in order that the rate of seeding may be proportional to the quality, so that SCREENING SEED MAY PRE. . enough live seed will be sowed to insure a stand in the field. First know how much of the seed may grow and then sow accordingly.

CLEAN SEED BEFORE SOWING.

Cleaning and grading the small grains for spring sowing should be done before the spring rush in preparing the hand and sowing the seed. Wheat, outs, barley, and flax can be improved for seeding by running the wed through the fatming mill at least. The cleaned grain will run brough the drill or other seeding machinery more evenly and thus insure a more uniform stand than can be obtained from uncleaned grain,

Cleaning grain removes most of the weak and diseased kernels, many of which may not grow at all, or if they ity, including percentage of purity and do grow are likely to produce small, weak plants. Uniformly large, plump Don't take any chances with the kernels germinate more evenly, proulity of the red clover seed you sow | duce stronger plants, and yield more than ungraded grain containing small, shrunken kernels.

and does more than any larative on the market today. The thousands of latters from mers have convinced me I was right, and that the user of Matwe's Hensely as a family medicine, even though he may have used it for twenty-five years, never has to increase the dose. T is characteristic of

Is CHARACLETISLIC OF folks after they pass the allotted "three score years and ten," to look back over the days that are gone and thoughtfully live them over.
 I find myself, at seventy-one, frequently drifting back a quarter of a century, when I see myself in the little drug store I owned at Bollvar, Mo., making and selling a vegetable compound to my friends and customers - what was then known ofly as Dr. Lewis' Medicine for Stomach, Liver and Bowel Complaints.
 For many years while I was perfecting my

For many years while I was perfecting my formula I studied and investigated the laxatives and cathartics on the market and became convinced that their main family was not that they did not act on the bawket and but that their action was too violent and drastic, and upset the system of the user; which was due to the fact that they were not thorough enough in their action, some simply acting on the upper or small intes-tines, while others would act only on the lower or large intestines, and that they almost invariably produced a halls re-quiring augmented Goses. I believed that a preparation to produce the best effect must first tone the liver, then act on the somach and entire alimen-tary system. If this was accomplished, the medicine would produce a mild, but therough elimination of the waste without the usual sickening sensations, and make

usual sickening sensations, and make user feel better at once. After experimenting with hundreds of different compounds, I at last perfected the formula that is now known as Mater's needy, which I truly believe goes further

to another life, my greatest pleasure is to sit each day and read the letters that each mail brings from people as old or older than I, who tell of having used Nature's Remely for ten, fifeen and twenty years, and how they and their children and grandchildren have been benefited by it.

PLAN HANDLING ONION CROP IN IMPROVED WAY

May Reduce Cost to Consumers and Make 35,000 Acres Available for Other Crops.

Houston, Tex -A plan which would facilitate handling the onion crop. of the Rio Grande Valley, placing upon the market \$5,000,000 worth of onions and through the harvest to make available 35,000 acres of irrigated land in the Rio Grande for additional crops. was submitted to Administrator Feden Friday by a committee of onion growers from the onion belt. The proposal is that the United States food administration name a special agent to assist in the handling and distribution of the 1918 crop, which begins moving during the latter part of March Ing may of my own."

and is complete in sixty days. .The special agent, if, so appointed, would have charge of the distribution by of the onion crop so that every grower. large and small, can share alike in the handling of cars and the distribution of their products. The onion growers wish to eliminate the usual taking of profits by middlemen and to place upon the market onions at à considerable reduction when compared to present prices. The committee stated to de Administrator Peden that while growers were 'receiving 149e a pound for their onions, the housewives, because of defective distribution, are compeli- tain ed to pay 71gc and 8c.

The committee walting upon Mr. Peden consisted of John H. Davis, Las should be given to sprains, swellings, redo, Webb county; T. I. Rock, Cotulla, La Salle county; W. R. Stone Carrizo Springs, Dimanit county; A. H. Rife, Valley Mills, Zavala county; 4V L. Bradbury, Mission, Hidalgo coun Mr. Peden Junon hearing the re-

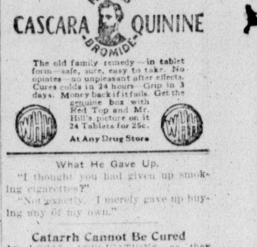

st of the onlon growers gave the 30 mittee letters to take with them Washington, where the proposal will be made before the permuabl division of the United States food adninistration.

With the committee as counselor was Fred M. Malley, county demon stration agent of the agricultural dopartment Laredo, who in turn repre-Austin, Tex - Governor Hobby sent sented the six other counties in the

LURE OF HIDDEN GOLD CALLS "ROARING BILL" AND HAZEL INTO THE WILDERNESS.

Synopsis .- Miss Hažel Weir, a stenographer, living at Granville, Ontario, is placed under a cloud by circumstances for which she is entirely blameless. To escape from the groundless gossip-that pursues her, she secures a position as schoolteacher at Cariboo Meadows, in a wild part of British Columbia. There, at a boarding house, she first sees "Rearing Bill" Wagstaff, a well-known character of that country. Soon after her arrival Hazel loses her way while walking in the woods, She wanders until night when she reaches "Roaring Bill's" camp fire In the woods. He promises to take her home in the merning, but she is compelled to spend the night in the woods. After wandering in the woods all the next day, "Roaring Bill" finally admits that he is taking blazel to fils cabin in the mountains. Hazel finds upon their arrival at the costs that she cannot hope to escape from the wilderness before spring. During the long winter "Roaring Bill" treats Hazel with the greatest respect. He tells her he loves her and tries to induce her to marry him, but she refuses. In the spring he takes her to Bella Coola, where she can get a boat to Vancouver. At Vancouver Hazel takes a train for Granville, but on the way she realizes that she loves Wagstaff and decided to return to him. "Rearing Bill" is overloyed and together they travel to a Hudson bay post and are married.

WAS DISCOURAGED Lost 65 Pounds in Weight and Had to Give Up Work. Has Been Well Since Using Doan's.

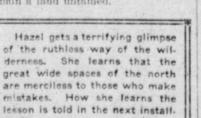

"Being exposed to extreme heat when working as an engineer, and then going outdoors to cool off, caused my kidney trouble," says Karl Goering, 8513 N. Orkney St., Philadelphia, Pa. "In cold weath-

Philadelphia, Pa. "In cold weath-er and when it was damp, my joints and muscles would swell and ache and often my limbs were so badly ar-fected it was only with great misery I was able to get around. For a week I was laid up in bed, hardly able to move hand or foot. "Another trouble was from irreg-ular and scanty passages of the

"Another trouble was from free plar and scanty passages of the kidney secretions. I became duit and weak and had to give up my work. Heidaches and dizzy spells nearly blinded me and I went from 265 to 200 in weight. Nothing 265 to 200 in weight. Nothing helped me and I felt I was doomed

"At last I had the good fortune to hear of Doan's Kidney Pills and be-gan taking them. I soon got back my strength and weight and all the transle pains and other kidney transles left. I have remained cated." Sworn to before me, Will H. M'MUNN, Notary Public.
