

CONQUEST OF OKINAWA ENDS

Germans Planned Third World War

WASHINGTON—(AP)—A Senate committee said Thursday it has obtained secret German documents showing how the Nazis intend to "hide" in strategic industries while planning "a third attempt at world conquest."

The announcement was made by Chairman Kilgore (D-W Va) of the War Mobilization Subcommittee of the Senate military group.

Kilgore said his committee will open hearings Monday "on the economic base for German aggression" and that additional facts will be brought out. The announcement contained a report on a meeting of German industrialists at Strasbourg, Aug. 10, 1944, intended to make postwar plans.

"Masquerading as neutral businessmen without political allegiance, the German industrialists have already conceived vicious plans for a third attempt at world conquest," Kilgore said.

The document on the secret meeting quoted a Dr. Scheid, as saying that "each industrialist must make contact and alliances with foreign firms, but this must be done individually and without attracting suspicion."

At another meeting, Kilgore said, the Nazis told the industrialists that the war was lost and "they must prepare themselves to finance the Nazi party which would be forced to go underground."

It was suggested further that the big firms set up small research units not connected with their factories, adding:

"These bureaus will receive plans and drawings of new weapons as well as documents which they need to continue their research and which must not be allowed to fall into the hands of the enemy."

New Prospectors Staked In Yoakum And In Hockley

By JAMES C. WATSON, Oil Editor

Locations for wildcats in the vicinity of recently discovered new possibilities of production in Southwest Cochran and in West-Central Hockley Counties have been reported.

Gulf Oil Corporation No. 1 F. W. Frost, 660 feet from north and west lines of section 35, block 23, Job H. Gibson survey, is staked as a 5,100-foot exploration in extreme Northwest Yoakum. It is approximately one mile east and one mile south of Stanolind Oil & Gas Company No. 1 Edwards, in section 13, block 1, ps1 survey, in Southwest Cochran County, now drilling out plastic plug, to replace with a cement stopper, to try to eliminate bottom hole water from zone at 5,085.5-96 feet.

North of Production The Texas Company No. 1 Ira P. DeLoache, 482 feet from north and west lines of labor 21, league 78, Reeves County School Land survey, is a 5,000-foot wildcat in West-Central Hockley County. It is two miles north of same company's No. 1 Coble, nearest of the two completed pumps in the Levelland field, and is about two miles west and one-quarter mile south of center of Texaco's No. 1 Butler, now in process of completion from the San Andres-Permian pay section.

Two More Devonians Extension projects for Devonian producing districts in West Ector County and in Northwest Andrews County are to drill immediately.

Mid-Continent Petroleum Corporation No. 3-ATXL, 660 feet from south and west lines of section 17, block 45, TP survey, T-1-S, one location south of same company's No. 2-ATXL, is the Ector County development and is in the TXL Devonian field. It will drill to 3,500 feet or pay above that point.

Stanolind Oil & Gas Company No. 1-CC University, 660 feet from north and east lines of northeast quarter of section 30, block 13, university survey, is one location south and one location west of nearest producers from the Devonian in the Fullerton Devonian field in Northwest Andrews. It is contracted to 2,750 feet.

In Runnels County E. S. Price No. 1 B. N. Wilke, south of production in the Beddo field in East Runnels County is reported as a new cable tool prospect to 3,500 feet. It will be 731 feet from south and 5,101 feet from east lines of section 1, on which designation of block has not been learned.

The Atlantic Reining Company No. 1-A University, East-Central Crane County Devonian discovery in section 33, block 31, University survey, ran fourth consecutive drill-stem test in the lower section of the Devonian and for fourth time (Continued on page 6)

United Nations Charter Designed To Provide Peace

By JOHN M. HIGHTOWER SAN FRANCISCO—(AP)—A charter embracing the views of 50 United Nations was wrapped up Thursday into a world document designed to maintain peace.

President Truman, now taking a brief holiday in Washington state, will bring the United Nations Conference to a formal close with a speech on international affairs Tuesday afternoon.

Until that time the delegates of the 50 nations represented here will be busy with a variety of technical problems and speechmaking sessions. But the real work of the conference is accomplished.

A committee approved an Australian-Russian compromise empowering the proposed general assembly of nations to discuss and make recommendations on any question "within the scope of the charter" written here.

To Sign Charter Monday This ended a long struggle by small nations to make the assembly a "down meeting of the world" potentially capable of exerting the pressure of public opinion on the Big-Power-controlled Security Council, even though it could exercise no control over the council directly.

The President will arrive Monday in time for the signing and will remain through the closing session about 24 hours later. When he leaves, he will take the charter with him to submit to the Senate with a plea for speedy ratification.

More Prospecting For Oil Reserves Is Urged By Mattei

WASHINGTON—(AP)—A program to encourage prospecting for new oil reserves, under which the power of the Secretary of the Interior would be limited, was advocated Thursday by A. C. Mattei, president of the Honolulu Oil Corporation of San Francisco.

Mattei recommended to a special Senate committee investigating petroleum reserves that the United States in leasing land should "go into the oil business by endeavoring to tell its lessees, when, where, how deep and how many wells shall be drilled and by substituting his judgment."

He said he would ban the "onerous" leasing provisions which "virtually place the secretary of the interior in possession of the capital of the lessee and which have hindered prospecting and 'catalyzed' in an almost complete revolt of the oil industry."

Contending "the war has demonstrated beyond doubt that the naval reserves (Elk Hills, Buena Vista, and Teapot Dome) are inadequate," he urged improved federal policies to encourage a "healthy" industry to make new discoveries.

President Truman Says Ickes Will Stay

OLYMPIA, WASH.—(AP)—President Truman Thursday praised the work of the San Francisco conference, promised the great situation would be straightened out and denied reports of contemplated removal of Interior Secretary Harold L. Ickes.

In a press conference, the President also expressed gratification over the Senate's approval of legislation extending the trade agreement program with further tariff lowering authority.

Thousand Veterans Return From Pacific

PORTLAND, ORE.—(AP)—A thousand veterans of the Asiatic-Pacific theaters of war are enroute home—many of them for the first time in the early days of the war.

The soldiers, who disembarked from a transport here June 19, are being sent to reception centers in all parts of the country to be given furloughs or discharges.

Reciprocal Trade Legislation Passed

WASHINGTON—(AP)—The broadened, extended reciprocal trade legislation which President Truman called "of the first order of importance for the success of my administration" was his for the signing Thursday.

The Senate passed it by a vote of 54 to 21.

Warns Travelers

With 50 per cent less Pullman space available and 10 to 20 per cent fewer coaches, ODT Director J. Monroe Johnson, above, warns that the pinch on civilian railroad travel, already begun, will become more severe. Increased troop movements from the Atlantic to Pacific may even force travel rationing, he said.

Twelve Poles Are Convicted By Red Court In Moscow

MOSCOW—(AP)—Twelve of 16 Poles accused of subversive activities behind Red Army lines were convicted by a Soviet court early Thursday and given sentences of from four months to ten years in prison. Three were acquitted and the trial of another was postponed.

The heaviest sentence—10 years—was imposed upon Maj. Gen. L. Bronislav Okulicki, commander of the underground home army after the ill-fated Warsaw uprising.

Jan Jankowski, deputy prime minister of the London Polish government-in-exile and leader of the Polish underground movement, was sentenced to eight years imprisonment.

(The Moscow radio, heard in London, said no appeal from the sentences is permitted.)

Three Are Acquitted Expressions of great relief were on the faces of those acquitted—Stanislaw P. Michalowski, J. H. Stember-Dombrowski and K. S. Koblyanski.

One defendant, Anton Paidak had been too ill to attend the trial and he will face the court later.

The other sentences included: Adam Bien, president of the Peasant Party and assistant to the chief of the underground council of ministers, five years.

Stanislaw Jasukowicz, president of the National Democrats and minister in the underground government, five years.

Kazimir Puzhak, general secretary of the Socialist Party, one and one-half years.

Alexander Zweczewski, chairman of the National Democrats, a year and eight months.

Black Hawk Division Texas Members Will Soon Be At Homes

PORT WORTH—(AP)—Home for 30 days was virtually within the grasp of half a thousand 86th Division Black Hawk warriors from Texas who were due to arrive at the Fort Sam Houston personnel center at San Antonio Thursday after their long journey from European battlefields.

The group, a segment of the first combat division to be deployed from Europe to the Pacific by way of the United States, passed through here aboard a special train Wednesday.

A second section bearing another 400 Texans from the Black Hawk Division was to follow Thursday. The men will be processed quickly and probably will be enroute to their homes for 30-day furloughs of the state by late Thursday or early Friday.

A similar group is to be processed through Fort Bliss at El Paso. After their furloughs, they are to reassemble at Camp Gruber, Okla.

Bus Service For Midland Starts Soon

Midland soon will have a city bus line. The City Council heard two proposals at its meeting Wednesday afternoon for establishment of a transportation system here and voted to take definite action at a session Friday afternoon.

Since more than 90 days is required to grant a franchise, the council voted to allow the operator to begin service under a temporary permit until the franchise can be enacted.

Ivan Irwin, bus line operator at McKinney and Mineral Wells, and R. F. Duffield, Midland oil operator, appeared before the council and explained schedules they plan if they are given the franchise. They said they had the equipment to begin operations immediately.

Two Proposals Otis Kelly told the council he could obtain buses immediately and explained his plans for schedules.

Both of the schedules submitted will serve most of the thickly settled sections of the city.

Mayor A. N. Hendrickson and members of the council wanted more time to study the two proposals to determine which would best serve the citizens of Midland, and voted to postpone definite action until Friday.

Humble Still Operates Plant

CORPUS CHRISTI—(AP)—Government seizure of the Humble Oil and Refining Company's refinery at Ingleside, Texas, was expected Thursday. Representatives of the Petroleum Administration for War have arrived here.

At Galveston Wednesday, Federal Judge T. M. Kinnerly denied an application by Humble which asked for a permanent injunction restraining the government from taking over its octane refinery.

President Truman June 6, ordered the plant seized by the PAV but the same day the company obtained a temporary order in Federal District Court against the seizure.

Reports from Ingleside said the plant was maintaining normal production.

The seizure was recommended by William H. Davis, director of economic stabilization, who said it stemmed from refusal of the company to carry out a War Labor Board directive.

The WLB had directed a maintenance of membership clause be made effective at Ingleside in a contract between Humble and refinery workers.

Casualty Lists Increase 6,356

WASHINGTON—(AP)—United States battle casualties in World War II now total 1,023,453, an increase of 6,356 from those reported a week ago.

The Army casualties reported Thursday represented the period extending through the greater part of May and the increase apparently represented mainly Pacific action.

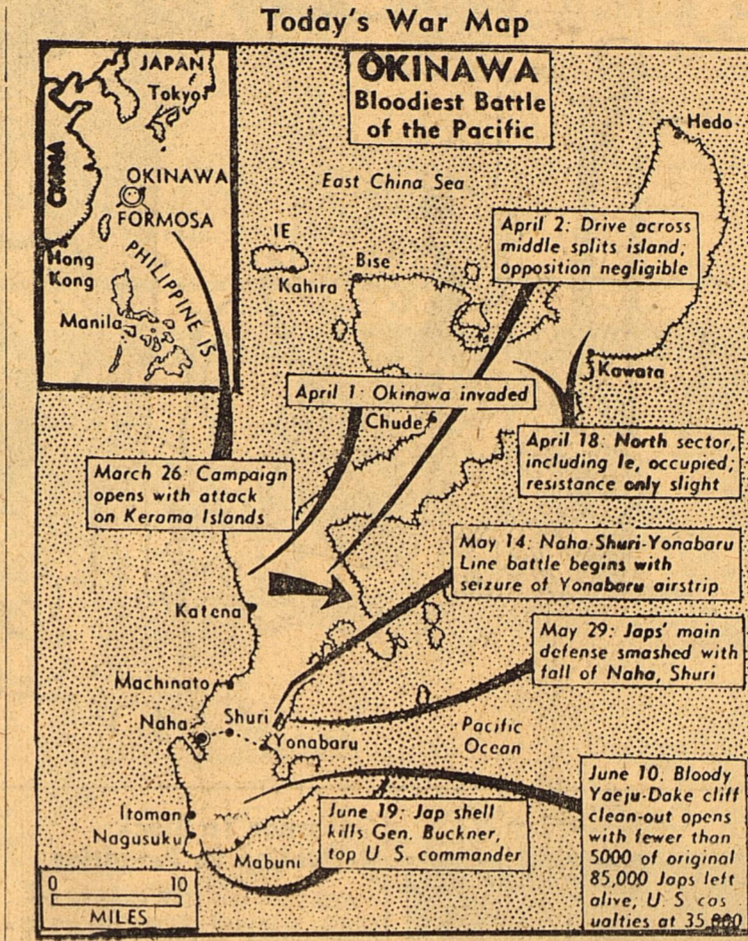

Of the total, 993,700 are Army casualties and 10,752 Navy.

