Lighting Up Lives Is Goal

A joint project of the Haskell County Jaycees, Jaycee-ettes, and the Retail Trade Committee of the Haskell Chamber of Commerce has been announced to purchase 48 new lighted Christmas fixtures for the downtown area of Haskell.

The fixtures will include: four, seven foot wreaths; four, double halo candles; four, seven foot angles; eight, seven foot blue spruce trees; twenty-eight, single halo candles and enough pole wrap for 20 poles.

All of the fixtures will be lighted and the approximate cost will be \$8,500.00.

The wreaths will be placed on each side of the Courthouse, and the remainder of the decorations will be placed around the square and one block in every direction from

the square.

The decorations will be used to completely replace the out of date decorations now used during the Christmas season.

The Jaycees have scheduled several projects to raise funds for the decorations including: fire works stand which is now open, Junior Rodeo, Bass Tournament, Steer Roping, Donkey Ballgame. The Jaycee-ettes are planning a door-to-door Tupperware sale, giant garage sale, halloween carnival and an auction.

Complete details will be announced on these projects at a later date.

Jaycee project chairman is Charles Andress, Jaycee-ette chairman is Diana Owens, and Retail Trade Committee chairman is Charles Thornhill.

A large part of the funds will be needed by September 30, to insure receipt of the decorations to be installed and turned on Thanksgiving Night.

DPS Estimates 53 Holiday Traffic Deaths

Colonel Wilson E. Speir, director of the Texas Department of Public Safety, today estimated that traffic accidents during the 102-hour

WTC To Offer Construction Course

Western Texas College will offer a new Residential Construction course starting in the 1978 fall semester.

Danny Pounds, formerly of Lubbock, has been named instructor for the course.

Students will study all phases of construction, and will work on the construction of duplexes on the WTC campus.

Persons interested in the course are invited to contact Pounds or the office of Dr. Gene McClurg, Dean of Occupational Education and Technology. Fall semester classes will begin on Sept. 7 following registration on Sept. 5-6.

July 4th holiday weekend will claim 53 lives in Texas.

"July 4th is traditionally one of our more dangerous driving periods, and I am hoping that all Texans will do their best to prevent accidents," Speir said.

The DPS director asked that motorists join DPS Troopers in burning their low-beam headlights during daylight hours throughout the holiday period as a safe driving reminder to others.

"There was widespread citizen participation in this 'Light the Way for a Safe Holiday' program during the Christmas and New Year weekends, and we believe it had a very positive impact," Speir added.

All available DPS Troopers will be on duty between 6 p.m. Friday, June 30 and midnight Tuesday, July 4th, which is the official nationwide holiday period set by the National Safety Council. They will be keeping a close watch for

drunk driving, excessive speeding and other hazardous violations.

Speir said that during the past two years, July 4th weekends, have been 78 hours in length. There were 35 traffic deaths in Texas during the 1977 holiday period, and 48 in 1976.

FM Road Improvements Set

The State Highway and Public Transportation Commission has approved a \$70.5-million program to improve safety and to protect the public's investment in 3,766 miles of state-maintained highway facilities.

The program is the 1979 State Highway Safety and Betterment and Farm to Market Road Improvement Program. It includes work in every part of the state.

In all, 566 projects are proposed in 193 of Texas' 254 counties. Work on the program is divided about equally between state- and US-numbered highways and Farm to Market Roads.

The program includes such

work as resurfacing, widening, base repair and strengthening and spot safety improvements.

District under the 1979 Program will total approximately 1.9 million dollars, and will be a protective seal coat which is an overlay of asphalt and aggregate.

Work in Haskell County is included in the program Welsch stated. Projects to receive the seal coat include:

- (1) FM 1661 from Jones County Line to Sagerton (SH 283) for a total of 8.2 miles.
- (2) FM 2163 from Haskell to FM 2229 - 17.1 miles.
- (3) FM 1661 from Sagerton (SH 283) to SH 6 - 4.3 miles.

Water Curtailment Program Set Forth

Members of the Haskell City Council, Tuesday night, discussed an acute water shortage and set forth a curtailment and rationing program for water usage in the City of Haskell.

