### British Take Three Italian Towns

#### Minturno Evacuated Under Allied Attack

By EDWARD KENNEDY  
ALLIED HEADQUARTERS, ALGIERS — (AP) — British troops of the Fifth Army have enlarged their bridgeheads above the Garigliano River to three miles in depth at places, capturing three villages, and at last reports Thursday were storming the outskirts of Minturno.

Headquarters announced the advancing forces had enveloped the villages of Argento, Tufo and Suio, the capture of Tufo carrying the thrust across the Appian Way—ancient road to Rome—and within a mile and a half of Minturno itself. A battle was reported raging for Minturno. The German radio announced the evacuation of Minturno. German opposition was reported severe all along the front at

#### Rome Bombed

LONDON—(AP)—A German news agency broadcast from Berlin said Allied planes raided the outer suburbs of Rome Thursday morning. Heavy bomb loads were thrown upon Ciampino airfield and the nearby Cioccolle airfield Wednesday. Allied headquarters at Algiers announced. Thus Thursday's reported bombing apparently was the second blow at the Rome area in two days by American or British planes.

least seven miles where the British began their drive with a night attack Monday. In the area north of Cassino, now under fire of American artillery, American patrols again crossed the Rapido River to probe out German defenses there. Still farther inland French troops of the Fifth Army made contact with the enemy, but no details were announced. Smoke Aids Advance The British crossing of the Garigliano, the first action on this sector in two months, was achieved under cover of a smoke screen, and was supported by an amphibious operation in which some troops were moved by sea to a point on the Tyrrhenian coast just above the river's mouth.

Suio, seven miles inland from the coast, and Argento, almost on the coast itself, lie just beyond the stream. Two of the three bridgeheads won in the British advance early Monday night, were forced across the river at these points. Following up the successful blocking of the major rail routes from the north into Rome by air bombardment, Allied heavy and medium bombers Wednesday struck directly at a chain of airfields in the vicinity of the Italian capital itself.

#### Mrs. Letta Fuhrman Dies At Home Here

Funeral services will be conducted at 2 p. m. Friday in the Ellis Funeral Home for Mrs. Letta Fuhrman, who died here Thursday morning. The Rev. R. J. Snell, rector of the Trinity Episcopal Church, will officiate. Survivors include two daughters, Mrs. Paula Vogel of Midland and Mrs. Jo Ann Wolfe of Pittsburgh; two sons, Fred Fuhrman of Midland and Julius Fuhrman of Andrews. Interment will be in Fairview Cemetery.

#### Jap Sky Fighters Good, Says General

SOUTH PACIFIC AIRBASE—(AP)—Japanese fighters who engage Allied planes in raids on Rabaul these days "are as good as we ever encountered in the South Pacific," says Lt. Col. W. H. Council, Fort Valley, Ga.

The commander of an Army fighter group said one of our best squadrons lost eight P-39s in a single sweep recently—the heaviest loss we ever took.

#### FANCY TYPES OF CHEESE MAY BE RESTRICTED SOON

WASHINGTON—(AP)—The War Food Administration is expected soon to restrict the manufacture of fancy and specialty types of cheese in a move designed to encourage greater production of the common cheddar type for war purposes.

#### No. 21 Walton Checks Show Of Petroleum

By JAMES C. WATSON  
Oil Editor  
Magnolia Petroleum Company No. 21 State-Walton, outpost to the discovery well of the Kermit-Ellenburger pool in Winkler County, recovered 180 feet of gas and distillate cut mud during a 30-minute drillstem test at 10,580-625 feet, in the top section of the Ellenburger, marked at 10,581 feet.

The test was through a 5/8-inch bottom hole choke, and a 2,430-foot water blanket was used. The exploration was drilling ahead Thursday morning below 10,627 feet. This performance is similar to showings made by the same operator's No. 20 State-Walton, initial producer for the lower Ordovician in the Kermit district. That project had gas and distillate near the top of the Ellenburger, and found the oil about 180 feet in the section. Sawyer Checks "Burger" Humble Oil & Refining Company No. 2-B Sawyer, Northwest Irion County wildcat, checked top of the Ellenburger at 8,960 feet, on a surface elevation of 2,372 feet above sea level.

A drillstem test at 8,964-9,172 feet, open for 20 minutes, recovered 100 feet of drilling mud, with no showings of oil, gas or water. It was drilled ahead Thursday morning past 9,175 feet in lime section. "Opened By Mistake" Humble No. 1 Barnes, North Pecos County wildcat, four miles east of the Apeca-Warner field, treated perforated section at 2,420-90 feet with 3,000 gallons of acid, and after six hours of swabbing started flowing approximately 19 barrels of sulphur water per hour.

Byrce McCandless, No. 1-10 Atlantic, southwest of the Apeca-Warner area has been officially abandoned as dry at total depth of 4,878 feet in granite. The Ohio Oil Company No. 2 University, in section 5, block 13, University survey, in the Fullerton area of Northwest Andrews County has been completed for the largest flowing production, by 15 barrels, of a well so far finished in that territory.

After treating with a total of 10,500 gallons of acid, the well flowed for a 24-hour potential of 2,636 barrels, with gas-oil ratio of 948-1. The gravity was 44.9. Pay section was at 6,720-7,206 feet. The test was through two-inch tubing and a one-inch choke. Three More In The North Phillips Petroleum Company has made locations for three tests on the north side of the Fullerton. The projects will be approximately one-quarter mile north of nearest completed oil wells.

Phillips No. 1 Bidler will be 662 feet from the west and south lines of the southeast quarter of section 7, block A-33, pdl survey. Phillips No. 2 Bidler will be 662 feet from the east and south lines of the southeast quarter of section 7, block A-32. Phillips No. 3 Bidler will be 662 feet from the west and south lines of the southwest quarter section 8, block A-32.

