NUMBER THIRTY-FIVE

Just A Thought

by Carter

Editor goofs! remember you read it here. In reporting the school board meeting last week I stated that the tax rate had been raised to \$1.50 per \$100.00 valuation. This should hav read that is was set at \$1.50 per \$100.00 valuation since the \$1.50 figure was reached some time ago and it is a matter of resetting it each year I suppose.

Sorry fellows!

It looks like Hawaii Kai is going to stay open on weekends through September 26 and possibably through the winter months.

I would think that it would be a little difficult to get the Hawaiian feeling in 16 degree weather.

Got our first press release referring to the State Fair of Texas. They promise all sorts of exciting new and old things to kindle the imagination and interest.

• Week before last the City Council asked Haskell resi-

dents to conserve water.

I guess some of our neighbors feel exempt from this request or don't read the Free Press because driving around town the other day we found a lot of people letting their water run into the street. Take note friends and remember these wonderful (sic) people when we all have to start rationing our water.

It has been an exciting week, last Friday I got a call from the Secretary of State in Austin about the little note in our column. They indicated that they wanted to get the election judge matter straightened out and wanted some more information from us which we promptly supplied, later that same evening Ms. Lucile C-deBaco with the Secretary of States office called back and informed us that there had been a misunderstanding and that · due to a death (we are not sure whose) the Commissioner Court was only reviewing the list of election judges in March

not appointing them.
learned don't take nobody's word for nothing when politics are involved. We checked over the photo copies of the minutes supplied to us by the County Clerk, we found in fact they DID appoint election judges in March and again in

July.

I promptly called Ms.
C-deBaco in Austin and informed her of our findings in

Haskell City Police Report

2 Accidents CHIEF'S REMARKS

There were two very bad accidents last weekend. Both caused by excessive drinking. Remember if you drink don't drive and if you drive don't drink. The City Police are working hard to get the drunk driver off the road. Radar this week showed that people are not observing the 30 mph speed limit in the downtown area. Violators will be charged. Remember the 20 mph in

the case of March, the air of certainty faded from her voice and after a comment of "oh no" she said they would investigate the situation and get back to us on Monday and here it is Wednesday and not a word. Some investigation, huh?

Now to the lighter side. Six Flags Over Texas has announced that the park will start staying open during the evening hours from August 30 through Sept. 3.

Nuf said.

Back to the Commissioners Court session Tuesday morning. Several voting citizens attended this meeting scheduled for 9 a.m. at the "regular meeting place" however the Commissioners did not show up for the "regular session" until 10 a.m. and then the meeting was never called to order and it was 10:18 when the minutes from the last meeting were finally read, which I suppose signaled the start of this meeting.

Well, I guess that's enough said about our Commissioners Court, now to important matters.

Do you think it's going to snow?

Lions Corner

The Haskell Lions Club met in their regular place this past Tuesday and came close to not having a program but Jimmy Owens came through like a true Lion and produced a couple of investigators from the Texas Highway Department in Abilene.

A briefing on what is to be expected in the future in regards to new licensing proceedures was given. The new system which is subject to change is supposed to start in 1978 at which time you will be required to buy your license plates according to the middle number on your tag instead of standing in line at the last minute in April. Questions were fielded by the two guests who were Wayne Beck and Ronny Halferkamp.

88 Year Old Woman Found

At 4:30 Wednesday morning the Sheriff Department, City Police and the Haskell Volunteer Fire Department were called out to search for an 88 year old woman who was reported missing.

The woman had been seen at approximately 11 p.m. and appeared to be upset. After friends had calmed her down she went on to bed only to be discovered missing during the early hours of the morning.

After an hour long search in total darkness and drizzling rain a neighbor informed the search party that the missing woman was in her home asleep.

The Sheriff's department was notified and they in turn called in the Fire Department.

Hall Of Fame Proposed

The State Firemen's and Fire Marshals" Association of Texas announced today that they are launching a 2 million dollar campaign for the purpose of raising money to build an Archives and Hall of Fame in the State of Texas.

The Campaign Chairman is a Veteran Fireman, Chief Blondy Rucker, of Killeen, Texas. The State Firemen's and Fire Marshals' Association is celebrating its 100 years of service this year EXHIBITOR OF THE CLASS winning senior heifer at the Great Plains Regional Junior Hereford Heifer Show, Abilene, Tx. was Cindy Thomas, (right) seventeen-year-old daughter of Mr. and Mrs. Clifford Thomas, Haskell. Her entry was LER Lady Axtell 677 sired by 07 Tiberius 556 and bred by Jack Ebeling, Round Mountain, Tx. Pictured with Cindy is Mary Kalka, Chandler, Oklahoma Hereford Queen. (Photograph by American Hereford Association).

