# DPS Urges Safe Holiday

The director of the Department of Public Safety today called on all holiday drivers to substantially improve their driving safety consciousness; otherwise, the Christmas and New Year's holiday periods may claim as many as 95 lives.

Colonel Jim Adams said "we realize the added dangers of traveling by motor vehicle during these holiday periods and we want to help avoid the tragedy and suffering which could mar this otherwise happy season."

Adams believes that "we don't have to continue suffering the spiraling traffic deaths if drivers use extreme caution in traveling on the streets and highways in Texas."

During the first 10 months of 1980 there were 356,896 motor vehicle accidents in Texas in which 153,099 persons suffered personal injuries. Adams said that in the comparable 1979 period, there were 372,448 accidents in

which 2,044 have been recorded in cities and towns with the remaining 1,811 occurring in rural areas.

Adams estimated that 58 persons would be killed in motor vehicle accidents during the Christmas holiday weekend and another 37 persons would be killed during the New Year holiday weekend. Both holiday periods are 102 hours long.

He said the Christmas count starts at 6 p.m. Wednesday, December 24 and continues until midnight, Sunday December 28. The New Year holiday count starts at 6 p.m. Wednesday, December 31 and ends at midnight, Sunday, January 4, 1981.

Adams said that during the Christmas holiday period last year 72 persons were killed in traffic and 43 were killed during the New Year holiday period.

"During both forthcoming

major holidays, our traveling public has an opportunity to take advantage of slower speeds while helping our law enforcement officers across Texas reduce the spiraling death toll. I would certainly urge all drivers to utilize only wise driving habits and caution while on the roadways. In so doing, our motorists would be in a better position to live to enjoy the full holidays," he added.

Adams also reminded motorists that many lives would be saved and serious injuries would be reduced during the crowded driving time through greater utilization of seat belts and other restraint devices.

All available DPS Troopers will be on duty throughout both holidays. They will be joining with local officers to place special emphasis on removing drunks and reckless drivers from city streets and highways.

"Obscene" is the only word to describe Jay Rockefeller's spending \$12 million to get re-elected as governor of West Virginia, and thus advance his presidential ambitions.

His dead uncle, Nelson, who plastered the Republic with scores of millions in his political career, would have blushed to hear the numbers in Jay's splurge. Jay spent \$31 for each of the 387,269 votes he got in defeating Arch Moore. No candidate for major office has spent more per vote than John D. Rockefeller IV, who insists on being called "Jay."

# Stenholm Looking Forward To 97th Congress

Congressman Charles W. Stenholm called the back-and-forth budget battle between the House and Senate "an exercise that marked the frustration and futility of efforts to keep federal spending in line during the 96th Congress."

The week-long battle between the two Congressional bodies over approval of the continuing appropriations bill ended in the early hours Tuesday morning (December 16) after days of bitter debate centering on a Congressional pay raise issue and some 150 Senate "Christmas tree" spending amendments.

It was near-down before the House and Senate finally agreed to cut the controversial pay raise proposal which would have increased salaries of members of Congress and for federal employees at GS grades 15 and above. The Reagan administration had

repeatedly backed the increase, feeling the higher pay scale was necessary to secure high-quality personnel for the new administration.

"I have felt all along that if Congress wasn't willing to draw the spending line on Congressional salaries and those of the high-level bureaucrats, we were failing to keep austerity commitments so freely voiced to the folks back home, both before and after the election," Stenholm said. "I have opposed a Congressional pay increase since the first time the issue came up and I opposed it on this last vote."

Stenholm also pointed out that the Senate spending amendments, most of which were finally defeated, would have reportedly cost more than \$1 billion. "We'll have to wait for a complete budget

analysis now to find out just what level of spending we finally approved," he continued. "And I can almost guarantee that I won't like it, but we found that a lame duck Congress can be an unwieldy and obstinate creature. The free spending Senate had been badly wounded by the November 4 elections, but was determined to go down hard."

Stenholm said some meritorious proposals, including a \$20,000 tax break for missionaries serving abroad, were killed along with the more reckless spending proposals tacked onto the bill by the Senate.

"Right now, however, I'm looking ahead to the 97th Congress," he said, "with high hopes that our accomplishments next year will far outweigh any disappointments suffered during the 96th Congress."

# Bad Timing Responsible For Survey Results

**BY GINA JENNINGS**  
A lot of fuss was made over a survey taken by Ann Landers some time ago which showed that the majority of mothers would choose not to

have children if they had it to do over again. A number of folks expressed shock and disbelief at this. I, however, just chalked it up to bad timing.

Depending on when you asked me, my answer to the question, "If you had it to do again, would you still have children?" could be:  
a. Absolutely  
b. I might  
c. I'd have to think about it seriously  
d. Chances are I wouldn't  
e. I'd rather be eaten alive by army ants

Any honest mother must admit there are those days...I figure the ladies surveyed were just having one of them. For example after a tiring day at work, I may be sitting at the supper table trying to relax. I may also look up to discover my three year-old daughter, in a burst of creativity, has applied her beef stew liberally to her person. At that point I don't have a daughter, I have a vegetable mosaic.

Don't ask me right then if I would do it again.

You shouldn't ask me on the day my son leaves a topless bottle of glue on the floor. It upsets me to see our pet beagle charging merrily from room to room, a bottle of Elmer's in her smiling mouth (I tell you she was smiling!) leaving a sticky white river behind her.