Drilling is due to be started on No. 1 Bidler soon. Three More In The West Signal Oil & Gas Company No. 1 Fisher, wildcat in Central Andrews, has drilled out cement plug on 7-inch casing set at 4,310 feet, in the top of a section which has indicated possibilities of production (Continued on Page 2)

#### Administration Girds For Last Ditch Fight To Save Food Subsidy Program

WASHINGTON—(AP)—Administration forces girded for a last-ditch fight to save President Roosevelt's \$1,500,000,000 food price subsidy program as the opening of Senate debate was set tentatively for Friday. The administration absorbed a preliminary setback Wednesday when the Banking Committee approved a bill by Senator Bankhead (D-Ala.) to liquidate the present subsidy system by June 30, but the measure faces a flood of amendments from the floor to cancel and modify the ban. Democratic Leader Barkley (Ky.) said start of debate on the legislation is contingent on disposing of the revenue bill by Friday. Prospects were that administration leaders would throw their weight behind an amendment by Senator Maloney (D-Conn.) to strike out the subsidy repeal section of the Bankhead bill—similar to the ban voted overwhelmingly by the House two months ago—and substitute a provision giving the Commodity Credit Corporation and other federal agencies authority to spend up to 1,500,000,000 for food price stabilization in 1944.

LONDON—(AP)—Gen. Dwight D. Eisenhower and Air Chief Marshal Trafford L. Leigh-Mallory, his invasion air commander, were received in audience by King George at Buckingham Palace Thursday.

#### Admiral Kerr Dies

LONDON—(AP)—Admiral Mark Kerr, 79, British air pioneer who had an important role in the founding of the RAF in the first world war, died Thursday after long illness.

#### Improved Mustang Kicks Germany Harder

This is the new improved version of the P-51 Mustang escort fighter which accompanied USAAF bombers on the latest long-ranged assault on German industry. This model has greater speed (400 MPH plus), longer range and a higher ceiling, well over 30,000 feet. The plane can be used as a fighter-bomber and is capable of carrying a 1,600-lb. load. #### Britons Warned To Watch Out For German Peace Parley Propaganda As Rumors Set All Moscow Ajitter

LONDON—(AP)—Britons were warned Thursday to be on guard against a wave of insidious peace-talk propaganda inspired by the Germans as rumors printed earlier in the week by Pravda continued to have repercussions in both London and Moscow. The warning, voiced by the London press, coincided with a similar admonition by the Moscow magazine "War and the Working Class," which called for cleansing of the political atmosphere from "poisonous gases" spread by the Nazis in an effort to split the Allies. The Soviet publication declared that recent Moscow and Teheran conferences had fore-doomed German attempts to sow disunion, but added that "the peoples of the countries allied with us and their responsible leaders must understand the efforts being made by Nazi elements."

GERMANS OPEN NEW DRIVE ON PARTISANS

LONDON—(AP)—Marshal Josip Broz (Tito) reported Thursday that heavy fighting was spreading along the Croat coastal area below Fiume, where the Germans have sprung a new drive apparently aimed at preventing Yugoslav Partisans from developing a threat to the naval base from the south.

Tito's communique, broadcast by the Free Yugoslav radio and recorded by The Associated Press, said the Germans had launched two drives toward the coastal area, one in Croatia and the second in Western Bosnia and that fighting was mounting in intensity.

#### Nelson Plans 'Lab' Test Of Reconversion

WASHINGTON—(AP)—Donald M. Nelson plans to make a limited "laboratory test" of reconversion in three selected areas of the country. The War Production Board chairman was reported reliably Thursday to have tentatively approved a plan under which small plants in several states could use idle and surplus metals without restriction. The civilian goods so manufactured could be sold without regard to the priority standing of the purchasers, government sources said, minimizing the chance that the goods would be diverted for military or export use. The areas under consideration are the three WPB regions with headquarters in Cleveland, Philadelphia, and Kansas City, Mo. The scope of the "test tube" program is so limited that it does not conflict with Nelson's statement Monday that there would be no "general" resumption of civilian production until the war picture is a great deal clearer. However, officials pointed out that the plan, if successful, could later be extended into other areas and bigger plants, once the European invasion is consolidated and the military picture clarified. Meanwhile it would provide both government and industry with experience in handling reconversion problems.

#### Waiter At Drive Breakfast Buys \$500 War Bond

All Midland citizens have put their shoulders to the wheel to meet the huge quota of \$1,330,000 in the Fourth War Loan drive which opened Thursday. J. N. (Buddy) Creech, Scharbauer Coffee Shop waiter, who served the "invasion breakfast" to volunteers who will sell War Bonds here, was one of the first purchasers. Buddy purchased a \$500 Series E Bond. Before the conclusion of the breakfast, he called Mayor A. N. Hendrickson aside and said, "Put me down for a \$500 bond." This was done and Buddy made arrangements to take delivery of the bond at a bank Thursday. Creech is a veteran of World War I and is a member of the American Legion.

#### Vote Indicates Movie Actor Davis Is New Louisiana Governor, Teamed With His Foe, The Kingfish's Brother

NEW ORLEANS—(AP)—Election of a governor backed by the current "reform administration," and a lieutenant governor who has made no bones about his desire to return the state to "the liberal regime" he enjoyed under my brother Huey P. Long, appeared likely in Louisiana Thursday. On the basis of late unofficial returns from 1,008 of 1,867 precincts in Louisiana's Democratic primary, James H. "Jimmy" Davis of Shreveport topped the old regulars' elderly Lewis L. Morgan by 7,633 votes in the governor's race. Earl K. Long, old regular candidate, led his nearest rival, Emile Verret of New Iberia, by 35,726 for lieutenant governor.

#### Satiric Campaign Jab

The irony of Davis and Long as possible capitol teammates is illustrated by a home-stretch stump speech of Long's in which he said song-writer-actor Davis "would make a fine governor, what with spending half his time in Hollywood playing in movies."

#### Disease Peril Causes Quake City Evacuation

SAN JUAN, ARGENTINA—(AP)—Fearful of epidemics, government authorities pressed efforts to evacuate the ruined city of San Juan but many persons refused to relinquish a search for bodies of loved ones killed Saturday in the earthquake which took a toll of possibly 3,000 lives.

