl, and Sunday she spent 11 hours outside the respirator without ill effect.

### Eclipse of Cavalry Horse?

A dramatic forecast of the eclipse of the horse in war is suggested in these pictures, taken at the giant army maneuvers near Plattsburg, N. Y. Above, tanks of the future clank roughshod over a field to plunge into the woods. Below, troopers of the 101st Cavalry return from a sham battle.

### Price Issue to Be Important Factor in Proration Hearing

AUSTIN, Aug. 22 (AP)—Half-way through a 15-day statewide oil production shutdown without mishap, the Texas Railroad Commission Monday indicated it would shatter precedent by thrusting the issue of price into an important proration hearing next Monday.

Ernest O. Thompson, commission member and chairman of the nationwide Interstate Oil Compact Commission, asserted he would ask witnesses among more than half a hundred oil company executives invited, what factors the companies considered in determining what they would pay for crude oil.

The shutdown, extending through Aug. 29, was ordered as the commission's answer to a threatened 20 per cent crude price slash.

At a current hearing, attorneys opposing the request of the Humble Oil and Refining Company, largest East Texas operator, for a larger share of the allowable failed to obtain a direct admission from a company engineer, J. B. Davidson, that the cost per well of operating one well by an individual would be more than if the individual operated a number of wells.

Heretofore the commission, which regulates Texas' huge oil industry, considered only methods of conservation of the natural resource and not price at its proration hearings conducted to obtain information on which production orders would be determined.

Thompson declared he would ask company executives how they determined the sale price of gasoline and other petroleum products, whether they would purchase crude oil for storage and under what conditions, and whether they favored conservation of oil and gas in all oil producing states.

Questions the commissioner said he would propound included:

"In the interest of conservation, does your company favor there being an outlet provided for the full production of all stripper wells before any oil is purchased from flush fields and will your company cooperate in accomplishing such an objective?"

"Does your company favor the allocating of the balance of each state's allowable equitably among the prorated fields of each state and will your company co-operate in seeing that the oil is purchased at allocated and thus eliminate selective?" (See PRICE ISSUE, page 6)

### Cedar Lake Well Pulls Tubing, Now Preparing to Core Ahead at 4,780

BY FRANK GARDNER.

Tubing had been pulled and coring ahead below 4,780 feet in line was scheduled to be resumed today in Stanolind Oil & Gas Company No. 1 Jeanette B. Rayner, prospective discovery well on the east edge of Cedar Lake in northeastern Gaines.

On test through tubing at 4,780, the well had flowed an estimated one-half to one barrel of oil hourly with the aid of blown-in bradenhead gas from the Yates sand zone. The well is said to have topped pay at 4,650 feet and had cored hard from 4,712-20 and from 4,775-80.

It is located 660 feet from the south and west lines of section 3, block C-30, public school land, on geophysical high.

In northwestern Cochran, Humble Oil & Refining Company No. 1 J. Westheimer et al is drilling below 3,125 feet in the anhydrite section.

### 1939 Harvests Over Entire Country Better Than Average

WASHINGTON, Aug. 22 (AP)—Uncle Sam, the world's greatest farmer, appeared certain of a better than average harvest from his 1939 operations.

Men who earn a living worrying about such things reported that "in the country as a whole, food for man and feed for livestock are promised in abundance."

Although production of wheat, cotton, corn and other major crops will fall below the bumper levels of 1937 and 1938, most of the agricultural experts here contend this is a good thing.

Uncle Sam has had to resort to cash bonuses to promote the sale of some of these commodities in other parts of the world; and Secretary of Agriculture Wallace argues that huge surpluses are as hard on the farmer and the country as drought and under-production.

From the consumer viewpoint, conditions appear favorable. Large supplies of wheat and other bread grains, fruits, meats and dairy products are on hand or in prospect, and prices are in some instances the lowest in five years.

From the farmer's standpoint, conditions also might cause thanks-

BY ALVIN STEINKOFF

BERLIN, Aug. 22 (AP)—Germany upset the whole structure of the tense middle European situation by announcing shortly before midnight last night she will conclude a non-aggression pact with Soviet Russia.

If there is to be a conflict as a result of the Polish-German dispute over Danzig and Pomerze (the Polish Corridor) it now appeared certain vast Russia will be neutral.

The position of Poland, which had been counting on the effectiveness of what Germany calls the "democratic encirclement policy," appeared to have been weakened greatly.

German soldiers were massing on the Polish frontier, and now it seemed certain that if they are called upon to march eastward they will not have to worry about the possibility of encountering Russian troops somewhere in Middle Poland.

Germany's announcement of its diplomatic "putsch" startled all Europe.

It apparently meant that the months-long efforts of Britain and France to induce Russia to enter a front to back up Poland, Rumania and other smaller European countries against aggression had failed.

For, according to the German announcement Russia had agreed not to fight Germany.

The announcement of what diplomats admitted as a master stroke by Adolf Hitler came even while British and French military officers were in Moscow going over plans of strategy with high Soviet officials.

It seemed likely these discussions would lead to no constructive results.

The brief official announcement of the decision of Russia and Germany to conclude an agreement not to go to war stated Foreign Minister Joachim von Ribbentrop will arrive in Moscow Wednesday to conclude negotiations.

Once signatures are affixed to the Russian non-aggression pact Germany will have one less reason to fear involvement with Poland, it was stated.

What effect the new agreement will have on Germany's promise to Japan under the terms of the anti-Comintern pact—to which Italy also is a signatory—could not be known immediately.

But German sources here stated "You may be sure that angle has been taken care of."

The announcement of the non-aggression pact followed by one day conclusion of a vastly important trade agreement which gives Germany access to Russia's oil, timber and wheat.

The agreement to conclude the pact with Russia caused a tremendous sensation in all European capitals.

The German official news agency (DNE) kept its wire open long (See OFFICIALS, page 6)

music and yells arousing the citizenry a little earlier than usual. Members of the group started gathering before six o'clock and all were on deck at the scheduled hour of departure, taking of pictures holding up the group for ten minutes.

The trippers were scheduled to lunch today at Pecos, going on to San Angelo for a night stop. Tomorrow they will have lunch at Colorado City.

Bill Holmes, junior chamber of commerce president; Carl Ulfers, vice-president, and Jack Wilkinson, chairman of the organization's rodeo committee, are in charge of the tour. Members of the party will contact newspapers, radio stations, firms and individuals in each town visited.

