

Tribe Wins Bi-District, 16-13

BY DON COMEDY

A last minute 18 yard field goal by Indian Vonnie Hise gave the Tribe a 16-13 victory over the Hamlin Pied Pipers and the opportunity to face Iraan in the Regional game.

The Tribe scored in the first and second quarters and Hamlin scored in the second and fourth quarters. Both teams missed one PAT and with 60 seconds left Hise, who had missed the Tribe extra

point, booted the field goal which was two yards closer than the extra point try. The field goal was made possible four plays after some fancy ball handling in the backfield and a 47 yard

pass from Mark Wallace to Steve Escobedo. The third and ten pass moved the ball to the nine yard line and the next three plays moved the ball to the one. Haskell scored first with

2:30 left in the first quarter on a four yard run by Jim Harris. Harris had recovered a Hamlin fumble on the 26 yard line and the Tribe marched the ball 74 yards in nine plays.

The Tribe scored again with 6:50 left in the first half and the PAT failed giving the Tribe a 13-0 lead. The score was set up after Wallace recovered a fumble at mid-field. Harris connected with Browning for a 36 yard pass and Wallace scored from the nine.

With 1:30 left in the first half, Hamlin scored and the PAT failed making the half-time score, 13-6.

Neither team could get things going in the third quarter. Both teams lost the ball once on fumbles and both were forced to punt twice. Richard Amaro recovered the Hamlin fumble.

Early in the final period, Hamlin mounted a drive to the 21 yard line and an attempted

field goal was wide from that point.

The Tribe gained three yards on their next possession and were forced to punt. Hamlin marched the ball 55 yards in six plays to score. The final Hamlin score occurred with 4:05 left in the game.

Following the score, the Hamlin coach called time out and conferred with the game officials and was told that Hamlin was ahead on penetrations. The coach made the decision to go for the extra point and a tie rather than trying for two. The kick was good and forced the Tribe to score if their hopes to compete for the regional title were to become a reality.

Hise kicked the winning field goal on the Tribes next possession. A Hamlin fumble on the Kick-off return was recovered by Giles Kemp to stop any further hopes of another Hamlin score.

The Tribe will meet undefeated Iraan this Friday night at 7:30 p.m. in Bobcat Stadium in San Angelo.

Iraan has an 11-0 record and is a very big team. The offensive line averages about 190 and the defensive line averages about 210.

The team passes about 20% of the time and runs the ball

straight at their opponents gaining three to four yards per carry. They play a straight five defense without much stunting.

The Haskell coaching staff has scouted the team and have viewed films of two games.

Iraan defeated Scagraves, 10-0 last Friday night to earn their post in the regional contest.

Buses with the Indians will leave at about 2:30 Friday and the team will eat following the game at John Zenter's Daughters across the street from the stadium.

Jr. High Teams Open Basketball

The Haskell Warriors and Junior High Maidens played their second games of the season Monday night. The Maidens traveled to Seymour where they lost all three games. The 7th grade lost by a score of 27-11, the 8th by a tally of 24-12, and the 9th to the tune of 28-13.

The Warriors hosted Seymour at Indian gym. The 7th grade boys won by a score of 30-29 while the 8th graders lost by a score of 32-16, and the 9th graders lost by a score of 42-24. The 7th grade girls now have a season record of 1 and 1, while the 8th graders are also 1-1. The 9th grade girls are 0-2. Both, the 7th and 8th grade boys now have a season record of 1-1 while the 9th grade boys are 0-2.

This Monday, the Warriors will host Albany while the 3 girls' teams will travel to Albany. The 7th grade games will start at 5:00 at both places, followed by the 8th grade games and then the 9th grade games.

VICTORY IN THE MAKING...Indian Vonnie Hise (33) is shown kicking an 18 yard field goal with 60 seconds left in the game to give the Haskell Indians a 16-13 win over the Hamlin Pied Pipers last Friday. Hamlin had scored about three minutes earlier making the

score 13-12 and after finding out that his team was ahead 4-2 on penetrations, the Hamlin coach elected to go for the tie. Following the field goal, Hamlin fumbled on the kick-off return and the Tribe held the ball until time ran out. (Photo by Charles Thornhill)

City Council Rejects TV Cable Rate Increase

Members of the Haskell City Council voted Tuesday night not to allow a requested rate increase by Cen-Tex Cablevision.

Cablevision manager Jerry Smith told the Free Press Wednesday morning that the requested increase of 75c per month is the first increase requested in four years. He added that the increase would amount to about 2.5% per year which does not meet the present rate of inflation.

Smith also said that at the present time he did not know what the company would do concerning the refusal of the increase.

During the Council meeting, members questioned Smith about the possibility of adding another channel and were told that channel 4 would be added at a cost of about \$900.00 per month. This figure would represent approximately one dollar per

month increase for each subscriber in Haskell. He also said that the cable subscribers are increasing slowly and that as soon as the total reached a point where it was possible, the company would add additional channels but the requested increase was to meet current increasing costs and not to expand.

In other Council action, Randy Randolph and Dan Shipley, employees of the West Central Texas Council of Governments, explained a 50-50 matching grant program. The grant, if approved, would provide for about \$142,000.00 improvements of the City Park. The City would be responsible for one-half of the cost but would be allowed to include labor and services as a portion of their share. The council will hold a public hearing on the proposed application at the next meeting, December 12. Deadline

for applications is January 1, 1979.

