### CIVIC CENTER BENEFIT

Officers of the Haskell 4-H Club display a quilt which will be given away February 23. The project will benefit the Haskell Civic Center and additional information is available from any Haskell 4-H member or at the County Extension office. Pictured are: (l to r) Missy Davis, Rebecca Holt, Brad Bevel, and Tamra Burnett.

Best wishes this week goes to all the wives of dedicated football fans and bird hunters.

Last Sunday was the "big day" in many of their lives. The day they dream about from mid August. Yet

### Sagerton Hee-Haw Set March 25-26

The Sagerton Hee Haw Production will be held at the Community Center in Sagerton on March 25th & 26th. Mrs. Dorothy Clark will direct the show.

The Community Center will be open starting at 6:00 p.m. to serve food. Various food will be served. The auditorium will open for seating at 7:00 p.m. The show begins at 8:00 p.m.

Tickets for the Hee Haw will be \$2.50 and all seats are reserved. Tickets are sold on a first-come-first-serve basis. Ticket chairman is Dorothy Toney. She can be contacted by phone at 817/997-2688. Other committee chairmen are Paula Stegemoeller, publicity and Joyce LeFevre and Eva Ulmer, food.

There will be a "Citizen of the Year" award presented at the Saturday night show. This award is based on service and contributions to the community. The local citizens may turn in their signed nominations to Mr. Alvin Ulmer.

The next meeting will be Feb. 14 where parts will be assigned and other details discussed. Everyone is urged to attend.

### Basketball Tournney Set

Four area towns will be represented in a 9th grade boys and girls and junior varsity boys and girls basketball tournament this Thursday, Friday and Saturday in Haskell.

The teams will represent Haskell, Stamford, Seymour and Knox City. Play will begin Thursday at 10 a.m. with Haskell and Stamford 9th grade girls meeting in the first game.

The single elimination tournament will continue through Saturday with championship games beginning at 3 p.m. The first championship game will be 9th grade girls followed by 9th grade boys, JV girls, and JV boys.

In the first round of play Haskell will face Stamford in each category and Seymour will meet Knox City.

## Dalyn Gilly Takes Top Show Honors

Dalyn Gilly exhibited the Grand Champion steer at the 1983 Haskell County Junior Livestock Show last Saturday in Haskell. She also received the Showmanship Award. Reserve Championship was exhibited by Chad Ballard.

Dalyn Gilly also exhibited the Reserve Champion lamb and received the Showmanship Award in the lamb show.

Chad Ballard exhibited the Grand Champion barrow and Lance Sloan exhibited the Reserve Champion. Ron Ballard received the Showmanship Award.

Trophies and prize money were awarded to the winners and Heads or Tails Western Wear donated belt buckles to the exhibitors of Grand Champion animals.

The premium sale was held following the show and buyers contributed between \$29,000 and \$30,000 to the exhibitors.

