

Solving two problems at one time has always sounded like a good idea but is seldom accomplished. There may be hope.

Take the problem of free mail. Free in that if you are elected to the proper office, your signature will suffice for a stamp. (U.S. Representatives and Senators).

Monday and Tuesday of this week, a total of 31 pieces of mail from politicians was received at The Free Press.

Of the 31 pieces, only seven had stamps or First Class postage.

Twenty-four of the "News Releases" were from sixteen different U.S. Senators or Representatives, most of which are either seeking re-election or running for another office.

Five were from the same candidate, a U.S. Representative which does not serve this district and is an announced candidate for the U.S. Senate. Only one of the five was designated campaign material. The others were printed with tax money and mailed free.

To solve on of the problems should require only a minor change. Requiring the candidates to pay 20

Blue Holt Hired As Athletic Director

Members of the Board of Trustees of Haskell Schools hired W. L. "Blue" Holt as Athletic Director (AD) for the 1982-83 school year during a special meeting last Thursday night.

Board members interviewed four applicants for the position: Holt, Jimmy Lisle, Bill Pringle and James Ivy.

Holt and Lisle were both employed by the School District as coaches last year.

Pringle is currently serving as AD and Head Football Coach in Marlin. He had coached in Haskell for two years in the early 1970's.

Ivy had coached in Haskell several years ago and is currently an assistant coach in Iowa Park.

Holt served as Head Football Coach and Math teacher last year. He told board members that he would like to continue teaching four Math classes in addition to the AD and Head Football Coaching duties.

In making the selection, board members considered scholastic and classroom abilities as well as coaching philosophies.

Holt was hired by a 6-1 vote. Voting in favor were: Joe Kimbrough, David Frierson, Sammy Larned, Pat Henry, Jerry Hannsz and Billy Mitchell. Opposing was Max McMeans.

Open House Set Tuesday

An Open House will be held next Tuesday night from 6 to 7 p.m. in the new meeting room of the Haskell City Council.

The purpose of the Open House is to allow the public to view the new meeting room and at the same time meet and visit with newly elected city officials.

New members of the council elected last Saturday include: Mayor Franciene Johnson, 137; Bill Lane Jr., 136; Larry Gilliam, 143; and Archie Jones, 146. Lane and Gilliam were elected to two year terms and Jones was elected to a one year term.

A total of 153 persons voted in the city election and all candidates were unopposed.

Maundy Thursday

Services Set At Methodist Church

A combined Communion Service with the First Presbyterian Church and First United Methodist Church will be held tonight, April 8, at 7 p.m. in the First Methodist Church.

The Maundy Thursday Service is the Thursday in Holy Week and Commemorates the last supper.

The public is invited to the service.

cents per letter would place unbelievable amounts of revenue in the postal system or make the postman's job easier by drastically reducing the number of letters.

Going another step, and assuming that the politicians would continue to mail, by holding elections twice a year and requiring First Class postage on political mail, we could generate enough money to reduce the price of a stamp to a nickel.

As with most solutions, we would create at least one more problem. Being, what to do with the tons of campaign letters which are thrown into the trash without ever being opened.

School Board Canvasses Election

Members of the Haskell School Board met in regular session Tuesday night to canvass the election and organize the board.

Board members certified the following election results: Jerry Hannsz, 230; Pat Henry, 207; David Davis, 201; Joe Alves, 102; and Jerry Harris, 96.

Hannsz, Henry, and Davis were declared officially elected and received the certification of office.

In organizing the board, Hannsz was elected President, Sammy Larned was elected Vice President and Billy Mitchell was elected Secretary.

In other action, Board members: tabled bids on the installation of a water line; approved format for teacher contracts; and accepted the retirement resignation of Christene Speer.

1981 Crime Rate Down 1.5% From Previous Year

The crime rate in Texas registered a slight decrease in 1981 compared to the previous year, according to Colonel Jim Adams, DPS director.

"This rate, which is based on the number of crimes per 100,000 population, declined 1.5 per cent in 1981," Adams said. "This is the first decrease recorded in the crime rate since 1977."

The crime rate for 1981 in Texas was 6,042.4 major crimes per 100,000 population compared to 6,135.7 crimes per 100,000 population in 1980.

Adams also noted that total major crimes reported in Texas last year rose 2.5 per cent compared to 1980. An estimated 891,549 major offenses were committed in Texas during 1981 compared to 869,439 for the previous year.

The data were prepared by the DPS Uniform Crime Reporting

Warning Period Over For Liability Ins.

The 90-day DPS warning period for the new mandatory liability insurance law expired this week. After midnight Wednesday, March 31, state troopers began issuing citations to drivers who fail to show proof of insurance when such information is requested.

The law, which became effective January 1, 1982, requires all drivers to carry minimum liability coverage for bodily injury of \$10,000 per person (\$20,000 for two or more persons) and property damage of \$5,000.

Colonel Jim Adams, DPS director, said the law is encouraging more drivers to obtain the required coverage.

"DPS figures show that during 1981, approximately 73 percent of drivers involved in reportable accidents had the insurance," Adams pointed out. "That number increased to 81 percent for the first two months of this year."

Drivers who fail to carry the required coverage risk being fined from \$75 to \$200 for the first offense and from \$200 to \$1,000 for subsequent violations. In addition, a conviction under the new law will result in the suspension of the violator's driver license and motor vehicle registration unless the violator establishes and maintains proof of financial responsibility for five years from the conviction date.

Bike-A-Thon Set In Rule

Bike-a-thon chairpersons David Hestand and Donna DeVries-Hestand today asked Rule residents to participate in the St. Jude Children's Research Hospital "Wheels-for-Life" Bike-a-thon, April 24, 1982.

Volunteer workers and riders are needed for the bike-a-thon to raise funds for the world-famous research center and its battle against catastrophic childhood diseases.

Donna and David said this year's ride is being dedicated to Terry, a leukemia patient at St. Jude. "By riding for Terry, we'll really be helping all stricken children since research is the only way these illnesses can be conquered," they said. "We're looking for people who will contribute some of their time and energy to help children live. We really need bike riders, all ages, since they are the ones who can make this Bike-a-thon successful."

In the Bike-a-thon, riders enlist sponsors who donate a sum for each mile completed. Riders who raise \$25 will receive a St. Jude T-shirt, and those raising \$75 will receive a jacket," said Donna and David. "We also have prizes for other riders." Sponsor forms are available at 1000 Union.