Sewer Plant Ready For Bid

The regular meeting of the Haskell City Council was held Tuesday August 24, at 7:30 at the City Hall. Business discussed during this meeting involved the advertising for bids on the new sewage processing plant to be built for

Haskell.

Mr. Billy Jacob representing
Yeatts & Decker Inc. presented the council with two sets of
plans for the proposed sewer
plant construction. It is now
up to the council to advertise
for bids for its construction.

Also present at the meeting were representatives from the Haskell Jaycees who wanted to get the council's ideas on their using the rodeo arena for an annual rodeo. The council was in favor of the idea but suggested that the matter might be better presented to the fair committee who have the say so over the use of the fair grounds. It was pointed out that the last rodeo had cost the Jaycees quite a bit in labor and money to get the arena in condition for a rodeo because of the condition it was left in

after the tractor pull from last

dy For Bid

with the fair committee and see what could be worked out.

Present at the meeting were Mayor Belton Duncan, Guy Kennedy, Loraine Johnson, E. J. Stewart, Bob Philpot, Earl Proctor, and Desmond Dulaney.

The Junior Chamber of

Commerce committee said

that they would get in touch

HTC Sponsors Old Fashioned Trap Shoot

The Haskell Trap Club announces that it will hold an old fashioned trap shoot, August 29th at 3:00 p.m. for those who are interested in trying their hand at the game for fun or prizes. There will be an event for every kind of scatter gun enthusiast from the hard core trap shooter to the bird hunter who just likes to feel the gun go off at a moving target. Some of the prizes offered are bacon, coffee, and sugar.

Haskell County Commissioners Sued For Non-Payment of Salary

A petition for suit was filed in the 39th District Court in and for Haskell County, Texas at 9 a.m. on August 20, 1976 listed in the petition were the County of Haskell, County Commissioners Q. D. Byrd, R. L. Edwards, J. R. Perry, C. A. Turnbow, and County Judge Beverly Roberson. The petition was filed on behalf of Walter Counts of Rule.

Mr. Counts contends that he was duly elected to the Office of Justice of the Peace of Precinct 6, Haskell County, Texas in November of 1972 and was duly qualified and assumed the duties of that office on January 1, 1973.

According to the petition filed by Mr. Counts attorney Mr. W. L. Burke, Jr. of "Plaintiff (Mr. Abilene Counts) would show that on or about December 15, 1974 he was notified by Charles Chapman, County Attorney for Haskell County, Texas at the office of Justice of the Peace Precinct 6 as of December 31, 1974 and that Plaintiff would not be able to complete or fulfill any of the duties of that office after that

time."
Further "Plaintiff would also show that the County Commissioners thereafter failed and refused to allow Plaintiff to fulfill the duties of his elected office even through no person had been duly elected or qualified to assume the duties of that office and that they failed and refused to pay to the Plaintiff his monthly salary of \$100.00 and they have remained steadfast in their refusal down to the present date."

The petition went on to state "Notwithstanding the actions of the said County officials, Plaintiff continued to attempt to fulfill the duties of his office until July of 1975, at which time it became obvious to the Plaintiff that he would be unable to continue. Plaintiff would further show that he has been ready and willing at all times since July of 1975 to

Band Parents Hold Meeting

The Haskell Band Parents Association met in the Band Hall Monday, August 23, 1976. Mr. Gene Long, Co-Chairman of the Association presided. Thirty-one parents were present.

Mr. Long announced that the Stamford First Federal Savings and Loan have donated cups for Concession Stand

It was announced that the Tenor Saxophone and the plastic hat buckets purchased by the Band Parents have arrived.

Because a new state law forbids payment of fees by students, the Band Parents voted to pay \$5 per student which will cover contest entry fees for the coming school year.

An exciting fund raising idea was presented and will be announced as soon as details are worked out.

Olen King and Jesse Dean were appointed to secure a machine to store ice for the season and Mr. and Mrs. Jesse Dean were appointed Transportation Chairman.