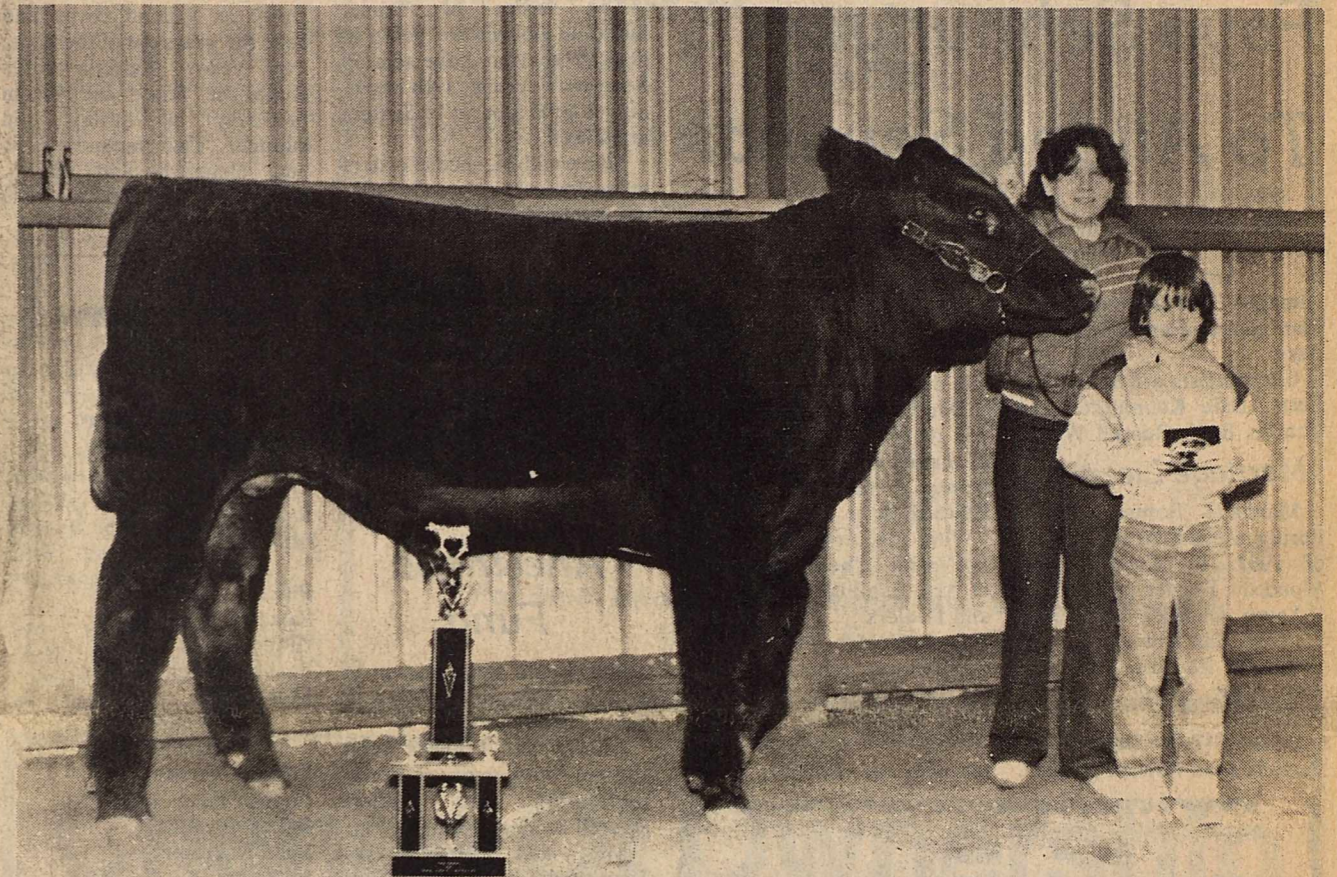

Final totals and a complete list of buyers will be acknowledged in next week's *Free Press*.

### Banquet Tickets

"Due to space limitations, tickets to the 1983 Haskell Chamber of Commerce banquet will be available on a first come, first served basis", said ticket chairman Joe Alves.

The 47th annual Chamber banquet will be held February 11 at 7 p.m. at the Haskell Elementary School cafeteria.

Tickets are \$7.50 each and are available at the Chamber office, Kids Duds, Sears, Haskell National Bank and from all Directors.

CHAD BALLARD GRAND CHAMPION LAMB

MRS. PHILLIP WADE PARKER  
...formerly Laura Ann Sliger

## Parker, Sliger Wed In Double Ring Ceremony

Laura Ann Sliger and Phillip Wade Parker were united in marriage on Saturday, January 8, at 2:00 p.m. in the First Baptist Church of Comanche. Brother Wayne Sheffield, minister of youth and education, performed the double-ring ceremony.

The bride is the daughter of Mr. and Mrs. Kenneth Sliger of Comanche. The groom is the son of Mr. and Mrs. Gene Parker of Haskell.

Denice Johnston of Comanche registered the

guests. The table, covered in wine and gray, was accented by a milk glass vase and an American Beauty rose with greenery.

The ushers were Keith Sliger of Stephenville, Kevin Sliger of Comanche, both brothers of the bride, and Kerry Therwanger of Haskell.

The candles and greenery that decorated the altar were accented by bouquets of white gladiolas, wine carnations, and American Beauty roses.

As the guests arrived, Mrs. Gyal Pirkle played an organ prelude. Dawna and J.J. McAfee, accompanied by pianist Mrs. Gary Don Swearingin, sang "What A Difference You've Made In My Life", "We've Only Just Begun", and "Just You And I". Mrs. Pirkle then played the traditional "Wedding March".

The bride, escorted by her father, wore a floorlength gown of candlelight satin and matching Alencon lace. The princess-line bodice had a scoop neckline with an Alencon underlay. A cummerbund of bias pleats formed an empire waistline. The back of the gown and the puff sleeves, tapering at the wrist, closed with satin-covered buttons. A lace applique formed a point on the hands. From the waistline flowed a soft gathered skirt which formed its own train. A fingertip veil of

illusion net hung from the caplet of matching lace. To accent the dress, the bride wore her aunt's pearls that had belonged to her grandmother.

Along with her bouquet of American Beauty roses and baby's breath, the bride carried a 70-year-old prayer book that had belonged to Rev. William James Briscoe, her great-great-grandfather. For good luck, she wore a sixpence from England in her shoe. The coin was given to her as a child by her late grandmother, Margie Barret.

The groom was attired in a three-piece gray suit, white silk shirt, and wine tie. His boutonniere was an American Beauty rose and baby's breath.

The maid of honor was Laurie Mercer of Colorado City. She wore a floor-length dress of wine crepe and carried a long-stem American

Beauty rose. David Parker of Irving, brother of the groom, was best man. He also wore a three-piece gray suit and rose boutonniere.

After the bride and groom exchanged vows, J.J. and Dawna sang "Endless Love". They were accompanied by Mrs. Gary Don Swearingin, pianist. Mrs. Pirkle then played the recessional.

The reception was at the home of the bride's parents.

At the bride's table, covered with a white lace cloth and a wine underskirt, were the cream cheese mints, the traditional wedding cake, and punch. Milk glass and roses adorned the table as Cindy Polley of Austin and Beth Howell of Leakey served the

guests. Silver, crystal, and linen were the setting for the groom's table as Lillian Day of Natalia, Texas and Jolene Morrow of Bandera served the guests carrot cake, coffee, and nuts.

The couple will make their home in San Angelo, where both are enrolled in Angelo State University.

Mr. and Mrs. Gene Parker hosted the rehearsal dinner Friday, January 7, at the First Baptist Fellowship Hall.

The bride was honored with a bridal shower on December 4 in the First Baptist Fellowship Hall.

Marcy Adams of Sonora and Kaci and Kristin Cottrell of Decatur, cousins of the bride, registered the guests.

## Yard Of The Month

During the cold winter months of Jan. and Feb. we look for basic good landscaping—balance, proportion, scale, color and texture—well pruned shrubs and trees and general neatness.

Yard of the month goes to Mr. and Mrs. W.V. Felker, 406 N. Ave. H. The stark beauty of the seven old mesquite trees with their

trunks and bare branches etched across the winter sky is like a scene done by Grandma Moses, and you think of Joyce Kilmer's poem "Trees". Only God can create such beauty, and a tree is something that grows more beautiful with age. The bed of evergreens and many nandina shrubs with their colorful red berries add contrast in color and texture.

The backyard has been recently redone and the landscape updated. The sunroom opens on to a paved patio encircled by sixteen Virburmum four yaupon and several hawthorne. Vinca and asian jasmine are used extensively as ground cover and keep the grass out of the beds. Two yellow Banksia roses climb the fence and bloom profusely all spring and summer. Two Japanese yew add elegance and charm. Apricot, pear and pecan trees complete the picture.