Today, the delegation will visit Odessa, Monahans, Kermit, Wink, Poyote, Barstow, Pecos, Fort Stockton, McCamey, Rankin, Big Lake, Barnhart, Mertzon and San Angelo.

Tomorrow they will invade Miles, Rowena, Ballinger, Winters, Abilene, Merkel, Sweetwater, Roscoe, Lorraine, Colorado City, Snyder, Gall, Lamesa, Big Spring and Stanton. Arriving back in Midland is scheduled for six o'clock Wednesday afternoon.

Represented on the trip are the following persons and firms: Jack Wilkinson; W. M. Holmes, Humble Oil and Refg. Co.; Carl Ulfers, Southwestern Bell Telephone Co.; Thad Steele, Southwestern Portland Cement Co.; H. O. Flannagan, Barrow Furniture Co.; Barron Wadley, Wadleys; B. E. Gibbs, Midland (See RODEO BOOSTERS, page 6)

#### Doctors' "Strike"

Way "down under" in New Zealand they are having trouble. The socialist government of that country is trying to pit in effect a plan for free medical care for all which is at present stymied because the doctors refuse to cooperate. Though the plan would have meant a \$7500 a year income for general practitioners, only 22 out of about 1000 doctors signed up.

The doctors deny that they are "on strike," insisting that they are giving medical aid as always. But the government is furious, and threatens to import doctors wholesale to take the place in the socialized scheme which the native doctors refused to assume. Thus far, it is a dead heat between the government and the doctors. Thus another laboratory works out a social experiment which this and other countries can study for our own benefit if we will.

The world is full of these laboratory experiments, in Russia, Germany, Italy, Spain, Britain, Australia. Careful study of the results ought to save an observant country much pain when the time comes to make its own experiments.

#### The Foe Within

The ultimate reliance of the people must be on themselves. This must be so in any popular government, and we all know it if we think about it at all. We seldom do.

That is our greatest danger. It was never more clearly put than by Earl Griffith, Ohio Secretary of State, in addressing a meeting of the National Association of Secretaries of State. Griffith, pointing out that Ohio is the only state which makes its chief election official the Secretary of State, thus centralizing control of elections, appealed for better election laws. "The most vital element in the successful operation of popular government is the confidence of the public in the integrity and impartiality of elections," he said.

And then he added something that might well be pasted in the haband of every citizen: "Our institutions are threatened not by the intrigue and collusion of the corrupt and vicious, but by the inertia and passivity of the intelligent."

#### • BRUCE CATTON'S AMERICAN ROUNDUP

This is another of Bruce Catton's "on tour" series.

BY BRUCE CATTON  
Reporter-Telegram  
Washington Correspondent

BOSTON—Native Yankee caution never deserts the New Englander. Conditions that would make a mid-westerner glow expansively and predict a year of pretty good business will lead the New Englander to admit only that right now things aren't too bad. Then he'll add that he isn't at all sure about next month.

So you can't say business men here are optimistic. They are freely admitting, however, that right now things aren't too bad—and some of them forget to add the gag line about next month.

Which means more than a mere rise from the low of the current depression; for New England had a private depression of its own long before the big 1929 crash took place, and the fact that that depression is pretty well licked now is good news any way you look at it.

#### TEXTILE PLANTS SHUT DOWN

New England industrialized itself ahead of the rest of the country, and as the rest of the country caught up with it, a lot of New England industries migrated away. This has been most notably true of textiles, but to an extent it has been true in other lines also. All

through the early twenties New England's business was going steadily downhill.

In the middle twenties New England started a counter attack. The governors of her six states got together and caused the formation of the New England Council, an advisory and co-ordinating body which was to be, and is, supported by subscriptions sold to business men. Its first president was John S. Lawrence, a former textile manufacturer, and under his guidance the organization went to work.

It tried, first, to get all the data it could on what the problem really was, and next to figure out some solution. The symptoms of the problems were all too visible—empty factories in cities and towns all over the area. A part of the solution seemed to be to persuade industrialists that these factories were still perfectly usable and that New England's supply of skilled labor and her transportation facilities were valuable assets.

Somewhere between 1925 and 1930 the long process of migration was stopped, and since then New England has slowly been winning back the lost ground.

#### BUILD NEW FACTORIES

During the last three years, for instance, more than 14,000,000 square feet of the idle factory space has been returned to active use. In addition, \$38,000,000 worth of new fac-

# The Town Quack

As Paul Jones the Barber said, it is a welcome sight to see these vacationers returning home. They have been missed in more ways than one.

We have to keep our minds on this rodeo. With thirty-odd young men out advertising the approaching event over a big territory today and tomorrow, the rest of us still have a responsibility in making known to our friends at home and in other places that this is not just a rodeo. It is one of the nation's big ones. In any other place where western entertainment of this calibre is provided, a good seat would cost you not less than \$2.00 or \$2.50. Here you can get it for much less, and you will see a show which will compare favorably with any of them.

Something new was started yesterday when the rodeo committee decided to have two parades, one on the opening day and the other on Labor Day, final date of the rodeo. It was pointed out by Roy Parks, who advanced the idea, that practically a different crowd of out of town people will be here the

#### Mine Reported Rich in Cobalt Found in Idaho

SPOKANE, Wash. (UP).—What may be the richest cobalt mine yet discovered in the United States reportedly is undergoing development in the central part of Idaho, 35 miles southwest of the town of Salmon.

Howard Sims, Idaho state senator from Lemhi county, where the mine is situated, said when he passed through Spokane that a sample from the mine assayed 2 per cent cobalt, \$28 in gold to the ton and 1.3 to 11 per cent copper, plus a quantity of nickel.

"The mine is regarded as one of the three great cobalt sources in America and may be the greatest," Sims said. "Refined cobalt is worth more than the gold it contains. It is worth \$2 a pound when it is pure."

"Shipments to a smelter near the scene of operations are not practicable because the smelter cannot save the cobalt in extracting the gold and copper, not being equipped to do so. But it is likely the cobalt can be sent to a refinery at either Buffalo or Cleveland."

The Uncle Sam Mining and Milling company is developing the property, which is in a rugged section of Idaho.

tory construction has taken place. A large amount of idle space remains, to be sure, and in some cases empty factories which might still be used are being torn down simply to save taxes and upkeep; but the trend has been reversed, and although today New England shares in the national depression her own private depression is being conquered.