Council members accepted the low bid of Jones County Fence Company in the amount of \$3,155.00 for a new fence around the City Park. The fence will be provided with flood disaster funds. McGee-Tidrow Builders Supply also submitted a bid.

Lots seven and eight of block eight of the Brown and Roberts addition were sold to Haskell Coop Gin for payment of taxes. City taxes on the property amounted to \$664.70. The gin will also be required to pay any other taxes against the property and provide all legal fees in the transaction.

VOLUME NINETY-TWO HASKELL, TEXAS, 79521, THURSDAY, NOVEMBER 30, 1978 NUMBER FORTY-EIGHT

NEW CHRISTMAS DECORATIONS in the City of Haskell were turned on last Thursday night. The decorations were purchased with donations and funds raised by the Haskell County Jaycees and Jaycee-ettes. Jaycee President expressed his thanks to all who donated to make the decorations a reality. A total of 48 fixtures were installed at a total cost of about \$9,260.00. Thornhill expressed a special thanks to West Texas Utilities and Wayne Wainscott and J.C. Short for their assistance in installing the wiring. Jaycee Ricky Lee Andress was project chairman for the erection of the decorations. The project was a joint venture of the Jaycees, Jaycee-ettes, Haskell Chamber of Commerce and the Retail Trade Committee. Approximately \$300.00 is still needed to complete paying for the decorations and wiring. (Staff Photos)

Goodfellows Project Underway
The Haskell Lions Club will sponsor the Goodfellows project in Haskell again this year according to Darold Roberson, club president.

Roberson and J.C. Yeary will serve as co-chairmen of the project. Funds collected from the project will help provide a happier holiday season for the less fortunate families in the Haskell area. The annual drive is aimed solely toward helping those in the immediate area who are unable to provide a Christmas for their families. Food, candy and toys will be distributed by the Goodfellows on December 23.

Jaycees Set Toy Bowl Tonight
Football will fill the air Thursday night, Nov. 30 as the Haskell County Jaycees meet the Seymour Jaycees in a headup game of Flag Football. The game will be held at Indian Stadium in Haskell beginning at 7 p.m.

This event, held for the first time this year, will be used to raise money and toys for underprivileged youth in Haskell County, with the proceeds going to the Goodfellow fund in Haskell and to various organizations in the county to be distributed to them as the need is seen.

This will be the 3rd game played by the Haskell Jaycees this fall, and the Jaycees, although still seeking their first victory, feel confident of victory Thursday night.

Haskell County Jaycee-ettes will have concessions available, with plenty of good food and drinks. Admission to the game will be either a toy or cash donation at the gate. In the game played at Rule, \$70.00 and 2 large boxes of toys were gathered for use at Christmas time.

Chairman Bill Cox, head quarterback, invites everybody out to see this game, bring a toy and have a super time while giving a kid a toy for Christmas.

Rochester 4-H. Dress Revue: Mindy Wilcox, Rule 4-H and Gena Fischer, Paint Creek.

The Foley Gift Award is presented each year to a 4-H member that has excelled in the Food and Nutrition Project. The recipient this year was Sonja Tidrow, who won a blue ribbon at the State Food Show.

Adult Leaders that were recognized were: Mr. Howard Hopkins, Mrs. Howard Hopkins, Mrs. Gene Fischer, Mrs. Mike Wilcox, Mrs. John Greeson, Mrs. Donna Chambers, Mrs. Maxine Hannsz, Mr. Clifford Thomas, Mrs. R.B. American Ag News

For some time now I have been thinking of a way to introduce the Trilateral Commission to you through this column. In the November 28, 1978 issue (it came a couple of days early) of the AMERICAN AGRICULTURE NEWS, appeared the following article by James A. King, Dumont, Texas. He states what we have found out in part in our fight for better prices for our products as farmers and ranchers.

Do Americans want a ONE WORLD GOVERNMENT? Do Texans want a ONE WORLD GOVERNMENT? Some must because they aren't doing anything about it. Some of us only make excuses, but

making excuses doesn't change the truth.

Who is pushing so hard for a one world government? The answer is the Trilateral Commission. What would a one world government be like? One thing is for sure. It will not be a free capitalist government. It will either be communist or a dictatorship controlled by the Trilateral Commission. The Trilateral Commission says that a one world government will be a socialist-type government, but is socialism free government?

What is the Trilateral Commission? It is an organization consisting of the most powerful, richest, and influential people of North America, Japan and Europe. Probably the most powerful single member is David Rockefeller, President of Chase-Manhattan Bank of New York. The Trilateralist goal is a one world government with a one world money.

When their mission arrives, there will be a large group of slaves and a small group of rich world dictators. The Trilateral aim or hope for one world takeover is from 1984-1989. That is only 6 to 11 years

from now.

When and where did the Trilateral Commission come from? When did their plan take place? This one world government was not a fast takeover plot. It was planned generation through generation. The plot first reached the United States in the early 1900's. The Council of Foreign Relations was formed in the 1920's to help make the United States a part toward a one world government. The Trilateral Commission was organized in 1973, from the Council of Foreign Relations.

