HASKELL, TEXAS, 79521. THURSDAY, AUGUST 25, 1977

NUMBER THIRTY-FOUR

**INDIAN TOUCHDOWN...** The Haskell Indians scored one TD and stopped Spur completely last Friday night in the first scrimmage of the year. Indian coaches were well pleased with the attitude and efforts of their players. The Tribe will travel to Archer City this Friday night for another scrimmage. Archer City should be a stronger team with more size and should be more of a test for the Indians. The JV's will begin the scrimmage at 6 p.m. and the varsity should scrimmage for about two hours starting about 7:30. (Staff Photo)

## Steve Harper Receives Fellowship

Steve Harper has been awarded a \$7,500 John Wesley Fellowship "to pursue his doctoral studies in theology at Duke University" it was announced here today at the autumn board meeting of A Fund for Theological Education.

Mr. Harper is a 1966 graduate of Haskell High School and a 1970 summa cum laude graduate of McMurry College. In 1973 he graduated "with highest academic honors" from Asbury Theological Seminary, Wilmore, Kentucky, where he served as student body president his senior year.

"We are delighted to announce Steve Harper's selection as a John Wesley Fellow," stated Rev. Dr. Edmund Robb, chairman of A Fund for Theological Education. "He is an unusually gifted person and, in our judgment, will make a noteworthy contribution in his field of Wesleyan theology."

Along with Harper, four other doctoral students nationwide were chosen as recipients of John Wesley Fellowships for the 1977-78 academic year.

Harper is the son of Mr. and Mrs. Joe Harper, 500 S. Ave. H, Haskell, Texas. He and his wife, Jeannie, have two children: John, 4, and Katrina, 1.

Before moving to Duke University in North Carolina this June, Harper pastored Wesley United Methodist Church, Borger, Texas. He pastored First United Methodist Church in Roby for two years, 1973-75.

Harper is a life member of Alpha Chi and Theta Phi academic honor societies and a member of the Good News board of directors, an evangelical renewal movement within 10 million member United Methodist Church.

## City Sales Tax Receipts Up 13 Percent

State Comptroller Bob Bullock had some good news for financially pressed Texas cities: city sales tax rebates to date are running a healthy 19

### Rev. Blair Is C/F Chairman

Little more than a decade ago the Cystic Fibrosis Foundation was working to keep C/F youngsters alive long enough to start school. Now we are trying to help some of these same patients, who have grown to young adulthood, enter college or find jobs.

Rev. Kenneth Blair is chairman of the local campaign.

Longevity has increased every year because of earlier diagnosis and progress on research and cure. It is efforts such as these that we support by volunteering for and contributing to the Breath of Life Campaign. This year's campaign begins with a Door-to-Door march in September. When a C/F marcher knocks on your door, give as generously as you are able. Remember that even today, with improvements research and care have brought, there is no cure for this inherited, genetic disease.

Among the programs of the Cystic Fibrosis Foundation are support for over 100 Cystic Fibrosis Centers across the nation. These Centers provide diagnosis, treatment and referral to children who have these lung-damaging diseases as well as those who suffer from gastrointestinal disorders related to cystic fibrosis. In Texas there are clinics at San Antonio, Houston and Dallas.

The Foundation also funds research to find a cure and control for cystic fibrosis, the most serious of these lung-damaging diseases, and to develop better treatments for children suffering from all lung disorders.

The treatments that prolong the lives of children with cystic fibrosis also alleviate, and often cure, children with other lung-damaging diseases.

Cystic Fibrosis, the number one genetic killer of children affects one out of every 1,500 babies born each year and occurs when a child inherits two genes for the disease, one from each parent.

The parents don't have cystic fibrosis, but they are among the 10 million carriers of the gene in the United States. That one goal of Foundation-supported research is a test to detect these carriers.

We don't need more reasons than these to actively support the Breath of Life Campaign.

percent ahead of last year.

The City of Haskell received \$4,787.20 for this period as compared to \$4,693.22 for the same period last year. This payment brings the 1977 total to \$51,389.39. Payments at the same time last year brought the 1976 total to \$45,118.93. This represents a 13% increase during the past year.

Bullock's announcement came as his office mailed checks Monday totaling \$15.1 million to 868 Texas cities as their August share of the one percent city sales tax.

The August checks bring to \$206 million the total the cities have netted this year from the sales tax. This compares to \$173.1 million for the first eight months of 1976.

Bullock said the increase in city sales tax rebates is really a double blessing.

"It signals the continuing vigor of the Texas economy

and at the same time provides badly needed revenue to Texas cities," the Comptroller said.

Bullock also announced that his office has added two additional WATS lines to accommodate users of his toll-free Tax Information telephone service (1-800-252-5555).

Bullock said taxpayers are making more than 10,000 calls a month on the lines seeking information on Texas taxes and the six existing lines just weren't enough to handle the business.

The Comptroller reminded callers that they can get their questions answered quicker if they call between 8 and 9 a.m., 12 and 1 p.m. and 4 and 5 p.m. when the volume of calls is lowest.

## City Council Faces Routine Matters

Members of the Haskell City Council met Tuesday night and faced a short agenda with routine business matters.

Mayor Belton Duncan called the meeting to order and Councilman Loraine Johnson gave the invocation.

Following the approval of minutes of the previous meeting, Mayor Duncan reported that the City had received a sales tax check in the amount of \$4,787.20.

In other business, council members discussed the current housing project and a city dog pound.

Present for the meeting were: Mayor Duncan, Councilmen Johnson, E.J. Stewart, and Earl Proctor, and City Sec. Desmond Dulaney.

## Homecoming Set Sept. 3 At Irby

The Irby homecoming will be held Saturday September 3, 1977, at the Sons of Hermann Lodge Hall, east of Haskell.

All exstudents, exresidents, teachers and Lodge members are invited to attend.

Registration will begin at 2 p.m. Supper will be catered by Haskell Steak House, and served at 6:00 p.m. followed by a dance for the public.

For meal ticket reservations, call 864-3560 or 864-2557 by August 26. Meal tickets will be \$2.75 per plate.

**DANCE CANCELED**  
There will be no dance at Irby Hall September 2 due to the Irby Homecoming September 3.

## Revival 77 Set This Weekend

"Revival 77" is coming to First Baptist Church Friday, Saturday and Sunday, August 26, 27, and 28! The youth emphasis services will be nightly at 7 o'clock. There will be youth fellowships immediately following the Saturday and Sunday night services.

