## ● CONVERTIBLE?

Haskell Fire Chief Tom Watson sits in a slightly modified car after students in a rescue school practiced new techniques. The school was held last weekend in New Braunfels and featured training on the Hurst Rescue Tool, Jaws of Life. Students removed all windows, doors, seats, dash and steering column from the pictured car. Firemen attending from Haskell were: Roy Trussell, Bill Lane, Sam Watson, Phillip Cockerell, and Don Comedy. Chief Watson attended part of the class after attending a finance committee meeting of the State Firemen's and Firemarshalls Association of Texas.

# When Tornadoes Come...

The tornado warning system in Haskell is a cooperative effort of local law enforcement agencies and the Haskell Fire Department.

Officers from various law enforcement agencies are stationed around the city anytime there is threatening weather. In the event any officer spots a tornado, the fire department is notified and the siren at the station is blown for about two minutes. In addition, volunteer firemen drive designated routes throughout town with sirens.

This warning is activated only upon sighting a tornado and all residents are urged to take shelter immediately when hearing the siren.

The key word in taking cover is

'low'. The lowest floor in any building is the safest. Small rooms, such as the bathroom or a closet in the central part of the structure offer the best protection. If this hideout isn't available, taking cover under heavy furniture such as a tipped over couch is advised.

Excellent examples of the large, killer tornadoes are the Lubbock Tornado of May 1970 and the Wichita Falls Tornado of April 1973. It is estimated that some 18,000 persons were in the path of the Wichita Falls Tornado. The survival of 99.8 percent of them was due largely to their knowledge and use of safety rules.

In the open, the best shelter from

a tornado is a ditch, ravine, or culvert. If none is available, move into a field alongside the road. Get down on your knees, as low to the ground as possible, and cover your head with your hands and arms. This is known as the defensive position. Do not remain in a vehicle or try to out-run a tornado. It is difficult to judge either its distance or speed.

In a building, the safest location would be a tornado shelter. Next best would be a basement. Hide under a heavy desk or stairwell. Otherwise, go to a central closet, bathroom, or small hallway on the lowest floor. These rooms are safer when away from chimneys and taller structures that may collapse

on them. They have the advantages of greater reinforcement per unit volume and more walls between the occupants inside and flying debris outside. Flying debris causes most tornado deaths. When you reach the shelter, assume the defensive position.

Avoid areas with large span roofs such as cafeterias, auditoriums, and gymnasiums. They are subject to collapse. Also avoid areas with extensive glass. It is likely to be shattered by the extreme winds and flying debris. Do not waste time opening or closing windows to reduce inside pressure. The pressure change near a tornado (very low pressure) causes little, if any, structural damage. Simply make sure you and the people you are with are safe.

Fire Department officials urge all local residents to have a pre-planned place of cover, easily accessible, and to seek the shelter immediately when the local warning is issued.

## Ford House Burglarized

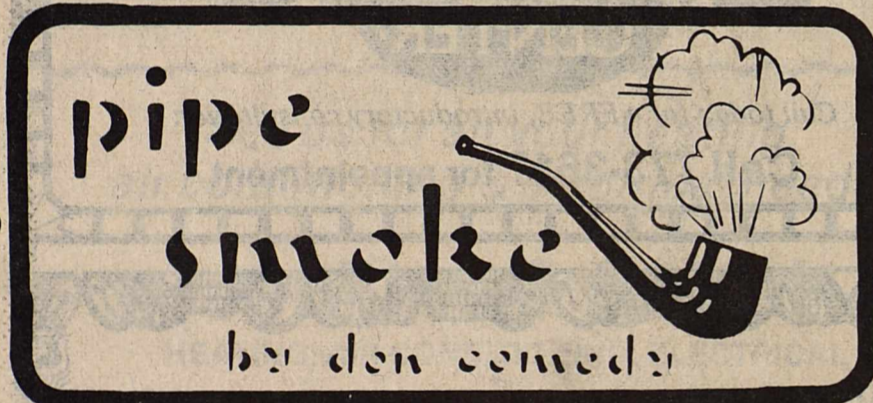

Local law enforcement officers are investigating a burglary at Bill Wilson Motor Company which occurred Tuesday night or Wednesday morning.

Entry was apparently gained through a window on the East side of the building according to Sheriff's Deputy John Turner.

He added that the burglars apparently took about \$140.00 in cash before leaving the scene in a wrecker which was in the shop area. The wrecker was found Wednesday morning on the Dairy Queen parking lot.

As we stated here last week, the first line of defense against most crimes is a concerned community in which neighbors take a protective interest in the property of their neighbors.

It's hard to out-run an alert neighborhood!

NOTE: A news story in Odessa recently prompted James Roberts of the *Andrews County News* to write the following in his 'Drifting Sands' column:

Members of the Plains, Quanah, and Earth-Springle track teams spotted two men rummaging around in the Plains bus. A quick check of the bus revealed wrist watches and cash missing.

Team members alerted other competing teams about the burglary in progress and when the two men were spotted again, the athletes gave chase.

One suspect was jumped in the middle of the Odessa High School track field and the other man ran west toward an open street. Two track brothers from Quanah and a trio of tracksters from Plains took in after the man in hot pursuit.

The culprit ran hard, dodging in and out of streets and alleys, but in the end, spirit and training won out. The suspect didn't have a chance. He simply ran out of gas.

The runners told Odessa police they ran about 20 blocks before the suspect, out of breath and frightened, tried to take refuge in the back of a pickup truck.

The runners surrounded the truck, folded their arms, and waited for the police to arrive. The officers said the tracksters had the situation under control when they arrived. Police took the two men into custody and prepared six burglary cases against the pair.

It's a great story and we love it! Those high school athletes provide a perfect example for all of us in how to combat the rising tide of crime everywhere in west Texas.