The Trilateral Commission's first goal was to speed up the original plot and they are doing just that. For them to control all the government in the world, they have to control all the people of those governments. To do this they have to control the money, the economy and the food! I believe they pretty well control most economics and they have all the money. How can they control the food? Easy-break the farmers, or in other words, the American farmer. That is why there is no longer 100% parity. There was 100% parity in the 1940's. In the years 1949, 1950 and 1951 parity was 100%, 101% and 107%. I always remember my daddy said that those years were his best as a farmer. Everyone in this area remembers 1973 as a good year for farmers.

In 1973, parity was 91%. In 1977 parity was 64%, the lowest since the depression years.

This is where the American Agriculture Movement enters. We are trying to accomplish several things. We need 100%

parity to help save us, our families, our farms, our communities, and our country. We want to keep America free. Do you? The American Agriculture Movement needs all the help we can get. Please don't ignore anything you read about one world power, one world government,

world order, or even human rights. Does any of this sound familiar?

Freedom rests, and always will, on individual responsibility, individual integrity, individual effort, individual courage, and individual religious faith. James A. King

Dependents Benefits From SSI

Divorced wives, widows and husbands who were married ten consecutive years before their divorce may be eligible for social security benefits on the records of their former spouses beginning January 1, 1979. Recent changes to the social security law reduced the duration of marriage require-

ment from 20 to 10 years. The law has also been expanded to include divorced husbands.

Retirement-age divorced persons who are married now and whose former spouses are retired, disabled or deceased should contact the nearest social security office to see if

they might be eligible to a higher benefit on that record.

Proof of age, marriage and divorce are needed. There are no retroactive benefits payable before age 65, so a delay in filing an application could result in loss of some benefits for persons under age 65.

Touch Calling now available in most areas.

Tips For Making Holiday Season Safe And Happy

When we think of the Holiday Season, all the joy of this time comes to mind: the sharing of gifts, excitement of children, and the beauty of a brightly ornamented tree.

Many families however, have somewhat grimmer Holiday memories-brought on by just one unsafe act which caused a needless, tragic accident.

To help you have a safe Holiday Season with good pleasant memories your County Extension Home Economist offers the following tips:

- Purchase only UL Listed light strings. For outdoor use, only weather proof cords and lighting should be used. The UL Label will indicate light strings suitable for outdoor use.

- Check all lights carefully. Make sure bulbs are not loose in their sockets. Use rubber light socket gaskets and replace if needed.

- Selection of a tree, whether natural or artificial is a crucial matter. Artificial trees should be labeled flame resistant. Never put light strings on a metal tree - this is a shock hazard - use only spot lighting. Natural trees should be fresh - deep green, strong scent, no falling needles and

B&PW Club Holds Thanksgiving Dinner

The Business & Professional Women's Club held their annual Thanksgiving dinner Tuesday night, November 21 at Lacey's Steak House. Nettie McCollum gave the club collect.

Novella Rastetter introduced the guest speaker, Rev. James Putnam, pastor of the First United Methodist Church. He took his program from Psalms 103. He stressed 'Tis the season to be thankful. He challenged the group to recognize their blessings and to give thanks to God. God is the same yesterday, today and tomorrow.

The tables were attractively decorated with center pieces and place cards using the Thanksgiving theme. Hostesses for the dinner were the Legislation and World Affairs Committee, Edna Mae Lyles, Ozelle Frierson, Opal Adkins and Fadwa Hassen.

Guests for the occasion were Mrs. James Putnam and Mrs. J.C. Short, both of Haskell, Jeanette Montgomery of California and Marquiere Jordan of San Antonio.

The club's next meeting will be a dinner meeting with Georgeen Meadors on December 5. She will bring a Christmas story.

Special Group To Appear At Assembly Of God

Now touring for their fifth year is the Maranatha Repertoire Company, a group of talented actors and musicians, all students at Southwestern Assemblies of God College located in the greater Dallas-Fort Worth metropolis. These young people have performed in over 600 (six hundred) auditoriums camps, churches, civic centers, conventions, parks and youth rallies throughout the United States, Europe and Canada.

Director and originator of the repertoire is Dennis Whaley, instructor in speech and drama, whose academic credentials include Southwestern, ORU, and Evangel College.

Maranatha has just recorded their first longplay album entitled "Yours in Christ-Mar-an-a-th-a". They were privileged to receive the one-act play superior rating in 1977 in the Texas Junior College Speech and Theatre Association. Because of this, they presented their musical-drama abroad in various conferences, churches, and video ministries throughout the world. Each and every member of the family is cordially invited to attend this thrilling experience.

They will be appearing at First Assembly of God on Sat., Dec. 2, 7:30 p.m., Sun., Dec. 3, 11:00 a.m. J.C. Amburn, Pastor, invites everyone.

Nursing Clinic Scheduled December 7

WTU To Conduct Survey

West Texas Utilities Co. within the next few weeks will install special meters and recorders for about 350 customers as it initiates a comprehensive study of electric usage patterns in its service area.

The 350 customers comprise a random sample chosen by computer from throughout the WTU system. Only residential and small commercial customers are included.

"These are the two classes of customers we know very little about, so far as their electric demand habits are concerned," said Darwin Breeding, manager of WTU's Rate and Regulations Department.

Breeding emphasized that the information provided by the special recording devices will have no effect on the individual customer's electric bill, but will provide valuable information about the entire system which eventually could benefit all customers.

"This data will improve our decision making," he said, "especially in rate structuring, marketing, engineering analysis, and corporate and systems planning."

