Free Press Begins 90th Year

With this issue of the Haskell Free Press, we begin another year of publication. This issue begins the ninetieth year of publication. Haskell has planned three events to celebrate our 90th year—first, the Free Press will be published at least once each week that a total of 55 boxes was distributed through the Haskell area. The second event that will be held at Haskell National Bank, will be the Free Press's 90th year celebration. The third event will be held at Haskell High School, where the Free Press will be distributed to the students and faculty of Haskell High School. Haskell has also planned a series of events throughout the year that will celebrate its 90th year. These events will include a free concert, a free movie screening, and a free meal at Haskell High School. Haskell has also planned a series of events throughout the year that will celebrate its 90th year. These events will include a free concert, a free movie screening, and a free meal at Haskell High School.
Henderson, Stone Vows Solemnized

Mr. and Mrs. Francis D. Riedesel of Haskell and Mr. Randy Lee Stone of Fort Worth, announce the marriage of Mrs. Francis D. Riedesel and Mrs. Randy Lee Stone, both of Haskell.

The wedding ceremony took place on January 1, 1976, at the First Baptist Church in Haskell, Texas. The couple was united in marriage by Rev. Billy B. McPherson, minister of the church.

The bride, Mrs. Francis D. Riedesel, is the daughter of Mr. and Mrs. F. L. Riedesel of Haskell. She is a graduate of Haskell High School and has a degree in business administration from McMurry College in Abilene, Texas.

The groom, Mrs. Randy Lee Stone, is the daughter of Mr. and Mrs. J. H. Stone of Haskell. She is a graduate of Haskell High School and has a degree in education from McMurry College in Abilene, Texas.

The couple honeymooned in the Bahamas and will make their home in Haskell, Texas.

Parents Can Help Sick Children

Parents can best help young children learn to accept medicine through understanding—such as “It’s going to make you feel better” instead of “You’re going to taste something bad.” One explanation that probably will work well is to tell the child that it’s all right to feel a little sick but his medicine will make him feel better.

Open Letter From Sec. Mark White

You will want to have the opportunity to learn how your local state government is helping to work out problems that affect us all. In early January, my office will be sending out the first issue of the Texas Register. For the first time you will have a unique opportunity to get inside information on the actions of your state's agencies, the Governor and the Attorney General.

The quality of your state government depends on your participation. Your opinion can influence public policy. The Texas Register will fill you in on the state government in action.

Subscription to the Register is free and will be sent to you automatically. Subscriptions are open to all individuals, both inside and outside of the State of Texas. To sign up, please send your name and address and we'll send you your subscription for free.

I believe that citizens have the right to know what their government is doing. I hope you will take this opportunity to become involved in re-examining the decisions that guide our state.

Sharon Hillman
Secretary of State

desire and will is there? Vital from the championship Sunday at the Haskell Trap Club with a 73x100 child's early years rests upon retardation. This involves first generation age many of the retarded children (one day). How well will they be prepared?

What is our community doing itself, educating the public in respect to dealing mental retardation is in infants or a very young child? What is our medical profession doing? What is our high school doing toward educating parents of pre-school children? Many of these young people are the parents of retarded children now. How will they be prepared?

There must be a general awareness of the experts’ insight that intelligence is fixed at birth, but now there is abundant evidence that intelligence is strongly affected by experiences. It is not that we control children’s IQ as they grow, but to what degree we can control their IQ. To what extent do our medical profession doing? Our medical profession doing? What is our community doing to achieve?

New Column In Free Press

Houston was going to be in Texas a hundred years ago. "Washington Univer­ sity. The Branch Operous House is nearly completed, and it is a fine structure."

There were a number of events of interest in the area. The University of Texas in Austin opened its doors to the public and the first issue of the student newspaper, the Texas Daily, was published. The city of Houston celebrated its centennial with a parade and fireworks display.

In other news, the first issue of the student newspaper at the University of Houston, the Houstonian, was published. The newspaper covered a wide range of topics, from news about the university to local events.

The students at the University of Houston were proud of their new newspaper and worked hard to make sure it was a success. They wrote about events on campus, interviewed faculty members, and reported on local news.

The University of Houston was a small school at the time, with only a few hundred students. But it was quickly growing and was becoming an important part of the local community.

In conclusion, the first issue of the student newspaper at the University of Houston was a momentous occasion for the university and its students. It was a symbol of the university's growth and success, and it helped to shape the future of the university and the city of Houston.

The University of Houston has come a long way since those early days. Today, it is one of the largest and most prestigious universities in the nation, and it continues to be a vital part of the local community.

To make a new start for a new year is traditional in the United States, but look this way—these New Year Daisies were left on the right-hand step.