### Reds Trap Foe Force As Leningrad Freed

LONDON—(AP)—Marshal Joseph Stalin announced in an order of the day Thursday the capture of Novgorod.

By RICHARD McMURRAY  
Associated Press War Editor  
Berlin announced the loss of Novgorod Thursday as Red Army forces swiftly rolled up the enemy front in the north, virtually lifting the long siege of Leningrad and threatened to trap 250,000 Nazis before the old czarist capital. Two powerful Russian forces striking from south and west of Leningrad joined hands southwest of the city, snapping shut a seven-mile Nazi corridor to the Gulf of Finland and hopelessly trapping any Germans behind the juncture.

### 3 Jap Ships Sunk As 200 Planes Fight

By MORRIS LANDSBERG  
Associated Press War Editor  
American precision bombers sent three and probably five more Japanese ships to the graveyard of Rabaul Harbor in the most damaging of a series of Allied raids on enemy island bases in the Pacific. More than 200 American and Japanese planes fought it out over the New Britain Japanese bastion Monday, and the raiders came away with the conviction that the Japanese air force is not deteriorating as some recent statements may have indicated.

Solomon-based torpedo and dive bombers, flying in at masthead height, hit eight of 12 merchant ships at Rabaul with 1000 and 2000 pound bombs, sinking three and probably two others. The Japanese lost 18 to 33 planes. Twelve American aircraft failed to return. On the same day, Navy bombers struck at Kusaie, one of the Caroline line group with at least three good harbors, in an attack that possibly foreshadowed an aerial campaign against the enemy's No. 1 island defense line. Kusaie is 700 (Continued on Page 2)

### Stimson Sees Hint Of Jap Collapse In New Guinea Sector

WASHINGTON—(AP)—An indication that Japanese resistance may be collapsing in Northern New Guinea was reported Thursday by Secretary of War Stimson, who said Allied troops were making steady progress throughout the Southwest Pacific. In Northern New Guinea, Australian veterans have captured Sio and advanced beyond Vincke Point, and Australian and American troops are squeezing Japanese forces in the vicinity of Sidor. "There are indications that some of the Japanese are trying to escape by barge at night," Stimson said. "Several troop-laden enemy barges have been sunk by our aircraft and light naval vessels." In New Britain, Allied troops are constantly enlarging their beach heads, the secretary reported. He said that in the Cape Gloucester area 3,100 Japanese dead have been counted, against American losses of 228 killed and 694 wounded.

### Willkie Wants U. S. Soldier Vote Law

NEW YORK—(AP)—Federal legislation to facilitate voting by those in military service has the backing of Wendell L. Willkie, who said: "I do not believe it is possible as a practical matter under state statutes for every member of the armed services to be given the opportunity to vote. I am, therefore, in favor of a federal statute with appropriate provisions for all service men and women to vote."

### TEN SHIPYARD WORKERS INJURED IN EXPLOSION

HOUSTON—(AP)—Ten Brown Shipbuilding Corporation workers injured in an explosion at the yard late Wednesday still were in hospitals Thursday, including four reported in a serious condition. Sixteen workers received burns and other injuries when a gas explosion occurred in a men's wash-room adjoining a pipe shop.

Polish Integrity

The British, we are told, are displeased because the Polish government-in-exile insists that pre-war Poland must be kept intact. This forces an issue that Britain, and also the United States, would like to duck.

The historical background seems clear. Eastern Poland originally was Russian. It was squeezed out or Russia soon after World War I and the Bolshevik revolution.

World War II started when France and Great Britain, after trying every possible placatory method of appeasing Hitler, at last informed him that attack upon Poland would be considered a cause for war.

On July 30, 1941, Russia signed another pact of friendship with Poland. In this Stalin renounced all claim to the territory seized in September, 1939, in collusion with Germany.

Moscow now, through its embassy in Washington, announces flatly that the territory in question is hers and she is going to keep it, and what is anybody going to do about it?

The Polish government is disturbed. It protests. And small wonder. Winston Churchill says he did not become head of his majesty's government to preside over the empire's dismemberment.

Chinese Conditions Are Explained By Capt. Blackwell

Conditions in China, India and Burma were described by Capt. Lynn D. Blackwell, who recently returned from duty in China under General Chenault, in an address to Rotarians at their meeting Thursday noon in Hotel Scharbauer.

He said the only route to China now is by air and that planes must clear mountains 18,000 feet high. He told in detail of the acute problem of getting war supplies to American airmen in China, and related interesting experiences in the countries.

Nazi Diplomat Seen Behind Bolivia Coup

MONTEVIDEO, URUGUAY (AP)—A secret conference at Buenos Aires in the home of Count Karl von Luxburg, former German minister to Argentina, was said here Thursday to have preceded the Dec. 20 revolution in Bolivia.

The authority for this report, whose identity must remain secret, said that information on the conference came through at least two different diplomatic channels.

Bolivian revolutionary leaders were in contact with Argentine nationalists at this meeting, these informants said, and Victor Paz Estensabor, finance minister in the new Bolivian regime of President Major Guaberto Villarroel, was reported to have received "some millions of Argentine pesos."

mil's west of the American-won Gilberts and 700 miles east of Truk, anchor base of the Carolines. Army bombers renewed their raids on the Japanese-held Marshalls in the Central Pacific, striking again at Mili Atoll. Radio Tokyo reported a second attack on Mili Wednesday in which it said one of 12 American bombers was shot down.

Although apparently there was no interception over Mili and Kusate, the heavy fighter strength the Japanese showed at Rabaul led General MacArthur's spokesman to comment that "we can't be lulled into a false sense of security that the Jap is deteriorating."

The Allies, however, still hold a decisive edge in the aerial war. Monday's Japanese losses increased the January total in the Rabaul area to 152 for certain, with 42 more probable, against 32 for the raiding forces. In two attacks this month alone, 11 enemy merchant ships have been sunk or probably sunk.

Ground fighting generally was quiet, except for a flurry on Cape Gloucester, Northwestern New Britain, that cost the Japanese an additional 126 dead in an unsuccessful attempt to recapture Hill 660 from American Marines.