Charles F. Weed, vice president of Boston's First National Bank, and present head of the New England Council, says that the present business outlook would be quite satisfactory if two uncertainties could be removed—uncertainty about the European situation, and uncertainty about what the gentleman in the White House is going to do.

It is the latter uncertainty which he considers the more damaging; and he believes that business's objection to the new deal is more a matter of the administration's general attitude than of any specific New Deal act. He does not, for instance, share the rather common New England feeling that the reciprocal trade treaties are damaging to this section.

"They may hurt some particular lines and help others," he remarks. "If they result in greater prosperity for the country as a whole, New England will share in it and be better off."

### Texas Today

BY OLEN W. CLEMENTS  
Associated Press Staff

It is against the law in Houston to go swimming unclothed in Buffalo Bayou in the daytime. Nothing is said about nude night bathing.

Likewise it is against the law, in that city, to take a nap on a park bench, ride a tricycle not equipped with a bell, horn, whistle or going in good working order, to make 500-600 eyes at women, or for a theater to install a stove that has not been approved by the chairman of the city's fire committee.

What is more, anybody who kindles a fire in a public street or park will be considered a tramp and for being a tramp in Texas' largest city one is subject to a fine of not less than \$10 nor more than \$100.

The cops, too, can put the cuffs on you if you load up your wagon with iron or other materials that clank and move noisily down the street or if you tote a pistol in a public park without the written

permission of the Mayor or city council.

These laws and others got in some Houston lawyers' hair the other day and they asked the city to eliminate the screwball ordinances put on the municipal books during the last 103 years.

The laws, dear reader, will be rubbed out soon.

Now that the movement has been started to rub out the ancient laws and write some new ones, the boys around the court house, who like to hark back to the days of hoop-skirts think that one of the customs of that era should be brought back—the almost forgotten art of whittling, chewing and thinking.

So they got together and formed the Sam Houston Whittlers' Club. Every cane bottom politician in the state knows that more problems of state can be settled around a cracker barrel with a barlow knife and a piece of kindling wood than any other way.

The Whittlers' Club members, like their rustic brethren, will tackle any problem and give a final decision on anything. They will play the world series far in advance of the series date, they will be ahead of Hitler at the next Munich confer-

ence and it is already in the bag with them who will be elected president next year.

The affairs of the Whittlers' Club have been moving along nicely. Only two novices have cut their fingers and nobody has swallowed his tobacco to date.

Probably the leavening influence on the club is the likeable Rev. J. W. Airey, the Episcopal minister who once served hot dogs at his Sunday service. The Reverend Jim can whittle with the best of them but all of the whittlers admit they need a little practice before they become perfect.

It takes time to make homespun jeans out of a full dress suit.

This and that department: There are some furrowed brows these days among Texas oil men now that the Louisiana muddle is being aired. Oldtimers along the Texas coast are looking for a good storm this year, the fish are biting too good. Oldtimers say when that happens something usually comes along to break up their playhouse. Houstonians claim their town will be the largest city in the South when Uncle Sam counts noses next year. A Houston doctor, who

will not permit use of his name, claims ragweed is only one of the many causes of hay fever. He says foods cause about 91 per cent of the hay fever cases. Corpus Christi and Galveston are the booming vacation spots on the Texas coast.

Fifty million acres in the U. S. have been destroyed by erosion to date. That is about 5 times the cultivated area of England. Fifty million more have been seriously damaged; 100 million have been impaired by erosion; and 100 million more have begun to erode.

The Humble Company announces definite improvements in  
**997 MOTOR OIL**  
Balanced for PERFORMANCE

#### HUMBLE 997 MOTOR OIL

A 100% paraffin oil, balanced to give you

- A clean motor
- Low oil consumption
- Safe service
- Great stability at high and low temperatures
- Minimum engine wear
- Freedom from sticky gum and varnish-like formations on pistons and piston rings
- Easy starting in winter
- Instant lubrication
- A perfect seal between piston rings and cylinder walls
- Low carbon
- Easy pumpability and circulation

**NO INCREASE IN PRICE**

HUMBLE 997 MOTOR OIL has been continuously improved from year to year to keep pace with improvements in the design of modern automobile engines. These improvements have kept 997 second to none.

Now, added manufacturing facilities enable us to announce a definite step forward in this process of continuous improvement.

Now—improved 997 is balanced for perfect performance in your car. It gives you all the qualities needed by modern automobile engines; it solves all the lubrication problems of today's powerful, high compression motors. And at no increase in price.

Try *Balanced* Humble 997 Motor Oil in your car. Drain and refill at the nearest Humble sign.

## Baptist WMU Has Missionary Program and Social Hour

Meeting in the basement of the church Monday afternoon at four o'clock the Baptist women's missionary society presented a missionary program followed by a social hour. Martha Holloway circle was charge.

Mrs. H. D. Bruce brought the vocal on "The Ever-Enlarging Kingdom." Prayer following the devotionals was brought by Mrs. S. T. Cole.

Mrs. H. S. Collings was leader of program and discussed the first of "The Great Commission and Orient."

Mrs. Austin Flint presented a re-fold talk on "China Today," "Alestine Today," and "Japan Today."

Making Disciples in China, Palestine, and Japan was the subject of Mrs. J. Webb Miller's discussion. Mrs. J. R. Davis presented the concluding talk on "Calls from the East."

A touch of unusual interest was added to the program by the fact that Mrs. Flint, Mrs. Miller, and Mrs. Davis are all new members of the WMU.

A social hour, during which refreshments were served by the Martha Holloway circle, followed the program.

Present were: Mmes. Collings, S. Alexander, Bruce, T. Paul Barber, Flint, Davis, J. M. White, Miller, R. O. Collins, Ernest Neill, D. Brunson, J. B. Neill, S. T. Cole, Boyd East, Geo. Phillips, John S. F. H. Lanham, B. C. Girdley, A. Cole, J. C. Hudman.

## Stimstress Doubles on Job.

HUMPTUPLIPS, Wash. (UP)—When Grayson Price, a Chico, Cal., money sent some papers to be read addressed to "Constable, Humptulips, Wash.," he did not know that Humptulips, Wash., did not have a constable. However, stimstress Mrs. N. F. Loomis read the papers and sent Price a bill of \$2.50 for service.