Meeting adjourned to the Concession Stand for a general cleaning. All machines were reported in working order. A new roof is needed and is being checked out. All is in readiness for a profitable season which will benefit the Haskell School Bands. Sixty have enrolled in the Junior High Band and seventy in the Haskell Indian Band.

resume the duties of his elected office, but has been prohibited from doing so by actions of the above referred to County officials."

to County officials.' "Plaintiff would show that as of the present date no one has been elected to the office of Justice of the Peace for Precinct 6 of Haskell County, Texas and that under the laws of this state Plaintiff is thus the legally constituted Justice of the Peace of such precinct and has been continuously since the date he originally assumed office on January 1, 1973. Plaintiff would show that he has unpaid salary as of the present date due and owing from the County of Haskell in the amount of \$1,700.00 and that this amount will continue to accrue on the 25th of each month hereafter."

The petition goes on to outline the attorneys fees and court costs which is also part of the amount being asked for. In an effort to get a reaction from the County Attorney Mr. Charles Chapman or Judge Beverly Roberson we received

a no comment. We learned from Ms. Carolyn Reynolds, District Court Clerk that the summons had been served at 9 a.m. August 24 on the Commissioners before the Tuesday morning session. In an interview with the Sheriff outside the Commissioners Court chambers he said he knew nothing about the summons being served it was not until much later that we learned from Ms. Reynolds that the Commissioners had been served by the Sheriff's Chief Deputy Mr. T. P. (Bull) Barnett.

Area Residents Tour Nations Capitol

Mr. and Mrs. Leon Ivey of Munday and former residents of Haskell and Mr. and Mrs. Fredrick Dalby of Asperment have recently returned from an all expenses paid trip to Washington, D. C. where both couples were participants in the Regional Festival of American Folklife.

The Ivey's names were submitted to Beverly Stoelje a field worker for the Folklife Festival by H. E. (Buck) Bland president of the Stamford Cowboy Reunion. Mrs. Stoelje was visiting the reunion and looking for a square dance caller and calf ropers for the festival. After an interview and careful screening, the couples were advised that they had been selected as participants.

The Folklife Festival is held each year in the beautiful shaded open air Mall between the Lincoln Memorial and the Washington Monument. Talents from all over the Southwest, Spain, Mexico and Africa were there during the week long stay. The theme is changed each week and runs for 12 weeks for the Bicentennial year.

The Iveys instructed traditional square dancing and encouraged the many tourists to take part in the "Virginia Reel" and "Texas Star". The Dalbys demonstrated calf roping along with other roping skills. in the Corral that had been built on the festival grounds. Tourists also tried

While in Washington the Iveys and Dalbys managed to find time to board a tour bus for some sight seeing to the Capitol Building, White House and the Smithsonian Institution.

...BUT IN WHAT CONDITION—Mr. Ruben Martinez was fortunate to escape this accident with his life and had that tree been another car there could have been a serious loss of life to others. Martinez was

charged with DWI and pleaded guilty to the offense. He was fined and released. His comment was that he just went to sleep and hit the tree.

The Rev. Paris Barton,

Randy Davis Appointed Self-Study Dir.

Mrs. Randy Turnbow Davis, daughter of Mrs. C. E. Turnbow and the late Mr. C. E. Turnbow has been appointed Richland College's Institutional Self-Study Director for the next 21/2 years. Randy was chosen director by the administration of Richland and the Dallas County Community College District. Richland serves more than 20,000 credit and non-credit students in the Dallas and suburban areas. Randy was chosen according to the President of Richland "because of our utmost confidence in her ability, leadership qualities, and service as a full time faculty member at Richland for the past 4 years and has been in the district for the last 6 years."

Randy, a 1964 Haskell High graduate, has her Bachelor's and Masters Degrees in Business from North Texas State. She has completed the writing of two texts in the field of individualized instruction using audio and video materials in Shorthand Instruction. Randy has served on various committees and made significant contributions to the Staff Development Programs at Richland. When asked about her new appointment, Randy said, "I am honored to be chosen and well aware of the challenge that lies ahead in the accreditation process for Richland and I am sure we will

succeed in our endeavors." Randy is married to Ed Davis, a Real Estate Broker in Commercial Shopping Center Development and make their home in Dallas. Randy's other, Mrs. Turnbow the only regret she had with her daughter's busy career

ON THE DEAL!"

Mr. and Mrs. Curtis Pennington were recently in College Station to attend the Texas A&M summer graduation ceremony where their son Dale Pennington received his Doctor of Philosophy degree in Soil Chemistry.