On invaded Bougainville, American troops crossed the Tokina River on the northern end of the Empress Augusta Bay beachhead and occupied positions near East Lagoon.

Allied planes swept in on the Hansa Bay region on the northeast coast of New Guinea to bomb enemy positions again. Other bombers caused heavy damage in an attack on Japanese installations southwest of Madang.

World Oil Co-Op With No Profit Urged At Parley

WASHINGTON (AP)—A proposal for a world-wide non-profit petroleum organization which would have its own oil wells, refineries and tanker fleet was outlined Thursday before the conference on international cooperative reconstruction.

Howard A. Cowden, president and general manager of the Consumers Cooperative Association of North Kansas City, Mo., envisaged the movement as a \$12,000,000 undertaking and described its possibilities as "almost limitless."

"It can be of immense service to cooperative members in all lands," he declared. "It can return important savings, and it can provide a measure of competition for the oil cartels which undoubtedly regard the war merely as an interlude to the resumption of 'business as usual.'"

He said the suggested International Cooperative Trading and Manufacturing Association would have a second division to handle distribution of food and related supplies on a world basis.

Shore Signals Aided Japs' Coast Attacks

WASHINGTON (AP)—Japanese attacks on the West Coast during the early stages of the war were aided by signalling from the shore, says Lt. Gen. John L. DeWitt, who as commanding general of the Western Defense Command supervised the removal of the Japanese from that area in 1942.

In his final report on the transmigration, DeWitt adds that it brought virtual elimination of the signals and a reduction in the number of submarine attacks on ships sailing from West Coast ports.

The 600-page report which was issued Wednesday, said that for several weeks after the attack on Pearl Harbor every ship leaving West Coast ports was attacked by enemy submarines.

American Diplomat's Wealthy Wife Shot In Chicago Mystery

CHICAGO (AP)—Mrs. Frank Starr Williams, wealthy and socially prominent wife of an attaché of the State Department in Washington, was reported near death Thursday following a mysterious shooting in her Drake Hotel apartment Wednesday night.

Mrs. Williams, 55, was shot in the head by an unidentified woman she described as "middle aged and well dressed."

There was no apparent motive for the shooting, said police and state's attorney's investigators, as they hunted for clues.

Officers obtained accounts from the wounded woman before she lapsed into a coma and from her daughter, Mrs. Patricia Goodbody, 28, also a target of the assailant.

Police said that members of Mrs. Williams' family, including her first husband, Edgar R. Born, wholesale clothing company executive, and a second daughter, insisted they knew of no persons who would want to harm her.

New Insurance Policy Will Be Available

AUSTIN (AP)—Beginning May 1 a new form of policy providing fire, windstorm, extended coverage, explosion and rent insurance will be available to buyers.

The State Insurance Commission announced approval of the form which was described as "modern, readable and understandable."

Fire Insurance Commissioner Marvin Hall declared it provides complete coverage in one policy and eliminates confusing endorsements and riders now attached to policies.

He added it was likely that after May 1 all companies automatically will endorse existing policies to the broader terms of the new policy form.

What do I like about Coffee? ECONOMY

LAMOFILM PACKAGE PRESERVES THE FRESHNESS

One of the very real economies of Admiration Coffee is its unique freshness. When freshness evaporates so too do aroma, flavor, and strength. Admiration Coffee retains all these qualities oven-fresh because its Lamofilm Package is leak-proof. Once sealed (we should say once triple sealed) nothing can escape. Nor can moisture seep in. This freshness thus saves you many a pound during the year—and as much money.

ADMIRATION PREVENTS COFFEE-MAKING FAILURES

If your coffee maker and water are clean, it's practically impossible to make a "bad" cup of Admiration Coffee. This wonderful old blend, favorite for years in the Southwest, is rich, flavorful, and aromatic. No matter how you prefer your coffee, weak, moderate, or strong, its distinctive flavor is always discernible. You'll know it's Admiration, for Admiration alone tastes like that. By all means try a pound today if you're one of those rare individuals who've never had the pleasure.

## Discovery In Granite

A California scientist discovered granite rocks which were mysteriously changed by nature from sandstones, limestones and slates. Geologists have heretofore classed granite as a type of igneous rock formed at considerable distances below the earth's surface.

Doctors say your kidneys contain 15 miles of tiny tubes or filters which help to purify the blood and keep you healthy. When they get tired and don't work right in the daytime, many people have to get up nights. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder. Don't neglect this condition and lose valuable, restful sleep.

When disorder of kidney function remains poisonous matter to remain in your blood, it may also cause sagging eyelids, rheumatic pains, leg pains, loss of pep and energy, swelling, puffiness under the eyes, headaches and dizziness.

Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

## Hearty After-Party Supper Dessert

Valencia apple pie makes delicious dessert treat.

By GAYNOR MADDOX  
NEA Staff Writer

For your husband's poker party, first remember that absence makes the heart grow fonder, so take yourself away for the evening and let the men enjoy their poker game alone. Then remember that the way to a man's heart is through his stomach and prepare a hearty after-party supper.

No poker host is going to spend one single second bending over a hot stove, so don't leave anything for him to heat up or watch—except the coffee. Potato salad and cold cuts, plates of sliced breads—white, whole wheat and rye—a luscious cake or apple pie or even coffee and doughnuts is about all the men folks ever want.

**Valencia Apple Pie**  
(Serves 6)

CRUST: 2 cups flour, 1 teaspoon baking powder, 1/2 teaspoon salt, 2/3 cup lard, 5 to 7 tablespoons ice water. FILLING: 6 medium-size apples, 1 medium-size orange, 1/2 teaspoon nutmeg, 1 teaspoon cinnamon, 1/2 teaspoon salt, 2 tablespoons lemon juice, 1/2 cup brown sugar, 1 tablespoon butter or other table fat.

Sift flour before measuring. Sift together flour, baking powder and salt. Cut in lard with a pastry blender or two knives until the lumps are the size of large peas. Add ice water a little at a time, mixing it in with a fork. Add only enough to moisten flour. Pat dough together and chill.