War Bulletins

CHUNGKING—(AP)—Chinese troops converging on the former American air base city of Liuchow have joined forces six miles southwest of the rail and road junction and another force from the west has reached a point 10½ miles away on the Kweichow-Wangsi railroad, the Chinese high command announced Thursday.

CALCUTTA—(AP)—British 14th Army troops have occupied the village of Paukkaung, 22 miles east of Prome, and fighter planes of the air command started several fires in an area believed to contain Japanese forces south of the village.

BRUSSELS—(AP)—Paul Van Zeeland, former prime minister and a staunch Royalist, appeared Thursday to be King Leopold's most likely choice to attempt to form a new government.

The Battle of Okinawa now heads the list of bloody Pacific Island operations, with 10,000 Americans killed and 25,000 wounded against more than 80,000 Japs killed. Inset shows initial attack on Kerama Islands, while the large portion shows invasion of Okinawa and stages leading to mopping-up operations in the Yaeju-Dake area.

WAR AT A GLANCE

By The Associated Press

● OKINAWA: Admiral Nimitz announced the battle of Okinawa won after 82 days bitter fighting.

● PHILIPPINES: Gen. Joseph Stilwell appointed commander of Tenth Army. Ilogan Cagayan Valley captured with nearby airstrip.

● BORNEO: Australians effected landing north head, Brunei Bay.

● CHINA: Chinese pressed Japanese withdrawing northward along coastal highway from abandoned Port Wenchow.

Dorothy Williams Is 'Miss Midland'

Miss Dorothy Williams, 19-year old blond, was chosen "Miss Midland" by judges at the Yucca Theater's War Bond show Wednesday night to represent the city at Orange in the contest to select a "Miss Texas." She will be sent to the state contest by the Midland Junior Chamber of Commerce.

Miss Williams is employed by the Superior Oil Company. A large crowd was present to witness the screen show and learn the identity of "Miss Midland." Elmer Adams was master of ceremonies for the event.

J. Howard Hodge, manager, announced that persons who attended the show purchased \$26,094.25 worth of War Bonds in the theater's bond booth.

Jap Machine Gunner Killed Gen. Easley

WITH U. S. 96TH DIVISION ON OKINAWA—(AP)—In a front line setting of bursting mortars and flying bullets which was his daily background, Brig. Gen. Claudius M. Easley, assistant commander of the 96th Infantry Division, was killed Tuesday by a Japanese machine gunner.

Easley was killed less than a day after Lt. Gen. Simon Bolivar Buckner Jr., Tenth Army commander, was killed by a shell fragment.

General Easley, a Texan whose home was in Washington, made personal bravery and excellent marksmanship his code.

Easley has been in the Army since he was commissioned a second lieutenant of Infantry in 1917 after graduation from Texas A&M College.

Flame-Throwing Tanks Burn Japs Out Of Suicide Pockets

By LEONARD MILLEMAN Associated Press War Editor Conquest of Okinawa Island officially ended Thursday, while flame-throwing tanks were still burning Japanese out of suicide pockets.

The 82-day campaign was the costliest of the Central and Western Pacific. More than 90,000 Japanese were killed or captured.

Americans killed since U. S. total casualties of 35,116 were announced a month ago included two generals—Lt. Gen. Simon Bolivar Buckner Jr., Tenth Army commander, and Brig. Gen. Claudius M. Easley of the 96th Division.

Gen. Joseph W. Stilwell, veteran of China and Burma, will take over command of the Tenth Army.

Gen. Stilwell Will Command U. S. Tenth Army

By SPENCER DAVIS MANILA—(AP)—Gen. Joseph W. Stilwell, switched from his post as chief of Army Ground Forces to the Pacific, has been selected by Gen. Douglas MacArthur to command the U. S. 10th Army now mopping up on Okinawa, it was announced Thursday.

The veteran Japanese fighter's transfer to the Pacific Ocean area theater and his appointment to the command vacated by the death in action on Okinawa of Lt. Gen. Simon Bolivar Buckner Jr., was announced from MacArthur's headquarters.

The assignment culminated a series of conferences among Stilwell, MacArthur and other field commanders in the Pacific area recently, and it is assumed he will take over the Tenth Army as soon as he can get there.

Knows Japs Tactics MacArthur as commander of the arm forces in the Pacific has overall jurisdiction of the Tenth Army, but the Okinawa campaign was under Adm Chester W. Nimitz and under the operational control of the joint chiefs of staff.

Lt. Gen. Roy S. Geiger, a Marine general, now is serving as a stop-gap commander of the Tenth Army in the mopping up operations on Okinawa.

Stilwell, known as "Vinegar Joe," knows the enemy as do few other field commanders. After his long and distinguished service in the Burma-China Theater, he was known to have been anxious to take another crack at the Japanese as a field commander.

Kansas City Welcomes General Eisenhower

KANSAS CITY—(AP)—General of the Army Dwight D. Eisenhower and 53 members of his official party returning from Europe came home Thursday to his native middle-west to receive a tumultuous two-state homecoming celebration and greet his 83-year old mother, Mrs. Ida E. Eisenhower, of Abilene, Kan., and four brothers. The general's plane landed at Municipal Airport at 12:15 p. m. CWT.

Red, white and blue bunting stirred in the breeze on Grand Avenue where the general will ride in a colorful ten-block-long parade. The sky was cloudy and early rain was forecast, but officials have prepared for a crowd of from 150,000 to 200,000 people.

Kansas City's stores and many business houses and government offices will close for the parade. Thursday night the whole Eisenhower clan, some 65 of them, will assemble for the first complete family reunion in 20 years. This will be at Abilene, Kan., the general's home, where he will go by special train late Thursday after the Kansas City parade and celebration.

Two Killed In Air Collision

GALVESTON—(AP)—Lts. Harold H. Moore of Athens, Ohio, and Stanley A. Reese of Hazlet, Minn., were killed Wednesday when their planes from the Galveston Army Air Field collided in flight near the field.

Shower Falls Here But Is Not General

Rain began falling in Midland early Thursday and Midland's were hopeful the drought in the county was broken, but the shower fell in a limited area.

A telephone survey made by the Midland County AAA office indicated few farms or ranches of the county received rain. Less than 91 of an inch was reported at Midland Army Air Field. A fairly good shower fell at Midland Municipal Airport. Some hail was reported in the northwest section of the city.

The shower sent the mercury down to 70 degrees at 3:30 a. m. Wednesday's maximum temperature of 92 degrees was registered from 5:30 to 7:30 p. m.

Weather Forecast for 50-Mile Radius of Midland Cloudy Thursday afternoon with thunderstorm activity over the area all night. Hail likely. Cloudy Friday.

Expendable Scientists

From time to time in the past year there have been warnings of a growing shortage of students in the fields of science and technology, and of the serious long-range dangers that may be expected in consequence.

These warnings have been issued piecemeal by leaders in various scientific professions. Now comes a joint report by the American Council on Education and the National Research Council, covering the entire subject of this war-inflicted deficiency. And while the separate earlier warnings were disquieting, it must be said that the impact of the whole situation is greater than the sum of its parts.

The report indicates that if present enrollment rates in medical schools continue, there will be 19,000 fewer doctors for civilians after the war than before. It states that although an annual enrollment of 3,000 new dental students is estimated to be necessary for the country's needs, our dental colleges expect only 360 freshmen this year.

In other fields the situation seems quite as alarming. The college enrollment of student engineers is 64 per cent below the 1939-40 level; the enrollment in pharmacy is off 73 per cent; in mining, 84 per cent; in agriculture, 89 per cent; and in forestry, 91 per cent.

A long and total war such as this is tremendously depleting to a country's resources, whatever its military fortunes. The nearness of victory increases, rather than lessens, its demands and depletions.

Yet there is evidence that our military authorities have failed to recognize these obvious facts. Not only have the pleas of educators and scientists for an adequate nucleus of present and future replacements gone unheeded, but there have been conflicts with civilian government agencies over replacement materials for such basic war essentials as transportation, farm machinery, and heavy industrial equipment.

Russia, Britain, Canada and other Allies, the joint report points out, have not only maintained but in some instances increased their reserve of technical and scientific students. Our government has not done this. On the contrary, it has cut deferments sharply and increasingly curtailed college training under military auspices.

This policy may be short-sighted for the present as well as the future, since modern war can use almost all the scientific training needed for peace. And it will certainly increase the war's price if, after winning the war, we find ourselves with inadequate health protection, and an inadequate body of trained scientists to maintain and advance our domestic prosperity and our world position.

Some of that added price seems inevitable. Yet it is not too late for the military to moderate its apparent insistence upon throwing the country's entire reserve of potential scientists into the front line of battle and thus jeopardizing the attainment of a victorious peace.

What's The Score?

Reports from the Southwest say that grain elevators are filled and part of the new wheat crop is being dumped because of lack of transportation from elevator to miller.

The Office of Defense Transportation says that the railroads are carrying more grain now than at the comparable period last year, and that the situation is well in hand.

Somebody seems to be wrong, and everybody seems to be confused. And this isn't the first instance on the wartime food record when those concerned didn't know what the score was.

Perhaps the score will be kept better when Rep. Clinton Anderson assumes his new double job of Secretary of Agriculture and War Food Administrator. The job merger should help. And it will help more if Anderson can manage to maintain a closer liaison with the various agencies who seem to be going their separate ways in trying to solve the increasingly perplexing problem of getting food out of the fields and off the range and onto the wartime table.

The Bill For War

None of us can appreciate the actuality of a trillion dollars, which American University researchers estimate is the cost of the war to date. But the least imaginative of us can take that inconceivable figure, add the destruction of public and private property which the estimate does not include, and add to that the yet-unaccounted millions of lives lost since Sept. 1, 1939.

The result will not give us an accurate total, but it will give us an inescapable conclusion: Civilization cannot again indulge in such staggering, insane extravagance and survive.

The house shortage has convinced plenty of people that there really is no place like home.

A revolving house to catch the sun's rays may come after the war. It'll be nice when we can all go around together.

My, My! What Beautiful Teeth It Has!

Japan Invasion To Be Broader In Scope Than Normandy Stab

By J. M. ROBERTS JR.
AP Foreign Affairs Analyst

The Tokyo radio, broadcasting as though it had something new, devalued Thursday from its recent fretting over imminent invasion to record that the United States has started long and complicated preparations against Japan.

Clean-up operations are proceeding throughout the Pacific while the invasion preparations go forward.

From past performances we can expect the staging period to last for several months. Then, because of the distance from Luzon, the only staging area we now have which is capable of supporting millions of men, it may be necessary to enclose another staging area, so to speak, in Japan proper. This would be comparable with the establishment of the Normandy beachhead, except that in the Japanese Islands it might take on more of the aspects of two separate invasions and therefore require more time.

This is indicated by the fact that Okinawa is hardly large enough to base forces of the size which will be involved. The initial invasion of Japan, for various reasons, is likely to require considerably more men than did Normandy. Okinawa seems destined to become one big aircraft carrier, too crowded for a large army, although it may prove a big help as a jump-off point for certain short-range forces.

Take it that several months will be consumed in invasion preparation, that the campaign in Japan will take longer than the one in Europe because it probably will be divided into two major steps, and we have a war which, discounting the possibility of a political termination, will run as well into 1947.

Seventh War Loan Nears Large Goal

WASHINGTON — (AP) — It appeared Thursday that the \$14,000,000 goal of the 7th War Loan drive is about to be passed with few hurrahs and no let-up in bond-selling efforts.

Treasury officials say there's still far too much work to be done for celebrations now.

The biggest task of the drive is to borrow a record-breaking \$7,000,000,000 from individuals—\$4,000,000,000 of it in the form of Series E Bonds bought by small investors. And that task is a long way from being finished.

The Treasury announced individual sales amount to \$5,063,000,000 but E-bond sales are at only \$2,723,000,000.

The corporation sales figure is \$6,379,000,000, so close to the \$7,000,000,000 corporation quota that it is certain to go over the top Thursday and keep on going.

The drive officially ends June 30, a week from Saturday. Bond

Escaped Prisoner Gets Homesick

SALT LAKE CITY—(AP)—"I had not been out 15 minutes when I realized I'd made a mistake," Adelbart Budshun, 22, told Warden John E. Harris of the Utah Prison, when he phoned from Ogden, Utah, after his escape Monday.