Evangelist Dan Klausmeyer is coming from Southwestern Theological Seminary in Fort Worth; Steve Walker from Hardin-Simmons University will lead in the music service. Dan is a second year divinity student and devotes his summers to evangelistic work and youth directing in various churches in Texas and New Mexico. Steve is associated with the Dub Jackson World Evangelism Foundation. His hometown is Merkel, his testimony is great, and his voice is something else! First Baptist Church extends this invitation to come and rejoice this weekend in the "house of the Lord."

## Rehab Sets Team Roping Sept. 3

There will be a team roping on September 3rd at the Old Abilene Town Arena in Abilene to benefit the West Texas Rehabilitation Center.

The team roping will start at 11 a.m. and go until finished. Entry fee for this roping is \$50 for three head (fast back on third). Books close at 10 a.m. September 3rd.

First place team will receive a pair of handmade saddles; second place team will get buckles; third place team will receive spurs, and fourth place team will get bits.

Admission to the roping is \$2 per person. All proceeds from this roping will go to the West Texas Rehabilitation Center. For more information on this roping, contact Danuy Isbell or Sonny Dillard at (915) 692-2811.

## Haskell Chamber Members Welcome Area Teachers

The Haskell Chamber of Commerce had the opportunity of distributing 250 of the new brochures and maps of Haskell County at the Teachers' in Service workshop which began at 8:15 a.m., Tuesday, August 23rd, at the High School auditorium. Welcome packets were prepared for the two hundred teachers and guests for the three day meeting in the form of small shopping bags presented by the West Texas Utility Co., pencils through the courtesy of The M System Super Market, book matches from Bynum's, Perfume and lipstick from Johnson Pharmacy, Silver polish from Lyle's Jewelry store and other items.

Teachers and other school personnel in attendance also registered at the tables for 30 door prizes and gifts presented by Haskell Merchants. At the drawing conducted by Joe Cortez, Mrs. Elbert Johnson and chamber manager, Rex Felker, the following persons were winners of the total of approximately \$300 in gifts and gift certificates. Jim Pope, Munday, Bill Baker, Knox City, Ray Mooney, Goree, Brenda Shawver, Munday, Carol Cox of O'Brien, Debbie Burson, Haskell, Debbie Earles, Haskell, Max Calk, Haskell, Jimmie Weinert, Pat Quattlebaum, Haskell, Wayne Plemister, Haskell, Troy Gaunt, Munday, Ann Stockler, Knox City, Beverly Hudson, Stamford, Janice Browning, Haskell, Patsy Blakely, Haskell, Linda Cadell, Haskell Route, Mary Beth Smith, Knox City, Geraldine Pool, Rule, Dickie Sloan, Rochester, Bonita Blackstock, Haskell, Ruby Cockerell, Rochester, Tommy Sloan, Knox City, Frances King, Knox City, Aline Summers, Sagerton, Eula Morris, Haskell, Donna Saffel, Haskell, Susan Frazier, of Munday.

### BOOSTER CLUB

The Haskell Booster Club will be meeting Tuesday, August 30th at 7:30 p.m. in the High School Cafeteria. If you are interested in supporting all of our High School athletics come and join this next Tuesday. A film of one of the scrimmages will be shown from the new camera and projector. Meet the coaches and get an up-to-date report on our football team for this year.

Haskell Merchants contributing gifts and gift certificates for the welcome drawing were: The Personality Shoppe, Lane-Felker Dress Shop, Owen's Radio & Electric, Johnson Pharmacy, Bynums Hardward and Furniture, Lyle's Jewelry Store, The C & B Store, Jones-Cox & Co., Frazier's Appliance, Winonas Ready To Wear, Lane Apparel, Heidenheimers Store, Bassing Jewelry Store, Anderson Tire Co., White Auto Store, Boggs & Johnson Furniture, and The Drug Store, with some presenting more than one certificate.

## Drive Carefully School Starts Mon.

"This school year, as in the past, the School Bus Loading Laws confuse many drivers," states Major C.W. Bell, Regional Commander of the Texas Department of Public Safety.

The Uniform Vehicle Code in Texas states that the driver of a vehicle, meeting or

overtaking from either direction a school bus displaying red flashing warning lights that is in the process of loading or unloading passengers, shall stop until the school bus starts moving, the red lights are no longer flashing, or the bus driver directs motorists to proceed.

"Freeways and divided highways add to the drivers' confusion," Major Bell added. "If a bus is on an access road, only the traffic on the access road must stop. However, if the bus is on a divided highway and pedestrian traffic does not normally cross the median or barrier then only the traffic on the portion of the roadway occupied by the bus must stop.

It is most important that drivers observe the School Bus Loading Laws for the protection of our school children.

### READING PROGRAMS

There will be a program at the County Library Saturday August 27th at 2 o'clock for all the children that joined the Texas Reading Program this summer. Mrs. Paula Everett president of Young Homemakers will speak at the group. Mrs. McGee will present their certificates. Refreshments will be served. Mrs. McGee wishes to thank the parents for interest shown.

### NEW MANAGER

Randy Hale has been appointed manager at Perry Brothers in Haskell effective August 15. Hale and his wife Sherita, moved here from Memphis where he was the assistant manager. He has been an employee of Perry's for about two years. They live at 1305 N. Av. K.

**HASKELL COUNTY FARM BUREAU'S** queen contestant, Miss Brenda Hill, was runner-up over a field of five other contestants in the District III Queen's Contest held in Iowa Park Aug. 18. She will be next in line to the winner to represent Dist. III in the State Queen's Contest in Houston if for any reason the winner can not attend. Winner of the contest was Connie Williams from Wichita Co. She is the daughter of Mr. and Mrs. Melvin Hill of Haskell.

### SHOOTING CLINIC

Randy Hay of C&L Shooting Supply will hold a shooting clinic at the H.T.C. Thurs. evening at 6:30 p.m. The general public is invited. The only charge will be shells and targets.

**THIRTEEN VARIETIES** of Cotton are currently being tested on the Ken Lane farm, 6 miles southeast of Haskell just off of FM 600. The result demonstration is being conducted by the Texas Agriculture Extension Service in cooperation with Lane. Varieties being tested are: Earlycot 32, Cascot B-2, Cascot BR-1C, Cascot L-7, Lamesa 8, Lamesa 5, Lockett 77, GSA 71, Rilcot Stripper Cala 5, Rilcot Stripper N, Lankart 571, Stripper 32, and Lankart 611. Visitors are welcome and a tour will be scheduled at a later date. Results of the test will be published in the result demonstration handbook. (Staff Photo)

# Lisle, Grigsby Repeat Vows

In a garden setting on Friday, evening, August 5th, at 8 p.m. Thelia Ann Grigsby became the bride of Michael Allen Lisle, with John Greeson, minister of the Rule Church of Christ officiating for the double ring ceremony.