## HIGH WATER

About seven inches of rain in the past five days has saturated the ground and area creeks are almost all completely full. Continuing forecast of rain poses to potential for flooding. Pictured above is Spring Branch Creek, southeast of Haskell. The photo was taken about noon Tuesday and additional rain Tuesday night will increase the size of the creek still further.

## HAIL DAMAGE

Hail reported as large as golfballs caused extensive damage to wheat crops in Haskell County Monday night. Much of the damage occurred in varying degrees and was spotted. Damage also occurred to cars, roofs, and windows. The most severe reports of damage were between the Paint Creek School and Green's Camp at Lake Stamford.

# Sidewalk Saturday Set June 5 By Chamber

**WANDA DULANEY, Manager**  
Haskell Chamber of Commerce

June 5 will be *Sidewalk Saturday* in downtown Haskell.

It will be a composite of a flea market, a street carnival, outside exhibit hall and fun festival.

Sponsored by the Haskell Chamber of Commerce, Retail Trade Committee, with Bill Lane Jr., chairman, all merchants have been asked to participate. Those whose businesses are off the square are invited to display some of their wares around the courthouse sidewalk.

Local artists, Senior Citizens, School and Church organizations are also welcome to be a part of this community effort.

Haskell and out-of-town customers will have a chance to go on a bargain-binge and have a lot of fun browsing through the merchandise.

Why not take the time also to see what's inside the stores? If not for immediate purchases, think of the ideas you'll get for later shopping.

Listen to KVRP-FM radio and check the *Haskell Free Press* for the merchants' ads listing specific bargains you can expect to find on Sidewalk Saturday.

Hank Sherman, member of the Board of Directors of the Chamber of Commerce and Haskell merchant, will set up a TV-showing downtown of the films he made including the various places of business.

The Retail Trade Committee reports that this event has been so popular in the past that the requests

to repeat it from both merchants and customers have been numerous.

In the event of rain, the sales will simply be moved inside the stores, so nothing short of a deluge should dampen the spirits of our townspeople.

This is another "Together" project in Haskell in which a lot of people will be working side by side for the advantage of many more.

It is a continuation of our year-long centennial activities which are designed in the interest of nostalgia, unity, harmony and prosperity in our community.

Plan now to be on the square in Downtown Haskell on Sidewalk Saturday, June 5. It's where your friends and neighbors will be!

## Pecan Spraying Dates Set

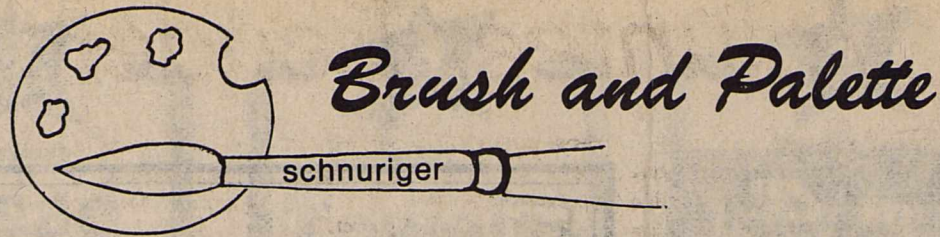

It appears that control measures for the pecan nut casebearer will be needed later than is the case in most years, based on pecan nut casebearer moth emergence.

The most optimum time to spray for the first generation of the pecan nut casebearer has been set for May 30-June 4 for Haskell County. There will probably be more than one casebearer generation. Therefore additional spraying might be needed. Malathion, Sevin, and Zolone can be used to control pecan nut casebearers.

Use these materials according to the information on the labels. Additional information on pecan nut casebearer spraying can be obtained from the County Extension Office.

MR. AND MRS. LUTHER MEIER of Old Glory announce the forthcoming marriage of their daughter Melissa to Tommy Robertson of Rule. The bride-elect is a May graduate of Old Glory High School. Robertson is employed by Wilcox and Sons of Rule. The couple plans to be married June 18 at the Sweethome Baptist Church in Rule. Melissa is the granddaughter of Mr. and Mrs. S. F. Turner Sr. of Rochester.

Throughout years of observing painters, sculptors, illustrators and all manner of craftsmen, I've learned that there are many devious highways that lead to successful careers in the arts. The route most commonly taken delivers the student directly to the door of a professional school, a college or university. If this is not available, then a school that teaches techniques, design and basic principles is the next best. A surprising number of successful artists arrive by less obvious routes, by-passing the are school entirely. Often this is more of an accident or a forbidding circumstance than deliberate planning. College courses and area schools give basic courses in drawing, oil, watercolor and acrylics and other media - take advantage of a re-fresher course and start with new ideas.