Budshun volunteered to return to prison to save guards a trip. At 4 a. m. he appeared at the prison gates.

money processed after that will count toward the drive through July 7.

Governor To Block Reduction In Penalties
AUSTIN—(AP)—Gov. Coke R. Stevenson indicated Thursday he intends to veto a bill passed by the 49th Legislature reducing penalties for conviction of keeping or exhibiting gambling devices.
At a press conference the governor said he feared the effect of the bill might be to encourage operation of gambling establishments.
The present penalty is two to four years in the penitentiary. The new legislation, by Rep. T. R. Bond of Terrell, levies a penalty of not more than two years in prison or up to 90 days in jail or a fine of \$50 to \$500 or both a fine and a jail sentence.

Now She Shops "Cash and Carry" Without Painful Backache
When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder.
Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

Life Sentence For Vernie Rogers
HILLSBORO—(AP)—Vernie Rogers was convicted by a jury Wednesday night on charges of murder with malice in the death of his wife, Donnie, at Mertens, last April 29. He was sentenced to a life term in the penitentiary.

MARY E. HANNON IS NAMED HONOREE OF BRIDAL SHOWER

A bridal shower honoring Miss Mary Elizabeth Hannon, bride-elect of Lt. Roger D. Eger of the Big Springs Army Air Field, was held Tuesday evening at the home of Mrs. W. H. Denson, 805 North D Street. Hostess for the entertainment was Mrs. Velma Wallace.

Guests calling during the evening were Misses Sammie Gard, Myrtle Duncan, Opal Franks, Prudence Woodward, Margaret E. Jones, Polly Neville, Pat Baker, Vinnie Heizer, Alice Mattix, Betsy Hyer, Hazel Hannon, Nita Owens, and Mmes. J. E. Bucher, Irene Redding, Annabell Walker, Helen Hewitt, R. L. Danton, J. A. Andrews, Nedene Mitchell, H. L. Eynette, Juanita Hicks, J. H. McClure, Raschel Pollock, Russell Larson, W. T. Fields, Doris L. Mickey, Delores Hoyal, Stan Houser, W. H. Heasley and DeSton.

Murphey Returns From Buying Trip

Henry Murphey of the Grammer-Murphey Women's Wear Store has returned from a buying trip to eastern markets.

Murphey said the market was still tight but he had been able to obtain some high quality merchandise for his store.

Take Off Ugly Fat With This Home Recipe

Here is an inexpensive home recipe for taking off unguainly weight and help bring back alluring curves and graceful slenderness. Just get from any druggist, four ounces of liquid Barcol Concentrate. Add enough grapefruit juice to make a pint. Then just take two tablespoonsful twice a day. Wonderful results may be obtained quickly. Now you may slim down your figure and lose pounds of ugly fat without back breaking exercise or starvation diet. It's easy to make and easy to take. Contains nothing harmful. If the very first bottle doesn't show you the simple, easy way to lose bulky weight and help regain slender, more graceful curves, return the empty bottle and get your money back.

Luncheon For Star Club Held Wednesday At Cuvelier Home

Mrs. John Cuvelier entertained with a luncheon Wednesday at her home, 1410 West Indiana, honoring members of the Star Club. A colorful scheme of blue and gold was carried out in the floral arrangements, napkins, and table cloths. Silver and crystal appointments were used.

Following the luncheon, a short business session was held, under the direction of Mrs. Dennie Stephenson, vice president, in the absence of the president, Mrs. Dobson, who is ill at Aransas Pass, Texas. A new member, Mrs. Zona Lee Caple, was voted into the club. After a letter was read from Mrs. Dobson, members voted to furnish a room at the Eastern Star Old Folks Home at Arlington, and to have one meeting each month during the summer.

Schedule Arranged

The schedule for the summer meetings: July 18, basket picnic at Cloverdale Park; Aug. 15, luncheon at the home of Mrs. P. P. Barber, 1004 West Michigan; and Sept. 5, meeting with Mrs. J. P. Inman, 210 West Louisiana.

Those present were: Mmes. Mary Leo Baldrige, H. E. Skipper, Lee Thomas, Fred Wycoff, Minnie Crumley, M. L. Wyatt, J. P. Inman, L. C. Stephenson, John Ficke, Juanita Collins, Bertha Jones, M. A. Floyd, Norah Barber, J. Wayne Campbell, Sybil Frum, Esther Templeton of Odessa and the hostess, Mrs. Wycoff presented the Star Club prayer.

TO SPEND SUMMER HERE

Miss Dorothy Watson, student at the University of Texas, returned to Midland Wednesday to spend the summer with her parents, Mr. and Mrs. James C. Watson.

In the course of a year, the average man speaks 11,000,000 words.

Miss Julia Parker Becomes Bride Of Cpl. R. A. Lisman

The marriage of Miss Julia Parker, daughter of Mr. and Mrs. Guy Parker of Eastland, Texas, and Cpl. Richard Ansel Lisman of the U. S. Army Air Forces, son of Mr. and Mrs. C. V. Lisman of Midland, was solemnized Saturday evening in the First Methodist Church in Eastland. The Rev. L. Durwood Fleming, pastor of the church, read the wedding vows.

Preceding the ceremony, Miss Martha June Morehart, organist, played Schubert's "Serenade," and accompanied Miss Virginia Garrett of Abilene, who sang "Because." With Miss Morehart at the organ and Miss Wilda Drisco at the piano, Miss Alma Williamson gave a viola solo, "Ave Maria." Organ medleys formed a musical background as the impressive single ring ceremony was read.

The bridal aisle was laid with a white carpet, and cluster bows of white ribbon marked the seats where wedding guests assembled. At the end of the aisle, white gladioli and fern formed a bridal altar which was flanked by baskets of gladioli and tall white standards holding white tapers. Woodvardia fern and smilax formed a background for the altar.

Mr. Parker gave his daughter in marriage. She wore a gown of white marquisette with self shirring used on the elongated bodice and short sleeves. The flaring skirt, with bands of Chantilly lace ended in a long train and her finger tip veil of matching illusion fell from a Mary Stewart halo trimmed with orange blossoms. She carried a white Bible, topped by orchids and a cascade of white satin streamers.

Miss LaVern Dowtain of Fort Worth, aunt of the bride, was maid of honor, and Mrs. Clyde Hall of Lubbock was matron of honor. They wore matching gowns with fitted bodices and full skirts, and carried bouquets of pink and white carnations.

The bridegroom's attendants were his father, who served as best man, and June Bryant of Eastland. Ushers were Misses Betty Lane, Elaine Crossley, Patsy Sparks and Mrs. Billy Jack Parrish.

An informal reception was held following the ceremony on the terrace of the Parker home. Centering the bride's table, laid with a white linen cut-work cloth, was a three-tiered wedding cake topped with a miniature bride and groom.

Members of the house party assisting with the reception were Mmes. Dixie Williamson, P. L. Crossley, Frank Sparks, P. L. Parker, Don Parker, R. E. Sikes, Billie Wood and Miss Amy Poole of Eastland; Miss Lucille Purvis and Mmes. C. R. Vickery and Skeet Barse of Fort Worth; Mrs. Walter Durham of Comanche, and Mrs. W. L. Downtain of Ranger. Members of the bridal party also assisted at the reception.

After the reception, the couple left on a wedding trip. Mrs. Lisman wore a mist blue semisheer dress with embroidery trim and a shoulder corsage of orchids. Her accessories were white.

Mr. and Mrs. C. V. Lisman of Midland, parents of the bridegroom, were among the out-of-town wedding guests.

The bride is a graduate of Eastland High School and Texas Technological College in Lubbock. Before her marriage, she was employed in the office of the Humble Oil & Refining Company in Midland.

Corporal Lisman, after attending Texas A&M College for two years, volunteered for service in the armed forces. He recently returned from 26 months service in Africa, Sicily and Italy.

Following a wedding trip, the couple will go to Santa Ana, Calif., where he will await reassignment.

Use Powder Mitt For Fast Shampoo

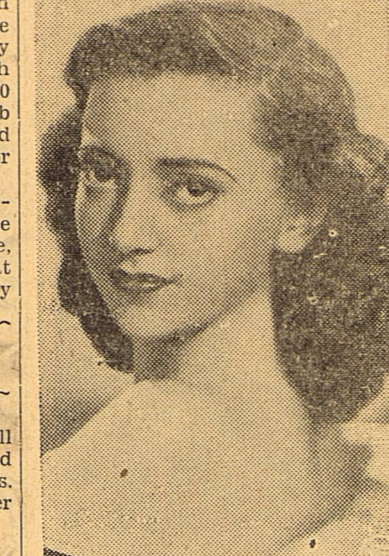

By ALICIA HART
NEA Staff Writer

Ever caught with an unexpected date and hair so limp that you couldn't bear to look at yourself in the mirror?

For that not uncommon dilemma, a way out is offered by Marion Loveridge—"Betsy Ross" of the radio—who suggests using a dry shampoo powder and a terry cloth mitt for a quick "shampoo." In 10 minutes, Marion says, she can rub strands of hair as clean as stripped twigs without damaging a curl or upsetting a wave.

After rubbing hair with the powder mitt, Marion reverses the glove and using its clean inner side, burnishes her locks. Following that up with brisk brushing to rout any

cloudiness left by the powder, she says her hair looks almost as clean and fluffy as it does when she has time to get a fresh set.

MISS LOVERIDGE: Saves time.

Coming Events

FRIDAY
The Ladies Golf Association will meet at 1 p. m. at the Midland Country Club. Hostesses are Mrs. Bob Franklin, Mrs. D. R. Carter and Mrs. P. F. Bridgewater.

Children's movie will be shown in the courthouse basement at 2:30 p. m.

Wednesday Luncheon Enjoyed By Members Of 4-H Girls Club

A luncheon was enjoyed by members of the 4-H Girls Club of Valley View when they met Wednesday for an all-day session. During the business period, plans were made to conduct War Bond sale and also a sale on items which have become scarce since the beginning of war.

During the afternoon homes of the following members were visited: Willie Mae, Sara Beth and Cleo Wheeler, Lanell and Donna Howard, Julia Edith Mickiff and Rita Donald.

One visitor, Annette Howard, and seven members were present.

Midland Red Cross Unit To Elect New Officers At Meeting Thursday

All members of the Midland chapter of the American Red Cross are reminded of its meeting at 8 p. m. Thursday, in the Red Cross office in the City Hall.

It is the annual meeting, held for the election of officers.

New Bill Seeks Expansion Of GI Bill Of Rights

WASHINGTON—(P)—Broad expansion of educational benefits under the GI "Bill of Rights" is proposed in a bill introduced by Senator Pepper (D-Fla.).

Pepper said in a statement that the legislation embodies recommendations of the American Legion and National Educational Association.

It proposes an increase in dependency allowances for veterans obtaining an education under the GI bill. They now are allowed \$50 a month for subsistence while studying if single, \$75 a month if responsible for one or more dependents.

Increase Allowances
The Pepper amendment would increase this to \$100 a month for two dependents, \$125 for three, and \$150 for four.

Men over 25 no longer would have to prove that their education was interrupted when they entered service, but would be entitled to the same benefits as veterans under 25. Veterans would be able to take advantage of the educational provisions later than the current two-year deadline, if they wished, giving them a chance to obtain jobs first.

The maximum benefit now is four years of education. The Pepper proposal would grant qualified students in professional courses up to seven years.

Churchill Addresses Voters Of His District

LONDON—(P)—Prime Minister Churchill told the voters of his election district Thursday that his "facilities are as good as they ever have been" and asked them to reelect him to Parliament so that he might continue to serve the nation in peace as he has in war.

Wheat Dumped On Ground In Oklahoma

The little town of El Dorado, Okla., is literally swimming in a flood of golden grain this year. The area has the best wheat crop in its history and the fewest railroad cars for shipping. Wheat has been stored everywhere and even piled high on the ground. Donald Orelia, El Dorado farm youth, is shown dumping the last of a 6,500-bushel load of wheat on the ground, because there is no other place to store it.

Midland Youths In Hurry To Register

Some Midland County youths are in such a hurry to report to the Selective Service Board they are registering before they become 18 years of age, board officials said Thursday.

Two 17-year old youths have registered this month, claiming they were 18. When the parents heard of the youths registering they produced birth certificates which show the boys were ahead of time.

Officials cautioned boys not to register until their eighteenth birthday as to report ahead of time causes much extra work for the board.