FILLING: Pare and slice apples and orange. Add nutmeg, cinnamon, salt, lemon juice and sugar.

Roll out half of the dough to 1/8-inch thickness. Line a 9-inch heat-resistant glass pie plate, trimming the edges. Place filling evenly in crust. Dot with butter. Roll out remainder of dough and place over top, leaving a half-inch overlap. Tuck overlap under bottom crust and crimp edges. Gash top crust to permit steam to escape and bake in hot oven (450 degrees F.) for 10 minutes. Continue baking for 40 minutes in a moderate oven (350 degrees F.) or until crust is a golden brown.

### High Points Explained In Rail Row Ended After 14 Months Of Argument; Pay Goes Up, Wage Formula Stays

WASHINGTON — (AP) — Looking on it, the railroad workers, for higher pay, now apparently settled, is a long, tortured, often puzzling story but here some peaks in that mountain argument.

Steelworkers, the third great workers group to climb into the wage arena within the last 18 months, have pay demands pending now. Will their problem drag on for months? Or will they, too, decide to strike to get a settlement?

### Col. Storrie Is 'Big' Commander

SAN ANTONIO — Col. Carl R. Storrie, whose exploits as leader of the 26th Marauder group have stamped him as one of the outstanding men in the European theater, has been placed in command of a group, according to word received from his wife here.

The government's formula on wage increases — forbidding basic hourly wage rate increases of more than 15 per cent since Jan. 1, 1941 — was the bottleneck in the demands of miners and railroaders. In both cases the government worked out around the formula.

The miners were allowed underground travel pay, pay for tools they use, and overtime pay arrived at by a complicated arithmetical method. Some critics have called that overtime arrangement a fiction.

### Plans To Be Made For Livestock Show Here

## THE WAR TODAY

By DEWITT MACKENZIE

Associated Press War Analyst Spanish Generalissimo Franco's policy of playing both ends against the middle, in his relations with Hitler and the Allies, has landed him in another jam with Britain, thus adding to the divers problems which are complicating his increasingly difficult fight to maintain his dictatorship.

This time British Foreign Secretary Eden has indicted Spain on two counts. He told the House of Commons that Sir Samuel Hoare, England's ambassador to Spain, had been instructed to make further strong representations over the fact that Spanish volunteers still are fighting with the Nazis against Russia. Britain also has renewed her support of the Italian government's request for the release of all Italian ships in Spanish ports.

Eden made no effort to conceal his government's annoyance with the Spanish support of the Hitlerites. However, this only adds one more to the long string of Allied protests against Franco's attitude.

Less than a month ago Washington had an "incident" on its hands when two members of the Franco Falange party flung themselves into our consulate at Valencia and damned as enemies of Spain some

35 Spaniards who were reading American literature. Later both the Spanish government and the Falange party expressed regret—a fact of which our State Department took note without making response.

Francisco's troubles don't travel singly. One of his serious difficulties seems to be that he can't quite make up his mind whether his bread is spread with Nazi or with Allied butter. He's timid about declaring his exact position.

King Alfonso in the last war, he wants to back in the favor of both Germany and the Allies now and after the war, and yet he knows in his heart that he can't pursue such a course and get reward from the winners.

The generalissimo's dilemma is complicated by Spain's explosive internal situation. The leftists and the rightists are pulling against each other so heavily that they are rocking his dictatorial chair uncomfortably. And he has a deep liking for that chair.

With passing time the Falange party has lost ground in Spain, and there has been a corresponding swing to the right in the direction of a monarchy and the old form of government. Naturally this has weakened Franco's position on the home front, and he is under heavy pressure from both the Allies and Hitler as the belligerent powers line up for the last big battle.

### Dual Wedding Brides Mourn Hero Husbands

PORT DEVENS, MASS. — (AP) — Two young women who became the brides of soldiers in a gay double ceremony shortly before their unit went overseas met in sorrowful reunion to receive Silver Stars and Purple Hearts awarded posthumously to their husbands.

The awards were for heroic action in the Sicilian campaign. They were presented to Mrs. Irene Johnson, the bride of Pfc. Eugene Johnson of Beaumont, Texas, and Mrs. Ann Perlman, the wife of Pfc. Lester R. Perlman of Mattapan, Mass.

With the current taxes in Britain, it would take an income of \$400,000 to yield a net income of \$25,000.

### Valley View Club Outlines 1944 Plans

"Order your garden seed early and in sufficient quantities for spring and fall gardens," Miss Alpha Lynn, county demonstration agent, advised women of the Valley View Home Demonstration Club at a meeting Tuesday afternoon in the school.

Miss Lynn further suggested club members include one new vegetable in seed selections. She urged club members to plant sufficient vegetables to can 183 quarts of yellow and green vegetables and 183 quarts of other colored vegetables, with 264 quarts of fruit in their 1944 food plan. She pointed out that recent surveys show there likely will be less canned goods as well as less fresh fruit and vegetables and meat for sale in markets in 1944 and it therefore is imperative individuals do more toward producing their own food.

**Chairmen Are Appointed**

Mrs. R. J. Howard, club president, appointed Mrs. J. M. Baker as community chairman representative; Mrs. Dwight McDonald, Red Cross; Mrs. Will Long, exhibit; and Mrs. J. D. Bartlett, education and expansion chairman.

You may not have as much time for bridge as you used to, but once in a while everyone can find time for a session at the card table with old friends. You will relax and have fun and feel refreshed for the next day's war work. You'll want refreshments, of course, and won't have much time for fussing. Let sandwiches with ration-free fillings, plus a molded salad and tea or coffee, be the evening's climax.

**Steamed Nut Bread**

By ALICIA HART  
NEA Staff Writer

Gay thingumabobs nestled in a coil will spruce up your hair and pick up your spirits.

