A LONG WALK—This accident caused Thomas Derrell Sorrells of Rule to walk to Highway 380 West of Haskell for help. The 1959 Plymouth ended up in the ditch 3 miles Northwest of Haskell on a dirt road. Sorrells and Twayall Turnbow of Weinert were treated at the Haskell Memorial Hospital emergency room and released. The accident happened Sunday night.

Area Wide Crusade Committees Meet

Planning committees for the upcoming Haskell Area Wide Crusade met June 1st at the Haskell National Bank Community room. Dudley Bragg chairman of the counseling committee announced that the training materials for the crusade counselors was in and that two Thursday nights in June have been set for the training sessions, 20th and 27th. Letters will be sent to all area churches. The study guides are similar to the materials used by the nationally televised Billy Graham crusades.

Eddie Swaner and Jerry Sparks reported that the football field in Haskell had been graciously provided to the grounds committee. Plans are underway for a temporary speaker's platform and two temporary ramps leading from the stands to the field.

Chairman of the finance committee, Roy Herricks, mentioned that numerous donations had been made already by area churches and individuals. The team is coming solely on a love offering basis. They have been promised no set amount to meet their expenses. With this in mind it has been the prayer of the whole Steering Committee that our basic expenses

for materials, advertising, lighting, housing, and meals for the crusade will be met before the crusade begins. We want to thank those who have made contributions and to again announce that we have an open crusade account at the Haskell National Bank. When you go in to make a deposit or a withdrawal you may make a gift to the crusade using Haskell Area Crusade Acct.

#22-797-8.

Housing committee chairman, C.L. Shipman, noted that the Signs of Peace choir members will be housed in private homes. If you would like to host one of these young people, please contact Mr. Shipman.

Please remember to pray for the Haskell Area Crusade to be held nightly July 30th through August 2nd.

The Consumer Alert
by John L. Hill
Attorney General

AUSTIN—Many Texans are looking for ways to curb monthly utility bills. Unfortunately, some of us are becoming easy marks for unscrupulous persons who use the "energy crisis" as a wedge to open our pocketbooks. Our Attorney General's Consumer Protection Division lawyers say that "con artists" and deceptive home improvement contractors and sales persons are now moving into the energy conservation field. However, some of the goods and services being sold are not likely to decrease energy consumption or utility bills very much. Experts tell us that homeowners can save energy and dollars by the following measures:

1. Proper home insulation. With at least six inches of insulation in an attic and no less than three inches in outside walls, energy consumption in a previously uninsulated house could decrease by as much as 35%. Just putting three inches of insulation in an attic can save about 18% in heating and cooling bills.
2. Weatherstripping and/or caulking around doors and windows can also produce noticeable decreases in energy consumption.
3. The installation of storm windows and doors for use in all seasons, or the installation of double-paned thermal glass windows could save about 15% in energy.
4. Proper use of draperies, window shades, blinds, or interior shutters can help retain warm air in winter and cool air in summer.
5. Deciduous trees or vines planted on the west and south sides of your home can make quite a difference in utility bills, too. When in full leaf, they keep the hot sun from hitting the house, yet allow sunlight and warmth in when they shed their leaves in cool weather.
6. Last, but definitely not least, setting your thermostat higher in summer and lower in winter will dramatically lower energy consumption. Some of these suggestions can quickly and easily be put into action by homeowners. Others, such as the recommen-

dations for insulation, weatherstripping and caulking, and installation of special doors and windows require an investment of some time and money. If you decide to "do-it-yourself," be careful to comparison shop for the best price, quality, durability, and warranty. You should study sales and promotional literature for different brands to be sure you are getting the most for your money. Be sure to learn the correct procedures for installation, too.

And, if you decide to pay professionals to do these jobs for you, make sure the individuals are just that—professionals. Otherwise, you could end up spending a lot of money for poor work or faulty products that won't save you energy or money when the job is completed.

Deep lace cuffs held the full sleeves. The chapel veil of silk illusion held by a lace cloche, was circled with matching lace. She carried a bouquet of

gardenias and stephanotis. For something old she wore a diamond necklace which was a gift from the groom's mother. Something new was her wedding dress. Something borrowed were diamond earrings belonging to her maid of honor. She wore a blue garter and a six pence in her shoe.