## Trinity Lutheran Ladies To Hold Bake Sale

The ladies of Trinity Lutheran Church are going to hold a Valentine bake sale on Saturday February 12th beginning at 8:00 a.m. at M-System in Haskell.

There will be special orders taken for cakes, breads, pies or favors for the Valentine parties at school. The favors for parties at school will be beautifully decorated heart shaped cookies or cupcakes. Heart cakes will also be a specialty.

For your special orders call Lois Howard at 864-3477 or Karen Faltisek at 864-2410. Please place your orders early at least by February 10th.

## Anesthesia Fund

## Extension Homemakers Hold District Meeting

The Texas Extension Homemakers Association held its District 3 Planning and Training Meeting, January 25, at the Extension office in Seymour.

The meeting was called to order by Mrs. Nancy Jo Boone District TEHA Director.

The ladies were welcomed by Baylor County, Judge Joe Dixon.

After the officers and guests were introduced. A training session was held on filling out TEHA contribution checks, credential cards, resolutions and changes in 83-84 handbooks.

The TEHA quiz was led by Mrs. Lowell Thornburg former District 3 Director.

After a bountiful lunch, the afternoon session began with two songs by three Seymour high school girls.

The District Meeting that will be held in Benjamin, April 19th was planned.

The ladies were given information on the State Meeting that will be in Lubbock.

### Brush and Palette

Landscape is a medium for ideas. We want men's thoughts. It's the same in other things. Various details in a landscape painting mean nothing to us if they do not express some mood of nature as felt by the artist. It isn't sufficient that the spacing and arrangement of the composition be correct in formula. The true artist, in viewing the landscape, renders it upon his canvas as a living thing. It is said that Wells had the right idea about writing history when he wrote "The Outline", for his object was not so much to give us the dates of the various occurrences, as to tell us of the condition of humanity. In painting, we should know our subject, anatomy of each object.

Q. How can I use atmosphere in a landscape? What is atmospheric perspective?

A. This is just one of the terms applied to a very important aspect of painting. It is one of the effective ways of creating depth and distance. Another term for the same thing is aerial perspective or color perspective. It utilizes the principle of color known as "chroma" or brilliance, or greyness, whichever way you wish to think about it. The brilliance of the colors diminish, which creates a greyness or mistiness, expressing distance. You need a good working knowledge of mixing greys to express atmospheric perspective.

Q. Do you use the same green throughout a landscape?

A. No, I surely do not because nature doesn't! I don't think the coordinating or 'mother' color should be green. Since Texas is an "orchre" country, ochre or some other earth color should be used to pull the painting together. This leaves us free to show variety in our greens. We see such differences in the spring compared to those in

the fall. This column has carried several suggestions for mixing greens and all you need remember is that any blue mixed with any yellow produces green. Some time spent in mixing colors, consciously trying to match nature's hues, will pay big dividends to put in your bag of tricks. Try mixtures of yellow into black to get various greens.

As you read this, I will be on my way to a business seminar in Florida. I hope to be bringing back some interesting news for this column.

Write your questions and hints to me, Faye Schnuriger, P.O. Box 134, Haskell, Texas 79521. I will not use your name but do want you to sign your letters.

## Acteen Scholarship Announced By HSU

Hardin-Simmons University has announced a new Acteen Scholarship program. "Because of our continuing commitment to Christian education and our recognition of outstanding achievement through the WMU age-level organization, HSU is presenting our new Acteen Scholarship Program," said Pat Luttrell, admissions counselor.

Depending on the level of achievement a four-year potential of from \$800-\$2,000 may be awarded to qualified recipients, said Ms. Luttrell. The scholarship is renewable each semester with a 2.2 grade point average and a course load of at least 12 hours. Participation in missions activities on campus is strongly encouraged. The awards are granted as follows: Queen (or Service Aide alone), \$100 semester amount and \$800 for four years; Queen with a Scepter, \$125, and \$1,000; Queen Regent, \$150, and \$1,200; Queen Regent in Service, \$175, and \$1,400; Service Aide, \$200, and \$1,600; Texas Acteen Citation, \$225, and \$1,800; State and National Panelist, additional

\$25, and additional \$200. Application should consist of a letter from local Acteen Director or WMU Director verifying the level of achievement. Direct correspondence to the Financial Aid Office, Hardin-Simmons University, Abilene, Tex. 79698. Certificates are available for presentation to HSU-bound seniors. For more information contact Pat Luttrell, Hardin-Simmons University, Abilene, Texas 79698. Ms. Luttrell said approximately ten girls each year qualify, and with the expansion of the four-year award, HSU anticipates over 30 recipients in the fall of 1983.

**Births**

Mr. and Mrs. Randy Talkmitt of Wolforth announce the arrival of their daughter, Tara Nicole Talkmitt, born Jan. 19, 1983 in Methodist Hospital in Lubbock, weighing 7 lbs. 4 oz. Paternal grandparents are Mr. and Mrs. Raymond Talkmitt of Slayton. Maternal grandparents are Mr. and Mrs. Howard Brass of Rule.

Mr. and Mrs. Rogers Hellman of Amarillo announce the birth of their daughter, Sara Elizabeth Hellman, born January 27, 1983 weighing 7 lbs. 5 oz.

## Adams Extract Sponsors 4-H Foods & Nutrition Contest

Adams Extract Company of Austin will enter its fourth year as sponsor of the 4-H foods and nutrition educational activity, a contest that is part of the annual Texas 4-H Roundup.

The sponsorship was announced by H.T. Davison, executive director of the Texas 4-H Youth Development Foundation, who is also a 4-H and youth specialist with the Texas Agricultural Extension Service, Texas A&M University System.

As sponsors of this program, Adams Extract provides products to all 4-H participants in each of the 14 Extension district contests as well as products to the top three winners in each district contest. At Texas 4-H Roundup June 7-8 at Texas A&M University, winners also will receive assorted Adams Extract and spice products, said Davison.