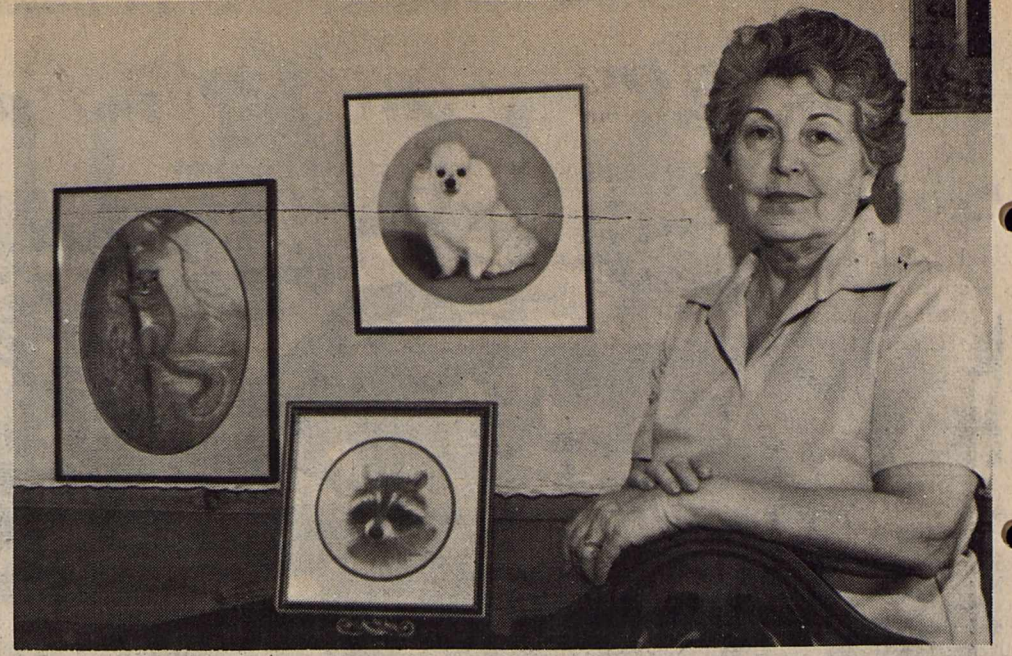

Q. How can you make a durable oil painting on glass? A. This has plagued artists through the ages. This is the procedure I use: 1. Clean glass thoroughly with vinegar. 2. Mix the colors with Damar Varnish and a little Turpenoid. 3. Using a soft brush, paint the motif in REVERSE. Begin with the foreground and work into the background, which is opposite from the usual oil technique. Do the 'bone' of the painting first. Then add tonal qualities behind. 4. Let dry a few days and then apply light washes or glazes. 5. When painting is finished, allow a few weeks for thorough drying and then spray with enamel that some in an aerosol spray container (clear). With the glass standing vertically, apply several light coats. This eliminates dripping down on the glass. 6. Using a light behind the glass

enables you to see just how much spray is necessary to gain the desired effect. The resulting surface is waterproof and may be washed. The aerosol spray enamel is truly a marvelous product for artists. Many windows could be painted to give a decorative effect. I urge all artists to experiment with painting on glass.

Q. Can linseed oil be used for varnishing? A. Only a good 'named' brand of picture should be used IF you feel the picture must be varnished.

HINT: You grow up the day you have your first real laugh-at yourself.

Write your questions and hints to me, Faye Schnuriger, P.O. Box 134 Haskell, Texas 79521. I will not use your name but do want you to sign your letters.

### GUEST ARTIST

Neloise Cooper, of Kingsland, will be the guest artist for June at Faye's Art Center. The public is invited to attend a special get acquainted and welcome party for her June 6, from 2 to 5 p.m. She has received numerous awards during the past two years including first place awards at the two past Gonzales Come and Take It Art Shows and Best of Show Award at the 1980 show. She is a member of the Hill Country Foundation in Ingram; Highland Art Guild in Marble Falls and the Buchanan Art Gallery at Buchanan Dam.

## Annual McMillin Reunion Held Recently In Haskell

The children, grandchildren and great great grandchildren of the late Willard and Eva McMillin met Saturday and Sunday 22nd & 23rd for their annual family reunion.

They met Saturday in Haskell, in the evening they met in the Ted Jetton home in Weinert.

Everyone was glad to see

one another. The Jettons showed two new great grandsons. McMillin cousins came from different places, that had not been together in 30 years.

Sunday morning they all met in the Haskell National Bank Community Building.

Larry Havel, a cousin from Austin, had done a lot of research on the McMillins'.

Slides were shown of the old home of their grandfather they all remembered so well. Also a story of he and his family's life before they came to Texas. They were very interesting for all.

Worship Service followed with Bill Jetton of Brownwood directing the singing and Dan

McMillin bringing the lesson.

The noon meal was enjoyed by all, with music by Bobby Hampton of Pilot Point.

In the evening, singing groups visiting and picture making was an enjoyable time for all present.

One sister Gladys Fraly and her family, was unable to attend due to a death in the Fraly family.

Next year, the reunion will be at Lubbock.

Families attending came from San Angelo, Lubbock, Andrews, Amarillo, Gunter, Pilot Point, Dallas, Taylor, Austin, Holliday, Brownwood, Haskell, and Weinert.

### Granddaughter Of Local Couple Named Valedictorian

Kathy Howard, granddaughter of Mr. and Mrs. Hollis Howard of Haskell, has been named one of two top graduates of Wylie High School, Collin County.

With a four year average of 95.66, Kathy, daughter of Mr. and Mrs. Ken Howard, received valedictorian honors. While at Wylie High, she

served as president of the Art Club, was a member of the French Club, the JV tennis team, the Rodeo Club, and the National Honor Society. She also participated in the GLAD (Gifted Leaders are Developed) Program. Kathy plans to attend the University of Dallas, from which she has received a \$4,000 scholarship.

MR. AND MRS. RICHARD B. GOOSTREE of Friendswood have announced the engagement of their daughter, Lisa Beth, to Jimmy D. Browning, Jr. of Haskell. Lisa graduated from Friendswood High School and is a 1982 magna cum laude graduate of Texas Tech University with a degree in Advertising. Jimmy graduated from Haskell High School and will graduate from Tech next May with a degree in Petroleum Engineering. The couple plans an August 7th wedding at First Presbyterian Church in Haskell.

## HYH Install New Officers

The last meeting of the 1981-82 year for the Haskell Young Homemakers was held Tuesday, May 18 at the home of Mr. and Mrs. Johnny Fouts.

The main order of business was the installation of new officers. Women filling these positions for next year are as follows: President-Susan Pope, Vice President-Leesa Toliver, Treasurer-Charlotte Peiser, Secretary-JoAnn Hannsz, Reporter-Rosemary Brown, Parliamentarian-

Bonnie Fouts. Installation exercises were conducted by Mary McCollum.

The Outstanding Young Homemaker for the year was announced by Ellen Rieger.

The woman voted most valuable by fellow HYH members was Bonnie Fouts.

