Indians to host Holliday

Big, bruising Holliday, rated in the pre-season as the top 2A team in these parts, comes to town Friday night to meet the Haskell Indians in the season's second football game. Kickoff is at 8 p.m.

The visiting Eagles are coming off a 13-7 opening victory over Jacksboro, while the Indians will be seeking their first victory after last week's narrow 27-25 loss to Munday.

Holliday features a big, ballcontrol team which grinds out its yardage in small chuncks while keeping the ball away from its opposition.

Leading the Eagle attack is 200-pound fullback David Hoepfner, whom Haskell remembers from a year ago when he led his team past the Indians. Senior quarterback Pat Maxwell, 180, gives the Eagles a seasoned performer at that vital position.

Defensively, the Eagles are probably the biggest team the Indians will play this season. They have a pair of 210-pound tackles and and several other defensive men at or near that weight.

Haskell came out of the Munday game in good shape, and with a good mental attitude despite the last-second loss to the Moguls.

Coach Nelson Coulter said there were many bright spots in the opening game despite being on the short end of the score. He praised the Indians for continuing the come back.

He was especially pleased with the play of the offensive line of Bo Watson at center, Paul Harvey and Matt Lane at tackles and Michael Mendoza and Roger Roewe at guards. He said they performed well against a very good and well coached defensive team.

He also praised the defense and said he was pleased with the way the Indians hit. "They played with a lot of intensity," the coach said.

Coulter said there were several technical mistakes in the Munday game, adding that these kind of things can be corrected.

Few, if any, personnel changes are planned for this week's game. Patrick Perez and Chan Guess are expected to continue to share the quarterback position, alternating on nearly every play as they did last week. The same goes for Stephon Brockington and Fred Shaw at fullback.

Visitors praise Haskell

The City of Haskell frequently gets notes and letters from people who have had occasions to visit or spend the night in the city.

Three recent notes:

My husband and I spent the night of March 28 in your City Park for trailers. We want to thank the City of Haskell for the night. Your park was very clean and quiet.

Mr. and Ms. Roy Reeves

Velma, Okla.

While traveling through your city
last week we enjoyed your fine
facilities for trailers. We took some
pictures of it to show to our city.

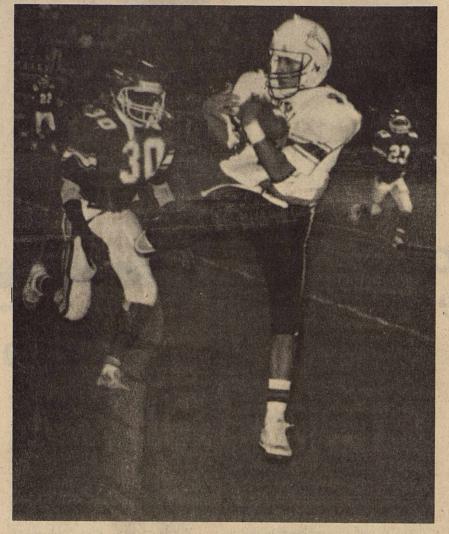

B.C. and Myra Wootten

Pittsburg, Texas
My husband and I made a trip
through your city this month in our
motor home. We were looking
desperately for a place to park
overnight when we spotted your sign
inviting overnight camping.

That night there was a festival on the square as well as a small horse show near the park. Also, to our surprise we had a free hook-up and a beautiful setting. The people were so friendly. How proud we are to claim Haskell as a Texas City.

Our unexpected stay in Haskell was one of the best memories of our vacation. Your city embodies everything great in the concept of the "Texas Spirit." How proud you must be!

Roberta Svien Princeton, Texas

Big gainer

Louie Torres hauls in a pass from Chan Guess for a 10-yard gain in the Munday game. Torres was on the receiving end of four passes during the night.

Roll back

Here's how it works

The following is taken from a pamphlet of the State Property Tax Board:

If the governing body actually adopts a tax rate that exceeds the eight-percent limit, voters can initiate a process to "roll back" the adopted rate to the eight-percent level in all taxing units except school districts. In school districts, a similar process can be started but it doesn't affect the current year's rate. Instead, it limits the school board's ability to raise taxes the following year.

The eight-percent limit is 1.08 multiplied by the effective rate

Step 1: Petition for Election

The process starts after the governing body formally adopts the tax rate. If the adopted rate exceeds the eight-percent limit, voters may circulate a petition calling for the tax limitation.

To be valid, a petition must meet several specific requirements. A school district petition must state that it is intended to require an election to limit the tax rate for the following year. A petition for any other type of unit must state that it is intended to require an election to reduce the tax

rate for the current year.

Either type of petition must be signed by at least 10 percent of the voters shown on the most recent official voter list for the specific

People who circulate the petition may not be paid or receive any other compensation; signatures collected by a paid gatherer are void.

The petition must be submitted to the governing body within 90 days of the date the tax rate is adopted.

Step 2: Governing Body's Validation

The governing body must determine whether the petition is valid and pass a resolution regarding its validity within 20 days of the date the petition is received. If the governing body takes no action within the 20 days, the petition is automatically valid.

The State Property Tax Board recommends that if the governing body finds the petition invalid, the resolution or order should set out the reasons why

Step 3: Election

If the petition is valid, the governing body must set a date for the election. The election date must be no earlier than 30 days and no later than 90 days after the last date the governing body could have acted on the validity of the petition.

The date must be one of the specified dates set by state law for local elections, unless none of the specified dates happens to fall within the 90-day period. The elections division of the secretary of state's office can provide assistance in determining an appropriate date.

Petitioners still seeking signatures

Petitions calling for a roll back of Haskell County property taxes still are being circulated in the county.

Sue Patterson said Tuesday that approximately 200 voters had signed the petition at her business, but she had no count of the number who have signed at other locations.

Petitions are available at a number of businesses and with a number of individuals, not only in Haskell but in Rule, Rochester, Weinert and Sagerton.

In order to bring about a roll back election, 440 names are needed, a figure which represents 10 percent of the county's registered voters. Organizers of the petition movement want to get more than the required number of signatures and are confident they will have no problem.

They have 90 days from the Aug.

31 to present the signed petitions to

the county commissioners.

Petitioners are seeking to force the county to have a roll back election. Under state law, the county can be petitioned for a roll-back election when a tax increase is more than 8 percent above the effective tax rate.

On Aug. 31, county commissioners adopted a tax rate of 45.5 cents per \$100 valuation, well above an 8 percent increase over the effective tax rate of 35.27.

Also being circulated in Haskell are petitions calling for the dismissal of the city administrator and the resignations of City Council members.

This petition began last week after the City approved an 8-percent tax rate increase. It is not subject to a roll-back election.

Annual 4-H awards given out to 37 county youngsters

Thirty-seven Haskell County 4-H members received awards for their 1987 accomplishments at the annual Haskell County 4-H Awards program Aug. 20. The Rochester 4-H Club hosted the steak dinner program at the Rochester school.

To be eligible for an award a 4-H'er was required to complete a project record from in his/her chosen project area. Awards were as follows: Achievement: Michelle Scoggins.

Agricultural: Dalyn Gilly.
Beef: Joseph Pace, Matt Pace,
Heather Stewart, Justin Stewart, Brad

Bevel, Chris Carver, Ross Shaver, Faye Mullino Child care: Jennifer Swoyer.

Clothing: Joni Penman, Amy Tibbetts, Darla Draper.

Food and nutrition: Angela Adkins, Karmen Adkins, Kacy Baitz, Kristy Guadalcazar, Shanna Murphy, Bambi Spyres, Jana Saffel, Julie Saffel, Heather Simpson, Kim Gilly, Emily SoRelle, Jennifer Shaver.

Gardening: Janet Quade. Leadership: Chad Ballard, Tamra

Rabbit: Jonathan Lammert, Lolo Martinez, Tony Martinez, Michael Salinas

Sheep: Jennifer Comedy, Charles Parks, Thomas Parks, Mindy Ballard, Alexy Reeves.

Showmanship: Wayne Hester. Swine: Staci Bevel, Tracie Bevel, Michael Hester, Jeff Hollingsworth.

Special awards were presented to the following 4-H members for completing 4-H record books during

Selling seminar planned

A selling seminar, featuring Willard Tate of Abilene, will be conducted from 7 to 9:30 p.m. Sept. 21 and 22 at the First National Bank.

The seminar is being sponsored by the Retail Merchants Association of the Haskell Chamber of Commerce.

Enrollment will be \$10 per person in advance (refundable). The price covers the cost of both evening sessions. Space is limited so reservations will be made on a first-come, first-serve basis.

Tate is associate professor of the Department of Communication, School of Professional Studies, at Abilene Christian University and is former basketball coach at the Abilene school.

He is a frequent speaker at

He is a frequent speaker at lectureships, workshops and special dinners on personal development for businesses, schools, churches, youth groups and other professional organizations.

He stresses these points in his seminars:

--Selling involves a relationship between the seller and the buyer.

--Selling is not making someone buy something he/she does not want at a price he/she does not want to pay.

--Selling is finding the buyer's real need and filling it. --Real selling satisfies both the

seller's and the buyer's needs.
--Everyone sells something, sometime, to someone.

--Selling can be profitable in all areas and in all professions, from a houswife to a brain surgeon.

--You cannot sell any better than you can love.

For more information, call Gene or Tom Long at Boggs and Johnson Furniture in Haskell, 864-2346.

Farm Bureau barbecue Monday

The annual county convention and barbecue of the Haskell County Farm Bureau will be Monday at the Haskell Civic Center.

Eating begins at 6:30 p.m. and a short business meeting will follow at which time a change in the bylaws will be discussed.

Door prizes will be given.

the 1987 4-H year:

Juniors: Jonathan Lammert, Michael Salinas; Intermediates: Kim Gilly, Emily SoRelle, Jennifer Swoyer; Seniors: Chad Ballard, Dalyn Gilly, Faye Mullino, Janet Quade, Michelle Scoggins.

After the presentations of member awards, the following 4-H leaders were presented certificates for their volunteer services to the Haskell County 4-H program:

15 years: Alice Yates. 11 years: Pat Quade, Earlene

Townsend.
Nine years: Teresa Scoggins.
Eight years: Wanda Hester, Mary

Jennings.
Seven years: Jinx Shaver.

Six years: Alice Ballard, Sharon Mullino, Amelia Perry, Shirley Sloan.

Four years: Shelly Cox, Sheila Hester, Jeanie Hollingsworth, Helen Lammert, Lou Landes, Patrick Pace, Beverly SoRelle.

Three years: Nancy Adkins, Pam Bevel, Jean Carver, Renee Dudensing, Barbara Holmes, Cathy Penman, Donna Saffel, Sue Stewart. Two years: Sharon Jones, Carolyn Mathis, Tommy Matthews, Frankie SoRelle, Gaile Swoyer, Rod Townsend, Roy Don Wilson.

One year: Jimmie D. Ballard, James Bevel, Linda Guadalcazar, Mary Murphy, Vance Saffel, Marsha Simpson, Danny Stewart.

Junior Leaders

Five years: Michelle Scoggins.
Three years: Chad Ballard, Laurie
Hester, Wayne Hester, Faye Mullino,
Jennifer Shaver, Lance Sloan.

Two years: Dalyn Gilly, Janet Quade, Richard Shaver.

Quade, Richard Shaver.
One year: Tamra Burnett, Jonathan
Lammert, Traci Landes, Shanna
Murphy, Joseph Pace, Penny Peden,

Jennifer Swoyer.
Following the presentation of the leader certificates, two special awards were presented. Mrs. F. W. Martin presented Lance Sloan as the 1987 F. W. Martin Memorial Achievement Award winner.

B. O. Roberson, Haskell County judge, recognized Dalyn Gilly as the 1987 Gold Star recipient. The Haskell National Bank awarded Dalyn a savings bond and a 4-H jacket.

Chad Ballard wins state honors

Chad Ballard has completed his nine-year 4-H career by receiving third place honors with his Santa Fe 4-H Record Book. He is the 18-year-old son of Mr. and Mrs. Don Ballard of Rochester.

The fact that Chad participated in 12 4-H projects and kept very accurate records in each project was a key part of his award-winning record book.

The Haskell County 4-H member will receive an all-expense paid trip to the National 4-H Congress in Chicago in December, along with a \$750 scholarship. Both awards are sponsored by the Santa Fe Railway.

Chad was an extremely active 4-

H'er. He not only excelled in his many 4-H projects, but he also shared his knowledge and abilities with others by being a junior leader in his local 4-H club. He served his club by carrying out his duties in various elected offices, serving as vice chairman and chairman of the County 4-H Council and as a member of the District 4-H Council.

As a result of his outstanding 4-H work and leadership qualities, Chad received the Gold Star Award, the highest award a 4-H member can receive on the local level, and the F. W. Martin Memorial Achievement Award. The Martin award is a local award based on achievement not only in 4-H but also in school, community and church activities.

Chad received most of his 4-H honors and awards in his beef and swine projects. He attended numerous livestock shows during his 4-H career and was very successful in the show ring. This year he served as a junior

Chad Ballard
...receives state honors

director for the Texas Club Calf

A quote from Chad reveals his feelings about his livestock projects: "I have won many ribbons, trophies and awards, but my biggest achievement was in my own ability to carry forward a given project."

Chad has now begun another major project. This time it is not a 4-H project, but a personal one. He has started his college career as a freshman at Texas A&M. He plans to use all of his accumulation of skills and knowledge in his 4-H club work to help him acquire a successful and rewarding college eductation.

Tim Everett first football contest winner

Tim Everett was first-place winner in the first Free Press football contest.

He was one of three contestants who correctly guessed 13 of the 19 winners in last week's football contest (there was one error in listing of games which was not counted in the contest).