Mary K. Sweeten, an Extension foods and nutrition specialist, said that these products greatly enhance the Texas 4-H foods and nutrition project and help young people learn how to effectively use food additives which make food both nutritious and attractive.

Key objectives of the Texas 4-H nutrition project and contest are to develop leadership talents and confidence in speaking before groups, develop understanding of the daily food guide and how to eat by it, learn about nutrients in foods and how they affect health, and learn to plan, prepare and serve foods for the family.

Davison said that there were some 20,000 4-H members enrolled in the foods and nutrition project. He noted that the foods and nutrition educational activity offers young people a chance to compete with one another, demonstrating knowledge gained and skills developed in food and nutrition and preparation.

### Services Set Friday For Former Resident

Funeral services for Robbie Lee Furrh, of Plano, formerly of Haskell will be held Friday at 2:30 p.m. in the Haskell First Baptist Church.

Burial will follow in Willow Cemetery directed by Holden-McCauley Funeral Home.

She died February 1, at her home in Pampa.

She was the daughter of the late Mr. and Mrs. Tom McFaddin.

Survivors include her husband, Harvey of Pampa; one son, Dwayne of Pampa; four sisters Mrs. Ella Chamt, Mrs. Eva Rankin of Throckmorton, Mrs. Troy Ash of Haskell, and Mrs. Allie Tekel of Borger; and three grandchildren.

The family will be at the home of Leon Jones, 607 S. Ave. G in Haskell.

### IT'S THE MOST!

By Candace Lieberman North American Precise Syndicate

The most popular place to place advertisements is in the newspaper. U.S. newspapers sold more advertising last year than did television and radio combined. More than a quarter of all Lieberman ads run appeared in newspapers.

More people than ever before may be reading weekly newspapers this year. Total weekly circulation tops 45 million.

For most people advertising seen in newspapers is more believable than advertising seen anywhere else, polls show.

Staff Photo by Don Comedy

### ARBOR DAY TREE

Two trees were planted in front of the Haskell Elementary School recently in observance of Arbor Day. The trees were donated by Mr. and Mrs. Coyt Hix. Several classes from the Elementary School were present for the planting.

### PIK Participation Increases FCIC

Farmers who participate in the Payment-in-Kind (PIK) program are eligible for increased insurance guarantees on insured wheat, corn, grain sorghum, rice, and upland cotton at no extra cost, says F.W. "Ted" Crouch, Jr., Director for the College Station Field Operations Office of the Federal Crop Insurance Corporation (FCIC), here today.

To encourage the widest participation possible in the PIK program, FCIC will accept downward revisions of previously reported acres and increase the per acre guarantee on the remaining acreage. Downward revisions of acreage reports may be made until March 11, 1983.

For the 1983 crop year only, insurance guarantees on the eligible crops will be increased by the following proportions: a 6 percent increase for acreage reductions of 10 to 19 percent;

an 8 percent increase for reductions of 20-29 percent; and a 10 percent increase in acreage reductions of 20-29 percent; and a 10 percent increase in acreage reduced by 30 percent. "Percentage reductions are calculated for acreage reductions above the regular farm program set aside," Crouch says.

Farmers may participate in the PIK acreage reduction on one farm and not another. "Any increase in coverage," says Crouch, "will be in effect for the farm selected for PIK participation, without affecting the guarantee or premium on the other insured farm(s)."

"Upon acceptance of the revised acreage report, the premium will be recomputed on the reduced acreage and the per acre guarantee will be increased for the remaining acreage," Crouch states. Under a bid arrangement, farmers may reduce the entire

acreage to zero. In that case, a zero acreage report may be made to the agent by March 11. Farmers should verify acceptance of the bid with their agent by March 18. If the bid is not accepted, the farmer remains insured for the acreage intended for harvest.

### INGENIOUS IDEAS DEPT.

Here's a quick look at a number of ingenious ideas that have let us do things a lot faster.

Orville and Wilbur Wright's idea that man could fly led to the first successful air flight. It took place in 1903 near Kitty Hawk. Since then, we have been able to travel from one place to another a lot faster.

An ingenious idea, called a computer, has helped us do mathematical figuring a lot faster. The first electronic computer, built in 1946, had 18,000 vacuum tubes and was so large it filled an entire room.

Today, computers are much smaller and aid us in many different ways. Archi-

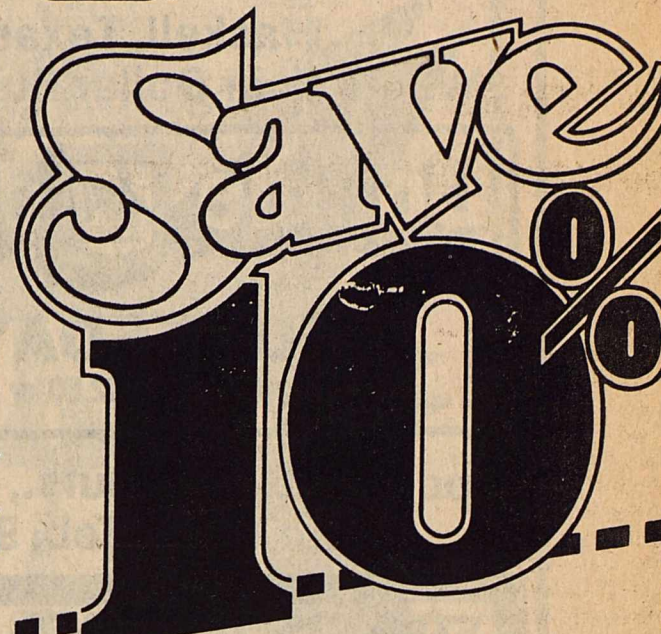

tect and engineers can execute drafting work a great deal faster and more accurately, thanks to a computer-aided drafting system. Called EasyDraft, developed by engineers and architects at Bruning, it not only increases accuracy but increases productivity 20 times.