At the end of the evening, secret pals were revealed and refreshments were served by hostesses Pam Mathis, Janet Jacobsen, Beverly SoRelle, and Debra Bartley.

### Summer Workshop Set By Mesquite District

The Woman's Literary Club of Hamlin will host the summer workshop of the Mesquite District, Texas Federation of Women's Clubs, on Tuesday, June 8, 1982. Site for the meeting will be the Hamlin Senior Citizens Center at 312 SW Avenue B.

Mmes. Leone Brown and Jerry Smith of Hamlin are general chairmen for the meeting. Mrs. Morris Snyder of Moran, Mesquite District president, will be the presiding officer.

Registration will begin at 9:30 a.m. and continue until 10:00 a.m. Members of the Woman's Literary Club will serve coffee and cookies during the registration period.

Each club member is asked to bring a sack lunch. Drinks and cookies will be furnished by the Hamlin club.

### Engagement Party Honors Couple

Mr. and Mrs. Jimmy Browning hosted an engagement buffet on Sunday evening, May 16th at their home introducing Lisa Goostree, bride-elect of their son, Jimmy Browning, Jr.

Other honored guests were parents of the Bride-elect, Mr. and Mrs. Richard Goostree of Friendswood and Miss Vicki Bailey and Miss Angie Biggs of Lubbock.

## Harvest, Store Fresh Potatoes Properly

Fresh potatoes can be harvested any time for immediate consumption once the tubers are of sufficient size, says Max Stapleton, county agent with the Texas Agricultural Extension Service.

However, yield is reduced and storage quality is lowered by harvesting potatoes before tops begin to dry down. Potatoes harvested early (immature tubers) have thin skins which allow fairly rapid water

loss, causing them to shrivel and become soft shortly after storage.

Once harvested, proper storage is important to maintain the quality of the fresh potatoes. Stapleton suggests storing the potatoes in complete darkness in moist air at about 60 degrees F. for several weeks. Lower temperatures to 38-40 degrees F. for long-term storage. Colder temperatures prevent sprout-

ing while warmer temperatures encourage it. Whatever the storage temperature, keep potatoes in complete darkness. Exposure to light causes freshly dug potatoes to turn green and to develop an undesirable bitter flavor.

Digging potatoes at the right time and storing them properly can mean a supply of top quality potatoes for some time, adds Stapleton.

# Retirees Valuable As Volunteer Leaders

May is both "Older American's Month" and the month for honoring volunteers. Taken together, honors go to a special combination -- the older volunteer.

valuable community resource when it comes to filling leadership positions, reminds Judith L. Warren, family life education specialist -- aging, with the Texas Agricultural Extension Service, Texas

A&M University System. "Being a contributing community leader provides a valuable role for the retired person seeking a new dimension to his or her life," Warren says.

Some retired people, the specialist says, welcome a "second career" in volunteering. "These retirees are willing to assume leadership positions that require day-to-day efforts on a year round

basis," she adds. Many retired people, however, desire a more flexible volunteer schedule. These individuals are quite willing to be volunteer leaders but desire short term projects.

Several steps should be considered in order to successfully involve retired adults in volunteer leadership, Warren suggests.

"First, determine the scope of the project. Second, identify

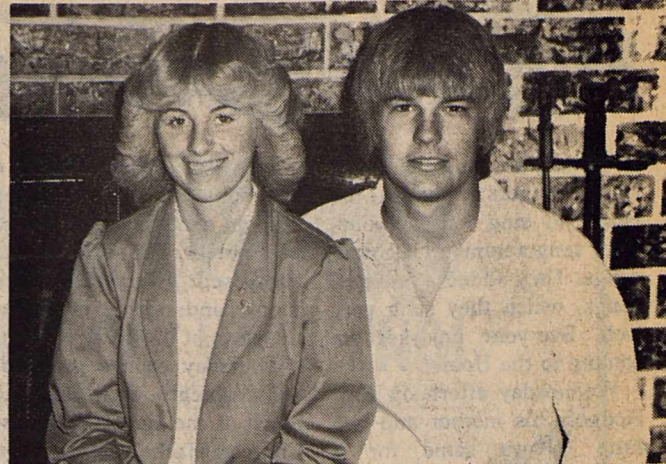

those potential 'career' volunteers to head up lengthy projects," she says.

Then focus on other retired people for short term projects or those requiring intermittent involvement. Examples of such projects would be a public television fund-raising drive held annually or a series of educational programs on personal safety, she adds.

"Be sure to communicate clearly the scope of the project

-- both in terms of length and responsibilities -- to the individual being enlisted as a volunteer leader. Time is usually the critical concern of the older volunteer; responsibilities can be managed," the specialist says.

By following these steps when enlisting assistance, one is more likely to come up with a winning combination -- the retired volunteer leader, Warren says.

MR. AND MRS. J. W. WALLACE, JR. of Haskell announce the engagement and approaching marriage of their daughter, Janet Rachele to Marc Kevin Thane, son of Mr. and Mrs. Leland Thane of Sagerton. The couple plan to exchange vows June 26 at 7 p.m. in the First Baptist Church in Haskell. Janet is a 1981 graduate of Haskell High School and is attending Western Texas College. Marc is a 1981 graduate of Rule High School, attended Western Texas College, and is presently employed at Bill Wilson Motor Co. in Haskell.

MR. AND MRS. DAN RILEY GRIFFITH of Haskell announce the engagement and approaching marriage of their daughter, Kimberly Suzette to James Lyndon Beauchamp, son of Mr. and Mrs. Larry Beauchamp of Rochester. The bride-elect is a graduate of Haskell High School and will be attending McMurry College. A graduate of Rochester High School, the prospective bridegroom is engage in farming. The couple plan a July wedding.