'F' Treatment Packs Saves Starving People

LONDON—(P)—The Royal Air Force is rushing to liberated areas specially designed packages of pre-digested food to save the lives of starving people who are unable to assimilate normal foods. The packages are known as "F" Treatment Packs—"F" for famine.

Louisiana Solon Keeps Diary On European Trip

By JAMES MARLOW
WASHINGTON—(P)—Congressmen have been flying to Europe in relays since the war ended. They go to inspect this, that or the other thing. Then they fly back. Some make reports. Some don't.

But what do they think while they're whirling around Europe? How much will they remember? Just to be sure he'd have some record, one Congressman kept a diary.

This was Rep. F. Edward Hebert, Louisiana Democrat, who went over with a group. Every night before he went to bed he wrote his impressions of the day.

His notes total about 22,000 words. He said I could poke around in the Congressional mind and help myself to the notes. I used to work with him when he was city editor of the New Orleans States.

Visited Pope
His party went to Bermuda, England, Paris, Bremen, Munich, met General Eisenhower, had an audience with the Pope in Rome, visited Naples and the French Riviera and Casablanca, returned by way of Scotland.

Two dominant notes run through his diary. The destruction and poverty of Europe and talk of Russia and Communism every place he went. "Everywhere without exception," he wrote in his diary, "Communism crept into the conversation."

In Paris Hebert was invited to the home of a French countess whose husband was a leader in the French underground. He wrote in his diary:

"She waited and worked patiently for the day when she could place the swastika of Nazi Germany on the floor at the entrance of her apartment and invite her guests to wipe their feet on the flag. I wiped my feet with satisfaction and admiration for these people who kept alive the spirit of France."

LIKES NEW HOME
WELLINGTON, KAN.—(P)—A pigeon stopped at the Mabel Glover home and likes it so well it won't leave. Every time the bird is put out the door, it pecks on it until they let it in.

New Assignments Are Announced For American Divisions

By AUSTIN BEALMEAR
PARIS—(P)—Assignments of 23 of the 61 American divisions under Gen. Eisenhower's command at the end of the war in Europe have been decided, leaving 38 with their future status unannounced, Supreme Headquarters said.

Two other divisions, the 28th and 29th Infantry, had at least temporary tasks in Europe. The 28th is staffing a German zone which may go to French control later and the 29th is on duty at port facilities of Bremen, in the British-occupied area, through which American supplies will pass.

The latest to be earmarked for occupation duty are the 42nd and 65th Infantry Divisions, which will take over Northwestern Austria.

In Germany the U. S. Third and Seventh Armies, which ultimately will control the American zone of occupation, will have at least six divisions apportioned evenly between them.

Gen. Patton's Third Army, under present plans will have the First and Ninth Infantry and Fourth Armored Divisions.

Lt. Gen. Wade H. Haislip's Seventh Army will have the Third and 36th Infantry and the First Armored Divisions.

82nd To Berlin
The 82nd Airborne Division is expected to garrison the American zone in Berlin. The 29th Infantry Division will remain in its present location, the Bremen port area.

The 28th Infantry Division is in the Rhensh Palatinate, which may be assigned to French control. In that case, the 28th would be redeployed.

The 66th Division has been assigned to operate the Marseille staging area from which some troops will be shipped directly to the Pacific.

The 75th Division will operate an assembly area command where troops are processed for redeployment. The 106th Division, perhaps the worst mauled in the Ardennes offensive, will guard German prisoners remaining in American hands.

Return To United States
Divisions being returned to the United States for transfer to the Pacific are the Second, Fifth, 44th, 86th, 87th, 95th, 97th and 104th Infantry and the 13th Armored.

The Fourth and Eighth Infantry Divisions also are returning home, but whether they will go to the Pacific has not been announced.

U. S. divisions still in territory indicated for Russian control are the 26th, 30th, 69th, 76th, 79th, 94th and 102nd Infantry, and the Fifth, Sixth, Seventh and Eighth Armored. Since these have not been assigned places in the occupation setup, they presumably are scheduled for redeployment.

The 35th Infantry and Second Armored Divisions will be deployed from the British zone. The 35th now is west of the Rhine and the Second Armored, originally scheduled to go to Berlin, is in the Brunswick area.

Forty-seven hundred and seventy miles of thread have been spun out of a single pound of cotton.

Warplanes Lash Japanese Bases

GUAM—(P)—American Army and Navy planes lashed at Japanese bases and shipping for more than 1,500 miles from Hong Kong to Japan itself in operations reported Thursday.

A 200-plane strike destroyed the supply base of Kari on Formosa's southwest coast. Many sweeps were search and patrol actions.

From south to north, as pieced together by Thursday's communiqués of Adm. Chester W. Nimitz in Guam and Gen. Douglas MacArthur in Manila, this was the picture:

Hong Kong—Motor vehicles destroyed and bases strafed.

Canton—Waterfront raided.

Burn Karin

Formosa—200 tons of explosives dropped by more than 50 Liberators on the north port of Eling; 200 Lightnings and Mustangs spilled 72 tons of jellied gasoline bombs on Karin, completing its destruction.

Sakishima, Southern Ryukyus—pounded by carrier planes.

Amami, Northern Ryukyus—raided by the tactical air force.

Shanghai—harassed by patrol planes.

East China Sea—Freighter-transport sunk by search mariner.

Tsushima Straits, between Korea and Japan—Coastal steamer and small cargo ship sunk by search privateers which fought off six enemy fighters, probably downing one and damaging another.

Hunshun, main island of Japan—Search privateers shot down an enemy fighter and damaged two off south coast.

Odessa's Hospitals Plan To Close

ODESSA—(P)—Odessa's two hospitals have announced their intention to close on or about Jan. 1, 1946, in letters to the Ector County Commissioners Court, saying they could not make needed expensive additions.

The American Legion post decided to circulate petitions calling for a bond election to raise \$460,000 for construction of a county general hospital of 100 beds.

SHEPMAN DIES

Syrians have asked that French Gen. Paul Beynet, above, be tried as a war criminal for alleged responsibility for recent bloody fighting between the French and Syrians. They also branded Gen. Oliva Roget a "war criminal."

\$500,000 Municipal Improvement Program Outlined By Mayor

Mayor A. N. Hendrickson, in an address Thursday noon to Rotarians at their meeting in Hotel Scharbauer, outlined plans for a public improvement program for the municipality which will cost approximately \$500,000.

He said Midland's water supply now is adequate, but new reserves must be obtained and extensions must be made to storage facilities and the distribution system. Action has been taken, he continued, to acquire additional land from which water can be produced.

Hendrickson discussed plans for erecting a 1,250,000 or 2,000,000 gallon storage tank west of Midland and for constructing a 16-inch water line through the city to the tank. He estimated a 1,250,000 gallon tank would cost \$35,000 and the larger reservoir about \$43,000. The mayor estimated the water system improvement program will cost about \$155,000.

Sewer Problems Discussed
Needs of the sewer system also were discussed and he estimated \$349,000 should be spent within the next few years to construct additional sewer lines and increase the capacity of the sewage disposal plant. Plans are being prepared for the project.

Hendrickson also discussed paving and drainage needs of Midland and said plans were being perfected so work could be started soon on this section of the city's program.

He also explained increased costs of the municipal government, saying the payroll in the last year has increased from \$6,000 to \$8,500 monthly.

Try To Meet Demand
Councilmen, he said, are trying to keep the city in good financial condition and also to keep up with the public demand for improvements.

At the suggestion of Lt. George A. Heath, Rotarians stood a minute in honor of the late Lt. Col. W. E. Ryan. Lieutenant Heath praised Midland's school executives and urged citizens to carry forward the program for developing the public school system.

Delbert Downing was program chairman and Lester Grant read a letter from Sgt. Joe Erickson, urging Rotarians to expedite the program to erect an endowed hospital for Midland. C. H. Shepard, president, presided at the meeting.

Stevenson Praises Lt. Gen. Walker

BELTON—(P)—Gov. Coke R. Stevenson paid tribute to Lt. Gen. Walton H. Walker, commander of the Third Army's Corps in Germany, as "one of the state's greatest men" at a celebration in which Belton honored its native son here Wednesday night.

"It is a privilege to honor through him all those who wear the uniform today," the governor said, "All Texas is proud of its soldiers."

Extraordinary Work Of Lubbock Officer Is Praised By Navy

DALLAS—(P)—The extraordinary work of the USS Nashville's medical corps under command of a Lubbock naval officer, saved many lives of men aboard the light cruiser after it was attacked by a Japanese suicide plane last Dec. 13 in the Philippines.

An announcement from the Eighth Naval District Headquarters office here credited the ship's medical corps and its director, Lt. Com. Murray W. Ballenger, USN, of Lubbock, with saving many lives. Explosions and fire from the suicide attack killed 133 officers and men and wounded 190 more.

First aid stations were set up throughout the ship, and doctors and corpsmen worked steadily for 24 hours treating wounded.

Houston Meat Markets May Close Monday

HOUSTON—(P)—Retail meat markets here will close Monday, and stay closed until arrangements are made for them to buy meat at ceiling prices, if the recommendations of officers of the Retail Grocers Association for Houston are approved at a mass meeting of the membership at 8 p. m. Thursday.

Women May Have Postwar Jobs If They Want Them

WASHINGTON—(P)—Two senators moved Thursday to preserve the right of women to postwar jobs if they want them.

Legislation barring job discriminations because of sex was proposed by Senators Pepper (D-Fla.) and Morse (R-Ore.), vesting enforcement powers in the Women's Bureau of the Labor Department.

"Women in producing the weapons of war have, in many industries and occupations, demonstrated their ability to turn out the same day's work as men do," the authors said in a statement.

The giant saguaro cactus grows to heights of 40 feet, but at the age of 10 years it seldom is more than five inches high.

Men, Women! Old at 40, 50, 60! Want Pep? Want to Feel Years Younger?

Democrats' Choice

District Attorney William O'Dwyer, above, is the unanimous choice of New York's Democratic leaders as candidate for mayor in the July primaries. When O'Dwyer was defeated in 1941 election by three-time Mayor LaGuardia, he received his strongest support from the Republican Party.

Prison Population Figures Announced

HUNTSVILLE (P)—A total of 1,611 new inmates, 44 of them women, were received in the Texas Prison System in 1944, according to the annual report of J. C. Roberts, chief of the Bureau of Records and Identification, who said the average daily count in the system last year was 3,461.

There were 1,579 new inmates received in 1943. The report shows approximately 66 per cent of the average daily population was released on parole or conditional pardon, or left the system by reason of discharge, escape or death. The report said that 673 more inmates were released than were received as new prisoners during the year.

Babe Didrickson Is Quarter Finalist In Golf Tournament

INDIANAPOLIS — (AP) — A thoroughly tested field of eight determined young ladies — survivors of two hectic rounds of match play over the exacting Highland Country Club course — was ready to renew the quest for the Women's Western Open golf championship Thursday afternoon.

Probably the most determined of the quarter-finalists — of necessity — was Mrs. Mildred (Babe) Didrickson, Zaharias of Los Angeles, the defending champion and co-medalist. The Belting Babe was forced to shoot the works in her second round match with Jean Hopkins of Cleveland before escaping into the round of eight with a 1-up victory in 20 holes.

Mrs. Zaharias was scheduled to meet methodical Dorothy Kirby of Atlanta Thursday.

Prize Beauty

This fisherman carefully un-hooks five pound weakfish, which are running in schools along Atlantic coast from North Carolina up past New York. Peconic Bay, L. I. is full of 'em. Fine catch, fine eating, nobody ever throws these babies away.

Boston's Braves Climb Rapidly In National League

By JOE REICHLER
Associated Press Sports Writer
Manager Bob Coleman loomed Thursday as Boston's miracle man No. 2.

The rapid rise of the Braves to a contending position in the National League pennant race had baseball followers thinking back 30 years when the Braves under George Stallings, the original miracle man, climaxed a great stretch drive to win their first and only pennant, after being in last place in mid season.

Since that 1914 season, the Braves have been in the first division only five times, but Thursday, after a 15-10 drubbing of the New York Giants Wednesday night for their 12th victory in the last 16 games, they were only two games away from second place and only one behind the fifth place Giants.

Hank Greenberg Rejoins Tigers

DETROIT — (AP) — Hank Greenberg, 34-year old Detroit Tiger first baseman outfielder, who was released from the Army last week after four years service, arrived here Wednesday night.

Greenberg was scheduled to report at Briggs Stadium Thursday for the beginning of intensive batting practice.