The bride is the daughter of Mr. and Mrs. Willard Grigsby of Nocona and the groom is the son of Mr. and Mrs. James A. Lisle, Jr. of Rule.

In the garden of Mrs. B.R. Grigsby, grandmother of the bride, the garden was divided by a white cloth aisle bordered on each side with white rope connecting poles of alternating hurricane lamps and hanging ferns in white wicker baskets. The greenery in the arch was accented by yellow and white flowers while white urns on either side of the arch held emerald ferns.

Pianist was Miss Suzanne Allmon of Petersburg. Soloist was Miss Cyd Riley of Roswell, New Mexico, who sang, "For Baby," "Someday, Somewhere", and "The Gift of Love."

The bride was given in marriage by her father and wore a formal gown of white chiffon made in empire style with the A-line skirt extending to a chapel length train. The stand-up collar, bodice and cuffs were all accented by seed pearls and lace, crocheted by Mrs. Howard Morris from a lace pattern passed down by the bride's maternal grandmother. Her finger-tip Juliet veil of white chiffon was accented by seed pearls and encircled with matching lace. For something old she wore her maternal grandmother's wedding band. Her dress was new, her diamond earrings were borrowed from her aunt, Lela Cochran, and the blue

was in her garter made for her by Mrs. O.C. Mann. In her shoe she carried a sixpence which was brought back from Australia by her father after the war. She carried a bouquet of white daisies, yellow sweetheart roses, baby's breath and white ribbon streamers.

Mrs. John Grigsby of Arlington was matron of honor for her sister-in-law. She wore a yellow gown designed in tiers and trimmed with embroidered flowers on the straps and around the empire waist. Her bouquet was of yellow daisies, carnations, and baby's breath.

Best man was Jimmy Lisle of Hamlin, brother of the groom. Brothers of the couple, John Grigsby and David Lisle, were ushers. Carrie Haterius, daughter of Mr. and Mrs. Steven Haterius of Stamford, and cousin of the groom, was flower girl. Jeffrey Klye Stouder, son of Mr. and Mrs. Don Stouder of Lubbock was ring bearer.

At a reception given by the bride's parents, the bride's table was covered by yellow cloth with white over-netting gathered to scallops and edged with yellow bows and flowers. The appointments were silver with the centerpiece being the bride and matron of honor's bouquets centered between two silver candle holders. The three-tiered wedding cake was decorated with yellow confection roses. Serving was Miss Debbie Williams and Mrs. Debbie Seiler of Arlington. Miss Donna Linn of Sherman, and Mrs. Michell Gates of Palestine. Securing names in the bride's book designed and made by Mrs. W.N. Richardson was Miss Sandra Grigsby.

MRS. MICHAEL ALLEN LISLE  
...formerly Thelia Ann Grigsby

The register table was decorated with an arrangement of yellow, green, and white satin rosebuds filled with bird seed which were later passed out to guests.

A rehearsal dinner was held Thursday night at Lake Nocona and hosted by the groom's parents.

The couple will be at home in Abilene where they are finishing their college work.

Approximately 180 guests attended the wedding including out of town guests from Stamford, Rule, Rochester, Loving, Denton, Abilene, Amarillo, Keller, Vernon, Lubbock, Petersburg, Garland, Hamlin, Sherman, Palestine, Saint Jo and Cisco, Texas, Walters and Ardmore, Oklahoma, and Roswell, New Mexico.

Attending from Rule were: Mrs. J.A. Lisle, Mr. Joe B. Cloud, Mrs. June White, Mrs. W.L. Pinkard, Joe Harold Cloud, Mr. and Mrs. Sam

Turner, Mr. and Mrs. G.W. Bishop, Mr. and Mrs. Jack Wilcox, Mr. and Mrs. Ed Fouts, Cole Turner, Susan Mullino, Leonard Rhoads, Wynette Williams, Jr. and Mrs. James A. Lisle and David, Mr. and Mrs. John Greeson, Leon and Leigh Ann.

A woman usually recognizes herself as "his wife" and "their mother." Until marriage, her identity is in a holding pattern, says Dorothy Taylor, family life education specialist, the Texas Agricultural Extension Service, The Texas A&M University System.

Pour leftover coffee over ice and top with whipped cream or ice cream to refresh and to save that coffee, suggests Marilyn Haggard, foods and nutrition specialist, the Texas Agricultural Extension Service, The Texas A&M University System.

## HSA Workshop Set Aug. 30 In Haskell

The Tri-Region Health Systems Agency (T-RHSA) wants to know about your health concerns in Haskell County, said Jim Anderson, Executive Director of the Tri-Region HSA staff.

At an area workshop slated for Tuesday, August 30, 1977 at 7:30 p.m. in Haskell at the Haskell National Bank in the Community Room, Haskell County and surrounding county residents will have the opportunity to tell the HSA what their problems with health care are. If there are inefficiencies, inconveniences, and inadequacies in area health services, this Agency which makes decisions concerning health care services will be there to listen.

"We expect the high cost of health care to be one concern. We also anticipate other suggestions on ways to improve the health of area residents. We want to hear whatever's on anyone's mind concerning health, because it's our job to see that every individual in the region has access to quality health care," said Anderson.

The HSA, like some 200 others across the country, was created by the National Health Planning and Resorce Development Act of 1974. It is empowered by Congress to improve the health of residents in its area by increasing the quality of health services and by making them acceptable and accessible to residents as long as they need them.

The HSA will also work to control increases in the cost of health care and to prevent unnecessary duplication of services.

The HSA is required to gather information and suggestions from the people who live and work in the area on what is and what is not needed. That is the purpose of this community workshop.

"The HSA's radio announcement says 'You've got a vested interest,'" said Judge B.O. Roberson who will host the Haskell workshop. "Every one of us has a personal interest in health, and it's absolutely essential that all of us, both consumers and providers of health care, participate. Together we can make good decisions for our community."

"We know our problems best, and it stands to reason that we should have the main say in what happens where. So I urge everyone to come and to let the HSA know what you think."

The workshop is the first step in the HSA planning process and the first chance individuals will have to participate in the development of better health care for this region.

# Love, McAdams Repeat Vows

Christie Kay McAdams, daughter of Mr. and Mrs. Tommy McAdams 1301 N. Av. G became the bride of Cris Wesley Love in a double ring ceremony on Saturday August 20, 1977.

The wedding was performed at 7:30 o'clock in the evening at the First United Methodist Church by Rev. C.T. Jackson, grandfather of the bride and retired First United Methodist minister from Anson.

The parents of the groom are Mr. and Mrs. E.B. Love of Haskell. The bride's father gave her in marriage.