Choice of sophisticated Maurine Zollman, top-flight model and Broadway actress, are sparkling rhinestone button originals, slipped on to bobby pins and stuck in up-swept hair. "Because bows are too fussy for me," she said, "I toyed with the idea of buttons matched to the color of my frock and like the results."

But bows, Alice-in-Wonderland hairbands, flowers and ribbon-tied snoods also give a fresh feeling to a hair-do. Make sure, however, they're as fresh as fresh paint and as crisp as cellophane, for a crumpled mess of woebegone ribbons or flowers can make the whole head look untidy.

### MIND Your MANNERS

Test your knowledge of correct social usage by answering the following questions, then checking against the authoritative answers below:

- Should a woman guest leave her wraps and bag where the hostess wants to put them, or pile them on a chair or table in the dining room?
- Should the friends and business associates of a man leaving for service make an effort to see him just before he leaves, to say goodby?
- Is it customary for his friends to do something for him, either give him some kind of gift or entertain him?
- At a party for a man going into service, might the guests chip in beforehand and give enough money to buy him a nice gift from them?
- If he is presented with a gift, must he stand up and thank them all?

### Parachute White Is Swim Suit Of 1944

Brightest star in the resort wear firmament this season parachute white, shown in a series of swim suits and play outfits done in crisp white cotton twill, to dramatize sun-tanned skin.

The company which shows this new collection of sportswear is engaged principally in the manufacture of parachutes for the Army Air forces. Only three numbers are included in their apparel line this year—a swim suit, skirt and sun-back dress all of the same white cotton, all designed to be worn together or separately.

Lacking laces, zippers and many of the other hitherto necessary ingredients of swim suits, this ingenious designer uses fabric stretchability to achieve the important stretchability and fit.

The clothes are functional, practical and as new as the parachutes after which they are named. They are designed for easy laundering and long wear and are destined to see service many seasons.

### Miss Millett, Tongue-In-Cheek, Offers Ideas For Keeping A Maid

By RUTH MILLETT

If you have a maid, you have a new problem on your hands—and you might as well face it.

How are you going to get your maid to and from work without having her shanghai'd en route? It's no joke. Such a thing actually happened the other day.

A woman motorist stopped and picked up another woman waiting for a bus. A few questions led to the information that her passenger was a maid on her way to work.

The woman motorist did some fast talking and persuaded the maid that she should change jobs. She did, going home with the woman motorist and telephoning her former employer that she had another job with better pay and shorter hours.

So, you see, it's a real problem, getting a maid safely to and from work.

**Taxi Is One Solution**

There are several ways you could solve it. You could save all of your gas rations to take your maid to and from work each day.

THE STORY: Dr. Gideon Planish, who gave up his position as Dean of Kinnikinnick College to accept the editorship of Rural Education, is invited to become a Director of the Heskett Rural School Foundation. He is particularly interested when he learns that its present executives are not cashing in sufficiently on the Foundation funds. He and his wife, Peony, plan to attend its Midsummer Conference in Chicago.

XVI  
THE Heskett Foundation Conference convened at the Foundation Building, and there were only 100 delegates.

At the secretarial and registrative desk of Miss Bernardine Nimrook, the Planishes met their first leaders of the organizational world. They had not experienced such handshaking, such a counterpoint of congratulatory voices, since their last Freshman Reception at Kinnikinnick.

Dr. James Severance Kitto shook hands with them as though he enjoyed it. He had a broad soft red face and a broad soft white hand, and his voice was wonderful: molasses basso with a stick of Scotch in it.

"I feel that you and I can do great things together, Dr. Kitto, and I want you to meet my wife," said Dr. Planish.

Dr. Kitto held Peony's ardent paw almost permanently; he looked at her and then he looked at Dr. Planish, and he smiled. "Right you are! GREAT things!" More satisfying, even, was the meeting with the Rev. Dr. Christian Stern, of New York, chairman of the executive board. He was a sandy-looking man in his late 30s, dry, thin and galvanic.

Dr. Planish bubbled, "It's most annoying, Doctor. I keep hearing such praise of you from everybody that goes to New York. We all get very jealous!"

"Well, well, Doctor! Is that true?" said Dr. Stern.

A crew of others, less brisk about Heskett Foundation politics yet actually more famous in the banquet world in general, made as though they were delighted to have the Planishes introduced to them. There was Maude Jewkins, M.D., who said, humorously but pretty often, that women were better doctors than men because they weren't so poetic. There was Mrs. Natalia Hochberg, of New York, who was now trying to settle a horde of violently unwilling sweatshop workers on the whole-some farm land.

There was Mr. H. Sanderson

managing secretary of the Heskett Foundation. There were wonderful things he wanted to do for the country schools, and after his experience on Rural Adult Education—

"Right-oh! I'll put it over," said George Riot. "You and I could work out some plans together. Besides, I don't see why Kitto and Stern should go on hogging the whole three million. But have you got acquainted with Hamilton Frisby?"

"I think I ran into him. What is he?"

"The real works behind the Foundation. He's trustee for the whole Heskett estate—the heirs are all imbeciles or painters or both; they live in Italy or the Berkshires and leave everything to Frisby?"

"F-R-I-S-B-Y." Peony was writing it down. "He's in the bag already, George. Hey! Put more soda in."

THE Executive Board of the Heskett Foundation met at 10:30 next morning. They decided to buy a new carpet for the auditorium, to appoint a committee to elect a chairman to authorize the secretary to draw up a resolution to inform Prof. John Dewey that they agreed with him in principle, to publish a symposium on spreading democracy by saluting the flag in all schools, and to elect Dr. Gideon Planish as managing secretary of the Foundation at \$3900 a year.

Professor Riot went to see if he would accept.

"Gid, I'm sorry as hell I couldn't jack 'em up higher than 39 hundred, but that's all the tightwads would stand for. And you getting 42 hundred already! Still, I do think this slow-poke institution might lead the way to nobler and much better publicized organizations. How about it, Gid?"

Dr. Planish said bravely, "Yes, it may be a step into a wider and more useful field. I'll take it, George. By the way, I hope they're pensioning off Bernardine Nimrook."

"Yes—11 hundred a year."