Community Psychiatry Works

By Aubrey Headstream
Director Mental Health Center

"Community Psychiatry really works" however communities need to understand how it works and the part that all the people in the community play in making it work.

First, there must be a special kind of staff in a community. People with qualities and abilities that can tolerate a high degree of ambiguity, deviancy, stress. The MH/MR staff I am very proud of because these people have acquired these experiences, skills, and attitudes.

Myron Biard, Alcohol Counselor; Dough Yarbrough, Psychologist; Lester Harris, Psychiatry Social Worker; Pat Jones, Social Worker; Maruorie Headstream, Office and record supervisor; T.W. Williams, M.D.

Second: The Community Psychiatry Philosophy is: one, emphasize coping skills; two, stress reality and responsibility; Three, encourage a patients independence, taking

care not to meet needs the client can meet himself; Four, reduce pathological dependencies on families and others whose roles are significant in his life, offering support to the family while doing this; five, relate to patients as responsible people living in the community, not as patients; six, maintain a close working relationship with community agencies, doctors, landlords, police, and employers; seven, try to avoid hospitalization. Staff agree that the hospital has an important place, however, and in one of their supports they use it for patients who are suicidal or homicidal or persons extremely disorganized.

Third, all the people of the Community may become active volunteers by following some guidelines. The great need falls into four basic categories.

1. Activities of daily living skills. These include work with their patients own personal appearance, hygiene, laundry, cooking, shopping,

budgeting, house cleaning, transportation, and communication.

2. Vocational skills, help improve their job skills, what is required in obtaining and keeping a job.

3. Leisure time skills, help them seek out recreational activities and encourage simple pleasures and interest. Reading newspapers and books of worth while nature encourage eating out at local restaurants, and shopping in local stores.

4. Social or interpersonal skills, help them practice assertiveness techniques from eye contact to asking a person for a date. Go to lunch with them, plan social activity out in community. Encourage church activities.

By following these community psychiatry rules, State Mental Hospitals do for the first time in history have empty beds. Yes, it really works but it takes Community to do it. However, this is truly "Brother Keeping."

Johnson, Dean Exchange Vows

Miss Cene Annette Johnson became the bride of Robert Dawn Dean, Jr. in a ceremony Saturday evening, June 10 at 7 p.m. in the First Baptist Church, Iowa Park, with the Rev. Kenneth Flowers officiating.

Robert Dawn Dean, Sr. of Iowa Park.

The former Miss Johnson presented in marriage by her father. She wore a classic silhouette gown of imported candlelight silk mirlmist and french chantilly lace with empire bodice and seed pearls, sheer full sleeves with wide lace cuffs and high scalloped neckline. The full skirt was scalloped with lace and flowed to a chapel-length train. A juliet cap of lace held her veil of three tiers of silk

illusion which fell to chapel-length. She carried a colonial style nosegay of white starburst poms and feathered white mums with hahns ivy. She wore something old, something new, something borrowed and something blue.

Maid of Honor was Miss Cindy Wessel. She wore a princess style yellow sheer mist gown with a sweetheart neckline, puffed sleeves and a wide flounce ruffle at the hemline. She carried a nosegay of white daisy poms and blue lealey's breath and wore a cluster of daisies and blue baby's breath in her hair.

The bridesmaids, Tammy Hunter; Jane Dean, sister of the groom, and Kara Johnson, sister of the bride were dressed like the maid of honor but wore yellow picture hats.

Craig Johnson, the bride's brother served as best man and the groomsmen were Jim Grant, Waco; G.L. Smith, Electra; and Ricky Dean, brother of the groom. Ray Wellington and Gene Casper were ushers.

Candlelighters were Carol Dean, sister of the groom and Rodney Johnson of Elbert, cousin of the bride. Christie Pender was flower girl and Cody Houston was ring bearer, cousin of the bride from Jacksboro.

Mrs. Kenneth Via, organist, played Nadia's Theme, Romeo and Juliet, You Light Up My Life, Always and Forever, Make Us One and We've Only Just Begun, prior to the ceremony. Miss Robin Collins sang Can't Help Falling In Love and Evergreen.

For the alter setting, the bride chose brass candelabras with white tapers and fresh emerald greenery flanking an archway of greenery and accented with symbolic white doves. To continue symbolic tradition, the bride and groom had as part of the wedding ceremony, following the commitment of vows and lighting of the unity candle, knelt on a white prayer bench facing each other as Miss Robin Collins sang the Lord's Prayer. Arrangements of fresh palms flanked the candlebras to complete the wedding sitting.