Everett won first place by coming close on his guess of the tie-breaker game. He will be awarded the top prize of \$20.

Also picking 13 winners were Albert Enriquez and Rocky Young, who won second and third places, respectively, along with the prize money of \$10 and \$5.

Everett predicted a 27-7 victory by Auburn over Texas in the tie-breaker, being 8 points off the actual score. Emriquez was 11 points off with a guess of 27-10, and Young missed by 19 points with a prediction of a 33-20 Auburn triumph.

Two ties kept contestants from getting higher scores.

Finishing just out of the money with 12 correct winners were Bobby Hobgood, Janie Kennedy, Joe Ortiz, Mik Everett, Esther Chavez, Rodney

Bass and Larry Cunningham.

Here are the results of last week's

contest games:
Auburn 31, Texas 3; Munday 27,
Haskell 25; Paint Creek 19,
Heremleigh 19; Rochester 41,
Guthrie 12; Clyde 20, Hamlin 7;
Albany 6, Throckmorton 6; Seymour
13, Knox City 7; Childress 21,
Quanah 6; Cooper 24, Brownwood

17; Boston College 38, TCU 20.
Miami 31, Florida 4; Washington
31, Stanford 21; LSU 17, Texas
A&M 3; Oklahoma 69, North Texas
14; Alcorn State 28, Gramling 24;
Florida State 40, Texas Tech 16;
Wyoming 27, Air Force 13;
Oklahoma State 39, Tulsa 28; Oilers
18, Cowboys 13.

To marry Oct. 17

Sharie Cavaness, daughter of Mr. and Mrs. Alton Cavaness will be married Oct. 17 to Ricky Dunnam, son of Mr. and Mrs. Jerry Dunnam. Miss Cavaness is a 1985 gradaute of Water Valley High School and is emloyed by Haskell Independent School District. The prospective bridegroom is a farmer and is a 1984 graduate of Haskell High School. The wedding will be Oct. 17 at Water Valley United Methodist Church.

Around town

Mr. and Mrs. Henry Rueffer and Carl have returned home from a visit with their daughter, Verlene, and her husband, Richard, and granddaughter, Emilie Whitely, of Alvin, and with Mrs. Rueffer's brother and wife of Houston, Henry's brother Herbert and

family of Bertram, and sister, Bertha and Henry Hohenberga of Marble Falls and other relatives in Thorndale.

You are reading The Haskell Free Press and we thank you.

Miss Pippin weds Michael Derby

Karin Sherrill Pippin became the bride of Joseph Michael Derby on Saturday, Sept. 5, at the First Presbyterian Church in Haskell. The reception wa sheld in the home of Judge and Mrs. Charles L. Chapman.

Matron of honor was Mrs. Phil T. Shultz of Dallas. Best man was Chesley Keller of Oklahoma City. Bridesmaids were Mrs. Charles Derby of Duncan, Okla., and Sue Hagadone of Fort Worth.

Groomsmen were Charles Derby of Duncan, brother of the groom, and Hugh Tullos of Oklahoma City. Ushers were Jim Pippin of Round Rock, brother of the bride, and Art Williams and Davis Chapman, both of Haskell.

The bride was given in marriage

by her brother, Lee Pippin of Azle. Nelda Lane of Haskell was the organist and Sharon Towndrow of San Angelo was the harpist. Candlelighters were Jim Pippin and Davis Chapman.

The bride is a native of Haskell and a graduate of the University of Texas at Austin. The groom is a native of Duncan and a graduate of the University of Oklahoma. Karin is the daughter of Carolyn W. Pippin of Haskell and the late Jack Pippin. The groom is the son of Mr. and Mrs. James Derby of Henderson, N. C.

Following a honeymoon in Charleston, S.C., the couple will live in Oklahoma City where the groom is employed at Kerr-McGee and the bride with Postoak Petroleum.

Denton couple exchange vows

Corinia Beth Whitworth and Kevin Lynn Maxson, both of Denton, were united in marriage at 2 p.m. Aug. 15 in the United Methodist Church in Denton. Andy Walters officiated at the double ring ceremony.

The bride is the daughter of Mr. and Mrs. Lyle J. Whitworth of Denton. She is the granddaughter of Mr. and Mrs. H. W. Whitworth of Denton and A. E. Reddoch of Amarillo and Dora Howard of Paonia, Colo. She is the great-granddaughter of Bertha Whiteworth of Denton.

The groom is the son of Mr. and Mrs. Dwight Maxson of Denton. He is the grandson of Mr. and Mrs. Claud Maxson of Celina and Mrs. Harold Spain of Haskell.

Ushers were Jonathan Whitworth, brother of the bride, and Allen Kirk of Sulphur Springs.

Jeannie Whitworth, sister of the bride, was maid of honor. Sherry Whitworth and Stephanie Whitworth were brides maids

were bridesmaids.

Best man was Zane Morgan of Denton. Mark Wickson and R. C. Bradley Jr. were groomsmen.

The bride was presented in marriage by her father.

The quartet wedding music consisting of two violins, a viola and a cello, was presented by Claire

Adkins on violin, Lisa Edmundson on violin, Matt Beck on viola and Michael Kaprelian on cello. The trumpet soloist was Steve Herman of Denton.

The bride's parents were hosts to a reception at Flint Hall following the ceremony.

Members of the house party were Laresa Davis of Denton, Stephanie Schurter of Denton and Debbie Whitworth of Denton, aunt of the bride.

The groom's parents were hosts to a rehearsal dinner at Wyatt's Cafeteria Aug. 13.

The bride is a 1985 graduate of Denton High School and is a violin performance major at North Texas State University. She works for MARC opinion Research in Denton. The groom is a 1982 graduate of Denton High School and is a senior at North Texas State University. He is majoring in industrial technology and is employed by Peterbilt Motors Inc. in Denton.

After a trip to Puerto Vallarta, Mexico, the couple will live in Denton.

All of the other planets in our solar system could be placed inside the planet Jupiter.

Karin Pippin Derby

Obituaries

Edward J. Neinast

Funeral services were held at 2 p.m. Monday for Edward J. Neinast. of Sagerton.

Neinast, 68, died Saturday at Haskell Memorial Hospital.

Services were at Faith Lutheran Church in Sagerton with the Rev. Mel Swoyer, pastor, officiating. Burial was in Willow Cemetery under direction of Holden-McCauley Funeral Home.

Pallbearers were Dan Humphreys, Ken Humphreys, Randy Crowe, Ed Walling, Gary Muegge, Jack Muegge and Dean Quate.

A member of Faith Lutheran Church in Sagerton, Neinast had served as a church elder. He was a former member of the Haskell Memorial Hospital Board of Directors and Veterans of Foreign Wars. He was a veteran of World War II and was a member of the Sons of Hermann Lodge in Old Glory. He was a retired farmer.

Neinast was born Sept. 2, 1919, in Sagerton, the son of Herman C. Neinast and O'Tillie Jander Neinast. He was married March 10, 1945, to Mary Annyce Brown in Haskell.

Survivors include his wife of Sagerton; a son, Kenneth Edward Neinast of Emery; a daughter, Judy Anne McEwen of Tuscola; five sisters, Frieda Quade of Sagerton, Elnora Scott of Hammond, Ind, and Alice Muegge, Sylvia Crowe and Pauline Dick, all of Haskell; and four grandchildren.

He was preceded in death by a son, Douglas Joe, his parents and two sisters.

Fred Sanders Jr.

Funeral services were at 10 a.m. Monday at the First United Methodist Church for Fred Sanders Jr. of Galveston, a native of Haskell. He was 70.

The Rev. Kenneth Kirk officiated. Burial, under direction of Holden-McCauley Funral Home, was in Willow Cemetery.

Pallbearers were Dr. Albert Sanders, Fred A. Sanders, Wallace Sanders, Ed Wilber, Dr. James Sanders and Steven Sanders.

Born in Haskell March 27, 1917, he was the son of Frederick T. Sanders and Malenda Ernest Sanders. He graduated from Haskell High School in 1935 and attended Texas Wesleyan College and Pratt University of Fine Arts in New York where he received his certificate in interior decoration. He operated Fred's Interiors of Galveston. He was a member of the Methodist church.

He was married to Marcia Hedberg

June 20, 1976.

He is survived by his wife of Galveston; a brother, Wallace Sanders of Wichita Falls; and a son, Fred T. Sanders II of Galveston, as well as several nieces and nephews.

Joella Elliot

Joella Elliot died Friday in Humana Hospital in Abilene. She had lived in Haskell a few years.

Graveside services were held Sunday afternoon at Willow Cemetery with the Rev. James Densman, pastor of the First Baptist Church, officiating. Burial was under direction of Holden-McCauley Funeral Home.

Mrs. Elliot, a Methodist, was born March 25, 1926, in Colorado City. She was married to Warren Harding Elliot Sept. 4, 1948, in Big Spring. He died June 22 of this year.

She is survived by three nieces, Charlene Brasher of Lubbock, Freeda Billingley of Ackerly and Jane Ann Rhyne of Sweetwater; a sister-in-law, Mrs. J. C. Eudy of Big Spring and several aunts and uncles.

Chimney cleaning important

Chimney cleaning is essential to safe and efficient operation of wood and coal burning appliance, says Danny Myers, owner of Big Country

"Regular cleaning is part of an effective maintenance program in reducing the hazards of chimney fire and structural damage while maintaining fuel efficiency.

"Your heating system requires periodic inspection and cleaning. Soot and cresote accumulate inside your chimney as a result of unburned gases. When large amounts of these combustible deposits are allowed to collect in the flue they restrict draft, cause smoking, and can result in a chimney fire.

"For safety reasons your chimney should be cleaned at least once a year and in many cases more often, depending on the quality and quantity of fuel used."

Jupiter is the fastest rotating planet in our solar system, spinning on its axis once almost every 10 hours at its equator. A stationary object at its equator would be traveling 27,720 miles per hour.

Lisa Baird Wheatley

Lisa Wheatley spends summer at E.R. Squibb

Lisa Baird Wheatley of Rule, a pharmacy student at Southwest Oklahoma State University in Weatherford, recently returned from New Brunswick, N.J., where she spent the summer in an internship program with E.R. Squibb & Sons.

The internship program was begun 10 years ago as a joint effort between the National Pharmaceutical Council and 35 major pharmaceutical manufacturers, including Squibb, to educate pharmacy students in all aspects of quality pharmaceutical manufacturing and marketing.

Well over 500 pharmacy students from across the nation applied to the program this year, of which less than 100 were accepted as an intern by one of the manufacturers.

Interns are rotated through all major departments of the company, including research and development, quality control, marketing and sales, to allow them to learn about the pharmaceutical industry first hand.

Parents cannot enter their own children; only grandparents, aunts, uncles, other relatives or friends may enter a child's picture. No professional pictures may be entered, only snapshots will be accepted. No adults may be in the picture.

Pictures shoull be mounted on a 9x11 poster board with a printed or type caption, sentence or poem to describe the picture.

For further information contct Mrs. Barbara Harris at 864-3608 or Mrs. Katie Hopper at 864-8923.

The prosecutor said Johnson used the funds to pay on a loan he owed First State Bank in Abilene.

Byrd never received the loan.

Flower Show entry dates announced

"Welcome to our County Fair" is the theme of the Haskell County Fair Flower Show Sept. 24-26.

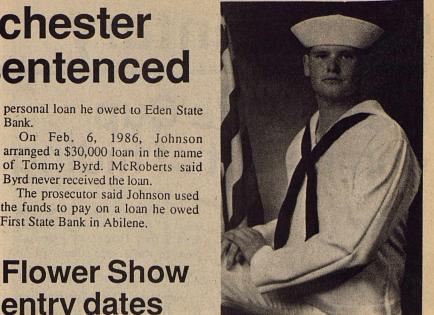

Pot plants and horticulture should be entered by Friday, Sept. 25, at the Civic Center. Gardeners are invited to make arrangements for the design

The Haskell Garden Club will sponsor a workshop for making arrangements and groom horticulture at 9 a.m. today (Thursday) at the Haskell National Bank Community Room. Those attending are asked to bring their containers and plant material, either fresh or dried. The workshop also will be open to anyone who just wants to come and enjoy the activities.

The fair flower show will offer a \$10 cash award for the best in horticulture and also a \$10 cash award for best in creative arrangement in the design classes.

Fair catalogs are available at various businesses.

The sun's power in watts is 380,000 billion billion kilowatts--enough to run 176 billion billion frost-free refrigerators just about forever.

Corey Goode

Corey Goode selected for Who's Who

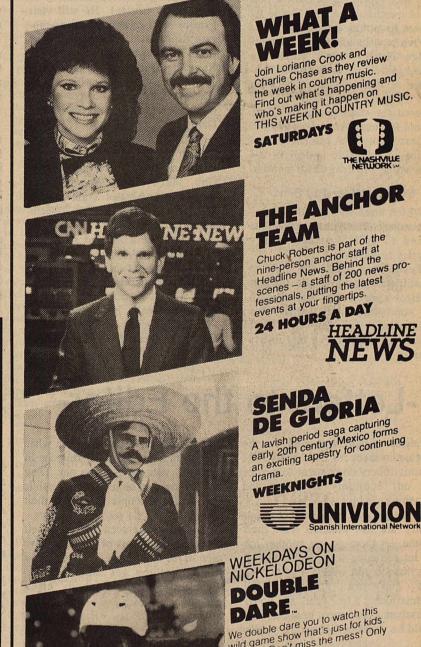

Corey Goode, a 1987 Throckmorton High School graduate, has been accepted to Who's Who Among American High School Students for 1986-87. This is his second year to be accepted.