"Oh, fine! I certainly would hate to think I was doing that poor old hen out of a job."

"So I'll tell 'em the 39 hundred bucks is okay, Gid?"

"Yes, you may tell them so. I think I may honestly consider myself non-commercial," said Dr. Planish.

He had already decided that since he never actually got more than 28 hundred out of Joslin, he would take the new job even at three thousand. He continued:

"But they must understand what a sacrifice I'm making."

"I've already explained that to them," said Professor Riot.

America's Card Authority

It is safe to say that the 40,000,000 card players of the United States contribute more than \$50,000,000 per year to worthy charities through the medium of card parties. The local committees of the National Foundation for Infantile Paralysis will find card parties an inexpensive but efficient way to raise funds. Card players don't mind contributing an extra dollar or two when they have the thrill of playing a nice hand like today's.

It certainly looked as if the declarer must lose two spade and two

heart tricks. He won the opening lead with the ace of clubs, ruffed a club in dummy, cashed the ace of diamonds, led a small diamond to dummy's queen and discarded his last club on dummy's king of diamonds. Now he led a small spade and North was forced to win with the ace.

It was immaterial what North returned at this point. He did return a diamond, East ruffed with the eight of spades, South overruffed with the queen and then led a spade. Declarer won in dummy and played the jack of hearts. South won with the queen and was employed. He must either lead into the ace-ten of hearts or lead a club, giving declarer a sluff and a ruff.

## Navy Needs Skilled Workers Immediately

Faced with the stern task of sending Japs reeling back along the road to Tokyo, the Navy seeks hundreds of men with only one month of skilled trades experience to repair damaged ships at the Mare Island Navy Yard, Vallejo, Calif., according to Max Winkler, civil service representative at the City Hall, where persons may apply and receive appointment on the spot.

"Since there are not enough men to meet the demands, the Navy sends a SOS to able bodied men who will be trained at government expense and at helpers pay to accept journeyman jobs and wages as soon as possible as electricians, mechanics, machinists and shipfitters," Winkler said.

Appointees will be furnished travel to the West Coast and are assured of housing accommodations at reasonable prices.

Appointments will be made in conformance with War Manpower Commission regulations.

## Green And Lewis Hold Conference After Eight-Year Estrangement

By JOSEPH A. LOFTUS

MIAMI, FLA. —(AP)—After an eight-year estrangement, John L. Lewis and AFL President William Green have met secretly on the question of readmitting Lewis' United Mine Workers to the AFL.

Green and Lewis parted company when Lewis founded the CIO in 1935. The break was confirmed a year or so later when Lewis had Green expelled from the miners' union. After that, their speaking terms were epithets at long range.

The ultimate results, and the details, of their meeting remain to be disclosed. It cannot be called a reconciliation, at least not yet. Green refuses to discuss it. This much is known: the meeting was held in Washington recently, strictly on the off-the-record basis. The conference was not sought by Green. It was proposed either by Lewis or by an AFL intermediary who was interested in expediting the return of Lewis to the federation. It is but one evidence of great pressure being brought to bear in Lewis' favor, not only by his friends on the AFL executive council, but by leaders of AFL unions who are pressuring the council.

Lewis, of course, can get back

 in Moscow Wednesday night said the relationship between Russia and her allies — Britain and the United States — was the biggest single topic of conversation in the Soviet capital.  
 "The subject has the whole town jittery," Gilmore wrote.  
 He said the Pravda rumor had developed into the biggest political news in Russia since the beginning of the war, excepting perhaps the Tehran conference, and that foreign observers were disturbed by the situation—chiefly because they did not know what to make of it.  
 Russian newspapers have informed their readers of the British denial of the Pravda rumor, but the Soviet government has remained silent.

 perfected plans for its War Bond premiere, "Guadalcanal Diary," Feb. 9. Tickets are being distributed by War Bond issuing agents to all bond purchasers.  
 Citizens who purchase bonds before Feb. 9 will be presented tickets when they make purchases. "A Bond for Every Seat" is the slogan of motion picture theaters.  
 Ulmer, Hendrickson and Klapproth addressed the workers at the breakfast.  
 Klapproth asserted it is the "individual responsibility of every citizen to buy bonds to the limit of his financial ability."  
 Ulmer explained the bonds, interest rates and other details and called on all Americans to have "faith and confidence in government securities." He said the government controls the money market and will see that investors do not lose.  
 Mayor Hendrickson described the campaign as a "test of the nation," and called on Midland to exceed its quota as it has done in all other drives.

 major barriers to the Baltic states. Seven German divisions were smashed before Leningrad, the Russians announced. Peterhof, summer home of the czars 15 miles southwest of the city, fell. Krastnoye Selo and Ropshcha, two of the strongest fortress towns before the city, were overrun. A thousand Germans surrendered. Some 36 of the six to 16-inch guns which had lobbed shells into Leningrad for two years were among the 195 guns captured.  
 The artillery of the naval base of Kronstadt in the Gulf of Finland and the naval rifles of the Baltic Fleet joined the Russian land forces and the skyfall of Stormovik bombers in a cacophony of explosions which chased the Germans from their forts or killed those who remained.  
 Enemy lines had been laid open for 30 miles in the sector north of Novgorod and through this avenue, the Russians plunged 19 miles. Farther south, more villages were taken near Novosokolniki. On the First Ukrainian front, Vatutin's men took Goshcha, 18 miles from the old Polish rail center of Rovno. The German announcement of the evacuation of Novgorod said fighting continued "with unabated violence" south of west of Leningrad.

Boxing Is Lauded And Lambasted

NEW YORK (AP)—Boxing began to count noses Thursday after one of its biggest stock-taking jobs, and the score card showed praise for the nose-mashing industry as the "place where democracy works best" and a warning that it's time to get "politics out of the fight game."

These bouquets and bolts-in-the-eye were tossed around Wednesday night by a collection of such experts as former Mayor Jimmy Walker, National Boxing Association President Abe Greene and Ring Magazine Publisher Nat Fleischer.