## NEW REMEDY FOR UGLY HUSBANDS

When your husband (or wife) gets bossy, ugly and grouchy when he gets fault with the coffee, the eggs, a bacon, and the cook, you may all suspect that he has a touch of bossiness or so-called "Topidiver," so prevalent in hot weather. He may need to set him straight a little calomel, or better still, Calotabs, the improved calomel compound tablets that make calomel-taking a pleasure.

Calotabs give you the combined effects of calomel and salts, helping nature to expel the sour, stagnant bile and washing it out of the system. One or two Calotabs at bedtime with glass of water—that's all. Next morning your system feels clean and refreshed, your head is clear, your spirit bright, and you are feeling fine with a hearty appetite for breakfast. Eat what you wish and go about your work or pleasure.

Genuine Calotabs are sold only in sealer-board (black and white) packages bearing the trade mark "Calotabs," and imitations. Family package only fifty-five cents; trial package ten cents, your dealer's. (Adv.)

**PEDESTRIANS AND MOTOR TRAFFIC don't mix—let's have SIDEWALKS FOR SAFETY**

When bad weather drives children and grown-ups off muddy footpaths and into the street, danger results. Pedestrians have no place in the path of fast-flowing motor traffic—but they'll go there unless your community has good sidewalks.

Here's one safety problem that is up to YOU. Why not get together with your neighbors and your officials and talk the matter over. Concrete walks don't cost a great deal. And besides saving lives they'll give you years of convenience and comfort, and permanently lift up your neighborhood.

## Junior Chic

**A FAVORITE** with Gloria Jean, Universal's new little singer, is this suspender frock, with a skirt bow that ties in the front. The blue and white blouse, edged in navy, is gingham, the skirt navy silk-broadcloth.

## The Right Foundation

A really satisfactory foundation garment is rarely purchased hurriedly. Only slight adjustments may be necessary to make it fit perfectly, but it is always safer to have an experienced corsetier make them. Chances are, if you have figure faults, the right foundation will either correct them entirely or soften them to such an extent that they are barely noticeable. There is a right and a wrong way to put on a foundation garment. Have your corsetier instruct you about that, too. Incorrectly donned, even a good foundation may wrinkle and strain.

The busy housewife finds a dozen uses a day for clean waxed paper. Having it handy and within reach saves time and steps. A convenient new container that fastens to the wall is just the gadget for dispensing it quickly with smooth, even edges.

## Midland 4-H Girls Make Creditable Record at Show

Midland county 4-H club girls who exhibited specimens of their 1939 club work in the district show held in Lamesa in early August, rated creditably in comparison with club girls of other counties in the district, according to the awards of placings as just announced by chairmen of committees.

A total of thirteen ribbons, six of them first place, three second and four third, were awarded nine different Midland county girls. Twenty-seven girls attended the two-day show, and 28 girls exhibited.

Awards received in Midland county were: Mary Nell King, Cotton Flat club, first on pajamas and second on garden apron; Sylvia King, Cotton Flat club, first on garden apron and second on hand towel; Imogene Johnson, Valley View club, third on the rack; Bonnell Brunson, Valley View club, third on hose bag; Lynora Livingston, Prairie Lee Senior club, first on stuffed toy; Virginia Lands, Prairie Lee Senior club, first on smock; Emma Marie Meissner, Prairie Lee Senior club, second on smock; Mary Livingston, Prairie Lee Senior club, third on best groomed girl and second on canned fruit; Rosa Lee Hart, Prairie Lee Junior club, first on canned fruit; and Doris Preston, Cotton Flat club, first on chair cushion.

In addition to entering exhibits in the show, Midland county girls contributed in numerous ways to the program during the two days. Prairie Lee Choral Club directed by their co-sponsor, Mrs. E. J. Sells, sang a number of selections. Lynora Livingston and Avalene Crudup leading the singing. Avalene and Lavada Crudup played string instruments and sang cowboy songs. Mrs. E. J. Sells contributed to the meeting with numerous selections at the piano, both for games and for music appreciation. Doris Preston gave a reading. Practically all the girls attending from Midland participated on committees in judging.

## Coming Events

**WEDNESDAY**  
Miriam club will sponsor a pie supper at the I. O. O. F. hall Wednesday evening at 8:30 o'clock. The public is invited.

**FRIDAY**  
Miriam club will meet with Mrs. Roxane Fuller Friday evening at the usual hour.

**FRIDAY**  
Friday Needle club will meet with Mrs. D. Davis Friday afternoon at the usual hour.

Belmont Bible class will meet with Mrs. A. W. Lester at the Magnolia Tank Farm at 4 o'clock Friday afternoon.

Miriam club will sponsor a box supper at the I. O. O. F. hall Wednesday evening at 8:30 o'clock. The public is invited.

## Thirteen Members Present for Meeting of Rebekahs Monday

Thirteen members and one visitor attended the meeting of the Rebekahs at the lodge hall Monday evening at 8 o'clock.

Mrs. Grace Dulaney was the visitor.

Further plans for the box supper to be held at the I. O. O. F. hall Wednesday evening at 8:30 o'clock were discussed. Prizes will be given and the public is invited to attend.

Mrs. Hazel Mead presided at the meeting.

Members attending were: Mmes. Mead, Ludie Lykins, Roxane Fuller, Lora Thomas, Emma Aycock, Bertie Mitchell, Dora Friday, Leola Johnson, Martis Miller, Annie Collier, Lily Koon, and two brother members, W. E. Johnson and D. C. Lykins.

## Rita Johnson Victim Of Spanking in Film

Pretty Rita Johnson received the first spanking administered to her since she was eight years old, as a result of becoming a Hollywood actress. Walter Pidgeon did the spanking and, Rita attests, did a good job of it.

This scene is one of the comedy highlights in "Stronger Than Desire," society melodrama with Virginia Bruce, Lee Bowman, Ann Dvorak, Ilka Chase, Richard Lane and a large cast. It comes Friday to the Yucca Theatre.

Miss Johnson plays a spoiled heiress who continually gets into troubles or romances. Pidgeon, as the lawyer who gets her out of her latest scrape, remarks that what she needs is a good spanking and proceeds to administer it to her.

"Slapping a heroine made Clark Gable a star," remarks Pidgeon. "I wonder what spanking an actress will do for me?"