Probably the most important use of the research results will be in electric load analysis for future rate structuring.

Breeding said President Carter's new Energy Act had made it "absolutely mandatory" that utility companies take the initiative to form load research programs that will provide accurate data for future rate issues as well as information to be utilized in the regulatory process. However, WTU's plans were underway before the Energy Act was passed.

State regulatory bodies, including the Public Utility Commission of Texas, also are requiring load research data from electric companies.

The first step in WTU's

program will be to make personal contact with each of the 350 customers and to have them fill out questionnaires. The questionnaires will be administered by personnel from WTU's Customer Technical Services Department, headed by Bill Baxter. The questions will concern such basic facts as size of house, type and number of electric appliances, amount of ceiling insulation, and number of persons in the family.

The special equipment then will be installed at the site of the old meter, and the information recorded by magnetic tapes will provide specific details on electric demand by each customer.

"With the information from

the questionnaires and the accurate load data from the tapes, we'll have a better knowledge of our customer's electric use patterns," Breeding said. "It's possible that we can use this information to improve the utilization of our generation and transmission facilities, and this could be beneficial to all customers."

"For one thing, it will enable us to better define the loads that cause our system peak demands," he said. "This can help us decide such things as the feasibility of time-of-day rates for these customer classes."

Time-of-day rates for residential customers are under study by the Texas PUC, and already have been implement-

ed on a limited basis by some companies in the state.

The initial phase of the load research program will last at least a year, and the project likely will continue as a permanent program, involving different types of customer samples. Also initiating such programs are WTU's three sister companies in the Central and South System. The four companies are sharing computer facilities in order to reduce the cost of the operation.

Entry Deadline Is Jan. 1 For Miss Rodeo Texas Pageant

Contestants from over the state of Texas are entering the Miss Rodeo Texas and Miss Rodeo Texas 'Teen' Pageant, which is being held in San Antonio, Jan. 20th thru Jan. 24th. The pageant, which will be headquartered at the beautiful Oak Hills Motor Inn is expected to be the finest and largest pageant since the pageant began in 1955.

Prizes for the Miss Rodeo Texas winner now include a new Ford Pickup, donated for one year, by McCombs Ford of San Antonio. A beautiful two horse trailer is being donated for one year's use by Harris Western Stores of San Antonio. She will also receive a \$1,000.00 scholarship, a Nelson-Silvia gold and silver belt buckle designed for her, special designed chaps from The Rodeo Shop of Ft.

Worth, special designed spurs from Ed Sims Spur Co. of Uvalde and a hand made saddle donated by Luskey Western Store of Dallas. Many western outfits, including boots, hats and western suits will, also, be hers. Beside the winner traveling over the state of Texas to promote rodeo and the pageant, she will also receive an all expense paid trip to compete in the Miss Rodeo America Pageant which is held in conjunction with the PRCA National Rodeo Finals held in Okla. City, Okla.

The 'Teen' winner will receive a special designed saddle, a gold and silver belt buckle, donated by Royn's Western Wear of Ft. Worth, special chaps from the Rodeo Shop and spurs from Ed Sims. Along with the western attire,

she will receive a \$500.00 scholarship. The Miss Rodeo Texas 'Teen' will travel thru out the state to promote Youth Rodeo and the pageant.

Horses for this year's pageant are being furnished by the Alamo Breeders Quarter Horse Association. The pageant is being held in conjunction with the Western Week festivities which is prior to the San Antonio Stock Show and Rodeo. Co-Sponsoring the pageant is the North San Antonio Chamber of Commerce.

San Antonio is especially happy that the pageant has been moved to their city and welcomes each and every contestant with open arms. The city urges each girl that is between the ages of 13 and 24 to get their entries in as soon as possible. The deadline on entries is January 1st, 1979. Interested girls may write to the Miss Rodeo Texas Pageant, P.O. Box 906, Stephenville, Texas 76401 or call AC817-968-3600 or 968-2148 for information.

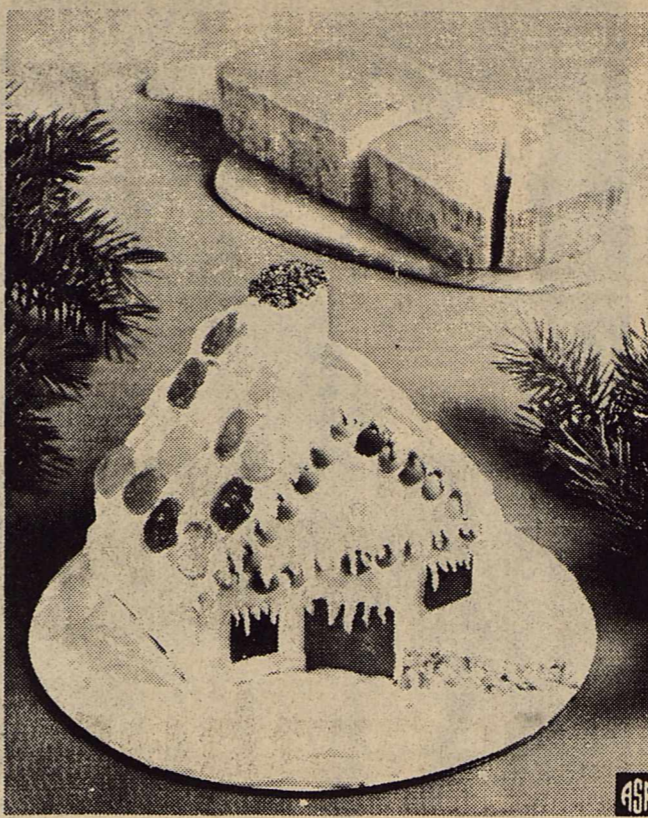

Ever since "Hansel and Gretel" was first read to toddlers in Germany early in the 1800's, gingerbread houses have been favorites among the younger set.