The curtailment program will begin immediately and all residents are urged to stop all non-essential use of water. Members of the Council stressed the necessity of compliance with the request

Fantasy Island
Is Country Club
Party Theme

and specifically stated that all watering of lawns and gardens be stopped thru July 6.

Effective July 7, a rationing program will begin and local residents will be allowed to water lawns and gardens every fourth day, according to which county precinct they reside in. A schedule of the rationing program is published below.

| JULY | PREC. # |
|------|---------|
| 7 | 1 |
| 8 | 2 |
| 9 | 3 |
| 10 | 4 |
| 11 | 1 |
| 12 | 2 |
| 13 | 3 |
| 14 | 4 |
| 15 | 1 |
| 16 | 2 |
| 17 | 3 |
| 18 | 4 |

The rationing program will continue as long as necessary and schedules will be published as they are announced by the City.

During the discussion it was noted that the water table from which City wells supply our water is down to a certain extent, the major problem is that the wells can not pump water as fast as residents are using it. It is hoped that the complete curtailment of non-essential water usage will enable the two above ground storage tanks to be refilled and at the same time allow the

water table to recharge due to less demands.

The seriousness of the problem was emphasized at the council meeting when members discussed the possible problems which might arise from the situation. It was announced that at the present time there was no water in the two water towers and that in the event of a serious fire, an adequate water supply was not available.

In other council action, Jimmy Bynum was appointed to the housing authority to fill the unexpired term of Joe Cortez who is now serving on the City Council.

Members of the Council

also discussed an increasing problem of stray dogs. They stated that many complaints had been received and requested the voluntary compliance of local dog owners

with the City Dog Ordinance. The ordinance requires that all dogs be kept on a leash or within a fence.

Council members added that if voluntary compliance

does not improve the situation, that the council will be forced to take stronger action.

Bill Pennington was issued a permit to operate a taxi service in the city.

FIREWORKS CAUTION
Local users of fireworks are again cautioned that there is a city ordinance against the fireworks in the city. Extreme caution is also requested in the use of fireworks everywhere due to the extremely dry conditions. Representatives of the State Fire Marshalls office and Rail Road Commission were here last week and found a fired rocket underneath a 22,000 gallon butane storage tank. They expressed concern about the severe fire threat and request caution.