As I am on my hands and knees cleaning it up, my fingers webbed with the rapidly drying stuff—don't ask

me if I'd do it again.

When it's two in the morning and I'm out in my pajamas putting away the bike my son left out, don't ask. Especially since I decide to ride it into the garage even though it's only two feet tall and I'm sure no one will see me at two o'clock in the morning.

Don't ask me when my neighbor turns into his drive, his headlights hitting me, crouched on a midget bike with my baby doll pajamas flopping in the breeze.

Or when the pastor comes to call...and the kids let him in...and you are standing

helplessly...trying to look dignified...in your underwear... Well, that's just not a good time to ask.

And when I'm standing in front of the mirror doctoring my swelling, purple eye which I got in my hallway during a head-on collision with an airborne Tonka truck...don't ask.

I know, my children seem to take a lot of licks from me when I write. They deserve most of them.

But then, it's Christmas now. In the past few days, I have seen them dressed in velvet and lace. I have seen their eyes sparkle with fasci-

ation and joy.

I have seen them sit like angels and listen to the songs about Baby Jesus. And I have known a freshness in the old traditions I could not know without them.

I have seen them sing their songs and recite their poems with an earnestness lost to adults.

Looking forward to the frenzied tearing of paper and squeals of joy on Christmas morning, I feel a childlike excitement myself because of them.

Ask me now if I would do it again.

And now, Merry Christmas Christopher, Aaron and Jennifer—and thank you for all the inspiration as well as the perspiration you have given me.

And to all the mothers and fathers whose hearts are full of love and joy this season, Merry Christmas...

We would do it again, wouldn't we?

## Cotton Classing

B.B. Manly reported that the 1980-81 cotton harvest was finally resumed and that 8200 cotton samples were classed at the USDA Cotton Marketing Services Office in Abilene during the week ending December 19. Some cotton producers and gin managers who thought that they would be practically finished harvesting and ginning cotton by now are just getting started. The low yields and weather interruptions have curtailed harvesting to the extent that only 72,000 samples have been classed in Abilene to date, which compares to 568,000 samples classed by the same time last season. An additional 8100 samples have been classed at the Munday office.

Local cotton prices were firm to slightly higher during the past week, closing 1 to 2 cents per pound higher for the week. Prices were mostly 33½ to 35½ cents per pound over CCC loan values for staple 31 or longer cotton, and 28 to 32 cents per pound over the loan

for staple 30 or shorter cotton. Physical prices for the most prevalent qualities ranged from 64 to 79 cents per pound. Demand was moderate, but the supply of cotton continued light. Trading was slow to moderate, slightly more active than during the previous week.

Cottonseed prices paid producers at gins were steady to \$10 per ton lower, ranging from \$110 to \$130 per ton.

Mr. Manly reported that the quality of cotton classed in Abilene during the past week was slightly lower than that classed the previous week. Grades and fiber length have been of lower quality than usual all season, but micronaire readings have been mostly within the desirable 35 to 49 range. Cotton classed last week was about 2% white grades, 46% light-spotted, 51% spotted, and about 1% tinged grades. Grade 53 comprised 24%, grade 52 comprised 23%, grade 43 comprised 21%, and grade 42 accounted for 20% of the

samples classed. About 7% of the total classings were below grade (BG's). Fiber length was 39% staple 31, 25% staple 32, and 22% staple 30; with the average staple being 31.1. Micronaire readings were 93% with the 35 to 49 range, and averaged 42. About 37% of the samples classed were reduced in grade because of grass or bark content. Fiber strength tests averaged 85,000 pounds per square inch breaking strength during the past week and also for the season.

May the loving touch of Christmas Shine for you throughout the year And halo all your hours With hope and peace and cheer.

## Superintendent's Views

BY JAMES LANIER  
Superintendent, Haskell ISD

The Haskell Board of Education passed a resolution in November concerning a method of honoring retired personnel of our school. The Board adopted a pass which is called a Golden Pass. The holder of this card is entitled to free admission to all school events such as athletic events, plays, concerts, etc. The name

of each retired person is typed on the card and the card laminated for permanency.

Many times I feel that we live in and think so much about the present and plan for the future that we tend to forget the immediate past. The personnel who have retired have provided services and learning experiences for many of you of our community. Our schools are what they are today because of these people. The retired persons have left a legacy of success to those of us still in the field. The teaching profession owes a great debt to the people who struggled with \$75 a month salaries (sometimes paid in redeemable scrip), long hours, and no supplies. Their noble struggle and their character must never be forgotten. We must continue to remain ourselves where these people led us as we take up the banner to carry forth the glorious task of teaching students.

These Golden Passes are an effort at saying "thank you." Also, retired personnel, we haven't forgotten you. The Golden Passes are in my office and will be delivered as soon as possible. I hope that we in the profession now can carry

the banner with as much devotion and loving dedication as you.

Also, I would like to take this method of wishing each of you a very Merry Christmas and Happy New Year from all the personnel of the Schools. Between overindulgence in rich foods, opening of gifts, visitation with relatives and friends, and viewing of football games, I pray that each of us can reflect a few moments on the wonderful place God has provided for us in Haskell County.

MERRY CHRISTMAS!!