The brides parents hosted the reception following the ceremony. The brides table was covered with yellow satin overlaid with a yellow silk chiffon overskirt silver candelabra with an arrangement of mixed flowers in the brides colors of yellow and blue centered the table. Ivy and springru greenery encircled the silver punch bowl and wedding cake which was a three-tiered white cake accented with yellow roses and daisies and topped with a traditional bride and groom. Assunting at the bride's table were Mrs. Rick Brantley of

Irving, cousin of the bride and Miss Shanley Griffith.

The groom's table was covered with ivory satin and overlaid with soft burlap. As a focal point, a brass figure and an arrangement of flowers and grapes to compliment the traditional groom's cake which was accented with fruit and grapes. Miss Carol Dean assisted at the groom's table.

Miss Regina and Michelle Curran, cousins of the groom from Los Angeles, California registered guests at a white satin table with yellow lace overlay and complimented by a vase of white starburst poms.

CMS Holds Meeting

The Christian Missionary Society met Monday, June 5, at 7 p.m. in Chandler Fellowship Hall for the annual Salad Supper.

The speaker for the occasion was Mrs. Rosalyn Shields of Abilene. She is a teacher at Kinley School, a school for special children. The subject of her talk was "Chris, My Autistic Son." She said that she felt called to tell about her experience with her son, hoping that others in a similar situation might learn from her experience. She told how she had learned to depend completely on God, how God had answered prayers in doing more for Chris than medical science had ever thought possible, and how he had given the family strength to accept Chris's limitations. Her talk touched all present deeply, and made them more conscious than ever of the power of God. No one hearing her speak with such faith could ever doubt that God does answer prayer.

The next missionary meeting will be in September.

The roof of the Sagerton Community Center has been repaired, and hopefully it will be fixed for a long time to come. Alvin Ulmer has repaired the air conditioners on the south windows, and gatherings held there should be more comfortable. Our community center takes a lot of work to keep up, but we are lucky to have a place to have large gatherings, and with everyone doing just a little the building and grounds can be kept looking nice.

Our residents should be reminded that the Sagerton Landfill has been moved to the

west end of Dusty Drive (the old railroad right-of-way and dump). The first landfill has been filled up, and there was no more room.

Sagerton has one more resident, the little son of Mr. and Mrs. Fred Baitz, who was born, Monday, June 12, at the Stamford Memorial Hospital. Congratulations to Fred and Tammie and to the grandparents, Mr. and Mrs. Melvin Baitz of Sagerton and Mr. and Mrs. Roy Letz of Rule, and the great-grandparents Mr. and Mrs. J.A. Hertel of Sagerton and Mr. and Mrs. Adolph Letz of Stamford, Mrs. Emma Raphael of Stamford, and Mr. and Mrs. Red Wilson of Dallas.

A new culvert on the East Side of the Faith Lutheran Church parking lot has been installed by the Highway Department, and now it is easier to get in and out of the parking lot.

Mr. and Mrs. Ronnie Galloway of Big Lake and Mr. and Mrs. Dave Letz of Abilene visited with Mr. and Mrs. David Letz and attended the Letz Reunion at Old Glory last weekend. Mr. and Mrs. Larry Letz and children of Abilene also attended and visited with Buster and Norma Tredemeyer.

Former residents of our community visiting with old friends here for the Letz Reunion were: Mr. and Mrs. Buford Letz and son of Fort Worth, Mr. and Mrs. Murry Schroeder of Abilene, Mr. and Mrs. Lloyd James Schroeder of Grand Prairie.

Kris Kupatt left Tuesday of this week for Washington D.C., where she will attend the National Citizenship Shortcourse and Heritage Tour June 13-27. The Citizenship Shortcourse will be conducted at the National 4-H Center and at the Nation's Capitol. She will visit the different branches of the legislature. She will also tour many historical memorials and buildings together with young 4-H'ers from all over the Nation. It is truly a great opportunity, and we are proud to have her represent Sagerton, Haskell County and District III.