This ingenious idea reduces overtime and speeds completion of projects. Architects and engineers have also discovered when the drafting cycle is reduced, profits increase. A free brochure on one of these computer-aided drafting systems is available by writing to: Bruning, Dept. S, 1800 Bruning Drive West, Itasca, IL 60143.

Every day, more than 107,000,000 Americans—seven out of 10 adults—read a daily newspaper.

### PIONEER DAYS

### on your 1983 seed cost

Pay for your Pioneer, brand seed during Pioneer Days (February 7 - 12) and we'll knock off a full 10% from your seed bill.

That's like getting one bag free for every nine you buy. So even on borrowed money it's a good deal. Besides getting more for your money, you get these advantages:

- Assurance of the varieties you want when you're ready to plant.
- One less chore to worry about when you're busy in the spring.

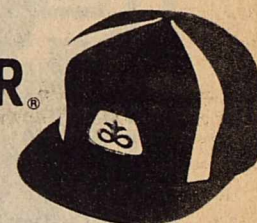

Come see us during Pioneer Days. Save 10% and get a new cap just for paying for your seed or visiting with us about your seed needs.

### Production—Prices Plaguing Farmers

High production and low prices are plaguing agriculture in the 1980's. Survival of the food and fiber production business and the entire rural community that depends on agriculture is a major concern of commercial bankers at Texas A&M University, Feb. 27-March 1, is designed to provide persons in the farm credit area with an update on current conditions for the agricultural economy and give insight into dealing with the risks of making credit available during the current times of economic uncertainty, says Dr. Robert B. Schwartz.

The 1983 Texas Farm and Ranch Credit Conference for

Commercial Bankers at Texas A&M University, Feb. 27-March 1, is designed to provide persons in the farm credit area with an update on current conditions for the agricultural economy and give insight into dealing with the risks of making credit available during the current times of economic uncertainty, says Dr. Robert B. Schwartz.

Schwartz is a dairy marketing economist with the Texas Agricultural Extension Service, Texas A&M University System, a sponsor for the conference.

Conference sessions will be in the J. Earl Rudder Conference Center. Among headliners will be Phil Gramm, former U.S. congressman and economist at Texas A&M, who will discuss "Economic Outlook." The Hon. Charles Stenholm, U.S. congressman from Stamford and member of the Agriculture Committee of the U.S. Congress, will discuss "Washington's Role in Farm Survival." Jim Hightower, Texas commissioner of agriculture, will speak on the state of the Texas agricultural economy.

Other topics for discussion include evaluating crop insurance for financial risk management and outlook for the major commodities of importance to Texas.

Concurrent sessions, Schwartz said, will deal with row crops, cattle and dairy loans. Other sessions will deal with regional loan problems and opportunities.

For registration information, contact Dr. Richard Trimble, Department of Agricultural Economics, Texas A&M University, College Station, Tx. 77843, or call (713) 845-8012.

An Agricultural Credit Analysis Workshop is scheduled to follow the Bankers' Conference, March 2-3. Assisting the Extension Service in sponsoring the activities are the Texas Agricultural Experiment Station, A&M's College of Agriculture and Texas Bankers Association.

# Rice Springs News

# Fight Against Muscular Dystrophy Continues

# Pioneer Hi-Bred International, Inc. Welcomes

The monthly birthday party was enjoyed given by the ladies from the Church of Christ. Those having January birthdays were June Smith, Beulah Persons, Alma Cole, Onie Camp, John Sparkman, Sarah (Bethie) Harris, Annie Howard and Shelby.

Mrs. Lillie Spitzer was our oldest resident being 99 years plus, who expired recently and she will certainly be missed, and we want to extend our sympathy to the Spitzer family. Aother resident who will also be missed is Florence Henderson, a medication aide who ha' worked at Rice Springs for almost twenty years and who had contributed so much to the home and we also extend our sympathy to her family.

We are happy to have June Smith back with us after having eye surgery in Abilene. Some more good news, Mrs. Vera Harris was admitted to an Abilene hospital on Dec. 30 and had major surgery and seriously ill in Intensive Care for some eleven days but who recently was transferred to Haskell hospital and hopefully be back to our home very shortly.

We extend our sympathy to the family of Ellie Cartwright and especially to Texie Perdue who is a resident and sister to Mrs. Cartwright. Relatives visiting Mrs. Perdue were, Louise Spivey, Harvey Hicks, Olan Hicks, and Louise Hicks, Beth Martin, Jana Steward, Chester and Vena Brown all from Comanche, Doris Brown of Brownwood, James Perdue, Lucille Arney of Big Springs, Sharon Brown, Pat McCarty, Tom and Carolyn of Abilene, Kelli, Kara and Nathan Cartwright, Phil and Esther, Michael, John and Timothy Cartwright all of Austin, Eugene Cartwright of San Antonio, Anna Marie Hill of

Stephenville, Annette Perdue of Tye, Jack and Evie Dosier of Lake Stamford, and Edwin and Cloyce Cox of Brownwood.

Mrs. Mattie Price is a patient in Hendrick Memorial Hospital and we surely wish for her a speedy recovery.

Visiting John P. McMillan were David and Melanie and Tyson Green of Mid West City, Okla., and Jearldean Myers of Lewisville.

Mr. and Mrs. H.M. Scruggs of Glen Rose visited J.C. Hargrove.

David Jones of Dallas visited Annie Jones.

Alvin and Ruby Stiewert, Deanna Stiewert, Darlene, David, Tiffany, Brandon and David Jr. Rogers all of Lubbock.

Kewpie Duncan of Aspermont, Hazel Letz of Old Glory visited Jonnye Pumphrey. A grandson John Pumphrey of Ft. Worth also visited his grandmother.