"You can put your muscles to work for a child's life in this Bike-a-thon," the chairpersons said. "We need every bike and every rider."

Interested persons can contact David or Donna, 1000 Union, Rule, 997-2313.

St. Jude Hospital was founded by entertainer Danny Thomas, and operates primarily from public contributions.

Long, Roberson Wed In Plainview Ceremony

Melissa Roberson and Nick Long, both of Plainview, were united in marriage at the First Presbyterian Church in Plainview on Saturday, April 3, at 4 p.m. Officiating for the double ring ceremony was Dr. Charles Teykl, pastor of the church.

Parents of the couple are Mr. and Mrs. B.O. Roberson of Haskell and Mr. and Mrs. George Long of Silverton. Mrs. T.L. Roberson of Rochester and Mr. and Mrs. Clint Stewart of Abilene are grandparents of the bride.

A prelude of traditional wedding music was presented by the organist, Mrs. Steve Hurt. The vows were exchanged at the altar. Brass candelabras with palm leaf greenery and brass urns of palms accented the unity candle.

Edwin Roberson, brother of the bride, sang "The Greatest Of These Is Love", and "Walk In Love". Both compositions were by Dr. Andy Patterson of Abilene.

daffodils, pink roses, statice, lilac daisies, and babies' breath tied in lilac and lace ribbons.

Miss Laura Roberson of Abilene, niece of the bride, and Miss Kaki Stapleton of Haskell wore identical floor-length white eyelet pinaford dresses. The dresses were trimmed with eyelet ruffles and lace insertion with lilac ribbon. They carried white baskets with spring bouquets.

Tyler Sperry of Arlington, nephew of the groom, was the ring bearer. He wore a white linen shorts suit and carried a lace-trimmed white satin pillow.

The groom wore a smoke-gray tuxedo with black velvet binding, a black velvet vest, white tuxedo shirt, and a black bow tie. His boutonniere was stephanotis.

The best man was Mel Sperry of Arlington, brother-in-law of the groom. The groomsmen were Lane Garvin of Silverton, Matt Thompson of Memphis, & Tom Burson of Silverton. Their tuxedos were like the groom's but their boutonnières were miniature spring flowers.

Ushers were Stewart Roberson of Abilene, brother of the bride, and Jeff Piersol of Plainview.

Mother of the bride wore an apricot polyester chiffon over organza. A capelet bodice draped over the shoulders to form mid-are sleeves. Soft folds of chiffon made a cumberland belt fastened with a self-chiffon rose. She wore a gardenia corsage. The mother of the groom wore a lilac chiffon shirt-waist floor length gown with off-white border pring skirt. She wore an orchid corsage.

A reception honoring the couple was held in the Garden Room of the First Presbyterian Church following the wedding ceremony. It was hosted by the parents of the bride.

The bride's table was covered with an oval white organza cloth with scalloped swags. All appointments were silver. The three-tiered wedding cake was decorated with lilac and purple flowers. Mixed spring bouquets of fresh flowers were also used.

The groom's table was covered with a lilac quilted floor length cloth with a quilted valance trim. Chocolate cake topped with slivered nuts and coffee were served. All appointments were brass including pheasants belonging to the groom.

Members of the houseparty were Mrs. Steve Coulter, Mrs. Jerry Wheeler, Peggy Robertson, Mrs. Steve Nutt, Mrs. Tom Burson, and Mrs. Lane Garvin.

Mr. and Mrs. George Long, parents of the groom, hosted the rehearsal dinner at the Plainview Club on April 2.

For going away, the bride chose a navy and fuchsia suit with navy, white, and fuchsia striped top. She wore a gardenia corsage from the bridal bouquet.

Following a trip to New Orleans, Louisiana, the couple will reside in Plainview. The bride attended Hardin-Simmons University in Abilene and graduated from Texas Tech with a degree in Home Economics. She is employed by Texas Agricultural Extension Service. The groom attended Angelo State University and graduated from East Texas State University with a degree in Radio and Television. He is employed by KVOP-KATX in Plainview.

SHOWERS AND PARTIES
Mr. and Mrs. Jack Strange of Silverton hosted a dinner party for the engaged couple at the Plainview Club on February 24.

A bridal shower was given in the home of Mrs. Merwyn Igo in Plainview on February 27.

Mr. and Mrs. E.A. Birdwell and Mr. and Mrs. James Davis of Silverton hosted a dinner party at the Plainview Club for the wedding attendants on Saturday evening, February 27.

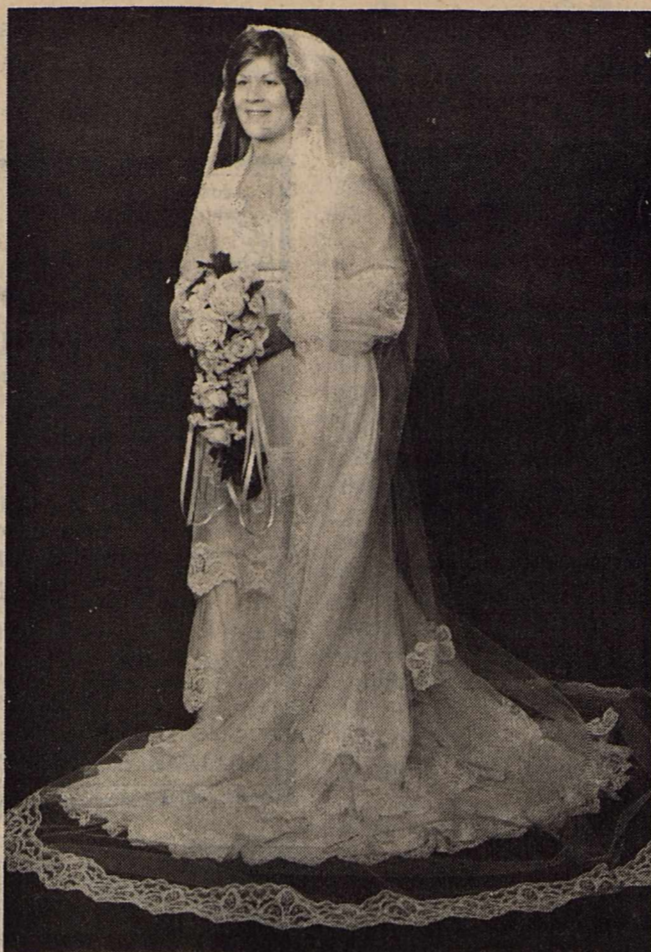

A coffee honoring the bride-elect was held in the home of Mrs. Carl Bomar in Silverton on March 6.