The Cheerleaders of Rule High School are at Cheerleaders School at Tarleton State University at Stephenville this week. Rene Toney, daughter of Mr. and Mrs. J.B. Toney, and Mary Macias, daughter of Mr. and Mrs. Cato Macias, Sr. and Karla Kupatt, daughter of Mr. and Mrs. J.D. Kupatt, Lisa Sherman, daughter of Mr. and Mrs. Hank Sherman and Marla Lehrmann, daughter of Mr. and Mrs. Norvell Lehrmann, will be the cheerleaders for next fall.

Letters To The Editor

(EDITORS NOTE: The Haskell Free Press will publish letters to the Editor dealing with any subject. All letters must be signed but names will be withheld by request. All letters are subject to editing for length and liability.)

Dear Sir:

As a new physician and head of a new household in Haskell, I wish to express my sincere thanks to all those who have made us welcome. We have looked forward to returning to Haskell for several years and are truly happy to be here.

I appreciate Mrs. Wilson's endorsement of me in her letter to the editor last week, but in all fairness feel I must point out that as the junior member just initiating a practice I frequently have a much lighter load than my associates. Being the fine physicians and men they are, they frequently allow me to see patients they would otherwise have seen in order to become known to the people of Haskell and to share the work load. I assure everyone that the concern for the willingness to help any and all

patients is one of the reasons I chose to associate myself with this group of physicians. I look forward to helping them serve.

Sincerely,
Wayne Cadenhead, M.D.

Ever see a 15-million dollar cattle truck? It looks as though that's where things are headed with the announcement by major air carriers that 747's are going to be converted to livestock haulers for international markets. Officials say live cattle transportation to countries outside North America is already 80 percent by air with both the volume and the percentage expected to increase during the coming years. For the animals themselves it's all first class. Interiors are redesigned and structured to resemble a barn with separate pens or stalls. Special temperature control and ventilation systems are being designed and separate studies are underway to determine other ways to increase animal comfort. No one has yet decided whether to include in-flight movies but it sounds as if they may not be far away.

Fandangle Dates Set

The 1978 40th Anniversary Fort Griffin Fandangle will be celebrated at the Prairie Theater in Albany, on June 15, 16 and 17th, and 22, 23, and 24th. Barbecue, catered by the Texas Trails Chuck Wagon of Albany, will be served each evening of the Fandangle, beginning at 5:00 p.m. A concert will be played on the steam calliope before the performance at the theater.

For the convenience of newspaper and television press representatives, a special press dress rehearsal of the Fort Griffin Fandangle has been scheduled for Wednesday, June 14th, beginning at 8:00 p.m.

The Fort Griffin Fandangle is a gentle satire of life at the famous western outpost of Ft. Griffin, and the lively and lusty town of Griffin which sprang up in the shadow of the fort. The fort was situated on a hilltop for protection from bands of marauding Indians. The town nestled between the bottom of the hill and the Clear Fork of the Brazos River; during the 1870's and 80's it was the scene of the wildest of westerns. Doc Holliday lived in Griffin before he went to Tombstone; Big

Nose Kate spent a night in jail at Griffin for trying to burn down a hotel; and Lottie Deno, the gracious lady of the gambling tables saw her lover shot to death there. Wyatt Earp, who came to visit Doc Holliday, stayed only a few days, remarking that "Griffin is too wild for me."

The Fandangle portrays the different facets of life in pioneer times—the soldiers; the saloon characters; the buffalo hunters who spent weeks hunting and skinning; the lonely cowboys who drove herds of longhorn cattle up the Western Trail to Abilene, Kansas; the mother who feared Indians, disease, loneliness; the children; the old folks; the Indians in their kingdom and in their realization that all was lost. The spectator is transported into yesteryear. He is there with history as it happened.

Since 1938 the Fort Griffin Fandangle has been recreating prairie history through pageantry, comedy, and showing off. "Western style." During its six night summer run the Fandangle Prairie Theater's 1600 seats are filled with people from all over the United States—people who find the show enchanting and

return again to bring others with them.

We sincerely hope you are able to come to our dress rehearsal Wednesday, June the 14th; we're looking forward to seeing you at the Fandangle!

American Ag News

With the announcement by President Carter that he will allow 200 million pounds of boxed and frozen beef to be imported into the United States, the ranchers' feathers are beginning to ruffle, and they need to. This 200 million pounds of beef represents 840,000 head of cattle. Think how many ranchers this will affect. Also think about the amount of grain and corn that would be used if fed to US cattle.