Dale was a 1957 graduate of Haskell High School and received his B.S. degree in 1962 in Agricultural Education. He entered the Army shortly afterwards and distinguished himself in the Quartermaster Corps at Fort Lee, Va., he left the Army after two

years as a Captain. Dale served as assistant county agent of Jackson County for two years. Returning to college he went on to earn his M.S. degree in 1971

in soil chemistry. For the past two and a half years Dale has been working in the Research and Experimental Center of Texas A&M.

Dale is married to the former Carmen Cornelius of Llano, Texas and they have one son, Shannon, they presently live in Weslaco, Texas. Dale serves as Agronomist over districts 12 and 14, bordered by Laredo,

Brownsville and Victoria. Texas A&M had a total of 1,034 summer graduates, a record for the states first public institution of higher learning which is now in the midst of its centennial.

SUPPORT THE BEEF CHECK OFF PROGRAM

PICTURED ABOVE left to right: James Powell, Melba Howard and Mrs. Dale Bradshaw. Mrs. Bradshaw is explaining The Beef Checkoff Program to the group at the Haskell Livestock Auction Saturday. She is the President of The Big Country CowBelles of Abilene.

PICTURED from left to right, Mrs. James Powell, representing The Haskell CowBelles, Willard Mullins, representing the Farmers Union, Clifford Thomas, holding steer, "Keep Beef King," Dan Riley Griffith, representing the Farm Bureau, and Mrs. J. R. Perry boosting the Haskell County Fair.

ANSWERS TO QUESTIONS
FREQUENTLY ASKED ABOUT THE
BEEF RESEARCH AND INFORMATION ACT

Q. Who developed the Beef Research and Information Act?

A. This plan was developed by the Beef Development Taskforce (BDT)—an industry-wide committee with representatives from the American National Cattlemen's Association, National Livestock Feeders Association, National Live Stock and Meat Board, United Dairy Industry Association. Livestock Marketing Association, Central Public Markets and American National CowBelles.

Q. Who is supporting this plan?

A. Most beef and dairy organizations have endorsed it—a total of 11 national organizations, plus 10 national breed associations, 15 state beef councils and 45 state cattlemen's associations. Never has there been a program or an issue that had such wide support of cattlemen.

Q. What is the objective?

A. It is designed as a self-help plan under which producers can raise funds for beef research, consumer and producer information, promotion and market development programs. The ultimate goal, of course, is more profit for producers...plus better products and more stable supplies for consumers.

Q. Will any of the money be used for lobbying?

A. Absolutely not. The law prohibits any of these funds being used to influence legislation.

Q. Will the program be run by the Government or the Secretary of Agriculture?

A. No. According to the bill, only the Beef Board has authority to develop programs and enter into contracts. The Secretary has the authority of approval only. His responsibility is to see that the program is run by cattle producers in the manner and for the purposes spelled out in the Act.

Q. Will a producer's wife or children be allowed to vote in the referendum?

A. If the cattle are joint property, there will be one vote per family and either the man or wife may vote. The same applies to a corporation or partnership—one vote per producing entity.

Q. Can a producer get his money back?

A. Yes, simply by writing to the Beef Board and supplying evidence of how much he paid in assessments.

Q. How can consumers benefit from such a program?

A. This program will benefit consumers, as well as producers, in many ways. To name a few: Increased efficiencies through market and product research; improved consumer information and education (better know-how in the economics and purchasing knowledge of beef, resulting in savings for the consumer); research in nutrition and health; etc. The success of the program will be in direct proportion to the help that it affords consumers, because informed and happy consumers are vital to the beef industry.

Q. How will the program help small producers?

A. A long-range program—aimed at increasing and improving all facets of beef market development—promotion, education, and research—should be of equal benefit to all producers in ratio

Q. Can we be assured that funds will be properly managed and well handled?

to their involvement in cattle production.

A. The Beef Board (cattlemen) will have the ultimate responsibility. The Beef Board will need to employ the best available professional staff as they will have direct responsibility for managing and handling the funds.

Q. Could the Secretary of Agriculture appoint people of his own choosing to the Beef Board and thereby control the program?

A. No way. The Bill states that the Beef Board shall be composed of cattle producers appointed by the Secretary from nominations submitted by eligible organizations of cattle producers. The Secretary is not authorized to make appointments from any other source.