Mrs. Donnie Rieger and Mrs. Ricky Scheffel hosted a pantry shower on March 13 in the Rieger home.

Mrs. Jerry Logan of Hale Center hosted a paper shower in her home for the bride-elect on March 14.

A brunch was held on March 20 at the Haskell Community Room. Hostesses were the following: Mrs. Max Stapleton, Ray Perry, Ethel Lou Shelton, Marjorie Headstream, Lewis Thomas, Clifford Thomas, Earl Smith, George Mullino, Warren Short, and Bill Flowers.

Parents of the bride-elect hosted a barbecue at their home on Saturday evening, March 20. The honorees were the engaged couple, the Long family, and the brunch hostesses and their families.

The lowly egg! Despite its humble size, it, like the sun, is one of man's most ancient and revered symbols. An Egyptian legend, for instance, says the universe emerged from an enormous egg; Persian and Hindu mythologies are similar and tell the story of the earth hatching from an egg. Later, central European tribes made the egg a symbol of fertility while some of the other countries developed stories of an egg as the hiding place of the soul. Soon the egg almost universally came to represent the glorious rebirth of life in the Spring. As Christianity

spread through Europe, the egg took on even greater meaning. It came to symbolize the renewal of life promised by Christ's Resurrection, and at Easter time, Christians all over Europe began to use the egg in cherished customs and ceremonies. In Scotland it was the custom for children to roll eggs down the hillsides on Easter morning, commencing the stone that was rolled from the door of Christ's tomb. Easter means beauty, the beginning of a new life. Anywhere God is, it is a beautiful place. God IS the Master Artist!

coloring eggs for Easter started? This is an interesting art but the origin is not clear.

A. This practice can be traced to neolithic times but no one knows for sure when people began to decorate eggs for Easter. Some think the custom was brought to Europe by crusaders who got the idea from an African tribe converted to Christianity.

Q. Though each region that created ornamental eggs had its own designs and dyes, what were some of the dyes common to all?

A. These symbols remain common to art symbols today. The circle stands for the sun and means good future; flowers represent love; the fish symbolizes Christ - the Trinity. Colors like green stands for money; black for remembrance; blue for health; white, purity; red, love; and yellow for spirituality.

Q. Slavic Easter eggs appear to be hand painted, what is the process?

A. The eggs are actually decorated by using a dye-and-beeswax process that resembles batik. The artist uses a fine-tipped stylus, traces a portion of the design on a raw and blown white egg. Never boil the egg, raw ones will eventually dry out. Using a small brush, fill in the areas that will be blue or green. Then dip the egg into successive colors of dye, and the areas to be protected are covered with wax. Start light tones and progress to the dark ones; yellow than orange, light red, dark red, etc., and finally black for accents. Carefully dry them and keep out of direct sunlight and the eggs last for years.

Scholarship Available To 4-H Members

Present and former 4-H members may be eligible for \$5,750 in college scholarship grants if they meet certain requirements, points out Lou Gilly, county 4-H program coordinator with the Texas Agricultural Extension Service, Texas A&M University System.

Five of the grants, valued at \$1,000 each, are primarily for young people planning careers in agriculture, or such related fields as forestry, veterinary medicine or animal science. The other scholarship, valued at \$750, has no limit placed on choice of study. These scholarships are provided by private sector donors and arranged by the National 4-H Council, a non-profit organization supporting the 4-H program through private resources.

The \$750 scholarship, in memory of Gertrude L. Warren, a pioneer 4-H leader often described as the "Mother of 4-H," is awarded to one present or former 4-H member enrolling this fall at an accredited college, university, technical or trade school. The recipient can major in any recognized field of study and must have been influenced by 4-H in selecting a future career, notes Mrs. Gilly.

A \$1,000 scholarship, donated by Education Foundation of Alpha Gamma Rho, goes to a current 4-H member who will be enrolled as a college freshman this fall. The recipient must be planning to major in agriculture, forestry,

veterinary medicine or a closely-related field.

Wayne Feed Division, of Continental Grain Co. donates scholarships to two present or former 4-H members who will be enrolled as college juniors this fall and who plan to major in animal science.

Two former 4-H members, currently enrolled in a college of veterinary medicine, can receive \$1,000 scholarships provided by Champion Valley Farms, Inc.

All scholarship applicants must have completed at least one year of 4-H work. Winners are selected by the Extension Service and will be announced prior to the 61st National 4-H Congress, Nov. 28 - Dec. 2, in Chicago, Ill.

Present and former 4-H'ers interested in applying for these scholarships should contact the state 4-H office at Texas A&M University or the county Extension office for more information and application forms.

Tax Returns May Be Amended

Many taxpayers discover that after they have filed their federal tax returns, some item was left out, such as a deduction or an income figure. These taxpayers can change their original tax returns by filing corrected returns on Form 1040X, the Internal Revenue Service says.

The original return can be amended any time during the three years following the due date (including extensions) of the original, or two years from the time the tax was paid, whichever is later, according to the IRS.

Taxpayers can receive copies of Form 1040X and additional information by calling the IRS Tax Forms/Information number in the local telephone directory under U.S. Government.

Extension Homemakers Donate Time

For more than a half century, Extension homemakers in 240 Texas counties have learned homemaking skills and then taught these skills to others.

"In their commitment to make life better for Texans, they have donated time, leadership, energy and money to make communities a better place to live for all residents," reports Mrs. June Cline, organization specialist with the Texas Agricultural Extension Service, Texas A&M University System.

Last year, 23,000 Extension homemakers gave 1,817,000 hours—an average of 70 hours per person—for an overall total of 622 years of volunteer service. "If we place a value of

\$3.65 per hour on their effort, these volunteers donated \$8,395,000 of voluntary time. They also reached into their pockets for an additional \$50,000 in cash to improve local communities," she says.

While community projects varied across the state according to the unique needs in each county, more than 100 projects were conducted in health and safety, family life and family resources, citizenship and legislative, cultural arts and international understanding, leadership development and work with young homemakers.