Foreign beef has to be fed, and most of them are fed with grain and corn imported into their countries that should be used to feed their starving people. Yet it seems more important for them to feed the cattle than their people so they can export the cattle to our country. In essence we are importing not only boxed and frozen beef but corn and grain that we exported to them to feed their hungry.

The boxed and frozen beef is not tested for disease when it enters this country. It supposedly was tested before it was boxed. The packing plants are to be at the US standard, but when Wilcox, Arizona, AAM checked several plants in Mexico recently, they are not at the US standard. They were very

unsanitary. It makes me wonder what condition the plants are in that has shipped us this boxed and frozen beef. T.A. Cunningham, president of the Independent Cattlemen's Association, said that according to Texas Animal Health records, 1 out of every 3 Mexican cattle coming over the border are infected. Most of this beef as well as the boxed and frozen beef is being ground into the ground meat sold in the supermarkets and served at the eating places.

Another tidbit as reported in the American Agriculture News June 6, 1978. Sri Lanka will get two loans totaling \$25.5 million to help its tea industry and support a land rehabilitation program.

Rep. Dawson Mathis, D-Ga. said recently that the World Bank was planning to "loan" the Communist regime in Yemen millions of dollars to bail them out of their farm problems. Terms of the "loan" are: a ten year grace period with No Interest, the loan to be due in 50 years. Sources say the World Bank doesn't really expect Yemen to pay back the money.

Meanwhile, the Wall Street Journal reports that the World Bank is planning to "loan"

Turkey 110 million dollars to improve its beef production.

The World Bank is funded mostly with US tax dollars.

How much longer are we as farmers, ranchers and Americans going to stand by while our government sells us down the drain?

The Haskell AAM office is open every Wednesday from 8:30 to 12:00, and 1:00 to 5:30. If you have a question or an answer to our problems, come by 103 N. Av. D. or call 864-3802. We in Haskell are still very active in AAM and will continue to be so as long as it takes to make President Carter and Mr. Bergland realize that the interest of the American people should come before that of the foreign countries.

DQ Honors Three Couples

Three couples are receiving special honors from the Haskell Dairy Queen.

Of all the couples with wedding anniversaries in June who have signed up for the anniversary dinner program at the Dairy Queen, these three couples have been married the longest.

Mr. and Mrs. Mancel Robertson, 1901 N. Avenue F, Haskell, were wed on June 2, 1931, and thus have recently celebrated their 47th wedding anniversary.

Mr. and Mrs. Bob Herren, 706 N. Av. L., Haskell, were married on June 18, 1932, and will be celebrating their 46th anniversary this month.

Mr. and Mrs. Jess Leavord, 1104 N. 8th Street, Haskell, are having their 45th anniversary this month, having wed June 8, 1933.

Every couple registering at the Haskell DQ will receive a free wedding anniversary dinner at the restaurant as a gift of Dairy Queen, whether they are celebrating their first, 50th, or even longer anniversary during the next 12 months.

If they wish, they are served at a special table covered with a white table cloth and special white napkins to create a festive atmosphere for the anniversary dinners.

The program, believed to be the first of its kind for Dairy Queen, encompasses almost 50 DQs in Central and West Texas that are a part of the Chapman Fast Foods organization.

Woody Frazier is manager of the Haskell Dairy Queen.

AT BASKETBALL CAMP--Becky Medford and Julie Coleman from Paint Creek were among the students attending the fourth annual girls' basketball camp at Western Texas College from June 5-9. Miss Coleman was named Most Valuable Player (Class AA) at the conclusion of the camp. She is the daughter of Mr. and Mrs. Martin Coleman. Miss Medford is the daughter of Mr. and Mrs. Burl Medford.

WASHINGTON "As It Looks From Here"

Omar Burleson
Congressman — 17th District

WASHINGTON, D.C.—AS IF AGRICULTURE DID NOT HAVE ENOUGH PROBLEMS the Administration last week increased meat imports, to be effective the remainder of this year, by 200 million pounds. This is in addition to over a billion pounds presently permitted.

WE DO NOT PRODUCE IN COMMERCIAL QUANTITIES the type of beef which goes into hamburgers and some other meat products. We do, however, produce enough of this type for this increase to have an effect on livestock prices and probably could supply much more if imports were curtailed. A more important effect is psychological, coming at a time when producers are just recovering from several years of low prices. After prior years of reduced herds because of heavy losses, producers are just beginning to get decent prices and many are prepared to expand the Nation's beef production.