"Stronger Than Desire" tells the story of the wife of a lawyer who, suspecting her husband of a flirtation, tries one herself, to become entangled in blackmail and a murder mystery. Miss Bruce plays the wife, Pidgeon the lawyer, and Ann Dvorak the wife of the murdered blackmailer who faces a murder trial. Miss Chase plays the family friend.

## Modern Radios

The modern radio is not obvious—rather it is a gracefully designed piece of furniture which serves some other purpose as well. You may select the wood and the period which harmonize best with the other furniture in the room. You will find lovely models camouflaged as pedestal, drum or end tables, dainty consoles or graceful lowboys. Even if you are not yet ready to discard your old radio for one of the newer types, it is quite simple and inexpensive to have it blocked in a built-in wall cabinet or bookcase and painted to match the woodwork.

## Sunday's Leftover Roast

Along about Wednesday, if the family is pretty small, the end of Sunday's roast looks monotonous indeed. Grind it up, combine with any leftover bits of vegetables waiting to be used, some breadcrumbs, minced onion and green pepper, a little water to moisten, seasonings, and stuff large ripe tomatoes, from which the centers have been scrapped. Top with grated cheese and bake.

## Formal Opening of Store Slated Aug. 30

Midland's Shop for Men will have its formal opening Wednesday, August 30. It was stated in Sunday's issue of the Reporter-Telegram that the special occasion would be held Wednesday, without giving the date of the month. Special awards will be made during the evening of the formal opening.

George Wallace and Bill Rafferty are operating the new shop, which is open for business this week.

Have You the Goofy Desire to Flirt With the Snooty Girl Next Door? What is Your Strongest Desire? For the Answer See "Stronger Than Desire" At the YUCCA FRI.-SAT.

## Planning the Living Room

The living room should be the largest room in a home, Federal Housing Administration officials say. If possible, it should be entered through a small foyer which acts as a buffer against direct intrusion. Where this is not possible, the entrance should be at the end of the room opposite the windows. The necessity of passing diagonally through the living room to reach other rooms of the home should be avoided. In planning the arrangement of the living room in a new home with relation to the entrance and to internal traffic, the above illustrations should be helpful. FHA officials point out. Number 1 is considered a good arrangement, Number 2 fair, and Number 3 poor.

the show windows specializing in displays of eye-dazzling shirts, ties, and scarfs, we become more and more aware that Rodeo Day is just around the corner of the calendar. Not to speak of the extra hustle and bustle in a newspaper office preparing for a special rodeo edition.

Any young cowboy or cowgirl would delight in one of those pairs of children's spurs which have the word "Texas" blazoned on them in white.

There's nothing new about brightly-colored shirts but the designs which this year seem to be specializing in some kind of white cording or braiding adornments. But the satin ones are so pretty, new or not, that we can't help mentioning them once more. (There must be a drop of gypsy blood in us instead of that hint of Portuguese of which the old records speak:) only a gypsy

could revel in looking at gay colors as we can.

Here's a sermon in a paragraph which we noticed some other paper quoting and we'll do the same. It is worth thinking over:

There are those who give and know not pain in giving, nor do they seek joy, nor give with mindfulness of virtue. They give as in yonder valley the myrtle breathes its fragrance into space. Through the hands of such as these God speaks and from behind their eyes He smiles upon the earth.—Kahlil Gibran.

To give and "know not pain in giving," to give with no "mindfulness of virtue" but simply because love upspringing in the heart seeks this way of expression—that, to us, is the perfection of giving. The world needs more of it.

## Methodist Group Has Social Session At Church Monday

Methodist missionary society met at the church Monday afternoon at 3:30 o'clock for a social session.

Mrs. J. H. Rhoden presented the scripture reading.

The missionary topic for the day, "Widening Missionary Service," was discussed by Mrs. Stacy Allen and Mrs. Crooks.

The meditation was brought by Mrs. J. M. Prothro on "Life Re-Charged."

Mrs. W. Earl Chapman offered the opening prayer.

Good attendance was reported.

## O. B. Holts Fish, Sightsee on Trip

Mr. and Mrs. O. B. Holt and children have returned from an extended vacation tour of the West. They spent two weeks at Long Beach, Calif., then went northward to San Francisco where they saw the Golden Gate Exposition. The beautiful lighting effects Mrs. Holt found most impressive feature of the big fair.

They visited Yosemite National Park and fished for salmon at Gold Beach, Ore.

Their return trip took them through Zion National Park and to

Gallup, N. M., where they witnessed the Indian ceremonial dances. About 31 tribes were present for these festivities which are a feature attraction to tourists.

**WE KNOW A DEAR OLD LADY WHO TRIED TO ECONOMIZE BY BURNING AN OIL LAMP ALL NIGHT**

Yes, she remembers when electric lights took the place of the kerosene lamps and always had a feeling that electric light is expensive, because it is so much better. So, when she wanted to have a dim light burning all night long, she thought it would be economy to get an oil lamp, rather than to use an electric light.

Here is what she didn't know. The lamp cost her 50 cents and she used one gallon of kerosene a month, which cost 11 cents. In addition, she had the trouble of cleaning the chimney every few days and of filling up the lamp. To top off the economy attempt, she had an ever-present fire and explosion hazard.

Here is what she knows now. A 10-cent low-wattage night-light can be burned 8 hours every night for a MONTH for approximately 7 cents, or about HALF what it cost her to have the uncertain light from an oil lamp. Now she realizes how very cheap is electric light.

# BROWN AND NUGENT HURL COWBOYS TO TWO WINS OVER GOLD SOX

## Fourth Place in League Standings Regained by Team

AMARILLO, Aug. 22 (Special)—The Midland Cowboys climbed back into fourth place in the league standings here last night when they walloped the Amarillo Gold Sox in two games while the Berger Gassers were losing to Lubbock.

Scores on the games last night were 10-4 and 5-1 with Tex Nugent and Bill Brown hurling the winning battles. Brown pitched his best game of the year, giving the Gold Sox only two hits, both doubles, in the six inning nightcap. Kirby Jordan and Jim Kerr paced the attack on Manager Margavio and Conway in the first game, each having a perfect night. Jordan had three singles and a walk in four times up while Kerr had a homer and single and two walks in four trips up. Kerr's homer came in the second with Jordan on base and climaxed a five run rally of the visitors in that frame.

Given a six run lead in the first two innings, Nugent took things easy for the rest of the game, easily subduing the Gold Sox. His only trouble came in the fifth when the home club got to him for three tallies.