The Beef Market Development Program is a self-help plan for cattlemen. It's a "everyone-pays-a-fair-share" system for cattlemen to finance, activate and administer their own research, consumer and producer information, promotion and market development program.

SUPPORT THE BEEF MARKET DEVELOPMENT PROGRAM
Register in spring 1977 and vote "Yes" in the
Beef Research and Information Order.

As president of a Cowbelle local chapter, you are receiving this quantity of "Keep Beef King" buttons to be sold for \$1.00 each. Cowbelles throughout the nation will be selling the buttons to raise \$150,000 needed for a bond to be posted with U.S.D.A. for the referendum costs and to support the industry B.D.T. information campaign. When the referendum passes,

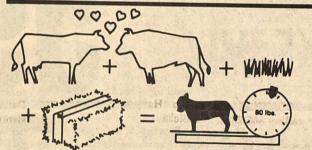

the bond will be returned to the Cowbelles for use in their programs. (The money will be returned to Cowbelle organizations in proportion to "Keep Beef King" buttons sold.)

If you have not contributed to The Beef Checkoff Program send it in now to Haskell CowBelles and mail to Mrs. Bobby Howard or Mrs. James Powell, Haskell Texas before September 25.

Under an archway of green- her father, the bride wore a ley of McKinney, sister of the groom. They wore apricot dotted swiss gowns fashioned in empire style with a V neck, and ruffled cap sleeves. They carried bouquets of apricot carnations and white daisies with baby's breath, tied with white satin ribbon.

The grooms best man was Joe Hopkins of Lubbock and groomsmen were David Cox, McKee and Mitchell Kidd, all of Lubbock. Ushers were Kevin McCarley of McKinney, brother of the groom, Wes Jones, brother of the bride and Tommy Pennington of Garland brother-inlaw of the groom.

Mrs. Janet Bannon of Abilene registered guests in the Bride's Book at a table laid with a white cloth and holding a crystal bud vase with apricot carnations.

Following the ceremony the bride's parents hosted the reception in the Fellowship Hall of the church.

The bride's table was laid with a white lace cloth and an arrangement of Sonya roses, apricot carnations and greenery in a white milkglass vase. A three-tiered wedding cake was trimmed with apricot flowers and wedding bells on top. Serving guests were Jeannette Wernette, April Burhalter and Karen Harruff, all of Lubbock. Serving appointments were crystal and silver.

The grooms table was laid with an apricot linen cloth and held an arrangement of daisies. A square chocolate cake trimmed with brown and decorated with darker brown icing was served to the guests. Serving appointments were crystal and a silver coffee service. Serving guests were Sue Erickson and Mrs. Linda Vancil of Lubbock and Mrs. Patricia Grand of Haskell, cousin of the bride. Other members of the houseparty were Billi Mathis, Bobbie Brass, Jean Cloud, Melba Everett, Carolyn Everett, Margaret Jones and Mr. and Mrs. Buck Everett.

The bride is a graduate of Rule High School and is presently a senior at Texas Tech University at Lubbock. The groom is a graduate of McKinney High School and Texas Tech University. Presently he is working on his Masters Degree in Microbiology at Tech where he is employed as a lab instructor.

Dr. and Mrs. McCarley hosted the rehearsal dinner Saturday night at the Cliff House in Stamford.

Mental Retardation

Editor- This is one of a series of articles about Mental Retardation prepared by Mrs. Eugene Cochran and the Public Education Committee of the Texas Association for Retarded Citizens.

AN OUNCE OF PREVENTION

America's number one health problem affecting children today is mental retardation a condition that affects some 120,000 babies a year. Every five minutes in the United States, a child is born mentally retarded. The tragic part of the story is that most of these cases could have been prevented.

Until recently, people believed that retardation was always inherited from one of the child's parents. We now know that about one fourth of the cases of retardation are hereditary. Mental retardation can be caused by any condition which interferes with your child's development before birth, during birth or in the early childhood years. Many causes of retardation are unknown and therefore remain unpreventable. But medical experts now say that at least 50 percent of the cases are preventable.

You probably know very little about the subject of mental retardation. When you think of having a family, it's the most remote prospect of all. But when you're planning to have a child, you should be aware of the causes of mental retardation. If you are already pregnant, or even if your plans to start a family are years away, the best thing you can do for your child is to take care of yourself—starting right now. With the help of your doctor and the steps outlined, you can help your child to be

born healthy. THINK AHEAD. Genetic counseling, while it may never reach the same popularity as the bride's registry for silver, crystal and china, should be a premarital concern for those couples whose families have disorders that could be hereditary. The best time to get advice is before the wedding. About one-fourth of all

mentally retarded individuals are retarded because of a definite genetic factor. Genetic counseling can help couples decrease these estimates.