THE DECISION TO INCREASE IMPORTS will probably have little effect on consumer prices. Consumers may get a little help in the short run but they may be hurt in the long run if cattlemen see the Government's action as a signal to delay in rebuilding herds.

THERE IS PENDING BEFORE THE CONGRESS and, in fact has passed the Senate, a new beef import stabilization plan designed to help level out boom and bust cycles in beef supply and prices by allowing added imports when domestic supplies are light and reducing imports when American production is high. Cattlemen need to be assured of tighter import controls at a time when supplies are big and prices are low but the Administration is now saying in effect that it will level off the peaks without any provision to fill in the valleys. This sort of policy will not give cattlemen the kind of confidence needed to build supplies back at a normal pace.

CATTLE PRICES, WHICH BEGAN RECOVERING in late spring, were not much above the levels of 1973, but prices at retail are up sharply because of higher marketing costs.

THE ADMINISTRATION IS, OF COURSE, REACTING OUT OF CONCERN about recent increases in the rate of inflation. That is understandable because inflation continues to be a #1 problem in

the Country. But the recovery in beef prices this year has not caused the general inflationary spiral. Every analysis shows that heavy-handed Government action to put a lid on meat prices at retail will land on the producer and is not going to be a sound long-range answer.

MOST IMPORTED MEAT PRODUCTS come from Australia and New Zealand and supposedly this 200 million pounds added to present imports would be applied in these areas. This, however, is not the entire picture. Certain numbers of live cattle also come in from Mexico and Canada. In addition, meat sent into the Virgin Islands to be processed comes into this Country without restriction. This results in inaccuracies as to the actual amount being imported.

LEGISLATION NOW PENDING SHOULD ALSO TAKE INTO ACCOUNT THESE FACTORS in considering what is best for our own cattle producers and the economy of the Country.

Krueger To Host July 4th Picnic

Congressman Bob Krueger will host a statewide family picnic and rally July 4 at his home here to kick-off his fall campaign for the U.S. Senate seat held by John Tower.

Krueger, who won the Democratic nomination for the Senate May 6, will make a brief speech at the event, which is expected to attract 7,000 of his friends and supporters from throughout the state.

"Independence Day has always been a day of celebration, and I am hopeful to make this July 4 a truly special one by being with all those people from throughout Texas who made our victory May 6 possible," Krueger said. "I invite everyone to attend."

The "Old-Fashioned Picnic and Rally" will be held from 2-6 p.m. in the field opposite the Krueger home. Concessions and games will be available, as will be free watermelon and tamales. Beer and soft drinks will sell for a nickel apiece.

The Comal County Fairgrounds will be used for parking. Special buses will transport people to and from the Congressman's home.

Chartered buses for those attending the picnic will be leaving from Dallas and Houston and shuttle services will be provided for those arriving at the San Antonio International Airport.

Anyone needing additional information about the rally and picnic should call the state campaign headquarters in Austin at 512-478-1978.

There are three cities listed in the record books as being the smallest in America, only .4 square miles in area: Belvedere, California, Bonne Terre, Missouri, and Montgomery, West Virginia.

Facts from a pro on driving to survive.

Q. Why should I keep anti-freeze in my car all year round?—R.S.T., Orange

A. Because anti-freeze does more than just protect the engine block in cold weather. These days it's called coolant, which describes more accurately what it does. A mixture of coolant and water not only protects the car in cold weather, but cools more effectively than plain water. In addition, modern coolants have anti-corrosion additives to protect the water pump and the water passages from deterioration and mineral buildup.

Q. I'm on the road a lot. How long can I expect the brakes on my car to last before they need relining?—J.M., Temple

A. On the average, about 25,000 miles for the front brakes and about twice that for the rear brakes. But brake life depends mostly on how and where the car is driven. A car driven mostly on the highway, where the brakes are used infrequently, will not need a brake job nearly as often as a car driven in town, where the brakes are used many times for every few miles. Brakes should be checked about every ten thousand miles. The rear brakes should be checked each time the front brakes are relined.