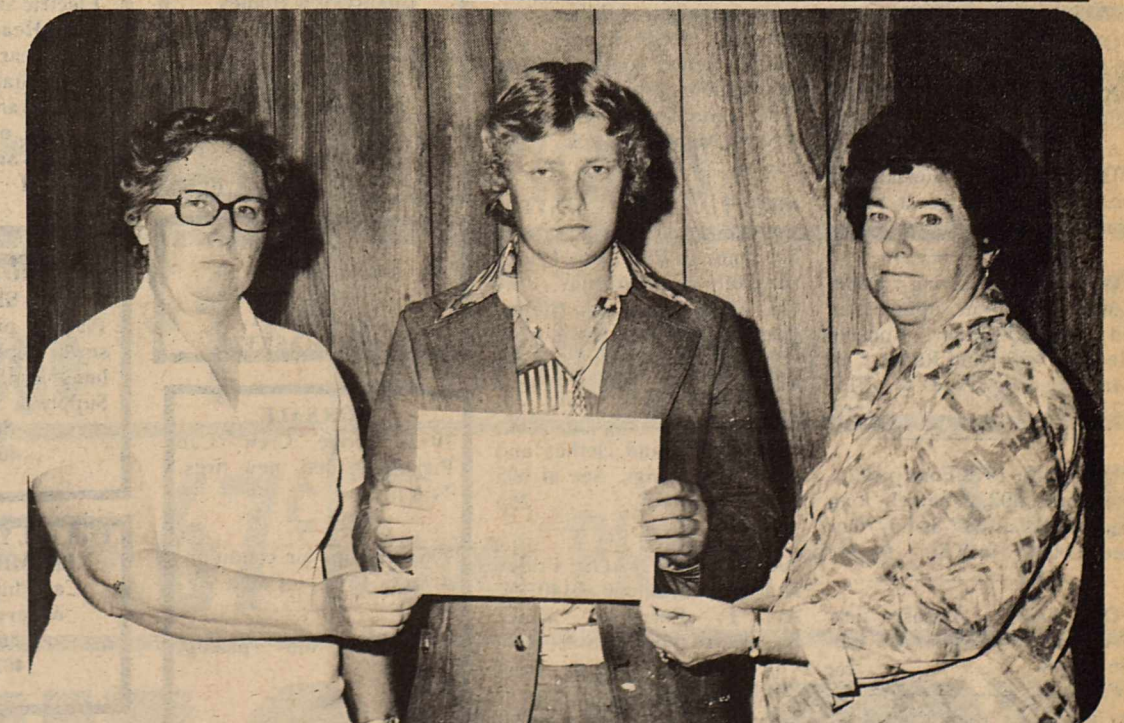

The theme "Fantasy Island" has been set for a party and dance at the Haskell Country Club. All members of the club and their out-of-town guests are cordially invited to attend the party on Saturday, July 1. It will begin at 9:00 p.m.

A variety of music will be played by "Glass," a five piece band from Abilene. "Glass" has also provided entertainment in several other local areas at the Abilene, San Angelo, and Breckenridge Country Clubs.

Hosts for the occasion will be the Gary Druesedows, Bill Perrys, and Bill Trammell.

WASHINGTON, D.C. -- THIS IS THE SEASON WHICH GIVES US THE PLEASURE of having many visitors in the Capital. Thus far, we have had groups of Future Farmers of America,

Hermann Sons To Host Visitor

Louis Engelke of San Antonio, grand president of the Order of the Sons of Hermann in Texas, will be the special guest Sunday (July 2) of Old Glory Hermann Sons Lodge No. 228 at the lodge's annual July picnic and dance.

Beginning at 2 p.m., the special event will be held at the Old Glory Lodge Hall, Louis Spitzer, lodge president, announced.

While there, Engelke will give a brief address concerning fraternal activities of the statewide order.

This year the Grand Lodge in San Antonio initiated a new program to strengthen family life and sent guidelines to lodge presidents to develop local family-oriented programs. The movement, part of a nationwide effort of the National Fraternal Congress of America, is designed "to nourish wholesome home life through the sponsorship of activities involving entire families on a scheduled and continuing basis," Engelke said.

"Old Glory Lodge's annual picnic and dance are good examples," he added.

Chartered in 1908, Old Glory Lodge now has 431 adult and junior members. Lodge membership representatives are Marchel Nauert and Clarence Teichelman.

4-H Clubs, trips sponsored by the REA, a Senior Citizens group and many families and individuals. It is nice to have people from back home and try to do the little things which make their visit here to Washington as enjoyable as possible.

THERE ARE OTHER SIGNS OF THE SEASON all around us things particularly which identify the tourists are not just the State tag on their automobile. Everywhere on the streets and highways they can be identified. Some proof of the visiting citizen to his Nation's Capital can be seen by watching the driver who is trying to manipulate circles, underpasses and overpasses.

The car can be any age or condition. One of the easiest identifying factors are roof racks, some with baggage and even canoes. Fishing poles and a bicycle are not common to the long-distance tourist and this rig can usually be identified with the locals going to the Blue Ridge Mountains or Chesapeake Bay. They are definitely different from those

coming from the other direction.

A JAUNTILY FLAPPING TARP, flattened by rope or elastic bands over the kind of swaying mound, can be compared to something like a camel caravan in the Sahara. A line-up of passengers which include children with coloring books in their laps are an absolute give-away. Children fighting over cookies, with or without coloring books, are also highly suggestive.

A DOG--ANY BREED-- looking out a back window with an expression of self-satisfaction is a sure sign. Even some bring their cats. He or she can be seen staring doomfully out of a basket on a pile of blankets.

IN SOME CASES' NO MATTER HOW MANY PASSENGERS OR HOW FEW, there is oftentimes a tunnel of openness between the front seat and the rear window. If a clue is needed that the travelers are going farther North into cooler climes, it may be had from the number of duffel bags, suitcases,

sweaters and other paraphernalia that takes up the rest of the space in the car.