SEE YOUR DOCTOR BE-FORE CONCEPTION. There are a lot of things to know about having a baby. In fact, there are certain immunizations and tests you should have even before the baby is conceived. The best thing to do is see your doctor at least three months before conceiving the baby.

If you don't have a doctor, public health agencies are available for services in most communities.

EAT THE RIGHT FOODS. Good nutrition is essential for mother and child, but should begin long before you become pregnant. Remember, whatever you eat or drink is also being fed to your unborn A variety of meats, vegetables, fruits and dairy products is the best diet for both of you. Avoid eating junk foods which are high in calories and low in nutrition. Improper nourishment during any period of pregnancy can alter the normal growth of the child's brain and damage future ability to learn.

YOURSELF PROTECT WITH IMMUNIZATIONS. If you get German or three-day measles (rubbella) in the first three months of pregnancy, retardation or some other birth defect may be the result.

Immunity testing is also available if you can't remember whether you had the measles. If you haven't had measles or other childhood diseases, ask your doctor about immunization to protect you and your baby. It's best to stay away from known cases of measles. Encourage parents to have children immunized.

BEWARE OF RADIATION. Both parents should be aware the amount of their exposure to X-rays and other

radiation before conception. During pregnancy, the baby can be damaged if it is exposed to X-ray or radiation. Take special precautions during pregnancy or suspected pregnancy. Have no X-rays without your doctor's full knowledge of your condition.

CONTINUE TO SEE YOUR DOCTOR. There is just no substitute for expert medical care. Many medical problems go un-noticed by people who do not have regular medical checkups. It is necessary to have regular checkups once you become pregnant. Medical care is important during pregnancy for thyroid disease, diabetes, or infections of the kidney or bladder. The doctor will check the baby's growth until it's time for you to deliver. Abnormalities may be detected and possibly corrected or reduced with constant

STOP SMOKING. Every time you inhale cigarette smoke, you fill your lungs with nicotine and carbon monoxide. Your blood carries these impurities through the umbilical cord into your baby's bloodstream. Smoking can restrict the baby's normal growth inside the womb. It can make your children underdeveloped and underweight at birth and prone to illness in the first critical weeks of life. If you give up smoking during pregnancy, your baby will be as healthy as if you had never smoked.

VD NEEDS TREATMENT. If you think you have veneral disease, seek treatment immediately. Damage to the unborn baby's heart, skeleton, nervous system and brain can be caused by VD-the result can be a mentally retarded child. Help is available from your local health clinic or physician.

KNOW YOUR BLOOD TYPE. If the mother has RH-negative blood and the father has RH-positive blood, a newborn infant has a one-in-twenty chance of having hemolytic anemia which means the baby's red blood cells don't live as long as they should. A vaccine can prevent RH blood disease. If you're RH negative, ask your doctor about it.

AVOID DRUGS EXCEPT THOSE PRESCRIBED BY YOUR DOCTOR. Many medications can cause birth defects when taken alone or combined with other drugs. Check with your doctor about the safety of taking drugs prescribed for you before your pregnancy began. Remember hat even common, every day drugs, such as aspirin, should be used only with the permission of your doctor. For more information contact TARC, 833 Houston, Austin, Texas 78758.

Dove Season Opens Sept. 1

Traditional noon to sunset shooting hours must be observed during the continuous mourning dove season Sept. 1 through Oct. 14 in the North Zone and in the first portion of the season established recently by the Texas Parks and Wildlife Commis-

Daily bag on the mourning dove is 10 birds with possess-ion limit of 20. This applies to

agrifacts

Pat Hale

Have farmers done anything for you lately? Probably not. At least, not since your last meal. Figures developed by researchers with the USDA indicate that American farmers' production last year was high enough that each man farming produced enough to feed 57 people. In the European Common Market countries one farmer Market countries one farmer produced enough to feed 23 other people, the average of all developed countries was less than half the productivity in the U.S. and in Russia the average farmer produced enough to feed only about 8 others. Not only is the American productivity American productivity important in keeping us all well fed (most too well) it's also significant in that it allows 96 out of every 100 people to work in areas out-side food production. That makes possible the production of the wide variety of goods and services which constitute our unparalleled living standard. Keep it up farmers!