Jordan continued to pace the visitors in the second game, getting a double and single in three times at bat. The Cowboys picked up two in the first and another couple in the second before the Gold Sox got their lone run. The final Cowboy run came in the fifth.

The two teams wind up the series here tonight and the Cowboys return home for eight games in four days, opening tomorrow night against the Clovis Pioneers.

**The box score, first game:**

## Dutch Clark Defies Pro Gridiron Jinx by Picking Giants to Repeat as Champions

BY JERRY BRONDFIELD  
NEA Service Sports Writer

CLEVELAND — Earl (Dutch) Clark has little regard for tradition. The new coach of the Cleveland Rams picks the New York Giants to repeat in the National League of Professional Football Clubs.

In so doing, he defies the jinx which has prevented a champion from winning titles in succession ever since the loop was divided into east-west divisions. The erstwhile "perfect football player," who six times was chosen all-league quarterback after graduating from Colorado College, doesn't hesitate in naming his pre-season choice.

"They're much better than they were a year ago," he says. "The Giants should hit their peak this fall. Steve Owen started building his present outfit three years ago. He had a number of swell prospects but they played in and out of ball."

"It takes two or three years for a good ball club to jell. Last year the Giants began to click."

A backfield that includes Tuffy Leemans, Ed Danowski and Hank Soar, among others, is more than adequate, Clark figures.

Especially when it operates behind a line which contains Mel Hein, the gigantic and perennial all-league center, and Ed Widgeoth of Minnesota, all-league tackle.

Atenburgh to Sanders. Struck out—by Nugent 4, Margavio 2, Conway 3. Base on balls—off Nugent 1, Conway 2. Hit and runs off Margavio—7 and 6 in 2 innings. Wild pitch—Conway. Losing pitcher—Margavio. Time 1:27. Umpires: Smith and Fritz.

**Second Game.**

**THINKS GAYLON SMITH WILL MAKE GRADE**

Brought from Detroit to lift the Cleveland club from the doldrums in which the Rams have been wallowing the last two years, Clark who is 33 is the youngest mentor in the loop, faces a rebuilding job with optimism.

"We have some nice boys . . . take that Gaylon Smith," he smiles. "Smith weighs 200 pounds, is fast as a streak and looks like a great passer."

Smith, judged one of the most versatile backs in the nation last year, made the little All-American team while performing with Southwestern University of Memphis.

"I believe Parker Hall will be a big help to us, too . . . that is when he gets back from the all-star game in Chicago," adds Clark. "I don't like all-star games. There

Earl (Dutch) Clark takes on a professional appearance when he conducts blackboard talk for Cleveland Rams.

"They won't need much new talent," Clark warns. "They're just about set."

Pressing the Giants in the eastern division will be the Brooklyn Eagles, Clark reckons.

Patsy Clark, under whom Dutch performed in Detroit, strengthened his line by obtaining Bob Haak, 235-pound Indiana tackle, and Dan Hill, Duke's great center.

**ISBELL PITCHING HUTSON CATCHING**

With Cecil Isbell pitching and Don Hutson catching to form the most dangerous pass combination extant, Green Bay stands forth as the class of the western division, according to Clark's observations.

Washington and Pittsburgh appear to need more all-round strength.

**Parshall, Top Pilot, Obtained Start by Patching Up Mare**

By NEA Service

GOSHEN, N. Y.—Hugh M. Parshall, 41-year-old veterinary of Urbana, O., who drove Peter Astra to victory in the \$40,000 Hambletonian Stake, has won more trotting races in the last 10 years, and more money in the last two years, than any other driver.

Doc Parshall scored 60 firsts in 1938.

He now handles 60 horses.

He started racing 18 years ago when he bought a broken-down mare for \$150. He revived her with veterinary skill and she won three firsts and was thrice second in six weeks. He sold her for \$1450, and has been training and driving ever since.

He always carries a kitchen match between his teeth while racing . . . for luck.

**Britain No Longer Posts Air Force Information**

LONDON (UP)—Details of Britain's air strength are now hidden from the eyes of foreign secret service agents.

Until recently, the Air Force List, printed monthly, revealed information which in any other European country would be a closely-guarded secret. Agents, at a brief glance, could learn with close accuracy the strength and details of the home and overseas air arms.

But in the future, as the latest list shows, these facts will be omitted. They will be held to be official secrets.

Before, the lists gave the strength and stations of all units, the names of officers in command and the exact number of pilots attached to squadrons.

**WAGNER QUITS LIONS**

## Tropics Called No Food Source

NEW YORK (UP)—The wide-spread belief that tropic lands can supply the rest of the world with an abundant food supply is false, according to Dr. Neils A. Bengston, of the University of Nebraska who is at Columbia University for the summer.

Equatorial districts, heavily covered with jungle, are agriculturally inferior to fertile prairies, Bengston said. The only tropic land which potentially is a good food producer is that situated on stream banks and in coastal districts, he said, while uplands generally have poor soils because of excess drainage caused by heavy rainfall.

"In nearly all part of the world, forest soil is inferior to plains soil," Bengston said. "In the first place, the constant moist condition of the former causes the natural salts in the ground, necessary for successful farming, to drain away. The comparative dryness of plains soil prevents this from happening to such a large extent. Then, too, the top-soil is seldom as deep in forests as it is on prairies."

Bengston said one of the main causes of drainage in forest areas was the rotting of tree roots

which leaves "a pathway" for moisture and air.

Another aspect which would retard tearing down of the jungles, Bengston said, was the mixed growth of trees which would make lumbering unprofitable.

"In the northern latitudes one tree is usually predominant in each wooded district; for example: pine, spruce, hemlock, maple or oak," he said. "In the tropics, however, you have to cut through numerous trees of no value whatever to reach one that can be used. The very richness of the growth defeats the end."

Plantations in the tropics, said Bengston, have been profitable in growing coconuts, bananas and rubber and have raised the standard of living for the natives.

"The standard of living of the natives is invariably raised whenever a plantation is established," he said. "Relatively too much attention has been paid to the so-called exploration of native labor. Whether or not the higher health standards, cleaner living conditions and increased earning power makes the native any happier from an absolute standpoint is a moot question."

There are approximately 1,527,000 tractors in use now in the United States.