Only five percent of all students from the nation's 22,000 high schools are recognized and honored in Who's Who each year.

His biography will be published in the 21st annual edition of Who's Who Among American High School

Corey graduated from naval recruit training at Great Lakes, Ill, Aug. 7. He is now in apprentice school for seamanship. As of Oct. 2, he will be stationed on the USS Fletcher, based at Long Beach, Calif.

He is the son of Tommy and Anita Goode of Throckmorton. He is the grandson of Mr. and Mrs. Harley Poteet of Haskell and Mrs. Floyd Goode of Rochester.

PLANNING

RETIRE IN COMFORT

Only five out of every one hundred of those who retire are financially independent. 22% of all retirees must continue working. A staggering 73% will be dependent on Social Security, their relatives, or some form of welfare or charity.

Those of you with twenty or more years to retirement should find it relatively easy to be in the 5% of retirees who retire in financial comfort. Your living expenses will normally be about 60% to 80% of your pre-

retirement expenses. You will no longer need a working wardrobe. You can probably get by with trading automobiles less frequently. Your social obligations may be less, and your children will be out of the nest.

No two families are the same, but let's look at the retirement numbers of Mr. and Mrs. Green. They are forty-five years old and wish to retire in twenty years. It's difficult to be specific about things twenty years from now, but they estimate that their retirement expenses will be about \$30,000 per year. They figure that Social Security along with his IRA and her company pension plan will provide them with about \$20,000. The additional \$10,000 will have to come from an outside investment program. They would like their retirement funds to last for twenty-five years. If they can manage an 8% after-tax return, it would take \$107,000 to provide \$10,000 per year for twenty-five years.

What does it take to accumulate \$107,000 in the twenty years they have remaining until retirement? With an after-tax yield of 6%, they must set aside \$243 a month from now until retirement. It's interesting to note that an after-tax return of 10% allows them to drop their monthly commitment

Unless your retirement is already fully-funded, take a little time right now to see what you could do to make your retirement more pleasurable. If you need assistance in reviewing your situation, please contact us; we'd be happy to help you.

Governor's Cup comes out of hiding

AUSTIN-The 15-year-old case of the missing Governors Cup was solved last week while Texas officials tried to solve the Supercollider and school finance riddles.

The almost five-foot-tall trophy was presented by the Texas governor each year to the winner of the Dallas Cowboys-Houston Oilers preseason game. Along with it went official bragging rights, good for one year.

In 1973, the silver cup mysteriously disappeared, and the teams traded accusations instead.

The culprit? The Oilers left the boxed trophy behind when it moved offices that year. A cleaning man found it last week with some old programs and other memorabilia.

The Oilers had the trophy refurbished for last Saturday's preseason game.

School Finance Appealed

Officials with the Texas Education Agency announced last week

they will appeal the lawsuit which could overhaul the way Texas finances its public schools.

Five months ago, state District Judge Harley Clark ruled the Texas system unconstitutional because of the differences between rich and poor school districts. He ordered the state to install a fair school finance system by 1989.

Last week, TEA attorneys filed notice of intent to appeal in the case which will drag on for months.

Supercollider Bid Sent

Which state will get the lucrative supercollider project the feds intend to build for high energy physics research?

Texas has sent its bid to Washington to build the project at sites near Dallas-Fort Worth or Amarillo, along with five "maverick" bids for two West Texas sites and three in Liberty

March 3, 1870.

The official proposal from Texas filled 51 boxes and weighed more than a ton. In all, 43 proposals from 25 states were submitted.

High Court Politics

Departing Chief Justice John Hill will hang up his shingle with the Houston law firm of Liddell, Sapp and Zivley and the line to replace him on the State Supreme Court has gotten longer. Two sitting justices, Robert Campbell and Ted Robertson, announced they will run in next year's election. Both are Democrats.

Robertson pointed out he is not running in the middle of his term, while Campbell is. A midterm justice, by winning, gives GOP Gov. Bill Clements the opportunity to appoint a

Clements is still searching for a successor to Hill who will make the race next year. San Antonio attorney Roy Barrera Jr. has withdrawn his name from consideration, citing a commitment to the George Bush for President cam-

Robertson already faces challenges for his present seat from former Congressman Jack Hightower, now a top staffer with Attorney General Jim Mattox, and Brownsville state Sen. Hector Uribe.

Other Highlights

• Texas First Lady Rita Clements will co-chair Bush's steering committee and the governor's top aide, George Bayoud, will be vice chairman of the campaign.

• The governor, himself, is supposedly neutral. He will visit France next month to commemorate diplomatic relations between the French government and the Republic of Texas.

· Marta Greytok, who served Harris County in several ways, was sworn last week to the Public Utilities Commission.

Former commissioner Peggy Rosson used her departure as a forum for criticizing former Gov. Mark White for caving in to politics and bad staff advice and reneging on utility reform campaign promises.

• The first scheduled Republican presidential debate will be held in Houston next month.

• Texas Republican Party chairman George Strake took to the campaign trails last week visiting 12 targeted cities to blast Democrats for raising taxes.

30 Years Ago Sept. 12, 1957

DID I MISS A TORNADO?

Kenneth W. Howard of Haskell has been appointed operations and training officer with the rank of cadet major of the Army ROTC unit at TCU. He is the son of Mr. and Mrs. Hollis Howard.

Haskell Jaycees Tuesday night finished the cemetery working project with 26 members showing up for work preceding the regular meeting of the organization.

Sam Reddell, associate pastor and music director of the First Baptist Church since September 1955, has accepted a call to Longview, Wash., as minister of music and education in that city's First Baptist Church.

The City Council, in regular session Tuesday night, was advised that site for a Negro school building in the city's Negro Park could not be sold or leased to the Haskell School District unless authorized by a vote of

Football was the principal discussion topic at the meeting and luncheon of the Lions Club Tuesday when coaches Ray Overton, Dick Gaines and Jimmy Browning of

Haskell High School were guests. Carney Rural School, O'Brien, resumed classes Sept. 2 with a total enrollment of 168 students, according to Elvin Mathis, superintendent.

Mrs. Dora Cook returned recently from a six weeks visit with friends and relatives in California and with her daughters in Abilene and Odessa.

50 Years Ago

Sept. 3, 1937 At a called meeting of the City Council Friday morning, aldermen accepted an offer made by the Southwestern Tank Service Co. of Amarillo for the old water tower, erected in 1908 and which was replaced with a new and larger reservoir last year.

Mr. and Mrs. Parks Woodson have returned from a visit in Kaufman with Mr. and Mrs. J. K. Griffis. Mr. Griffis was formerly court reporter

here for the 39th district. Mr. and Mrs. French Robertson moved to Sweetwater the first of the week where Mr. Robertson will be associated in the law firm of Robertson & Grindstaff.

Haskell's seven gins have processed 221 bales of cotton from the 1937 crop to date. Ginners and cotton buyers estimate the country's crop this year at 40,000 to 50,000 bales.

60 Yeaars Ago Sept. 15, 1927

Ralph Raney, cotton buyer from Waco, arrived in the city last Thursday to remain for the balance of the season.

Mr. and Mrs. Hill Oates have returned from a vacation spent in Medicine Park and Wichita Falls.

Mr. and Mrs. R. C. Montgomery returned last Thursday from Carlsbad Caverns, N.M., and a visit to several points in the Davis Mountains. While in that region they attended the famous Bloy's Camp Meeting, an annual event.

Mrs. Marshall Pierson and little daughter Daisy Bell have returned from Galveston where they visited their sons and brothers, Dr. Rogers Pierson and Ryan Pierson.

Misses Lela Welsh and Lewis Manley visited relatives and friends in Abilene last week.

Haskell County voters will ballot on a \$1,500,000 road bond issue Saturday. If voted, the proceeds from the bonds would be used in building hard-surfaced highways across Haskell County east and west, and north and

> 80 Years Ago Sept. 14, 1907

Capt. M. S. Pierson and family are visiting this week with the families of Messrs. D. R. Couch and S. B. Pierson at Aspermont.

Cattle men of this section loaded 14 cars of cattle Tuesday at the Wichita Valley pens for the Fort Worth market.

Paul Solomon of Cooke County is visiting his sons, J. E. and P. D. Solomon of this county.

Mr. and Mrs. D. W. Newton of

Newton were in Haskell Wednesday. Mr. Newton is the hotel and liveryman at Weinert.

Arthur Cummings came in Monday from El Paso County where they are ranching near Van Horn, and spent several days with Haskell

C. M. Hunt, late of the firm of Hunt & Grissom, is now with Higginbotham, Harris Co. in their Haskell lumber business.

Miss Minnie Ellis has gone to Iowa Park where she will teach in the public school.

Several Haskell parties took advantage of the excursion rate and

Senator

Lloyd Bentsen

Watching

Washington

went on a pleasure trip to Galveston last Saturday. Among those making the trip were Joe McCrary, J. L. Baldwin, A. W. McGregor, John Ellis, Walter Hicks, Roy Shook, Felix Winn, Earl Odell and Frank and Press Baldwin.

The brick work on the Stein-McCullouch-Killingsworth building on the northeast corner of the square has progressed rapidly in the past two weeks. Bricklayers are above the second floor of the large structure which will be one of the largest buildings in the city when completed.

Q: My spouse is retired from the armed forces and rated 100 percent by the Veterans Administration for service-connected disabilities. Do I have the option of choosing Civilian Health and Medical Program of the Uniformed Services (CHAMPUS) or Civilian Health and Medical Program of the Veterans Administration (CHAMPVA) coverage?

A: No. If your spouse retired from the armed forces you must apply for CHAMPUS.

Q: I am a veteran and would like to start a small business. How can I obtain a Veterans Administration small business loan? A: The VA does not have a small

business loan program.

Dallas Morning News, the Carrollton man commented on the rise of crime in Dallas. He quoted an article in the News which stated that crime in Dallas County has increased 584 percent since 1960, while the population has grown only 39 percent. Then he added: "I am out of patience with crime

BY WENDELL FAUGHT

I don't know L. C. Abercrombie of

In a letter to the editor of the

Carrollton, but I do know his

message. It's similar to one we're

hearing more and more these days.

and this society's handling of it. The solution is so simple: Expand the use of the death penalty. Punish by death all violent offenders, including rapists and child abusers. Get these people out of our society once and for all.

"Why should we law-abiding citizens have to live our lives in constant concern for our safety? Why should we spend even more of our money building more prisons, hiring more probation officers, recapturing and retrying these criminals? Why should so many of us have to be anguishing victims? Just give the violent criminals the death penalty and be done with it."

Those are strong words giving a simple solution to a major problem. On the surface it makes sense, but in actuality it probably would do more to overcrowd our prisons than anything else.

We can't even execute those who already have been tried, convicted and sentenced. Since 1976, when executions were re-started in this country, exactly 90 death-row inmates have been executed. That represents only a small fraction of those who have been sentenced to die.

As far as I know, all the people now on death rows in various state prisons have been convicted of murder, the only crime for which anyone has been executed since the Rosenburgs in the early 50s.

The death penalty, as we use it, is no deterrent to crime. Of the thousands of murders committed in this country each year, many cases go unsolved. Of those killers who are apprehended, many are not convicted. Of those who are convicted, many do do not get the death penalty. And of those who do get the death sentence, very few are executed.

Those few who have been executed have been put to death after years of appeals, re-trials, stays of execution and other delays. The cost of accommodating a death-row inmate is much greater than it is for a normal prisoner.

In the unlikely event the Carrollton man's idea was to be adopted, most states probably would need to build expensive facilities to house death-row inmates. And the need would grow each year since far more would be coming in than going

Back in the old days, the death penalty was widely believed to be a deterrent to crime. But back then the sentence was carried out with swiftness. We've all seen western movies where a murderer was brought to trial on the same day of the crime, and while the jury was listening to the testimony, a detail was outside building the scaffold as a crowd congregated for the choice vision posts for the hanging.

Now that kind of capital punishment probably worked.

Texas is caught in a time warp when the federal government distributes funds from a key program for cities.

A key element in the U.S. Department of Housing and Urban Development's formula for distributing these Urban Development Action Grants -which are used to boost a wide range of economic development projects in cities—is unemployment. HUD normally updates these figures every year, but they haven't in two years. As a result, HUD is still using unemployment information from 1984.

It doesn't take a genius to figure out how unfair this is to our state. These outdated numbers show Texas with an unemployment rate 1.6 percent under the national average. Last year's unemployment rate, though, was 1.9 percent above the national average.

As I told HUD Secretary Samuel Pierce, this use of old data also means HUD does not consider either improved economic conditions in some states or worsened conditions in states like Texas. From 1984 to 1986, for example, U.S. unemployment dropped from 7.5

percent to 7 percent. At the same time, Texas unemployment was skyrocketing-from 5.9 percent to 8.9 percent. That's a big difference, and if HUD would take these changes into

account, it would make a big difference in the amount of money our state

We must make sure they bring these figures up to date and make sure our state's competitive position matches current economic realities. I've urged Secretary Pierce to use the most current data and to do that as quickly as possible-and have been assured that HUD is updating these figures and will have them ready for use when these grants are awarded in November.

I have also worked to correct some regional biases in the program that discriminate against Texas and other Sun Belt states.

For example, the formula used to give more weight to the age of housing than its condition in an area applying for these funds. That has meant an older mansion in a fashionable section of Boston counted more than a tarpaper shack in Texas-if that shack was built after 1940.

Earlier this year, the Senate approved legislation to correct some of these inequities. But now we have to go back and make sure HUD is administering the program in a fair and effective manner. If necessary, I'll prepare legislation to ensure more fair and effective administration of the program. If the federal government is to make the best use of our tax dollars, fund-

ing decisions must be based on the most accurate information available. I spent 16 years in the private sector, and I know that you don't run a business using outdated information. There is no reason why government should operate that way, either.