Noted Indian Athlete Joins Merchant Marine

LOS ANGELES — (AP) — Jim Thorpe, the great Indian athlete of three decades ago, has joined the Merchant Marine, the only service that he could get into at the age of 37.

His wife disclosed that he joined last month following the enlistment in the Navy of his 13-year old son, Phillip.

Dates Fixed For El Paso Golf Meet

EL PASO — (AP) — July 1 to 4 are the dates of the El Paso Open Golf tournament. Pro-Manager Wally Harden announced.

Qualifying deadline is July 1, with play starting July 3. The championship flight will have medal play, while the other brackets will use match play to determine the winners.

Advertise or be forgotten

Sports Roundup

NEW YORK — (AP) — Since he returned from duty in the Pacific, Bob Feller has become a first-rate amateur magician. . . Which probably will lead various and sundry American League hitters to ask: "How could he turn amateur?" . . . And it's a good thing Bob is a petty officer and doesn't wear an ordinary sailor's suit because he carries all the gadgets for a two-hour magic show in his pockets. . . Col. Fritz Zivic has been made an honorary sheriff in Bexar County, Texas, and now he claims if he can't knock 'em out, he always can flash his badge.

The Manager's Orders
Sam Oliver, a welder in a copper plant, worked a double shift the other night, hurried home for a quick nap before pitching a game for Salt Lake City in the Utah Industrial Baseball League. . . Upon leaving home, Oliver relates, his wife said if he had to be taken out of this game she would never come to another — "and she meant it." . . . Oliver obliged by hurling the first no-hit game in the league's history against Magna.

One-Minute Sports Page
When Dave (Boo) Ferriss pitched for Minter City, Miss., in the 1940 national semi-pro tournament at Wichita, Kan., he gave up 11 hits in losing a 6-5, 10-inning decision to a mining team from Natrona, Pa., and didn't get a tumble from the major league scouts. . . The Navy unit which is leaving Texas Christian U. will be split among three colleges, but Texas U. gets all the eight trainees who won varsity letters.

New Prospectors

(Continued from Page 1)
showed flowing oil and good gas production.

Flowed Oil Again
The section at 8,700-40 feet was tested for one hour. The drill-pipe flowed oil after 23 stands full of petroleum had been pulled. Then more pipe was pulled and more oil flowed. Longest flow was for 10 minutes. No water appeared. Gas was estimated at between three and four million cubic feet per day. The project was slated to drill ahead. It is due to drill to the Ellenburger, but has definitely proven for a discovery from the Devonian.

In A Mixture
George P. Livermore, Inc., No. 1 Alexander, Floyd County wildcat in J. L. Cooper survey No. 345, had progressed under 3,230 feet in lime, sand, shale, and anhydrite, of the San Angelo-Permian, and was continuing.

Lion Oil Refining Company No. 1
McLaughlin, West Scurry County development in section 197, block 97, H&TC survey, had penetrated under 2,570 feet in dolomite. It was showing an odor of oil and gas but had yielded no free oil.

Humble Oil & Refining Company No. 1
Parrett, East-Central Upton County lower Permian discovery, pumped 5.24 barrels of pipe line oil in hours of testing.

Still Coing
Humble No. 1 Penrose, Southeast Lea County wildcat to the Clear Fork-Permian, in section 13-22s-37e on south side of the Drinkard district, cored at 5,212-32 feet and recovered 18 feet of lime with scattered slight shows of oil and gas and with very poor porosity. It was coring ahead under 5,240 feet.

Gulf Oil Corporation No. 1-O
University, wildcat in section 12, block 29 University survey, six miles southeast of the Clara Couch field, and slated as a deep exploration, was reported to have made hole below 1,903 feet.

Lamb County Wildcats
Humble No. 1 Bagwell, Lamb County prospector in labor 25, league 673, State Capital Lands survey, had progressed under 6,650 feet in dolomite, and was continuing.

Hunt Oil Company No. 1
Foust, in section 43, block B-1, R. M. Thompson survey, 11 miles east of Littlefield, in Southeast Lamb, had punched under 6,004 feet in gray dolomite. There are some indications, informed sources report, that this test may be on the flank of the granite ridge which has been found in that area. If such is the case the project might be "on the spot" soon.

Livestock

FORT WORTH — (AP) — Cattle 2-400; active; calves 1,000, mostly lower; good fed steers and yearlings 14.50 to 16.00 with common to medium kinds 10.00 to 14.00; medium to good beef cows 9.50 to 12.50; bull prices 7.00 to 11.50; good fat calves 12.50 to 14.00 with common to medium grades 8.50 to 12.50 and culls 7.00 to 8.00.
Hogs 200, unchanged; butcher hogs 150 lbs. and up 14.55 and packing sows 13.80; stocker pigs scarce.
Sheep 20,000, steady good and choice spring lambs 14.00 to 14.50; medium to good spring lambs 12.75 to 13.75; common to medium spring lambs 9.50 to 12.75; a few good shorn lambs and yearlings 13.00; common and medium grades shorn lambs and yearlings 10.00 to 12.50; cull to good shorn ewes and aged wethers 5.00 to 7.50.

Tracers

Tracer bullets, which do not start burning until they are 100 yards from the muzzle of the machine gun from which they are fired, are being used by U. S. forces to help conceal the positions of machine gun nests and pillboxes.

CLEARANCE

Big, wide beautiful brims to flatter your profile and shade your eyes from the summer sun. Lovely lacy straws with open crowns to let the top of your head peak through. Soft, lightweight felts with up-turned and down-turned brims — in heavenly colors. Lovely summer hats bedecked with bows and veiling.

Implement Concern To Open Next Month

O. S. (Barney) Barnard has arrived in Midland to supervise final preparations for the opening of the West-Tex Implement Company here. The concern will be dealer for the International Harvester line of farm implements. A building at 105 North Fort Worth Street is nearing completion and will be the home of the firm.

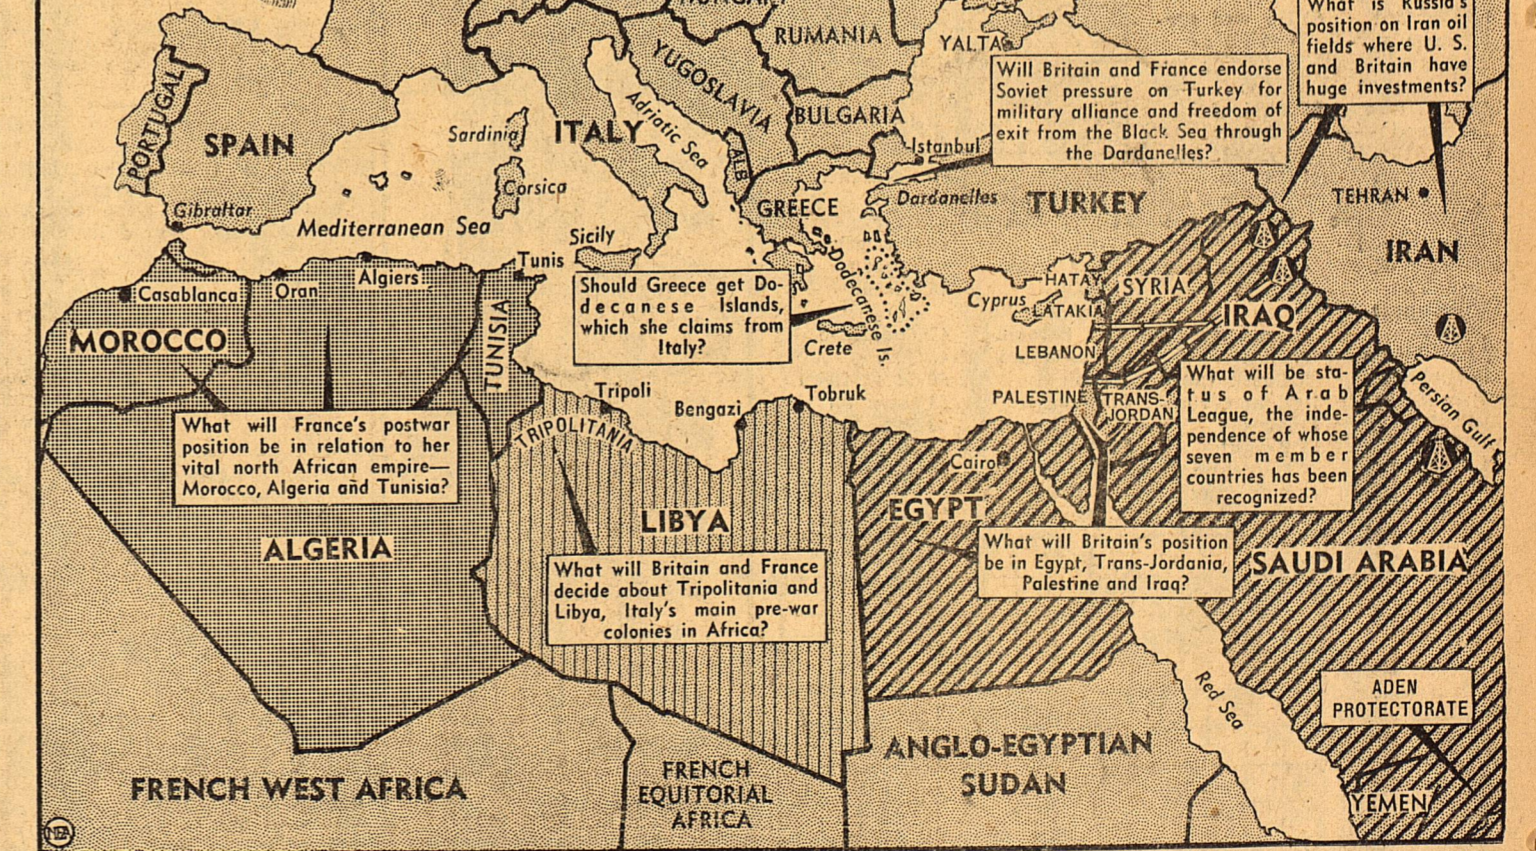

Pacific Navy Men Make Baby Clothes

NORFOLK, NEE. — (AP) — Some of the Navy men in the South Pacific, says a veteran of that theater of war, are helping their wives make baby clothes.
Home after combat on Luzon, Iwo Jima and Okinawa, Lt. (jg) Harry Anderson told his parents: "Some of the fellows you'd think pretty hard old boys have learned to knit and spend lots of time when not on duty knitting sweater and baby clothes for their youngsters at home."

Plans Completed For Bombardment Of Japs

WASHINGTON — (AP) — The strategic bombing of Japan will be carried out by two separate heavy bombardment forces, the 20th and the 8th.
This was disclosed Thursday in a news conference with Lt. Gen. James H. Doolittle, chief of the 8th Air Force which now is being redeployed from Europe to the Pacific area.
In answer to a question about the general setup, Doolittle said: "The 8th will be under my command; the directives will come from the joint chiefs of staff."
This will parallel operations of the 20th Air Force, commanded by Gen. H. H. Arnold, with Lt. Gen. Barney Giles the deputy commander in the Pacific.
Doolittle said Colorado Springs, Colo., will be the headquarters of the 8th Air Force while it is retraining in this country.

Syrian Row Spotlights Big Five Mediterranean Headaches

The Big Five—U. S., Britain, Russia, France and China—meeting to deal with the Syria-Lebanon dispute, would undoubtedly find themselves ensnared in major problems involving North Africa and the whole Middle East. Particularly delicate, in view of possible general Arab uprising in North Africa, is the great powers' attitude toward the Arab League, (diagonal shading) composed of Egypt, Saudi Arabia, Iraq, Trans-Jordan, Syria, Lebanon and Yemen. Map above locates some of the painful questions for which Big Five will have to find answers.

WE FLEW Without GUNS

This is a true story of the men who fly the "hump"—carrying passengers and cargo over the high Himalayas between India and China. Pilots call it the toughest airline route in the world.

FIRE ON BY OUR OWN ANTI-AIRCRAFT

WHENEVER we flew gasoline we preferred to do it during the daytime, although with other types of cargo it was somewhat safer, because of either weather or Jap activity, to make the trip at night. With gasoline, however, there were plenty of hazards without adding to them the certainty of having to make an instrument approach to the field.

The fields at both Dinjan and Kunning had no floodlights to assist in a night landing or take-off. The blackout at both fields were complete except for dim rows of green and red lights that would be flashed on for an instant along the landing strips just before a plane's wheels touched the ground.