One of the on going projects of the Texas Extension Homemakers Association has been to offer scholarship assistance

to a deserving 4-H member to attend college.

"That commitment has grown over the years from a \$200 loan fund to \$40,000 in support of local 4-H activities, county scholarships, Texas 4-H Center donations, National 4-H Citizenship Short Course scholarships and six \$550 state scholarships," Cline says.

The almost 2 million hours of voluntary services represent time spent in remodeling community buildings, organizing and assisting county services such as volunteer fire departments, conducting community learning sessions and countywide projects. Among outstanding projects were those on car safety for children, drug abuse and "vial of life" medical information. Volunteers also assisted needy children in Mexico, gave service to nursing homes and state schools.

Organization of Extension Homemaker Clubs is on the increase. Clubs have almost doubled enrollment within the past six years, Cline adds. Members have passed on to others what they have learned.

Some counties have organized a speakers bureau, where club members address other organizations. Other clubs have the "adopt a family" program. "In this program, each club member contacts a non-member and teaches homemaking skills learned through Extension Club work. Through sharing research-based information, members of Extension Homemakers Clubs successfully teach ways to cope with today's problems. Each member often reaches twice the number of people enrolled in their individual clubs," Cline says.

Superintendent's Views

BY JAMES LANIER
Superintendent, Haskell ISD

This will be a two facet column. First, I owe Anthony Garland an apology from last weeks column. I inadvertently left his name off the list of regional qualifiers. Anthony qualified by winning 1st place in prose reading. We are extremely proud of Anthony because he is a Freshman. He has worked extremely hard in the literary meet. He is an excellent student with a strong interest in the academic area. We are proud of him and his work. We know he has a bright future in the literary events.

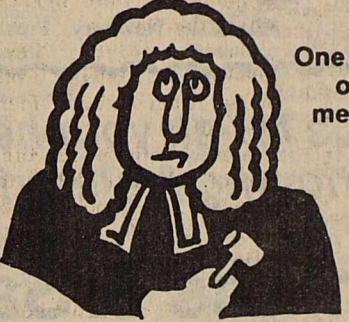

The other facet deals with the second installation of our budget study. This month, the Board and administrators studied transportation services. The payroll for drivers, substitutes, etc. will be approximately \$12,155. Our contracted services which include physicals, bus repairs, etc. will be budgeted at \$2,050. The supplies and materials for maintaining buses will run approximately \$17,900. This figure includes

gasoline, tires, parts, flats, etc. The other operating costs on transportation is basically insurance and we estimate this cost at \$1,500.

The other major expense is capital outlay. We are proposing to purchase a new mini bus this year at a cost of approximately \$15,000. Both of our mini buses have over 90,000 miles. We use them extensively for trips with small groups such as tennis teams, golf, FFA judging teams, etc. We also use them on routes when numbers will justify because of the economy of operating and ease in handling. All of these totals will cause the transportation to run approximately \$48,605. About \$20,000 of this sum will come from the State Foundation Program and the remainder will be paid locally.

Again, let me remind you that we use this column to inform you. I know budget and taxes are of paramount importance. Hopefully, we can keep you informed as to where your dollars are being spent.

At General Telephone We're Not Simply Talking About Service Improvements We're Making Them In Haskell

At General Telephone, better service isn't just a goal, it's a solid commitment. General Telephone spent over 354 million dollars in 1981 on capital expenditure projects (i.e. new electronic switches, expanded cable projects and modernization), and GTE will spend over 410 million dollars in 1982 to provide you the best telecommunications available.

For you, as a valued customer, this investment in service improvement is working as shown below. General Telephone is working hard to continually provide you with the best of service.

The Texas Public Utility Commission (PUC) has established certain standards in public hearings, and our service results are listed against those standards.

Wheat Producer V-P Named To Committee

Texas Wheat Producers Board and Producers Association Executive Vice President, Bill Nelson, of Amarillo, today received word from the White House of his appointment to the joint USTR/USDA Agricultural Policy Advisory Committee. Office of Presidential Personnel, Deputy Director, J. Michael Farrell, indicated that the appointment was at the personal joint requests of U.S. Trade Representative, William E. Brock III and Secretary of Agriculture, John R. Block.

This committee is part of an advisory committee program which was established in the Trade Act of 1974 to ensure that a formal mechanism existed between government officials and the private sector regarding international trade negotiations. Congress in the Trade Agreements Act of 1979 expanded the advisors responsibilities to include establishing priorities and direction of U.S. trade policy.

W.R. Moore, Jr., Munday, Chairman of the Texas Wheat Producers Board said, "We are pleased that our executive officer has received this White House honor of serving the office of the U.S. Trade Representative and the Secretary of Agriculture. His advisory input should be of value to the committee and to the wheat producers of Texas whose income is derived ninety per cent from overseas sales into the international market."

Nelson has attended Colorado State and Oklahoma State Universities and holds B.S. and M.S. degrees in Agricultural Economics and Marketing. His quest for expanded new markets for Texas and U.S. wheat and feed grains has taken him into virtually every state that produces, markets or utilizes these crops and into over sixty countries on five continents.

Moore pointed out that, "The value of wheat in Texas has gone from \$70 million in 1971 to over \$700 million now—with all the increase due to expanded exports. Our biggest disappointment however, is that this expansion has not, as expected, adequately increased prices. The producers ability to produce is outstripping their ability to develop markets - thus requiring responsible administration

Texans Swap For Colorado Antelope

A group of Colorado pronghorns are learning what it's like to be Texan.

Wildlife biologists from the Parks and Wildlife Department trapped 174 pronghorns in Colorado and released them at six sites in Texas that historically had herds of the animals.

The pronghorns were trapped at Hugo, Colorado, 100 miles southeast of Denver.

Surplus animals were traded by Colorado for surplus Thursday, April 8, at Kansas and Arizona. Texas traded 50 wild turkey from the Panhandle and 200,000 striped-white bass hybrids and catfish fingerlings.

Department wildlife biologists released the pronghorns at six sites which are within the historic range of the animals.

Release sites include two ranches each in Jim Hogg, Brooks and Hidalgo Counties in South Texas, two sites on University of Texas lands in Crockett and Reagan Counties in West Texas and ranches in Shackelford and Throckmorton Counties in the Rolling Plains.

Landowners signed agreements before the stockings not to hunt the animals for a minimum of three years. After the animals become established, the landowners also agreed to permit the Department to trap out the original number for transplanting in other areas where they are needed.