Visiting Nannie Winter were grandsons, Marcus McCoy of Dallas, Joseph Mc of Abilene. Other visitors were Mrs. Velma McCoy and Jan McCoy of Merkel.

Visiting Al Arend were Donna Rainey, David Rainey and Mr. and Mrs. Bill Rainey of Abilene.

Frankie, Ophus and Nita Posey of Knox City, Everett Simpson of Levelland visited Edna Collins.

J.W. LaDuke of O'Brien and Betty Aldridge of Knox City visited Joe Teague.

Kewpie Duncan of Aspermont visited Dena Lewis.

Doris and Bill Slater of Ft. Worth visited her parents, Mr. and Mrs. Bill Harrell, and Joe Teague.

Doris Bassing of Perrin visited her mother, Mrs. Onie Camp.

Mr. and Mrs. Everett Simpson of Levelland visited

Nannie McCaul.

J.A. Bradford, Charles and Faye Cox of Peacock visited their parents, Mr. and Mrs. Sam Bradford.

Visiting Charity Bradley were Bill Jones of Stamford, Roland Rose of Abilene, Joy Spalding, Robbye Spalding of Hamlin, Trannie Brooks and Maude Kittley of Stamford. They also visited Ethel Rose.

Visiting Trudie Bush were Mr. and Mrs. Hollis Rucker of Friona, Barbara Garwood, Slaton, Agnes Bowman, and Ada Snyder of Seymour, Imogene Bilbrey, Abilene, J.A. and Dean Bush of Plainview.

Visiting Mr. and Mrs. Herman Letz were Berhard Letz, Alfred Letz, Louise Letz, Helen Lehmann, Adeline Letz of Old Glory and Adolph Letz of Stamford.

Visiting Alvena Holle were Mrs. Alice Boedeker and Mrs. Johnie Britton of Stamford.

Mrs. Lizzie Letz is in the local hospital and we wish for her a speedy recovery.

Jody and Lynn Williamson of Ok. City visited Ada Williamson.

Maude Kittley, Opal Smith, Shirley Jean Smith and Alice Newton of Stamford visited Mrs. Izzetta Clark. Also her grandson Philip Clark of Lueders visited her.

Mrs. Mae Belle Turnbow visited in Abilene with her children, Gary and Charlotte Turnbow, Nita Leggett and sons and Mr. and Mrs. Erby Wolfe of Potosi met her there.

Visiting Annie Howard was her daughter Pat and Tom Landry of Baton Rouge, La. Nettie and Raleigh Brock of Ft. Worth visited their parents, Mae Brock and Mr. and Mrs. Bill Harrell.

The term muscular dystrophy covers a group of inherited diseases characterized by muscle deterioration. An estimated 250,000 to 300,000 Americans suffer from it, with about two-thirds between the ages of 3 and 18. Although no cure has been found, research continues. These disorders are usually genetically caused, but the specific defects have not been identified. When they are, treatment perhaps could involve replacing missing substances in much the same way that insulin injections control diabetes. For now, respiratory exercises and antibiotics are extending the lives of many afflicted children. Exercises to stretch tendons also can help. Affected persons should remain as active as possible.

The Texas Medical Association says the most common forms of muscular dystrophy are Duchenne's, facioscapulohumeral, limb-girdle and myotonic.

Duchenne's, the most common and severe type of muscular dystrophy, is generally first noted in boys between ages 2 and 6. The child develops a waddling gait and has difficulty rising from the floor and climbing stairs. The disease progresses rapidly, and the patient seldom lives more than 15 years after the disease strikes.

Facioscapulohumeral affects males and females equally and appears in early adolescence or in their 20's. The most recognizable symptoms are loss of facial expression and difficulty in

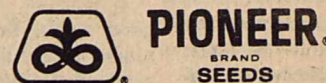

raising the arms over the head. This is the least threatening form of muscular dystrophy because it progresses slowly and rarely causes an early death. But considerable disability can result.

Limb-girdle can strike either sex in the first to third decades of life. Pelvic and shoulder muscles are involuted, and deterioration varies from slow to rapid. Disability varies, but early death seldom occurs.

Myotonic may appear in early puberty but commonly arrives in early adulthood. Early signs include stiffness in the limbs, particularly in cold weather; inability to relax the grip after shaking hands; a tendency to trip or fall forward; and loss of facial expression. Patients rarely live out a normal life span.

# 1982 PCA Farm Loans Total \$2.5 Billion

In 1982 the Federal Intermediate Credit Bank of Texas loaned \$2.5 billion to Texas farmers and ranchers through 30 Production Credit Associations (PCAs) and 17 other Financing Institutions (OFIs) in the state.

James A. Rogers, president

of FICB, noted the figure was down slightly from the 1981 volume of \$2.6 billion due to adverse weather and economic trends in agriculture. Number of borrowers served also was down to 17,316 from 17,366. "It is hard to dispute the fact that in 1982 Texas agricul-

ture took some of its hardest blows since the Great Depression," says Rogers.

But the chief executive officer quickly adds, "We at FICB are taking steps to ensure the Texas Farm Credit System remains ready, willing and able to provide support to farmers and ranchers."

Rogers referred to President Reagan's remarks made during the recent national Farm Bureau convention held

in Dallas. Reagan said, "Let me allay any concerns that you may have regarding the Farm Credit System. I support it and expect it to continue providing substantial assistance to the farm community, as it has in the past."

Rogers continued, "There are no quick fixes or easy solutions to the adversity dealt to those in Texas agriculture. But we are working hard to

continue providing constructive credit that farmers and ranchers expect and need.

In some cases Farm Credit has tightened their credit policies and are counseling ag producers on an individual basis," he says. "We want to support farmers and ranchers every way we can. However, we do not feel it is in their best interest to extend credit for operations that are obviously getting further and further in

debt with no chance of getting out. There are situations where it is better to advise a potential borrower to salvage what he can rather than go further in debt."