Nursing center to pay tribute to grandparents

Tonight (Thursday) will be "Adopt a Grandparent Night" at Haskell Nursing Center.

Young people will visit the nursing center at 7 o'clock for a short program, entertainment and refreshments.

The young people will then visit residents of the center and will be asked to "adopt" one as a grandparent to be visited regularly during the school year.

The program is a joint venture of the nursing home and the youth of the community.

Members of 4-H clubs, Scouts, churches and other youth organizations have been invited to participate.

PROPOSITION NO. 1 ON THE BALLOT

House Joint Resolution 104 proposes a constitutional amendment to allow the legislature to provide a guarantee for the Texas grain warehouse self-insurance fund. The guarantee of the fund may not exceed \$5 million, and when the fund reaches \$5 million, the guarantee will cease. The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to provide for the surety of a grain warehouse fund to be established by the grain industry for the protection of farmers and depositors of grain in public warehouse fa-

PROPOSITION NO. 2 ON THE BALLOT

House Joint Resolution 60 proposes a constitutional amendment to permit rural fire prevention districts in counties with populations over 400,000 to levy a tax at a rate not to exceed six cents (\$.06) per \$100 property valuation for the district, if the voters of the district approve

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to raise the maximum property tax rate that may be adopted by certain rural fire prevention districts, but only if approved by the districts' residents."

PROPOSITION NO. 3 ON THE BALLOT

House Joint Resolution 48 proposes a constitutional amendment to Texas agricultural businesses. The extend the school ad valorem tax ex- amendment would authorize the emption for elderly persons to the surviving spouse of a person receiv- in the amount of \$100 million outing the exemption. If a surviving standing at one time to carry out spouse is at least 55 years old at the time of death of the person receiving the exemption, ad valorem public school taxes could not be increased and the use of bond proceeds. as long as the homestead remained the residence homestead of the surviving spouse.

The proposed amendment will appear on the ballot as follows:

'The constitutional amendment to limit school tax increases on the residence homestead of the surviving spouse of an elderly person if the surviving spouse is at least 55 years of age."

PROPOSITION NO. 4 ON THE BALLOT

House Joint Resolution 5 proposes a constitutional amendment to allow the legislature to create programs and make loans and grants of money for development and diversification of the economy, elimination of unemployment and underemployment, stimulation of agricultural innovation, promotion of agricultural enterprises, and development of transportation and commerce. Bonds or other obligations payable from ad valorem taxes must be approved by the voters in the political subdivision seeking such funding sources.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment of the bond proceeds.

authorizing the legislature to provide assistance to encourage economic development in the state."

PROPOSITION NO. 5 ON THE BALLOT

House Joint Resolution 65 proposes a constitutional amendment to permit the State Department of Highways and Public Transportation to contract with the Texas Turnpike Authority and to contribute money to the costs of turnpikes. toll roads and toll bridges of the Authority. The amendment would authorize the governing body of a county with a population over 400,000, a county adjoining such county, and any city or district located in or partially in such county to make agreements with the Texas Turnpike Authority and levy ad valorem taxes to pay part or all of the principal and interest on Turnpike Authority bonds and to pay maintenance and operating expenses of the Turnpike Authority, if the

voters approve the tax. The proposed amendment will appear on the ballot as follows:

Registration dates for Scouts given

PROPOSITION NO. 11 ON THE BALLOT

Section 1, Subsections (f) and (g) of Senate Joint Resolution 12 propose a constitutional amendment to exempt from ad valorem taxation goods, wares, merchandise, and ores other than oil, gas and petroleum products. These items would be exempt from taxation only if they originated outside the state and were located in the state for a period of 175 days or less for purposes of assembly, storage, manufacture, processing, or fabrication. Such property could be taxed by a county, school district, or municipality if the governing body of the political subdivision took official action to provide for the taxation of the items while they were located in the political subdivision. If the governing body of a political subdivision took official action to tax the items before January 1, 1988, the tax would be effective for the 1988 tax year. If the action were taken after January 1, 1988, and before April 1, 1988, the tax would become effective January 1, 1989.

The proposed amendment will appear on the ballot as follows:

'The constitutional amendment providing for the exemption from ad valorem taxation of certain property that is located in the state for only a temporary period of time."

certain local public facilities." **PROPOSITION NO. 12** ON THE BALLOT **PROPOSITION NO. 8**

Senate Joint Resolution 35 proposes a constitutional amendment to allow a married couple to agree in writing that all or part of their community property will become the property of the surviving spouse if one spouse dies. The proposed amendmen will ap-

pear on the ballot as follows:

"The constitutional amendment permitting spouses to hold community property with right of

PROPOSITION NO. 13 ON THE BALLOT

Senate Joint Resolution 27 proposes a constitutional amendment to authorize the creation of special districts to provide emergency services. The commissioners court in a county participating in a district could, upon approval of the voters, levy an ad

Cadenhead, Denia Cunningham, Nene

Sixth grade: Monday, Sept. 14, 5:30 p.m., Joe Ann Halliburton, 1101 N. Ave. L. Leaders: Jeanette Albuquerque, Nancy Winchester, Jo Ann Halliburton.

Cadettes and seniors should contact Joe Ann Halliburton for registration.

No tax increase in Rule this year

The City of Rule will not increase property taxes this year. But as of Oct. 1, the minimum water bill will be lowered to 2,000 gallons and the minimum rate will be increased \$1.

and mental health and mental revalorem tax of up to ten cents tardation facilities." (\$.10) per \$100 valuation of the property located in the district.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment to

allow for the creation and establishment, by law, of special districts to provide emergency ser-

PROPOSITION NO. 14 ON THE BALLOT

Senate Joint Resolution 34 proposes a constitutional amendment to allow the state a limited right to appeal criminal cases. Under current law, only criminal defendants are allowed to appeal. This proposed amendment would allow the legislature to pass laws granting state prosecutors the right to appeal in limited circumstances.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment giving the state a limited right to appeal in criminal cases."

PROPOSITION NO. 15 ON THE BALLOT

House Joint Resolution 35 proposes a constitutional amendment to abolish the office of county treasurer in Gregg County and transfer the duties of that office to the county auditor or an elected official designated by the commissioners court. The amendment would also abolish the office of county treasurer in Fayette and Nueces counties if a majority of the voters in those counties vote in favor of the amendment. In Fayette County, the functions of the treasurer would be transferred to the county auditor or the officer succeeding to the auditor's functions. In Nueces County, the powers, duties, and functions of the treasurer would be transferred to the county clerk.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to provide for the abolition of the office of county treasurer in Gregg, Fayette, and Nueces coun-

PROPOSITION NO. 16 ON THE BALLOT

Senate Joint Resolution 6 proposes a constitutional amendment to allow the commissioners court in a county with a population of more than 150,000 to establish more than one Justice of the Peace court in each Justice of the Peace precinct, i.e., to provide for the election of more than one Justice of the Peace in each Justice of the Peace precinct. The proposed amendment will appear on the ballot as follows:

"The constitutional amendment providing that certain justice precincts may contain more than one justice of the peace court."

PROPOSITION NO. 17 ON THE BALLOT

Senate Joint Resolution 26 proposes a constitutional amendment to allow the legislature to define by law those municipal functions that are governmental and those that are proprietary. This authorization would apply to laws passed by the 70th Legislature, 1987, and by future legislatures in regular or special session. A municipality is liable for damages arising out of acts committed under its proprietary functions, but not its governmental functions. Definition of such functions by the legislature would clarify the liability of a municipality in civil lawsuits filed against it.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment

authorizing the legislature to define for all purposes the governmental and proprietary functions of a municipality."

PROPOSITION NO. 18 ON THE BALLOT

House Joint Resolution 18 proposes a constitutional amendment to authorize the legislature to provide for the creation, operation, and financing of jail districts. Financing of a jail district could be accomplished through the issuance of bonds and other obligations, or by levy of an ad valorem tax on property located in the district if the qualified electors of a district approve an ad valorem tax or bonds secured by a property tax.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment relating to the creation, operation, and financing of jail dis-

Pep rally

HHS cheerleaders put on an entertaining skit at the pep rally Friday afternoon before the Munday game.

PROPOSITION NO. 19 ON THE BALLOT

House Joint Resolution 88 proposes a constitutional amendment to authorize the issuance of \$500 million in general obligation bonds, the proceeds of which will be used to establish a superconducting super collider fund. The fund would be used to provide economic incentives for the superconducting super collider research facility, and the agency administering the fund would be authorized to grant land or property to the United States government for undertakings related to the facility.

pear on the ballot as follows:

"The constitutional amendment authorizing the issuance of general obligation bonds to fund undertakings related to a superconducting super collider research facility sponsored or authorized by the United States government, and to make appropriate grants for such undertakings."

PROPOSITION NO. 20 ON THE BALLOT

House Joint Resolution 96 proposes a constitutional amendment to allow the legislature to provide ad valorem tax relief for mobile offshore oil and gas well drilling equipment. The tax relief would be limited to equipment that is being stored while not in use in a county that is adjacent to the Gulf of Mexico or on a body of water that is adjacent to the Gulf of Mexico.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to authorize the legislature to provide ad valorem tax relief for certain offshore drilling equipment that is not in use."

PROPOSITION NO. 21 ON THE BALLOT

Senate Joint Resolution 17 proposes a constitutional amendment to provide for legislative involvement in the executive branch of government by permitting the legislature to include the speaker of the house of representatives in the membership of an agency or committee that includes officers of the executive branch of government and performs executive functions. Under current law, the legislature is not allowed to exercise any powers in executive matters under Article II of the Texas Constitution, which provides for the "separation of powers" into three distinct departments.

The proposed amendment will ap-

pear on the ballot as follows: "The constitutional amendment permitting the legislature to include the speaker of the house of representatives or the speaker's appointee in the membership of an executive agency or committee."

PROPOSITION NO. 22 ON THE BALLOT

Senate Joint Resolution 53 proposes a constitutional amendment to allow the legislature to limit the term of office of a gubernatorial appointee to a vacancy in a state or district office to a partial, temporary term if the appointment is made on or after November 1 of the last year of the governor's term and the governor is not reelected. Under this amendment, the legislature may provide that the tenure of such an appointee would end sooner than the term would normally ex-

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to allow the legislature to limit the authority of a governor to fill vacancies in state and district offices during the end of the governor's term if the governor is not reelected."

PROPOSITION NO. 23 ON THE BALLOT

Senate Joint Resolution 54 proposes a constitutional amendment to authorize the Texas Water Development Board to issue an additional \$400 million in water development bonds. Of the \$400 million authorized, \$200 million would be designated for conservation and development of water resources, \$150 million would be designated for water quality enhancement, and \$50 million would be designated for flood control. The amendment also authorizes the legislature to provide for review and approval of the issuance of the bonds and the use of the bond proceeds.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to authorize the issuance of an additional \$400 million of Texas Water Development Bonds for water supply, water quality, and flood control purposes."

PROPOSITION NO. 24 ON THE BALLOT

House Joint Resolution 83 proposes a constitutional amendment to allow a county to use county equipment and personnel to perform work, without compensation, for another governmental entity if the commissioners court finds that the work will not interfere with the per-The proposed amendment will ap- formance of county work and approves performance of the work. The governmental entity must be located wholly or partly in the county, and the governing body of the governmental entity must file a written work request with the commissioners court.

The proposed amendment will appear on the ballot as follows:

The constitutional amendment to permit a county to perform work, without compensation, for another governmental entity."

PROPOSITION NO. 25 ON THE BALLOT

Senate Joint Resolution 5 proposes a constitutional amendment to allow the Legislature to authorize Randall County to levy a tax for the benefit of the Amarillo Hospital District. Any such tax could be levied only on property located outside the City of Amarillo and outside the South Randall County Hospital District. The tax could not be more than 75¢ per \$100 property valuation and would be effective only upon approval by the voters in the area to be taxed. If the tax is authorized by the Legislature and approved by voters, the Amarillo Hospital District is to serve residents of part of Randall County. If a tax is levied under this provision, Randall County must repay the State for the cost of publication of this amendment.

The proposed amendment also permits the legislature to authorize hospital district to change its boundaries or jurisdiction if the district was created or authorized by a constitutional provision that includes a description of the boundaries or jurisdiction of the district. Any change in the boundaries or jurisdiction of such a hospital district would become effective only upon approval of the voters in the

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment authorizing the legislature to permit the Amarillo Hospital District to serve certain residents of Randall County, to authorize Randall County to provide financial assistance to the district, and to authorize certain hospital districts to change their boundaries or jurisdiction with voter approv-

EXPLANATORY STATEMENT FOR STATEWIDE REFERENDUM NO. 1

Senate Bill 86 submits to the voters the question of whether the 15 members of the State Board of Education should be appointed instead of elected. If the proposition passes, the Governor will appoint a member of the board for each district, with the consent of the Senate. If the proposition fails, the members will be elected from these districts.

The referendum will appear on the ballot as follows:

"The State Board of Education shall be composed of members who are appointed from districts instead of elected, with equal representation throughout the State of Texas."

EXPLANATORY STATEMENT FOR STATEWIDE REFERENDUM NO. 2

The Texas Racing Act submits to the voters the question of whether pari-mutuel wagering should be legal in Texas on a county-bycounty local option basis. If parimutuel wagering is adopted by the voters statewide, a county must also pass a separate proposition on parimutuel wagering at an election held in the county before any such wagering may be conducted in that coun-

The referendum will appear on the ballot as follows:

"The legalization of pari-mutuel wagering under the Texas Racing Act on a county-by-county local option basis."