Letters To The Editor

(EDITORS NOTE: The Haskell Free Press will publish letters to the Editor dealing with any subject. All letters must be signed but names will be withheld by request. All letters are subject to editing for length and liability.)

Dear Don:

Please accept this means of expressing my appreciation for your support during my four years as Mayor of the City of Haskell. Your own contributions to this town too often are taken as part of your job. I can assure you, however, our much needed water ration program, creek cleanup after the flood, and constant coverage during the fund raising for our new, totally paid for by contributions Fire Station, may never have come to be without your support and for these and many other accomplishments I thank you.

I also would like to use your medium to thank all the people of Haskell who voted for me and supported me during my tenure in Office.

I have had the complete support of a very unique City Council. By that I mean they have a deep feeling and love for the City of Haskell. That combined with their interest for all the citizens at heart,

honesty, intelligence, a willingness to assume responsibility, have helped make the past four years more productive. I don't believe one could find a better Council. I have seen a change for the good in our employees. They are doing a hard job and we can see improvement everyday. Our Chief Administrator has been, and still is, having some health problems. I think he has been talked into doing management work only and we look for rapid improvement of his health. His devotion to his duties is commendable.

As I leave this position I realize not every problem has been solved. I doubt if they ever will be, but I am very comfortable with and thankful for the upcoming administration. I know the City of Haskell will be fortunate to have this fine experienced group working for them.

Sincerely,
Royce L. Williams
Mayor

Social Security Number Needed For Employment

Every spring, hundreds of high school students start looking for summer jobs. One of the very first things they need is a social security card. A great number are not to be hired because they don't have a social security number. So, they rush to the local social security office expecting to get a number right away. Since all numbers are issued out of Baltimore, Maryland, there is a delay in receiving the number itself.

Here are some tips to follow in applying for a number:

1. Apply for a social security number 4 to 6 weeks before school is out.
2. Have the proper and necessary documents available.

Applications for social security numbers can be obtained by calling or visiting the social security office. Along with the application, you must present a certified copy or original birth certificate, and some form of identification such as a school identification card, school report card, immunization card, or driver's license. There are other documents which are acceptable, but to be sure contact the social security office nearest you. Most questions can be answered by phone.

The Abilene number is 698-1360. For those living outside of Abilene, there is a toll free number 1-800-392-1603.

The 40th annual celebration will be presented by the Cottle-King Livestock & Rodeo Association, April 16-17th, 1982 in Paducah.

All this excitement will get underway on Friday, April 16, with the Old Settlers Reunion, held in the Goodwin School Cafeteria. Old and young alike are invited to take part in the entertainment, refreshments, and the renewal of old friendships.

Big western parade downtown at 5:00 p.m., April 16th. You are invited to participate or come and watch the floats, riding clubs, cowboys and

cowgirls on review.

The famous chuck wagon dinner will be immediately after the parade at 6:00 p.m. at the old dance barn. This meal with all the trimmings has been prepared for you by "Buster" Tippen and helpers.

Terry Walls, Stephenville, rodeo producer, will present two nightly performances, April 16-17th, 8:00 p.m. All regular events are scheduled. You are invited to come and bring the family for "good entertainment". Rodeo office will be open Thursday, April 15, 1982. All entries must be cash. Money must be received 30 minutes before the show. Entries taken by phone only.

Books at 1:00 p.m. Thursday and entries will close at 5:00 p.m. on Thursday, April 15, 1982.

All team roping will be held in the arena at 8:00 a.m. Saturday morning, April 17th. Can enter up and back. Header must dally.

For those of you who like to attend a good dance there will be one nightly, April 16 & 17th, at V.F.W. Building, 9:00 p.m. Dance music will be provided by a good country and western band.

Horse Show and Youth activities will be April 17th, 9:00 a.m. at the show barn and arena. Judge for the show will be Jim Nance, El Reno, Ok.

Secretary, Lynetta Wallace, Box 1309, Canadian, Texas 79014. Show manager: Terrell Jennings, Paducah Texas.

From the time Leonardo da Vinci made the first sketches of gliders to the first real airplane was a period of 400 years.

Cascot Certified Cottonseed Can Mean 25% Bigger Yields!

Custom Ag Service, now a leader in the market, has selected, tested, and developed four cottonseed varieties which are early maturing, disease resistant, and give consistently higher yields, as much as 25% over your current yields.

CASCOT C-13:

Being released for the first time this season, C-13 has shown great yield potential. Growers have had consistently high yields in excess of two bales per acre from C-13. But, book early for this variety because supply is extremely limited.

CASCOT BR-1:

Fast fruiting, excellent yield potential, outstanding lint quality, extra early maturity (120-130 days), and premium micronaire are characteristic of this variety. Plus BR-1 is a proven producer on dry or irrigated land.

CASCOT B-2:

Probably the fastest maturing cotton on the market, this stripper variety has good cold tolerance which allows for earlier planting.

CASCOT L-7:

A great producer on dry land, even better when irrigated, L-7 is cold tolerant, early maturing, and possesses as much wilt resistance as any commercial seed.

Interest Rates Fluctuate With Changing Economy

"Interest rates will be extremely high in 1982 but not in the way most people see them," says Steven C. Griffin, a Texas A&M University agricultural economist.

The prime lending rate is currently hovering around 17 percent. While this is lower than the 21.5 percent that started 1981 and the 20 percent paid last summer, it's a lot higher in terms of profitability, says Griffin, who is with the Texas Agricultural Experiment Station and Texas Agricultural Extension Service.

"Interest rates are composed of two different components," explains the economist. First there's an inflation premium, the amount of interest it takes to compensate savers for the expected decrease in a purchasing power of their savings over the loan period. The premium is based primarily on inflationary expectations."

The second component is what may be termed as the real return to capital. This is the amount of interest savers

require for deferring current consumption until later when the loan is paid off, explains Griffin.

Since the mid-60s up until fairly recently, the actual inflation rate has been under-anticipated by savers and lenders, says Griffin. Thus, the market rate of interest paid by borrowers, less the actual inflation rate, equaled a real return for capital that was extremely low and sometimes even negative. The lower the real cost of capital, the more profitable were capital investments, particularly those which also appreciated with inflation, such as farmland and housing.