The alter setting was decorated with matching white baskets with floral arrangements. Two six branched candelabras decorated with fern and white satin bows completed the altar scene. The pews were marked with jonquil and ice blue satin bows.

The bride wore a long gown of organza and lace in white. The Empire bodice with portrait neckline was outlined in a double-ruffle of organza with appliques of Venice lace. The lace was repeated above the deep flounce on the bottom of her full skirt that fell into a chapel train.

A Camelot cap of lace and tiny seed pearls, held her long veil of imported illusion. For something borrowed and something old she carried a white lace fan overlaid with a white, charcoal, and blue antique fan that belonged to her great-grandmother, Mrs. Gene Crenshaw of Big Spring. The fan was decorated with a white orchid and satin streamers.

She also carried a white organza and lace handkerchief which was given to Mrs.

Tommy Watson Jr. before her wedding. The handkerchief was a gift from Christie, Emily Thigpen, and Melissa McCauley. All four will carry the handkerchief in their weddings.

The groom wore a pale ice blue tuxedo with dark blue trim and an ice blue ruffled shirt.

Her maids chose long dresses of chiffon in Jonquil. The Empire bodice with V neckline had attached cape-lettes with self bows on the shoulders. They wore matching clips with silk roses and carried white lace fans with bouquets of yellow and white daisies and satin streamers.

The flower girls wore matching white eyelet long dresses designed by their mother Mrs. Ronnie Clanton of Big Spring. They carried white lace and organza baskets with yellow rose petals and wore white flower combs in their hair.

The groom's attendants wore solid white tuxedos with ice blue ruffled shirts and ice blue boutonniers.

All the ushers wore white tuxedos with pale yellow ruffled shirts. The scrools girls were attired one in yellow and one in blue long dresses covered with white eyelet aprons.

Melissa McCauley was the maid of honor. Bridesmaids were Emily Thigpen, Mrs. Tommy B. Watson Jr. of Snyder and Sherrie Everett. Flower girls were Paula Kay Clanton and Rhonda Kim Clanton cousins of the bride. Robert McAdams and Mark McAdams, brothers of the bride were the ringbearers and Ronald Lewis Clanton Jr. of Big Spring, cousin of the bride was the acolyte.

MRS. CRIS WESLEY LOVE  
...formerly Christie Kay McAdams

The best man was Tommy B. Watson Jr. Snyder. Serving as groomsmen were Jamie Mickler, Mike Crim of Lubbock and Gary McAdams brother of the bride. Melinda Smith and Mary Frances Lehrer gave out wedding scrools to guests at the door and rice bags at the reception. Ushers were Jackie McAdoo Thomas H. McAdams, brother of the bride, Archie Crim of Lubbock and Roy Don Klose.

Miss Sarah Cox sang "Loves Grown Deep" at the beginning of the ceremony. The traditional processional of Bridal Chorus by Wagner was played by Mrs. Kenneth Lane at the organ. After the wedding prayer John Cox sang "The Wedding Song". Then together John and Sarah sang "We've Only Just Begun" for the Recessional.

For the reception music by Miss Cynthia Gibbs of Fullerton, California cousin of the bride sang a variety of songs and accompanied herself on the guitar. Guests were registered by Miss Susie Hopkins. Serving in the houseparty were Taby Chambers, of Rising Star and Doddie Chambers of Abilene cousins of the groom. Kerrie Gibbs, Fullerton, Calif., Tracy Sparks of Big Spring cousins of the bride, Lynn Weatherly, Mrs. John Farquhar, San Antonio; Mrs. Guinette Gibbs of Fullerton, Calif.

Hosting the wedding reception in the Fellowship Hall were Mr. and Mrs. Thos. J. McAdams, grandparents from Lewisville, Mrs. Jim Weeks, Amarillo, and the brides parents.

After a wedding trip to San Angelo the couple will reside in Snyder, where they will both be attending Western Texas College.

The rehearsal dinner at the Haskell Steak House was hosted by Mr. and Mrs. E.B. Love parents of the groom.

## McWhorter, Moody Wed

Mary Ann Moody and Kenneth Ray McWhorter were married Aug. 6 at First Baptist Church with the Rev. Dudley Bragg officiating.

The bride is the daughter of Mrs. Verna Moody. She was presented in marriage by Raymond Walker of Snyder.

The bride wore a floor length gown of white polyester and cotton. The empire bodice fashioned with a low neckline was finished with cotton cluny type lace. The long slim sleeves paneled with eyelet, embroidered sprays and blue flowers was finished with lace. The embroidered paneled front bodice and skirt. Two deep full tiers circled the skirt and were finished with matching lace. Her tiara of cluny lace and pearls held the two tiered fingertip veil of silk illusion.

The bridegroom is the son of Kenneth McWhorter of Sweetwater and Jeannette Vincent of Haskell.

Tammy Gibbs was the bride's honor attendant. Kenn Bucci was best man. Rhea Dawn Walker of Snyder was flower girl.

The bride is attending Haskell High School. The

# Vehicle Registration Laws Changing

Dog days got you down? Soaring temperatures dulling your thought processes?

This may be a good time to reflect on the long lines that stretched interminably last March as Texas motorists sought to beat the annual motor vehicle registration deadline. That ought to push your temperature a little higher!

But there's no reason why it should. Relief is on the way.

Some motorists are getting a preliminary look this week at the new year-round registration program which will be initiated next January.

Flyers outlining briefly plans for the new system are being mailed with new motor vehicle registrations, according to Robert W. (Bob) Townsley, director of the Motor Vehicle Division of the State Department of Highways and Public Transportation.

The notices indicate that "staggered" year-round registration begins January 1, 1978.

Your 1977 vehicle registration will expire midnight, April 1st, as usual, and must

be renewed by that deadline," the notices say.

Beginning January 1, 1978, a new law requires that vehicle registrations be converted to a new system with registrations expiring on a staggered basis in different months throughout the year.

"To convert to the new system next year, registration periods for passenger cars and light trucks (such as pickups) will be staggered. All other registrations (including personalized plates) will remain the same.

"On or about January 1, 1978, you should receive through the mail a renewal notice for each of your vehicles. The passenger car and light truck renewals will be staggered for various periods and license fees will be prorated accordingly. (Renewal periods will be assigned according to the license plate numbers.)

"After your vehicles are registered under the new staggered system, all future registrations will be for a period of 12 months.

"This new system should permit us to serve you more efficiently by having an equal number of registrations expire

each month throughout the year; and in subsequent years, after 1978, it should eliminate those traditional long lines that form each March at the county tax assessor-collectors' offices."

Several states—including

Kentucky, Washington, California—already have initiated the year-round registration plan. Texas hopes to report the same results:

No more long waiting lines...faster and more efficient services.