Texas A&M book recounts life on the Pitchfork Ranch

COLLEGE STATION — "This I Can Leave You: A Woman's Days on the Ptichfork Ranch" is Mamie Burn's legacy to her grandchildren - a collection of vibrant memories in a series of short

The book, published by the Texas A&M University Press, explains what it was like for an East Texas gal on a big West Texas ranch during World War II and the years just following. Between 1942 and 1965, Mamie and her husband "D" Burns managed the Pitchfork Ranch in West Texas, one of the largest and oldest ranches in Texas.

Somewhat fictionalized the book attempts - as Mamie explains in the introduction - "to give you an idea of what goes on when a bunch of men and boys work together on a ranch infested with women."

Touching, perceptive and funny the book is not a biography of Mamie and D Burns but rather a collection of short stories written by a woman deeply in love with her husband and the wild country that made up the Pitchfork Ranch in '42.

Mostly this book is about ranch people, people who still live on many ranches in Texas.

"This I Can Leave You" by Mamie Sypert Burns is part of the Centennial Series of the Texas A&M Association of Former Students and can be purchased for \$16.95.

In Navy terminology, an "alligator" is an amphibious tractor with treads that enable it to swim or climb beaches.

Market report Haskell Livestock Auction

Prices were steady and demand was good on a run of 1,423 head of cattle and six hogs at Haskell Livestock Auction Saturday.

Butcher calves: choice 62-66; good 55-62; standard 50-55; rannies 40-50. Cows: fat 44-49; cutters 46-52; canners 42-46; stockers 40-55; by

head 450-600. Bulls: bologna 55-63; stockers 60-

Texas A&M publication suggests ways to winter-proof your home

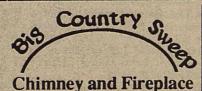

COLLEGE STATION - With Jack Frost nipping at your nose, the Center for Energy and Mineral Resources at Texas A&M University says it's not too late to complete a winter checklist for keeping the house warm and saving on

The list suggests checking windows, doors and other obvious places where air leaks begin, but also obscure places such as wall outlets, switch plates and attic doors that let cold air in.

To save money, lower thermostat settings to at least 68 degrees during the day and even lower at night before going to bed for substantially lower heating bills. Homeowners are also advised to check their heating equipment for efficiency and safety or arrange for a maintenance check by a heating and cooling contractor or repair service.

Homeowners with a fireplace should make sure to clean excess creosote out of the chimney and lower the thermostat to 50-55 degrees when the fireplace is in use. Heated air from the rest of the house will be lost, but the furnace won't use nearly as much fuel.

In addition, the center suggests changing heating filters at least once a month for efficiency and to provide proper attic ventilation to keep insulation dry. Blocking or closing off turbine ventilators with plastic bags or other devices is not a good practice since it hinders attic ventilation and moisture

Texas A&M graduates more school teachers than other Texas universities'

COLLEGE STATION - More school teachers are now graduating from Texas A&M University than any other university in the state.

According to figures recently released by the State Board of Education, Texas A&M has surpassed all other higher education institutions in the number of graduates certified to be public school teachers. From 1980 to 1985 the number of new teachers graduating from Texas A&M increased from 402 to 500. During the same period most colleges in Texas and elsewhere in the country experienced a decline in teacher education enrollments, said Dr. Dean Corri-

gan, dean of education. Texas A&M's College of Education, which also graduates more math and science teachers than any university in the nation, continues to grow in the number of teachers being educated, reported Corrigan.

"Our enrollments have continued to go up because we have developed innovative programs which challenge outstanding students," said Corrigan. Teacher education candidates at Texas A&M must meet higher grade point averages and take pre-tests in English and mathematics prior to entry.

"The educational level of a society can rise no higher than the qualifications of its teachers...the quality of today's teachers will determine the intellectual future of Texas and the nation," Corrigan said.

He maintains teachers need better incentives such as higher pay.

"More importantly, they need better conditions in the work place and they need to be treated as professionals not only by the administrators and school boards in their school districts, but by students and parents as well," he said.

Texas A&M scientists produce lean beef through genetic research

COLLEGE STATION - Just when you've come to grips with the idea that eating red meat might not be too good for you, science has found a way to produce cattle that have less fat.

No longer does a healthful meat choice boil down to chicken or fish, since the new lean beef even falls within American Heart Association guidelines for limiting total fat and cholesterol.

The new beef product has been in development the past few years through genetic research, said Dr. H. Russell Cross, a Texas Agricultural Experiment Station (TAES) animal scientist specializing in lean beef studies at Texas A&M University

Cross, Dr. Jeff W. Savell, Dr. Gary Smith and other TAES researchers recently conducted a National Consumer Retail Beef Study with the assistance of the Beef Industry Council and The National Cattlemen's Associations.

Results of the study were presented in a paper released at an American Heart Association symposium for science writers. The presentation, entitled "Where's the Beef? A Light Approach," included a special meal featuring leanbeef steaks provided by Houston-based Granada Corporation, a leader in producing the genetically improved meat.

New center to study treatment, recycling of municipal wastes

COLLEGE STATION - Discovering new technologies for treating and recycling municipal wastes is the goal of the Center for Environmental Research, a cooperative effort by Texas A&M University, the University of Texas and the City of Austin.

Austin is spending \$40 million in improvements to the wastewater facility and the universities will provide funding and staff for research efforts.

Dr. Calvin Woods, a Texas A&M professor of civil engineering, is working with the center and is studying the use of water hyacinth, a plant that feeds on pollutants in the wastewater discharged from the city. Researchers also are looking at using sludge for soil conditioning.

"In Order To Form A More Perfect Union"

September, 1987 marks the 200th anniversary of the signing of the most important document in the history of our country, the United States Constitution. The World Book Encyclopedia and The World Book Year Book both feature new articles about the document.

Do you know? 1. What two delegates to the Constitutional Convention became

U.S. Presidents? 2. Which signers of the Declaration of Independence also signed the

Constitution? 3. Who was called the "Father of the Constitution?"

4. Who actually "wrote" the Constitution? 5. When was the Constitution

6. What state did not send

representatives to the Convention? 7. In what order did the delegates sign the Constitution? 8. Which three leading delegates

refused to sign the Constitution? 9. How many delegates signed the Constitution?

10. Which renowned American statesman did not attend the Convention?

The 1987 World Book Year Book honors the 200th anniversary of the world's oldest written Constitution by devoting its largest section to a two-part feature entitled "The U.S. Constitution: 200 Years of History."

The World Book article on the Constitution is so clearly written that the U.S. Bicentennial Commission recently ordered 500,000 reprints to use in their efforts to help inform the public of this important document.

Answers:

1. George Washington and James Madison.

2. George Clymer, Benjamin Franklin, Robert Morris, George Read, Roger Sherman, and James Wilson.

3. James Madison. He was an especially influential member of the convention and wrote a record of the delegates' debates.

4. Gouverneur Morris

5. September 17, 1787

6. Rhode Island refused to send representatives because it did not want the federal government to interfere with Rhode Island's affairs.

7. In geographical order from north to south: New Hampshire, Massachusetts, Connecticut, New York, New Jersey, Pennsylvania, Delaware, Maryland, Virginia, North Carolina, South Carolina, and Georgia.

8. Elbridge Gerry, George Mason, and Edmund Randolph refused because they objected to the powers that the Constitution gave the federal government.

10. Thomas Jefferson.

Former Rochester man reflects reflects on long public career

(L. M. Hall and his wife are he was Roswell's top honcho--former Rochester residents and attended school there. They were married in 1942 while living in Rochester. Mrs. Hall is the former Juanita Shindler.)

From Roswell (N.M.) Daily Record

Even in L.M. Hall's dimly-lit home office, just a little light can catch a sparkle on the seven law enforcement badges mounted and hanging on the wall.

These pendants of authority outline a life of public service: L.M. Hall---defender of the law---protector of the peace.

Hall, now 63 and retired, is the son of a West Texas farmer and Haskell County deputy sheriff. He followed his father's footsteps into law enforcement as a military policeman during World War II.

Originally stationed at the former Walker Army Air Field in Roswell, Hall also served in Spokane, Wash., and at McClellan Air Force Base in Sacramento, Calif., before being discharged in 1946.

Returning to Roswell and his wife, Juanita Shindler, whom had had wed in December 1942, Hall tried different jobs. He drove a Greyhound bus, but eventually returned to law

enforcement. "It's like the old saying, 'It get's in your blood.' It's a fascinating job. One of the most challenging things I've ever done," he said recently while sitting on his patio looking at the growing grass.

L.M. Hall wasn't just another policeman who spent his career patrolling the streets looking for punks in trouble. For 14 1/2 years,

Tibbets Plumbing

Rule, Texas

Heath Tibbets

997-2809

"Police Chief."

He joined the Roswell Police Department on July 1, 1946, as a patrolman and worked along side his father, who had been hired to the force in 1944 after a visit with his soldier/son stationed here.

In 1957, after receiving a recommendation from the district attorney, he was named police chief in Artesia and moved to that small Pecos Valley town.

"I liked Artesia," he said.

The Hall family moved back to Roswell in 1960 on an indication that then-Police Chief Tommy Thompson was about to quit and that Hall had a good chance of being his replacement.

"So we moved back and I went to work at the (Chaves County) Sheriff's Department as a deputy sheriff," he said, remembering tht he worked there until 1964 before former Mayor Lake J. Frazier appointed him police chief.

"I loved that job," Hall said. "It was sometimes a hard job because your life is like a fish bowl. Your life belongs to the public and you have to set a good example and lead a good lifestyle. That helps the public appreciate that you are doing the best you can."

His goals as chief were to upgrade the education of the officers and develop new services, like the Crimestoppers program that was initially initiated during his reign. He also supervised a senior citizen volunteer neighborhood watch-type

The job required that he become civic-oriented and he participated in the Golden Gloves boxing program for youth. He served as president of

the New Mexico Police and Sheriff's Association and the West Texas/Eastern New Mexico Police Officers Association.

Hall cultivated the strength of the Roswell police force and guided it through an era of radical reform in law enforcement---a time when policemen and their activities became more restricted in the name of civil

"The civil rights movement came on strong and people's attitudes were changing," he said. "The officers at the time brought a lot of the problems on themselves when it got to civil rights violations. It was hard on them, because they had learned to do things one way and then (snap of the fingers), the law says you have to do it this way."

Besides the fact that all arrested suspects had to be read their rights, the reforms also kept officers from apprehending persons implicated on hearsay from seemingly reliable sources.

"You couldn't just jump up and arrest someone like we used to just because someone said so. Now you have to be able to prove everything and not just believe it," Hall said. "Sometimes an officer would slip up and we would all be in trouble."

As the world gets more complex, so do the crimes committed and efforts to solve them.

Hall, who thinks being a police officer is harder now than in the past, liked the days of no-nonsense law enforcement when a police chief could advise known criminals to head out of town before sundown.

He tells this story: "Back before credit cards, there

used to armed robbers that would go from town to town robbing stores because they would have \$30,000 in cash sitting in their safe. Well, groups of these known robbers would come into town. We knew they were up to no good, so we would have a little chat with them and tell them they should just get out of town. They would usually take up the invitation."

Hall remembers long nights of pacing the floor trying to put clues together.

"You spend a lot of time wondering what you should do or what you shouldn't do. You have to learn to cope with the presssure. You learn you can't catch every criminal running loose or solve every crime. It's just one of those things you learn to live with," he said.

For more than 35 years Hall says he thoroughly enjoyed law enforcement but in 1978 he hit what he called the "burn out factor."

"I just didn't feel I was doing the people of Roswell any good, or the officers or myself," he said. "It was time for change."

Although he tried to quit being a law enforcement officer he found himself running as the Republican candidate for Chaves County Sheriff that same year.

"Some city leaders convinced me to run. I lost and I was upset for maybe 30 or 40 minutes," he said. "I was definitely burned out on law enforcement."

In early 1979 County Treasurer Gail Harris died and Hall was appointed to the office to serve the nearly two years remaining on Harris' term. In 1980 Hall was elected county treasurer and repeated that accomplishment in 1982.

Hall's six-year tenure in the office exceeded the normal four-year limit on most county elected offices.

Being treasurer was a totally different experience," said Hall, who served when Chaves County was flush with oil boom tax revenue and when the treasurer's office was one of the first in county government to be computerized.

"The county was in pretty good financial condition then. I'd venture to say that my office probably earned the county more money through investments than there has been ever,

before or since," Hall said, while giving credit to his deputies who helped train him for the job.

In 1984 Hall was the Chaves County campaign coordinator for Sen. Pete Domenici, R-NM.

Ending his term as treasurer in that same year, Hall was hired as a public relations representative for Valley Bank of Commerce. In December 1986 he retired.

In between those dates, Hall was included on a City Hall ticket headed by mayoral candidate William F. Brainerd and was elected in March 1986 as city councilor from the southwest Roswell Ward 4.

He spends almost 20 hours a week doing City Council work. He enjoys the job, but doesn't plan on running again when his term ends in 1990.

Hall enjoys his free time and does a little traveling and handy work around their red brick home at 1905 S. Richardson Ave. He has made table tops for a couple of patio tables.

More free time also means more time for Hall to spend with his wife, who retired two years ago from First Interstate Bank, and their three children. His son, L.M. Hall Jr., 41, is the state director for Teen Challenge in Albuquerque and a parttime preacher.

His daughters are Patti Tucker, 38, who has worked at First Interstate Bank in Roswell for 10 years; and Becky Neeley, 33, of Amarillo, who works with her husband at the Neeley-James Office Supply Inc. branch there. His mother, Velma Hall, still lives in Roswell. His father pased away in 1978.

"We just decided to enjoy ourselves for a while," he said of his retirement.