You remember the story. Two poor woodcutter's children are lured into the forest by an old witch who had built a gingerbread house and covered it with candy, cookies and icing. The story is as popular with children today as it was when it was first written. And those edible houses are just as popular, too.

All the charm and fantasy of this Christmas tradition is as easy as one-two-three when you use a Sara Lee Family-Size Pound Cake, a frosting mix and familiar candies and decorations.

Best of all, it is the type of project the whole family, including the littlest member, can have fun with. While you cut the cake, one of the children can mix the icing and another can cut the gumdrops. Everyone can help "shingle"

the roof, put on door, trim and windows. You might save the chimney-making job for your youngest, though

- you may have to steady the hand that places it on the roof.
- Sara Lee's Christmas Cottage
- 1 Frozen Sara Lee Family-Size Pound Cake
 - 1 package (7.2 oz.) fluffy white frosting mix
 - 12 large gumdrops, cut in thirds
 - Small round candies
 - 2 squares of milk chocolate bar
 - 1 small square cookie
 - 1 large marshmallow
 - Chocolate decorettes

roof, candies for trim, chocolate squares for windows and cookie for door. Form icicles, using cake decorator or a cone formed from waxed paper with the tip cut off. To make chimney, dip top and bottom of marshmallow in frosting, then dip top in chocolate decorettes. Place on roof. Makes 8-10 servings.

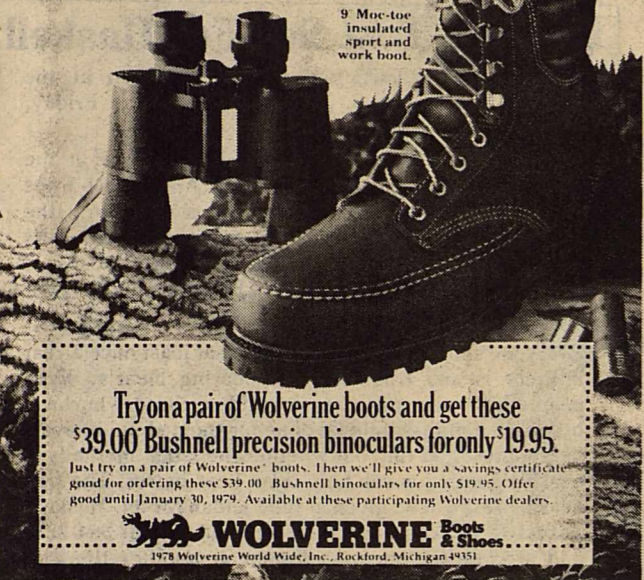

Cut frozen Pound Cake according to illustration "A." Prepare frosting according to package directions. Place roof pieces together, using frosting for "glue." Place roof on base according to illustration "B." Frost house, then decorate, using cut gumdrops to shingle

Apply Now For Summer Jobs

Congressman Omar Bursell (D-Tex) said today that the Civil Service Commission is now receiving applications for the 1979 competitive examination for summer employment with the United States Government. The examination, which includes a written test, applies to most Federal summer jobs in clerical and administrative positions, as well as in engineering and the physical and biological sciences, GS-1 through GS-4.

The Congressman urges applicants to file early to receive maximum consideration for employment because opportunities for summer employment are extremely limited.

Tests are scheduled locally by CSC area offices. Applicants who file with an area office by December 15 will be tested in January. Applications received after December 15 and postmarked no later than January 12, will be tested

in February. Any applications postmarked after January 12 will not be accepted.

Notification of when and where to report for the written test will be given about two weeks in advance.

Those candidates who took the test and qualified for summer employment in 1978 are not required to retake the test in 1979. The Civil Service Commission will communicate in writing with 1978 eligibles to determine their interest in applying for Group I jobs in 1979. Those eligibles who respond and indicate availability, will be issued a new notice of written test results to be used in applying for Group I jobs in 1979.

Complete instructions for filing for the written test and for renewing eligibility, along with all necessary forms, are included in the CSC announcement No. 414, Summer Jobs in Federal Agencies, which may be obtained upon request through Congressman Bursell's Washington office, 2369 Rayburn House Office Building, Washington, D.C. 20515, or from Federal Job Information Centers, most college placement offices, or from the Civil Service Commission, Washington, D.C. 20415. The nearest Job Information Center is listed in most local telephone directories under "U.S. Government," or the toll-free distance telephone number in Texas can be obtained by calling 800-555-1212.

The U.S. Postal Service is not participating in the 1979 summer employment program. Inquiries regarding summer employment in the Postal Service should be directed to the post office where employment is desired.

Food Stamp Program To Change

Primary wage-earners who quit their jobs without good cause would find their families ineligible for food stamps for two months under a proposal made today by Assistant Secretary of Agriculture Carol Tucker Foreman.