HALE FARM SUPPLY Phone 864-2692

all Texas dove seasons.

A split season is set for the North Zone beginning Jan. 1 and runs through Jan. 16 when the shooting hours start 30 minutes before sunrise and will end at sunset.

Last year an experimental all-day season was tried in the winter segment of the South Zone with no appreciable change in dove harvest. Hunters contacted by the TP&WD generally were pleased with the additional hunting opportunity whether they took more doves or not. The last year of all-day dove

hunting was 1950.

According to Clyde Holt, TP&WD biologist in Decatur, the opening of dove season will probably be a little "slower" than normal for the North Central Texas area. Holt said it is strictly a food situation and at this early date we have no abundance of dove feed. As the croton (dove weed;, sunflowers and milk matures our dove population should build up where this type of situation

A LOT-A-COIN...Recently a set of 13 official state Bicentennial medals were presented to the Smithsonian. The complete set of 13 high relief medals are solid 18 kt. gold and until August 31st they will be priced at only \$2,750.00 for a set of 13, after that date they will go up to \$3,250.00 per set in conformance with the \$250.00 for each of the states for their individual gold medals. Pictured above from left to right are William T. Louth, chairman of the board, Medallic Art Company, making the presentation to Mrs. Elvira Clain-Stefanelli, Dr. Vladimir Clain-Stefanelli, curator of numismatics, the Smithsonian and Greg Jones, general manager of East Coast Coin Exchange looking on the official distributors. If you're interested in a set write the East Coast Coin Exchange, 3715 Northside Parkway, Suite 176, Atlanta, Ga. 30327.

RULE-HAWLEY

SCRIMMAGE The Rule Bobcats and the Hawley Bearcats held their first scrimmage of the year on Friday night, August 20th, in Bobcat Stadium, with the score 0-0.

Both teams had some good hitting on both sides. Rule had a 157 yard to 27 yard edge on rushing, while Hawley led 27 yards to Rule's 0 in the passing department.

Leading rusher for Rule was tailback Paul Flores with twelve carries for 100 yards. He was followed by fullback Bobby Flores five carries for thirty one yards. Rule was 0 for 4 in passing.

The entire offense did a good job of blocking. A few mistakes and lack of passing hurt the Bobcats the most. The defense hit with authority but, need to be more consistent. The Bobcats picked off two of Hawley's passes. Some improvement is needed but, the season is just beginning and the Bobcats are a young and eager team and are willing to work hard to obtain higher goals. Time and experience will soon make them a veteran team. Let's support the boys by backing them in their games and show them we're behind them 100 per cent.

AARP

Members of the Rule Chapter of American Association of Retired Persons met on Monday night, August 16th, in the Rule Recreation Club with twenty five members present and one guest. Hostesses were Opal Grice, Clara Hines and Mrs. Bill Gann.

President O. G. Lewis presided over the business meeting. Mr. Lewis read a Thank You note from Mr. and Mrs. A. E. Ball for the gift presented them by the members of the AARP. Mr. Ball was formerly president of the AARP and Mr. Lewis vicepresident. Upon the resignation of Mr. Ball due to their moving to San Angelo, Mr. Lewis accepted the office of president.

Mrs. Hazel Lewis, chairman of the committee to participate in the Rule Jubilee, expressed thanks to the members for their donation of lemonaide and their time in helping to run the AARP booth at the Rule Jubilee. She reported it was a great success.

President Lewis announced the Defensive Driving Course was not held because of conflicts and hopefully, this will be held at a later date.

Mrs. William Camp was accepted as a new member and the resignation of Mrs. J. E. Herren was accepted with The Rule Garden Club will regret. Due to ill health, Mrs.

Hostesses for the next meeting to be held on Monday, September 20th, will be Faye Gibson, Mrs. Charlie

Jackson and Mrs. S. P. Keller. Members attending enjoyed a fellowship meal and the table games which followed.