Lemon juice and ground lemon peel help tenderize chicken. Before cooking, rub the juice onto inside and outside and disperse the peels throughout the cavity.

Weinert 'Round-up' is tonight

Weinert's community-wide Backto-School Roundup will be tonight at the football field. It begins at 7:30.

Those attending are asked to bring a dessert. Ice cream will be provided. Teachers will be introduced and there will be a four-legged softball

The roundup was previously scheduled for Aug. 31, but was postponed.

Health clinic to be Sept. 17

The Haskell immunization clinic will be next Thursday, Sept. 17.

New clinic hours will be from 10 a.m. to noon and 1 to 3 p.m.

The immunization clinic, which has previously been held at the Experienced Citizens Center, will now be at the American Legion Hall located on US 277 South, in front of the City Park.

Sophomore class elects new officers

Missy Davis was elected president of the Haskell High School sophomore class during a Sept. 1 meeting of the class.

Other officers are Rodney Johnson, vice president; Missy Phemister, secretary-treasurer; and James Rike, Student Council representative.

Class dues have been set at \$7 per person. Class sponsors are Randy Stone, Alan Atchinson and Mrs. Glenda Drinnon.

Haskell Free Press Official Rules

To enter, check the boxes appearing below. A game appears in each advertisers box. Circle the team you have selected to win. If you predict a tie in a game, circle both teams.

Be sure to predict the SCORE of the tie-breaker game! Fill in your predicted score for each team in the blanks provided. The tie-breaker will be used only in the event of ties between contestants.

The entire page is your entry blank. Submit your entry (entire page) to a specially marked deposit box located in one of the sponsor's businesses. Locations of the boxes will change each week.

Entries must be submitted by 4:45 p.m. each Friday following publication of the Haskell Free Press that week. There is no entry fee, and everyone is eligible to enter except employees of the Haskell Free Press and their immediate households. No late entries will be accepted.

The First Place Winner will Receive \$20; Second Place \$10; and Third Place \$5. In the event of ties, contestants will share the prize money.

Winners will be announced in the following week's issue of The Haskell Free Press. Prize money may be picked up at The Free Press office on Thursday of that week. (Prizes not picked up will be mailed to the winners at the address listed on the entry form.)

Contest entries will be judged by the staff of The Haskell Free Press and the decision shall be final.

Reporting Haskell County Sports for the past 100 Years

Mrs. Frances Fischer

1987 Fair dedicated to Mrs. Fischer

The 1987 Haskell County Fair Sept. 22-26 has been dedicated to to Mrs. Frances Fischer.

The fair catalog lists the following

In honor of her 14 years of service to the Haskell County Fair, seven years as superintendent of the Arts and Crafts Division and seven years as an active board member, we dedicate this, the 1987 Haskell County Fair, to Mrs. Frances

Frances is the daughter of Mr. and Mrs. Albert Peiser and the widow of Paul Fischer. She is the mother of Clara Richards, Margaret Chaffin and Paulette Jones. She has four granddaughters and three grandsons.

Frances, who wa snamed Haskell County Extensijon Homemakers' "Club Woman of the Year" for 1981, is a charter member of th Paint Creek Extension Homemakers and through the years has served in every official capacity of that organization. She has also served as chairman, vice chairman, secretary and treasurer for the Haskell County Council. For two yers she chaired the Texas Extension Homemakers of America.

Frances is a member of Trinity Lutheran Church in Haskell.

The dollar value of her countless hours of voluntary labor is incalculable. We, through this dedication, wish to acknowledge and express our sincere thanks to Frances Fischer for her selfless devotion and vast contribution to Haskell Count and to the Haskell County Fair.

Stereotyped views of animals sometimes keep us from seeing them as they really are. We forget that birds do more than decorate the landscape, that bugs do more than sting people and eat plants, that worms are more than just fish bait and that frogs and toads have purposes besides grade-school show-

Any backyard gardener or weekend landscaper knows that all these small but influential creatures can sometimes decide whether a planting lives or dies. Notice I say "live" as well as "die." Many garden animals actually help plants grow. But to get that help, gardeners have to realize the futility of trying to kill all animal life in their gardens and take advantage of it

Take the earthworm, an unsung hero of healthy soil and a better topsoilbuilder than most gardeners. Worms chew through soil, extracting nutrients and adding organic wastes. These wastes, or "castings," are loaded with beneficial nitrogen, phosphorus, potassium and trace minerals such as zinc, calcium, iron and magnesium.

A single earthworm deposits its weight in castings every 24 hours. That seems like a small contribution, but the worms in an acre of soil can produce 15 tons of castings in one year. That's roughly equivalent to \$300 worth of commercially produced 10-20-10

Earthworms also improve your soil's structure. They burrow as deep as six feet underground, loosening and aerating as they go. Soil with many earthworms also drains faster and perhaps more uniformly than soil that has few or none. All this loosening, aerating and drainage promotes the growth of healthy plants.

To attract earthworms to your corner of the world, add organic material (compost or manure) to your soil and avoid using worm-killing broad-spectrum pesticides. Or just add earthworms to the soil. Many bait and tackle shops sell them by the dozen or by the pound.

Worms aren't the only low-life friends you should cultivate in your garden. Thousands of insect species prey on harmful bugs, thus helping out your plants. Dragonflies and damselflies, ladybugs, lacewings, praying mantises, wasps and mealybug destroyers are just a few of the good players you want on your garden team.

Other insects like humblebees butterflies and honey bees, work free as pollinators. Without them, there would be no crops to harvest.

AT&T ANNOUNCES UPCOMING PRICE CHANGES FOR SOME TEXAS INTRASTATE SERVICES

AT&T announces the following price changes for some of its Texas intrastate services. These changes, which more closely reflect the actual costs incurred by AT&T in providing these services, will become effective on October 1, 1987.

· SDN (Software Defined Network) Schedule B prices will be reduced an overall 7.1%. Schedule C prices will be reduced 4.4% for the initial 30-second rate period of each call.

 WATS 80 service prices for both the initial period 80-hour usage and additional period usage will increase 5%.

. The monthly prices for AT&T's Private Line Service will increase up to \$25 per channel termination for Analog services

and 10% for Digital Data Services. A \$25 monthly surcharge will also apply to any private lines which may be used to access the local exchange network, unless certified as exempt by the customer. The \$25 surcharge, which was previously authorized by the Public Utility Commission of Texas, is a flow through of charges assessed by the Local Exchange Companies to AT&T for those Private Line ser-

The combined effect of these price changes is expected to produce approximately \$4.99 million annual revenue, which is approximately .5% of AT&T's annual revenues for all Texas in-

If you have questions regarding the changes for Private Line service, please call AT&T toll-free at 1-800-345-5092. If you have questions regarding the WATS or SDN price changes, please call our business consultants toll-free at 1-800-222-0400. AT&T's tariffs reflecting these changes will be filed with the Public Utility Commission of Texas on August 31, 1987, with an effective date of October 1, 1987.

Persons who have questions regarding this tariff filing may also contact the Public Utility Commission of Texas in writing, at 7800 Shoal Creek Blvd., Suite 400N, Austin, Texas 78757, or by calling the Consumer Affairs Division at (512) 458-0223, or (512) 458-0227, or (512) 458-0221 for teletypewriter for the deaf.

1. Adhere to all speed restrictions in school zones

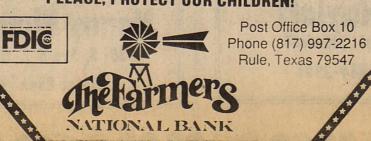

2. Watch for and obey all school zone signs 3. Be sure you can stop quickly in wet and slippery

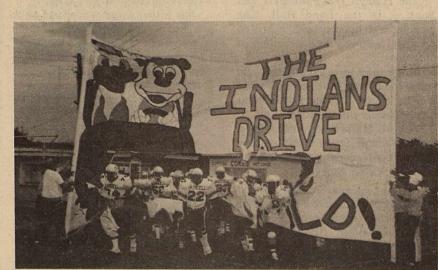

Photo highlights of Haskell-Munday game

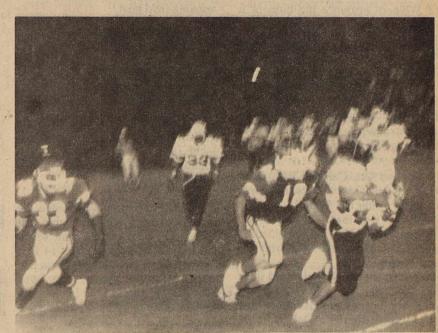

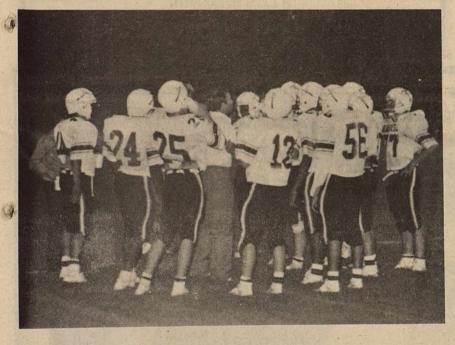

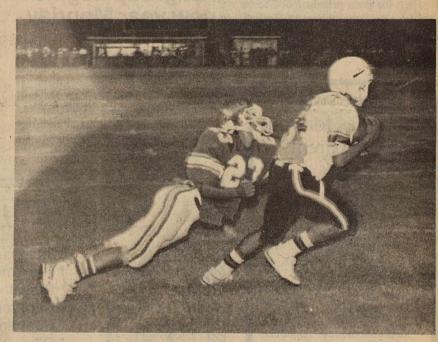

Bad week for 72A

District 7-2A teams took it on their collective chins in the opening week of the season. Albany's 6-6 tie with Throckmorton was the closest any of them came to winning.

Haskell lost to Munday 27-25, Stamford bowed to Eastland 14-0, Anson fell to Cisco 25-19, Hamlin was upended by Clyde 29-7 and Hawley was crushed by Baird 41-7.

Elsewhere among Haskell's 1987 opponents, Holliday defeated Jacksboro 14-8, Electra was tied by Frederick, Okla., Quanah fell to Childress 21-6 and Knox City succumbed to Seymour 13-7.

This week's schedule involving district 7-2A teams finds Haskell entertaining Holliday, Albany at Baird, Anson at Eastland, Hawley hosting Jim Ned and Stamford playing at Clyde.

-BIRTHS---

Mr. and Mrs. Landon Bill Pannell of Weinert announce the birth of a daughter, Lindsay Brianne Pannell born September 1, 1987 at Haskell Memorial Hospital weighing 7 lbs. 7

Mr. and Mrs. Robert Munoz of Haskell announce the birth of a son, Robert Eric Munoz born August 30, 1987 at Haskell Memorial Hospital weighing 9 lbs. 2 oz.

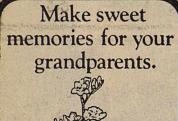

Mr. and Mrs. Carl Del Valle II of Rule are proud to announce the arrival of Kylin Colter Del Valle.

Kylin was born at Hendrick Hospital Sept. 5. He weighed 7 pounds, 4 1/2 ounces and was 21 inches long.

Jessica and Kayla welcomed their brother home.

Kylin is the grandson of Carl (Dale) and Charlene Del Valle of Rule, Norman Mossburg of Toledo, Ohio, and Mary Noller of Gaylord,

He is the great-grandson of Chester and Juanita Cunningham of Haskell, Mrs. Margie Del Valle of Tampa, Fla., Norman and Margaret Mossburg of Toledo.

Sidelines

Patrick Perez' 43-yard punt in the second quarter was the only punt in the Munday game.

Munday faced fourth down on five occasions, and made either a first down or score each time. The Moguls were 3 of 10 in third-down conversions, but they were 8 of 10 on third and fourth downs.

The Indians got a preview of things to come at the very start. They were penalized on the second play of the game, a penalty which nullified a 13-yard run by Fred Shaw. They ran one more play and then were penalized again. On their second possession they were penalized on the first play, this one wiping out a 9yard run by Stephon Brockington.

In all, Haskell had nine penalties for 90 yards, most of them coming at crucial points. Munday had only four penalties for 20 yards, two of them coming back-to-back on an extrapoint play. Three of Munday's 13 first downs were via the penalty route, including the controversial call in the final moments which kept alive the Moguls' drive for the winning field goal.

Munday ran 14 plays in the first quarter, 12 of them by Anthony Stinnett. All told, Stinnett carried 35 times, or three more than all Haskell backs combined.

As usual, Haskell wasn't lacking in fan support. A large number of local fans made the short trip to Munday. . . and were quite vocal in their likes and dislikes.

Haskell's 25 points exceeded the offensive output of any game last year, save for the Hamlin game which the Indians won 28-13. The 14 first downs equalled the first downs in last year's Hamlin game, but was considerably short of the Indians' top first down effort last year, 20 in a 6-2 loss to Albany.

Art group begins new year Monday

A "Get Acquainted Tea" Monday will begin the 1987-88 year of the Brazos West Art Association. It begins at 7 p.m. in the Haskell National Bank Community Room.

Each member is reminded to bring a guest and everyone interested in art is cordially invited to attend.

Southwestern State

Southwestern Oklahoma State University will open its 1987 football season Sept. 12 when Missouri Southern travels to Weatherford for a 7 p.m. contest. The Bulldogs have six home games this season. Among Texans on the Bulldog team are, front from left, James Hicks of Burkburnett, Todd Helton of Perryton, Randy Messer of Amarillo, John McCoy of Haskell, Jeff McKinley of Perryton; second row, Elbert Cooper of Wichita Falls, Brent Thornton of Groom, Dana Rutz of Perryton, Mark Williams of Pampa, Blake Durham of Amarillo and Lorenzo Barnes of Burkburnett.