## May Is Older American Month

**FROM LOU GILLY AND MAX STAPLETON County Extension Agents**

Who are the older people in your life? A parent, a neighbor, someone in your church that you see on Sundays, a former teacher? Take time to think about and acknowledge the older people you know during May, Older Americans

Month. Think about the contributions they have made on a personal level to you and others, in their work, and to their community. Perhaps the scout leader of your youth started the love of wildflowers that you have today. Perhaps the English teacher who was

so demanding to perfection contributed to your spelling and writing skills. You may think about people who sponsored and coached the little league team you played on. Or you may think of a parent or grandparent who instilled your family with values you hold today.

Acknowledge these contri-

butions through a personal visit, telephone call, a card or letter. In making a personal expression of thanks you are contributing to that individual's sense that their life has truly had an impact on others.

If you have moved from the town where you grew up but would like to express appre-

ciation to people from that community, write a letter to the editor of your local paper and make your thanks public. You may even want to thank specific individuals that you know are still living in the town.

Older American's Month is a time to let the older people in your life know that you care.

## Elementary Students Tour Haskell Co. Library

Honored guests of the Haskell County Library on May 17 and 18 were the first and third grade classes of Haskell Elementary.

On the 17th, the third grade, which numbered 33, were brought to us by the teachers, Mrs. Jean Raughton and Mrs. Pam Gibson.

On the 18th the first grade was represented by 48 students under the supervision of their teachers, Mrs. Connie Feemster, Mrs. Debi Burson, and Mrs. Thelma Thomas.

Each year the children walk from elementary school to the library after the noon meal. Usually the weather is lovely and this year was no exception.

Once at the library Mrs. McGee librarian, explains the upcoming Summer Reading Program, acquaints the children with books of their age group, and explains the working of the library in general. Many of the children

are "at home" here, having read some of our starting books, and the remainder of the children show great interest in the library. They

are a joy and are always welcome.

Librarian, Mrs. Elsie McGee

## "Space Capers" Is Theme Of Summer Reading Club

The Haskell County Public Library will be the brightest star in the galaxy this summer. "Space Capers" is the theme of the Texas Reading Club and will focus on space exploration and travel, the mysteries of the universe, and the finest in science fiction.

The payload that each participant will receive includes a space age bookmark, and reading log to record books read, and a celestial

certificate for those who complete the program.

Special displays and activities are planned. Participation in all of the activities of the Reading Club is free.

Liftoff will occur on June 1st.

August 31 will be the landing date and remember, says Mrs. Elsie McGee, Librarian, that the site of all this activity is the Haskell County Public Library.

Tuesday evening the Sweet Home singers came to the Home to sing for everyone. They sang a number of gospel songs. They added a few new songs, which they sang very well. Everyone enjoys them coming to the Home.

Wednesday afternoon Bro. Hodges, his mother and two little fellows came for a devotional. Bro. Hodges opened the service with

prayer. Mrs. Hodges gave a testimony. Bro. Hodges brought a message and closed with prayer. The little fellows impressed everyone. They shook hands with everyone at the close of the service.

Thursday noon a group of our residents went and ate lunch at the Eastside Baptist Church, Haskell. Rev. Segó brought a message to them. Lots of good food was served

to all. Each one enjoyed themselves very much.

Thursday afternoon a group of us gathered in the dining area and viewed pictures upon a screen of the Country of Egypt. We observed the many carvings, out of stone. Many other sights of interest were shown. Everyone reported they enjoyed seeing the pictures.

Mrs. Joy Hill of our Home entered the Stamford Hospital, the first of this week. We trust she will be back with us soon.

Sunday afternoon a group from The First Christian Church came out for a devotional. We have enjoyed them coming throughout this month. Everyone has enjoyed Bro. Garrison's messages so much.

## SPECIAL AWARDS

Stephanie Browning and Cris Lopez received the American Legion Award last week during a special awards ceremony at Haskell Junior High School. The award is presented annually to two outstanding Junior High Students. Browning is the daughter of Mr. and Mrs. Jim Browning and Lopez is the son of Mr. and Mrs. Poncano Lopez Sr.

## Counting Sheep Has Special Meaning To Dwanna Klose

While counting sheep may be a sure-fire way of going to sleep, for Dwanna Klose of Haskell it is just part of her job as field enumerator with the Texas Crop and Livestock Reporting Service (TCLRS). And if sheep are not on the agenda, then Klose may have to count anything from mother cows to the number of bolls on a cotton plant.

Klose has been with the TCLRS since 1973 and is currently an enumerator in Haskell County. Her warm, outgoing personality has made her some lifelong friends, and many farmers and ranchers look forward to her visits.

Making her survey routes with maps, tape measure and

questionnaires in hand; a full tank of gas in the car; and a warm smile for everyone she meets, Klose travels Haskell County gathering information which helps keep crop and livestock producers abreast of the constantly changing agricultural situation.

Field enumerators provide the vital link in the data collection services of the TCLRS, because they are the only personal contact farmers and ranchers have with the agency. Currently there are over 100 enumerators working on farm and ranch surveys across the State.

Most enumerators have an agricultural background, and they are certainly familiar with the plight of the Texas farmer who is caught in a squeeze between low farm prices and high production and interest costs.

Beginning in late May, the enumerators will be contacting randomly selected farmers and ranchers in Texas to collect data pertaining to specific land areas. Armed with aerial photographs, they will travel farm-to-market roads to find a land segment, and sometimes a stock tank provides the only landmark.

Information gathered from these confidential, personal interviews will be used in helping to set the first major planted acreage estimates and mid-year livestock inventories for 1982. While participation is voluntary, the farmers' cooperation is vital in developing reliable indications about the current agricultural situation.

The TCLRS, a cooperative agency of the United States Department of Agriculture and the Texas Department of Agriculture, is responsible for setting State and County

Browning received the Associate in Arts degree.

Summer classes at WTC started May 27 and persons interested in classes on the Snyder campus or at the Haskell extension center are invited to contact the Student Services office at 915 573-8511 or Bill Blakely at 864-2891.