WASHINGTON

OMAR BURLESON Congressman-17th District

WASHINGTON, D. C .-OUR GOOD FRIEND AND NEIGHBOR, Congressman Bob Poage of Waco wrote on July 30, "Sometimes after witnessing the efforts of some of our Colleagues to block the development of every source of energy, I feel they must want us to go to catching lightning bugs and putting them in bottles to read by. Today, the House by a two vote majority turned down a proposal to let private enterprise use Governmentdeveloped techniques to expand atomic energy fuel plants. Atomic energy is one of the cheapest energy resources that we have presently available but it requires tremendous capital to produce

THE LEGISLATION TO WHICH CONGRESSMAN POAGE referred is known as the "Nuclear Fuel Assurance Act of 1976" voted on by the House Representatives on Friday, July 30. The following Wednesday, August 4, we were able to reverse the defeat of the bill and passed it by a

and even more to produce the

needed fuel."

one vote margin. IN HIS NEWS RELEASE, CONGRESSMAN POAGE went on to say that when he is about ready to despair, 'someone comes along and shows that there are people in the United States who realize that we are faced with a serious need for energy and that the only way to get that energy is to let someone make a profit producing it." He pointed out that we have almost unlimited sources of energy from the sun but that it is so diffused it is difficult to use for ordinary purposes. A number of industries are, however, spending large sums money in research and development to capture the Mrs. Adella Bogart visited re- sun rays for heating and cently in Clyde with Mr. and cooling systems. Our scientists are convinced that in a few years the enormous costs of producing solar energy can be

greatly reduced. MR. POAGE IS HEADING EFFORTS in his Agriculture Committee towards developing another source of energy. This is producing an alcoholic fuel from vegetables. He believes that large quantities of alcohol from vegetables, corn and other grains can, in Tommy Matthews, owner of time, be produced at a cost the South Side Barber Shop in low enough to make it Haskell, has recently pur- competitive with gasoline. To chased the Barber Shop here reach such goals, we must be in Rule from Floyd Norman. willing to carry on substantial He will open the Barber Shop and expensive research. Unhere on Wednesdays and less we do this, Mr. Poage Thursdays, beginning August further points out, we are 25th. He will have regular hair going to find out that in ten cuts, layer cuts and hair years from now our cost of producing energy from the Mr. Matthews has been a sun or from vegetables is barber in Haskell for 14 years going to be as great as it is and invites all his Rule today and we will have no customers, and men and boys facilities to accomplish this from Sagerton, Rochester, production. kell student received his certificate August 19 when Texas State Technical Institute graduated a class of 144 in 10 skill development programs on the Rolling Plains

He is Arvil J. McFadden a graduate of the air conditioning and refrigeration mechanics program.

A noxious weed, commonly known as blueweed or blue sunflower, has been located and identified in Haskell

Clyde Mayfield of Weinert, cooperating with the Wi. ha Brazos Soil and Water (nservation District, discovered blueweed in his western wheatgrass waterway, east of

Blueweed is a low, bluish or grayish green perennial, growing 1 to 2 feet high, reproducing by seed but principally by the widespreading underground system of creeping and upright roots and rootstocks. The leaves, which give the plant its color, are stemless, and may be located alternately or opposite each other on the main stem. The leaves are narrow to broadly lanceshaped, 1 to 4 inches long, and vary greatly in width. Leaf margins are often very wavy and bear short stiff hairs. Similar hairs may also occur long the leaf veins on the lower surface.

The flower heads are 1 to 11/2 inches broad, have yellow petals with a dark purplish brown center. The narrow, wedgeshaped seeds are grayish brown, 4-angled, and about 1/8 inch long.

Blue weed is one of the few noxious weeds that is invading our area. It is a native of Arizona. It grows in dense colonies in heavy soils, in low drainage areas, dry lakes, and roadsides from whence it spreads into cultivated fields.

Blueweed is a potential pest in any cultivated field it invades. Cutlivation aids its spread. The underground rootstocks are cut into pieces and scattered through the soil. These pieces are capable of starting new plants. Its growth is so vigorous that many crops

> are crowded out. Control will be a redious operation, and may require several applications over a period of one to three years.

cannot favorably compete and

Banvel, a dicamba herbicide, is recommended for control. Application rates listed on container labels should be followed closely. Usually,

1/2 pint to 1/2 gallon of Banvel mixed with 15 to 20 gallons of water will do the control job.

Thoroughly wet the entire plant when they are young and growing in the spring. The rate or amount of material per acre will vary according to the density of the infestation.

If you suspect that you have an infestation of Blueweed, bring a plant in for identification. Be sure to dig down and get as much root as possible.

The Soil Conservation Staff as the Haskell Field Office will be happy to assist you with this or any problem that you might have in the field of conservation of our natural