"The proposed regulation will ensure that an able-bodied head of household cannot quit a job in order to start receiving food stamps," Foreman said. The proposal implements a provision of the Food Stamp Act of 1977.

Foreman said that the new rule is consistent with the desire of the administration and of Congress to assure that those not in need of food stamps not receive them while doing more to get stamps to those who truly are in need, such as the elderly and the working poor.

The proposed rule is scheduled to appear in today's Federal Register. Comments should be sent to Food and Nutrition Service, U.S. Department of Agriculture, Washington, D.C. 20250. Deadline to receive comments is Dec. 21.

USDA Soil Conservation Service
Assisting
Haskell Soil and Water
Conservation District

Back in May and June of this year, meetings were held throughout Texas for public hearings on the Resource Conservation Act. The people of Haskell County, in their meeting decided that the number one resource concern in the Haskell Soil and Water Conservation District was that of soil erosion by both wind and water.

The ability of our farmers and ranchers to continue to produce adequate food and fiber appears to be the number one natural resource concern expressed throughout all of Texas according to a report received this week from George C. Marks, State Conservationist, Soil Conservation Service, Texas. Soil erosion by water, deterioration of rangeland, shortage of municipal and rural water supplies, and irrigation water management were listed by some 8,500 Texans in a series of 377 public meetings as being the top needs.

These meetings were sponsored by local soil and water conservation districts and the Soil Conservation Service throughout Texas and the

United States last spring.

Other statewide concerns according to Marks' report indicated that flooding, loss of rural lands to urban sprawl, rural development, increased demand for recreational facilities, and loss of wildlife habitat were of vital concern to most Texans.

The public input from Texas, according to Marks, have been forwarded to Washington where they will be combined with responses from other states. National concerns will be announced in 1979. At that time, the public will again be asked to help SCS and conservation districts decide what conservation programs should be used to solve local concerns.

A national conservation program will then be presented to President Carter to concentrate on the Nation's top natural resource concerns on a priority basis.

Keep us posted as to your concerns and problems so that we will be in a better position to meet the future needs on a local basis.

TIPS ON TAKING TESTS

DO have a written study schedule so you'll know how much time you have to spend on each activity.

DO review regularly, not just when exams are scheduled.

DO make reviewing an active process. Study class notes, skim textbook material, relate major topics to the total subject.

DON'T wait for inspiration to strike before studying and reviewing.

DON'T wait until the teacher assigns a test before you start preparing for it.

DON'T cram for exams. This may only mix you up on what you've already learned. It may also cause you to hate and fear all tests.

Remember, tests can be useful tools to show how well you are doing in school subjects, to help you learn the areas you may need improvement. Tests can also reveal your general strengths and weaknesses and are therefore useful in helping you plan your future schooling and also your entire life.

Teachers care about kids. Help them. Get involved in your school.

Lone Star Gas has already laid the groundwork for your energy future.

The jobs of more than 100,000 Texans employed in plants served by Lone Star depend on gas for heat processing or as a product ingredient. Long-term gas supplies are needed to preserve existing jobs, create new ones, and meet the requirements of our residential customers. Fortunately, Lone Star is in an excellent position to continue energizing our area's economy.

Lone Star has an 11,400-mile gas gathering and transmission pipeline system that connects with basins estimated to contain 50% of the remaining onshore gas reserves in the United States.

This same network also enables Lone Star to accept gas deliveries from growing offshore production in the Gulf of Mexico.

No other gas company in Texas has a pipeline network as extensive or versatile as the one we've put together and constantly modernized during the 69 years Lone Star has been in business.

No other gas company in Texas has the built-in opportunity to buy gas as selectively, to bargain as well for the best prices on new gas, as Lone Star.

Our pipelines can have an important effect on your energy future, because it's here where Lone Star is strongest that gas companies from

across America will be shopping hard for new gas reserves.

Here's your key to the energy storehouse.

We fully understand the efforts of other gas utilities and transmission companies to get new gas supplies. Their areas also want this most economical of fuels for industrial use.

Nevertheless, Lone Star's obligation is to the million-plus residential, commercial and industrial customers who depend on us to meet their energy needs in the decades ahead.

We're determined to meet our obligation in full by getting our area's fair share of new gas reserves as they enter the market in volumes large enough to be handled economically.

It can be done because of Lone Star's pipeline system.

Our gathering system goes into areas where other gas companies haven't begun to build. Our far-reaching transmission network gives us excellent capabilities. Our underground storage system often lets us take deliveries when many companies cannot.

All we need to buy the gas you'll need in the decades ahead is your understanding that we must recover the actual cost of the new gas we buy.

Give us that, and we'll deliver you the best gas bargains that money can buy. But the longer we wait, the more expensive the bargains will be. And we're eager to get on with the job.

Lone Star Gas Company

We're working energetically for your area's future.

Maximum VA Home Loans Up

An increase from \$17,500 to \$25,000 as the maximum guaranty for Veterans Administration home loans is one of several important features of the "Veterans Housing Benefits Act of 1978," according to Jack Coker, Director of the Waco VA Regional Office.

The legislation, which was signed on October 18, by President Carter, also permits certain disabled veterans to obtain a VA grant of up to \$30,000 to buy or adapt a residence to meet their special needs, Coker said.

VA grants for these so-called "wheelchair homes" were formerly limited to \$25,000.