Q. Does Texas law require the use of a front license plate on passenger cars?—C.V.O., Houston

A. The law requires that a valid license plate be displayed front and rear and that validation stickers or tabs be issued each year. Since the state issues only one sticker per vehicle, only the rear plate must carry a current validation sticker.

The downtown opening day parade will be at 4 p.m. on Friday, June 30 with the first night show at 8 p.m. There will be night shows on July 1, 3 and 4 since the custom of the Reunion from the beginning in 1930 has been to "lay by" on Sunday.

Sports, Rehabilitation, Jobs For Disabled

Gen. Omar Bradley Is Chairman of Unique School for Adults

Though there are millions of Americans with severe physical disabilities—caused by car accidents, birth defects, polio and war injuries—today there is real hope that most can return to active lives. But not until after World War II, which caused tens of millions of deaths and multiple amputations, were the first large-scale attempts made to rehabilitate and train the most severely disabled, those who require wheelchairs.

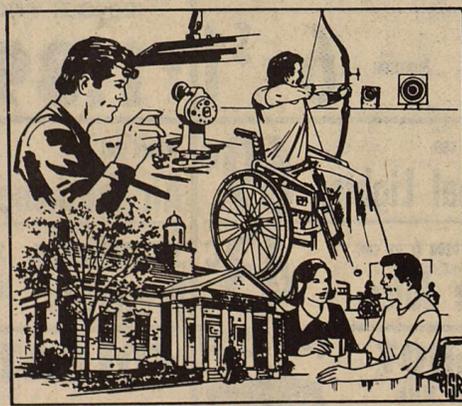

For Veterans First "To serve those who served us..." were the words that inspired the opening of the Joseph Bulova School of Watchmaking in Woodside, N.Y. more than 33 years ago. It was the late Arde Bulova's way of repaying the sacrifice of returning disabled veterans. Mr. Bulova, then chairman of Bulova Watch, realized that the alternative facing these men was vegetating uselessly in an institution or at home.

General Omar Bradley, first head of the post-war Veterans Administration, took an interest in the School and launched rehabilitation programs in VA hospitals.

The first classes began June 23, 1945 with 125 veterans enrolled at the independent School devoted to a new form of adult education. In the next four years the facility operated on a double shift, and by 1949 the emphasis shifted to the civilian disabled, of whom there were and are millions.

Sports A Key "Participation in social life is the key," says School director B.H. Lipton. "That's why sports are important to men and women who use wheelchairs. Athletics get them back into vigorous contact with other people and make them feel competitive again. Even the shyest disabled person derives inspiration from seeing wheelchair athletes compete."

General Bradley, who became chairman of the School's trustees in 1953, is a strong supporter of wheelchair sports. In 1957, in cooperation with the Paralyzed Veterans of America, the School founded the National Wheel-

The School is a principal sponsor of the National Wheelchair Games. (Upper right) A participant practices for the archery competition in the Games.

Gen. Omar Bradley In addition to watchmaking courses, students at the School can take precision technician courses. Each student's program is individualized, and the great care with the individual has paid off after graduation. More than 90 percent of the more than 1,300 graduates are productively employed in industry and business, even though many still require wheelchairs.

"The success of the School visualized by Arde Bulova and Omar Bradley," says director Lipton, "shows how much can be accomplished, though unfortunately only a minority of America's handicapped are aware that disabled adults can become active again." But the rehabilitated disabled kept making tremendous progress. Mr. Lipton notes that in 1977 the President's Commission on Olympic Sports recognized wheelchair sports as an equal with other American sports, and that enabling legislation is now before Congress that will permit the U.S. Olympic Committee to help support wheelchair athletics.

Already wheelchair sports have come a long way, with national and international competition yearly and the Paralympics now a regular event in Olympic years. At the most recent Paralympics, held in Toronto, Canada in 1976, teams from 38 nations participated, and the U.S. Team, chairmanned by Bulova School director Lipton, won more gold, silver and bronze medals than any other.

True False

(1.) One out of five American workers belongs to a labor union.

(2.) Producers of goods outnumber producers of services in our economy.

(3.) In 1975, the investment in equipment and facilities averaged almost \$41,000 for each production worker in American industry.

(4.) Over the past decade corporate profits (after taxes) averaged less than five cents on each dollar of sales, or about 12 percent return on stockholder investments.

If you found these questions tough, your Economics Quotient, your E.Q., could probably stand some improvement.