## The Consumer Alert

by John L. Hill  
Attorney General

AUSTIN—If you're shopping for a new appliance, how can you wade through the advertising hyperbole and determine the best brand to buy?

It's hard to tell the difference when one ad touts: "Our latest model microwave oven—with a new, improved safety lock and a special, innovative browning grill unit."

And another advertises: "You'll never worry about the safety seal on our Model-A microwave—it's automatic! And our specially designed browning-broiler gives you the convenience you've been waiting for!"

How can you decide between them? It's difficult, but not impossible, our Consumer Protection Division attorneys say.

The best way to start is to jot down in advance your particular needs and preferences. For example, if you have a curious toddler, you'll likely be especially concerned with the microwave oven's safety devices. Or, if you're a working woman or man, you may want a unit that can be set to come on at a certain time in order to have dinner defrosted, cooked, and waiting for you when you get home from the job.

Such an analysis of needs would give you definite clues that will help determine the style, features, size, energy requirements, and fuel usage that should be considered in making a buying decision.

Our lawyers and many consumer experts say the next step is to conduct a serious study of the literature that is available on the type of product you're considering. This includes gathering manufacturer's brochures when you're window shop-

ping, noting magazine and newspaper articles, and checking with your county's home extension agent, who can supply information and assistance. It also includes paying a visit to your public library or a bookstore to obtain the latest report issued by the various consumer product rating services.

As you begin to narrow the field to one or two possible choices, the next step is to comparison shop at several dealers to see the features demonstrated, to learn what the sales staff has to say about the different brands, and, of course, to compare prices, warranties, and service reputations.

The following check list may help you in organizing your information needs when considering appliance purchases. Have you:

- Allowed for the payments in your budget, remembering to add in the cost of delivery, installation, and service charges?
- Checked to see what space you have available for the appliance?
- Determined which features you will really use?
- Considered the quality of construction?
- Chosen a reputable dealer, with good service record?
- Carefully read the use and care manual and warranty before purchase?
- Comparison shopped with at least three dealers for the best deal?
- If you have a consumer complaint, get in touch with our Attorney General's Consumer Protection Division in Austin, Dallas, Houston, San Antonio, El Paso, Lubbock, or McAllen. Outside those areas, call this toll-free number: 1-800-252-9236.

## IRS Offers Help With Tax Problems

Having difficulty getting a knotty tax situation untangled? Well, help may be in sight, Internal Revenue Service District Director A.W. McCanness said today.

McCanness explained that the IRS has created a Problem Resolution Program (PRP) office to help North Texas taxpayers with Federal tax problems they feel are not receiving prompt, appropriate attention from the IRS.

The District Director stressed that taxpayers first should try to get their problem solved

through the usual IRS channels such as Taxpayer Service or the Audit or Collection divisions. If this fails the taxpayer should contact PRP.

"The system is not new to North Texas," McCanness stated. "It was tested in Dallas last year and will be used by all IRS district offices this year. It's a way to do a better job helping taxpayers solve their tax problems."

McCanness said that the PRP office is under his supervision in the district office in Dallas. Problems can be routed to the Dallas PRP office from any IRS office in the state or by writing SPECIAL TAX PROBLEMS, P.O. Box 1040, Dallas, Texas 75221.

## 99,000 See 1977 Texas Performance

When the last rider swept across the face of the Canyon Aug. 20 with the American flag streaming over his head as he rode, and the music soared as the lights built up on the 600 foot cliff behind the stage, "TEXAS" closed for the twelfth season.

After the show, the cast and crew changed into work clothes, and turned their energies to "strike"; putting everything away for the next season: scrubbing and shining the buildings of the Pioneer Amphitheatre for their winter rest.

140 people working in every part of the building leave everything in order in about two hours. Then they gather for a party—a last time together for the summer. Tears and gaiety and exhaustion are calmed by a good dinner. Then, one by one, they leave, to turn to other things. About half will return to the Canyon in June of 1978 to be a part of the company for the thirteenth season.

99,000 people saw "TEXAS" in 1977, making the total cumulative attendance for twelve seasons more than 960,000 people.

For reservations for the 13th season in 1978, please write "TEXAS", Box 268, Canyon, Texas 79015.

## Better Pictures Course Available

Would you like to learn how to take better pictures, and process and print them yourself? Would you like to improve your writing skills, and at the same time learn the tasks of the journalist who communicates daily with you through the mass media? Would you like to explore the fascinating world of advertising, creating and evaluating your own ads in a small-group setting?

Answers to these questions are possible in three courses offered for credit this fall semester at Western Texas College. Designed for resident and commuter students of all ages, the classes provide academic credit, specialized enrichment experience, and pre-professional training, depending upon student need.

Introduction to Photography, Journalism 130, will meet from 6:30-9:20 Thursday evening but may be taken on an individualized basis for those unable to meet at that time. A new self-directing textbook will be used to cover such topics as camera types and operation, exposure, composition, developing and printing, filters, and flash pictures.

Students may use college cameras and accessory equipment as well as college darkrooms for completing individual laboratory assignments.

### A DIFFERENT KIND OF PART-TIME JOB.

There are many nontraditional jobs for women in the Army Reserve that pay a good extra income. Call your local unit for details. It's listed in the white pages of the phone book under "U.S. Government."

THE ARMY RESERVE. PART OF WHAT YOU EARN IS PRIDE.

Principles of Journalism, Journalism 131, will meet from 9-10:20 Tuesday and Thursday, but may also be taken individually. The class will emphasize news writing and reporting, but interviewing and note-taking tasks are included.

"Learning by doing" is stressed while students study various types of published articles, gather information, and write their own. The class is intended to enhance journalistic skills as well as acquaint the non-journalist with the role of the media in the public domain.

Principles of Advertising, Journalism 233, is offered only once every two years, and will meet from 11-11:50 Monday,

Wednesday and Friday, or on an individual basis. It is recommended as an elective for management and business majors and minors.

Students will study media, research and budgeting in advertising, and will create practical ads—getting and channeling ideas to eventually create the finished product. Career opportunities in advertising will be explored, and writing and producing radio and television commercials is included.

For those pursuing the Associate in Arts degree, any course will satisfy part of the 12-hour communications requirement. Also, enrollment is open in either Journalism 111-330 or 111-331 (news-

paper or magazines) for any student interested in contributing to college publications. No experience is necessary. For further information, contact Mike McBride, associate professor, in the Student Center, or call (915) 573-8511, ext. 273.

Pet skunks and other exotic animals shouldn't be household pets because they are a definite human health hazard and a danger to other pets, says the Texas Department of Health Resources.