Band Boosters

The Haskell Band Boosters met Sept. 7 in the Band Hall. The meeting was opened by Sue Miller, resident, followed by the reading of

Mrs. Miller reported that the gold spirit towels with the Indian decal will be available at the Friday night game. Towels will sell for \$3 each.

Yellow plastic cups have been made available to the club, courtesy of the First National Bank and Brian Burgess, State Farm agent.

Dr. James Kemp was present and commented on the need for positive support and encouragement for the Haskell Indian Band. Several members expressed appreciation of his interest.

The need of a new baritone was brought to the club's attention. The vote passed to purchase the instrument.

Mr. Wilke has asked that cars not park in the front of the band hall from the wooden electrical pole to past the driveway of the Ag building on both sides of the street. This request is made for out-of-town games. The space is needed to unload students and instruments. Cooperation of parents and students will be appreciated.

Mr. Wilke also said that parents are needed to chaperon junior high

students on out-of-town games.

Sept. 28 to finalize plans for the Oct.

2 homecoming. The treasury report was given by Kenneth Jarred and the meeting

Sue Miller asked workers to be at the Friday night game an hour early to prepare for the evening's business. The next meeting will be at 6:30

adjourned.

Have a news story. Call The Haskell Free Press, 864-2686.

In many fields the cotton production season is quickly drawing to a close. Bolls are set to the top of plants and these plants have stopped producing squares.

There are other fields that continue to set squares and bolls. In these fields boll protection should be the main goal. Squares being set now will produce up only a small percentage of the crop. The exception to this are those fields that have set only a light boll load. The production potential in these late producing fields is not good.

Boll Weevils

Boll weevil infestations are heavy in many fields and weevils are migrating from fields with few squares and small bolls to fields that are still setting squares. With the heavy weevil populations that are building in fields that are still squaring, damage to younger bolls can increase to an economic level in a matter of days.

Two or three well-time applications to protect the bolls can make a significant difference in the yield and quality of the crop. When 30 percent of the squares are weevil damaged, control measures are needed to protect the smaller bolls. Protect the bolls until they are 12 days old, or one inch in diameter, when they are safe from weevil damage.

In fields where weevils have been present for an extended period of time, evaluate boll damage carefully before applying insecticidal applications to protect those bolls. In some fields the smaller bolls in the top of the plants have already been damaged and the encouraged to participate.

sound bolls are 12 days old or older. Bollworms

Bollworms and budworms continue to be a problem.

Some of you have sprayed a pyrethroid on eggs and hoped that there would be enough residual to kill the small worms when they hatched out. It's not working, is it? Add an ovicide to your pyrethroid. These budworms are harder to kill and you need chloraimeform in with the pyrethroid.

Haskell and Stonewall producers should keep an eye out for worms. Moth numbers are up and we're finding a few eggs. Irrigated fields have had worms for the past week or more. Dryland fields have had very high numbers of eggs or worms. Spray when you are finding 12-15 bollworms per 100 plants.

Plans made for local choir

Plans are in progress for a community choir to present a seasonal program entitled "An Old Fashioned Christmas" on the evening of Dec. 19 in the Haskell Civic

Rehearsals are set for 4:30 p.m. on Sundays at East Side Baptist Church or at 8 p.m. on Wednesdays at the First Baptist Church.

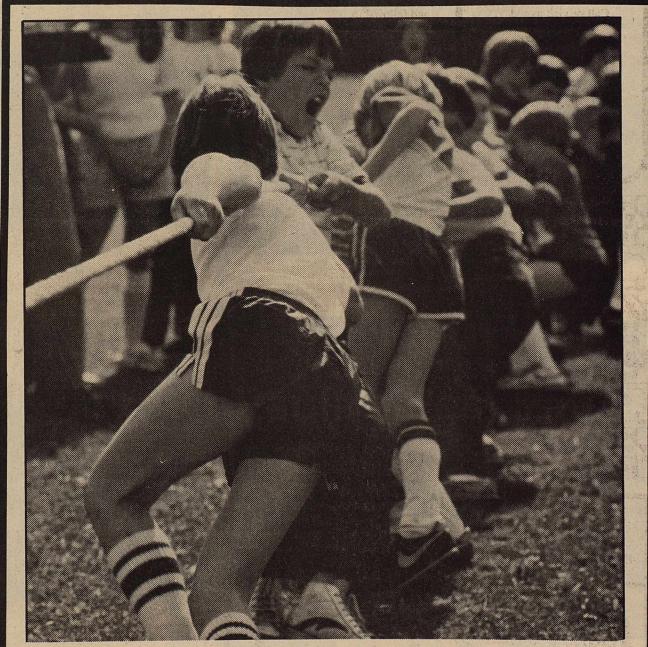

Rehearsals begin Sept. 16 and 20. All singers are welcome and

Paint Creek, Hermeligh end in tie

By Barbara Benton Hermeleigh visited Paint Creek Friday for each school's 1987 football

The first quarter was a defensive battle with no scoring. Hard hitting seniors Angel Camacho and Johnny Ortiz both had four unassisted and numerous other tackles while holding to Cardinals to just one first down for that period. Ortiz and Camacho were joined on defense by seniors Ty Williams and Dan Benton, junior Daniel Acosta and sophomores Johnny Hoadly and Chris Cockerell.

The second quarter rocked along until 4:25 left in the period when Acosta hit Benton with a 27-yard pass. The extra point was clocked. Soon after the kickoff, the Cardinals fumbled which set up a 7-yard run by Angel Camacho. The Pirates passed in for a one-point conversion and went in at half up 13-0.

The Cardinals came out in an option set in the third quarter and tied the ball game quickly. A 35-yard pass play late in the third quarter put Hermeleigh up 19-13.

Paint Creek came back in the fourth quarter due to the running of Ortiz and Camacho and the catching of Benton and tied the score with 5:15

Paint Creek took over after a fourth and one defensive stand and proceeded to march down the field. Due to penalties and mistakes Paint Creek was forced to punt with 2 minutes left in the game. Angel Camacho got off a booming 65-yard kick which backed Hermeleigh deep in its own territory. The Pirates held defensively but were unable to obtain the go-ahead score.

Acosta connected on 12 of 14 pass attempts for 275 yards with one interception. Benton had six receptions for 215 yards and two touchdowns, Hoadley had two receptions for 35 yards and Camacho caught one for 11 yards.

Ortiz was top rusher with 57 yards on 10 carries, while Camacho carried eight times for 33 yards and a touchdown. Morgan returned seven punts for a 31-yard average.

Playnight

The Haskell Horse Club will sponsor a Jackpot Playnight at 7:30 Saturday at the Haskell arena.

Age groups will include 8 and under novice, 8 and under regular, 9 through 13 and 14 through 18.

Events will be barrels, flags and pole bending. There also will be roping and goat hair pulling and an open barrel race.

The public is welcome to attend.

by a controversial 15-yard penalty against the Indians which had changed a fourth-and-two situation at the

down at the 20 and then to a fourthand-inches at the 10 where the Moguls called time out with 13 seconds to play. Another time out, this one by Haskell, came with 5 seconds to play. But Hutchens, who had booted a field goal earlier in the third period, apparently was not disturbed by the tactics. His kick, from an angle to the left, was perfect and the Class A power which is Munday had turned a one-point deficit into a 27-25 victory as the clock read

touchdown on his team's third

in basketball rankings

School Hoops, a newspaper devoted to basketball in the Lone Star state, lists the Haskell Indians as No. 15 in Class 2A pre-season rankings.

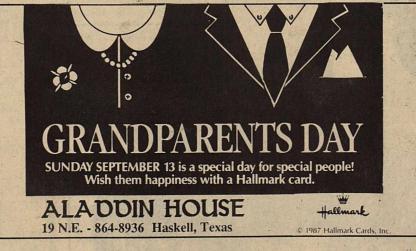

Only one other Big Country school is ranked in the top 20, that being Coleman which is tied for the

teams three months before the season

Archer City, 4. Paris Chisum, 5. Snook, 6. Krum, 7. Troup, 8. Shelbyville, 9. Cross Roads, 10. Waskom. 11. Rivercrest, 12. Edgewood, 13.

Shallowater, 14. Italy, 15. Haskell, 16. Hubbard, 17. Ingram Tom Moore, 18. San Antonio Cole, 19. Nixon-Smiley, 20. New Deal, Nocona, Coleman (tied).

a landslide. Munday is No. 4 and Knox City is No. 7.

Indians drop close one on last-second field goal

It wasn't exactly the easiest kind of game to lose, but lose the Indians did Friday night in the season opener at Munday.

Munday's 245-pound Lowell Hutchens booted a 27-yard field goal as time ran out to hand the Indians a heart-breaking and bitter 27-25 defeat.

The winning field goal came on the end of a 54-yard drive, kept alive Haskell 46 into a Mogul first down at

Munday drove to another first

Munday took an early lead when Anthony Stinnett went 63 yards for a

Indians 15th

The summer issue of Texas High

Here is how Hoops rates the 2A

1. Morton, 2. Liberty Hill, 3.

In Class 1A, the newspaper selects defending state champion Paducah by

offensive play of the game. Hutchens' extra point gave the Moguls a 7-0 lead at the 8:05 mark of the first

Haskell came right back when Patrick Perez passed to Mark Young 68 yards to the Munday 3. After two stabs by the fullback to push the ball over netted only a yard, Chan Guess passed to Louie Torres in the end zone for the score. Guess failed on the kick try so Munday still led 7-6.

Munday scored again on the final play of the first period when Stinnett went over from the 1 to cap an 11play, 53-yard drive during which Stinnett carried 10 times. Hutchens booted the point after to make it 14-

The Indians countered after the Munday kickoff with their own cross country march, going 64 yards for a score barely two minutes deep into the second period. Stephon Brockington got the touchdown with a 19-yard scamper. Big gainers in the drive had been a 20-yard pass from Guess to Alberto Alvarez and a 10yard toss to Torres, along with a 9yard run by Fred Shaw. The Indians chose to go for two on the conversion attempt, but Shaw was dropped a yard short of the goal so the score remained 14-12.

Late in the period, Munday marched from its own 29 to the Indian 6, but Guess put out the fire when he intercepted Marc Andrade's pass in the end zone with just four seconds to go in the half.

Haskell kicked off at the second half but the Indians recoverd a short kickoff and set up business on the Munday 42. Brockington picked up 5, Shaw got another 5 and Perez added 9. Between a couple of incomplete passes, Brockington got another 2 and then Perez hit Torres with a 15-yard pass. Shaw lost a yard, but Brockington picked up 5 and then Shaw went over from the 2. Haskell again elected to go for two points, but Perez couldn't handle the snap, but Haskell had its first lead of the

night at 18-14. A minute before the third period ended, Munday narrowed the deficit to 18-17 when Hutchens booted a 31yard field goal after a Mogul drive had bogged down at the 14.

A minute and a half into the fourth quarter Munday re-took the lead after Terry Collier intercepted a Guess pass at the Haskell 33. Amdrade passed the 33 yards to Collier for the score and the kick by Hutchens put the Moguls out front 24-18.

Following a fumble recovery at the Munday 43, Haskell drove in for the go-ahead score. Despite two penalties for 20 yards, the Indians covered the distance in eight plays, including a 41-yard toss from Perez to Torres to the 1. Brockington knifed over on the next play and Guess' boot staked the Indians to a 25-24 lead with 4:36 to go.

That set the stage for the Munday drive against the clock for the winning field goal.

Lodge to have auction

Members of Sons of Hermann Lodge 241 of Haskell will have its regular monthly meeting Sunday, Sept. 13, beginning at 4 p.m.

Following the meeting the annual auction will be conducted. All members are urged to come out, bring their handmade or homemade items, or any other merchandise to donate to the auction.

A pot luck supper will follow the

"Come out and enjoy the fellowship and fun and take home some goodies from the auction while helping support your lodge," said a spokesman.

Dances are scheduled for the nights of Sept. 11 and Sept 25.

Retired teachers meet next week

Haskell County Retired Teachers will have their first meeting of the season next Wednesday (Sept. 16) at the Bluebonnet Cafe in Rule. The meeting begins at noon.

All retired teachers are invited to attend.

Rabbits talk to each other by thumping their feet.

Proper ventilation prevents mildew

Dark, damp areas like basements and closets often suffer mildew attack. The mold spores that cause mildew also flourish in bathroom tubs and shower stalls and on shwoer curtains coated with soap scum. Once damage has occurred, the problem can often be reversed if the infested surface is properly cleaned. But, as the Soap and Detergent Association stresses, prevention is easier and the best cure.

How does one prevent mildew from attacking a home? The answer lies in good ventilation and the elimination of the causes of dampness.

Ventilation can prevent moisture from collecting in vulnerable areas around the house. Open windows and doors on dry days to allow for air exchange. If natural breezes are insufficient, promote air circulation with fans or air conditioners.

Around town

Don and Liz Neidigk and Matthew of Cyprus visited over the weekend with Mr. and Mrs. J. W. Howard.

Visiting with Mr. and Mrs. J. W. Howard over the weekend were their son and daughter-in-law, Leonard and Linda Howard of Vernon. They also visited Linda's mother, Margaret Santerre

In trouble spots such as basement areas, dehumidifiers are extremely helpful. A unit should be the proper size to work effectively in the room, and the pan where water collects needs to be emptied frequently. Keep windows and doors closed when using a dehumidifier. When dampness is excessive, try turning on the heat for a short time, then open doors and windows so moist air can escape.