## "WINTER CARNIVAL" A Photo-serial in six chapters based on the WALTER WANGER screenplay starring ANN SHERIDAN with RICHARD CARLSON and HELEN PARRISH CHAPTER 2

As the Carnival Special pulls into Hanover, Professor Weldon goes to meet Tiger Reynolds, father of Don, an old newspaper man and his best friend. Jill remains on the train until the last possible moment, then leaves and hurries toward the depot waiting room. Tiger, however, sees her and tells Weldon. At first Weldon refuses to believe the news, saying that according to the papers she has sailed for Europe. He tries to appear disinterested, but he is burning with inward excitement

and curiosity. Weldon helps the Norwegian Ski Team into sleighs and saunters back to the station. He walks into the waiting room, pretending to read a carnival program.

Then he approaches Jill. He acts so aloof, however, that her pride is hurt. She tells him that she is going to wait for her train at the Hanover Inn and offers to give him a lift. They ride off in a sleigh, but by the time they reach the Inn, Jill is completely intrigued

with Weldon. His technique of indifference has filled her with a desire to make him love her again.

Meanwhile, Tiger Reynolds has gone to his son's newspaper office. Tiger is working on a WPA project, but his son still thinks he is a big newspaper man. Tiger hopes that by scooping the Jill Baxter story, he will get his job back. He phones New York secretly and offers the story for the return of his job. Then he

rushes to the station to catch Jill, who has said good-bye to Weldon before boarding the train for Montreal.

Shortly after she is settled, Ann Baxter meets Mickey Allen, who is making his last call for garments to be pressed. Ann tries to be very high-hat to Mickey, but the boy takes her down several pegs and thus arouses her interest in him. She doesn't dream that he is a ski champ and one of Dartmouth's most popular heroes...

### Record Number of Delegates at Legion Convention Certain

**WACO**—Last minute arrangements have been completed here for what promises to be Texas' largest convention of the American Legion. The convention dates are Saturday, August 26 through Tuesday, August 29. The attendance is expected to swell to 8000.

In spite of the heavy attendance anticipated, the convention housing committee promises adequate hotel facilities for every person. Legionnaires' headquarters will be at the Roosevelt hotel. Headquarters for members of the Legion Auxiliary will be at the Hotel Raleigh. Sons of Legion squaddies, expected to attend 1000 strong, will be encamped, army fashion, on the Cotton Palace grounds.

All Legion organizations are urged to bring their colors in order to participate in the Americanism message-of-colors program on Monday evening.

One of the outstanding events of the four-day session will be a two-mile Legion parade down Waco's main streets in which 20 bands besides drum and bugle corps, Sons of Legion proper, Legionnaires, Auxiliary members, and a large number of local officials are expected to participate.

Another top feature of the convention will be a "Judge Roy Bean" Court on Saturday morning, sponsored by La Societe des 40 Hommes and 3 Chevaux. The mock trials will be conducted all day Saturday and proceeds will go into the Legion's child welfare fund.

Prominent among distinguished guests of the convention will be U. S. Senator Tom Connally of Marlin, who will speak on the Americanism program Monday evening, and President Pat M. Neff of Baylor University, who is to address a general meeting on Sunday afternoon.

Other prominent persons planning to attend the Waco convention include Dr. Jerome L. Pritchett, national chaplain of the Legion; Col. A. W. Robins, air service, U. S. Army commandant, Randolph field and James I. Crawley, national vice-chairman.

Highlights of the Auxiliary convention will include a sight-seeing tour of Waco and vicinity Sunday afternoon; division luncheon at the Karen Temple, Monday; a tea at the Cameron park clubhouse honoring Gold Star mothers on Monday evening; the past president's parley luncheon at the Shrine Temple Tuesday noon. Mrs. William A. Wyatt, department president, will be in charge of the Auxiliary.

Among other important events of the Legion convention are a contest to be sponsored Monday evening at the municipal stadium for visiting bands and bugle corps, followed by a dance and a floor show at the Shrine Temple and the annual parade on Monday.

Members of the 40 and 8 and the 8 and 40 on Saturday evening, following the mock court and a "wreck" or initiation for 40 and 8 members, will stage a joint banquet and dance. The 8 and 40 group is composed of members of the auxiliary. The 40 and 8 Sunday noon will be guests of Former Mayor George O. Jones at a luncheon at his place on Lake Waco.

Department Commandant Meent Childo of Houston will be in charge of the Legion convention proper, which gets under way at a joint meeting Sunday afternoon at the high school gymnasium here.

### DEPENDABLE MATTRESS SERVICE

For the past 8 years we have been striving to render to Midland and this trade territory an honest, dependable and efficient service in the manufacture of new bedding of all kinds as well as a renovating service. We have always maintained a sanitary factory, efficient workmen and reasonable prices. As a member of the Texas Bedding Association, we have fought for higher standards in the bedding industry of our state.

When buying bedding or bedding service, demand products from a factory approved by the State Board of Health.

Winners in Model Airplane Contests Announced by Store

Announcement of prizes and winners in the model airplane contest sponsored by C. G. Morrison company variety store and the theatres is made today following judging of entries Monday. The three weeks contest which closed Saturday was conducted in two divisions, one for boys over 12 years of age and one for boys under 12 years. Winner of first place in the older division was Joe Delao; winner of second place was Gerald Nobles; and winner of third place was Bobby Wood. Prizes were: First, 75 cents cash and three passes to the show; second, 50 cents cash and two passes to the show; third, 25-cent airplane model and one pass to the show. Winners under 12 years of age were: First, Billy Holcomb; second, Fritz Schottlander; third, Leonard Smith. First prize in this division was 50 cents cash and three show passes; second prize was 35 cents cash and two passes; and third was a 10-cent airplane model and one pass to the show. Fifteen boys entered the contest. They were: In the older group, Uchel Smith, Calvin Campbell, Doyle DeArmon, Joe Delao, Bobby Wood, Gerald Nobles, Marshall Whitmire, Gene Rogers; in the younger group, Billy Holcomb, Jack Jones, Johnnie Ray Whitmire, Fritz Schottlander, Chas. Shephard, T. R. Abbott, Leonard Smith. Judges for the models were Buster Howard, Scoutmaster, and two assistants. The judges reported that the models were some of the best planes they had ever seen made by boys of the ages included. Models were judged on the basis of good construction and of flying. Joe Delao's model flying for ten seconds.