"There is no proven vaccine that will insure the necessary protection in preventing rabies from occurring in skunks and in other exotic animals," says Dr. William R. Bilderback, of the Department's Bureau of Veterinary Public Health. "Unfortunately, the skunk and raccoon are the two exotic animals usually sought for pets as opposed to everything else." An exotic animal, he says, is one that hasn't been domesticated like a dog or cat.

When rabid, skunks are a particularly threatening source for human rabies. "Rabies virus may be excreted in skunk saliva as much as 18 days before death, and the animal might not even show any signs of sickness until the last day," Dr. Bilderback said. "Anyone who plays with or pets a skunk that looks well but is shedding rabies virus, is in danger and often doesn't know it. He could have a cut or small scratch on his hand which could cause an exposure to rabies."

Dr. Bilderback cited a recent example of the problems that pet skunks can cause both the public and the Department. At an Auction Sale in Canton, Texas, on July 2-4, pet skunks and raccoons

were sold. Later, one of the animals was diagnosed as rabid. This meant that all of the animals were exposed and could be incubating rabies.

"There is an immediate danger to any person who bought, sold, traded or even just cuddled one of these animals," Dr. Bilderback said. "Right now an extensive search is being made to find the person or persons who either own or sold these animals at the auction in Van Zandt County. The general manager of the auction wasn't able to remember who sold the pets, but he thinks the man lives in Oklahoma. The Oklahoma Health Department hasn't been able to find him."

The one skunk with rabies was found in Paris, Texas, and so far a total of five of the animals have been recovered. As of now, 11 people have had to take the anti-rabies vaccine.

"There were people from 28 states attending the sale, and we don't even know how many of the exotic animals were sold," Dr. Bilderback said. "It's a sad thing, but all of them will have to be destroyed for the safety of the families and other pets. Right now we are asking those who have any information whatsoever about the skunks and raccoons sold at the Canton sale to notify the State Health Department or a local veterinarian immediately."

"We really don't have enough precise information about the incubation period of rabies in skunks but we do know that it can be a long term thing," Dr. Bilderback said. "For example, there is a documented case in Oregon of a skunk which was adopted by a family and lived happily in the protected household environment for 18 months. The animal had no contact with other animals, but then one day it suddenly went mad with rabies."

The ecology of skunks make

them a particularly likely source of human exposure to rabies. The majority of rabid skunks are caught in the summer, a time when human activity outdoors is also high. Usually nocturnal and shy, rabid skunks may be seen in the daylight, and attack rather than run away. At night they may enter campers' tents and sleeping bags and bite without provocation.

Rabid skunks often do not scent, eliminating another factor that might reduce human exposure. Even in the wild, skunks tolerate close proximity to man, often living near houses or suburban homes. Moreover, their tolerance for man is reciprocated, and the skunk has been brought into the home as a favorite exotic pet. All of these factors combine to enhance the likelihood of human exposure to rabies.

"If skunk bites caused only pain, local infection, and tetanus, one would wonder if keeping skunks as pets makes sense. But since skunks not only can but often do get rabies, and since we still have no absolute post-exposure treatment for rabies in man, I think there is a strong argument for prohibiting skunks as pets," Dr. Bilderback said.

Janie Stone of Haskell graduated from McMurry College in summer commencement ceremonies August 12.

The 1977 graduate received a Bachelor of Science degree in the area of elementary education and English.

McMurry is a four-year liberal arts college owned by the Northwest Texas and New Mexico Conferences of the United Methodist Church. With more than 1200 students McMurry College has its main campus in Abilene, Texas.

Addressing the 62 graduating seniors at McMurry commencement was Reverend Ira Williams, distinguished United Methodist Minister and Pastor at the St. Paul United Methodist Church in Abilene.

The Reverend Charles Edward Ditterline of Van Horn and Reverend Samuel Presley Auslam of Lubbock were awarded honorary Doctor of Divinity degrees.

Janie is the daughter of Mr. and Mrs. Arthur R. Henderson of Haskell.

Alecia Jeanette Calk and Gayle Max Calk of Paint Creek were among 196 summer graduates of Sul Ross State University who received their degrees during informal commencement exercises Aug. 12 at Mountaineer Cafeteria.

Both received their MED degrees in general education.

**BOB BULLOCK**  
Comptroller of Public Accounts

Dear Mr. Bullock:  
Your office notified me recently that my corporation's right to do business in Texas had been forfeited because of a franchise tax liability. Does this mean I have to close my business?

A. No, you don't have to shut down your business. But a corporation whose right to do business has been forfeited loses its access to the state courts to sue or defend itself. The corporation's officers and directors also may be held personally liable for any debts incurred by the corporation.

A corporation loses its protections not only when its right to do business has been forfeited but at any time it fails to file a franchise tax return on time.

I suggest you pay your taxes right away — for your own protection, as well as that of other corporation officers and directors.

Dear Sir:  
Is the wood I buy for my fireplace subject to sales tax?  
A. Yes, firewood is

taxable.  
Mr. Bullock:  
I will turn 65 in September, and I understand I will become eligible for a special homestead exemption at that time. How do I go about getting the exemption?

A. A special homestead tax exemption for those age 65 and over is optional under state law, so you will need to check with your local tax authorities to see whether they allow one.

The amount of the exemption varies among those entities granting it. The law specifies, however, that any exemption must be at least \$3,000.

Mr. Bullock:  
Members of our congregation take turns purchasing the flowers for our Sunday worship services. Are we required to pay sales tax on those flowers since they are being used by the church?

A. If the flowers are purchased directly by the church, there is no tax. But since they are being purchased by individuals belonging to the church, they are taxable.

### VA News

Almost five million Americans—300,484 of them in Texas—will get the opportunity next month to begin enjoying one of the benefits of the computer age—having their Veterans Administration compensation or pension payments deposited electronically in their bank, savings and loan institution or credit union.

Jack Coker, director of VA's regional office in Waco, said today the agency's newest service to veterans will eliminate worry over lost or stolen benefits checks and will also result in an initial annual savings to the nation's taxpayers of \$1.3 million.

The new program is all part

of VA's participation in a sophisticated computer system called Electronic Funds Transfer.

Beginning August 1, veterans or survivors of veterans receiving VA compensation and pension checks can ask to have the payment automatically credited to their account each month.

The account can be in a bank or a credit union or savings and loan association holding a state or federal charter.

VA Administrator Max Cleland, hailing the new program, said in Washington that "not only will this plan end worry over lost or stolen checks, it results in your payment being deposited on the issue date."

VA's Coker said a recent test of the EFT system among compensation and pension recipients in Georgia and Florida showed the acceptance of the new program.