"As long as one could make the downpayment and cash flow requirements, one could look quite smart while inflation multiplied net worth and current income soon exceeded cash requirements," notes the economist.

With the current restrictive monetary stance of the Federal Reserve and huge projected budget deficits, the calculated real return (cost) to capital has

increased substantially. In fact, it's tripled to more than 10 percent, points out Griffin.

The Federal Reserve is currently resolved not to accommodate budget deficits by expanding the money supply for fear of reigniting inflation. Thus the U.S. government "crowds out" private demands for debt capital by paying a higher price than potential private borrowers can afford, notes the economist.

"As inflation continues to fall or remain at current, relatively low levels, the inflation premium in interest rates will fall also," says Griffin. "But increases in the real return to capital component may be more than offsetting so that overall market interest rates may be unchanged to higher."

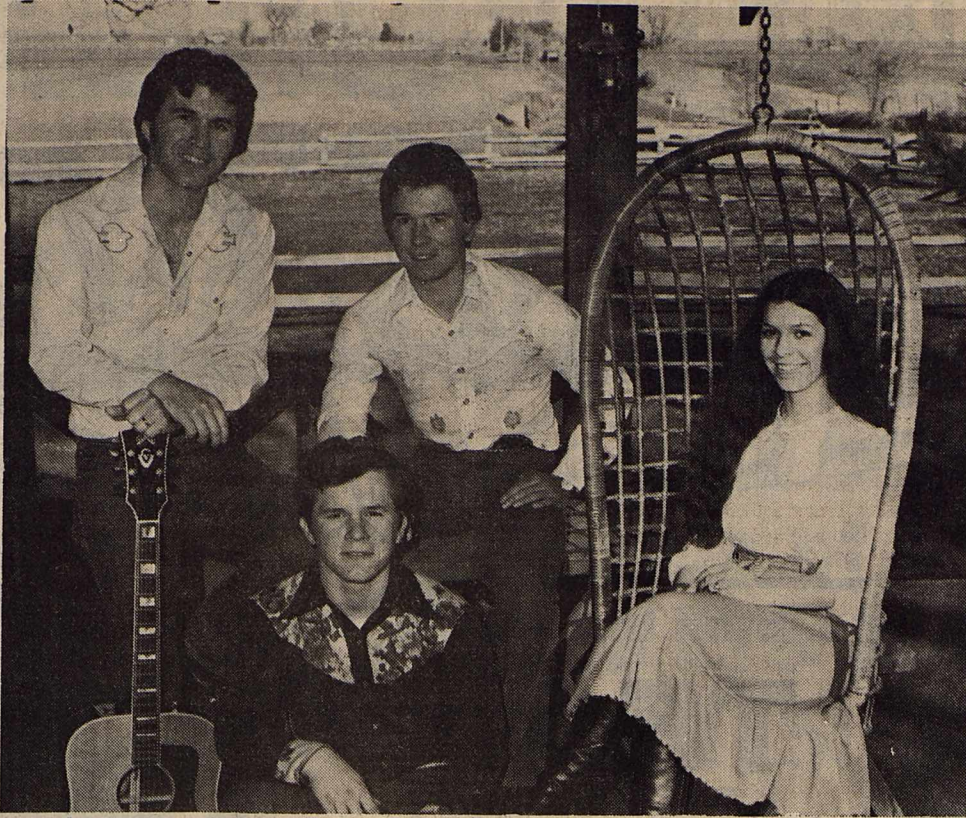

Important to borrowers is that a 17 percent market rate of interest is different when the underlying rate of inflation is 7 percent compared to 15 percent. The difference is not in the amount of interest paid but how much the investment will have to earn on its own versus how much it's likely to appreciate with inflation.

Land, for example, has averaged a current return of 3 to 4 percent and appreciated at or slightly more than the general inflation rate over the last few decades. Obviously, land has been a good buy with real interest rates at 0 to 2 percent. But the same can not be said now, notes the economist.

"Properly managing financial affairs will be of paramount importance to agricultural producers this year," says Griffin. "While farm credit is available to qualified farmers, maintaining access to this credit may be difficult for some who have seen the last two years of drought and low prices and a dismal outlook ahead diminish some of their credit worthiness."

How far a lender will go with a financially weakened producer may depend on how well prepared that producer is in presenting his financial needs, adds Griffin. Does he have cash flow projections? When the market provides the opportunity for profit, will he recognize it and bank some of it with cash sales and forward contracts? Is he considering all-risk crop insurance and government program participation? Has he approached his landlords about charging share-rent arrangements in view of rising input costs?

The answer to these questions will go a long way in determining whether a producer will weather through 1982 and beyond, believes the economist.

SINGING GROUP

The Waddington Family, featuring Tim Waddington, will perform April 8, at 7:30 p.m. in the Haskell Assembly of God Church. Pastor J.C. Amburn invites the public to hear the outstanding group.

Abilene Colleges Set Fun Competition

Like ancient Gaul, Abilene is often divided into three parts: Church of Christ (as in Abilene Christian University), Baptist (as in Hardin-Simmons University) and Methodist (as in McMurry College). And the world is divided into two parts: Texas and "not Texas."

But on April 10, students from the three Abilene institutions will merge into two teams and mix-it up in a variety of stunts ranging from cow-chips stuffing to "name that food" and on to a wide range of challenges. And this time mix-it-up doesn't mean the schools will be aligned against each other.

Actually, HSU, ACU, and McMurry students will be on each of the opposing teams which means the day's activities may answer the burning question: can ecumenical brotherly love be found over broken eggs, in swimming

pools, inside whipped cream and giggling over total foolishness?

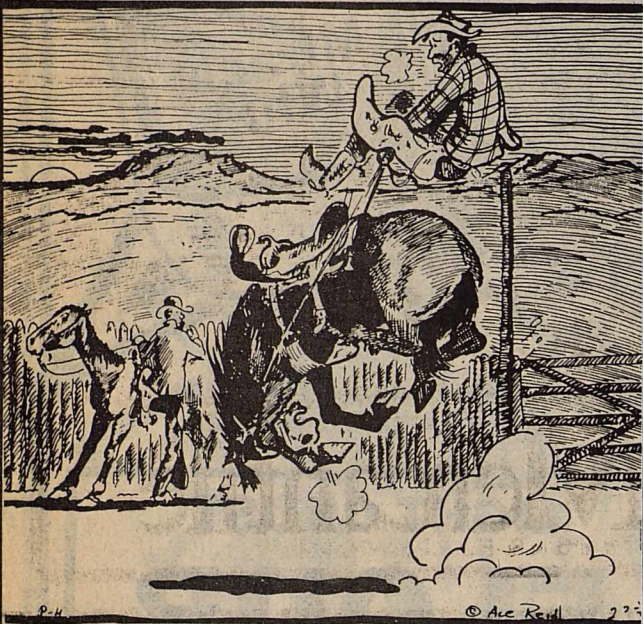

Lest the activities become just another love-in (echoes of the early 1970's) there will be a natural division of competition. The Baptist and the Methodists and the Church of Christ may sit down and break bread (or at least ice cream) together but the barrier between Texans and non-Texans is another matter.