"We have stressed compassion for the plight of the individual farmer, but the System's hard-earned respect and the welfare of the majority of our borrowers cannot be jeopardized," Rogers says.

Rogers believes the Payment in Kind (PIK) program will buy time for some people to make needed adjustments and to reduce inventories. Other farm policy must be developed to move agriculture back to a sound financial basis.

Production Credit Associations have been a source of agricultural loans since 1933. Nationally they serve the credit needs of more than 380,000 farmers, ranchers and commercial fishermen, with more than \$22 billion in loans outstanding.

## Conservation Viewpoints

USDA Soil Conservation Service

Assisting

Haskell Soil and Water Conservation District

With spring just around the corner, it is time to start thinking of seedbed preparation for your spring grass plantings in waterways, outlets and pastures. Seedbed preparation, simply stated, is the preparing of the land to plant seed in. A good seedbed is absolutely essential to get a good stand of grass in the spring and summer months. Without a good seedbed grasses will not be able to make a good stand because of problems with germination, the land unable to hold desirable nutrients and moisture, and weeds and undesirable grasses invading the land.

Preparing a good seedbed usually requires four (4) trips over the land excluding the planting. Generally, two (2) trips with a chisel plow and two (2) trips with a tandem disk are required to prepare a

good clean, firm seedbed. It must be kept in mind that the seed must be planted in a good loose topsoil, if the land is too cloddy a good stand will not occur. The last trip across the land should be before April 1 and the seed should be planted between April 10-15 to give the seed a fighting chance to survive. Planting on a good seedbed should be done with a close-spaced drill compactor to insure the seed is firmly embedded in the soil.

Preparing a good clean, firm seedbed will not only save you time and labor, it will also save the expense of having to replant. Give your seed a fighting chance to survive, prepare a good seedbed. Assistance in seedbed preparation may be obtained by calling or visiting the Soil Conservation Service office.

## Weigh Advantages Of PIK Program Carefully

Individual farmers and ranchers should sharpen their pencils and calculate what advantages there may be in participating in the Reagan Administration's "Payment in Kind" program, for which the farmer sign-up begins next week, George W. Stone, president of National Farmers Union, said here today.

Speaking at the annual convention of the Texas Farmers Union, being held at the Austin Marriott Hotel, Stone observed that "each farmer will have to make his own decision about what makes sense in his operation, but this ought to be considered in the light of the desirability of reducing stocks

for which there is no immediate market."

The Farmers Union official said that if there is heavy participation by wheat, feed grains, cotton, and rice producers, "it could result in some appreciable price increases by mid-1984."

"The tragedy is that price help is needed right now and the new program admittedly will not do that," Stone explained. "If Congress and the executive branch do nothing now about low prices, some farmers will have difficulty getting refinanced for the 1983 crop year and others may not be around for the 1984 season."

Some noted that because of

the lateness of the program and the fact that not enough farmers have sufficient understanding of it, participation may be rather spotty.

He recollected that a "Payment-in-Kind" approach had been tried before, as part of a special agricultural conservation program for feed grains in the years 1961 through 1965.

"At that time, farmers were given the option of taking their diversion payment in cash or in kind," he continued. "Most farmers chose to take the cash payments and only a handful of farmers took the in-kind option."

Stone commented that a cash payment program would

have been much more effective, would have assured more participation, and would have been much simpler to understand and to administer.

"The problem is that the program is motivated more by reducing government farm program outlays than by achieving a substantial price improvement for farmers," he added.

"Congress ought to legislate at least a 10 percent increase in the already announced CCC loan levels for 1983 in order to offset the price damage which will occur in forcing vast quantities of surplus products into an already demoralized market," he concluded.

## Rolling Plains PCA

### Offers PIK Worksheet

"Farmers may find that calculations of various options under the Payment-In-Kind Program can get rather complex. However, a Worksheet devised by Rolling Plains PCA can help in simplifying these calculations," according to R.C. Cobb, President. This form will be ready for general distribution this week and can be obtained by any farmer wishing to use it by calling or writing the nearest Rolling

Plains PCA office. These offices are located in Stamford, Munday, Spur, Matador and Childress.

The form has been devised for use on cotton, wheat, grain sorghum, corn or any other crop on which a farmer may desire to calculate various options.

Mr. Cobb emphasized that the Worksheet is available to any farmer whether or not he is a PCA Stockholder.

## PIONEER DAYS

on your 1983 seed cost

Pay for your Pioneer® brand seed during Pioneer Day (February 8 only) and we'll knock off a full 10% from your seed bill.

That's like getting one bag free for every nine you buy. So even on borrowed money it's a good deal. Besides getting more for your money, you get these advantages:

- Assurance of the varieties you want when you're ready to plant.
- One less chore to worry about when you're busy in the spring.

Come see us during Pioneer Days. Save 10% and get a new cap just for paying for your seed or visiting with us about your seed needs.

Hours: 11 a.m. to 5:30 p.m.

## Rule Now Equipt With First Responder Unit

In order to provide the citizens of Rule with better Emergency Medical Care, a group of concerned citizens have formed a First Responder Unit.

The First Responder Unit will work in conjunction with the Haskell County Emergency Medical Service.

When an emergency medical problem arises, the First Responder on call will be

asked by the Haskell County Ambulance Service Personnel to go the the scene and provide emergency medical care until the ambulance arrives.

REMEMBER if you need an ambulance, the correct number to call is 864-2621. DO NOT call a First Responder as this will only delay the arrival of the ambulance.

## Superintendent's Views

BY JAMES LANIER  
Superintendent, Haskell ISD

We have just returned from the annual mid-winter conference for school administrators in Austin. Of course, the main topic of conversation was the current session of the legislature. A group of us who serve as superintendents from this area met with the Governor's staff including Max Sherman to try to persuade them to furnish some immediate aid to those school districts impacted by the natural disasters this past summer. At least they did listen to us and are looking into the possibility of some relief.