In the initial month of the test, 8,720 individuals chose the checkless deposit system. By the second month of the test, participation had nearly doubled, to a total of 16,835 recipients.

Coker said veterans or their survivors who elect to participate in the new program can have their first benefit payment deposited automatically as early as October 1.

Instructions outlining the simple steps to take will be included with compensation and pension checks to be mailed August 1, he said.

Coker urged eligible veterans or survivors of veterans who have any questions concerning the new program to contact the nearest VA office.

### Library Notes

The Haskell County Library announces today the receipt of Texas Folk Songs by William A. Owens, a gift of Southern Methodist University Press and the Texas Commission on the Arts and Humanities.

Texas Folk Songs includes 135 songs, a number of them in versions by more than one singer. The book is divided into nine chapters containing British popular ballads, Anglo-American ballads, Anglo-American love songs, Anglo-American comic songs, songs and games for children, play-party songs and games, Anglo-American spirituals, and Afro-American secular songs.

The British ballads were brought to America in the seventeenth century and later carried westward to Texas by the adventurous pioneers who settled the state. The later American love ballads are mournful and plaintive songs, while the Anglo-American

comic songs are full of raw, rugged and raucous humor exemplifying the pioneer West.

New music transcriptions of the melodies have been provided by musicologist Jessie Ann Owens from the

original recordings. Although bibliographical source notes are included, Texas Folk Songs is not a book just for scholars. These songs have been collected, as Owens has written, "for those who love to sing them as well as for those who have an interest in the past".

Pat Hale  
Most city folks still don't know the facts of life... facts of life about farming at least. This lack of knowledge is considered by some to be the most serious educational crisis in the United States. According to a report issued last year by a group of Kansas educators researching political and economic aspects of the issue, the country faces possible economic disaster if this situation is not corrected. Central to the problem is the attitude of many of those away from farming that agricultural products are natural resources... same as oil or coal. Little appreciation is shown for the work and costs that go into production of crops or livestock. Put most simply, there's a lack of savvy in the city... they don't understand if the farmer doesn't grow it... nobody's going to eat it. Officials releasing the special report in Kansas urged all agricultural groups to work toward enhancing consumer education.

## Get Permission Before Hunting

The Texas Penal Code requires sportsmen to get permission to hunt on private lands prior to the hunt and there are several items the hunter should consider first.

The number one problem is finding an area with ample wildlife species such as deer, turkey, or quail, open to hunting. A scouting trip through the country prior to the hunting season will help you locate good hunting areas. Contacting hunting friends or the local chamber of commerce is another good source of hunting locations.

The next step is finding out who owns the land and how to

contact him. Most neighbors know who owns the land and where they live. Many times, the nearest neighbor will have permission from the landowner to regulate hunting especially if the owner lives in some distant city or out-of-state.

Many hunting areas are heavily posted with no-hunting signs but, hunters have found that some owners only want to know who is hunting on their property and permission is sometimes granted if the courteous hunter only asks.

There have been problems in the past between the

landowner and illegal hunters with most of the no-hunting signs resulting from damaged fences, wounded or dead livestock and bullet holes in stock tanks or windmills.

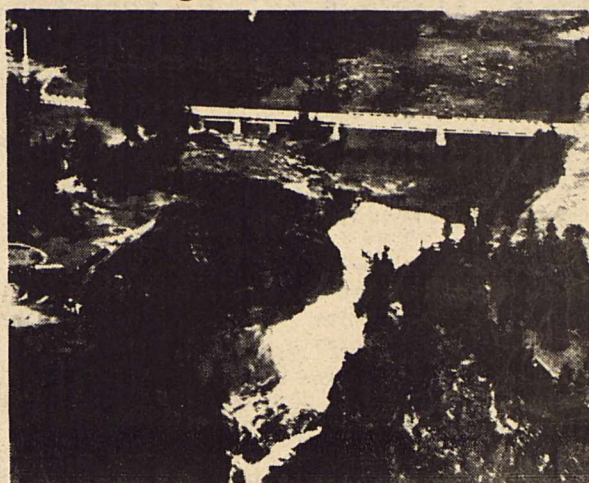

Sportsmen looking for places to hunt quail, deer or turkey will find it more difficult to acquire permission to hunt. Most landowners hunt themselves or have family members who are hunters. Many hunting leases have been in affect for years and are passed from father to son.

Recently, several sportsmen have found it easier to find a

place to hunt dove, waterfowl, coyote and other lesser-known wildlife species. These animals and birds are either migratory or damage the landowner's crops and livestock and he is more likely to grant a hunter permission to pursue the wildlife on his property.

The 1977-78 hunting seasons have been set and sportsmen should be looking for a place to hunt now. Assistance from the local Texas game warden or other P&WD personnel is available for hunting information in your county.

## Thunder Bay is 7 years old

18 miles west of the head of Lake Superior is Kakabeka Falls, known as the Niagara of the North.

BY GORDON M. QUARNSTROM

THUNDER BAY, ONTARIO—Here is a city that boasts a population of more than 100,000 and the third busiest port in Canada—and it's so new (in name, that is) that you usually get a "going where?" response when you mention you are traveling to Thunder Bay.

Yes, brand new in 1970, Thunder Bay is made up of Fort William and Port Arthur, located on Thunder Bay on Lake Superior. Long known as the Lakehead region, this area is steeped in history. Fort William and Prince Arthur's Landing (which later became Port Arthur) were the bases from which the early explorers and fur traders transferred the wealth of the Northwest wilderness to the settled portion of the eastern seaboard. Supplies arrived via huge lake canoes, and the voyageurs carried their goods through what is now Quetico Park, Rainy lake and other lakes and rivers.

This is big country of more than 52,000 square miles. But there are excellent highways, including route 61 northward from Duluth, Minn., 197 miles away and the fine Trans-Canada highway.

Thunder Bay is a key stop on our continent's most scenic drive, the Lake Superior Circle route. Total distance

Soil and Water Conservation Districts

Word has been received from the State Conservationist, Soil Conservation Service, George C. Marks, that several changes in the Texas Parks and Wildlife Department's Fish Stocking Program have been made.

The Texas Parks and Wildlife Department is planning to begin charging a fee for stocking fish in private lakes and ponds. The move to charge for fish is an effort to cut some operating costs.

Parks and Wildlife Commissioners recently approved rates which include:—large-mouth bass, \$2 per acre; Channel catfish, \$4 per acre; hybrid sunfish, \$5 per acre.

In addition, a \$2 fee will be charged for each application made to the department for fish. On site delivery of large numbers of fish to lakes will cost an additional 25 cents per mile round trip from the nearest state hatchery. This will not apply to the stocking of small private ponds where the producer picks up his fish.