Coker pointed out that the new bill should be of special benefit to an estimated 168,000 Vietnam Era veterans because it reduces the length of active duty service required for eligibility for VA home, condominium or mobile home loan guaranty benefits.

Vietnam Era veterans now need to have served only 90 days on active duty—one day

of which must have been during the period of August 5, 1964, to May 7, 1975—to be eligible for these VA benefits.

"The new law brings the eligibility requirements for Vietnam veterans in line with those for World War II and Korean Conflict veterans," Coker said.

In addition, the law authorizes VA to guarantee loans for converted condominiums as July 1, 1979. The agency currently is authorized to guarantee condominium loans in buildings constructed and sold as this type of dwelling.

Coker said another significant section of the legislation restructures VA's mobile home loan program—setting a \$17,500 loan maximum and extending the maximum loan term for single-wide mobile homes to 15 years, an increase of 36 months.

Coker said veterans may obtain complete details of the expanded loan guaranty program at any VA regional office.

ELEVEN YARD CATCH...Vonnie Hise leaps high for this pass which was good for an eleven yard gain in the first quarter last Friday night. Hise also kicked the field goal with

one minute left in the game which gave the Tribe a three point lead and the victory. The Tribe will meet the Iraan Braves this Friday in San Angelo Bobcat Stadium.

WTC Schedules Christmas Activities

Western Texas College invites area residents to an afternoon of special activities ushering in the Christmas season on December 3.

The activities will begin at 1 p.m. when Santa Claus arrives in the Scurry County Museum on the south side of the campus. The museum will open its third annual Old Fashioned Christmas exhibit with Santa's arrival, and visitors will be welcomed until 5 p.m. Special music will be provided by the WTC Choir directed by Jane Womack.

Also scheduled for 1 p.m. is the opening of the annual faculty art show in the Fine Arts gallery. Ceramics by Mike Thornton and paintings by Melvin Branch will be featured there. A reception is planned from 1-4 p.m. in the gallery.

At 2:45, a Christmas show

in the planetarium and a Christmas film in the science lecture hall may be enjoyed. The planetarium show and film will be repeated at 3:45 and 4:45.

There will be no admission charge for any of the activities.

WTC welcomes visitors to the campus during December to see the display of lights on the Christmas tree in the central courtyard. Choirs from Snyder public schools will present a program of Christmas music from 6:30-7:30 p.m. on Dec. 12 in the courtyard.

Visitors who need directions to the Fine Arts gallery, the planetarium and the science lecture hall may inquire at the information desk in the museum or follow the campus maps mounted on brick pedestals at entrances.

Most good farmers don't wait until planting time to buy Pioneer brand seed... not anymore.

The best farmers seem to think that having the seed with the greatest potential is too important to leave to chance. So ordering next year's seed as soon as they've seen this year's results is becoming a habit... practically a tradition.

Why? Because, when you compare Pioneer performance to brands that are always available and compare the advantages of ordering early to the disadvantages, you've got to pick up the phone and call this Pioneer dealer.

Congressman-Elect Stenholm Announces His Staff Choices

Congressman-elect Charles Stenholm of Stamford announced his choices to serve on his staff recently. He will be employing two West Texans along with several Washingtonians with West Texas ties in his Washington

D.C. office.

James Morgan, 30, De Leon attorney and farmer, will serve as Stenholm's legislative assistant in charge of agricultural affairs. Robert Dyer, 30-year-old rancher, of Cisco will serve as an aide concerned with energy-related matters. Stenholm remarked, "I am pleased to have these men going with me to Washington. They are young, hard-working, and will serve the people of the 17th District well."

Judith Curtis, formerly retiring Congressman Omar Burleson's Washington office manager, will be the new Congressman's Administrative Assistant. She joined Burleson's staff 22 years ago and has worked and traveled extensively throughout the district.

Carlton H. "Sonny" Lee, formerly of Snyder and now a student at American University in Washington, will be a part-time employee in the office. His studies and interests are in foreign affairs, and will concentrate primarily on foreign agricultural markets along with other duties. Ken Walter, son of Abilene Nancy Walter and also a former employee in the Burleson office, will be a legislative assistant.

"The District office of a congressman is his ears back to the people," Stenholm said, "Members of Congress must listen and be responsible to the people of their District."

Bill Longley, who was campaign manager for Stenholm, will be manager of the district office in Stamford. Dale King, Anson farmer who

worked in Burleson's district office, will be district representative and B.P. Cain III of Roscoe will serve as field representative. A travel schedule will be announced early next year for King and Cain as the needs of the district become evident.

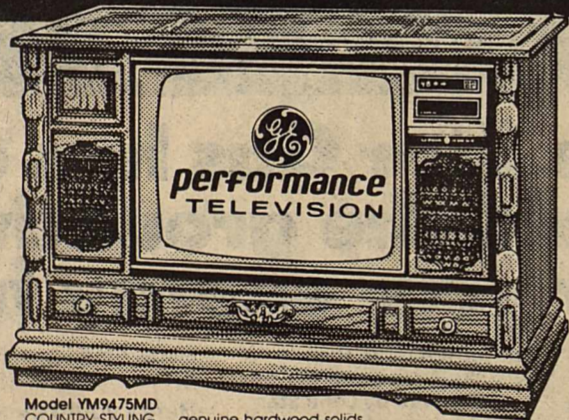

Elaine Talley, presently secretary in Burleson's Abilene office, will be in charge of

the Abilene branch office to be located in the Omar Burleson Federal Building.