Since mildew can collect in dark places, keeping a lightbulb lit in a closet or a small area can help to diminish mold growth. And keeping susceptible places clean and dry discourages mildew even further. For example, wiping dry the tiles and grout in the shower and tub after each use is the easiest way to prevent soap scum buildup that mold spores feed

Sometimes, excessive moisture buildup in a home results from problems in the building's structure. So check and eliminate the causes of problems outdoors before trying to resolve the results indoors. For example, make certain that drainage is adequate around the house. Search for cracks in the foundation and outer walls and repair. If the problem is critical, waterproofing floors and masonry walls my be necessary. Caulk wall joints as well as window and door frames, pipes through walls and flashing to prevent moisture from

seeping in through any openings.

A well-insulated home also needs to be well ventilated. If not, it can be especially prone to excessive dampness and potential mildew problems. Moisture needs to escape through windows, vents and other openings designed for that prupose.

Insulated attics are vulnerable in winter and spring thaws when snow melts on the roof. Ventilating the attic frequently and pushing snow off the roof, if possible, can prevent a potential problem. Checking the roof often for loose shingles and weak spots is also a good idea. Gutters and downspouts also need to be kept clean of dirt and debris. At ground level, bushes should be trimmed away from the building to allow for air circulation around the house.

If mildew is apparent in the basement, wet down concrete walls and floors with clean water first. Then wash with an all-purpose household cleaner following package instructions. Make a solution of 3/4 cup liquid chlorine bleach with each gallon of water. Apply the bleach solution and keep the surface wet for five to 15 minutes. Rinse. Do not combine household cleaner and chlorine bleach.

In the bathroom, mildew-stained tile and grout can be cleaned with a tub, tile and sink cleaner. Use a brush to clean the group. If badly stained, make a solution of liquid chlorine bleach (1/4 cup) to one gallon of water. Using a brush, apply the solution carefully to avoid splattering, rinse the grout thoroughly with clean water.

Options for Health

Dr. Scott White

DR. SCOTT WHITE is offered as a public service by Scott and White Memorial Hospital and Clinic in Temple. If you have a question you would like answered, please write to DR. SCOTT WHITE in care of your local newspaper.

Q. I've heard so many things lately about cholesterol. I've even heard that some cholesterol may be good for you. Can you clear some of this up for me?

A. You are right about the abundant amount of news concerning cholesterol. Although cholesterol is a normalblood component required by your body's cells, excessive amounts of total cholesterol in the blood increases one's risk of heart and blood vessel diseases. When cholesterol builds up along the inside of an artery wall, the artery becomes blocked or narrowed which stops and slows essential blood flow from the heart. This condition, known as atherosclerosis, can cause chest pains or a heart attack.

One component of blood cholesterol, called high-density lipoprotein (HDL), actual has beneficial effects that reduce the risk of heart attacks. HDL reduces the tendency for cholesterol to accumulate on the arteries' walls. Fortunately, monitoring your diet by reducing fat content and exercising regularly play an important role in increasing HDL levels and lowering total cholesterol levels.

Avoid eating high-cholesterol foods such as butter, eggs, sour cream, and fatty meats. Begin an exercise program - studies have shown that a

Q. I've heard so many things regular exercise program increases

Q. How important is it to eat breakfast regularly, and what is a good "healthy" breakfast?

A. A recent UCIA Medical School study showed that eating breakfast regularly decreases the risk of illness and death, maintains a higher metabolic rate, and helps control weight loss.

But before you run to your kitchen to fry some eggs, consider a quick and easy breakfast such as oatmeal or cereal. Oatmeal contains carbohydrates, protein, vitamins and minerals, but little fat or sugar.

Eating cereal, particularly bran cereal, adds fiber to your diet, which satisfies the need for bulk in the diet and leaves you feeling "full." When selecting a cereal, check the label to see how much sugar it contains. Remember sugar only offers "empty" calories that contain no other nutrients.

Top your oatmeal or cereal with low-fat milk. Whole milk contains considerable amounts of fat and cholesterol.

Even in a fast-paced world, there is no need to go without breakfast. Oatmeal or cereal only take a few minutes to prepare, and they both give you enough energy to start your day healthy and wide-eyed.

Experimental economics allows researchers to scientifically test theories

COLLEGE STATION — Economists around the country are now testing their economic theories in the laboratory in a new field called experimental economics

Dr. Raymond Battalio of Texas A&M University is among more than 100 scholars nationwide participating in the emerging new field of experimental economics.

"For the most part, economics has been a descriptive and theoretical science, but in recent years researchers have been seeking to put their study of market forces and economic behavior on a sounder scientific, or predictive, footing," Battalio explained.

"Experimental economics is breathing new life in the field and has already begun to produce some pragmatic results," said Battalio, adding that until about 10 years ago nobody had tested Adam Smith's basic economic principal pertaining to equilibrium prices resulting from producers with the lowest costs and buyers who put the highest value on the items produced.

"Since then, there have been over 100 experiments testing the theory, and sure enough they found Adam Smith was right," said Battalio, whose own research draws the same conclusion.

Texas A&M students design new facilities for Blue Bell Ice Cream

COLLEGE STATION — Texas A&M
University architectural design students
have proven they can't be licked in
coming up with new ideas for expanding
that little creamery in Brenham.
Howard W. Kruse, president of Blue

Bell Ice Cream, asked the students to create designs for company distribution centers and ice cream parlors to be located in new market cities in Texas.

"I wanted them to stretch their imagi-

nations and creativity," said Kruse, a 1952 Texas A&M graduate. "And, of course, have fun." Kruse said he loves to have fun, espe-

cially when it involves his ice cream. He treated the students to tasty treats several times during the project.

The students' ideas came out as varied as the 30 flavors of ice cream offered by Blue Bell. They ranged from a "Blue Bell Beach" on Galveston Island with a windmill/lighthouse parlor and a Victorian renovation project on San Antonio's River Walk to a carton-shaped facility in Midland that would surround tourists and employees with ice cream.

Barbecue Sunday at senior center

The public is invited to attend the annual barbecue Sunday at the Experienced Citizens Center.

Serving begins at 11:30 a.m. and will continue until 1:30 p.m. Tickets are \$5 for adults and \$2.50 for children

Bloodmobile

The bloodmobile will be in Haskell Wednesday, Sept. 23, from 1 to 5 p.m. It will be located at the First Baptist Church activity center.

A New Twist On **Credit Card Fraud**

Recently, a number of Texans = have been the victims of a new twist in the ever creative world of the telemarketing con artist.

THE PITCH

someone claiming to represent a travel that of the merchant who called you. agency. You are offered a vacation package-travel, accommodations, meals, entertainment-at a bargain price.

Sounds interesting, doesn't it?

But you've heard about travel package frauds so you start to refuse. Before you can finish, the salesperson says they will send the materials for slip processors are violating more than your consideration. There will be no full disclosure provisions: several have bills for 30 days.

What have you got to lose? You have 30 days to check out the package. If you don't like it, it hasn't double or triple billed for products or services you never ordered or used. cost you a cent.

You tell them to send you the

"Fine," says the salesperson, "now if you'll just give us a credit card lucrative—one processor handled more number for verification I'll have your than \$500,000 in slips in less than two information materials in today's mail." weeks, for a 10% cut-it is unlikely to

THE SCAM

You look over the materials. decide the package is not for you, and

But on your next credit card bill you are billed for the vacation you declined. Not only are you billed for it, but you have never heard of the company listed on the statement.

How IT Works

they are credit worthy. This allows numbers to anyone except reputable them to become part of a bank card business you know and trust. system and get a merchant identification number. Many of these "travel companies" cannot qualify, so they contract with a third party who can . get a merchant identification number notary or any other consumer matter, and can borrow money from a bank. call the nearest Consumer Protection These third party companies process office. Offices are in Austin, Dallas, the vendors' charge slips for a fee, Houston, San Antonio, McAllen, Lubwhich can be as much as ten per cent. bock and El Paso. The Attorney

Aggie scientists develop procedure for identifying mycotoxin contamination

COLLEGE STATION - A team of Texas Agricultural Experiment Station (TAES) scientists has developed a simple procedure for identifying the presence of potentially deadly mycotoxins - poisonous chemicals - in food and feed products such as fruit and grains.

Following two years of laboratory studies by TAES, part of The Texas A&M University System, the researchers said they have developed a simple, economical field-test that can detect up to four different combinations of mycotoxin contamination.

Until now a high degree of expertise and laboratory sophistication has been necessary to accurately detect mixtures of mycotoxins," explained Dr. Timothy Phillips, veterinary public health professor who headed the project. "Now we have a sensitive, easy to use, commercially applicable test kit to differentiate

between multiple mycotoxins." Officials of the statewide agricultural research agency pointed out the re-search that led to the discovery was assisted by \$33,000 from the Texas Advanced Technology Research Program, for which the Legislature made available special funding to encourage hightech research with potential benefits to the Texas economy.

Texas A&M students gain interpersonal skills at archaeology field school

COLLEGE STATION — Employers who value interpersonal skills in their employees might take a closer look at applicants who have participated in courses such as Texas A&M University's archaeology field school.

Participants in the six-week field school report the most valuable lessons included learning more about themselves, leadership, responsibility and getting along with others.

Under the direction of Dr. Harry Shafer, professor of anthropology, undergraduate students from a variety of disciplines are involved in the excavation of a Mimbres Indian community in New Mexico.

For six weeks the students live in tents, take cold outdoor showers and work with strangers. These conditions provide the opportunity to learn conflict resolution and diffusion and to sacrifice ego for the greater good of the project.

You learn a little bit about how to grow up, how to establish friendships, how to get along and interact with people that are from different backgounds than you and have a different personality than you," said Dallas Morris, a senior anthropology and journalism ma-jor and veteran of two field schools.

Rice Springs Care Home

By Judy Wolsch **Activity Director**

We welcome this week Mary Hatley to our home. She is from Rule. Welcome Mary and all your family and friends.

We are also proud to announce Wilma Bartley has recovered and went back to her home. Congratulations!

We would like to thank Mrs. Bruce McMain for the bibs she made and brought to our residents. We had several that said they were in great need of a new one so we were grateful for this donation.

Residents enjoyed another cooking class Friday. They made a chocolate cake in the microwave oven. they were all surprised that it only took six and a half minutes to cook. Other cooking classes are planned.

Monday was a holiday for all. Tuesday, Christine Greene read Lonnie Linton's book for all the residents. It was a great book.

Wednesday, a reception for Dr. Bill McSmith was held to welcome our new doctor to Haskell and to our

Visitors this last week included Mary Rachel Densman with everyone; Carl and Cormaleta Graham with Oran Covey and Gilly Gregory; Joshua Densman and Sarah Densman visited everyone; J. Powers from Longview with John Kuenstler, Owen Cox and Lucy Harrell; F. L. Hatley and Mary Ann Hatley from Rule with Mary Hatley; J. C. Wendeborn with Mama and

Texas A&M research may help people with diseased lungs

COLLEGE STATION — It may be possible for people with diseased lungs or even one lung — to strengthen their respiratory muscles enough to live normal, active lives, says a physical education researcher at Texas A&M University.

Dr. Richard Coast of Texas A&M's Human Performance Laboratory is performing studies to estimate the blood flow to the respiratory muscles under stressed conditions such as exercise or in pulmonary disease. Under these conditions, the respiratory muscles may use a great deal of the total cardiac output, Coast said, limiting the blood flow to the exercising muscles and hindering their performance.

"Patients with one lung or diseased lungs often get out of breath walking from the house to the mailbox," said Coast, whose work is funded by the Texas affiliate of the American Heart Association.

The researchers hope to learn if the ability of the lungs to move air in and out limits the amount of exercise a person can do, or if it is a combination of heart and lung function together. It is widely accepted by doctors that the heart is the primary limiting factor in exercise.

Coast said if his hypothesis is correct, lung patients may develop regular exercise programs to strengthen their lung capabilities.

enemies, can soar above the water from two to 15 seconds and cover distances of 45 to 200 yards.

Texas A&M regents assign patent rights for fiber-optics probe

COLLEGE STATION - A device that uses fiber-optics technology for monitoring blood could have worldwide implications in medicine and industry following patent rights action by The Texas A&M University System (TAMUS) Board of Regents.

TAMUS assigned Canadian, Chinese and Taiwanian patent rights to the invention to Optex Biomedical, an entrepreneurial venture based in Houston.

The invention is a fiber-optics probe that can be inserted intraveneously and used for measuring oxygen and carbon dioxide levels and acidity in the blood. It could mean new jobs for Texans and a boost for medical research, said its in-

"The new device may one day allow doctors to obtain instantaneous blood readings without having to wait two to three hours for a lab report, which would be useful during surgery or for patients such as those with emphysema whose blood must constantly be checked," said Dr. Charles Lessard, a professor of industrial engineering and advisor to graduate student David Costello, who conceived and developed the

"A fiber-optics monitor has applications for industry as well, such as in breweries and in food processing plants that must constantly monitor chemical reactions," said Costello.

Around town

Visitors in the home of Henry Rueffer over the Labor Day weekend were Mr. and Mrs. Melvin Rueffer of Waco, Mr. and Mrs. Helmut Icicram and Karla, Johnny Payne and Mrs. Steve Moiret and boys of Duncanville.

Mr. and Mrs. George Hauser Jr. visited with friends in Haskell this past week and attended the wedding of Karin Pippin and Joseph Derby of Oklahoma City. The Hausers are former co-owners with the Jack Pippins of a drug store in Haskell.

Bicentennial of the United States Constitution 1787-1987 Greatest Document Two centuries ago, in May 1787 representatives of the American states convened in Philadelphia to revise the Articles of Confederation, hoping to bring unity and order to their new nation. On September 17, they completed work on a new national constitution. Today we honor the United States Constitution, the oldest written instrument of national government in the world. MORE THAN