## PROCLAMATION

WHEREAS: The annual sale of Buddy Poppies by the Veterans of Foreign Wars of the United States has been officially recognized and endorsed by governmental leaders since 1922; and

WHEREAS: V.F.W. Buddy Poppies are assembled by disabled veterans, and the proceeds of this worthy fundraising campaign are used exclusively for the benefit of disabled and needy veterans, and the widows and orphans of deceased veterans, and

WHEREAS: The basic purpose of the annual sale of Buddy Poppies by the Veterans of Foreign Wars is eloquently reflected in the desire to "Honor the Dead by Helping the Living"; therefore

I, Francine Johnson, Mayor of the city of Haskell do hereby urge the citizens of this community to recognize the merits of this cause by contributing generously to its support through the purchase of Buddy Poppies on the day set aside for the distribution of these symbols of appreciation for the sacrifices of our honored dead.

I urge all patriotic citizens to wear a Buddy Poppy as mute evidence of our gratitude to the men of this country who have risked their lives in defense of the freedoms which we continue to enjoy as American citizens.

Dear Editor,  
I want to say that I have never enjoyed an evening any more than on Wednesday of our Western Week at the First Baptist Church.

The young pastors of the churches of our good town really expressed themselves in singing & playing gospel songs in praises to our God.

They all are to be commended for their services to the Haskell community.

Haskell, keep up the good work!

## IS YOUR INSURANCE AGENT LOCKED INTO ONE COMPANY?

There are 2 ways to buy insurance. You can buy your insurance from a one-company agent. But he's locked into only those policies that his company sells. So his hands are tied.

Or you can buy your insurance from an Independent Insurance Agent... the more-than-one-company agent. You see, your Big "I" Independent Agent doesn't work for one company. He represents several. So he's free to give you an independent opinion and advise you on the best coverage at the best price. And that goes for homeowners, automobile, business, life and health insurance.

## Superintendent's Views

BY JAMES LANIER  
Superintendent, Haskell ISD

In this column, I will continue to discuss the development of the 1982-83 budget through our budget studies at each board meeting. Remember, these are only budget studies and a method used by administrators to inform and involve the board in the budget process. I am using this column, to keep you, the public, informed concerning the same issue.

Last month, the Board and Administration worked on the co-curricular budget. This part of the budget deals with

student activities outside the academic realm. One facet is the Band and their expenses. (This does not include the bands materials and equipment.) The Bands part of the budget comes to \$4065. This includes expenses for state marching contest, Senior jackets, state solo and ensemble contest, etc. These are entry fees and travel expenses. The Vo-Ag portion of the co-curricular budget involves the same area, travel and entry fees. Their portion comes to \$1000. The literary portion includes both travel expenses and expenses for materials. It includes dues, entry fees, and royalties. This total is \$2935. This is the year to revise the student handbook with a cost of \$500. The Senior diplomas cost about \$350. The Athletic Budget is the major part of the co-curricular budget. The estimated cost for football is \$12,981. Again, this includes supplies and equipment. The total for basketball comes to \$3559 and track comes to \$3998. The total for tennis comes to \$555, golf comes to \$596, and off season comes to \$1418. Total entry fees for all sports comes to \$1775, total medical supplies comes to \$1500, rooms and meals for state and regional meets, \$3000, officials, \$2500, coaching clinics, \$2820, awards (jackets, letters, etc.) \$1200, freight, \$500, athletic physicals, \$1000, repairs, \$700, marble dust, \$525, game workers, \$1800. This comes to a total athletic budget of \$40,257. We are anticipating revenues of \$17,500. These are gate receipts from football and basketball. This brings the total co-curricular budget to \$31,607. This does not include teaching supplies such as music, horns, teaching materials, etc.

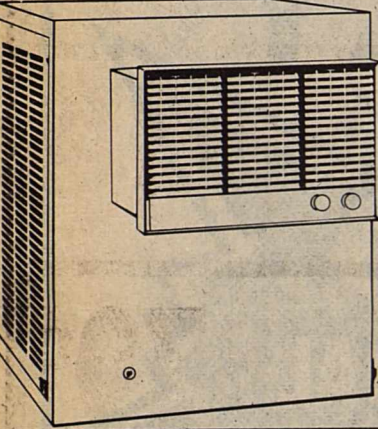

I hope these columns in the ongoing process of the budget will help you to keep informed where your tax dollars are going.

Since you can't tell what's inside...

Treat all your seed with Vitavax-200

Farmers throughout our growing area are reporting an outbreak of true loose smut in their fields this spring. Research shows there is a direct correlation between the percentage of infection and the loss in yield. A 5% infection, for instance, results in a 5% yield reduction. A 10% loose smut infection results in a 10% yield loss.

Since even a small loss due to smut is more than you can afford, you should have Bronco Seed Company treat your wheat seed with powerful Vitavax-200 systemic fungicide. Vitavax-200 protects your wheat against disease losses from true loose smut, common bunt, seed rots and seedling diseases. Vitavax is patented as a growth stimulant.

Under field stress conditions, like drought or cool, wet weather, Vitavax-200 treated plants normally emerge faster, develop more extensive root systems and larger crowns, and produce healthier stands that contribute to higher yields.

With today's fluctuating grain prices and profit margins, you have to make the most out of every acre you plant. Now, more than ever, you should be planting top quality seed treated with the best fungicide available.

Bronco's custom conditioning plant always assures you of pure quality wheat seed, and we treat with Vitavax-200, the leading seed treatment in the United States today.