There are many demands on the legislature this session. Increased pay for teachers, highway repair, and prison construction are all important and expensive. The slowing down of the economy of Texas is reflected in the shortfall in Comptroller Bullock's estimate of revenues for this coming biennium. The numbers clearly reflect this slowdown. If the programs needed are to be funded, there may indeed be a need for new taxes. It is my sincere desire that these taxes come from the state level and not shift the burden to the local level. The shift to the local level has been the trend for the past few years. It is almost impossible to maintain quality schools without adequate funding; yet local taxpayers, especially property owners, are feeling the pinch of this burden. Even if the legislature chooses to retain the safe harmless clause in local fund assignments; (this clause limits the increase to 20% per year) it would cost Haskell approximately \$24,500 in local costs next year. Also the needed teacher pay raise will cost us additional local monies because of our excess units

that we must have to meet accreditation standards. We are trying to stay on top of the progress of the legislature. We will try to keep you informed through this column as the session moves forward.

Another event that happened at the mid-winter conference was the honoring of Douglas Meyers with a life membership in TASA. Mr. Meyers spent approximately 30 years as Superintendent in Haskell and Knox County. He began at Weinert and later moved to Munday. He will be missed from the active ranks of the superintendency by those of us who appreciated his knowledge and experience. Experience is the most valuable of all teachers. Mr. Meyers would willingly help in any way if a fellow superintendent would seek him out. His advice was cherished and well received. Mr. Meyers informed me that he is enjoying his retirement and change of pace in his life. However, the school business has lost a valued associate.

NELSON REVISED Standard Version Bibles. Featuring red letters, full color pictures and maps, dictionary, concordance, study helps, presentation page, family record and thumb indexes. Available at the Haskell Free Press

## Plant Shade Trees Soon

The time is a hand for planting shade trees. Planting shade trees during the winter season offers several distinct advantages says a horticulturist with the Texas Agricultural Extension Service, Texas A&M University System.

"The root systems of winter-planted trees develop and become well established before top growth starts in the spring," says Everett Janne. Bare-root trees as well as container-grown in balled-and-burlapped trees are suitable for winter planting.

Choose trees adapted to the area, Janne says, and avoid "fast growing trees" because they are brittle and short-lived.

He offers these guideline for tree planting:

—Dig the tree pit large enough to allow at least six inches clearance on all sides. The diameter of the pit is generally one-and-a-half times more than the root ball.

—Make the pit only as deep as the root ball.

—Plant the tree the same depth as it grew in the nursery. The soil line is a discolored ring on the trunk.

—Check the soil's internal drainage by filling the hole with water. If it doesn't seep out in 24 hours, the roots could suffer from lack of oxygen.

To improve drainage, dig a trench from the bottom of the pit and fill it two-thirds full of gravel. This lets excess water drain to a lower area.

—Place the tree in the hole, handling only the ball. Never carry it by the trunk. Remove any containers before planting.

—Fill the hole with a good

topsoil or prepared mixture of soil, sand and peatmoss or pine bark. Water thoroughly to settle the soil and eliminate any air pockets.

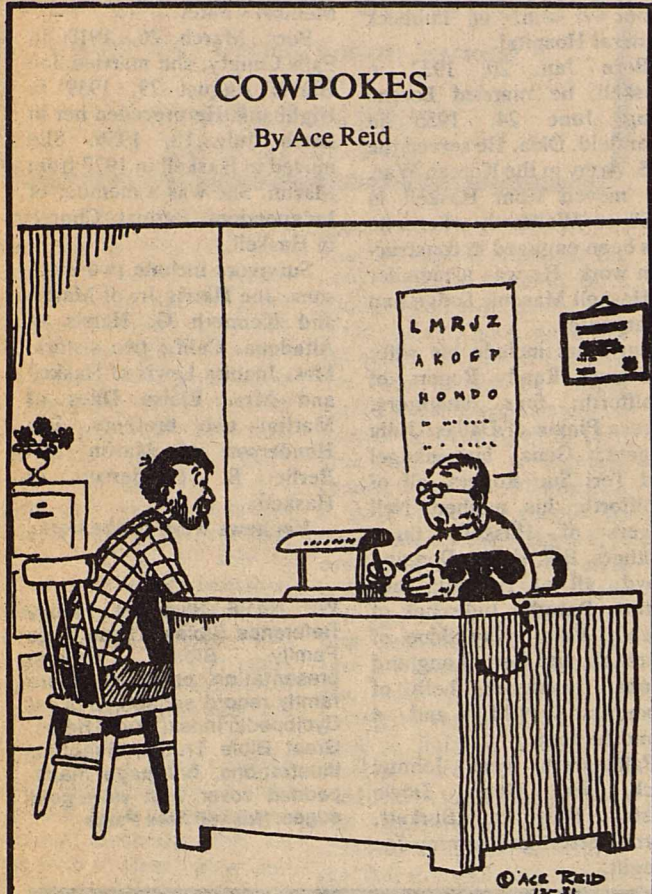

—Don't fertilize at planting time; wait until after growth starts in the spring and fertilize lightly.

—Stake the newly planted tree to stabilize and protect it until the roots become established.

—Wrap or protect the trunk from sunscald, drying winds, and storms and borer attacks.

—Water thoroughly whenever the soil becomes moderately dry.

With proper handling and care, winter-planted trees will get off to a good start in the spring, says Janne.

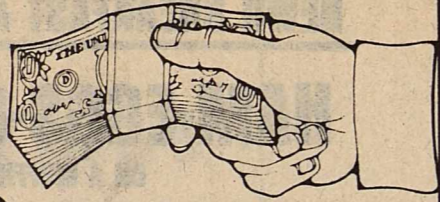

"You're bound to need glasses, Jake. Apparently you couldn't read the bill I sent you for your last examination!"