So, teams of Lone Star extraction will try to honor the legends of Davy Crockett and Sam Houston while non-resident students will battle against the images of J.R. Ewing. West Texans take their religion seriously, but state loyalty runs even deeper.

All the action will take place on the HSU campus, 11:45 a.m. until 4 p.m. There is no admission charge and free ice cream for everyone.

H & R BLOCK HAS 1040A'S INSTANTLY PROCESSED WITH PRICES STARTING AT \$7.50

H & R BLOCK fights inflation again for the short form filer (1040A). Prices are starting at \$7.50 which includes the full Block guarantee. In addition the 1040A form will be instantly processed, so you will only have one visit to H & R Block. All you will need to do is sign and mail it, to get your refund. (Some H & R Block offices are independently owned and prices may vary in outlying cities.)

Block has never charged on the basis of income or the size of the refund, but solely upon the return's complexity. THE AVERAGE CHARGE last year for all returns in the Haskell area was less than \$25.00.

Skilled preparers conduct personal interviews to be certain that every legal

deduction to which the customer is entitled will be uncovered. Often taxpayers are short changed when they simply file the form they received in the mail from the government.

All types of tax returns are done by H & R Block. This includes the Federal 1040A, 1040, state returns, complex corporations and foreign tax income and preparation.

Faith Imparts the Joyful Messages of Easter

Throughout the history of the world, there has never been a more dramatic episode than that memorable spring-time weekend of long ago, marked by the Crucifixion and the Resurrection. The terrible ordeal and ultimate triumph of that lonely Figure, unjustly condemned by His enemies and deserted by His friends, was an event to be remembered all through the ages; along with its lesson of forgiveness, proof of immortality and demonstration of God's love for mankind; evidenced by the sacrifice of His only Son to atone for our sins. Celebrate the joyful victory of life over death by attending the Church of your choice on Easter and every Sunday; and resolve to live your own life in a manner worthy of that most monumental sacrifice in all history.

Brownie Troop 468 Attends Day Camp

Members of Brownie Troop 468 participated in Brownie Day activities at Camp Boothe Oaks in Sweetwater last Saturday.

Brownies attending included: Stephanie Green, Lora Headstream, Tanya Dunnam, Tamra Hawkins, Lynn Newberry, Anita Gonzales, and Thresa McFadden, and Dovanna McFadden also attended as a special guest.

Leaders who attended were: Donna Headstream, Christyne Green and Garlene Dunnam. Each of the girls earned a Trial Patch and completed requirements for a Brownie Be a Discoverer Patch.

Special activities during the day included: following and

reading trails, using compasses, climbing, knot tying and learning new songs.

Five girls have earned overnight camping trips at Camp Boothe Oaks with the dads for selling seven cases or more of Girl Scout Cookies. They are: Tamra Hawkins, Stephanie Green, Tanya Dunnam, Lora Headstream and Lynn Newberry.

All Brownies, Girl Scouts and their families will hold a Western Style Banquet May 1. Each family will be asked to bring a salad or vegetable, the leaders will provide desserts and the Troop will provide the meat. During the banquet the girls will perform and will receive awards.

UIL WINNERS

Winners in the Conference A District UIL Literary competition at Vernon Regional College (back row L to R) were: Greg Turnbow, second in Informative Speaking; Danny McGuire and Mark Stewart, first in Debate; Cristy Guess, second in Poetry Interpretation; Kim Forehand and Michelle Raynes, second in Debate. These Weinert students will compete at the Regional level at McMurry College in Abilene, April 14-16.

Farm Finances To Be Area Meeting Subject

A farm financial decision making program co-sponsored by several Rolling Plains counties will be held in Seymour on April 14 and 15 according to Max Stapleton, County Extension Agent in Haskell County. "This program is a new Extension thrust to have regional specialized programs to really help farmers and ranchers analyze their business," says the County Extension Agent.

Topics covered include "Planning to Save Your Estate." Although the recent tax law changes have helped, planning may be more critical now than ever; farmers are having cash flow problems and financing estate taxes is also harder. In addition most of the commercial farm and ranch operations will be larger after the current shakeout. Handling this topic will be Dr. Wayne Hayenga, an Extension Economist and Attorney. He specializes in saving tax dollars for farm and ranch families who have an operating business that they wish to pass along, or who don't want their heirs to "buy the farm again from the government."

One of Hayenga's favorite comments is, "Estate taxes are optional, and many only have to pay them because they decided not to do any planning." He will indicate some sophisticated ways to save many tax dollars while protecting a person's flexibility and income security. "I have heard him talk before,"

says the agent, "and he always gives some thought provoking ideas on how to walk a farm business through the maze of tax laws."

The second phase of the program will be entitled "Rethinking a Farm Corporation." Right now there are very few farms in this area that are incorporated. However, as the size of farms get bigger and more complex, and hopefully start making more money, there may be some real reasons to incorporate the business. A corporation may enable a farmer to have more cash available to pay on land notes, to save social security taxes, and to do more retirement planning. A corporation can also help change ordinary income into capital gain income. "We all know how much this can save," says Stapleton. Hayenga will also lead this discussion. "A properly structured corporation can save a lot of people a lot of headaches."

The third session is on microcomputers. These are the newest tool that area farmers are starting to use. Dr. James McGrann, Economist from College Station, will demonstrate the use of microcomputers in making decisions, as well as doing farm accounting and other rigorous tasks that farmers and ranchers often do with pencil that

can be done more easily and quickly by a computer.