The reason for such precaution, of course, was to protect the fields from sneak attacks by Jap planes—and there were many. Few of them, however, were very successful. There were two tech planes most commonly used by the Japs, both of which depended for their effectiveness on the well-known fact that C. N. A. C. planes had frequent radio trouble and were at such times unable to contact the field prior to coming in for a landing. Also, because of the generally bad flying conditions, our planes often came into Kunning or Dinjan with one or both motors in faulty working condition. If both motors were in good shape the pilot could keep them perfectly synchronized, then the sound detectors at the base, which get an effective bearing on

McKENNEY ON BRIDGE

By WILLIAM E. MCKENNEY
America's Card Authority
Have you met Sylvia in my column? You know, Sylvia is the girl who always makes the wrong play according to rule, but it always works out best for her.

The bidding was a little optimistic on today's hand, but South figured he needed a slam to break even for the rubber. Well, he won the opening club lead with the ace, took two rounds of diamonds which picked up the trump and then cashed his ace of spades. The four of spades was next led and, of course, the natural thing to do is West to split the honors. Other-

My approach to the field at Dinjan was good on the first try, but just as I was letting down the landing gear that left engine started to kick up again. I grabbed the carburetor control and started working on it, and then I heard Eddie Quinn, my co-pilot, let out a yell. A second later there was a terrific explosion. I realized we were being fired on by our own anti-aircraft batteries. I slammed the throttle forward and got the hell up out of there as fast as I could.

For half an hour we flew around in wide circles—well out of the guns' range—working on that motor, and when it finally seemed to be in fairly good shape we tried the landing again, frantically flashing our landing lights, dropping our gear, slowing our engine speed—doing everything but dropping notes out of the plane that we were good guys, friends, and wanted nothing but a quiet landing and a good night's sleep. We were so earnest about it that the over-zealous A.A. boys finally were convinced and we came in without further trouble.

(To Be Continued)

Congressman Finds Many Texans During Tour Of Europe

WASHINGTON—(P)—Rep. Gene Worley, just back from a two-month tour of Europe, Palestine and North Africa, proudly tells of a little ingenuity on the part of a few Texans to raise the Lone Star flag over a captured Nazi airfield at Bad Soden, Germany.

Dark clouds were overhead as the Army plane carrying Worley landed at the newly captured field. As he stepped from the plane the first thing he noticed was a Texas flag whipping in the wind over the nearly demolished administration building.

"I said to the pilot there must be a lot of good Texas boys around," recalled Worley, "and sure enough it wasn't long before I found several."

Commander Was Texan
The commanding officer was Col. W. F. McBride of Realtos, and his executive officer Major R. T. Shell of Houston. Soon I was with them and heard how Texans in the fighter-bomber outfit based there did a bit of contriving when they couldn't find a ready-made Texas flag on hand.

They patched it up from some blue-jack blackout curtains, a Russian flag, and a white mattress cover.

Yanks Welcome a Yank

Johnny Lindell, slugging outfielder of New York Yanks, was made to feel right at home when he joined U. S. Yanks at Fort Dix, N. J. Wearing helmet, Lindell tells admiring soldiers about life in major leagues. Baseball experts opine Yankees will find it a rough road without Johnny's booming bat.

Neruda, Chilean Poet, Is Communist Senator

SANTIAGO, Chile — (P) — The poet Pablo Neruda whose pen has brought him fame as a defender of the workingman, has become a Chilean senator.

Neruda was elected senator by the Democratic Nationalist Party, which in Chile is the name used by Communist candidates, since the Election Registry Board does not accept entries in the name of the Communist Party.

Ever See Red Points Cleaning Streets?

CHICAGO — (P) — Keeping all of Chicago's alleys free of garbage poses quite a problem. From one civic organization came a denunciation of "filthy" conditions and a suggestion that part of the cleanup job be assigned to pigs and goats. But, after mulling over the idea, cooler heads raised a question. Who, intimates like these, would protect the roving animals from carnivorous citizens?

Busy-ness Booming For Memphis Man

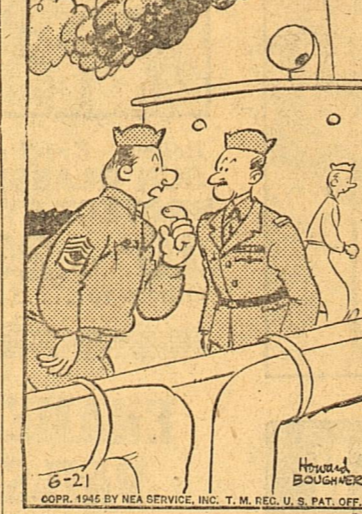

MEMPHIS — (P) — If George W. Knox isn't the busiest man in Memphis he'd like to meet his competitor.

Knox reports at 9 a. m. daily as outside salesman for an office equipment company. As time permits during the day, he collects for a funeral home.

At 6 p. m. he reports to the funeral home where he is receptionist until about midnight. Knox then goes to bed at the funeral home—but until 8 a. m. he answers the telephone, taking ambulance and death calls.

That's not all. He is ticket taker at the baseball park. He gets off from regular work for afternoon games and also works there the one night a week he is away from the funeral home.

ANSWER: Authenticated cases prove that this does happen occasionally.

NEXT: It destroys Japs and crabgrass.

Glass Tops Save Furniture Damage

Glass tops for furniture represent true economy, Q. M. (Shine) Shelton, owner of the Midland Glass Company at 1611 West Wall Street, pointed out.

The glass protects the furniture from stains, scratches and cigarette burns, Shelton explained. Glass for furniture and desks is cut to order at the Midland Glass Company.

So Sorry Please, Men Need Souvenirs

WILMINGTON, CALIF. — (AP) — Even before the fires were out, seamen of the U. S. S. Zellers, destroyer crippled by a Japanese suicide attack off Okinawa on April 12, were busy collecting souvenirs. "One man had both arms around a Japanese wing machine gun and was yelling: 'It's mine,'" related Lt. Charles Smylie of Rosepoint, Mich., when the Zellers docked here recently for repairs.

Postcard Report On Galapagos Islands

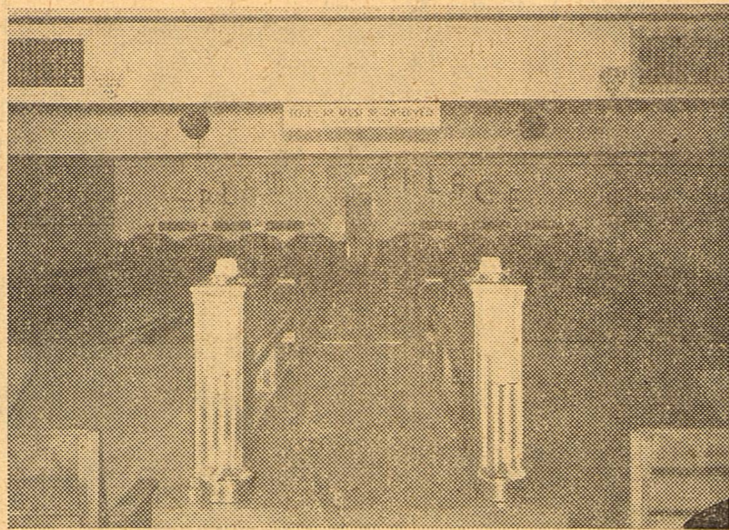

QUITO, Ecuador — (AP) — Puerto Baquerizo, in Ecuador's far-off Galapagos Islands, has 300 inhabitants and no store, but it does have a statue of Charles Darwin, English naturalist whose explorations of the islands in 1835 aroused a curiosity which still draws scientists. The islands, 600 miles off Ecuador's coast, were named for the fresh-water turtles which are still one of their chief interests. Little noted until the outbreak of the Pacific war, they were then garrisoned by U. S. forces.

Fishing near the islands is reported so excellent that it could go far toward supplying the mainland's sea-food.

Vast herds of wild cattle roam some of the islands. Wild dogs are killing off the cattle and a campaign against them, with gun and poison, would have to precede utilization of the herds.

Scoring of the piston walls may be caused by piston ring breakage as well as by insufficient lubrication.

Recreation Center

The Plamor Palace, one of Midland's most popular recreation centers, is operated by A. E. (Shorty) Beals and Al Boring. They bought the recreation spot recently and have made many improvements. Joe Miller, a nationally known bowling expert, describes the Plamor mapeways as among the best in this section.

First National Bank Serves In War Effort

The First National Bank is performing a great service in the war effort in a quiet way which attracts little attention, but is highly important toward winning the war — the selling of War Bonds.

All expense in connection with the selling and the cashing of War Bonds is paid by the bank, and when a campaign is underway a great amount of work is done to make the campaign a success.

Sanders Suggests Drapes For Home

New draperies and slipcovers do a great deal to brighten a home, J. B. Sanders, owner of the Sanders Furniture and Paint Shop, pointed out.

Sanders makes slipcovers and draperies to order. Refinishing and reupholstering of furniture is another specialty of the concern, which has given many Midland citizens the benefit of new furniture without the cost.

Scharbauer Hotel Is Institution Serving Great West Texas Area

The Scharbauer Hotel has become an institution, not only in Midland but West Texas as well, because of its size, luxurious appointments, modern conveniences and the complete facilities it offers guests.

Some of the most famous men of the nation and world have stayed at the Scharbauer, and this is particularly true since the start of the war, with many famous military figures passing through here.

When the famous pass through Midland, citizens do not feel embarrassed because of the hotel facilities offered them at the Scharbauer.

The Scharbauer has the same modern scientific air conditioning which is featured by the finest hotels of the nation. Half of the hotel's rooms are air conditioned.

The Crystal Ballroom has been the scene of many of the outstanding social events and meetings of West Texas. Both the Lions Club and the Rotary Club have their meetings there.

Truman Was Guest For smaller meetings and parties the Scharbauer offers the private dining room. It was here that President Truman had dinner when he passed through Midland while a senator.

Since very few salesmen on the road now carry samples, the Scharbauer's five large sample rooms have been put to good use by placing cots in them to take care of

the overflow of guests. The large mezzanine floor is luxuriously furnished and generally a number of persons are on the floor writing letters, reading, or just resting.

For distinguished guests the Scharbauer has available the luxuriously appointed governor's suite on the second floor.

The services of 65 employees are required to operate the Scharbauer, including the hotel's laundry, which gives one-day service to guests of the hotel.

A. C. Hefner, manager, came to Midland July 1, 1942 from Sweetwater. In addition to managing the Scharbauer, Hefner is active in civic work.

"One of the hardest tasks of managing the Scharbauer is having to turn people away who need rooms," Hefner said. "We wish we could take care of everybody, but when the Scharbauer's 250 rooms are filled there are just no more."

Midland Plumbing Company Plays Important Role In Serving City

Good and efficient plumbing plays an important part in the health of the city, C. A. (Al) Travers and C. E. (Ernest) Smith, owners of the Midland Plumbing Company, pointed out.

"Municipal authorities and health officers realize inefficient plumbing could play havoc with the health of any community and that is one of the important reasons all municipalities have ordinances that plumbing installations must be put in only by licensed plumbers," the plumbing company owners said.

Requirements are strict to obtain a plumber's license and the applicant must prove he knows his work and will do it properly. Travers and Smith became partners in the plumbing business February 1, 1945. Both have had years of experience as practical plumbers, and both have been long-time residents of Midland.

Repair Work One of the reasons for popularity of the Midland Plumbing Company with citizens here is that the concern has continued to do general repairs, although it has had more contract work than it could handle conveniently.

"We feel we owe an obligation to Midland and its citizens to do everything we can to serve both the city and its citizens," the owners said. The Midland Plumbing Company has the most complete stock of plumbing supplies between Fort Worth and El Paso, and is the exclusive dealer for the Western water softener and the Ward floor furnace.

Feature Popular Brands Many well known plumbing supplies are carried by the firm including the Kohler, Crane and Standard brands.

"The purchase and installation of plumbing often runs into quite a sum, so we carry the best in order to save our customers future repair bills," Travers and Smith said.

Since the plumbing company owners are members of the Master Plumbers Association their work must meet the rigid standards it requires for its members. Travers and Smith assured Midland citizens they would do every-

thing possible to serve them at all times and invited the citizens to call upon them when they need plumbing work done, or plumbing supplies.

Surplus Seller

The huge task of disposing of America's surplus war supplies is in the hands of Stuart Symington, above, St. Louis Electrical Equipment Co. executive. He will succeed Guy M. Gillette as chairman of the Surplus Property Board on July 15.

Anglican Church Has Mobile Sunday School

REGINA — (AP) — A Sunday school on wheels that visited 11,314 western Canadian members in 1944 and enrolled 4,724 new members in a school by mail will start out on its 25th year this month in charge of Miss Eva Hasell, who organized it in 1920.