Thursday 13th was a very busy day at Rice Springs. Thursday morning Mona Gibson of Old Glory and Tommi Ann Threet of Rule came over and volunteered to groom the ladies hair for the events of the day. At 2 p.m. a very talented group of 3rd and 4th grade children along with their sponsors, Mrs. Gann, Mrs. Reiger and Mrs. Toliver from Rule Elementary School presented a program of song and dance. At 5:30 Mrs. Jessie Brown, Mrs. Mae Brock, Gene Sanders, Joe Teague, Willard Jones, Mr. Henry King, and Mrs. Beulah Persons along with several employees rode on the float. The theme was a birthday party celebrating Haskell's 100th birthday, and one of the

residents, Mrs. Beulah Person who is nearly as old as Haskell, a spry 95 was the life of the party and enjoying every minute of it. She was attired in a black and white skirt, white blouse, red bonnet and corsage. Thanks for the many volunteers who spent hours on the float preparation. At 7:00 p.m. the Stonewall County Band was on hand for the Nursing Home Open House. Many lively numbers was played and enjoyed by the residents and guests. There was a lot of toe tapping as well as several residents did the waltz. Every one had a good time visiting and enjoying the music before the refreshments was served from a red checked table cloth with a center piece of wild flowers in a blue

granite coffee pot. Dips were served in blue granite tea-cups, chips served from various size crocks as well as the punch. Western attire and relics decorated each end of the table. One end had saddle, hat, spurs, chaps, branding iron, lariar rope, and the other end had a quilt, bonnet, kerosene lamp, rub board and iron. We thank the volunteers who served and helped in any way to make our open house a great success. We welcome our new residents, Mrs. Agnes Schmidt, Mrs. Emily Keahey, and Mrs. Ethel Adkins. ## Family Land Heritage Program Now Underway

"This year we're hoping to surpass the 1,500 mark in the total number of Texas properties registered in our Family Land Heritage Program," Agriculture Commissioner Reagan V. Brown said recently. "And we certainly hope individuals interested in history or agriculture in Haskell County will help us by bringing as many qualified applicants into the program as possible." "Dusty Garrison, Haskell County Historical Commission chairperson and Haskell County Judge John W. McDermott, will be working with us on the program," Brown said. Since 1974, the program has honored 1,443 Texas properties.

extend from May 15 to August 15. Those who qualify are honored in state ceremonies and receive a certificate and a copy of the Family Land Heritage Registry. The publication has a brief history of each farm or ranch and includes old photographs of the families and homes. Basic requirements include the following: Continuous agricultural production on the farm/ranch for 100 years, land ownership within the family, complete operation or supervision of the farm/ranch production by family members

who are Texas residents and a size of 10 acres or more with agricultural sales of \$50 or more a year, or if less than 10 acres, sales of at least \$250 a year. County judges must approve all applications. Persons who meet the basic qualifications and wish to enter can obtain an application from the county judge, county Historical Commission chairperson, the nearest TDA district office, or by writing to Commissioner Reagan V. Brown, Texas Department of Agriculture, P.O. Box 12847, Austin, Texas 78711.

## EMT Class To Begin June 3 At Sweetwater

The Texas Department of Agriculture (TDA) is entering its eighth year in sponsoring the program which honors "those families that have persevered for a century or more in the cultivation and production of food and fiber," Brown said. "Undoubtedly, these families, with their unfaltering determination have been the backbone of Texas Agriculture." The registration period will

A beginning class for Emergency Medical Technicians will be offered June 3 through August 11 at Texas State Technical Institute in Sweetwater. The course will meet twice weekly from 6:00 to 10:00 p.m. Firm class days will be discussed at the June 3 class meeting. The State of Texas requires all Emergency Medical Technicians to be licensed. This course meets or exceeds state requirements, and all those

successfully completing the course will be licensed by the state. Emergency care aspects of heart related and respiratory problems will be covered, along with fractures and dislocations and medical emergencies. Students will also become familiar with extrication and general ambulance procedures. For more information, contact the Department of Continuing Education at 235-8441, extension 40.

THE BEST IN MEAT, CUT THE WAY YOU WANT IT

## EVEN WHEN YOU'RE AWAY...YOUR HOME KEEPS RUNNING

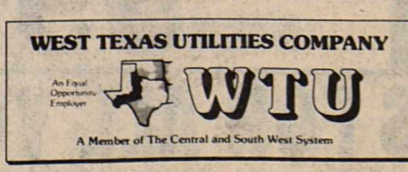

You may naturally expect your home to use less electricity while you're away for a week or more. The reduction may not be as great as you think, however. That's because there are many factors that can affect your usage: weather conditions, billing periods and even vacation preparation.

- Very hot weather before you leave and after you return means increased use of air conditioning this makes it difficult to compare your bill with a previous month of milder weather.
- Hot weather causes your refrigerator/freezer to run longer, particularly if your home air conditioning is turned off while you are away.
- If the time you're away falls within two billing periods, the reduction you expect will be split between two bills.
- If you didn't turn off your electric hot water heater before you left, it continued to keep your water hot 24 hours a day, even though you weren't there.

- And don't forget... when getting ready for a vacation, you often use more electricity than usual for cleaning, washing, drying, ironing, cooking and general preparations. The same is true about your return.

**Check your meter.**  
If you learn to read your own meter, you can find out just how much electricity was used while you were gone. And, you'll see just how much energy you're using during the summer, the heaviest electricity-consuming season, with your air conditioning operating most of the time.

Remember REDDY Supplies the energy—but only YOU can use it wisely!

## Conservation Viewpoints

USDA Soil Conservation Service

Additional funds for the installation of conservation practices will enable six local producers in the Haskell Soil and Water Conservation District to make plans and write contracts for the construction of much needed terraces, waterways and the controlling of mesquite and seeding of pastures.

New funds just received thru the Great Plains Conservation Program will enable Joe and Jerry Lowe and Mary Payton McCleary to install soil saving practices on their farms and reduce runoff pollution.

Joe and Jerry will be installing grassed waterways and Parallel terraces on about 380 acres and rootplowing mesquite and seeding Klein-grass on another 80 acres. Mrs. McCleary, assisted by Sam Herren, will be installing 29 acres of grassed waterways and constructing parallel terraces on 213 acres of farmland.