"The congressional staff is extremely important in carrying out the work that must be done by a congressman," remarked Stenholm, "I am proud to have these people working with me to serve you, the people of the 17th District."

Discrimination

AUSTIN, Texas (Spl.) — A University of Texas sociologist believes persons who come to the U.S. from Latin American and Asian countries are more likely to be discriminated against because of their outward appearance than are Canadians or Europeans.

Dr. Dudley Poston, in a study he made of legal aliens who came to the U.S. between 1965 and 1970, found Latin Americans and Asians to have lower incomes and higher poverty rates.

For example, he reports that Canadian immigrants in the U.S. have a median family income of \$11,281 and a poverty rate of 7.1 per cent, compared with Mexican immigrants' \$5,354 median income and 32.3 per cent poverty rate.

If LACIE is the answer, then what is the question? Well... it might end up as the answer to "How can the government spend a lot of money?" or it could be the answer to "How can we accurately predict crop results without on-site inspection?" Scientists are hoping it answers the second question since, if so, planning for U.S. farmers could be greatly simplified. LACIE is the fast way of saying Large Area Crop Inventory Experiment. Purpose of the experiment is to determine better ways of obtaining information on growing crops by satellite surveillance. Specifically, the tests involve a special kind of "photography"... using instruments which measure the amounts and intensities of heat or light reflected from the land. Researchers say there is a good chance the new devices can become sophisticated enough to accurately report crop conditions not only in the United States, but from any place in the world.

The Thanksgiving holidays are over and hopefully everyone had their fill of Turkey and dressing. (Personally I do not see how anyone can stand the nasty stuff!) If not then you will get your chance again in less than one month. Christmas is just around the corner and I presume that Santa Clause is tuning up the old sleigh—or whatever you do to get the sleigh ready. It has been rumored (only a rumor) that Santa will pass over us this year. Let's hope he has a change of heart.

Coyote Harvesting Increases Cunning

Traditionally cast as a villain, the coyote stands condemned of killing cattle, sheep, goats, chickens and desirable wildlife. However, studies have shown that the coyote is an effective rodent and rabbit control which helps the landowner harvest and store more food and produce more meat for the table.

The abundance or scarcity of the coyote's natural food such as rabbits, rodents, and other prey determines how frequently a coyote will visit a chicken house or raid a sheep pen.

When times are hard, visits by the coyote may be often, but during times of high rabbit or rat populations, the coyote pays his way.

The coyote has been trapped, poisoned, shot, runover, chased and harassed for many years. While this attempt to eradicate the coyote has failed to reduce his numbers, it has reduced the old, weak and foolish from his ranks result-

ing in a swift and cunning animal producing more of their kind while expanding their range nationwide.

The coyote can add another determined hunter to the list of his pursuers as the price of coyote pelts continues to increase in value.

Hunting coyotes with sight dogs or trail dogs has been a sport for years, but the use of a predator call and an accurate rifle is relatively new spanning about the last 20 years.

The expense of handling, feeding and transporting hunting dogs has been a deterrent to the new coyote hunter while the cost of a predator call is within every hunters reach.

The coyote or predator call has improved over the years with many brands and varieties on the market. The new calls are not necessarily more effective, however.

Early predator hunters used converted duck calls or fashioned their own reeds to sound

like a rabbit in distress. The experienced predator caller is most successful when an area holding coyotes is found and scouted prior to the first call.

Ideal coyote country can be pastureland, river or creek bottoms, or even weed patches. Since the coyote hunts at night when the rodents are out feeding, it is hard for the predator hunter to find them at night.

Once an area is found, the hunter can pick a hill or mound overlooking a tract of land with cover and place himself along the side of the hill which breaks his outline.

Movement and sound are two things the coyote will notice first. Do not slam vehicle doors, talk, smoke or make quick movements in the potential calling area.

Once you are setup, call for several minutes while watching for movement in the area. Slowly move your head scan-

ning the trees, brush, weeds in front and behind you for a coyote slipping up on the "imaginary" rabbit.

The coyote has an uncanny ability to come long distances directly to your location. Whether you are hunting or photographing the coyote, be prepared before the coyote gets into range.

The sound of coyote(s)

howling, his diligent control of destructive rodents, and insects, and the sport an monetary value to the hunter help compensate for the damage he does.

Aside from being useful, the coyote is one of the few remaining symbols of a wild free, self-reliant breed that is not here on earth BECAUSE of man but IN SPITE of man.

CHRISTMAS Gift Ideas!

Shirts—Western in perma-press or quina nylon. Beautiful patterns and solids in snap or button. Dress shirts in neat prints or pastel solids. Perfect for that special occasion. Sport shirts in flannel, valour, or perma-press in pull over or button up. Perfect Christmas gifts.

Jeans—Denim flair, superb, or straightleg. We have the high styled jeans with the fancy stitching on the pockets. Perma-press in Wrangler or Levi. We have bedford cord for a tough work pant or hounds tooth check, solids, or denim perma-press for the everyday jean.

Try our Lay-A-Way Plan

Each week we will list some Christmas ideas which may help in finding just the right gift for that problem person on your list. Drop by.