PARKING IS A PROBLEM IN ANY CITY but it seems to be an especially serious one in Washington. There just seems no way to keep up with the need for more places to leave the automobile. All sorts of ideas are continuously proposed to provide parking

space around the U.S. Capitol. It is pretty obvious that if such a convenience could be provided for visitors, it would have to be upstairs or below the ground. There just isn't anything left otherwise.

THE VISITORS EITHER HAVE TO LEAVE THEIR CARS where they are staying, get a bus or taxicab to the Capitol or else they may have

to park several blocks away. The walk in midsummer humidity is not always the best. In addition, if there is clothing hung in the car or baggage, it may not be there upon their return.

ANYWAY, IT'S NICE TO HAVE VISITORS FROM-HOME we look forward to more as the vacation season goes on.

Forever has a different meaning for different people, but all of us accept forever as "a long time." This is especially true in terms of wasted energy — once it's gone, it's gone forever. West Texas Utilities Company urges everyone to use all forms of energy as wisely and efficiently as possible. Make sure your home is properly insulated and weatherized; turn off unnecessary lights and appliances; and keep a careful check on the thermostat setting.

Just remember, wasted energy is lost forever — and forever is a long time.

Her bouquet was a cascade of gardenias, pink rose buds and stephanotis.

A reception hosted by the bride's parents was held in the Church Fellowship Hall. Mrs. Ken Lane was pianist for the reception.

The bride's table was covered with an ivory cloth of silk and edged with lace. Centering the table was a silver and crystal candelabra with rose colored candles and a floral arrangement of pink carnations and white mums. The three tiered cake was pale pink and covered with darker rose apple blossoms. Appointments were silver and crystal.

Significant changes are on the horizon for researchers working on agricultural projects. Underlying factor for these changes is the growing consensus among scientists that current research with its aims at yield increases through better fertilization and cultivation technique may be nearing its peak. In short, there is a growing feeling that we are reaching the stage of making a plant produce all that is possible. That's the reason for the change in direction. Scientists are now beginning to experiment on changes in the biological potential of plants. Basic changes in photosynthesis are being considered. Methods of limiting a plant's respiration are under study and the strange yield increases of some plants when exposed to carbon dioxide are being examined. In short, the new direction for research involves changing the plant itself in ways which could develop new and much greater yield increases.

American Ag News

By Betty McBroom
Last Friday morning at 7:20 a.m. fifteen Haskell County AAM supporters plus J.T. Smith and Billy Adams of the Abilene Reporter News left Haskell for the journey to Fort Worth to join some 1,000 other AAM supporters. There were approximately 50 horses and riders that sauntered down the streets of Fort Worth and around the Fort Worth Convention Center. However, they were kept some distance away as President Carter arrived and departed the Center.

We were standing at the entrance where we thought Mr. Carter would enter, but instead we caught a slight glimpse of him as his motorcade came down the street and around the corner at approximately 30 miles an hour. One lady standing in the crowd said, "That's not fair. I have been here for two hours waiting to see the President." A farmer turned to her and said, "Do you know of anything the government does that is fair?"

There were very few on the side of the Center that we were on that waved to the President as he passed. However, there were many 'boos' from the crowd of protesters. Of course the President was in a bullet proof car and smiled as if to say "Thank You for your Support."

In marching and carrying my sign I felt as if the people standing in line to go into the Center to the dinner were looking down on us and feeling as if the farmers and ranchers were getting all they deserved for their products. But as we began to talk to the people in line we soon found out that most of them had been given tickets and told to go, although some did buy their own tickets because they wanted to go. The personnel at the base were given tickets and told to go in suits and not their dress uniforms. The Labor Unions and businesses were asked to buy tickets in bulk and give them all away. The people behind the dinner wanted to assure a full house.

One man told us he had a ticket that he could not give away. It is sad when the President of the United States comes to your town and the people are so displeased with him or unconcerned about what he is doing that a full house has to be bought. However, there was not a full house. There were some 500-1,000 empty seats and the tickets were just \$7.00.

