Methodist Church Notes

Upon the advice of the physicians and health officials of the town there will be no services in the Methodist Church next Sunday.

We are very sorry conditions are such but we hope the wheels will all be running soon.

The pastor is on the job, however ready to serve in any way possible. If there are any cases in the town needing his services he will appreciate it if some one will advise him of the same.

The people have made us feel welcome and at home in the comfortable parsonage, and we duly appreciate their kindness.

We hope to meet and know you

Roy T. Houts.

Notes by the Missionary.

Concerning the collection for State Missions, on account of the Spanish Influenza that we have heard so much about there were no setvices at the Baptist Church Sunday as was announced. A private coling week that amounted to \$210 incash. It was a joy to see the people give willingly. Some before they were even asked.

On Thursday afternoon the missionary had the pleasure of uniting in marriage Mr. Dan Posey and Mise Bernice Cox of Center Point. This makes four fine young couple to find the way to our house. The editor of the Advance can tell you where

Hospital Discipline.

The discipline in base hospitals pre cludes social relations between nurses and enlisted men. A certain nurse was found ringing the doorbell of the officers' quarters early one morning. When asked what she wanted, she replied that the villa in which she and the other nurses were quartered was on fire. After the fire had been extinguished she was asked why she didn't give the alarm at once, instead of runufing the long distance to the officers' ocarters. Her reply was: "We aren't "flowed to speak to enlisted men."

TWO MILLION AMERICANS NOW ON THE WAR FRONT

irtually One-Half of the Soldiers Embarked for Overseas Service Since July 1 of This Year.

Washington .- Embarkation of 2,048, 931 American soldiers to participate in the war overseas was disclosed by correspondence between Secretary Baker, and President Wilson, given out at the White House Wednesday.

The correspondence follows:

War Department, Washington - My Dear Mr. President: More than 2,000, 600 American soldiers have sailed from the ports in this country to participate in the war overseas. In reporting this fact to you I feel sure that you will be interested in the following data show

In my letter of July 1, 1918, I informed you that between May 8, 1917, and Jrne 30, 1918, over 1,00,000 men and either been landed in France or were en route there. Since July 1. 1918, embarkations by months havebeen as follows:

July, 206,185; August, 290,818; Sepember, 261,415; October 1 to 21, 131, 398; total, 989,816.

Embarked to July 1, 1918, 1,019,115. Grand total, 2,008,931.

In our overseas operations I feel that we have good reasons to be proud and thankful of the results obtained. Our losses have been exceedingly small, considering the size of the force transported, and this is due to the eftelent protection given American convoys by the naval forces. We siso ave been greatly assisted in the dispatch of troops abroad by the allocation of certain tessels from our allies, principally Close of Great Britain. Cordially yours,

NEWTON D. BAKER, Secretary of War.

"Spokes" and the Swift "Wheel"

What would you consumers think of a wheel without spokes?

What would you think of a man who would take any or all of the spokes out of a wheel to make it run better?

Swift & Company's business of getting fresh meat to you is a wheel, of which the packing plant is only the hub. Retail dealers are the rim-and Swift & Company Branch Houses are the spokes.

The hub wouldn't do the wheel much good and you wouldn't have much use for hub or rim if it weren't for the spokes that fit them all together to make a wheel of it.

Swift & Company Branch Houses are placed, after thorough investigation, in centers where they can be successfully operated and do the most good for the most people at the least possible cost.

Each "spoke" is in charge of a man who knows that he is there to keep you supplied at all times with meat, sweet and fresh; and who knows that if he doesn't do it, his competitor will.

How much good would the hub and the rim of the Swift "wheel" do you if the spokes. were done away with?

Points Way to Peace.

The president's message clearly points the way for Germany to obtain no peace with autocracy save the pence that comes on the heels of unconditional surrember. That point is

made perfectly plain. Furthermore, the president does, as he said be would, refers the question of an armistice to the military advisers of those governments associated with the United States in the war. Their word will be final on that subject.

All the time I was there I could see the father and the eldest son, a boy about seventeen, were extremely nervwas deaf and dumb, but if they bythis time being mighty careful to hug lieved me it didn't seem to make them any more comfortable.

I lingered at the house for about an hour after the meal and during that time a young man came to call on the eldest daughter, a young woman o. perhaps eighteen. The caller eyed me very suspiciously, although I must have resembled anything but a British otheer. They spoke Flemish and I did not understand a word they said, but I think they were discussing my probable identity. During their conversation, I had a chance to look around gether, two fairly large and one somewhat smaller, about fourteen feet long and six deep. We left New London with twenty one Submarine Chasers for France, (They were French boats). A Submarine chaser is a small boat one hundred and twenty feet long, and They carry three small guns and depth bombs. They patrol a few miles off the coast and are supplied with listening divices to locate subs. This is a very delicate instrument like a phone and is hung over the side of the boat in the water. They cover a certain limited radius, when a boat comes in this area the listener can distinguish whether it is a small boat, tug cr a battle ship. A Sub makes a hissing sound and can be classed only buy it's self. I suppose you have a slight idea of what a Sub chaser is. We accompany not for protection but in case of water gets in the gasoline, or they get damaged we take them in tow.

We went by the Bermuda Islands, the Azores Islands and on to Brest France. We were in Bermuda three days and while there I visited the Lemington Cave, the Crystal cave and the Devils Hole.