AFL President Is Rapped by ITU Head

FORT WORTH, Aug. 22 (AP) — Woodruff Randolph of Chicago, secretary-treasurer of the International Typographical union, Monday accused President William Green and the executive council of the American Federation of Labor of "cheap dramatics." The accusation was made after Frank Morrison, secretary of the AFL, had read to the ITU convention in session here the text of a resolution concerning ITU adopted by the executive council at Atlantic City last Friday. Both Randolph and President M. Baker of ITU interpreted the resolution to mean that the purported suspension of ITU was "conditional" and not "automatic," as Green was quoted in press dispatches as having announced in Atlantic City.

Three Landings At Sloan Field

Three landings were made at the airport up to early afternoon a checkup with the army airways station at Sloan Field showed. Two of the planes came from Tucson, Ariz., and departed for Barkdale Field, Shreveport, La. They were an F1P, flown by Pilot Brown, and a P-36, flown by Pilot Hoyt. The third ship was a Stinson, under Pilot Higgins. It came from El Paso and departed for Dallas.

Galveston's \$2,500,000 Causeway Is Dedicated

The new \$2,500,000 link between Galveston and the mainland was dedicated on the anniversary of the city's centennial with state and federal officials present. Harry Hines, highway commission member, cut the ribbon at the opening. Left to right are: Sen. J. J. Mansfield (seated), chairman of the rivers and harbors committee; Mayor Brantley Harris of Galveston; Hines; Sen. Tom Connally; Mrs. Fred Schenkenberg, president of the Daughters of the Republic of Texas, and Robert Lee Bobbitt, highway commission chairman.

Harvests

Dairy and livestock producers in some of these areas face serious problems in maintaining and feeding their animals. This season has been a difficult one for the crop estimates. Several millions of acres were taken out of production of cotton, wheat, and corn under the government's program. Crops got off to a poor start generally, about 15,000,000 seeded areas having to be abandoned. But nature smiled on the farmer in May and June, and there was great improvement in the outlook. July, with hot dry weather in some sections, brought an about-face that caused a reduction of more than 100,000,000 bushels in the corn crop estimate. Rains this month in many farm regions have given the outlook a more favorable tone again. Administration farm leaders are happiest about the wheat situation. The crop is estimated at 731,000,000 bushels, about 200,000,000 bushels less than last year and slightly under the recent 10-year average.

Grandstand Section Reserved at Rodeo For Negroes, Mexicans

Reservation has been made of a portion of the grandstand to accommodate negroes and Mexicans, it was announced by Foy Proctor, chairman of the rodeo committee. The section will be at the extreme north part of the huge stands, from the first aisle to the north boundary. Admission is 75 cents for adults and 25 cents for children will prevail.

Sunday Evening Ceremony Unites Couple at Monahans

In the presence of a group of friends, Miss Dicky Studeville of Midland and Joe Roberts of Odessa, formerly of Midland, were married by Justice of the Peace J. B. Jordan at his home in Monahans Sunday evening at 7:45 o'clock. Present for the ceremony were: Winfred Wells of Big Spring, Mrs. Mary Jo Neese of Midland, and Charley Deax, Bill Thompson, Leo Hays, Troy Moseley, Teen Rankin, Mr. and Mrs. H. W. Donaldson, Mr. and Mrs. J. O. Donaldson and Mr. and Mrs. Debs Childress, all of Monahans. The couple plan to live in Odessa where Mr. Roberts has the meat market in a grocery store. The bridegroom, son of Mr. and Mrs. Alvin Roberts, attended school here, graduating from the high school several years ago. He played football with the Bulldogs during his high school career. Mrs. Roberts has lived here approximately a year and a half or two years. She is employed by the Southwestern Bell Telephone company.

Three Persons Are Shot in Disorders In Milk Strike Area

CAMDEN, N. Y. Aug. 22 (AP) — Three men were shot and wounded and numerous others bruised today during a disturbance at the Dairy-men's League milk plant here which had been picketed by sympathizers of the dairy farmer union strike. The shooting occurred as a milk truck was entering the plant.

Covingtons Return From Eastern Trek

Mr. and Mrs. Carl Covington, who have been on an Eastern vacation, have returned to Midland. Also in their party on the trip were Miss Eva Batchelor and Miss Ethel Long of Midland. Miss Batchelor stopped at Yazoo City, Miss., on the return trip to visit her brother, while Miss Long left the party at Marshall, Texas, to visit relatives. The Midland party had New York as their chief goal on the journey and gave the metropolis a thorough going sightseeing inspection. Rockefeller Center, the Empire Building, Staten Island, Greenwich village, Columbia University, and many other places of interest were on their city itinerary. They saw the Normandie, also, as one of the high points in their visit. Theatres came in for their share of attention, with Mrs. Covington selecting Katharine Cornell's "No Time for Comedy" as the best play she saw. Crossing into Canada, the party saw something of the British Dominion, re-entering the United States at Buffalo. A day in Washington provided high lights such as a trip through the Capitol and visits to the Green Room, Red Room, and other apartments in the White House. Mr. and Mrs. Covington visited her brother, Dr. O. W. Orson in Fort Worth as the last stop on their journey homeward.

RETURN FROM RUIDOSO.

Mr. and Mrs. Dunn Reiger and family have returned from a vacation spent at Ruidoso. Mr. and Mrs. Reiger went by way of Roswell where they were joined by their daughter, Miss Adale Reiger, from the Ruidoso visit. They returned Monday.

TO PLYMOUTH SHOWING.

Mayor Sentenced on Conspiracy Charges

WATERBURY, Conn. Aug. 22 (AP) — Mayor Frank Hayes, of Waterbury, former lieutenant governor of Connecticut, was sentenced last night to from 10 to 15 years imprisonment in the state prison at Wethersfield as a result of his conviction on a charge of conspiracy to defraud this city of more than a million dollars. Hayes, mayor of Waterbury since 1930 and from 1935 to 1938 lieutenant governor in the then democratic state administration, was the first of the principals among 23 accused to be sentenced by Judge Ernest A. Inglis. The mayor and 18 others were convicted by a superior court jury last Wednesday. A twentieth was then convicted by the court, two others pleaded guilty before the trial began last Nov. 29, and another who pleaded nolo contendere was formally convicted today by Judge Inglis.

TO CALIFORNIA SCHOOL.

Russell Wright left Sunday night to enter the University of California at Berkeley. The Midland boy has spent two years at New Mexico Military Institute at Roswell.