The Anglican school, started with one light truck, now has 24 vans in operation in the summer months, visiting rural communities not regularly served by clergymen. This year it is planned to add two more vans.

Plane Tanks Mark War Path

PEARL HARBOR, T. H. — (AP) — Once there were mountains of carefully boxed belly and wing tanks here, and Capt. J. W. Boundy, something of a wizard in naval aviation supply, winced every time he saw them.

At a time when carrier-based planes jettisoned their auxiliary tanks because it was believed unsafe to land with them, Boundy saw to it that plenty were ordered. Flying practice changed, and as the turnover on tanks declined the size of stockpiles increased.

Methods Change Now the mountains have moved to the Marianas, to Iwo Jima, and perhaps to the Ryukyus—for flying and bombing methods have changed again.

With long-range P-51 Mustangs, P-47 Thunderbolts and F-4U Corsairs flying great distances over water, wing and belly tanks are in heavy demand.

Because of their weight and drag they are jettisoned when empty. One hundred fifty Mustangs covering a B-29 mission will drop 300 wing tanks in the ocean.

The largest stacks of anything in the Pacific are boxes of these auxiliary tanks, but if Captain Boundy walks by a pile of them, he no longer shudders. The Japanese are winning now.

Safe And Sane Burma-India Air

LONDON — (AP) — A world safety record is claimed by the India-based RAF transport command which flies a daily average equal to the circumference of the earth in maintaining internal services for India and Burma.

In 78,500 hours flying over eleven million miles, only four fatalities occurred. During the past fifteen months the transport group has carried 100,000 passengers, 15,000,000 pounds of freight and nearly 5,000,000 pounds of mail over an 18,000-mile route.

To get some idea of the distances involved, a flight from Delhi to Rangoon equals London to Moscow.

A small-mouth bass has a large mouth.

Rainey And Jones Pay 'Unofficial Visit' To Nation's Capitol

By **TEX EASLEY**
WASHINGTON—(P)—The unrelated visits here of two prominent Austin citizens and neighbors touched off a lot of speculation about next year's political races in Texas.

One was Dr. Homer P. Rainey, former president of the University of Texas. The other was Attorney Herman Jones, who led the Texas Roosevelt Democrats at the Chicago convention last summer.

Dr. Rainey's stopover was but a matter of hours, but he called on Speaker Sam Rayburn and left people wondering whether he himself would be a candidate for governor next year. He passed off questions along that line with the statement that "academic freedom" at the university definitely would be an issue in the race.

More wonderment was expressed about Herman Jones. He was honored guest at a luncheon in the Speaker's Dining Room given by Reps. Wright Patman of Texas and Lyndon B. Johnson of Austin.

Impressive Affair

The array of administration celebrities present along with all members of the Texas House delegation made it an impressive affair. They included ex-Congressman Jim Barnes and Jonathan Daniels. White House aids, Fred C. Vinson, director of War Mobilization and Reconversion; War Food Administrator Marvin Jones; Undersecretary of Agriculture Grover B. Hill, Assistant Attorney General Tom Clark. Also on hand were Tom Corcoran and Dave Choen.

Texas who happened to be in town and present included: National Democratic Committeeman Myron Blalock and his brother, Bryan, both of Marshall; Former Governor W. P. Hobby of Houston; Col. Lawrence Westbrook of Austin, former Texas WPA administrator.

One other native Texan and celebrity in another field was there—Tioga-born Gene Autry, the cowboy film star and crooner, now a warrant officer in the Army. He did a few songs and wisecracked that his business in town was to teach Lyndon Johnson how to play a guitar.

Jones, who is in his mid-thirties, briefly acknowledged the tribute, took a few sideswipes at the Texas "Regulars" and foresaw some hot state campaigns next year.

No Significance

"There's no political significance at all to the luncheon," insisted Johnson. "Wright and I both have a high regard for Herman. We each wanted to have him with us for lunch and a get-together with other friends, so we just struck on this idea."

Dr. Rainey had been back east on a tour of educational institutions. Jones was here on business matters for a Houston shipbuilding company.

Females Will Lead Postwar Population

By **ALEXANDER W. GEORGE**
WASHINGTON—(P)—The postwar population of the United States will be increasingly more female than male.

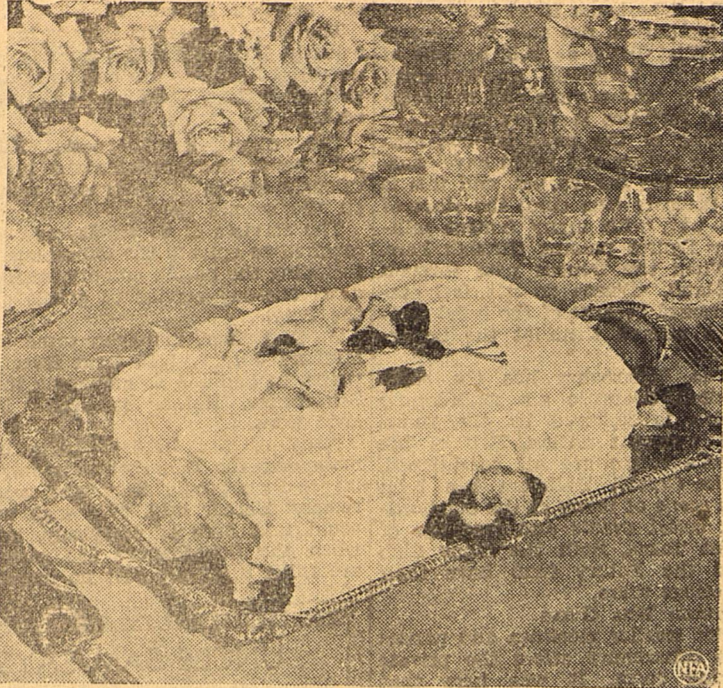

The reasons are (1) higher peacetime death rates among males of all ages and (2) the war's toll of the country's young manhood. Males always outnumbered females until last year, when Census Bureau estimates showed a feminine lead of about 6,000 in a total population of 138,000,000, including service men overseas.

The growing "deficit" of men indicates a larger proportion of spinsters in the future. However, there is no cause for great alarm among would-be-brides of the next few decades.

Nor is there anything in the population picture to panic those rugged women who express fear of "more male-domination in what used to be a man's country."

Population experts say unless our manpower losses in the war are much heavier than expected, the future "shortage of husbands" will be very small. In an estimated 1960 population of 153,000,000 to 156,000,000, females will outnumber males by less than a million. Incidentally, our population is expected to stop growing about that time because of the declining birthrate.

Rose Petals On Wedding Cake

Crystallized rose petals glorify home-made wedding cake

By **GAYNOR MADDOX**
NEA Staff Writer

A simple homemade wedding cake becomes a thing of great beauty when decorated with crystallized garden roses.

Simple Wedding Cake
2 1/2 cups sifted cake flour
3 teaspoons double-acting baking powder
1 teaspoon salt
1 1/4 cups sugar
5 egg whites
1/2 cup sugar
2/3 cup vegetable shortening
1 cup milk
1 1/2 teaspoons vanilla

Sift flour once; measure into sifter with baking powder, salt, and 1/4 cups sugar.
Beat egg whites until foamy. Add 1/2 cup sugar gradually, beating until mixture will hold up in soft peaks; set aside. Have shortening at room temperature; mix or

Old Shoes Can Be Rejuvenated

By **ALICIA HART**
NEA Staff Writer

Simplest rejuvenating trick to wipe the tired look off the face of shoes which must do until the August coupon is valid is achieved by renewing bows or buckles. You can also replace worn-out or antiquated toe patterns with stylized ornaments, obtained from and put on by your shoe-repairman.

You can have winter shoes perforated or have toe-windows built in to give your feet cooler and more attractive summer homes. Dye baths to change light-colored shoes dark will also wipe out stains or faded toes and will make surface bruises or scratches much less noticeable.

An expert "shoe doctor" can take battered sued shoes and bring the nap up to look velvety again, on shave off pile and turn leather into surfaces as lustrous as kid. He can also put his Midas touch of gold—or silver—on any kind of leather shoe that you want to turn into a Cinderella evening slipper.

Bees cannot fly against strong winds.

QUICK, HENRY, THE FLIT!

When singing mosquitoes and stinging flies spoil your summer snooze... Quick! Grab a Flit gun—and shoot 'em dead!

American Soldier Is Held By Buddies As German War Prisoner

FRAMINGHAM, MASS.—(P)—A 27-year-old American soldier spent the "most harrowing days" of his life when he was captured by his own troops and held as a wounded "German" prisoner of war.

Cpl. Gilbert J. Beamesderfer of Ephrata, Penn., a Cushing General Hospital patient recently granted a 90-day work furlough, was a squad leader in the 35th Division of the Third Army before events became too confused for comfort.

He remembered leading his men against a German machine gun nest in France and being hit in the left arm.

Then apparently he got mixed up with some captured Germans and when he awoke he was in a hospital.

Just before they gave him ether, a surgeon spoke to him reassuringly—in German. Beamesderfer, who speaks German, grinned and answered in the enemy language.

Ignored By Officers
Hours later an American lieutenant passed by, and Beamesderfer asked: "What happened? Have we been captured?"

"Be quiet," the lieutenant said. "You're all right. You're with your buddies."

"Buddies, hell!" Beamesderfer screamed. "Get me out of here. I'm an American!"
The officer smiled and left, Germans posing as Americans were nothing new. After ten days in France, the prisoners, including Beamesderfer, were transferred to a POW camp in England. Finally he managed to nab an interrogator.

Told Story To Nurse
"I'll tell you things about Pennsylvania that no one could tell you unless he's actually been there," Beamesderfer said desperately.

The nurse, he called in a Philadelphia nurse. He told her about the unique customs of the Amish, descendants of German settlers of Eastern Pennsylvania. The nurse was impressed.

Camp officials cabled Washington for his fingerprints. They established Beamesderfer as Beamesderfer. On the thirtieth day of his imprisonment, an officer burst into his tent and announced:

"I am happy to inform you that you're an American at last!"

RUDE INTERRUPTION ON SCENIC TOUR

HAMILTON, MONT.—(P)—Five motorists had their enjoyment of Bitter Root Valley scenic beauty rudely interrupted.

A belligerent deer charged, smashed a door, bent a fender and fell dead.

Home is said to be the safest place, but statistics show that about one-third of all accidental deaths occur there.

Deodorant Haste

By **ALICIA HART**
NEA Staff Writer
Save yourself grief and money—this tip is from the dry cleaners—by waiting five or ten minutes to allow anti-perspirants and beauty preparations to dry thoroughly before you climb into your clothes. The safest procedure usually in

Is Costly Waste

using a cream type of anti-perspirant, is to apply only the amount which can be absorbed by the skin and to massage it on until there is no greasy excess. When a liquid type is used, allow time for it to dry on your skin—when you're in a hurry, fanning armpits helps—and wipe afterward with a wet washrag and dry with a towel. Make-up preparations to be watched with a particularly wary eye to see that they are dry before you dress are tan-faking lotions or creams used on neck and legs. You're warned by dry cleaners not to put perfume directly on garments but where it's nicer and much safer to use—on yourself.

Trouble-Spotter

One of the latest aids made available to bomber flyers is a pocket-sized gadget which flashes a light in the cockpit when engine trouble is developing, giving the pilot time to take the necessary precautions while in the air or to make a forced landing before the trouble becomes too serious.

Summer School Belles

By EPSIE KINARD
NEA Staff Writer

NEW YORK—For ambitious juniors who plan to skip vacations and attend summer school, designers have created collections of on-and-off-campus cotton and crepe fashions that defy the heat, flatter small figures and give teen-agers, straining for sophistication, a coveted well-dressed look.

Dresses of cotton—gingham, chambray, balloon cloth and seersucker—and of rayon weaves that take brightly colored and stylized prints, are as wearable for size as for age. New York designers say collections are divided about half and half for the teen-ager who takes junior sizes and for the wee women whose narrower shoulders and shorter waistline require the same small-scaled proportions.

For figure flattery there are set-in belts or midriff bands, snug bodices often pointed into short flaring pleums and discreet shoulder building that extends a trifle beyond the normal shoulder line. On many short-sleeved dresses contrasting fabric cuffs are used to snap up style appeal—as in two of the print frocks shown—and to widen shoulders by the simple device of buttoning them back to make them high, wide and quite often fancy.

A young look is further underscored in the dirndl-skirted dress of pink spun rayon dotted with black, right, by a black cotton sash which ties casually in front and does its bit of waistline whittling.