These two Great Plains contracts are in addition to two contracts funded in March on Sam P. Herren and Mrs. Martha Urrea. This brings the number of producers in the Haskell SWCD who are benefiting from this program to 28 individuals on about 16,700 acres of land.

Funds thru the Long Term Agreement program have been received for cost-share assistance to: Mrs. Eula Poteet - Dale Carroll, operator; Leon Newton; Cecil Lewis and Dwight Key. Dale Carroll will be installing parallel

terraces and grassed waterways on 160 acres that will dispose of his water and outside water traveling thru the farm.

Leon Newton will be constructing grassed waterways and standard terraces on his 206 acres south of Matteson. Dwight Key has plans for the construction of graded type parallel terraces on 346 acres in the Brushy community.

Cecil Lewis has plans for installing a Grade Stabilization Structure, along with grassed waterways and parallel terraces on his 150 acres northwest of Rule. These four LTA's in addition to funds received in April for a contract on Mrs. Elizabeth Cofield of Haskell, brings the total number of producers benefiting from this program to 13 individuals on 3871 acres.

The funding of these new contracts is evidence of concern over the dwindling resource base we as a people face. It was thought that no new funds for Haskell would be received in 1982, but we now have some \$70,000 for the installation of practices on these interested and concerned producers.

Contact the Soil Conservation Service in Haskell for assistance with your soil and water needs. Planning and technical assistance is provided thru the Haskell Soil and Water Conservation District without regard to race, color, sex, creed or national origin.

## Hermann Sons Camp To Open Saturday Near Comfort

More than 1,800 boys and girls from Hermann Sons lodges across Texas, including the Haskell Lodge, are expected to attend the fraternal benefit society's youth summer camp this season in the Hill Country near Comfort.

Located in the southeast corner of Kerr County on the

### Don Welch To Assume New Duties

Don Welch begins his duties June 1 as Vice President and Director of Customer Services for West Texas Utilities Company.

He succeeds Dick Brooks, who moved to Corpus Christi to become vice president, engineering, for Central Power and Light Company, which, like WTU, is a member of the Central and South West Corporation.

Welch has been an executive assistant at WTU's general offices in Abilene since February 1, and previously had been district manager at Stamford and local manager at Alpine, Wellington and Aspermont.

WTU supplies electric service to 161 communities in a 53,000-square-mile area extending from the Panhandle to the Big Bend.

DON WELCH

Guadalupe River, the camp will open Sunday, May 30, with six weekly sessions for girls, followed with five sessions for boys July 11 to Aug. 14.

Registration this spring is running ahead of last year when a record number of 1,876 youngsters attended, Louis B. Egelke of San Antonio, grand president of the Order of the Sons of Hermann in Texas, said. Some 1,750 junior members were registered by mid-May, with many more applications for registration forms still in the hands of parents.

Since the first season in 1954, the camp has seen 36,450 junior members participate. The camp can be free on a merit point basis for junior Hermann Sons who earn sufficient credits by attending junior chapter meetings or by successfully recommending new members to the fraternal order. The maximum fee those members who earn no points will pay for a one-week session is \$30, well below fees paid at comparable Hill Country camps.

All junior members attending camp must be 9 years of age and less than 14 years of age before the opening day of the 1982 season. Camp director is Debbie Krueger of San Antonio, a graduate of Texas Lutheran College in Seguin and a high school teacher in the Southwest Independent School District in San Antonio. She was assistant camp director the past two summers.

The camp features masonry-constructed dormitories, dining hall and kitchen and includes facilities for horseback riding, swimming,

archery, tennis, softball, soccer, trampoline, tumbling and arts and crafts.

### College News

Cindy Everett of Haskell is among 50 Texas Tech University students awarded scholarships for the 1982-83 academic year by the Texas Tech Dads Association.

Everett, daughter of Mr. and Mrs. Felton M. Everett, 405 N. Ave. B, Haskell, received the \$650 W.B. Mozelle Rushing Scholarship. Everett is a freshman elementary education major.

The Texas Tech Dads Association is an organization of parents with children at the university and of Texas Tech supporters. The association, which has raised a \$260,000 endowment for student scholarships, is currently conducting a \$500,000 fund drive to support a distinguished visiting professor program at Texas Tech.

## Proper Ventilation Saves Energy

Using outside air wisely can reduce energy use for residential air conditioning. During spring and fall periods when average outside air temperatures are comfortable (82 degrees F. or below), whole house or attic fans can be used to pull outside air into the home and remove heat, points our Dr. Bill R. Stewart, agricultural engineer with the Texas Agricultural Extension Service Texas A&M University System. However, this practice may not be desirable for those with allergy problems. A whole house fan is usually installed in a hallway ceiling

or other convenient location so that it can pull air through any or all the rooms, notes Stewart. Air flow will depend on having windows or doors that will open in each room to admit air. Then openings must be adjusted to equalize the air flow or to control the velocity of air through the room. Whole house fans should be rated to provide an air flow of 10 cubic feet per minute (cfm) for each square foot of house area. Thus, a 1000 square foot home would need a whole house fan rated at 10,000 cfm, explains Stewart.

When whole house fans are installed in ceilings they should be covered when central air conditioners are used to prevent excess attic heat from entering the home through the fan openings. Another method of reducing air conditioning bills during the summer, particularly for those homes with low levels of ceiling insulation, is to provide attic ventilation, says Stewart, since air will try to rise as it is heated.

Attics can be ventilated by providing adequate outlet vents near the peak of the roof along with the same amount of inlet vents at the eave. Both inlets and outlets should be uniformly distributed to provide uniform replacement of attic air. Research with attic ventilation has shown that attic temperatures can be reduced substantially by providing about one square inch each of vent outlet and inlet per square foot of ceiling area, notes the engineer.