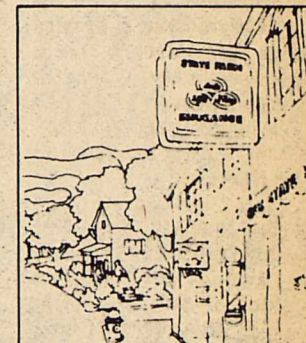

Also, instead of delivering fish to each county seat in Texas, fish will go to 29 distribution centers around the state. In most cases, people will be within 50 miles of each central distribution site, or the fish may be picked up at a state hatchery if it is closer than the distribution site.

The deadline for applications for fish to be stocked in private waters has been moved up to November 1 of each year. Landowners who want their ponds stocked with bass,

catfish, or hybrid sunfish in the spring and fall of 1978 should write to:

## Verify Address On Drivers License

The Texas Department of Public Safety advises that all Texas drivers should examine their Texas drivers license to verify that the address on their license is correct. If his address is incorrect, it will be necessary to contact the local Drivers License Office as soon as possible. It is a misdemeanor offense for not changing your address within 10 days after moving. This particular law is going to be enforced more strictly in the future. The procedure for changing an address on a license is to have a duplicate license made with a new picture and a \$1.00 fee.

The Drivers License Law, V.C.S. 66876, Sec. 20, states

that whenever any person after applying for or receiving an Operator's, Commercial Operator's or Chauffeur's license shall move from an address named in such application or in the license issued to him or when the name of the licensee is changed by marriage or otherwise, such person shall within ten (10) days thereafter notify the Department in writing of his old and new addresses or of such former and new names, of the number of any license then held by him, and such person shall apply for a duplicate license as set out in Section 14.

Section 14 states that in the event that an Operator's, Commercial Operator's or Chauffeur's license issued under the provisions of this Act is lost, destroyed or there is a change in pertinent information, the person to whom the same was issued may obtain a duplicate or correction thereof upon furnishing proof satisfactory to the Department that such permit or license was lost or destroyed or upon the supplying of the required information which has changed, together with proof acceptable to the Department supporting such change, and upon the payment of a fee of one dollar (\$1.00).

## THEN-NOW!

THEN: Though little is known of licorice in early prehistoric times, the Chinese books of medicine, the first written records of man, spoke of it as a magical herb that lent youth to the bodies of aging men. Interestingly, the fighting legions of Imperial Rome carried licorice as part of their rations, and Roman physicians employed it in the treatment of Julius Caesar's epilepsy.

NOW: Today whenever licorice is mentioned it is thought of as a delicious candy by young and old alike. Historians at Y & S Candies, who make chewy Nibs and Twizzlers, point out that only the root of the licorice plant is used. An idea of the manual labor required to harvest this flavorful plant may be gleaned from the fact that the root, spreading in every direction, reaches lengths of from 20 to 25 feet.

## SAVE HOME ENERGY WITH PLANTS

Summer air conditioning as well as winter heating costs can be significantly reduced with landscape plants, says a landscape horticulturist with the Texas Agricultural Extension Service. Shade trees or trellised vines on the south and west sides of the home will then shed their leaves to allow the sun to provide warmth in the winter. Plant evergreen trees along the northern and western sides of the home as a windbreak during the winter.

## VA News

Veterans seeking loans to meet their expenses for going to school this Fall will get priority action from the Veterans Administration, according to C.H. Herren, Service Officer for Haskell County.

The Service Officer explained that there is an educational assistance loan program for veterans who are eligible to attend school under the current GI Bill. Eligible for schooling benefits from the Veterans Administration are veterans with 181 days or more service since January 31, 1955, and whose discharge or release was under other than dishonorable conditions. The delimiting date for using educational entitlement is ten (10) years from the date of the last discharge occurring after January 31, 1955. The current GI Bill went into effect June 1, 1966, thus veterans who were discharge prior to that date are no longer eligible.

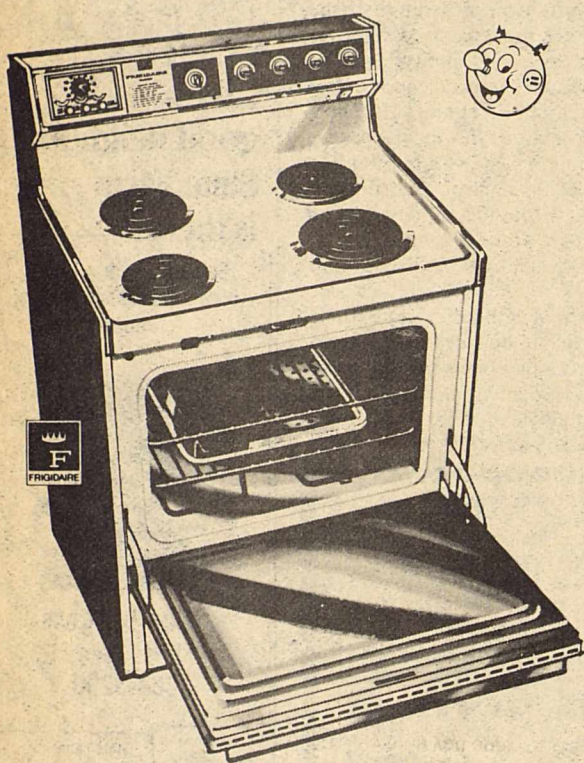

Under the VA educational loan program, an eligible

veteran may borrow up to \$1,500 each academic year when attending an approved school. In the past, there was a 30 to 60 day processing period required for loan applications. The VA now plans to process the applications immediately following receipt, providing the school certifies that the veteran is actually enrolled and attending classes. Two conditions must be present in order for a veteran to qualify for a VA education loan. He must (1) demonstrate that his required expenses during the school year will be greater than his income, and (2) he must have been turned down by the banks in the area, or the school must certify that area banks are not making any student loans.

Any eligible veteran planning to attend school under the GI Bill this Fall, and whose financial situation requires a loan, should contact his local Veterans Service Officer or the nearest office of the Veterans Administration and request assistance in completing the proper application forms.

- ★ Don't be an oven-peeper. Every time you open the door, you lose 20% of the heat.
- ★ Plan oven meals to accommodate more than one dish at a time, or time your baking for multiple dishes. Most recipes can stand a 25° F. temperature variation.
- ★ Get foods for baking into the oven the moment it reaches the right temperature. Remember, you don't have to pre-heat the oven for broiling or roasting.
- ★ Use the high setting to bring foods to steaming then switch to the lowest heat needed to complete cooking. Turn off surface units before cooking is complete and let the retained heat finish the job.