As time came for the people to go into the dinner it was I who was feeling sorry for the people that had been paid or bought off, or maybe forced is a better word into going. Had AAM known there were tickets available, we would have gone to the dinner to hear President Carter tell us that things in agriculture are better now since he signed the best farm bill that had ever been signed and that the prices are up considerably

over last year, and especially the cattle prices that are up 40%. This is what makes our blood boil when you know for a fact that he is not telling it like it is.

We returned to Haskell satisfied in knowing that we had carried our signs and shown that we were unhappy with the way the administration has and is treating us. Also, there were several people who were truly interested in what we had to say and asked us many questions. It was hard for them to believe some of the things we told them, because all they have heard are the distorted facts that have come out through their news media. And, people have a tendency to believe what comes out from the government without ever questioning the fact that it may not be true.

Who Is The Sickest?

BY AUBREY HEADSTREAM

Some one ask me several weeks ago who was the sickest person I ever met and my reply was "The person that denies that they are sick." Denial is the sickest that any one can ever get, and the heart break of this sickness is they will never know what it is to be well. The most common of this is alcoholics. "I can stop drinking any time I want to," is the famous saying, but the truth is they can not stop drinking and the denial is what will keep them from ever getting well.

Denial cost an uncle of mine his right foot. There was a spot coming up on the bottom, he said it was nothing, just a stone bruise. Three months later the good Doctors took his foot off. Denial is sick. A sickness that is cured only by facing facts. My uncle was told by several members of the family that the spot could be more than a bruise. It was to late when he faced facts.

Many many times parents deny that their child is retarded or has brain damage, or emotional disorder, or addicted to drugs, yes even

acting out by social behavior. They postpone seeking professional help-sometimes until it is far to late. "He'll grow out of it," is a common reply. Many times by waiting the therapist or teacher has to spend a lot of time unteaching unwanted behavior before proper behavior can be taught. The term "Slow learner" seems to be a sin and parents in their denial that their child is a slow learner bring actuation toward teachers and therapists that are unjust. "The teachers just don't know how to teach anything these days," is an opinion heard, and a key to tell you that there is a possible chance the parents are not facing facts about their child.

Denial of mental illness bring much heart ache to families, even death, for when facing facts and seeking help would have been the proper answer. From denial a person following this type of behavior now has to set up delusion types of behavior, so he can believe that people around him won't find out he has denied the facts. A drunk will say, "I've got my whiskey hid in the tool box of my pickup so my wife won't know I drink." Parents say, "We'll just keep the child at home, people then won't know he's retarded." The reason you think you are getting away with the delusion is that

people just don't say anything to you about it. Every one knows - they just don't talk about it in front of you.

Then when you deny the facts, and get your delusional pattern set up then comes delirious behavior. Let us use an alcoholic here for our example. If you are drinking heavy you withdraw - stay alone - because you tell yourself you don't want to associate with them hypocrites you then quit your job because you tell yourself your boss is crooked. Then you quit your wife because she nags you all the time. Then hating the law because they put you in jail and it wasn't your fault that you were weaving down the wrong side of the road in your car, you explained the doctor had just changed your high blood pressure pills. Then the banker cheated you out of your car. The loan company out of your house. The dog bit you because you tried to untie a knot in his tail. The package store cuts your credit off and no one will take a check. "I don't know what this world is coming to! I told God last night in my prayers-just burn the whole thing up-me included-wasn't worth saving anyhow. This my friend - is Sick.

Oil filters

Changing your car's oil yourself is a great money-saver. But be sure to do the job right! Change the oil filter at each oil change. If you don't, all you're doing is leaving a quart of dirty oil in the old filter to mix with the fresh oil. It just doesn't make any sense to skip the filter. A fresh, functioning filter is essential to your car's engine. It traps all of the sediment and abrasive particles that can cause early engine death.

After all, you wouldn't put muddy clothes back on after taking a shower, would you? Well, your car's engine certainly doesn't want to keep that dirty filter either. Change it with the oil and have total peace of mind.