The brown and white printed rayon shir at the left owes its figure flattery to shoulder-building cuffs of fallie, as crisp and white as cup-cake icing, which is also used for the button-trimmed pockets of exaggerated size.

Contrasting fronts and fancy ruffles of eyelet embroidery make classroom cotton suits the envy of many older women, and a sample of what is causing teeth to gnash is shown center in navy and white striped seersucker. The dark front is navy blue cotton buttoned in white, and the frills outlining this plastron and edging the sleeves are of crisp eyelet embroidery.

This Woman Could Keep A Secret

OTTAWA, ILL.—(P)—They have an answer, out at the La Salle County Home, for the abiding question: "Can a woman keep a secret?" An old lady who died recently, called "Mary Jane," never told anyone her family name or where or how she lived before she came to the institution 50 years ago.

Hose Makes Saps Of Rat Sappers

COLUMBIA, S. C.—(P)—The city health department pied-pipered a score of rats from under a sidewalk here to the tune of a fire hose. The rat ejection came about when the sidewalk began caving from undermining. The health department brought the water to the rats, using a high pressure nozzle.

Yo Yo Through Air With Greatest Ease

Jap Planes Good Says Test Pilot

By RUSSELL BRINES
WITH FIFTH AIR FORCE, LUZON—(P)—Col. Ernest K. Warburton, one who should know, thinks the Japanese have produced a number of good combat planes and their latest fighters rank with those of the United States.

The husky, regular Army colonel, whose home is at Westboro, Mass., is a test pilot for captured Japanese aircraft. He has flown more than half a dozen types, both bombers and fighters, of Nippon's best planes.

"The old idea that the Japanese couldn't invent anything is all wrong in aircraft, at least," he said. "In design and thinking they are up to us."

Veteran fighter pilots from several theaters have voiced the same opinion. "One of their planes and an American pilot," said one airman, "could lick most fighters we have now."

Technically Efficient
Warburton said the two newest Japanese fighters have several developments which increase their maneuverability and technical efficiency. Both are imperial navy planes, euphemistically called the "George" and the "Jack."

The two high-speed fighters are based upon German design, he added. But the Japanese have added their own developments and improvements.

"Japan's biggest trouble, is the lack of mechanical safety," Warburton continued. "They sacrifice safety for the decreased weight that will permit greater speed and maneuverability."

GI's Now Have Own Paris Night Club

PARIS—(P)—American enlisted men now have their own Paris night club, where champagne is sold for \$8 a bottle and cognac for 50 cents a shot.

The big club coliseum, operated by a Frenchman under supervision of the Army Special Services, maintains the best Paris traditions of festivity.

Even so, the prices are pretty high and the cost of a bottle of champagne represents the total amount of money the average private in the European Theater of Operations keeps out of his monthly pay.

Enjoy Music
But the customers apparently enjoy the hot music, the dance arena with plenty of jitterbug room and a floor show which in America might run the risk of a police raid.

The Army Special Services approved the project as a private enterprise, and merely is supervising the steady flow of cognac and champagne. The French government knocked off the luxury taxes.

Champagne in other Paris night clubs is anywhere from \$10 to \$30 a bottle and cognac is equally high.

At its opening the night club handled more than 1,000 men and their girls—WAGs, British and French. The soldiers spent the equivalent of \$4,300 on 447 bottles of vintage champagne and 101 bottles of better than average cognac.

The night club was filled from the moment the doors opened at 7:30 p. m. until 2 a. m. Military police, assigned to provide friendly chauffeur service to any soldiers temporarily incapacitated, found no customers.

READ THE CLASSIFIEDS
an orange entirely with pungent cloves. Cover it with cinnamon, wrap in tissue paper and put it away until it has shrunk. Cover it with ribbon and hang in the closet.

If glazed chintz has lost its shimmer, use starch in the last rinse water and add a prepared wax-like product to the starch which will assure a satiny smooth finish.

Shortage of drawer space? Take some old cardboard hat boxes, cover with wall paper or paint brightly. Use to hold overflow from dresser drawers. Handles can be made for the boxes out of heavy bright grosgrain ribbon.

Some of those fancy cologne powder and cold cream jars, when empty, can be used to hold cherries, olives and bitters on the cocktail tray or to hold flowers, cigarettes or matches.

Paint that old bird cage to match your living room color scheme and use it to hold flowers or trailing ivy.

Closet Refreshener
Scent your closet with a pomander ball. Make this by stuffing

When the Yanks Finished With Naha

A "Grasshopper" Marine observation plane flies low over the ruins of Naha, capital of Okinawa, which was virtually leveled when the Yanks finished with it. The large structure in the foreground, left of center in the picture, is the administrative building.

Spicy Franks Good Dinner Dish

Spicy hot dogs in casserole and warm rolls for dinner.
By GAYNOR MADDOX

Tired of frankfurters? Then try this casserole for dinner and you'll be surprised and pleased.

Spicy Hot Dogs
One quart cooked tomatoes, 1 medium sized onion, diced, 1/2 teaspoon salt, 1 tablespoon vinegar, 1 tablespoon sugar, 1/2 teaspoon mustard, 1/4 teaspoon cloves, 1/4 teaspoon cinnamon, 1 teaspoon Worcestershire sauce, 1 1/2 pounds frankfurters.

Combine all the ingredients except the frankfurters and cook slowly about 30 minutes or until the sauce thickens slightly. Cut the frankfurters in half and put them into a well-greased two-quat heat resistant glass casserole. Pour the sauce over the meat and bake in a moderate oven (350 degrees F.) for about 30 minutes. Serve with warm rolls and a crisp green salad.

String Bean Shaggies
Two cups frozen or fresh cooked french string beans, 1 teaspoon minced onion, 1/2 teaspoon salt, 1/4 cup enriched flour, 1 teaspoon baking powder, 3 tablespoons mayonnaise.

Anti-Russian Feeling In America Deplored By Leaders In Washington

Want Raise

Senators Styles Bridges (top), Republican, New Hampshire, and John H. Overton, Democrat, Louisiana, lost no time in introducing a bill proposing to increase salaries of congressmen from \$10,000 to \$20,000 per year after President Truman urged such a measure. The Bridges-Overton bill also would boost the vice president's salary from \$15,000 to \$25,000 per year and those of cabinet officers from \$15,000 to \$20,000.

Goering's Remarks Bring Chuckles From Lt. Gen. B. M. Giles

By ROBBIN COONS
GUAM —(AP)—The general who gave the German air force what Hermann Goering called "the only surprise we got" — long distance fighter planes—chuckled when he heard of the fat former Reichsmarshal's astonishment.

The man is 52-year-old Lt. Gen. Barney M. Giles of Mineola, Texas, new commanding general of the Army Air Forces, Pacific Ocean Areas and deputy commander of the 20th Air Force, successor to Lt. Gen. Millard F. Harmon who was lost on a flight.

Goering was quoted as saying upon his capture after Germany's collapse that "we scarcely believed that America had a fighter plane that could escort bombers from Britain to Germany and back—that whipped us."

Giles told how as deputy commander of the Army Air Forces under Gen. H. H. Arnold he sponsored the "surprise."
"I simply demanded and got increased ranges from our P-38's, P-47's and P-51's," he recalled.
"The Germans were knocking down our bombers and we had to stop that. We fooled 'em when we sent out 700 to 1,000 fighters on our bombing missions. Germany had an air force then, but she couldn't afford to send her planes up against that many of ours."

Now the tall, genial Texan brings

By JAMES MARLOW
WASHINGTON —(AP)—With the war over in Europe, suspicion of Russia and anti-Russian feeling have become vocal in this country. It has sprung up in certain newspapers, over the radio, in Congress and in Congressional committee hearings.
"This has increased so much — with Russians still in San Francisco trying to work out a peace league—that Archibald MacLeish, assistant secretary of state, took to the air to say:
"There is no necessary reason in the logic of national objectives" why the Soviet Union and this country should ever find themselves in conflict with each other, "let alone in the kind of conflict reckless and irresponsible men have now begun to suggest."

Patman Urges Harmony
Suspicion and criticism of Russia have become so pronounced on the floor of Congress that Rep. Patman, Texas Democrat, arose to say: "I deplore the statements that are made daily on the floor of this House and elsewhere about Russia. The statements that are calculated to cause trouble or disunity between these two great countries."

There are various factors behind the suspicion and dislike of Russia—fear, economics, religion, politics. Russian influence has grown huge in Europe, particularly in Eastern Europe.
This spreading Russian influence creates fear among some people in this country of the spread of Communism throughout Europe.

Church Functions Again
Among religious people there has been strong anti-Russian feeling since the early days of the revolution because of the Soviets' anti-religious attitude and the closing of Christian churches. This ban was relaxed somewhat after Russia entered the war. The Greek Orthodox Church is functioning again. It's not clear how fully it is functioning. There is the economic fear and distrust. The rich naturally oppose Communism. They know they'd lose what they have under a Communist regime.

Aneta Pegs Goebbels As One-Time Swindler

NEW YORK —(AP)—Paul Joseph Goebbels, former Nazi propaganda minister, was fired from an early job because he attempted to swindle his employers, says Aneta, Dutch news agency.

In 1929, the report goes, Goebbels obtained a job as bookkeeper in the well-known Sarasani circus, proved "very intelligent," but ran into trouble when he demanded more money than the director, Hans Stosch, was willing to pay him.
For 18 months he successfully swindled Sarasani, Aneta says, but was discovered and fired.

Somebody Is On Light Diet

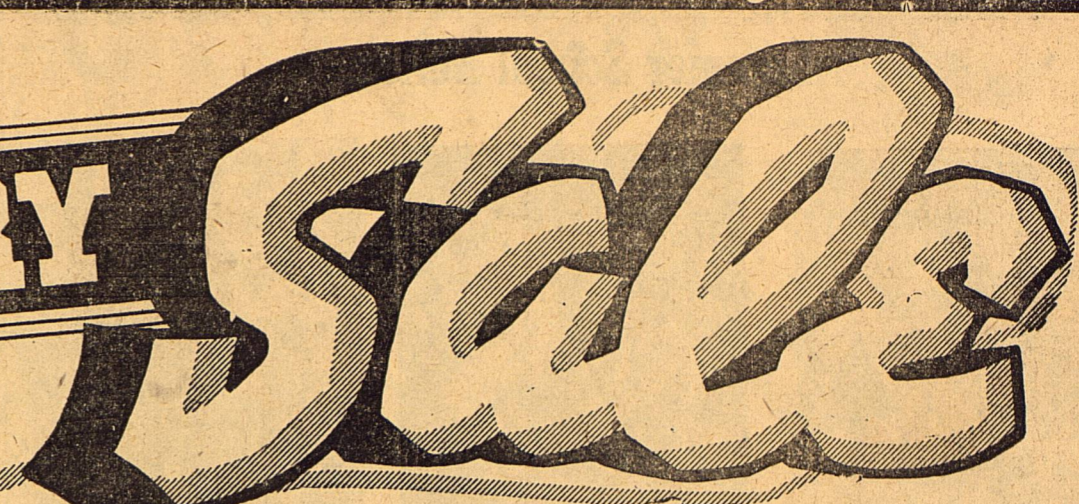

HAGERSTOWN, MD.—(AP)—Some Hagerstonian can get off his diet of soup and soft food if he calls at the city incinerator. A set of upper false teeth turned up at the plant—in perfect condition.

his talents to the war against Japan, and a background of Army aviation dating back to 1917, when he was a private in the Signal Corps' aviation section.
Flew First Fortress
He wants to set up a rest and recreation center for Superfortress crews between the long and wearisome missions to Japan, and he wants to set a definite number of missions to qualify men for home leaves, such as in the European war.

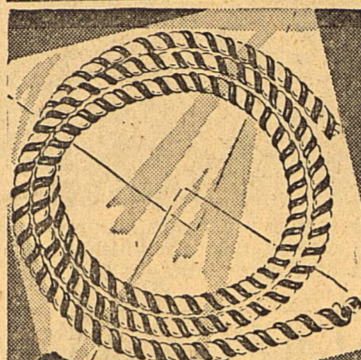

Giles flew the first Flying Fortress delivered to the Army when a deputy commander of group operations for the Second Bombardment Group at Langley Field, Va.
Of U. S. fire attacks on Japanese cities and of those "short-haired women and long-haired men" in America who decry them, Giles declared:

"They forget that we are still bombing to destroy primary industrial targets which happen to be in the cities, spread thickly through the cities. We're in a war and it's up to them (Japanese civilians) to clear out."