The tussling was done at the annual award dinner of the Boxing Writers Association of New York, at which the Edward J. Neil Memorial Plaque was presented to the 4,100 boxers in the armed forces in appreciation of what they've done for the sport of smashing skulls.

Greene and Fleischer both pleaded to have control of the sport free from politics. Fleischer, after receiving an award from the boxing writers for long service to the sport, reviewed recent appointments to the New York State Athletic Commission and maintained that governing bodies should include men who know boxing and not men named to commissions "merely because of their political significance."

Both he and Greene suggested that one way to iron out this matter would be to have regular boxing writers—"men with practical experience"—named to every boxing commission in the country.

Numerically Large Baseball Teams May Lead Pennant Race

NEW YORK (AP)—If there's safety in numbers—and some of baseball's best minds figure that there is—numerical strength may have an important bearing on the 1944 pennant races.

The way the "brains" reason is that the clubs controlling the greatest numbers of players will have the best chances of securing replacements when their regulars go marching off to war.

Right now, the Cubs, with 36 players on the active list, and the White Sox, with 35, are the best fixed. Washington, with 32 players now available, expects to fill its roster to the limit of 40 men before spring training starts.

As Washington's Clark Griffith pointed out, this year's squads differ from the usual spring training groups in that they're composed largely of slowed-down veterans and untried rookies.

In pre-war years most clubs filled their camps with the 40 men they are allowed under contract, plus a lot of minor leaguers who came in for trials.

Most of the clubs would be glad to try out promising youngsters, but Brooklyn's Branch Rickey remarked: "Not many are the kind to take to a major camp. Even some of the men we have now aren't too hot."

Angelo Grid Champs Honored By Board

SAN ANGELO (AP)—The San Angelo school board Wednesday paid tribute to its state football champions, all of whom soon will be on Uncle Sam's team as fighters for Old Glory.

After the team had gone on record as favoring the plans of the bulk of its 1943 profits in War Bonds, the school board approved the purchase of \$15,000 worth.

Sports Roundup

By Hugh S. Fullerton Jr.

NEW YORK (AP)—Following up Prexy Abe Greene's recent blast at Sammy Angott and Beau Jack for having at least one of their world lightweight titles on the line in their fight here next week, Col. Heinie Miller, executive secretary of the National Boxing Association, Thursday pointed the finger at the promoters for staging such affairs.

The colonel wisely figures that the customers can't be blamed for going to see a good scrap even if there is something ridiculous about the situation. It seems from here that the NBA has a remedy in a simple declarative sentence: "The NBA will consider this as a championship bout. It might be a technical violation of the rules, but they're natural lightweights and once they knew the title would be at stake, regardless of weights, the promoters, managers, etc., would get busy and make it a real championship fight."

SHOE MERCHANT FACES Solomon Twin Riddle

PUEBLO, COLO. (AP)—A shoe store manager wonders what Solomon would do:

Two women saw the "very pair" of shoes at the same time and each grabbed one. When the manager arrived each demanded that the other relinquish the mate.

The manager stared helplessly as they sat for three hours, each firmly grasping a shoe.

Finally he prevailed on them to leave the shoes while he ponders a solution.

Only One Letterman Left, Aggies Hope To Rebuild Team

COLLEGE STATION (AP)—Only one letterman returned, but Texas A&M College hopes to build, from the ground up, a track and field team which will repeat as Southwest Conference champions.

And, Coach L.J. Dimmitt announced, the schedule this year will include the Border Olympics at Laredo, the Southwest Exposition meet in Fort Worth and meets with the University of Texas and Rice Institute.

Unless some outstanding performers develop, however, the Aggies will not participate in the Drake Relays or other Midwestern meets, Coach Dimmitt said.

The lone letterman to return to the Aggie fold is Steve King, jumper and pole vaulter.

Longhorns Beat Baylor, 54-29

By The Associated Press

The University of Texas Longhorns added an easy one to their untarnished record of victories when they trounced the Baylor Bears, 54 to 29, in Waco Wednesday night.

Four games are on an lay for Southwest Conference fans during the week-end.

Southern Methodist's high-ranking Mustangs are scheduled for one more workout Thursday before enrouteing for Fayetteville, Ark., where they will attempt to edge ahead of the powerful Borkers for a second place spot in the conference standings.

They play in the Arkansas gymnasium Friday and Saturday nights. Both teams have lost one game each, but Arkansas has won three and SMU two.

Texas Christians invade Gregory Gym at Austin Saturday night to battle the Longhorns, and Rice and Texas A&M battle at College Station.

Added Weight May Aid Flyin' Charley

SAN ANTONIO (AP)—Flyin' Charley Parker, the schoolboy track sensation, isn't promising he'll better any of his marks this year but if he does it will be because of added weight.

Charley won't have to surpass his 1943 performances much to hang up world records because he already is national scholastic king in the 220 with a 20.6 timing and he raced the 100 in 9.5.

"I could not say whether or not I will better any of my 1943 records," said the "Pony Express" now in his final season at Thomas Jefferson High School. "If I do, I would say a lengthened stride caused by added height would be accountable."

Parker is 17-years old and is 5 feet 9 1/2 inches. He has gained exactly one pound over last year, weighing in at 147.

Tris Speaker Doubts Major Leagues Can Operate This Year

CLEVELAND (AP)—Tris Speaker, one of the original electees to baseball's hall of fame at Cooperstown, N. Y., is doubtful about the major leagues' ability to operate this year.

Now a member of a draft board, the famed Gray Eagle said he "would like to see baseball go on and if it can overcome the man-over handicaps more power to it. But, I'll have to be shown."

Speaker doesn't want anyone to lecture from his statement that he's lost his enthusiasm for the game. But he's pessimistic about the coming season.

"They played last year with a lot of 3-A's and a few 4-F's," he explains. "This year there won't be any 3-A's. The boys will either be 1-A or they'll be given 2-A or 2-B deferments because of jobs contributing to the war effort. If they leave those jobs to play ball they'll be 1-A so quick it'll make 'em dizzy."