On the second day, the program will offer suggestions on just how to make more money from marketing your crops this year. Dr. Carl Anderson, Cotton Marketing Specialist, and Dr. Roland Smith, Grain Marketing Specialist, will spend the day outlining the various advantages and disadvantages and "goods" and "bads" about use of the futures markets, seller's call contract, forward cash contracts, delayed pricing of commodities, and deferred payment contracts. These specialists will also discuss pricing strategies, indicate some target prices that farmers may wish to shoot for, and outline steps that producers should follow in developing their own marketing plan. Preregistration is requested; if you would like to attend this program, please give our office a call at 864-2658 (telephone number). If you have any extra questions or information, also give us a call.

Card of Thanks

Card of Thanks
CARD OF THANKS: The family of Albert Schmidt wishes to thank everyone who showed us kindness in the death of our beloved father and grandfather, Great-grandfather. Especially we do thank the doctors and staff of Haskell Memorial Hospital, Haskell Nursing Center, Holden McCauley Funeral Home and everyone who sent flowers and food. Thank you, and may the Lord Bless You. Sincerely, The Children and Grandchildren and Great-grandchildren of Albert Schmidt. 14p

CARD OF THANKS: We want to take this means of saying "Thank You" to all our friends and neighbors who showed their love and sympathy to us during our time of sorrow.

To those who came by, called, prayed on our behalf, brought food, sent flowers, cards and memorials, we wish to express our appreciation.

Our special thanks goes to Brother Darrell Feemster and Brother Paris Barton for their lovely message and to the ladies who provided the music at the service.

Your words of comfort will help us in the days ahead. May God Bless.

The Wallace Boone Family, The Nored Boone Family and The John Spann Family. 14p

CARD OF THANKS: Thanks to our friends in the Haskell, Rule and Rochester area for your thoughtfulness, prayers, cards, visits, calls, food and flowers during this time of bereavement for our loss of Steven. Chamber of Commerce Invites New Members

by WANDA DULANEY
Manager

The Haskell Chamber of Commerce is receiving an increasing number of inquiries from people wanting more details about joining the organization. We will try to answer some of the most frequently asked questions:

1.) WHO IS ELIGIBLE FOR MEMBERSHIP? Any person or business who is interested in advancing the commercial, industrial, civic and general interest of Haskell may join.
2.) HOW MUCH ARE THE DUES? The minimum for a business is \$10.00 per month now and \$5.00 per month for an individual or couple. People are asked to pay according to their ability.
3.) HOW CAN ONE JOIN? By completing the form included in this article and mailing or delivering it to the Chamber of Commerce Office or by calling the office at

864-2477 and asking that a member of the Board of Directors come by to see you.

4.) WHAT IS THE CHAMBER OF COMMERCE? It is a service institution and action organization. It provides a medium through which people can take effective action for the progress of the community.

5.) WHAT DOES THE CHAMBER OF COMMERCE DO? (a) It creates job opportunities through stimulation of industrial and commercial development, (b) It seeks the improvement of community facilities — streets, highways, parks, schools and marketing facilities (c) It brings conventions, sales meetings, special events to the city (d) It works toward developing the agricultural and oil industries of the area.

6.) HOW WOULD A PERSON BE INVOLVED INDIVIDUALLY? Every member of

the Haskell Chamber of Commerce has a voice in determining the policies and projects and every member is needed to work on active committees to get the job done. The degree of participation is up to the individual.

7.) WHAT IS THE GOAL OF THE CHAMBER OF COMMERCE? To promote the commercial, industrial, civic, cultural and general interest of the city and region. To accomplish this, action committees explore every avenue and possibility.

8.) WHAT'S IN IT FOR ME? Every individual, firm, professional, farmer, rancher, oilman, teacher, etc., derives direct benefits in a growing, stable economy.

9.) WHAT WILL I GET TO DO? As a part of the membership you will vote on the selection of the Board of Directors, be consulted with regard to personnel, be asked to help promote community functions, help maintain tradition and seek new innovations, to participate in service projects.

10.) HOW IS THE WORK OF THE CHAMBER FINANCED? By the investment of the membership that pays dues on the basis of ability to pay and interest in the progress of the area.

11.) WHAT IF I DON'T HAVE THE INTEREST OR TIME TO BE INVOLVED IN EVERYTHING THE CHAMBER DOES? While no one will be interested in ALL of the activities, each one will have a choice to be associated with those that fit his special interests, his skills, his experiences, and his time.

12.) WHY ARE SOME CHAMBERS OF COMMERCE RELATED TO AS THE "BIG DADDY" OF THEM ALL? There are many organizations, many professions, many businesses, many clubs, many churches, but the Chamber of Commerce is the only one that encompasses all segments of the community.

13.) WHAT ARE SOME OF THE FUTURE ACTIVITIES BEING PLANNED BY THE HASKELL CHAMBER OF COMMERCE? To name a few: The largest and most spectacular Christmas observance this town has ever seen; a giant Labor Day Celebration; several more Centennial activities such as a Barn Theater presentation, an All-Men's Style Show, a Children's drama about the history of Haskell; regional Dove Shoot; and to support and promote area events such as the Rice

Springs Rodeo, Haskell County Fair, etc.

14.) WHAT IS THE CHAMBER OF COMMERCE DOING ABOUT GETTING NEW BUSINESSES HERE? The Chamber is constantly surveying the needs for additional businesses and industry and making every effort to interest new firms to come here. This also applies to professionals. For instance, the Chamber is conducting a concentrated search to secure the services of an optometrist in Haskell.

15.) WHAT TYPE OF INFORMATION CAN ONE GET FROM THE CHAMBER? People can call the office who are seeking housing and business properties. The Chamber is compiling a list of those available as owners call to give the information. Out of town calls come in frequently, wanting to know names of motels and locations of various firms or individuals.

16.) IS THE CHAMBER OF COMMERCE A POLITICAL ORGANIZATION? The Chamber, in its activities, is non-partisan and non-sectarian and shall take no part in or lend its influence or facilities, either directly or indirectly, to the nomination, election or appointment of any candidate for office in city, county, state or nation.

17.) DO I HAVE TO ATTEND A LOT OF MEETINGS? The Board of Directors meets regularly once a month plus called meetings, but the Chamber of Commerce Membership does not meet on a regular basis. From time to time, social activities will be planned for all members who care to attend and occasionally "town hall" meetings may be called to discuss matters of special importance. The advice and counsel of members is welcome and sought by the Board of Directors.