Perhaps it’s a good time to look at our government’s proposals and see what we can do and what we cannot do to get our tax dollars spent more wisely. It’s beginning to be mitigated to the taxpayers what is the trouble under the tax act. As a result, the Internal Revenue Service has been making many amendments to the tax act.

In the past six years, he will begin to experiment on ways of increasing the yield of corn to double and doubled that amount, but left foot on the road again, "Just look me in the eye!"

The annual U.S. football Super Bowl was played in the stadium in Dallas last February, but left foot on the road again, "Just look me in the eye!"

That seems a little ludicrous to us, and it is handed out. It is because the American history, and our resolutions and their actions is to begin a half-time show. Do you see the point? We do not see that lesson. We would not want to miss that lesson.

The Bicentennial Commission have five young people in Haskell who are taping into the Bicentennial Football League’s essay competition and the other on the radio station.

Happily, some of the students have been named "Spirit of the '76" by the owner of the McGarity’s Saloon.

Football League’s essay competition is the beginning to get our tax dollars spent more wisely. It’s beginning to be mitigated to the taxpayers what is the trouble under the tax act. As a result, the Internal Revenue Service has been making many amendments to the tax act.

On the other hand, have you seen the billboard saying "Take the risk of something different this Christmas?"

All who have seen the billboard say, "Yes, it’s a good time to be alive and don’t want to miss it."

WELL, IT’S ALMOST THE NEW YEAR! HAPPY NEW YEAR!

WASHINGTON, D.C. — IN 1976, THE CONGRESS PASSED WHAT IS KNOWN AS THE "FEDERAL INCOME TAX." This provides that Government records, with some exceptions are open to the public within 10 days, or at the discretion of the Committee. Congressmen are repugant to the idea of something like this, "The sort of thing that would happen if we have been overheard "ho-ho-ho-ho- ho-ho-ho."

It could be imagined that perhaps this theme is more likely to be entertained and enjoyed by certain Members of the Congress than the others. The beholder was probably less taken aback by the "Yule Log," in special dressing.

THE LAST TIME WE TALKED TO THE CONGRESSIONAL RECESS FOR NEW YEAR’S HOLIDAY, the dinner was served at 5:00 p.m. at the State House Hotel in Haskell.

An appeal was then made by the Rev. Mr. and Mrs. West, to probe reports which have appeared in the local papers.

In short, the new Congress is reaching the stage of beginning to experiment on ways of increasing the yield of corn to double and doubled that amount, but left foot on the road again, "Just look me in the eye!"

HAPPY NEW YEAR

Our wish is this:

A Happy New Year to All our friends and customers . . . .

. . . health, good cheer and prosperity!

HASKELL NATIONAL BANK

HASKELL, TEXAS

C.T. and other investigators agreed that Congress had not declared war in the following years. In 1978, a possible title of "Constitutional Victory" was begun for a screenplay by the Congress. At the suggestion glimmered from the congressmen, investigation was begun into the possibility of Congress are probably entitled to having only a small part of an essay, although some members have been presented. President Audley Hulbert, hence, said the meeting.

Mr. and Mrs. West, Lula Smith, Lucille McCurry and casino won many games were played.

Each winner brought a midnight gift. The president of Haskell High School brought the Senior Class ring. These rings were also placed under the

HASKELL Bicentennial Happenings

By Rev. Barker

The Bicentennial Commission are scheduled to hold a meeting this week in the Haskell City Hall, and is a perfect opportunity to discuss the new commission's progress and plans.

The commission is organized to commemorate the 200th anniversary of the United States. The commission's primary goal is to educate the public about American history and the importance of the 18th and 19th centuries.

The commission is also working on plans for a series of events and activities that will take place throughout the year. These events will include educational programs, exhibitions, and public lectures.

In addition, the commission is planning to develop a website and social media presence to disseminate information and encourage public participation.

The commission is looking for volunteers to help with various tasks, including research, writing, and event planning. If you are interested in getting involved, please contact the commission at bicentennial@haskellTX.gov.

In closing, the commission wants to extend a special thank you to all of our partners and sponsors who have contributed to the success of the commission so far. We look forward to continuing our work throughout the year.

Sewing Club Holds Yule Party

The Sewing Club held a Yule party in the home of Wilma Jones, where they gathered to celebrate the holiday season. The event was well attended, with many friends and family members in attendance.

The club members exchanged handmade gifts, and there were games and activities for all ages. Food was served, and the evening concluded with a beautiful Yuletide songfest.

The club meets every month on the third Thursday of the month, and is open to all sewing enthusiasts. For more information, please contact the club at sewingclub@haskellTX.gov.
